RSVP for Our Spring 2017 Data Management Workshops

Afternoon Workshop: NSF Data Management Requirements 101

2-3pm, Friday, March 10th
Library Conference Room

RSVP Now!

The NSF and its directorates require that all grant applications include a data management plan. Bring a bag lunch and join us to learn about the NSF's data requirements, why they matter, and how to best prepare your data management plan for a successful grant application. **Snacks will be provided.**

Lunch-N-Learn: Manage Research Workflows with Open Science Framework and Digital Commons

Noon-1pm, Tuesday, April 18th
Library Conference Room

RSVP Now!

Together, Open Science Framework and Digital Commons offer useful tools for managing your research workflows. Keep all your files, data, and protocols in one centralized location. Avoid trawling emails to find files or scrambling to recover lost data. Control which parts of your project are public or private, making it easy to collaborate with the worldwide community or just your team. Publish your data when it is ready to share. **Dessert and drinks will be provided.**

See the library's [Data Management Services Guide](#) for our full collection of presentation materials.

Updates from ICPSR...

Registration for the 2017 ICPSR Summer Program Is Now Open!

First Session, June 26 - July 21, 2017
Second Session, July 24 - August 18, 2017

Registration for ICPSR's Summer Program in Quantitative Methods of Social Research is now open. Open to faculty and advanced student researchers, these four-week sessions include a variety of statistical workshops and lectures, as well as workshops that examine the impact of various methodologies on specific substantive issues. The curriculum features nightly informal lectures presented by research scholars who have made important contributions to the development of social science methodology. All four-week sessions take place in Ann Arbor, Michigan on the University of Michigan campus. [Learn more and register.](#)

Sign Up for a Free Webinar:

- [Spatial Study of Industry with China and US Data](#), Mar 08, 2017 at 1:00 PM EST:
Our world has experienced rapid shifts in the industrial structure within recent decades, including industrial composition and spatial distribution. Those changes will have significant impacts on global development and reshape the future global landscape, in terms of population, economy, politics, culture, and environment. This webinar will discuss available data for the spatial study of industry in the US and China. The data include government statistics, census data, business data and spatial data at different administrative and geographical levels. It will demonstrate how to identify those industrial structure changes in the US and China in terms of time and space. The future directions for the integration of government statistics, census data, business data, spatial data and big data as well as their applications will be discussed. This webinar is free and open to the public.

ICPSR

Georgia Southern University is a member institution of the Inter-University Consortium for Political and Social Research (ICPSR).
