Alumna

Jemelleh Coes

Georgia's 2014 Teacher of the Year

Our inaugural edition of the COE magazine last year was a huge success. We’re building on that success by officially naming our magazine Eagle Educator in honor of all the great accomplishments of our faculty, staff, students and alumni. I hope you will enjoy reading about the activities of the College of Education and the kind of influence a Georgia Southern University education is having in so many areas of the field of education, not only in our region but around the world.

I am particularly proud of our alumna, Jemelleh Coes, the 2014 Georgia Teacher of the Year who is pictured on the cover of this edition of Eagle Educator. Jemelleh received her undergraduate degree in special education in 2008 and a master’s in instructional improvement in 2010, both from the COE. Of course, we cannot take all the credit for Jemelleh’s success. She came to the College of Education with purpose, drive and dedication. She is truly a dynamic personality! But it was through her programs of study, and relationships and mentoring with College of Education faculty, that helped shape her as an educator and community advocate. Like a true educator, Jemelleh models what she learned, and I am proud to see the new mentors she’s mentoring COE teacher candidates at Langston Chapel Middle School in Bulloch County, one of our College of Education partners. Jemelleh will take the stage as an educational ambassador for Georgia public schools and act as a representative for all Georgia public school teachers and as an advocate for students.

Jemelleh’s story is just one of the many inspiring stories you’ll read about in this and subsequent editions of Eagle Educator. I invite you to contact me and College of Education faculty and staff to learn more about the exciting work going on here.

Sincerely,

Dr. Thomas R. Koballa, Dean

“It touched my heart to see the students working together and assisting each other as they worked through an online animation about earthquakes,” said Caitlin Lawson, an early childhood education major. “They would help each other with the technology as well as the content,” she added.

Lawson knows about the importance of integrating technology in the classroom. At the COE, she was one of the first students to use the new DIGI lab, a learning environment that provides seamless integration of technology and opportunities to study and socialize in a group. During Lawson’s PreProfessional Block, teachers used Smart-Boards and laptops. “We didn’t have as much of the technology as in the DIGI lab,” she said, but what technology was available was used widely, she added. “The teacher I was placed with used her SmartBoard for every lesson whether it was to show a PowerPoint, model math problems or just to display instructions for group assignments,” she said. “I am sure that in my future experiences I will see much more technological integration in the classroom and will incorporate it into the lessons in my future classroom.”

There’s no question that the way in which 21st century students learn is changing and so are the classrooms in which they learn. That’s why COE designed and built the DIGI lab. D.I.G.I. is an acronym that represents the primary themes of the classroom design, said one of the creators, Associate Professor Julie Maudlin, Department of Teaching and Learning. “It stands for De-centricredness, Interaction with technology, Group collaboration and Inquiry-oriented instruction,” Maudlin explained.

What that means is that individual desks can be moved easily into different configurations to meet the teacher’s needs. The surface of the desks can be used as a whiteboard allowing students to write directly on the tables solving problems together or brainstorming. Four wall-mounted projectors interact with whiteboards and individual tablet computers so instructors or groups of students can work together or individually. The DIGI lab is a Smart Board on steroids available to everyone at the same time.

Since it became operational in spring 2013, the room is being used by faculty in every discipline. This summer, teachers from Statesboro High School, Camden County High School, Burke County High School and Ware County High School spent a week in the DIGI lab as part of a Race-to-the-Top Innovation Fund Enterprise Grant funded through the Governor’s Office of Student Achievement. The teachers worked with COE faculty in creating and implementing an interdisciplinary STEM (science, technology, engineering and math), problem-based research course that engages students in applied learning through real-world grand challenges of environment and energy that are impacting their local communities.

The DIGI Lab was funded through a student tech fee proposal submitted by Maudlin and former Instructional Services Coordinator Michelle Rivera. The classroom was modeled after the “Classroom Next” at Texas Wesleyan University. The classroom accommodates 24 students. Prominent features of this classroom include:

- Flexible seating for multiple configuration (small-group, group presentation and traditional lecture).
- Google Chromebooks for online collaboration on Google Docs, Popplet, Wikis, Blogs, and other multi-user web applications.
- Short throw projectors (wall mounted) for maximum interaction with interactive whiteboards.
- Standard Level 1 upgrade to provide multimedia access (instructor workstation with PC, document camera, DVD).

Four wallplate monitors that can be used in conjunction with two white-board screens to project and display digital presentations and documents.
"It Takes More Than a Village to Raise a Child"
New National Youth-At-Risk Center helps a broad range of people serving youth

For Curriculum, Foundations and Reading Professor Dan Rea, co-director of the College of Education’s new National Youth-At-Risk Center, it takes more than a village to raise a child today. “It takes a well educated village to raise all the children,” he said emphatically. “And it takes a village that looks at the whole child, not just drop-out rates or closing the achievement gap,” he added. For Rea and Teaching and Learning Assistant Professor Eric Landers, that’s what makes the College of Education’s new National Youth-At-Risk Center unique.

Rea and Landers are co-directors of the Center, which was approved in spring 2013. The new Center takes its approach from the highly successful National Youth-At-Risk Conference, held each year in Savannah and now attracting more than 1100 national and international attendees. That the opening of the Center, housed on the second floor of COE, coincides with the 25th anniversary of the conference is purely coincidental. “We’ve been thinking about this for more than a decade,” Rea said. “With the help of the dean and the University administration, our dream has come true.”

What makes the conference and Center distinctive among other such endeavors is its “whole child” approach, taking a holistic view of fostering the intellectual, social, emotional and physical well-being of youth placed at risk within schools, family and communities in Georgia and across the nation. “The conference and Center are distinctive among other such endeavors in its ‘whole child’ approach, taking a holistic view of fostering the intellectual, social, emotional and physical well-being of youth placed at risk within schools, family and communities in Georgia and across the nation. The conference and Center are distinctive among other such endeavors in its ‘whole child’ approach, taking a holistic view of fostering the intellectual, social, emotional and physical well-being of youth.”

The Center is up and running fall semester and will be staffed by graduate students with Rea and Landers serving as co-directors. With more than 10 years to consider a NYAR Center, both Rea and Landers are eager to get started. First on their list is to coordinate the three conferences COE sponsors dealing with youth-at-risk: the NYAR Conference in Savannah, a smaller West Coast version, and the annual Southeast Conference on Positive Behavior Interventions and Supports (PBIS). They also plan to publish an annual online journal and provide monetary awards to faculty for research and professionals working with youth at risk. They are also expanding the current website “Closing the Achievement Gap for Educators” at coe.georgiasouthern.edu/nyar/gap. "Conferences are a great way to bring people together to discuss pressing issues, share research and network, but the Center’s work is so much more,” Landers said. "With the help of the dean and the University administration, our dream has come true."

The Center is funded through proceeds from the NYAR conferences but Landers said they are also seeking corporate support. “Gulfstream Aerospace Corporation came forward immediately and are very interested in our work. I’m hoping other corporations will follow their lead,” Landers said.

“Helping Adults Serve Youth”
Building Bridges:

COE partners with the Community to Bring Books to Young Children

Ashleigh Wright was sitting on the floor with her six-month-old baby surrounded by books. She had just read a blog for new mothers about the importance of reading to young children and the lack of proper reading material for low-income families in Georgia. “Here I was with all these books for my baby, and I thought about all the little children without books, and I said to myself, ‘this isn’t right. I can do something about this.’”

Wright’s passion for the importance of reading is matched only by her passion for teaching and learning. She received her B.S. Ed., M.Ed. and Ed.S. from Georgia Southern. She now teaches social studies at Southeast Bulloch High School and acts as a clinical supervisor for COE’s teacher candidates.

“I know firsthand how early reading can help students later in school,” she said. “As a former high school teacher and teacher educator, I think it is essential to model a commitment to and passion for reading,” she said.

Reidel said she knew immediately that the Ferst Foundation’s goals were directly aligned with the goals and mission of the COE. Dean Thomas Koballa agreed and happily endorsed their efforts. Soon Associate Professor Christine Draper and Assistant Professors Nancy Arrington and Lina Soares, Clinical Instructor Shelley Woodward and the COE’s Field Placement Director, Patricia Parsons, volunteered for the Community Action Team (CAT), the local organizing group. The first organizational meeting was held at COE and just six months later the group, composed of a cross-section of the community, had raised over $6,000.

“The first (book) mailing began in July,” Wright said. “It costs about $28.00 per child per year to send the books, which are chosen by a highly selective board,” she said. “They have 56 children registered so far, but Wright said the group would like ‘all our children age 0-5 in Bulloch County to benefit from the program.’”

The CAT has held several fundraisers with the help of local businesses and members of Georgia Southern’s Chapter of Gamma Beta Phi, and has received generous donations from the local Rotary and Lions clubs.

“Even though I’m busy with teaching and my many duties at school, my family and other community activities, I feel like this program is so important and beneficial for our community. I’m happy to find the extra time,” Wright said. The group is planning their next fundraiser, a registration drive and a community-based literacy event. If you would like to join or support the CAT contact Reidel at mreidel@georgiasouthern.edu.

FOR THE SECOND YEAR, Georgia Southern University’s College of Education ranked in the Top 25 for “Best Online Graduate Education Programs” by U.S. News & World Report.

Earn your M.Ed. and Ed.S. degree online with Georgia Southern University.

DEPARTMENT OF LEADERSHIP, TECHNOLOGY AND HUMAN DEVELOPMENT

The Department of Leadership, Technology and Human Development (LTHD) restructured the Center for Educational Leadership and Service (CELS), housed within the Department, and named a new CELS director after the retirement of Professor James Green, who led the center since 2009. Jason LaFrance, assistant professor educational leadership, was named the new director. The Center’s mission is to support the development of leadership capacity in P-12 partner schools through sponsored research and professional development activities.

First on LaFrance’s agenda was a Summer Leadership Academy. CELS partnered with RESA on a Summer Leadership Academy.

The Department’s school psychology program received National Association of School Psychologists (NASP) full approval for its graduate program in school psychology. NASP is one of the eight specialized professional associations (SPAs) of the National Council for Accreditation of Teacher Education (NCATE). The College of Education School Psychology Program is the only program in Georgia to earn this recognition at the specialist level.

Kathryn Kennedy won the International Association for K-12 Online Learning (iNACOL) Online Learning Innovator Award for Outstanding Research in K-12 Online Learning for her co-authored work exploring preservice teacher preparation for K-12 online and blended learning environments. Kennedy is now with the International Association for K-12 Online Learning.

In spring 2013, LTHD co-sponsored the 12th Annual Cross-Cultural Issues in Counseling and Education Conference and initiated the inaugural Rural Based HIV Education and Training Conference now held each year in September.

The first cohort of students in the College of Education’s newly redesigned Educational Leadership Ed.D. program began fall 2013, with a focus on preparing senior-level administrators who use their knowledge of educational theory and research as a basis for taking on the contemporary challenges of education and to leverage change in P-12 and higher education institutions. The newly redesigned Ed.D. program was modeled after the recommendations by the Carnegie Project on the Education Doctorate to create a stronger and more relevant degree for the advanced preparation of school administrators and clinical faculty, academic leaders and professional staff for the nation’s schools and colleges and the learning organizations that support them.

The Department of Teaching and Learning continues to improve the performance of initial teacher candidates in field and clinical practice experiences and assessments. As part of this effort, faculty, along with colleagues from the CFR, began an initiative to increase the number of undergraduate students involved in research. The University’s Office of Research Services and Sponsored Programs funded one such project, Research to Practice, that partners with four Bulloch County schools with COE undergraduate education candidates to give them hands-on research experience and help the partner schools evaluate their school improvement plans as they relate to outcomes for specific learners. Associate Professor Kimberly Drawdy; CFR’s Associate Professor Meca Williams-Johnson and Teaching and Learning instructor Kathleen Toole are the grant administrators.

The department once again hosted, in collaboration with the Office of Undergraduate Teacher Education, a summer “Clinical Camp” (Coaching.

Assessing, Mentoring and Planning) for clinical supervisors to discuss and refine best practices for mentoring teacher candidates.

Faculty served in leadership roles in implementing service learning projects in area schools, worked with schools addressing the needs of English language learners and conducted numerous summer teacher quality workshops designed to improve science and mathematics instruction in area schools.

Teaching and Learning faculty expanded student learning opportunities by revising two degree programs, the M.Ed. in Special Education and M.Ed. in Early Childhood Education. Both programs are online and designed to be completed in one year.

Assistant Professor Katie Brkich led a group of students participating in the Migrant Education Program’s first middle school summer intensive.

Katie Brkich teaches middle schoolers about the science of bubbles during the Migrant Education Program’s first middle school summer intensive.

Department of Curriculum, Foundations and Reading

Department of Curriculum, Foundations and Reading (CFR) faculty chaired 102 Ed.D./Ed.S. committees, and served on 203 Ed.D./Ed.S. committees, increased its emphasis on integration of technology into instruction and focused on social justice issues in teaching, scholarship and service. The department also hosted a successful second annual Curriculum Studies Summer Collaborative in Savannah, Ga.

The reading education program reaccredited its Ed.S. degree and is now also offering both M.Ed. and Ed.S. as fully online programs.

Associate Professor Christine Draper and Assistant Professor Lina Soares published the spring 2013 issue of the Georgia Journal of Reading. This is the first hard copy of the journal to be published since Draper and Soares brought the journal to the College of Education last year. Their first issue in fall 2012, was published online.

DEPARTMENT OF CURRICULUM, FOUNDATIONS AND READING

Department of Curriculum, Foundations and Reading (CFR) faculty chaired 102 Ed.D./Ed.S. committees, and served on 203 Ed.D./Ed.S. committees, increased its emphasis on integration of technology into instruction and focused on social justice issues in teaching, scholarship and service. The department also hosted a successful second annual Curriculum Studies Summer Collaborative in Savannah, Ga.

The reading education program reaccredited its Ed.S. degree and is now also offering both M.Ed. and Ed.S. as fully online programs.

Associate Professor Wendy Chambers authored the newly published, Cognitive and Language Development: The Child’s Journey. The cover photograph is also by Dr. Chambers.

Associate Professor William Reynolds edited the newly published A Curriculum of Place: Understanding Emerging through the Southern Mist. Reynolds and three additional CFR faculty (Robert Lake, Ming Fang He and Sabrina Ross) contributed essays as did Teaching and Learning Associate Professor Julie Maudlin. CFR faculty Wendy Chambers contributed the cover art.

Associate Professor Robert Lake co-edited with Tricia Kress, University of Massachusetts. We Saved the Best for You: Letters of Hope, Imagination and Wisdom for 21st Century Educators. In addition to well-known writers such as Mike Rose, Nel Noddings, Bill Schubert and Sonia Nieto, other COE faculty contributing to the book include James Jupp, Julie Maudlin, William Reynolds and Associate Professor Wendy Chambers who created the cover photograph.

GRAD PROGRAM RANKINGS

For the second year, the COE ranked in the top 25 for “Best Online Graduate Education Programs” by U.S. News & World Report. The 2013 rankings looked at such factors as faculty credentials and training, student services and technology, student engagement and admissions selectivity. This was the first
time programs were given an overall ranking. At number 21, COE was the only Georgia school to earn a spot in the top 25 online graduate education programs.

“The ranking is just one indication of our commitment to COE’s online graduate programs and our work to continuously improve and expand the options available to best serve our students,” said COE Dean Thomas Koballa. In 2012, rankings were separate for each category. COE ranked in the top 15 for student services and technology, in the top 15 for faculty credentials and training, in the top 20 for teaching practices and student engagement, and in the top 20 nationally for admissions selectivity.

For the 2013 survey, 208 regionally accredited institutions met the definition used by U.S. News & World Report and the U.S. Department of Education for online education. More information on the rankings and methodology is available at the following website: www.usnews.com/rankings-and-methodology

THINKING GLOBALLY

The arrival of 11 teacher candidates in Sheffield, Hallam, England, this spring marked a special anniversary for the COE. For a decade, the College has been a part of a student exchange program that has given nearly 100 teacher candidates the opportunity to gain valuable teaching and life experiences. In spring 2003, the first group of COE students went to Derby, London. Since then, the students have travelled to England in summer 2013 to negotiate an ongoing exchange program. Talks are under way for a similar exchange in Mexico.

Deborah Thomas, associate dean of Undergraduate Education, and Pat Parsons, director of field experiences and partnerships, travelled to England in summer 2013 to help extend COE’s global reach. In fall 2011, COE partnered with the National Taipeh University of Education in Taiwan for student placements facilitated by the principal at Tainan Municipal Fu-Cheng High School. Associate Professor Hsiu Lien Lu, Department of Teaching and Learning, said teacher candidates feel they are much better equipped to teach English language learners after their Taiwan experience. Lu and Lina Soares, assistant professor in the Department of Teaching and Learning, coordinated the placements. Lu travelled to Taiwan in fall 2013 to negotiate an on-going exchange program. Talks are under way for a similar exchange in Mexico.

Shelfield-Hallam students (l-r): Ashleigh Coombes, Fran McKay, Megan Leese, Adelaide Okrah. COE exchange students (bottom row, l-r): Rebecca Skowronsli, Drew Christopher, Shelly Morgan, Rebekah Boyt (middle row, l-r): Ashley Clay, Catharina Brune, Sydney Cronin, Caroline Cooper, Jessica Kirkland (top row, l-r): Ashley Favors and Jacqueline Kelly.

Students teach an English language reading lesson in a Taiwan classroom.

Join Dr. Golden...

A leading educator in the state of Georgia, Dr. Barbara Christmas Golden has paved the way for many in her profession, working in various roles as a high school English teacher, a principal and the president of three statewide educational organizations. Throughout her career, she has also built a steady network of support for the University around the state.

“I believe in Georgia Southern. The University prepared me well, and the real-world experience coupled with what I learned from my professors has played a strong role in my educational career,” she said.

The recipient of the Alumna of the Year for the College of Education as well as the University’s Alumna of the Year, Golden earned the first of her three degrees from the University at the age of 20. “My heart is with the College of Education,” she added.

Golden encourages others to join her in supporting the talented students and innovative faculty in COE by making a gift today. “We’re on the brink of a new day at Georgia Southern. This is a critical time to support the University as we become more ambitious in our mission and serve a diverse student population.”

Your gifts strengthen education now and for the future

At the COE we deeply appreciate the support received from alumni and friends like you. Whether through endowed giving, annual giving or planned giving, every gift makes a difference and helps us continue our leadership role in preparing those who will teach, lead and serve future generations.

If you’re thinking about making a gift, you can designate your dollars to support a program or department that is meaningful to you, or you can give to the college’s general fund, which allows us to put the money where it’s needed most.

To give via check, fill out this form and mail it to Georgia Southern University Foundation, Inc., PO Box 8053, Statesboro, GA 30460. Make checks payable to Georgia Southern University Foundation, Inc. with the College of Education #0274 account on the memo line.

Your support helps

PROMOTE ACADEMIC EXCELLENCE through department endowments, online learning, supporting partnerships, simulation technology, endowed professorships and chairs and endowed deanship.

ENHANCE STUDENT SUCCESS by providing student scholarships, graduate teaching assistantships, travel scholarships for student research presentations at conferences and travel scholarships for College of Education students engaged in international exchanges.

INCREASE RESEARCH AND CREATIVITY through graduate research assistantships, undergraduate research support, endowed research faculty, college faculty research grants and centers and institutes.
FACULTY BENCHMARKS

FOCUS ON EXCELLENCE AWARDS

It’s an honor for faculty to receive Georgia Southern’s Focus on Excellence’ awards. The annual awards are given to two faculty in each of three categories: (1) contributions to research/creative scholarly activity; (2) instruction; and (3) service. While it might not be unusual for a college to have more than one award winner in a year, few can claim more than two winners, and even fewer can claim multiple winners from the same academic department.

But that’s exactly what the College of Education has done. It has faculty with distinguished itself among an already highly distinguished field of nominees to claim the two awards in Excellence in Contributions in Service and one in Excellence in Contributions to Instruction. All three of COE’s award winners are from the Department of Teaching and Learning.

Excellence in Instruction: Scott Beck

Associate Professor Scott Beck isn’t worried about the impression he makes on his students if they should find him in class under a table meowing like a cat locked inside one of Edward Thorndike’s puzzle boxes. In fact, it’s the students’ reaction he’s after. “I spend most of my professional life in and planning for the classroom because I want to make memories,” Beck says. “Memories that transform.” Beck, continued. For Beck, it’s these memories that his students will use when they themselves become teachers. For that reason, Beck is an eccentric, eclectic and energetic teacher, creating learning experiences that challenge and endure.

Beck’s research interests are in representations of diversity in children’s and young adults’ literature, culture and immigrant ESOL education in the rural South. In 2012 he won COE’s Jack Miller award in teaching “This is my job: to do whatever it takes to support today’s pre-K-in-service teachers become better teachers than they themselves had in school,” Beck said.

Excellence in Service: Yasar Bodur and Julie Garlen Maudlin

Service, by definition, is work done for someone for someone else as a job, duty, punishment or favor. For Associate Professor Yasar Bodur, service is definitely not punishment. In fact, for Bodur, service is like being on a team. “I have always approached service with a team player attitude,” Bodur said. “All team members have to play their roles for the success of the team. Some of the roles are big, some are small. Ultimate-ly, what we do is teamwork,” he added.

And the team Bodur works for is large, comprising his Department, College, University, profession and outside community. Within each, Bodur has given willingly “I always welcomed service,” he said. And while that has added considerably to his work load, he says that there are many rewards. “One aspect of service that I really like is that it allows me to work with people with whom I may otherwise never get to work with,” he said. “It helps you feel part of a larger community.” And, Bodur said, being asked to serve is an affirmation of his colleagues’ trust in him. “They have confidence in the quality of work I will produce,” he said. Bodur’s research interests include multicultural teacher education, diversity, field-based teacher education, reflective practice and classroom management. In 2011, Bodur won COE’s Jack Miller Educator of the Year award.

Mahatma Gandhi said, “The best way to find yourself is to lose yourself in the service of others.” While everyone may not share Gandhi’s concept of service as a life-affirming experience, Associate Professor Julie Garlen Maudlin has certainly found this to be true. “We tend to think of service as an obligation, another item on our tenure to-do list, but I’ve come to see it as an opportunity to learn about yourself through the act of helping others.”

After joining the College of Education faculty in 2007, Maudlin’s initial service activities began at the departmental level. “I started small,” she explained. “I volunteered for a few committees to get an idea of what kinds of service I was interested in and to get to know my colleagues.” Soon, however, Maudlin expanded her service to include responsibilities at the College, University and professional levels. “I accepted nominations for various committees and ended up getting elected to several of them and one,” said Maudlin.

“It was a busy time,” admits Maudlin, and sometimes it was difficult to manage all these other responsibilities, she said, “but I learned a lot about organizational leadership, both within the University and beyond. But the greatest benefit of those diverse service experiences was that I realized that where I really wanted to focus my time and energy was within my own program and College. Maudlin stepped up in 2012 to serve as the program coordinator for the early childhood education program. “It’s almost like I came full circle,” she explained. “I came to recognize that preparing teacher candidates for successful, meaningful careers in education was the most important part of what I do, and now my service focus reflects that.”

Since the awards began 26 years ago, only 162 have been presented. In 1988, the Georgia Southern Professor Emeritus, Sculpture Pat Steadman was commissioned to create a special medallion that is presented to each award winner.

AWARD FOR MERIT

Mary Egger won the University-wide Award for Merit sponsored by Fidelity Investments. Her award, for Outstanding Performance, was for “improving the working environment, exhibiting excellent customer service and showing true character and dedication to the mission of Georgia Southern.” Egger is the Coastal Area Teacher Education Service (CATES) administrative specialist.

Award for Service. She is active within her department and program area and within the community. Her areas of research are childhood trauma, the psychological impact of trauma on boys, mental health consultation in schools, neuropsychological assessment, the role of school psychologists in schools and outside school settings, early intervention and infant development.

The Jack Miller Award for Teaching went to Sabrina Ross, assistant professor in Curriculum, Foundations and Reading. Ross’ research centers on critical pedagogy, teaching for social justice, black feminist and womanist epistemologies and issues of power in schools.
Top Teacher
Alumna named Georgia’s 2014 Teacher of the Year

When Jemelleh Coes (’08, 10) began her first year as an undergraduate at Georgia Southern University, she originally planned to pursue a career in nursing. “My maiden name was Nurse, and I always wanted to help others,” she said. “I really thought I would be a Nurse.”

Until she thought about the occupational hazards. “After I realized that nurses had to deal with a lot of blood, I changed my major,” she laughed.

Coes instead opted for another career: teaching. “Today, her focus remains on helping others as a special education English language arts and reading teacher at Langston Chapel Middle School in Statesboro, Ga. Although Coes is a relative newcomer to the teaching profession, having entered the field just five years ago, she was named Bulloch County Teacher of the Year last year, and was recently named the state of Georgia’s 2014 Teacher of the Year.

Coes’ expertise in co-teaching techniques led to her selection as Georgia’s top teacher, and its’ positive impact on students has become a model for learning at Langston Chapel. “Co-teaching is an amazing way to include students with disabilities in the classroom,” said Coes. “Once I got into the field of special education, I discovered that every student could learn. I just needed to find out what their unique gifts were and tap into what they could learn. I just needed to find out what their unique gifts were and tap into what they could learn.”

“Jemelleh is so good at what she does because she has taken her passion for life and helped other people succeed.”

During the next year, Coes will leave Coes will leave

Dr. Martha Cain graduated in 1950 from what was then Georgia Teachers College as one of 115 students in the graduating class with a B.S. Ed. in Science Education. She earned her master’s degree from the University of Colorado in 1955 and a Ph.D. in biochemistry from the University of Connecticut in 1963.

Cain then returned to Georgia South- ern where she taught chemistry until 1988. Cain and her late husband, Lee, established the Lee C. and Martha Too- tile Cain Science Education Scholarship given to incoming freshmen who plan to major in science education. In addition, she established a scholarship in honor of her parents at Troy State Uni- versity and an education scholarship at the Methodist Seminary in Slovakia. She was recognized as the Biology Alumnus of the Year in 1981 and received the Ar- thur J. Moore Award.

John Suddath Hall: Continuing an educational legacy

John Suddath Hall always valued the opportunity of earning an education. As a young boy growing up in Port Wentworth, Ga., he was the first mem- ber of his family to graduate from high school, and the only one to graduate from college.

“John was mentored as a student by coaches when he played baseball, foot- ball and basketball,” said his wife Ger- trude, a retired middle school teacher.

In later years his love for education led him to become a positive role mod- el for student-athletes in his work as a coach and physical education teacher in Columbia, S.C. Although Hall was a man of few words, his quiet determi- nation impacted the lives of thousands of students. “He had a great sensitivity for kids who were struggling, and he shared a common bond with them on the athletic field,” Gertrude added.

The Hall family is continuing his ed- ucational legacy by making a difference in the lives of elementary education students at Georgia Southern Univer- sity with the endowment of the John Suddath Hall Memorial Scholarship.

Georgia Southern was an important part of Hall’s life. He earned a master’s degree in education from the Universi- ty in 1966, while simultaneously work- ing as an elementary school principal.

“John enjoyed his work at Georgia Southern and it was very satisfying and challenging to him. He earned a small scholarship while he was studying there, and it meant so much to him and our family,” said Gertrude. “Our family wanted to help students and give back to the University,” she said about the scholarship.

“He had a great sensitivity for kids who were struggling.”

—Gertrude Hall

The Halls’ daughter, Dr. Jane Crawford, says that her father always en- couraged her to achieve the most from her education. The general practi- tioner graduated from the Medical University of South Carolina and now practices in the Scottish village of Foch- abers. “My father viewed education as a stepping stone,” said Crawford. “He really valued an education, because a lot of the people he grew up with didn’t have that opportunity,” she said.

COE Alumna of the Year

Dr. Martha Cain

The College of Education at Georgia Southern University is proud to announce the recipient of the 2015 COE Alumna of the Year: Dr. Martha Cain. Cain was selected for her significant contributions in the field of science education and her dedication to student success. Congratulations, Dr. Cain!”
A Special Need

Scholarship Supports Future Teachers

NEEDED: Special education teachers. The unimaginative, timid or easily discouraged need not apply. Or, in the words of Kathy Sandford Harrell, “These are the kids who need powerful teachers.”

Harrell (’71), a longtime special education teacher and administrator and her husband, Dave (’71), have made a perpetual commitment to serving special education by endowing the Harold M. and Catherine D. Sandford Memorial Scholarship. The award assists aspiring special education teachers within Georgia Southern’s College of Education.

She didn’t realize it at the time, but Harrell’s career path was underway by the time she arrived on the Georgia Southern campus. It began as a part-time job with, at the time, one of the rare institutions in Georgia serving children who were mentally challenged or who had serious behavioral problems.

“Outside of Augusta was Gracewood State School and Hospital,” she said. “My middle sister was in college and worked summer internships there. My older sister is a nurse and ended up working full-time. I began working there the summer before my senior year in high school, and I did that for four summers.”

“I got very attached to several of them,” Harrell said, about working in the cottages with the kids. “Because of my work there, it drew me to special education.”

Special education is a challenging field and chief among the challenges is getting and keeping enough qualified good teachers. Too often, she said, there are not enough efforts to recruit and retain special education teachers, with school systems hiring teachers who have no training or experience in dealing with the field’s unique issues.

Meanwhile, the need to train, hire and retain good teachers is growing, and Georgia Southern is helping to meet that need. “I spent 20-something years in special ed and then six as a special ed director in Wayne County, and knew the challenges that the field is facing,” said Harrell.

“I also knew that I would like to do something for Georgia Southern because I had a good experience there.”

“I said to Dave that at some point I’d really like to look at somehow impacting this field. Honestly, these are the kids who need the powerful teachers and it’s not an easy field for longevity,” she said.

“We need to encourage folks to stay the course. We were in a position where we could do something, and he supported me in that.”

Neither of Harrell’s parents finished high school. Her mother was a home-maker who would occasionally take on part-time jobs to help meet bills. Her father, who worked in sales for a railroad, wanted their daughters to be able to do what they loved and would often tell them to “find your passion and do what you love,” said Harrell.

When it came time for her to attend college, she took out an education loan. When she was done, her father took it upon himself to repay the loan—an expression of parental love she has never forgotten. “When it came time to pay that back, my dad told me he wanted to take care of it because it was important for him to do that for his baby,” Harrell said.

The choice to name the scholarship after her parents was Dave’s idea. “My mom and dad were a team and missed hitting their 50th anniversary just by a few months. They were so adament that my sisters and I fulfill our dreams and they made sure we had the opportunity for an education that they didn’t have,” she said. “They both worked very hard at making sure we had the opportunity, so to continue that in their names is something I felt like I wanted to do.”

Shaping the Future

Alumna Provides Opportunity for Aspiring Students

Sheila Garvin Hoynes (’71) realizes that attending college is a wonderful opportunity that many students do not have. The Statesboro, Ga., native was the first person in her family to graduate from college, and she spent her 30-year career in the classroom as a first grade teacher. She feels a debt of gratitude not only to her parents, but to the University.

“Georgia Southern gave me the opportunity to fulfill my lifelong dream of becoming a teacher, and I want to be able to help other students who are pursuing the same dream,” said the 2011 College of Education Alumna of the Year.

Sheila and her husband Spence shared a vision of providing an opportunity for aspiring students to afford a college education, but were unsure how they could make this a reality.

“We knew we wanted to establish scholarships, but we also knew we lacked the financial means to adequately fund the scholarships up front without creating economic hardship for ourselves,” said Spence. “It was when we learned about deferred giving that we found a way to accomplish our goal,” he added, about the establishment of the Spence and Sheila Garvin Hoynes endowed scholarships.

“With Sheila’s dedication to education and our devotion to Georgia Southern athletics, it was obvious that we needed to establish two scholarships; one in education, and one in athletics,” said Spence, about their deferred gift for future students.

After raising their son, the Hoynes became reacquainted with the University and have been actively involved with Georgia Southern for more than two decades. Sheila launched an Eagle Club in their hometown of Conyers, Ga., organized several additional Atlanta area clubs and served as president of the Alumni Association Board of Directors. She also served as a member of the Athletic Foundation Board of Directors and as a charter member of the College of Education’s Alumni Board of Advisors.

“We knew we wanted to establish scholarships, but we also knew we lacked the financial means to adequately fund the scholarships up front.” -Spence Hoynes

“Georgia Southern is our passion,” Sheila explained about the couple’s will bequest. “The University was important to me as a student, and it is so nice to continue our involvement many years later.”
ANNE WATERS RAMSEY SCHOLARSHIP FUND Est. 1982
Scholarship is available to any student in any major field at any class level of the COE in good standing.

BILLY LAMB & CURRY COVLIN MEMORIAL MATH EDUCATION SCHOLARSHIP Est. 2005
Scholarship is available to a full-time student entering the junior year and is enrolled to earn teaching certification to teach math at the high school level.

The Goizueta Foundation Scholars assists Hispanic/Latino students.

GOIZUETA FOUNDATION SCHOLARS Grant from Foundation received 2001 Scholarship is available to provide need-based scholarship assistance to Hispanic/Latino students whose families reside in the United States. Preference is given to students entering the COE.

HERMA LEE & WORDNA ISABELLA BOGAN SCHOLARSHIP FOR SCIENCE OR MATH EDUCATION MAJORS Est. 1996 Available to Science or Math education majors who are rising juniors or seniors with a minimum GPA of 3.0. Preference will be given to non-traditional students.

SUDIE A. FULFORD SCHOLARSHIP Est. 1991 Scholarship is available to Elementary Education students.

VICTORIA ZWALD MEMORIAL SCHOLARSHIP Est. 2007 Scholarship is available to a full-time undergraduate education major in Early Childhood or Special Education. Recipient must be a rising junior or senior who has at least a 3.5 cumulative GPA. First preference shall be given to students who participate in extracurricular activities associated with children.

ZACH S. HENDERSON SCHOLARSHIP Est. 1985 Scholarship is available to full-time education majors entering the junior year.

BAZEMORE-FETZER-HAGAN MEMORIAL SCHOLARSHIP Est. 2000 Applicants must be residents of Bulloch, Effingham, Bulloch, Jenkins, Evans, Candler, Tattnall, Liberty, Bryan or Long counties.

JOHN SUDDAITH HALL MEMORIAL SCHOLARSHIP Est. 2002 Scholarship is available to a graduate level education student seeking a degree in Educational Administration.

LEE & MARTHA TOOTLE CAIN SCIENCE EDUCATION SCHOLARSHIP Est. 2005 Scholarship is available to full-time freshman enrolled as an Education major to earn certification to teach science at any grade level, K-12.

MARY & DUNCAN JAMES MEMORIAL EDUCATION SCHOLARSHIP Est. 2006 Scholarship recipient must be a Georgia resident, a full-time student majoring in education and have a 3.0 GPA. Consideration may be given to descendants of A. W. James and Norris B. Strickland.

ROSE MAE BOGAN SCHOLARSHIP FOR SCIENCE OR MATH EDUCATION MAJORS Est. 2000 Available to Science or Math education majors who are rising juniors or seniors with a minimum GPA of 3.0. Preference will be given to non-traditional students.

SUDIE A. FULFORD SCHOLARSHIP Est. 1991 Scholarship is available to Elementary Education students.

ART EXTRAVAGANZA

State Sen. Jack Hill was on hand to congratulate young artists at COE’s annual “Art Extravaganza: A Georgia Southern and P-12 Partnership” sponsored by COE’s Alumni Advisory Committee.

TEACHER QUALITY GRANTS

COE’s Teacher Quality grants gave teachers hands-on experience to help improve student learning by incorporating real life examples of scientific methodology, inquiry and technology into their curriculum.

STUDENT TEACHER ORIENTATION

The beginning of the semester is a busy time for COE’s student teachers. This fall, more than 100 students were placed in partner schools. Before meeting with their University supervisors during orientation, 2014 Georgia Teacher of the Year Jemelleh Coes offered words of encouragement.

POVERTY SIMULATION

About 70 students and faculty from COE’s Department of Teaching and Learning experienced the virtual realities of poverty in a unique poverty simulation conducted by the First District RESA. The Community Action Poverty Simulation (CAPS) was designed to help people better understand the realities of families living at or below the poverty line.

CLINICAL CAMP

More than 100 clinical supervisors and 20 College of Education faculty discussed best practices for mentoring teacher candidates at a day-long “CAMP” (Coaching, Assessing, Mentoring and Planning) coordinated by COE’s Office of Undergraduate Teacher Education. In addition to discussions on development of the teacher candidate and how to be a successful clinical supervisor, educators received updates from faculty and staff on edTPA, the recent NCATE accreditation review and advances in technology in the P-12 classroom.

CHALLENGE COURSE

Associate Professor Christine Draper, Teaching and Learning, took modeling effective teaching practices to another level when she and Associate Professor Michelle Reidel completed a challenge course at Southern Adventures with middle grades education program students. The idea was both to get to know the students and build community by “disrupting the traditional classroom hierarchy on the first day of class,” Draper said. The result: “We began the semester from a very different perspective,” she said. “All participants worked together, laughed together and learned together,” she added.

AROUND COE

Students listened intently during fall 2013 Student Teacher Orientation.

Students in the middle grades education program completed a challenge course.

LEFT: Georgia Southern Investigator Danny Garrigus role plays arresting negligent parents played by middle grades students Kathryn Mannes (with baby) and Lindy Humphrey.

BELOW: “Donuts with the Dean” gives students, faculty and staff a chance to meet with COE Dean Thomas Koballa informally. “Donuts” is held several times throughout the academic year.

RIGHT: COE hosted a tailgating party for alumni, faculty and staff before cheering the Georgia Southern Eagles on to victory.
