Leadership Boot Camp: How will you raise the bar?

These workshops are all about you and your individual leadership needs. You choose which workshops to attend in one of four tracks during the conference. Our hope is that you will tailor this experience to fit your development needs.

The tracks offered in Leadership Boot Camp are:

The **self-leadership**, or individual development, track. This track is designed to help participants develop individual leadership skills under the premise that you cannot lead others without effectively leading yourself.

The **collaborative leadership**, or group/team development, track. This track is designed to help participants develop skills that allow them to effectively lead their organization and work in collaboration with other organizations.

The **community leadership**, or service to others, track. This track is designed to help participants understand how their decisions and actions make an impact in the community of the university and beyond.

The **leadership legacy** track. This track is designed to help participants see how their leadership today can impact their campus and community for years to come. With this track we encourage students to continue to seek leadership development opportunities beyond their collegiate experience.
