Exploring Online Sales Personas: Toward a Model of Online Strategic Relationship Development

April Kemp

University of South Alabama

ABSTRACT

This paper explores academic literature of online behaviors through typologies and social styles and the potential impact on relationship development in the B2B sales process. A conceptual model and online persona matrix are offered. The paper concludes with discussion and detailed propositions for future research.

ABOUT THE AUTHOR

April Kemp is a Doctoral student at the University of South Alabama and an Instructor of Marketing at Southeastern Louisiana University.
