The statements set forth in this Catalog are for information purposes only and should not be construed as the basis of a contract between the students and this institution. While the provisions of this Catalog will ordinarily be applied as stated, Georgia Southern University reserves the right to change any provision listed herein, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of such changes. Information on changes will be available in the Office of the Registrar. Ultimately, each student is responsible for keeping himself or herself apprised of current graduation requirements in his or her particular degree program. While academic advisors should be consulted regularly, students are responsible for the completion of their chosen degree programs.
How to Use This Catalog

The Georgia Southern University General Catalog is an information book and reference guide dealing with different aspects of the University - its policies, facilities, degree programs, course offerings, services, and faculty.

The statements set forth in this catalog are for information purposes only and should not be construed as the basis of a contract between the student and this institution.

While the provisions of the catalog will ordinarily be applied as stated, Georgia Southern University reserves the right to change any provision listed in this catalog, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of such changes. Information on changes will be available in the Office of the Registrar. It is especially important for each student to note that it is his/her responsibility to keep himself/herself apprised of current graduation requirements for his/her particular degree program.

If you have suggestions for improving this Catalog, please email us at ccollins@georgiasouthern.edu.

Equal Opportunity Policy Statement

It continues to be the policy of Georgia Southern University to implement affirmative equal opportunity to all employees, students, and applicants for employment or admission without regard to race, color, gender, sexual orientation, national origin, religion, age, veteran status, political affiliation, or disability. This policy extends to participation in any of Georgia Southern’s programs. Questions regarding this policy of nondiscrimination should be directed to Associate Vice President for Institutional Compliance, at (912) 681-5136, P.O. Box 8035, Statesboro, GA 30460-8035.

Accommodations for Americans With Disabilities

In compliance with the Americans with Disabilities Act (ADA), Georgia Southern University will honor requests for reasonable accommodations made by individuals with disabilities. Students must self disclose their disability to the Student Disability Resource Center (SDRC) Director before academic accommodations can be implemented. The University offers modern technological devices for people with visual and hearing impairments. For additional information, please call the ADA Compliance Officer at (912) 681-5136, TDD (912) 681-0273, or the SDRC Director at (912) 871-1566, TDD (912) 681-0666. The TDD phone numbers are specifically for those with hearing impairments.

Student Notification Policy

All Georgia Southern University students are provided with an e-mail address within 24 hours of student registration. All undergraduate students are also provided with a Post Office Box. E-mail addresses and Post Office Boxes are the official means of communication between the University and the student. It is the student’s responsibility to check his or her e-mail each school day and his or her PO. Box at least once a week for administrative messages. There is no justifiable excuse for failure to respond to a University communication or failure to act on a University communication in a timely manner.

General Information

University Mission
Georgia Southern University is a public comprehensive university devoted to academic distinction in teaching, scholarship, and service. The University's hallmark is a culture of engagement that bridges theory with practice, extends the learning environment beyond the classroom, and promotes student growth and life success. Georgia Southern's nationally accredited academic programs in the liberal arts, sciences, and professional studies prepare a diverse and select undergraduates and graduate students for leadership and service as world citizens. Faculty, staff, and students embrace core values expressed through integrity, civility, kindness, collaboration, and a commitment to lifelong learning, wellness, and social responsibility.

Central to the University's mission is the faculty's dedication to excellence in teaching and the development of a fertile learning environment exemplified by a free exchange of ideas, high academic expectations, and individual responsibility for academic achievement. Georgia Southern faculty are teacher-scholars whose primary responsibility is the creation of learning experiences of the highest quality, informed by scholarly practice, research, and creative activities. The University offers a student-centered environment enhanced by technology, transcultural experiences, private and public partnerships, and stewardship of a safe residential campus recognized for its natural beauty.

Georgia Southern University is committed to advancing the State of Georgia and the region through the benefits of higher education, offering baccalaureate through doctoral degrees and a variety of outreach programs. The University fosters access to its educational programs, provides a comprehensive and fulfilling university experience, and enhances quality of life in the region through collaborative relationships supporting education, health care and human services, cultural experiences, scientific and technological advancement, athletics, and regional development.

The University Strategic Plan Themes
The vision of becoming recognized as one of the best public comprehensive universities in the country identifies the University's destination. The Level 1 plan articulates the overall strategic objectives and action steps to achieve this goal. The Level 2 and 3 plans describe how we will arrive there. Our journey is guided by six essential strategic themes, with the core being academic distinction.

- Academic Distinction
- Student-Centered University
- Technological Advancement
- Transcultural Opportunities
- Private and Public Partnerships
- Physical Environment

The proposed action steps do not necessarily represent a fresh start toward an altogether new destination. Rather, they are ways of capitalizing on the progress we have made since 1906. We are already an excellent university, and we can contemplate actions that will enable us to become better and clearly one of the nation's best public comprehensive universities. Given the differences among the units within the University, it is not anticipated that every unit will pursue the same themes. However, if the University is to progress, academic distinction must be the top priority at all levels and in all units.

History of Georgia Southern University
On December 1, 1906, the newly appointed First District Board of Trustees convened in Savannah, Georgia. It was one of 11 such boards created for each congressional district by state legislation that year to build and oversee agricultural and mechanical schools for elementary and secondary students. The trustees were prepared to hear bids from local leaders who wanted the First District A&M School to be built in their communities and were willing to provide the funding to do so. Among the bidders were 50 representatives from Bulloch County who had journeyed from Statesboro on a train called the “College Special.” Their bid of $125,000 in cash and in-kind contributions, including a donation of 300 acres for a campus, won handily. Early in 1908, just outside Statesboro (on a site called “Collegesboro”), the First District A&M School opened its doors with 15 students, four faculty members, and three buildings.

By 1920, the First District A&M School had 150 students and was fielding teams in football and baseball; the “Aggies” typically won more than half their games in any given season. But by 1921, a combination of rapidly growing debt and drastically declining enrollments almost spelled the end of the fledgling school.

Hard work and commitment prevailed, however, and by 1924, not only were the school’s finances and enrollments back on track, but the Georgia General Assembly upgraded the school to a two-year college for teacher training and reitled it the Georgia Normal School, one of three in the state. With this first change in the school’s status, “Principal” Ernest V. Hollis became “President” Hollis, Georgia Southern University’s first president. The following year, private donors funded the first scholarships for the campus.

In 1929, the General Assembly was persuaded that yet another major institutional promotion was due, and the Georgia Normal School became the South Georgia Teachers College via state legislation, converting the Statesboro campus from a two-year junior college to a four-year teachers college. The Aggies had receded, and the “Blue Tide” had rolled in, bringing programs not only in football and baseball, but also in basketball and track; basketball was played in a tobacco warehouse until the first gymnasium was built in 1931.

Also in that year, the long-supportive First District Board of Trustees, like all freestanding boards of college trustees in the state, was dissolved by state legislation. Higher education in Georgia was reorganized into its present form, with all state colleges and universities reporting to a single Board of Regents. Now, the Regents, not the General Assembly, were responsible for determining any changes in mission for the college in Statesboro.
In 1939, South Georgia Teachers College became Georgia Teachers College by action of the Board of Regents. This new title represented less a change of status for the college and more a recognition by the Regents that the Statesboro campus was the statewide college for teacher education. Later, the “Blue Tide” receded, and “The Professors” became the official name of Georgia Teachers College’s intercollegiate teams.

When Eugene Talmadge was elected governor in 1940, he remembered, according to some observers, that the electoral district dominated by Georgia Teachers College had voted for his opponent. Within a year, the governor had initiated an effort to remove President Marvin Pittman on charges that included advocating “racial equality and teaching communism” (the latter conclusively disproved). President Pittman was fired, and as a direct result of his dismissal, all state-supported institutions of higher education in Georgia saw their regional academic accreditation withdrawn by what is now the Southern Association of Colleges and Schools. In 1942, a new governor was elected, and the Board of Regents was reorganized; a year later, Georgia Teachers College and the University System of Georgia were reaccredited, and Dr. Pittman was reinstated by the Board as president of Georgia Teachers College.

This incident, which received international media coverage at the time, was a formative and symbolic experience in the history of Georgia Southern University and a measure of its resilience in the defense of academic and institutional integrity, qualities that remain today.

In 1957, the college in Statesboro was authorized by the Board of Regents to offer its first graduate degree, a Master of Education. In some ways, that benchmark was the beginning of the ultimate evolution from a college to a university.

Only two years later, Georgia Teachers College was upgraded by the Board of Regents to Georgia Southern College, a recognition by Georgia’s policymakers that the College was now a comprehensive institution with responsibilities well beyond the specialized mission of educating teachers. In 1960, the “Professors” was retired as the name of Georgia Southern’s intercollegiate teams, and by student vote, the “Eagles” was hatched.

The first fraternities and sororities were chartered on the campus in 1967 and 1968. The first three Schools, Arts and Sciences, Education, and Graduate Studies, were established in 1968, followed by the School of Business in 1971, and the School of Health, Physical Education, Recreation and Nursing and the School of Technology in 1980. Today, these schools have been organized as the College of Liberal Arts and Social Sciences (in 1994), Education, Graduate Studies, Business Administration, Health and Human Sciences, and the Allen E. Paulson College of Science and Technology (in 1994). In 2003, the College of Information Technology was established, and in 2005, the Jiann-Ping Hsu College of Public Health became the University’s eighth college. In 1981, football was reintroduced to Georgia Southern after a hiatus of almost 40 years, inaugurating a new winning tradition of Division I intercollegiate sports.

Beginning in the early 1970s, a resurgent effort to acquire university status for the Statesboro campus emerged, culminating in 1989 with the Board of Regents’ vote to promote Georgia Southern College to Georgia Southern University. When university status became effective on July 1, 1990, Georgia Southern received its sixth and final name. Georgia Southern University became the first new university in Georgia in 21 years and the third largest university in the state. In 1992, the Regents authorized Georgia Southern University to initiate its first doctoral program, the Doctorate of Education, which was the first doctorate to be offered by an institution located in South Georgia. In 2006, the Carnegie Foundation for the Advancement of Teaching classified Georgia Southern University as a doctoral/research institution.

**College Structure**

The academic credit programs of the University are administered by eight colleges. They are the College of Liberal Arts and Social Sciences, the College of Business Administration, the College of Education, the College of Health and Human Sciences, the College of Information Technology, the Jiann-Ping Hsu College of Public Health, the Allen E. Paulson College of Science and Technology, and the Jack N. Averitt College of Graduate Studies. Except for the College of Graduate Studies and the Jiann-Ping Hsu College of Public Health, each of these is subdivided into schools or departments. A dean directs each college, a director or chair each school, and a chair each department. The following organizational structure provides for the degrees, fields of study, and courses set out in this catalog.

I. College of Business Administration

   Dr. Ronald E. Shiffler, Dean
   School of Accountancy
   Dr. Lowell Mooney, Director
   Department of Finance and Quantitative Analysis

Advisement

Philosophy
Georgia Southern University accepts the premise that ultimately a student's program is his or her own responsibility. Any system of advisement must reflect students' freedom of choice and their right to make their own decisions. It is required that students see their advisors prior to registration each semester to have their classes approved and to receive their Registration Access Number (RAN). Students should meet with their advisors at other times in order to plan programs carefully and make sure all requirements are being met.

It is the institution's responsibility, however, to provide guidance, information, and assistance to the student whenever possible. It is the institution's responsibility to see that advisors have accurate information, that they are concerned about the students, and that they are accessible to the students on a reasonable basis. It is the institution's responsibility also to give the necessary support to those faculty members who choose advisement as an area of service and to see that good advisement is appropriately included in merit considerations.

Georgia Southern University also accepts the philosophy that faculty members should be involved in student advisement whenever possible since they provide a necessary academic orientation to the process. It is important that the students have as much direct contact with faculty as possible, and advisement is a particularly individualized avenue of communication. Advisement also provides the faculty member with a vital area of service.

Definition of the Role of Advisors
Advisors should fill three roles for students. They should serve as resource persons, providing information about university programs and institutional requirements in order to assist students in developing the most coherent plan for their college years. Second, they should serve as a link between students and the university community, referring them to areas of assistance and familiarizing them with the resources provided by the institution to meet whatever needs and goals they might have. Finally, advisors should assist students in understanding the nature and purpose of higher education and help them develop self-direction in the process of decision-making.

Responsibility for Advisement
Advisement for students who have declared a major is provided by faculty and/or professional staff advisors in centers or in faculty offices. The College of Business Administration, College of Information Technology, College of Education, and College of Health and Human Sciences have established advisement centers. Individual departments assume advisement responsibility for students in the College of Liberal Arts and Social Sciences and the Allen E. Paulson College of Science and Technology. Majors in International Studies and International Trade are advised in the Center for International Studies. Graduate students are assigned faculty advisors. Advisement for students who have not declared a major, along with transient, post-baccalaureate, most non-degree students, and the Bachelor of General Studies degree program, is provided by staff and professional advisors in the Academic Advisement Center, ground floor, Williams Center.

The Academic Advisement Center is also responsible for advising freshmen students in the College of Liberal Arts and Social Sciences (with the exception of Art, Anthropology, History, Foreign Languages, English, Sociology, Philosophy, Music, and majors in Writing and Linguistics) and sophomore students majoring in Communication Arts, Justice Studies, Political Science, and Psychology.

The Director of Advisement and Retention serves as coordinator for the campus advisement program and is responsible for providing information to advisors and students, coordinating advisement activities, providing programs to improve the quality of advisement and the level of knowledge of advisors and students, and representing the concerns of advisors where needed.

Academic Services

In addition to the Colleges, several other departments or agencies within Georgia Southern University enhance the academic life of the University.
The Academic Advisement Council consisting of key personnel from across campus meets on a monthly basis and serves to coordinate advisement activities at Georgia Southern. The Council is chaired by the Associate Vice President for Academic Affairs.

The Division of Continuing Education and Public Service (CEPS)
The mission of the Division of Continuing Education and Public Service is to meet the lifelong learning needs of Southeast Georgia. The division provides a variety of programs designed to facilitate degree completion, improve the skills of the region’s workforce, enhance societal and cultural understanding, facilitate healthy lifestyles, and constructive use of leisure time, and to address the personal development and enrichment needs of the region’s citizens.

Within the Division of Continuing Education and Public Service are included the following:
• Continuing Education and the Nessmith-Lane Facility
• Performing Arts Center
• Georgia Southern Botanical Garden
• Georgia Southern Museum
• Center for Wildlife Education and The Lamar Q Ball, Jr. Raptor Center
• Regional Centers in Dublin, Brunswick, Hinesville, and Savannah

For more information about the division, visit the website at http://ceps.georgiasouthern.edu/conted.

Continuing Education
The Continuing Education unit and its program development staff work closely with the Colleges of the University to provide programs designed for professionals in the areas served by the Colleges of Health and Human Sciences, Liberal Arts and Social Sciences, Information Technology, Business Administration, Education, and Science and Technology. Continuing Education works with businesses, non-profit entities, institutions, and government agencies to address the workforce development needs of Southeast Georgia. Professional development programs sponsored by Continuing Education offer individuals the opportunity to enhance existing personal, professional, and leadership skills.

Continuing Education program development staff also assists organizations, businesses, and the campus community with program development tasks including needs assessment, program planning, program administration and coordination, fiscal management, marketing, and program evaluation. A full range of meeting planning and conference services is available, as well as in-house contract training programs for businesses, industries, non-profit organizations, and other agencies.

All Continuing Education programs and activities are offered in accordance with the programmatic and fiscal requirements of the Commission on Colleges, Southern Association of Colleges and Schools (SACS), and the University System of Georgia. Continuing Education keeps records pertaining to the University’s non-credit programs of instruction. Permanent records of Continuing Education Units (CEUs) earned by participants are maintained by the University Registrar. For more information, please contact The Division of Continuing Education and Public Service at (912) 681-5555 or http://conted.georgiasouthern.edu/.

The Nessmith-Lane Building, on the campus of Georgia Southern University, provides a leading-edge environment for lifelong learning and cultural enrichment. It is designed especially for training and development programs for adults, for hosting conferences, and providing distance education. The facility includes the 850-seat Performing Arts Center, 600-seat multipurpose room, other meeting rooms, office space, and a full kitchen. The Nessmith-Lane Building, with its training support systems, audiovisual equipment, and telecommunication equipment provides an excellent environment for training programs, conferences, workshops, seminars, symposia, and business meetings, as well as related functions and entertainment.

Regional Outreach Centers
• Brunswick Center
The Brunswick Center is a consortium composed of the Coastal Georgia Community College in Brunswick, Armstrong Atlantic State University in Savannah, and Georgia Southern University in Statesboro. The Center serves as a residence center for the two universities, and its staff assists students enrolled in either primarily undergraduate programs at Armstrong Atlantic State University or primarily graduate programs at Georgia Southern University. The director and staff are employees of Coastal Georgia Community College and serve in a joint staffing arrangement with the two universities. Georgia Southern’s participation in the Brunswick Center is under the oversight of the Dean of the Division of Continuing Education and Public Service. Georgia Southern offers degrees on the campus of Coastal Georgia Community College for the Bachelor of Business Administration - Management, Master of Business Administration, Master of Public Administration, Master of Education in Early Childhood, Middle Grades, and Educational Leadership, and the Master of Science in Nursing - Family Nurse Practitioner. Contact the Brunswick Center at (912) 264-7227.

• Coastal Georgia Center
The Coastal Georgia Center, a University System of Georgia facility, is under the management of a director reporting to Georgia Southern University. The center is 45 minutes from the main campus of Georgia Southern and is located in Historic Downtown Savannah, Georgia. The center has 53,000 square feet of classroom and meeting space. Some of the features include a 360 seat assembly hall, 12 meeting/classrooms, three large multi-purpose rooms, three computer classrooms, and a distance learning room. Georgia Southern offers many graduate classes in the areas of Business, Accounting, and Education. Savannah State University holds graduate classes in the area of Social Work. Armstrong Atlantic State University and Georgia Southern University hold Continuing Education seminars and classes at the center. Inquiries may be directed to Georgia Southern University at the Coastal Georgia Center at (912) 651-2005.

• Dublin Center
The University System of Georgia Dublin Center, located in Dublin, Georgia, houses Georgia Southern University Dublin office and is under the direction of the Dean of the Division of Continuing Education and Public Service. Georgia Southern programs at the Dublin Center are offered by standard classroom delivery, distance learning, internet, and WebCT. Under the coordination of Georgia Southern’s Dublin Center Director, the Center offers a complement of student services for the Dublin student. Georgia Southern offers junior-and senior-level courses leading to bachelor degrees in Early Childhood, Middle Grades, Business Administration-General Management, Criminal Justice, and Nursing. Graduate programs are offered in Master of Business Administration, Educational Leadership, School Psychology, Early Childhood, Middle Grades, and Public Administration. Sharing the Dublin Center and responsible for the physical management of the Center, Middle Georgia College offers freshman and sophomore level courses leading to a two-year associate degree in more than 60 areas of study. Inquiries may be directed to Georgia Southern University at the Dublin Center at (478) 275-6750. Visit the web site at http://conted.georgiasouthern.edu/dublincenter.html.

• Liberty Center
Armstrong Atlantic State University, Georgia Southern University, Savannah State University, and Waycross College form The Liberty Center, a University System of Georgia Residence Center located at Hinesville - Fort Stewart. The Liberty Center and its director are under the management of Armstrong Atlantic State
University. As a regional center for Georgia Southern University, the Liberty Center offerings for Georgia Southern are coordinated by the Dean of the Division of Continuing Education and Public Service. Each institution offers specific degree programs ranging from associate degrees to specialist levels. Georgia Southern offers the Master of Business Administration and the Master of Public Administration. The goal of the multi-university partnership is to provide affordable post-secondary education programs that will meet individual, community, and Army needs for Fort Stewart, Liberty County, and the City of Hinesville. Inquiries may be directed to the Center at (912) 767-0812.

Outreach Facilities on the Georgia Southern Campus

- **Georgia Southern University Botanical Garden**
  Georgia Southern’s Botanical Garden is located on an 11-acre site between Fair Road and Georgia Avenue near the southeast end of campus. Once the farmstead of Dan and Catharine Bland, the Garden’s rural ambience evokes the past and provides a backdrop for the Garden’s growing collection of southeastern native plants. Features include woodland trails, a native azalea collection, arboretum of woody natives, heritage garden, butterfly garden, children’s vegetable garden, complex of early 20th century farm buildings, and a gift shop. The Garden is a research and educational resource for faculty and students and provides undergraduate and graduate internships as well as continuing education programs and programs of interest to the community. Workshops, tours, school field trips, special events, seasonal festivals, and community outreach are part of the Garden’s public programs. For most programs, there is no admission charge. The Garden is open from 9:00 a.m. to 5:30 p.m. on weekdays, 9:00 a.m. to dusk on Saturdays, and 2:00 p.m. to 5:00 p.m. on Sunday. For information call the Garden office at (912) 871-1149 or visit the website [http://ceps.georgiasouthern.edu/garden](http://ceps.georgiasouthern.edu/garden).

- **The Georgia Southern University Museum**
  Since 1982, the Georgia Southern University Museum has sought to preserve, exhibit, and interpret objects pertaining to the unique cultural heritage and natural history of this region. A world-class mosasaur specimen and Georgiacetus vogtliensis, the oldest fossil whale ever discovered in North America, are among the many exhibits about our prehistoric past. The museum also hosts a variety of contemporary exhibits and programs relevant to the University’s academic departments often curated by faculty. Hands-on exhibits provide entertainment as well as education. The museum serves as a research and educational resource for faculty, staff, students, the general public, and schools in south Georgia. Opportunities exist for undergraduate and graduate student involvement in all aspects of the museum’s programs. The museum is open on weekdays from 9 a.m. to 5 p.m., and on Saturdays and Sundays from 2 p.m. to 5 p.m. Inquiries may be directed to the Museum at (912) 681-5444. Visit the website [http://ceps.georgiasouthern.edu/museum](http://ceps.georgiasouthern.edu/museum).

- **The Center for Wildlife Education and The Lamar Q Ball, Jr. Raptor Center**
  The Center for Wildlife Education and The Lamar Q Ball, Jr. Raptor Center is a 4.5 acre nature center in the heart of campus. This facility displays 11 species of eagles, hawks, falcons, owls, and vultures in natural habitat enclosures. Flighted raptor demonstrations and reptile programs are offered to the public on weekends and to scheduled groups on weekdays. The Center houses exhibits dedicated to Georgia’s wildlife as well as a lecture hall and gift shop. Built through private donations but supported operationally by Georgia Southern University, the $2.3 million center introduces school children and families and university students, faculty, and staff to numerous live animals and, particularly, raptors, and shorebirds. Georgia Southern University recently dedicated 12 more acres to the center’s Phase II expansion to support programs on ornithology and water resource conservation. Inquiries may be directed to the Center for Wildlife Education at (912) 681-0831. Visit the website [http://ceps.georgiasouthern.edu/wildlife](http://ceps.georgiasouthern.edu/wildlife).

- **The Center for the Performing Arts**
  The Center for Performing Arts is located in the Nessmith-Lane Continuing Education Building. The 34,000 square foot performing arts facility houses an 850-seat performance theater and state-of-the-art performance equipment including an orchestra pit, an orchestra shell, dressing rooms, and sound and lighting systems. In addition, the Center houses a Ticket Box Office and offices for the Director of Performing Arts and technical staff. The Center’s programming is planned for a diverse audience from the campus and the community. The Center provides an excellent educational experience for Georgia Southern University students participating in music and theater programs. Inquiries regarding the Performing Arts Center may be directed to the Box Office at (912) 486-7999 or the Center’s Director at (912) 486-7916. Visit the website [http://ceps.georgiasouthern.edu/pac](http://ceps.georgiasouthern.edu/pac).

University Advancement

The Division of University Advancement strives to build relationships with the external constituencies of Georgia Southern University in order to ensure that the university realizes its vision of becoming a nationally recognized public comprehensive university. Private funding and the support of alumni, individuals and the surrounding communities provide critical resources not available from other sources. Leadership for governmental relations between Georgia Southern University and the Georgia General Assembly and other statewide and federal governmental officials increases funding and promotes public awareness of the University’s role in higher education. Telling the Georgia Southern story through a comprehensive marketing and communications program advances the understanding of and participation in Georgia Southern’s Strategic Plan.

The Office of Development directs its efforts toward identifying, cultivating, securing and stewarding gifts for the University’s programs. Fundraising efforts include the Phonathon, the annual campus and community campaign—A Day for Southern, major gift solicitation from alumni and individuals, corporate and foundation proposals, and planned giving. The Office of Development is also the liaison for the Georgia Southern University Foundation, a separate 501(c)(3) organization established in 1962, which raises private funding in an effort to meet certain educational and institutional needs at Georgia Southern University not addressed by state allocations.

The Office of Alumni Relations seeks to promote the growth, progress and general welfare of Georgia Southern University by raising friends and connecting and reconnecting alumni through education and communication. Alumni programs include the Alumni Association, Eagle Clubs, On-Line Community, Alumni Awards, official class rings, Homecoming, reunions, championship game activities, and many other special events.

The Office of Governmental Relations seeks to secure state and federal funding and represent the University’s needs before federal and state legislatures. Special annual events are held in Atlanta and Washington, D.C., to inform legislators about the needs of Georgia Southern University and its contributions to the economy and communities of southeast Georgia.

The Office of Marketing and Communications is responsible for servicingathenanchte University’s image, brand-building, market position, media and public relations, and potential for recruiting and fundraising. The office encompasses the University’s primary communications services: media relations and news services, design and production of all major institutional publications, photo and video production, advertising, the institutional logo and identity program, and oversight of the university web site. The office works closely with other departments, including athletics media and marketing, to ensure consistency in the standards and quality of external communications.
Henderson Library
The Zach S. Henderson Library is a major academic resource for the campus, with its extensive collections of academic books and journals, government publications, special book and manuscript collections, and links to networked information resources in various electronic formats.

The Henderson Library is centrally located on campus in a four-story building constructed in 1975. The building is currently undergoing an extensive expansion and renovation project due to be completed in 2008. The Library offers the most extensive operating schedule of any academic library in the state of Georgia. During the fall and spring academic terms, the first and second floors of the Library remain open on a 24-hour basis for 143 of the 168 hours in each week to provide access to the Library’s computer resources, periodical collections, reserve reading collections, study facilities, and circulation procedures.

As of July 2005, the Library’s collections contained 577,172 bound volumes; 888,272 microform units; and 719,819 government documents. The Library maintains subscriptions to 2,687 serial and periodicals titles, and 26,323 electronic journals. In addition to the extensive collections in paper and microform, the Library has a large set of information materials in electronic format, including full-text copies of articles from thousands of academic periodicals and newspapers. These electronic resources are accessible from any Internet-connected computer.

The Library network also provides access to many standard software applications in the areas of word processing, spreadsheets, database management, programming languages, and graphical design. Other programs, more directly related to specific curriculum-based needs for designated courses, are also available via the network.

The Library has installed a comprehensive library information system that links the on-line catalog, circulation procedures, periodical indexes, full-text databases, and in-process library acquisitions into one integrated system. The Library’s catalog is available on-line through the Internet and is also incorporated as a part of a combined catalog for the University System of Georgia, making an additional three million book titles and thousands of academic journals available within three days of a request. The Library is a full participant in the GALILEO project, Georgia’s statewide library sponsored by the University System of Georgia, providing more than 100 major databases and more than 1,300 academic journals in full-text format, as well as rapid interlibrary loans across the state. Computer stations in the Library that are used to access GALILEO may also be used to access other library catalogs and databases located throughout the world via the Internet.

The Henderson Library’s administration actively seeks comments and suggestions concerning any aspect of its operations and collections. The Dean of the Library is available to meet with any member of the academic community to discuss the resources of the Library or its connections to other information networks and services throughout the world.

Institute of Arthropodology and Parasitology
The Institute of Arthropodology and Parasitology (IAP) coordinates an area of interdepartmental research among the departments of Biology, Geology and Geography, Psychology, and History. It includes faculty, post-doctoral students, graduate and undergraduate students, technicians and adjunct professors. In August 1990, the U.S. National Tick Collection, along with its Curator, was moved from the Smithsonian Institution in Washington, D.C. and is now part of Georgia Southern University. The Collection is housed in the IAP Building. This addition to the Institute has made it one of the foremost centers for tick research in the world. Independent research group seminars and lectures arranged and conducted by the group emphasize transmission of microbes by arthropods, and development, physiology, genetics, cytogenetics, reproductive biology, population biology and biometrics of selected arthropods, nematodes, trematodes, and cestodes of regional and international importance. Laboratory and field research is conducted by Institute members. For information contact Dr. James H. Oliver, Jr., Director, at (912) 681-5564.

Intercollegiate Athletics
Intercollegiate athletics provide an opportunity for highly skilled student-athletes to compete regionally and nationally at the NCAA Division I level. These activities are conducted under the control of the Georgia Southern University Athletics Committee and within the rules and regulations of the National Collegiate Athletic Association and the Southern Conference. Intercollegiate athletics are an integral part of the total college experience and, as such, Georgia Southern sponsors programs for men in football, baseball, basketball, golf, women’s tennis, and for women in basketball, volleyball, swimming, softball, soccer, tennis, cross-country, and indoor/outdoor track.

Georgia Southern student-athletes and teams have enjoyed national success as evidenced by six NCAA I-AA football championships and NCAA Tournament participation in men’s and women’s basketball, baseball, golf, women’s tennis, and volleyball. Georgia Southern University joined the Southern Conference in 1992 and has claimed thirty league titles in nine sports.

Postal Services
The Campus Postal Service is a university owned and operated facility located in the Landrum Center. This facility provides mail pick up, delivery, posting and boxing, and window services for faculty, staff and students.

All student mailboxes are located in the Landrum Center. All undergraduate students will be assigned a campus mail box within a 48 hour period after registration. SOAR students will be assigned a mail box two weeks before fall semester begins. Your PO Box with combination can be obtained on WINGS http://students.georgiasouthern.edu/registrar/ in the Personal Information section under View PO Box Combination. Forwarding addresses should be left for students who will be:
- graduating
- withdrawing
- leaving for a semester
- student teaching/externship
- completing a voluntary cancellation form

If you forward your mail, your first class mail and periodicals will be forwarded to your forwarding address. Forwarding addresses can be updated on WINGS.

Students late in paying fees, withdrawing, remaining out of school for an academic semester or completing a voluntary cancellation form will lose their campus mail box. If no forwarding address is on file, mail will be returned to sender.

If you have any questions, call the Georgia Southern Postal Services at (912) 681-5232.

Student Disability Resource Center
Georgia Southern University is committed to providing an equal educational opportunity to qualified students with disabilities. The Student Disability Resource Center (SDRC) is the primary source of services for these students. Students with an array of disabilities are eligible for services; however, documentation standards exist for all conditions, including Specific Learning Disabilities and Attention Deficit Disorder.

Students initiate services by completing the Voluntary Declaration of Disability that accompanies their acceptance letter from the Office of Admissions. The SDRC will contact students concerning documentation standards upon receipt of that document.
Services include advocacy with faculty, assistive technology, early registration, books on tape and other accommodations derived from documentation. There is no charge for these services.

The SDRC is located in Building 805 on Forest Drive. Please call (912) 871-1566 or TDD at (912) 681-0666.

Regents Center for Learning Disorders (RCLD)
The Regents Center for Learning Disorders (RCLD) at Georgia Southern is one of three centers in Georgia established by the Board of Regents to provide standardized assessment, resources, and research (within the University System) related to students suspected of having learning disorders. Each RCLD serves designated colleges and universities within its geographic region. The RCLD assesses students with suspected specific learning disabilities (LD) and/or Attention Deficit/Hyperactivity Disorder (ADHD) following criteria established by the Board of Regents. The RCLD professional staff also reviews students’ previous documentation/evaluations, submitted by their Office for Disabilities, to determine eligibility for services. Students may be required to provide additional information or to obtain a new evaluation.

Students who need an evaluation must contact the office for disabilities on their own campus for information. Georgia Southern students (or prospective students) should contact the SDRC (above). The office for disabilities will also provide criteria for identifying LD or ADHD, and for accepting outside evaluations (assessments completed by an agent other than one of the three Regents centers). Assessments may be obtained through the RCLD, a private evaluator, or an outside agency. For further information please call (912) 681-0100, or visit http://services.georgiasouthern.edu/rcld/.

Gallery 303
Gallery 303, located on the third floor of the Foy Fine Arts Building, presents eight major exhibitions during the academic year featuring contemporary art works by professional artists, faculty, and students. They range from traditional oil paintings to “installation” works using a multimedia effort. Typically the exhibitions appear for a month. In addition to opening receptions, visiting artists meet with classes and the community in both formal and informal settings. Exhibitions are free to the public and open 8 a.m. to 5 p.m. Monday through Friday. Guided tours are available through the Betty Foy Sanders Department of Art, (912) 681-5358.

Music Program
Each academic year, the Department of Music presents more than 100 public concerts including performances in the Faculty and Guest Artist Recital Series, concerts by large and small ensembles, and student recitals. The Department’s performing ensembles include the Statesboro-Georgia Southern Symphony, Georgia Southern Chorale, University Singers, Women’s Chorus, Symphonic Wind Ensemble, Concert Band, Georgia Southern Opera, Jazz Band, and chamber ensembles such as the Percussion Ensemble, Clarinet Choir, Southern Saxophones, and Brass Quintet. Individual students perform in graduation, junior, senior, and graduate solo recitals. Information about the Department of Music, including the Concert Calendar, is available from the departmental office (912) 681-5396 or the Department of Music web page at http://class.georgiasouthern.edu/music/.

Office of Research Services and Sponsored Programs
The Office of Research Services and Sponsored Programs (ORSSP) serves as the first point of contact for faculty and staff seeking funding from sources external to the University. ORSSP is a full-service office, providing the following faculty support: 1) Proposal Development - identification and dissemination of funding opportunities; proposal development and editing services; budget development and assistance with sponsor forms and submission requirements; processing of proposals and contracts for internal approval; and contract and award negotiation. 2) Post-award management services - assistance to faculty in managing project budgets, resolving questions and problems with financial management issues, technical reports, and project close-out.

In addition, ORSSP serves as the administrative home for research compliance management, providing support and guidance to the Institutional Review Board for the Protection of Human Subjects (IRB), the Institutional Animal Care and Use Committee (IACUC), the Institutional Biosafety Committee (IBC), and the Intellectual Property Committee (IPC). ORSSP also administers the university processes for reviewing financial conflict of interest and scientific or scholarly misconduct in science allegations.

ORSSP is also the point of contact for faculty seeking internal support for research and related activities. The office provides support to the Faculty Research Committee, which awards competitive internal research awards on an annual basis and also selects recipients of the Faculty Excellence in Research awards.

The Georgia Southern University Research and Service Foundation (GSURSF) is housed in ORSSP. The GSURSF is dedicated to supporting research and related activities at Georgia Southern University and to building the research infrastructure in support of faculty seeking external funds. The Director of ORSSP also serves as the Executive Director of the GSURSF.

If you have any questions, call the Office of Research Services and Sponsored Programs at (912) 681-5465.

Academic Success Center (ASC)
Located in the Academic Success Center Building, The Academic Success Center, a full-service learning center, offers support services to students ranging from first semester freshmen seeking to establish a firm foundation for their academic careers to honors and graduate students involved in an array of more advanced scholarship.

Among the programs offered by and envisioned for the Academic Success Center are short courses and workshops in time management, study skills, mathematics, writing, reading, fiscal responsibility, standardized test preparation, and computer skills; Auxiliary Instruction in regularly scheduled, out-of-class study and review sessions for selected courses; Study Group Facilitation providing study groups in residence halls, in fraternities and sororities, by discipline, and for non traditional students; Mentoring Programs to help new students become acclimated to the university experience; Virtual Resources/Electronic Community Building including computer-aided instruction, e-mail groups, online learning resources, and eventually communication with distant learners and commuters. For more information about the ASC, call (912) 681-5371 or check the Center’s web page at http://academics.georgiasouthern.edu/success/.

Tutoring Center
As a component of the Academic Success Center, the Tutoring Center’s mission is to provide a supportive learning environment for Georgia Southern students by offering free tutoring in mathematics, statistics, writing across the curriculum, history, American Government, biology, chemistry, physics, sociology, psychology, and college reading/study skills.

The tutors are recommended by professors in their subject areas and are certified by Georgia Southern University Tutorial Services. The center has a full-time coordinator and faculty consultants from the Academic Success Center who work with tutors in implementation of the program. Check for tutoring schedules and other information on the web at http://academics.georgiasouthern.edu/tutorial/ or call (912) 681-0321.
Testing Office
Another component of the Academic Success Center is the Testing Office. The Testing Office provides services to students as well as segments of the surrounding community. Such examinations as the SAT, PRAXIS, Regents’ Test, Institutional SAT (ISAT), Miller Analogies Test (MAT), ACT, Law School Admission Test (LSAT), Pharmacy College Admission Test (PCAT), Legislative Exemption Exams and placement tests are administered through this office. The Testing Office also assists students by providing a center for Independent Testing for Correspondence Courses taken at other institutions. Persons interested in further information concerning dates, times, cost, eligibility and sign-up procedures should contact the Testing Office at (912) 681-5415, come by Room 2004 in the Williams Center, or check the web page at http://academics.georgiasouthern.edu/testing/.

Directory Information
Directory information which consists of name, post office box, telephone number, date and place of birth, major, participation in activities, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent educational institution attended is considered public information and will be released to those requesting such information, unless the student has specifically requested that information in this category be restricted. Any student may present a written request to the Registrar that such information not be released. However, requests that directory information be withheld from a written publication must be received in sufficient time to prevent a delay in processing that publication.

As a matter of policy, the University does not release to outside agencies lists of students categorized by national origin or by membership in clubs and organizations. Other requests by category will be reviewed on an individual basis. Requests will be honored when the identified purpose of the outside agency has an obvious relationship to the category of student requested and when such categorization can be easily retrieved.

Annual Notice of Privacy Rights
This institution is covered by the Family Educational Rights and Privacy Act of 1974 (FERPA), which is designed to protect the student’s rights with regard to educational records maintained by the institution. Under this Act, a student has the following rights:
1. the right to inspect and review education records maintained by this institution that pertain to the student;
2. the right to challenge the content of records on the grounds that they are inaccurate, misleading or a violation of privacy or other rights; and
3. the right to control disclosures from the education records with certain exceptions.
Admissions

The University accepts applications from qualified applicants from all cultural, racial, religious and ethnic groups. Admissions standards are designed to identify students whose academic backgrounds indicate they are capable of successfully completing work at Georgia Southern University. (See Equal Opportunity Policy statement inside the front cover.)

Applications for admission may be submitted online at http://admissions.georgiasouthern.edu/. Applications must be submitted prior to the application deadline.

Normally, all applicants who have applied or updated their applications prior to the application deadline for a specific term will be considered for admission. However, the University reserves the right to stop accepting applications at any time. Therefore, students are encouraged to apply or update well in advance of the application deadline.

The University reserves the right to examine any applicant by the use of psychological, achievement and aptitude tests. Each applicant must give evidence of good moral character, promise for growth and development, seriousness of purpose, and a sense of social responsibility.

The University reserves the right to require additional biographical data and/or an interview before the applicant is accepted or denied admission. If an interview is required, the applicant will be notified.

The Director of Admissions may refer any applicant to the Academic Standards Committee of the University for study and advice. The final decision of acceptance or denial will be made by the Director of Admissions subject to the applicant’s right to appeal as provided in the policies of the Board of Regents of the University System of Georgia.

An applicant who chooses not to enroll for the semester accepted must notify the Office of Admissions to update the term of application. Acceptance may be deferred until additional information is received. An applicant who updates the intended term of entry must meet admissions requirements for the new term.

Immunization Requirements
Please refer to the Health Services section of the catalog.

Beginning Freshmen
Requirements for Summer 2006, Fall 2006, Spring 2007
*An applicant will be considered for admission upon compliance with the following requirements and conditions:
1. Graduation from an approved secondary school;
2. Satisfactory completion of college preparatory subjects in high school which should include the following units:
   4. English
   3. Social Studies
   4. Mathematics (courses should include Algebra I, Algebra II, Geometry and Trigonometry or other higher math)
   2. Foreign Language (must be the same language)
   3. Science (2 with Labs);
3. Submission of satisfactory scores on the College Entrance Examination Board Scholastic Aptitude Test (SAT) - minimum 1000 SAT total (Math + Verbal/Critical Reading) and an essay score - or American College Test (ACT) with a 21 composite;
4. U.S. Citizens or Resident Aliens for whom English is not the native language may be required to take the English Language Placement Exam upon arrival. Resident Aliens must submit a copy of their green card;
5. Submission of an official high school transcript and a record of good conduct. Major or continued difficulty with the school or civil authorities may make an applicant ineligible regardless of academic qualifications.

Applicants are usually admitted prior to high school graduation, once they have completed their junior year of high school and have submitted an official high school transcript. The transcript should include a satisfactory grade point average and satisfactory SAT or ACT scores.

An individual seeking admission as a special student not pursuing a degree program must submit a statement as to the type of studies to be pursued and the reason for selecting a special program. The individual must also submit documents and satisfactory scores on such ability or achievement tests as may be prescribed by the Director of Admissions.

*Requirements are subject to change. Please contact the Office of Admissions at (912) 681-5391 or at http://admissions.georgiasouthern.edu/ for current admission requirements.

Please note: Students applying to the Georgia Southern nursing program must meet general admissions requirements, as well as meet specific nursing program requirements. An additional application to the nursing program is required. Admission to Georgia Southern University does not guarantee acceptance into the nursing program.

(GED holders - See Mature Student criteria)

College Preparatory Curriculum (CPC)
Requirements for Summer 2006, Fall 2006, Spring 2007
The following high school courses are required of students who plan to enroll in regular college programs leading to the baccalaureate degree in institutions of the University System of Georgia: four units of English (including grammar and usage, American and World literature, and advanced composition skills), three units of science (including at least one lab course from the life sciences and one lab course from the physical sciences), four units of mathematics (Algebra I, Algebra II, Geometry and Trigonometry or higher), three units of social science (including one course focusing on United States studies, one course focusing on world studies, and a third college prep social science course), and two units of the same foreign language (skills-building courses emphasizing speaking, listening, reading, and writing). The Board of Regents provides a listing of specific qualifying college preparatory and academic courses in the Academic Affairs Handbook, Section 3.01.01. It is available on-line at http://www.usg.edu/academics/handbook.

Additional courses selected from the following areas are also strongly recommended: trigonometry, an additional laboratory course in science, a third course in foreign language or study of a second foreign language, fine arts (art, dance, drama, music), computer technology, health and physical education, and keyboarding.

Students who have completed the required courses of the college preparatory curriculum and who meet all other admission requirements will be considered for admission to Georgia Southern University as regularly admitted students.

Joint Enrollment Program
A student classified as a high school junior or senior may apply to enroll for college credit while attending high school. To be admitted, the student must satisfy the following:
1. Have earned an academic grade-point average of at least a 3.0 (85 on numeric scale);
2. Submit SAT scores of at least 1010;
3. Excel in the field in which the student is seeking to enroll;
4. Have written consent of parent or guardian;
5. Must be on track to complete College Preparatory Curriculum (CPC) requirements;
6. Meet all other regular (non-provisional) admissions requirements.
Accel Program
Effective Fall Term 2004, students who are receiving dual credit for high school courses and college degree-level courses from an eligible public or private college in Georgia will be eligible for the Accel Program. Public or private HOPE-eligible high schools and postsecondary institutions are eligible to participate in this program. A high school student must be classified as an 11th or 12th grader to participate. Eligible high school courses include only core-curriculum courses of English Language Arts, Mathematics, Social Studies, Science, and Foreign Language that can be used to satisfy the core-curriculum high school graduation requirements. All hours paid for by the Accel Program will be included in the 127 semester or 190 quarter-hour HOPE credit hour cap. College degree-level credit hours that students earned while in high school prior to Fall 2004 will not count towards the cap. The Accel Program award for public colleges and universities will cover tuition, HOPE-approved mandatory fees (which are capped at FY 2004 levels), and a book allowance.

Students must apply by submitting an Accel Program Application form. The Georgia Department of Education (DOE) has produced and provided to the Georgia Student Finance Commission (GSFC) a directory of eligible public high school courses that can be substituted with college degree-level coursework and applied toward high school graduation requirements for dual credit students. Georgia Student Finance Commission contact information - (770) 724-9025 or http://www.gsfcc.org/

Questions regarding this program should be directed to the student’s high school counselor or Guidance Office or the Office of Admissions. Students should confer with their high school counselor to determine which courses are necessary for satisfying high school graduation requirements. Placement in these courses cannot be guaranteed.

*Students who are dual-enrolled during high school with a college or university other than Georgia Southern University must meet the University System of Georgia’s joint enrollment requirements before credit will be awarded in transfer to Georgia Southern.

Transfer Admission
Transfer admission policies are subject to change. Interested applicants should contact the Office of Admissions.

*Applicants who have attended any college or university should satisfy the following:
1. Request the Registrar at each institution attended, regardless of length of attendance or amount of credit earned, to send an official transcript to the Director of Admissions.
2. Present a satisfactory academic record from each institution attended. Admission will be evaluated in accordance with one of the following categories, as appropriate:
   a. Generally, students completing a transferable A.A. or A.S. degree with a 2.0 cumulative GPA (4.0 scale) in a college or university parallel curriculum will be offered admission.
   b. Students who have earned 30 semester hours (45 quarter) of collegiate work: admission will be granted only if the student has a cumulative grade point average of at least 2.0 on all collegiate work attempted or on the most recently attempted 30 semester credit hours (45 quarter).
   c. Students who have earned fewer than 30 semester hours (45 quarter) and graduated from a Georgia high school: admission will be granted only if the student meets all current requirements for regular freshman admission to Georgia Southern University and be eligible to return to their previous institution.
   d. Students who have earned fewer than 30 semester hours (45 quarter) and graduated from a non-Georgia high school: admission will be granted only if the student meets all current requirements for regular freshman admission with the exception of the Georgia college preparatory curriculum requirements, however, the applicant must meet the college preparatory curriculum requirements for the state from which they graduate high school. The student must also be eligible to return to their previous institution.
   e. GED transfer applicants are required to complete at least 30 semester hours (45 quarter) of transferable work with a 2.0 cumulative GPA.

*Applicants will not be eligible for admission if they are under current dismissal from any other institution. Students who have earned under 30 semester hours (45 quarter) of college parallel credit at another institution and have not met Georgia Southern University’s freshman admission requirements and/or are enrolled in remedial/learning support courses at another college will not be eligible for admission until they successfully complete the remedial/learning support courses and have earned 30 semester hours (45 quarter) of regular degree credit with a cumulative 2.0 GPA.

Note: College prep curriculum make-up or learning support classes do not count toward the 30 hours of transferable work.

The Director of Admissions will ordinarily determine the applicant’s eligibility on the basis of the above requirements but may also require the applicant to meet any or all of the following:
1. Present transcripts of high school work and meet freshman admission requirements.
2. A personal interview.
3. Present results for any psychological, achievement or aptitude test that the college may prescribe.

The applicant has the right to appeal the decision of the Director of Admissions to the Academic Standards Committee. Students applying to the Nursing program must submit an additional application to the Nursing program and must meet additional admissions requirements. Students must be admitted to the University in order to be admitted to the Nursing Program.

Transfer Credit/Military Credit
Accepted applicants who have attended any college or university may be granted advanced standing according to the following policies:
1. Transfer credit may be accepted from degree granting institutions that are fully accredited at the collegiate level by their appropriate regional accrediting agency. The regional accrediting agencies are: Middle States Association of Colleges and Schools, North Central Association of Colleges and Schools, New England Association of Colleges and Schools, Northwest Association of Colleges and Schools, Southern Association of Colleges and Schools, and Western Association of Colleges and Schools. Provisions may be considered when an institution appeals the policy. However, should the quality of the educational program of the institution attended appear to be mediocre or unsatisfactory, the Director of Admissions has the prerogative not to accept all or any part of previously earned credits.
2. The amount of academic credit accepted in transfer may not exceed the normal amount of credit that could have been earned at Georgia Southern University during that time.
3. Credit will be allowed for completed college courses which are parallel in nature. Below college level (remedial or refresher) courses cannot be accepted in transfer.
4. The Director of Admissions, the Registrar, or the University Ombudsperson will make judgments concerning satisfying requirements for areas A-E of the Core Curriculum.
5. Transfer students who have a transferable academic associate’s degree are granted core curriculum credit as follows:
   a. A University System transfer will get credit for completion of core areas A-F, health and kinesiology, provided they have not changed their intended major from the transferring school. If they change majors, they will have to complete area F at Georgia Southern University (Academic Affairs Handbook, University System of Georgia, 2.04.04).
Non-system transfers who have completed a program with 60 semester hours or more will be given credit for core areas A-E, health and kinesiology (46 hours). Area F courses will be evaluated by the major advisor for use in the student’s program of study.

Credit accepted in transfer by Georgia Southern University may not necessarily apply as hours toward graduation. Final determination, with exception of areas A-E of the core curriculum, will be made by the appropriate academic advisor and are subject to the regulations of the school and department granting the degree and major.

Transfers who have earned 30 or more hours are exempt from GSU 1210 - University Orientation.

A maximum of 30 semester hours of correspondence (including Advance Placement, CLEP, DANTES, Military Credit, Extension, etc.) may be accepted for transfer within the following guidelines:

- A minimum grade of “C” is required for courses completed by extension or correspondence.
- A maximum of fourteen semester hours of credit for military service experience may be awarded upon receipt of AARTS or DD214 or DD295 or any other official documentation in the Registrar’s Office.
  - Fourteen semester hours including up to four semester hours of credit for physical education activity courses may be awarded for correspondence courses as recommended by the American Council on Education (A.C.E.).
  - Two semester hours of credits will be allowed for Physical Conditioning and Marksmanship for active service less than one year and four semester hours of credit for physical education activity courses may be awarded for one year or more active service.
- Military experience credit should be appropriate to the degree programs offered at Georgia Southern University.
- Any credit awarded for participation in the DANTES program will be awarded and administered in the same manner as CLEP.

Credit By Examination

Advanced Placement, International Baccalaureate, and CLEP Georgia Southern University is a participant in the Advanced Placement (AP) Program, the International Baccalaureate (IB) program, and the College Level Examination Program (CLEP) of the College Entrance Examination Board. Under the AP and IB programs, a student offers a nationally graded examination as evidence of completion of a college level course taken in high school. Depending on the results of the examination, the student may receive credit for courses covering similar material. Under the College Level Examination Program, the University grants up to 30 semester hours of general education credit to those students who obtain the minimum scores defined by university policy. (Credit will not be awarded if the student has previously registered for a similar course or a more advanced course in the same field, or if six months have not elapsed since last taking the test.) For further information contact the Director of Admissions or check the website, http://admissions.georgiasouthern.edu/.

Proficiency Exams

Georgia Southern University also offers the student an opportunity to obtain credit by local proficiency examination. The procedure is as follows:

1. Student eligibility must be determined by the Registrar.
2. Student petitions department head of the subject area for an examination covering a particular course listed in the catalog.
3. The student and the examiner will decide the date and time of the examination.
4. If the petition is approved, the student must pay a test fee of $15 per test to the Cashier’s Office. A receipt will be issued which will allow the student to take the test.

5. Credit obtained by proficiency examination will be considered resident credit.
6. The proficiency exam score must be at least a “C” to award credit by exam. The Registrar will enter a grade of “K” on student’s academic record showing credit was earned by proficiency examination.

Transit Admission

Subject to the availability of faculty, space, and facilities, a regular undergraduate student in good standing at another accredited institution may be permitted to enroll one semester at Georgia Southern University in order to complete work to be transferred back to the parent institution. The transient applicant should:

1. Submit the undergraduate application and application fee.
2. Present a statement from the dean or registrar of the home institution to the effect that he or she is in good academic standing and eligible to return to that institution.
3. Submit transcripts from all institutions attended and meet transfer requirements if applying for fall or spring terms.

Post-Baccalaureate Admission

Applicants for admission with a bachelor’s degree from an accredited institution but who are not seeking graduate-level credit are expected to meet general admission requirements established for enrollment in undergraduate programs.

In addition to the general application for admission form and the $50 application fee, applicants are required to submit an official transcript to the Director of Admissions from the institution in which they received their undergraduate degree. If the applicant is seeking an additional degree, official transcripts from all previous institutions will be required.

Individuals enrolled as post-baccalaureate students are eligible to take undergraduate level courses only.

International Student Admission

Georgia Southern subscribes to the principles of international education and to the concept that education and diversity can promote respect, appreciation, understanding, and tolerance of other cultures.

International students, permanent residents, and naturalized citizens graduating from U.S. high schools must meet requirements and conditions set forth under the heading of “Beginning Freshmen” in the Admissions section of this catalog. This includes completion of college preparatory subjects, submission of satisfactory scores on the Scholastic Aptitude Test (SAT) or the American College Test (ACT), and satisfactory grade point average. Students transferring from U.S. colleges or universities must meet the same requirements set forth in the “Transfer Admission” section of this catalog.

Applicants graduating or transferring from schools outside the United States will be considered for admission upon compliance with the following requirements:

1. Transfer and graduate students must submit an evaluation of international transcripts completed by a professional evaluation agency. Georgia Southern University recommends that the student use World Education Services (WES), http://www.wes.org/.
2. Submission of original or official secondary school and higher educational records including exam results, certificates, degrees, diplomas, and/or transcripts in the native language. The grade point average must be above average in academic work.
3. Submission of all educational documents translated into English; must be official translations.
4. Non-native English speakers must submit satisfactory scores on the Test of English as a Foreign Language (TOEFL). International students whose native language is not English, but whose secondary instruction was exclusively in English, must submit SAT scores. Native speakers of English will
be required to submit satisfactory scores on the Scholastic Aptitude Test (SAT).

5. Applicants residing outside the U.S. who require an F-1 student visa must submit a SEVIS Data Form and official documentation from a financial institution showing a minimum of one year’s educational and living expenses. The University assumes no financial responsibility for the student. Without this financial evidence, the University cannot issue the required I-20 Certificate of Eligibility for Nonimmigrant F-1 Student Status. Continuation of enrollment into a new program of study, such as a Master’s degree, requires additional financial documentation.

6. If the student is in the United States or has a U.S. visa, a copy of the visa, I-94, and passport information must be submitted at the time of application. Permanent residents (green card holders) are required to submit a copy of their resident alien card.

International students, permanent residents, and naturalized citizens, regardless of TOEFL or SAT scores, may be required to take an English placement exam upon arrival at Georgia Southern University. Georgia Southern University maintains the philosophy that all students who gain admission should be given the best chance possible to succeed. Since students enter at many levels of ability and preparation, the University seeks to give assistance to each student where needed. Georgia Southern University offers a full range of English Language Program courses designed specifically to assist students whose native language is not English in developing English skills.

Students in F-1 visa status are responsible for making sure they comply with all laws regulating their visa status. To assist students with maintaining their visa status, a summary of the visa laws are sent with the I-20 and are provided at the International Orientation session after arrival on campus. In addition, handouts are available in the Center for International Studies in the Forest Drive building. Students are encouraged to contact the Center for International Studies for information and assistance at (912) 486-7435 or on the web at http://academics.georgiasouthern.edu/international.

Two basic aspects of maintaining status involve employment and full-time enrollment. F-1 visa law allows students to work on campus for a maximum of 20 hours a week. During summer semesters (if not enrolled) and official breaks, students are permitted to work on campus full time. Off-campus work is NOT permitted without specific authorization from Georgia Southern’s Immigration Specialist or U.S. Citizenship and Immigration Services. F-1 visa law requires students to carry a FULL course of study during Fall and Spring Semesters. Summer Semesters are recognized as vacation terms and enrollment is not required. Full time enrollment is as follows:

12 hours per semester = Undergraduate
9 hours per semester = Graduate (Some exceptions apply and must be closely coordinated with the Center for International Studies)

This institution will only admit students who are academically qualified.

The University System of Georgia requires all international students to have adequate health insurance. An insurance plan is available through the University and is administered by the Center for International Studies. The current cost is about $525 per year and is paid in two installments. The August premium (payment) covers Fall Semester and the January premium covers Spring and Summer Semesters. Students who have health insurance that provides coverage in the U.S. may submit an International Student/Scholar Insurance Waiver Form, available through the Center for International Studies, to their insurance company. If the waiver is received directly from the insurance company and indicates the student has insurance comparable to the policy available through Georgia Southern, the insurance premium will be removed from the student’s fees. Insurance is also available for dependents.

Additional information on the international health insurance plan can be obtained from the Center for International Studies.

Special Admission for Students Age 62 and Older

Georgia citizens who are 62 years of age or older have the option, as granted by Amendment 23 of the Georgia Constitution, of enrolling in the University without the payment of fees subject to the following conditions:

1. Must be a legal resident of Georgia.
2. Must be 62 years of age or older and present proof of age at the time of registration.
3. Must enroll as a regular student to audit or take courses offered for resident credit.
4. Must pay for supplies, laboratory or fees.

Individuals who do not qualify as mature students (see below) must also satisfy the following:

5. Must meet all Georgia Southern University and University System of Georgia admission requirements including high school graduation, SAT or ACT scores, and participation in Learning Support if required;
6. If the applicant has previously attended another college or university, he or she must satisfy transfer admission requirements;
7. If a course of study is pursued to degree, all institutional, system, and state-licensed degree requirements must be met. (See REQUIREMENTS FOR GRADUATION.)

Special Admission for Mature (Non-Traditional) Students

Applicants applying for admission as a mature student must meet the following requirements:

1. Students who have been out of high school for at least five years or whose high school class graduated at least five years ago or have earned fewer than 30 transferable semester hours of college credit and have not attended college within the past five years (or are in good standing at the last college attended if admitted to that college as a non-traditional student) are not required to take the SAT or ACT. These students, however, shall take the University System of Georgia COMPASS exam and complete Learning Support requirements if applicable.
2. In addition to the application and application fee, applicants must submit a high school transcript, college transcript, and/or GED scores.

Readmission Policy

The following students must fill out a former student readmission application:

1. Students who do not attend the University for one calendar year.
2. Students whose most recent academic standing was learning support dismissal must file an application for readmission by the published deadlines in the University Calendar.
3. Students whose most recent academic standing was exclusion.
4. Students that have earned a baccalaureate degree from Georgia Southern University who wish to enroll in additional undergraduate courses.
5. Students that wish to return as a transient student to Georgia Southern University.

Note: Students who are not required to file an application for readmission who have attended another institution while away from Georgia Southern University should contact that school and have an official transcript sent to Georgia Southern University Office of the Registrar.

The transcript must indicate that the student is in good academic standing at the last school attended. Failure to submit this transcript by the midpoint of the first term after returning to Georgia Southern University could result in the administrative withdrawal of the student.
Residency
Regents' Policies Governing Classification of Students for Tuition Purposes: Under the Constitution and the laws of Georgia, the Board of Regents of the University System of Georgia was created to govern, control and manage a system of public institutions providing quality higher education for the Georgia citizens. The State, in turn, receives substantial benefit from individuals who are attending or who have attended these institutions through their contributions to the civic, political, economic and social advancement of the citizens of Georgia. Because of the overwhelming amount of financial support supplied by the citizens of Georgia, the determination of whether a student is a resident or a non-resident of Georgia is a significant matter. The tuition paid by in-state students covers about one-fourth of the total cost of their education in Georgia. Georgia taxpayers are therefore contributing 75 percent of the funds for quality education in the state. State colleges and universities often assign out-of-state students a higher tuition rate in an attempt to achieve parity between those who have and those who have not contributed to the state's economy recently. The courts consider the durational residency requirement (usually 12 months) imposed by most states to be a reasonable period during which the new resident can make tangible or intangible contributions to the state before attending state colleges as an in-state student. The term “resident” is confusing because it can refer to voter registration, driver’s license, automobile registration, income taxes and other matters. A student may be a resident of Georgia for various purposes, but not entitled to in-state tuition fees. Courts have consistently upheld the right of these institutions to charge out-of-state students higher rates. The courts have also upheld the institution’s right to adopt reasonable criteria for determining in-state status. Through the resident and non-resident fees, the taxpayers of Georgia are assured that they are not assuming the financial burden of educating non-permanent residents.

If a person has moved to the state of Georgia for the purpose of attending a Georgia educational institution, it is difficult for that person to prove his/her intent to become a legal resident of the state. (The American Heritage Dictionary of the English Language defines intent in the following manner: n. 1. That which is intended; aim; purpose.)

Due to the requirement that a person prove his/her intent to have become a legal resident of the state of Georgia, his/her petition may not be approved. The burden of proof is always on the student, and documentation is absolutely necessary to prove any claims. If his/her petition for legal residency for tuition purpose is denied, the student may appeal the decision to the Residency Committee.

Student Responsibilities
1. Student Responsibility to Register Under Proper Classification - The responsibility of registering under the proper tuition classification belongs to the student. If there is any question of his/her right to in-state tuition status, it is his/her obligation, within 60 calendar days, beginning with the first day of class, to raise the question with the administrative officials of the institution in which he/she is registering and have it officially determined. The burden always rests with the student to submit information and documents necessary to support his/her contention that he/she qualifies for a particular tuition classification under Regents’ regulations.
2. Official Change of Tuition Status - Every student classified as a nonresident shall retain that status until such time as he/she shall have petitioned for reclassification in the form prescribed by the institution and shall have been officially reclassified in writing as an in-state student by the proper administrative officers. No more than one application may be filed for a given semester.
3. Reclassification - Every student who has been granted in-state tuition as a legal resident of Georgia shall be reclassified as an out-of-state student whenever he/she reports, or there have been found to exist, circumstances indicating a change in legal residence to another state.

Classification of Students for Tuition Purposes
1. If a person is 18 years of age or older, he or she may register as an in-state student only upon showing that he or she has been a legal resident of Georgia for a period of at least 12 months immediately preceding the date of registration.

Exceptions:
a. A student whose parent, spouse, or court-appointed guardian is a legal resident of the State of Georgia may register as a resident providing the parent, spouse, or guardian can prove proof of legal residency in the State of Georgia for at least 12 consecutive months immediately preceding the date of registration.
b. A student who previously held residency status in the State of Georgia but moved from the state then returned to the state in 12 or fewer months.
c. Students who are transferred to Georgia by an employer are not subject to the durational residency requirement.

No emancipated minor or other person 18 years of age or older shall be deemed to have gained or acquired in-state status for tuition purposes while attending any educational institution in this state, in the absence of a clear demonstration that he or she has in fact established legal residence in this state.

2. If a parent or legal guardian of a student changes his or her legal residence to another state following a period of legal residence in Georgia, the student may retain his or her classification as an in-state student as long as he or she remains continuously enrolled in the University System of Georgia, regardless of the status of his or her parent or legal guardian.

3. In the event that a legal resident of Georgia is appointed by a court as guardian of a nonresident minor, such minor will be permitted to register as an in-state student providing the guardian can provide proof that he or she has been a resident of Georgia for the period of 12 months immediately preceding the date of the court appointment.

4. Aliens shall be classified as nonresident students, provided, however, that an alien who is living in this country under an immigration document permitting indefinite or permanent residence shall have the same privilege of qualifying for in-state tuition as a citizen of the United States.

Out-of-state Tuition Waivers
An institution may waive out-of-state tuition and assess in-state tuition for:
1. International and Superior Out-of-State Students. International students and superior out-of-state students selected by the institutional president or an authorized representative, provided that the number of such waivers in effect does not exceed 2 percent of the equivalent full-time students enrolled at the institution in the fall term immediately preceding the term for which the out-of-state tuition is to be waived.
2. University System Employees and Dependents. Full-time employees of the University System, their spouses, and their dependent children.
3. Medical/Dental Students and Interns. Medical and dental residents and medical and dental interns at the Medical College of Georgia (BR Minutes, 1986-87, p. 340).
4. Full-Time School Employees. Full-time employees in the public schools of Georgia or of the Department of Technical and Adult Education, their spouses, and their dependent children.
5. Medical/Dental Students and Interns. Medical and dental residents and medical and dental interns at the Medical College of Georgia (BR Minutes, 1986-87, p. 340).
6. Career Consular Officials. Career consular officers, their spouses, and their dependent children who are citizens of the foreign nation that their consular office represents and who are stationed and living in Georgia under orders of their respective governments.
7. Military Personnel. Military personnel, their spouses, and their dependent children stationed in Georgia and on active duty, unless such military personnel are assigned as students to System institutions for educational purposes.

Admissions 22
7. Border County Residents. Residents of an out-of-state county bordering a Georgia county in which the reporting institution or a Board-approved external center of the University System is located. Only Georgia Southern University graduate students who live in an out-of-state county that borders Chatham County, Georgia and attend classes at the Coastal Georgia Center in Savannah are eligible for this waiver.

9. Direct Exchange Program Students. Any international student who enrolls in a University System institution as a participant in a direct exchange program that provides reciprocal benefits to University System students.

10. Families Moving to Georgia. A dependent student who, as of the first day of term of enrollment, can provide documentation supporting that his or her supporting parent or court-appointed guardian has accepted full-time, self-sustaining employment and established domicile in the State of Georgia for reasons other than gaining the benefit of favorable tuition rates may qualify immediately for an out-of-state tuition differential waiver which will expire 12 months from the date the waiver was granted. An affected student may petition for residency status according to established procedures at the institution. Spouses are not eligible for this waiver.

11. Recently Separated Military Service Personnel. Members of a uniformed military service of the United States who, within 12 months of separation from such service, enroll in a program for teacher certification and demonstrate an intent to become a permanent resident of Georgia. This waiver may be granted for not more than one year.
Financial Aid

Georgia Southern University offers a comprehensive program of financial aid for students who, without such aid, would be unable to continue their education. Through this program, an eligible student may receive one or more types of financial aid: employment, grants, loans, and scholarships. Most financial aid at Georgia Southern University is awarded on the basis of a student’s academic progress and proven “financial need”, defined as the difference between a family’s estimated resources and the total estimated expense of attending the University. Georgia Southern University uses the Free Application for Federal Student Aid (FAFSA) form provided by the U.S. Department of Education to measure a student’s financial need eligibility. Students may receive financial aid for up to 30 credit hours of Learning Support Program course work. Contact the Department of Financial Aid at (912) 681-5413 for help with questions and problems. The Financial Aid Department, part of the Division of Student Affairs and Enrollment Management, is located on the second floor of Rosenwald Building. The fax number is (912) 681-0573.

Four forms of financial aid are available:

$ Federal Work-Study (FWS) provides jobs to students who qualify for need-based financial aid. Students normally work two hours per day for various wages.

$ Grants - Federal, state and privately funded grant programs are available to students enrolled at Georgia Southern University.

$ Loans - Loan programs are available from state and federal agencies.

$ Scholarships - Georgia Southern University offers a limited number of academic scholarships to its students. These awards may be divided into two categories: “General Scholarships” and “Departmental Scholarships.” Visit the Financial Aid Office website for a list of departmental contacts for scholarships. For information regarding Athletic Scholarship programs, contact the Athletic Administration Division at (912) 681-5047.

Application Procedures
To apply for any Federal Title IV aid:
$ Complete and submit an Application for Admission to attend Georgia Southern University.
$ By March 31, complete a Free Application for Federal Student Aid (FAFSA) online at www.fafsa.ed.gov, for the year you plan to enroll. You must list Georgia Southern University as one of the schools you plan to attend. Our school code is 001572.
$ Enrolled students should re-apply for aid by March 31 of each year.

March 31 is a preferred filing date for financial aid. Applicants not filing by this date may not have funds available by the Fall semester fee payment deadline, which is the first day of class.

More detailed information about financial aid programs can be secured by emailing the Financial Aid Department at finaid@georgiasouthern.edu.

Class Attendance Verification
In accordance with federal regulations, financial aid can not be released to the Office of Student Fees account until your professor(s) have verified your class attendance. Class attendance will be taken by professors within the first week of the beginning of each class for which you are registered.

Employment Programs
The University offers two student employment programs: Federal College Work Study and Institutional Work Program.

Federal College Work-Study Program - The Federal College Work-Study Program (FWS) provides jobs for students who demonstrate financial need and who want to earn part of their educational expenses. Students must file the Free Application for Federal Student Aid and establish financial need to be awarded FWS. Applicants must be enrolled at least half-time (six hours). The amount of the award depends upon demonstrated financial need and the amount of funds available. Funding is very limited for this program. The standard award allows the student to work 10 hours per week for the 15-week semester. Visit the Financial Aid Website at http://students.georgiasouthern.edu/finaid for more information.

Institutional Work Program - The Institutional Work Program helps students find part-time jobs in the various departments on campus. All currently enrolled students may participate and no financial eligibility requirements apply. Interested students should review the Department of Career Services website at http://students.georgiasouthern.edu/career/eagletrak in order to review the various on-campus job openings and part-time job opportunities available in the Statesboro area. Students must be enrolled in six or more hours to qualify for this program.

Grant/Scholarship Programs
State Grants
The Georgia Student Finance Commission administers a number of state scholarships and student grant programs. For information contact the Georgia Student Finance Commission, 2082 East Exchange Place, Suite 200, Tucker, GA 30084, (800) 505-4732, or http://www.gsfc.org.

Federal Pell Grant
The Federal Pell Grant is the primary federal student aid program administered by the U.S. Department of Education. It is intended to be the first and basic component of an undergraduate student’s financial aid package. To be eligible:
$ You must show financial need.
$ You must be enrolled in an approved undergraduate course of study and must not have a bachelor’s degree.
$ You must be a U.S. citizen or an eligible non-citizen as defined in the instructions of approved Federal Pell Grant application forms (FAFSA).

You may receive a Pell Grant each academic year until you receive your bachelor’s degree. Federal Pell Grants range from $400 to $4,050 per year (but may vary pending Federal enactment). Follow the instructions on the FAFSA form to apply for the Federal Pell Grant beginning January 1 of every year.

Federal Supplemental Education Opportunity Grant (FSEOG)
The Federal Supplemental Education Opportunity Grant (FSEOG) is a federal program administered by the Financial Aid Department to assist undergraduate students with financial need. To be eligible:
$ You must show substantial financial need by using the FAFSA form.
$ You must be eligible for Federal Pell Grant.
$ You must be enrolled in an undergraduate course of study and you must not have a bachelor’s degree. The standard grant amount awarded is $600 per academic year. The federal funding for this program is limited; therefore, funds are depleted rapidly.

Georgia Leveraging Education Assistance Program (LEAP) The Georgia LEAP (Leveraging Educational Assistance Program) provides educational grant assistance to undergraduate Georgia
residents who demonstrate exceptional financial need who are enrolled for at least six semester hours. LEAP Grants do not have to be paid back and can be awarded in addition to the Pell Grant. The maximum award is $1,000 a year at Georgia Southern. The amount you receive depends on when you apply, your level of need, and the funds available in the program.

Loan Programs
Federal Perkins Loan Program
The Federal Perkins Loan Program is a low-interest (five percent) government loan for undergraduate students with exceptional financial need. This program is administered by the Department of Financial Aid at Georgia Southern University. Student eligibility is based upon a predetermined awarding formula using available funds.

Maximum Loan Amounts
You may be awarded up to $4,000 for each year of undergraduate study. The total amount you may borrow as an undergraduate is $20,000. However, the standard Perkins Loan awarded at Georgia Southern University is $2,000 per academic year; $1,000 per Semester.

Repayment Obligation
Repayment begins nine months after you graduate, leave school, or drop below half time enrollment. You may be allowed up to 10 years to repay the loan. During the repayment period, you will be charged five percent, simple interest on the unpaid balance of the loan principal.

Application Procedure
$ Complete the FAFSA
$ Statement of Rights and Responsibilities Under the Federal Perkins Loan Program: A Federal Perkins Loan is a serious legal obligation. Therefore, it is extremely important that you understand your rights and responsibilities.

1. You must, without exception, report any of the following changes to the Federal Perkins Loan Collections Office, Georgia Southern University, P.O. Box 8119, Statesboro, GA 30460, (912) 681-5974:
   a. If you withdraw from school;
   b. If you transfer to another school;
   c. If you drop below half-time enrollment status;
   d. If your name should change (because of marriage, for example);
   e. If your address or your parents’ address changes;
   f. If you join military service, Peace Corps, or VISTA.

2. When you graduate or withdraw from Georgia Southern University, you MUST arrange for an exit interview by calling (912) 681-5974.

3. Your first monthly payment will be due nine months from the time you cease to be at least a half-time student.

4. Your minimum monthly payment will be at least $40.

5. The annual percentage rate of five percent will be the FINANCE CHARGE based on the unpaid balance and will begin to accrue six months after you cease to be enrolled as at least a half-time student.

6. Cancellation will be granted for certain types of elementary or secondary school teaching; for military service in areas of hostilities; for full-time staff members in Head Start; and for permanent disability. You also accept the responsibility to inform the school of such status. In the event of death, family members should contact the school.

7. If you enter the military service, Peace Corps, VISTA, or comparable tax-exempt organization, full-time active duty in the Commissioned Corps of the U.S. Public Health Service, while temporarily totally disabled, or return to at least half-time study at an institution of higher education, you may request that the payments on your National Direct Student Loan be deferred.

8. If you fail to repay any loan as agreed, the total loan may become due and payable immediately and legal action could be taken against you.

9. You must promptly answer any communication from Georgia Southern University regarding the loan.

10. You may repay at any time. Future interest payments will be reduced by making such payments. If you cannot make a payment on time, you must contact Georgia Southern University Federal Perkins Loan Office at (912) 681-5974.

11. Your loan history will be reported to a credit bureau at the time of disbursement.

12. When you sign the loan agreement, you authorize Georgia Southern University to contact any school which you may attend to obtain information concerning your student status, year of study, dates of attendance, graduation, withdrawal, transfer to another school or current address.

Federal Direct Lending Program
Georgia Southern University participates in the Federal Direct Lending Program. Loan funding comes directly from the U.S. Department of Education to students through the Federal Direct Stafford Loan Program and to the parents through the Federal Direct PLUS (Parent Loan for Undergraduate Students) Program. Additional information is available at http://www.ed.gov/StaffLoan.

The University is responsible for providing, collecting, and forwarding a signed promissory note to a contracted loan servicer. When loans are due, borrowers will repay them directly to the federal government through the loan servicer.

Federal Direct Stafford Loan
The Federal Direct Stafford Loan Program provides low-interest, long-term loans through the University. Funding for these loans comes from the U.S. Department of Education. These loans may be subsidized or unsubsidized. Eligible students must be admitted and enrolled in good standing at least half-time (six hours for undergraduate and four hours for graduate) in a program leading to a degree. If you drop below half-time status during a semester, the remainder of your loan may be canceled.

The amount you may borrow is determined by federal guidelines. The federal maximum that you are allowed to borrow follows:
$ Freshman (those who have not completed 30 earned credit hours) - $2,625 yearly
$ Sophomore (30-59 earned hours) - $3,500 yearly
$ Juniors or seniors (60 + earned hours) - $5,500 yearly
$ Graduate students - $8,500 yearly

Repayment normally begins six months following graduation or when you cease to be at least a half-time (six hours for undergraduate and four hours for graduate) student. Payments and the length of the repayment period depend upon the size of your debt, but must be a minimum of $600 per year. Under special circumstances, repayment of a Federal Direct Stafford Loan that is not in default may be deferred or canceled. Repayment, deferment, and cancellation are handled by a federal loan servicer. If you are eligible for a Federal Direct Stafford Loan, and request a loan on your FAFSA, you will be awarded one (either subsidized or unsubsidized or a combination of both) as part of your financial aid package. Please read the following paragraphs to learn the differences between the subsidized and unsubsidized Federal Stafford Loans. If you decide to borrow a Federal Direct Stafford Loan, you are required to sign a master promissory note which the university will forward to a federal loan servicer.

Subsidized Federal Direct Stafford Loan
The amount of subsidized Federal Direct Stafford Loan you may borrow is the difference between the cost of education (your budget) and your resources (family contribution, financial aid such as Federal Perkins Loan, College Work Study, and any other assistance you receive from the school and outside resources including scholarships). However, you may not borrow more than the federal maximum for your grade level.

If you are eligible for a subsidized Federal Direct Stafford Loan, the government will pay the interest for you until repayment begins. You will be assessed a loan origination fee (currently 1.5%), which is deducted from the loan proceeds but will not reduce the principal balance you are required to repay.
Unsubsidized Federal Direct Stafford Loan
The unsubsidized Federal Direct Stafford Loan can replace all or part of the family contribution. However, the amount of the loan may not be more than the difference between the cost of education and any financial assistance you will receive from the school and any outside source (including the subsidized Federal Direct Stafford Loan). If you are a dependent student, your total Federal Direct Stafford Loan (subsidized, unsubsidized, or a combination of both) cannot exceed the federal maximum according to your classification.

Interest accrues on the unsubsidized Federal Direct Stafford Loan while you are in school and during the six-month grace period before repayment begins. You have the option of paying the interest monthly, quarterly, or having the interest added to the principal. A loan origination fee is deducted from each disbursement of an unsubsidized loan. These charges do not reduce the amount you are required to repay.

Additional Unsubsidized Federal Direct Stafford Loan
If you are an independent undergraduate student or a dependent student whose parents are declined for a PLUS Loan, you may borrow an additional unsubsidized Stafford loan as follows: students in their freshmen and sophomore undergraduate years may borrow a maximum of $4,000 per academic year; students in their junior or senior undergraduate year may borrow a maximum of $5,000 per academic year; and graduate students may borrow $10,000 per academic year in addition to the loan limits mentioned previously, not to exceed the cost of education.

Federal Direct Parent Loan for Undergraduate Students
If you are a dependent student, you may be eligible for Federal Direct Parent Loan for Undergraduate Students (PLUS) to meet your education expenses. This loan is available through the University and is funded by the U.S. Department of Education. The amount a parent may borrow each year is the difference between the student’s cost of education and any financial assistance the student will receive from the school and outside sources (including any subsidized and unsubsidized Federal Direct Stafford Loan the student is eligible to receive).

The interest rate on the Federal Direct PLUS is variable but will not exceed nine percent per year. Repayment begins within 60 days of the last disbursement of a loan period. A loan origination fee is deducted from each disbursement of a PLUS loan. These charges do not reduce the amount you are required to repay. Applications are available in the Department of Financial Aid. The University is responsible for forwarding a completed application/promissory note to the loan servicer.

Service Cancelable Loan Programs
The Service Cancelable Loan Program provides service-cancelable loan assistance to Georgia students enrolled in approved fields of study, usually in which personnel shortages exist in the state. (Fields of study and eligibility requirements are subject to change.) Refer to http://www.gsfcl.org for more details and application procedures. Please note the contact information beside each program for more details:

- Nursing (School of Nursing)
- Nursing Education (advanced degree) (School of Nursing)
- National Guard (Army and Air) (Contact your Commanding Officer)
- Dietetics (College of Health and Human Sciences)
- Medical Technology (College of Health and Human Sciences)

HOPE Promise Teacher Scholarship Loan
Students entering a teaching field with at least a 3.0 GPA at the beginning of their junior or senior year may receive $3,000 per year from the HOPE Promise Program. Contact the College of Education or the Financial Aid Office for an application.

Funds are issued to both resident and non resident students, but students must teach in Georgia to cancel the indebtedness, or repay the funds to the state.

HOPE Teacher Scholarship Loan Program
The HOPE Teacher Scholarship is funded by the Georgia Lottery for Education and is a component of the HOPE Scholarship Program, a division of Georgia Student Finance Authority. The Service Cancelable Loan provides financial assistance to individuals who are seeking advanced teaching degrees in critical fields of study. Scholarship recipients agree to teach in a Georgia public school at the preschool, elementary, or secondary level after graduation.

Teacher Quality Enhancement Scholarship/Service Repayable Loan
Funded by a federal grant, this program was designed to increase the number and diversity of qualified teachers in school districts that face a serious teacher shortage throughout Georgia.

Within six months of completing the program, the student must begin teaching in a high-need school for a period equivalent to the length of time for which he or she received the Scholarship.

Funding is limited and varies each term. For more information, contact Susan Cason in the College of Education at (912) 486-7841.

Other Outside Sources of Financial Aid
Many foundations, companies, and other groups have established scholarship or loan programs for use by Georgia Southern University students. To review these, access the Georgia Southern University Financial Aid website at http://students.georgiasouthern.edu/financialaid.

HOPE Scholarships
The HOPE Scholarship - Helping Outstanding Pupils Educationally - is Georgia’s unique program that rewards hard working Georgia high school students with matriculation scholarships in degree programs at any Georgia public college, university, technical school or eligible private institution.

To qualify for HOPE, students must be a legal resident of Georgia or be considered a Georgia resident for purposes of in-state tuition at the time of enrollment for the school term for which the scholarship is sought. Students that graduated from high school in 1993 or later with a high school core curriculum GPA of at least 3.0 for a college preparatory curriculum or a 3.2 for a general or career/technical curriculum track may qualify as incoming freshmen for the HOPE Scholarship.

Students who did not qualify for HOPE as incoming freshmen may still receive a HOPE Scholarship if they were a legal resident of Georgia at the time of enrollment for the school term for which the scholarship is sought, and have a 3.0 cumulative GPA after attempting 30, 60, or 90 semester hours of University course work.

HOPE eligibility is reviewed at various checkpoints during the academic year and all attempted hours are counted in the review. “Attempted hours” refers to all hours attempted in a degree program at a postsecondary institution after high school graduation, including classes that were dropped or failed as well as learning support classes. The deadline to apply for HOPE is the last day of class for the semester for which you are applying.

Contact a financial aid counselor for other requirements and further information, (912) 681-5413. Additional restrictions may apply. The above is based on the most recent information from the Georgia Student Finance Commission and is subject to change.

Satisfactory Academic Progress Policy
Requirement and Definition
Students receiving financial aid must be making Satisfactory Academic Progress (SAP) in accordance with the policies outlined below. Satisfactory progress means that a student is advancing toward his/her degree objective in a manner consistent with prescribed policies of the university.
The Department of Financial Aid is responsible for evaluating satisfactory academic progress of students receiving financial assistance from the following programs: Federal Perkins Loan, Federal Pell Grant, Federal Subsidized and Unsubsidized Stafford Loan, Federal College Work Study, Federal Supplemental Educational Opportunity Grant, Federal PLUS Loan, LEAP Grant and HOPE Scholarship.

Georgia Southern University’s SAP policy requires maintaining academic standards based on the following three criteria:

1. Grade Point Average (GPA Requirements)
   Undergraduates and post baccalaureate students must maintain a 2.0 minimum total institution GPA to remain in good standing for financial aid and academic purposes. Graduate students must maintain a 3.0 cumulative GPA to remain in good academic standing for financial aid and academic purposes. Failure to maintain the required cumulative GPA standards will result in academic and financial aid probation. When a student’s unsatisfactory academic standing results in exclusion from school by the Registrar’s Office, the student is also excluded from receiving financial aid. Student’s GPA requirements are evaluated at the end of each term.

2. Credit Hour Completion (SAP Incremental Progress Required)
   Students are required to earn a minimum number of hours each academic year depending upon their enrollment status. Undergraduate, post baccalaureate, and graduate students should complete 66% of all attempted hours registered for during the academic year. Note that these are minimum requirement standards and that most students will complete the required course work at a faster rate. Students’ incremental progress is evaluated at the end of the spring term and at the end of the summer term for students taking summer course work.

3. Maximum Time Frame
   Undergraduate: Students in a 4-year program who have attempted more than 150% of the published length of a degree program will have their aid terminated. All terms of enrollment will count toward the maximum time limit. Terms in which no aid is received will count if the student is enrolled after the first week of classes. For example, the published degree program length is 125 credit hours, the maximum time frame would be 188 credit hours (125 X 150%).
   Graduate: Graduates who have attempted more than 150% of the published length of a degree program will have their aid terminated. All terms of enrollment will count toward the maximum time limit. Terms in which no aid is received will count if the student is enrolled after the first week of classes. For example, the published degree program length is 36 credit hours, the maximum time frame would be 54 credit hours (36 X 150%).

Consortium Agreements
Credit hours earned through consortium agreements (contracts with other higher education institutions) will count toward maximum time frame, credit hour completion percentage, and cumulative GPA.

Post-baccalaureate Students
The above requirements apply to all students seeking an additional bachelor’s degree. Post-baccalaureate students may not attempt more than 150% of additional hours required to obtain the second degree.

Learning Support Classes
Learning support students will have their first 30 credit hours of learning support course work excluded from the maximum time frame calculation defined above. Learning support credit hours in excess of 30 will be included in the maximum time frame and the required percentage of credit hour completion. Upon a student successfully exiting the Learning Support program, the grades earned through learning support course work will be included in the calculation of the cumulative GPA. Remedial or learning support course work from another institution will be counted in the calculation.

Dropped and Repeated Courses
All credit hours attempted during each term in which a student is enrolled will count toward the maximum time frame and minimum credit hours completion. A student is considered enrolled based on the number of credit hours registered after class attendance verification. Students who drop courses or completely withdraw from the University during the 100% refund period will not have those hours considered in determining total hours registered.

Students who drop courses or completely withdraw from the University after the 100% refund period will have those hours considered in determining total hours registered, which will count toward the maximum time frame calculation.

Repeated courses will count in the calculation of attempted hours. The grade earned when the last grade is received for a course is the only grade that counts toward satisfactory academic progress.

Policy requires students to maintain good standing for Satisfactory Academic Progress by receiving grades of A, B, C, D, or S in courses; grades of F, I, W, WF, U or Audit represent unsatisfactory completion of courses; and grades of IP or V will not be included in the number of hours earned toward the completion of a degree. If a student does not receive the required grades of A, B, C, D or S in their courses, they are considered not making progress and their financial aid is canceled. To regain financial aid eligibility, refer to the ‘Reinstatement of Financial Aid Eligibility’ section.

Withdrawal from School
Financial aid recipients who withdraw from school during the 100% refund period of any term will not have their registered hours included in the maximum time frame calculation nor be required to meet the minimum credit hour completion percentage. However, aid recipients withdrawing from school after the 100% refund period will have their registered hours included in the maximum time frame calculation and be required to meet the minimum credit hour completion percentage.

Transfer Credits
Credits transferred from other institutions will count toward maximum time frame, and credit hour completion percentage.

Reinstatement of Financial Aid Eligibility
A student seeking to have financial aid eligibility reinstated may do so by:
$ Achieving the required minimum total institution GPA and successfully completing 66% of attempted hours, or
$ Acquiring a successful appeal through the appeal process.

Students will be notified of the committee’s decision and the specific requirements and/or grades a student must earn each term. Students’ progress will be checked at the end of every term of enrollment.

Appeal Process
Financial Aid Excluded Due to Failure to Meet Academic GPA Requirements
Students requesting an appeal to remain in school through the Academic Standards Committee may use the same process to request an appeal for receiving financial aid. Should the academic appeal process determine that a student may remain enrolled in school, he/she will also be allowed to continue to receive financial aid, provided that the student is also earning the required percentage of attempted hours.

Financial Aid Excluded Due to Failure to Progress Toward Academic Degree Completion
Students requesting an appeal for continuance of financial assistance must do so by contacting their financial aid counselor and completing a SAP Financial Aid Appeal form.

This appeal should explain the reason(s) for not meeting the Satisfactory Academic Progress standards and outline the steps that the student is taking to meet the requirements in the future. All appeals must be in writing and should be directed to the Financial Aid Appeals Committee. The Financial Aid Appeals Committee
will review appeals and may request additional documentation from the student. Students will be notified of the Committee’s decision and the specific requirements and/or grades a student must earn each term. Students’ progress will be checked at the end of every term of enrollment. While completing the appeal process, students are required to pay current term fees by the published fee payment deadline.

Other Financial Assistance
The academic progress of students receiving federal financial assistance from the programs listed earlier in this narrative must be evaluated by the criteria outlined in this policy. These and other students receiving other types of financial assistance are evaluated based on requirements of the applicable financial assistance program.

Athletes
Student athletes must meet NCAA requirements to maintain eligibility for institutional aid. Student athletes must earn 12 credit hours per term to maintain institutional aid.

CO-OP Program
Georgia Southern University offers its students the opportunity to gain relevant work experience related to their academic majors, begin the career decision-making process, and earn money for educational expenses. This is accomplished through the Cooperative Education program that is provided on an optional basis in most majors and minors in the Colleges of Liberal Arts and Social Sciences, Business Administration, Health and Human Sciences, Information Technology, Science and Technology, and the Engineering Transfer Programs. The Office of Career Services coordinates the Co-op Program administratively.

The Co-op assignment may be student, college, or industry initiated. Normally, students must have earned 30 semester hours of credit toward their major, have a GPA of 2.5 or better, and be willing to participate in no less than two alternating co-op work assignments, four (4) parallel work assignments, or a combination of alternating and parallel. Salaries and benefits are determined by the employer and normally increase as the program proceeds. Board and lodging are the responsibility of the student, but in 80% of the cases the employers provide assistance in locating suitable accommodations. Co-op students register for the Co-op course each semester that they are on a work assignment. Co-op students and Co-op employers are required to submit evaluations at the end of each semester. A pass or fail grade will be awarded to the student.

Veterans’ Assistance Programs
The U.S. Department of Veterans Affairs (DVA) provides educational benefits under several programs. Eligibility is determined by DVA. Veterans or dependents of certain veterans who wish to attend Georgia Southern University under any of the veterans’ benefits programs should contact the Veterans Coordinator located in the Registrar’s Office for assistance at (912) 681-5154 or veterans@georgiasouthern.edu. The Veterans Coordinator is responsible for assisting veteran students with the processing of VA forms for educational benefits. Students will be advised of procedural requirements and certification of enrollment will be verified to DVA.

Veterans who have service-connected disabilities and are eligible for disability compensation may qualify for Vocational Rehabilitation. Disabled veterans who think they qualify for this assistance are encouraged to contact the Department of Veterans Administration for further information.

Georgia Southern University encourages all veterans to take advantage of college credit that may be granted for military training, as well as the credit by examination programs. Veterans requesting college credit for military training must provide the Registrar’s Office with an official military transcript for evaluation.

The Office of the Registrar will evaluate transfer Credit for Military Service based on completion of basic military training. A form DD-214 should be furnished to the Registrar’s Office for evaluation. Two (2) semester hour credits will be allowed for Physical Conditioning and Marksmanship for active service less than one year and four (4) semester hour credits will be allowed for one year or more active service.

Vocational Rehabilitation
The State of Georgia provides financial assistance (equal to tuition and other regular fees in the University) for residents of Georgia who have disabilities. For further information, write directly to Vocational Rehabilitation Program, 1700 Century Circle, Suite 300, Atlanta, GA 30345-3020, or call 404-486-6331, toll free 866-489-0001, or the web page www.vocrehabga.org.

U.S. Marine Corps Platoon Leaders Class
For freshmen, sophomores, and juniors, the Marine Corps offers the Platoon Leaders Class Program (PLCP). Freshmen and sophomores attend two six-week training sessions, and juniors attend one 10-week session at Quantico, VA.

To be eligible for the program, the student must be a U.S. citizen (either native-born or naturalized), with full-time enrollment in a minimum of 12 academic credits per semester, and must be working toward an accredited/recognized baccalaureate degree.

The PLCP offers two entry-level paths that lead to commissioning as a second lieutenant in the U.S. Marine Corps. The first is the Ground Officer Program, which encompasses all Military Occupational Specialties (MOS’s) not directly related to piloting aircraft. Applicants must have a qualifying score from either the SAT or ACT tests. The second program is the Guaranteed Aviation Program. Applicants must have a qualifying SAT or ACT score and must take the ASTB. Those who have at least the minimum score of 46/64 on the ASTB, pass a Class-1 aviation medical examination performed at a military medical facility, pass a Marine Corps physical fitness test (PFT), and are accepted into the program by Headquarters Marine Corps, could be eligible to receive a contract guarantee. Under the contract guarantee, the student attends flight school for the Marine Corps after graduation from college and acceptance of the commission as a second lieutenant.

A stipend of $150 a month for the nine months of the school year is available to all who meet the requirements and successfully complete summer training at Officer’s Candidate School.

These programs are subject to the control of, and are administered by and under the rules and regulations of, the U.S. Marine Corps and are subject to change from time to time.

Drug Policy - Anti-Drug Abuse Act of 1988
It is the policy of Georgia Southern University and the Office of Student Financial Aid that when the University or the Financial Aid Department is officially notified that a student, who is a recipient of a Federal Pell Grant, is convicted via a court of law of a drug offense during the period of enrollment covered by the Federal Pell Grant, and for which the student had previously certified he or she would be drug free, that individual’s violation of the certification statement must be reported to the U.S. Department of Education Office of Inspector General, in accordance with section 668.14 (g) of the Title IV Higher Education Act of 1965 and its amendments. Upon the final determination by the Office of the Inspector General, and the notification to Georgia Southern University, the Financial Aid Department will implement the recommendations set forth in their findings, which may include the withholding of all further Title IV and institutional payments to the student. Until a final determination is made regarding fraud on the part of the student, the student will remain eligible for financial aid.
Fees

Business Regulations
The academic year is divided into two semesters of approximately 15 weeks each and a summer semester of approximately 12 weeks. Fees are charged and payable by the semester since each semester constitutes a separate unit of operation. A student may enroll at the beginning of any semester.

To insure financial operation in conformity with Board of Regents policies, fee payment regulations must be observed. All fees and charges are due and payable by the first official day of class for the semester for the University; charges incurred during the drop/add period are due by the 10th calendar day following the Drop/Add period. Students are responsible for checking their account balance via WINGS at https://my.georgiasouthern.edu/ and ensuring fee payment by the published fee payment due dates. Fees and charges may be paid in cash, check, or by MasterCard or Discover in the exact amount of the student’s invoice; payment by credit card must be made via WINGS and is subject to a 2.75% processing fee. Nonpayment of all fees and charges by the first day of university classes could result in cancellation of all classes. If a student's financial aid is not available to pay all fees by the designated due date, he/she must be prepared to pay fees and be reimbursed when his/her financial aid is available. Should a student decide not to attend Georgia Southern University or cease to attend during the semester, he/she will continue to be fee liable until officially withdrawing from the University. (See refunds and withdrawals for more information) PLEASE NOTE, NO INVOICES ARE MAILED; INVOICES ARE AVAILABLE ONLINE ONLY VIA WINGS AT THE ABOVE WEB ADDRESS.

The University reserves the right to make changes in its fees, which are regulated by the Georgia Board of Regents, at the beginning of any semester and without previous notice. *At press time, Tuition and Fees were unavailable for Fall 2006 and Spring 2007. As soon as they are available, Tuition and Fees will be posted on our website at http://services.georgiasouthern.edu/revenue/softuitionfeespage.htm.

Students' personal checks made out to CASH-Georgia Southern University, with proper student identification, may be cashed at the Cashier's Office in Deal Hall or at the University Store in an amount not to exceed $50.00.

Returned Check Procedure
If a check is returned unpaid by the bank on which it was drawn, a service charge of 5 percent of the face amount of the check or $30, whichever is greater, will be charged. Checks returned unpaid for registration fees before classes begin or during the first weeks of school will result in a registration cancellation on the next scheduled cancellation date. Fee checks returned unpaid after the last cancellation of the semester must be cleared within ten days of the date of the notice or the student will be administratively withdrawn from all classes and charged for the time enrolled according to the University catalog. Fee checks returned prior to mid-semester are sent to the bank twice for collection; after mid-semester they are presented only once. Other checks are presented to the bank for collection once and must be cleared within ten days of the date of written notice.

When three checks have been returned by any student’s bank without payment, check privileges for that student will be suspended.

In-State Tuition*
Tuition is charged to all students based on the number of credit semester hours for which the student is registered. In-state undergraduate students registering for 12 or more hours will be charged $1,463* per semester; students registering for fewer than 12 hours will be charged $102* per semester hour.

Out-of-State Tuition*
Non-residents of Georgia are required to pay tuition at an out-of-state rate based on the number of credit semester hours for which the student is registered. Out-of-state undergraduate students registering for 12 or more semester hours will be charged $4,877* per semester. Out-of-state undergraduate students registering for fewer than 12 hours will be charged $407* per semester hour.

Out-of-state graduate students registering for 12 or more semester hours will be charged $5,852* per semester; students registering for fewer than 12 hours will be charged $488* per semester hour.

University Fee*
Cultural, social and athletic activities, good health care and transportation services are important parts of the university’s program and a student’s educational environment. In order to provide these activities and services, a per semester University Fee of $455* is charged. All students must pay this fee unless they are registered for fewer than four credit semester hours or enrolled in all off campus courses.

Technology Fee*
A $57* per semester Technology Fee is charged to all Georgia Southern University students. This fee is used to develop and maintain student computer laboratories. A Technology Fee Advisory Board, with student representation, makes decisions regarding the use of this fee.

*Fees quoted are for Fall 2005 and Spring 2006. At press time, Tuition and Fees were unavailable for Fall 2006 and Spring 2007. As soon as they are available, Tuition and Fees will be posted on our website at http://services.georgiasouthern.edu/revenue/softuitionfeespage.htm.

Late Registration Fee*
Undergraduate and graduate students who complete registration after the published registration day at the beginning of each semester will be charged a non-refundable late registration fee of $100*.

Parking Permits
All vehicles parking on campus are required to have a parking permit which is available from the Transportation Services Office located in Building 114 behind the Landrum Center on Chandler Road across the street from SUBWAY. Resident permits are $70 and Commuter Permits are $124. Free parking is available for those who are willing to walk from the east and west perimeters of campus, and Car Pool permits are available for those wanting to share the cost of parking. Residents of some apartment complexes in close proximity to Campus do not qualify for parking permits. Permits are available for purchase on the Web at the address below. For details, please call the Transportation Services Office at 681-0702 or visit our web site at http://www.aux.georgiasouthern.edu/park/.

Visitors parking on campus are asked to obtain a complimentary visitor’s pass from Transportation Services at the location above or at the Admissions Office located on Sweetheart Circle in Lewis Hall.

Transportation Fee*
A $40* per semester Transportation Fee is charged to Georgia Southern University students as part of their University Fees (See University Fee above). This fee is used to fund the Transit Services that are provided to students allowing them to park at Paulson Stadium and ride the Transit Shuttle to and around campus. For additional information, please call the Transportation Services Office at 681-0702 or visit our web site at http://www.aux.georgiasouthern.edu/park/.
Graduation Fee
A graduation fee of $50 for graduate and undergraduate students must be paid by the end of the term in which the student completes requirements. This fee includes the application process, graduation attire, payment for diploma, and mailing fee. Any outstanding financial obligations to the University (Business Office, Parking, Health Services, Library, NDSL) must be paid before a student may graduate.

Textbooks and Supplies
The University Store offers all textbooks and supplies that Georgia Southern students need for their courses. The average cost per semester is approximately $350, depending on course selection. Accepted forms of payment are: cash, check, MasterCard, Visa and EAGLEXPRESS. (See EAGLEXPRESS at the end of this section.) Students whose financial aid exceed their tuition and fees, housing and meals are allowed to charge their required books and supplies at the University Store in the amount of the lesser of their excess financial aid or $500. These charges are then added to their student account and paid for out of their financial aid funds. The dates during which students may charge their books are provided to the students each semester via University assigned email, one of the official forms of University communication. All of the required materials are also available on The University Store’s website at http://www.gustore.com.

Fee Refunds
Regulations of the Board of Regents of the University System of Georgia provide for tuition and mandatory fee refunds when formal withdrawal from the Institution is approved within a designated period following scheduled registration.

The refund percentage that a student receives is a calculation of the time remaining in the semester up through 60% of the semester; once 60% of a semester has expired, there is no refund for a withdrawal from school. The refund calculation is based on days enrolled in the semester divided by number of calendar days in the semester including weekends and holidays but excluding breaks of 5 or more consecutive days. For example, a semester has 112 days. A student withdraws on day 49 of that semester; 43.8% of that semester has expired (49 days divided by 112 days). The student is eligible for a refund of 56.2% (100 percent minus 43.8 percent).

Refunds from formal withdrawal from school are made after the mid-point in the semester.

Refunds are not made for classes dropped after the drop/add period. Additional fees due for certain PE classes (i.e.; scuba diving, bowling) and for certain courses (chemistry, biology, geography and geology, public health, and student teaching) are not refundable after drop/add. A refund of all semester tuition and other mandatory fees is made in the event of death of a student any time during an academic semester.

Housing deposits are released to the student account after the student vacates housing. A refund is issued after all outstanding account obligations have been paid. Please see Georgia Southern University Housing Office policies.

Refunds for a Student Receiving Federal Title IV Financial Assistance
Students receiving Federal Title IV Financial Assistance who formally or informally withdraw from school are subject to Federal Return of Title IV Aid regulations as specified in the Higher Education Amendment of 1998. The calculation determines the aid earned by the student based on the days enrolled for the semester in relation to the total days in the semester. The aid considered not to be “earned” must be returned to the federal programs in the following order: Unsubsidized Federal Direct Stafford loans, Subsidized Federal Direct Stafford loans, Federal Perkins loans, Federal Direct PLUS loans received on behalf of the student, Federal Pell Grant, Federal Supplemental Educational Opportunity Grant and other Federal Title IV assistance. Receipt of Federal Title IV Aid in excess of aid earned may be subject to repayment by the student if the student has withdrawn from school. The Office of Student Fees notifies the student if a repayment is due. Failure to repay could result in loss of future Title IV Aid eligibility.

Example: Student received Title IV aid as follows: $1,274.00 in Subsidized Direct Stafford loan and $782.00 in Pell Grant. The student had $844.00 in Institutional Charges. Student withdrew on day 25 of a semester having 112 days. The student has earned 22.3% (25 days divided by 112 days) of the Title IV aid which equals $458.49 (Loan of $1,274.00 plus grant of $782.00 times 22.3%). The student has unearned aid of $1,597.51 (Total Title IV aid received of $2,056.00 minus aid earned of $458.49) that must be returned to the federal programs. The Institution must return $656.00 ($844.00 Institutional charges times 77.7% unearned aid); all of this will be returned to the Subsidized Direct Stafford Loan. The remaining $941.51 (unearned aid of $1,597.51 minus amount Institution returned of $656.00) must be returned by the student. The student must repay $618.00 ($1,274.00 received in loan minus $656.00 returned to loan by Institution) to the Subsidized Direct Stafford Loan in accordance with the terms of the loan. The student must return $162.00 (remaining unearned aid of $941.51 minus $618.00 returned to loan fund by student equals $323.51 multiplied by 50% (students are required to return 50% of unearned grant funds)) to the Pell Grant Program.*

*Copies of the complete refund policy for Federal financial assistance are available from the Office of Student Fees located on the first floor of Deal Hall.

Meal Plans
Five types of meal plans are available. Registration of contract meal plans may be done via the Housing Agreement on the web at the Food Service Office in the Russell Union, or on the Food Service website at http://www.gsufoodservice.com/. Contract meal plans are accepted at all food establishments on campus.

Contract Meal Plans
(1) 19 meals/week(Monday-Sunday) $1,224.00/semester*
(2) 14 meals/week(Monday-Sunday) $1,113.00/semester*
(3) 10 meals/week(Monday-Friday) $ 914.00/semester*
(4) 5 meals/week (Monday- Friday) $ 457.00/semester*
(5) The EAGLEXPRESS account is a stored value account which may be used in all Food Service and retail outlets. Accounts can be opened or added to at the Food Service Office in the Russell Union, the Pickle Barrel, The University Store, the Lakeside Café, or on the Food Service website at http://www.gsufoodservice.com/.

*Rates quoted are for Fall 2006 and Spring 2007. Please see website for up to date charges.

Entering freshmen who live in residence halls must purchase a 10 meal or greater contract meal plan. Freshmen housed on campus are not eligible for the 5 meal plan. Please note that the housing contract contains a freshmen meal plan requirement clause. Please read and understand this requirement before signing the contract. Once this requirement has been satisfied, an EAGLEXPRESS account may then be opened. All other students may purchase any of the five meal plans desired or a combination of EAGLEXPRESS and one of the contract plans.

EAGLEXPRESS
EAGLEXPRESS is a stored value account which means that a student deposits funds into an account prior to making purchases, and then uses a Georgia Southern I.D. Card to make purchases. When a purchase is made, the amount of the transaction is automatically deducted from the account balance. EAGLEXPRESS can be used to purchase goods and services at all Auxiliary Service units including all campus restaurants, retail outlets, snack bars, parking, health and printing services. EAGLEXPRESS is also accepted off-campus at over 50 designated locations.
University Housing

The Department of University Housing at Georgia Southern University operates eleven housing units providing a living-learning environment for approximately 3,950 students and offering a variety of facilities, services, and programs. In addition to providing reasonably priced housing, Georgia Southern University also strives to provide a positive environment conducive to the development and academic pursuits for its residents. Residence hall living provides social interaction and programming to heighten a student’s sense of belonging, self-esteem, and self-actualization. Included in learning experiences are floor meetings, social programs, public service projects, rules and regulations, hall government, roommate contracting, and leadership training. These experiences provide students the opportunity to grow, achieve, find autonomy, and practice decision-making. With a staff of more than 300 employees, the Department of University Housing is committed to assisting students in making a smooth transition to college life.

Residency Requirements/Eligibility
Georgia Southern University currently does not have a residency requirement. Any student, regardless of classification, has the option to live off campus. To be eligible to live in University Housing, one must be enrolled at Georgia Southern and maintain a minimum of 3 credit hours per semester.

Applying for Campus Housing
Only students accepted for admission to Georgia Southern University may apply for campus housing. Housing information will be mailed and emailed to students after notification of admission acceptance.

Occupancy Periods
Students may occupy their assigned space from the date designated as the official opening of campus housing to the date designated as the end of the term. Campus housing is closed between academic sessions with the exception of Southern Courtyard, which is open year round.

Removal from Housing
Students can be removed from Housing for the following reasons: Judicial reasons, nonpayment of tuition, University fees, housing, and contract meal charges.

Rates
Housing rates vary based on the type of facility. Once rates have been approved by the Board of Regents, a complete listing of housing fees will be provided to applicants or may be viewed at http://students.georgiasouthern.edu/housing/.

Communities in the Residence Halls
Georgia Southern residence halls are organized around a community concept. Each of the eleven residence halls falls into one of four broad community types, designed to meet the different needs and desires of different residents. The types and specific communities for each residence hall are listed below.

Living/Learning Communities (LLC) feature special sections of general curriculum courses reserved for members of the residence hall community. They are exclusively for first-year students (who will enter college in summer or fall 2006) and have several services tailored to meet their needs. The biggest advantage of the Living/Learning Communities is the availability of sections of general curriculum or major courses that are reserved specifically for the members of the LLC. The LLCs also feature academic mentors (AMs), who tutor students in English, math and other subjects.

- Residential Interest Groups (RIGs) are clusters of roughly thirty students who share a major or interdisciplinary interest. They are housed in Olliff Hall. The RIGs are the most academically intentional of the Living Learning Communities at Georgia Southern. The RIGs for 2006-07 are: American Entrepreneur, American Media, Education, Fashion, Design and Architecture, Healthy Living, International Studies, Medicine and Ethics, Movies and Popular Culture and Travel and Culture.
- First-Year Residential Experience (FYRE- pronounced like Fire) is a great option for those students who are interested in reserved classes but want or need more flexibility in their schedules. Students in FYRE are required to participate in a community service project each semester as well as a residence hall program.

Theme Communities, open to students in all classifications, are composed of students who live together in a residence hall and have a common interest or purpose that serves as the focal point of the community. Although most of the themes are tied to academic majors, students of all majors are welcome if they have an interest in the theme area.

- Community of Liberal Arts and Social Sciences (CLASS) is a community where students in the arts, humanities and social sciences discuss issues central to their majors and interests. It is housed in Hendricks Hall.
- Science, Engineering, Nursing and Technology (SENT) is a community dedicated to providing academic and vocational support for students pursuing a career in these high-demand fields. SENT features a computer lab equipped with software used in engineering programs. It will be housed in Winburn Hall
- Sophomore Experience is a program designated for sophomores. The purpose of the program is to build on the experiences of students during their first-year. They will benefit from offerings such as study abroad presentations, career exploration, internship programs and leadership programs. It will be housed in Watson Pods.

Upperclass Communities are reserved for students who matriculated at college in January 2006 or before. These communities focus on major and career development, as well as other aspects of life beyond Georgia Southern. Programs include speakers from the business and professional world talking about their fields as well as workshops and roundtables on preparing for further schooling.
- Sanford Hall
- Southern Courtyard
- Southern Pines
- Watson Commons

Open Communities do not have a pre-determined thematic or curricular orientation and are also open to students of all classifications. Staff work with students to determine residents’ needs and desires and program accordingly.
- Brannen Hall
- Johnson Hall
- Kennedy Hall

The Division of Student Affairs and Enrollment Management supports the University’s strategic plan by promoting and contributing to a university community centered on student learning and success. The Division is responsible for the out-of-class welfare of the students and provides a richly diverse array of educational experiences to supplement classroom learning. Programs and activities are designed to contribute to the intellectual, emotional, physical, spiritual, and social development of the student. Students are encouraged to be active participants and to be involved in order to stimulate school spirit, strengthen campus life, and enhance the overall quality of their collegiate experience.

Enrollment Management
The Division of Student Affairs and Enrollment Management provides leadership for the enrollment management function, a process designed to guide students and parents in their choice of a college or university, to facilitate the transition of students to college or from one college to another, to reduce student attrition and improve retention, and to enhance student outcomes. Successful enrollment management requires collaboration and cooperation among Admissions, Financial Aid, Marketing and Communications, the Registrar, the Business Office, Academic Advisement, University Housing, and faculty. It is a team approach that begins with prospective students, continues throughout the college experience, and extends as students become successful alumni.

Student Conduct Code
The Student Conduct Code is the official University publication governing student conduct and behavior. It is the responsibility of each student to become familiar with the rules and regulations governing student life.

Judicial procedures, appeal procedures, and disciplinary sanctions are found in the Student Conduct Code. Georgia Southern University reserves the right to change the Student Conduct Code when it becomes necessary to ensure the orderly operation of the University. For additional information, call the Office of Judicial Affairs at (912) 681-0059.

Support Services
Counseling and Career Development Center
The Counseling and Career Development Center offers services to students in need of assistance with academic, personal-social, or career concerns. In addition, consultation services are available to faculty who are concerned about students who show evidence of difficulties in the above areas. The center’s staff includes ten professionally trained psychologists and counselors who are committed to helping students meet their personal and educational goals.

The center offers personal counseling in areas such as self-esteem, depression, sexual identity, relationship conflicts, eating disorders, trauma and abuse issues, and family of origin concerns.

Group counseling offers students the opportunity to interact with others who have similar concerns while developing more satisfying relationships with other students, faculty, and staff.

Career development helps students determine their aptitudes and interests, assess their career-related values, explore career opportunities, and develop strategies to achieve career goals.

Academic counseling enables students to identify their academic obstacles and to improve in the areas of study skills, test anxiety, and time management.

The center’s staff offers workshops designed to educate students, faculty, and staff about stress management, dating violence, acquaintance rape, interpersonal relationships, and communication skills. Counseling staff members will conduct specific programs for campus groups or classes by request if notified two weeks in advance.

Counselors are also available to assist faculty who encounter students in crisis. The number to call during regular business hours M-F, 8 to 5, is (912) 681-5541, or after hours, (912) 681-5234.

Health Services
Georgia Southern University Health Services is a department of Auxiliary Services and the Division of Student Affairs and Enrollment Management. Health Services is also a member of the American College Health Association (ACHA), the Southern College Health Association (SCHA), and is former recipient of Georgia Southern University’s President’s Staff Team Award for Excellence in Service to Students. Health Services is pursuing national accreditation by the Accreditation Association for Ambulatory Health Care (AAAHC).

The mission of Health Services is to help Georgia Southern University students achieve the best possible physical and psychological health and to positively impact their long-term health-related behaviors by providing them with high-quality, cost-effective healthcare services, programs, and products. Health Services supports the vision, mission, and strategic initiatives of Georgia Southern University, the Division of Student Affairs and Enrollment Management, and the Division of Auxiliary Services.

In addition to the quality medical services provided to Georgia Southern University students, Health Services is very excited about two web communication tools: MedBuddy-U and My Student Health Zone. The MedBuddy-U program is an online access system to the Health Center which makes it easier and more convenient for students to access health care at the University Health Service and provides the opportunity for students to handle many of their healthcare needs right from their own room or from any computer in the world with internet access. MedBuddy-U is compliant with federal privacy laws (HIPAA) and totally confidential and secure! During the fall of 2005, Health Services began using the MedBuddy-U system to answer students’ questions by providing personalized answers from our staff, provide relevant health information that helps students stay healthy; allow students to receive confidential messages and lab results from Health Services healthcare providers, faster and more conveniently; request an appointment or prescription refill. Students have expressed much satisfaction with MedBuddy-U, and the system has become an integral part of the department’s daily activities. Please be aware that our new MedBuddy-U system does not mean that the only way students can communicate with University Health Services is via the internet! Our staff still likes to see you in person and take your phone calls. My Student Health Zone is a comprehensive, on-line library of health information designed exclusively for college students. Articles cover medical, emotional, behavioral, drugs and alcohol, food and fitness, school and jobs, and sexual health issues relevant to young adults. Look for the MedBuddy-U and My Student Health Zone long-in icons on the Health Services website homepage at: http://services.georgiasouthern.edu/health/index.php.

Health Services is available to Georgia Southern students for consultation, examination, diagnosis, and treatment of illnesses and injuries. The University Health Center is located on Forest Drive across from Watson Hall and near the Lakeside Café. Operating hours are 8:00 a.m. to 5:00 p.m., Monday through Friday during semesters.
All Georgia Southern University students are eligible for Health Services. Students enrolled in four (4) or more semester hours pay the health fee at the beginning of each semester during the registration process when they pay tuition and student fees. This entitles those students to office visits throughout the semester for examination and treatment. The health fee schedule for the 2005-2006 academic year is $79 per semester for Fall Semester 2005 and Spring Semester 2007, and $40 for Summer Semester 2007. Students taking less than four (4) semester hours may choose to pay an office visit fee (same price as the health fee) at the student health center to receive the same level of medical services as students who pay the health fee at registration. Students who are engaged in internships, student teaching, or the tuition remission program do not pay the health fee at registration, and must pay the office visit fee separately to receive the services sponsored by this fee.

A valid Georgia Southern University identification card is required to access services at the University Health Center.

The competent and friendly staff of Health Services includes the following full-time positions: physicians, nurse practitioners, nurses, administrative and clerical staff, a radiology technologist, a laboratory technologist, a certified respiratory therapy technician, a health educator, and an administrator. Pharmacy personnel are employed by a contract pharmacy. Health Services also employs part-time casual laborers in the clerical, health education, and nursing areas of the department.

The relationship between patients and Health Service staff is confidential and we strictly practice this rule of medical ethics. Students are entitled to privacy, within the capacity of the University Health Center facility, and confidentiality to the extent of the law. We are proud that our staff consistently receives high ratings for “Confidentiality” on our patient satisfaction surveys.

While the health fee allows student office visits throughout the semester, there are additional supplemental costs for medical services not covered by the health fee (i.e., prescriptions, vaccinations, certain lab tests, and elective procedures). Payment for these services is due at the time of the visit. Health Services accepts cash, check, VISA, MasterCard, or EAGLEXPRESS. Health Services does not file insurance claims, but will provide a detailed invoice for insurance purposes upon request.

Some students may have medical conditions that require referral to other healthcare providers or specialists for consultation and/or treatment. All expenses related to the medical services of referred providers are the responsibility of the student. In addition, students may at any time choose to use other medical providers at their own expense.

Students are encouraged to maintain health insurance coverage in case of hospitalization. For those who are no longer covered by their parents’ plan, or who may elect to purchase additional insurance coverage, Health Services has arranged for a Student Accident and Sickness Insurance Plan. To get an application or for more information about the insurance company or plan, please visit our web site at http://services.georgiasouthern.edu/health/index.php where you will find a link to the insurance company and their enrollment application form. Health Services provides its services, programs, and products regardless of students’ insurance plan or lack of insurance.

For medical emergencies, contact the Bulloch County Emergency Medical Service (EMS), regardless of the time of day or night. Dial 9-911 if using a campus telephone or 911 if using an off-campus telephone. Georgia Southern University Public Safety may also be contacted at (912) 681-5234 in case of emergencies.

Students who become sick or injured when the University Health Center is closed feel they cannot wait until it reopens should seek medical treatment at East Georgia Regional Medical Center Emergency Room, which is located a short distance from Georgia Southern University on Fair Road in Statesboro. All expenses related to emergency and after hours care are the responsibility of the student. Students are encouraged to carry their health insurance card with them at all times.

Health Services is proud to be among the outstanding student services offered by Georgia Southern University. Please feel free to contact us with comments, concerns, or suggestions at any time. Thank you for your interest in Health Services. We look forward to serving you. Please visit our web site for more information about the department. http://services.georgiasouthern.edu/health/index.php

**Immunization Requirements**

The Board of Regents of the University System of Georgia requires all new students to provide proof of immunization against Measles, Mumps, and Rubella (MMR); Varicella (chickenpox); Hepatitis B (three doses of vaccine or positive Hepatitis surface antibody), required of all students who are 18 years of age or younger; and for residents of University Housing, acknowledgement of vaccination against Meningococcal disease, or acknowledgement of information received about Meningococcal disease and declined offer to be vaccinated before they are allowed to register for or attend classes at Georgia Southern University. Health Services administers this policy and will gladly help students with appropriate forms and information.

The Board of Regents has adopted the Centers for Disease Control's recommendation to modify the varicella (chickenpox) requirement and to post additional information about tetanus, diphtheria and acellular pertussis (whooping cough) vaccination. This will be effective for all new students beginning in January 2007. The change in the varicella requirement mandates that all US born students, born in 1966 or later, as well as all foreign born students, regardless of the year born, are required to provide proof of immunization against varicella. All new students will be required to provide proof of immunization against Tetanus/ Diphtheria, and the booster dose must have been received within 10 years prior to matriculation. A combined vaccine booster containing tetanus, diphtheria, and acellular pertussis (whooping cough), known as Tdap, is preferred, but Td is acceptable.

Students are urged to acquire these immunizations, before arriving at Georgia Southern; however they may also be obtained at the University Health Center. Students should visit the Health Service web site at http://services.georgiasouthern.edu/health/index.php to print Immunization and Medical History forms.

The following three groups of students are exempt from the immunization policy: (1) those previously enrolled at Georgia Southern, (2) those with religious objections, and (3) those with bona fide medical reasons supported by appropriate documentation from the attending physician. The latter two groups would be restricted from all campus premises in case of an outbreak of vaccine-preventable diseases, such as measles, mumps, or rubella.

International students are required to be screened for tuberculosis (TB). Health Services will provide the initial TB screening free of charge to students. Visit the Health Service web site at http://services.georgiasouthern.edu/health/index.php for more information.

Career Services

The mission of Career Services is to guide members of the Georgia Southern University community in establishing career objectives through comprehensive programs which provide opportunities for individuals to learn strategies useful in reaching their career goals. As advisors and catalysts, the Career Services staff assists students with choosing majors, identifying career options, gaining related work experience, and providing guidance in their full-time professional job search strategies through three distinct areas: Career Advisement, Experiential Education, and Professional Employment. The career advisement phase is designed to assist students in identifying academic majors and career options; strategies include one-on-one or group career advising, computerized career assessments, investigation of careers through a comprehensive collection of literature, and computerized resources located in our Career Resource Center.

Acquiring relevant work experience during college increases a student's marketability in his/her chosen career. Experiential Education enables students to gain relevant professional work experience in which they can apply to the world of work their analytical reasoning, critical thinking and writing skills, and the theoretical practices acquired in their major area of study. Our Cooperative Education program allows students to gain relevant experience associated with their academic major on a work-study rotation. Internships are another excellent way to gain valuable experience. Career Services serves as a clearinghouse to assist students in identifying possible internship sites and to work collaboratively with department internship coordinators, faculty, staff, and employers. Externships are designed for students who did not acquire relevant work experience during their academic career. Job Shadowing, another component of Experiential Education, also assists students in the decision-making process. We recommend that students not only conduct informational interviews, but also shadow a professional in the career they are considering. Job Shadowing can be conducted during spring semester breaks. Observing a professional in the real work environment and day-to-day activities gives students a realistic idea of what to expect when pursuing that career after graduation.

Our professional staff advises and assists students in developing professional skills during their academic career so that they may mount an effective job search campaign upon graduation. Workshops, class presentations, and PowerPoint presentations on our home page prepare students in the areas of effective job search and networking strategies, cover letter and resume development, interviewing techniques, negotiation strategies, and making the transition from college to the world of work. Our department attracts a variety of industries and organizations to recruit Georgia Southern University seniors and alumni through resume referrals, on-campus interviewing, and employer web-sites located on our homepage. Six major Career Fairs are held during the academic year, two Eagle Expos, Graduate School Fair, Multicultural Job Fair and two Education Career Fairs. Students are able to network with potential employers from business, industry, government, health and human services, and education to inquire about full-time employment upon graduation. Career Services works collaboratively with the academic and local communities to provide all Georgia Southern University graduates with the tools necessary to be highly marketable and competitive in the job market arena. For more information, please visit our website at: http://students.georgiasouthern.edu/career/ or call (912) 681-5197.

Multicultural Student Center

The mission of the Multicultural Student Center (MSC) supports Georgia Southern University's greater mission to support cultural diversity. The department is designed to educate and celebrate the cultural and ethnic diversity of students, staff and the Georgia Southern community. This is accomplished by cultivating leaders who value civility, problem solving and heritage. The Multicultural Student Center also promotes a fulfilling and comprehensive college experience which encourages social responsibility and personal well-being obtained through cultural opportunities both inside and outside the classroom. These include a series of support services, programs and activities that foster inclusion and pluralism.

The Minority Advisement Program (MAP) is a retention program housed in the Multicultural Student Center designed to assist incoming freshmen in making a seamless transition from high school to college. This is accomplished through mentoring and social and academic programming.

As an office, the staff facilitates diversity workshops in classrooms and for student organizations. It also heads committees that present campus wide programming including but not limited to the following celebrations: Martin Luther King Day, Women's Awareness Month, Hispanic Heritage Month, Black Awareness Month, Gay Lesbian Bisexual Transgender (GLBT) Month, Religious Awareness Week, and Holocaust Remembrance Day.

The Diversity Resource Center located in the Multicultural Student Center provides literary, virtual, and video resources concerning a number of diversity issues for interested students, faculty and staff. The Center also lends great support and advocacy to the GLBT community as well as other under-represented groups through informal advisement and the Multicultural Advisory Council (MAC), a group representing multicultural student organizations at Georgia Southern.

For more information, visit us at http://students.georgiasouthern.edu/multicultural or room 2024 of the Russell Union. You may also contact us at (912) 681-5409 or msc@georgiasouthern.edu.

Minority Advisement Program

The Minority Advisement Program (MAP) was established in 1983 to enhance the academic welfare of minority students in the University System of Georgia. The Minority Advisement Program is a peer mentor program designed to assist minority freshmen with their transition from high school to college and to facilitate a successful adjustment to Georgia Southern University. MAP is centered on minority freshmen students, but is open to any student seeking its services. With the assistance of peer leaders (MAP Sponsors), MAP tries to provide minority students with a wide variety of programs that assist them with the successful adjustment to Georgia Southern University academically and socially. Services include personal assistance to obtain resources available in such areas as academic advisement, financial aid, career counseling, tutoring, and campus orientation.

For more information about programs and services through the Multicultural Student Center call (912) 681-5409; Fax (912) 486-7437; or write the MSC at Georgia Southern University, P.O. Box 8068, Statesboro, GA 30460.

Office of Judicial Affairs (Philosophy)

The Office of Judicial Affairs emphasizes a developmental approach toward discipline that is both educational and proactive and allows for maximum student growth. It is an integral part of the educational mission of Georgia Southern University and the Division of Student Affairs and Enrollment Management. The office embraces the concept of a student-centered university. A student-centered university is characterized by civility, respect, cooperation, responsibility, and understanding among all members of the campus community. It conveys high expectations for appropriate behavior and is designed to assist students in the development of an informed set of values, ethics, and beliefs. It fosters a climate that promotes civility and respect.

A student-centered university facilitates student’s progression from campus life through graduation as competent contributors to society. Georgia Southern University students are expected to engage in behaviors that are consistent with the attainment of academic integrity and moral values. As members of the campus community, students, faculty, and staff are encouraged to actively support:

• Academic integrity and honesty in the classroom.
• Ethical behavior in all aspects of University and community life.
• Civil discourse among all members of the campus community.
• A climate of trust, openness, and freedom of ideas.
• Transcultural environments, recognizing the differences in ethnic and cultural backgrounds and a greater understanding of issues related to gender.
Southern’s Orientation, Advisement, and Registration (SOAR)

Once accepted for admission, all undergraduate students must attend Southern’s Orientation, Advisement, and Registration (SOAR). SOAR is a mandatory program for all new students (freshmen and transfers) which assists with their transition to the University life and provides academic advisement, an opportunity to register for classes, The Eagle Eye: New Student Handbook and other resource materials. Invitations to SOAR are mailed approximately two months before the beginning of the semester for which a student plans to enroll. Parents are invited and encouraged to attend SOAR. There is a fee for both students and parents to attend SOAR. Accepted students may complete an online orientation reservation, which can be found on the Office of Orientation’s website, http://admissions.georgiasouthern.edu/orientation/.

For Fall Semester enrollment, freshmen students can attend one of eight two-day SOAR sessions during the months of June and July. Transfer students can attend one of three one-day SOAR sessions during the months of June and July. The Office of Orientation also provides pre-semester SOAR sessions, just days prior to the beginning of each semester. For more information about SOAR, contact the Office of Orientation at (912) 871-1987, orientation@georgiasouthern.edu, or http://admissions.georgiasouthern.edu/orientation/.

Off-Campus Housing Programs

The Off-Campus Housing Office strives to integrate off-campus students into the mainstream of campus life and serves as a clearinghouse for listings of vacant rental property and subleases and requests for roommates. Although the University lists available accommodations, it does not approve, license, or inspect them. Housing is the responsibility of the student and arrangements are made directly between the student and the landlord. Services provided by this office include the Community Advisor Program, Housing Fairs, and the Off-Campus Housing Guide. Additional information is available by calling (912) 871-1987, or emailing: offcampus@georgiasouthern.edu, or through the web at http://students.georgiasouthern.edu/offcampus/.

Student Media

Georgia Southern’s campus media include a student newspaper (The George-Anne) published daily during the academic year, a monthly general interest (Southern Reflector), and a semi-annual magazine of the arts (Miscellany). In addition, two student groups—Photography, Art, Graphics, Electronic Systems, (PAGES) and Advertising-Distributing Services (ADS)—provide technical and business support for the student media. The Student Media Advisory Board of the Division of Student Affairs and Enrollment Management, a panel that also provides oversight to student media operations, selects student editors. The goal of student media at Georgia Southern University is to provide news and information in a timely manner and without flaw, to provide entertainment that reflects the institution’s diversity, and to provide a designated open forum to promote an exchange of views on issues of interest to the university community and its constituents, in which all content decisions are vested solely in student editors. For more information contact the Office of Student Media Services, P.O. Box 8067, Room 2022 Williams Center, Statesboro, GA 30460, visit its web site at http://www.sfm.georgiasouthern.edu or email gaeditor@georgiasouthern.edu or bneville@georgiasouthern.edu.

Educational Opportunity Programs

The primary goals of the Educational Opportunity Programs (EOP) are to identify disadvantaged young people with the potential to succeed in postsecondary education, to encourage them to continue and to graduate from secondary school, to enroll in postsecondary and graduate programs, and to encourage high school and college dropouts to return to school. Three TRIO Federal programs, Upward Bound, Educational Talent Search, and the Ronald E. McNair Post-Baccalaureate Achievement Program, comprise the Office of Educational Opportunity Programs. Upward Bound (1970), Educational Talent Search (1991) and the Ronald E. McNair Post-Baccalaureate Achievement Program (1998) have been responsible for placing more than 90 percent of their graduates in postsecondary educational programs. More than 46 percent of the former participants have graduated from college and more than 42 percent are currently enrolled in a postsecondary educational program.

Educational Talent Search provides 825 middle school, high school, and out-of-school youth with the support and assistance needed to complete high school and enter a program of postsecondary education. Eligible participants must:

• reside in Bulloch, Burke, Emanuel, Jenkins, or Screven Counties;
• be enrolled in the 6th through 12th grades, or be a high school/postsecondary school dropout;
• be a potential first generation college student, or meet the economic guidelines for low income families;
• possess the potential to be successful at the postsecondary educational level; or
• be at least 11 years of age, or be a veteran, regardless of age

Upward Bound provides 105 high school students with the motivation and academic assistance needed to successfully enroll in and complete higher education programs. Eligible participants must be enrolled in the 10th or the 11th grades in Bulloch, Candler, Emanuel, Evans, or Screven County high schools and possess the academic potential necessary for higher education.

The Ronald E. McNair Post-Baccalaureate Achievement Program provides 18 talented university juniors and seniors with the support necessary to increase their chances for success in graduate programs leading to doctoral degrees. McNair Scholars are exposed to summer research opportunities, internships, faculty mentors, assistance with graduate school admissions, fellowships, and academic assistance seminars. Eligible participants should possess the interest and the aptitude to pursue doctoral studies.

These three projects are sponsored by grants provided by the U.S. Department of Education and are administered by the Georgia Southern University Division of Student Affairs and Enrollment Management.

Services:

• Academic, Personal, and Career Counseling
• Basic Skill Classes, Tutoring
• Cultural enrichment and educational travel
• Assistance with college selection and financial aid
• A six-week residential summer program (Upward Bound)
• ACT, GRE, and SAT preparation workshops and fee waivers
• Motivational and self-esteem workshops
• College courses for graduating high school seniors
• Workshops on financial aid, study skills, and personal growth
• Literature on postsecondary and graduate programs
• Parental involvement activities
• Referrals to regional summer math and science programs
• Summer research and internships (McNair)
• Mentoring and graduate school admissions assistance

Campus Life and Activity Programs

Russell Union

The mission of the Russell Union is to complement the educational mission of the University by providing an environment where students, faculty, staff, and guests can gather to participate and learn through co-curricular experiences and by creating an atmosphere that fosters a sense of community. The union, providing facilities, services, and support to programs that enhance the quality of out-of-class experiences, contains the following offices: Greek Life, I.D. Center, Judicial Affairs, Office of the Dean of Students, Russell Union Operations, Student Activities, Student Government Association, Student Leadership, and Volunteer Services. Included in the 110,000 square foot Russell Union facility is a 750-seat ballroom, a 444-seat movie theatre/auditorium, three 42-inch plasma TV’s, 15 meeting rooms, two
computer labs, Chick-Fil-A, Starbucks (coming soon), Talon’s Grille, an information center, a catering kitchen, and several areas throughout the building to study, relax, and exchange thoughts and ideas with faculty, staff, and fellow students.

Eagle Entertainment
Eagle Entertainment is Georgia Southern University’s student-run programming council that consists of six teams: Reel Entertainment, Southern Travel, Traditions and Spirit, Sound Stage Productions, Maximum Exposure, and Promotions and Volunteer Recruitment. These creative teams deliver programming that provides a social, fun, and relaxing atmosphere to meet new friends and relax with old friends. Eagle Entertainment provides Georgia Southern University students with a variety of popular entertainment and guest speakers throughout the year. Eagle Entertainment also supports the academic mission of Georgia Southern University by collaborating with various academic departments, organizations, and offices in providing speakers and experts on a variety of topics. Students can obtain a schedule of events at the Student Activities Center (SAC) in the Russell Union or at http://www.eagleentertainmentonline.com.

Welcome Week and Homecoming are major events produced by Eagle Entertainment during the fall semester. Other events like the Miss Georgia Southern University Scholarship Pageant, outdoor movies, concerts, and the Spring Break trip are among programs coordinated in the Spring semester. Students can also read The George-Anne newspaper for ads with the latest information. All events are open to Georgia Southern University students, faculty, and staff with their ID.

For more information about what programs are coming to campus or how to get involved, please contact the Office of Student Activities in the Russell Union Building, Room 1056, or visit the website at http://www.eagleentertainmentonline.com. Get excited...and expect more... Eagle Entertainment 2006!!

Office of Student Leadership
Come visit the Office of Student Leadership in the Russell Union Room 2022, visit our website at http://students.georgiasouthern.edu/leadership, call us at (912) 871-1435, or contact us via email at leader@georgiasouthern.edu.

The Office of Student Leadership advances the leadership potential and civic engagement of Georgia Southern students. The Office develops curricular, co-curricular, and experiential leadership programming. It is our mission to provide students with the opportunity to realize their personal leadership style and capacity to effect change in society.

Some of the programs provided by the Office include:

- Eagle Leadership EDGE - EDGE is a multi-faceted program for first year students looking to take that first step toward becoming a leader at Georgia Southern University. Participants attend 10 weekly sessions to develop skills to prepare them for leadership.

- INSPIRE Student Leadership Consultants- INSPIRE is a group of advanced student leaders who oversee the planning of the Leadership Conference, a Leadership Speaker Series, and provide information about leadership to our student organizations.

- Leadership Development Series- INSPIRE coordinates a weekly leadership workshop series for students who have an interest in developing their leadership skill sets.

- Leadership Retreats - The Office offers Summer Leadership Retreats for incoming freshmen. These programs are designed to assist with adjustment to campus and provide leadership workshops, team-building, and service opportunities. The students are guided through the experience by a team of current students.

- Leadership Conferences - The Office of Student Leadership provides opportunities for current students to attend regional leadership conferences. Additionally, a one-day leadership conference is hosted on Georgia Southern’s campus that is designed for both students in leadership positions and students looking to advance their leadership skills.

- Leadership Resource Room - A resource room containing books, videos, audiotapecs, and assessment instruments for use by students, faculty, and staff. The resource room is located in Room 2022 of the Russell Union.

Volunteer Services Office
The Volunteer Services Office offers students excellent opportunities to become active in the community through service experiences. Volunteering is a powerful way for students to gain hands-on professional level experience while addressing existing social issues and community needs. The Office provides students with information and resources about the many opportunities available in the community. The Office presents a service transcript to students at graduation who submit the required amount of service hours to the office.

Some programs provided by the office include:

- Sculpt it for the Hungry: Sponsored during Homecoming Week, organizations collect non-perishable food and clothing to create a structure. All items are then donated to community groups.

- President’s Award: Georgia Southern University is an official sponsor for the President’s Award. This award is given by the President of the United States for service to your community. Students must register in the Volunteer Services Office to qualify.

- Red Cross Blood Drives: Students can give the gift of life by donating their time and blood at monthly Red Cross Blood Drives.

- Step-Into-Statesboro: A half-day service opportunity in August for incoming and returning students to discover community agency opportunities in Statesboro.

Students may visit the Volunteer Service Office in Russell Union Room 2022, call us at (912) 871-1435, e-mail us at vol@georgiasouthern.edu, or visit us on the web at http://students.georgiasouthern.edu/volunteer.

Campus Recreation and Intramurals
The Department of Campus Recreation and Intramurals (CRI), an integral and active service of the diverse University community, supports and strengthens the mission of Georgia Southern University. Our purpose is to provide growth opportunities and educational experiences, which will enrich the life-long learning process. Through our programs and facilities, which are recreational, educational and sporting in nature, we promote and develop healthy life-style choices. Benefits of participation include the application of leadership, decision-making, problem solving, conflict management, communication and social skills. We strive to provide the safest, cleanest, highest quality, most dependable and enjoyable services.

CRI is divided into six separate recreational programs: Aquatics, Club Sports, Fitness, Informal Recreation, Intramural Sports and Southern Adventures.

- Aquatics is a program for those participants who enjoy swimming, diving, aqua aerobics, or simply relaxing in the pool.
- Club Sports are unique student organizations in which the overall functions of the organization are student operated. Club sports may be organized for instructional, recreational and/or competitive purposes, and offers a way of finding others who share similar recreational interests. Current organized clubs include Aikido, Badminton, Baseball, Bowling, Brazilian Jujitsu, Climbing, Cycling, Equestrian, Feng Shui, Kung Fu, Rugby, Soccer, Softball, Southern Explosion (dance), Tae-Kwon-Do, Ultimate Frisbee, Volleyball, Water Ski, Wrestling, Xtreme Martial Arts, and Racquetball.
- The Fitness Program promotes health and wellness in many ways. Group Exercise (GX) classes including Yoga, Pilates, traditional aerobic and resistance classes and assist participants in improving their cardiorespiratory fitness while also building strength and endurance. Lifestyle and Weight Management workshops provide education for a healthy lifestyle. Personal Training and Fitness Assessment services are available to assist in evaluating fitness levels and providing guidance to reach or maintain fitness and wellness goals. Massage Therapy is also available to aid in relaxation and stress relief.
- Informal Recreation allows participants to engage in a variety of unstructured recreation activities such as basketball, volleyball, racquetball, walking or jogging. CRI also offers items for check-out – free of charge! Some of these items include: hand wraps, boxing gloves, radios, racquetballs, racquets, basketballs and heart rate monitors.
- Intramural Sports provide students, faculty, and staff the opportunity for competition and fun in a variety of team and individual sports activities. Divisions are available for men, women and co-rec teams in a variety of skill and competition levels. Participants can compete in a variety of sports including flag football, dodge ball, basketball, indoor/ outdoor soccer, softball, golf, tennis and bowling.
- Southern Adventures is the university community’s resource for adventure programming. Southern Adventures provides guided backpacking, sea kayaking, canoeing, and cycling trips that range from weekend trips around the southeast to week-long trips in Hawaii and California. The equipment rental center provides all the gear needed for embarking on your own adventures. The challenge course is designed to provide exciting, experiential opportunities that focus on leadership, communication, self/group awareness and inter-personal skills. The climbing wall, located in the RAC, allows participants to experience the thrill of rock climbing indoors. Instructional clinics are offered throughout the year to learn kayaking, belaying, navigating and other hard skills for outdoor recreation enthusiasts.

Participation in CRI programs is completely voluntary. It is strongly recommended that all participants consult a physician and/or have a physical exam prior to participation. Participants are also urged to secure adequate personal medical coverage. Additional CRI program information can be found on our website at http://www.georgiasouthern.edu/services/cri/.

The University Store
Located between the Russell Union and the Landrum Center, The University Store helps prepare Georgia Southern students for the “Southern” experience. For the “spirited,” the latest styles of officially licensed Georgia Southern apparel and gift items are available. The University Store also sports a General Books department that carries a variety of general books and “How-To” manuals.

Georgia Southern students can enjoy the convenience of one-stop shopping! The University Store is the only establishment that has all of the required textbooks and support material that are needed for Georgia Southern classes. The Supplies department has an extensive selection of pens, pencils, notebooks, binders, art and engineering supplies, and much more.

The University Store also buys back textbooks from students every day (though most students wait until the week of finals to sell their books). If the book is required for a course the following semester, the Store will pay 50% of the new book price, unless a quota has already been met. On the other hand, if the book hasn’t been ordered by a professor, it can still be bought by a book wholesaler at up to 33% of the retail price. Visit our website at http://www.gustore.com to check the buyback price of your books.

For the convenience of shopping at home, The University Store can be reached on the Internet at http://www.gustore.com.

Student Organizations
Part of each student’s education is the development of his or her talents outside the classroom through participation in the wide variety of activities offered by Georgia Southern University. These activities range from the Student Government Association to the honor and recognition societies, special interest groups, professional fraternities and departmental clubs, and religious groups. For more information on student organizations contact the Office of Student Activities, (912) 486-7270. Georgia Southern University has over 200 student organizations.

The supervision and coordination of student activities and organizations are the responsibility of the Director of the Office of Student Activities. Student activities and organizations are not considered extra-to-the-curriculum by Georgia Southern University, but instead are regarded as an integral part of the total educational program. Therefore, to warrant existence and recognition, campus organizations must contribute to the academic, recreational or cultural climate of the university. It is for this reason that the university reserves the right to officially recognize each student organization, and requires that it function in accordance with its constitution and/or purpose. Procedures for establishing new organizations can be found in the Guide to the Development and Operation of Student Organizations, available from the Office of Student Activities. Practices of the various student organizations shall not be contrary to stated policies of the university. All students and student organizations are responsible for their conduct and are responsible for familiarizing themselves with the standards and regulations of the university.

Student Government Association
The Student Government Association is the central student organization on campus. Its five executive officers - President, Executive Vice President, Vice President for Academic Affairs, Vice President for Finance, and Vice President for Auxiliary Affairs - are elected each Spring Semester by the student body.

Student Government represents the student body in all phases of student life at Georgia Southern University and facilitates communication among the administration, the faculty, and the student body. Individuals or organizations desiring input into the total life of the campus should enlist the services of the officers and senators. For additional information, call the Student Government Association at (912) 681-0655 or access their website at http://studentorg.georgiasouthern.edu/sga/.

Greek Life
Greek Life is an active part of student life on campus. Approximately 10 percent of full time undergraduate students are members of 19 fraternities and 6 sororities. These organizations provide opportunities for members to develop and refine personal leadership skills, make new friends, participate in campus activities and athletics, contribute to local and national philanthropies, and improve their scholarship aptitude. For additional information, call the Office of Greek Life at (912) 681-5185 or access their website at http://students.georgiasouthern.edu/greeklife/.
The following information pertains to undergraduate students. Graduate students, please reference “The College of Graduate Studies” section regarding graduate academic information.

**Courses Appropriate to Major** .................................... 18 Hours

Additional Requirements .................................................. 5 Hours

Upper Division Requirements and Electives, to total a minimum of 125 semester hours.

Definition of a Major  
A major program must include 21 semester hours or more of upper division (junior-senior level) courses in a field of study.

**General Academic Information**

The University is organized on the semester system with each of the two terms (Fall and Spring) in the regular session extending over a period of approximately 15 weeks. Summer session consists of six different terms: Long, A, B, College of Business Administration (COBA), College of Education (COE), and Learning Support (LS). Long term lasts approximately ten weeks. Terms A and B are scheduled to last four weeks. COBA and COE terms last seven to eight weeks. The LS term is approximately six weeks.

The semester hour is the unit of credit in any course. It represents a recitation period of one fifty-minute period per week for a term. A course meeting three fifty-minute periods per week or two seventy-five minute periods per week when completed satisfactorily will thus give credit for three semester hours. Two laboratory or activity periods are the equivalent of one recitation class period.

**Classification**

Students are classified at the beginning of each term on the following basis:

- **Freshmen**  
  0 - 29.99 hours earned

- **Sophomores**  
  30 - 59.99 hours earned

- **Juniors**  
  60 - 89.99 hours earned

- **Seniors**  
  90 or more hours earned

**Course Load**

A student’s course load is computed on the credit hour value of all courses taken for credit during the term whether taken on-campus, off-campus, or by correspondence. A normal load in a term is 12 to 18 hours. Twelve or more hours is considered a full-time load for determination of tuition and financial aid benefits for undergraduate students. An advisor may approve an overload for 19-21 hours. The Dean of the College in which the student’s major is found may approve an overload for 22-23 hours. Under extraordinary circumstances, a student’s dean may recommend to the Provost that a student be allowed to take more than 23 hours, but never more than 25 hours. During the summer semester, an undergraduate student must receive approval from his/her advisor to enroll in more than 12 hours. Graduate students must receive advisor approval to enroll in more than 9 hours in the summer semester.

**Attendance Verification**

Each semester, during the first six days of class, instructors are required to report attendance verification for all students registered in their classes. Students are strongly advised to attend each class to be sure they are reported as attending. This applies to all classes, on-campus and off-campus, distance learning via GSAMS or Internet. For classes that begin later in the semester, the instructor will also verify attendance during the first days of class. Students may check their attendance status in their classes each semester via WINGS. To retrieve this information, the student must log into WINGS through https://my.georgiasouthern.edu/ and click on “Student Services and Financial Aid.” Next, the student must click “Attendance Verification” and submit the term in which the student wants to view his/her attendance status (Fall, Spring or Summer semester). After the term is submitted, the student will view the enrolled classes with the comment “Attended” by the course if the student has been verified as attending by the instructor or “Has not attended” if the student has not been verified by the instructor as attending.

**Class Attendance**

Each professor has the responsibility for setting specific policies concerning class attendance. Professors should clearly state policies to each class and make clear what constitutes excessive absences. Departments may establish policies concerning class attendance provided there is unanimous agreement by faculty members within the department. The student is responsible for all material presented in class and for all announcements and assignments whether or not the student is in attendance.

The University does not issue an excuse to students for class absences. In cases of absences as a result of illness, representation of the University in athletic and other activities, or special situations, instructors may be informed of reasons for absences, but these are not excuses.

It is the policy of the University to permit students, faculty, and staff to observe those holidays set aside by their chosen religious faith. The faculty should be sensitive to the observance of these holidays so that students who choose to observe these holidays are not seriously disadvantaged. It is the responsibility of those who wish to be absent to make arrangements in advance with their instructors.

**Grading Systems**

All institutions of the University System of Georgia shall be on a 4.0 grade point average system. The following grades are approved for use in institutions in the determination of the Grade Point Average:

<table>
<thead>
<tr>
<th>Symbols</th>
<th>Explanation</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4.0</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3.0</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2.0</td>
</tr>
<tr>
<td>D</td>
<td>Passing</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>0.0</td>
</tr>
<tr>
<td>WF</td>
<td>Withdraw Failing</td>
<td>0.0</td>
</tr>
</tbody>
</table>

The following symbols are approved for use in the cases indicated, but will not be included in the determination of the grade point average:

- **I** = Incomplete  
  0.0

- **IP** = In Progress  
  0.0

- **S** = Satisfactory  
  0.0

- **U** = Unsatisfactory  
  0.0

- **V** = Audit  
  0.0

- **W** = Withdraw  
  0.0

- **WM** = Withdraw Military  
  0.0

An incomplete grade (“I”) indicates that the student was doing satisfactory work, but was unable to meet the full requirements of the course due to non-academic reasons. It is the student’s responsibility to contact the instructor to complete the remaining requirements of the course. The instructor assigning an “I” grade must submit justification for this grade to the Registrar’s Office. An “I” should be removed during the following
term, but the instructor may allow the student up to one calendar year to remove the incomplete. The student must complete the requirements of the instructor who assigned the incomplete and should not re-register for the course. If the “I” is not satisfactorily removed by the end of the third term (one calendar year), it will be changed to an “F” by the Office of the Registrar. For HOPE scholarship recipients, “I” grades could affect HOPE eligibility status when the grade for the incomplete is eventually submitted to the Office of the Registrar. Students who had been awarded HOPE, but later became ineligible with the grade change, will have HOPE awards canceled until the next checkpoint, and will be responsible for the repayment of any HOPE funds received while not eligible.

IP  These symbols indicate that credit has not been given in courses that require an “IP” continuation of work beyond the term for which the student signed up for the course. The use of these symbols is approved for dissertation and thesis hours and project courses. With the exception of Learning Support courses, these symbols cannot be used for other courses. These symbols cannot be substituted for an “I”.

K  This symbol indicates that a student was given credit for the course by examination (e.g., College Level Examination Program (CLEP), Advanced Placement (AP), or Proficiency). See “Credit by Examination” in the Admissions section of the catalog.

NR  This symbol indicates that a grade has not been reported for the course. The student should contact his/her instructor for the grade.

S  This symbol indicates that credit has been given for completion of degree requirements other than academic course work. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. A “S” is not included in the computation of the GPA.

U  This symbol indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. A “U” is not included in the computation of the GPA.

V  This symbol indicates that a student was given permission to audit the course.

W  This symbol indicates that a student was permitted to withdraw without penalty. It is assigned when a student withdraws before the last day to drop without academic penalty. A “W” is not considered in computing the GPA. If a student withdraws from all classes after the last day to drop without academic penalty, it is recommended to the instructor that he or she assigns a “W” if passing at the time of withdrawal.

WF  If a student withdraws from all classes after the last day to drop without academic penalty, it is recommended to the instructor that he or she assigns a “WF” if passing at the time of withdrawal or a “W” if the student is failing at that time. The grade is the prerogative of the instructor. The “WF” is computed as an “F”. If a grade of “W” or “WF” is not assigned by the instructor, the Registrar’s Office will enter a grade of “W” for the student.

WM  A “WM” grade indicates that the student was called for active duty in the military and withdrew from all classes. Students who receive a Military Withdrawal are withdrawn from the University as of the first day of University classes. A 100% refund is issued to the student or whoever has paid the student’s tuition. The student will receive “W” grades for all courses that he/she registered for and all hours are counted as attempted on the student’s record.

Auditing Courses
A student may audit a course by submitting a written request to the Registrar’s Office. Academic credit is not awarded for auditing a class. Students may not transfer from audit to credit status, or from credit to audit status after the last day of Drop/Add. A grade of “W” (audit) is entered on the student’s record. The student will be responsible for all fees charged for the audited course.

S/U Grading Option
Students may select the S/U grading option under the following conditions:
1. Student must have earned 67 semester hours of credit prior to enrolling in any course for S/U grading;
2. Student must be in good academic standing;
3. Student must have declared a major;
4. S/U grading will be permitted only in courses being used to satisfy the free elective or minor requirements of the individual student’s degree program. A maximum of three hours will be allowed for any minor. The option applies only to undergraduate courses;
5. Student may not change from S/U grading status to letter grade status or vice versa after the last day of Drop/Add.

The course content and requirements are the same for S/U registrants as for regular registrants. The minimum performance for an “S” grade is equivalent to the minimum performance for the letter grade “D”.

A student electing the S/U grading option must obtain approval from the student’s advisor. The advisor giving such approval should submit a memo specifying this approval to the Registrar’s Office.

Petition to Review/Change a Grade
The evaluation of the quality of a student’s performance is the prerogative of the instructor. Nothing stated below is intended to place a limitation on this prerogative and the instructor will be involved in the review at each stage in the appeal process. All grade appeals should be viewed as confidential matters between the student, the instructor, and the appropriate administrators.

If a student does not understand the reason for a grade, it is the student’s responsibility to consult the instructor of the course about the grade. If after such consultation the student does not agree with the basis on which the grade was assigned, the student may initiate an appeal according to the procedures given below. The burden of proof will rest with the student. There are four stages of appeal available to a student and they must be followed sequentially.

Stages Two through Four must be completed during the term immediately following the term in which the grade was assigned unless an extension is authorized by the Provost. At the completion of each stage of the appeal, the student is to be notified of the decision in writing.

Procedures
Stage One: An appeal must be initiated within fourteen working days after the first day of class of the term which immediately follows the term for which the grade is awarded. The student
should petition the instructor in writing, giving salient reasons for the grade appeal. The student should retain a copy of the written appeal for personal records.

Stage Two: If the student is not satisfied after the review by the instructor, the student should consult the department chair and submit a copy of the written appeal. The department chair will attempt to resolve the grade appeal. The chair will meet with the instructor and may consult with other persons who have relevant information.

Stage Three: If all efforts to resolve the grade appeal at the departmental level are unsuccessful, the student may submit the written appeal to the dean of the appropriate college. The dean will examine the appeal and other pertinent materials submitted by the student. The dean will meet with the instructor and may also request from the instructor materials deemed relevant. In an attempt to resolve the grade appeal, the dean may interview the student, instructor, and others who may have pertinent information. If the dean determines the need for a review committee to examine the issue, the committee shall consist of:
- One faculty member from the department
- One faculty member from the college, but not from the department of the instructor
- One faculty member from another college
- Ex Officio: A staff member from Student Affairs and Enrollment Management recommended by the Vice President for Student Affairs and Enrollment Management

The committee, if appointed, will advise the dean regarding the grade under appeal. Whether the dean chooses to appoint a committee or not, the dean will render a final decision on the grade appeal at the college level.

Stage Four: If all efforts to resolve the grade appeal at the college level are unsuccessful, the student may submit the written appeal to the Provost. The Provost will examine the appeal and other pertinent materials submitted by the student. The Provost will meet with the instructor and also may request materials deemed relevant. In an attempt to resolve the grade appeal, the Provost may interview the student, instructor, and others who may have pertinent information.

If a committee was constituted at the college level, the Provost will review the process, the committee findings, and the decision of the dean and render a final University decision. If a committee was not appointed at the college level, the Provost has the option of appointing a review committee which will conform to the composition described in Stage Three. The committee, if appointed, will advise the Provost regarding the grade under appeal. Whether the Provost chooses to appoint a committee or not, the Provost will render a final University decision.

Midterm Grades
Georgia Southern faculty report to freshmen students their progress in each of their classes prior to mid-term. By using this very important academic and retention tool, it is hoped that members of the University will be able to intervene earlier with students so that they may be successful in their courses.

Faculty members are asked to submit a progress grade of Satisfactory (S) or Unsatisfactory (U) for each freshman. A grade of “S” will indicate that the student is doing the equivalent of “C” or better work, while a grade of “U” will indicate that the student is doing less than “C” work. Progress may be determined by any and all means of evaluation (e.g., tests, quizzes, written assignments, class participation, attendance, or a combination). Faculty are able to submit progress grades through WINGS using a Progress Report Grade Roster, which lists only the freshmen enrolled in the class. Freshmen are able to view their progress grades in their WINGS student account as soon as the instructor enters the grade. (To view midterm grades, select “Student Services and Financial Aid.” Under “Student Records”, click “Mid-term Grades” to view the grades assigned for all courses.)

Freshmen who receive unsatisfactory progress grades are advised to seek the counsel of their instructor and advisor to determine a plan for intervention, which should help the students be successful in their classes. The intervention strategies may include workshops in the Academic Success Center, tutoring sessions, individual tutoring, enrollment in a tutorial class, assistance from the Student Disability Resource Center or Counseling Center, or dropping the course if that is deemed necessary. Additional assistance is also available from the Office of Advisement, as well as the Academic Advisement and First Year Experience websites.

Grade Point Average (GPA)
The grade point average is the grade average on all work for which the student is enrolled excluding remedial and institutional credit. It is obtained by dividing the total number of grade points earned by the total number of semester hours attempted (GPA hours). The institutional GPA is based only on the course work done at Georgia Southern University and does not include transfer course work.

Undergraduate students will have calculated for them a total institution GPA as well as the official cumulative GPA. The cumulative GPA (Regents’ GPA) is the average of all grades in college credit courses the student has taken at Georgia Southern. The total institution GPA is used for determining a student’s academic standing. If a student repeats a course, the last grade in the course counts and only the last grade is calculated in the total institution GPA. However, students should be aware that all grades earned at Georgia Southern University will appear on the Georgia Southern transcript.

A GPA is computed for each level (undergraduate, masters, specialist, doctorate) of course work. For example, a student who has been enrolled as both an undergraduate and a master’s student will have one GPA for all undergraduate course work and one GPA for masters course work.

Dropping a Course
Dropping a course after the last day of registration (Drop/Add) can be done by either submitting a drop form to the Registrar’s Office or by processing over WINGS prior to Midnight on the last day to drop without academic penalty (this date is published in the University Calendar for each semester). Any student who registers for a course must either complete course requirements or officially drop before the last day to drop without academic penalty. An “F” will be recorded for students who discontinue attending class without officially dropping the course before the last day to drop without academic penalty. With the proper procedures followed by the student, a “W” grade will be issued for any course dropped after the Drop/Add period but before the last day to drop without academic penalty. Fees will not be reduced if the course is dropped after the Drop/Add dates.

Withdrawal from School
Prior to the first day of University classes, a student should complete a Voluntary Cancellation Form obtained from and returned to the Office of the Registrar. Any student who wishes to withdraw from school during the term must present an official Withdrawal Form to the Office of the Dean of Students. Failure to do so will result in the assignment of failing grades in all courses for which the student registered. Withdrawal is not permitted after the last day of class. Grades of “W” will be given for all courses if withdrawal is before the last day to drop without academic penalty. If withdrawal is completed after the last day to drop, instructors are given the option of assigning “W” or “WF” grades. A “WF” grade is calculated in the GPA the same as an “F” grade. Once the semester has begun, students will not be able to withdraw from all of their courses via WINGS. WINGS prevents students from withdrawing from their last course over the web. A withdrawal form must be submitted to the Office of the Dean of Students to be withdrawn properly from Georgia Southern University.

Medical Withdrawals
A student may be administratively withdrawn from the University...
when it is determined that the student suffers from a physical, mental, emotional or psychological health condition which:
(1) poses a significant danger or threat of physical harm to the student or to the person or property of others or (2) causes the student to interfere with the rights of other students or with the exercise of any proper activities or functions of the University or its personnel or (3) causes the student to be unable to meet institutional requirements for admission and continued enrollment, as defined in the Student Conduct Code and other publications of the University. Except in emergency situations, a student shall, upon request, be accorded an appropriate hearing prior to a final decision concerning his or her continued enrollment at the institution. Medical withdrawals are not permitted after the last day of class.

Military Withdrawals
A student who is called to active duty to serve in the military while attending courses at Georgia Southern University is eligible to receive a Military Withdrawal. Students receiving this type of withdrawal are coded as a “WM” in the system and are withdrawn as of the first day of University classes for the term. A 100% refund is issued. The student will receive “W” grades for all courses that he/she enrolled in during the semester and all hours are counted as attempted on the student’s record. To process this type of withdrawal, the student needs to contact the Office of the Dean of Students and submit a “Withdrawal Form.” The student will need to provide this office with a copy of his/her orders stating the date and place of deployment assigned by the military.

Petition to Drop a Specific Course (Without Penalty)
In every case in which a student drops a course before the last day to drop without academic penalty, a “W” is assigned. No petition is involved. Simply complete a drop form through the Office of the Registrar or drop the course via WINGS. For a student to drop without penalty from individual courses after the last day to drop without academic penalty, the instructor must certify on the “Petition to Drop a Specific Course” form all four of the conditions below and recommend withdrawal:
1. All work was up-to-date as of the last day to drop without academic penalty.
2. The work was of passing quality at the last day to drop without academic penalty.
3. Attendance was satisfactory up to the last day to drop without academic penalty.
4. The factors justifying withdrawal are essentially non-academic and developed after the last day to drop without academic penalty.

The Department Chair also must recommend the drop. After conferring with the instructor and department chair, the student must submit the completed “Petition to Drop a Specific Course” form to the Office of the Registrar. The Dean will submit the petition to the Office of the Registrar. This form may only be obtained from the Office of the Registrar.

Policy for Changing a Student’s Final Examination
A change in a student’s final examination schedule will be approved only for emergency reasons, such as serious illness (a note from Health Services or family physician is required) or the death of an immediate family member (a letter or phone call from a parent, guardian, or physician is required). Letters and phone calls should be directed to the appropriate faculty member.

Final examination schedules will not normally be changed for any of the following reasons: wedding of the student, relative, or friend; part-time or full-time job or job interview; internship or field study; vacation; graduation of relative or friend; convenience of travel schedule; or only one final examination remaining at the end of the week. Exceptions to these guidelines can be made, but should be based on a very compelling case.

Using these guidelines, the student may submit a Request to Reschedule a Final Examination form to the instructor, who, with approval of the department chair, has authority to reschedule the final examination to a new time not conflicting with other regularly scheduled examinations or classes if he or she desires. Forms are available in department offices.

Policy for Changing a Student’s Final Examination if There is a Conflict
A conflict is defined as three exams in a calendar day or two exams at the same time. Conflict Periods are scheduled at the stated times in the semester exam schedule, which can be accessed at: http://students.georgiasouthern.edu/registrar/. You can go to the main menu and scroll down until you see “Schedule of Classes and Final Exams.” To resolve a conflict in which a student has two examinations scheduled for the same period, the instructor of the lower numbered course shall reschedule the exam to another time mutually agreed on by the instructor and the student, or to one of the Conflict Periods.

To resolve a conflict in which a student has three examinations scheduled in one calendar day, the examination scheduled for the middle period shall be rescheduled to another time mutually agreed on by the instructor and the student, or to a Conflict Period on another day. It is incumbent upon the student to petition his/her professor no later than the last week of classes so that an alternative arrangement can reasonably be made.

President’s List
During any term, an undergraduate or post baccalaureate student carrying 12 or more GPA hours and making a term GPA of 4.0 will be placed on the President’s List. A President’s List Certificate will be awarded by the President.

Dean’s List
During any term, an undergraduate or post baccalaureate student carrying 12 or more GPA hours and making a term GPA of 3.5 - 3.9 will be placed on the Dean’s List. The Dean’s List Certificate will be awarded by the appropriate dean.

Transcripts - Ordering via fax, mail, or web
Former students as well as current students may fax a completed, signed request form to (912) 871-1448 or mail to: Georgia Southern University, Office of the Registrar, P.O. Box 8092, Statesboro, GA 30460. Telephone requests will not be honored. One week must be allowed for processing a transcript request. There is no charge for transcript services. Students may print unofficial transcripts from WINGS (Web Interactive Network for Georgia Southern). Please visit My.GeorgiaSouthern.edu and click on WINGS.

Current or recently enrolled Georgia Southern students may order transcripts via the web at My.GeorgiaSouthern.edu and select “Student Services and Financial Aid” to enter “Student Records.” Complete the request form “Request Printed/Official Transcript.”

Registration Time Tickets
Undergraduate students are allowed to register on Georgia Southern University’s web system, WINGS (Web Interactive Network for Georgia Southern), each term by means of their time ticket. A “time ticket” gives a student beginning and ending dates and times for registration. Time tickets are assigned on the basis of total institution cumulative hours earned. Students may view their time ticket on WINGS by going through their MyGeorgiaSouthern account. A student’s time ticket on WINGS is found by first clicking on the “Student Services and Financial Aid” menu. After choosing this menu, the student will click on “Registration,” then click on “Check Your Registration Status.”

Before any student at Georgia Southern University registers for classes on WINGS, he/she must have a RAN (Registration Access Number). This number will be given to each student by the appropriate academic advisor during advisement each semester.
Degree Evaluation

The Degree Evaluation is a degree audit advising tool available through WINGS that is used to help undergraduate students track courses toward their degree. The Degree Evaluation is an UNOFFICIAL evaluation of how courses may be used toward degree requirements. The Degree Evaluation is a guide that can be used by the student and/or advisor. Adjustments can be made to the evaluation by submitting the “Degree Evaluation Adjustment Form.” For additional information on Degree Evaluation and the Adjustment Form, please see “DEGREE EVALUATION” at http://students.georgiasouthern.edu/registrar/.

Transient Students

Georgia Southern University students (with a 2.0 Georgia Southern institutional GPA) who wish to take course work at another institution and receive academic credit at the institution may do so if the following conditions are met:
1. Student is not on Academic Probation or disciplinary dismissal (exclusion);
2. Student must complete a Transient Form (available in the Registrar’s Office at http://students.georgiasouthern.edu/registrar/) obtaining the approval of his/her advisor and the Registrar;
3. If the student is within the last 30 hours of graduation, the student must also obtain the written approval of his/her dean;
4. Students with learning support requirements must obtain permission from the Learning Support Department Chair;
5. Students may be approved for transient status for only one term at a time;
6. Students must make a minimum grade of “C” to assure that the course will be accepted in transfer;
7. Students attending another institution as a transient student must request that an official transcript of course work (once the term is over) as a transient be sent to Georgia Southern University’s Office of the Registrar;
8. A student who takes his/her last work for a degree as a transient student during any graduation term may not be eligible for graduation that term;
9. A student must make application to the school he/she wishes to attend;

Note: Courses taken as a transient will not be calculated in the GPA. However, transient work may affect a student’s eligibility for graduation with honors.

Academic Policies

A student shall be considered in good academic standing unless he/she has been excluded from the University and not readmitted. A student whose total institution GPA falls below 2.0 will be subject to the policies listed below.

Probation

Probation serves as a notice that academic dismissal from the University will follow unless the quality of academic work improves and the terms of probation are satisfied. A student will be placed on probation at the end of any term in which the total institution cumulative GPA drops below 2.0. Probation status is noted on the student’s transcript. A student will be allowed to continue on probation a maximum of two successive terms of enrollment as long as he/she maintains a term GPA of 2.0 or better. Probation will be removed at the end of any term in which the total institution cumulative GPA reaches 2.0. If at the end of two successive terms of enrollment the total institution cumulative GPA has not reached 2.0, the student will be placed on Restricted Enrollment or Exclusion.

If a student returns to satisfactory status (2.0 or better total institution cumulative GPA) and later falls below again, the student will again have two successive terms to reach a total institution cumulative GPA of 2.0 as long as the term GPA is at least 2.0.

Academic Intervention Policy

Any student with fewer than 30 overall GPA hours and whose total institution cumulative GPA is 1.5 or below must meet the following conditions (This policy also applies to transfer students):
1. May enroll in no more than 13 hours until the total institution cumulative GPA is above 1.5. The typical load would be academic courses for 9 - 10 hours, GSU 1120 for 2 hours (see #2 below), and a physical activity course (KINS prefix) for 1 hour.
2. Must enroll in GSU 1120, “Methods of Learning”, unless the student has completed that course with a minimum grade of “C” prior to Spring 2002, or a grade of “S”. The GSU 1120 course is specifically designed to improve study skills and overall academic performance. Students who do not attend as required will receive a grade of “F”.

Exceptions to this policy must be approved by the Director of Advisement and Retention. In addition to these requirements, students are strongly urged to have regular meetings with their advisors for periodic updates on academic progress, for consultation, and for referral to appropriate support services as needed.

While on Academic Intervention, a student may pre-register for a subsequent term without being subjected to the Academic Intervention Policy.

Restricted Enrollment

Restricted Enrollment only applies to a student who has not had a prior exclusion. Restricted Enrollment will occur in either of the following two conditions:
1. Failure to earn a term GPA of 2.0 or better while on probation or failure to remove probation status after two successive terms of enrollment.
2. When a student is enrolled in 9 or more hours of course work at the 1000 level or above, completes the term, receives grades other than “I” or “W”, fails to earn any credit for that term, and the total institution cumulative GPA is below 2.0.

A student on Restricted Enrollment will be subject to probation requirements with the probation counter starting over the first term on Restricted Enrollment. Therefore, if a student earns a term GPA below 2.0 while on Restricted Enrollment and the total institution cumulative GPA is below 2.0, or fails to earn a total institution cumulative GPA of at least 2.0 within two terms after placement on Restricted Enrollment, the student will be excluded.

A student placed on Restricted Enrollment should consider repeating courses in which he/she has earned “D” or “F” grades. The student should meet with his/her academic advisor to discuss ways to regain good standing.

Exclusion

Exclusion is an involuntary separation imposed upon a student who has previously been on Restricted Enrollment and who fails to meet the terms of Probation. Exclusion results when a student in this situation either fails to earn a term GPA of at least 2.0 or fails to clear Probation by the end of two consecutive terms of enrollment. You must earn at least a 2.0 GPA the first term on Probation to qualify for the second consecutive term. The purpose of Exclusion is to allow the student time to reflect on the jeopardy of his/her academic status. A first Exclusion is for one term. The summer term will be treated as any other term, including terms of involuntary separation. Any subsequent Exclusion is for one calendar year. A student who is readmitted after an Exclusion must enroll under the conditions of Probation. Academic Exclusion is noted on the student’s transcript. For a student with a previous Restricted Enrollment, Academic Exclusion will also result when a student is enrolled in 9 or more hours of course work at the 1000 level or above, completes the term, receives grades other than “F” or “W”, fails to earn any credit for that term, and the total institution cumulative GPA is below 2.0.
Learning Support Dismissal

1. A Learning Support student who is placed on dismissal for failure to exit the Learning Support Program will be excluded for three years. Any student in the exit-level course and still in only one area of Learning Support may appeal for one additional semester. If granted an appeal, the student may register for only the Learning Support course needed to complete his/her requirements. A student wishing to appeal should contact the Learning Support office at (912) 681-5371. Appeals must be received in the Learning Support office by noon the day before classes begin.

2. Alternately, a Learning Support student who is placed on dismissal for failure to exit Learning Support may apply for readmission as a transfer student after satisfying Learning Support requirements and completing thirty hours of college-level work with a minimum GPA of 2.0.

Readmission

A student who has been placed on first Academic Exclusion may apply for readmission to Georgia Southern University after remaining out for one term. After a subsequent Exclusion, a student may apply for readmission after remaining out for one year. A former student application should be submitted to the Registrar’s Office for the term readmission is desired.

Right of Appeal

In all matters concerning Academic Exclusion, the student may appeal by writing to the Registrar and clearly stating the basis for an appeal. The appeal will be considered by the Academic Standards Committee.

Appeal forms are available online at http://students.georgiasouthern.edu/registrar and must be submitted electronically. Go to “Forms on Line,” scroll down to the readmission appeal form, complete the form, and submit the appeal. An appeal should be submitted as soon as possible but must be received in the Office of the Registrar prior to 4 p.m. three (3) working days before the first day of University classes for the term a student is seeking readmission to Georgia Southern University. Individuals failing to satisfy the deadline may submit their appeal for the following term.

Requirements After Readmission

Following any academic dismissal and a subsequent readmission on probation, Academic Exclusion results from failure to earn a term GPA of 2.0 or better, or failure to remove Probation by the end of two successive terms of enrollment.

Repeating Courses

An undergraduate student may repeat any course and the most recent grade becomes the official grade for the course even if the most recent grade is lower. In computing the total institution GPA, only the most recent grade will be used (the earlier grade will remain on the transcript and in the Regents’ GPA). The total institution GPA will be used to determine academic standing and graduation GPA requirements.

Attending Other Colleges and Universities

The University cannot request another institution to accept a student during any period of ineligibility at Georgia Southern University. No transfer credit will be awarded for credits earned at another institution during any period of academic or disciplinary ineligibility.

Academic Renewal Policy

The Academic Renewal policy allows students who are enrolled in the University System of Georgia to have a fresh start if they have had academic difficulties in the past. The student must re-enroll at the same institution in which he/she experienced the problems and must not have attended any post-secondary institution for at least five calendar years prior to re-enrolling.

Former Learning Support students may not apply for Academic Renewal unless they had successfully completed all Learning Support requirements during their previous enrollment.

1. All previously attempted course work will continue to be recorded on the student’s official transcript. The student’s Regents’ GPA will include all credit courses taken excluding Learning Support courses. Any scholastic suspensions or exclusions that occurred in the past shall remain recorded on the student’s permanent record.
   a. Students must apply for Academic Renewal and Academic Renewal shall be granted upon application by the student. A student can be granted Academic Renewal status only once. Students should contact the Office of the Registrar to apply for Academic Renewal.
   b. An Academic Renewal GPA is begun when the student resumes taking course work following the five-year period of absence. A statement will be placed on the student’s transcript indicating the Academic Renewal status.
   c. The Academic Renewal GPA will be used for determining academic standing and eligibility for graduation. At least 50% of work toward a degree must be completed after the granting of Academic Renewal for a student to be eligible for honors at graduation.
   d. Academic credit for previously completed course work including transfer course work will be retained only for courses in which an “A”, “B”, “C”, or “S” grade has been earned. Retained grades are not calculated in the Academic Renewal GPA but are counted in the Academic Renewal Hours Earned.
   e. Retained hours earned prior to Academic Renewal may be used to satisfy Georgia Southern’s graduation residency requirement.

2. If a student does not request Academic Renewal status at the time of re-enrollment after a five year or greater period of absence from any post-secondary institution, the student may do so by the end of the second semester of re-enrollment or within one calendar year, whichever comes first. The Academic Renewal GPA begins with the first semester following re-enrollment.

3. Re-entry into any program is not automatic.

4. The granting of Academic Renewal does not supersede financial aid policies regarding Satisfactory Academic Progress.

5. The granting of Academic Renewal at Georgia Southern University will not supersede the admissions requirements of certain programs (e.g., teacher education, nursing) which require a specific minimum GPA based upon all course work.

6. United States and Georgia History and Constitution requirements met prior to the granting of Academic Renewal will remain on the student’s permanent record even though the courses may not count in the Academic Renewal GPA. Also, Regents’ Test scores prior to Academic Renewal will remain on the student’s record. Georgia Southern University will count all hours earned prior to Academic Renewal in regards to Regents’ remedial classes, College Preparatory Curriculum, and other Board of Regents’ Policy requirements.

7. Note for Students Granted Academic Renewal: The granting of Academic Renewal at Georgia Southern University will not supersede the admission requirements to graduate programs as set by the departments and the College of Graduate Studies.

Degree Requirements

Regents’ Testing Program

The Regents’ Test is an examination that assesses the competency level in reading and writing of those students enrolled in undergraduate degree programs in University System institutions. The following statement is policy of the Board of Regents of the University System of Georgia:

Each institution of the University System of Georgia will ensure the other institutions and the system as a whole that students obtaining a degree from the institution possess literacy competence.

The Regents’ Testing Program has been developed to attain this goal. The objectives of the Testing Program are:

1. to provide system wide information on the status of student competence in the areas of reading and writing; and
2. to provide a uniform means of identifying those students who fail to reach the minimum levels of competence in these areas.

Who Takes It:
You must take the test if any of the following conditions are met.
1. All regularly enrolled undergraduate students of Georgia Southern University;
2. Students whose native language is not English will take the test but will be tested separately and given more time (2 hours) on each component of the test under the guidelines of the International Students’ Policies;
3. Students with a documented disability will take the test under provisions approved by the Student Disability Resource Center;
4. All transfer students must take the test the first term of enrollment.

Exemptions:
Students with SAT-I Verbal scores of at least 510 or ACT Reading scores of at least 23 will be considered to have fulfilled the reading comprehension requirement of the Regents’ Test and do not need to take the reading portion of the Regents’ Test. Scores must be from a national administration of the SAT or ACT.

Students with College Board Advanced Placement (AP) English scores of at least 3, International Baccalaureate (IB) higher-level English scores of at least 4, or SAT II English Writing scores of at least 650 will be considered as having fulfilled the essay requirement of the Regents’ Test and do not need to take the essay portion of the Regents’ Test.

The following combinations of SAT Verbal (or ACT English) scores and grades in English 1101 and ENGL 1102 may be used to certify that students have met the Regents’ Writing Skills (essay) requirement:

- SAT-I Verbal score of 530 and above for students who earn an “A” in English 1101 or ENGL 1102 (see NOTE in “When” paragraph below)
- SAT-I Verbal score of 590 and above for students who earn a “B” in English 1101 or ENGL 1102
- ACT English score of 23 and above for students who earn an “A” in English 1101 or ENGL 1102 (see NOTE in “When” paragraph below)
- ACT English score of 26 and above for students who earn a “B” in English 1101 or ENGL 1102

When:
Students must take both portions of the test their first semester of enrollment unless they meet one or more of the exemptions listed above. Those who do not take the test while enrolled in ENGL 1101 cannot enroll in ENGL 1102 until they have taken the Regents’ Test or satisfied the exemptions. Students who do not pass the test(s) must continue taking the test(s) each term until both sections are passed. Students who fail both sections of the test are required to re-take both sections at one testing. The Registrar’s Office and Testing Office will register students for the test. The tests will appear as RRE 0001 (Reading and Essay), RE 0001 (Essay only), or RR 0001 (Reading only) on students’ schedules. NOTE: Students with a 590 or better SAT Verbal score or an ACT English score of 26 will not be registered for the Regents’ Test. However, these students may contact the Testing Office (681-5415) and request to be registered for the test. Any freshman student who receives a midterm grade of “C” or lower in ENGL 1101 will be registered for the Regents’ Test. Taking the test would allow them to be enrolled in ENGL 1102, even if they make a minimum grade of “C” in ENGL 1101.

Regents’ Review Course(s)
If a student has earned 45 semester hours of degree credit, the student must take a review course (Reading and/or Essay) each semester in attendance until both portions of the test have been passed, whether ENGL 1101 or 1102 has been completed. Each course carries two hours of institutional credit and will be considered a part of the student’s academic load. The student may not register for more than 18 hours Fall and Spring semesters including the review courses. Summer semester students may register for no more than 12 hours.

Transfer Students
All transfer students must take the test during their first semester of enrollment. Those who have not passed the test before their third semester of enrollment are subject to the review course requirement if they have earned 45 or more hours.

Regents’ Reading Skills: RGTR 0198
This course will meet twice a week (two hours per class) for eight weeks immediately preceding the Regents’ Test date. Schedule may vary with the term.

Regents’ Writing Skills: RGTE 0199
This course will meet twice a week (two hours per class) for eight weeks immediately preceding the Regents’ Test date. Schedule may vary with the term.

Attendance Policy: A student must attend at least 75 percent of the classes and complete at least 75 percent of the assigned work in order to be eligible to take the Regents’ Test that same semester. Failure to attend at least 50% of the class sessions will result in the student being ineligible to enroll in the University for the subsequent semester.

Exceptions:
1. Students will not be allowed to take the test when they are in violation of Regents’ policies;
2. International students will be subject to the policies approved by the Faculty Senate. Exceptions to these policies will be dealt with by the Exceptions Committee.

Students who fail to meet the above requirements will be subject to this action: A student who is required to take review courses and who does not meet the attendance requirements of the course will not be allowed to take the Regents’ Test during the term in which the student is enrolled. Students who are required to enroll in review courses for the Regents’ Test and do not register for them before the first class meeting are in violation of Regents’ and Institution’s policy. Such students will be administratively withdrawn from the University.

Campus Review Procedure for the Essay Component
1. A student may request a formal review of his/her failure on the essay component of the test if that student’s essay received at least one passing score among the three scores awarded and if the student has passed ENGL 1101 and 1102.
2. The review procedure is as follows:
   a. The student gives a written request to the Testing Coordinator.
   b. The request must be received no later than one week after the last day of Drop/Add the following term.
   c. The Testing Coordinator will verify the validity of the review request and will notify the chair of the Writing and Linguistics Department. The Chair will appoint three members of the English faculty to review the essay. Action of the Writing and Linguistics Department Review Committee will be final. The review must be completed within one week of the request by the Department Chair.
   d. The Chair of the Writing and Linguistics Department will send the results of the committee’s findings to the Testing Coordinator, who will inform the student of the results.
   e. If the committee’s findings support the student, the Testing Coordinator will send the appeal to the Board of Regents’ office for action.
3. The results of the review by the Board of Regents Testing Office will be final. The student will be notified through the institution of the results. Action on the appeal is generally taken after mid-term and after the next administration of the Regents’ Test.
History and Constitution (U.S. and Georgia) Requirements

Georgia law requires that each candidate for a degree or certificate demonstrate knowledge of the history and constitution of the United States and Georgia. These requirements may be met by passing examinations offered each term or by receiving a passing grade in certain courses. The courses and the requirement(s) each course satisfies are as follows:

- POLS 1101/1101H satisfies Georgia Constitution and U.S. Constitution;
- HIST 2110/2110H satisfies Georgia History and U.S. History;
- POLS 3330 satisfies Georgia Constitution;
- HIST 4130 satisfies Georgia Constitution and Georgia History.

The requirements are satisfied by completing Georgia Southern University’s Core Curriculum. Equivalent courses taken at other institutions may not meet these requirements. Therefore, students who transfer courses from other colleges should have their transcripts evaluated by the Office of the Registrar at Georgia Southern University no later than the beginning of their senior year to see if these courses satisfy the requirements.

Students taking College Level Examination Program tests or Advanced Placement (AP) Program tests for POLS 1101 or HIST 2110 should be aware that credit for these exams will satisfy the U.S. components of the History and/or Constitution requirements. If the AP course was taken at a Georgia High School and credit is awarded, the student will receive credit for satisfying the Georgia components.

Foreign Language Requirements

1. Requirements for Students Subject to CPC (College Preparatory Curriculum)-High School Graduation less than five years ago:
   Students graduating from high school are subject to CPC. These students are required to complete two years of the same foreign language in high school to satisfy CPC requirements. If the CPC requirement in foreign language is not met at the time of enrollment, the student must enroll in a first foreign language course (1001) which will not count toward college graduation.

2. Requirements for Students Not Subject to CPC-High School Graduation more than five years ago:
   Students graduating from high school more than 5 years ago are not subject to CPC. These students may count the foreign language toward graduation even though they may have completed these levels of the same language in high school.

Students who graduate from high schools outside the United States are not subject to the CPC requirements. Students whose native language is not English and have graduated from a high school in the U.S. and who have not satisfied CPC in high school may take a proficiency exam in their native language and satisfy their CPC requirement if they are proficient at the Elementary II (1002) level of their language.

Foreign Language Degree Requirements

BA Degree Requirements in Foreign Languages

BA degree students must complete through FORL 2002 (Intermediate II) course or its equivalent. Equivalence may be demonstrated by one of the following:

1. secondary school background showing four (4) years or more of preparation in a single language;
2. passing a placement test which grants credit through the FORL 2002 course;
3. written certification by the Department of Foreign Languages that the student’s residence abroad, family background, or other non-academic circumstance has provided the equivalent of Intermediate II proficiency.

Students who continue the language which they began in high school may do one of the following:

- enroll in FORL 1001 or higher and complete the foreign language sequence through FORL 2002 (Intermediate II). Students who are admitted with three or more years of preparation in a single language may want to seek higher placement through testing or advisement.
- take a placement test for credit for FORL 2001 (Intermediate I) and/or FORL 2002 (Intermediate II). Students who receive credit for FORL 2001 but not FORL 2002 may then enroll in FORL 2002.
- enroll in one or more elementary foreign language course(s) (FORL 1001/FORL 1002) as well as the two Intermediate level courses (FORL 2001/FORL 2002). All Accelerated Elementary and Intermediate (FORL 1060 and FORL 2060) courses count toward graduation.

The four basic sequence courses (FORL 1001, FORL 1002, FORL 2001, FORL 2002) will count toward graduation for BA degree students who take all four courses. The accelerated sequence (1060, 2060) allows students to complete the BA requirement in two semesters.

BS Degree Requirements in Foreign Languages

BS degree students whose programs specify a foreign language or allow for the option of a foreign language must complete through the FORL 2001 (Intermediate I) course or equivalent. Equivalence may be demonstrated by one of the following:

1. secondary school background showing three (3) years or more of preparation in a single language;
2. taking and passing a placement test which grants credit through the FORL 2001 course;
3. written certification by the Department of Foreign Languages that the student’s residence abroad, family background, or other non-academic circumstance has provided the equivalent of Intermediate I proficiency.

Students who continue the language which they began in high school may do one of the following:

- complete course work through FORL 2001 (Intermediate I);
- take a placement test for credit for FORL 2001 (Intermediate I). Students who are admitted with three or more years of preparation in a single language may want to seek credit for FORL 2001 or higher placement through testing or advisement.
- enroll in one or more elementary foreign language course(s) (FORL 1001/FORL 1002) as well as the Intermediate level course (FORL 2001). All Accelerated Elementary and Intermediate courses count toward graduation.

BS degree students who choose to start a language will take all three basic sequence courses (FORL 1001, FORL 1002, FORL 2001) and they will all count toward graduation.

NOTE: Intermediate I (FORL 2001) and Intermediate II (FORL 2002) may be taken concurrently with permission from the Foreign Language Department.

Graduation Requirements

Subject to the limitations and qualifications stated elsewhere in this catalog, the requirements for the baccalaureate degree are as follows:

- Undergraduate students should have their programs of study checked with their advisors at least three terms before anticipated completion of degree and submit an “Application for Graduation.” All degree seeking graduate students expecting to graduate must apply for graduation no later than the semester before degree requirements are expected to be completed.
- To have a degree awarded, the graduation fee must be paid and all other financial obligations or “holds” must be satisfied or removed before the end of the term that the student is planning to graduate.
Students must earn at least 25 percent (30 semester hours) of their degree requirements in residence at Georgia Southern University. The last 30 semester hours of work must be earned at Georgia Southern University, unless an exception is made for the student to be a transient student at another institution. A student cannot complete requirements immediately following the term he/she is in attendance as a transient student at another institution unless an official transcript of transient credit is received by the Registrar prior to the end of the semester at Georgia Southern University.

- For the B.A. degree, a maximum of 30 semester hours of upper division course work in the major may be allowed to count toward the minimum of 125 hours required for graduation.

- For the B.S. degree, a maximum of 40 semester hours of upper division course work in the major may be allowed to count toward the minimum of 125 hours required for graduation.

- At least half of the courses required in the major must be taken at Georgia Southern University.

- At least nine semester hours of the fifteen required in the minor must be taken at Georgia Southern University.

- At least twelve semester hours of the eighteen required in the concentration must be taken at Georgia Southern University.

- A maximum of three semester hours may be taken under the UT/U grading system within any minor.

- The total institution cumulative GPA of all courses (at least 125 semester hours) applying to the degree must be 2.0.

- A student must fulfill all major, minor and specific requirements prescribed for the degree and satisfy the legal requirements with regard to evidence of an understanding of the History and Constitutions of Georgia and of the United States.

- A student must pass the Regents’ Test as required by the University System of Georgia (see Regents’ Testing Program). Satisfactory scores or exemptions will be evidence of competence and shall satisfy the requirement. This is a requirement for graduation.

- All students will be required to complete any current requirements beyond the catalog, such as legislative, certification and Board of Regents requirements.

- Advisors may recommend course substitutions when deemed necessary by submitting the request for approval to their department chair. The substitution is then submitted to the Registrar who will review each request in accordance with the Board of Regents and institutional policies.

- For students whose initial enrollment is Fall 1998 and after, GSU 1120-Methods of Learning will not apply to the degree.

- Credit for Military Science (MSCI) Courses will appear on the student’s record. For students who are not pursuing a Military Science minor, four of these credit hours, either transfer or resident, may be applied toward the 125 hours required for a degree provided it meets with the approval of the appropriate advisor and department.

- A minimum grade of “C” is required in all Area A courses.

- A maximum of five physical activity courses may be applied to the 125 hours required for a degree.

- Students typically satisfy the requirements for graduation listed in the catalog when they initially enroll at Georgia Southern University. However, with the approval of their advisor, students enrolled Fall 1998 and after may elect to satisfy the graduation requirements specified in any of the catalogs in effect while they are enrolled. A change of major does not constitute a change of catalog for these students. If a major is changed after Fall 1998, students must satisfy semester major requirements. However, if a student has been out of school for ten or more calendar years and re-enters, the current catalog requirements (at time of re-entry) will apply. Any exceptions require the approval of the advisor, department chair, and dean.

- All outstanding “I” or “IP” grades must be cleared and all transcripts from other institutions must be received by the end of the term the student plans to graduate.

- Academic and financial obligations not met by the end of the term will result in the conferring of the degree the following term.

Second Majors

Students seeking a second major within the same degree program must complete the specific requirements for both majors. An application for the second major must be submitted to the Office of the Registrar. Both majors will be noted on the transcript.

Second Degrees

A student who has been awarded a baccalaureate degree, from Georgia Southern or another accredited institution, may be granted a second baccalaureate degree provided the following conditions have been fulfilled:

1. If the first degree is earned at Georgia Southern a student may seek a second undergraduate degree only if the degree is different from the first degree.

2. The student must satisfy all major requirements listed for the chosen program of study.

3. The student must complete the legislative and constitution requirements.

4. The student must take a minimum of 30 additional credit hours at Georgia Southern.

5. The student must earn at least 50% of the credits toward the major at Georgia Southern.

6. The requirement of a minor for the B.A. degrees will be waived, if the first degree content area is among the recognized minors at Georgia Southern as listed in the “Minors” section of the Georgia Southern catalog. If the student seeks a B.A. and has not already completed a major or minor recognized by Georgia Southern, the student would be required to complete a minor from the list of approved minors. The minor requirement is also waived for students who hold a B.G.S. from Georgia Southern and are seeking a B.A. degree.

Graduation With Honors

Honors are computed in the Registrar’s Office and all questions concerning honors should be directed to that office. There are three sets of criteria in effect, and the set that applies is determined by the student’s first date of attendance at Georgia Southern. Only baccalaureate degree candidates are eligible to graduate with honors. Students seeking graduate degrees are not eligible for graduation with honors. The following requirements must be met:

1. At least 60 hours of credit must be earned at Georgia Southern University. Hours enrolled Spring for May candidates will be computed to reach the 60 hours. Spring and Summer hours enrolled for Summer candidates who elect to participate in the May graduation will be computed to reach the 60 hours. Hours enrolled Fall for December candidates will be computed to reach the 60 hours. Attaining the required 60 hours will ensure that the candidate will be recognized as graduating with honors at the respective commencement ceremony.

2. To determine eligibility for recognition of graduation with honors at the ceremony, the student’s grade point average at the end of the term prior to the commencement ceremony will be used. After graduation and all final grades are recorded and all degree requirements are complete, honors are recalculated and will be added to diplomas and transcripts if honors are achieved.

3. The first GPA criterion is that the minimum average for a particular level of honors must be earned on all undergraduate course work taken at Georgia Southern University.

4. The second GPA criterion is that the minimum average for a particular level of honors must be earned on all undergraduate course work attempted at all institutions attended.

5. In applying the two GPA criteria, the lower GPA will be used to assess the level of honors, if any.
6. The honors assigned and the scholastic records are:
   Cum Laude 3.5 - 3.69
   Magna Cum Laude 3.7 - 3.89
   Summa Cum Laude 3.9 - 4.0

7. HONORS FOR SUBSEQUENT BACCALAUREATE DEGREES: In addition to the preceding, a third GPA criterion applies to students earning subsequent undergraduate degrees. The student must earn the minimum average for a particular level of honors on all course work taken between the most recent undergraduate degree and the current degree. The lowest of the three GPA calculations will be applied to assess the level of honors, if any.

8. HONORS FOR STUDENTS WHO SELECT ACADEMIC RENEWAL: Please refer to the policy regarding Academic Renewal.

Honors Day - Academic Awards
Each year in April, the University honors outstanding students from all disciplines and areas of college life. The Honors Day Convocation highlights outstanding awards such as “University System Academic Recognition Award”, “The Alumni Association Scholarship Award”, Excellent Scholarship, selection to the Honor Society of Phi Kappa Phi and other honor societies, and Who’s Who Among Students in American Universities and Colleges. In addition, other students receive special awards from departments.

Election to membership in the national Honor Society of Phi Kappa Phi will be made on the basis of the following criteria:
1. A GPA of 3.5 or above with senior classification; 3.7 or above with junior classification;
2. Sound character;
3. Enrollment at Georgia Southern University for at least one year;
4. Juniors elected may not exceed one percent of candidates for graduation that year;
5. Seniors elected may not exceed ten percent of candidates for graduation that year;
6. Graduates elected may not exceed ten percent of students receiving graduate degrees that year.

To be honored for Excellent Scholarship, the student must have earned at Georgia Southern University a cumulative GPA of 3.5 or higher. The student must have completed at least 15 semester hours of resident degree credit at Georgia Southern University. This group will include currently enrolled undergraduate students, undergraduate students who have completed requirements for graduation, and baccalaureate students working toward a second degree. These students will be recognized by standing as a group on Honors Day. Seniors who have applied for graduation for the upcoming Spring commencement will receive a certificate for “Excellent Scholarship Graduating Senior with GPA 3.9 or Higher at Georgia Southern” and will be recognized on stage if they meet the following criteria:
   • Spring graduates must be enrolled in enough hours Spring semester to reach 60 hours at the end of Spring.
   • Summer graduates must be enrolled in enough hours Spring and Summer semesters to reach 60 hours at the end of Summer.
   • Graduates must have a 3.9 GPA or higher at Georgia Southern.

Selections for Special Awards will be made by the various organizations and departments in keeping with established criteria.

Any organization wishing to present a new award should make application through the Honors Committee. New awards to be presented on Honors Day must be submitted for approval by the Honors Committee before the beginning of the previous Fall semester. Criteria and information about the award can be sent to the Office of the Registrar and the coordinator of Honors Day will submit the information to the Honors Committee for review.

University Programs and Courses

Bachelor of General Studies Degree (B.G.S.)

The Bachelor of General Studies program provides opportunities for non-traditional college students who are interested in combining a liberal arts background with some degree of specialization. It offers a solid core curriculum program along with the freedom to choose from a wide range of concentrations.

While the General Studies degree allows for study in several areas, it is organized to provide an academically sound program with carefully planned concentrations. The student who earns this degree will have achieved a broad-based education that meets high standards of learning.

The program is administered by the Academic Advisement Center.

Requirements
The degree requires fulfillment of the core curriculum (Areas A, B, C, D and E) including the requirements for health and kinesiology.

Area F
Humanities and Fine Arts........................................ 3-9 Hours
Social Sciences..................................................... 3-9 Hours
Mathematics and Science..................................... 0-8 Hours
Any course approved by advisor in Areas C-E........... 0-9 Hours
Total ........................................................................ 18 Hours

Foreign Language
Although foreign language is optional in the Bachelor of General Studies Degree, students who wish may continue the same language which they began in high school or take a new language and receive credit.

For the major, students may choose one of the following three options:
1. Three (3) concentrations of 18 hours each from the list of approved concentrations below;
2. Two (2) concentrations of 18 hours each from the list of approved concentrations below and one (1) Individual Emphasis of 18 hours, which must be approved by the appropriate department chair;
3. Two (2) concentrations of 18 hours each from the list of approved concentrations below and one (1) 15-hour minor from the list of approved minors.

Of the total number of hours for the major, 42 of the hours must be at the upper division level. Students must have a 2.0 total institution GPA overall and a total institution GPA of 2.0 in each concentration (or minor).

The remaining hours to meet the required 125 total hours will be electives approved by the advisor. The following concentration areas are available:

Mission
Georgia Southern University is committed to providing students with educational opportunities that offer an international perspective which recognizes the interdependence of nations, the plurality of cultures, the existence of common political, economic, social and ecological concerns, and the urgent need for more effective methods of international and intercultural cooperation. Through the Center’s curricular and extra-curricular activities, Georgia Southern students develop international perspectives and an understanding of global issues and contemporary world cultures.

Objectives:
• To implement degree programs in International Studies and International Trade
• To enhance the international dimension in other degree programs through interdisciplinary minors, concentrations, and relevant international content courses
• To develop study abroad, exchange, and internship programs by establishing linkages with foreign institutions of higher education
• To provide services and programs for international students at the university
• To improve and expand foreign language instruction
• To organize faculty workshops designed to increase interaction among academic disciplines related to international studies
• To promote extracurricular programs aimed at increasing international awareness on the Georgia Southern campus, in the Statesboro community, and throughout Southeast Georgia
• To provide services to regional businesses and industries interested in conducting business in the global marketplace

Undergraduate Academic Programs
B.A. - International Studies
The B.A. in International Studies is a challenging major designed to provide an undergraduate, interdisciplinary social science background for careers both inside and outside the United States. The course work requires a student to choose one emphasis from the following:
• Modernization, Development, and Environment
• War and Peace Studies
• Society, Cultures, and Tradition

Students majoring in International Studies become highly proficient in understanding global affairs through a variety of means:
• The study of the culture, history, and political economy of regions outside the United States
• The acquisition of a high level of proficiency in a second language
• Direct experience of another culture by studying or working abroad

B.S. - International Trade
The B.S. in International Trade is a professional degree designed to provide an interdisciplinary business background for careers outside the United States or in international businesses and agencies within the U.S.

The degree will require completion of a prescribed course of study and an internship overseas or with a business or institution having an international component in the United States. The purpose of this internship is to immerse the student in the professional practice within the culture and in the language which has been studied for the required foreign language minor.

Minor In International Studies
The minor in International Studies provides an opportunity to develop an international perspective and to focus on those global issues that have significant meaning for and impact on today’s interdependent world. The minor complements many Georgia Southern degrees and increases the graduating student’s marketability. It consists of two required courses, Global Issues and Contemporary World Cultures, and three elective courses chosen from a list of approved courses.

Area Concentrations
The Undergraduate Concentrations in Asian Studies, European Studies, and Latin American Studies allow students to supplement a disciplinary major with broad interdisciplinary exposure to one of these areas of study. Students pursue a focused curriculum that will provide a solid foundation for employment in Asian, European or Latin American related fields. A minor in Latin American Studies is also available.

Approved course listings for all degree-related services are available in the Center for International Studies.

Significant International Content Courses
Some B.S. degree programs allow for choice of completion of a foreign language at the 2001 (Intermediate I) level or the selection of a single course with significant international content. The majors associated with these B.S. degrees are:
• Broadcasting
• Child and Family Development
• Fashion Merchandising and Apparel Design
• Hotel and Restaurant Management
• Interior Design
• Journalism
• Justice Studies
• Nutrition and Food Science
• Physics
• Public Relations
• Recreation
• Speech Communication
• Sport Management

Significant International Content courses are approved through the International Studies curriculum committee. They must be courses at the 2000 level or better which either carry no prerequisite or allow permission of the instructor for enrollment. The course selected must fall outside the major program of study and 1) exhibit a contemporary focus; 2) provide students with crosscultural perspectives; and 3) focus on regional/area studies or global/international systems.
The following list of courses has been approved to fulfill the significant international content course requirement:

European Union Studies Certificate Program

The European Union Studies Certificate is offered by the University System of Georgia’s European Council. Students have the option of earning a certificate jointly conferred with the University of Munich in Germany. The certificate consists of a six course program of study which includes a mandatory course, Introduction to the European Union, four discipline-specific courses from three different disciplines and a capstone seminar for a total of 18 hours. The program is open to all academic majors and can be completed with a combination of courses offered at the home institution and web-based courses. The official certificate is awarded by the student’s home institution and is indicated on the transcript. A special notion of distinction for foreign language proficiency or honors thesis also can be added. For more information, contact:

Studies Abroad and Exchange Programs

Studying abroad provides students with a transcultural experience that has many major benefits: discovering the culture and institutions of other lands, facilitating the development of relevant career skills, making important connections with overseas professionals, enhancing language skills, and obtaining skills that are valued in today’s competitive market. In addition, the student will benefit because studying abroad contributes to personal maturity, a sense of independence, self-knowledge, and self-confidence.

Georgia Southern University offers study abroad programs in a variety of disciplines. Each program is approved by the Office of the Provost and coordinated by the Study Abroad Office, Center for International Studies. Although program offerings differ year to year, Georgia Southern has sponsored programs to: Costa Rica (International Studies and Spanish), Czech Republic (Biological and Health Sciences), Germany (Music), England (Education and Business), Mexico (Spanish and Education), and Spain (Spanish).

The Georgia Southern Center at Xalapa, Mexico:

Georgia Southern University has joined with the University of Veracruz to offer an exciting opportunity for students in Xalapa, the beautiful capital city of the Mexican State of Veracruz. Currently, two programs are operating: a program for Education majors, and a program designed for students who wish to improve their Spanish-speaking skills. The Center at Xalapa also offers content area courses on Mexican culture and civilization which are taught in English. Semester studies (Summer, Fall, or Spring) or year-long studies are available. Students will register and pay fees at Georgia Southern to cover tuition and program costs.

The Office of International Education of the University System of Georgia coordinates many opportunities for students to study abroad while earning academic credit toward completion of degree requirements at their home campus. Over 200 summer and other semester study abroad programs are offered throughout the world. Over 104 major fields of study are included.

The European Council of the University System is sponsoring study abroad programs to the University of Westminster, London; Paris, France; Schwäbisch Gmünd, Germany; Madrid, Spain; and St. Petersburg, Russia. Other system-wide programs include Thessaloniki, Greece, and Montepulciano, Italy. These unique programs feature faculty members from Georgia institutions who teach a variety of core and upper division courses at the overseas sites. Georgia Southern students may register on campus through the Study Abroad Programs Office, Center for International Studies.

The University System programs are open to all undergraduate students with a minimum cumulative GPA of 2.5; however, certain programs may require a higher GPA and completion of prerequisites. Graduate students are required to have a 3.0 GPA. HOPE currently pays for tuition for study abroad for students who are eligible. In addition, students in the University System of Georgia who receive financial aid may use it toward study abroad programs.

Exchange programs for Georgia Southern students are currently available at the Fachhochschule Ingolstadt in Germany, Roskilde University in Denmark, Keimyung University in South Korea, Nagoya University in Japan, and Central China Normal (Huazhong) University in China. These programs allow students to pursue semester or year-long study of both major courses and classes in the language and culture of the host country.

Georgia Southern is also a member of ISEP, a world wide network that facilitates the exchange of students between 260 member institutions in the United States and 35 other countries. Students may pursue academic year or semester programs of study through the ISEP network. More information can be viewed at http://www.isep.org/.

The College of Education offers an International Study Opportunity in a partner school in the United Kingdom for eligible student teachers. This opportunity allows student teachers to gain a broader understanding of the interconnectedness of individuals, small groups, and society from a global perspective. Contact the Director of Field Experiences and Partnerships, Pat Pursley, ppursley@georgiasouthern.edu, (912) 681-5247 for more information.

International Student Programs and Services

One mission of the Center for International Studies is to accommodate international students’ needs and to help them acclimate to their new environment at Georgia Southern. There are approximately 300 international students and scholars on F-1 and J-1 visas from over 80 countries at the university. The Center provides advancement and processes documents to help those individuals maintain their status with the Immigration and Naturalization Service (INS).

In addition, the Center plans and coordinates programs which foster international understanding and cultural exchange both on campus and within the Statesboro community. Some of the programs offered are: an International Club for students, weekly International Conversation Hours, an International Student Week, a Global Ambassadors Program, the Cross-Cultural Friendship Program, and a community-wide International Festival. Also, day and overnight trips as well as socials and cookouts are offered throughout the year. Services provided include: orientation, English proficiency testing/placement, registration, and assistance with health insurance coverage.

Mission
Georgia Southern University’s English Language Program is an English as a foreign language program offered through the Center for International Studies. It is designed for students who have some English background but do not meet university English proficiency requirements. The program includes classroom study in reading/writing, listening/speaking, grammar, contemporary U.S. culture, and computer assisted language learning. Students are also expected to study and prepare assignments outside of class. Please direct inquires to:

The University Honors Program and 1906 Scholars
The University Honors Program (UHP) encourages superior students to explore a course of study designed for greater depth. The UHP consists of a learning environment of small classes enriched by inventive, interdisciplinary instruction and extracurricular experiences that connect classroom learning with the larger world. Honors Program classes are smaller in size than regular courses and taught in seminar style by some of the top faculty at Georgia Southern University.

Benefits of Membership
New students admitted to the University Core Curriculum Honors Program receive a $500 scholarship, renewable annually through the sophomore year, in addition to any other aid for which they may qualify (such as the HOPE Grant). Students admitted to the College Honors Program for the junior and senior years also receive a $500 renewable annual scholarship in addition to any other aid for which they may qualify.

University Honors Program Special Incentives
• University Honors Program seal on diploma
• Priority registration for classes
• Book loan program which covers most core honors courses
• Access to the Honors Alcove in the Russell Union and an Honors Center for study and relaxation
• Support in applying for nationally competitive scholarships and fellowships
• Eligibility to apply for scholarships for study abroad programs
• Leadership development training
• Independent study opportunities
• Special events, such as guest speakers, musical programs, and socials

1906 Scholars
Within the UHP, a select group of 15-18 freshmen will be selected each year to be 1906 Scholars. These students receive a full tuition scholarship and are encouraged to take a more demanding array of honors seminars. The 1906 course of study also includes a weekly discussion-based seminar designed to nurture curiosity and the sharing of ideas among students and faculty. These students also have the full benefits of UHP students including transcript designation and recognition at graduation, as well as an honors curriculum within their majors.

Levels of the University Honors Program
The Georgia Southern University Honors Program is divided into two levels leading to graduation with honors:
• The University Core Curriculum Honors Program for freshmen and sophomores requires a minimum of 12 semester hours of coursework and seminars, usually including at least one three-hour honors course per semester, and at least one community service project each semester.
• The College Honors Program for juniors and seniors includes at least nine semester hours of coursework and seminars, plus a well-defined capstone experience (thesis, performance, project or exhibit). Graduates are recognized for their achievement by a University Honors Program seal on their diplomas and notation on their University transcripts.

Admission to the University Honors Program
General criteria for admission to the University Core Curriculum Honors Program include a minimum score of 1200 on the SAT, or equivalent score on the ACT, and a high school academic or college grade point average of 3.5. Exceptions may be made for students who demonstrate special abilities, talents and achievements.

Admission to the College Honors Program requires an application and an approved course of study for the junior and senior years, as well as a university GPA of 3.5.

Additional Information
To receive an application and additional information about the Honors Program, please contact the Honors Program office at (912) 486-7926 or visit our website at http://academics.georgiasouthern.edu/honors/.

Freshman Orientation Course
GSU 1210 - University Orientation
Designed to help first year students understand the purpose of a college education, learn about college resources and requirements, explore values and interests, learn to make decisions and realistic choices, explore career objectives and programs of study, and establish supportive relationships with faculty and staff. Required during the first year for undergraduates new to the university (except transfer students with thirty or more hours); students may not withdraw.

First Year Experience Program
1001 Williams Center, 681-5401, http://academics.georgiasouthern.edu/fye/

Learning Skills Course
GSU 1120 Methods of Learning
Designed to promote academic success, Methods of Learning emphasizes opportunities for students to learn and apply strategies that lead to success in their academic courses, including interpreting, organizing, and synthesizing academic information in texts and lectures; identifying and assessing individual learning styles; setting and achieving academic goals; managing time effectively; taking comprehensive notes; and preparing for tests. This course is required of all freshmen with a total institution GPA of 1.5 or below unless they have already passed the course with a grade of “C” or “S”. Credit hours for this course can not be used toward graduation.

Learning Support
According to Board of Regents policies, “All non-traditional freshmen must be screened for placement in learning support courses using the COMPASS administered by a University System institution and must meet University System criteria for exemption or exit of learning support in reading, English, and mathematics. As an alternative, an institution may allow non-traditional freshmen who have within the past seven years posted SAT scores of at least 500 in both Verbal and Mathematics or ACT scores of at least 21 on both English and Mathematics to exempt the COMPASS placement test.”
The purpose of the Learning Support Program is to provide students who have been admitted with inadequate skills in reading, composition, and/or mathematics the opportunity to develop those skills to entry-level competency for regular freshman credit hours. If results of the placement tests reflect a need for assistance in developing academic skills of those who qualify for admission, students will be enrolled in a portion or in the entire Learning Support curriculum.

Learning Support courses carry institutional credit but not credit toward a degree. Except for Hope scholarship calculations, institutional credit is not used in computing grade point averages. If the diagnostic tests so indicate, a student may be allowed to enroll in one or more college-level courses for degree credit concurrently with Learning Support courses. The student’s first obligation, however, is to satisfy Learning Support requirements, and a student may not accumulate more than twenty (20) hours of degree-credit before completing Learning Support requirements.

Students’ progress will be assessed periodically, and they may move out of Learning Support courses at the end of any semester, provided satisfactory levels of proficiency have been reached. Students have a maximum of three semesters to exit an area of Learning Support (since the math area has two courses, students have a maximum of two semesters in Math 0097). A Learning Support student who does not complete requirements for an area in three semesters (two semesters for Math 0097), will be placed on dismissal. Any student placed on dismissal for failure to exit Learning Support will be excluded for three years. Any student in the exit-level course and still in only one area of Learning Support may appeal for up to two additional attempts. A departmental appeal committee will individually evaluate the student and the decision will be based upon the student’s prior record and likelihood of success in completing requirements. If granted the additional course attempt, the student may take only the required learning support course unless the department approves additional course work. Alternately, a Learning Support student who is placed on dismissal for failure to exit Learning Support may apply for readmission as a transfer student after satisfying Learning Support requirements and completing thirty hours of college-level work with a minimum GPA of 2.0. A Learning Support student who enrolls at another institution before completing Learning Support requirements at Georgia Southern may apply for readmission as a transfer student after satisfying Learning Support requirements and completing thirty hours of college-level work with a minimum GPA of 2.0.

Students may carry a maximum of 15 hours (including any Learning Support courses) except in their third semester when they are limited to 12 hours.

Learning Support students will be assigned an advisor in the Academic Success Center and must see this advisor for drop/add and registration (even if the student has declared a major).

Students are not allowed to drop any required Learning Support classes. The only way a student can withdraw from a required Learning Support course is to withdraw from school.

Students who apply for or receive financial aid and who are enrolled as Learning Support students will receive the same consideration and awards as any other student.

Students who are not required to enroll in a Learning Support course may enroll on an audit basis only. They will be expected to participate in the course and take the tests, but they will not be subject to the Learning Support exit requirements.

The Minors

Students in all baccalaureate programs who wish to do so may add a minor to their major programs of study from the following list of Minor Programs. The Bachelor of Arts (B.A.) degree programs require a minor. The courses to make up the minor should be planned with the major advisor, unless otherwise noted.

Minors and second minors may be declared as early as the freshmen year but should always be declared as soon as possible so that students have adequate time to plan the completion of their minors. Minors may be declared by completing a Minor/ Concentration Declaration Form. A student changing their major may also declare or change a minor by completing the “Minors” section of the Change of Major Form.

Within the fifteen hours of course work presented for the required minor in the B.A. programs or the optional minor in any bachelor’s degree program, the student must have a minimum total institution GPA of 2.0, with no more than three hours of “D” work. A minimum of nine of the fifteen hours must be earned at Georgia Southern University.

A maximum of three hours may be taken under the S/U grading system within any minor.

CSCI 1302 - Programming Principles II (3)
CSCI 3230 - Data Structures (3)
CSCI 3232 - Systems Software (3)
Select one of the following Upper Division courses:
CSCI 3335 - Object Oriented Design (3)
CSCI 5432 - Database Systems (3)

Economics
The minor in economics is an excellent choice for students who want a basic understanding of economics to complement their major field of study.
Minor Program:
ECON 2106 - Business Economics (3)
ECON 3131 - Intermediate Macroeconomics (3)
ECON 3231 - Intermediate Microeconomics (3)
ECON - Two upper division economics courses (6)

English
Prerequisites:
ENGL 2131 - Introduction to Literary Studies (3) (Must be taken prior to or concurrent with all upper division courses.)
Minor Program:
ENGL - Upper Division (3000 or above) courses (15)

Exercise Science
Prerequisites: Prerequisites apply to Option 1 ONLY.
A minimum grade of “C” in:
KINS 2531 - Human Anatomy and Physiology I (3) and
KINS 2532 - Human Anatomy and Physiology II (3) and
KINS 2521 - Human Anatomy and Physiology II Lab (1)
PHYS 1111 - Introduction to Physics I (3) and PHYS 1113 - Physcis Lab I (1)
PSYC 1101 - Introduction to Psychology (3)
Minor Program:
OPTION 1 - Exercise Behavior Emphasis Requirements:
KINS 3131 - Biophysical Foundations of Human Movement (3)
KINS 3132 - Foundations of Exercise and Sport Psychology (3)
KINS 3133 - Physiological Aspects of Exercise (3)
KINS 3134 - Biomechanical Analysis of Movement (3)
Select one of the following:

FMAD 4236 - Fashion Study Tour (3)

French
Prerequisites:
FREN 1001 - Elementary French I (3) and FREN 1002 - Elementary French II (3), OR FREN 1060 - Accelerated Elementary French (6)
FREN 2001 - Intermediate French I (3) and FREN 2002 - Intermediate French II (3) or equivalent
Minor Program:
FREN - Upper Division courses (15) (Students must earn a minimum grade of “C” in each upper division course in French.)
Geographic Information Science

Minor Program: (Upper Division)
- GEOG 3440 - Introduction to GIS and Cartography (4)
- GEOG 4542 - Intermediate GIS (4)
- GEOG 4543 - Advanced GIS: Spatial Analysis and Modeling (4)

Select one of the following:
- GEOG 3741 - Remote Sensing (4)
- GEOG 5091 - Applied GIS (4)

Geography

Prerequisites: (3-4 hours)
Select one of the following:
- GEOG 1101 - Introduction to Human Geography (3)
- GEOG 1111 - Climate and the Landscape (3) and GEOG 1110 - Climate and the Landscape Lab (1)
- GEOG 1130 - World Regional Geography (3)

Minor Program:
- GEOG - Upper Division courses (15) - Any combination of courses which follow a particular track (Human, Physical, Regional Geography or Geographic Technique) and which total 15 hours

Geology

Prerequisites:
- GEOL 1110 - Earth Lab (1)
- GEOL 1121 - Introduction to the Earth (3)

Minor Program:
Select 8 hours from the following Upper Division courses:
- GEOL 3541 - Mineralogy (4) and GEOL 3542 - Petrology (4)
- GEOL 5141 - Paleontology (4) and GEOL 5142 - Stratigraphy and Sedimentation (4)
- GEOL - Any combination of upper level courses that will total at least 7 hours (7)

Additional Minor Requirements/Recommendations:
- Students are encouraged to take one of two basic course tracks, either the “hard rock” sequence or the “soft rock” sequence in order to develop strength in at least one area of the science.

German

Prerequisites:
- GRMN 1001 - Elementary German I (3) and GRMN 1002 - Elementary German II (3), OR GRMN 1060 - Accelerated Elementary German (6)
- GRMN 2001 - Intermediate German I (3) and GRMN 2002 - Intermediate German II (3) or equivalent

Minor Program:
- GRMN - Upper division courses (15) (Students must earn a minimum grade of “C” in each upper division course in German.)

Graphic Communications Management

Prerequisites:
- GCM 1131 - Graphic Communications Technology (3)

Minor Program:
- (No more than 7 hours at the 1000 and 2000 levels)
  - GCM 1321 - Desktop Publishing (2)
  - GCM 1411 - Desktop Publishing Lab (1)
  - GCM 2132 - Image Preparation I (3)
  - GCM 2212 - Image Preparation II Lab (1)
  - GCM 3333 - Image Preparation II (3)
  - GCM 3413 - Image Preparation II Lab (1)
  - GCM - Approved Electives (4)

NOTE: Certain prerequisites are waived for students wishing to minor in Graphic Communications Management. Please contact the Graphic Communications Management minor advisor for specific requirements.

Health Behavior

Minor Program:
- HLTH 2130 - Foundations of Health Education (3)
- HLTH 3133 - Health Promotion Program Planning (3)
- HLTH 3330 - Theories of Health Behavior Change (3)
- HLTH 3331 - Stress Theory and Management in Health Promotion (3)
- HLTH 4330 - Promotional Strategies for Health Programs (3)

The Health Behavior Minor is open to any student interested in health behavior. Contact the Jian-Ping Hsu School of Public Health, Room 2115, Hollis Building, (912) 681-0200 for information and advisement.

History

Minor Program:
- HIST 1112 - World History II (3)
- HIST 2110 - U.S. History (3)
- HIST - History Courses (15)

Hotel and Restaurant Management

Prerequisite:
- Student must complete 42 semester credit hours

Minor Program:
- Lower Division Courses (0-3)
- Upper Division Courses (12-15)

Required Courses:
- HNRM 3333 - Introduction to Hospitality Operations (3)
- HNRM 3336 - Hotel Operations (3)

Select three of the following:
- HNRM 2334 - Hospitality Accounting and Finance (3)
- HNRM 3334 - Hospitality Facilities Layout and Design (3)

Interdisciplinary Minors

Minors are available in eight interdisciplinary areas, each of which is coordinated by a committee of faculty from the disciplines involved. A student who minor in one of these areas typically will major in one of the disciplines whose courses are listed in the minor. Otherwise, the student must secure the approval of the committee. Approval also is required for the group of courses selected to comprise the minor.

Guidelines For Interdisciplinary Minors
The interdisciplinary minor offers an opportunity to elect courses focused on a given area of study from more than one discipline. As with single discipline minors, the interdisciplinary minor is distinct from the major program of study.

The following guidelines apply to all interdisciplinary minors:

1. A minor must contain 15 semester hours of coursework with at least 12 upper division hours. Typically, courses taken for the minor shall be in at least two disciplines other than the major. A minimum of nine of the fifteen hours must be earned at Georgia Southern University.
2. While courses taken to satisfy Core Areas A through E may not be used to satisfy coursework in the minor, courses listed in Area F may be counted as coursework in the minor.
3. A student has the option of taking one authorized lower division course and one upper division course crosslisted with the student’s major to fulfill minor requirements.
4. The chairperson of the minor program must approve the courses selected for the minor.
5. Students should declare the minor by the beginning of the junior year and advise the chairperson of the minor program of that decision.

Additional Minor Requirement:
A minimum of 15 hours will be necessary for a minor in Classical and Medieval Studies, including 3 hours of upper division Latin. No student may apply any course in the department of his major towards the minor in classical and Medieval studies.

HIST 1111 - World History I (3) will be a requirement for all students minoring in classical and Medieval Studies and counts toward the necessary 15 hours for all students except history majors. A history major who minors in Classical and Medieval Studies may not count World History I towards fulfilling the necessary 15 hours since history majors are already required to take HIST 1111 as part of their major requirements. All students minoring in Classical and Medieval Studies may take up to one lower division and one upper division course cross listed with their majors.

Selected topics courses (3030s), study abroad programs and Independent Study Courses with a specifically classical or medieval focus may be used as credit towards the minor upon approval of the director of the program and provided they are accepted for credit by the University. Their suitability for the minor will be decided by the director of the program.

Interdisciplinary Concentrations

Students in baccalaureate programs may add an area of interdisciplinary concentration to their program of study. Such concentrations offer students the opportunity to elect courses focused on a given area of study from more than one discipline. As with minor programs, the interdisciplinary concentration is distinct from the major program of study. The interdisciplinary concentration permits students to add a significant segment of coursework focused on a particular area of study to their major degree program.

The concentration consists of 18 hours of coursework, 15 hours of which must be at the upper division level. At least 12 hours of the total 18 hours must be taken at Georgia Southern University. A minimum grade of “C” is required for all courses used to complete the interdisciplinary concentration.

The courses taken to make up the concentration should be planned with the major advisor and the director of the concentration program. Students should declare the concentration by the beginning of the junior year.

Interdisciplinary concentration programs are administered through the Office of the Vice President for Academic Affairs.

Guidelines For Interdisciplinary Concentrations

The interdisciplinary concentration offers students the opportunity to elect courses focused on a given area of study from more than one discipline. As with minor programs, the interdisciplinary concentration is distinct from the major program of study.

The following guidelines apply to all interdisciplinary concentrations:

1. A concentration must contain 18 semester hours of coursework with at least 15 upper division hours. Typically, courses taken for the concentration shall be in at least two disciplines other than those used in additional concentrations or the major program of study.
2. While courses taken to satisfy Core Areas A through E may not be used to satisfy coursework in the area of concentration, courses listed in Area F may be counted as coursework in the area of concentration.
3. A student has the option of taking one authorized lower division course and one upper division course crosslisted with the student’s major to fulfill concentration requirements.
4. The chairperson of the concentration program must approve the courses selected for the concentration.
5. Students should declare the concentration by the beginning of the junior year and advise the chairperson of the concentration program of that decision.

The College of Business Administration (COBA) at Georgia Southern University is part of a comprehensive, regional university. At the undergraduate level, we provide the Bachelor of Business Administration degree with majors in accounting, economics, finance, information systems, logistics and intermodal transportation, management, marketing, and regional economic development. At the graduate level, we provide the Master of Accounting and Master of Business Administration degrees to prepare students for accounting and management positions of significant responsibility. Our degree programs are accredited by the AACSB, an affiliation that underscores the College’s dedication to continuous improvement and commitment to excellence.

MISSION
The College of Business Administration at Georgia Southern University provides a student centered, learning community that presents, applies, and extends the current boundaries of knowledge about today’s dynamic global business environment.

Shared Values
Our mission is supported by a set of shared values that form the foundation for developing critical mission activities:

We value our students. Our first responsibility is to our students. Faculty members encourage excellence in academic performance by exhibiting professionalism in teaching, mentoring, and advising and by being readily accessible for consultations outside the classroom. We believe a student’s career achievement is a result of this faculty/student interaction. Although the majority of our students are Georgia residents, we welcome and encourage the diversity that occurs as we gain increasing numbers of students from beyond our state and national borders.

We value our region. As a College within a state-supported regional university, we recognize and value opportunities to assist in the development of our regional economy. Our desire to serve extends to providing regional businesses with professional assistance and learning opportunities in areas that cover an extensive range of domestic and international business practices.

We value our local community. We recognize our involvement in the local community as a central part of our responsibilities. Support of and involvement in our community make it a better place in which to live and provide a better environment for our students.

We value our faculty and staff. The College supports a collegial atmosphere for faculty and staff in which academic freedom exists and life-long learning is encouraged. While a balance of activities in teaching, research, and service is promoted, faculty members devote a significant amount of time and energy to teaching and other interactions with students. Scholarly efforts are predominantly focused on applied research, which supports the regional service dimension of our mission.

We value our alumni. They provide leadership in business, the community, and the world. We strive to keep them involved in our mission, and we recognize them for their long-term, career achievements.

Core Commitments
The faculty and staff of the College of Business Administration are committed to creating an atmosphere in COBA that will enable us to be:

• a diverse, academically qualified faculty who makes students its first priority;
• providers of instruction that combines business theory and practice for effective student understanding of the dynamic business environment;
• competent users of cutting edge technology located in modern, comfortable facilities;
• providers of expertise to serve the local community and region;
• a dedicated, qualified staff who supports COBA programs and activities;
• actively engaged with the Business Advisory Council; and
• actively engaged with our Alumni.

Student Outcomes
The faculty and staff of the College of Business Administration are committed to providing academic programs that will enable our graduates to be:

• able to communicate effectively;
• skilled in the collection and analysis of information for use in decision making;
• aware of global perspectives to help companies compete in international and domestic markets;
• capable of formulating decisions that integrate practical, economic, and ethical considerations; and
• appreciative of the vagaries and uncertainties of real-life, business situations and the importance of life-long learning.

PROGRAMS: UNDERGRADUATE
Accounting
Accounting is the language of business. The accounting profession offers infinite opportunities for men and women to build exciting and rewarding careers. Technology is changing the way business is done, which means more new opportunities for accounting professionals as organizations of all sizes and structures struggle to harness the enormous potential of information and the technologies used to deliver that information. Accountants are America’s most trusted financial information professionals. The accounting program at Georgia Southern University, which is separately accredited by the AACSB, the international business and accounting accrediting organization, offers students the following curriculum options:

4-Year Track
The four-year program prepares students for a wide range of professional careers in industry, finance, government, and non-profit organizations. The four-year program includes accounting coursework which prepares students for work in areas such as financial management, financial reporting and analysis, internal auditing, and management consulting. Upon completion of the 4-year track, students receive the Bachelor of Business Administration degree.

5-Year Track
The five-year program prepares students for careers in public accounting as certified public accountants (CPA). In order to become certified in the State of Georgia, candidates must have 150 semester hours of college education. During the fifth year, students complete thirty additional semester hours of accounting and non-accounting Masters’ level education that prepares them for work as objective outsiders for their clients, providing such services as auditing and assurance services, environmental accounting, forensic accounting, information technology services, international accounting, consulting services, and personal financial planning and tax advisory services. Upon completion of the 5-year track, students receive both the Bachelor of Business Administration and Master of Accounting degrees. Please refer to the graduate portion of the catalog for a detailed description of the Master of Accounting program.

Forensic Accounting Programs
The costs of corporate fraud and white-collar crime are estimated to exceed $1 trillion annually. The School of Accountancy administers an interdisciplinary minor in fraud examination and offers a forensic accounting concentration in its graduate accounting program. The fraud examination minor prepares students to become fraud investigators. Please refer to the Interdisciplinary Minor section of the university catalog for a complete listing of the courses included in the minor. Integrating accounting, law, auditing, and investigative skills, the graduate forensic accounting concentration prepares students to become forensic accountants. Forensic accountants, often referred to as the bloodhounds of accounting, are highly sought after by firms and organizations wishing to beef up their investigations and forensics practices. Please refer to the graduate section of the catalog for a detailed description of the Master of Accounting Forensic Accounting Concentration.

Economics
This major is designed to give the student in business administration a broad knowledge of economic tools to provide a foundation for careers in business, economics, finance, or law.

Economics Major Without an Area of Emphasis
An economics major exposes the student to the different areas of economics. Because of the breadth of this degree, it allows maximum flexibility and prepares graduates to enter a wide variety of occupations or attend professional or graduate school in business, economics, finance, government, or law.

Emphasis in International Business
This curriculum prepares the student to access and respond to opportunities and problems of international trade, international finance, multinational markets, and multinational organizations.

Finance
Study in this area develops familiarity with the institutions and instruments within our financial system and an understanding of the problems of financing business activity. It includes study of the techniques and tools for solving financial problems.

Finance General
The finance major exposes a student to the areas of applied financial management. Because of the breadth of this degree, it gives maximum flexibility and prepares graduates to enter managerial programs in any financial field.

Emphasis in Financial Services
The emphasis in banking is designed to allow a student to specialize in the management of financial institutions, especially banks.

Emphasis in Personal Financial Planning
This emphasis prepares a student to work with individuals and households on strategies for reaching financial goals, including estate planning.

Emphasis in Risk Management and Insurance
This emphasis area prepares a student to manage risk in a variety of settings; as managers in a commercial enterprise, as personal and family risk management specialists, and in the operations of insurance firms. Students develop competency in both insurance and non-insurance risk management techniques, financial risk management techniques, and insurance company operations.

Information Systems
The Information Systems (IS) degree program combines knowledge of leading edge information technologies with an understanding of the ever-changing needs of today’s dynamic business environment. As such, it attracts students who are interested in working with technology to find solutions to business problems. While a fundamental understanding of information
Technology is a cornerstone of the degree, an equally important and distinguishing element of the IS degree is a solid foundation in basic business functions. Students may major in IS without an area of emphasis or may select one of the following seven emphasis areas.

Accounting Information Systems
The AIS emphasis provides a solid understanding of general business principles with depth in technology and accounting. Students pursuing this emphasis will be prepared to help companies design information systems that are safeguarded against many different kinds of system errors and fraudulent activities. Students could also pursue careers in information assurance, serving as “auditors” who ensure that proper design and controls that protect against fraud are in place. Potential employers include “Big 5” accounting firms, business and IT consulting companies, as well as any organization (large or small) that relies upon an automated accounting system.

Business Intelligence
The BI emphasis focuses on the use of information technology to identify trends and hidden patterns in an organization’s data and external environment, and then predict how these trends and patterns will impact the organization’s activities and ultimate success. Students pursuing this emphasis will be prepared to assist companies in the identification and development of competitive strategies, as well as in the management of corporate knowledge. Potential employers include a wide array of medium and large businesses across all types of industries.

Electronic Commerce
The EC emphasis provides exposure to the technical skills and business knowledge needed to develop web-based business applications. Students pursuing this emphasis will be prepared to develop E-Commerce web sites based on solid, underlying business models. Potential employers include all organizations wanting to establish or improve the ability to conduct business via the Internet.

Enterprise Resource Planning Systems
The ERP emphasis focuses on large, complex information systems that integrate business processes across an entire organization. Because the number of IS professionals with these skills is low, this is a high-demand area. Students pursuing this emphasis will be prepared to assist companies in the selection, implementation, and support of such systems. Potential employers include consulting companies, ERP developers, as well as thousands of companies that adopt or wish to adopt ERP systems.

Enterprise Security
The ES emphasis focuses on the development and administration of security policies as they pertain to the management of information systems. Students pursuing this emphasis will be prepared to assist companies in the design, implementation and management of secure information systems and networks. In today’s security-conscious world, virtually every organization is a potential employer of students who pursue this option.

Logistics Information Systems
The LIS emphasis focuses on the use of information technology as a critical enabler of the supply chain networks that businesses use to acquire, produce, and deliver goods and services all over the world. Students pursuing this emphasis will be prepared to help companies design information systems that integrate business processes across the supply chain. Potential employers include large retail distribution centers (such as Wal-Mart), logistics firms (such as UPS and FedEx), and a host of other trucking and shipping companies around the world.

Technology Entrepreneurship
The TE emphasis provides both the business and technology background necessary to start a successful enterprise in the technology industry. Students pursuing this emphasis will be prepared to establish firms that deliver technology services. Potential employers for those who do not establish their own business include start-up companies and other organizations seeking to undertake entrepreneurial activities.

Logistics and Intermodal Transportation
Transportation companies, industrial firms and government agencies are all looking for the qualified graduate with training in the field of physical distribution. The major in logistics and intermodal transportation prepares the student for this career choice by providing general knowledge of the field of business and supporting course work in the areas of logistics, transportation and marketing. The program also offers an international emphasis, and internships are available and strongly recommended for qualified students.

Management
This major emphasizes the integrative nature of the management discipline in planning, organizing, directing, and controlling contemporary profit and non-profit organizations. The program includes the study of both qualitative and quantitative contributions from the management sciences to provide the student with modern analytic concepts, tools, and techniques that can be used as aids to managerial decision-making. The impacts of the international environment and of the social responsibilities of managers receive special attention across the broad range of management courses. Various teaching methods are used in an effort to bring reality to classroom considerations of relevant business problems. The student who wishes to major in management can select one of four options: (1) the management major without an area of emphasis; (2) the management major with an emphasis in entrepreneurship/small business management; (3) the management major with an emphasis in human resource management; or (4) the management major with an emphasis in operations management.

Management Major Without an Area of Emphasis
This major is intended to expose students to entrepreneurship, human resources, and operations management as well as general management principles and practices.

Emphasis in Entrepreneurship/Small Business Management (E/SB)
This emphasis is designed for persons whose career aspirations include starting, managing, and developing their own businesses. The distinguishing characteristic of the emphasis is that it focuses on teaching students how to assume total responsibility for a business enterprise. This emphasis is especially appealing to self-motivated individuals who prefer to be their own bosses and who are unafraid of expressing and taking action on their ideas.

Emphasis in Human Resource Management (HRM)
The human resource management emphasis allows a student to specialize in the study of personnel administration and human resource management. While this emphasis is especially appealing to individuals whose career aspirations are focused on working in the human resources management areas, the collection of courses included in this emphasis are relevant to managers in all areas of today’s organizations.

Emphasis in Operations Management (OM)
The operations management emphasis allows the student to prepare for positions in manufacturing and other organizations with operations departments and for management careers in manufacturing and service organizations. While much of the course work focuses on manufacturing management, the approaches that are covered and the skills that are developed are generalizable to service operations.
Marketing Preparation in this area will provide the student with an awareness of the marketing problems confronting today’s business firms, some knowledge and experience in application of the tools and techniques of marketing problem solving and a more detailed acquaintance with one or more specific areas of the marketing discipline. Students may choose to major in general marketing or in one of the three emphasis areas under marketing.

The Marketing Major Without an Area of Emphasis The general marketing track is the most flexible and supports the largest number of career opportunities in the field of marketing.

Emphasis in Fashion Merchandising The fashion merchandising emphasis is designed to provide the student with a broad knowledge of business and marketing while stressing the areas of retailing and fashion.

Emphasis in Retailing Management The retailing management emphasis is for students interested in retail careers or in marketing positions where knowledge of retailing is important.

Emphasis in Sales and Sales Management The sales and sales management emphasis is for the student interested in sales as an entry-level marketing position or in sales as a career.

Regional Economic Development This major is unique in several ways. Since the economic development process is one of public-private partnership, students take the Bachelors of Business Administration core. This provides students with a unique appreciation of the particular motivations of business firms and problems that firms face in succeeding in the marketplace. This grounding in the problems and promise of private firms is extended by two varieties of course work designed to help the students focus on the problems of economic development. The Economics (ECON) courses provide an overview for students on the relationships between government, private firms and the economic development process. These courses focus on the impacts of environmental regulation on development, the effects of government tax and spending policies on firm locational decisions, and the processes of growth in regions and urban areas. The Regional Economic Development (RBD) courses provide students with information about specific government programs both nationally and locally that serve to promote economic development efforts. In addition, these courses discuss the sources of data to support development efforts and the techniques of analysis that are necessary to support these efforts. A “hands-on” experience in an economic development agency is provided.

PROGRAMS: GRADUATE

Master of Business Administration

The purpose of the MBA program at Georgia Southern University is to prepare men and women for careers in business and non-profit organizations in an increasingly complex and changing world. It emphasizes the fundamental knowledge and skills underlying modern administration and management, and applies these with emphasis upon the area of managerial and executive decision-making.

Georgia Southern University has offered the Master of Business Administration degree since 1969 with graduates going on to pursue successful careers in banking and finance, marketing, manufacturing, and international organizations. The MBA program is flexible enough to accommodate part-time students. Classes are moderate in size to create an optimal environment for effective learning and thought-provoking discussions.

Master of Accounting

The Master of Accounting (MAcc) program focuses on the knowledge and skills students need for careers in public accounting. The curriculum includes 18 hours of accounting and 12 hours of electives designed to allow students to customize their program of study to fit their personal career objectives. The Georgia Southern University MAcc program meets Georgia’s 150-hour requirement for certification as a CPA, can be completed in one year, and may be partially financed with the HOPE scholarship. The MAcc Forensic Accounting Concentration is designed to provide the advanced knowledge, skills, and abilities needed to investigate asset theft and financial statement fraud, to design internal control systems that detect and/or prevent fraud, and to provide litigation support services such as expert witness testimony in court. Please refer to the graduate section of the catalog for a detailed description of the program.

ADVISEMENT

Undergraduate Academic advisement for all pre-business majors is managed by the College of Business Administration Student Services Center.

Location: Room 1100, College of Business Administration
Telephone: (912) 681-0085

Upper division Bachelor of Business Administration students are assigned a faculty advisor in the student’s major area.

Graduate Academic advisement for Master of Business Administration students occurs in the Graduate Studies Office in the College of Business Administration.

Location: Room 1133, College of Business Administration
Telephone: (912) 681-5767

Academic advisement for Master of Accounting students occurs in the School of Accountancy Office in the College of Business Administration.

Location: Room 2203, College of Business Administration
Telephone: (912) 681-5678

EXPERIENTIAL LEARNING OPPORTUNITIES

Internships Internship opportunities are available through all departments and schools in the College of Business Administration. Internships are supervised work-study programs, designed to allow upper division students an opportunity to receive practical experience in their chosen field of study. Prerequisites include junior standing, a review of academic qualifications, and approval of supervising instructor and department chair. Students should consult with their academic advisors or the College of Business Administration Student Program Manager (Room 1101) for further information.

Cooperative Education Co-ops allow students the opportunity to gain work experience related to their academic major while earning a salary. To participate in a cooperative education opportunity, a student must have completed at least 30 semester hours of instruction, have a grade point average of at least 2.5, and be willing to participate in a minimum of two alternating co-op work semesters. Work responsibilities and salaries are determined by the employer. Co-op students register for the designated Cooperative Education section. This is a non-credit course.

B.B.A. Specific Requirements

- Students seeking credit for COBA courses via proficiency examination will be allowed only one opportunity to do so and must score a minimum grade of “C” to obtain credit.
- Students with a declared major other than BBA, “Pre-Business,” “Pre-Information Systems” or “Undeclared” may enroll in upper division courses offered by COBA subject to completion of any course prerequisites or permission of the department chair responsible for the course.
• Students classified as “Pre-Business,” “Pre-Information Systems” or “Undeclared” may not enroll in any upper division courses offered by COBA.

• In order to change from “Pre-Business” or “Pre-Information Systems” to “BBA” status, a student must (1) complete each of the following nine courses with a minimum grade of “C” and (2) earn an adjusted GPA of 2.5 or better on these nine courses.
  - ENGL 1101: Composition I
  - ENGL 1102: Composition II
  - MATH 1111: College Algebra
  - MATH 1232: Survey of Calculus
  - ECON 2105: Economics in a Global Society
  - ACCT 2101: Financial Accounting
  - BUSA 1105: Introduction to Business
  - BUSA 2106: The Environment of Business
  - CISM 2530: Advanced Business Applications

• BBA majors enrolling in upper division business courses for the first time must have completed or be concurrently enrolled in ACCT 2102 and ECON 2106.

• BBA degrees require 24 semester hours of coursework under the heading “Specific Requirements Beyond Areas A-F” and another 24 under the heading “Major Requirements” for a total of 48 hours of courses related to the major. In addition to University graduation requirements, at least half of this 48 hour total (i.e., 24 hours) must be taken at Georgia Southern for a BBA student to qualify for graduation.

• To qualify for graduation, BBA students must (1) make a minimum grade of “C” in all courses used to satisfy their “Major Requirements” and (2) make a minimum grade of “C” in ACCT 2102 and ECON 2106 as well as in the business core courses: BUSA 3131, BUSA 3132, BUSA 4131, FINC 3131, MGMT 3130, MGMT 3430, MKTG 3131, and CISM 4130 or ACCT 4130 or CISM 4135.

SECONDARY OR P-12 EDUCATION CERTIFICATION

For those interested in Secondary Education (grades 6-12) certification with a BUSINESS degree:

Students who plan to seek teacher certification after completion of the B.B.A. program (Accounting, Finance, Information Systems, Logistics and Intermodal Transportation, Management, Marketing, or Regional Economic Development) may achieve this through the Master of Arts in Teaching (MAT) or a non-degree certification program. To meet content requirements, the following courses must be completed as part of or in addition to your current program of study.
  - CSCI 1230 - Introduction to BASIC Programming (3)
  - GCM 1321 - Desktop Publishing (2)
  - GCM 1411 - Desktop Publishing Lab (1)
  - IT 1130 - Introduction to Information Technology (3)
  - WRIT 3230 - Writing in the Workplace (3)

The following education courses may also be taken as electives while enrolled in your bachelor’s program:
  - COED 2110 - PPB Practicum (1)
  - EDUF 2120 - Foundations of Education (2)
  - EDUF 2121 - Human Growth and Development (2)
  - ITEC 2120 - Instruction Technology (2)
  - SPED 2120 - Introduction to Special Education (2)

NOTE: PRAXIS I and PRAXIS II examination and 2.5 cumulative GPA requirements must be met for certification program admission and should be considered during enrollment in the bachelor’s program. PRAXIS exams will be replaced by the new GACE exam as of September 2006.

VISION
The College of Education will become a regional leader for the professional preparation and continuing development of reflective educators and other stakeholders by creating a transcultural community of public and private partnerships that will facilitate enriched opportunities for student learning.

MISSION
To achieve our vision, the College of Education will emphasize five major commitments that, together, define our mission and provide a clear pathway toward greatness.

A COMMITMENT TO ACADEMIC DISTINCTION IN UNDERGRADUATE AND GRADUATE EDUCATION:
Our first responsibility is to our students. We shall build upon our tradition of preparing exemplary professionals for work in schools. Our pursuit of academic distinction will be deliberate, decisive, and designed to cultivate a cadre of educated and thoughtful learners. We will provide a rigorous academic environment and a student-centered pedagogy that ensure high standards. We are committed to the integration of emerging technologies that enhance instructional delivery, program development, and student learning.

A COMMITMENT TO COLLABORATION:
We shall create, maintain, and refine focused and well-chosen external collaborations. Successful change requires us to engage in sustained long-term relationships that will link the College of Education, schools, and community agencies as sources for ideas, support, and assistance. Alliances with P-12 colleagues through partner school and professional development school initiatives and further linkages with our regional community through campus and community internships and additional collaborations will be key attributes of our learning paradigm. Collaboration among all Georgia Southern University Colleges will be invited, sustained, and nurtured. We will be the initiators who develop a collaborative culture that really works.

A COMMITMENT TO DIVERSITY:
It is imperative that we prepare our students for work in diverse settings from classrooms to clinics and from computer labs to community agencies. It is essential for the College of Education to ensure that embracing diversity in its many dimensions becomes an important theme undergirding and informing our programs. All of our graduates must function successfully in communities that are characterized by racial, cultural, class, and ability differences and that are challenged by expanding and emerging technology and large shifts in population. We shall continue to define, devise, and develop ways to achieve greater diversity in undergraduate, graduate and terminal degree programs through recruitment, admission, and retention policies that are sensitive to the differences, needs, and strengths of our students and the communities they represent. We shall, congruent with the vision and mission of the University, continue to engage in affirmative recruitment and retention of women and minorities among our faculty and staff.

A COMMITMENT TO PROFESSIONAL DEVELOPMENT:
We shall continue to initiate and sustain opportunities for faculty to grow professionally and to become more expert so that their influence in theory and practice is enhanced. Programs that create a context for collaboration and reduce the artificial boundaries of program and department will be maintained, refined, and valued. We are committed to refining our processes and protocols to ensure that service and scholarship are respected and rewarded. We shall continue to promote faculty competence in using and encouraging technology, and we shall continue to refine and develop strategies to encourage and provide incentives for positive change.

A COMMITMENT TO REGIONAL SERVICE:
We shall develop practical strategies that meet the challenge of being a truly regional College of Education by carefully selecting programs that promote contemporary practices and emergent technologies for meeting the needs of stakeholders across our entire area of service. We shall also have clearly defined strategies and well articulated priorities for expanding our service and our influence. Instructional opportunities in new sites are important elements of our regional orientation and have clear and significant implications for faculty recruitment, strategic planning and enrollment management. These realities require that we be focused and united in our approaches to managing our resources and serving the needs of our region.

Conceptual Framework
Part I: Beliefs and Commitments
The College of Education assumes leadership for the preparation and continuing development of teacher candidates and other professional school personnel in collaboration with other colleges on campus, public schools, and related educational agencies. Further, we believe in the inclusive nature of the term educator as it refers to candidates in all programs of the College of Education who work in schools or other educational agencies. We understand our work affects both our candidates and the individuals (including students) with whom they work. Toward that end, our conceptual framework extends beyond the traditional boundaries of the College to form a professional community. The Teacher Education Committee (TEC), which includes representatives from the College of Education, other colleges on campus, public schools, and related agencies, provides a forum for coordinating these efforts.

Georgia Southern University’s College of Education has adopted Reflective Educators for Diverse Learners as the theme for its conceptual framework. This theme reflects and extends the mission of Georgia Southern University, which is “rooted in South Georgia, a largely rural region. Our hallmark is a comprehensive university experience that promotes student growth and success through creative strategies for using technology, enhancing learning, and connecting all we do to those around us.” The College of Education’s professional community frames its work on the commitments described below. Embedding these commitments in the competencies in all programs ensures coherence among curriculum, instruction, field experiences, clinical practice, and assessment across a candidate’s program.
C.1 Commitment to the Knowledge, Skills and Dispositions of the Profession – We believe that it is of primary importance for our candidates to possess adequate knowledge of the subject matter they plan to teach, including a thorough understanding of the central concepts, tools of inquiry, and structures of their fields as delineated in professional, state and institutional standards. These standards provide the framework for the College of Education unit assessment system and for each program’s ongoing assessment and revision efforts. We believe that candidates must be knowledgeable about learning theories and related methodologies, the application of emerging technologies, and the influence of human growth and development on the educational process, coupled with a strong subject-matter knowledge base grounded on a firm ethical foundation. Educators must have the ability and the knowledge to create and evaluate personal guidelines for decision making in a professional context. We believe that by presenting a strong research base and linking it with practice we will facilitate the growth of our candidates as informed and reflective practitioners. Collaboration across academic fields prepares our candidates to support and promote positive change. Indeed, we believe that it is of utmost importance that our candidates work with change both proactively and reactively and recognize its implications on the future of individuals and groups with which they work. This represents the wide spectrum of educational activities in the College of Education and recognizes the dynamic nature of the work environments in which our candidates are or will be engaged.

C.2 Commitment to Diversity - We believe in the necessity of a strong historical understanding of one’s profession and the willingness to view knowledge as a personal construction affected by one’s cultural beliefs. We believe that educators must also recognize their responsibilities towards the rights and needs of all students. We believe educators must be able to enhance students’ learning by addressing diverse learning styles and abilities and taking into account each individual’s physical, cognitive, emotional, and social development. We believe that our candidates must understand the interrelatedness of individuals, small groups, and society, both locally and globally. Educators must be active in working with issues of culture, diversity, and equity; understand the political nature of education; and have the skills to effect change. Educators must be cognizant of the ideological, economic, and special interest pressures exerted on the institution of education at all levels. We believe educators must be able to enhance communication among all users of education in the school, community, home and industry. We believe educators must understand how human emotions interact with the education process, both in terms of the student and the educator. Educators must understand how personal perceptions of self, work, and professional relationships affect the daily decision-making process. Educators must be sensitive to prejudice and the effect it has on educational environments. Toward that end, diversity is an integral component of the mission of Georgia Southern University. Our candidate’s field experiences, clinical practice, and assessment have been designed to ensure that candidate experiences reflect the diversity of south Georgia.

C.3 Commitment to Technology - We believe that candidates must recognize the critical role of technology in all facets of the educational process thus we provide all candidates with experiences that allow exploration of a broad range of technologies. To that end, initial and advanced teacher education candidates integrate technology and other multimedia resources to maximize learning opportunities for all students. Candidates in fields preparing other school personnel collect and analyze data related to their work, reflect on their practice and use research and technology to support and improve student learning environments. The College of Education has implemented a technology-based assessment system that continuously gathers data at the unit and program levels. Through data analysis, the College of Education’s professional community ensures that candidates meet technology-related professional and state standards. Use of the technology-based assessment system by individual candidates facilitates the process of self-reflection and analysis.

C.4 Commitment to the Practice of Continuous Reflection and Assessment - We believe that reflective educators continually engage in self-assessment and assessment of student learning. As part of this process, candidates who work directly with students are provided with opportunities to accurately monitor, assess and analyze student learning, and make appropriate adjustments to instruction. Other professional school personnel candidates critique and are able to reflect on their work within the context of student learning. We believe that reflective educators evaluate the results of past actions and use the information to anticipate or plan for the future. They have the ability to define and frame a problem, to consider reasoned courses of action, to act, and, finally, to reflect on the appropriateness of their actions. We strive to develop in all our candidates both an awareness of their surroundings and the consequences of their actions, with the belief they will foster the same in the individuals with whom they work.

Reflective Educators for Diverse Learners considers all learners and represents a vision of professional practice for the entire College of Education professional community. To that end, our conceptual framework demonstrates that we believe all educators must acknowledge the multifaceted nature of their work and engage in practice that reflects a commitment to the knowledge, skills and dispositions of the profession; diversity; technology; and the practice of continuous reflection and assessment.

The purpose of our conceptual framework document is to capture and clearly convey to our candidates, school partners and other stakeholders what we believe to be the purpose and content of educator preparation. We want to emphasize that these beliefs are also commitments we desire to instill in our candidates. With this as a goal, our conceptual framework document is presented in two sections. Part I contains our belief statements expressed as Four Commitments and Part II contains the bibliographic support for each commitment. It includes a mixture of foundational literature and literature that is currently used by faculty in course bibliographies or as required textbooks. This literature underpins our beliefs and the Four Commitments across all programs in the College of Education. The Conceptual Framework Bibliography is a dynamic document that is maintained on our COE Web site.

STRUCTURE
The College of Education is organized into three academic departments:

The Department of Teaching and Learning offers undergraduate teacher preparation programs in early childhood education (grades P-5); middle grades education (grades 4-8); special education (P-12); secondary teaching fields (grades 6-12) in family and consumer sciences, art, music, and technology; and the P-12 teaching field in health and physical education. The Master of Arts in Teaching (M.A.T.) program offers secondary and P-12 teacher preparation in the fields of art, biology, business, chemistry, English, history, geography, mathematics, physics, political science, and Spanish, as well as Middle Grades and Special Education. Master of Education (M.Ed.) graduate programs are offered in early childhood education; middle grades education; special education; secondary education with concentrations in science, social science, English, mathematics, technology, and business; and P-12 teaching fields in art, health and physical education, and French education. The department also offers an Education Specialist (Ed.S.) degree in Teaching and Learning. In addition to degree programs, the department offers endorsements in Early Childhood Math and English for Speakers of Other Languages (ESOL). The programs are based upon the concept of developmentally appropriate practices and value of diverse, intensive field experiences in a range of grade levels and school settings.

Ronnie Sheppard, Chair
Professors: C. Alexander, J. Rakewstrow, M. Schriver, R. Sheppard
Assistant Professors: S. Beck, M. Bennett, M. Daniel, L. Gilpin, K. Harris, B. McKenna, M. Smith, D. Sparkman
Instructor: B. Nelson
The Department of Leadership, Technology and Human Development offers a broad range of programs that provide school/system-wide and student-oriented support services for traditional and alternative settings. A diverse selection of graduate programs prepare school and community agency personnel in the areas of school and community counselor education, higher education student services, educational leadership, higher education administration, instructional technology, and school psychology. A doctoral degree program in educational administration is also offered by this department.

Randal D. Carlson, Chair
Professors: J. Bergin, R. Carlson, K. Clark, J. Repman, M. Richardson
Associate Professors: E. Downs, M. Jackson, W. Polka, L. Spencer
Assistant Professors: L. Arthur, J. Burnham, T. Diamandaros, J. Galloway, M. Harris, J. Klein, B. Mallory, F. Parks, A. Tekleasellassie

The Department of Curriculum, Foundations, and Reading provides a service function to all other programs in the College. Undergraduate and graduate level courses are offered in the areas of educational foundations, educational psychology, curriculum theory and development, reading education, and educational research. A master’s degree program in reading education and a doctoral degree program in curriculum studies are offered by this department.

Cordelia Zinskie, Acting Chair
Professors: D. Battle, G. Dmitriyev, S. Jenkins, D. Liston, M. Moore, S. Nettles, D. Rea, W. Reynolds
Associate Professors: W. Chambers, B. Griffin, M. Griffin, M. He, K. Rittschof, R. Stallworth-Clark, J. Weaver, C. Zinskie
Assistant Professor: M. Morris

The College of Education also has a variety of centers and offices that provide specific services to its students, faculty, and public schools:

Within the Office of Undergraduate Teacher Education and Accreditation, the Associate Dean oversees all activities related to undergraduate education; Title II and BOR reporting; NCATE/PSC accreditation; College of Education Unit and program assessment; NNER and HOLMES memberships; and Teacher Education Committee activities. The Director of Field Experiences and Partnerships facilitates undergraduate field experiences and coordinates student teaching and the Partner School Program including Clinical Associates, Clinical Supervisors, the Professional Development District, and International Learning Community exchanges in collaboration with the various departments, public schools and international partners. Contact information for the Director of Field Experiences and Partnerships is Ms. Patricia A. Parsons, parsons@georgiasouthern.edu, (912) 681-0499.

The Office of Graduate Programs, Research, Sponsored Programs and Development coordinates graduate admissions and program offerings as well as research and grant activity for the College in collaboration with the various departments, campus offices, and school systems. This office also facilitates development, alumni and other external relations activities.

The Office of the Dean of the College of Education coordinates the activities of the International Learning Community (ILC). Through the ILC, Georgia Southern University and the United Kingdom universities of Derby, East London, Cambridge, Sheffield Hallam, and Oxford Brookes focus on the goal of improved teaching and learning from pre-school through graduate education. The ILC facilitates the sharing of research and best practice through partnerships and also the exchanges of students, school and university faculty, and school and university researchers.

The Coastal Area Teacher Education Service (CATES), a consortium of University System of Georgia institutions and cooperating school systems in southeast Georgia, is housed in the College of Education. CATES assists in the scheduling of off-campus graduate education courses, publicizes those courses, and assists off-campus graduate education students during registration. The College of Education Student Success Center is responsible for the advisement of all undergraduate education majors and non-degree students seeking initial certification. The Director of the SSC and Certification Officer serves as a liaison between the College and the Georgia Professional Standards Commission dealing with certification matters. The Director evaluates student transcripts to determine course needs for acquiring initial or additional certification fields and makes the College’s recommendations for certification.

The Georgia Center for Educational Renewal conducts research and identifies its applications to practice for education renewal and/or reform in P-16 schools. It also focuses on educator preparation to facilitate improved teaching and learning in schools, especially for under-served populations. The Center is committed to closing the gaps between research and practice, the university and the schools and in the achievement of minority/majority students. It facilitates the activities of the National Network for Educational Renewal (NNER), the Center for the Study of International Schooling, and the Center for Educational Leadership and Service.

The Instructional Resources Center provides computer laboratories, portable multimedia equipment, a variety of material resources and equipment for students and faculty.

PROGRAMS

The College of Education offers undergraduate and graduate programs to prepare its students for work in public education, in community agencies, and in higher education. Programs are developed in collaboration with departments across the campus and with professionals in the field of education. Each program has been approved by the Georgia Professional Standards Commission, the National Council for Accreditation of Teacher Education, and the Southern Association of Colleges and Schools.

Teacher Education Program
Undergraduate students and those seeking initial certification as non-degree/M.A.T. students must meet admission requirements for the Teacher Education Program. Criteria for retention in the program must also be met, as well as specific program requirements and Student Teaching/Internship requirements. Student progress is monitored by program faculty and advisors to ensure that students are satisfactorily meeting program outcomes.

**ADVICEMENT**
Undergraduate: Education majors are assigned to a professional advisor in the Student Success Center in the College of Education for program planning and course scheduling. Since the College’s programs are developed to enable professional education and certification requirements of the Georgia Professional Standards Commission, it is critical that students meet with their advisors to plan their programs of study. All students must complete the Core Curriculum; however, in order to meet the requirements of the teaching field, professional education, and certification, it is advisable for students to declare an intent to major in education before the second semester of the sophomore year. Prior to admission into the Teacher Education Program, students are designated as Pre-Education majors. For additional information or questions, contact Christina Thompson at (912) 681-0698 or cjthomp@georgiasouthern.edu.

Graduate: Graduate students in M.Ed., Ed.S., and Ed.D. programs are assigned to faculty advisors. Advisement takes place in the advisor’s office or by telephone, mail or e-mail, as appropriate. Since the College’s programs are developed to enable students to meet the certification requirements of the Georgia Professional Standards Commission, it is critical that students meet with their advisors to plan their programs of study before the completion of 12 semester hours. Students should also consult their graduate advisor for information on any exit comprehensive assessment (if required) for the M.Ed. or Ed.S. program. Note: If seeking initial teaching certification as a non-degree or a M.A.T. candidate, a professional advisor in the College’s Student Success Center will be assigned until all Teacher Education Program admission requirements and pre-requisites are met.

B.S. Ed. DEGREE REQUIREMENTS
General requirements for the B.S.Ed. degree include fulfillment of the Core Curriculum, a minimum of 60 semester hours at the junior/senior level in the teaching field and professional education course work, including 3 semester hours in electives, and 6 semester hours in orientation and health and physical education. At least half of the courses required in the teaching field must be taken at this institution. Correspondence and extension credits may not be used to satisfy professional education content requirements. In addition to these requirements, students pursuing a B.S.Ed. degree are required to be admitted to the Teacher Education Program.

Admission to the Teacher Education Program
Admission to the Teacher Education Program (TEP) is required for all students wishing to pursue a degree in any undergraduate or non-degree, or M.A.T program that leads to initial teacher certification. Students must be admitted into the Teacher Education Program as a prerequisite for enrollment in junior/ senior level education courses. Students must make formal application for admission into the Teacher Education Program which includes a TEP admissions folio review process. Typically the folio review process occurs during enrollment in the Pre-

Professional Block (PPB), a set of four two-credit hour courses and a one-credit hour field experience course, taken concurrently during the second semester of the sophomore year. A decision is made by a TEP admissions review committee at the end of the term. For transfer undergraduate students or graduate M.A.T. or non-degree initial certification students who meet specific criteria, an alternative folio review process is required. During the PPB semester, students purchase and begin using TK20: Campus Tools, the College of Education’s student data management and assessment system. This system tracks and assesses students’ progress throughout their TEP.

In order to be admitted into the Teacher Education Program (TEP), a student must have:
1. A cumulative GPA of 2.50 or better on all attempted hours in the Core Curriculum in Areas A-F. Those students who hold a B.A. or B.S. degree must have a minimum cumulative GPA of 2.5 on all coursework.
2. Completed Area A and Area F course work (including the Pre-Professional Block) with a minimum grade of “C” and an adjusted GPA of 2.75 or better in both areas combined.
3. Successfully completed the Regents Testing Program.
4. Successfully completed the Praxis I (to be replaced by the Georgia Assessments for the Certification of Educators (GACE) examination Fall of 2006).
5. Earned a minimum of 40 semester credit hours in Core Curriculum courses, including Pre-Professional Block courses (COED 2110, EDUF 2120, EDUF 2121, SPED 2120, and ITEC 2120).
6. Successfully completed the TEP admissions folio review.
7. Proof of liability insurance.

All of the following requirements must be met for retention in the Teacher Education Program:
8. Students must maintain an overall cumulative GPA of 2.50 or better on all attempted hours in the Core Curriculum in Areas A-F.
9. Students must maintain a total adjusted GPA of 2.75 or better on all professional education and all teaching field course work.
10. Students must successfully complete all field experiences.
11. Students must not have been in violation of the Georgia Southern Student Conduct Code. Reviews will be made on a case-by-case basis based on the seriousness of the violation and with regard to consistency.
12. Students must not have violated the Georgia Professional Practices Commission’s Code of Ethics for Professional Educators. Students are provided a copy upon admission and must sign a statement agreeing to abide by this Code of Ethics upon admission into TEP.
13. Students must be making satisfactory progress toward meeting program objectives. Programs will be responsible for monitoring student progress and providing guidance to students who may be having difficulty meeting retention requirements.
14. Students must maintain liability insurance.

Admission to Student Teaching
Student Teaching is required in all teacher preparation programs at the undergraduate level. In order to participate in the student teaching program, a student must:
1. Meet all admission and retention requirements for the Teacher Education Program.
2. Have earned an overall cumulative GPA of 2.50 or higher on all college course work attempted.
3. Make application to Student Teaching no later than one semester prior to the school year in which registration for the course occurs.
4. Meet admission requirements for Student Teaching no later than one semester prior to enrollment for the course.
5. Have met the College and departmental prerequisites for majoring in the field.
6. Have a disciplinary record clear of any actions which might be a detriment to successful performance in the classroom.

(continued on next page)
The following criteria must be met:

7. Possess mental, emotional, and physical health compatible with the expectations of the profession.
8. Participate in the orientation activities for Student Teaching.
9. Complete the professional education program and courses in the teaching field with a minimum grade of "C" and a total adjusted GPA of 2.75 or better.
10. Take the Praxis II (to be replaced by the GACE examination Fall 2006).

Student Teaching Placements
All student teachers are placed within a 60-mile radius of the Georgia Southern campus. School systems in this area are: Counties of Appling, Bryan, Bulloch, Burke, Candler, Chatham, Effingham, Emanuel, Evans, Jefferson, Jenkins, Liberty, Long, Screven, Tattnall, Toombs, Vidalia City and Wayne.

Under the auspices of the International Learning Community, student teaching exchanges within the United Kingdom may be available. Information regarding this exchange can be obtained from the Office of Undergraduate Teacher Education.

Internships
Some graduate programs require extensive field experience through internships as a program requirement. The student’s faculty advisor arranges the internship in cooperation with the student and local system/agency. For students enrolled in an initial teacher certification program at the graduate or undergraduate level, application for internships must be submitted to the Department of Teaching and Learning.

Teaching Certificates
The programs offered by the College of Education at the undergraduate and graduate levels are designed to prepare teachers and other school personnel for certification in the State of Georgia. Types of certificates include the Georgia Level Four (Bachelors degree), Five (Masters degree), Six (Education Specialist degree), and Seven (Doctoral degree) certificates. The College of Education, in accordance with the Georgia Professional Standards Commission, provides courses for individuals who wish to reinstate expired certificates, add fields, and update certificates. For individuals who hold a bachelor’s degree, initial teaching certification may be obtained through the Master of Arts in Teaching (M.A.T.) program or similar non-degree graduate programs of study, except for the fields of Early Childhood Education (grades P-5), Health and Physical Education (grades P-12), Music (grades P-12), or Secondary Education (grades 6-12) in Family and Consumer Sciences or Technology Education which must be completed at the undergraduate level.

All graduates of the University who plan to teach in Georgia must file an application for a teaching certificate. Students enrolled in Student Teaching are given an opportunity to make application at a prescribed time. All candidates for a teaching certificate must pass the Georgia teacher certification test (Praxis II to be replaced by the GACE examination Fall 2006) in the appropriate field, must have transcripts reviewed by the Director of the SSC and Certification Officer, and be recommended to the Georgia Professional Standards Commission for certification. Forms for this purpose are available in the College of Education Student Success Center.

Alternative Teacher Certification Process and Procedures
The College of Education offers the Master of Arts in Teaching (M.A.T.) degree or a similar graduate non-degree program option for those who hold bachelor’s degrees in a related teaching field. The M.A.T. and non-degree option is available for those in Middle Grades Education, Special Education, and Secondary and P-12 education fields (art, biology, business, chemistry, English, history, geography, mathematics, physics, political science, and Spanish). Those who hold a bachelor’s degree and are interested in Early Childhood Education, Health and Physical Education, Music Education, Family and Consumer Sciences, or Technology Education certification must complete program requirements at the undergraduate level. For each of these options, students must have their transcripts evaluated by the Georgia Southern University’s Certification Officer and they must meet all Teacher Education Program (TEP) admission and retention requirements, including an overall GPA of 2.50 or higher over all college course work attempted. If a graduate degree is sought, all admission requirements for the graduate program must also be met. See College of Education’s graduate section of this catalog for further information on these program options.

Prospective students should contact the College of Education Student Success Center with questions and go to http://coe.georgiasouthern.edu for an Application for Evaluation for Initial Teacher Certification. The completed application should be submitted along with transcripts and payment of the required fee ($25.00 for the first evaluation and $10.00 for each additional field requested). Allow at least two weeks for the evaluation process to be completed. Evaluations will be mailed to the applicant upon completion.

All applicants are expected to meet the criteria for admission to the Teacher Education Program. Further requirements for alternative certification students are outlined in the Application for Admission packet which is mailed out with each completed evaluation.

Advisement for students pursuing the certification-only option is provided in the College of Education Student Success Center. Candidates for the M.A.T. program are initially advised in the Student Success Center until all content prerequisites and TEP admission criteria are met. At that point, graduate faculty advisors are assigned.

For further information about alternative certification programs and the transcript evaluation process, please contact:

VISION
The College of Health and Human Sciences (CHHS) will be recognized as a national model for comprehensive, distinctive, and innovative programs that enhance the health and quality of life for individuals, families, and communities through teaching, scholarship, and service.

MISSION
CHHS is composed of three academic units: The Department of Hospitality, Tourism, Family and Consumer Sciences; the Department of Health and Kinesiology; and the School of Nursing. In addition, the college also houses the Center for Rural Health and Research, the Family Life Center, and the Magnolia Coastlands Area Health Education Center. This blend of disciplines is conjoined to provide unique educational opportunities, creative and contemporary scholarship, and socially responsive service activities.

CHHS prepares students through traditional classroom as well as nontraditional learning environments to assume careers in professions that promote the health and quality of life for individuals, families, and communities. Students are provided with “hands on” experience that extends learning beyond the classroom through internships, clinical and service learning experiences, practica, and field experiences, placing them “in touch” with the profession, with faculty and students, with the latest technology, and with global issues.

CHHS is distinguished by:
Excellence in teaching
$ Nationally accredited and recognized programs of instruction/curricula
$ Student preparation that extends beyond the classroom through service learning, practica, internships, and clinical experience
$ Outstanding and caring faculty who are committed to preparing and mentoring future professionals
$ A commitment to creative and innovative scholarship
$ Involvement in service opportunities that benefit the community
$ Technologically rich environment
$ A culture that embraces positive, professional, and collaborative interactions
$ A collaborative decision making environment that embraces shared governance

CHHS expects students to develop into professionals who are:
$ Aesthetically responsive
$ Creative problem solvers
$ Strong analytical thinkers
$ Effective leaders
$ Global visionaries
$ Skilled communicators
$ Technological integrators
$ Value-based decision makers
$ Ethical citizens

CHHS Values and Guiding Principles
As A College We Value:
$ Achievement
$ Collegiality
$ Community Outreach
$ Concern for Others
$ Diversity
$ Fun and Enjoyment
$ Health and Activity
$ Humility
$ Interdependence
$ Responsibility

CHHS Guiding Principles for Decision Making:
$ Accountability
$ Centrality
$ Civility
$ Comparative Advantage
$ Involvement/Collaboration
$ Quality
$ Veracity
$ Viability

CHHS Guiding Principles for Actions:
$ Collaboration
$ Grace
$ Honesty
$ Integrity
$ Optimism
$ Passion
$ Pro-Activity
$ Professionalism
$ Respect
$ Wisdom

ADVISEMENT
Undergraduate and Graduate
Undergraduate students in the College of Health and Human Sciences with less than 60 hours are advised in the Student Services Center which is located in Room 0107 in the Hollis Building. Students with 60 hours or more are advised in the appropriate academic department. Pre-Nursing, Pre-Sports Medicine-Athletic Training, Pre-Recruitment, Pre-Sport Management, Pre-Exericise Science, Pre-Community Health, Pre-Health Behavior, Pre-Interior Design, and Pre-Child and Family Development students will continue to be advised in the Student Services Center until they are formally admitted into their programs. Graduate Students are advised by their academic department/school.

EXPERIENTIAL LEARNING OPPORTUNITIES
Experiential Learning underpins most of the professional programs in the College of Health and Human Sciences. Nursing and Sports Medicine-Athletic Training majors spend significant time in clinical sites. Internships provide another opportunity for students to work under the supervision of a practitioner in the field. Whether a Recreation major assigned to a resort, or a Community Health major shadowing a public health educator, intern students learn valuable lessons from experts in their discipline.

Laboratories also provide CHHS students with experiential learning opportunities. Specially equipped labs in Biomechanics, Applied and Clinical Exercise Physiology and Biochemistry, Nutrition and Dietetics, Sport Psychology, Sports Medicine-Athletic Training Education and Coaching give students hands-on experience with the technology and equipment they will typically encounter in the work environment.

The Department of Hospitality, Tourism, Family and Consumer Sciences operates a 50-seat restaurant supported by a state-of-the-art commercial kitchen where students gain experience in menu planning, food preparation, restaurant management and catering. Other experiential learning opportunities include Interior Design Studio experiences, Fashion Study Tours to the New York market and garment district, Historic Preservation Tours to Charleston and other sites, and opportunities to observe and work at the Family Life Center where students interact with infants, toddlers, and preschoolers and experience first-hand the theory discussed in class or seminar sessions.

All CHHS academic units offer classes that use computer laboratories located in the Hollis Building, the Nursing and Chemistry Building, and the Family and Consumer Sciences Building. The labs are equipped with the latest computer hardware and peripherals. Sophisticated software that supports programs in each of the discipline areas is available for instruction and general student use.

**PROGRAM ADMISSION REQUIREMENTS IN INTERIOR DESIGN**

**MINIMUM PROGRAM ADMISSION CRITERIA:**

In order to be considered for admission into the Interior Design Program, the applicants must meet the following minimum requirements:

1. Attain admission to Georgia Southern University.
2. Declare Pre-Interior Design (INDS) as a major. Until students meet admission criteria and are admitted into the Interior Design Program, they will be considered “Pre-INDS” majors and will be advised in the College of Health and Human Sciences Student Services Center. Designation as a Pre-INDS major is separate from the application process and does not guarantee acceptance into the Interior Design Program.
3. Have a minimum of first semester sophomore status (30 semester hours completed) upon applying for the program.
4. Achieve a minimum total institution GPA of 2.25 or better on all course work attempted (transfer course work and work completed at Georgia Southern University are considered).
5. Complete a minimum of the following Area F courses with a minimum grade of “C”: INDS 2430, INDS 2434, and 2 of the 3 ART courses in Area F, preferably ART 1010 and ART 1020. (Students may be enrolled in ART courses during the application semester.)
6. By the end of the first two semesters as a declared Pre-INDS major, students shall have:
   a. Turned in a completed Information Form (found on CHHS Student Services Center website at [http://chhs.georgiasouthern.edu/student_services.html](http://chhs.georgiasouthern.edu/student_services.html)).
   b. Turned in copies of college transcripts for all work completed to date.
   c. Attended an orientation session with Interior Design Faculty (either Fall or Spring Semester of the first year as a Pre-INDS major).
6. Students transferring in with an Interior Design Major from other schools are required to have their portfolio and transcript(s) evaluated by Interior Design faculty who are responsible for determining which design courses remain to be taken and which design courses receive transfer credit.

(continued on next page)
APPLICATION FOR ADMISSION TO THE INTERIOR DESIGN PROGRAM:
The following completed Admission Package must be turned in by the application deadline in order for the candidate to be considered:
1. Official Application
2. Letter of Intent
3. Verification of grades with official transcripts of all schools attended including this university (WINGS accepted); mid-term verification of grades for all required courses in process (Students may be in the process of taking ART 1010 or ART 1020 and will be required to submit a mid-term grade from the professor. Final acceptance is contingent upon the final grade received in the course.)

Application deadlines: March 1 for Fall admission consideration
October 1 for Spring admission consideration

**MEETING MINIMUM REQUIREMENTS IS NOT A GUARANTEE OF ACCEPTANCE INTO THE PROGRAM.

PROGRAM PROGRESSION REQUIREMENTS:
1. Students must earn a minimum grade of “C” in all courses within the major requirements including remaining Area F courses.
2. Students must maintain a 2.25 total institution GPA. An admitted student whose total institution GPA falls below 2.25 will be on probation for one semester. If the student’s GPA remains below 2.25 after the probation semester, the student will be dropped from the program. The student may be re-admitted to the program only by the application process outlined above.
3. Students must complete the courses in sequence and complete all prerequisites. If a course is dropped or failed, then the student will be out of sequence and graduation will be delayed.

NOTE: Students transferring into the Interior Design major from other majors or from other institutions may not be able to graduate necessarily within the traditional four-year period.

For additional information, contact the College of Health and Human Sciences Student Services Center at (912) 871-1931 or the Department of Hospitality, Tourism and Family and Consumer Sciences at (912) 681-5345.

The Interior Design Program is accredited by the Foundation for Interior Design Research (FIDER).

ADVIEMENT: Contact the College of Health and Human Sciences Student Services Center, Room 0107, Hollis Building, (912) 871-1931, for information regarding advisement and registration.

PROGRAM ADMISSION CRITERIA:

- Admission to Georgia Southern University
- A total institution GPA of 2.0 or better on all course work attempted (transfer course work and work completed at Georgia Southern University are considered)
- Completed a minimum of 30 semester Hours
- A minimum grade of “C” in all Area D and F course work attempted

PROGRAM PROGRESSION REQUIREMENTS:

- Students must earn a minimum grade of “C” in all courses in Area F and within the major requirements, including guided major electives.
- Students must also earn a minimum grade of “C” in a prerequisite course prior to registering for an advanced course.

If taken in Area A or D, use Fundamentals to complete Area F, Guided Electives.

**If PHYS 1111/1113 - Introduction to Physics I taken in Area D, then CHEM 1145 or CHEM 1146 required in Area F, Guided Electives.

***Students can substitute courses for the internship with approval of the Undergraduate Exercise Science Program Coordinator.

Note: Exercise Science Majors must complete Fundamentals to include MATH 1112, CHEM 1145, CHEM 1146, and PHYS 1111/1113/5 Lab. Students not able to complete Fundamentals in Areas A, D, and F will take these courses as part of their Guided Major Electives. Students may select to substitute MATH 1441 and PHYS 2211 for Fundamentals with advisor approval.

**Advisement**: College of Health and Human Sciences Student Services Center Room 0107, Hollis Building will advise B.S. in MT majors prior to transfer. After transfer to AASU, Department of Medical Technology faculty and staff will assume advisement responsibilities.

**Program Admissions Criteria**:

Students may be admitted to the program of study at Georgia Southern who satisfy the admission requirements of the University. Acceptance into the AASU program will be determined by the AASU evaluation committee and is based on completion of required courses, strength of application, GPA, and Science GPA. For information and application materials for the AASU program contact Dr. Hassan Aziz, Program Director, Medical Technology, 11935 Abercom St., Savannah, GA 31419, (912) 921-7448, email azizhass@mail.armstrong.edu.

**Other Program Requirements**:

- Students must earn a minimum grade of "C" in all courses within the major requirements, including guided major electives.
- Students must also earn a minimum grade of "C" in a prerequisite course prior to registering for an advanced course.

ADVISEMENT: Contact the College of Health and Human Sciences Student Services Center, Room 0107, Hollis Building, (912) 871-1931.

*If taken in Area A or D, then use Fundamentals to complete Area F, Guided Electives.

**If PHYS 1111/1113 - Introduction to Physics I taken in Area D, then CHEM 1145, CHEM 1146, or PHYS 1112 w/Lab required in Area F, Guided Electives.

Note: Sports Medicine-Athletic Training Majors must complete Fundamentals to include MATH 1112, CHEM 1145, CHEM 1146, PHYS 1111/1113, and PHYS 1112/1114. Students not able to complete Fundamentals in Areas A, D, and F will take these courses as part of their Guided Major Electives and/or as course substitutions in the major program requirements. Students may substitute MATH 1441 and PHYS 2211/2212 for Fundamentals with advisor approval.
PROGRAM ADMISSION CRITERIA: Sports Medicine-Athletic Training major applicants must meet the University entrance requirements as described in the University General Catalog. All applicants must apply for admission to both the University and the Sports Medicine Major-Athletic Training. Once admitted to the University, students should contact the Student Services Center for advisement. In order to be considered for admission into the Sports Medicine-Athletic Training major, applicants must meet the following minimum requirements by the application deadline (See the School for application dates):

1. Attained admission to Georgia Southern University.
2. Possess a total institution GPA of 3.0 or better on all course work attempted (both transfer course work and work completed at Georgia Southern University are considered).
3. Completed a minimum of 15 semester hours, and enrolled in at least 12 semester hours during the time of application. Total hours must reflect at least 7 hours completed from Area D.
4. Attained a minimum grade of “C” in all Area D and Area F course work attempted.
5. Completed, by the deadline, an Application Package that includes the following:
   a. A completed Application Form.
   b. Copies of college transcripts for all work completed to date.
   c. Documented accumulation of a minimum 25 observation hours in an approved athletic training room environment. These hours must be documented and signed for by a certified athletic trainer. These hours must have been accrued within the last year. If you wish to attain these hours in the Georgia Southern University Athletic Training Room, you must first contact the Head Athletic Trainer for guidelines and to set up appropriate times.
   d. A one page, double-spaced, typed, writing sample addressing the following: the single most important attribute for an effective allied health care provider; personal traits or attributes you possess which will allow you to become an effective allied health care provider.
6. Accessed the NATA web page at and researched the following: the history of athletic training and the NATA, the role of an athletic trainer, the education and certification process of becoming an ATC, the difference between NATA certified, CAAHEP accredited and internship athletic training educational programs, and the NATA Code of Ethics. This information will be used in the personal interview.

All of the following requirements must be met for student progression in the program:

1. Students must maintain a total institution GPA of 2.50 or better on all course work.
2. Students must successfully complete all clinical field experiences related to course content and objectives, and for the current NATA Certification requirements.
3. Students must not have been found in violation of the Georgia Southern Student Conduct Code. Students found in violation of the Student Conduct code, may, depending upon the seriousness of the violation, be placed on program probation or dismissed from the program.
4. Students must not violate the NATA Code of Ethics for practicing athletic trainers. Students found in violation of the Code of Ethics will be dismissed from the program.

OTHER PROGRAM REQUIREMENTS/INFO:
It is recommended that students:
1. receive a complete physical examination by a physician;
2. secure tetanus and hepatitis B vaccinations;
3. purchase student liability insurance; and
4. adhere to the program professional dress code during clinical experiences.

An athletic trainer is a qualified allied health care professional educated and experienced in the management of health care problems associated with physical activity. In cooperation with physicians and other allied health care personnel, the athletic trainer functions as an integral member of the health care team in secondary schools, colleges and universities, professional sports programs, sports medicine clinics, and/or other health care settings. The athletic trainer functions in cooperation with medical personnel, athletic personnel, individuals involved in physical activity, parents, and guardians in the development and coordination of efficient and responsive athletic health care delivery systems. The athletic trainer’s professional preparation is directed toward the development of specified competencies in the following domains: risk management and injury prevention, pathology of injuries and illnesses, assessment and evaluation, acute care of injury and illness, pharmacology, therapeutic modalities, therapeutic exercise, general medical conditions and disabilities, nutritional aspects of injury and illness, psychosocial intervention and referral, health care administration, professional development and responsibilities. Through a combination of formal classroom instruction and clinical experience, the athletic trainer is prepared to apply a wide variety of specific health care skills and knowledge within each of the domains. For additional information, contact the Department of Health and Kinesiology, College of Health and Human Sciences, 2115 Hollis Building, (912) 681-0200.

The BSN Program is a participant in the Georgia RN-BSN Articulation Model for registered nurses returning for the BSN or Bachelor of Science in Nursing degree. After successful completion of 6 hours of specified junior level nursing courses, RN students will be awarded 29 credit hours in the nursing major. The following courses are specifically designed to meet the needs of the RN: NURS 3139, NURS 4133, NURS 4738, and are taken instead of NURS 3129, NURS 4136/4326, and NURS 4728. Through the LPN-BSN Program, LPN students may be eligible to earn up to 9 credit hours by proficiency examination.

ADVICE: Pre-Nursing majors are advised in the College of Health and Human Sciences Studies Student Services Center, Hollis Building, Room 0107, (912) 871-1931. Nursing majors (BSN and LPN-BSN students) are advised in the School of Nursing, BSN Office, Nursing/Chemistry Building, Room 2002, (912) 681-5242. RN-BSN and RN-MSN students are advised in the School of Nursing, RN-BSN Office, Nursing/Chemistry Building, Room 2002, (912) 681-5994.

(continued on next page)
PROGRAM ADMISSION CRITERIA:
BSN Program applicants must meet the University entrance requirements as described in the University Catalog. All applicants must apply for admission to both the University and the School of Nursing. Once admitted to the University, students should contact the Student Services Center or the School of Nursing for advisement. Requirements for admission into the School of Nursing are based on requirements in place at the time of application to the BSN Program. In order to be considered for admission to the BSN Program, prelicensure applicants must have met the following requirements:

1. Attained admission to Georgia Southern University;
2. Achieved a minimum cumulative grade point average of 3.0 or better on all attempted hours in the Core Curriculum in Areas A-F. Those students who hold a B.A. or B.S. degree must have a cumulative GPA of 3.0 for all course work.
3. Completed a minimum of 45 semester credit hours of required course work with a minimum grade of “C”;
4. Completed 12 hours of the 20 hours of required lab science course work, including 4 hours in Area F with a minimum grade of “C”;
5. Achieved a minimum score equivalent to or higher than the national passing composite score on the Nurse Entrance Test (NET). The NET test scores must be submitted with the nursing application. Scores submitted for the NET Exam must reflect a test date no more than 12 months prior to application to the nursing program. (Contact the School of Nursing for test dates, locations, and applicable fees)
6. Returned the nursing application to the School of Nursing by the announced deadline;
7. For transfer students: Requested official transcript(s) for all college work attempted and assured that the transcripts have been received in the Admissions Office by the announced deadline.

Applicants must have met the following requirements before enrollment in NURS 3131:
1. Maintained a minimum cumulative GPA of 3.0
2. Earned a minimum grade of “C” in Area A courses, Lab Sciences, Statistics, Anatomy and Physiology I and II with Labs, Lifespan Human Growth and Development, and Microbiology. Note: The student’s record of achievement in science and math courses will be an important consideration in the admission process.
3. Met School of Nursing clinical course requirements, including: (a) health history and physical examination; (b) essential performance standards for nursing practice; (c) immunization requirements including measles, rubella, and hepatitis B; (d) tuberculosis screening; (e) current American Heart Association CPR for Health Care Providers’ certification; (f) health professions student liability insurance; and (g) personal health insurance.
4. Participated in a School of Nursing orientation session.
5. For applicants holding a current valid health profession’s license (e.g., LPN, EMT, RT, RD), provided faculty with visualization of the license.

RN applicants (RN-BSN and RN-MSN):
To be considered for admission to the Bachelor of Science in Nursing degree program, RN applicants must have met the following minimum requirements by the application deadline:
1. Attained admission to Georgia Southern University.
2. Achieved a minimum total institution GPA of 3.0 on all course work attempted or a minimum of 2.7 for provisional admission (see School of Nursing Student Handbook).
3. Completed a minimum of 45 semester hours of required course work.
4. Provided faculty with visualization of current Georgia RN license.
5. Returned the nursing application to the School of Nursing.
6. Met the requirements of the Georgia RN-BSN Articulation Model.

RN applicants must have met the following requirements before enrollment in the first nursing course:
1. Provided faculty with visualization of a current valid Georgia Registered Nurse license.
2. Met School of Nursing clinical requirements including: (a) health history and physical examination; (b) immunization requirements including measles, rubella, and hepatitis B (see School of Nursing Student Handbook for specific details); (c) tuberculosis screening; (d) current American Heart Association CPR for Healthcare Provider certification; (e) professional liability insurance, and (f) proof of personal health insurance.

Progression Requirements
1. BSN students must earn a minimum grade of “C” in all required nursing courses in the major in order to progress in the nursing program.
2. Students who earn a grade of “D” or less in a clinical (practicum) course may not continue in any subsequent or concurrent clinical course during the same semester until their academic and clinical performance is individually reviewed by the School of Nursing Student Affairs Committee and the course faculty. Based on this review, a determination will be made regarding the students progression in a subsequent clinical course during the same semester. A student who is not allowed to progress to a subsequent or concurrent clinical course during the same semester will be administratively withdrawn from the subsequent or concurrent clinical course during the same semester.
3. A student who earns a “D” or an “F” in a required nursing course and wishes to continue in the major must write a letter directed to the BSN Director requesting permission to continue in the nursing major. Students should submit the letter a minimum of one week prior to the anticipated date of reentry to the program. Requests to repeat a course are considered by the School of Nursing Undergraduate Student Affairs Committee on an individual basis and the student is notified in writing of the decision of the Committee. If approval is granted, the student may repeat the course at its next offering pending space availability.
4. Students given permission to repeat a required nursing course will be expected to complete a supplemental study program to remediate any areas of deficit identified by the student’s prior performance in the course. Approval for repeating a required nursing course and for progression in the nursing program is dependent on the reasons for unsuccessful performance in the course. Denial of a request to repeat a required nursing course will result in the dismissal of the student from the nursing program. The student will be notified in writing of the faculty’s decision.
5. Students who are unsuccessful in a second required nursing course must complete the following activities:
   a. Attend a Diagnostic and Learning Prescription Conference in the School of Nursing. Conference participants will include: the student, the course faculty, the student’s faculty advisor, and the BSN Program Director. A learning prescription addressing the needs of the student will be generated at the conference.

(continued on next page)
b. Successfully complete the learning prescription developed at the Diagnostic and Learning Prescription Conference during the next semester of enrollment.

6. A nursing student may repeat a required nursing course only one time. In addition, a student may repeat a maximum of two required nursing courses.

7. Dismissal from the nursing major does not affect the ability of the student to progress in the University in another major.

8. Strict adherence to the American Nurses’ Association Standards of Clinical Practice and the Code for Nurses is required of all nursing students. Additionally, nursing students who are Registered Nurses are held accountable to the Georgia Nurse Practice Act for Registered Nurses. Failure to comply with these professional standards will result in review and action by the School of Nursing faculty and could result in the student’s dismissal from the nursing program.

OTHER PROGRAM REQUIREMENTS:
Students are responsible for:

• Transportation for off-campus practicums and field trips.
• The purchase of uniforms, white shoes, stethoscope, and sphygmomanometer.
• Maintaining personal health and accident insurance coverage and professional liability insurance.
• Fees for selected achievement tests during junior and senior years.
• Additional expenses which may include the cost of a nursing pin, academic regalia rental, and state board licensing examinations fees.

For additional information, contact the BSN Program secretary, School of Nursing, Nursing/Chemistry Building, Room 2002, (912) 681-5242. RN students wishing to pursue the BSN degree (RN-BSN and RN-MSN students) should contact the RN-BSN Secretary, Nursing/Chemistry Building, Room 2002, (912) 681-5994.

The School of Nursing Programs are accredited by the Commission on Collegiate Nursing Education and approved by the Georgia Board of Nursing.

The College of Information Technology at Georgia Southern University started operations on July 1, 2003. At the undergraduate level, we administer the Bachelor of Science degree programs in computer science and information technology and are responsible for delivering the BBA in Information Systems for the College of Business Administration (COBA). In addition, we offer minors in Information Systems/Information Technology and Computer Science. At the graduate level, we deliver courses for the Master of Science in Mathematics with the Computer Science concentration, the Master of Business Administration with the Information Systems concentration, and the Master of Technology/Information Technology Option degrees. The business administration degree programs are accredited by the AACSB International B, the Association to Advance Collegiate Schools of Business, and the computer science and information technology degrees are accredited by the Computing Accreditation Commission of ABET.

PROGRAMS: UNDERGRADUATE
Computer Science
When introduced in 1983, the main emphasis was to provide a solid foundation in algorithm design and implementation based upon a strong background in mathematics. Since that time we have expanded our offerings to include more theoretical-based computer science courses while retaining the original objective. We also have strengthened the program with “core” courses in computer science that reflect a broader emphasis and a greater variety of electives.

The main objective of our program is to provide a quality undergraduate program for those students that enroll in the B. S. in Computer Science major at Georgia Southern University. This involves providing a solid foundation in the design, implementation, and application of computer software systems, a thorough understanding of the theoretical concepts underlying computer science, a functional background in computer hardware systems, and a solid understanding of mathematics.

Objectives: Each graduate of the program should:
• Understand the concepts that underlie computer science;
• Have a foundation in the design, implementation, integration and testing of software systems;
• Have experience with computer hardware systems;
• Have communication and interaction skills necessary for teamwork;
• Have experience with practical and applied information technology;
• Understand their professional and ethical responsibilities.

Information Systems
The Information Systems (IS) degree program combines knowledge of leading edge information technologies with an understanding of the ever-changing needs of today’s dynamic business environment. As such, it attracts students who are interested in working with technology to find solutions to business problems. While a fundamental understanding of information technology is a cornerstone of the degree, an equally important and distinguishing element of the IS degree is a solid foundation in the basic business functions. Students may choose to major in general Information Systems or in one of seven emphasis areas, namely Accounting Information Systems, Business Intelligence, Electronic Commerce, Enterprise Security, Enterprise Resource Planning Systems, Logistics Information Systems, or Technology Entrepreneurship

Objectives: Each graduate of the program should display:
• An ability to apply knowledge of computing and mathematics appropriate to the discipline.
• An ability to analyze a problem, and identify and define the business and system requirements appropriate to its solution.
• An ability to design, implement, and evaluate a computer-based information system, process, component, or program to meet desired goals.
• An ability to function effectively on teams to accomplish a common goal.
• An understanding of professional, ethical, and social responsibilities.
• An ability to communicate effectively with a range of audiences.
• An ability to analyze the impact of computing on individuals, organizations, and society, including ethical, legal, security, and global policy issues.
• Recognition of the need for, and an ability to engage in, continuing professional development.
• An ability to use current techniques, skills, and tools necessary for computing practice.
• An understanding of processes that support the delivery and management of information systems within a specific application environment.
• An ability to identify and analyze organizational needs and take them into account in the selection, creation, evaluation, and administration of computer-based information systems.
• An ability to assist in the creation of an effective project plan.

Information Technology
IT professionals focus on meeting the needs of users within an organizational and societal context through the selection, creation, application, integration and administration of computing technologies. They must, therefore, have a good understanding of the various information technologies and the type of activity the organization is involved in. The BS IT prepares students for careers as IT professionals. Students are required to complete eleven core courses, an internship experience, an IT specialization area, and a six course second discipline.
The Department of Information Technology promotes Information Technology as a profession and as an academic discipline. To pursue this mission, we provide world-class educational programs to prepare students for a range of careers or graduate study in the field of Information Technology, conduct innovative research in all aspects of Information Technology and its applications, and participate in consulting and economic development activities in support of the Mission of Georgia Southern University.

Objectives: Each graduate of the program should be able to:
- Demonstrate expertise in the core information technologies;
- Demonstrate sufficient understanding of an application domain to be able to develop IT applications suitable for that application domain;
- Identify and define the requirements that must be satisfied to address the problems or opportunities faced by an organization or individual;
- Design effective and usable IT-based solutions and integrate them into the user environment;
- Demonstrate an understanding of best practices and standards and their application to the user environment;
- Identify and evaluate current and emerging technologies and assess their applicability to address individual and organizational needs;
- Create and implement effective project plans for IT-based systems;
- Work effectively in project teams to develop and/or implement IT-based solutions;
- Communicate effectively and efficiently with clients, user and peers, both orally and in writing;
- Demonstrate independent critical thinking and problem solving skills;
- Demonstrate an understanding of the impact of technology on individuals, organizations and society, including ethical, legal and policy issues;
- Demonstrate an understanding of the need for continued learning throughout their career.

ADVISEMENT
Undergraduate
Academic advisement for Computer Sciences and Information Technology students is conducted through the College of Information Technology Office of Student Services
Location: Room 1208, College of Information Technology Telephone: (912) 486-7667
Advisement for students enrolled in the BBA Information Systems is provided through the College of Business Administration Office of Student Services.
Location: Room 1100, College of Business Administration Telephone: (912) 681-0085

Graduate
Academic advisement for Master of Business Administration students occurs in the Graduate Studies Office in the College of Business Administration.
Location: Room 1133, College of Business Administration Telephone: (912) 681-5767

The Department of Computer Sciences offers a M.S. degree jointly with the Department of Mathematics. The options are listed in the Jack N. Averitt College of Graduate Studies section of the catalog.

EXPERIENTIAL LEARNING OPPORTUNITIES
Internships
Internship opportunities are available for all undergraduate programs in the College of Information Technology and are required for students majoring in Information Technology. Internships are supervised work-study programs, designed to allow students an opportunity to receive practical experience in their chosen field of study. Students should consult with the College of Information Technology Office of Student Services for further information.

Cooperative Education
Co-ops allow students the opportunity to gain work experience related to their academic major while earning a salary. To participate in a cooperative education opportunity, a student must have completed at least 30 semester hours of instruction, have a grade point average of at least 2.5, and be willing to participate in a minimum of two alternating co-op work semesters. Work responsibilities and salaries are determined by the employer. Co-op students register for the designated Cooperative Education section. This is a non-credit course.

MISSION
The College of Liberal Arts and Social Sciences (CLASS) is the heart of Georgia Southern University. CLASS provides a central place within the university to investigate, ponder, and express creatively what is truly human. Committed to excellence, innovation, and the pursuit of knowledge, the primary goal of the College is to foster a dedication to investigation and creativity within liberal arts and social science disciplines. The departments encourage students to analyze the historical, cultural, philosophical, and technological foundations of their disciplines.

The College of Liberal Arts and Social Sciences, in a supportive learning environment committed to undergraduate and graduate research, offers the fruits of artistic, creative, and thoughtful expression. The humanities, social sciences, and fine arts engage students in the challenge of interpreting and understanding the human experience, especially in a global context.

The intellectual core of the campus, CLASS nurtures excellence by improving the quality of life for present and future generations. Our graduates are empowered to be exemplary members of their local communities and the world.

PROGRAMS: UNDERGRADUATE
Bachelor of Arts (B.A.)
General requirements:
• Fulfillment of the core curriculum (including Area F courses which are specific to the individual major) as well as two (2) hours of physical education, two (2) hours of health, and one (1) orientation course.
• Completion of the 2002 level course of a foreign language or equivalent.
• Completion of a minimum of 21 hours in the major field with half of those hours in residence (only 30 hours of upper division course work in the major may count toward the minimum of 125 hours for graduation).
• Completion of a minimum of 15 hours in a minor field with at least nine (9) hours in the upper division. Second minors may be chosen but must be approved by the advisor before the student applies for graduation; both minors will be listed on the transcript.
• Student must attain a minimum 2.0 total institution GPA in upper division hours in the major discipline.
• Completion of a minimum of 125 hours for graduation.
Departments may establish program admission criteria and additional grade requirements; these are listed along with the course requirements for each major.

The College of Liberal Arts and Social Sciences offers Bachelor of Arts Degrees in the following majors: anthropology, art history, communication arts, economics (emphasis in international economics), English, French, German, history, music, philosophy, political science, psychology, sociology, Spanish, studio art and theatre.

Minors
The minor (15 hours of courses in a single field or interdisciplinary field) for the B.A. Degree may be chosen from any department or college in the University which offers a minor. A minimum of 9 of the 15 hours must be earned at Georgia Southern University. The minor should be selected and communicated to the advisor by the beginning of the junior year. Second minors may be chosen but must be approved by the advisor before the student applies for graduation; both minors will be listed on the transcript.

Bachelor of Fine Arts (B.F.A.)
General requirements:
• Fulfillment of the Core Curriculum (including Area F courses which are specific to the individual major) as well as two (2) hours of physical education, two (2) hours of health, and one (1) hour of orientation.
• Completion of three (3) hours of electives.
• Completion of a minimum of 21 hours from exploratory studio art courses.
• Completion of nine (9) hours of approved art history courses.
• Completion of 27 hours from a studio concentration.
• Completion of a minimum of 125 hours for graduation.

When balancing academic work with other life events, students should be aware of the time requirements expected of them in completing coursework, including the amount of time spent in class and the minimum additional preparation time for course assignments. Based upon standards of the profession and our accrediting body, three (3) credit studio courses offered by the Betty Foy Sanders Department of Art meet for five hours per week. In addition, students are expected to complete a minimum of four (4) additional hours of work per week outside of scheduled class time for each studio course they are enrolled in.

Lecture-discussion courses require outside preparation as well and students should expect to spend three (3) hours in class and an additional two (2) hours minimum outside of scheduled class completing coursework.

The department may establish program admission criteria and additional grade requirements; these are listed along with the course requirements for each major.
Bachelor of Music (B.M.)
General requirements:
• Satisfactory entrance audition.
• Completion of the core curriculum as well as two (2) hours of physical education, two (2) hours of health, and one (1) hour of orientation.

• Completion of a minimum of 125 hours for graduation.

PROGRAMS: PRE-PROFESSIONAL

Pre-Law
There are no required majors, minors, or courses for law school. The American Bar Association does not recommend a specific major or minor, nor is there a specific major or minor which law schools prefer. Students should choose a major they will enjoy and in which they will excel, being certain to sharpen their skills in reading, speaking, researching, writing, and critical analysis.

To acquire full information about preparing for and taking the LSAT, preparing law school applications, and other concerns about seeking law school admission, contact Rebecca Davis at (912) 681-5765 or bdavis@georgiasouthern.edu or see http://class.georgiasouthern.edu/prelaw/. A pre-law office has been established in Carroll Room 2213 where students can ask questions, access resources, and acquire information.

Succeeding with CLASS
Faculty and students in the College of Liberal Arts and Social Sciences constitute a community of scholars dedicated to personal and academic excellence. Succeeding with CLASS requires dedication to the following principles:

Commitment
All members of the community understand that to succeed in classes, students must be active participants in their education while understanding and complying with each course syllabus. Students should plan on spending at least two (2) hours of study for every one-hour in class. For example, a 15-credit-hour schedule requires at least a 45-hour commitment per week. Outside preparation and class attendance alone do not guarantee success or the highest grades; rather, mastery of the material and acquisition of necessary skills determine success and grades.

Academic Integrity
All members of the community recognize the necessity of being honest with themselves and with others. The integrity of the educational experience is diminished by cheating in class, plagiarizing, lying, and employing other modes of deceit. None of these should be used as a strategy to obtain a false sense of success. The need for honest relations among all members of the community is essential.

Civility
All members of the community are expected to communicate in a civil manner in their professional interaction at all times, both in and out of the classroom. Academic discourse, including discussion and argumentation, is to be carried out in a polite, courteous, and dignified manner that is respectful of an understanding toward both peers and professors.

- Students enrolling in ART 2331 - Graphic Design I (3) beginning in Fall 2004 will be required to follow the policies/procedures and sequencing of coursework outlined in these materials.
- Portfolio Review for admission into upper division courses in Graphic Design:
  When a student has completed ART 2331 - Graphic Design I (3) and ART 2330 - Typography I (3), they will submit a portfolio of their design work for review by the design faculty. Based upon criteria outlined in the Art Department Student Handbook, faculty will identify and admit successful students into the Graphic Design concentration. A 3.0 GPA in ART 2331 - Graphic Design I (3) and ART 2330 - Typography I (3) is one requirement in passing the portfolio review. Only those students who pass the portfolio review will be able to register for upper division coursework in graphic design that requires Graphic Design I and Typography I as a prerequisite(s).
- Students who do not pass the portfolio review are encouraged to enter other concentrations in the art major more suitable to their talents. In this case, graphic design courses already taken will be counted as exploratory studio courses in their degree concentration program. Students who do not pass the portfolio review may also choose to resubmit their portfolio the following year after they further develop the quality of their work.
- All students will participate in a public presentation of their portfolio completed in Portfolio Design, held on campus or within a ten-mile radius of campus, for review by faculty and peers.

DEPARTMENT OF MUSIC MISSION STATEMENT
The Department of Music actively embraces Georgia Southern University’s primary goal of excellence in teaching. Our professional faculty places the highest priority on nurturing students through academic, applied, and ensemble course work and thoughtful advisement while remaining engaged in creative activity and scholarship. The department offers a variety of experiences with guest artists, teachers, and clinicians who provide diversity of outlook. In turn, the department’s faculty lends its expertise as guest artists, teachers, and clinicians in southeast Georgia as well as nationally and internationally.

The music curriculum for majors at both the baccalaureate and graduate levels fosters proficiency in the creation, dissemination, performance, and teaching of music, and an understanding of its analytical, historical, cultural, and philosophical foundations. Programs for music majors also emphasize the development of habits related to life-long learning, including preparation for advanced degree work, understanding the importance of continual professional development, and the necessity and ability to adapt to changing professional demands.

The department makes significant contributions to the region’s culture by offering general education courses, concerts, recitals, lectures, and clinics and by providing opportunities for non-music majors and community members to participate in music-making through a variety of ensembles. It also renders service to the University community’s athletic programs and various public relations efforts.

The department maintains a commitment to music as one of the most pervasive and powerful expressions of culture, both historically in the development of modern civilization and sociologically in the artistic expression of the diverse societies that comprise our world. Through all of its activities, the department promotes a better understanding and appreciation not only of music but of the entire world around us.

REQUIREMENTS FOR ALL MUSIC DEGREE PROGRAMS
Admission Requirements
All prospective music majors must pass an entrance audition in the appropriate applied area.

Performance Requirements
Each candidate for a music degree must complete applied music proficiency level requirements appropriate to the candidate’s specific degree plan as well as fulfill other performance requirements consistent with the degree plan or individual course objectives. The appropriate applied music teacher will assist in this area.

Enrollment in any applied music course, including Junior Recital and Senior Recital, is by permission of the instructor and/or the department chair of music.

A jury examination in the appropriate applied area will be taken during the examination week or shortly before the end of each semester. Students not majoring in music who take applied music lessons may take a jury examination upon the recommendation of the applied instructor.

Recital requirements: Prior to performing a graduation, junior or senior recital, the candidate must pass a recital approval examination no less than three weeks before the recital date.

Candidates for the B.A. degree may be invited to perform a full public recital in their senior year in their primary applied area.

Group Piano Placement/Exit Examination
A placement examination in piano is required of all transfer students. Freshman music majors with prior keyboard experience should also take the placement examination. A maximum of four hours credit of group piano is allowed toward graduation requirements. All music majors must pass the group piano exit examination.

Music Theory Placement/Exit Examinations
A placement examination in music theory is required of all transfer students. Freshman music majors will take the placement examination. Placement exam results are for advisement purposes only. Each music major must pass (70 percent or better) the music theory exit exam. No student may register for any upper-level theory course unless the theory exit exam is successfully completed.

The requirements stated above for exiting the lower-level theory sequence apply regardless of grades received in the lower level theory courses.

Departmental Grading Policy
Music majors must earn a minimum grade of “C” in each music class which applies toward graduation. Students earning less than a “C” grade in a sequential course offering may not enroll in the next course in the sequence until the course is repeated and a grade of “C” or higher is earned. In addition, students must earn a minimum grade of “C” in a prerequisite course prior to registering for an advanced course in the same subject area.

Additional Policies
See the Department of Music Handbook for additional policies governing degree programs in music.

The Department of Music is a full member of the National Association of Schools of Music.

VISION
Within this decade, the Allen E. Paulson College of Science and Technology will be recognized as a national leader in the development of innovative curricula and for its dedicated faculty who integrate distinguished scholarship with superior undergraduate and graduate education.

MISSION
The Allen E. Paulson College of Science and Technology at Georgia Southern University is a diverse community of teacher-scholars, students, alumni, and friends engaged in the discovery, application, integration, and transformation of scientific and technological knowledge. Reflecting the best practices of our disciplines, the College provides undergraduate and graduate students with a challenging education that is research-based and technology-infused, and promotes life-long learning and stewardship for the benefit of the human, natural, and technological resources of Georgia, the nation, and the world.

STRUCTURE
Department of Biology
In today’s world, studies in Biology are becoming increasingly important. Georgia Southern University’s Biology program prepares students for careers as professional biologists in a wide variety of fields. Southeast Georgia is a biologically rich and ecologically diverse area that encompasses coastline, wetlands, woodlands, and cities. Consistent with the mission of the University, the Biology Department seeks to expand horizons through outreach, preserve distinctive cultural and natural legacies, and maintain the integrity of South Georgia’s environment.

Faculty
Stephen P. Vives, Chair
Adjunct Instructor: D. H. Hurley

Department of Chemistry
The Department of Chemistry offers a well-balanced program for the education of its students. To prepare them for their professional careers, the Department is committed to providing quality teaching and research experiences emphasizing critical and independent thought. The curriculum provides strong innovative instruction in the theory and practice of the chemical sciences. It is designed to introduce students to modern laboratory methods and technology using state-of-the art scientific equipment. The faculty is committed to providing an environment that addresses the individual needs of each student and encourages them to develop their potential through life-long learning and to be responsible members of their profession and community.

Faculty
Mary K. Boyd, Chair
Professors: R. Boxer (Emeritus), M. K. Boyd, C. Colvin (Emeritus), S. T. Deal, B. W. Ponder (Emeritus), N. E. Schmidt
Assistant Professors: C. M. D. McGibony, M. Morvant, J. N. Orvis, K. Welch

Department of Geology and Geography
The Department of Geology and Geography offers a balance of teaching, research, and service to the region served by the University, and beyond. Areas of focus among geology faculty include igneous and metamorphic petrology, paleontology, sedimentology, structural geology, hydrogeology, environmental geology, and natural history of the Coastal Plain. Geography faculty interests include climatology, geomorphology, human and cultural geography, and biogeography. Both programs emphasize computer applications, including Geographic Information Science.

Faculty
Dallas D. Rhodes, Chair
Professors: G. A. Bishop (Emeritus), D. B. Good (Emeritus), S. Hanson (Emeritus), D. D. Rhodes, F. J. Rich
Adjunct Professor: C. R. Alexander, V. J. Henry
Research Scientist: M. S. Kelley

Institute of Arthropodology and Parasitology
The Institute of Arthropodology and Parasitology (IAP) is an interdepartmental organization that provides an identity to an area of exceptional research and teaching strength on campus. Members of the IAP include faculty and students from several departments including biology, geology, geography, history, and psychology. It also has three full-time scientists and support personnel. Membership in the IAP is open to any researchers with an interest in arthropods (insects, mites, ticks, spiders, crabs, and other joint-legged animals) and parasites (viruses, bacteria, fungi, protozoa, worms, etc.). Several members are especially interested in diseases of humans, livestock, wildlife, and plants. The IAP serves as a center where persons with these types of interests can interact and focus on research and applied problems. The IAP is also the home of the U.S. National Tick Collection in association with the Smithsonian Institution in Washington DC.

Faculty
James H. Oliver, Director and Callaway Professor of Biology
Professors: J. H. Oliver, J. E. Keirans

Department of Mathematical Sciences
The Department of Mathematical Sciences offers programs of study for students interested in mathematics, mathematics education or statistics. The department is dedicated to providing students with excellent instruction that incorporates innovative instructional techniques and technologies. In their roles as teacher-scholars, the faculty maintains consistent and significant
productivity, recognized at regional, national, and international levels, in basic research, applications, and pedagogy. The department is strengthened by the extensive service activities of the faculty on campus and in the community as well as through high-profile service to the profession. In addition, the department provides many areas for student involvement, including an active student organization and student competition teams.

Faculty
Martha L. Abell, Chair
Professors: M. Abell, C. Champ, J. Davenport (Emeritus), R. Mathew, Y. Hu, X. Li, A. Pierce (Emerita), J. Solomon, A. Sparks (Emeritus), D. Stone, N. Wells (Emeritus)
Associate Professors: C. Christmas (Emeritus), S. Danelin, P. Humphrey (Emeritus), C. Kariotis (Emeritus), B. Kaynakcakan, E. Lavender (Emeritus), G. Lesaja, B. McLean, S. Ngai, B. Oluveye, J. Rafter (Emeritus), S. Taylor, Y. Wu
Assistant Professors: D. Bell, R. Bogan (Emerita), J. Braselton, J. Darley, E. Hardy (Emerita), F. Jordan, S. Kersey, S. Lanier, J. Lynch (Emeritus), V. Mayneskul, F. Mynard, C. Nessmith (Emerita), M. Pararai, D. Saye, C. Sikes, P. Watkins (Emerita), R. Wells (Emerita), L. Yocco J. Zhu
Temporary Assistant Professors: J. Hawkins, G. Michalski, R. Pillner, F. Ziegler
Instructor: L. Braselton
Temporary Instructors: L. Groover, B. Lee, L. Leonitieva, M. McNamee, M. Ransom, W. Rogers, I. Smith, M. Vora, K. Youmans, J. Zhang
Part-Time Instructors: A. Schneider, D. Stapleton

Department of Military Science
The Georgia Southern University Military Science Department is charged with managing the Army’s Reserve Officer Training Corps (ROTC) program on campus. Army ROTC provides college-trained officers for the U.S. Army, the Army National Guard, and the U.S. Army Reserve. It does this through a combination of college courses in military science and summer training sessions. The Professor of Military Science at Georgia Southern also administers the programs at Armstrong Atlantic State University, Savannah State University and Savannah College of Art and Design.

Faculty
William T. Gillispie, Chair
Professor of Military Science: W. T. Gillispie
Assistant Professors: C. Jackson, S. Knable, R. Cohen
Instructor: R. Walker

Department of Physics
The mission of the Department of Physics at Georgia Southern University is four-fold. First, to provide its majors with a strong, basic undergraduate physics/astrophysics education that will serve them whether they pursue an advanced degree in physics, a career in industry or in science education. Second, to provide excellent instruction in introductory physics and astronomy to non-majors. Third, to conduct original research in physics and astronomy that is recognized at regional, national, and international levels. Fourth, to foster an interest in science in the community and the region.

Faculty
Mark Edwards, Chair and Professor
Professors: M. Payne (Emeritus), X. Wang, A. Woodrum (Emeritus), J. Zhang
Associate Professors: C. Dean, W. Grant (Emeritus), V. Hassapis (Emeritus), Clayton Heller, Li Ma, C. Mobley (Emeritus), J. Rogers (Emeritus)
Temporary Assistant Professor: V. Adedeji, D. Gatch, A. Khan, A. Kukawa
Laboratory Coordinator: F. Leach
Adjunct Instructor: T. Deal

Department of Construction Management and Civil Engineering Technology
The departmental goals are designed to give students state-of-the-art knowledge for professional career and life long development skills needed to enter the fields of construction management and civil engineering technology while meeting all the requirements to earn a Bachelor of Science degree. The mission of this department is “Teaching First”. Students will find open doors to a dedicated and diverse faculty who are well-educated yet grounded in the practical aspects of “real world” architecture, engineering and contracting.

Faculty
Associate Professors: N. Das, J. Grubert
Assistant Professors: F. Atuahene, I. Basha, D. Slater
Adjunct Professor: B. Boone, R. DeLaar, B. Lane, H. Barber

Department of Mechanical and Electrical Engineering Technology
The Department of Mechanical and Electrical Engineering Technology focuses on offering students a hands-on educational experience in a variety of technical and industrial disciplines including: Electrical Engineering Technology, Mechanical Engineering Technology, Graphic Communications Management, Industrial Management, and through the Engineering Studies program, an opportunity to complete the first two years of an engineering degree from Georgia Tech through either the Regents Engineering Transfer Program (RETP) or the Georgia Tech Regional Engineering Program (GTREP). The Master of Technology degree provides a master’s level education in a variety of concentration options.

Faculty
Professors: D. Armel, M. Davoud, K. Hickman (Emeritus), J. Holmes (Emeritus), G. Jones, J. Karrh (Emeritus), S. Laskin (Emeritus), J. Manning (Emeritus) W. Meeks, C. Perry (Emeritus), L. Selvidge (Emeritus), P. Waldrop, J. Wallace (Emeritus), S. Williams, S. Navae
Associate Professors: G. Clark, H. Mortensen, R. Redderson (Emeritus), B. Vleck, D. Williams, G. Molina
Assistant Professors: B. Huang, A. Mitra

ADVICE
Students are assigned an academic advisor based on their proposed major and are advised in their assigned advisor’s office. The advisor approves the student’s schedule prior to registration each semester. Final responsibility for meeting degree requirements rests upon the student.

All Georgia Southern students will complete the Core Curriculum as outlined. All majors have specific mathematics and science requirements. Therefore, it is to the student’s advantage to fit these specific requirements into the Core Curriculum whenever possible. In this way, both the Core Curriculum and the requirements of the major may be met.

EXPERIENTIAL LEARNING OUTCOMES
A Cooperative Education (Co-op) Program is provided on an optional basis in all engineering studies and technology majors and in selected science and mathematics majors. The Co-op plan may be student, college, or industry initiated. Normally, students must have earned 30 semester hours of credit toward their major, have a GPA of 2.5 or better, and be willing to participate in no less than two alternating Co-op work assignments. Salaries and benefits are determined by the employer and normally increase as the program proceeds. Board and lodging are the responsibility of the student, but in many cases the employers provide assistance in locating suitable accommodations. Dormitory rooms and meal plans are available to students working near the campus.

Co-op students register for a designated Special Problems/Co-op course each semester that they are on a work assignment. Students should refer to their advisor for the appropriate course designation. Co-op students in designated majors may receive one semester hour credit each semester they are on a work assignment. An S/U grade is assigned for each work semester on the basis of the employer’s evaluation only.

No commitment is made by either the student or employer for full-time employment upon completion of the Co-op program. However, a company may offer employment upon graduation.

SECONDARY OR P-12 EDUCATION CERTIFICATION
For those interested in Secondary Education (grades 6-12) certification with a BIOLOGY degree:
Students who plan to seek teacher certification after completion of the B.A. or B.S. Biology program may achieve this through the Master of Arts in Teaching (MAT) or a non-degree certification program. To meet content requirements, the following courses must be completed as part of or in addition to your current program of study. Certification will be acquired in Science which will include the areas of biology, chemistry, earth science, and physics.

CHEM - (12)
PHYS - (12)
Earth-Space Science - (12)
The following education courses may also be taken as electives while enrolled in your bachelor’s program:
COED 2110 - PPB Practicum (1)
EDUF 2120 - Foundations of Education (2)
EDUF 2121 - Human Growth and Development (2)
ITEC 2120 - Instruction Technology (2)
SPED 2120 - Introduction to Special Education (2)
NOTE: PRAXIS I and PRAXIS II (Broad Fields Science) examination and 2.5 cumulative GPA requirements must be met for certification program admission and should be considered during enrollment in the bachelor’s program. PRAXIS exams will be replaced by new GACE exam as of September 2006.

For those interested in Secondary Education (grades 6-12) certification with a CHEMISTRY degree:
Students who plan to seek teacher certification after completion of the B.A. or B.S. Chemistry program may achieve this through the Master of Arts in Teaching (MAT) or a non-degree certification program. To meet content requirements, the following courses must be completed as part of or in addition to your current program of study. Certification will be acquired in Science which will include the areas of biology, chemistry, earth science, and physics.

BIOL - (12)
PHYS - (12)
Earth-Space Science - (12)
The following education courses may also be taken as electives while enrolled in your bachelor’s program:

For those interested in Secondary Education (grades 6-12) certification with a GEOGRAPHY degree:
Students who plan to seek teacher certification after completion of the B.A. or B.S. Geography program may achieve this through the Master of Arts in Teaching (MAT) or a non-degree certification program. To meet content requirements, complete the following courses as part of or in addition to your current program of study. It is strongly advised to acquire certification in additional social science fields (history, political science, and/or economics) for employment purposes.

Strongly advised:
HIST 4130 - Georgia History (3)
HIST - upper division (3000 and above) courses (6)
POLS 1101 - American Government (required in core Area E) (3)
POLS - upper division (3000 and above) courses (6)
ECON 2105 - Economics in a Global Society (required in core Area E) (3)
Economics or other approved Behavioral Science (6)
The following education courses may also be taken as electives while enrolled in your bachelor’s program:
COED 2110 - PPB Practicum (1)
EDUF 2120 - Foundations of Education (2)
EDUF 2121 - Human Growth and Development (2)
ITEC 2120 - Instruction Technology (2)
SPED 2120 - Introduction to Special Education (2)
NOTE: PRAXIS I and PRAXIS II examinations and 2.5 cumulative GPA requirements must be met for certification program admission and should be considered during enrollment in the bachelor’s program. PRAXIS exams will be replaced by new GACE exam as of September 2006.
For those interested in Secondary Education (grades 6-12) certification with a GEOLOGY degree:

Students who plan to seek teacher certification after completion of the B.A. or B.S. **HONORS IN CHEMISTRY**

Commencement of pursuit of Honors in Chemistry requires that a student must have a minimum GPA of 3.2 based on 45 hours of coursework and must obtain approval of the Department of Chemistry faculty.

To graduate with Honors in Chemistry, a student must:
- Complete the Bachelor of Science in Chemistry (American Chemical Society certified degree).
- Complete two upper level honors Chemistry courses with a minimum grade of “B” in each course.
- Maintain a minimum GPA of 3.0 in Chemistry.
- Complete a research project of 4 semester credits of CHEM 4890 that encompasses a minimum of 3 semesters of effort. The entire project must be under the primary direction of one faculty member.
- Complete a research thesis on a research project under the direction of a thesis committee.
- Present a departmental seminar on this project.

HONORS IN GEOLOGY

Students majoring in Geology (BS or BA) may pursue Honors in Geology. Students are required to have a minimum GPA of 3.2 after 45 hours of coursework and approval of Geology and Geography faculty to commence the Honors program.

To graduate with Honors in Geology, a student must:

- Maintain a minimum GPA of 3.5 in the major and a 3.2 in a minor.
- Complete a senior thesis (BA or BS degree) with a minimum grade of "B" in GEOL 4610. The thesis will be supervised by a Geology/Geography faculty member.
- Complete a GEOL 4120, GEOL 4820, and GEOL 4610 (3 semester research sequence) for a total of 4 hours. A minimum grade of “B” is required in GEOL 4120 to continue the research sequence.
- Present a departmental seminar on the thesis research.

NON-DEGREE          MILITARY SCIENCE            15-32 HOURS
U. S. Army Reserve Officer Training Program Overview:
The Department of Military Science is a Senior Division Reserve Officer Training Corps (ROTC) Instructor Group staffed by Army personnel. The department provides a curriculum that qualifies the college graduate for a commission as an officer in the U. S. Army, U. S. Army Reserve or the Army National Guard. Enrollment is open to all students. The ROTC program is designed to provide students with the knowledge and practical experience in leadership and management that will be useful in any facet of society. Additionally, each student is provided a working knowledge of the organization and function of the Department of Defense and the role of the U. S. Army in national security and world affairs. The ROTC program is divided into two main phases: the Basic Course, which is normally pursued during the freshman and sophomore years, and the Advanced Course, which is taken during the junior, senior or graduate years.

Basic Course Description: The Military Science Basic Course teaches the organization and roles of the U. S. Army and introduces essential background knowledge of customs and traditions, leadership, map reading, small unit organization, and marksmanship. These courses have the objective of developing the student’s leadership, confidence, self-discipline, integrity, and sense of responsibility. There is no obligation to continue in ROTC as a result of taking any Basic Course classes. Additionally, all contracted students in the Basic Course are required to participate in physical training. Physical training is conducted Monday, Wednesday and Fridays from 0600 - 0700 hours.

Basic Course Requirements:
MSCI/KINS 1510 - Mountaineering (1) and MSCI 1111 - Introduction to Military Science (1)
MSCI 2121 - Marksmanship/Basic Military Leadership (2)
MSCI 2121 - Basic Military Skills (2)
MSCI 2122 - Basic Military Tactics (2)

MSCI 2731 - Basic Military Skills Practicum (3) (registration optional) - The Leadership Training Course is offered for those students who have not met the Basic Course requirements and desire to enroll in the Advance Course program. This course is currently conducted at Fort Knox, Kentucky during the summer. Students may earn three credit hours for attending this course through registration at the Registrar’s Office upon completion of the course and coordination through the Military Science Department. Students attending this camp are paid and given travel allowance from their home to camp and back.

Advanced Course Description: The Military Science Advanced Course is taken during the junior/senior or graduate years. Students learn land navigation, communications, small unit tactics, patrolling, military management, staff operations, logistics, army administration, military law, ethics, and the Army system and culture. Additionally, students must satisfy Professional Military Education (PME) requirements with courses in the following areas: communications skills, computer literacy, and military history. Students must meet eligibility requirements and sign a contract for commissioning with the U.S. Army. The general objective of these courses is to produce junior officers who will be the future officer leadership of the U.S. Army, U.S. Army Reserve, or the Army National Guard. Contracted Advanced Course students are required to attend the Leadership Development and Assessment Course (LDAC), normally between their junior and senior academic years. This course is mandatory for all students seeking a commission in the U.S. Army but registration for university credit is optional. Students attending this camp are paid and given travel allowance from their home to camp and back. Students may earn three credit hours for attending this course through registration at the Registrar’s office upon completion of the course and coordination through the Military Science Department. Students attending this camp are paid and given travel allowance from their home to camp and back.

Advanced Course Credit ................................................................. 12-15 Hours
MSCI 3131 - Advanced Tactics and Applied Leadership I (3)
MSCI 3132 - Advanced Tactics and Applied Leadership I (3)
MSCI 4131 - Military Leadership and Management Seminar (3)
MSCI 4132 - Transition to Lieutenant (3)

MSCI 3731 - Advanced Military Skills Practicum (3) (registration optional) - This course is mandatory for all students seeking a commission in the U.S. Army but registration for university credit is optional. The ROTC Leader Development and Assessment Course (LDAC) or operation WARRIOR FORGE is the most important training event for an Army ROTC. The 32-day training event incorporates a wide range of subjects designed to develop and evaluate leadership ability. The challenges are rigorous and demanding, both mentally and physically. WARRIOR FORGE tests intelligence, common sense, ingenuity and stamina. These challenges provide a new perspective on an individual’s ability to perform exacting tasks and to make difficult decisions in demanding situations. This course is mandatory for all students wishing to seek a commission in the U.S. Army but registration is not required. Students may earn three credit hours for attending this course through registration at the Registrar’s Office upon completion of the course and coordination through the Military Science Department. Students attending this camp are paid and given travel allowance from their home to camp and back.

ADVISEMENT: Department of Military Science, Military Science Building, (912) 681-5320. Students will complete a CC 104R that will map out their college courses until graduation.

PROGRAM ADMISSION CRITERIA: All students entering the GSU Military Science courses must have a statement from a physician attesting that the student is capable of participating in physical activities. This statement must be no more than one-year old from time of entry. Students in the Basic Course can obtain this medical statement from Health Services on campus. Students interested in earning a commission in the U.S. Army and enrolling in the Advance Course require a Department of Defense Medical Evaluation Review Board physical, be an academic senior or higher, have a GPA of 2.0 or better, have an SAT score of 920 or higher or an ACT score 19, be a U.S. citizen, no moral obligations or personal conviction, satisfactorily explain any record of arrest and/or civil conviction, be a high school graduate or possess an equivalent certificate, pass the Army Physical Fitness Test and must demonstrate a potential for further leadership development. Additionally, Veterans, JROTC graduates (with at least four years of high school JROTC), and students who have completed military science courses in the military preparatory schools and junior colleges are eligible for advanced placement and are not required to participate in the Basic Course.

(continued on next page)
Participating Students Requirements (CC Pam 145-4/AR 145-1)

- Participating students are those who choose not to or are ineligible to sign the CC Form 139-R, Cadet Enrollment Record, and therefore are not enrolled cadets. They are divided into the categories below. All categories of participating students who meet the requirements set by the school authorities may take Army ROTC classes for all 4 years. Participation in other than classroom instruction is not authorized. Specific grades and grade point averages (GPA) awarded to these students for classroom work only and the policies set by the school authorities.

- ROTC participating students are students who participate in military science courses but are not fully enrolled in ROTC. They are divided into three categories: auditing students, conditional students, and alien students. Students who are ineligible or become ineligible for enrollment as an ROTC cadet may, if desired by school authorities and approved by the PMS, participate in the ROTC program in one of the above categories provided:
  1. They are not authorized access to classified instructional material.
  2. They are in good standing and attending school full time.
  3. There is no loss in effectiveness of military instruction.
  4. Such participation is not otherwise prohibited by law, DOD Directive or Army Regulation.

- ROTC participating students are ineligible for:
  1. Subsistence allowance. (See para 3–30b in CC Pam 145-4/AR 145-1.)
  2. Participation in the ROTC Scholarship Program.
  3. Commissioning credit, except immigrant alien students. Conditional students will be given credit for that part of the course successfully completed upon change to enrolled status. (See para 3–30b in CC Pam 145-4/AR 145-1.)
  4. Participation in any physical training, labs, field training exercises or any events outside the classroom. These students are also not authorized to wear the Army uniform or receive any issue of such from the ROTC Department.

- ROTC students completing the course of instruction in a non-enrolled status are ineligible for appointment as commissioned officers. Although immigrant aliens may be authorized to participate in the SROTC Program, if properly qualified, they must be advised that:
  2. Effective 1 January 1988, HQDA policy requires the possession of a SECRET security clearance, based on a National Agency Check (NAC) to be eligible for appointment.
  3. These two requirements must be met by graduation.
  4. Participants who do not meet these requirements by graduation will not be retained as a participating member of the ROTC program. (No waiver of these requirements will be granted.) Immigrant alien graduates who have otherwise fulfilled commissioning requirements may apply for direct commissioning once DOD requirements are met. Only conditional students and participating immigrant alien students may be presented a DA Form 134 (Military Training Certificate Reserve Officers’ Training Corps) after successfully completing all or part of the SROTC Program. When the student is issued the certificate it will be annotated to reflect that the certificate does not entitle the student to a commission.

- No student, except those in the alien student category, will be authorized to wear the ROTC uniform if denied enrollment into the ROTC because of failure to sign the loyalty oath.

- Applicability of academic credit and other school policies concerning participation in the ROTC program for these categories will be determined by school authorities.

- An immigrant alien who is also a member of the Reserve Components is not eligible to enroll in the advanced course or to participate in the program with this status.

(continued on next page)
Minor In Military Science Requirements

The following courses are required for a Minor in Military Science. In order for a participating student to receive a Minor in Military Science, he or she must register and complete the following courses:

- HIST 3230 - American Military History (3)
- MSCI 3131 - Advanced Tactics and Applied Leadership I (3)
- MSCI 3132 - Advanced Tactics and Applied Leadership I (3)
- MSCI 4131 - Military Leadership and Management Seminar (3)
- MSCI 4132 - Transition to Lieutenant (3)

Program Options, Obligation, Financial Assistance, Scholarships and Books, Uniforms and Supplies:

- Two Year Program Versus The Four Year Program: The ROTC program is designed as a 4-year course of study. However, students who are not eligible for advanced placement and who have not completed the Basic Course program may still become qualified for the advanced program. They must satisfactorily complete a Leader Training Course, four weeks duration, during the summer between their sophomore and junior years. Students attending this Leader Training Course at a regular army post are paid and given a travel allowance from their home to camp and return. Leader Training Course can count for 3 general credits. Students who have participated in four years of JROTC or are an Eagle Scout meet the requirements of the Basic Course.

- Obligation: Once a student is contracted, he or she will incur an eight year Military Service Obligation (MSO). The cadet may elect to serve his/her MSO either on Active Duty, the National Guard or the Army Reserves. Active duty requires a minimum of four years active duty and four years Inactive Ready Reserve (IRR). The National Guard and Reserves requires eight years drill status (one weekend a month/two weeks a year) for the entire MSO. All cadets will incur an eight-year military service obligation whether they elect to go active duty, Reserve duty or National Guard.

- Financial Assistance: All contracted cadets are paid a subsistence allowance (Stipend) of $250- $400 per month based on college standing for up to 10 months per year. This is subject to change yearly.

- Scholarship Program: Each year the U.S. Army awards two, three, and four year scholarships to outstanding young men and women contracted in the ROTC program. In most cases, the Army pays the tuition or room and board and required fees incurred by the scholarship student. The scholarship will cover up to $20,000 per year. Scholarship winners also receive an allowance for books of $900 per year. Individuals desiring to compete for two and three year scholarships should apply to the Army Military Science Department at Georgia Southern University. Some students who are enrolled in highly technical academic discipline programs and who qualify for Reserve Officers Training Corps scholarship benefits may be required to take an academic course load that will necessitate more than four academic years of study prior to graduation. It is possible to extend the Army Scholarships benefit to cover this additional period. ROTC students successfully completing the Leadership Development and Assessment Course (LDAC) may compete for civilian sponsored Scholarships awarded during their senior year. National winners receive $1500 and regional winners receive $1000. Contact the Georgia Southern University Department of Military Science at (912) 681-0040 for further information.

- Army Reserve Officer Training Corps Uniform, Books, And Supplies: Students enrolling in the Army ROTC program will be issued U.S. Army uniforms, most ROTC required books, and supplies by the Military Science Department. Uniforms and equipment must be returned before commissioning or upon disenrollment from the Reserve Officers Training Corps program.

OTHER PROGRAM REQUIREMENTS:
- At least 30 semester hours of approved upper division Engineering Technology credits must be earned at Georgia Southern.
- A minimum grade of “C” is required in each EET course which applies toward graduation.

ELECTRICAL ENGINEERING TECHNOLOGY PROGRAM EDUCATIONAL OBJECTIVES:
The working Electrical Engineering Technologist will:
1. Have a broad understanding of electrical devices and systems
2. Have a working understanding of computer systems and software
3. Be able to integrate theoretical and practical knowledge
4. Be able to communicate effectively in spoken and written form

U=Georgia Southern University Req.
B.S. Manu.  INDUSTRIAL MANAGEMENT  125 HOURS

See pages 48-49 for Core Curriculum, required of all students.  

The mission of the Industrial Management major is to supply manufacturing firms with top-quality, manufacturing management professionals.  

The basic process for accomplishing this mission involves not only teaching theory of the best manufacturing strategies and the specific area of manufacturing management, but involves teaching applications of that theory. Practical application is a focus of the major.

### Management Electives (9-11)

All courses listed as a “Management Elective” must be completed with a minimum grade of “C”. A minor can be chosen to supplement the Graphic Communications Management curriculum. Courses required for the minor may be used to complete the management elective requirements. Suggested minors are: Business, Finance, Industrial Safety and Environmental Compliance, or Information Systems. Consult the Undergraduate and Graduate Catalog for guidelines on completing a chosen minor.

ADMISSION AND COMPLETION REQUIREMENTS FOR THE GEORGIA TECH REGIONAL ENGINEERING PROGRAM (GTREP) AND THE REGENTS ENGINEERING TRANSFER PROGRAM (RETP)

Beginning freshmen

Students who apply to Georgia Southern University for either program as beginning freshmen must meet the following requirements. The prospective student must:

1. Be a resident of the State of Georgia (RETP only);
2. Have a high school grade point average (GPA) of at least 3.00 (B average);
3. Have a combined SAT score of at least 1090 (not counting the essay portion), with individual minima of 560 on the math portion and 440 on the verbal portion; or have been admitted to an engineering program at Georgia Tech (such students should supply the GSU Director of Engineering Programs with a copy of the acceptance letter from Georgia Tech);
4. Have satisfied the College Preparatory Curriculum (CPC) course work before enrolling at Georgia Southern;
5. For international students (GTREP only), have a TOEFL score of 600 (on the paper version) or a score of 250 (on the computer version).

High school graduates who do not meet the above requirements will be classified as Technology Options Program (TOP) majors.

Current Georgia Southern students and transfer students from another institution

Current Georgia Southern students are defined as those who are currently enrolled at Georgia Southern in another academic major (including the Technology Options Program). Transfer students are those who have taken a college or university course after graduating from high school from a college or university other than Georgia Southern. Such a student cannot be considered for freshman admission to be accepted into either GTREP or RETP, current Georgia Southern students and transfer students must:

1. Complete a minimum of 30 semester hours of college course work with a cumulative grade point average (GPA) of 3.00;
2. Complete MATH 1441 (Calculus I) and MATH 2242 (Calculus II) with grades of at least “B” (3.00 GPA);
3. Complete CHEM 1147 (Comprehensive General Chemistry) or CHEM 1145 (Principles of Chemistry I) and PHYS 2211/1113 (Principles of Physics I/lab) with grades of at least “B” (3.00 GPA).

Change of major and transfer students who have not met the above requirements will be classified as Technology Options Program (TOP) majors. TOP students have up to four semesters (excluding summers, if students elect to take classes during the summer term) to satisfy the exit requirements. If at any point it appears that a TOP student is not likely to meet the exit requirements, they will be assisted with the selection of a different major.

Transfer admission to Georgia Tech with junior status

Georgia Southern students who wish to apply to Georgia Tech as either a GTREP or RETP student must first satisfy the following requirements:

1. Complete a minimum of 60 semester hours, including all course work as specified in the GTREP and RETP curriculum for the student’s particular major field of engineering with a Regents cumulative grade point average of 2.70 on a 4.00 scale for Georgia residents and 3.00 for nonresidents/international students (GTREP only).
2. Complete the mathematics sequence (18 semester hours), beginning with calculus I, with a cumulative GPA of 2.70 for Georgia residents and 3.00 for nonresidents/international students (GTREP only).
3. Complete all science courses for the particular major, including the calculus-based physics sequence (8 semester hours) and CHEM 1147 (4 semester hours) with a cumulative GPA of 2.70 for Georgia residents and 3.00 for nonresidents/international students (GTREP only).
4. Complete English composition I and II and all other remaining course work for their major with a minimum grade of “C.”

Application Process

When a student is within one semester of completing the above requirements, the following application process should be followed.

1. Obtain a Georgia Tech Transfer Application for Admission from the Director of Engineering Programs at Georgia Southern.
2. Submit the completed Georgia Tech application for undergraduate admission to the Director of Engineering Programs at Georgia Southern (the application fee is waived for RETP and GTREP students). Do not send this application to Georgia Tech!
3. Request that the Registrar’s Office of any institution(s) attended other than Georgia Southern submit directly to the Georgia Tech Admissions Office an official transcript of all course work taken at that/those institution(s). The Georgia Southern transcript will be submitted to Georgia Tech by the GSU Director of Engineering Programs as part of the admissions application package.
4. Request the Georgia Southern Registrar’s Office to submit an official transcript directly to Georgia Tech after the completion of all course work at Georgia Southern.
REGENTS ENGINEERING TRANSFER PROGRAM (RETP)
In order to provide greater access for Georgia residents to an engineering degree from the Georgia Institute of Technology, the University System of Georgia Board of Regents created the Regents Engineering Transfer Program (RETP) in 1986. Since its inception, Georgia Southern University has been a leading participant in the RETP, sending more students to Georgia Tech than any other school in the program. To add, Georgia Southern students excel academically at Georgia Tech, with 89% completing the engineering degree and 38% making either the Dean’s List or Faculty Honors List there. The RETP allows prospective engineering students to take the first two years of the engineering curriculum at Georgia Southern and, upon successful completion of the first two years, transfer to Georgia Tech to complete the last two years of the engineering degree. Also, non-resident students and Georgia residents who are interested in the engineering programs at other universities may take the same course of study as the RETP students and then transfer to the school of their choice.

GEORGIA TECH REGIONAL ENGINEERING PROGRAM (GTREP)
Based in part on the success of Georgia Southern students in the RETP, Georgia Southern University and the Georgia Institute of Technology are now collaborating to offer engineering degrees in southeast Georgia. Through the GTREP, students can earn Georgia Tech degrees in either computer, electrical, mechanical or civil engineering while remaining on the Georgia Southern campus. During the freshman and sophomore years of the program, a student will enroll in core curriculum and introductory engineering courses taught by Georgia Southern faculty. After successful completion of the first two years, a student will progress to the upper division engineering courses which will be taught by Georgia Tech faculty in residence on Georgia Southern campus.

TECHNOLOGY OPTIONS PROGRAM (TOP)
The Technology Options Program (TOP) is designed for students who do not meet the initial entrance requirements for the GTREP or RETP program at Georgia Southern University. The TOP student will be permitted to take classes in mathematics, science, liberal arts, and technology that are required for their intended major within GTREP or RETP. Upon successful completion of the GTREP/RETP admission requirements, the student will be admitted into the program of his/her choice. The Technology Options Program therefore provides the opportunity for the TOP student to make up any deficiencies in their high school education prior to entering the major of their choice, thereby increasing the probability of success in that major. For further information, contact Dr. Gerald Jones, Director of Engineering Studies, Technology Building, Room 2121A, (912) 681-0539.
Pre-Natural Resources (Two-year) Transfer Program

Georgia Southern University, in cooperation with the Warnell School of Forest Resources, University of Georgia, offers a joint program of study for students interested in pursuing a degree and career in natural resources, including fisheries, wildlife, soil and water resources, environmental assessment, or forestry. Students selecting pre-natural resources follow a prescribed curriculum, depending on the intended major, at Georgia Southern University during the freshman and sophomore years. This curriculum prepares students for transfer to the Warnell School of Forest Resources to complete a Bachelor of Science in Forest Resources (BSFR). A limited number of students are accepted into the forest resources program. Students seeking admission to the University of Georgia Warnell School of Forest Resources must complete an application which is separate from the University of Georgia admission application. Application for Fall Semester admission should be submitted by March 1st, and for Spring Semester submitted by October 1st.

Application and scholarship forms may be obtained from the Undergraduate Coordinator, School of Forest Resources. For complete admission information contact the Office of Student Services, Warnell School of Forest Resources, UGA, Athens, GA, 30602, phone: (706) 542-1456; fax: (706) 542-8356; URL: http://www.uga.edu/wsfr/; e-mail: undergradinfo@forestry.uga.edu. The advisor for the pre-forestry program at Georgia Southern University is: Dr. Lissa M. Leege, Department of Biology, Georgia Southern University, Statesboro, GA 30460-8042, phone: (912) 681-0800; fax: (912) 681-0845; e-mail: leege@georgiasouthern.edu.

Pre-Medicine, Pre-Dentistry, and Para-Medical Pre-Professional Programs

Students intending to prepare for medicine, dentistry, medical technology and other para-medical fields should conform to the course of study covering their respective pre-professional requirements as prescribed in the catalogs of the institutions in which they plan later to enroll. The following programs are suggestive only; program details should be worked out with the assistance of the appropriate faculty advisor considering the student’s personal plans. Students planning to complete the medical technology program are currently advised in the College of Health and Human Sciences Services Center. These students complete the program described later in this catalog.

Students interested in Pre-Pharmacy typically do not complete a Bachelor’s Degree program at Georgia Southern University, but take courses appropriate for admission to professional schools. Students interested in Pre-Optometry typically complete a Bachelor’s Degree program, but some may complete all of the course requirements in three years. For students in each of these areas, the university provides advisors who assist them in planning their schedules. These advisors are:

Pre-Pharmacy Ms. Jessica Orvis and Dr. Allison Dobson
Department of Chemistry
Pre-Optometry Dr. John Parrish
Department of Biology

Pre-Pharmacy (Two-year)
Pre-Pharmacy Transfer Program

Georgia Southern University offers a two-year program in Pre-Pharmacy. Students wanting to complete a degree in pharmacy in the minimum pre-professional time should plan on transferring to a school of pharmacy no later than summer following their sophomore year and should begin the transfer application process after the first year of undergraduate study. Some students, however, may apply for admission to a pharmacy program at a later stage, such as following the completion of an undergraduate degree, provided they have met the admission requirements. An additional four years in pharmacy school results in the Professional Pharm. D. Degree.

Registration in the Pre-Pharmacy program does not guarantee admission to the professional phases of a school of pharmacy. Enrollment in the professional phase is limited, and the student will be accepted in accord with academic standing, aptitude for career in pharmacy, and PCAT (pharmacy college admission test) scores. The PCAT should be taken at least one year prior to enrollment in pharmacy school. Because enrollment in pharmacy school is competitive, a GPA of 2.5 is required to enter or stay in the Pre-Pharmacy program.

The state of Georgia has three schools of Pharmacy – The University of Georgia College of Pharmacy, Mercer Southern School of Pharmacy, and South University School of Pharmacy. The courses required in the Pre-Pharmacy curriculum differ slightly, therefore the pre-pharmacy student should observe the differences in the three curricula outlined below to insure that all courses required for application and transfer to the school of choice have been completed.

Pre-Optometry
The requirements for admission into the various optometry schools and colleges are not identical. Contact the Pre-Optometry advisor, Dr. John W. Parrish, for the specific requirements of each school. Typically, the requirements include courses in Biology, Calculus, Chemistry, English, Physics, Psychology, and the Social Sciences. The Pre-Optometry course requirements represent a minimum of three academic years of study. However, students are encouraged to obtain a four year degree prior to application for optometry school.

Direct individual inquiries are invited by the American Optometric Association, Department of Public Affairs, 243 N. Lindbergh Blvd., St. Louis, Missouri 63141 (Telephone (314) 991-4100). Also see website [http://www.opted.org](http://www.opted.org).
Pre-Medicine, Pre-Dentistry and Pre-Veterinary

Students intending to prepare for Medicine, Dentistry, or Veterinary Medicine must select a course of study leading to a Bachelor’s Degree in an academic area. Any major may be selected as long as the student is careful to complete courses required by the professional schools as well as those required for completion of the student’s Bachelor Degree program. Students must be advised by an academic advisor in their major area.

These Advisors Are:

Pre-Medical/Pre-Dental Program

There is no major in “Pre-Medicine” or Pre-Dentistry. Students desiring to go to medical or dental school should pursue courses of study leading to a Bachelor Degree in academic areas chosen according to their interests and aptitudes. Students with majors other than Biology, Chemistry, or Physics should be advised by Dr. Todd Deal in addition to the academic advisor in the chosen major. Students must be careful to complete courses required for acceptance into medical school as well as those courses required for their degrees. The most complete, up-to-date information on the Pre-Medical/Pre-Dental program is available on the web at http://www.georgiasouthern.edu/~sideal/PreProfSite/preprofindex.htm.

Freshman Pre-Medical/Pre-Dental Students:

During their first two semesters, in addition to one course appropriate for the chosen major, beginning freshmen should take BIOL 2131/2111 and CHEM 1145, 1146; and the appropriate math course(s). While earning their degree students should take math courses through MATH 1441.

Medical College Admissions Test (MCAT):

Scores on the MCAT are required by almost all medical schools. Currently, the test is given in April and in August. It is recommended that the test be taken in April prior to the time the application is submitted and approximately a year and a half before matriculation at the medical school. In order to be prepared to study for the exam, students planning to take the MCAT in April should complete two years of Chemistry, one year of Physics and at least one year of Biology by that April. Students planning to take the MCAT in August should complete two years of Chemistry, one year of Physics and at least one year of Biology by the end of spring semester preceding that August. These dates normally fall in year three. Students who do not complete the above courses on time should be prepared to have their time of entrance into medical school delayed accordingly. Students are typically better prepared for the MCAT if they elect to take calculus-based Physics rather than the other series of Physics courses. At least one semester of biochemistry and one semester of genetics is strongly recommended to be better prepared for the MCAT. The attainment of competitive scores on the MCAT requires an extended period of intensive study. Students are advised to obtain appropriate study materials and to study seriously and diligently over a period of several months. They are also advised to take advantage of preparatory courses designed to tutor the student for the MCAT. Georgia Southern offers an institutional course of this type through the Division of Continuing Education.

Dental Admissions Test (DAT):

Scores on the DAT are required by almost all dental schools. The test is administered by testing centers and is a computer-based test. It is recommended that the test be taken in May/June to the time the application is submitted and approximately a year and a half before matriculation at the dental school. In order to be prepared to study for the exam, students planning to take the DAT should complete two years of Chemistry and at least one year of Biology by the spring of year three of their college careers. Students who do not complete the above courses on time should be prepared to have their time of entrance into dental school delayed accordingly. At least one semester of biochemistry and one semester of genetics is strongly recommended to be better prepared for the DAT. The attainment of competitive scores on the DAT requires an extended period of intensive study. Students are advised to obtain appropriate study materials and to study seriously and diligently over a period of several months. They are also advised to take advantage of preparatory courses designed to tutor the student for the DAT. Georgia Southern offers an institutional course of this type through the Division of Continuing Education.

Application Procedures for Medical and Dental Schools:

For most schools, deadlines for application are during the fall preceding the year of entry into the school. Early application is recommended. It is the responsibility of the student to secure the proper application materials and to meet all deadlines. Requests for college transcripts to be sent as part of the application should be made sufficiently early in order for official transcripts to arrive before the deadline(s).
The Medical/Dental Admissions Review Board:

Letters of recommendation for Pre-Dental and Pre-Medical students are prepared by the Medical/Dental Admissions Review Board, as required by most medical/dental schools as part of the secondary application. Letters will be written only for those students who have been interviewed by the board and under no circumstances will letters be written for students by individual members of the board. Students desiring letters should contact Dr. Todd Deal, Department of Chemistry, to arrange for an interview with the board. Interviews normally are held during fall semester. Competition for admission to the schools is such that favorable letters can be written only for those students who have achieved adequate GPAs and test scores. Pre-Dental students requesting an interview must have at least a 2.8 cumulative GPA and an average score of 15 on each section of the DAT. Pre-Medical students requesting interviews must have at least a 3.0 cumulative GPA and a total of at least 20 points on the MCAT. Students who do not meet these requirements and who think that there are extenuating circumstances should make this known, in writing, to Dr. Deal. Subsequently, the board will make a decision regarding the eligibility of the student for an interview. Students anticipating participation in early decision programs should advise Dr. Deal of their intentions and must request interviews at the beginning of fall semester. Only form letters of reference will be sent from the board for any student who was not interviewed, but who has requested a letter. The above are minimum criteria for consideration for recommendation by the board and do not ensure acceptance into the respective schools.

CHEM 1146 - Principles of Chemistry II (4)
CHEM 3341 - Organic Chemistry I (4)
CHEM 3342 - Organic Chemistry II (4)
(CHEM 5541 - Biochemistry (4) is strongly recommended)

Required:

MATH 1112 - Trigonometry (3), if necessary
MATH 1441 - Calculus I (4)
(MATH 2242 - Calculus II (4) Recommended)

PHYS 2211 - Principles of Physics I (3) and PHYS 1113 - Physics Lab I (1) and PHYS 2212 - Principles of Physics II (3) and PHYS 1114 - Physics Lab II (1)

*These courses are required for Biology majors only. Because they will have a very limited number of Biology courses, students not majoring in Biology should consult with their advisor to choose the most appropriate Biology courses.

Pre-Veterinary Medicine

Students interested in pursuing studies leading to the Doctor of Veterinary Medicine (DVM) must select a course of study leading to a Bachelor’s Degree in an academic area. This curriculum is designed to qualify students for admission into a College of Veterinary Medicine. An essential component of a student’s preparation for veterinary college is practical experience working with animals, preferably gained by working with a practicing veterinarian. Dr. William Irby and Dr. Oscar Pung, Department of Biology, and Dr. Todd Deal and Dr. Jeff Orvis, Department of Chemistry, serve as advisors to students in this program.

BIOL 2131 - Cellular Biology (3) and BIOL 2111 - Cellular Biology Lab (1)
BIOL 3132 - Biology of Organisms (3) and BIOL 3112 - Biology of Organisms Lab (1)

Vision
The Jiann-Ping Hsu College of Public Health at Georgia Southern University seeks to be nationally recognized for its leadership in addressing the multi-dimensional health problems facing rural and underserved populations in Georgia and throughout the region.

Mission
The mission of the Jiann-Ping Hsu College of Public Health at Georgia Southern University is to provide public health education, research, and community service that will positively impact the quality of life and reduce health disparities among rural and underserved populations.

Public Health
Health is defined as “...a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity.” (Preamble to the Constitution of the World Health Organization, 1946) Public health is defined as the art and science of promoting health, preventing disease, and prolonging life among human populations, and the broad mission of public health is to enhance human health through organized community efforts (Council on Education for Public Health, 1978). The Institute of Medicine further defined the role of public health as “...the fulfillment of society’s interest in assuring the conditions in which people can be healthy.” (1988) Moreover, this report unveiled the three core functions of public health: assessment, policy development, and assurance. Public health activities focus on improving the health of whole communities - “healthy people in healthy communities” (Healthy People 2010).

Public health is a diverse and ever-expanding field of practice; it embraces an ecological approach that recognizes the interactions and relationships among multiple determinants of health. It involves: the dissemination of reliable information for policy decisions; identifying systemic inequalities and problems; protecting the public’s health and safety through education and research; and fostering partnerships with individuals, communities, and organizations to promote health.

As stated, public health involves the knowledge and application of many disciplines in its research, teaching, service, and practice activities. The following have been identified as fundamental, core areas to the practice of public health (CEPH Accreditation Criteria, 2005):

- Biostatistics - collection, storage, retrieval, analysis and interpretation of health data; design and analysis of health-related surveys and experiments; and concepts and practice of statistical data analysis;
- Environmental health sciences - environmental factors including biological, physical and chemical factors that affect the health of a community;
- Epidemiology - distributions and determinants of disease, disabilities and death in human populations; the characteristics and dynamics of human populations; and the natural history of disease and the biologic basis of health;
- Health services administration - planning, organization, administration, management, evaluation and policy analysis of health and public health programs; and
- Community health education/social and behavioral sciences - concepts and methods of social and behavioral sciences relevant to the identification and solution of public health problems.

The teaching, research, and service activities of the Jiann-Ping Hsu College of Public Health are grounded in these core public health knowledge areas.

Public health is a population-based science concerned with protecting the health of communities, both small and large. Public health professionals focus on preventing problems from happening or re-occurring through implementing educational programs, developing policies, administering services, and conducting research, in contrast to clinical health professionals (e.g., physicians and nurses) who focus primarily on treating individuals after they become sick or injured. No matter what form public health assumes, its goal is always the same: improve the quality of life of individuals, families, and communities by focusing on health promotion and disease prevention.

This preventive model encompasses three core functions: a) assessing and monitoring the health of communities and at-risk populations to identify health problems and establish priorities; b) formulating public policies, in collaboration with community and government leaders, designed to prioritize and solve local and national health problems; and c) assuring that all populations have access to appropriate and cost-effective health care, including health promotion and disease prevention services, and evaluation of the effectiveness of the care.

Goals
The Jiann-Ping Hsu College of Public Health is committed to the pursuit of excellence in each of the following areas:

- Instruction…
  We seek to offer our students a wide range of instructional experiences that model teaching excellence in the five core areas of public health and to provide the professional and academic leadership that will improve quality of life and reduce health disparities among rural and underserved populations of the state and region.
- Research…
  We seek to foster excellence in public health research with an emphasis on the development of health knowledge that will improve quality of life and reduce health disparities among rural and underserved populations of the state and region.
- Community Service…
  We seek to foster excellence in public health community outreach, practice, and service that will improve the quality of life and reduce health disparities among the rural and underserved populations of the state and region.
- Organization…
  We seek to develop a Council on Education for Public Health (CEPH) accredited College of Public Health that effectively supports its programs, practices, and policies.

Guiding Principles And Values
- Passion - We are passionate about improving the health of rural communities through helping individuals live healthier.
- Excellence - We strive to excel in education, research, and community-based service.
- Integrity - We are committed to uphold the highest ethical standards in all realms of society.
- Collaboration - We strongly believe that a collaborative approach to problem-solving is mutually beneficial.
- Discovery - We promote a scholarly environment that embraces the value of scientific inquiry, scholarship, and tenets of life-long learning.
- Respect - We hold the utmost respect for all cultures, races, and ethnicities and believe that our differences serve to strengthen our efforts to improve health status.
• Accountability - We are committed to accepting responsibility for our progress toward achieving our vision and mission through an evidence-based approach.
• Community Commitment - We believe the key to improving quality of life and reducing health disparities is directly related to a proactive and concerted effort to network with communities in rural and underserved areas.

STRUCTURE
The Jiann-Ping Hsu College of Public Health was established January 1, 2006. The establishment of the JPHCOPH was made possible by a generous gift from Dr. Karl E. Peace, in memory and honor of his wife, Dr. Jiann-Ping Hsu. At this point in our development our structure is horizontal in design, with a dean, faculty, staff, and students.

EXPERIENTIAL LEARNING OPPORTUNITIES
All M.P.H. students are required to take a public health practicum and a capstone research project. The practicum permits the student to receive practical experience in a selected health-related setting. Twelve contact hours per week are required in the practicum. The Capstone Research Project requires the completion of an independent research project in the preferred field requiring a defense of the design, methods, analysis, and interpretation of the data. This is typically completed in conjunction with the practicum.

M.H.S.A. students are required to complete a Managerial Residency or a Thesis. The residency permits the student to receive practical experience in a selected health-related setting. Forty contact hours per week are required for the residency. The thesis option requires completion of an independent research project requiring the defense of the design, methods, analysis and interpretation of the data.

MISSION
In line with The University System of Georgia’s Administrative Committee on Graduate Work (ACOGW) mission for graduate education, the purpose of the COGS is to contribute to the educational, cultural, economic, and social advancement of Georgia by providing excellent masters, professional, and doctoral degrees, by pursuing leading-edge research, scholarly inquiry and creative endeavors; and by functioning as a cultural resource for the surrounding community. We are committed to bring the University’s intellectual resources to bear on the needs of business, the general economic and social development of the state, and the continuing education of its citizens. Recognizing our responsibility to the citizens of the State of Georgia, we will fully cooperate in such a way that the breadth of our graduate programs meets the needs of the state, nation and world. Based upon this mission, the COGS seeks to accomplish the following goals:

• To ensure that all graduate students will be educated by faculty who are at the forefront of teaching and research in their disciplines.
• To prepare students for leadership in a global society.
• To prepare students to communicate and apply knowledge in ways useful to society.
• To educe students to venture beyond existing boundaries of knowledge.
• To offer programs which are sensitive and responsive to the cultural diversity of the state and the nation.
• To ensure that individual units will cooperate at all levels to ensure the quality of graduate education.
• To ensure that qualified Georgians will have access to graduate education opportunities regardless of their financial resources.
• To identify pre-college and undergraduate students with high academic potential and encourage them to pursue graduate study.

Preservation and improvement in the quality of graduate programs is dependent upon the quality and quantity of scholarship and research by faculty and students. Therefore, research services and graduate education are closely affiliated. In addition to contributing to faculty research through coursework, discussions, and assistantships, graduate students make their original contributions to knowledge through research projects, theses, and dissertations. Moreover, the quality and content of graduate education is directly linked to faculty scholarship. Through the ORSSP, the COGS seeks to accomplish the following goals:

• To set a climate for excellence in scholarship and research.
• To administer the University’s Research and Service Foundation.
• To participate in the development, coordination, and evaluation of the Research and Service Foundation policies, procedures, programs, and activities.
• To provide information on research and other sponsored funding opportunities.
• To assist faculty and graduate students in obtaining external research grants and monitoring the use of these funds.
• To represent the interests of researchers to university administrators.
• To represent the interests of the University’s administration to researchers.
• To establish policies governing sponsored program activity.
• To participate in negotiations on facility and administrative (indirect) cost rates.
• To ensure that the University is in compliance with Federal and State regulations regarding the use of human subjects and live animals in research as well as the appropriate handling of hazardous materials and other related threats to health and safety.
• To administer copyright and patent policies.
• To administer policies and coordinate procedures to prevent, detect, and investigate fraud and misconduct in research.
• To develop and coordinate campus-wide training education programs in the responsible conduct of research.
• To develop public-private relationships/partnerships.

VISION
The Jack N. Averitt College of Graduate Studies seeks to become a national model for post-baccalaureate education, and research and creative scholarly activities. The COGS is committed to being at the forefront of best practice in graduate education, providing exemplary learning environments in which to educate our next generation of scholars, teachers, professionals, and global leaders. To achieve this level of excellence, the College seeks to be recognized, respected, and revered, for our student-centered approach, academically distinct programs of study, and cutting-edge scholarship that serves society’s need for creating and transmitting knowledge, improving practice, and advancing understanding.

Graduate Degree Program Directors

The Graduate Program Director (GPD) in an academic unit is a faculty member appointed by the unit administrator (Chair) to administer its graduate program(s). The GPD makes recommendations for admission, provides approval for Programs of Study, Thesis and Dissertation committees, etc. It is the GPD’s responsibility to coordinate the department's program with the COGS. The GPD receives all inquiries, applications, announcements, and requests for data and information relative to the academic program(s), and communicates the COGS policies and actions to program faculty and graduate students. Graduate Program Directors are expected to be knowledgeable of degree requirements, Graduate School regulations and procedures, and the general organization of the University as it affects graduate students. The specific duties of the GPDs include:

• Processing and evaluation of applications
• Transmitting to the Office of Graduate Admissions the program’s recommendation on student applications for admission
• Notifying the COGS of the student’s progress towards the degree (exams, etc.)
• Submitting Programs of Study to the COGS for final approval
• Submitting committee nominations for approval by the COGS
• Maintaining unit files on prospective, present and past students
• Providing department endorsement of requested exceptions to University policy
• Attendance and participation in COGS Program Director meetings and functions.

The Graduate Faculty

A member of the Graduate Faculty at Georgia Southern University must be an active, productive, creative scholar or creative performer in his/her discipline. In order to teach graduate students how to be active scholars, practitioners, and/or performers in their own right, Graduate Faculty must be involved in the current knowledge, methods, and techniques of their disciplines. This modeling of sustained scholarship/performance is the cornerstone of quality graduate education. There are two Categories of Graduate Faculty: Member and Affiliate. Members of the Graduate Faculty are professorial faculty on tenured or tenure-track appointments. Affiliate Graduate Faculty include research appointees, visiting, temporary, adjunct, or part-time faculty who may appropriately teach graduate classes and serve on thesis and dissertation committees. Affiliate can also be used to recognize outstanding scholars, including, but not limited to, those who work in government agencies, private industry, healthcare, and education, who are not full-time employees of Georgia Southern University whom the College of Graduate Studies welcomes to participate on thesis and dissertation committees.

The prerogatives of the two (2) categories of Graduate Faculty are listed below:

Members:
• Eligible to teach graduate courses.
• Eligible for memberships on university graduate committees.
• Eligible to serve on comprehensive examination committees.
• Eligible to direct and/or chair master’s theses committees as approved by the department/school or division.
• Eligible to direct and/or chair dissertation committees as approved by the department/school or division.

Affiliates:
• Eligible to teach graduate courses.
• Eligible to serve on comprehensive examination committees.
• Eligible for membership on and/or co-chair master’s theses committees as approved by the department/school or division.
• Eligible for membership on and/or co-chair doctoral dissertation committees as approved by the department/school or division.

University-wide Criteria

The minimum University-wide criteria for appointment to the Member Category of the Graduate Faculty shall be:

• an earned terminal degree;
• potential for or demonstrated ability to teach graduate courses;
• potential for or demonstrated involvement in graduate programming and curriculum, including advising responsibilities and directing student research; and
• potential for or demonstrated evidence of scholarly activity.

Faculty Committees in Departments/Schools and Colleges may develop additional criteria for Graduate Faculty. The Graduate Committee of the Faculty Senate must approve these criteria.

Graduate Assistants

Graduate assistantships are essential to the success of the graduate programs at Georgia Southern University. Assistantships allow students who might otherwise be forced to seek their degrees on a part-time basis to enroll full-time in graduate degree programs. The assistantship not only enables the student to complete the program of study in a timely fashion, but also affords the opportunity to be involved in full-time study at the University. Graduate assistants enliven the academic environment of the university by adding to the community of scholars within the institution.

Assistantships may only be awarded to graduate students who have unqualified admission to the College of Graduate Studies under the “Regular” (not Provisional) classification. Graduate assistants must maintain a cumulative 3.0 grade point average (3.50 for Ed.D. students) and be registered as a full-time student (normally nine semester hours) each semester within the program of study throughout the period of the assistantship appointment.

A normal work load for a full time graduate assistant is twenty (20) work hours per week in both the fall and spring semesters. The immediate supervisor in consultation with the Dean of the College of Graduate Studies will assign employment duties. Federal law generally limits the number of hours that international students can work on campus to twenty (20) hours per week in the fall and spring semesters. Exceptions to this limitation can be granted by the Dean of the College of Graduate Studies if written approval to work beyond the 20 hour limit is provided by the INS. These hour requirements begin on the first day of class and end on the last day of final exams. Graduate Assistants do not submit time sheets and are not hourly employees. Students on assistantships may not otherwise be employed at Georgia Southern University, except as approved by the Dean of the College of Graduate Studies.

The stipend for a full time graduate assistantship is determined by the department/unit awarding the assistantship, with the minimum amount being determined by the COGS. Graduate assistants qualify for a special reduced tuition fee. Graduate assistants are responsible for paying all University Fees and the Technology Fee each semester. Assistantships are normally limited to 2 years for master’s level candidates. Assistantships for doctoral candidates are not time limited. Exceptions to this time limit require prior approval of the Dean of the College of Graduate Studies.

March 1 is the deadline for the receipt of applications by the College of Graduate Studies to receive priority consideration for employment during the upcoming Fall semester. Consistent with the Council of Graduate Schools Resolution on graduate assistantships, a student’s acceptance of a graduate assistantship for the next academic year constitutes an agreement, which the College of Graduate Studies expects the student to honor. If the student accepts the offer before April 15 and subsequently desires to withdraw, the student may submit, in writing, a resignation of the appointment any time through April 15. However, an acceptance given or left in force after April 15 prevents the student from accepting another offer without first obtaining a written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer.
Each department/unit is required to adopt a procedure for producing a written evaluation or measurement of performance of their graduate assistants as well as an opportunity for graduate students to evaluate their assignment at least once a semester. The focus of this evaluation is to provide formal feedback to the assistants for professional development and performance improvement. Suspension or dismissal of a graduate student from the University for disciplinary reasons will terminate the assistantship. A graduate assistant may also be terminated for any of the following reasons: (a) the overall GPA drops below 3.0, (b) the semester course load falls below the minimum full-time load of nine (9) hours or the equivalent, (c) an allegation of academic or scientific misconduct, and (d) failure to perform work assignments at the satisfactory level. Additionally, the University reserves the right to terminate a graduate assistant if, in the sole discretion of the Dean of the College of Graduate Studies, the circumstances of a particular situation warrant such action. The College of Graduate Studies and the department/unit to which the student is assigned have the joint responsibility to ensure that appropriate procedures are followed before termination of the assistantship. A student choosing to resign or terminate employment must submit a letter of resignation to the Dean of the College of Graduate Studies through the Department/Division Chair of the employing unit.

Admission
To The College Of Graduate Studies
Application materials may be obtained from the COGS web site at http://cogs.georgiasouthern.edu. In collaboration with COGS, respective departments and schools in which graduate degree programs are offered set documents required to complete an application. All application materials, including official test score reports, letters of recommendation and other required supporting documents, should be received in the Office of Graduate Admissions by the stated application dates for the application to receive admission review from the department or school in which study is proposed. All application documents must be received by the application deadline for the application to be considered. The applicant must submit an official transcript from each college or university previously attended. A transcript is required even if the courses from one school appear on the transcript of another school. All application documents become the property of Georgia Southern University and may not be forwarded to a third party or returned to the applicant. The applicant must indicate if he/she is applying for a graduate degree program, a non-degree or transient admission, and must indicate a specific graduate major area of study that is offered at Georgia Southern University.

Graduate admission to the University is a collaborative process between the COGS and the graduate faculty in the academic departments. Each department has a designated graduate program director/Coordinator who serves as a liaison to the COGS. The application for admission, along with specified supporting materials, should be submitted to the Office of Graduate Admissions prior to the deadlines for the semester in which the applicant is seeking admission.

Application materials are forwarded to the academic departments for their review and recommendation. The COGS reviews the department’s recommendation and makes the final determination on acceptance. Admission is restricted to include only those students whose academic records indicate that they can successfully undertake graduate work.

Application Deadlines

Fall Semester March 1 (Priority)
Spring Semester October 1 (Priority)
Summer Session March 15 (Priority)
International Students
Fall Semester March 1 (Priority)
Spring Semester October 1 (Final Deadline)

Admission to the College of Graduate Studies is competitive. Applicants are encouraged to submit application materials by the Priority Deadline. Priority is for students seeking financial aid, scholarships, and assistantships. Applications received after the Final Deadline may be considered on a case-by-case basis.

Admission Requirements
Individuals seeking admission to the College of Graduate Studies must hold a baccalaureate degree from an institution accredited by the appropriate regional accrediting association or its international equivalent prior to the expected semester of matriculation. Applicants should be ranked in the upper half of their undergraduate class. Specific requirements for each graduate program are presented in the University Catalog.

Applicants must be admitted to the COGS before they are eligible to register for classes. Only students formally admitted to the COGS are eligible to enroll in graduate courses (courses numbered 5000G, 6000, 7000, 8000 and 9000). Official acceptance is conveyed to the applicant in a formal letter issued by the Dean of the COGS.

Admission is granted for a specific semester and is validated by registration for that semester. Applicants wishing to defer admission to a subsequent semester may request a one-time deferral as long as the request occurs before the start of the original semester of matriculation.

While the majority of graduate programs are offered at the Statesboro campus, resident graduate credit may also be offered at off-campus centers in Brunswick, Dublin, and Savannah. Admission and degree requirements at off-campus locations are identical to those of the on-campus programs.

Admission Classification
A prospective student who plans to take additional course work beyond the baccalaureate degree must apply to the COGS and be admitted under one of the following classifications:

Degree Admission
Students who are admitted to the COGS with the expressed intention of following a program leading to a graduate degree are classified as degree-seeking students. When admitted as a degree-seeking student, the applicant will be placed in one of the following categories:

1. Regular - A prospective candidate who meets all requirements for unqualified admission and has been recommended by the college, department or program in which he/she proposes to study, and approved by the COGS is classified as a regular degree-seeking student.

2. Provisional - A prospective candidate who does not satisfy the full admission requirements will be classified in this category under conditions specified at the time of admission. The COGS will establish these conditions based on the recommendation of the graduate faculty of the department in the college or program in which the student proposes to study. A student admitted in this category will be reclassified to regular admission when the conditions have been met. A student initiating graduate work under this classification may enroll in graduate courses leading to a degree and such courses may be counted in a degree program when the student has met the specified conditions and has been reclassified. Only credit earned in graduate courses at Georgia Southern University may be used to satisfy provisional admission requirements.

Applicants granted Provisional admission are required to earn grades of “B” or better in their first nine (9) hours of graduate credit taken at Georgia Southern University under this admission category. Failure to satisfy the conditions of provisional admission will result in exclusion from the degree program. A student excluded from a graduate degree program for failure to meet the conditions of provisional admission may not be readmitted to the COGS under non-degree admission to continue to study in the major area. There is no provisional admission to the Doctorate of Education.
Non-Degree Admission
An applicant may be admitted to the COGS as a non-degree student to earn credit in graduate courses without working toward a degree. Admission as a non-degree student does not guarantee subsequent admission to a graduate degree program; that is a separate process, and different criteria must be met. Students who are admitted in a non-degree category may apply to a degree program at any time. Upon the advisor’s recommendation, non-degree courses may be included in the graduate degree program of study should the student gain reclassification as a degree student. A student may be admitted to the COGS in one of the following non-degree admission categories:

1. Limited - A student whose file is incomplete because certain required application materials have not been received in the Office of Graduate Admissions for degree admission consideration may be admitted in this category. Enrollment in the Non-Degree Limited category is limited to a maximum of nine (9) semester hours of credit in graduate courses in any seven contiguous years. A student may count a maximum of nine (9) semester hours of credit toward graduate degree program requirements if recommended by the degree Graduate Program Director and approved by the Dean of the College of Graduate Studies.

2. Enrichment - A student who holds an undergraduate or graduate degree and desires to take courses for personal or professional improvement may be admitted in this category. Enrollment in the Non-Degree Enrichment category is unlimited; however, a student may count a maximum of nine (9) semester hours of credit toward graduate degree program requirements if recommended by the degree Graduate Program Director and approved by the Dean of the College of Graduate Studies.

3. Certificate - A student who holds an undergraduate or graduate degree can pursue a graduate certificate program through the Non-Degree Certificate option. Note that admission as a Non-Degree Certificate student and completion of the certificate program does not guarantee subsequent admission to a graduate degree program; that is a separate process, and different criteria must be met. Enrollment in the Non-Degree Certificate category is limited to the number of hours required for the certificate program, not to exceed 18 semester hours of credit in graduate courses in any seven contiguous years unless additional hours are approved by the College of Graduate Studies. A student may count the credit hours earned as part of the certificate program toward graduate degree program requirements if recommended by the degree Graduate Program Director and approved by the Dean of the College of Graduate Studies.

4. Teaching/Service/Leadership Certification - A student seeking initial certification as a P-12 educator (teaching, service or leadership certification as defined by the Georgia Professional Standards Commission) may be admitted in this category and enroll in graduate courses required for certification in any seven contiguous years. In addition, in-service teachers enrolling to meet requirements of a local board of education or the Georgia Professional Standards Commission to renew or reinstate a certificate, to certify in a new area, or to obtain an endorsement to an existing certificate may enroll in graduate courses for credit for this particular purpose through this category. Note that admission in this category and completion of a certification program does not guarantee subsequent admission to a graduate degree program; that is a separate process, and different criteria must be met. Enrollment in this category is limited to the number of hours required for certification and/or endorsement not to exceed 18 semester hours of credit in graduate courses in any seven contiguous years unless additional hours are approved by the College of Graduate Studies. A student may count the credit hours earned as part of the certification/endorsement program(s) toward graduate degree program requirements if recommended by the degree Graduate Program Director and approved by the Dean of the College of Graduate Studies. (Note that some certification fields require completion of a M.Ed. and/or Ed.S. degree; refer to the admission requirements or Graduate Program Director for information on the specific field of interest.)

Additional Admission Categories
Transient Admission
Students who are currently enrolled in a graduate program at another university may take courses at Georgia Southern University as a transient student. In order to be admitted as a transient student, the student must submit a transient student application and a certificate of good standing from the appropriate official from their home institution. A student is admitted under this classification for one semester only and must be readmitted under this classification each subsequent semester in transient status.

Graduate Credit for Seniors
A senior, within nine (9) semester hours of completing the requirements for the bachelor’s degree, may apply for Senior Privilege to be permitted to enroll in courses for graduate credit providing:

- The student submits a Senior Privilege Application Form;
- Permission to enroll in such courses is obtained from the chairperson of the department involved, the appropriate graduate program director, and the COGS;
- Except for the degree, the student is otherwise qualified for Regular Admission to the COGS; and
- The total term load does not exceed fifteen (15) semester hours, with no more than nine (9) hours of graduate credit. Under no circumstances may a course be used for both graduate and undergraduate credit.

Application Process
Applicants are responsible for providing for the submission of all application materials required for admission. These items include, but are not limited to, the following: application for admission, application-processing fee, transcripts, entrance test scores, letters of recommendation, certification of finances forms (international applicants), and any supplemental material required by the department. The application for admission, along with specified supporting materials, should be submitted to the Office of Graduate Admissions. Application for admission to the COGS at Georgia Southern University is completed on-line. Additional application materials can be submitted in hard-copy format to the Office of Graduate Admissions prior to the deadline.

Applicants are responsible for submitting all application materials required for admission. These items include, but are not limited to, application for admission, application fee, transcripts, entrance test scores, letters of recommendation, Certificate of Immunization, SEVIS Data Form and bank statement (international applicants), and any supplemental materials required by the specific program.

An applicant wishing to defer an application to a subsequent semester should first consult with the academic department to determine if the department admits students for that semester. An applicant may submit a one-time request to the Office of Graduate Admissions, as long as the request occurs prior to the start of the original semester of matriculation. After the original semester of matriculation has begun, the applicant must submit a new application and application fee to defer an application to a future semester. Deferred applications are referred to the department for reconsideration and a new admissions recommendation.

Academic departments may refuse admission to applicants whose files are incomplete after the beginning of the semester of expected matriculation and when the applicants have not requested deferrals to future semesters. The application and supporting documents become the property of the University and cannot be returned or forwarded elsewhere.

Domestic (U.S. Citizen and Resident Alien) Applicants
- Completed on-line Graduate Application for Admission Form
- $50.00 application fee
- Official transcripts from each college or university previously attended. Transcripts must be designated as official and sent directly from the institution(s) previously attended to the
Office of Graduate Admissions. Transcripts marked “Issued to Student” will not be accepted. Applicants who have attended Georgia Southern University are not required to submit Georgia Southern transcripts.

- Official test scores as required for the selected program. Scores must be current, within the last five years, and sent directly from the testing agency to the Office of Graduate Admissions.
- Certificate of Immunization Form. This form should be completed and sent directly to the Office of Health Services.
- Other documents as required by the department, college, or program. These may include letters of reference, personal statement, or letter of intent. See http://cogs.georgiasouthern.edu/ for information on program specific requirements.
- Applicants who are applying for a graduate assistantship must complete the Graduate Assistantship Application and submit it to the COGS.

International Applicants

Georgia Southern University subscribes to the principles of international education and to the basic concept that only through education and understanding by individuals from diverse cultures can mutual respect, appreciation, and tolerance of others be achieved. International applicants for admission to the COGS must submit the following:

- Completed on-line Graduate Admission Form.
- $50.00 application fee
- Certified copy of diploma and certified English translation of diploma. This must be sent directly from the institution(s) previously attended to the Office of Graduate Admissions.
- Certified original and English translations of transcripts. Transcripts designated as official must be sent directly from the institution to the Office of Graduate Admissions. Transcripts marked “Issued to Student” will not be accepted.
- Applicants who have attended Georgia Southern University are not required to submit Georgia Southern transcripts. (If the Office of Graduate Admissions cannot evaluate transcripts, applicants will be required to have transcripts evaluated by a member of the National Association of Credential Evaluations Services, Inc. (NACES)).
- Official test scores as required for the selected program. Scores must be current, within the last five years, and sent directly from the testing agency to the Office of Graduate Admissions.
- Official TOEFL scores not more than two years old
- Certificate of Immunization Form. This form should be completed and sent directly to the Office of Health Services.
- SEVIS Data Form. This form should be completed and sent directly to the Office of Graduate Admissions.
- Certified Bank Statement (not more than six [6] months old) confirming finances. (See page 1 of the SEVIS Data Form for specifications.) This statement should be completed and sent directly to the Office of Graduate Admissions.
- Other documents as required by the department, college, or program. These may include letters of reference, personal statement, or letter of intent. See http://cogs.georgiasouthern.edu/ for information on program specific requirements.
- Applicants who are applying for a graduate assistantship must complete the Graduate Assistantship Application and submit it to the COGS.

Credentials evaluated by any U.S. agency that is a member of the National Association of Credential Evaluation Services, Inc. (NACES) may be presented. The evaluation must be sent directly from the agency to the Office of Graduate Admissions. Three such agencies are:

Additional Information For International Applicants

All international students admitted to the College of Graduate Studies must demonstrate the same level of achievement as U.S. students. That is, they must hold a four-year degree (or the equivalent) from an established institution comparable to a regionally accredited college or university in the United States, have an outstanding undergraduate record, have demonstrated ability to do graduate work, and give evidence of language proficiency sufficient for the pursuit of a graduate degree. Admission may be denied students from technical schools or colleges or universities, which do not award a degree equivalent to a U.S. four-year bachelor’s degree. Unless holding a visa that permits non-degree admission, international applicants must qualify for “Regular” admission. International applicants are not granted non-degree admission status. Questions about the qualifications of international students should be directed to the College of Graduate Studies.

English Proficiency for International Students

International applicants and U.S. Citizens whose native language is not English must demonstrate competence in English. Prior to consideration for admission, international applicants whose native language is not English must take and pass the Test of English as a Foreign Language (TOEFL) unless they have received a degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand. The TOEFL examination is administered at various times of the year and in many centers throughout the world. Test administration and location inquiries should be addressed to TOEFL, Educational Testing Service, Princeton, New Jersey 08541. Phone 1-877-863-3546, Email toefl@ets.org, Web address: http://www.ets.org/toefl/.

A score of at least 550 (213 on the computer-based test) on the TOEFL is required to be considered for admission to the College of Graduate Studies. The official TOEFL score may not be more than two years old. Those who do not meet the minimum proficiency standard may be recommended for enrollment in University English courses or for English courses offered by the English Language Program (ELP) on campus.

Health Insurance

All international students are required to have adequate student health insurance as determined by Georgia Southern University. A health insurance plan is available through the University. The current cost for this insurance is projected to be $891.00 per year and is subject to change. Charges for this insurance will be on the student’s invoice and collected with other university fees. Insurance for families is available at a significantly higher cost. Students who can prove that they have other health insurance that meets Georgia Southern University’s requirements can have the University’s insurance waived. Students seeking a waiver must complete an insurance waiver form available from the Center for International Studies prior to arrival in the United States. Proof of health insurance is required before a student may register for classes.
Course Load
International students on a student visa are required to carry a full course of study (9 semester credit hours) by U.S. immigration law. Failure to do so may result in the loss of visa status, and the student may be required to leave the United States.

Financial Information
International students should not expect to work during their first year in the United States. All financial support necessary must be available without the necessity of employment. International students may apply for Graduate Assistantships. However, these are usually not awarded until the second year when the major department has had an opportunity to evaluate the work of the student and assess English proficiency.

Georgia Southern University offers a limited number of Out-Of-Country tuition waivers to exceptional international students. However, this is a limited grant covering approximately 20% of required expenses, and it is the student’s responsibility to provide all monies necessary to pay all other expenses.

Visa Information
The University will issue an I-20 or DS-2019, whichever is appropriate, after the applicant has been fully admitted and all required financial documentation has been submitted. These documents permit the applicant to apply for the appropriate student visa from a U.S. embassy if outside the United States or transfer schools if within the United States. Students residing in the United States must submit proof from their current international student adviser that they are in valid visa status before final admission.

International Student Advisor
The Center for International Studies at Georgia Southern has experienced qualified advisors available to help international students with maintaining visa status and becoming oriented to campus. Advisors are available for advice and support, and a full social and cultural program is available.

Standardized Test Scores
Depending on the graduate program for which the student is applying, one of the following standardized admission tests will be required: GMAT, GRE, MAT or Praxis/GACE. The following list indicates the tests that are required for each program. Test scores must be sent from the testing agency directly to the Office of Graduate Admissions or be recorded on an official transcript. Further information on test dates and fees may be obtained from the Testing Office, Post Office Box 8067, Georgia Southern University, Statesboro, GA 30460-8067 (912) 681-5415.

Please refer to the Admissions section of the catalog.

Admission By Appeal
A student denied admission to a graduate program may appeal the admission decision to the Graduate Program Director. The student will be required to provide additional information in support of the appeal. A student whose appeal for admission is denied by the department and/or college may appeal to the Dean of the College of Graduate Studies. The Dean of the College of Graduate Studies will make the final decision on an appeal.

Academic Common Market
Students from a number of states may be eligible for an out-of-state fee waiver based upon the Academic Common Market agreement that Georgia shares with these participating states. If a student majors in disciplines at Georgia Southern University that are not available in their home states, they may be eligible for the waiver. Sport Management is currently approved for graduate students from selected states.

Border County Fee Waiver
Graduate students who are legal residents of out-of-state counties bordering Georgia counties where an institution of the University System of Georgia is located and who are enrolled in said institutions may be eligible for a fee waiver based upon the Border County rule.

Postdoctoral Study
Mature scholars, as well as the most able new recipients of the doctorate, are encouraged to spend one or more years in concentrated study with experts in their field. These scholars make a distinct contribution to the quality of the graduate program with which they are associated and to the prestige of the University. To be eligible to take graduate level courses, Post Doctoral Fellows must apply for and be admitted to the College of Graduate Studies.

Residence Time Limits
All work credited toward a Master’s or Educational Specialist degree must be completed within 7 years. Extensions of time may be granted only on conditions beyond the control of the student. A formal request outlining the extenuating circumstances for an extension of time should be addressed to the College of Graduate Studies. The minimum residence requirements for a Master’s or Education Specialist degree is one academic year or three summer sessions.

Graduate Student Advisors
When the student is notified of admission to the College of Graduate Studies, a graduate faculty member in the student’s major field will be assigned as the advisor. A graduate student may request a change in advisor by contacting the Graduate Program Director of the program of study in writing. If the request is granted, the student will be notified in writing.

Graduate student advisors will assist in:
- Helping the student plan a program of study in keeping with the student’s field and goals.
- Approving all course selections prior to registration. Students who are initially uncertain about their graduate program of study and Transient Students taking graduate classes at Georgia Southern University for degree credit at another college or university may be advised by the College of Graduate Studies. International graduate students will be advised by the Dean of Students as well as by a faculty advisor in their academic
program. Graduate students with physical or developmental disabilities are encouraged to avail themselves of the services of the Center for Students with Disabilities or the Counseling and Career Development Center.

Graduate Credit
All courses carrying graduate credit at Georgia Southern University numbered 5000G and above are open to graduate students ONLY. Courses numbered 9000-9999 and above are open to Ed.D. graduate students ONLY.

A student who has been admitted to the College of Graduate Studies may register for graduate courses using the RAN. RANs are present in the acceptance letter and are emailed to each active graduate student during the early registration periods each semester.

At least 50% of the courses applicable to earn a degree must be courses in which enrollment is restricted to graduate students.

A maximum credit of 6 semester hours earned in “Independent Study” may apply toward a graduate degree, with the approval of the advisor, provided the student is classified in the “Regular” graduate standing when the work is taken.

Graduate credit is not allowed for work done in extension (continuing education) or by correspondence.

A student seeking a second masters’ degree may count up to three courses (not more than 9 semester credit hours) from the first degree toward the requirements for the second degree upon recommendation of the student’s advisor and approval of the department chair. Only course with a minimum grade of “B” may be counted.

Grading System
All institutions of the University System of Georgia shall be on a 4.0 grade point average system. The following grades are approved for use in institutions in the determination of the Grade Point Average:

<table>
<thead>
<tr>
<th>Symbols</th>
<th>Explanation</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4.0</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3.0</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2.0</td>
</tr>
<tr>
<td>D</td>
<td>Passing</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>0.0</td>
</tr>
<tr>
<td>WF</td>
<td>Withdraw Failing</td>
<td>0.0</td>
</tr>
</tbody>
</table>

The following symbols are approved for use in the cases indicated, but will not be included in the determination of the grade point average:

- I: Incomplete 0.0
- IP: In Progress 0.0
- S: Satisfactory 0.0
- U: Unsatisfactory 0.0
- V: Audit 0.0
- W: Withdraw 0.0
- WM: Withdraw Military 0.0

I: An incomplete grade (“I”) indicates that the student was doing satisfactory work, but was unable to meet the full requirements of the course due to non-academic reasons. It is the student’s responsibility to contact the instructor to complete the remaining requirements of the course. The instructor assigning an “I” grade must submit justification for this grade to the Registrar’s Office. An “I” should be removed during the following term, but the instructor may allow the student up to one calendar year to remove the incomplete. The student must complete the requirements of the instructor who assigned the incomplete and should not re-register for the course. If the “I” is not satisfactorily removed by the end of the third term (one calendar year), it will be changed to an “F” by the Office of the Registrar.

IP: These symbols indicate that credit has not been given in courses that require an “IP” continuation of work beyond the term for which the student signed up for the course. The use of these symbols is approved for dissertation and thesis hours and project courses. With the exception of Learning Support courses and Regents’ Test review courses, these symbols cannot be used for other courses.

K: This symbol indicates that a student was given credit for the course by examination (e.g., College Level Examination Program (CLEP), Advanced Placement (AP), and Proficiency). See “Credit by Examination” in the Admissions section of the catalog.

NR: This symbol indicates that a grade has not been reported for the course. The student should contact his/her instructor for the grade.

S: This symbol indicates that credit has been given for completion of degree requirements other than academic course work. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. A “S” is not included in the computation of the GPA.

U: This symbol indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. A “U” is not included in the computation of the GPA.

V: This symbol indicates that a student was given permission to audit the course.

W: This symbol indicates that a student was permitted to withdraw without penalty. It is assigned when a student withdraws before the last day to drop without academic penalty. A “W” is not considered in computing the GPA. If a student withdraws from all classes after the last day to drop without academic penalty, it is recommended to the instructor that he or she assigns a “W” if passing at the time of withdrawal.

WF: If a student withdraws from all classes after the last day to drop without academic penalty, it is recommended to the instructor that he or she assigns a “WF” if passing at the time of withdrawal. The “WF” is computed as an “F”. If a grade of “W” or “WF” is not assigned by the instructor, the Registrar’s Office will enter a grade of “W” for the student.

WM: A “WM” grade indicates that the student was called for active duty in the military and withdrew from all classes. Students who receive a Military Withdrawal are withdrawn from the University as of the first day of University classes. A 100% refund is issued to the student or whoever has paid the student’s tuition. The student will receive “W” grades for all courses that he/she registered for and all hours are counted as attempted on the student’s record.

A student may not repeat any course for credit for which she/he has already received a minimum grade of “C” unless specifically permitted by the degree program department policy.

Other Transcript Designations
- # Academic Renewal (Forgiveness) Policy - not used in calculating total institution GPA
- * College Preparatory Curriculum (CPC) - not used for graduation
- % Institutional Credit - No Earned Hours - not used in calculating GPA
- NR No grade reported by instructor
- CR Credit earned through military experience - not used in calculating GPA
Auditing Courses
A student may audit a course by submitting a written request to the Registrar’s Office. Academic credit is not awarded for auditing a course. Students may not transfer from audit to credit status, or from credit to audit status after the last day of Drop/Add. A grade of "V” (audit) is entered on the student’s record. The student will be responsible for all fees charged for the audited course.

Grade Point Average
The cumulative grade point average is the grade average made by the student on all work for which she/he has enrolled. It is obtained by dividing the total number of grade points earned by the total number of hours attempted. Courses carrying an “S” or “U” are not included. When courses in which a student has made a grade of “D” or “F” are repeated, the last earned grade is the official grade. However, all hours attempted are counted in computing the GPA.

Required Academic Standing
Master’s and Education Specialist degree graduate students must maintain a cumulative graduate GPA of 3.0 or higher on all graduate work and in the Program of Study to graduate. Graduate students are ineligible to graduate with grades of “I” or “IP” on their graduate academic record. Credits taken as a non-degree student in order to raise the GPA to meet admission standards may not be used to satisfy graduation requirements of the program. Students whose cumulative GPA falls below a 3.0 will be placed on academic probation and/or exclusion. Details of this action are presented for each degree structure below. Doctor of Education graduate students must maintain a cumulative graduate GPA of at least 3.5 to remain in good standing.

Credit by Transfer
A graduate student may transfer graduate credit from a regionally accredited institution. Additionally, graduate credit from the American Council of Education (ACE) for National Board Certification may be accepted for elective credit in a regionally accredited institution. Students who take courses without prior approval will be furnished a statement that all requirements for the degree have been completed when the said requirements have been satisfied.

Unit of Credit
The University year is organized on the semester system, each of the two semesters in the regular session extending over a period of approximately 15 weeks. A semester hour is equivalent to 12.5 clock hours of instruction.

Registration and Enrollment
Graduate students may register for no more than 12 semester hours in all graduate level courses (5000G level and above). Students who have been admitted to the College of Graduate Studies must register and pay fees during the regular registration period. University regulations prohibit a student from sitting in a course or courses in which he/she is not officially registered. Only students who have been granted admission to the College of Graduate Studies are eligible to enroll in graduate level courses. Registration Access Numbers (RAN) are provided in acceptance letters for new students and sent to the Georgia Southern University email account for continuing students.

Full-Time Enrollment
Minimum semester credit hours for full time graduate enrollment is nine (9) hours during the academic year (fall and spring semesters) and 3 hours for the summer term. Due to the clinical nature of the program, the minimum semester hours for full time graduate enrollment during the academic year in the MSN program is 5 (five) hours. Full-time enrollment in the MPA program is eight (8) hours.

Program of Study Procedures
The Program of Study is a detailed course plan that has been developed for each student in a degree program. The student in consultation with the academic advisor develops the Program of Study. The Program of Study can be developed at any time during the course of study. The College of Graduate Studies encourages students to develop a working Program of Study with their advisor at the beginning of their graduate program. Students must submit a formal Program of Study for approval by the College of Graduate Studies prior to the semester in which they intend to graduate. The Program of Study forms are available on the College of Graduate Studies Website at http://cogs.georgiasouthern.edu.

Internship/Thesis/Dissertation Enrollment Requirements
A prospective candidate for a graduate degree must be registered during each term in which an internship is being conducted, a thesis (if required), or a dissertation is under preparation and where university facilities and/or staff time are utilized, including the final term in which the internship, thesis or dissertation is being completed. Students completing an internship, thesis or dissertation must comply with the following regulations:

Revise the last paragraph to: A grade of IP will be recorded for all internship, thesis, or dissertation credit work in progress, and will automatically be recorded each term the student is enrolled. The grade of S/U must be recorded for all theses, or dissertation credit when completed. The advisor and/or major professor will report a final thesis or dissertation grade of S or U. Any reported grade other than S/U will be changed to an S/U grade according to the following: REPORTED GRADE OF A, B, C = S; D, F = U.
• Upon completion of the internship, thesis, or dissertation requirements, final grades for preceding terms will be changed to the appropriate grade.
• Effective Fall 2005, the College of Graduate Studies will require students to submit thesis and dissertation projects in electronic format. The Electronic Thesis and Dissertation project is discussed in detail (policies and procedures) on the College of Graduate Studies Website http://cogs.georgiasouthern.edu.

Dropping a Course
Students can drop a course after the last day of drop/add by submitting a drop form to the Registrar’s Office or by logging into their student WINGS account. To avoid academic penalty, the course(s) must be dropped prior to the last day to drop without academic penalty, a date which is published in the University Calendar. Any student who does not drop his/her course before this published date for the term must complete the course requirements. An “F” grade will be assigned to any student who discontinues attending a class without officially dropping the course. A “W” (Withdraw) grade will be issued for any course dropped after the last day of Drop/Add but before the last day to drop without academic penalty. Fees will not be reduced and a refund will not be issued for courses dropped after the last day of Drop/Add.

Withdrawal from Course/School
Prior to the first day of university classes, a student should submit a Voluntary Cancellation Form to be removed from all of his/her classes. This form can be obtained from the Office of the Registrar. Any student who wishes to withdraw from school during the term must present an Official Withdrawal Form to the Office of the Dean of Students. Failure to do this will result in the assignment of failing grades in all courses for which the student registered. A withdrawal is not permitted after the last day of class. Grades of “W” (Withdraw) are given for all courses if the withdrawal is processed before the last day to drop without academic penalty. If the withdrawal is completed after the last day to drop, instructors are given the option of assigning “W” or “WF” grades. A “WF” (Withdraw - Failing) grade is calculated in the student’s GPA the same as an “F” grade. Once the semester has begun, students will not be able to withdraw from all of their classes via WINGS. WINGS prevents students from withdrawing from their last course over the Internet. A withdrawal form must be submitted to the Office of the Dean of Students to be withdrawn properly from Georgia Southern University.

Petition to Review/Change a Grade
The evaluation of the quality of a student’s performance is the prerogative of the instructor. Nothing stated below is intended to place a limitation on this prerogative and the instructor will be involved in the review at each stage in the appeal process. All grade appeals should be viewed as confidential matters between the student, the instructor, and the appropriate administrators.

If a student does not understand the reason for a grade, it is the student’s responsibility to consult the instructor of the course about the grade. If after such consultation the student does not agree with the basis on which the grade was assigned, the student may initiate an appeal according to the procedures given below. The burden of proof will rest with the student. There are four stages of appeal available to a student and they must be followed sequentially.

Stages Two through Four must be completed during the term immediately following the term in which the grade was assigned unless the Provost authorizes an extension. At the completion of each stage of the appeal the student is to be notified of the decision in writing.

Procedures
1. Stage One: An appeal must be initiated within fourteen working days after the first day of class of the term that immediately follows the term for which the grade was awarded. The student shall petition the instructor in writing, giving salient reasons for the grade appeal. The student should retain a copy of the written appeal for personal records.
2. Stage Two: If the student is not satisfied after review by the instructor, the student shall consult the Department Chair and submit a copy of the written appeal. The Department Chair will attempt to resolve the grade appeal. The Chair will meet with the instructor and may consult with other persons who have relevant information.
3. Stage Three: If all efforts to resolve the grade appeal at the departmental level are unsuccessful, the student may submit the written appeal to the Dean of the appropriate College. The Dean will examine the appeal and other pertinent materials submitted by the student. The Dean will meet with the instructor and also may request from the instructor materials deemed relevant. In an attempt to resolve the grade appeal, the Dean may interview the student, instructor, and others who may have pertinent information. If the Dean determines the need for a review committee to examine the issue the committee shall consist of:
   • One faculty member from the Department
   • One faculty member from the College but not from the Department of the instructor
   • One faculty member from another College
   • Ex Officio: A staff member from Student Affairs and Enrollment Management recommended by the Vice President for Student Affairs and Enrollment Management

The committee, if appointed, will advise the Dean regarding the grade under appeal. Whether the Dean chooses to appoint a committee or not, the Dean will render a final decision on the grade appeal at the College level.
4. Stage Four: If all efforts to resolve the grade appeal at the College level are unsuccessful, the student may submit the written appeal to the Provost. The Provost will examine the appeal and other pertinent materials submitted by the student. The Provost will meet with the instructor and also may request materials deemed relevant. In an attempt to resolve the grade appeal, the Provost may interview the student, instructor, and others who may have pertinent information.

If a committee was constituted at the College level, the Provost will review the process, the committee findings, and the decision of the Dean and render a final University decision.

If a committee was not appointed at the College level, the Provost has the option of appointing a review committee that conforms to the composition described in Stage Three.

The committee, if appointed, will advise the Provost regarding the grade under appeal. Whether the Provost chooses to appoint a committee or not, the Provost will render a final University decision.

Student Conduct
In order to maintain an atmosphere on the Georgia Southern University Campus which is conducive to academic pursuits and which fosters the growth and development of all members of the University community, the University has established a series of procedures and regulations governing student conduct and behavior. Included in these procedures and regulations, which collectively are known as the Student Guide to Conduct, are statements concerning expectations for student conduct, guarantees of student rights, and procedures for adjudicating allegations concerning student misconduct. The penalties for violations of these regulations are also contained in the Student Guide to Conduct.
All students at Georgia Southern are expected to read and become familiar with all sections of the Student Guide to Conduct. Each student is individually responsible for adhering to the regulations contained in the Student Guide to Conduct.

A student who is found to be responsible for violating these regulations will be subject to disciplinary action ranging from disciplinary warning to suspension or expulsion. The severity of the sanction is dependent upon the severity of the offense as determined by the appropriate Judicial Officer, the University Judicial Board and the Hearing Office appointed by the Vice President for Student Affairs and Enrollment Management. Penalties levied by the Residence Hall Judicial Board, Resident and Area Directors cannot exceed Disciplinary Probation.

Discipline will be imposed in all instances except those situations in which a qualified, licensed, mental health professional has indicated to the University, in writing, that the actions of the individual were caused by severe psychological problems sufficient to warrant the immediate withdrawal from the University by the individual involved. In each instance, the individual may not re-register at Georgia Southern University for at least two full academic semesters and then only upon the written recommendation of the mental health professional.

Any and all questions concerning the Student Guide to Conduct, its enforcement or interpretation of any of its sections should be directed to the Office of Judicial Affairs or the Office of the Vice President for Student Affairs and Enrollment Management.

Electronic Communications Policy
Georgia Southern University considers Electronic Communication an official method of communication. The University recognizes that it allows and promotes timely delivery of information to our students and assists us in achieving our strategic objective of linking students and faculty members and fellow students and staff. Students can expect important notices about deadlines, upcoming events, and other information to be sent electronically to their email accounts. Students are expected to regularly check their accounts for activity. Any mass electronic mailing to all students must be made in consultation with the Vice President for Student Affairs and Enrollment Management or his/her designee.

Computer accounts are available to all members of the Georgia Southern student body, faculty, and staff, and are issued automatically to new students. Students holding computer accounts are required to follow all Georgia Southern University Policies and Procedures governing the use of Georgia Southern and the University System of Georgia computer resources. Computer use must be in accordance with all applicable laws, regulations, and policies, including but not limited to the Georgia Computer Systems Protection Act, O.C.G.A. Sections 16-9-90 et seq.

Students are assigned a User ID and password for their personal use only and must not cause them to be known or used by any other person. Access to any University computer resource is a privilege granted by Georgia Southern and account holders are solely responsible for the security of the assigned User ID(s) and password(s). In the event this security has been compromised, you must notify the Georgia Southern Computer Help Center at 912-681-5429. Account holders should understand that periodic audits of their activities on any Georgia Southern computer resource might be made by the system administrator.

Georgia Southern University does not routinely monitor electronic communications passing through campus servers. However, e-mails that pass through these servers are automatically stored for a period of time. These e-mails may also be stored in other locations. The stored e-mails are subject to state and federal laws concerning law enforcement investigations, court discovery requests, University investigations, network diagnostics, and the Open Records Act. Similarly, while the University does not routinely monitor Web page visits, such data may be collected pursuant to the needs of law enforcement authorities. Also, such data may be automatically stored on individual computers. Accordingly, Georgia Southern University cannot and does not guarantee the privacy of any e-mail message or Internet session sent from or received at any campus computer.

The University adopted a policy that recognized Georgia Southern student email accounts as an official method of correspondence. Students are expected to regularly check their accounts for activity.

Honor Code
The Georgia Southern University Honor Code states: “I will be academically honest in all of my coursework and will not tolerate the academic dishonesty of others.”

Academic Dishonesty
Cheating includes:
• Submitting material that is not yours as part of your course performance, such as copying from another student’s exam, allowing a student to copy from your exam; or,
• Using information or devices that are not allowed by the faculty; such as using formulas or data from a home computer program, or using unauthorized materials for a take-home exam; or,
• Obtaining and using unauthorized material, such as a copy of an examination before it is given; or,
• Fabricating information, such as the data for a lab report; or,
• Violating procedures prescribed to protect the integrity of an assignment, test, or other evaluation; or,
• Collaborating with others on assignments without the faculty’s consent; or,
• Cooperating with or helping another student to cheat; or,
• Other forms of dishonest behavior, such as having another person take an examination in your place; or altering exam answers and requesting the exam be regarded; or communicating with any person during an exam, other than the exam proctor or faculty.

Plagiarism includes:
• Directly quoting the words of others without using quotation marks or indented format to identify them; or,
• Using sources of information (published or unpublished) without identifying them; or,
• Paraphrasing materials or ideas of others without identifying the sources.

Plagiarism is prohibited. Themes, essays, term papers, tests and other similar requirements must be the work of the student submitting them. When direct quotations are used, they must be indicated and when the ideas of another are incorporated in the paper they must be appropriately acknowledged.

Failure to cite borrowed material is a form of cheating. A writer’s facts, ideas, and phraseology should be regarded as his/her property. Any person who uses a writer’s ideas or phraseology without giving due credit is guilty of plagiarism. Information may be put into a paper without a footnote or some kind of documentation only if it falls into the category of general or common knowledge. One may assume that information is general or common knowledge if it meets all of these conditions:

It may be found in writings of several authors on the subject.
It is written entirely in the words of the student.
It is not paraphrased from any particular source.

(Example of general or common knowledge: Ernest Hemingway was born in Oak Park, Illinois).

Generally, if a student writes while looking at a source or while looking at notes taken from a source, a footnote should be given. Whenever any idea is taken from a specific work, even when the student writes the idea entirely in his own words, there must be a footnote giving credit to the author responsible for the idea. Of
course, methods of documentation vary and it is possible to cite in
the text itself, rather than in a footnote. The point is that the student
should give credit in a manner specified by the instructor or the
department. The student is entirely responsible for knowing and
following the principles of paraphrasing. The student should never
retain a sentence pattern and substitute synonyms for the original
words. The student should never retain the original words and alter
the sentence pattern. In other words, paraphrasing means alteration
of sentence pattern and changing the words. Any direct quotation
should be footnoted (or documented in an acceptable fashion).

Even when a student uses only one unusual or key word from a
passage, that word should be quoted. If a brief phrase that is
common or somewhat common is used as it occurs in a course, the
words should be in quotation marks. The source of every quotation
should be given in a footnote or in the prescribed manner.

NOTE: Under certain circumstances, alleged violations of
academic dishonesty may be adjudicated under Procedures for
Academic Dishonesty as outlined in The Student Guide to
Conduct.

Satisfactory Academic Progress
Policy for Financial Aid

Students are evaluated on the basis of grade point average (GPA),
credit hour completion, and maximum time frame limitation. The
Department of Financial Aid is responsible for evaluating the
satisfactory academic progress of all graduate students receiving
Federal Subsidized and Unsubsidized Stafford Loans. Georgia
Southern University’s SAP policy requires maintaining academic
standards based on the following three criteria:

Graduate students must maintain a 3.0 minimum GPA to remain in
good academic standing for financial aid and academic purposes.
Failure to maintain the required minimum GPA standards will
result in academic and financial aid probation. When a student’s
unsatisfactory academic standing results in exclusion from school
by the Registrar’s Office, the student is also excluded from
receiving financial aid. Student’s GPA requirements are evaluated
at the end of each term.

Students are required to earn a minimum number of hours
each academic year depending on their enrollment status.
Undergraduate, post-baccalaureate, and graduate students who
enroll for full-time, three-quarter time or part-time course work
throughout each academic year should complete 66% of all
attempted hours registered for during each academic year. Note
that these are minimum requirement standards and that most
students will complete the required course work at a faster rate.
Students’ incremental progress is evaluated biannually at the end of
the Spring term and at the end of the Summer term for students
taking summer course work.

Students in a Masters program who have attempted more than
150% of the published length of a degree program will have their
aid terminated. (A student with at least a 3.0 cumulative grade
point average and is projected to receive his/her degree the term
immediately after earning the maximum hours will be considered
making satisfactory progress.) Students’ maximum time frame
progress is evaluated biannually at the end of spring term and
at the end of summer term for students taking summer course
work.

The Master’s Degree
Admission and General Requirements

To gain admission to a Master’s program, the student must be
recommended for admission by the graduate faculty of the
department or school in which study is proposed and approved
for admission to the degree program by the College of Graduate
Studies.

To be eligible to be awarded the degree, the student must complete
the minimum number of credit hours required for the degree,
successfully pass the comprehensive or terminal examination (if
required), successfully defend the thesis (if required), have an
approved program study on file in the College of Graduate Studies,
have a cumulative graduate grade point average of at least 3.0, have
no grades of “I” or “IP” on the graduate transcript and must have
applied for graduation by the graduation application deadline.

The College of Graduate Studies recognized three different plans
for a master’s degree and the graduate faculty in each academic
unit may accept one or more of them. The possibilities are:

Thesis option: As part of a degree program the student will
complete a thesis for a minimum of 6 credits.

Course work option: The student’s degree program will consist
of course work only, but it will include evidence of advanced
work, such as term papers, objects of art, music or designs, as
determined by the graduate faculty of the department or school.

Internship option: Students in certain designated degree programs
must complete a supervised internship.

Not all master’s degree programs offer all these options, and a
student may not select a plan that has not been approved by the
graduate faculty of the program in which he or she is enrolled.

Master’s degree seeking students must demonstrate competency
in their study area as determined by the academic program.
Competency is demonstrated in one or more of the following
ways: (a) pass a final comprehensive and/or oral examination,
(b) present a satisfactory portfolio, (c) thesis defense, (d) studio
exhibition or recital.

To be awarded a master’s degree, the student (a) must not be on
academic probation, (b) must have a cumulative graduate grade
point average (GPA) of 3.0 or higher, (c) must have an approved
program of study on file in the College of Graduate Studies, (d)
must meet all the requirements of the College of Graduate Studies
and the student’s academic program area, (e) have no grades of “I”
or “IP” on the graduate transcript, and (f) if enrolled in a program
that requires a thesis or internship - must be enrolled during each
semester in which the thesis or internship is active and where
university staff, faculty or facilities are utilized and be enrolled
the semester in which the degree requirements are completed.

The Masters Program Advisor

The Graduate Program Advisor or Department Chairperson will
assign a graduate faculty member to serve as the student’s program
advisor at the time the student is recommended for admission.
The student will be officially notified of his/her advisor in the
formal admission letter from the College of Graduate studies.

Change of Advisor - A student may request a change of advisor
through the Department Chairperson or Graduate Program
Director. If the department approves an advisor change, the
department and/or graduate program director will notify the
College of Graduate Studies of the change. The College of
Graduate Studies will make the advisor change to the BANNER
student record system.

The Master’s Thesis Supervisory Committee

The Graduate Program Director or Chairperson of the academic
unit to which the student has been admitted should assign an
advisor to the master’s candidate before the first registration.
Within the first year of study, the student in a degree program that
requires a thesis should assemble a thesis supervisory committee
including a major professor and at least two other graduate faculty.
After approval, the Dean of the College of Graduate Studies will
formally approve the supervisory committee. This committee will
advise in developing a program of study, supervise the student’s
progress, and conduct the final examination. The major professor
serves as chair of the supervisory committee.
The Program of Study (Pos)

Every master’s student must file with the College of Graduate Studies a Program of Study, a formal list of the courses the student intends to take to fulfill the requirements of the degree. The program of study should consist solely of courses directly related to the master’s degree. The Program of Study must be signed by the student, Advisor, and Graduate Program Director or Department Chair before being submitted to the College of Graduate Studies for final approval. The POS must be submitted to the College of Graduate Studies not later than the end of the semester or term proceeding the expected graduation term. Subsequent changes in the program may be submitted on an Amended Program of Study form or by filing a revised Program of Study that is signed by all persons as stated above. A revised Program of Study must be approved by the College of Graduate Studies before graduation.

Courses

Graduate study demands a high degree of intellectual aptitude. It presupposes a broad preparation and involves the acquisition of specialized knowledge. These facts should be reflected in the graduate student’s program of study.

Course Levels and Programs

Master’s students must earn at least 50 per cent of their degree program credit hours in courses that are restricted to graduate students only (numbered 6000 or above). Courses at the 5000G level may be included providing the student was enrolled in a 5000 level course with a “G” suffix, which designates the course a graduate level course.

Independent Study

A maximum of six (6) credits earned in “Independent Study” may apply toward a graduate degree, providing the student was classified under “Regular” admission at the time the Independent Study courses were taken and providing the student’s advisor recommends the courses as part of the program of study.

Correspondence Study

Credits taken by correspondence study or by extension are not permitted to be counted toward degree program requirements.

Courses Applied Toward Two Degrees

No graduate student may use credit from the same course in meeting the requirements for both an undergraduate and a graduate degree. A student pursuing a second Master’s degree may count up to nine (9) credit hours from the first earned Master’s degree toward requirement for the second degree providing the courses are recommended by the student’s advisor and the first master’s degree has been completed before the second degree.

A person may earn a master’s degree or a doctorate at Georgia Southern University after receiving the same degree, in the same or another field, at another institution. The degree sought at Georgia Southern University is subject to the same provisions for transfer of credit as a first degree. If a master’s degree is sought at this University after earning a doctorate here, a maximum of nine (9) credit hours from the doctoral work may be applied toward the master’s degree.

Transfer of Credit

Georgia Southern University may accept graduate credit from a regionally accredited institution. Additionally, graduate credit from the American Council of Education (ACE) for National Board Certification credit may be accepted for elective credit in a Master’s program of study. A maximum of six (6) semester hours of transferred graduate credits may apply toward a Master’s degree provided:

1. The institution offers the graduate degree program for which the student has been admitted at Georgia Southern University (Not required for transfer of ACE transcript credit.);
2. Official transcripts showing all transfer credits are sent directly to the College of Graduate Studies from the institution(s) in which the graduate work was taken;
3. The credit was earned no more than seven years prior to date of completion of the graduate degree to which the work is to be credited at Georgia Southern;
4. The student’s major professor or advisor has approved the transfer credit as part of the student’s planned program of study;
5. No grade lower than a “B” in a course earned at another institution may be accepted in transfer credit to count toward a graduate degree at Georgia Southern University.

Research conducted outside an academic program cannot be accepted for credit as part of a program of study.

Off-Campus Courses

Graduate courses taught at off-campus centers or other locations are counted toward degree requirements consistent with the student’s admission status.

Off-Campus Research

Special difficulties arise in guiding graduate students when they are engaged in protracted off-campus research, whether that research is in the field, in the laboratory, or in the library. Therefore, supervisory committees must take adequate steps to ensure appropriate guidance. As a minimal requirement, the student must submit to the supervisory committee a well-formulated research plan, including objectives and methodology, and the committee must review and approve the plan before the student departs for the research site and indicate approval on the program of study. In addition, the supervisory committee may require:

1. that the major professor and/or a competent local authority who can reliably guide the student provide continuing on-site supervision.
2. that the student provides the supervisory committee with frequent, periodic estimates of performance and progress. The committee may also require that a competent local authority authenticate these.
3. that the major professor carries out local inspections of the student’s activities.

Regardless of the location at which the research is conducted, the final written and/or oral examination will normally be given on the Statesboro campus. Exceptions can be made if requested by the student, recommended by the supervisory committee, and approved by the Department Head or Graduate Program Director and the Dean of the College of Graduate Studies. In the case of an examination in which the participants are not all in the same location, any technology used to conduct the examination must support simultaneous oral interaction between the student and all members of the examining committee. When unusual circumstances arise in the guidance of off-campus students, supervisory committees should consult with the Dean of the College of Graduate Studies.

Course Load

A graduate student may not enroll in more than 12 semester credit hours in any one semester or term without written permission from the College of Graduate Studies.

Course Time Limit and Residence

All course work credited toward the degree must be completed within seven years of the degree completion term. Extension of time may be granted only on conditions beyond the control of the student. A formal request outlining the extenuating circumstances for an extension of time must be addressed to the College of Graduate Studies.

Grade Requirements

Graded Work

Graduate work is graded A, B, C, D, F, satisfactory/unsatisfactory, incomplete, in progress or withdrawn. For graduate credit, the grade in a course must be a minimum grade of “C.” To remain in good standing, a student must maintain a cumulative graduate GPA of 3.0 or higher. To be awarded a graduate degree, the student
(a) must not be on probation (see Section F.2), (b) must have a cumulative GPA of 3.0 or higher on all graduate course work attempted and on course work on the program of study, (c) must meet all the requirements of the College of Graduate Studies, the student’s academic program area, and the student’s supervisory committee, and (d) must be enrolled during the semester in which the degree requirements are completed if completing a thesis.

A student may not repeat any course for credit for which he/she has already received a minimum grade of “C” unless specifically permitted by the degree program department policy.

Satisfactory/Unsatisfactory Graded Work
Certain courses including thesis and internship credit may be graded on a satisfactory/unsatisfactory (S/U) basis. A grade of “S” indicates that credit has been given for completion of the credit and the credit may count toward degree requirements. A grade of “U” indicates unsatisfactory progress in the course and credit may not be counted toward degree requirements. Satisfactory/Unsatisfactory graded work is not computed in the grade point average.

In-Progress (IP) Grade
“IP” indicates that credit has not been given in courses that require an “IP” continuation of work beyond the term for which the student signed up for the course. The use of these symbols is approved for dissertation and thesis hours and project courses. With the exception of Learning Support courses and Regents’ Test review courses, these symbols cannot be used for other courses. These symbols cannot be substituted for an “I”.

Incomplete Policy
An incomplete grade “I” may be given to a student providing the student was doing satisfactory work in a course but was unable to meet the full requirements of the course due to non-academic reasons beyond his/her control. An “I” must be removed within one calendar year following the term in which the “I” grade was recorded. It is the student’s responsibility to insure that the course work is completed. If the “I” is not satisfactorily removed at the appropriate time it will be changed to an “F”. A student may not graduate with any “I” grades on their transcript.

Withdrawal
Once a student submits an Official Withdrawal Form to the Office of the Dean of students, a “W” (Withdraw) grade is assigned to all courses, which indicates that the student has officially withdrawn from Georgia Southern University. The “W” grades are assigned in all cases where a student withdraws prior to or on the last day to drop without academic penalty. Beyond the last day to drop, a “WF” (Withdraw - Failing) is assigned except in cases of hardship, as determined by the instructor. A student may not submit an Official Withdrawal Form to the Office of the Dean of Students after the last day of classes. A “W” is not computed in the grade point average. The “WF” is computed in the grade point average as an “F”.

Inactive Status and Probation
Inactive Status
A student who does not enroll for one semester is considered inactive and must have their enrollment eligibility updated by the College of Graduate Studies. In order to be allowed to resume graduate studies, the student must meet all requirements for entry in force at the time of the new application. Inactive students who seek to regain active status will not, however, be required to recreate materials submitted with their original applications and held in their files by the College of Graduate Studies. If allowed to regain active status, the formerly inactive student will be subject to all requirements in force in his or her graduate program and in the College of Graduate Studies at the time the student returns to active status.

Probation
A student whose cumulative graduate grade point average falls below 3.0 upon the completion of nine (9) credit hours will be placed on academic probation. If the cumulative GPA remains below 3.0 after the completion of nine (9) additional credit hours, the student will be excluded from the program and is ineligible to continue graduate work. Only credit earned in graduate courses at Georgia Southern University may be used to repair a GPA deficiency. In certain departments, a student will be excluded from the degree program upon earning more than two (2) grades of “C” or below.

Removal from Probation
Students placed on academic probation will be reinstated to good standing providing they raised their cumulative graduate grade point average to at least 3.0 upon completing a maximum of nine (9) semester hours following the effective probation term. Except in certain departments, courses may not be repeated in courses in which a grade of “C” is earned.

Repeated Courses
Except in certain departments, courses may not be repeated in which a grade of “C” is earned. Courses in which grades of “D” or below were earned must be repeated. The GPA is calculated based upon all work attempted (cumulative), therefore, repeating a course will not remove the original grade.

Exclusion and Reinstatement
Exclusion
A graduate student will be denied continued enrollment at Georgia Southern University for any of the following reasons:
1. Failure of a student placed on academic probation to meet the conditions of probation.
2. Failure to meet the conditions of Provisional Admission.
3. Failure to meet specified academic requirements as set by the department offering the program.
4. Failure to comply with the Academic Dishonesty section of the Student Conduct Code.

Reinstatement
Students excluded from a degree program due to academic reasons may appeal for reinstatement following exclusion. To appeal for reinstatement, the student must submit a letter to the College of Graduate Studies specifically indicating what the student is appealing and the justification for filing the appeal. At least three letters of support must accompany the appeal from the department graduate faculty. The appeal will be reviewed by the academic department, the college appeals committee (if appropriate), and the college dean. A recommendation will be forwarded to the College of Graduate Studies for review by the Dean of the College of Graduate Studies. If the Dean of the College of Graduate Studies approves the appeal, the appellant will be allowed to proceed toward the degree under conditions specified by the appropriate department and/or college.

Foreign Language Requirement
The College of Graduate Studies has no requirement for a language other than English for the master’s degree. Individual academic units may establish, with approval of the Graduate Committee, language requirements for their degree programs and may define the level of competence needed to satisfy those requirements.

Final Comprehensive Examination
A final oral examination or a comprehensive written examination or both may be required for a master’s degree. The examination will be administered after the student has completed the program of study and other requirements or in the term in which the candidate intends to complete them. Examinations may take the form of a defense of the thesis, an interpretation of other scholarly work, a portfolio of the student’s work or a test of the student’s understanding of the field. The academic unit determines the format of the examination and, along with the supervisory committee for programs requiring a thesis is responsible for
its administration. The Department Chair, Graduate Program Director or major professor is responsible for returning the signed ballot to the College of Graduate Studies. Normally, final oral examinations will be given on the Statesboro campus. Exceptions can be made if requested by the student, recommended by the supervisory committee, and approved by the Department Chair or Graduate Program Director and the Dean of the College of Graduate Studies. In the case of an examination in which the participants are not all in the same location, any technology used to conduct the examination must support simultaneous oral interaction between the student and all members of the examining committee. Copies of the questions for all final written examinations must be filed with the academic unit. In the case of a candidate writing a thesis, the examination cannot be scheduled until the supervisory committee certifies that a satisfactory copy of the thesis has been presented. Final examinations should be scheduled no later than three weeks prior to the last class day for the term so as to give the supervisory committee at least two weeks to review the thesis.

Thesis
A master’s thesis presents the results of an original investigation of a problem or topic approved by the candidate’s supervisory committee. Its purpose is to demonstrate the candidate’s ability to conduct original research of a type appropriate to the academic discipline, to analyze the information obtained from the research, and to present the results in a form acceptable to the supervisory committee. Candidates who undertake a thesis should schedule their work to allow sufficient time for review by the major professor and the supervisory committee and for making any necessary revisions before proceeding to the final examination. With unanimous approval of the supervisory committee, a student majoring in Modern Languages may write a thesis or report in a language other than English, provided that the language is clearly appropriate to the subject matter. If the thesis requires the use of human subjects, animals, or biohazardous materials, the student is required to comply with University policies and procedures. The compliance policies and procedures can be found at http://academics.georgiasouthern.edu/research/.

The candidate must provide a copy of the thesis to each member of the supervisory committee and all members of the committee must certify that they have received acceptable copies of the thesis or report before a final examination can be scheduled. A copy of the thesis must also be available at the examination. Following a successful final examination, the candidate must submit an electronic copy of the thesis to the College of Graduate Studies. Theses submitted to the College of Graduate Studies must be in final and acceptable form, incorporating any revisions required by the supervisory committee. The final copy must also conform to the stylistic guidelines adopted by the academic unit established by the College of Graduate Studies. Information regarding the ETD can be found on the COGS web page at http://academics.georgiasouthern.edu/etd/.

Preparing For Graduation
Application for Graduation. This is the formal request for the Registrar’s Office to begin proceedings for declaration of the degree. It must be received in the Registrar’s Office not later than the end of the semester or term prior to the expected graduation term. Students should send the completed Application for Graduation Form to: Georgia Southern University, Registrar’s Office, P.O. Box 8092, Statesboro, GA 30460-8092, (912) 681-0432, Email: taylor@georgiasouthern.edu. The form is online at: http://students.georgiasouthern.edu/registrar/GradGradApp.html.

Program of Study Form. The Program of Study Form confirms that you have taken the courses required for your graduate degree. The Program of Study Form must be submitted to the College of Graduate Studies.

Graduation Fee Payment. A non-refundable fee of $50 is required to cover the processing of the graduation and the diploma. Payment should be received by the end of the term in which the student plans to graduate. It is best to attach the graduation fee (check or money order made payable to the Application for Graduation. Credit card payments are also accepted at the Georgia Southern University Cashier’s Office, Deal Hall, (912) 681-0020.

Graduate Program Exit Survey. Complete the College of Graduate Studies Exit Survey and return to the College of Graduate Studies, Georgia Southern University, PO Box 8008, Statesboro, GA 30460, (912) 681-0578, Email: gradschool@georgiasouthern.edu.

Graduate in Absentia Form. If students do not plan on attending the commencement, they must complete the Request to Graduate in Absentia Form. The completed form should be sent to: Georgia Southern University, Registrar’s Office, PO Box 8092, Statesboro, GA 30460-8092, (912) 681-0432, Email: tsaylor@georgiasouthern.edu.

Reserve Graduation Attire. Graduation attire should be reserved 8 weeks before graduation. Students must contact Herff Jones with their height, cap size, degree, and major at: Herff Jones, 32 Lindberg Street, Statesboro, GA 30458, Telephone: (912) 764-9314, Fax: (912) 764-9550, Email: roderick@frontiernet.net.

Pay Outstanding Debts. All debts to Georgia Southern University must be paid in full. To determine debts such as parking tickets, library fees, fines, etc., students should contact the Cashier’s Office at: Georgia Southern University, Cashier’s Office, Deal Hall, (912) 681-0020.

Diploma Address. The GSU Registrar’s Office will mail the diploma to students 4-6 weeks after graduation if the student applied for graduation three semesters before completion. Students are strongly encouraged to update the Diploma Address (DA) and graduation e-mail address on WINGS before the end of the semester in which you are completing the degree requirements.

Important Degree Completion Activities for Master’s Candidates. Students should:
• have satisfied the Foreign Language requirement if completing a master’s program in which a Foreign Language is required.
• have accumulated the minimum number of credit hours required for the degree.
• have completed the courses required for the degree.
• have no grades of “I” or “IP” on your graduate transcript.
• have a cumulative graduate GPA of at least 3.0. M.Ed. and Ed.S. candidates must also have a GPA of at least 3.0 in the degree major courses.
• are registered in at least one (1) credit hour if completing a degree program in which an internship is being conducted, or project or thesis is being completed.
• take and pass the comprehensive examination (or equivalent in your department) if required for your degree program by the deadline. Your advisor must submit the Report on Comprehensive Examination/Thesis Defense Form to the College of Graduate Studies by the deadline.
• pass the thesis or internship defense by the deadline if completing a degree program in which a thesis or internship is required.
• submit the electronic thesis for format review by the College of Graduate Studies by the deadline.
• submit the final electronic version of the approved thesis to the College of Graduate Studies by the deadline.
• complete the Institutional Review Board (IRB) termination notification through the Office of Research Services and Sponsored Programs by the deadline.
The Education Specialist Degree

Admission and General Requirements

To gain admission to an Education Specialist program, the student must be recommended for admission by the graduate faculty of the department or school in which study is proposed and approved for admission to the degree program by the College of Graduate Studies.

To be eligible to be awarded the education specialist degree, the student (a) must not be on academic probation, (b) must have a cumulative graduate grade point average (GPA) of 3.0 or higher, (c) must have an approved program of study on file in the College of Graduate Studies, and, (d) must meet all the requirements of the College of Graduate Studies and the student’s academic program area, and (e) applied for graduation by the graduation application deadline.

The Education Specialist Program Advisor

The Graduate Program Advisor or Department Chairperson will assign a graduate faculty member to serve as the student’s program advisor at the time the student is recommended for admission. The student will be officially notified of his/her advisor in the formal admission letter from the College of Graduate studies.

Change of Advisor - A student may request a change of advisor through the Department Chairperson or Graduate Program Director. If the department approves an advisor change, the department and/or graduate program director will notify the College of Graduate Studies of the change. The College of Graduate Studies will make the advisor change to the BANNER student record system.

The Program of Study

Every education specialist student must file with the College of Graduate Studies a Program of Study, a formal list of the courses the student intends to take to fulfill the requirements of the degree. The program of study should consist solely of courses directly related to the master’s degree. The student should prepare the program of study in consultation with the graduate advisor. The Program of Study must be signed by the student, advisor, and Graduate Program Director or Department Chair before being submitted to the College of Graduate Studies for final approval by the College of Graduate Studies. The Program of Study must be submitted to the College of Graduate Studies not later than the end of the semester or term prior to the expected graduation term. Subsequent changes in the program may be submitted on an Amended Program of Study form or by filing a revised Program of Study that is signed by all persons as stated above. A revised Program of Study must be approved by the College of Graduate Studies before graduation.

Courses

Graduate study demands a high degree of intellectual aptitude. It presupposes a broad preparation and involves the acquisition of specialized knowledge. These facts should be reflected in the graduate student’s program of study.

Course Levels and Programs

Master’s students must earn at least 50% of their degree program credit hours in courses that are open to graduate students only (numbered 6000 or above). Courses at the 5000G level may be included providing the student was enrolled in a 5000 level courses with a “G” suffix that designates the course a graduate level course.

Independent Study

A maximum of six (6) credits earned in “Independent Study” may apply toward a graduate degree, providing the student was classified under “Regular” admission at the time the Independent Study courses were taken and providing the student’s advisor recommends the courses as part of the program of study.

Correspondence Study

Credits taken by correspondence study or by extension are not permitted to be counted toward degree program requirements.

Courses Applied Toward Two Degrees

No graduate student may use credit from the same course in meeting the requirements for both an undergraduate and a graduate degree. A student pursuing the Education Specialist degree may count, with the advisor’s recommendation, up to nine (9) credit hours of non-degree work toward the specialist degree.

A person may earn a specialist degree or a doctorate at Georgia Southern University after receiving the same degree, in the same or another field, at another institution. The degree sought at Georgia Southern University is subject to the same provisions for transfer of credit as a first degree. If a specialist degree is sought at this University after earning a doctorate here, a maximum of nine (9) credit hours from the doctoral work may be applied toward the specialist degree.

Transfer of Credit

Georgia Southern University accepts graduate credit from a regionally accredited institution for recording on a permanent record. Additionally, graduate credit from the American Council of Education (ACE) for National Board Certification credit may be accepted for elective credit in an Education Specialist’s program of study. A maximum of six (6) semester hours of transferred graduate credits may apply toward an Education Specialist’s degree provided:

• The institution offers the graduate degree program for which the student has been admitted at Georgia Southern University (Not required for transfer of ACE transcript credit);
• Official transcripts showing all transfer credits are sent directly to the College of Graduate Studies from the institution(s) in which the graduate work was taken;
• The credit was earned no more than seven years prior to date of completion of the graduate degree to which the work is to be credited at Georgia Southern University;
• The student’s major professor or advisor has approved the transfer credit as part of the student’s planned program of study.

No grade lower than a “B” in a course earned at another institution may be accepted in transfer credit to count toward a graduate degree at Georgia Southern University.

Research conducted outside an academic program cannot be accepted for credit as part of a program of study.

Off-Campus Courses

Graduate courses taught at off-campus centers or other locations are counted toward degree requirements consistent with the student’s admission status.

Off-Campus Research

Special difficulties arise in guiding graduate students when they are engaged in protracted off-campus research, whether that research is in the field, in the laboratory, or in the library. Therefore, supervisory committees must take adequate steps to ensure appropriate guidance. As a minimal requirement, the student must submit to the supervisory committee a well-formulated research plan, including objectives and methodology, and the committee must review and approve the plan before the student departs for the research site and indicate approval on the program of study. In addition, the supervisory committee may require:

1. that the major professor and/or a competent local authority who can reliably guide the student provide continuing on-site supervision.
2. that the student provides the supervisory committee with frequent, periodic estimates of performance and progress. The committee may also require that these be authenticated by a competent local authority.
3. that the major professor carries out local inspections of the student’s activities.
Regardless of the location at which the research is conducted, the final written and/or oral examination will normally be given on the Statesboro campus. Exceptions can be made if requested by the student, recommended by the supervisory committee, and approved by the Department Head or Graduate Program Director and the Dean of the College of Graduate Studies. In the case of an examination in which the participants are not all in the same location, any technology used to conduct the examination must support simultaneous oral interaction between the student and all members of the examining committee. When unusual circumstances arise in the guidance of off-campus students, supervisory committees should consult with the Dean of the College of Graduate Studies.

Course Load
A graduate student may not enroll in more than 12 semester credit hours in any one semester or term without written permission from the College of Graduate Studies.

Course Time Limit and Residence
All course work credited toward the degree must be completed within seven years. Extension of time may be granted only on conditions beyond the control of the student. A formal request outlining the extenuating circumstances for an extension of time must be addressed to the College of Graduate Studies.

Grade Requirements
Graded Work
Graduate work is graded A, B, C, D, F, satisfactory/unsatisfactory, incomplete, in progress or withdrawn. For graduate credit, the grade in a course must be a minimum grade of “C”. To remain in good standing, a student must maintain a cumulative graduate GPA of 3.0 or higher. To be awarded a graduate degree, the student (a) must not be on probation (see Section F.2), (b) must have a cumulative GPA of 3.0 or higher on all graduate course work attempted and on course work on the program of study, (c) must meet all the requirements of the College of Graduate Studies, the student’s academic program area, and the student’s supervisory committee, and (d) must be enrolled during the semester in which the degree requirements are completed if completing a thesis. A student may not repeat any course for credit for which he/she has already received a grade of “C” or better unless specifically permitted by the degree program department policy.

Satisfactory/Unsatisfactory Graded Work
Certain courses including thesis and internship credit may be graded on a satisfactory/unsatisfactory (S/U) basis. A grade of “S” indicates that credit has been given for completion of the credit and the credit may count toward degree requirements. A grade of “U” indicates unsatisfactory progress in the course and credit may not be counted toward degree requirements. Satisfactory/Unsatisfactory graded work is not computed in the grade point average.

In-Progress (IP) Grade
“IP” indicates that credit has not been given in courses that require an “IP” continuation of work beyond the term for which the student signed up for the course. The use of these symbols is approved for dissertation and thesis hours and project courses. With the exception of Learning Support courses and Regents’ Test review courses, these symbols cannot be used for other courses. These symbols cannot be substituted for an “I”.

Incomplete Policy
An incomplete grade “I” may be given to a student providing the student was doing satisfactory work in a course but was unable to meet the full requirements of the course due to non-academic reasons beyond his/her control. An “I” must be removed within one calendar year following the term in which the “I” grade was recorded. It is the student’s responsibility to insure that the course work is completed. If the “I” is not satisfactorily removed at the appropriate time it will be changed to an “F”. A student may not graduate with any “I” grades on the transcript.

Withdrawal
Once a student submits an Official Withdrawal Form to the Office of the Dean of students, a “W” (Withdraw) grade is assigned to all courses, which indicates that the student has officially withdrawn from Georgia Southern University. The “W” grades are assigned in all cases where a student withdraws prior to or on the last day to drop without academic penalty. Beyond the last day to drop, a “WF” (Withdraw - Failing) is assigned except in cases of hardship, as determined by the instructor. A student may not submit an Official Withdrawal Form to the Office of the Dean of Students after the last day of classes. A “W” is not computed in the grade point average. The “WF” is computed in the grade point average as an “F”.

Inactive Status and Probation
Inactive Status
A student who does not enroll for one semester is considered inactive and must have their enrollment eligibility updated to be eligible to enroll in subsequent semesters. A student who does not enroll for one academic year must re-apply to (and be accepted into) a graduate program before being considered for re-entry by the College of Graduate Studies. In order to be allowed to resume graduate studies, the student must meet all requirements for entry in force at the time of the new application. Inactive students who seek to regain active status will not, however, be required to recreate materials submitted with their original applications and held in their files by the College of Graduate Studies. If allowed to regain active status, the formerly inactive student will be subject to all requirements in force in his or her graduate program and in the College of Graduate Studies at the time the student returns to active status.

Probation
A student whose cumulative graduate grade point average falls below 3.0 upon the completion of nine (9) credit hours will be placed on academic probation. If the cumulative GPA remains below 3.0 after the completion of nine (9) additional credit hours, the student will be excluded from the program and is ineligible to continue graduate work. Only credit earned in graduate courses at Georgia Southern University may be used to repair a GPA deficiency. In certain departments, a student will be excluded from the degree program upon earning more than two (2) grades of “C” or below.

Removal from Probation
Students placed on academic probation will be reinstated to good standing providing they raised their cumulative graduate point average to at least 3.0 upon completing a maximum of nine (9) semester hours following the effective probation term. Except in certain departments, courses may not be repeated in which a grade of “C” is earned.

Repeated Courses
Except in certain departments, courses may not be repeated in which a grade of “C” is earned. Courses in which grades of “D” or below are earned must be repeated. The GPA is calculated based upon all work attempted (cumulative), therefore, repeating a course will not remove the original grade.

Exclusion and Reinstatement
Exclusion
A graduate student will be denied continuation enrollment at Georgia Southern University for any of the following reasons:
1. Failure of a student placed on academic probation to meet the conditions of probation.
2. Failure to meet the conditions of Provisional Admission.
3. Failure to meet specified academic requirements as set by the department in study is pursued.
4. Failure to comply with the Academic Dishonesty section of the Student Conduct Code.

Reinstatement
Students excluded from a degree program due to academic reasons may appeal for reinstatement following exclusion. To
appeal for reinstatement, the student must submit a letter to the College of Graduate Studies specifically indicating what the student is appealing and the justification for filing the appeal. At least three letters of support must accompany the appeal from the department graduate faculty. The appeal will be reviewed by the academic department, the college appeals committee (if appropriate), and the college dean. A recommendation will be forwarded to the College of Graduate Studies for review by the Dean of the College of Graduate Studies. If the Dean of the College of Graduate Studies approves the appeal, the appellant will be allowed to proceed toward the degree under conditions specified by the appropriate department and/or college.

Preparing for Graduation
Application for Graduation. This is the formal request for the Registrar’s Office to begin proceedings for declaration of the degree. It must be received in the Registrar’s Office not later than the end of the semester or term prior to the expected graduation term. Students should send the completed Application for Graduation Form to: Georgia Southern University, Registrar’s Office, P.O. Box 8092, Statesboro, GA 30460-8092, (912) 681-0432, Email: tsaylor@georgiasouthern.edu. The form is online at: http://students.georgiasouthern.edu/registrar/GradGradApp.html.

Program of Study Form. The Program of Study Form confirms that you have taken the courses required for your graduate degree. The Program of Study Form must be submitted to the College of Graduate Studies not later than the end of the semester or term prior to the expected graduation term.

Graduation Fee Payment. A non-refundable fee of $50 is required to cover the processing of the graduation and the diploma. Payment should be received by the end of the term in which the student plans to graduate. It is best to attach the graduation fee (check or money order made payable to GSU) to the Application for Graduation. Credit card payments are also accepted at the Georgia Southern University Cashier’s Office, Deal Hall, (912) 681-0020.

Graduate Program Exit Survey. Complete the College of Graduate Studies Exit Survey and return to the College of Graduate Studies, Georgia Southern University, P.O. Box 8008, Statesboro, GA 30460, (912) 681-0578, Email: gradschool@georgiasouthern.edu.

Graduate in Absentia Form. If students do not plan on attending the commencement, they must complete the Request to Graduate in Absentia Form. The completed form should be sent to: Georgia Southern University, Registrar’s Office, P.O. Box 8092, Statesboro, GA 30460-8092, (912) 681-0432, Email: tsaylor@georgiasouthern.edu.

Reserve Graduation Attire. Graduation attire should be reserved 8 weeks before graduation. Students must contact Herff Jones with their height, cap size, degree, and major at: Herff Jones, 32 Lindberg Street, Statesboro, GA 30458, Telephone: (912) 764-9314, Fax: (912) 764-9550, Email: roderick@frontiernet.net.

Pay Outstanding Debts. All debts to Georgia Southern University must be paid in full. To determine debts such as parking tickets, library fines, fines, etc., students should contact the Cashier’s Office at: Georgia Southern University, Cashier’s Office, Deal Hall, (912) 681-0020.

Diploma Address. The GSU Registrar’s Office will mail the diploma to students 4-6 weeks after graduation if the student applied for graduation three semesters before completion. Students are strongly encouraged to update the Diploma Address (DA) and graduation e-mail address on WINGS before the end of the semester in which you are completing the degree requirements.

Important Degree Completion Activities for Ed.S. Candidates. Students should:
- have accumulated the minimum number of credit hours required for the degree
- have completed the courses required for the degree
- have no grades of “I” or “IP” on your graduate transcript
- have a cumulative graduate GPA of at least 3.0. Ed.S. candidates must also have a GPA of at least 3.0 in the degree major courses.
- take and pass the comprehensive examination (or equivalent in your department) if required for your degree program by the deadline. Your advisor must submit the Report on Comprehensive Examination/Thesis Defense Form to the College of Graduate Studies by the deadline.
- complete the Institutional Review Board (IRB) termination notification through the Office of Research Services and Sponsored Programs by the deadline.

The Doctoral Degree
Admission and General Requirements
To gain admission to a doctoral program, the student must be approved for admission both by the graduate faculty of the department and by the College of Graduate Studies. The Ed.D. in Educational Administration requires a minimum of 75 semester hours (including a minimum of nine (9) semester hours of dissertation credit) beyond the master’s while the Ed.D. in Curriculum Studies requires a minimum of 63 semester hours (including a minimum of nine (9) semester hours of dissertation credit) beyond the master’s. Students who hold an education specialist degree may request transfer of all or part of the Ed.S. degree work toward the doctoral degree. The regulations governing supervisory and examining committees, preliminary and final examinations, and dissertations are the same for both degrees. The Ed.D. is awarded to candidates who have demonstrated unique ability as scholars and researchers as well as proficiency in communication. The degree also certifies that the candidate has displayed familiarity and understanding of the subject matter in the discipline and possesses the ability to make original contributions to knowledge.

The Supervisory Committee
Upon admission to a doctoral program, the student confers with the degree program coordinator of the academic program and selects an advisor, or “major professor,” from among the graduate faculty who are certified to direct dissertations and who are willing to assume the responsibility. Upon the recommendation of the program coordinator of the academic program and the department chair, the Dean of the College of Graduate Studies appoints a supervisory committee consisting of the major professor, who chairs the committee, and at least three other members of the graduate faculty. On doctoral committees having co-major professors, both must be certified to direct dissertations. One member of the supervisory committee must be a graduate faculty member from outside the major professor’s department. In addition to the members recommended, the Dean of the College of Graduate Studies may appoint other members to the supervisory committee from the graduate faculty. All members of a student’s supervisory committee participate as peers and have the responsibility for planning the program of study, advising the student, administering the preliminary examination, and ensuring that the student’s doctoral program is of high quality. In consultation with the student, the supervisory committee is responsible for advising on the courses to be taken, approving plans for developing the student’s capacity for productive scholarship, ensuring that University regulations and program requirements are met, and making adjustments in the program of study.

The Program of Study
Every doctoral student must file with the College of Graduate Studies a Program of Study, a formal list of the courses the student intends to take to fulfill the requirements of the degree. The program of study should consist solely of courses directly related
to the doctoral degree. The program of study, signed by the student and approved by the Supervisory Committee, the Department Chair and the Dean of the College of Graduate Studies, must be submitted along with the Application for Graduation not later than the end of the semester or term prior to the expected graduation term. Subsequent changes in the program may be submitted on an Amended Program of Study form or by filing a revised Program of Study that is signed by all persons as stated above.

Courses
Graduate study demands a high degree of intellectual aptitude. It presupposes a broad preparation and involves the acquisition of specialized knowledge. These facts should be reflected in the graduate student’s program of study.

Course Levels and Programs
While courses numbered 6000 and above are offered for graduate credit, courses numbered 9000 and above are open to doctoral students only. Courses numbered 5000G to 5999G may be taken for graduate credit but may not be counted toward Ed.D. requirements.

Independent Study
A maximum of six (6) credits earned in “Independent Study” may apply toward a graduate degree, providing the student was classified under “Regular” admission at the time the Independent Study courses were taken and providing the student’s advisor recommends the courses as part of the program of study.

Correspondence Study
Credits taken by correspondence study or by extension are not permitted to be counted toward degree program requirements.

Courses Applied Toward Two Degrees
No graduate student may use credit from the same course in meeting the requirements for both an undergraduate and a graduate degree. A graduate student may matriculate in two graduate programs concurrently. A graduate student pursuing two graduate degrees concurrently must complete all requirements for each degree.

A person may earn a specialist degree or a doctorate at Georgia Southern University after receiving the same degree, in the same or another field, at another institution. The degree sought at Georgia Southern University is subject to the same provisions for transfer of credit as a first degree. If a specialist degree is sought at this University after earning a doctorate here, a maximum of nine (9) credit hours from the doctoral work may be applied toward the specialist degree.

Transfer of Credit
A maximum of twenty-seven (27) post-master’s semester credit hours may be transferred to count toward requirements for the Ed.D. in Curriculum Studies while a maximum of thirty-six (36) post-master’s semester hours may be transferred to count toward the Ed.D. in Educational Administration provided:

- Official transcripts showing all transfer credits are sent directly to the College of Graduate Studies from the institution(s) in which the graduate work was taken
- The transfer credits taken after admission to the Ed.D. were earned no more than twelve years prior to date of completion of the Ed.D. Curriculum Studies degree program or eight (8) years prior to the completion of the Ed.D. Educational Administration degree program
- The student’s major professor or advisor has approved the transfer credit as part of the student’s planned program of study
- No grade lower than a “B” in a course earned at another institution may be accepted in transfer credit to count toward a graduate degree at Georgia Southern University

Research conducted outside an academic program cannot be accepted for credit as part of a program of study.

Off-Campus Courses
Graduate courses taught at off-campus centers or other locations may be counted toward degree requirements, however, may not count toward residency requirements unless the off-campus center or location is an approved Ed.D. residency center.

Off-Campus Research
Special difficulties arise in guiding graduate students when they are engaged in protracted off-campus research, whether that research is in the field, in the laboratory, or in the library. Therefore, supervisory committees must take adequate steps to ensure appropriate guidance. As a minimal requirement, the student must submit to the supervisory committee a well-formulated research plan, including objectives and methodology, and the committee must review and approve the plan before the student departs for the research site and indicate approval on the program of study. In addition, the supervisory committee may require:

1. that the major professor and/or a competent local authority who can reliably guide the student provide continuing on-site supervision.
2. that the student provides the supervisory committee with frequent, periodic estimates of performance and progress. The committee may also require that these be authenticated by a competent local authority.
3. that the major professor carries out local inspections of the student’s activities.

Regardless of the location at which the research is conducted, the final written and/or oral examination will normally be given on the Statesboro campus. Exceptions can be made if requested by the student, recommended by the supervisory committee, and approved by the Department Head or Graduate Program Director and the Dean of the College of Graduate Studies. In the case of an examination in which the participants are not all in the same location, any technology used to conduct the examination must support simultaneous oral interaction between the student and all members of the examining committee. When unusual circumstances arise in the guidance of off-campus students, supervisory committees should consult with the Dean of the College of Graduate Studies.

Course Load
A graduate student may not enroll in more than 12 semester credit hours in any one semester or term without written permission from the College of Graduate Studies.

Course Time Limit
1. Ed.D. - Curriculum Studies - All course work credited toward the degree must be completed within seven years following degree admission and after the first degree course registration. Students must complete and defend the dissertation within five years of admission to candidacy. If the time limits are not met, the student may be required to take additional course work and/or retake the Candidacy Examination.
2. Ed.D. - Educational Administration - All course work (except dissertation credit) credited toward the degree must be completed within three years of the student’s first registration in the degree program. A candidate who fails to complete all degree requirements within five years after passing the comprehensive examination and being admitted to degree candidacy will be withdrawn from the program or must retake the comprehensive examination to be reinstated.

Residency
Ed.D. - Curriculum Studies - One academic year of continual enrollment.

Ed.D. - Educational Administration - A student must be enrolled in a minimum of six (6) semester hours during each of two semesters (semesters do not have to be consecutive).

Grade Requirements
Graded Work
Graduate work is graded A, B, C, D, F, satisfactory/unsatisfactory,
incomplete, in progress or withdrawn. For graduate credit, the grade in a course must be a minimum grade of “C”. To remain in good standing, a student must maintain a cumulative graduate GPA of 3.5 or higher. To be awarded a graduate degree, the student (a) must not be on probation (see Section F.2), (b) must have a cumulative GPA of 3.5 or higher on all graduate course work attempted and on course work on the program of study, (c) must meet all the requirements of the College of Graduate Studies, the student’s academic program area, and the student’s supervisory committee, and (d) must be enrolled during the semester in which the degree requirements are completed if completing a dissertation.

A student may not repeat any course for credit for which he/she has already received a grade of “C” or better unless specifically permitted by the degree program department policy.

Satisfactory/Unsatisfactory Graded Work
Certain courses including thesis and internship credit may be graded on a satisfactory/unsatisfactory (S/U) basis. A grade of “S” indicates that credit has been given for completion of the credit and the credit may count toward degree requirements. A grade of “U” indicates unsatisfactory progress in the course and credit may not be counted toward degree requirements. Satisfactory/Unsatisfactory graded work is not computed in the grade point average.

In-Progress (IP) Grade
An In-Progress (IP) grade is used for thesis, internship or practicum credit designed to extend over more than one term. IP grades awarded while research is in progress are not subject to the incomplete “I” policy (see Section F.3) for course work.

Incomplete Policy
An incomplete grade “I” may be given to a student providing the student was doing satisfactory work in a course but was unable to meet the full requirements of the course due to non-academic reasons beyond his/her control. An “I” must be removed within one calendar year following the term in which the “I” grade was recorded. It is the student’s responsibility to ensure that the course work is completed. If the “I” is not satisfactorily removed at the appropriate time it will be changed to an “F”. A student may not graduate with any “I” grades on their transcript.

Withdrawal
Once a student submits an Official Withdrawal Form to the Office of the Dean of students, a “W” (Withdraw) grade is assigned to all courses, which indicates that the student has officially withdrawn from Georgia Southern University. The “W” grades are assigned in all cases where a student withdraws prior to or on the last day to drop without academic penalty. Beyond the last day to drop, a “WF” (Withdraw - Failing) is assigned except in cases of hardship, as determined by the instructor. A student may not submit an Official Withdrawal Form to the Office of the Dean of Students after the last day of classes. A “W” is not computed in the grade point average. The “WF” is computed in the grade point average as an “F”.

Inactive Status and Probation
Inactive Status:
A student who does not enroll for one semester is considered inactive and must have their enrollment eligibility updated to be eligible to enroll in subsequent semesters. A student who does not enroll for one academic year must re-apply to (and be accepted into) a graduate program before being considered for re-entry by the College of Graduate Studies. In order to be allowed to resume graduate studies, the student must meet all requirements for entry into force at the time of the new application. Inactive students who seek to regain active status will not, however, be required to recreate materials submitted with their original applications and held in their files by the College of Graduate Studies. If allowed to regain active status, the formerly inactive student will be subject to all requirements in force in his or her graduate program and in the College of Graduate Studies at the time the student returns to active status.

Probation
An Ed.D. student whose cumulative graduate grade point average falls below 3.5 upon the completion of nine (9) credit hours will be placed on academic probation. If the cumulative GPA remains below 3.5 after the completion of nine (9) additional credit hours, the student will be excluded from the program and is ineligible to continue graduate work. Only credit earned in graduate courses at Georgia Southern University may be used to repair a GPA deficiency.

Removal from Probation
Students placed on academic probation will be reinstated to good standing providing they raise their cumulative graduate point average to at least 3.5 upon completing a maximum of nine (9) semester hours following the effective probation term. Courses may not be repeated in which grades of “C” are earned.

Repeated Courses
Courses may not be repeated in which grades of “C” are earned. Courses in which grades of “D” or below are earned must be repeated. The GPA is calculated based upon all work attempted, therefore, repeating a course will not remove the original grade or credit hour total.

Exclusion and Reinstatement
Exclusion
A graduate student will be denied continued enrollment at Georgia Southern University for any of the following reasons:
1. Failure of a student placed on academic probation to meet the conditions of probation.
2. Failure to meet specified academic requirements as set by the department in which study is pursued.
3. Failure to comply with the Academic Dishonesty section of the Student Conduct Code.
4. Earning grades of “C” or below in two or more Ed.D. program courses.

Reinstatement
Students excluded from a degree program due to academic reasons, may appeal for reinstatement following exclusion. To appeal for reinstatement, the student must submit a letter to the College of Graduate Studies specifically indicating what the student is appealing and the justification for filing the appeal. At least three letters of support must accompany the appeal from the department graduate faculty. The appeal will be reviewed by the academic department, the college appeals committee (if appropriate), and the college dean. A recommendation will be forwarded to the College of Graduate Studies for review by the Dean of the College of Graduate Studies. If the Dean of the College of Graduate Studies approves the appeal, the appellant will be allowed to proceed toward the degree under conditions specified by the appropriate department and/or college.

Qualifying/Candidacy Examination
The student must be given a written preliminary examination, which may be supplemented by an oral examination as prescribed by the supervisory committee. These are designed to test the student’s breadth and depth of knowledge in the proposed field of specialization, as well as the student’s ability to explore problems on the boundaries of knowledge. Satisfactory performance in the examination is an indication that the student is prepared to perform independent work toward the doctoral degree and results in the student being classified as a doctoral candidate upon affirmative recommendation by the supervisory committee. The examination may be scheduled after the program of study is filed and at a time deemed appropriate by the supervisory committee. The preliminary examination must be completed at least 7 months before the final oral examination. Once the supervisory committee and the student decide when the examination is to be taken, the student should notify the College of Graduate Studies one month before the scheduled date. The College of Graduate Studies sends a ballot to the major professor. Copies of the examination are filed with the academic
unit and made available on request to any graduate faculty member for a period of two years from the date of examination. The results of the preliminary examination are indicated on the ballot by the signatures of those members of the departmental or program examining committee responsible for administration and grading of the examination. The format of the examination and the structure of the examining committee may differ among doctoral programs, and in some programs, the examining committee will differ from the supervisory committee. Within one week following the completion and determination of the results of the preliminary examination, including those of any oral portion, the supervisory committee must sign the ballot indicating that the preliminary examination has been completed and recommending approval or disapproval of the student’s admission to candidacy for the doctoral degree. The student is considered to have passed the examination and to be recommended to candidacy if at least three fourths of the supervisory committee voted to approve candidacy. In case of failure of the first preliminary examination, the supervisory committee may approve a second examination with no more than one dissenting vote. A second examination can be taken no sooner than three months following the initial failure. Once the supervisory committee and the student decide when the second examination is to be taken, the student should notify the College of Graduate Studies one month before the scheduled date. The composition of the supervisory committee shall not be changed before a final decision is reached on admission to candidacy. A second failure constitutes denial of admission to candidacy for the doctoral degree in the field of study of the graduate program. As with the first examination, the signed ballot must be returned to the College of Graduate Studies within one week of the determination of the results of the examination.

Candidacy
Upon satisfactory completion of program of study course work (except for the dissertation), with the minimum required grade point average, the preliminary and comprehensive/qualifying examinations, the dissertation prospectus and the residency requirement, the doctoral student is automatically advanced to candidacy for the degree.

The period of candidacy may last up to five years from the end of the semester in which the candidacy was granted. If a student fails to complete both the dissertation and final oral examination within this period, the student will be dropped from candidacy. Any student whose candidacy has thus lapsed may regain the status of a doctoral candidate by successfully retaking the comprehensive examination. Students readmitted to candidacy may be required to take additional course work.

Failure to maintain continuous enrollment following the first semester or term of dissertation registration will also result in loss of candidacy.

Continuous Enrollment
A student working for a doctorate must be enrolled at Georgia Southern University during the semester in which the comprehensive/ qualifying/candidacy examination is taken and in each subsequent semester following the first dissertation registration, until the degree requirements are met and the dissertation is accepted by the College of Graduate Studies. Failure to enroll will result in loss of candidacy. To regain candidacy, the student must successfully petition the College of Graduate Studies.

If it is necessary to interrupt progress toward the degree, the student may petition for a leave of absence of up to one year. The petition must be submitted at least one month before the effective date of leave. The major professor, the department chair, and the Dean of the College of Graduate Studies must grant approval. The Dean will establish the conditions of the leave. An extension of a leave of absence beyond one year may be granted by the Dean of the College of Graduate Studies upon recommendation of the student’s supervisory committee.

Dissertation
A dissertation is required of all candidates for the award of a doctorate degree. Its purpose is to demonstrate the candidate’s ability to conduct significant original research of a type appropriate to the academic discipline, to analyze the information obtained from the research, and to present the results in a form acceptable to the supervisory committee. A dissertation must be written in a form appropriate to the discipline.

When the student is admitted to candidacy and the Supervisory Committee chair is satisfied with the completed dissertation, he/ she will inform the candidate that the dissertation is ready to be read by all members of the Supervisory Committee. The student will then distribute copies of the dissertation to the committee. The candidate, in consultation with the Supervisor, Committee Chair, and committee members, will then schedule the dissertation defense. The dissertation defense must be scheduled at least six (6) weeks prior to the end of the semester degree requirements are expected to be met. The College of Graduate Studies must receive written or electronic notification of the dissertation defense date one month prior to the defense date. The dissertation defense will be held in a forum open to the public.

The chairperson also has the right and the responsibility to evaluate the candidate’s performance and to cast a vote. The responsibilities of the examining committee are:

To examine the doctoral dissertation and approve scheduling the dissertation defense. At least three-fourths of the committee must agree that it is in acceptable form before the dissertation defense may be scheduled. All members must sign their approval or disapproval. By signing, a faculty member indicates only that the form of the dissertation is acceptable for review and that the dissertation defense may be scheduled. Signing does not imply that the content of the dissertation is satisfactory.

To hold a public, oral dissertation defense, after the dissertation is deemed acceptable in form, at which the candidate presents and defends the dissertation; and to report the result of this examination to the Dean of the College of Graduate Studies. All members of the examining committee (or substitutes appointed by the Dean of the College of Graduate Studies) are expected to be present throughout the examination. At least three-fourths of the examining committee including substitutes appointed by the Dean of the College of Graduate Studies must approve the candidate’s performance before he or she is deemed to have passed. A refusal to vote by the chairperson or any other member of the examining committee shall be recorded as a negative vote. With the permission of at least three-fourths of the committee, a failed oral examination may be retaken but no sooner than three months from the date of the failure. The final oral examination may be taken when the student has completed the program of study and satisfied all other program requirements. All final examinations must be given on the Statesboro campus. When the dissertation has been approved, the dissertation defense passed, and all other requirements have been met, the candidate is recommended by the Dean of the Graduate School to be awarded the degree.

The candidate must provide a copy of the dissertation to each member of the final examining committee at least two weeks before the scheduled defense.

Following a successful dissertation defense, the candidate must make any corrections or changes to the dissertation that are required by the defense committee. The student must submit the dissertation as an electronic file (ETD) required by the College of Graduate Studies for format check by the format check deadline. After the document format has been completed the electronic document is returned to the student. If format corrections are to be made the student must make the changes and submit the final corrected electronic version to the College of Graduate Studies.
by the final submission deadline as posted for the semester. The student should check with her/his dissertation chair to determine if the dissertation committee chooses to re-review the document before final submission to the College of Graduate Studies. The final copy must also conform to the stylistic guidelines adopted by the academic unit established by the College of Graduate Studies. Information regarding the ETD can be found on the COGS web page at http://academics.georgiasouthern.edu/etd/.

Preparing For Graduation
Application for Graduation. This is the formal request for the Registrar’s Office to begin proceedings for declaration of the degree. It must be received in the Registrar’s Office not later than the end of the semester or term prior to the expected graduation term. Students should send the completed Application for Graduation Form to: Georgia Southern University, Registrar’s Office, P.O. Box 8092, Statesboro, GA 30460-8092, (912) 681-0432, Email: tsaylor@georgiasouthern.edu. The form is online at: http://students.georgiasouthern.edu/registrar/GradGradApp.html.

Program of Study Form. The Program of Study Form confirms that you have taken the courses required for your graduate degree. The Program of Study Form must be submitted to the College of Graduate Studies not later than the end of the semester or term prior to the expected graduation term.

Graduation Fee Payment. A non-refundable fee of $50 is required to cover the processing of the graduation and the diploma. Payment should be received by the end of the term in which the student plans to graduate. It is best to attach the graduation fee (check or money order made payable to GSU) to the Application for Graduation. Credit card payments are also accepted at the Georgia Southern University Cashier’s Office, Deal Hall, (912) 681-0020.

Graduate Program Exit Survey. Complete the College of Graduate Studies Exit Survey and return to the College of Graduate Studies, Georgia Southern University, PO Box 8008, Statesboro, GA 30460, (912) 681-0578, Email: gradschool@georgiasouthern.edu.

Graduate in Absentia Form. If students do not plan on attending the commencement, they must complete the Request to Graduate in Absentia Form. The completed form should be sent to: Georgia Southern University, Registrar’s Office, PO Box 8092, Statesboro, GA 30460-8092, (912) 681-0432, Email: tsaylor@georgiasouthern.edu.

Reserve Graduation Attire. Graduation attire should be reserved 8 weeks before graduation. Students must contact Herff Jones with their height, cap size, degree, and major at: Herff Jones, 32 Lindberg Street, Statesboro, GA 30458, Telephone: (912) 764-9314, Fax: (912) 764-9550, Email: roderick@frontiernet.net.

Pay Outstanding Debts. All debts to Georgia Southern University must be paid in full. To determine debts such as parking tickets, library fees, fines, etc., students should contact the Cashier’s Office at: Georgia Southern University, Cashier’s Office, Deal Hall, (912) 681-0020.

Diploma Address. The GSU Registrar’s Office will mail the diploma to students 4-6 weeks after graduation if the student applied for graduation three semesters before completion. Students are strongly encouraged to update the Diploma Address (DA) and graduation e-mail address on WINGS before the end of the semester in which you are completing the degree requirements.

Important Degree Completion Activities for Doctoral (Ed.D.) Candidates. Students should:

- have on file in the College of Graduate Studies the forms that indicated that you have passed the Comprehensive and/or Candidacy Examinations, the dissertation proposal or prospectus has been approved, and candidacy recommendation has been made.
- have completed the courses required for the degree.
- have submitted official transcripts of any transfer work to the College of Graduate Studies.
- have no grades of “I” or “IP” on your graduate transcript.
- have a cumulative graduate GPA of at least 3.5.
- are registered in at least one (1) credit hour during the semester in which you are completing your degree.
- take and pass the dissertation defense by the deadline. Your advisor must submit the Dissertation Defense Report Form to the College of Graduate Studies by the deadline.
- submit the electronic dissertation for format review by the College of Graduate Studies by the deadline.
- submit the final approved electronic dissertation to the College of Graduate Studies by the deadline.
- complete the Institutional Review Board (IRB) termination notification through the Office of Research Services and Sponsored Programs by the deadline.

MBA Mission Statement
The mission of the Master of Business Administration at Georgia Southern University is to create organizational leaders with an understanding of global, ethical, and social issues.

Graduates of the program will have:
1. Functional knowledge of business and insight that can be applied from a management perspective to address cross disciplinary issues.
2. Analytical problem solving, decision making, and critical thinking skills that address managerial issues in uncertain environments.
3. The ability to synthesize knowledge to address existing and unforeseen issues.
4. A global perspective on organizational strategies.
5. A sense of social responsibility and an understanding of ethical standards.
6. The ability to use technology and manage information to adapt to changing conditions.
7. Teamwork, leadership, and communication skills.

Admission Requirements
A prospective student who has earned a baccalaureate degree from an accredited college or university and plans to take courses in the MBA program must be admitted under one of the following classifications:

Degree Student
Students who are admitted to the College of Graduate Studies with the expressed intention of following a program leading to a graduate degree are classified as degree students. When admitted as a degree student, the applicant will be placed in one of the following categories:

Regular Admission
A prospective candidate for the MBA degree who meets all requirements for unqualified admission and has been recommended by the Director of Graduate Studies in the College of Business Administration and approved by the College of Graduate Studies is classified as a regular degree student. A student with a standard formula score of 1000 or higher (or with an upper-level score of 1050 or higher) and a minimum GMAT score of 430 will be admitted as a regular MBA student. Student transcripts are evaluated for the prerequisite requirements prior to admission. The requirement to make up deficiencies in the prerequisite courses is listed on the notification of acceptance as a condition of acceptance.

Provisional Admission
A prospective candidate for the MBA degree that does not satisfy the full admission requirements as defined by the standard formula* may be classified in this category under conditions specified at the time of admission by the College of Graduate Studies upon the recommendation of the Director of Graduate Studies in the College of Business Administration. A student with a standard formula score equal to or greater than 950 and less than 1000 will be admitted as a Provisional MBA student provided the undergraduate GPA is 2.80 or higher and the GMAT score is 430 or higher, or the GMAT score is 470 or higher. A student admitted in this category will be required to make a minimum grade of “B” in each of the first three graduate courses. Only credit earned at Georgia Southern University may be used to satisfy this admission requirement. A student admitted in this category will be reclassified to regular admission when the conditions have been met. Failure to satisfy the conditions in the specified course limit will result in the student’s ineligibility to continue work in the MBA program.

Admission Appeals
Admission to the MBA or M.Acc. requires a minimum GMAT score of 430. If a student does not score 430 then his/her application for admission will be considered by the Graduate Curriculum and Programs Committee (GCPC) of the College of Business Administration (COBA).

In case the GCPC can not meet (e.g. during the summer), the Dean of COBA will appoint a committee from the Graduate Faculty of COBA to consider applications. Only students have an admission index of 1000 or higher (using the standard formula* for admission to the MBA or M.Acc.) will be considered for Regular Admission.

Factors that the GCPC may consider for admission will include (but not be limited to) the following:
1. Probability of success in the applicant’s chosen program (MBA or MACC).
2. The diversity the applicant brings to the MBA or MACC degree program.
3. Space availability in the applicant’s chosen program (MBA or MACC).

The GCPC may make a recommendation it deems to be in the best interests of the MBA or M.Acc. programs, including but not limited to the following:
1. “Regular” admission with no restrictions.
2. “Regular limited” admission but with restrictions on the number of hours a student may take in the first year and restriction on which courses may be taken in the first year.
3. Admission as “Provisional.” A student admitted as provisional will be required to make a minimum grade of “B” in each of the first three graduate courses taken. Only credit earned in the Georgia Southern University College of Business may be used to satisfy this admission requirement. Provisional admission will require an index equal to or greater than 950 and less than 1000 using the standard formula* for admission.

* - Standard formula score is calculated by multiplying undergraduate GPA times 200 plus the GMAT score of 430 or higher, [(UGPA x 200) + GMAT of 430 or higher => 1000]. Upper level formula is [(Last 60 semester hours UGPA x 200) + GMAT of 430 or higher => 1050].
Non-degree Student

An applicant may be admitted to the College of Graduate Studies as a non-degree student to earn credit in graduate courses without working toward a degree. Admission as a non-degree student does not guarantee subsequent admission to a graduate degree program; that is a separate process, and different criteria must be met. Students who are admitted in a non-degree category may apply to a degree program at any time. Upon the advisor’s recommendation, non-degree courses may be included in the graduate degree program of study should the student gain reclassification as a degree student. A student may be admitted to the College of Graduate Studies and in Business in one of the following admission categories:

Enrichment
An applicant who holds an undergraduate or graduate degree and desires to take business courses for personal or professional improvement may be admitted in this category. Enrollment in the Non-Degree Enrichment category is unlimited; however, a student may count a maximum of nine (9) semester hours of credit toward graduate degree program requirements if recommended by the degree Graduate Program Director and approved by the Dean of the College of Graduate Studies.

Once admitted under this classification, an acceptable GMAT score that qualifies the applicant for MBA degree admission must be submitted to the College of Graduate Studies by the completion of the third graduate level course in order to pursue the MBA degree program.

Limited
A student whose file is incomplete because certain required application materials have not been received in the Office of Graduate Admissions for degree admission consideration may be admitted in this category. Enrollment in the Non-Degree Limited category is unlimited; however, a student may count a maximum of nine (9) semester hours of credit in graduate courses in any seven contiguous years. A student may count a maximum of nine (9) semester hours of credit toward graduate degree program requirements if recommended by the degree Graduate Program Director and approved by the Dean of the College of Graduate Studies.

A student who has not taken the GMAT may be admitted under this classification provided that the overall undergraduate GPA is 3.25 or higher, or the upper-level (last 60 semester hours) GPA is 3.50 or higher. Once admitted under this classification, an acceptable GMAT score that would qualify the applicant for MBA degree admission must be submitted by the completion of the third graduate level course in order to continue with additional graduate courses. The requirement to make up deficiencies in the prerequisite courses is listed on the notification of acceptance as a condition of acceptance.

Graduate Transfer or Transient Credit
The College of Business Administration accepts graduate transfer or transient credit only from AACSB accredited programs not to exceed six (6) semester hours subject to review and approval by the COBA Graduate Curriculum and Programs Committee.

Terminal Examination
Under certain circumstances, a terminal oral exam may be required of candidates for the degree of Master of Business Administration. MBA students may exempt the oral examination provided the student earns a minimum grade of “B” in Global Business Strategy (BUSA 7530). If required, the terminal oral examination must be scheduled at least two weeks prior to graduation. The comprehensive examination will be conducted by a committee consisting of members of the Graduate Faculty in the MBA program appointed by the Dean of the College of Business Administration. The date, time, and place of the examination will be set by the Director of Graduate Studies in the College of Business Administration after consultation with the committee. The Dean of the College of Business Administration will be an ex-officio member of the committee.

The Director of Graduate Studies of the College of Business Administration shall notify the Dean of the College of Graduate Studies, five days prior to the examination, of the proposed date and time of the final examination and the composition of the committee.

The Director of Graduate Studies in the College of Business Administration shall notify members of the examination committee of appointment, time, and place of the examination.

The candidate is expected to demonstrate a competency to discuss basic facts, justify interpretations, defend opinions, and demonstrate competencies learned in their entire MBA Program of Study.

The decision on the candidate’s performance on the examination shall be reported “Pass” or “Fail” to the Dean of the College of Graduate Studies within five days after the examination on a standard form furnished by the College of Graduate Studies. Should the decision be reported as “Fail,” the candidate for the degree will not be permitted a re-examination until the conditions set forth by the committee have been met.

The candidate is eligible to receive the degree of Master of Business Administration upon completion of all course work in the planned program and a satisfactory report on the terminal examination.

MBA Program Requirements
Requirements in the Program of Study leading to the Master of Business Administration depend on whether a student pursues a General MBA degree or an MBA degree with an area of concentration.

Program of Study: General M.B.A. Degree
A student admitted to the College of Graduate Studies as a prospective candidate for the Master of Business Administration degree must present evidence of satisfactory completion (a minimum grade of “C”) of the following “Core/Foundation” course content in Business Administration or take the undergraduate equivalents:

Important: Any undergraduate course taken in Business Statistics (or equivalent) must be taken within the last five (5) years and a minimum grade of “B” is required. Additionally, the applicant must score in excess of the 30% percentile in the quantitative area of the GMAT exam. If this prerequisite requirement is not met, then MGNT 6330 must be taken and passed with a minimum grade of “C”.

Admission Requirements

The Master of Accounting (M.Acc.) program focuses on the knowledge and skills students need for careers in public accounting. The curriculum includes 18 hours of accounting and 12 hours of electives designed to allow students to personalize their program of study to fit their career objectives. The Georgia Southern University M.Acc. program meets Georgia’s 150-hour requirement to sit for the CPA Exam and can be completed in one year. A prospective student who has earned a baccalaureate degree and plans to take courses in the program must be admitted under one of the following classifications:

Degree Student
Students who are admitted to the College of Graduate Studies with the expressed intention of following a program leading to a graduate degree are classified as degree students. When admitted as a degree student, the applicant will be placed in one of the following categories:

Regular Admission
A prospective candidate for the M.Acc. degree who meets all requirements for unqualified admission and has been recommended by the Director of Graduate Studies in the College of Business Administration and approved by the College of Graduate Studies is classified as a regular degree student. A student with a standard formula score of 1000 or higher (or with an upper-level score of 1050 or higher) and a minimum GMAT score of 430 will be admitted as a regular M.Acc. student. Student transcripts are evaluated for prerequisite requirements prior to admission. The requirement to make up deficiencies in prerequisite courses is listed on the notification of acceptance as a condition of acceptance.

Provisional Admission
A prospective candidate for the M.Acc. degree who does not satisfy the full admission requirements as defined by the standard formula may be classified in this category under conditions specified at the time of admission by the College of Graduate Studies upon the recommendation of the Director of Graduate Studies in the College of Business Administration. A student with a standard formula score equal to or greater than 950 and less than 1000 will be admitted as a Provisional M.Acc. student provided the undergraduate GPA is 2.80 or higher and the GMAT score is 430 or higher, or the GMAT score is 470 or higher. A student admitted in this category will be required to make a minimum grade of “B” in each of the first three graduate courses. Only credit earned at Georgia Southern University may be used to satisfy this admission requirement. A student admitted in this category will be reclassified to regular admission when the conditions have been met. Failure to satisfy the conditions in the specified course limit will result in the student’s ineligibility to continue work in the M.Acc. program.

Admission Appeals
Admission to the MBA or M.Acc. requires a minimum GMAT score of 430. If a student does not score 430 then his/her application for admission will be considered by the Graduate Curriculum and Programs Committee (GCPC) of the College of Business Administration (COBA).

In case the GCPC can not meet (e.g. during the summer), the Dean of COBA will appoint a committee from the Graduate Faculty of COBA to consider applications. Only students have an admission index of 1000 or higher (using the standard formula for admission to the MBA or M.Acc.) will be considered for Regular Admission.

Factors that the GCPC may consider for admission will include (but not be limited to) the following:
4. Probability of success in the applicant’s chosen program (MBA or MACC).
5. The diversity the applicant brings to the MBA or MACC degree program
6. Space availability in the applicant’s chosen program (MBA or MACC).

The GCPC may make a recommendation it deems to be in the best interests of the MBA or M.Acc. programs, including but not limited to the following:
4. “Regular” admission with no restrictions.
5. “Regular limited” admission but with restrictions on the number of hours a student may take in the first year and restriction on which courses may be taken in the first year.
6. Admission as “Provisional.” A student admitted as provisional will be required to make a minimum grade of “B” in each of the first three graduate courses taken. Only credit earned in the Georgia Southern University College of Business may be used to satisfy this admission requirement. Provisional admission will require an index equal to or greater than 950 and less than 1000 using the standard formula for admission.

* - Standard formula score is calculated by multiplying undergraduate GPA times 200 plus the GMAT score of 430 or higher, [(UGPA x 200) + GMAT of 430 or higher >= 1000]. Upper level formula is [(Last 60 semester hours UGPA x 200) + GMAT of 430 or higher >= 1050].

Non-degree Student
An applicant may be admitted to the College of Graduate Studies as a non-degree student to earn credit in graduate courses without working toward a degree. Admission as a non-degree student does not guarantee subsequent admission to a graduate degree program; that is a separate process, and different criteria must be met. Students who are admitted in a non-degree category may apply to a degree program at any time. Upon the advisor’s recommendation, non-degree courses may be included in the graduate degree program of study should the student gain reclassification as a degree student. A student may be admitted to the College of Graduate Studies and in Business in one of the following admission categories:

Enrichment
An applicant who holds an undergraduate or graduate degree and desires to take graduate business courses for personal or professional improvement may be admitted in this category. Enrollment in the Non-Degree Enrichment category is unlimited; however, a student may count a maximum of nine (9) semester hours of credit toward graduate degree program requirements if recommended by the degree Graduate Program Director and approved by the Dean of the College of Graduate Studies.
Once admitted under this classification, an acceptable GMAT score that qualifies the applicant for M.Acc. degree admission must be submitted to the College of Graduate Studies by the completion of the third graduate level course in order to pursue the M.Acc. degree.

Limited
A student whose file is incomplete because certain required application materials have not been received in the Office of Graduate Admissions for degree admission consideration may be admitted in this category. Enrollment in the Non-Degree Limited category is limited to a maximum of nine (9) semester hours of credit in graduate courses in any seven contiguous years. A student may count a maximum of nine (9) semester hours of credit toward graduate degree program requirements if recommended by the degree Graduate Program Director and approved by the Dean of the College of Graduate Studies.

A student who has not taken the GMAT may be admitted under this classification provided that the overall undergraduate GPA is 3.25 or higher, or the upper-level (last 60 semester hours) GPA is 3.50 or higher. Once admitted under this classification, an acceptable GMAT score that would qualify the applicant for M.Acc. degree admission must be submitted by the completion of the third graduate level course in order to continue with additional graduate courses. The requirement to make up deficiencies in the prerequisite courses is listed on the notification of acceptance as a condition of acceptance.

Graduate Transfer or Transient Credit
The College of Business Administration accepts graduate transfer or transient credit only from AACSB accredited programs not to exceed six (6) semester hours subject to review and approval by the COBA Graduate Curriculum and Programs Committee.

Admission into the M.Acc. Forensic Accounting Concentration

Forensic accounting is the application of accounting principles, theories, and techniques to facts or hypotheses at issue in a legal dispute. Forensic Accounting is one of the fastest growing areas in the profession today. Because forensic accountants must look beyond the numbers to grasp the underlying substance of business activities, they have been described as private investigators with a financial sixth sense. The M.Acc. Forensic Accounting Concentration is designed to provide the advanced knowledge and skills graduates need to investigate asset theft and financial statement fraud, to design internal control systems that detect and/or prevent fraud, and to serve effectively as expert witnesses in a court of law. Students may apply for admission to the forensic accounting concentration at the time they apply to the Master of Accounting program (Refer to Admission Requirements described in the General M.Acc. section). Admission to the concentration is competitive. The admissions committee reviews applications on an individual basis looking at both the quantitative and qualitative aspects of the applicant’s academic background and professional experience (if applicable). The committee seeks to assess each applicant’s potential for academic success and future professional growth based on the following:

- **Statement of Purpose Essay**: Because the admissions process may not allow for personal interviews, this essay is a crucial reflection of the applicant’s communication and presentation skills.
- **Past Academic Performance**: While there is no minimum undergraduate grade point average (GPA) requirement, the admissions committee views past grades as an important indicator of the applicant’s future academic performance. The committee may also consider the ranking and reputation of the applicant’s undergraduate institution.
- **Work Experience**: There is no work experience requirement although work experience will be viewed positively by the admissions committee.
- **Extracurricular Activities**: Public, community, or military service; travel experiences; extracurricular activities, hobbies and special aptitudes; and any honors or recognitions received are all important indicators of the applicant’s motivation and character.
- **GMAT Score**: While there is no minimum GMAT score requirement, GMAT scores will be an extremely important component of the application and thus applicants should address this component aggressively.
- **Letters of Recommendation**: Two letters will be required. References should speak to the applicant’s personal qualities, career potential, and potential to succeed in the classroom.

Finally, personal characteristics that add to the diversity of the class may also be considered, such as country of citizenship, family background, race, gender, multilingual skills, and socioeconomic history.

Applications to the Forensic Accounting program will be accepted for the fall semester only (See Note) and must be subject to an early application deadline because of the processing time required.

**Note**: Students needing to complete the fraud examination prerequisites will be admitted summer semester.

**M.Acc. Forensic Accounting Concentration**

Prerequisites:

Note: In addition to the General Business and Accounting prerequisites required for admissions into the Master of Accounting program, students admitted into the Forensic Accounting Concentration must complete the following additional prerequisites.

- Fraud Examination Courses
  - ACCT 4631 - Macro Fraud Examination (3)
  - ACCT 4632 - Micro Fraud Examination (3)
  - ACCT 5633G - Forensic Interviews/Interrogations (3)

Admission Requirements
Regular
The applicant must have:
1. Completed requirements for the Bachelor’s degree in a college accredited by the proper regional associations.
3. A 3.0 (4.0) cumulative grade point average or higher on undergraduate work.
4. A combined score of no less than 500 on the Verbal section and 500 on the Quantitative section of the Graduate Records Exam (GRE).
5. Submitted:
   a. A personal statement that includes a description of career goals, reasons for applying for graduate study at Georgia Southern University, and relevant experience and achievements.
   b. Recommendations from three individuals who can speak of the applicant’s undergraduate academic performance and potential for graduate study.

Provisional
For applicants who meet one but not both the GPA requirement and GRE requirement, provisional admission may be granted by the departmental graduate faculty based on their consideration of the materials submitted by the applicant and an interview (if done).

Master of Education Programs

Master of Education (M.Ed.) degree programs are offered in 18 areas of study. A student admitted to the College of Graduate Studies as a prospective candidate for the M.Ed. degree must satisfactorily complete a planned Program of Study of at least thirty-six semester hours, including a minimum of 6-9 hours in the professional education Core and a minimum of 15 hours in the content field of the major. Since programs of study in all certificated areas are planned to enable students to meet the requirements of the Georgia Professional Standards Commission as specified in Georgia Southern’s “approved programs,” it is critical that students meet with their Advisors early in their course work to plan an appropriate Program of Study. The development of the Program of Study expedites the registration process and ensures that all course work may be applied toward fulfilling degree requirements. Upon successful completion of the Program of Study, graduates in certification programs will be recommended for the appropriate Georgia Level Five Professional Certificate.

M.Ed. programs of study must include at least 50% of level 6000, 7000 and 8000 courses. Students and their Advisors are strongly encouraged not to include more than one 5000G-5999G level course in the Program of Study.

Admission to M.Ed. Programs

Regular Admission

For regular admission to the College of Graduate Studies to pursue the Master of Education degree, the applicant must:

1. Possess a bachelor’s degree from a regionally accredited institution.
2. Satisfy program requirements for certification. Select programs require that those admitted possess or be eligible for a Professional Level Four Certificate or equivalent in the teaching field or a related field. Refer to program admission requirements in the catalog.
3. Present a cumulative 2.50 (4.0 scale) grade point average or higher on all undergraduate and graduate work combined.
4. Present official report of scores on the Miller Analogies Test (MAT) or the verbal, quantitative and analytical writing sections of the Graduate Records Examination (GRE).
5. Submit a personal statement of purpose, not to exceed 200 words, that identifies the applicant’s reasons for pursuing graduate study and how admission into the program relates to the applicant’s professional aspirations.
6. NOTE: Some programs, including Counselor Education, School Psychology, and the Ed.D. programs, have additional admissions requirements; refer to programs for specific information.

Provisional Admission

Applicants may be approved for provisional admission based on the quality of the admission material presented. Provisional students must earn grades of “B” or higher in their first nine (9) hours of course work after admission and meet any other stipulations outlined by the department to be converted to regular status.

Admission by Appeal

A student who does not meet the criteria for provisional admission may appeal for admission to the College of Education Student Affairs Committee. The Student Affairs Committee examines additional information in support of a student’s request for admission to a graduate program and makes recommendations to the Dean of the College of Education. Information required in the appeals process may be secured by contacting the College of Graduate Studies. Students who are successful in the appeals process will be admitted “provisionally” to the M.Ed. program in the College of Graduate Studies and must satisfy the conditions of provisional admission upon the completion of 9 semester hours following the effective provisional admission term.

Linked M.Ed. Programs

A collaborative relationship exists between Georgia Southern University and Armstrong Atlantic State University (AASU) and, as a result, selected M.Ed. programs are offered as “linked programs.” The “linked programs” include the M.Ed. in Early Childhood Education, Middle Grades Education, select Secondary Education programs, and Special Education. Students in these programs may take courses from either institution with easy transferability. Graduate Advisor approval must be obtained in advance for courses to apply to the Program of Study. Students are required to complete a minimum of 9 semester hours of their program at any of the residential sites of the degree-granting institution they have chosen. The residential sites for AASU are Chatham, Camden, and Bryan Counties. Effingham and Liberty Counties are residential sites for both AASU and Georgia Southern. The residential sites for Georgia Southern are all other counties in southeast Georgia. Additional information can be obtained from the College of Education or the College of Graduate Studies at Georgia Southern University.

Alternative Teacher Certification Programs

The College of Education offers the Master of Arts in Teaching (M.A.T.) degree or a similar graduate non-degree program option for those interested in acquiring initial teacher certification in the fields of Middle Grades Education, Special Education, and Secondary and P-12 education fields (art, biology, business, chemistry, English, history, geography, mathematics, physics, political science, and Spanish) [Those who hold a bachelor’s degree and are interested in initial teacher certification in Early Childhood Education, Family and Consumer Sciences, Health and Physical Education, Music, or Technology Education. A bachelor’s degree is required for admission into an alternative teacher certification program and, in most cases, must be in a discipline related to the teaching field.

Master of Arts in Teaching

The Master of Arts in Teaching (M.A.T.) degree program leads to initial teacher certification as well as the master’s degree and is available for those in Middle Grades Education, Special Education, and Secondary and P-12 education fields (art, biology, business, chemistry, English, history, geography, mathematics, physics, political science, and Spanish) [Those who hold a bachelor’s degree and are interested in initial teacher certification in Early Childhood Education, Health and Physical Education, Music Education, Family and Consumer Sciences, or Technology Education certification must complete program requirements at the undergraduate level. See Non-degree Initial Certification Programs.]

For admission to the M.A.T., students must have their transcripts evaluated by Georgia Southern University’s Certification Coordinator and they must meet all Teacher Education Program (TEP) admission and retention requirements, including an overall GPA of 2.50 or higher over all college course work attempted. Prospective students should contact the College of Education Student Success Center and request (continued on next page)
an Application for Evaluation for Initial Teacher Certification. The completed application should be submitted along with transcripts and payment of the required fee ($25.00 for the first evaluation and $10.00 for each additional field requested). Allow at least two weeks for the evaluation process to be completed. Evaluations will be mailed to the applicant upon completion.

Students in the M.A.T. program are initially advised in the Student Success Center until all content prerequisites and TEP admission criteria are met. At that point, graduate faculty advisors are assigned.

Admission to M.A.T. Program

Regular
Hold a bachelor’s degree from a regionally accredited institution.
1. Present a transcript evaluation by the College of Education’s Director of Advisement and Certification, and completion of specified prerequisite content course work.
2. Present a cumulative 2.50 (4.0 scale) grade point average or higher on all undergraduate and graduate work combined.
3. Present an official report of scores on the Miller Analogies Test (MAT) or the verbal, qualitative, and analytical writing sections of the Graduate Record Exam (GRE).
4. Submit passing scores on the PRAXIS I exam or be exempt by acceptable SAT, ACT, or GRE scores.
5. Submit a passing score on the PRAXIS II exam in the area for which one is seeking certification. (Not required for the MAT in Special Education.)
6. Submit a personal statement of purpose, not to exceed 200 words, that identifies the applicant’s reasons for pursuing graduate study and how admission into the program relates to the applicant’s professional aspirations.

Provisional
Applicants may be approved for Provisional admission based on the quality of the admission material presented. Provisional students must earn grades of B or higher in their first 9 hours of course work after admission and meet any other stipulations outlined by the department to be converted to regular status.

Admission by Appeal

A student who does not meet the criteria for provisional admission may appeal for admission to the College of Education Student Affairs Committee. The Student Affairs Committee examines additional information in support of a student’s request for admission to a graduate program and makes recommendations to the Dean of the College of Education. Information required in the appeals process may be secured by contacting the College of Graduate Studies. Students who are successful in the appeals process will be admitted “provisionally” to the M.A.T. program in the College of Graduate Studies and must satisfy the conditions of provisional admission upon the completion of 9 semester hours following the effective provisional admission term.

Non-Degree Initial Certification Programs

Non-degree initial certification programs are available in all teaching fields, including Early Childhood Education, Middle Grades Education, Secondary Education fields, P-12 certification fields (Art, Foreign Language, Health and Physical Education, and Music), and Special Education. The non-degree program option is designed for those who do not wish to pursue a Master’s degree. For middle grades education, special education, and secondary and P-12 fields, the graduate non-degree initial certification programs are similar to the M.A.T. program and students will enroll with graduate admission. For early childhood education, health and physical education, music education, and family and consumer sciences, the non-degree programs mirror undergraduate teacher preparation programs and students will enroll with post-baccalaureate admission. Non-degree initial certification students must be admitted for graduate study as a Non-degree Certification student (test scores are not required). All students seeking initial teaching certification must meet all TEP admission requirements. A transcript evaluation by the Director of Advisement and Certification identifies the program of study required in order to meet initial certification requirements for the desired field. A staff advisor assists non-degree certification students in course selection which typically includes undergraduate courses.

Note: Initial certification in non-teaching fields such as Counselor Education, Educational Leadership, School Psychology, and Instructional Technology require completion of the M.Ed. degree. Initial certification in these fields can not be completed as non-degree study. To pursue certification in Educational Leadership or Instructional Technology as a non-degree student, the applicant must possess a Master’s degree at entry and meet all other admission criteria for the program.

Non-Degree Graduate Studies

For non-degree admission to graduate education programs for those interested in professional development, certification renewal, or adding another field or an endorsement to an existing certificate, students must be admitted to graduate study as a non-degree student. If desiring to add a teaching field to an existing certificate, a transcript evaluation is required for advisement (see Georgia Southern’s Director of Advisement and Certification). For non-degree admission to the College of Graduate Studies, the applicant must:
1. Possess a bachelor’s degree from a regionally accredited institution.
2. Possess or be eligible for certification as prescribed by the specific program. [If pursuing initial teaching certification, all Teacher Education Program admission requirements must be met and a transcript evaluation must be obtained for advisement purposes only.]
3. Present a cumulative 2.5 (4.0 scale) grade point average or higher on all undergraduate and graduate work combined.

Note: Initial certification in non-teaching fields such as Counselor Education, Educational Leadership, School Psychology, and Instructional Technology require completion of the M.Ed. degree. Initial certification in these fields can not be completed as non-degree study. To pursue certification in Educational Leadership or Instructional Technology as a non-degree student, the applicant must possess a Master’s degree at entry and meet all other admission criteria for the program.

Endorsements

Endorsement programs are available in the areas of: Early Childhood Math, English for Speakers of Other Languages (ESOL), Reading, and Leadership endorsements including Instructional Supervision, Director of Media Centers, Director of Pupil Personnel Services, Director of Special Education, and Director of Vocational Education. Endorsement programs can be completed as non-degree course work or, as appropriate and with advisor approval, included in a degree program of study. These endorsements may be added to a professional certificate in teaching, service, and leadership fields. See the endorsement programs at the end of the College of Education Graduate Section for specific course requirements.

(continued on next page)
Education Specialist Programs

The Education Specialist (Ed.S.) degree is a unique professional degree for educators that is designed to provide the opportunity to develop a high level of proficiency in the field of study as well as develop research and leadership skills. Ed.S. degree programs are offered in four areas of study. Programs of study leading to the Ed.S. degree can be planned to enable students to meet certification requirements for the Georgia Professional Standards Commission as specified in Georgia Southern’s “approved programs.” Upon successful completion of the program, graduates are eligible for the appropriate Level Six Professional Certificate.

The Ed.S. degree requires a Program of Study that includes a minimum of 30 semester hours of coursework with at least a “B” average. The Program of Study must include a research sequence of nine to twelve semester hours, including EDUR 8131, EDUR 8434, and a directed field-based research course in the field of study, and a minimum of 12 hours in the major. Upon admission into the Ed.S. program, the student is responsible for meeting with the assigned graduate faculty advisor. Collaboratively an individualized Program of Study should be developed that meets degree requirements and also reflects the student’s career goals, educational background, interests, and needs. The Ed.S. in Teaching and Learning program allows students the option of selecting an emphasis area. Each program requires a culminating experience that is connected with the field-based research course, serves as the comprehensive exit assessment, and must be satisfactorily completed in order for the Ed.S. degree to be awarded. Upon completion of the Ed.S. degree, graduates are eligible to apply for the Georgia Level Six Professional Certificate if they possess the Level Five Certificate in the field.

Admission to Ed.S. Programs

Georgia Southern University admits persons who display an educational development and achievement level that are better than average. To this end, admission requirements reflect previous educational orientation, and a judgment of admission or rejection is made by the College.

For admission to the College of Graduate Studies to pursue the Education Specialist degree, the applicant must:

1. Complete the requirements for a Master’s degree from a regionally accredited institution. If a Master’s degree is not held in the identified area of concentration, the applicant must satisfy any identified program requirements for graduate level work in the area of concentration, typically 12 to 18 hours.
2. Present a 3.25 (4.0 scale) grade point average on all graduate work attempted.
3. Present official report of scores on the Miller Analogies Test (MAT) or the verbal, quantitative and analytical writing sections of the Graduate Record Examination (GRE). If the applicant holds a Master’s degree from Georgia Southern University with at least a 3.50 graduate GPA, the GRE or MAT is not required.
4. Satisfy program requirements for certification. Select programs require that those admitted possess or be eligible for a Professional Certificate (Level 4 or 5) or equivalent in the identified field or related field. Refer to program admission requirements in the catalog.
5. Submit a personal statement of purpose, not to exceed 200 words, that identifies the applicant’s reasons for pursuing graduate study and how admission into the program relates to the applicant’s professional aspirations.

A graduate student who is within six hours of completing a Master’s program may enroll for a maximum of three semester hours of graduate credit toward an Ed.S. program provided: (1) a completed application to the Ed.S. program has been submitted to the College of Graduate Studies; (2) except for the degree, the student meets all criteria for unqualified admission to graduate study in the Ed.S. program; (3) permission to enroll in such courses is approved by the College of Graduate Studies upon the recommendation of the graduate faculty advisor of the Ed.S. program in which the applicant proposes to study; and (4) the total number of hours of course work for the term does not exceed nine hours of graduate credit. Under no circumstances may a course be used for credit in both a student’s Master’s and Education Specialist programs of study.

Ed.S. Provisional Admission:

Applicants may be approved for provisional admission based on the quality of the admission material presented. Provisional students must earn grades of “B” or higher in their first nine (9) hours of course work after admission and meet any other stipulations outlined by the department to be converted to regular status.

Admission by Appeal

A student who does not meet the criteria for admission may appeal for admission to the College of Education Student Affairs Committee. The Student Affairs Committee examines additional information in support of a student’s request for admission to a graduate program and makes recommendations to the Dean of the College of Education. The Committee suggests that students make more than one attempt at the GRE and MAT, make a recent attempt to meet test score requirements for admission, and submit letters of recommendation from previous instructors with the appeal for admission. Information required in the appeals process may be obtained by contacting the College of Graduate Studies.

Ed.S. Comprehensive Exit Assessment

To complete degree requirements for the Ed.S. degree, each student must demonstrate the ability to conduct and present a field-based research project. The student and the graduate faculty advisor should consider possible research topics that complement the student’s career objectives and Program of Study. Upon enrollment in EDUR 8434, Field-Based Educational Research, the second course in the research sequence, the student is expected to have formulated a research topic and will select three graduate faculty members to serve on an Advisory Team. This team will approve the research topic, mentor the progress of the research, and attend a formal presentation of the research. The team will be comprised of a content area instructor, the student’s graduate advisor, and one member of the student’s choice selected with the advisor’s approval. The third member may be from a field outside the student’s major area. The research proposal developed in EDUR 8434 will include the statement of the problem, a literature review, and research methodology. In the directed field-based research course specific to the field of study, the student engages in guided field research to develop inquiry and problem-solving skills and implements the proposal developed in EDUR 8434. The instructor, collaborating with the Advisory Team, is responsible for evaluation of the research project/thesis and assigns a final course grade. A formal presentation of the research is made during which the Ed.S. candidate orally shares the research and related findings. The presentation may be up to forty minutes followed by a period when the student’s Advisory Team or others attending may make inquiry pertaining to the research being presented. The entire presentation and inquiry session should not exceed one hour and should be open to all faculty and students.

Doctor of Education Programs

Doctor of Education (Ed.D.) degree programs are offered in the areas of Curriculum Studies and Educational Administration. The Ed.D. program in Curriculum Studies prepares graduates to work directly in the schools as master teachers, curriculum supervisors, curriculum (continued on next page)
coordinators, curriculum consultants, or curriculum theorists, as well as gain employment in government and private agencies. The design of the Ed.D. program in Curriculum Studies strikes a triadic balance between general core studies in Curriculum and the Foundations of Education, courses in Research and Scholarly Inquiry, and studies in an Emphasis area, representing a unique and contemporary approach to doctoral study in Curriculum. See program for specific information on admission, Program of Study, and other requirements.

The Ed.D. degree program in Educational Administration is designed to extend the competence and knowledge base of educational leaders who have been prepared to work in elementary, middle, secondary, and postsecondary educational settings. The program seeks to develop administrators and supervisors who (1) will become team and community leaders, (2) have developed an informed vision of what educational organizations are and can become, (3) will focus on teaching and learning for an increasingly diverse student group as the mission of the educational organization, and (4) have acquired an initial mastery of the theory and practice of organizational leadership and management in a climate of fiscal and social constraint. The program draws on many themes and research agendas. A new campus cohort of students is admitted each fall semester and moves through the program together. A new Augusta cohort (in conjunction with Augusta State University) is admitted each fall semester and spring semester. A new Savannah cohort is admitted each spring semester.

Off-Campus Graduate Offerings
Courses are offered in Savannah which support M.Ed. programs in Counselor Education, Early Childhood Education, Educational Leadership, Middle Grades Education, select Secondary Education programs, and Special Education, and Ed.S. programs in Counselor Education, Educational Leadership, and Teaching and Learning. Graduate course offerings are also scheduled regularly in Augusta, Brunswick, Dublin, and other off-campus sites. Master’s core courses are offered each semester through on-line delivery. Various education and content courses are scheduled as needed through on-site, distance learning and internet technology. For projected course offerings for a particular program, see the department website or contact the program coordinator.

See program for specific information on admission, Program of Study, and other requirements.
M.A. **TEACHING** 33-48 HOURS

Advising: Department of Teaching and Learning, P.O. Box 8134, Statesboro, GA 30460, (912) 681-5203, sheppard@georgiasouthern.edu, Fax: (912) 681-0026.

Program Intent and Admission Requirements:
The Master of Arts in Teaching (MAT) leads to initial teaching certification and a master’s degree for those persons who hold a bachelor’s degree from a regionally accredited institution. There are four study concentrations/tracks based on educational background and career goals:

**Study Concentration/Track 1:** Secondary Education certification (6-12) for candidates who hold a bachelor’s degree in English, business, mathematics, science, social science, or related field.

**Study Concentration/Track 2:** Middle Grades certification (4-8) for candidates who hold a bachelor’s degree. Candidates must complete two teaching concentrations from reading, language arts, science, social studies, and mathematics.

**Study Concentration/Track 3:** Special Education certification (P-12) for candidates who hold a bachelor’s degree in psychology, counseling, child and family development, or a closely-related field.

**Study Concentration/Track 4:** P-12 Education certification for candidates who hold a bachelor’s degree in Art or Spanish.

The total hours for the degree are dependent on previous course work completed in the area of certification. A transcript evaluation by the College of Education’s Director of Advisement and Certification is required at the outset. Prerequisite content course work, based on the transcript evaluation, must be completed as a non-degree student before admission into the program.

**Admission Requirements**

**Regular**
1. Hold a bachelor’s degree from a regionally accredited institution,
2. Present a transcript evaluation by the College of Education’s Director of Advisement and Certification, and completion of specified prerequisite content course work.
3. Present a cumulative 2.50 (4.0 scale) grade point average or higher on all undergraduate and graduate work combined.
4. Present an official report of scores on the Miller Analogies Test (MAT) or the verbal, qualitative, and analytical writing sections of the Graduate Record Exam (GRE).
5. Submit passing scores on the PRAXIS I exam or be exempt by acceptable SAT, ACT, or GRE scores.
6. Submit a passing score on the PRAXIS II exam in the area for which one is seeking certification. (Not required for the MAT in Special Education.)
7. Submit a personal statement of purpose, not to exceed 200 words, that identifies the applicant’s reasons for pursuing graduate study and how admission into the program relates to the applicant’s professional aspirations.

Ed.D.  EDUCATIONAL ADMINISTRATION

75 semester hours beyond Master’s including dissertation; 66 semester hours of course work

Advising: Department of Leadership, Technology and Human Development, Dr. James Burnham, P.O. Box 8131, Statesboro, GA 30460, (912) 681-5567, jburnham@georgiasouthern.edu, FAX: (912) 486-7104, http://coe.georgiasouthern.edu/eltr/dept1.html

Admission Requirements

Applicants who wish to pursue advanced professional preparation in Educational Administration beyond the Specialist degree, with a view for becoming a candidate for the Ed.D. degree, will be expected to file a formal application and present themselves to the faculty for special tests and/or interviews. Recommendations on admission will be made by program faculty only after screening procedures have been carried out. Admission will be upon the recommendation of the program committee, or the committee’s designated representative, and the approval of the Dean of the College of Graduate Studies.

Admission to the Ed.D. program in Educational Administration requires the applicant’s satisfaction of the following standards:
1. Complete all College of Graduate Studies admission requirements.
2. Hold a Master’s degree. Applicants who anticipate eventual endorsement for the Level Six and Level Seven Certificates in Educational Leadership should hold the Georgia Level Five Certificate at the point of admission.
3. Present a minimum grade point average of 3.50 (4.0 scale) in previous graduate work.
4. Hold an administrative or supervisory position at the P-12 or post-secondary level. Alternate admission criteria are applied when the applicant is not so employed.
5. Present scores from the Graduate Records Examination (GRE) or the Miller Analogies Test (MAT).
6. Submission of four professional references which attest to the applicant’s potential for success in a doctoral program and for executive leadership in education.
7. Submission of a personal statement which outlines the applicant’s future direction and how the degree will benefit the applicant.
8. Submission of a brief, two-page resume which highlights the achievements of the applicant.
9. Successful interview, if requested.

The final phase of the admission process will require adherence to the following procedures:
1. Applicant credentials are rated by Educational Leadership (EDL) faculty.
2. These faculty, meeting as a committee of the whole, will use these ratings to assemble a list of top candidates for interviews.
3. Students may be required to interview with EDL Faculty. The interview would explore their potential for leadership in educational organizations, qualifications for doctoral study, their career aspirations, their visions for education, and their thoughts on topics for doctoral level study.
4. A writing sample may be required.
5. Educational leadership faculty, meeting as a committee of the whole, make recommendations on candidates for each cohort.
6. Faculty recommendations are forwarded to the College of Graduate Studies.

Residency: The Ed.D. degree presupposes a minimum of five semesters of continuous study beyond the Specialist Degree and cannot be secured through summer study alone. At least six semester hours must be completed during each of two semesters to satisfy full-time residency requirements at Georgia Southern University (semesters do not have to be consecutive).

Time Limit: All course requirements for the Ed.D. degree, except the dissertation, must be completed within a period of three years. This time requirement begins with the first registration for core (Tier II) courses on the student’s approved program of doctoral study. In addition, a candidate for the Ed.D. degree who fails to complete all degree requirements within five years after passing the comprehensive examinations and being admitted to degree candidacy will be withdrawn from the program, or must retake comprehensive examinations to be reinstated.

Grade Average: A student must maintain at least a 3.50 GPA on all graduate courses taken and on all courses on the Program of Study.

Supervisory Committee. Before the end of the fourth semester of study in Tier II of a prospective candidate for the Ed.D. degree, the Dean of the College of Graduate Studies shall, upon the recommendation of the program coordinator offering the degree, appoint a Supervisory Committee for the student. The committee will consist of a major professor, who will serve as committee chairperson, and three additional members. The chair of the Supervisory Committee must meet all requirements established by the College of Graduate Studies for directing doctoral dissertations. All members of the committee must have graduate faculty status. Department recommendations for committee membership, and any necessary replacements, shall be determined by procedures established by the majority of the graduate faculty of that program. The Supervisory Committee, in consultation with the student, is charged with planning and approving the student’s Program of Study. It is also charged with approving a subject for the dissertation, and approving the student’s oral defenses of his/her research. The committee will advise the student of the skills and understandings required both in content and inquiry/research areas.

Program of Study. A preliminary Program of Study based on a minimum of seventy-five semester hours beyond the Master’s degree, will be submitted to the Program Coordinator by the end of the student’s first semester of study. The preliminary program must be developed by the Program Coordinator and the doctoral student. A total of 30 semester hours of course work, exclusive of dissertation credit, must be taken at Georgia Southern University at the doctoral level. A final Program of Study must be approved by the Supervisory Committee, the Department Chair, and the Dean of the College of Graduate Studies before application for admission to degree candidacy. The final Program of Study submitted prior to graduation must show all graduate courses relevant to the Ed.D. program (Specialist and transfer credit), and not just courses satisfying minimum degree requirements. A minimum of nine semester hours of dissertation credit must be included in the Program of Study. Program faculty will evaluate carefully and fully each doctoral student’s progress at the end of each year of study to advise the student whether or not to continue in the program.

Comprehensive/Qualifying Examinations. A student must pass formal, comprehensive written and/or oral examinations before being admitted to candidacy for the degree. These examinations will be administered in accordance with policies in effect in the College of Graduate Studies and the student’s department. The oral examination will be an inclusive examination within the student’s field of study. Following each examination, written and/or oral, each member of the Supervisory Committee will cast a written vote of “pass” or “fail” on the examination. At least three out of a possible four positive votes are required to pass each examination. The results of both examinations will be reported to the College of Graduate Studies. If a student fails the comprehensive examination for a second time, he/she will be removed from the program.

(continued on next page)
Admission to Degree Candidacy. The student is responsible for initiating an application for admission to degree candidacy so that it is filed with the College of Graduate Studies at least two semesters before the date of graduation. The application for degree candidacy is a certification by the student’s program that the student has shown the ability to do acceptable graduate work in the chosen field of study and that:

1. all prerequisites set as a condition for admission have been met;
2. all inquiry/research skill requirements have been met;
3. the final Program of Study has been approved by the Supervisory Committee, the Department Chair, and the Dean of the College of Graduate Studies;
4. a grade point average of 3.50 or higher has been maintained on all graduate courses taken and on all completed courses on the Program of Study; no more than one grade of “C” may be placed on the final Program of Study;
5. written and/or oral comprehensive examinations have been passed and reported to the College of Graduate Studies;
6. the Supervising Committee, including any necessary changes in the membership, is confirmed and all its members have been notified of their appointments; and
7. the residency requirement has been met.

The Supervisory Committee Chair has the primary responsibility for guiding the student’s research, but the student should regularly consult all members to draw upon their expertise in relevant areas. After admission to degree candidacy, a student must register for a minimum of nine semester hours. Students in the Ed.D. degree program in Educational Administration must enroll in EDLD 9999-Dissertation. Students must be enrolled for a minimum of three semester hours of credit in any semester when using University facilities or staff time. Students must be continuously enrolled (fall and spring semesters) in EDLD 9999 after Admission to Candidacy.

Dissertation Planning. The dissertation prospectus and prospectus for the Ed.D. degree in Educational Administration will be defended by the candidate upon completion of all prerequisite course work. It is possible that the composition of the student’s Supervisory Committee may change to ensure that faculty members are knowledgeable in the areas of the student’s research. If changes in the composition of the original committee are in order, all affected parties will be notified, including the Dean of the College of Graduate Studies. The Supervisory Committee Chair and the committee membership will guide the student in planning the dissertation. When the Committee Chair certifies that the dissertation prospectus is satisfactory, it must be formally dissertated by the Supervisory Committee at a meeting with the student. Following the meeting, each committee member will cast a written vote of “pass,” “fail,” or “pass with modifications.” At least three out of a possible four positive votes are required for approval. Their signatures on the appropriate form, with a final copy of the approved prospectus, will be filed in the department office. A copy of the approval/disapproval form will be forwarded to the College of Graduate Studies. If a student fails any stage of the dissertation process (prospectus, prospectus or full dissertation) a second time, he/she will be removed from the program.

Dissertation Defense and Approval. When the Supervisory Committee Chair is satisfied with the completed dissertation, he/she will certify approval and indicate that it is ready to be read by all members of the Supervising Committee. Copies will be distributed to the remaining members of the Supervisory Committee, a final oral defense scheduled, and the College of Graduate Studies notified. The College of Education will announce the time and place of the defense of the dissertation. Committee members will have at least three weeks to READ and evaluate the dissertation. If the committee declines to approve the dissertation, the Supervisory Committee Chair will so notify the student and the College of Graduate Studies. The oral defense session will be led by the Supervising Committee Chair and must be attended by all members of the committee. This meeting is open to all members of the University community. Three out of four members of the committee must approve the student’s dissertation and defense and certify their approval in writing. The results of the defense must be reported to the College of Graduate Studies as per deadlines announced by the College of Graduate Studies. Once the dissertation has been approved by the Supervisory Committee and the final oral examination has been passed, the dissertation must be submitted in electronic format to the College of Graduate Studies for final approval by the deadline announced by the College of Graduate Studies.

Other Requirements. The student must submit a receipt showing that he/she has deposited the University Controller the cost of microfilming the dissertation. (If the student wishes to copyright the dissertation, an additional charge must be paid.) This fee must be presented to the Dean of the College of Graduate Studies in the form of a receipt from the Georgia Southern University Business Office.

Ed.D.  CURRICULUM STUDIES
63 semester hours beyond Master’s including dissertation, 54 hours beyond Master’s excluding dissertation
Advising: Department of Curriculum, Foundations, and Reading, Dr. Marla Morris, P.O. Box 8144, Statesboro, GA 30460, (912) 681-5942, marlamor@georgiasouthern.edu, FAX: (912) 681-5382, http://coe.georgiasouthern.edu/foundations/edd.html

Admission Requirements
The following minimum admission requirements must be met:
1. Complete the work necessary to be eligible for the minimum of a Master’s degree from an accredited graduate institution.
2. Present a minimum grade point average of 3.50 (4.0 scale) in all graduate work attempted (or other appropriate evidence of scholarly aptitude necessary for doctoral study).
3. Present scores from the Graduate Record Examination (GRE) or the Miller’s Analogies Test (MAT). International Students who have not earned a degree at an institution of higher education in the United States must also submit the results of the TOEFL Examination.
4. Complete all College of Graduate Studies admission requirements, including:
   - Application for admission
   - Immunization record
   - Official test scores
   - Official transcripts from all institutions previously attended
   - Three professional reference letters
5. Complete an in-house writing sample.
6. Complete an interview, if requested.

Applicants’ credentials will be evaluated by the Ed.D. in Curriculum Studies Admissions Committee in order to identify the candidates in that applicant pool to recommend for admission. The number of applicants accepted each year will be dependent upon available resources.

Residency: One academic year of continual enrollment.

Time Limit: All course work credited toward the degree and the Candidacy Examination must be completed within seven years after the completion of the first course in the Program of Study following admission to the program. Students must complete and defend the dissertation within five years of admission to candidacy. If the time limits are not met, a student may be required to take additional course work and/or retake the Candidacy Examination.

Program of Study: This degree program consists of work in four areas: (1) The Doctoral Core, (2) Research and Inquiry, (3) Emphasis Area, and (4) Dissertation. The first two areas require a combined minimum of 39 semester hours of course work, the third area requires a minimum of 15 semester hours of course work, and the fourth area requires a minimum of 9 semester hours. The complete program requires a minimum of 54 semester hours of course work plus 9 hours of dissertation credit.

Prerequisites: Students must meet prerequisites required by the program and by certain courses within the program. The program prerequisites are:
- EDUC 7130 - Curriculum Theories and Design (3)
- EDUF 7130 - Learning Theories and Applications (3)
- EDUF 7235 - Multicultural Education (3)
- EDUR 7130 - Educational Research (3)

Some students might enter the program carrying course work beyond the Master’s degree. Up to 27 semester hours of applicable and appropriate post-Master’s work can be applied toward degree requirements with the approval of the student’s Candidacy Committee Chair.

The Doctoral Core. This is the nexus of the program. As such, it contains courses to be taken by all doctoral students. The Core intertwines the theoretical, ethical, and historical concepts underpinning curriculum work with advanced theories of design, development, and implementation.

Research and Inquiry. This portion of the program is designed to create scholars who might apply their knowledge base to the solving of problems encountered in daily education work. Both components of this segment are understood to be essential in the preparation of doctoral students who will engage in meaningful, productive investigations into critical issues in curriculum. The Research component of the segment provides for advanced study into specific methodologies and their appropriate applications. The Inquiry component addresses theoretical questions of orientation of various research paradigms so that the doctoral student might make an informed decision as to the general approach (i.e. quantitative or qualitative) he/she will wish to pursue in order to effectively address a topic or problem in curriculum.

Emphasis Areas. This program offers seven interdisciplinary emphasis areas covering a broad terrain of scholarly inquiry and educational application.
1. Curriculum Theory
   This area provides opportunities for doctoral students to engage in highly advanced and specialized study of curriculum theory, design, and evaluation. As such, students will exit the program capable of gaining employment at the administrative levels of public school systems as curriculum specialists or of entering the professoriate as curriculum scholars. The program provides both depth and breadth of learning experiences in the field of curriculum beyond the studies of the Doctoral Core, and ensures an intensive exposure to critical aspects of the field.
2. Instructional Improvement
   This area meets the needs of many practicing professionals in South Georgia. These include curriculum directors, staff development personnel, instructional coordinators, high school department chairs, and lead teachers as well as others in teaching or administrative positions at the P-12 level or in higher education. Education will improve only if teaching improves, and individuals in positions to work with teachers need to be highly qualified and well-trained in innovative techniques for instructional improvement.
3. Literacy Education
   Literacy has been largely conceptualized in the nation’s schools as the acquisition of reading and writing skills. This Emphasis Area moves beyond the utilitarian definition of the term to invoke a larger sphere which integrates diverse aspects of reading, writing, and language which are usually addressed in separate programs. As such, we offer an interdisciplinary approach utilizing a broad definition of literacy as the construction and organization of experience and its articulation through both written and oral forms of communication. The strength of the Emphasis in Literacy Education lies both in its reflection of modern research and perspectives by integrating diverse aspects of language, reading, and writing, traditionally addressed by distinct programmatic organizational patterns; and its targeting of an array of problems endemic to the region.

4. Mathematics/Science/Computing Technology Education
This area is for mathematics and science teachers, curriculum directors, and others with a high degree of interest and aptitude in any of these areas. This Emphasis is not intended as a set of separate inquiries into discrete content areas, but rather as an interdisciplinary program emphasizing the connections between mathematics in science education, science in mathematics education, and computing technologies in both these fields. Students selecting this Emphasis Area will be better equipped to enhance their own instructional practices as well as provide leadership in interdisciplinary applications of mathematics/science/computing technology education within their constituent schools and school systems.

5. Multicultural Education
Originally linked to concerns of racism in schools and schooling, the content of multicultural education has expanded to address inequities based upon gender, class, age, and/or physical ability, as well as wider concerns of cultural diversity. We emphasize both the breadth of analysis inherent in contemporary approaches to multicultural education and the relationship of inquiry to those same analytics. The Emphasis Area will explore new methods for meeting the challenges posed by individual and structural racism, as well as provide for the intense investigation of the needs and problems of the culturally diverse groups found within the region. In addition, this Emphasis facilitates the study of cultural conflicts to determine the roles of family and community in successful multicultural education. Further, the Emphasis Area addresses how schools might be organized to promote creative or non-violent conflict resolution, appreciation of cultural diversity, and the relationship of culture and academic achievement.

6. Cultural Curriculum Studies
This emphasis area reflects current major trends in the field of curriculum studies. It centers on the study of popular culture in its many manifestations and the implications of the ways in which the study of these educational sites impact the social construction of identity. The intersections of popular culture on pedagogy and curriculum theory are complex.

7. Arts Education
This area is primarily for art and music teachers, but those theater arts and dance teachers and others with a high degree of interest and aptitude in any of the arts may pursue this Emphasis Area. Students selecting this Emphasis Area will explore curriculum theory and structure in their specific arts discipline and learn new skills in order to develop, implement and revise arts curricula that meet the educational goals and needs of diverse learners. This Emphasis Area will help arts teachers become better equipped to develop and assess curriculum, instruction, programs, and student achievement in their specific fine arts discipline.

Grade Average. To be eligible for graduation, a student must maintain a cumulative 3.5 grade point average.

Student Assessment. Students will be assessed regularly throughout the program at a variety of administrative and curricular checkpoints. The official sequence is as follows.
1. Admission to the program
2. Course work
3. Candidacy examinations
4. Proposal defense
5. Prospectus defense
6. Dissertation defense
A student will be excluded from the program upon earning grades of “C” or below in two or more courses.

Examinations and Committees. During their tenure in the program, students with their Advisors, will assemble two separate examination committees. The first is the Candidacy Examination Committee, and the second is the Dissertation Committee. Each committee has a distinct mission in the program of the student and specific membership criteria. The membership of these committees may or may not be comprised of the same individuals, at the student’s discretion. The following is a description of the mission and membership requirements of each committee.

The Candidacy Examination. Following the completion of the prescribed minimum course work and before a student is formally admitted to candidacy for the doctoral degree, the Candidacy Examination must be passed. This examination evaluates both the work to date and the student’s qualifications for advanced research. The content of the examination will cover three blocks: the Core, Research, and an Emphasis area. The administration of the examination consists of two parts: written and oral. The formats for the written portion can be either take-home or timed. Students, in concert with their committee chair, will determine which format to employ for the individual blocks of the written examination. The oral portion must be completed within four weeks after the written portion is concluded and the entire examination process must be completed within nine weeks. If a student does not pass all sections of the candidacy examination, the committee may grant one additional examination over the failed section/s to be administered under conditions stipulated by the committee members. These conditions might include additional course work at the committee’s discretion. Students may not take the additional examination any earlier than the term following the first examination.

The Candidacy Committee. The committee will be comprised of three faculty, each responsible for one of the examination blocks (Core, Research, Emphasis). All committee members must hold Graduate Faculty status. If the committee is larger than three (at the student’s request), there may be only one dissenting vote in order for the candidate to pass. Upon successful completion of the Candidacy Examination, the student is formally admitted to candidacy and will begin work on the dissertation.

The Proposal Hearing. The dissertation is simultaneously the last requirement in the program and the first research project as a curriculum scholar. There are two check points in the dissertation process, the first being the Proposal Hearing. This is to ensure the committee’s agreement with the project and to elicit any preliminary suggestions and/or redirection of question, context, method, and/or analysis.

The Prospectus Hearing. This is to provide formal feedback on the first three chapters of the dissertation (or the introduction, theoretical framework, literature review and methodology) before the student begins the “data collections” stage of the dissertation.

The Dissertation Defense. The defense will be undertaken once the project is complete. Although there are traditional formats for dissertations in education, the Department requires no template for construction. There are, however, certain tenets of educational research which should be addressed in some manner in the work depending upon the general theoretical structure (quantitative or qualitative), and the methodological approach chosen from within that theoretical paradigm. The role of the dissertation chair is critical in this process and candidates should carefully choose the individual with whom they wish to work.

(continued on next page)
The Dissertation Committee. The Proposal Hearing, Prospectus Hearing, and the Dissertation Defense is proctored by at least four members of the Graduate Faculty and conducted in a public forum. The membership is as follows: the Director of the dissertation and three readers, one of whom must be from outside the College of Education. Candidates, in concert with their chair, will choose the individuals of the committee. Three of the four members must approve the dissertation and the final examination in order for the candidate to receive the doctoral degree. If the committee is larger than four (at the candidate’s discretion), there may be only one dissenting vote in order for the candidate to pass.

Distinguished Off-Campus Scholar. Having a highly respected scholar from another institution or research center serving on a doctoral examination committee can be very valuable. Therefore, a person who is a nationally or internationally recognized scholar may serve as a voting member of a dissertation examination committee for an individual doctoral student. Further information and criteria for such an appointment should be obtained from the dissertation chair or the program director.

COACHING CERTIFICATE PROGRAM 18 HOURS

Advising: Department of Kinesiology, Georgia Southern University, P.O. Box 8076, Statesboro, GA 30460, (912) 681-0091, FAX: (912) 681-0381, http://chhs.georgiasouthern.edu/m_sci_kinesiology.html

Program

The program consists of 18 semester credits. Students will take five courses from the existing Master of Science - Major in Kinesiology - Coaching Emphasis degree program. These five courses, which cover the five content areas that are typical of coaching programs nationally, are: administration, sport physiology, athletic training, sport issues and sport psychology. One of these content areas (this is to be interpreted as one course) may be satisfied by documented life experiences or previous graduate course work. (Students may transfer up to two courses from a graduate program at another University.) These documented experiences will be submitted in written form and reviewed by the Program Coordinator and teaching faculty. Previous graduate course work must be supported by an institutional catalog description.

Admission Requirements

Regular

1. Admission to the Georgia Southern University College of Graduate Studies. This requires the following:
   a. Completion of a Bachelor’s degree from an accredited institution.
   b. Official copies of all undergraduate and graduate, if appropriate, transcripts.
   c. An updated resume that includes the following: a) Work history, b) Professional experiences, c) Membership and participation in professional organizations, d) Other experiences related to the academic program, and e) Contact information for a minimum of three references.

2. At the completion of three courses (9 semester credits) the student must sign a form declaring that he/she will complete the Certificate Program (total 18 semester credits) or will apply for admission to a degree seeking program. This is necessary because only 9 semester credits (no more than 3 courses) of non-degree course work may be accepted towards completion of a degree program (some exceptions; please see the Georgia Southern University Catalog).

NOTE: Contact the Office of Graduate Admissions for other admission related information.

$ Students must meet the progression policies of College of Graduate Studies and the MSN Program.

$ A student admitted Non-degree to the Post-MSN Certificate options must meet the same academic standards and regulations for progress and retention as a Degree-seeking student.

$ Students completing the Family Nurse Practitioner and Women’s Health Nurse Practitioner MSN degree or Certificate option are eligible to sit for national certification examination.

$ Preference is given to applicants with a desire to work in rural or under served areas. Minority and rural students are encouraged to apply.
M.S. RECREATION ADMINISTRATION 36 HOURS
Advising: Department of Hospitality, Tourism and Family and Consumer Sciences, Dr. John Nauright, Georgia Southern University, P.O. Box 8077, Statesboro, GA 30460, (912) 486-7427, FAX: (912) 681-0386 E-Mail: jnaurigh@georgiasouthern.edu, http://chhs.georgiasouthern.edu/m_recreation.html
Admission Requirements
Regular
For unqualified admission to the College of Graduate Studies to pursue work leading to the Master of Science (Major in Recreation Administration), the applicant must have:
1. Completed requirements for the Bachelor’s degree in a college accredited by a proper regional accrediting association.
2. A 2.5 (4.0 scale) cumulative grade point average or higher in undergraduate work.
3. Minimum Graduate Record Examination (GRE) subtest scores of 450 Verbal, plus 450 Quantitative or Analytical, to meet a subtest score total of 1200; or minimum subtest scores of 450 Verbal, 450 Quantitative and 3 on the Analytical Writing section for persons taking the GRE after October 1, 2002. One may also score 44 on the Miller Analogies Test (MAT) or make an acceptable score on the Graduate Management Test (GMAT). GMAT scores are evaluated by the following formula: 200 x overall GPA + the GMAT score must equal no less than 1000 for regular admission.
4. An undergraduate major in Recreation or a discipline closely related to one of the recognized emphasis areas associated with undergraduate recreation education.
5. Successfully completed a three semester hour introductory recreation course and a three semester hour introductory statistics course. Those candidates who have not completed the above courses will be required to complete these or equivalent courses prior to or during graduate course work. Exceptions to this requirement must be approved by the Chair of the Department of Hospitality, Tourism and Family and Consumer Sciences.
6. Three letters of recommendation by persons familiar with the applicant’s academic and/or employment experience.
Provisional
Provisional admission may be granted with a 2.5 undergraduate grade point average and minimum GRE subtest scores of 400 Verbal plus 400 Quantitative or Analytical for a subtest score total of 1100; or minimum subtest scores of 400 Verbal, 400 Quantitative and 3 on the Analytical Writing section for persons taking the GRE after October 1, 2002. Provisional admission may also be granted with a 40 MAT; or GMAT scores are evaluated by the following formula: 200 x overall GPA + the GMAT score must equal no less than 950 for provisional admission.
Program of Study
The Chair of the Department of Hospitality, Tourism and Family and Consumer Sciences shall name the major professor who, in conference with the graduate student, will develop a Program of Study to include:
Required Recreation Core Requirements ........................................................................................................ 18 Hours
   REC 6030 - Selected Topics in Recreation and Sport (3) OR REC 7830 - Directed Individual Study (3) OR SMGT 6337 - Sport Facility and Event Management (3)
   REC 7230 - Research Methods and Statistical Applications in Recreation and Sport Management (3)
   REC 7236 - History and Philosophy of Leisure and Sport (3)
   REC 7237 - Recreation Management (3)
   SMGT 6330 - Social and Ethical Issues of Sport and Leisure (3)
   SMGT 7335 - Sport Law and Risk Management (3)
Guided Electives (9 for Internship and 12 for Thesis) ...................................................................................... 9-12 Hours
Students may choose electives in any of the following areas or from advisor approved options:
   Business
   Environmental Studies
   Higher Education
   Historic Preservation
   Hospitality
   Kinesiology
   Natural and Cultural Resource Management
   Psychology
   Public Administration
   Sociology
   Sport Management
   Tourism
Internship Option .............................................................................................................................................. 9 Hours
Students choosing not to pursue the emphasis area may choose the internship which will fulfill 600 hours of full time work experience in place of the 9 credit hours of emphasis, or the thesis. Internships must be approved by the student’s advisor.
Thesis Option ..................................................................................................................................................... 6 Hours
This option is for students who have an interest in research and is strongly recommended for those students planning to pursue doctoral study. Students, with support from their major professor and committee, will develop a thesis proposal, conduct appropriate research, analyze results, and produce a finished written product. Students must follow all policies and guidelines developed by the College of Graduate Studies. The thesis option is completed by a thesis defense.

Thesis/Internship Option

Thesis Option (6 Hours)

This option is for students who have an interest in research and is strongly recommended for those students planning to pursue doctoral study. Students, with support from their major professor and committee, will develop a thesis proposal, conduct appropriate research, analyze results, and produce a finished written product. Students must follow all policies and guidelines developed by the College of Graduate Studies, including the Georgia Southern University Graduate Student Manual. The thesis option is completed by a thesis defense.

Internship Option (9 Hours)

This option is for students whose primary interest lies in a career in the sport industry. The internship may begin upon completion of at least 27 hours of course work. The internship must consist of at least one full academic semester. The student/intern is expected to work 35/40 hours per week. At the conclusion of the internship, the student will make a presentation to faculty on all aspects of their activities during the internship.

Program of Study

Required Hours ..................................................................................................................................................................................21 Hours

ENGL 7111 - Seminar in College English (1)
ENGL 7121 - Methods of Research (2)
ENGL - Six seminars at the 6000 or 7000 level (18)

Electives (courses at the ENGL 5000 level or additional ENGL seminars) ......................................................................................................... 9 Hours

Up to six hours may be taken in other disciplines (no more than one course per department) upon approval of the Director.

Thesis OR Non-Thesis Option ........................................................................................................................................................................6 Hours

(See below and for more information consult the M.A. English web page at http://class.georgiasouthern.edu/litphi/graduate.htm)

1. Thesis Option

In cooperation with a thesis advisor and committee, the student will write an M.A. thesis (minimum of 60 pages, not counting Notes and Works Cited). The student must pass an oral examination consisting of a discussion of the thesis and of questions related to it. In depth and scope, the thesis must demonstrate originality in research as well as independent and critical judgment in interpreting materials. The major professor shall supervise the research, direct the writing of the thesis, and approve the thesis in its final form. Prior to final approval, the members of the thesis committee will have read the thesis. Both second and third readers shall report all comments to the major professor. See the Graduate Student Manual for additional Thesis information. Prior to beginning the thesis, the student should have the supervisor complete a Thesis Prospectus Form to be approved by the department and the Graduate College.

2. Non-Thesis Option

After completing thirty hours of course work, students may opt to take two additional courses at the 6000-7000 level instead of writing the thesis. They will prepare one of the papers (of fifteen to twenty pages) that they write in those courses to present before a faculty forum, followed by a question and answer session. The paper and the presentation will be assessed by a panel consisting of the student’s teacher for the course and two other professors.

OTHER PROGRAM REQUIREMENTS

Language Requirement

All degree programs leading to the Master of Arts degree require a reading knowledge of a foreign language. French, German, or Spanish is generally required, but another language may be specified by the major professor when the latter is appropriate to the area of research proposed by the student in the thesis prospectus. A foreign national may not use English or his or her native language to satisfy the language requirements.

Georgia Southern University offers the following two options for graduate students who need to complete a foreign language requirement:

1. The language requirement may be satisfied by a minimum grade of “C” in the fourth course of a college-level foreign language that is approved by the student’s advisor.
2. A student primarily interested in reading research in his or her field should prepare to take the Foreign Language Graduate Reading Exam administered by the Department of Foreign Languages. The student must arrange with the Department of Foreign Languages to take the test in the first half of any semester.

Seminars

ENGL 6630 - Seminar in Medieval Literature (3)
ENGL 6631 - Seminar in Shakespeare (3)

A student may repeat a seminar once when it is taught with a different subtitle.
M.A. HISTORICAL STUDIES 36 HOURS
Advising: College of Liberal Arts and Social Sciences, Department of History, Director of Graduate Studies, Georgia Southern University, P.O. Box 8054, Statesboro, GA 30460, phone (912) 681-5586, fax (912) 681-0377, website: http://class.georgiasouthern.edu/history/

Admission Requirements
Application Deadlines: March 1, for fall enrollment; November 15, for spring enrollment applications. Although later applications will be considered, applicants meeting these deadlines will be given priority consideration for available graduate assistantships.

General Requirements
Applicants seeking admission to the graduate program in history must have:
1. Completed requirements for the Bachelor’s degree in a college accredited by the proper regional accrediting associations.
2. A 3.0 (4.0 scale) cumulative grade point average or higher on all undergraduate work, with a 3.0 cumulative GPA in history and no grade in history lower than a “C.”
3. Minimum Graduate Record Examination (GRE) scores of 500 Verbal plus 500 Quantitative or Analytical for applicants who took the GRE prior to October 2002; or minimum scores of 500 on the Verbal section and 3.5 on the Analytical Writing section of the GRE taken after October 1, 2002. Lower test scores may be considered but the applicant will need strong evidence of the ability to perform satisfactorily in graduate level work.
4. An undergraduate major or the equivalent in history. Students with majors in other fields of study are given equal consideration for admission providing they have at least 15 semester hours (or quarter-system equivalent) of history (at least 12 hours at the upper division level) and a total of 30 hours in the social sciences and humanities.
5. Two letters of recommendation by individuals who are familiar with the applicant’s potential for successful graduate study.
6. A statement of purpose (approximately 250 words) outlining the applicant’s interest in graduate study in history.

Provisional
Non-traditional students and applicants not meeting the above requirements may be considered for Provisional (Probationary) admission as determined on a case-by-case basis.

Program of Study
The department offers thesis and non-thesis options.

The degree candidate for a Master of Arts in History will take 30 hours of course work (out of a total of 36), which includes the following:

Thesis Option

The Historian’s Craft (3)
Reading Colloquium (in area of concentration) (3)
Reading Colloquium (outside area of concentration) (3)
Research Seminar (3)
Historical Writing and Editing (3)
Electives (15) (5000-level courses and above) (Up to six hours may be taken in other disciplines upon approval of Advisor)
Thesis (6)

Non-Thesis Option

Same as above, except candidate will substitute three additional hours of electives and an article-length paper (approximately 10,000 words) for the thesis.

OTHER PROGRAM REQUIREMENTS
- The student must also pass a reading-knowledge examination in an appropriate foreign language, pass an oral examination on courses taken for the degree, and, for the thesis option, pass an oral thesis defense.

M.A. SOCIAL SCIENCE 36 HOURS
Advising: College of Liberal Arts and Social Sciences, Department of Sociology and Anthropology, Georgia Southern University, P.O. Box 8051, Statesboro, GA 30460, (912) 681-5443, FAX: (912)681-0703

Admission Requirements

Regular
1. An undergraduate degree from an accredited, four-year institution (or a course of study that is the equivalent of such a degree).
2. A statement of purpose expressing the student’s aspirations.
3. A favorable review by the Social Science Graduate Admissions Committee. Consideration is given to an applicant’s potential for succeeding in the program, undergraduate GPA, GRE Scores, and career aspirations.

Required Core Courses ............................................................................................................................................. 12 Hours
SOCI 6038 - Proseminar in Social Science (3)
Theory (3) (Can be any ANTH, HIST, POLS, PSYC, or SOCI theory course)
Methods and/or Analysis (6) (Can be any ANTH, HIST, POLS, PSYC, or SOCI methods and/or analysis)

Elective Courses ......................................................................................................................................................... 18 Hours
A student will develop a program of study in conjunction with their advisor and approved by the graduate Director. A student will select an area of concentration in Anthropology, History, Political Science, Psychology, or Sociology.

General Program Requirements
An area of concentration requires a minimum of 15 hours of coursework from within anthropology, history, political science, psychology or sociology. At least 50% of the courses applicable toward a graduate degree must come from courses at the 6000-level or above. Enrollment in courses outside anthropology, history, political science, psychology, and sociology is limited to a maximum of 6 semester hours. Courses that are taken to fulfill a prerequisite for admission may not be used to satisfy elective course hour requirements. It is suggested that students take courses from at least three disciplines.

Terminal Courses ....................................................................................................................................................... 6 Hours

Applied/Public Service Track
The applied/public service track is for students who plan to enter applied or public service venues. Students must complete 6 hours of course work that has an applied/public service emphasis (e.g. additional classes in methods, statistics, grant writing, program evaluation, public policy, or field research). Specific courses must be approved by the advisor and graduate director.

Research Thesis Track
The research thesis track is strongly recommended for students who plan to continue in graduate or professional education. The thesis may be theoretical or empirical and should represent the student’s knowledge of social science theory, methodology and a substantive area as well as the ability to conduct research. Data for empirical research projects may be qualitative and/or quantitative and primary and/or secondary in nature.

6. Successful completion of Spanish proficiency exam administered by Georgia Southern University Department of Foreign Languages or other accredited institution

Provisional
A minimum score of 450 on the Verbal section of the GRE accompanied by a better than 2.75 (4.0 scale) cumulative grade point average on undergraduate college work. Students who do not meet provisional requirements may appeal to a departmental committee of graduate faculty members for admission.

Program of Study

Candidates for the M.A. in Spanish must complete a total of 42 hours.

1. Thesis Option: 30 hours required course work + 6 hours of electives + 6 hours Thesis
   In cooperation with a thesis advisor and committee, the student will write an M.A. thesis (minimum of 60 pages, not counting Notes and Works Cited). The student must pass an oral examination consisting of a discussion of the thesis and of questions related to it. In depth and scope, the thesis must demonstrate originality in research as well as independent and critical judgement in interpreting materials. The major professor shall supervise the research, direct the writing of the thesis, and approve the thesis in its final form. Prior to final approval, the members of the thesis committee will have read the thesis. Both second and third readers shall report all comments to the major professor. Prior to beginning the thesis, the students should have the supervisor complete a Thesis Prospectus Form to be approved by the department and the Graduate College. Upon completion of the thesis there will be a thesis defense administered by the major advisor and at least two other members of the Spanish faculty as determined by the candidate and the advisor.

2. Non-Thesis Option
   After completing thirty hours of required course work, students who do not plan to enter a Ph.D. program will take 12 additional hours instead of writing the thesis.

   Students choosing the non-thesis option will prepare a paper (of fifteen-twenty pages) that they write in their last six hours of course work to present before a faculty forum, followed by a question and answer session. The paper and the presentation will be assessed by a panel consisting of the student's teacher for the course and two other professors.

3. All degree candidates will take a comprehensive examination over course work and a masters reading list which will be placed in their hands upon entering the degree program

OTHER PROGRAM REQUIREMENTS

Language Requirement
All degree programs leading to the Master of Arts degree require a reading knowledge of a second foreign language. Either French, German, Japanese or Latin is generally required, but another language may be specified by the major professor when the latter is appropriate to the area of research proposed by the student in the thesis prospectus. A foreign national may not use English or his or her native language to satisfy the language requirements.

Georgia Southern University offers the following two options for graduate students who need to complete a foreign language requirement:

1. The language requirement may be satisfied by a minimum grade of “C” in the fourth course of a college-level foreign language that is approved by the students advisor.

2. A student primarily interested in reading research in his or her field should prepare to take the Foreign Language Graduate Reading Exam administered by the Department of Foreign Languages. The student must register for the exam with the Department of Foreign Languages no later than the last week of the semester before the test is to be taken.

The examination will be based on material selected in advance by the student and approved by the examiner. The exam will have a limit of two hours, during which time the student will be expected to prepare a reasonably accurate written translation of several passages selected by the examiner. The use of dictionaries during the exam will be permitted. The examining committee for foreign languages shall report a pass or fail to the College of Graduate Studies.

Thesis Exhibition
The student will successfully complete an M.F.A. Thesis Exhibition. The Thesis is to include a major exhibition of studio work supported by a written paper that adheres to the College of Graduate Studies guidelines and explains the historical and theoretical foundations for the student’s work.
Advising: College of Liberal Arts and Social Sciences, Department of Music, Dr. Gregory W. Harwood, Music Dept., GSU, P.O. Box 8052, Statesboro, GA 30460, phone (912) 681-5813, fax (912) 681-0583, email: gharwood@georgiasouthern.edu

Admission Requirements:

Regular:
1. A completed bachelor’s degree in music or equivalent.
2. A minimum 2.5 (4.0 scale) cumulative grade point average in undergraduate work.
3. Two letters of recommendation.
4. Requirements pertinent to the student’s intended major area of emphasis:
   a. Composition: satisfactory sample scores for at least 3 different types of compositions
   b. Music Education: L-4 certification by the State of Georgia or its equivalent
   c. Performance: satisfactory audition with compositions from at least 3 different periods

Provisional:
Students may be admitted on a provisional basis if one or more of the requirements listed above are judged to be marginal. Specific provisions for exiting provisional status will be set in each case by the admissions committee and must be satisfied before proceeding past the first 12 semester hours of course work.

Departmental Proficiency Requirements:
Before proceeding past the first 12 semester hours of the degree, all students admitted into the program must demonstrate acceptable proficiency (undergraduate exit level) in music theory (part-writing, analysis, and ear-training) and music history, determined through a test administered by the Department of Music. In addition, candidates in vocal performance must demonstrate acceptable proficiency in diction in both English and at least two foreign languages during their audition; basic undergraduate proficiency levels in the International Phonetic Alphabet (IPA) in German, French, Italian; and fluency in basic keyboard skills. At the discretion of the M.M. Advisor, students who have not met proficiency standards in a particular area may be restricted from enrolling in certain courses related to their deficiency.

All M.M. candidates are required to pass a comprehensive oral examination, covering coursework and their recital or final project.

PUBLIC ADMINISTRATION 36 HOURS

Advising: College of Liberal Arts and Social Sciences, Department of Political Science, Dr. Erik Brooks, MPA Program, Georgia Southern University, PO Box 8101, Statesboro, GA 30460, phone (912) 871-1400, fax (912) 871-1396, email: mpa@georgiasouthern.edu

Admission Requirements

Regular

A student must have the following items in his or her portfolio:
1. Completed requirements for the Bachelor’s degree in a college accredited by proper regional accrediting association.
2. A 2.5 (4.0 scale) cumulative grade point average in undergraduate work.
3. Regular admission is typically offered to applicants who score at least 400 on the Verbal or Quantitative section of the Graduate Record Examination (GRE) and have a score of at least 900 on the combined Verbal and Quantitative sections; and score at least 3 on the Analytical Writing section of the GRE taken after October 1, 2002.
4. A current resume detailing relevant work experience.
5. Three (3) letters of recommendation from persons familiar with the applicant’s academic or employment experience.
6. Statement of career goals and objectives.

Provisional

In the following circumstances, applicants who do not meet the above criteria may be admitted:
1. Provisional admission will be considered for applicants with an individual Verbal or Quantitative GRE section score of less than 400, or less than a 3 on the analytical Writing section if strong evidence of ability to perform well in graduate work is provided through reference to work experience or other means.
2. An applicant whose undergraduate record does not include American Government and/or Statistics with a minimum grade of “C” will be required to complete such course work before being allowed to enroll for more than 15 hours of graduate course work. (International students may have the American Government requirement waived as a prerequisite for admission, but must take such a class in the first semester enrolled in the MPA program.)

Non-Degree

In cases of incomplete admission applications, an applicant must have an undergraduate GPA of 2.5 and will be restricted to two courses per semester (determined by the program director).

Prerequisites:

At least one undergraduate class in American Government and one in Statistics, each completed with a minimum grade of “C”.

Program of Study

The graduate student and the MPA Program Director shall jointly develop a Program of Study which includes a 3-semester hour core course, 15 semester hours in basic principles courses, 4 semester hours in administrative skill courses, 9 (pre-service students) or 12 (in-service students) hours of electives, 3 semester hours of internship (pre-service students only), and 2 semester hours in a capstone course.

Other Program Requirements ................................................................................................................... 3 Hours (preservice)

Students who are not professionally employed in the public or non-profit sector while a student in the MPA program will be required to complete an internship in a public agency or non-profit organization before completing the program. Students must have completed at least 15 semester hours and have a GPA in the MPA program of at least 3.0 before enrolling for credit in the internship.
For students doing a thesis, the oral exam will be a defense of their thesis. All students are admitted to the program in fall semester only. Each track is limited to 12 new students.

Regular
The applicant must have:
1. Completed requirements for the Bachelor’s degree in a college accredited by the proper regional accrediting associations.
2. Taken Introduction to Psychology, an introductory statistics course, and at least two additional courses in psychology. For the experimental track, it is preferred that the applicant have taken Research Methods or Experimental Psychology and, for the Clinical Track, Abnormal Psychology.
3. A 3.0 (4.0 scale) cumulative grade point average or higher on undergraduate work.
4. A score of no less than 450 on the Verbal section and 450 on the Quantitative section of the Graduate Record Examinations (GRE).
5. Submitted:
   a. A personal statement that includes a description of career goals, reasons for applying for graduate study at Georgia Southern University, a list of academic achievements, non-academic achievements, relevant work experience, a self-evaluation of maturity level and character, and a choice of track in the Psychology graduate program: Experimental or Clinical.
   b. Recommendations from three individuals who can speak of the applicant’s undergraduate academic performance, potential for graduate study, and maturity level and character.

Provisional
For applicants who meet one but not both the GPA requirement and the GRE requirement, provisional admission may be granted by the departmental graduate faculty based on their consideration of the materials submitted by the applicant and an interview if done.

Program of Study for the Experimental Track
- Statistics and Research Design (6)
- Content courses, e.g., Developmental Psychology, Cognitive Psychology (18)
- Applied research courses, e.g., Research Experience (6)
- Thesis (6)

- Practica in Assessment and Therapy (6)

Total .............................................................. 45 Hours

OTHER PROGRAM REQUIREMENTS
All students in the MS program must pass a written and an oral comprehensive exam given during the spring semester of their second year. For students doing a thesis, the oral exam will be a defense of their thesis.
Master of Public Health

The Master of Public Health (M.P.H.) educational degree program at Georgia Southern University prepares professionals for broad-based practice in public health, through the integration of core competencies in the five areas of knowledge basic to public health (biostatistics, environmental health, epidemiology, health services administration, and social and behavioral sciences) with specialized knowledge and expertise in one of these areas. The program serves both the full-time student preparing for a career in public health, as well as currently employed health professionals seeking an advanced education to augment their existing skills and background.

Purpose

The purpose of the M.P.H. is to prepare graduate level public health practitioners capable of applying practice-based skills to promote the concepts of the field.

A comprehensive public health education program should provide skills enabling students to assess the magnitude and potential impact of the multiple problems facing populations, as well as recognize existing community capacities or resources. In conjunction with assessment skills, students enrolled in a public health program should understand the role of community empowerment, community mobilization, networks, and partnerships in the development of comprehensive public health policies designed to impact the priority areas identified in the assessment phase. Lastly, student skill sets in a public health program should focus on the task of assuring a presence of services and infrastructure necessary to address problems identified in the assessment phase, as well as enforce policies developed in response to the assessment.

Specific skill sets related to the core functions of public health practice are as follows:
- Monitor health status to identify community health problems;
- Diagnose and investigate health problems and health hazards in the community;
- Inform, educate, and empower people about health issues;
- Mobilize community partnerships to identify and solve health problems;
- Develop policies and plans that support individual and community health efforts;
- Ensure the enforcement of laws and regulations necessary to protect health and ensure safety;
- Link people to needed personal health services and assure the provision of health care when otherwise unavailable;
- Evaluate effectiveness, accessibility, and quality of personal and population-based health services; and
- Research for new insights and innovative solutions to health problems.

The M.P.H. program at Georgia Southern University is committed to producing public health practitioners who possess the knowledge, skills, and values necessary to produce an effective public health workforce.

Student Learning Outcomes

Students who complete the M.P.H. degree will:
- Contribute to the public health profession through the practice of sound professional public health attitudes, values, concepts and ethics.
- Appreciate and facilitate diversity of thought, culture, gender, and ethnicity through inter-professional communication and collaboration.
- Participate in professional development, research, service, and educational activities that contribute to the knowledge base and service outreach of public health.
- Integrate and apply the crosscutting knowledge and competencies within five core public health areas of knowledge (biostatistics, environmental health sciences, epidemiology, health services administration, and community health education/social and behavioral sciences).
- Demonstrate advanced knowledge and skills necessary for specialized roles within public health, in at least one of the five core areas of public health.

The Curriculum

The M.P.H. is an applied professional/graduate degree designed for highly motivated students who either have a professional degree or a substantial interest in public health. Unique sequencing of courses, community-based program activities, and field/laboratory research provide students with multiple opportunities to define their course of study.

The M.P.H. program requires a minimum of 45 credit hours and is offered on both a full-and part-time basis. The overall curriculum model includes:

- **Public Health Core**
  - 16 credit hours
- **Concentration**
  - 18 credit hours
- **Electives**
  - 6 credit hours
- **Practicum in Public Health**
  - 3 credit hours
- **Public Health Capstone**
- **Research Project**
  - 2 credit hours

The M.P.H. core course requirements provide a broad overview of the disciplines of public health and the basic principles of public health practice. Specialty coursework develops the skills and knowledge upon which to build or enhance a career in public health. Selective courses are available in each of the five core areas of concentration: Epidemiology, Environmental Health Sciences, Biostatistics, Health Services Administration, and Social and Behavioral Sciences/Community Health Education.

In addition, all students are required to take an introduction to public health. An important practical experience in a public health venue is a field practicum in a community, a public health facility, a government agency, or related setting. The culminating experience is a capstone research project that requires the student to present (both orally and in written format) a data-based project that integrates their specialization with public health practice.

Admission Requirements
Admission into the graduate program is competitive and based upon academic background, performance on the Graduate Record Examination (GRE), professional experience, interest in the field, a history of service, a personal statement, and letters of recommendation.

Degree Admission Requirements
Regular *
- Completion of a Bachelor’s degree from an accredited institution
- Minimum cumulative undergraduate GPA of 2.75/4.0 scale
- Official scores on the Graduate Record Examination (GRE)
- TOEFL scores are also required for international applicants
- A resume that includes the following: a) educational experiences, professional goals and objectives, c) work history, d) professional experiences, memberships and/or participation in professional organizations, e) experiences in public health programs
- Three letters of reference

*In lieu of the above requirements, an earned doctorate or master’s degree from a regionally-accredited institution may qualify the applicant for regular admission.

Provisional
Applicants may be admitted provisionally, based upon an evaluation of their application materials. Provisional admission is for applicants who do not satisfy requirements for regular admission, or those who require pre-requisite coursework prior to entering a particular program of study.

Non-Degree Admission Requirements
An applicant may be admitted to the COGS as a non-degree student to earn credit in Public Health graduate courses without working toward the M.P.H. Interested applicants should consult the Jack N. Averitt College of Graduate Studies for the types of Non-Degree admission as well as the requirements for admission in this category.

Master of Health Services Administration

Purpose
The purpose of the Master of Health Services Administration (M.H.S.A.) degree is to develop leaders who possess the values, knowledge, and skills to manage optimal delivery of healthcare.

Student Learning Outcomes
Upon completion of the M.H.S.A. Program students will possess the following functional competencies:

- Assume leadership positions in public and private agencies involved in the delivery of public health services;
- Assess the health status of a population, understand the determinants of health and illness in a population, and define the factors that influence the utilization of public health services;
- Define the organization, finance, and delivery services of public health and health care systems;
- Identify the economic, political, social and technological forces that affect the delivery of public health services;
- Apply analytical skills from economics, financial management, quantitative decision making, and policy studies to the administration of health service organizations and delivery systems;
- Demonstrate leadership and managerial skills in relationship to human capital and organizational resources,
- Demonstrate an understanding of values and ethical issues associated with the practice of health services administration;
- Demonstrate the development of strong operational and analytical skills through the integration of various academic disciplines; and
- Demonstrate skills in critical thinking, problem solving, decision-making, service development, planning and evaluation.

The Curriculum
All Georgia Southern University Jiann-Ping Hsu College of Public Health students who select to study the M.H.S.A. degree program will complete a minimum of 39 credits in this discipline. Students pursuing this degree will take Health Services Administration Core Courses (15 credits), Business Courses (12 credits), and Guided Electives (6 credits). In addition, students will participate in a Managerial Residency (6 credits) where they will apply, in practical fashion, the skills learned throughout their education or conduct a data-based research thesis (6 credits). Upon completion of the M.H.S.A. will be trained to function effectively as administrators of healthcare services.

Admission Requirements
Admission into the graduate programs within the Jiann-Ping Hsu College of Public Health is competitive and based upon academic background, performance on the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT), professional experience, interest in the field, a history of service, a personal statement, and letters of recommendation.

Degree Admission Requirements
Regular *
- Completion of a Bachelor’s degree from an accredited institution
- Minimum cumulative undergraduate GPA of 2.75/4.0 scale
- Official scores on the Graduate Record Examination or the Graduate Management Admission Test
- TOEFL scores are also required for international applicants
- A resume that includes the following: a) educational experiences, b) professional goals and objectives, c) work history, d) professional experiences, memberships and/or participation in professional organizations, e) experiences in public health programs.
- Three letters of reference

*In lieu of the above requirements, an earned doctorate or master’s degree from a regionally-accredited institution may qualify the applicant for regular admission.

Provisional
Applicants may be admitted provisionally, based upon an evaluation of their application materials. Provisional admission is for applicants who do not satisfy requirements for regular admission, or those who require pre-requisite coursework prior to entering a particular program of study.

Non-Degree Admission Requirements
An applicant may be admitted to the COGS as a non-degree student to earn credit in Public Health graduate courses without working toward the M.H.S.A. Interested applicants should consult the Jack N. Averitt College of Graduate Studies for the types of Non-Degree admission as well as the requirements for admission in this category.

M.S. BIOLOGY 30 HOURS
Advising: Allen E. Paulson College of Science and Technology, Department of Biology, Dr. Ray Chandler, Dept. of Biology, Georgia Southern University, P.O. 8042, Statesboro, GA 30460-8042, (912) 681-5677, chandler@georgiasouthern.edu, FAX: (912) 681-0845, Departmental Web Page: http://www.bio.georgiasouthern.edu

Admission
Students are selected for the Master of Science in Biology degree program on a competitive basis. Meeting minimum requirements does not guarantee admission. Applications are usually evaluated during the eighth week of the semester prior to the semester of admission. Applications for graduate assistantships must be received by March 15 to receive full consideration for fall. Assistantships are awarded for a maximum of five semesters and are reviewed each semester.

Admission Requirements: For unqualified admission to the College of Graduate Studies to pursue graduate work leading to the Master of Science degree in Biology, the applicant must have:

Regular
1. Completed requirements for the bachelors degree in a college accredited by the proper regional accrediting associations.
2. A 2.80 (4.0 scale) cumulative grade point average or higher on all undergraduate work.
3. Scores of at least 450 on the verbal and 500 on the quantitative portions of the Graduate Record Examination (GRE) are typical for applicants to the Master's Program in Biology. Lower scores will sometimes be considered, but the applicant will need strong evidence of ability to perform satisfactory graduate work.
4. An undergraduate major or the equivalent appropriate to the proposed field of study. Adequately prepared applicants will typically have completed 24 hours of biology, 9 hours of mathematics, 16 hours of chemistry (including organic chemistry), and 8 hours of physics (or geological science).
5. Two letters of recommendation from persons familiar with the applicant’s potential to complete successful graduate work.
6. A statement of career goals.

Provisional
Students that fail to meet one of the requirements 2-4 above (GPA less than 2.80, GRE scores below 450 Verbal and 500 Quantitative, bachelors degree with inadequate background in biology, math, or chemistry) may be admitted provisionally. Provisional students must earn a “B” or higher in their first 6 hours of courses to be converted to regular status.

Non-degree
Non-degree students are accepted on an individual basis as space is available.

Program of Study
The graduate student and their graduate committee shall jointly develop a Program of Study that includes 24 semester credit hours in graduate course work plus 3 credit hours of research and 3 credit hours of thesis. Of the 30 required credit hours, 15 must be at the 6000 level or higher.

General Requirements
Core Requirements
BIOL 7610 - Graduate Seminar (2-4)

Specific Requirements
BIOL 7610 - Graduate Seminar (2-4)
BIOL 7895 - Research (3)
BIOL 7999 - Thesis (3)

Electives ..............................................................20-22 Hours

OTHER PROGRAM REQUIREMENTS
Students entering the Master of Science program in Biology are expected to demonstrate knowledge of a broad range of biological principles such as those covered in a general biology course. Thus, all students entering the graduate program in biology at Georgia Southern must (1) have passed the GRE advance biology test with an overall score in at least the 50th percentile OR (2) pass a qualifying exam equivalent to a final in a general biology course with a minimum score of 80%. Students must take the qualifying exam during their first week of classes and may retake the test no more than two times during their first semester. Students that fail to pass the qualifying exam will not be re-admitted for a second semester.

Each candidate for the Master of Science degree in Biology must complete a thesis on a subject approved by his/her committee. This thesis must be defended before the graduate committee and presented at a public exit seminar. The thesis defense is a comprehensive examination that may include questions on the thesis, subject matter related to the thesis, and course work taken at Georgia Southern University.
M.S. MATHEMATICS 30 HOURS COURSE WORK 6 HOURS RESEARCH PROJECT

Advising: College of Science and Technology, Department of Mathematical Sciences, Dr. Jimmy Solomon, Georgia Southern University, P.O. 8093, Statesboro, GA 30460, (912) 681-5390, E-mail: jsolomon@Georgiasouthern.edu

Admission Requirements

Regular
For regular admission to the College of Graduate Studies to pursue work leading to this degree, the applicant must have:
1. Completed requirements for the Bachelor’s degree in a science, engineering, or mathematical discipline at a regionally accredited college or university.
2. Submitted scores from the Graduate Record Examinations to the College of Graduate Studies.
3. Successfully completed courses in calculus, probability, and linear algebra.
4. Successfully completed additional prerequisite courses as applicable for particular concentrations. See the department website http://cost.georgiasouthern.edu/math/.

Provisional
Applicants who do not meet admission requirements may be admitted provisionally but must take appropriate undergraduate courses before receiving regular admission. Admission of an applicant who is deemed marginal may require that an interview be conducted by a committee of graduate faculty members from the department.

Non-Degree
Non-degree students are accepted on an individual basis as space is available. Upon the advisor’s recommendation, up to a maximum of 9 credit hours earned as a non-degree student may be included in the program of study if a non-degree student is granted regular admission.

Program of Study
The graduate student and the graduate advisor shall develop a Program of Study that consists of 30 hours of graduate course work, including 12 hours of core courses, and 18 hours of elective courses. In addition, the Program of Study will include a 6-semester hour research project in the area of concentration. Of the 36 required credit hours, at least 18 must be at the 7000 level.

General Requirements

Core Requirements (12 Semester Hours)
- CSCI 5230G - Discrete Simulation (3)
- MATH 5330G - Operations Research (3)
- MATH 7231 - Advanced Numerical Analysis I (3)
- STAT 5531G - Statistical Methods I (3)

Electives in Concentration Area (18 Semester Hours)
- Selected Courses in MATH, STAT, or CSCI.
  See the department website for information on acceptable courses for each concentration.
  A maximum of two elective courses may be taken from outside the student’s concentration area. These must be approved by the graduate advisor.

Research Project in Concentration Area (6 Semester Hours)
- The student must submit a written report in compliance with requirements and procedures similar to those with a thesis. In addition, the student is required to complete a successful defense of the results of the research project before a faculty committee.

Other Requirements for Non-Thesis Track: Comprehensive Examination

Thesis

Each candidate for the Master of Technology Thesis Track degree must complete a thesis on a subject approved by the graduate thesis committee. The major professor supervises the research, directs the writing of the thesis, and approves the thesis in its final form. Prior to the final approval, the thesis is READ by the thesis committee. One member, termed the second reader, has responsibility for an intensive and rigorous criticism of the thesis and a third member of the thesis committee has the responsibility of a “editorial reader.” Both second and third readers must report all comments to the major professor. The thesis must be defended in an oral examination before the graduate committee prior to final approval and sign-off.

The style and format for the completed thesis shall follow that prescribed by the Director for the Master of Technology degree. Procedural steps in the preparation of the thesis are as follows:

- The prospectus for the thesis shall be submitted to the major professor and thesis committee for approval.
- An original of the completed thesis shall be submitted to the College of Graduate Studies by the submission deadline stated in the University Calendar. After approval, the student submits the number of copies as required in the Graduate Student Manual.
- The copies of the thesis must contain the written approval of the major professor, the members of the thesis committee, and the Dean of the College of Graduate Studies.

Course Descriptions

Introduction
This section of the catalog offers an alphabetical listing of undergraduate and graduate courses offered at Georgia Southern University, along with the college in which that course is taught. Prerequisites are noted at the end of each description. Graduate courses, in general, begin with a 6, 7, 8, or 9. Under the semester format we will offer a 5000G level course that may be taken for graduate credit. (See “Course Numbering” below).

Core Curriculum
Course titles preceded by a bullet are part of the Core Curriculum -- Areas A - E -- of the University System of Georgia. They are transferable within the University System and to most private institutions. Course titles not preceded by a bullet are designed for students who seek a major, minor, or emphasis in a specific program, and may or may not transfer to other institutions. Students should work closely with their advisors in selecting courses each term, especially if a student is considering transferring or changing majors.

Course Numbering System
In general, the first digit of the course corresponds to the level of the class. (1 - Freshman, 2 - Sophomore, 3 - Junior, 4 - Senior, 5 - dual Undergraduate/Graduate, 6 - Lower Division Graduate, 7 - Upper Division Graduate, 8 - Upper Division Graduate, 9 - Doctoral Level Graduate.)

The second digit in the course number indicates the course type. (1-5 - Traditional course format/Example: Lecture and Lab, 6 - Seminar, 7 - Internships and Practica, 8 - Independent Study, 9 - Research, 0 - Topics courses)

The third digit indicates the credit hours. (0-4 - Actual number of hours, 5-8 - Other 3 hour courses, 9 - variable)

The fourth digit indicates the sequence of the course.

A course number followed by a “G” indicates a Graduate course. A course number followed by an “H” indicates an Honors course. A course number followed by an “S” indicates a Studies Abroad course.

Credit Course Description
Under each course title, there are three numbers, such as 3-0-3. The first number listed is the number of hours of lecture; the second number indicates the number of hours of laboratory; and the third number indicates the number of credit hours awarded for successful completion of the course.

Anthropology (CLASS)

ANTH 1102/1102H/1102S - Introduction to Anthropology
The comparative study of humankind draws materials from the widest possible range of peoples, cultures, and time periods to determine and explain similarities and differences among peoples of the world. This course brings the perspectives of all of the sub-fields of anthropology to the study of humanity: cultural anthropology, archeology, linguistics, and biological anthropology.

ANTH 3091/3091S - Selected Topics Anthropology
Various topics. May be dual numbered. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 3131 - World Archeology
An introduction to the archeology of the Old and New Worlds. This course will examine significant cultural developments from an archeological perspective. A particular focus will be on the development of farming and complex societies. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 3331 - Cultural Anthropology
An exploration of the nature, structure, and dynamics of human culture systems through the examination of a variety of cultures, including our own, from around the world. It will provide the student with a better understanding and tolerance of cultural differences and of how and why people, including ourselves, live and act as they do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 3337 - Language, Power, Politics
See LING 3337 for course description.

ANTH 3531 - Biological Anthropology
Examines the interaction of biological and cultural forces in shaping human behavior and physical diversity. Key areas of study include human evolution, primatology and the physical diversity of modern populations. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/FORE/LING 3533 - Introduction to Language
A general introduction to the nature and structure of language and its role in society.

ANTH 4131/AMST 4139 - North American Archeology
An introductory course on the archeology of North America. Concentrates on the prehistory and protohistory of Native Americans as well as introducing students to the history of North American archeology.

ANTH 4132 - Southeastern Archeology
The prehistoric cultures of the Southeastern U.S., including their patterns of subsistence, economy, social and political organization, art, and architecture. The relationship between culture and environment in producing culture change is emphasized. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/LAST 4135/4135S - Mesoamerican Archeology
An examination of the prehistoric cultures of Central America beginning with the Paleoindians and culminating with the Aztec and Maya. Materials covered include the art, iconography, architecture, religion, economy, social and political organization of the Olmec, Mixtec, Aztec, Toltec, Totonac, Maya, and Huastec Civilizations. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 4231/4132S - Methods and Theory in Archeology
Examination and application of current topics in archeology relating to excavation strategy and interpretation. Analysis of various theoretical approaches as well as field techniques. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 4232/4232S - Archeology Field Session
On-site participation in the excavation of an archaelogical site including training in the field and laboratory techniques involved in excavation. Experience in excavation, analysis, recording, and interpretation of archeological materials is provided. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 4233 - Zoocarcheology
An introduction to the analysis of animal remains from archeological sites. Emphasis will be placed on the identification of specimens and the methodologies of interpretation. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 4235 - Advanced Archeological Analysis
An advanced course in the analysis of archeological sites and materials. In-depth examination of certain types of archeological materials. Students also learn about the conservation of archeological materials. Prerequisites: ANTH 1102 plus an upper level archeology course or permission of instructor.

ANTH 4262 - Archeology Field Session
On-site participation in the excavation of an archeological site including training in the field and laboratory techniques involved in excavation. Experience in excavation, analysis, recording, and interpretation of archeological materials is provided. No more than 9 total hours are allowed in any combination of ANTH 4232, 4262, 4292. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 4292 - Archeology Field Session
On-site participation in the excavation of an archeological site including training in the field and laboratory techniques involved in excavation. Experience in excavation, analysis, recording, and interpretation of archeological materials is provided. No more than 9 total hours are allowed in any combination of ANTH 4232, 4262, 4292. Prerequisite: ANTH 1102 or permission of instructor.
ANTH 4333 - Comparative Social Organization 3-0-3
A cross-cultural examination of patterns of social organization including family, kinship, associations, and social networks, through comparative studies of selected cultures from around the world. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 4355 - Anthropology and International Business 3-0-3
A study of the application of anthropological concepts and methods in the study of the cultural dimensions of business in other countries. It examines the problems and skills involved in intercultural business relationships including intercultural communication, cultural sensitivity, organizational cultures, culture shock, and cross-cultural misunderstandings. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 4337 - Folklore and Religion 3-0-3
See RELS 4337 for course description.

ANTH 4431 - European Cultures 3-0-3
An examination of the differences and similarities among European peoples and the effects of social, political, and economic changes on their cultures from an anthropological perspective. It also examines the principal anthropological methods and theories used in the study of European culture systems. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 4455 - Middle Eastern Cultures 3-0-3
An ethnological examination of the lifeways of the diverse peoples of the Middle East. The focus of the course will be on the peoples of the Middle East, how they live, and why they live as they do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 4890/4890S - Directed Individual Study (1-3)-0-(1-3)
Independent study under faculty supervision. Prerequisite: Permission of instructor.

ANTH 5091/5091G/5091S - Selected Topics in Anthropology
Various topics. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/AMST 5131/5131G - Historical Archaeology 3-0-3
An introduction to the field designed to provide a background in basic research methods in historical archaeology and ethnohistory. Emphasis will be placed on regional studies of the southeastern United States. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 5133/5133G - Georgia Archaeology 3-0-3
A basic background in archeology specifically centered on the state of Georgia. It examines the archeological record from earliest times through the antebellum period in an attempt to place Georgia in the larger archeological setting of the southeastern United States. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/AMST 5331/5331G - Gender and Anthropology 3-0-3
An examination of the biocultural and multi-cultural perspectives of gender provided by anthropology. Theories and case examples of gender studies from selected cultures will be examined using insights from physical anthropology, archeology, cultural anthropology, and linguistics. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 5337/5337G - Ethnographic Methods 3-0-3
A study of the research methods used by cultural anthropologists to gather and analyze data in order to describe and explain how people live and why they live that way. Emphasizes qualitative techniques such as interviewing and participant observation. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/AMST 5431/5431G - North American Indians 3-0-3
A study of the lifeways of the Native North Americans from the time of European contact through the present. It focuses on understanding the nature and variety of traditional Native American cultures, and on the changes they have undergone. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/AMST 5432/5432G - Southeastern Indians 3-0-3
A study of the lifeways of the native peoples of the southeastern United States from the late prehistoric period to the present. Their patterns of family life, economy, politics, religion, and ceremony are examined to understand their cultures, appreciate their accomplishments, and obtain insights into the nature of cultural behaviors. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/SOCI/AMST 5435/5435G - The Rural South 3-0-3
A study of the lifeways and social organization of rural society with emphasis on the South. Examines social institutions, community dynamics, the social change, and the cultural distinctiveness of the region. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/SOCI/LAST 5436/5436G - Latin American Societies 3-0-3
Descriptive and analytical survey of the formation of Latin American societies emphasizing their historical backgrounds and emergent characterizations as products of the interplay between internal processes and external influences. Special attention is given to the socio-cultural characteristics, forms of social interaction and social structure, and relations between urban and rural life. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

ANTH/AAST 5437/5437G - Cultures of Africa 3-0-3
A comparative study of the lifeways of African peoples south of the Sahara. Traditional cultures, contemporary development, and the course of culture change in various regions are examined. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/INTS/SOCI 5438/5438G - Social Issues of International Development and Change
See SOCI 5438/5438G for course description.

ANTH/LING/WRT 5530/5530G - Sociolinguistics 3-0-3
The principles and methods used to study language as a sociocultural phenomenon. These are examined both from the linguistic viewpoint and the social scientific viewpoint. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or SOCI 1101.

ANTH 5531/5531G - Anthropological Theory 3-0-3
A study of the major anthropological theories of human culture covering the history of theory and contemporary materialist and idealist theories. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6091 - Selected Topics in Anthropology (1-3)-0-(1-3)
Various topics. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/AMST 6131 - North American Archeology 3-0-3
An introductory course on the archeology of North America. Concentrates on the prehistory and protohistory of Native Americans as well as introducing students to the history of North American archeology. Prerequisite: ANTH 1102 or permission of instructor.

ANTH/AMST 6132 - Southeastern Archeology 3-0-3
A study of the prehistoric cultures of the Southeastern U.S. including their patterns of subsistence, economy, social and political organization, art, and architecture. The relationship between culture and environment in producing culture change is emphasized. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6135 - Mesoamerican Archeology 3-0-3

Materials covered include the art, iconography, architecture, religion, economy, social, and political organization of the Olmec, Mixtec, Aztec, Toltec, Totanac, Maya and Huastec civilizations. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6231 - Methods and Theory in Archeology 3-0-3
Examination and application of current topics in archeology relating to excavation strategy and interpretation. Analyzes various theoretical approaches as well as field techniques. Prerequisite: ANTH 1102 or permission of instructor.
ANTH 6233 - Zooarchaeology 3-0-3
An introduction to the analysis of animal remains from archeological sites. Emphasis will be placed on the identification of specimens and the methodologies of interpretation. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6235 - Advanced Archeological Analysis 3-0-3
An advanced course in the analysis of archeological sites and materials. In-depth examination of certain types of archeological materials. Students also learn about the conservation of archeological materials. Prerequisites: ANTH 1102 plus a 4000 level archeology course or permission of instructor.

ANTH 6262 - Field Session in Archeology 0-6-6
On-site participation in the excavation of an archeological site including training in the physical and observational techniques of the extractive processes of archeological excavation. Experience in excavation, analysis, recording, and interpretation of archeological materials is provided. Prerequisite: ANTH 1102 or permission of instructor. Group size limited.

ANTH 6330 - Cultural Anthropology 3-0-3
Focuses on the nature of human culture and its role in shaping human behavior through the examination of particular culture systems selected from around the world. It examines the components of culture systems and how they develop, function, and change. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6331 - Anthropology and Human Problems 3-0-3
A study of the applications of anthropology in coping with a variety of problems among diverse peoples of the world. Issues include intercultural health care, rural to urban migration, and international development. The history, methods, and ethics of practical or applied anthropology are examined, as well as career opportunities. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6333 - Comparative Social Organization 3-0-3
A cross-cultural examination of patterns of social organization including family, kinship, associations, and social networks through comparative studies of selected cultures from around the world. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6335 - Anthropology and International Business 3-0-3
A study of the applications of anthropological concepts and methods in the study of the cultural dimensions of business in other countries. It examines the problems and skills involved in intercultural business relationships including intercultural communication, cultural sensitivity, organizational cultures, culture shock, and cross-cultural misunderstandings. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6337 - Folklife 3-0-3
A survey of the creation and persistence of tradition in societies and of the process of change as demonstrated in such aspects as narrative, music, song celebration, festival, belief, and material culture. Emphasis will be given to understanding the multi-ethnic nature of the traditions in the U.S.A. Prerequisite: ANTH 1102 or permission of instructor.

An examination of the differences and similarities among European peoples and the effects of social, political, and economic changes on their cultures from an anthropological perspective. It also examines the principal anthropological methods and theories used in the study of European culture systems. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6435 - Middle Eastern Cultures 3-0-3
An ethnological examination of the lifeways of the diverse peoples of the Middle East. The focus of the course will be on who the peoples of the Middle East are, how they live, and why they live as they do. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6631 - Seminar in Anthropology 3-0-3
Exploration of selected topics of contemporary relevance in anthropology. Topics will vary with professional interest of students as to their specialization in the graduate curricula of the University. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6632 - Seminar in Archeology 3-0-3
Exploration of selected topics in archeology of interest to individual or small groups of students which are relevant to their course of specialization in the graduate curricula of the University. Prerequisite: ANTH 1102 or permission of instructor.
ART 2230 - Ceramics II 3-0-3
Intermediate exploration in selected technical areas of ceramics and firing. Students will explore glaze problems, firing techniques and aesthetics. Emphasis will be on historical and aesthetic concerns dealing with the form. Prerequisite: ART 1230.

ART 2233 - Computer Graphics 0-6-3
This is an introductory overview of computer-based imaging. Students will create and manipulate digital images.

ART 2235 - Sculpture II 3-0-3
Advanced studio work in the concepts and processes of sculpture. A major emphasis will be placed on using casting techniques to produce original works of art. Prerequisite: ART 1235.

ART 2236 - Jewelry II 3-0-3
An exploration of intermediate level techniques of jewelry/metal design. Students will investigate casting and wax-working techniques while developing a personal direction in the discipline. Prerequisite: ART 1236 or permission of instructor.

ART 2330 - Typography I 3-2-3
Introduction to the basic foundations of typographic design. Creative solutions to typographical design problems will be explored, through the application of the practical and technical aspects of typography. Prerequisites: ART 1010 and 1020.

ART 2331 - Graphic Design I 3-2-3
A general introduction to graphic design. The focus of this course will be on students' development of their creativity and skills at effective visual communications, while also learning about general concepts and issues that apply to the field of graphic design. Prerequisites: ART 1010 and ART 1020.

ART 2335 - Photography II 3-0-3
This is a studio course that explores the use of the 35mm camera and black and white processing to creatively express ideas and emotions. Emphasis is on the continued development of technique and personal aesthetic. Prerequisite: ART 1335.

ART 2430 - Printmaking II 3-0-3
Intermediate study of printmaking focusing on the planographic and serigraphic print processes. Emphasis will be placed on understanding the printmaking process within a historical and critical context. Prerequisite: ART 1430.

ART 2531/2531S - Art History I 3-0-3
A chronological survey of world visual arts from pre-historic times through the Middle Ages in the West and various non-western cultures. Emphasis is on architecture, sculpture, painting, and other major media. This course introduces questions of style, meaning, and cultural context for works of art.

ART 2532/2532S - Art History II 3-0-3
A chronological survey of the visual arts from the Renaissance to contemporary times. Emphasis is on architecture, sculpture, painting, and other major media. This course introduces questions of style, meaning, and cultural context for works of art. Prerequisite: ART 2531.

ART 3131/3131S - Drawing III 0-6-3
Involves students in drawings of an advanced technical and conceptual nature. Students are encouraged to experiment with traditional and contemporary approaches to personal image making in a variety of drawing materials. Prerequisites: All area F Art courses.

ART 3132 - Figure Drawing 0-6-3
The historical, structural, anatomical, and compositional study of the human figure as an expressive subject. Prerequisites: All area F Art courses.

ART 3134 - Art for the General Classroom Teacher P-8 3-0-3
Prepares the future elementary and middle school classroom teacher to plan, implement and evaluate visual art education for children in grades PreK-8.

ART 3135 - Art Teacher P-5 3-0-3
The art education major will learn to plan, implement, and evaluate visual art education for children in grades PreK-5. Course work addresses the history and theories of art education, state and national standards for the teaching of visual arts, children’s artistic development, and related teaching strategies.

ART 3136 - Art Methods for the Art Classroom Teacher 6-12 3-0-3
Students examine history, theory, instructional strategies, studio skills necessary to integrate art learning experiences in aesthetics, art criticism, art history, and art production. Emphasis is on developing advanced skills in planning, implementation and evaluation of art instruction for grades 6-12.

ART 3230 - Ceramics III 0-6-3
Advanced exploration into clay forms including surfaces and various firing techniques. Students develop a vocabulary of visual work supported by research in the history of ceramics. Prerequisite: ART 2230.

ART 3235 - Sculpture III 3-0-3
Advanced studio work in the concepts and processes of sculpture. Major emphasis will be placed on using casting techniques to produce original works of art. Prerequisite: ART 2235.

ART 3236 - Jewelry III 3-0-3
Advanced students will explore metal-forming techniques such as forging, raising and fold-forming in the creation of small sculptural objects and jewelry. Students will demonstrate proficiency in the media while developing a unique personal style. Prerequisite: ART 2236 or permission of instructor.

ART 3330 - Packaging Design 3-2-3
A study of various aspects of packaging design. Creative solutions to a diverse range of packaging design problems will be explored, along with study of practical and technical demands specific to three dimensional design. Prerequisite: ART 2331.

ART 3331 - Graphic Design II 3-2-3
An intermediate level course which teaches page design and layout of various types, focusing on books, magazines, catalogs, and newspapers. Special emphasis will be on developing students' abilities to find creative yet functional solutions to a diverse range of paper design problems. Prerequisites: ART 2330 and ART 2331.

ART 3333 - Corporate Identity 3-2-3
A study of how to design a visual identity system which includes logos, trademarks, letterheads, business cards, signages, brochures, catalogs, electronic web designs, and other forms of communication appropriate to the business. Prerequisite: ART 3331.

ART 3334 - Professional Practices 3-0-3
This advanced level course will cover the practical issues that confront professional graphic designers today. Topics include job searching, freelancing, contract negotiation, ownership of intellectual property, client dynamics, presenting design solutions and other relevant issues. Students will learn to prepare files for printing and apply professional standards within the graphic design industry. Prerequisite: ART 3331.

ART 3335 - Photography III 3-0-3
A studio course that explores a variety of photographic methods to achieve an advanced level of personal expression and an understanding of aesthetics. Prerequisite: ART 2335.

ART 3336 - Photography IV 0-6-3
A studio course that explores photographic seeing through the application of advanced processing, and printing techniques. Experimental imagery will be encouraged. Emphasis on the development of a personal style. Prerequisite: ART 3335.

ART 3337 - Enameling 3-0-3
Students will explore various enameling processes including cloisonné, champlevé, Limoge and basse-taille. Students will also investigate the use of color in the creations of contemporary jewelry and small sculptural objects. Prerequisite: ART 1236 or permission of instructor.

ART 3338 - Typography II 3-2-3
This course provides an advanced study of typographic systems, principles, and usage with emphasis on refining student's understanding of type aesthetics, and its informative, expressive, and experimental potential in solving complex communications problems. Students will use type as a visual form and visible language. Prerequisite: ART 2330.

ART 3430/3430S - Printmaking III 0-6-3
Advanced instruction in various printing processes with emphasis on one process. Students are encouraged to develop their own form of individual expression and critical understanding within the visual language of printmaking. Prerequisite: ART 2430.

**ART 3490 - Problems in Printmaking**

Intensive individual research in a specific printmaking process or specific mixed media approach. Emphasis will be placed on creating a cohesive body of work which could include the exploration of artist’s books and papermaking. Prerequisite: Advanced Printmaking or permission of instructor.

**ART 3530/35030 - Ancient Art**

A study of the architecture, sculpture, painting, and applied arts of major civilizations in the Middle East and the Mediterranean world from prehistory to the 4th century C.E., with emphasis on developments in Greece and Rome. Prerequisites: ART 2531 and ART 2532.

**ART 3531 - Medieval Art**

A study of architecture, painting, sculpture, and applied arts in Europe and the Mediterranean world from the Fall of Rome to the thirteenth century. Prerequisites: ART 2531 and ART 2532.

**ART 3532 - Renaissance Art**

A study of the architecture, sculpture, painting, and applied arts in Europe from the fourteenth through the sixteenth centuries with emphasis on developments in Italy and Northern Europe. Prerequisites: ART 2531 and ART 2532.

**ART 3533 - Baroque and Rococo Art**

A study of architecture, painting, sculpture, and graphic arts in Europe during the seventeenth and eighteenth centuries. Prerequisites: ART 2531 and ART 2532.

**ART 3534/3534S - Nineteenth Century Art**

A chronological study of the visual arts in Europe and America from the late eighteenth through the early twentieth centuries. This course examines the art, artists and issues in Nineteenth century art through lectures and discussion. Prerequisites: ART 2531 and ART 2532.

**ART/AAMST 3535 - Native American Art**

A survey of the visual arts and artifacts of native North American cultures from prehistory to contemporary times. This course examines Native American artifacts for their distinctive aesthetic value in addition to their ritual significance. Prerequisites: ART 2531 and ART 2532.

**ART 3731 - Graphic Design Internship**

Students will apply their skills and learn practices of the profession through a professional experience in graphic design. Prerequisite: ART 3331.

**ART 4190/4190S - Problems in Drawing**

An intensive exploration of drawing media with special focus on advanced levels of personal expression. Thematic content, style, and expressive interpretation are to be determined by the student in consultation with the instructor. Prerequisite: Permission of the instructor.
ART 4350 - Twentieth Century Art 3-0-3
Surveys in detail the development of the artistic avant-garde in Europe and America from the late nineteenth century to the present. Major movements, individuals, and theoretical issues will be considered. Emphasis on painting and sculpture with some attention to photography, architecture, printmaking and other areas. Prerequisite: ART 2532.

ART 4531 - Contemporary Art 3-0-3
Examines in detail the major tendencies in contemporary painting, sculpture, printmaking, performance, video, photography, and environmental art from the middle of the twentieth century to the present. Emphasis is on the major themes, styles, and approaches to art in the contemporary world. Prerequisite: ART 2532.

ART 4590/4590S - Problems in Art 0-(2-6)-(1-3)
Individual research in a specific area of art. Prerequisite: Permission of the instructor.

ART 4631/4631S - Art History Seminar 3-0-3
A seminar-format course on selected topics in art history with emphasis on directed readings and classroom discussion. Prerequisite: Permission of the instructor.

ART 4731 - Senior Ceramics Exhibition 0-6-3
The student will develop an exhibition of ceramic work documented by way of photographic slides. The student will be expected to produce a resume and an artist’s statement. Prerequisite: Permission of instructor.

ART 4732 - Senior Drawing Exhibition 3-0-3
The capstone course of the drawing concentration in which the students produce works for a final exhibition and stage an exhibit of their work before graduating. Prerequisite: Permission of instructor.

ART 4733 - Senior Painting Exhibition 0-6-3
Students prepare and mount an exhibition of images they have created. In this exhibition the students show the depth and breadth of their understanding for developing a personal iconography and for increasing the expressionistic content of their work. Prerequisite: Permission of instructor.

ART 4734 - Senior Photography Exhibition 0-6-3
Work leading up to the presentation of a professional and cohesive body of printmaking within an individual senior exit show. Prerequisites: Six credits of ART 4391 and permission of instructor.

ART 4735 - Senior Printmaking Exhibition 0-6-3
Work leading up to the presentation of a professional and cohesive body of printmaking within an individual senior exit show. Prerequisites: Nine hours of ART 4490 and permission of instructor.

ART 4736 - Senior Sculpture Exhibition 0-6-3
Individual research and exhibition of advanced studio work. Prerequisite: Permission of instructor.

ART 4737 - Art History Thesis 0-0-3
Independent research and writing on a specific topic under the supervision of an art history faculty member. The course is intended as a capstone experience for senior art history students during their final semester. The thesis is a substantial research paper which demonstrates advanced understanding or interpretation on a specific art history topic.

ART 4790 - Practicum in Art Education 0-(6-12)-(3-6)
Prepares the art education major to plan, implement, and evaluate instructional programs in visual art education in grades P-12.

ART 4830 - Art History Research 3-0-3
Independent research and study on selected topics in art history. Prerequisite: Permission of instructor.

ART 4831 - Senior Art History Thesis 3-0-3
Independent research and writing on a specific topic under the supervision of an art history faculty member. The thesis is a substantial research paper which demonstrates advanced understanding or interpretation on a specific Art History topic. Prerequisite: Senior Standing.

ART 4889 - Portfolio Design 3-2-3
The student will compile a professional portfolio and exhibit creative work to the public. Prerequisite: ART 4381.

ART 7190 - Drawing 0-(1-18)-(1-9)
An intensive exploration of drawing media with special focus on advanced levels of personal expression. Thematic content, style, and expressive interpretation are to be determined by the student in consultation with the instructor.

ART 7191 - Ceramics 0-(1-18)-(1-9)
Individual research in a specific area of ceramics.

ART 7192 - Painting 0-(2-6)-(1-9)
An advanced exploration of paint as an expressive medium. Emphasis is on the cultivation of personal imagery and creative exploration as informed by a knowledge of traditional and contemporary art.

ART 7193 - Sculpture 0-(6-1-9)
Advanced studio work in the concepts and processes of sculpture. A major emphasis will be placed on using casting techniques to produce original works of art.

ART 7194 - Graphic Design 0-(6-1-9)
An advanced level course which focuses on advertising design. Various types of advertisement will be explored including magazines, catalogs, brochures, and newspapers as well as electronic advertising designed for the web. Students will explore marketing related issues and learn to develop visual designs which effectively communicate a client’s desired message.

ART 7195 - Photography 3-0-1-9
A studio course in which students organize and assemble a photographic portfolio. Emphasis is on the development of a personal style using advanced photographic techniques and aesthetics.

ART 7196 - Printmaking 0-(6-1-9)
Individual research in a specific printmaking process or specific mixed media approach. Emphasis on creating a cohesive body of work.

ART 7231 - Ancient Art 3-0-3
A study of the architecture, sculpture, painting, and applied arts of major civilizations in the Middle East and the Mediterranean world from prehistory to the 40th century C.E. with emphasis on developments in Greece and Rome.

ART 7232 - Medieval Art 3-0-3
A study of architecture, painting, sculpture, and applied arts in Europe in the Middle Ages and the Medieval world from the fall of Rome to the thirteenth century.

ART 7233 - Renaissance Art 3-0-3
A study of architecture, painting, sculpture, and applied arts in the European world from the fourteenth through the sixteenth centuries with emphasis on developments in Italy and Northern Europe.

ART 7234 - Baroque and Rococo Art 3-0-3
A study of architecture, painting, sculpture, and graphic arts in Europe during the seventeenth and eighteenth centuries.

ART 7235 - Nineteenth Century Art 3-0-3
A chronological study of the visual arts in Europe and America from the late eighteenth through the early twentieth centuries. Examines the art, artists, and issues in nineteenth century art through lectures and discussions.

ART 7236 - Twentieth Century Art 3-0-3
Surveys in detail the development of the artistic avant-garde in Europe and America from the late nineteenth century to the present. Major movements, individuals, and theoretical issues will be considered.

ART 7237 - Contemporary Art 3-0-3
Examines in detail the major tendencies in contemporary painting, sculpture, printmaking, performance, video, photography, and environmental art from the middle of the twentieth century to the present. Emphasis on the major themes, styles, and approaches to art in the contemporary worlds.

ART 7238 - African Art 3-0-3
Surveys the major themes, cultural groups, and art traditions of Africa. Focuses on materials, function, meaning, and the contexts in which art is used.

ART 7239 - African American Art 3-0-3
The study of African American art and design from the period of pre-colonial Africa to the contemporary United States. Investigates the creativity and cultural identity of African Americans and their contributions to the visual culture in America. Format is lecture and discussion.

ART 7330 - American Art 3-0-3
Study of American architecture, painting, sculpture, graphic art, decorative art, and photography from the seventeenth century to the present. Art works, styles, issues, and artists will be studied in relation to the historical, social, cultural, and political background which they reflect and give meaning.
ART 7331 - Art of Asia 3-0-3
A study of art and architecture from the major cultures in Asia and the Far East including India, Southeast Asia, China, Korea, and Japan.

ART 7335 - Native American Art 3-0-3
A survey of the visual arts and artifacts of native North American cultures from prehistory to contemporary times. Examines Native American artifacts for their distinctive aesthetic value in addition to their ritual significance.

ART 7339 - Methods in Middle and Secondary School Art 3-0-3
Students examine history, theory, instructional strategies, and studio skills necessary to integrate art learning experiences in aesthetics, art criticism, art history, and art production. Emphasis is on developing advanced skills in planning, implementing, and evaluating art instruction for grades 6-12.

ART 7430 - Foundations of Art Education 3-0-3
The study of theoretical and historical foundations of art education: philosophical, psychological, anthropological, and sociological approaches and their influence on curriculum development at the elementary and secondary levels.

ART 7431 - Cultural Diversity Through Art 3-0-3
Provides an opportunity to explore the role art plays in the interpretation and dissemination of cultural, historical, and philosophical views by comparing and contrasting art from various world cultures.

ART 7432 - Curriculum and Methods in P-5 Art Education 3-0-3
The practices for the teaching of perceptual awareness, production, art history, aesthetics, and criticism of the visual arts in grades P-5. Analysis of common situations in early childhood and elementary education will be made to discover opportunities for creative work and the methods and materials by which they may be realized are explored.

ART 7433 - Methods in Middle and Secondary School Art 3-0-3
Students examine history, theory, instructional strategies, and studio skills necessary to integrate art learning experiences in aesthetics, art criticism, art history, and art production. Emphasis is on developing advanced skills in planning, implementing, and evaluating art instruction for grades 6-12.

ART 7434 - History and Philosophy of Art Education 3-0-3
An examination of the historical dimensions of art education in the United States.

ART 7435 - Aesthetics and Criticism in Art Education 3-0-3
An introduction to basic issues related to the teaching aesthetics, art criticism, and art history to P-12 students. Students will design, implement, and evaluate developmentally appropriate instruction for teaching these issues.

ART 7436 - Art Therapy/Special Populations 3-0-3
Introduces art teachers to art therapy and special populations. Emphasizes instructional strategies and therapeutic techniques relevant to social and learning needs.

ART 7437 - Arts Administration and Supervision 3-0-3
An introduction to a variety of organizational structures and managerial strategies in the arts field. Emphasizes the history and philosophy of arts administrators, the status and role of arts administrators, and implementation and assessment strategies in art institutions. Prerequisite: Ed. S. in Art Candidacy.

ART 7438 - Curriculum Development in Art Education 3-0-3
The planning, implementation and evaluation of a sequential curricula for the fine arts in schools, museums, and art centers. Areas of analysis include past and present art programs and art education movements as alternative models for curriculum design; creation and evaluation of innovative school, college, museum, and other institutional art programs; meaning and method of curriculum improvement; guidelines for curriculum decision making; testing and evaluating curriculum innovations. Prerequisites: Graduate course work in at least two courses of one medium to be target of research.

ART 7530 - Problems in Studio Pedagogy 3-0-3
The development of qualitative curricula as it relates to the pedagogy of a studio media for grades P-College. The student will develop a curriculum in a specific 2D or 3D media. Investigation includes planning, implementation, and evaluation of learning in relation to the studio skills, vocabulary, history, aesthetics, and criticism. Prerequisites: Graduate course work in at least two courses of one medium to be target of research.

ART 7630 - Art History Seminar 3-0-3
A seminar-format course on selected topics in art history with emphasis on directed readings and classroom discussion. Prerequisites: Permission of instructor.

ART 7890 - Problems in Art 3-0-1(9)
Individual research in a specific area of art. Prerequisite: Permission of instructor.

ART 7999 - M.Ed. Thesis Project in Art Education 3-0-1(6)
Having completed all other degree requirements, individuals engage in a substantive special project/scholarly inquiry into an area of art education. Prerequisite: Permission of instructor.

ART 8030 - Selected Topics in Art 3-0-3
Specific themes in the visual arts. Topics vary. Prerequisite: Permission of instructor.

ART 8330 - Museum Art Education 3-0-3
Gives a broad overview of museum art education. The history, theory, and practice of museum art education in North America will be investigated. A variety of learning experiences will be provided in order for students to plan, implement, and evaluate instructional art programs in museum settings.

ART 8630 - New Art Theory and Criticism 3-0-3
A seminar on new theoretical ideas about art and art criticism. The course is organized around the most important recent critical writings on various topics such as postmodernism, feminism, myth, semiotics, aesthetics, psychoanalysis, the avant-garde and how they affect contemporary art and artists.

ART 8830 - Problems in Art Education 3-0-3
Individual and specialized study in areas of art education not otherwise covered in the student’s program. Prerequisite: Permission of instructor.

ART 8831 - Art History Research 3-0-3
Independent research and study on select topics in art history. Prerequisite: Permission of instructor.

ART 8832 - Research in Art Education 3-0-3
Individual and specialized study in research methodology, critical evaluation of art education research, and proposed topics of research in art education. Prerequisite: Permission of Instructor.

ART 8834 - Readings in Art Education 3-0-3
Acritical examination of the scholarly literature from a variety of disciplines which have bearing on the nature and practice of art education.

ART 8999 - Master of Fine Arts Thesis 0-6(1-6)
Provides the Master of Fine Arts degree candidate the opportunity of presenting a visual thesis. The candidate will present an exhibition which will be supported by a written defense. A major professor will supervise the creation of the thesis work and the written documentation. Prerequisite: Permission of major professor.

ART 9610 - Master of Fine Arts Seminar 1-0-1
Provides the Master of Fine Arts degree candidates the opportunity of formally discussing issues relative to their degree. The course will combine group critiques with seminar discussions. Prerequisite: Permission of major professor.

Astronomy (COST)
ASTR 1000 - Introduction to the Universe 3-0-3
A study of the motions and constitution of the solar system, stars and other celestial bodies. Theories of evolution of celestial bodies and the universe are considered in addition to the instrumentation used by astronomers.

ASTR 1010 - Astronomy of the Solar System 3-0-3
A study of the motions and physical properties of the planets, asteroids, and comets.

ASTR 1020 - Stellar and Galactic Astronomy 3-0-3
A study of the physical properties of stars and galaxies and of the origins of the universe.

ASTR 1211/1211S - Astronomy Lab 0-2-1
A series of laboratories designed to measure the physical properties of planets, stars, and galaxies. Corequisites: Must be taken concurrently with either ASTR 1010 or ASTR 1020.
Course Descriptions 341

ASTR 3538 - Physical Astronomy 3-0-3
The physical nature of the solar system, stars and galaxies will be studied in detail. Principles of physics will be used and illustrated, especially in the areas of mechanics, thermodynamics, physical optics, and spectral analysis. Prerequisites: PHYS 2211 or PHYS 1111 and PHYS 2212 or PHYS 1112.

ASTR 4030 - Selected Topics in Astronomy 3-0-3
This course will cover selected topics in Astronomy. Students may be allowed to do special projects in astronomy under the recommendation of the instructor. Prerequisite: PHYS 1112 or PHYS 2212 or permission of instructor.

ASTR 4130 - Astrophysics 3-0-3
This course will cover advanced topics in Astrophysics. Students will become familiar with the fundamental physics of stars. This includes stellar atmospheres, interiors, and evolution. Students will study the atomic properties of matter and its interaction with light. Students will also study techniques for observing stars using telescopes and interferometers. Prerequisite: PHYS 1112 or PHYS 2212.

ASTR 4330 - Observational Techniques in Astronomy 3-0-3
This course will cover advanced topics in astronomical observing techniques. This includes the basic physical principles and methods needed to plan, obtain, and reduce photometric data of celestial objects. Students will be introduced to the principles of spherical astronomy, photoelectric detectors, atmospheric extinction and standard system transformations, and the Image Reduction and Analysis (IRAF) software package. Prerequisites: PHYS 1112 or PHYS 2212.

Business Education (COE)
BEED 3236 - Methods of Teaching Business 3-0-3
Subtests in the Secondary School
An introduction to various methods and materials for teaching business subjects in the secondary school. A field based component will be arranged. Focuses on instructional methods in the teaching of skill development courses, including classroom interaction, instruction, modification and evaluation techniques. A field based component is included. Prerequisites: Completion of 24 hours in the business teaching field and admission to Teacher Education Program. Corequisites: SCED 4138 and EDUF 3234.

BEED 4090 - Business Education Special Topics (1-3)-0-(1-3)
Designed to promote specialized training appropriate to the needs of preservice teachers. Attention will be given to a range of specific problems as they relate to the secondary school classroom. Prerequisites: Approval of the advisor, instructor and department chair.

BEED 5130/5130G - Cooperative Vocational Education 3-0-3
Considers all cooperative curriculum programs in the high school, as well as the philosophy and background for the program. Graduate students will be given an extra assignment determined by the instructor that undergraduate students will not be required to do. Prerequisite: Admission to Teacher Education Program or possess a Bachelor of Science in Education (BSED).

BEED 7090 - Selected Topics in Business Education 3-0-(1-3)
Designed to promote specialized training appropriate to the needs of in-service teachers. Attention will be given to a range of specific problems as they relate to the secondary school classroom. Prerequisites: Approval of the advisor, instructor, and department chair.

Honors (Bell Honors Program)
BHON 1101 - Seeing and Writing I 3-0-3
Provides an in-depth study in the techniques of good writing and of critical thinking with exposure to various ways of seeing the world and one's relation to it through intensive readings in the humanities. Students will write essays, read novels, stories, poetry and non-fiction prose, and see and analyze within established course contexts serious motion pictures. Interdisciplinary and team-taught.

BHON 1102 - Seeing and Writing II 3-0-3
Emphasizes refining the skills in writing, critical thinking, and reading acquired in BHON 1101. In addition to writing essays, students will write a longer course paper, synthesizing materials of both courses, in which they will apply, interactively, important personal concerns and interests and nurture basic research skills. Interdisciplinary and team-taught.

BHON 1110 - Freshman Seminar I 1-0-1
The Freshman BHP Seminars are special additional enrichments of the general education of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 1111 - Freshman Seminar II 1-0-1
The freshman BHP seminars are special additional enrichments of the general education of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 1131 - Human Dawn 3-0-3
The development of world cultures from human origins throughout the era of Tamerlane, Dante, and the crowning of Ottoman power in the Middle East. The role of economics in the development of social and political institutions is a central emphasis. Interdisciplinary and team-taught.

BHON 1132 - Genesis Modern Societies 3-0-3
The evolution of world cultures, from the high Renaissance in the west, the Ming period in China, and the crowning of the Incan Empire, via the Protestant Reformation and the age of explorations, the Mughal Empire of India, the scientific revolution and the Enlightenment, through the American and French revolutions to the era of Napoleon, the Tokugawa Shogunate in Japan and the independence movements in South America. The role of economics in the development of social and political institutions is a central emphasis. The development of U.S. government and the Constitution, and the history of Georgia are also focal themes. Interdisciplinary and team-taught.

BHON 1441 - Essential Skills in Math 3-1-4
Imparts the content of the first calculus course, with additional content determined by the instructor, but to include probability and matrices, systems of equations and number theory. BHP Scholars entering with exceptionally strong backgrounds in calculus, demonstrated by AP scores and/or Post-Secondary Option college work, would, when appropriate, be permitted to take MATH 2242 or a higher level course in lieu of this course; this would not normally be advised.

BHON 2111 - Sophomore Seminar I 1-0-1
The sophomore BHP Seminars are special additional enrichments of the general education of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 2133 - Foundations of the Contemporary World 3-0-3
A study of world cultures of the nineteenth and twentieth centuries, down to the present. Central attention is given to the role of economics and its influence on the development of social and political institutions. The institutions of American government, the U.S. Constitution and the history and Constitution of Georgia are also focal themes. Interdisciplinary and team-taught, with a political scientist as one member of the team.

BHON 2134 - The Shape of Things to Come 3-0-3
A capstone and conclusion to BHP courses in all areas. An interdisciplinary and team-taught exploration of the best thinking on projected future developments of world issues and world cultures. The central theme is the role of economics, applying micro- and macro-economic methods, and its influence on shaping the future. A broad spectrum of other topics, art, music, and contemporary thought through world political issues to business and law, are considered in their relation to economic forces and institutions. Employs extensive use of guest professors to provide a wide variety of perspectives on the future. Includes an economist as one member of the core teaching team.

BHON 2210 - Turning Points and Connections 1-0-1
A special BHP section, focusing on the connections between major turning points in history and their effects on life, as seen in art, music, philosophy, literature, politics, science, economics and cultural outlook. Serves as BHP seminar in spring semester of the sophomore year.

BHON 2230 - Ideas and the Arts 3-0-3
An interdisciplinary and team-taught introduction to philosophy and the fine arts and their interrelationships.

BHON 2241 - Science and Contemporary World Issues 3-2-4
Explores contemporary issues and controversies in the sciences and the role of science and scientists in issues facing the world of today. A study of environmental issues is central. Continuing attention is paid to applications of mathematics. Includes a laboratory component, with laboratory content appropriate to the disciplines of faculty teaching the course. Interdisciplinary and team-taught.

BHON 3110 - Junior Colloquium I 1-0-1
The junior BHP Colloquia are special additional enrichments of the general education of Bell Honors Program scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.
BHON 3111 - Junior Colloquium II 1-0-1
The Junior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 4110 - Senior Colloquium I 1-0-1
The Senior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 4111 - Senior Colloquium II 1-0-1
The Senior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

Biology (COST)

BIOL 1110/1110H/1110S - General Biology Laboratory 0-2-1
A series of laboratory components that involve hands-on experimentation with the biological concepts of genetics, growth, ecology, reproduction, development and physiological processes.

BIOL 1130/1130S - General Biology 3-0-3
An introductory course covering the concepts and applications of biological diversity. In this course, cell organization, genetics, diversity, plant and animal structure and function, ecology, evolution, and our impact on the environment will be discussed in class.

BIOL 1210/1210H - Environmental Biology Laboratory 0-2-1
A series of laboratory components that are directed towards ecological and environmental science and stress experimental design and data analysis.

BIOL 1230 - Environmental Biology 3-0-3
A consideration of environmental issues and ecological processes including interspecific interactions, community dynamics, biodiversity, and the major biomes of the world. Human impact on earth, population growth, conservation, energy production, food production, and pollution will be related to those basic ecological processes.

BIOL 1331 - Insects and People 3-0-3
An introduction to the role insects and other arthropods serve in relation to humans. Insect human interactions in the home, yard, garden, workplace, recreational areas, and human body are included. Consideration of the natural history, life cycles and optional human actions regarding pests, beneficial insects, insects and disease, insects and food, and aesthetics is included.

BIOL 1333 - From Neuron to Brain 3-0-3
A consideration of the workings of the brain from a biological perspective. The mechanisms of neural function from cell to network to brain will be studied. Topics will include neurons, neurotransmitters, nerve nets, the biological basis of learning, vision, language, brain sex differences, major disorders of mind and brain, and aging of the brain.

BIOL 1335/1335H - Plants and Civilization 3-0-3
An introduction to major groups of economic plants and their role in the origin and maintenance of civilization. The course also deals with plant biodiversity and the potential impact of biological losses.

BIOL 2111 - Cellular Biology Laboratory 0-3-1
Laboratory course emphasizing hands-on experience in the applications of cellular and molecular biology through emphasis on experimental design and data analysis. Prerequisite: CHEM 1145 (may be taken concurrently).

BIOL 2131/2131H - Cellular Biology 3-0-3
A general course covering the concepts and applications of cellular and molecular biology. Includes scientific method, cell organization, gene regulation, molecular genetics, cell diversity, cell structure and function, and evolution. Prerequisite: CHEM 1145 (may be taken concurrently).

BIOL 2240/2240S - Microbiology 3-2-4
Emphasizes fundamental principles of microbiology. Topics include structure, physiology, and economic importance of microorganisms. Prerequisites: 4 credit hour laboratory course in Biology or Chemistry and sophomore standing.

BIOL 3099/3099S - Selected Topics/Biology 3-3-4
Course taught on a selected topic in biology on a one-time basis. Prerequisites: BIOL 2131, BIOL 3132, and BIOL 3133.

BIOL 3112 - Biology of Organisms Laboratory 0-3-1
Laboratory survey of the diversity and basic biology of viruses, bacteria, protista, fungi, plants, and animals. Emphasis will be placed on recognition of the major groups of organisms and understanding of the relationship between structure, function and organismal success. Prerequisites: BIOL 2111 and BIOL 2131.

BIOL 3132 - Biology of Organisms 3-0-3
Survey of the diversity and basic biology of viruses, bacteria, protista, fungi, plants and animals. For each group, emphasis will be placed on systematic relationships at higher taxonomic levels, recognition of diagnostic structures, functional systems and reproduction. Prerequisites: BIOL 2111 and BIOL 2131.

BIOL 3133 - Evolution and Ecology 3-0-3
An introduction to major principles of genetics, evolution, and ecology. This course covers the origin and maintenance of genetic variation (Mendelian and population genetics), genetic change in populations over time (microevolutionary processes of selection, drift, and gene flow), and taxonomic diversification (macroevolutionary process of speciation). Students will see how this evolution and diversification are shaped by ecological interactions between organisms and their abiotic and biotic environment. These ecological interactions will be studied at the population, community, and ecosystem levels. Prerequisites: BIOL 2111 and BIOL 2131.

BIOL 3230 - Introduction to Immunology 3-0-3
Introduction to the biology of lymphocytes and adaptive immune responses including the study of immunoglobulins and cytokines. The roles of the immune system in health and disease are also examined. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and three or four courses in chemistry.

BIOL 3240 - Biology of Microorganisms 3-3-4
Covers the principles and techniques of general microbiology, including physiology, genetics, and host-parasite interactions involving bacteria, eukaryotic microorganisms and viruses. Prerequisites: BIOL 2131, BIOL 3132, and BIOL 3133.

BIOL 3341 - Nonvascular Plants 3-3-4
A general survey of bacteria, algae, fungi, lichens, and bryophytes, stressing identification, morphology, life cycles, economic importance, and roles in ecosystems. Prerequisites: BIOL 2131, BIOL 3132, and BIOL 3133.

BIOL 3343 - Woody Plants of the Southeast 2-6-4
A general survey of vascular plants including life histories, morphology, ecology, and identification. The woody plants of Bulloch County and vicinity are emphasized. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 3440 - Field Biology 3-2-4
A field introduction to the natural history of plants and animals of the Georgia coastal plain. Field collections and observations are integrated with laboratory identification and lectures. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 3533 - Field Entomology 1-6-3
An off-campus concentrated introduction to the study of insects. Field collection and laboratory identification supplement the lecture, which focuses on external and internal morphology, development, behavior, and interactions with plants and animals. Prerequisites: BIOL 2131, BIOL 2132 and BIOL 3133.

BIOL 3541 - Invertebrate Zoology 3-3-4
A survey of the diversity and basic biology of the invertebrates. Emphasis is placed on adaptations responsible for the diversity and life history strategies of invertebrates, and identification of locally important invertebrate groups. Field trips and research project required. Prerequisites: BIOL 2131, BIOL 2132 and BIOL 3133.

BIOL 3545 - Vertebrate Zoology 3-3-4
Study of the vertebrates with emphasis on the form, function, identification, evolution, distribution, and life histories of local vertebrate fauna. Field trips required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.
Biol. 3635 - Biological Basis of Animal Behavior 3-0-3
This course will cover the biological basis of animal behavior, emphasizing the evolution, function, development and causes of behavioral actions by animals. Classes will be interactive and include student discussions. Video clips will illustrate behavioral concepts discussed in the course. A range of topics will be covered, including such possibilities as communication, predator/prey interactions, reproductive behavior, the interaction of genes and the environment, the development of behavior and sensory mechanisms. Prerequisites: BIOL 2131, BIOL 2131H, BIOL 3132, and BIOL 3133.

Biol. 3790 - Teaching Internship in Biology 1-(2-6)-(1-3)
Student internship in BIOL 1210 under the mentorship of a faculty member. The student will participate in an introductory workshop immediately prior to the start of the fall semester. An internship in BIOL 1210, and meet with the faculty mentor one hour each week. Prerequisites: Junior standing or above, 3.0 GPA, letter of recommendation from a professor and permission of instructor. 1 credit hour per laboratory section of BIOL 1210 in which the student interns.

Biol. 4340 - Field Botany 2-6-4
An introduction to plant systematics with primary emphasis on identification and classification of non-woody flora. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 or permission of instructor.

Biol. 4620 - Undergraduate Seminar 2-0-2
Group study of selected biological topics held in conjunction with the normal seminar schedule of the Department of Biology. Topics will vary each semester and will be led by biology faculty. Prerequisite: Junior standing.

Biol. 4730 - Internship in Biology 3-0-3
Qualified biology majors may acquire practical experience by working with a government agency that specializes in the proposed area of study. Faculty members of the biology department must act as consultants. Internships must be approved by the head of the department. An oral presentation of the results must be presented at the end of the semester. Prerequisites: Minimum GPA of 2.75 and junior standing.

Biol. 4890/4890S - Undergraduate Research (1-4)-(0-1-4)
Biology majors will be encouraged to conduct a research project under the supervision of faculty. The faculty recommendation must have approval of the head of the biology department. A written abstract and an oral presentation of the results by the student must be presented at the end of the semester. A maximum of five credit hours of Biology 4890 may be counted toward the 22 (BA) or 32 (BSB) credit hours needed in Biology Elective course work. Prerequisites: Minimum GPA of 2.75 and junior standing.

Biol. 4895H - Honors Research 0-(4-1)-(104)
Independent research under the guidance of a biology faculty member for graduate honors students. Graduate students may register for 1-4 credit hours, but must complete 4 credit hours. Students opting to attempt the honors degree program would be precluded from receiving biology elective credit for the biology course, BIOL 4890. Prerequisites: Open to students in the Honors in Biology only.

Biol. 4999H - Honors Thesis 2-0-2
Written and oral presentation of results of individual research in partial fulfillment of the requirements for Honors in Biology. Students opting to attempt the honors degree program would be precluded from receiving biology elective credit for the biology course, BIOL 4890. Prerequisites: Minimum GPA of 3.5 in all course work applied to the Biology degree and junior standing and BIOL 4895H.

Biol. 5099/5099G/5099S - Selected Topics/Biology 3-(0 or 3)+(3 or 4)
A course taught on a one-time basis. Lecture only courses will be three credit hours while courses with a laboratory will be four credit hours. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

Biol. 5130/5130G - Biology of Cell Membranes 2-3-3
A comparative course on membrane structure and function. Specific areas to be included are: transport kinetics, physiochemical properties, electrical potential; membrane transport, comparative studies, biochemical assays for membrane proteins, cell-cell communication and medical applications of membrane biology. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 5144 and BIOL 5230 strongly recommended.

Biol. 5132/5132G - Eukaryotic Molecular Genetics 3-0-3
Examines aspects of inheritance of eukaryotes at the molecular, biosynthetic, cytological, organismic, and population levels. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A combination of 20 hours of Biology and Organic Chemistry.

Biol. 5134/5134G - Population/Quantitative Genetics 3-0-3
Introduction to the dynamics of evolutionary change for qualitative and metric characters. Hardy-Weinberg equilibrium will provide a basis for further analysis of microevolutionary “forces” of selection, drift, gene flow, and mutation. Methods for estimating heritability of metric traits and predicting the course of evolutionary change will also be introduced. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133. A statistics course and first calculus recommended.

Biol. 5140/5140G - Bacteriology 3-3-4
A survey of bacteriology with emphasis on fundamental techniques, microbial physiology, medical applications, and contemporary aspects of applied bacteriology. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

Biol. 5142/5142G - Molecular Biotechniques 3-3-4
Highlights modern discoveries in molecular genetics and their application in today’s world. In addition to the body of facts associated with molecular methodology, the course will introduce students to experimental techniques such as PCR, electrophoresis, restriction enzyme digest analysis, and DNA sequencing. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

Biol. 5144/5144G - Advanced Cell Biology 3-3-4
Examines the structure and physiology of cells and subcellular organelles. Topics include membrane transport, DNA, RNA and protein synthesis, cellular respiration, the synthesis and function of macromolecules, the cellular biology of neural and endocrine cells, and the cellular biology of bioluminescence. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and two semesters of chemistry.

Biol. 5146/5146G - Developmental Biology 3-3-4
Examines the development of the chordates with emphasis on interpretation of experimental procedures. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

Biol. 5148/5148G - Human Genetics 3-3-4
Basic principles of Mendelian inheritance and molecular genetics are applied to a systematic review of human disorders. Included are disorders of blood, connective tissue, muscles, lysosomes, lipoproteins, transport membrane and mechanisms, amino acid metabolism, and the immune system. Special attention is given to diseases caused by chromosomal abnormalities. Sex determination, gene mapping, and population genetics are also covered. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133, and CHEM 3341.

Biol. 5210/5210G - Comparative Animal Physiology Laboratory 0-3-1
Laboratory study of the basic physiological processes of animals, with integrated studies of molecular, cellular, metabolic, and organ-system functions. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Biol. 5230 or concurrent registration, or permission of instructor.

Biol. 5230/5230G - Comparative Animal Physiology 3-0-3
A comparative review of the function and regulation of the major organ systems in animals. Topics include homeostasis, membrane transport, osmoregulation, and energetics. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

Biol. 5233/5233G - Biology of Aging 3-0-3
Covers biological processes accompanying aging in humans and other organisms. Emphasizes physiological decline, theoretical explanations, attempts to prolong life, and the utility and limitations of model systems used to analyze human aging. Field trips required. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 or permission of instructor.

Biol. 5235/5235G - Fish Physiology and Behavior 2-3-3
A comparative study of the physiological and behavioral processes in cartilaginous and bony fishes. Selected topics include acid-base metabolism, cardiovascular function, excretion, feeding, locomotion, migration, osmoregulation, respiratory systems, respiration, and sensory mechanisms. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and BIOL 5230. BIOL 3545 recommended.
BIOL 5239/5239G - Neurobiology 3-0-3
Introduction to the mechanisms of neural responses, neural integration, neural development, and environmental effects on developing mature nervous systems. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133. BIOL 5144, CHEM 1146 and PHYS 1112 recommended.

BIOL 5240/5240G - Histology 3-3-4
Examines the origin, development, structure, and function of vertebrate tissues. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5241/5241G - Comparative Vertebrate Anatomy 3-3-4
A comparative and functional study of the morphological systems of vertebrates. Laboratory emphasizes dissection of representative vertebrate groups. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5243/5243G - Toxicology 3-3-4
An introduction to the principles of toxicology with a focus on the toxicology of aquatic organisms. Topics include risk assessment, regulation of toxicology, mutagenesis, teratology, and toxicology of the nervous and reproductive systems. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, and BIOL 3133. BIOL 5230, CHEM 1145, and CHEM 1146 recommended.

BIOL 5244/5244G - Insect Physiology 3-3-4
An introduction to insect physiology. Topics include ingestion and utilization of food, reproduction, water balance, muscles, sensory systems, and pheromones. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5245/5245G - Ethophysiology of Insects 3-3-4
An intensive off-campus examination of insect sensory and motor systems. Topics include insect structure and function, behavior of insects, and measurement and analysis of simple and complex behaviors. Course is held in residence at a field station. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5246/5246G - Human Pathophysiology 3-3-4
A selective survey of causes and effects of diseases in humans at the molecular, cellular, and systemic level. Selected topics include cellular malfunctions, altered cell environments, cancer biology, and the pathophysiology of the nervous, endocrine, cardiovascular, pulmonary, and renal organ systems. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and BIOL 5230. BIOL 5132 and BIOL 5248 recommended.

BIOL 5247/5247G - Endocrinology 3-3-4
A study of endocrine mechanisms, including their evolution and importance at various levels of biological organization. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5248/5248G - Immunology 3-3-4
A detailed study of the mammalian immune system emphasizing the experimental basis of current immunological theories. Topics include antigen-antibody interactions, organization and expression of immunoglobulin genes, complement, major histocompatibility complex, antigen processing and presentation, and generation of humoral and cellular immune responses. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and CHEM 3341 and CHEM 3342, or permission of instructor.

BIOL 5333/5333G - Emerging Diseases 3-0-3
Studies the epidemiology of emerging and re-emerging human diseases throughout the world, but with emphasis on the situation in North America. New and resurging diseases caused by prions, viruses, bacteria, protozoa, fungi, arthropods, and helminths will be discussed, including some vector-borne and tropical diseases. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 3132 and BIOL 3133 or permission of instructor.
BIOL 5445/5445G - Herpetology 3-3-4
Examines the phylogeny, morphology, life history and ecology of reptiles and amphibians. Field identification of local species will be emphasized. Field trips required. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5446/5446G - Ornithology 3-3-4
An introduction to the study of birds, emphasizing field identification, songs and calls, classification, and life histories of Georgia’s birds. Anatomical, physiological and behavioral adaptations are reviewed. Field trips required. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5447/5447G - Advanced Ornithology 3-3-4
Advanced course reviews current research topics in the field of ornithology. Students develop practical field skills for ornithological research, including banding, censusing, and behavioral observations. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and BIOL 5446, or graduate status.

BIOL 5448/5448G - Mammalogy 3-3-4
Considers the classification, evolution, distribution and life histories of mammals. The laboratory includes identification and preparation of specimens and development of field techniques. Field trips required. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5449/5449G - Vertebrate Paleobiology 3-3-4
An investigation of the evolution, relationships and biology of fossil vertebrates, including major radiations, extinction events, and the roles of plate tectonics and paleoclimate. Current and controversial topics in paleontology will also be discussed. Field trip required. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133. BIOL 5540 strongly recommended.

BIOL 5530/5530G - Wildlife Management 3-0-3
Emphasizes the principles, practices and prescriptions used in restoring and managing wildlife and other natural resources on a sustainable basis. All elements of wildlife management are examined in relation to basic land and water uses affecting the landscape. Factors influencing wildlife populations, including behavior, diseases, hazardous substances, predation and harvests are covered in practical perspectives. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133. BIOL 5540 strongly recommended.

BIOL 5532/5532G - Evolution 3-0-3
Covers the historical development of evolutionary thought and focuses on current issues in evolution. Emphasis is placed on the perceived importance of natural selection, mechanisms of speciation, the history of life on Earth, and human evolution. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5533/5533G - Evolutionary Ecology 3-0-3
Focuses on the evolutionary response of populations to selection pressures arising from their external abiotic and biotic environments. Responses to evolutionary pressures will be reviewed and analyzed from the contexts of demography, population growth, community structure, and biogeography. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5535/5535G - Sex and Evolution 3-0-3
Focuses on the evolution of sex and the subsequent conflict that arises between sexes. Models for the evolution and maintenance of sexual reproduction are compared. Sex allocation theory is reviewed and special attention is drawn to genetic mechanisms that permit sex ratio of offspring to be manipulated. Sexual selection and mate choice tactics are evaluated with reference to empirical studies in behavioral ecology. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5537/5537G - Biogeography 3-0-3
Examines the distributional patterns of animals and plants from the perspectives of vicariance biogeography and organismal dispersal. One field trip required. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5539/5539G - Biological Macrophotography 2-3-3
Introduction to techniques in photographing biological specimens both in the field and in the lab. Basic techniques of black and white film processing will be covered. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and two additional biology courses.

BIOL 5540/5540G - Advanced Ecology 3-3-4
Reviews basic ecological principles and current hypotheses relevant to biological organisms from the level of the population to ecosystems. Application of mathematic models to biological processes is emphasized. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5541/5541G/5541S - Tropical Marine Biology 3-3-4
This is an intensive 2-week field course conducted in the Bahamas. Through daily lectures and field excursions, students are exposed to the natural history and ecology of a variety of marine organisms and ecosystems including mangroves, seagrasses, rocky shores and coral reefs. Additional fees required. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, and BIOL 3133, or equivalent and permission of instructor.

BIOL 5542/5542G - Aquatic Ecology 3-3-4
Covers the biological and physicochemical factors that affect common organisms found in local aquatic ecosystems, including streams and rivers, wetlands, estuaries, and lakes. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133, CHEM 1145 and CHEM 1146.

BIOL 5543/5543G - Advanced Field Ecology 1-9-4
A field expedition involving ecological investigations of a major biome or natural area of North America. Expeditions normally require three to five weeks in the field, depending upon the habitat selected and the type of travel required. In addition to tuition, students must bear all travel expenses while in the field. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: Junior standing and permission of instructor(s).

BIOL 5544/5544G - Population Biology 3-3-4
A review of the genetic consequences of evolutionary forces that impact population structure, cohesion, and persistence. Special attention is given to the behavioral, ecological, and demographic responses of populations to natural selection pressures arising from the social environment and the presence of other species in the community. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5545/5545G - The Biology of Plants 3-3-4
An investigation of the unique morphology, physiology, ecology and evolution of higher plants. Labs will emphasize an experimental approach, examining living systems in the greenhouse and in the field. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, and BIOL 3133, or equivalent and permission of the instructor.

BIOL 5546/5546G - Plant Evolutionary Ecology 3-3-4
Examines the complex nature of plant reproductive biology, with focus on the evolution and maintenance of diverse breeding systems, the dynamics of plant-pollinator relationships, seed and seedling ecology, and coevolution. Students will design and carry out research projects, read the primary literature and present oral seminars. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.
BIOL 5547/5547G - Marine Ecology 3-3-4
Course stresses ecological processes and adaptations that act to structure coastal associations and permit their persistence through time. The course provides a background for students interested in research in the marine sciences. Students will learn to develop good statistical designs and use various techniques to collect data in marine ecology. Several field trips are required. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 or permission of instructor.

BIOL 5548/5548G - Conservation Biology 3-3-4
Explores the causes and consequences of the loss of biodiversity, as well as methods for conserving rare species and ecosystems. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5645/5645G - Behavioral Ecology 4-3-3
This is a course in behavioral biology couched in a framework of evolutionary and ecological inputs on behavior. Through lectures, discussions on papers from the primary literature, field trips with experiments related to recent topics covered in class, and student presentations on their research, participants will be immersed in the field of behavioral ecology. The laboratory will emphasize techniques used to study behavioral and provide students an opportunity to conduct research and carry out the entire scientific process in a behavioral context. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: BIOL 3635 or graduate level status.

BIOL 7090 - Selected Topics/Biology 3-3-4
A course taught on a one-time basis. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 or equivalent.

BIOL 7133 - Molecular Genetics 3-0-3
Studies from a molecular viewpoint of gene structure and action in both prokaryotic and eukaryotic organisms. Emphasis is placed on how gene function in their biological context. Prerequisites: Three semester hours of genetics, organic chemistry, biochemistry recommended. Simultaneous enrollment in BIOL 7131 recommended.

BIOL 7135 - Cytogenetics 3-0-3
Studies from a cytological aspect of eukaryotic chromosomes including chromosome structure, chromosomal aberrations, and chromosome mapping.

BIOL 7141 - Molecular Techniques 2-6-4
Students learn molecular biology techniques through hands-on exercises. Techniques covered include DNA isolation, agarose and polyacrylamide gel electrophoresis, restriction enzyme analysis, Southern blot analysis, cloning, DNA sequencing and bioinformatics. Prerequisites: Three semester hours of genetics, organic chemistry, biochemistry recommended, or permission of instructor.

BIOL 7341 - Local Flora 2-6-4
A study of Georgia's plants with emphasis on ferns and seed plants, including methods of plant collection, identification, and preservation. Meets on alternate weekends. Not for Master of Science in Biology students. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133 or permission of instructor.

BIOL 7410 - Insect Hematology 1-0-1
Examines aspects of the biology of blood-sucking insects, host location, feeding, injection of blood, host-insect interactions and transmission of parasites.

BIOL 7440 - Vector Ecology 3-3-4
Examines physiological, evolutionary, and ecological relationships between arthropod vectors, microbial pathogens they transmit and their vertebrate hosts.

BIOL 7521 - Research Computing Skills 0-4-2
An introduction to the methodology of research and its effective presentation. Topics will include computer skills in biology, literature searching and scientific writing formats. This course is designed for first year M.S. students and is a prerequisite to BIOL 7522.

BIOL 7522 - Scientific Presentation 0-4-2
An introduction to the methodology of research and its effective presentation. Topics will include darkroom and digital photographic skills, oral and written presentation, grant writing and the peer review process. Designed for second year M.S. students. Prerequisite: BIOL 7521.

BIOL 7530 - Biometry 3-0-3
Provides students with basic skills in the analysis of biological data. Lectures cover both parametric and nonparametric methods, with an emphasis on the practical problems posed by biological data. Prerequisite: Graduate status.

BIOL 7610 - Graduate Seminar 1-0-1
An intensive study of an advanced biological topic covered by one or more members of the graduate faculty from the Department of Biology. The selected topic will vary from semester to semester. Required for the M.S. degree. Prerequisite: Graduate status.

BIOL 7890 - Directed Individual Study 0-0-(1-4)
An independent or directed individual study supervised by a member of the graduate faculty of the Department of Biology. Prerequisites: Permission of the instructor and approval by the chair of the Department of Biology.

BIOL 7893 - Biological Problems 0-0-(1-4)
Studies of biological problems in a specialized area of biology under the supervision of a member of the biology faculty. Prerequisites: Permission of the instructor and approval by the chair of the Department of Biology.

BIOL 7895 - Research 0-0-(1-3)
Graduate students will pursue, under the direction of their advisory committee, a program of independent research in a particular area of biology. Results of the research will be presented as a thesis in partial fulfillment of the requirements for the Master of Science degree.

BIOL 7999 - Thesis (1-3)-0-(1-3)
Results of individual research will be presented as a thesis in partial fulfillment of the Master of Science degree. The thesis requires defense of design, execution, analysis and interpretation of the research project.

Biostatistics (COPH)
BIOS 6135 - Topics of Inference in Biostatistics 3-0-3
Provides an introduction to the fundamental knowledge of derivatives, integrals and matrix algebra found in biostatistical inference. The course will introduce the theory of quadratic forms and their applications to distributions, the method of maximum likelihood estimation, likelihood ratio tests, restricted maximum likelihood, and the basis for inferences derived from hypothesis testing and confidence intervals. Emphasis will be placed on how these techniques are used in biostatistical problems and applications using examples from the pharmaceutical industry.

BIOS 6331 - Regression Analysis in Biostatistics 3-0-3
Introduces the methods for analyzing biomedical and health related data using linear regression models. The course will introduce the student to multiple regression as it adapted to linear models. The course will involve model selection, diagnosis and remedial techniques to correct for assumption violations. Students will also be introduced to linear logistic models, Poisson models and linearized models as found in the biomedical and health related areas. The students will learn how to apply SAS procedures PROC REG, PROC CORR, PROCGLM, PROC LOGISTIC, and PROC PROBIT and interpret the results of analysis. Prerequisite: PUBH 6131.

BIOS 6332 - Experimental Design in Biostatistics 3-0-3
Introduces the student to experimental designs commonly used in health-related fields and the methods for analyzing them. It will introduce the student to completely randomized designs, randomized block designs, nested designs, split-plot designs, crossover designs, Latin squares and analysis of longitudinal designs. Students will be introduced to fixed effects models, random effects models and mixed models. Students will learn how to apply SAS procedures: PROC GLM, PROC MIXED, PROC GENMOD and PROC VARCOMP to data and interpret the analysis results. Prerequisite: BIOS 6331 or equivalent.

BIOS 6531 - Categorical Data Analysis 3-0-3
This course introduces statistical methods for analyzing both univariate and multivariate categorical and count data arising in health-related fields. Emphasis will be given to applications and computational aspects rather than theoretical concepts. The students will learn how to apply SAS procedures to data and interpret the results. Although in some situations exact small sample procedures will be introduced, the course will mainly focus on methods based on large-sample theory. Prerequisite: PUBH 6131.

BIOS 7090 - Selected Topics in Biostatistics (1-3)-0-(1-3)
Allows the student the opportunity to receive specialized and/or focused instruction in a biostatistical topic not generally offered by the department. Prerequisite: Permission of instructor.
BIOS 7131 - Survival Analysis 3-0-3
This course introduces statistical methods for analyzing data collected on the time to an event, referred to as survival data, in medical research and other health related fields. Emphasis will be placed on the application of the methodology and computational aspects rather than theory. The students will learn how to apply SAS procedures to data and interpret the results. Prerequisite: BIOS 6331 and BIOS 6531 or equivalent.

BIOS 7231 - Clinical Trials Methodology 3-0-3
This course will focus on scientific, regulatory and management aspects of clinical trials. The student will develop and critique specific sections of protocols. Students will write proposals for the statistical analysis methods appropriate to the statistical design in a proposal. Prerequisite: BIOS 6331 and BIOS 6531 or equivalent.

BIOS 7331 - Multivariate Analysis in Biostatistics 3-0-3
This course is designed to provide students in biostatistics with an introduction to multivariate methods commonly found in health related fields. The course will emphasize multivariate regression, multivariate analysis of variance (MANOVA) and co-variance (MANCOVA), discriminant analysis and an alternative to logistic regression and cluster analysis. Students will be introduced to appropriate SAS procedures and be required to interpret and report their results in a form that meets both FDA and the International Committee on Harmonization. Prerequisite: BIOS 6332.

BIOS 7431 - Statistical Issues in Drug Development 3-0-3
Major statistical issues in the federal regulation of drug research and clinical development will be studied. Specifically, summarizing, analyzing and monitoring of adverse experiences, two treatment crossover designs, active control equivalence studies, optimization in clinical trials and combination drug development, dosing in the elderly, intention to treat in clinical trials, and dual control groups in rodent carcinogenicity studies will be studied. Prerequisites: BIOS 6331 and BIOS 6332 or equivalent.

BIOS 7433 - Biopharmaceutical Statistics in Drug Development 3-0-3
Statistical aspects of drug research and development, federal regulations, and marketing will be studied. Specifically, statistical methods useful in the areas of pharmaceutical discovery and optimization, assessment of pharmacological activity, pharmaceutical formulation, preclinical and clinical safety assessment, clinical development, bio-availability and bio-equivalence, clinical trials with quantitative and qualitative measurements, cancer clinical trials, and manufacturing and quality control processes will be studied. Prerequisites: BIOS 6331 and BIOS 6532 or equivalent.

BIOS 7534 - Data Management for Biostatistics 2-2-3
This course emphasizes data management and software applications using the SAS (Statistical Analysis System) software package. Specific focus is placed on applications pertaining to clinical trials. Prerequisite: PUBH 6131.

BIOS 7890 - Directed Individual Study 1-3-0-(1-3)
Provides the student with an opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

Broadcasting (CLASS)

BRCT 3331 - Audio Production 3-0-3
Introduces fundamentals of audio production and equipment, production principles and techniques, station operations, radio history, and FCC regulations. Focus and emphasis is on production of laboratory projects and programs with student activity in various studio tasks involved with broadcast radio production. Prerequisite: A minimum grade of “C” in COMM 2332.

BRCT 3332/3332S - Video Production 3-0-3
Introduces basic television equipment and elements of studio operation. Analyzes the techniques, equipment, materials, aesthetics, and problems of video and lighting. Students will participate in various studio roles while producing several laboratory programs. Prerequisites: A minimum grade of “C” in COMM 2332.

BRCT 3333/3333S - Telecommunications 3-0-3
Studies the operations of the various forms of media as they relate to the burgeoning information-based economy. Offers theoretical and practical knowledge toward understanding and forecasting the roles of new and evolving media technologies as well as comprehending the societal, public policy, and economic impact of information technologies. Prerequisite: COMM 2332.

BRCT/JOUR 3334 - Broadcast News 3-0-3
Provides students with techniques and experiences in facets of gathering and presentation of news and interviews for radio and television newscast presentation. Prerequisite: JOUR 2331.

BRCT 3335 - Writing for Electronic Media 3-0-3
Provides the principles and techniques necessary for adapting the principles of copy writing to the electronic media, specifically radio and television. Prerequisite: COMM 2332.

BRCT/INTS 3336/3336S - International Media Systems 3-0-3
Studies, comparatively, the mass media systems around the world. Analyzes media systems in terms of relevant political, social, economic, and cultural factors. Diversity and change in global communication is a main theme, and the influence of rapidly advancing technology is analyzed for its dynamic impact around the world, especially in developing nations. Permission of instructor.

BRCT/JOUR 3337 - Law and Ethics 3-0-3
Surveys freedom of speech and the press and its limitations by laws governing libel, privacy, copyright, contempt, free press, broadcast regulation, fair trial, and reporter’s shield. Broadcast industry self-regulation and ethical concerns of mass communications will be discussed. Prerequisite: COMM 2332.

BRCT 3338 - Electronic Media Sales 3-0-3
Studies the selling of commercial advertising in electronic media. Examines analytical and creative aspects of spots and sponsorship. Students gain working knowledge of the skills for success in commercial objectives for electronic media. Course develops audience research techniques and audience oriented media-marketing principles. Prerequisites: MKTG 3132, COMM 2332, and BRCT 3333.

BRCT/POLS 3339 - Politics and the Media 3-0-3
See POLS 3233 for course description. Prerequisites: POLS 1101 and COMM 2332.

BRCT 4030 - Selected Topics In Broadcasting 3-0-3
Offers varied courses in specialized areas of the field of broadcasting study. Prerequisites: BRCT 3333 and permission of instructor.

BRCT 4090 - Broadcast Applications 0(2.5-3.0)-1(1-12)
Practicum course providing experience in audio or video production of broadcast news or corporate news or corporate programming. Course requires three hours of approved practicum activity per week per semester hour of credit. With instructor approval, student may register for one to three hours of credit per semester, and may repeat the course up to a maximum of 12 hours. Only six hours may be counted toward broadcast majors (1-12). Prerequisite: Permission of instructor.

BRCT 4331 - Advanced Audio Production 3-0-3
Designed to increase audio production techniques including, but not limited to, enhancement of audio with signal processing techniques, multi-voice production, and digital audio editing procedures. Students produce audio projects such as complex commercials and simulated live programming in the style of professional radio broadcasters. Prerequisite: BRCT 3331.

BRCT 4332 - Advanced Video Production 3-0-3
Offers understanding in video editing techniques, field production techniques, and greater understanding of video aesthetics and producing/directing of a variety of video aesthetics and a variety of video programs on location. Prerequisites: BRCT 3331 and BRCT 3332.

BRCT 4333 - Electronic Media Management 3-0-3
Studies the organization and operation of broadcast station policies and procedures. Examines telecommunications management theory and practice, key media administrator roles, media industry processes and departments, and media manager skills in finances, personnel, programming, promotion/marketing, and audience research. Prerequisites: BRCT 3333 and COMM 2332.

BRCT 4337 - Digital Video Editing 3-0-3
Teaches the fundamentals of non-linear digital video editing via computer-based system. Prerequisite: BRCT 3332.

BRCT 4791 - Broadcast Internship 0-400-3
Optional internship open only to broadcast majors who have earned 2.75 total institution GPA and have completed all other major requirements. Faculty place student applicants in approved electronic media facility. Requires 400 clock hours of approved and supervised site activity during semester. May be taken in conjunction with BRCT 4792, with instructor approval. A maximum of six hours of internship credit may be applied toward the Broadcasting major. Prerequisites: 2.75 total institution GPA and instructor permission.
BUS 7313 - Team Building  
1-0-1  
Designed to teach essential skills for teamwork.

BUS 7530/7530S - Global Business Strategy  
3-0-3  
This course focuses on global strategic management and encourages the analysis and development of business strategies within a global environment. Prerequisites: ACCT 7230, FINC 7231, MGMT 7322, and MKTG 7431 and graduate standing and completion of MBA prerequisites, or permission of the COBA Director of Graduate Studies for non-MBA students.

BUS 7790/7890S - Individual Research  
(0-3)-0-(1-3)  
A guided individual research project that provides the student with an opportunity to explore a particular topic in-depth. Normally, the course work is completed in conjunction with a research report or case study. Prerequisites: Graduate standing, completion of the MBA prerequisites, and permission of the Director.

Chemistry (COST)  
CHEM 1030 - Chemistry and Your World  
3-0-3  
Introduces students to the many ways in which chemistry affects their lives. Topics include plastics, nutrition, drug design and the many aspects of environmental chemistry. Decision-making activities related to real-world societal issues will help develop critical thinking skills.

CHEM 1040 - Chemistry and the Environment  
3-3-4  
Students will study the fundamental aspects of chemistry in its political, economic, social, and international context. The laboratory will be a primary component of the course in that some of the course material will be first experienced in the laboratory. The laboratory will stress experimental design and data analysis as applied to environmental science.

CHEM 1140 - Introduction to General, Organic, and Biochemistry  
3-3-4  
Introduces students to the basic concepts of chemical structure and reactivity with a focus on biological molecules. General chemistry topics of interest will include basic atomic structure, bonding, intermolecular forces, solutions, and acid-base chemistry. Students will focus on the structure and reactivity of carbon-containing compounds, applying these concepts to the structure and function of biological molecules and their roles in biological systems. Prerequisite: Completion of or exemption of learning support math.
CHEM 1145/1145H - Principles of Chemistry I  3-3-4
Introduces students to many of the basic concepts of chemistry, emphasizing chemical structure. Beginning at the atom, the course evolves to a consideration of chemical bonding and intermolecular forces, ending with phase changes; the chemical reactions involving changes in the states of matter.

CHEM 1146/1146H - Principles of Chemistry II  3-3-4
Completes the introduction to chemistry, focusing on advanced topics of chemical reactivity (including kinetics, thermodynamics and equilibrium) and concludes with a detailed look at the applications of chemistry to a variety of issues and problems in society. Prerequisite: A minimum grade of “C” in CHEM 1145, or equivalent.

CHEM 1147 - Comprehensive General Chemistry  3-3-4
Fundamental laws and theories of chemical reactions. Topics include atomic structure, bonding theory, stoichiometry, properties of matter; chemical thermodynamics; electrochemistry and kinetics. Prior completion of a high school chemistry course is highly recommended.

CHEM 2031 - Introduction to Chemical Research Methods  2-2-3
An introduction to the techniques and resources related to data reduction and management and an introduction to primary and secondary sources of chemical information. Prerequisites: A minimum grade of “C” in CHEM 1146 and MATH 1113, or equivalent.

CHEM 2242 - Analytical Chemistry  3-3-4
The study of modern quantitative determination methods, including volumetric and gravimetric analyses, equilibrium calculations, and acid-base chemistry, as well as, the fundamental theory of chromatography, spectroscopy, and electrochemistry. Prerequisite: A minimum grade of “C” in CHEM 2031, or equivalent.

CHEM 2541 - Bioanalytical Chemistry  3-3-4
This course deals with the analysis of molecules in biological systems. It is designed to provide students with in-depth information on several instrumental analytical techniques and to promote integration of analytical thinking when dealing with biological systems. Topics include chemical and biochemical analysis of biomolecules, instrumental techniques of analysis, isolation and purification of biomolecules, applications of bioanalytical chemistry in medicine, biotechnology, and forensic science. The interpretation and significance of analytical data will be illustrated by selected case studies and data collected by the students themselves in the laboratory sessions that will run concurrently with the course. Prerequisites: A minimum grade of “C” in CHEM 1146 and CHEM 2031.

CHEM 2542 - Nutritional Biochemistry  3-3-4
Designed to introduce the biochemical aspects of nutrition. Topics to be covered include the energetics of metabolism, the structure and metabolism of proteins, carbohydrates, and lipids, and their integration of metabolic systems. The laboratory focuses on isolating, purifying, and characterizing the biomolecules in various foodstuffs. Prerequisite: CHEM 1140.

CHEM 3010 - Scientific Glassblowing  0-0-1
Develops the fundamental glassblowing skills required for the construction of glassware used in scientific investigations. Prerequisites: Junior standing and science major.

CHEM 3090 - Special Topics in Chemistry  1-(3)-0(1-3)
An intensive study in a specialized field of chemistry. Provides an in-depth look at an area of special interest which is not a part of the standard coursework in chemistry. Prerequisite: Permission of instructor.

CHEM 3140 - Advanced Inorganic Chemistry  3-3-4
Introduces students to a broad overview of modern inorganic chemistry. Included are considerations of molecular symmetry and group theory, bonding and molecular orbital theory, structures and reactivities of coordination compounds, organometallic chemistry, catalysis and transition metal clusters. Laboratory experiences will include the measurement of several important features of coordination compounds, such as their electronic spectra and paramagnetism, as well as the synthesis and characterization of organometallic compounds. Prerequisites: A minimum grade of “C” in CHEM 3342 and CHEM 3441, or equivalent.

CHEM 3341 - Organic Chemistry I  3-3-4
Introduces the fundamental concepts of structure and reactivity of organic compounds. Topics covered include the chemistry of alkanes, alkyl halides, alkenes, and aromatics, as well as, the concepts of reaction mechanisms, stereochemistry and spectroscopy of organic compounds. Prerequisite: A minimum grade of “C” in CHEM 1146, or equivalent.

CHEM 3342 - Organic Chemistry II  3-3-4
A continuation of CHEM 3341 focusing on alkenes, aromatic compounds, aldehydes, ketones, amines, and carbonylic acids and their derivatives. Emphasizes the synthetic and mechanistic aspects of these compounds and will continue the study of spectroscopy of organic compounds. Prerequisite: A minimum grade of “C” in CHEM 3341, or equivalent.

CHEM 3441 - Physical Chemistry I  3-3-4
A survey of chemical kinetics and thermodynamics. Covers the kinetic theory of gases, rates of reaction, integrated rates, rate laws and reaction mechanisms, followed by a development of the three laws of thermodynamics, chemical and phase equilibria and solution thermodynamics. Prerequisites: A minimum grade of “C” in CHEM 2031, CHEM 2242, MATH 2212, PHYS 2212, and PHYS 1114.

CHEM 3442 - Physical Chemistry II  3-3-4
A development of quantum chemistry and its application in a number of relevant areas. Covers atomic structure, molecular structure, molecular spectroscopy, and statistical mechanics. Prerequisites: A minimum grade of “C” in CHEM 2031, CHEM 2242, PHYS 2212, PHYS 1114, and either CHEM 3441 or CHEM 3541.

CHEM 3541 - Biophysical Chemistry  3-3-4
This course explores the physical principles underlying the complex nature of living systems. Topics include the theory and applications of thermodynamics, equilibrium, kinetics, and molecular motion and transport as they relate to biological systems. The structure of biomolecules and the main techniques of structure determination (with emphasis on protein structure) as well as biomolecules will also be covered. Prerequisites: A minimum grade of “C” in CHEM 5541, MATH 2242, PHYS 1112 or PHYS 2212, and PHYS 1114.

CHEM 3610 - Junior Seminar  1-0-1
Introduces students to the skills necessary to be a competitive chemical professional. Topics covered may include resume writing, choosing and applying to a graduate school, chemistry related careers and preparing and delivering a research presentation. Outside speakers from industry and academia will be a regular part of this course. Prerequisite: Junior standing.

CHEM 3790 - Teaching Internship in Chemistry  1-(3-9)(1-3)
Student internship in the laboratory component of CHEM 1040 (Chemistry and the Environment) under the mentorship of a faculty member. The student will participate in an introductory workshop immediately prior to the start of the semester, intern in the CHEM 1040 laboratory and meet with the faculty mentor one hour each week. Prerequisites: Permission of the instructor and one of the following: CHEM 2031 or CHEM 3341. 1 credit hour per laboratory section of CHEM 1040 in which the student interns.

CHEM 4241 - Instrumental Analysis  3-3-4
The study of modern spectroscopy and chromatography methods. The spectroscopic methods to be covered may include mass spectrometry, ultraviolet/visible spectroscopy, fluorescence spectroscopy, atomic spectroscopy, infrared spectroscopy and raman spectroscopy. The chromatographic methods to be covered may include gas chromatography, liquid chromatography, supercritical fluid chromatography, thin-layer chromatography and capillary zone electrophoresis. Prerequisite: A minimum grade of “C” in CHEM 2242, or equivalent.

CHEM 4242 - Electrochemical Analysis  3-3-4
Theory and practice of modern electrochemical methods of analysis. These methods include potentiometry, coulometry, voltammetry, computer simulation and other modern forms of electrochemical analysis. Prerequisite: A minimum grade of “C” in CHEM 2242, or equivalent.

CHEM 4243 - Principles of Chemical Separations  3-3-4
This course will examine theories, and models of separation with applications to the analyses of a wide range of chemical, biological, and environmental samples. Topics include high-resolution gas chromatography and high-performance liquid chromatography. Emphasis is on the theory of reverse-phase, normal-phase, ion-exchange, size-exclusion, and affinity-based separations. Instrumentation such as detectors, pumps, and columns, and data acquisition and analysis are also presented. Prerequisite: A minimum grade of “C” in CHEM 2242.

CHEM 4244 - Advanced NMR Spectroscopy  3-3-4
Introduces students to modern aspects of nuclear magnetic resonance spectroscopy. Details of one dimensional spectra of proton and carbon 13 will be discussed in-depth, as well as the more advanced two dimensional experiments of COSY and HETCOR. Students will gain skill with the hands on operation of the spectrometer, as well as in the spectral interpretation of complex organic and biomolecules. Prerequisites: A minimum grade of “C” in CHEM 3342, or equivalent.
CHEM 4331 - Advanced Organic Chemistry 3-0-3
A course designed to build upon the knowledge gained in CHEM 3341 (Organic I) and CHEM 3342 (Organic II). Topics covered may include considerations of structural and mechanistic organic chemistry, synthetic organic chemistry and bioorganic chemistry. Prerequisite: CHEM 3342.

CHEM 4332 - Principles of Drug Design 3-0-3
A course designed to introduce the chemistry of drug design and development, as well as drug actions and their impacts on society. Topics include drug discovery, receptor site theory, neurotransmitters, pharmacokinetics, federal drug laws, drugs in sports and individual classes of drugs. Prerequisite: A minimum grade of "C" in CHEM 3342.

CHEM 4611 - Senior Seminar 1-0-1
A continuation of the junior seminar with increased emphasis on the preparation and presentation of a research topic. Prerequisites: A minimum grade of "C" in CHEM 2031, CHEM 2242, CHEM 3341, CHEM 3342, and CHEM 3610, and six additional hours of chemistry numbered at or about the 3000 level.

CHEM 4790 - Chemistry Internship (1-4)-0-(1-4)
Intended primarily for students who plan to seek employment in the chemical industry after graduation rather than going on to graduate or professional studies, this course will provide students with practical experience in industry and business. Students will secure employment on their own, earning academic credit and possible compensation, and gain practical experience and technical training. Students must complete a minimum of 120 hours of on-site work for each credit hour earned.

CHEM 4890 - Chemical Research Experience 0-(3-12)-(1-4)
An independent research experience in which a student will investigate a research problem under the direction of a faculty member. All laboratory. Prerequisite: Permission of instructor.

CHEM 5243/5243G - Environmental Chemistry 3-3-4
A survey of the current environmental issues and the underlying chemistry associated with them, including stratospheric chemistry, air pollution, global climate change, toxic organic chemicals, natural water systems, soil chemistry, and energy production. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: A minimum grade of "C" in CHEM 2242 and CHEM 3343, or equivalent.

CHEM 5541/5541G - Biochemistry I 3-3-4
Surveys the fundamental principles of protein structure, enzyme mechanisms, carbohydrate structure, and the major metabolic pathways of carbohydrate metabolism. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in CHEM 3342, or equivalent.

CHEM 5542/5542G - Biochemistry II 3-3-4
Examines the structure and function of biological membranes, as well as additional metabolic pathways not covered in CHEM 5541, including the degradation and biosynthesis of lipids and amino acids. In addition, the course will examine nucleic acid chemistry, including DNA replication, transcription, recombinant DNA technology and related topics. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in CHEM 5541, or equivalent.

CHEM 7031 - Molecular Visualization 0-3-9
Focuses on computer skills related to building and presenting molecular information in the High School Science context. All content will be introduced through tutorial exercises provided as handouts. Intended as an elective in Chemistry for graduate students in the M.Ed. and Ed.S. Science Education programs.

CHEM 7042 - Chemistry for Secondary Teachers 2-4-4
This course will emphasize the skills necessary to create and execute effective physical science demonstrations and laboratory experiments appropriate for secondary students, using common, inexpensive, easily-purchased, and easily-disposed of materials. Lab periods will be used to develop and implement demos and experiments based on the topics covered in lecture. This course is intended as a Chemistry elective for graduate students in the M.Ed. and Ed.S. Science Education Programs. Prerequisite: 1 year of college chemistry.

CHEM 7090 - Selected Topics/Chemistry 3-0(03)-3(04)
A course taught on a one time basis. Lecture only courses will be three credit hours while courses with a laboratory will be four credit hours. Prerequisite: Permission of instructor.
CHFD 4136 - Assessment of Children and Families 3-0-3
Developmental assessment and research as related to children and families. Students will administer, score and interpret results using a variety of assessment techniques. Prerequisites: A minimum grade of “C” in CHFD 2134, CHFD 2135, and CHFD 3132.

CHFD 4137 - Psychosocial Care of Children in Hospitals and Other Settings 3-0-3
Special psychosocial needs of children who are hospitalized will be identified. Students will learn to assess children (age 0-18) in a holistic manner, and to function as part of a health care team. This course will, in part, prepare students for certification as a Child Life Specialist or to work with children in other treatment environments. Prerequisite: Permission of the instructor.

CHFD 4790 - Internship in Child and Family Development 0-0-12
Supervised experience in Child and Family Development which requires the student to employ the knowledge base acquired. Site is selected by the student and preapproved by the student’s academic advisor. Students enrolled in the program must agree to abide by the regulations governing all employees of the sponsor. Grading will be on the satisfactory/unsatisfactory mode. Students will work full-time for the entire semester while enrolled in the internship program.

CISM 3134 - Data Communications 3-0-3
An overview of traditional and emerging telecommunications technologies and applications in today’s business environment including voice, data, and video communications. The application of business telecommunications to satisfy information system requirements is emphasized. Prerequisites: A minimum grade of “C” in CSCI 1236 or CSCI 1301.

CISM 3135 - Systems Analysis and Design 3-0-3
Introduces the fundamental principles of information systems analysis and design. In this course, students will learn to apply the tools and techniques commonly used by systems analysts to build and document information systems. Classical and structured tools for describing data flow, data structure, process flow, file design, input and output design, and program specifications will be studied. Other tools and computer techniques will also be introduced. Prerequisite: A minimum grade of “C” in CSCI 1236 or CSCI 1301.

CISM 3235 - Application Development with COBOL 3-0-3
Provides a complete treatment of the COBOL language. Includes file handling, programming using multiple-tiered control breaks, the manipulation of two and three dimensional tables, the exploration of sequential and indexed sequential files, and exposure to interactive programs. Prerequisite: A minimum grade of “C” in CSCI 1236 or CSCI 1301.

CISM 3236 - Web Database Development 3-0-3
Provides an overview of web database connectivity and programming alternatives available or integrating internet technologies related to e-commerce and m-commerce with database systems. Students will gain an understanding of the creation, use, and management of web interfaces and the integrated database system. Prerequisite: A minimum grade of “C” in CISM 2230.

CISM 3237 - Visual Basic.Net Windows and Web Applications Programming 3-0-3
This course introduces students to Visual Basic.Net which is a leading edge object oriented programming language that integrates with .Net platform to provide a programming component for Windows applications, as well as Internet and World-Wide-Web applications. The student will be exposed to and learn topics related to object oriented programming, strings, graphics, inheritance, graphical-user-interface components, exception handling, multithreading, multimedia (audio, images, animation and video), file processing, prepackaged data structures, database processing, Internet and World-Wide-Web based client/server networking and distributed computing. Prerequisite: CISM 2230.

CISM 3331 - Principles of Enterprise Information Systems Security 2-1-3
An introduction to the various policy, administration, management, and technical aspects of information systems security across the enterprise. This course provides the foundation for understanding key policies and issues associated with protecting information assets; designing a compliant, reasonable information security system; identifying alternatives for determining the necessary levels of protection; and developing and administering appropriate responses to security incidents. Included are design issues for appropriate intrusion detection, disaster incidents, and reporting for various enterprise networking infrastructures. Prerequisites: A minimum grade of “C” in CISM 3134 and CISM 3135.

CISM 4130 - Management Information Systems 3-0-3
An overview of the use of information technology in business organizations to support managerial decision making and to provide competitive advantage. This course will address the evolution of information and information technology as corporate assets, how information technology is reshaping organization structures and work processes, how it is changing business relationships among organizations, and emerging information technologies expected to significantly impact business operations in the years ahead. Prerequisites: A minimum grade of “C” in CSCI 2530 and MGMT 3130.

CISM 4134 - Database Management 3-0-3
An applied study of business databases, their design, and implementation. The focus is on the current application development with fourth generation systems. Applications using a third generation host language and application generators are used to demonstrate concepts and techniques. Prerequisites: A minimum grade of “C” in CISM 3135.

CISM 4135 - Project Management and Development 3-0-3
The course focuses on principles and processes of project management, specifically as they relate to the development of information systems to solve business problems or improve organization. Topics include systems theory and systems dynamics, as well as the important components of project management such as planning, organizing, directing, and...
CIS 4136 - Global Information Resource Management  3-0-3
A study of the international management of the organization’s information systems function from the perspective of information as a critical organization resource and as a key to competitiveness in the global market. Emphasis will be placed on the application of technology to meet information systems requirement. Prerequisite: A minimum grade of “C” in CISM 3134 and CISM 3135. CISM 4134 is recommended.

CIS 4234 - Application Development with Objects  3-0-3
Extends the fundamentals of object-oriented design and moves into the realm of developing object-oriented applications with a current development system. Prerequisites: A minimum grade of “C” in CISM 2230 and CISM 3135.

CIS 4236 - AS/400 and Its Application  3-0-3
Provides an introduction to and experience in developing applications on the AS/400. Students will develop business applications using the unique features of the AS/400, including OS/400 and DB2/400. Development will be done in both third-generation languages, i.e. COBOL and RPG IV, and fourth generation languages, i.e. SQL/400 and QUERY/400. Emphasis will be on the use of the AS/400 in a distributed, networked environment. Prerequisite: A “C” or better in CISM 2230 or CISM 3135.

CIS 4237 - Decision Support Systems  3-0-3
Examines the role of decision support systems in the organizational environment. Upon completion, the student will be capable of designing and implementing decision support systems with a variety of current development systems. Prerequisites: A minimum grade of “C” in CISM 3135.

CIS 4238 - Network Administration  3-0-3
An applied study of the problems inherent in the maintenance and management of the heterogeneous networking environments prevalent in the modern business enterprise. Emphasis will be placed on acquiring and integrating the practical management/technical skills that define the effective networking specialist. Prerequisite: A minimum grade of “C” in CISM 3134.

CIS 4331 - Point of Sale Technologies  3-0-3
Provides an overview of the architecture and functionality of point of sale (POS) systems, as well as an appreciation for the issues and challenges associated with the development, implementation, and support of large-scale commercial systems. Prerequisites: A minimum grade of “C” in CISM 2230 and CISM 3135.

CIS 4332 - Electronic Business  3-0-3
This course focuses on the linkage between organizational strategy and networked information technologies to implement a rich variety of business models in the traditional and global contexts connecting individuals, business, governments, and other organizations to each other. The course examines e-business strategy and the development and architecture of e-business solutions and their components. Prerequisites: CISM 2230, CISM 3134, and MKTG 3131.

CIS 4334 - ERP Systems Using SAP  3-0-3
Focuses on Enterprise Planning (ERP) using SAP R/3. Students will spend computer intensive time navigating in SAP and completing SAP lab assignments. Currency in ERP developments by subscribing to Internet newsletters on ERP or SAP developments is required. Students will also be required to complete a major ERP project and give a presentation on important recent ERP developments. Prerequisite: Permission of the Information Systems Chair.

CIS 4335 - Advanced Business Applications Programming (ABAP) for the SAP/ERP System  2-1-3
This course provides an overview of the ABAP programming language for the SAP enterprise resource planning system. Students will learn how to access database tables, design input screen selections and generate output list reports. Students will write a variety of beginning and intermediate level programs using the ABAP workbench, ABAP objects, and data dictionary tools. Modular programming techniques such as subroutines, function modules, and events will also be discussed. Prerequisites: A minimum grade of “C” in CISM 2230 and CISM 4334.

CIS 4434 - Enterprise System Configuration  2-1-3
This course focuses on configuring and testing an Enterprise Resource Planning (ERP) system for use in a large organization. Students learn how to setup a trading company from the ground up using SAP R/3. Throughout the semester, students will create and test the organizational structure, master data and business rules to integrate different functional business processes such as purchasing, sales, distribution, logistics, accounts payable, accounts receivable, etc. Students can also be expected to complete a major project working in cross-functional teams to configure an ERP system. Prerequisite: A minimum grade of “C” in CISM 4334.

CISM 4790 - Internship in Information Systems  3-6-0-(3-6)
A supervised work-study program in selected business firms throughout the southeast. Prerequisites: A minimum grade of “C” in CISM 3135 is required. Completion of CISM 2230 and CISM 3134 (with a minimum grade of “C”) is recommended. Total Institution GPA of 2.75 or better is required.

CISM 4830 - Special Problems in Information Systems  3-0-3
A customized course that is under the direction of a faculty sponsor. This course is designed to offer students an opportunity to pursue studies or topics not covered in scheduled courses. The scope and nature of the material covered is determined in consultation with the faculty sponsor. Prerequisite: Senior standing.

CISM 4890 - Directed Study in Info Systems  0-0-(1 to 3)
Designed for independent study and research in selected areas of information systems under faculty supervision. Prerequisite: Permission of department chair or director.

CISM 5131/5131G - Fundamentals of Computer Forensics  3-0-3
This course examines how computers are being used to perpetrate fraud along with how investigators can use the computer as a weapon against fraudulent. Other computer topics and computer security breaches, employee theft, asset abuse, theft of intellectual property, and imaging of computer drive contents including files, operating and file system artifacts, and deleted files or file fragments located in file slack or unallocated space. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: A minimum grade of “C” in CISM 2530, or CISM 1110 and CISM 1120.

CISM 6120 - Technology for Executives  2-0-2
Examines the role of information technology (IT) in business and how IT is used to solve business problems. Fundamental grounding in key areas of IT (hardware, software, data resources, and networks) is provided, with the emphasis on how IT affects an organization, its employees and its competitive position. The challenges and opportunities related to networked enterprises and global markets are also explored. A variety of software tools are used to create solutions to traditional business problems, with the focus on the application of problem solving and critical thinking skills, rather than the achievement of computer literacy.

Focuses on a variety of topics, including: the development of policing; agency structure, organization, and management; professionalism, ethics, and discretion; community policing; constraints on police action; the use of technology, and computer information systems by police agencies; and special issues, such as corruption, AIDS, civil liability, and stress.

CRJU 3331 - Corrections 3-0-3
An overview of correction theories, philosophies, practices, and procedures.

CRJU 3332 - Community-Based Corrections 3-0-3
Theories and methods of offender community-based treatment. Offers theories and techniques which may be employed within the boundaries of probation, parole, and other non-custodial programs that influence and alter the attitudes, values, and behaviors of persons adjudicated guilty by the criminal justice system. Also reviews community-based treatment programs, emphasizing functions of half-way houses and the use of volunteers in corrections.

CRJU 3431 - Juvenile Justice 3-0-3
Provides an overview of the operation of the juvenile justice system and juvenile jurisprudence. Specifically, examines the history of the juvenile justice movement and its future, explains how juveniles are handled by the system, and discusses the legal status of juveniles in the adult system.

CRJU/SOCI 3432/3432S - Gangs, Drugs, and Criminal Justice 3-0-3
Focuses on the history and crime-related aspects of mid-affecting drugs, with emphasis on effects on criminal behavior, the legal response to the problem, and on the interface of drugs and youth gangs. Also examines the history of youth gangs in the United States and how gangs have changed over time. Students will learn about contemporary gangs and their activities, why youths join gangs, and how gangs relate to the larger society.

CRJU 4031 - Offender Counseling 3-0-3
An examination of theories and techniques that may be employed to influence and alter the attitudes, values, and behaviors of offenders within the boundaries of the correctional system.

CRJU 4032/4032S - Criminal Behavior 3-0-3
An examination of criminal and deviant behaviors from a multidisciplinary approach that include violent property offenders, delinquency, and white-collar offenses, such as fraud and computer crimes. Addresses major theories and research, correlates of crimes including classification concepts, case studies, and application by various components of the criminal justice system.

CRJU 4133 - Criminal Justice Organizations 3-0-3
Provides students with the opportunity to conduct a detailed study of the component of the criminal justice system in which they are serving internships. Corequisite: CRJU 4792.

CRJU 4135 - Directed Study in Criminal Justice 3-0-3
A structured, individualized research focus to be mutually designed and agreed upon by instructor and student. May be used to meet individual needs or interests that students have in various areas. Prerequisite: Junior or senior standing.

CRJU 4192 - Special Topics 3-0-3
Scheduled periodically to explore topics not offered in the regular curriculum.

CRJU 4231 - Criminal Justice Research Methods 3-0-3
Provides students with a better understanding of research and its application in the field of criminal justice. Topics include understanding the scientific method, research methodology, inductive and deductive statistics, and data analysis for report preparation. Also includes student utilization of computer-based spreadsheets, database management, and interactive statistical packages.

CRJU 4531/4531S - Comparative World Justice Systems 3-0-3
Examines the institutions of justice in various countries around the world as well as the variety of international institutions which address questions of justice. The legal, political, philosophic, social, and historical factors underlying these institutions are of primary concern.

CRJU/POLS 4732 - Politics, Government, and Criminal Justice 3-0-3
Provides students with a basic understanding of the relationship between criminal justice and American political institutions. Topics include the theoretical foundations of criminal behavior, trends in crime legislation, criminal justice perspectives, and crime policy; the application of public policy models to the criminal justice system; and the creation, implementation, and evaluation of crime policy at the local, state, and federal levels of government.

CRJU/POLS 4733 - Theories of Justice 3-0-3
A consideration of the primary theories of justice formulated throughout history. Students will examine and evaluate the theoretical foundations of conceptions of justice from a variety of perspectives.

CRJU 4792 - Internship in Criminal Justice 0-0-(3-9)
Provides students the opportunity to utilize, in a supervised work setting, the knowledge they have gained through their course work. Emphasizes the experiential, professional, and academic development of the student. Prerequisites: Junior or senior status and permission of the director to enroll. 3, 6, and 9 hour internships available.

CRJU 4830 - Criminal Justice Administration 3-0-3
A study of organizational and managerial issues associated with the criminal justice system in respect to the courts, policing, and corrections. This course examines a variety of topics within the context of the criminal justice system, including: staffing and training; leadership, power, and decision-making; organizational change; and the selection and use of technology, such as network applications and management information systems.

CRJU 4930 - Justice Studies Honors Thesis 3-0-3
A substantial research project in Justice Studies structured jointly by a University Honors Program student and faculty mentor, approved by the University Honors Program director.

Computer Science (CIT)
CSCI 1230 - Introduction to BASIC Programming 3-0-3
Basic concepts, logic, and syntax of BASIC programming language. Elementary programming techniques and algorithms. Topics include: variables, arithmetic operations, input/output, strings, GUI design, IF blocks, loop structures, subprograms, one- and two-dimensional arrays, file processing and applications. Prerequisites: Three hours of mathematics.
CSCI 1232 - Introduction to FORTRAN Programming 3-0-3
Basic concepts, logic and syntax of the FORTRAN programming language. Elementary programming techniques and algorithms. Topics include: arithmetic operations, input/output, IF blocks, loop structures, subprograms, one- and two-dimensional arrays, file processing and applications. Prerequisites: Three hours of mathematics.

CSCI 1236 - Introduction to Java Programming 3-0-3
Basic concepts, logic and syntax of the Java programming language. Elementary programming techniques and algorithms. Topics include: arithmetic operations, input/output, data types, variables, selection and control statements, applications, applets, strings, and event-driven programming. Prerequisite: A minimum grade of "C" in MATH 1111 or equivalent.

CSCI 1301/1301S - Programming Principles I 3-2-4
Provides a fundamental understanding of the development of computer solutions to solve problems with emphasis on structured, top-down development and testing. Concepts include the following: an overview of computer system design, problem solving and procedural abstraction design of computer solutions, algorithm development using simple data types and control structures, implementation and testing of programmed problem solutions, design modularization using subprograms and structured and user-defined data types. Prerequisites: MATH 1111 or higher and a minimum grade of "C" in CSCI 12XX language or ENGR 1631.

CSCI 1302 - Programming Principles II 3-0-3
A continuation of CSCI 1301. Emphasis is on advanced programming techniques such as recursion, data and responsibility driven design and implementation, GUI and file processing techniques. Prerequisites: A minimum grade of "C" in CSCI 1301.

CSCI 2120 - Computers, Ethics and Society 2-0-2
An investigation of issues related to the use of computers and computer technology including the following: computer ethics, professional standards, and social impact of computer applications. Some topics to be researched include: philosophical ethics, the application of ethical theory to situations involving computer technology, codes of conduct, privacy, data protection, employee privacy, data regulation, artificial intelligence, copyright/patent issues, computer malfunction liability, computer crime and responsibilities of computer users. Prerequisites: A minimum grade of "C" in CSCI 1301.

CSCI 2230 - C++ Programming 3-0-3
Basic concepts, logic and syntax of the C++ programming language. Elementary programming techniques and algorithms, debugging. Topics include: arithmetic operations, input/output, data types, variables, functions, selection and repetition statements, arrays, strings and elementary file processing. Prerequisites: A minimum grade of "C" in MATH 1111.

CSCI 3230 - Data Structures 3-0-3
Introduction to abstract data types such as lists, stacks, queues, and trees, and algorithm analysis. Prerequisites: A minimum grade of "C" in CSCI 1302 and MATH 2130.

CSCI 3231 - Logic Circuits and Microprocessors 2-2-3
Digital system and Logic Circuits Design. Topics include the study of the Logic gate, Boolean Functions representation and Minimization, Combinational and Sequential logic circuits, Programmable Logic Arrays, Data Representation, RAM, ROM, and Cache Memories, Register Transfer Language and micro-operations, Hardware Description Language (VHDL), Microprocessor Organization and Design, Assembly Language, Computer Aided Design Tools and Filed Programmable Gate Arrays. Corequisites: CSCI 1302

CSCI 3232 - Systems Software 3-0-3
Provides basic concepts of computer software systems including operating systems, language translators, utilities, links and loaders, system component interface, diverse programming language concepts, and interfaces. Prerequisite: A minimum grade of "C" in CSCI 1302. Corequisite: CSCI 3230.

CSCI 3236 - Theoretical Foundations 3-0-3
A study of languages, formal grammars, and abstract representations of computation. Prerequisites: A minimum grade of "C" in CSCI 1302 and MATH 2130.

CSCI 4890 - Directed Study in Computer Science 1-3-0-(1-3)
Directed study under faculty supervision. Seminar with at least one hour to be used as student engagement in service work. Prerequisites: Permission of instructor and department chair.

CSCI 5090/5090G - Selected Topics in Computer Science 3-0-3
Specialized study in a selected area of Computer Science. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Permission of instructor.

CSCI 5130/5130G - Data Management for Math and the Sciences 3-0-3
Topics in data management, including operating systems, word processing, spreadsheets, and database management and their applications to mathematics education. Intended primarily for those majoring in Mathematics and Mathematics Education. For those majoring or minoring in Computer Science, this course may not be used as an upper level Computer Science elective. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: CSCI 1230 or permission of instructor.

CSCI 5230/5230G - Discrete Simulation 3-0-3
Introduction to discrete simulation models and their implementation on computers. Topics include modeling techniques, experiment design, analysis and validation of results. Students will be exposed to one or more computer simulation languages. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: A minimum grade of "C" in CSCI 3230 and STAT 2231 or permission of instructor.

CSCI 5232/5232G - Operating Systems 3-0-3
A study of functions and structures of operating systems. Emphasis will be placed on the management of files, processes, memory, and input/output devices of the Unix operating system. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: minimum grade of "C" in CSCI 3230 and CSCI 3232 or permission of instructor.

CSCI 5234/5234G - Parallel Processing 3-0-3
Fundamental concepts of parallel/distributed computing including architectures of parallel/distributed computing systems, as well as languages, algorithms, performance, and programming practice issues. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: A minimum grade of "C" in CSCI 3230 and CSCI 3231 or permission of instructor.

CSCI 5330/5330G - Algorithm Design and Analysis 3-0-3
An in-depth study of the design, implementation, testing, and analysis of algorithms. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: A minimum grade of "C" in CSCI 3236 and MATH 2242.

CSCI 5331/5331G - Computer Architecture 2-2-3
Topics include the study of the Microprocessor Organization and Bus Structures, Complex Instruction Set Computer (CISC) Systems, Reduced Instruction Set, Computer (RISC) Systems, Micro-programmed Control and Controller Design, Concepts and Application of Embedded Systems, Pipeline and Vector processing, Input-Output Organization, Memory Organization, Parallel processor Architecture. Advanced topics related to Hardware-Software Co-design. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in CSCI 3231 or permission of instructor.

CSCI 5332/5332G - Data Communications and Networking 3-0-3
Fundamental concepts of data communications including architecture models, protocol suites, network programming, signal and data transmissions, error detection, and performance analysis. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: A minimum grade of "C" in CSCI 3232, CSCI 5331/5331G, and STAT 2231.

CSCI 5335/5335G - Object-Oriented Design 3-0-3
Introduction to concepts, methods, and current practice of object oriented design and analysis. Topics include the study of the Unified Modeling Language (UML), which has become an industry standard notation. UML topics will include use cases, diagramming notation (class, object, sequence) and object design diagrams. Students will use UML to design and implement individual and small group projects. Additional topics include understanding design patterns in building applications. Graduate
students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in CSCI 3230.

CSCI 5430/5430G - Artificial Intelligence 3-0-3
Introduction to different paradigms for creating software that can reason, access a knowledge base, handle uncertainty, learn, communicate, perceive and act. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: A minimum grade of "C" in CSCI 3230 and CSCI 5330 or permission of instructor.

CSCI 5432/5432G - Database Systems 3-0-3
The fundamental concepts of database management systems (DBMS) including logical and physical database organization, data models and design issues. Emphasis will be placed upon the relational data model including design and implementation using commercial database systems. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in CSCI 3230 or permission of instructor.

CSCI 5434/5434G - Theory of Programming Languages 3-0-3
A study of the formal description, the abstraction and the features of modern programming languages. Various computational paradigms and computer languages are introduced. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: A minimum grade of "C" in CSCI 3230 and CSCI 3236 or permission of instructor.

CSCI 5436/5436G - Distributed Web Systems Design 3-0-3
This course involves programming methodologies for the World Wide Web. Topics include: Client-side programming, distributed transactions, remote procedure calls, component objects, server side programming and network load balancing. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in CSCI 5432.

CSCI 5530/5530G - Software Engineering 3-0-3
This course serves as a major integrative, capstone experience for students and requires teamwork. A study of the development and management of software, strategies and techniques of design, testing, documentation, and maintenance. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: A minimum grade of "C" in CSCI 5330, CSCI 5335, and CSCI 5432 or permission of instructor.

CSCI 5532 - Network Management Systems 3-0-3
Basic concepts of network management systems, including fundamentals of standards, models, languages, network management systems architectures and protocols. SNMP based protocols that manage TCP/IP networks. Broadband network management systems and Web-based network management systems tools and applications. Prerequisite: A minimum grade of "C" in CSCI 5532.

CSCI 7090 - Selected Topics in Computer Science 1-3-0-3
Specialized study in a selected area of Computer Science. Prerequisites: Permission of instructor.

CSCI 7140 - Software Development and Machine Architecture 4-0-4
Software and hardware topics that include an object oriented language, web page construction, electric circuits, architecture, language translation, operating systems and networks. Primarily intended for those that are beginning a Masters Degree in Technology. Cannot be taken for credit by those earning a Masters in Mathematics. Prerequisites: Enrollment in the Master of Technology degree program or permission of instructor.

CSCI 7230 - Advanced Computer Architecture 3-0-3
Comparing different modern computer systems architecture and investigating their performances. Topics include: parallel computer systems, pipelining techniques, vector processor arrays, multiprocessor systems, data flow machines and fault-tolerant computer systems. Prerequisite: CSCI 5331 or permission of instructor.

CSCI 7232 - Switching Theory 3-0-3

CSCI 7330 - Advanced Operating Systems 3-0-3
A study of functions and structures of distributed operating systems: communication, synchronization, file system, processes and memory management. Prerequisite: A minimum grade of "C" in CSCI 5232 or permission of instructor.

CSCI 7332 - Parallel Algorithms Design and Analysis 3-0-3
A study of parallel constructs for providing experiences in designing and analyzing parallel algorithms. Prerequisite: A minimum grade of "C" in CSCI 5330 or permission of instructor.

CSCI 7334 - Unix Network Programming 3-0-3
A study of UNIX interprocess communication protocols and how they can be used in programs. Prerequisite: A minimum grade of "C" in CSCI 3232 or permission of instructor.

CSCI 7336 - Broadband Communications 3-0-3
An in-depth study of the structures and principles of broadband networks. Major concepts and principles are explained along with their mathematical analysis. Prerequisites: A minimum grade of "C" in CSCI 5332 and STAT 2231 or permission of instructor.

CSCI 7337 - Optical Networks 3-0-3
An introduction to optical networks, their principles and systems, an understanding of the construction and organization of optical networks along with an in-depth study of the structures and requirements of lightwave-coherent systems. Major concepts and principles are covered along with their mathematical analysis. Prerequisites: A minimum grade of "C" in CSCI 5332 and STAT 2251 or permission of instructor.

CSCI 7430 - Advanced System Modeling and Simulation 3-0-3
Advanced study directed toward system and modeling theory, analysis, validation, verification techniques, simulation languages to model and analyze real systems. Prerequisite: A minimum grade of "C" in CSCI 5230 or permission of instructor.

CSCI 7431 - Distributed Database Systems 3-0-3
A study of distributed database architectures and system design, semantic data control, query processing, transaction management, concurrency control, distributed DBMS reliability, parallel DB systems, distributed object DB management systems, and database interoperability. Prerequisites: A minimum grade of "C" in CSCI 5332 and CSCI 5432 or permission of instructor.

CSCI 7432 - Algorithm Analysis and Data Structures 3-0-3
Advanced topics in algorithm design and analysis and data structures for implementing these algorithms. Problems considered from areas of information storage and retrieval, graph theory, cryptography and parallel processing. Prerequisite: CSCI 5330 or permission of instructor.

CSCI 7434 - Data Mining 3-0-3
The application of concepts and techniques from information science, statistics, visualization, artificial intelligence, and machine learning for the purpose of extracting, integrating, and visualizing information and knowledge from large datasets. Prerequisites: A minimum grade of "B" in CSCI 5432 and CSCI 5330.

CSCI 7435 - Data Warehousing 3-0-3
Data warehouse design principles and technical problems inherent in complex industrial implementations using commercial software. Possible topics include: an introduction to data warehousing, multidimensional data modeling, data warehouse architectures, data warehouse design and implementations, development of data warehouse technology, organizing data warehousing projects, from data warehousing to data mining. Prerequisite: CSCI 5432.

CSCI 7436 - Internet Programming 3-0-3
Advanced design and implementations of large-scale Internet applications through the use of high and low level programming constructs. Possible topics include: client side scripting languages, middle-tier programming languages, middle-tier transaction servers, server-side data access, server-side scripting/programming, integrating applications within a network cluster, internet protocols and socket programming. Prerequisite: A minimum grade of "C" in CSCI 5332 and CSCI 5432 or permission of instructor.

CSCI 7532 - Advanced Software Engineering 3-0-3
The focus is the rigorous specification, modeling and prototyping of complex software systems/components. Topics selected from formal specification using Z and VDL, specifications using UML with OCL for real-time systems. Structure, dynamic and constraint modeling, constraint/ performance [rate monotonic] analysis, concurrence, re-configuration and distruption, fault detecting, reuse and integration issues, and component implementation using advanced tools with implementation styles such as Generic and Meta-Programming. Prerequisite: CSCI 5530.

CSCI 7533 - Requirements and Architecture 3-0-3
Software requirements and architecture evaluation using examples of complex software intensive systems. Product-line approach and use
of industry standards. Functional and object oriented approaches in complex domains such as avionics, ground vehicles, medical devices, telecommunication. Students are expected to critically evaluate and develop architecture and requirements for sizable systems, functioning as lead architects and requirements managers. Prerequisite: A minimum grade of "C" in CSCI 5530 or permission of instructor.

CSCI 7534 - Testing and Measurement 3-0-3
Testing and quantitative evaluation of software products and processes. Topics include: models, methods, standards and tools for testing, measurement and evaluation, test (defect) catalog and coverage testing of units, components, and subsystems. Integration, system and acceptance testing and evaluation, test suites, regression testing and test automation. Prerequisite: A minimum grade of "C" in CSCI 5530 or permission of instructor.

ECED 7890 - Directed Study in Computer Science 3-0-3
Directed study under faculty supervision. Prerequisite: Permission of instructor and department chair.

ECED 7899 - Research Project in Computer Science 3-0-3
Research project addressed toward a real world problem. Prerequisite: Permission of project advisor and permission of department chair.

Early Childhood Education (COE)

ECED 3131/3131S - The P-5 Curriculum 3-0-3
Introduces the student to the curriculum, instruction, and organization of elementary schools serving a preschool through fifth grade population. Emphasis is placed on elementary schools implementing developmentally appropriate practices to meet the diverse needs of the P-5 population. Prerequisite: Admission to Teacher Education Program.

ECED 3232 - P-5 Creative Arts 3-0-3
Provides opportunities for the students to familiarize themselves with the basic theories and practices of creative arts. Emphasizes the use of creative arts across the curriculum while developing the whole child. Prerequisites: ECED 3131.

ECED 3262 - P-5 Language and Literacy 6-0-6
The P-5 Language and Literacy course is designed to explore materials and methods of teaching language and literacy in the P-5 classroom. Students will study language and literacy development as well as the implications of student diversity for language learning. Students will investigate the theoretical background and research base supporting current understandings of the processes of the language arts (speaking, listening, reading, writing, viewing, and visually depicting). Students will also become acquainted with the vast selection of children's literature and strategies for incorporating literature into the curriculum. Prerequisites: ECED 3131 and READ 2230.

ECED 3732 - Methods I Practicum 1-5-3
The Methods I Practicum is designed to provide the preservice teacher with an opportunity to integrate theory with practical application in the methods of teaching language, literacy and the creative arts in the K-2 classroom. Students will observe and participate in an early primary classroom setting and will plan and implement lessons and instructional units within that setting. Prerequisites: A minimum grade of "C" in ECED 3131. Corequisite: ECED 3262.

ECED 4090 - Special Topics 1-3-0-(1-3)
Promotes specialized training appropriate to the needs of pre-service teachers. Attention will be given to a range of specific problems as they relate to the elementary, middle, or secondary schools and teaching field. Prerequisites: Approval of advisor, instructor, and department chair.

ECED 4333 - P-5 Teaching Mathematics 3-0-3
Studies the role of mathematics in the education of elementary school children, with emphasis on: the understanding of curriculum content; current trends in teaching; use of appropriate teaching materials; and planning for and evaluating instruction. Designed to give the prospective teacher an understanding of how children learn mathematics and have at their disposal methods which will facilitate this process for each child in a P-5th grade range. Prerequisites: ECED 3131, EDUF 3231, and MATH 3032.

ECED 4433 - P-5 Science 3-0-3
Designed to prepare students for teaching science in grades P-5. The content of science is reviewed. Methods of teaching and assessing a diverse population of learners in P-5 science education are examined. Emphasis is placed on the importance of science in social and environmental issues. Prerequisites: ECED 3131 and EDUF 3231.

ECED 4533 - P-5 Social Studies 3-0-3
Designed to prepare students for teaching social studies in grades P-5. The goals and definitions related to the early childhood social studies program will be considered. The content of P-5 social studies will be reviewed. Students will become acquainted with appropriate teaching methods, materials, and organizational techniques for providing children with successful learning experiences in social studies. Prerequisite: ECED 3131.

ECED 4733 - Methods II Practicum 1-5-3
Designed to provide the preservice teacher with observation and actual teaching experience in a supervised classroom setting. A major emphasis is on planning, organizing and teaching an integrated unit in a 3-5 classroom. Prerequisites: ECED 3732 and completion of or concurrent enrollment in ECED 4333 and ECED 4433.

ECED 4799 - Student Teaching in Early Childhood Education 0-40-9
Provides a period of guided teaching during which the student, under the direction of a classroom supervising teacher, takes increasing responsibility for leading the school experiences of a given group of learners over a period of fifteen consecutive weeks and engages directly in the activities which constitute the wide range of a teacher’s assigned responsibilities. The student teacher will be responsible for assuming the full responsibilities of the teacher for a minimum of fifteen days. Prerequisite: Admission to Student Teaching. Corequisite: ESED 4653.

ECED 7090 - Selected Topics in P-5 Education 3-0-3
Designed to serve dual purposes: 1) allows the department to respond to specific needs of area schools with in-service education, and 2) allows the department to respond to current issues and trends in P-5 education with topical courses.

ECED 7132 - Effective Curriculum and Instruction in Elementary Schools 3-0-3
Provides students the opportunity to explore the relationship between curriculum and instruction. How to effectively plan curriculum and instruction for elementary classrooms will be emphasized.

ECED 7230 - Advanced Language Arts Methods 3-0-3
Designed to build on the graduate students' knowledge of materials and methods of teaching language and literacy in the P-5 classroom. Students will examine issues related to language arts instruction and the theoretical background and research base related to these issues. Prerequisites: ECED 7132, EDUF 7130, EDUR 7130 or permission of program.

ECED 7231 - Emerging Literacy 3-0-3
Provides students with the opportunity to examine current research and practice regarding emerging literacy. Emphasizes utilizing research findings to analyze grades. Prerequisites: ECED 7132, EDUF 7130, EDUR 7130 or permission of program.

ECED 7232 - Children’s Literature 3-0-3
Designed for the graduate student who has some knowledge of children’s literature. Attempts to update the student’s knowledge of children’s literature in the classroom and media center.

ECED 7330 - Advanced Mathematics Methods 3-0-3
Designed to provide an extension of the knowledge base acquired at the undergraduate level that is necessary to provide a firm foundation for mathematics instruction to the P-5th grade child. Emphasis will be on problem solving, mathematical reasoning and communication, and the use of technology when delivering instruction. Prerequisites: ECED 7132, EDUF 7130, EDUR 7130 or permission of program.

ECED 7331 - Emerging Science and Mathematics Concepts 3-0-3
Provides students with the opportunity to examine current research and practice regarding emerging science and mathematics concepts. Emphasizes utilizing research findings to analyze P-2 classroom practices leading to the development of science and mathematics thinking. Prerequisites: ECED 7132, EDUF 7130, EDUR 7130 or permission of program.

ECED 7430 - Advanced Science Methods 3-0-3
An extension of the undergraduate science methods course emphasizing grades P-5. Students are given the opportunity to reinforce and extend basic science content knowledge and science process skills as well as enhance current teaching strategies. The impact of current issues and trends on science instruction will be emphasized. Prerequisites: ECED 7132, EDUF 7130, EDUR 7130 or permission of program.

ECED 7530 - Advanced Social Studies Methods 3-0-3
An advanced course in social studies instructional methodology and inquiry in the P-5th grade classroom. Components and theoretical foundations of
early childhood social studies curriculum will be investigated. Concepts, skills, and attitudes associated with elementary school social studies will be discussed in conjunction with various teaching methods, models, and materials considered developmentally appropriate and effective for children. Strategies for integrating social studies instruction with other areas of curriculum are investigated through active student participation. Prerequisites: ECED 7132, EDUF 7130, EDUR 7130 or permission of instructor.

ECED 7639 - Seminar in P-S 3-0-3
Designed as a culminating experience for students to integrate educational theory with classroom practice in a P-S setting. Emphasis is placed on appropriate application of educational theory and content knowledge in a P-S setting through analysis and evaluation of current classroom practices. Prerequisite: Completion of ECE emphasis area.

ECED 8250 - Problems in P-S Language Arts 3-0-3
Focuses on research related to the identification of methods to address problems in the teaching and learning of language arts in the P-S curriculum. Prerequisites: ECED 7230, ECED 7231, and EDUR 8131.

ECED 8330 - Problems in P-S Mathematics 3-0-3
Focuses on research related to the identification of methods to address problems in the teaching and learning of mathematics in the P-S curriculum. Prerequisites: ECED 7330, ECED 7331, and EDUR 8131.

ECED 8430 - Problems in P-S Science 3-0-3
Focuses on research related to the identification of methods to address problems in the teaching and learning of science in the P-S curriculum. Prerequisites: ECED 7331, ECED 7430, and EDUR 8131.

ECED 8530 - Problems in P-S Social Studies 3-0-3
Focuses on research related to problems in the teaching and learning of social studies in the P-S curriculum. Prerequisites: ECED 7530 and EDUR 8131.

ECED 8890 - Directed Individual Study (1-3)-0-(1-3)
Provides an opportunity for a student to pursue an area of interest not covered by any existing courses in a guided, independent format. The student is responsible for defining an area of study, course objectives, activities and assessment procedures and identifying a graduate faculty member in the Early Childhood Education department who will supervise the study. Prerequisite: Permission of department chair.

Economics (COBA)

ECO 2105/2105H/2105S - Economics in a Global Society 3-0-3
The market mechanism and its relationship to the major institutions of developed economies, current events, and the challenges of globalization; particularly emphasizes informed decision-making about issues of the aggregate economy in a global setting.

ECO 2106E/2106S - Business Economics 3-0-3
Analyzes the behavior of firms, workers, and consumers in perfectly competitive and imperfectly competitive markets. Particular emphasis is placed on firm behavior and how it is affected by the characteristics of the market. Prerequisite: A minimum grade of "C" in ECON 2105.

ECO 3131 - Intermediate Macroeconomics 3-0-3

Skills will be developed in recruiting, selecting, orienting, assigning, developing and evaluating school personnel. Legal constraints, including affirmative action, and employee rights will be included.

EDLD 7337 - The Principalship 3-0-3
Participants receive instruction in developing the knowledge, skills, and dispositions required of instructional leaders within “today’s schools.” Students comprehensively and intensely experience the key dimensions of school administration from both the “theoretical” and the “practical” perspectives as a prelude to culminating experience in their Program of Study. Prerequisites: A minimum grade of “C” in EDLD 7132, EDLD 7133, EDLD 7234, and EDLD 7737. Corequisite: EDLD 7738.

EDLD 7430 - American Higher Education 3-0-3
This course analyzes the evolution and organization of American higher education. Participants examine the dominant historical, philosophical, and social constructs which impacted American higher education. Consideration will be given to the roles and missions of vocational/technical institutes, 2-year and 4-year colleges, and comprehensive universities. Prerequisite: Admitted to M.Ed. program or permission of instructor.

EDLD 7431 - Higher Education Administration 3-0-3
Overview of the evolution and organization of American higher education administration. Examines the dominant leadership and managerial themes shaping the nation’s system of post-secondary education. Considers administrative and management precedents that shaped the structuring and management of vocational/technical institutes, 2-year and 4-year colleges, and comprehensive universities. Prerequisite: Admitted to M.Ed. program or permission of instructor.

EDLD 7432 - History of American Higher Education 3-0-3
This course is an analysis of the historical evolution of American higher education. The course examines the conceptual belief that American higher education is a culmination of historical development which directly influences every aspect of higher education administration. Considers historical precedents that shaped the structuring and management of vocational/technical institutes, 2-year and 4-year colleges, and comprehensive universities. Prerequisite: Admitted to M.Ed. program or permission of instructor.

EDLD 7737 - Internship I 0-7-3
Candidates will complete a 100-hour practicum in building level administration under the direction of a practicing administrator and supervising faculty member. This course is part of the six (6) hour introductory block for the masters in educational leadership that includes experiences in the daily operations of schools. Corequisite: EDLD 7132.

EDLD 7738 - Internship II 0-7-3
Candidates will complete a 100-hour practicum in building level administration under the direction of a practicing administrator and supervising faculty member. This course is part of the six (6) hour culminating block for the masters in educational leadership that includes experiences in the daily operations of schools. Prerequisite: A minimum grade of a “C” in EDLD 7132 and EDLD 7737. Corequisite: EDLD 7337.

EDLD 8130 - Educational Evaluation 3-0-3
Participants will consider educational evaluation from a theoretical and practical perspective. Emphasis is placed upon the application of evaluation theories, designs, models and techniques for use at the classroom, school center, and school district levels.

EDLD 8135 - Educational Planning 3-0-3
This course examines concepts and theories relating to various forms and approaches of planning at the school district and postsecondary educational levels. Emphasis is placed on specific skills to perform educational forecasting and management techniques to plan for future events.

EDLD 8136 - Educational Facilities 3-0-3
This course examines the concepts, procedures, and importance of facilities planning for schools, colleges, and universities. Participants will learn the practical skills of facility inventory, needs assessment, and evaluation. The course covers major aspects of institutional facilities planning at the elementary, secondary, and postsecondary levels.

EDLD 8230 - The Curriculum Leader 3-0-3
Participants will acquire the knowledge and skills necessary to make appropriate decisions regarding the development of curriculum at the school and district levels. They will also consider ways in which the school’s curriculum is shaped by, and in some cases influences, current social issues.

EDLD 8430 - School Finance 3-0-3
Participants examine major principles of educational finance, particularly as they relate to the funding of American public education. State and national models of educational finance are introduced and discussed. An effort is made to develop skill as an interpreter of fiscal policy. Participants will study tax structures in Georgia and elsewhere. Alternative sources of school funding are also reviewed.

EDLD 8431 - Higher Education Law 3-0-3
Explores basic legal precepts and their application to institutions of higher education, primarily using the case study method and discussion. Covers such topics as constitutional mandates of due process and equal protection, non-discrimination in employment and educational programs, privacy and openness, contractual relationships with students, tenure and academic freedom, and faculty governance.

EDLD 8432 - Higher Education Finance 3-0-3
Fiscal management and budgeting practices applicable to higher education institutions are the focus of this course. It is intended for persons seeking a working knowledge of budget development, financial management, and fiduciary control in vocational/technical schools, two-and four-year colleges, and universities.

EDLD 8433 - Higher Education Governance 3-0-3
Examines the organizational dynamics of higher education institutions as well as traditional and emerging managerial patterns. The use of organizational models and paradigms enables participants to analyze a variety of contemporary issues and situations in higher education settings.

EDLD 8434 - The Community College 3-0-3
Examines the educational mission of the two-year postsecondary institution (vocational/technical institutes and community college). Prerequisite: Admission to Tier I doctoral study in Educational Administration.

EDLD 8435 - Higher Education Policy 3-0-3
Examines policy-formation processes in higher education institutions. The skills of policy analysis and policy development, the identification of policy issues appropriate for study at these institutions, and the relationship of policy to all other areas of administration are considered.

EDLD 8436 - Grant Development/Administration 3-0-3
Students will learn the methods and processes of project development, funding source development, and proposal writing. All grants and proposals developed during the course will be submitted to various foundations and/or government agencies for possible funding.

EDLD 8438 - Organizational Leadership 3-0-3
This course deals with the major conceptual frameworks for understanding human behavior within complex educational organizations, the competencies required for effective educational leadership and the major functions of organizational theory and management applied to education. Prerequisite: Admitted to M.Ed. program or permission of instructor.

EDLD 8439 - Politics of Higher Education 3-0-3
This course explores the myth that politics and American higher education exist in separate worlds. Participants will examine the current “press” for institutional change and its political implications for two-year colleges, four-year colleges, and comprehensive universities. Manifestations of political influence systems at the federal and state levels will also be considered.
EDLD 8531 - School Public Relations 3-0-3
Participants will learn how to conduct good school public relations with both internal and external publics. Topics include school publications and press releases, working with the media, speaking and listening skills, the role of community service and volunteers and key communication skills. A practitioner oriented course emphasizes hands on activities, simulations, etc. and should be beneficial to all school personnel, especially those in teacher leadership, administrative, or supervisory roles.

EDLD 8532 - Policy Studies in Schools 3-0-3
Participants will examine policy development, implementation and evaluation at the federal, state and school district levels. Includes the skills of policy analysis and policy development, the identification of issues appropriate for policy review at the school-site and school-district levels. Considers the policy-related roles of the school administrator.

EDLD 8533 - Politics of Public Education 3-0-3
The myth that politics and education exist in separate worlds is examined in this course. Participants will review the recent waves of educational reform in terms of their political implications for educational decision makers. Manifestations of overt political behavior and the "press" of politics at the federal, state and local levels will also be reported.

EDLD 8534 - The Superintendentcy 3-0-3
Participants will acquire an understanding of the knowledge and skills required to function in today's highly complex and dynamic superintendency. Major consideration will be given in the areas of leadership, visioning, planning, goal setting, operations management, risk management and interpersonal relationships.

EDLD 8735 - Higher Education Practicum 3-0-3
Participants complete a supervised field experience under the direction of a practicing higher education administrator or supervisor.

EDLD 8739 - Advanced Field Experience 0-7-3
Participants will complete a supervised field experience in building or central office administration under the direction of a practicing school administrator. Prerequisite: Admission to Ed.S. study in Educational Leadership.

EDLD 8830 - Directed Study in Educational Leadership 3-0-3
Participants propose and carry out an independent research project. Projects may be in the areas of P-12 or higher education administration and/or supervision. The approved project will address the specialized preservice/inservice needs of the participant. Prerequisite: Instructor permission.

EDLD 8839 - Directed Research in Educational Leadership 3-0-3
Participants complete a fully formulated study in the area of educational administration or supervision, and orally defend a written report descriptive of that study. Prerequisites: EDUR 8131 and EDUR 8434 or equivalents.

EDLD 9231 - Administrative Theory 3-0-3
Examines the nature of social science theory and its relation to the study of administrative practice in educational organizations. Theories are applied discretely and in combination, complex bodies of theoretical knowledge are assimilated and appropriate applications of theory in field research are considered. Participants directly apply theories in the conduct of research reviews of problem areas that integrate theoretical and practical knowledge in applicable ways. Prerequisite: Admission to Tier II doctoral study in Educational Administration.

EDLD 9232 - Decision Making/Problem Solving 3-0-3
Participants will be introduced to the dominant philosophical, organizational and managerial themes that support advanced study in the analysis of problems and theory concerning decision making, as well as, practical applications. The focus of this course is on a theoretical and research-based approach to the examination of decision making and problem solving in complex educational organizations. Prerequisite: Admission to Tier II doctoral study in Educational Administration.

EDLD 9233 - Leadership Theory 3-0-3
The integration of knowledge from previous seminars is the primary focus of this course. Students will apply multiple strategies and frames for understanding and interpreting individual and organizational behaviors of leaders. Connections between administrative theory, problem solving and decision making will be analyzed to explain leadership styles, traits and behaviors. Strategies and processes educational leaders use in developing and maintaining a current awareness of the status of their respective organizations are carefully considered. Prerequisites: Admission to Tier II doctoral study in Educational Administration and successful completion of EDLD 9231 and EDLD 9232.

EDLD 9234 - Doctoral Seminar 3-0-3
This course explores the rationale for pursuing a doctorate in educational administration within the context of personal preferences, professional competencies and organizational politics. Students are provided an orientation to the doctoral program in educational administration in anticipation of the tremendous demand for performance. Students enhance group participation skills, professional writing competencies, analytical ability within a structured collegial environment. The primary context for the course is the history of educational administration. Prerequisite: Admission to Advanced Doctoral Study.

EDLD 9235 - Contemporary Issues in Educational Administration 3-0-3
This course examines the two extremes of doctoral study. At one end the student must analyze and synthesize the historical precedents that have provided direction to educational administration, particularly in their research area. At the other end the student must hypothesize and conceptualize the current issues that are impacting administrators in complex educational institutions. Such a synthesis will provide guidance in a research agenda and ultimately in dissertation development. Prerequisite: Admission to Advanced Doctoral Study (Tier II).

EDLD 9236 - Diversity and Ethics for Educational Leaders 3-0-3
Focuses on issues that educational leaders may face relative to diversity and ethics. Examination of issues concerning race, sex, gender, class, and other special needs that may impact the educational leader's efforts to develop an ethical educational institution.

EDLD 9631 - Research Seminar I 3-0-3
Assists the doctoral student in identifying the major topic leading to the doctoral dissertation. This identification includes the approval of a dissertation topic and a conceptualization of the research design to be utilized in completing the dissertation. Prerequisite: Admission to Tier II doctoral study in Educational Administration.

EDLD 9632 - Research Seminar II 3-0-3
Assists the doctoral student in developing the major topic leading to the doctoral dissertation. Guidance is provided in developing and writing plan for the dissertation. Prerequisites: Admission to Tier II doctoral study in Educational Administration and successful completion of other core classes.

EDLD 9999 - Dissertation (1-3)-0-(1-3)
Students are provided support and direction in completing the doctoral dissertation. The course provides guidance from both the dissertation supervising chair and the dissertation committee. Prerequisite: Admission to Tier III doctoral degree candidacy.

Curriculum (COE)
EDUC 7130 - Curriculum, Theories and Design 3-0-3
A comprehensive overview of the field of curriculum designed to develop the theoretical knowledge competencies and strategies needed by teachers and other curriculum developers at all levels of education to participate in the curriculum change process.

EDUC 8130 - Curriculum for Effective Schooling 3-0-3
Explores the relationship between policy and curriculum with particular attention to how school reform and restructuring efforts impact the curriculum. Special emphasis is given to an analysis of the impact of recent effective schools research, school restructuring and/or the national standards movement upon the formulation and delivery of public school curriculum in the United States. Prerequisite: EDUC 7130.

EDUC 8230 - Curriculum Design and Evaluation 3-0-3
Examines multiple theoretical bases and practical processes by which curriculum planning, design and evaluation decisions can be made. Students will have an opportunity to devise and critique their own plans for developing curriculum projects using one or more of these planning perspectives and processes. Prerequisites: Ed.D. admission, Ed.S. admission, or permission of advisor and instructor.

EDUC 9130 - Contemporary Curriculum Theorists 3-0-3
An advanced course in contemporary curriculum theorists in which students will explore the histories and the works of contemporary leaders in the field of curriculum studies. Students will be introduced to the leading edge of curriculum scholarship. Prerequisite: Instructor permission required.

EDUC 9132 - Critical Reading in Curriculum 3-0-3
An advanced seminar for doctoral students offering an in-depth study of a specific topic in Curriculum Studies. Prerequisites: Admission into the Ed.D. program in Curriculum Studies and permission of advisor and instructor.
EDUC 9134 - Teacher Education Curriculum 3-0-3
Examines alternative approaches to designing and evaluating curriculum for Teacher Education Program within historical, professional, legal, political, and institutional contexts. Prerequisite: Ed.D. admission or permission of advisor and instructor.

EDUC 9230 - Power and Schooling 3-0-3
Explores competing analyses of power and the relationships of these analyses to schooling. Topics include structural, poststructural, Marxist, neo-Weberian, feminist, conflict, and/or critical analyses of power and the process of schooling. Students will read both original writings and interpretive works addressing three or four major theoretical positions of the topic of power. Prerequisites: EDUC 7130, EDUF 7130, and EDUF 7235 or equivalents.

EDUC 9232 - Forms of Curriculum Inquiry 3-0-3
An examination of major research within the field of curriculum studies, along with an analysis of the varied forms of inquiry used in this research, including philosophical, practical, historical, empirical, theoretical, critical, deliberative and action inquiry, among others. Prerequisites: EDUC 9631 and EDUF 9133.

EDUC 9631 - Advanced Seminar in Curriculum Theory 3-0-3
Examination of major curriculum theories, their adequacy and merit. These theories will be studied in their originator’s own words from the writings of the theorists themselves. Prerequisite: EDUF 9231.

EDUC 9632 - Advanced Seminar in Qualitative Dissertation Writing 3-0-3
This course provides both practical and theoretical implications for qualitative research. Building upon the broad survey research methods studied in EDUC 9231, students will engage in in-depth analysis of various forms of qualitative research, as well as develop and articulate their own research agenda. Prerequisite: EDUF 9231.

EDUC 9999 - Dissertation 1-3-0-(1-3)
Readings and research under the direction of a member of the education faculty whose interests coincide with those of the student. Repeatable for credit. Prerequisite: Admission to Ed.D. Candidacy.

Educational Foundations (COE)

EDUF 1130 - Careers in Education 3-0-3
Introduces students to the various career opportunities in the field of education. Emphasis will be placed on the various roles and responsibilities of teachers, administrators, counselors, media specialists, etc. Addresses current trends and issues in education (e.g. impacts of technology, multicultural diversity, etc.).

EDUF 2090/2090S - Special Topics in Educational Foundations (1-3)-0-(1-3)
Educational Foundations Designed to provide specialized coursework to meet the needs of students. Attention will be directed toward a wide range of topics as they relate to education.

EDUF 2120/2120S - Foundations of Education 2-0-2
This pre-professional block course provides opportunities for the future educator to examine both public schooling in the United States and the teaching profession from multiple perspectives including philosophy, history, and sociology. The pre-professional block includes: EDUF 2121, ITEC 2120, SPED 2120, and COED 2110. Prerequisites: Sophomore standing. Corequisites: EDUF 2121, ITEC 2120, SPED 2120, and COED 2110.

EDUF 2121/2121S - Human Growth and Development 2-0-2
This course provides an introduction to the study of growth and development of the person from conception through adolescence. Particular aspects of development, such as physical, social/personality, emotional, intellectual, and moral development and the relationship of these aspects of development to learning and achievement in school will be addressed. This course is intended as one component of the pre-professional block that includes: EDUC 2120, ITEC 2120, SPED 2120, and COED 2110. Prerequisite: Sophomore standing. Corequisites: EDUC 2120, ITEC 2120, SPED 2120, and COED 2110.

EDUF 2132/2132S - Teaching for Diversity 3-0-3
Examines the current practices and theoretical foundations of multicultural education and the implications of diversity for curriculum and teaching. Emphasis will be placed on developing strategies and resources which will prepare prospective teachers for culturally diverse classrooms. Prerequisite: Sophomore standing.

EDUF 3231 - Educational Psychology: Early Childhood Education 3-0-3
Students will examine psychological principles of learning, cognition, motivation, behavior and the practical implications of these principles for teaching, learning and assessment. The development of skills to interpret behavior and classroom interaction within a framework of psychological theory will be a major feature of this course. Special emphasis will be placed on examining psychological principles which are appropriate for the teaching of children ages 4-11. Prerequisites: Junior standing, admission to Teacher Education Program, completion of pre-professional block or equivalent.

EDUF 3232 - Educational Psychology: General 3-0-3
Students will examine psychological principles of learning, cognition, motivation, behavior and the practical implications of these principles for teaching, learning and assessment. The development of skills to interpret behavior and classroom interaction within a framework of psychological theory will be a major feature of this course. Prerequisites: Junior standing, admission to Teacher Education Program, completion of pre-professional block or equivalent.

EDUF 3233 - Educational Psychology: Middle Grades 2-3-3
In this upper division course, students will examine psychological principles of learning, cognition, motivation, behavior and the practical implications of these principles for teaching, learning and assessment. The development of skills to interpret behavior and classroom interaction within a framework of psychological theory will be a major feature of this course. Special emphasis will be placed on examining psychological principles which are appropriate for the teaching of transients. Students must have completed Georgia Southern’s preprofessional block or its equivalent and be admitted into Teacher Education. This course requires an additional lab component. Prerequisites: Junior standing, admission to Teacher Education Program. Corequisites: MGED 3232, MGED 3552, MGED 4738.

EDUF 3234 - Educational Psychology: Secondary Education 2-3-3
Examines psychological principles of learning, cognition, motivation, behavior and the practical implications of these principles for teaching, learning, and assessment. The development of skills to interpret behavior and classroom interaction within a framework of psychological theory will be a major feature of the course. Requires an additional lab component. Prerequisites: Junior standing, admission to Teacher Education Program. Corequisite: SCED 4138.

EDUF 3235 - Cognitive and Language Development of the Special Needs Child 3-0-3
This course will examine cognitive and language development from infancy to adolescence with an emphasis on children with special needs. Language and cognitive development in children with brain damage, disabilities, autism and various other cognitive disorders will be studied, as well as language development in children from diverse backgrounds, with a focus on preparing pre-service special education teachers to better meet the communicative needs of their students. Prerequisite: SPED 3130.

EDUF 7090 - Selected Topics in Educational Foundations (1-3)-0-(1-3)
Readings and research under the direction of a member of the educational research faculty whose interests coincide with those of the student. Prerequisite: Permission of the instructor.

EDUF 7130 - Learning Theories and Applications 3-0-3
Examines the principles and theories of learning that serve as the basis for educational models and practices. Special emphasis is given to recent empirical findings and to practical applications and theory to educational settings.

EDUF 7231 - Comparative Education 3-0-3
This course focuses on the analysis of theories and practices in world education that will enrich students’ international expertise and equip teachers with professional skills to deal with issues which arise in the USA and around the globe in the post-Cold War era.

EDUF 7233 - School and Society 3-0-3
Examines the contributions of the social sciences to debates about the interrelated nature of school and society. Focuses particularly on a theoretical examination of the purposes of education and schooling in a democratic society.
EDUF 7234 - History of American Education

Focuses on the social, political, economic and ideological forces that have shaped the growth and development of the American public school system from colonial times to the present. A special emphasis will be an analysis and critique of the purpose, structure, function and results of the various school reform movements in American history.

EDUF 7235 - Multicultural Education

Using an interdisciplinary approach, this seminar investigates underlying theoretical concepts and social assumptions that both inform and impede efforts in multicultural education.

EDUF 7236/7236S - International Study of Educational Practices

This course offers students the opportunity to examine educational practices of another country through travel abroad. Students will be asked to reflect on the American educational system-theoretical perspectives, curriculum, instructional methodologies, and comparative issues and trends-and to compare and contrast it with another country's educational system. Topics will be investigated through selected readings, observations, participation, and discussions. Special sessions will be held with educators from the country being examined. Prerequisites: Permission of instructor.

EDUF 8131 - Theories of Adolescence

The rapidly changing world of today's adolescents and the ever-changing nature of the field of adolescence will be examined from three perspectives: theory, research and contemporary social forces. This course will be eclectic in its orientation. Rather than adopting one theoretical position, various views will be discussed. Similarities and differences among theories will be examined, in addition to an analysis of strengths, weaknesses, and contributions of each, as well as the implications for educating, guiding and working with adolescents.

EDUF 8133 - Interaction and Learning

Examine views of learning which emphasize the importance of interaction, authenticity and the social construction of knowledge. Students will also explore instructional practices and assessment issues consistent with these perspectives. Relevant theories, research, and practical implications will be examined for each perspective addressed. Perspectives and practices which will be explored may include, but are not limited to, constructivism, situated cognition, the social formation of mind, cooperative learning, and authentic assessment.

EDUF 8134 - Models of Motivation

Critically examines how contemporary models of motivation are utilized to improve the delivery of instruction. Special emphasis is placed on the theoretical principles, empirical research and educational strategies involved in the design and implementation of motivational models.

EDUF 8135 - Thinking and Problem Solving

Examines current conceptions and models of critical thinking and creative problem solving as they relate to learning and instruction. Emphasis will be given to how instructional practices can positively affect students' thinking skills and dispositions for learning and to methods designed to increase students' awareness and control of their thinking processes. In addition, the course will evaluate the effectiveness of current programs designed to teach critical thinking and problem solving strategies across the curriculum and within specific content areas. Prerequisite: EDUF 7130.

EDUF 8136 - Theories of Human Development

Examines theories of human development, with a focus on infancy to adolescence. Major theoretical perspectives pertaining to several aspects of development, such as cognitive, social, moral, emotional and personality development, will be considered. In addition, students will gain an understanding of the value of theories in general, as well as, the particular characteristics of a good theory, in order to critically evaluate these theories in light of empirical research evidence.

EDUF 8831 - Philosophies of Education

In this course, students study the major philosophical schools of thought which inform all educational activities. Particular attention is given to current and historical writings, and the relationship of philosophical assumptions to current practices in the process of schooling.

EDUF 8890 - Directed Individual Study in Educational Foundations

Readings and research under the direction of a member of the educational research faculty whose interests coincide with those of the student. Prerequisite: EDUF 8831 or permission of instructor.

EDUF 9131 - Ethical Dimensions of Education

Develops an understanding of ethical obligations and considerations within the field of education through case studies immediately applicable to their professional lives. Students will explore traditional ethical systems, such as Consequentialism and Situationism, as well as, more contemporary perspectives including those of equity and technology. Prerequisite: EDUF 8831.

EDUF 9132 - History of American Curriculum

An advanced course in curriculum studies designed to provide an in-depth analysis of the major historical curriculum documents, trends and reform movements that have given form and shape to the American public school curriculum. Special emphasis will be given to the interpretation and critique of the competing curriculum discourses, especially as they appear in primary source historical curriculum documents, state/local curriculum guidelines and textbooks. Prerequisite: Ed.D. admission.

EDUF 9133 - Theories of Educational Inquiry

An advanced seminar in the field of curriculum investigating the major paradigms within which the competing methodologies of empirical educational inquiry are grounded and the epistemological and ethical issues involved in conducting research within each paradigm. Prerequisite: Ed.D. admission.

EDUF 9631 - Seminar in Cultural Studies

This advanced seminar investigates contemporary questions and movements in the field of cultural studies. Prerequisite: EDUF 7235.

EDUF 9632 - Regional Issues In Multicultural Education

This field based course will involve doctoral students in researching the local multicultural educational needs, issues and problems and developing strategies for considered, a pluralistic and culture-tolerant environment in the schools and/or communities of the region. Prerequisite: EDUF 9631.

Educational Research (COE)

EDUR 7090 - Selected Topics in Educational Research (1-3)-D-(0-1-3) Readings and research under the direction of a member of the educational research faculty whose interests coincide with those of the student. Prerequisite: Permission of the instructor.

EDUR 7130 - Educational Research

A comprehensive overview of topics related to research as it is applied to educational settings. Emphasis is placed on application of statistics in educational research situations. Prerequisite: EDUR 7130 or equivalent or permission of instructor.

EDUR 8132 - Educational Statistics II

This is an advanced statistics in education course that extends knowledge of educational research situations and statistical procedures beyond EDUR 8131. Emphasis is placed on more complex analysis of variance procedures (e.g., repeated measures, analysis of covariance), multiple regression analysis and the advanced dependent variable techniques (e.g., canonical correlation) as applicable to current educational research problems. Prerequisite: EDUR 8131 or equivalent.

EDUR 8230 - Classroom Measurement

Provides detailed coverage of concepts and skills necessary for proper construction of valid classroom tests. Emphasized are procedures for developing and evaluating various types of test items (e.g., multiple-choice, brief-response essays, true-false, etc.). Also covered are portfolio development and assessment, performance assessments, standardized score interpretation and methods for establishing validity and reliability.

EDUR 8330 - Experimental Design in Education

Provides coverage of true and quasi experimental designs that are typically used in educational settings. Also presented are factors that affect the internal and external validity of such designs with special attention directed to those threats that are common to educational research. Statistical methods for analysis of data drawn from educational experiments (such as factorial ANOVA, ANCOVA, repeated measures ANOVA, group comparison procedures, and effect sizes) are emphasized. Prerequisite: EDUR 8132.

EDUR 8434 - Field-Based Educational Research

Designed primarily to assist Ed. S. level students in developing a sound research proposal for the conduct of an independent research project required as part of their Ed.S. program. Prerequisite: EDUR 8131 or equivalent.
Course Descriptions 367

EDUR 8890 - Directed Individual Study (1-3)-0-(1-3) Readings and research under the direction of a member of the educational research faculty whose interests coincide with those of the student. Prerequisite: Permission of instructor.

EDUR 9131 - Doctoral Research Methods 3-0-3 The purpose of this course is for doctoral-level students to gain a firm foundation in educational research prior to enrollment in the more specialized courses in quantitative methods. Students engage in an applied research project that updates their understanding of research procedures (hypothesis generation, sampling theory, instrument construction, measurement concepts and descriptive and inferential statistics). Emphasis is on the "hands-on" application of advanced inquiry skills. Prerequisites: EDUR 7130 and EDUR 8131 or equivalent course.

EDUR 9231 - Qualitative Research in Education 3-0-3 Examines a broad survey of major styles of qualitative/descriptive research, as well as, attention to the major field work techniques and problems associated with conducting qualitative research. Prerequisite: EDUR 7130.

English (CLASS) ENGL 0099 - Communication Skills 4-0-4 Designed to help students develop language skills necessary for entering regular college courses. Emphasizes oral expression and writing, and other forms of written expression, oral participation, and reading proficiency. A study of strategies and techniques for developing rhetorical skills in College English. Required of graduate assistants in English and open to other graduate students in English.

ENGL 7121 - Methods of Research 2-0-2
The seminar provides an in-depth understanding of the bibliographic, research, and critical skills required to do advanced scholarship in literary studies.

ENGL 7630 - Seminar in World and Comparative Literature 3-0-3
Research and discussion of a topic in a specific period of world literature or comparative literature.

ENGL 7631 - Seminar in the British Novel 3-0-3
A study of important developments or themes of the British Novel.

ENGL 7632 - Seminar in the American Novel 3-0-3
A survey of the novel in America from the eighteenth to the twentieth centuries.

ENGL 7633/7633S - Seminar in Nineteenth Century British Literature 3-0-3
A study of prose and poetry of the nineteenth century, focusing on either Victorian or Romantic authors.
ENGL 7635 - Seminar in Nineteenth Century Literature
A study of major authors and documents of the nineteenth century, focusing on either Romantic or Realist authors.

ENGL 7637 - Seminar in Twentieth Century Literature
A study of American prose, poetry or drama of the twentieth century, with emphasis chosen by the instructor.

ENGL 7638 - Seminar in Twentieth Century Poetry
A study of British and American poets of the twentieth century, with emphasis on major authors of either the Modern or Contemporary periods.

ENGL 7999 - Thesis
3-0-3

Engineering (COST) ENGR 1111 - Introduction to Engineering
1-0-1
An introductory course required of all engineering students. Topics include: Historical development of engineering, modern engineering challenges, engineering study skills, engineering communications, engineering career opportunities, the engineering curriculum, the engineering team, ethics and other professional responsibilities of engineering, and the engineering design process.

ENGR 1133 - Engineering Graphics
2-3-3
Introduction to engineering graphics and visualization including sketching, line drawing, simple wire-frame and solid modeling. Development and interpretation of drawings and specifications for product realization.

ENGR 1731 - Computing for Engineers
2-2-3
Foundations of computing with an introduction to design and analysis of algorithms and an introduction to design and construction of programs for engineering problem-solving. Prerequisite: Concurrent or prior completion of MATH 1441.

ENGR 2230 - Introduction to Mechanics
3-0-3

ENGR 2231 - Engineering Mechanics I
3-0-3
Fundamental concepts of mechanics. Statics of particles. Moments and equivalent systems of forces on rigid bodies; equilibrium of rigid bodies. Distributed forces-centroids and centers of gravity. Analysis of trusses, frames and machines. Internal normal and shearing forces, bending moments, and torque. Shear and bending moment diagrams, relations between distributed load, shear, and bending moment. Friction. Distributed forces - area moments of inertia. Prerequisites: MATH 2242 and PHYS 2211.

ENGR 2232 - Dynamics of Rigid Bodies
3-0-3
Kinematics and dynamics of particles and rigid bodies in one, two, and three dimensions using Newton’s Second Law Method, Work-Energy and Impulse-Momentum methods. Mass moments of inertia and products of inertia. Prerequisite: A minimum grade of “C” in ENGR 2230 or ENGR 2231.

ENGR 2233 - Statics and Dynamics
3-0-3
Elements of statics in two and three dimensions, centroids, friction, kinematics and kinetics of rigid bodies in plane motion. Prerequisites: MATH 2242 and PHYS 2211.

ENGR 2323 - Digital Design Lab
1-3-2
Design and implementation of digital systems, including a team design project. CAD tools, project design methodologies, logic systems, and assembly language programming. Prerequisite: ENGR 2332.

ENGR 2332 - Introduction to Computer Engineering
3-0-3
Computer systems and digital design principles. Architectural concepts, software, Boolean algebra, number systems, combinational datapath elements, sequential logic and storage elements. Design of DRAM control and I/O bus. Prerequisite: A minimum grade of “C” in ENGR 1731 or equivalent.

ENGR 2334 - Circuit Analysis
3-0-3
Introduces students to the basic concepts of DC and AC circuit theory and analysis. Prerequisites: ENGR 2341 and PHYS 2212. Concurrent or prior completion of MATH 3230.

ENGR 2341 - Introduction to Signal Processing
3-3-4
Introduction to signal processing for discrete-time and continuous-time signals. Filtering. Frequency Response. Fourier Transform. Z Transform. Laboratory emphasizes computer-based signal processing. Prerequisites: A minimum grade of “C” in MATH 2242 and ENGR 1731 or equivalent.

ENGR 2431 - Creative Decisions and Design
2-3-3
Fundamental techniques for creating, analyzing, synthesizing, and implementing design solutions to open-ended problems through team and individual efforts utilizing flexibility, adaptability, and creativity. Prerequisites: A minimum grade of “C” in ENGR 1133, and ENGR 2230 or ENGR 2231, and concurrent or prior completion of MATH 2430.

ENGR 2630 - Civil Engineering Systems
3-0-3
Infrastructure viewed from a systems perspective; analytical approaches and modeling of civil engineered facilities; sustainability; engineering economy applications. Prerequisite: MATH 2243.

ENGR 3233 - Mechanics of Materials
3-0-3
Definition and analysis of stress and strain, mechanical properties of materials, axially loaded members, torsion of circular sections, bending of beams, transformation of stress and strain, design of beams, and buckling of columns. Prerequisite: ENGR 2231.

ENGR 3431 - Thermodynamics
3-0-3
Thermodynamic properties, state postulate, work interactions, steady-state and transient energy and mass conservation, entropy and the second law. First and Second Law analysis of thermodynamic systems. Gas cycles and vapor cycles. Prerequisite: PHYS 2211.

Enrichment Program (VPA)

ENPR 1200 - Enrichment Program
2-0-2
A combined activity/seminar course designed to engage students in a broad range of extra classroom intellectual, cultural, and aesthetic events as a regular part of their educational experience. Students may take the course repeatedly, but a maximum of two credit hours may be applied to the 126 minimum for graduation.

ENPR 3220H - Honors Seminar
2-0-2
The seminar is an enrichment of the general education of University Honors Program (UHP) students. Context is determined when selections are made by the University Honors Program Council based on submitted proposals from faculty. The course is restricted to juniors and seniors in the UHP.

Environmental Health Sciences (COPH)

ENPV 7090 - Selected Topics in Environmental Health Sciences
1-3-0-(1-3)
Allows the student the opportunity to receive specialized and/or focused instruction in an environmental health topic not generally offered by the department. Prerequisite: Permission of instructor.

ENPV 7232 - Fundamentals of Air and Water Quality
3-0-3
Introduces students to chemical, physical, and biological principles of optimal air and water quality, as well as potential sources of contamination. The course will also introduce appropriate remediation strategies to ameliorate pollution.

ENPV 7233 - Environmental Impact Assessment
3-0-3
Introduces students to appropriate design, implementation, and analysis of primary environmental exposures. Specific topics covered include designing risk profiles, evaluating dose-response relationships, and analyzing field exposures of toxins.

ENPV 7234 - Environmental Toxicology
3-0-3
Introduces students to concepts associated with the lethal and sub-lethal effects of environmental and occupational stressors on humans and other living organisms.

ENPV 7235 - Environmental Sampling
3-0-3
Introduces students to an overview of current and accepted standards of environmental and occupational exposure monitoring.

ENPV 7236 - Spatial Analysis for Environmental Health Sciences
3-0-3
Introduces students to concepts and methods of spatial analysis related to environmental health problems and public health planning. Students will also employ basic concepts of mapping through the use of applicable Geographic Information Systems software.
ENHV 7890 - Directed Individual Study  (1-3)-0-(1-3)  
Provides the student with an opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

Epidemiology (COPH)  
EPIP 7090 - Selected Topics in Epidemiology  (1-3)-0-(1-3)  
Allows the student the opportunity to receive specialized and/or focused instruction in an epidemiology topic not generally offered by the department. Prerequisite: Permission of instructor.

EPIP 7131 - Epidemiology of Chronic Disease  3-0-0  
This course is designed to introduce the student to the ever-expanding area of chronic disease epidemiology. Students will be introduced to the current status of chronic disease and control programs, methods used in chronic disease surveillance, intervention methods, and modifiable risk factors. Some of the major chronic diseases such as cancer, cardiovascular disease, chronic lung disease, diabetes and arthritis will be discussed in detail. Prerequisite: PUBH 6133 or equivalent.

EPIP 7133 - Epidemiological Research Methods  3-0-3  
This course focuses on the principles and methods involved in the planning, analysis and interpretation of epidemiological research. Focus will be placed on basic data analysis techniques found in epidemiological studies, evaluation of bias, and adjustments for confounding. Appropriate statistical computer programs will be used. Prerequisite: PUBH 6131 or equivalent.

EPIP 7135 - Epidemiology of Infectious Disease  3-0-3  
The purpose of the class is to introduce infectious disease epidemiology history and some of the methods currently used in the conduct of infectious disease epidemiologic studies. Infectious disease epidemiology is primarily concerned with intervention as opposed to detection of risk factors. Prerequisite: PUBH 6131 and PUBH 6133 or equivalent.

EPIP 7890 - Directed Individual Study  (1-3)-0-(1-3)  
Provides the student with an opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

Early Childhood - Middle Grades-Secondary Education (COE)  
ESED 4090 - Special Topics  (1-3)-0-(1-3)  
Promotes specialized training appropriate to the needs of pre-service teachers. Attention will be given to a range of specific problems as they relate to the elementary, middle, or secondary schools and teaching field. Prerequisites: Approval of the advisor, instructor, and department chair.

ESED 4633 - Student Teaching Seminar  3-0-3  
Students will analyze issues related to school law, diverse student populations, classroom/behavior management, school funding, issues and trends in education, technology integration, and ethics. Special emphasis will be placed on instructional setting, strategies, and related services. Prerequisite: Admission to Student Teaching. Corequisite: ECED 4799 for Early Childhood Education majors only.

ESED 4799 - Student Teaching in P-12 Education  0-0-40-9  
Student Teaching is a period of guided teaching during which the student, under the direction of a cooperating teacher, takes increasing responsibility for leading the school experiences of a given group of learners over a period of consecutive weeks and engages more or less directly in many of the activities which constitute the wide range of a teacher’s assigned responsibilities. Prerequisites: Completion of teaching field and professional education courses and admission to the Student Teaching Program.

ESED 4890 - Directed Individual Study  (1-3)-0-(1-3)  
The student, under the direction of the instructor, will identify and study a topic applicable to a teaching field and level of certification. Prerequisite: Approval of advisor, instructor, and department chair.

ESED 5223/5232G - Methods for ESOL  3-1-3  
An introduction to current second language acquisition theory and its application to curriculum development and instructional strategies. Participants in this course will design curriculum and learning activities that facilitate the use of English as a Second Language in listening, speaking, reading, and writing. In addition, participants will learn how to develop strategies for integrating school, neighborhood, and home resources to further the education ESOL students. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Admission to Teacher Education Program or hold a valid teaching certification.

ESED 5233/5233G - Applied Linguistics: ESOL  3-0-3  
An in-depth study of the major theories of first and second language acquisition and their implications for instruction. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

ESED 5234/5234G - Cultural Issues: ESOL  3-0-3  
The principles of culture and its link to second language learning, as well as, problems of teaching in a multicultural classroom. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

ESED 6738 - Supervised Practicum  0-15-3  
A supervised teaching experience in an elementary, middle, or secondary school. Candidates will plan and teach in one’s specific teaching field and grade levels for which they are being certified. Emphasis is placed on instructional planning, classroom management, and student evaluation. Prerequisite: Admission to Teacher Education Program.

ESED 6799 - Supervised Internship  0-40-9  
A fifteen-week supervised teaching experience in the specific teaching field and grade levels for which one is being certified. Candidates seeking initial certification in middle grades or in one of the secondary or P-12 teaching fields will complete the supervised internship for initial certification. Emphasis is placed on instructional planning, methodology, classroom management, and assessment of student learning. Prerequisites: Completion of teaching field and professional education courses, a supervised practicum in one’s teaching field, and admission to the Supervised Internship.

ESED 7090 - Special Topics  3-0-3  
Promotes specialized training appropriate to the needs of inservice teachers. Attention will be given to a range of specific problems as they relate to the P-12 teaching fields. Prerequisites: Permission of the advisor, instructor, and department chair.

ESED 7231 - Foreign Language Curriculum  3-0-3  
A study of the various trends and issues in foreign language curriculum development. Emphasis will be placed on the goals and philosophies of foreign language education, the implementation of these goals through the use of appropriate materials and activities and the evaluation of student progress toward these goals using a variety of evaluative instruments. Prerequisites: Admission to Teacher Education Program or hold a valid teaching certificate.

ESED 7232 - Foreign Language Methods  3-1-3  
A study of the historical, theoretical and practical dimensions of materials and methodology in second language education. The overall objective of this course is to help each student develop a repertoire of effective teaching techniques and materials as well as acquire the necessary theoretical foundation on which to expand that repertoire. A field-based component is included. Prerequisite: Admission to Teacher Education Program or hold a valid teaching certificate.

ESED 8130 - Research on Current Trends and Issues  3-0-3  
This course provides candidates the opportunity for in-depth exploration and reflection of current trends and issues related to the teaching and learning. Emphasis is placed on the topics of reform/renewal and the moral dimensions of teaching and learning. Candidates will identify researchable topics, examine and synthesize quantitative and qualitative research related to such topics and write a first draft of a literature review. Prerequisite: Admission into the Ed. S. Program.

ESED 8131 - Teacher Leadership  3-0-3  
This course is an action-oriented experience that explores the multiple aspects of the teacher as a leader. Teachers will discover their own leadership potential as they delve into the characteristics of leadership, adult development, the school culture, interpersonal and technical skills, and tasks and functions of leadership. Examination and application of processes, systems, strategies, and leadership to achieve results in classroom, building, and larger educational arenas. A goal is to develop a working knowledge of characteristics of successful organizational systems, core values, and educational concepts that enrup to reinf improvement of teaching and leadership methods. Prerequisite: ESED 8130.

ESED 8132 - Curriculum and Instruction  3-0-3  
This course is designed to provide the experienced teacher and graduate candidate with an opportunity to examine and explore current trends and issues in curriculum and instruction and the impact of these trends and issues on student learning outcomes. A focus is on the critical evaluation of national and non-traditional curriculums, the influence of professional standards on curriculum across content areas, and the development of effective instructional practices to enhance academic achievement for all students. Prerequisite: ESED 8130.
ESED 8537 - Trends: Math/Science/Computer Education 3-0-3
Current trends and issues in teaching mathematics, science, and computing technology in the schools. Emphasis is placed on research findings, recommendations of professional organizations and effective practices that connect the teaching of mathematics and science, supported by computing technology. Prerequisite: Admission to an Ed.S. or Ed.D. program.

ESED 8538 - Applications: Math/Science Education 3-0-3
Addresses the integration of mathematics and science in the classroom and serves to correlate knowledge from science and mathematics courses with practical applications in local industries. Topics focus on applications of mathematics in science contexts, while emphasizing the relevance of mathematics and science to every day life. Prerequisite: Admission to an Ed.S. or Ed.D. program.

ESED 8539 - Computer Technology in Math/Science Education 3-0-3
Applications of computing technologies such as graphics calculators, computers and the Internet in the classroom. Emphasis is placed on integrating these technologies into the teaching of school mathematics and science. Prerequisites: Admission to an Ed.S. or Ed.D. program.

ESED 8839 - Seminar and Field Study 2-1-3
Students will initiate, complete and present an acceptable field-based research study, developed and approved in EDUR 8434. This course will focus on collecting, organizing and analyzing data, as well as composing a formal research paper based on the research study. The course culminates with an oral presentation of the study. Seminars will be held that focus on current trends, issues, and research in one’s teaching field and certification level. Prerequisites: EDUR 8131, EDUR 8434, ESED 8130, ESED 8132, ITEC 8231.

ESED 8890 - Directed Individual Study 0-(1-3)+(1 to-3)
The candidate, under the direction of the instructor, will identify and study a topic applicable to one’s teaching field. Prerequisites: Approval of advisor, instructor and department chair.

English Second Language (CLASS)
ESL 0090A - Reading and Writing I 6-0-4
A beginning level reading and writing class for non-native speakers of English.

ESL 0090B - Listening and Speaking I 6-0-4
A beginning level class designed to help non-native speakers of English develop communication skills through a variety of listening and speaking activities.

ESL 0090C - Grammar I 5-0-4
A basic structure class for beginning non-native speakers of English.

ESL 0090D - Computer I 0-3-3
A class designed to help beginning non-native speakers of English students learn how to use the computer as a way of improving their language skills.

ESL 0090E - U. S. Culture I 4-0-3
An introduction to the customs, behaviors, and attitudes most prevalent in US society, including experiential learning through field trips.

ESL 0091A - Reading and Writing II 6-0-4
An intermediate reading and writing class for non-native speakers of English.

ESL 0091B - Listening and Speaking II 6-0-4
An intermediate level class designed to help non-native speakers of English develop communication skills through a variety of listening and speaking activities.

ESL 0091C - Grammar II 5-0-4
An intermediate structure class for non-native speakers of English.

ESL 0091D - Computer II 0-3-3
An intermediate class designed to help non-native speakers of English learn how to use the computer as a way of improving their language skills.

ESL 0091E - U. S. Culture II 4-0-3
An intermediate course on the customs, behaviors, and attitudes most prevalent in US society, including experiential learning through field trips.

ESL 0092A - Reading and Writing III 6-0-4
An advanced level reading and writing class for non-native speakers of English.

ESL 0092B - Listening and Speaking III 6-0-4
An advanced level class designed to help non-native speakers of English develop communication skills through a variety of listening and speaking activities.

ESL 0092C - Grammar III 5-0-4
An advanced structure class for non-native speakers of English.

ESL 0092D - Computer III 0-3-3
An advanced class designed to help non-native speakers of English learn how to use the computer as a way of improving their language skills.

ESL 0092E - U. S. Culture III 4-0-3
An in-depth course on the customs, behaviors, and attitudes most prevalent in US society, including experiential learning through field trips.

ESL 0093 - English as a Second Language I 5-2-6
An intensive course designed for students whose native language is not English. Includes listening and speaking skills, reading comprehension, with an emphasis on vocabulary development, basic grammar review, and writing clear, logical, well-structured essays. Students may be required to pass this course before they are recommended to enter WRIT 0095 or ENGL 1101, depending on their proficiency. Prerequisites: Placement dependent upon successful score on Michigan Test of English Language Proficiency and a writing sample.

ESL 0095 - English as a Second Language II 2-2-3
Designed for students whose native language is not English. Includes grammar discussion skills, interpretation of short readings, advanced grammar review, and writing clear, logical, well-structured essays. Students may be required to pass this course before they can enter ENGL 1101. Prerequisites: Placement dependent upon successful score on Michigan Test of English Language Proficiency and a writing sample.

Education Psychology (COE)
ESPY 7090 - Selected Topics in School Psychology (1-6)-0-(1-6)
Participants are introduced to topics in school psychology that will be used and applied in their practice as school psychologists. This course is designed to meet the special needs of pre-service or in-service school psychologists. Some topics might include assessment, intervention, consultation or evaluation/research in school psychology. Prerequisite: Permission of instructor.

ESPY 7130 - Professional School Psychology 3-0-3
A study will be made of the development of school psychology and its' present status and trends. The professional responsibilities of the school psychologist will be explored in the context of social, legal and ethical issues that affect practice. Prerequisite: Admission to M.Ed. in School Psychology or permission of instructor.

ESPY 7131 - Behavioral Interventions 3-4-3
Prepares school psychologists, counselors and classroom consultants to manage children with moderate to severe conduct problems so that they can profit from classroom instruction. Includes symptoms, diagnosis, treatment and management of children with conduct disorders that hamper learning. Prerequisite: Admission to M.Ed. in School Psychology or permission of instructor.

ESPY 7132 - Interpretation of Psychoeducational Tests 3-0-3
Designed to foster accurate interpretation of individual educational and psychological test results to produce appropriate instructional approaches for children with learning or behavioral problems. Training in multifaceted assessment skills, particularly as they relate to the interpretation of psychoeducational evaluations, is emphasized. Prerequisite: Admission to M.Ed. in School Psychology or permission of instructor.

ESPY 7133 - Educational Implications of Social Deviance 3-0-3
This course is designed to provide students with theoretical perspectives on social deviance and their applications in educational environments. Using a social constructivist context, students will examine a range of behaviors that differ from accepted social standards within our cultural institutions.

ESPY 7230 - Developmental Diagnosis of School-aged Children 3-0-3
Prepares school psychologists, counselors, social workers, special education personnel, and classroom teachers and consultants to develop awareness of theoretical foundations, research and practice relevant to the development of school-aged children birth through twenty-one. Developmental diagnosis is the focus, incorporating physical, cognitive, language, social-emotional, and moral development areas. Also included is discussion of symptoms, diagnosis, treatment, and management of children at-risk. Prerequisites: EDUF 8136, PSYC 7331, COUN 7338 or equivalent background.
ESPY 8130 - Curriculum-based Assessment  3-0-3
Concerned with assessing the skills and performances of students in the basic academic areas. Personalized programs based on assessed needs will be developed within a field-based experience by using the general education curriculum at the axis of all assessment and programming activities. Prerequisite: EDUC 7130 or permission of instructor.

ESPY 8131 - Individual Intellectual Assessment  3-0-3
Designed for students majoring in School Psychology. It provides intensive experience in the administration, scoring, and interpretation of individual psychological tests for educational purposes. Includes report writing, case history techniques and interview techniques. Prerequisites: ESPY 7132, EDUR 7130 or equivalent and admission to the M.Ed. or Ed.S. in School Psychology.

ESPY 8132 - Advanced Intellectual Assessment  3-0-3
This course builds on knowledge and skills in intellectual assessment that school psychology students gained in ESPY 8131. It provides extensive experience in the administration, scoring, and interpretation of intellectual tests for psychoeducational purposes. It includes interpretation of test data, report writing, interviewing techniques and presentations of case histories. Prerequisites: ESPY 8131, admission to M.Ed. or Ed.S. in School Psychology or permission of instructor.

ESPY 8133 - Personality and Behavioral Assessment  3-0-3
In the Schools
This course provides school psychology students with extensive experience in administering, scoring, and interpreting personality and behavioral assessment measures. School psychology students will also learn to conduct a clinical interview and integrate information from various assessment sources to write an integrated report. Prerequisite: A minimum grade of “B” in ESPY 8132 or permission of instructor.

ESPY 8230 - Consulting in Educational Settings  3-4-3
Presents theories and develops skills needed to assist adults working with children at risk and with special needs in both rural and urban educational settings. Intervention during crises affecting children in schools will be presented. Prerequisite: Admission to Ed.S. in School Psychology program or permission of instructor.

ESPY 8631 - Seminar in School Psychology  3-0-3
Provides a review of professional competency issues, legal/ethical issues, practice guidelines and practice applications for students entering the School Psychology Internship. Prerequisite: Permission of instructor. Repeatable for credit up to 6 hours.

ESPY 8737 - Practicum in School Psychology  3-8-3
Experience with school children having learning problems will be provided. Completely supervised experiences will be made available to students. Prerequisites: ESPY 8132 or concurrent enrollment, permission of instructor and proof of professional liability insurance.

ESPY 8738 - School Psychology Internship I  0-40-3
Supervised field experience to provide the comprehensive range of experiences in the professional role of school psychologists. Experiences will be individually planned to include assessment, direct interventions, indirect interventions and evaluation/research. Prerequisites: ESPY 8737, admission to Ed.S. in School Psychology and proof of professional liability insurance.

ESPY 8739 - School Psychology Internship II  0-40-3
Supervised field experience to provide the comprehensive range of experiences in the professional role of school psychologists. Experiences will be individually planned to include assessment, direct interventions, indirect interventions and evaluation/research. Prerequisites: ESPY 8738, admission to Ed.S. in School Psychology and proof of professional liability insurance.

ESPY 8839 - Action Research in School Psychology  0-3-3
Students will apply their knowledge of research skills by preparing and completing a research project related to a practical problem in school psychology or student services. Ethical and legal guidelines as appropriate for the project are to be followed. Format decisions will be made in consultation with appropriate faculty member. Prerequisite: EDUR 8434. Repeatable for credit up to 9 hours.

ESPY 8890 - Directed Individual Study  (1-6)-0-(1-6)
This course permits specialization beyond regular course content through in-depth study of individually selected topics of interest and importance in school psychology or student services. The study will be directed by the instructor. Prerequisite: Permission of advisor.

European Union (VPAA)
EURO/INTS/POLS 3234/3234S - Introduction to the European Union
This course will introduce students to the history, institutions, policies, and cultures of the European Union and its member states.

EURO 4130 - European Law and Legal Systems  3-0-3
This course focuses on the legal institutions that constitute the European Union, and the legal processes of those institutions. The course begins with a brief overview of the European Union, including the historical antecedents that preceded the present day entity of the EU. Prerequisite: A minimum grade of “C” in POLS 1101.

EURO 4230 - Doing Business in the European Union  3-0-3
and United States
This course is intended for non-business majors. For this reason, an introduction to economics is included. The course compares the general legal rules and cultural environment of running a business in the European Union and the United States. Topics include government regulations, labor relations, cultural values, consumer behavior, mergers, and marketing. Prerequisite: A minimum grade of “C” in EURO 3234.

EURO 4330 - Science and Technology Policy  3-0-3
The purpose of this course is to introduce the Science and Technology Policy of the European Union (EU). This is an introductory course about the history, goals, and issues of the EU related to science, industry, and technology. Prerequisite: A minimum grade of “C” in EURO 3234.

Family and Consumer Sciences (CHHS)
FACS 2220 - Social Survival Skills  1-0-1
A study of etiquette and social interaction as they relate to social gatherings, the work environment and daily living. Students will be encouraged to incorporate the principles of professional and personal courtesy into their lifestyles. Appropriate for all majors. Class will meet one evening session during the semester.

FACS 2437 - Interior Design CAD I  1-4-3
Introductory computer drafting and programming. A basic overview of AutoCAD, file management, and fundamental executions of drafting components. The concepts of 3-D modeling will be addressed. Prerequisites: IND5 2430 or IND5 2434, and CISM 1110 and CBM 1120, or permission of instructor

FACS 3025 - Teaching Family and Consumer Sciences  2-0-2
An introduction to educational strategies and materials used in teaching Family and Consumer Sciences in secondary schools. Prerequisite: Admission to Teacher Education Program.

FACS 3437 - Interior Design CAD II  1-4-3
Further develops the student’s ability to use the computer as a drafting tool for Interior Design at an advanced level. Subjects addressed in this course will be working drawings in conjunction with IND5 4435, schedules, details, and 3-D modeling. Prerequisite: A minimum grade of “C” in FACS 2437. Corequisite: IND5 4435.

FACS 4090 - Selected Topics in Family and Consumer Sciences  (1-3)-(0-(1-3)
Scheduled on an infrequent basis to explore new research and emerging knowledge in Family and Consumer Sciences and related fields. This course will carry a subtitle.

FACS 4138 - Professional Development  3-0-3
A study of the unique and complex nature of communication within the family with specific application to careers in family and consumer sciences. Involves discussion of current issues and topics with a focus on professional ethics, professional employment opportunities, internships, development and growth, and current research themes within the profession. Should be taken one to two semesters prior to CHFD 4790.

FACS 4610 - Senior Seminar  1-0-1
To prepare senior level students to acquire employment and/or internship in their chosen professional field. Prerequisite: Senior status in any major.

FACS 4890/4890S - Directed Individual Study  (1-3)-(0-(1-3)
Provides the student with the opportunity to study topics and issues relevant to the Family and Consumer Sciences profession in an individual setting. The student will be able to work with faculty in a rigorous, closely directed, research or exploratory environment. Prerequisite: Permission of instructor.
FILM (CLASS)

FILM 2331/2331S - Introduction to Film 3-0-3
Introduces the creative elements of cinema including screen writing, performance, cinematography, editing, sound, and directing. Selected films will be screened and analyzed.

FILM/ENGL 2432 - The Language of Film 3-0-3
See ENGL 2432 for course description.

FILM 3030/3030S - Selected Topics in Film 3-0-3
Offers various courses in specialty areas of film studies. Prerequisite: FILM 2331.

FILM/AMST 3331 - History of American Film 3-0-3
Surveys the history of American film recognizing the influence of international cinema upon American film. Selected films of historical significance will be screened and analyzed.

FILM 3332/3332S - Documentary Film 3-0-3
Explores the documentary film genre as an art form and as a medium of communication. Landmark documentary films will be screened and analyzed. Prerequisite: FILM 2331.

FILM 3333 - Art of Film 3-0-3

Prerequisite: A minimum grade of “C” in GCM 3745 (required for Graphic Communications Management majors only), IT second discipline students and GCM minor students should consult with the assigned GCM program advisor). Corequisite: GCM 3333.

GCM 3745 - Graphic Communications Internship I 0-40-4
Designed for students to receive practical work experience with an approved graphic communications firm. A minimum of 480 contact hours with the host site is required. Graphic Communications Management Majors. Prerequisites: A minimum grade of “C” in GCM 2721, GCM 2722 and a minimum 7 hours from GCM 2432, GCM 2332 and GCM 2412, and GCM 2132 and GCM 2212.

GCM 4132 - Screen Printing 2-2-3
An introduction to screen printing. Screen preparation, emulsion preparation, single and multi-color printing, and screen recovery are experienced. Prerequisite: A minimum grade of “C” in GCM 3745 (required for Graphic Communications Management majors only, IT second discipline students and GCM minor students should consult with the assigned GCM program advisor).

GCM 4232 - Photo Preparation for Reproduction 2-2-3
A combination of traditional and digital photography techniques will be used to enhance the quality of the original photograph. The focus of the course will be on creating images which maximize resolution while reducing editing requirements. Students will choose and use various lighting arrangements and output techniques to improve final image quality. Prerequisite: A minimum grade of “C” in GCM 1131, ART 1335, JOUR 3333, or permission of instructor.

GCM 4746 - Graphic Communications Internship II 0-40-4
Designed for students to further their industry experience beyond GCM 3745. A minimum of 480 hours contact hours with the host site is required. Graphic Communications Management Majors. Prerequisites: A minimum grade of “C” in GCM 3745 and 9 semester hours from the following: GCM 5234, GCM 5314, GCM 5434,GCM 5514, GCM 3333, GCM 3413, GCM 4132, GCM 5331, GCM 5334, and GCM 5534.

GCM 4899 - Independent Study (0-3)-(0-6)-(1-3)
Available for the student to undertake individualized experimentation, research, or study related to the printing industry. The specific topic will be determined and approved by the faculty and the student prior to the semester in which the course is taken. Academic credit is assigned to the independent study commensurate with the magnitude of the study. Prerequisite: Permission of the instructor.

GCM 5090/5090G - Selected Topics in Graphic Communications
This course is scheduled on an infrequent basis to explore special areas in technology and will carry a subtitle. Credit is variable from 1 to 3 semester hours. This special topics course is in keeping with established policies for offering a structured course on an infrequent basis. It will allow faculty to offer a course on a trial basis for possible approval at a later date. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete.

GCM 5234/5234G - Color Reproduction 3-0-3
An exploration of professional color reproduction concepts and procedures related to the graphic communications and information technology industries. Topics include color theory, copy evaluation, color separation methods, color reproduction variables, color separation hardware and software, and color management systems. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: A minimum grade of “C” in GCM 3745 (required for Graphic Communications Management majors only, IT second discipline students and GCM minor students should consult with the assigned GCM program advisor). Corequisite: GCM5314/5314G.

GCM 5314/5314G - Color Reproduction Laboratory 0-2-1
This is a hands on laboratory course. The laboratory activities include the following: test for abnormal color vision, color measurement and evaluation, color standards, color proofing, color scanning, color reproduction methods, color management systems, color reproduction techniques using Photoshop and other software. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: A minimum grade of “C” in GCM 3745 (required for Graphic Communications Management majors only, IT second discipline students and GCM minor students should consult with the assigned GCM program advisor). Corequisite: GCM 5234/5234G.

GCM 5331/5331G - Flexography 2-2-3
Introduction to the flexographic printing industry. Discussions will include the design, techniques, processes, and manufacture of flexographic printed products. Activities will include setup and operation of a flexographic press. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: A minimum grade of “C” in GCM 3745 required for undergraduate course only.

GCM 5332/5332G - Multimedia Presentations 2-2-3
Multimedia Presentations is the study of digital imaging applications for presentations. The course covers the creation of digital components for multimedia presentations, including sound, graphics, animation, and video technique, and their use in multimedia presentations for video, CD ROM, and the Internet. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: Successful completion of a college level computer course.

GCM 5334/5334G - Imaging Systems 2-2-3
Imaging Systems is an in-depth course of how to effectively use, organize, and link imaging workstations, peripherals, systems, and files for information imaging. Current trends and issues of the industry are also considered. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: A minimum grade of “C” in GCM 3745 (required for Graphic Communications Management majors only, IT second discipline students and GCM minor students should consult with the assigned GCM program advisor).
GCM 5533/5535G - Graphic Communications 3-0-3
Management Topics
Course topics focus specifically on managerial decisions as they uniquely apply to graphic communications, such as: facilities planning and production flows, trade customs, contracts, and quality control and testing. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: A minimum grade of “C” in GCM 3745.

GCM 5434/5434G - Lithographic Reproduction 3-0-3
Designed to introduce the student to film assembly and presswork. Topics include imposition layouts, film assembly, plate-making, proofing systems, and press operation. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: A minimum grade of “C” in GCM 3745 (required for Graphic Communications Management majors only). IT second discipline students and GCM minor students should consult with the assigned GCM program advisor. Corequisite: GCM 5514/5514G.

GCM 5514/5514G - Lithographic Reproduction Laboratory 0-3-1
Designed to present the student with various film assembly and presswork techniques. Laboratory activities include: film assembly, plate making, proofing systems, and press operation. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: A minimum grade of “C” in GCM 3745 (required for Graphic Communications Management majors only). IT second discipline students and GCM minor students should consult with the assigned GCM program advisor. Corequisite: GCM 5434/5434G.

GCM 5533/5534G - Digital Output Applications 2-2-3
Covers the utilization of electronic imaging technologies for output applications for information imaging. Specific topics include internet development and management, and print-on-demand development and management. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: A minimum grade of “C” in GCM 3745 (required for Graphic Communications Management majors only). IT second discipline students and GCM minor students should consult with the assigned GCM program advisor.

GCM 5535/5535G - Estimating for Print Production 3-0-3
Acquaints the student with various types of estimating practices found in the printing industry. The student will learn how to measure cost centers, calculate materials used and conceptualize the production process. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to complete. Prerequisite: A minimum grade of “C” in GCM 3745 required for undergraduate course only.

GCM 7231 - Digital Image Preparation 2-2-3
An exploration of the tools, processes and planning procedures used to create, edit, and manipulate different image components required for various output or display methods are reviewed and demonstrated. Layout and design for various output and display methods are reviewed and implemented into course projects.

GCM 7232 - Multimedia for Business and Industry 2-2-3
This course will cover the creation of digital components for multimedia presentations, including: sound, graphics, animation, and video techniques. The use of multimedia presentations for video, CD ROM, and the Internet, and the application of these technologies for the business and industrial setting will be explored and practiced. Prerequisite: Successful completion of a college level computer course or GCM 7231.

Geography (COST)
GEOG 1101/1101S - Introduction to Human Geography 3-0-3
Basic concepts of cultural geography including characteristics and spatial patterns of population religions, settlements, economies, languages, nutrition, health, migration, economic development, art, music, and other cultural phenomena.

GEOG 1110 - Climate and the Landscape Lab 0-2-1
A series of laboratories and exercises designed to provide hands-on applications of general theories regarding earth processes discussed in GEOG 1111, Climate and the Landscape. Prerequisite: Highly recommended to be taken concurrently with GEOG 1111.

GEOG 1111 - Climate and the Landscape 3-0-3
The earth’s surface in its areal differentiation. Focuses on the various elements of physical geography that act as a foundation to the discipline including the distribution of physical surficial phenomena. Prerequisite: Highly recommended to be taken concurrently with GEOG 1110.

GEOG 1130/1130S - World Regional Geography 3-0-3
Study of geographic regions of the world emphasizing physical landscapes, resources, economies, culture and politics. Selected problems or situations of contemporary interest will be incorporated.

GEOG 3130/3130S - Conservation 3-0-3
Examination of environmental factors in the setting of human activities. Emphasis is on modern efforts in conservation and resource management concerning wildlife, forests, fisheries, agriculture, rangeland, water, soils and oceans.

GEOG 3230/3230S - Economic Geography 3-0-3
Study of the distribution, production and utilization of the world’s basic commodities.

GEOG 3330 - Weather and Climate 3-0-3
Elements and controls of weather and climate and the distribution and characteristics of climate regions.

GEOG 3440 - Introduction to GIS and Cartography 2-4-4
An introduction to the basic concepts, theories, techniques, and applications of Geographic Information Systems (GIS) and cartography. Students will learn and apply GIS and cartographic concepts to gain extensive hands-on experience in thematic mapping and manipulation of geo-referenced spatial information using GIS software.

GEOG 3530 - Cultural Geography 3-0-3
An examination of the world’s diverse cultural landscapes. Emphasis on the connections between social, political, religious and agricultural patterns and the impact of societies on the natural environment.

GEOG 3741 - Remote Sensing 2-4-4
Introduction to the concepts, theory, collection, analysis and applications of remotely sensed spatial information. Prerequisite: Permission of instructor.

GEOG 4120 - Introduction to Research Methods 2-0-2
The process of researching utilizing the scientific method will be studied. Research methods in human and physical geography are discussed and critiqued. Methodologies including literature searches, topic selection and refinement, and research problem solving will be discussed. A proposal for a research project will be selected or assigned, a proposal written, and an oral presentation of the proposed research will be made. A minimum grade of “B” is required to continue in the research sequence.

GEOG 4130 - Biogeography 3-0-3
Introduces students to biogeography: the study of the distribution of plants and animals. Both historical taxonomic and ecosystems biogeography are covered. The analysis and explanation of spatial patterns of plant and animal distribution, while addressing change in species distribution and evolution in response to climate change and the process of continental drift that have taken place in the past and are taking place today, will be emphasized.

GEOG 4131 - Geography of the American South 3-0-3
Systematic regional treatment of the South including the physical, cultural and economic aspects of its’ various regions.

GEOG/LAST 4232 - Geography of Latin America 3-0-3
Study of the physical, cultural and economic geography of Latin America, including Mexico.

GEOG 4233 - Geography of Asia 3-0-3
A survey of the physical, cultural, political and economic geography of the countries of Asia. Selected problems or situations of contemporary interest will be incorporated.

GEOG/AAST 4330 - Geography of Africa South of the Sahara 3-0-3
A survey of the physical, cultural, political and economic geography of Africa south of the Sahara Desert. Selected problems or situations of contemporary interest will be incorporated.

GEOG 4430/4430S - Geography of Europe 3-0-3
Survey of the physical, cultural, political and economic geography of Europe. Situations of contemporary interest will be included.

GEOG 4541 - Cartography 3-3-4
Introduction to the computer as a tool in cartographic design and production, and as a tool to assist data analysis in geographic research and geographic problem solving.
GEOG 4542 - Intermediate GIS 2-4-4
An introduction to advanced data models and spatial data analysis functions of Geographic Information Systems (GIS) software, with an emphasis on the conversion among various GIS data formats and geodatabase construction and management. Prerequisite: GEOG 3440.

GEOG 4543 - Advanced GIS: Spatial Analysis and Modeling 2-4-4
This course covers the advanced spatial analysis and modeling functions of GIS and offers both fundamental theoretical background and extensive hands-on experience in spatial analysis and modeling. Major topics include network analysis, surface modeling, spatial patterns analysis, spatial data visualization, and basics of spatial statistics. Prerequisite: GEOG 3440 and GEOG 4542.

GEOG 4610 - Senior Thesis Seminar 1-0-1
Proficiency in formal scientific paper presentation will be demonstrated. The student’s senior research topic from GEOG 4820 will generate both written and oral presentations in a formal setting to an audience of professors and peers. Prerequisites: GEOG 4120 and GEOG 4820.

GEOG 4632 - Advanced Cartography 2-2-3
Advanced visualization techniques, cartographic theory and map design. Prerequisite: GEOG 4541.

GEOG 4742 - Advanced Remote Sensing 2-4-4
Advanced techniques in the interpretation and application of remotely-sensed information to geographic problems. Prerequisite: GEOG 3741.

GEOG 4790 - Internship in Geography 0-5(30)-(1-6)
The internship allows students to work in a professional setting related to their chosen concentration in the field. Undergraduate students can earn between one and six credits for internships approved by their academic advisor and the Department’s Internship Director. Students must maintain contact with the Internship Director through the course of the internship work, and must submit a written report and a work product at the end of the project. Internship credits can be used for elective credit only and may not substitute for specific degree requirements. Prerequisite: Permission of the Geology and Geography Internship Director is required.

GEOG 4820 - Senior Thesis Research 2-0-2
Provides a mechanism for geography majors to complete research project(s) started in GEOG 4120. The end product of the research is the senior thesis. Prerequisite: GEOG 4120.

GEOG 5030/5030G - Selected Topics-Regional Geography 3-0-3
Offered on an experimental basis. Graduate students will complete an individual term project or special report.

GEOG 5031/5031G - Selected Topics-Human Geography 3-0-3
Offered on an experimental basis. Graduate students will complete an individual term project or special report.

GEOG 5090/5090S/5090G - Selected Topics-Physical Geography (3-4)-(0-2)-(3-4)
Offered with or without a lab on an experimental basis. Graduate students will complete an individual term project or special report.

GEOG 5091 - Applied GIS 0-8-4
Applications of advanced GIS design and modeling to a specific topical and/or geographic area. Topics and studies will be varied over time. Prerequisites: GEOG 3440, GEOG 4542, and GEOG 4543.

GEOG/AMST 5130/5130G - Geography of North America 3-0-3
Systematic regional treatment of Canada and the United States including the physical, cultural, and economic aspects of various subregions. Special attention will be paid to comparative themes such as resource development, trade, and migration. Graduate students will complete an individual term project or special report.

GEOG 5230/5230G/5230S - Urban Geography 3-0-3
An analysis of site, situation, base, principal functions, distribution, supporting areas and internal structure of urban settlements. Graduate students will complete an individual term project or special report.

GEOG 5430/5430G/5430S - Political Geography 3-0-3
This course will cover the geography of political behavior from the local to the global scale by examining the relationship of geography and politics. Students will investigate the rapidly changing geopolitics of the era in which they live, with special emphasis on international relations, sovereignty, war, and terrorism. Additionally, the course will focus on redistricting, the Electoral College, and other geographic elements of our American democratic system. Graduate students will learn how to undertake an independent, supervised research project in the field of political geography.

GEOG 5590/5590G - Field Studies in Geography (6-8)-(0-6-8)
An intensive course on a specific region of the world conducted in that region combining lecture, observation and travel. Students usually will bear tuition, travel and living expenses during the course. May be repeated for credit in different regions. Graduate students will complete an individual term project or special report.

GEOG 5620/5620G - Research Seminar in Geography 2-0-2
Research methods in human and physical geography are discussed and critiqued. A proposal for a research project will be selected or assigned, a proposal written and an oral presentation of the proposed research will be made. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: Junior standing or higher permission of instructor.

GEOG 5890/5890G - Special Problems in Geography (1-3)-(0-2)-(1-4)
Independent study for advanced students. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Approval of department chair.

GEOG 6630 - Seminar in Regional Geography 3-0-3
Identifies principles and content of regional geography. The regional method will be illustrated through study of selected regions. Prerequisite: Graduate standing.

GEOG 6631 - Seminar in Systematic Geography 3-0-3
Provides students with a systematic approach to geography. It will offer basic training in principles and concepts and student insight into the nature and methods of systematic geography. Prerequisite: Graduate standing.

Geology (COST) GEO 1110 - Earth Laboratory 0-2-1
A series of laboratory components that involve hands-on exercises with earth materials and processes which modify the Earth’s interior and exterior. Prerequisite: Concurrent or prior completion of GEO 1121. Strongly recommended to be taken concurrently with GEO 1121.

GEO 1121 - Introduction to the Earth 3-0-3
An introductory study of the origin and structure of earth materials and processes which modify Earth’s interior and exterior. Corequisite: Strongly recommended to be taken concurrently with GEO 1110.

GEO 1122 - General Historical Geology 3-2-4
Discusses the origin and geological history of Earth. Methods of interpretation, fossils, geologic time measurements, time scales, physical and organic development of Earth are taught. Prerequisite: GEO 1110 and GEO 1121 or permission of instructor.

GEO 1310 - Environmental Geology Lab 0-2-1
Consists of data collection, analysis, and problem solving of geologic and environmental problems. These problems will deal with earth materials, geologic hazards, economic and energy resources and water quality.

GEO 1330 - Environmental Geology 3-0-3
An introduction to geologic processes, including flooding, coastal erosion, volcanoes, and earthquakes, and their effect on our environment, the origin, global distribution, use, and reserves of the earth’s basic resources, including soils, water, minerals, rock deposits and energy resources are investigated. The role of these components and their effects on our daily lives are discussed.

GEO 1430 - Dinosaurs, Extinctions and Disasters 3-0-3
A review of the dynamic processes of extinction, evolution, and change in ancient animal assemblages. Particular attention will be paid to the unique terrestrial communities that were dominated by dinosaurs, mammals, and other megafauna. We will focus on the effects of meteorite collisions, ice ages, and mass extinction events.

GEO 1530 - Principles of Oceanography 3-0-3
A survey course dealing with the physical and biological processes of the oceans addressing the interrelationships of the processes.

GEO 2330 - Photogeology 2-4-4
An introduction to the interpretation of geologic features from aerial images. By viewing actual images, students will learn how to interpret geologic structures and rock types, as well as geomorphic features from an aerial perspective. How various types of images are collected and an overview of photogrammetric principles and digital image processing will be incorporated. Interpretation skills will be practiced in lab. Prerequisite: GEO 1121.
GEOL 3520 - Field Methods 0-4-2
Instruction in the tools and techniques used in the collection of field data, compilation of geologic maps and cross sections. Students will construct topographic and geologic maps and write geologic reports and abstracts. The course will cover three main areas: data sources, data collection, and post-processing. Prerequisites: GEOL 1121, Math 1112 or 1113, or permission of instructor. Note: Two-day field trips are required.

GEOL 3541 - Mineralogy 3-3-4
An introduction to morphological crystallography, physical properties and the optical characteristics of the common minerals. Examines the genesis, occurrence, and uses of minerals. Laboratory work consists of study of common crystal forms, hand specimen identification and optical study via the petrographic microscope. Prerequisites: CHEM 1145, CHEM 1146, and GEOL 1121.

GEOL 3542 - Petrology and Petrography 3-3-4
An introduction to the origin, occurrence, and classification of common igneous and metamorphic rocks. Laboratory work consists of combined microscopic and megascopic study of rocks. A three day field trip across the northern Appalachians will provide a field study component. Prerequisite: GEOL 3541.

GEOL 3790 - Teaching Internship in Geology 1-(2-6)-(1-3)
Student internship in GEOL 1310 (Environmental Geology Lab) under the mentorship of a faculty member. Student will participate in an introductory workshop immediately prior to the start of the semester, will intern in GEOL 1310, and meet with the faculty mentor one hour each week. May be credited for other laboratory section of GEOL 1310 in which the student interns. Prerequisite: A minimum grade of “B” in GEOL 1121, GEOL 1330 and MATH 1147 or permission of instructor.

GEOL 4120 - Introduction to Research 2-0-2
The process of research will be studied from the scientific method through the process of writing a scientific proposal. Construction of a technical paper and the technical oral presentation will be examined and practiced. Usage of geologic terms will be explained and learned. A proposal for a research paper will be selected or assigned, a proposal written and an oral presentation of the proposal research will be made. A minimum grade of “B” is required to continue in the research sequence.

GEOL 4530 - Tectonics 3-0-3
Processes, structures, and land forms associated with the deformation of the earth’s crust are studied including the changes that take place on structures and landforms over time. Scales ranging from local, to regional, to global are incorporated. Prerequisites: GEOL 1121 and GEOL 1122.

GEOL 4610 - Senior Seminar 1-0-1
The process of scientific communication will be investigated and practiced. A final paper on the student’s senior research topic will be written and an oral presentation made in a formal “Technical Session” format. The student will learn to prepare visual aids to illustrate his/her paper and talk. The “Technical Session” will be organized and run by students. Prerequisite: GEOL 4820.

GEOL 4790 - Internship in Geology 0-(5-30)-(1-6)
The internship allows students to work in a professional setting related to their chosen concentration in the field. Undergraduate students can earn between one and six credits for internships approved by their academic advisor and the Department’s Internship Director. Students must maintain contact with the Internship Director through the course of the internship work, and must submit a written report and a work product at the end of the project. Internship credits can be used for elective credit only and may not substitute for specific degree requirements. Prerequisite: Permission of the Geology and Geography Internship Director is required.

GEOL 4820 - Senior Thesis Research 2-0-2
Provides a means by which geology majors can conduct research intended for completion of the senior thesis. Prerequisite: A minimum grade of “B” in GEOL 4120.

GEOL 5090/5090G/5090S - Selected Topics (0-3)-(3-6)-(1-9)
This course provides a means by which new courses can be offered for experimental purposes. Graduate students will complete an individual term project or special report. Prerequisite: Permission of instructor.

GEOL 5130/5130G - Geochemistry 3-0-3
The application of chemical concepts to geological problems. Graduate students will complete an individual term project or special report. Prerequisites: GEOL 1121, GEOL 1122, GEOL 3541, GEOL 3542, two terms of introductory chemistry or permission of instructor.

GEOL 5131/5131G - Economic Mineralogy 2-3-3
An introduction to the origins of industrial and metallic mineral resources, and the exploration, discovery and use of such resources. Laboratory work includes identification and evaluation of mineral resources and visits to mines. Graduate students must complete a paper on an assigned topic. Prerequisites: GEOL 1121, GEOL 1122 and GEOL 3541 or permission of instructor.

GEOL 5132/5132G - Regional Field Geology 3-0-3
A field expedition involving geological investigation of a major geologic region of North America. Students will be expected to make geological observations through such techniques as mapping, measuring sections, collecting scientific samples, or other standard techniques, then to analyze and interpret their observations or measurements. A scientific journal or notebook will be used by each student to record data and observations. A final report will be required. Students usually will bear tuition, travel, and living expenses in the field. Graduate students will complete an individual term project or special report.

GEOL 5140/5140G - Vertebrate Paleontology 3-2-4
A study of the morphology, classification and geologic significance of vertebrate fossils. Graduate students will complete an individual term project or special report. Prerequisites: GEOL 1121 and GEOL 1122 or introductory biology or permission of instructor.

GEOL 5141/5141G - Paleontology 3-3-4
This course covers the applications of paleontological methods to geologic problems. Major topics include: 1) the formation of fossils, 2) biostratigraphy, 3) fossil identification and classification, 4) biogeography, and 5) paleoclimatology. Labs utilize a diverse collection of fossils and a computer lab with paleontology software. Graduate students will complete an individual term project or special report. Prerequisites: GEOL 1121 and GEOL 1122, introductory biology or approval of instructor.

GEOL 5142/5142G - Stratigraphy and Sedimentation 3-2-4
Introduction to the principles and application of stratigraphy and biostratigraphy, and principles of sedimentation. Emphasis is placed on concepts of time, time-rock, rock units, sedimentary facies, guide fossils and fossil range and description of rocks in time and space, their correlation and interpretation. Petrologic interpretation and basic laboratory techniques are also demonstrated. The origin and distribution of sedimentary rocks is examined from initial weathering through erosion and transportation, to environments and mechanisms of deposition. Graduate students will complete an individual term project or special report. Prerequisite: GEOL 1122.

GEOL 5230/5230G - Earth Science 2-3-3
A systematic study of the earth as a planet, including aspects of its atmosphere, oceans, lithosphere, soils and hydrography. Laboratory will emphasize the location and utilization of local, as well as regional materials for earth science teaching and learning. Graduate students will complete an individual term project or special report. Prerequisite: Permission of instructor.

GEOL 5330/5330G - Natural History and Management Issues 3-0-3
This team-taught distance learning course will integrate the geology, biology, and oceanography of the Georgia Coastal Zone, summarizing its evolutionary development, active processes, and current states of human interaction with this dynamic and economically important environment. Graduate students will complete an individual term project or special report. Prerequisite: Permission of instructor.

GEOL 5430/5430G - Geological Evolution of the Coastal Plain 2-3-3
A study of the agents of weathering, transportation and deposition of sediments and the development of coastal plain landforms. Includes a study of Mesozoic and Cenozoic stratigraphy and paleontology with special emphasis on the Gulf and Atlantic Coastal Plains. Graduate students will complete an individual term project or special report. Prerequisites: GEOL 1121 and 1122. GEOL 5530 recommended.

GEOL 5440/5440G - Structural Geology 3-3-4
A study of geologic structures resulting from rock formation and deformation. Attention will be given to recognition and solution of structural problems. Graduate students will complete an individual term project or special report. Prerequisites: GEOL 1121 and MATH 1113.

GEOL 5530/5530G - Geomorphology 2-3-3
A systematic study of landforms and the processes which create and modify them. Graduate students will complete an individual term project or special report. Prerequisite: GEOL 1121 or GEOG 1111.
GEOL 5540/5540G - General Oceanography 3-2-4
An integrated approach to the study of oceans with special emphasis on biology, chemistry and geology of ocean basins. Studies will include the ecological, physical, and geological features of ocean basins, as well as chemical composition of ocean water and oceanic circulation processes. Graduate students must complete an additional term project. Prerequisites: At least one term of introductory biology and two terms of chemistry or permission of instructor.

GEOL 5541/5541G - Hydrogeology 3-2-4
A survey of hydrogeology that includes the occurrence, distribution, movement and chemistry of subsurface waters. Emphasizes subsurface hydrology (hydrogeology), but will also include related aspects of surface systems. Major topics covered will include: 1) relationships between precipitation, runoff, and infiltration; 2) porosity and permeability of various earth materials; 3) subsurface movement of water through earth materials; 4) basic chemical characteristics of natural waters; and 5) current water resource issues such as supply, quality, contamination, and remediation. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: GEOL 1121 or permission of instructor.

GEOL 5542/5542G - Advanced Hydrogeology 3-2-4
In-depth study of hydrogeologic and geochemical principles with emphasis on analytical techniques. Various laboratory and field techniques will be covered, including the use of numerical models and aquifer testing. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: GEOL 5541.

GEOL 5740/5740G - Sea Turtle Natural History 3-3-4
Designed primarily for in-service teachers, will allow students to earn 4 hours credit for research monitoring sea turtle nesting on St. Catherine’s Island, Ga. Students will attend 2 distance learning training sessions, reside on the island for seven days to observe sea turtle nesting evidence, participate in sea turtle conservation activities, study barrier island natural history, with lectures by leading scientists, and collect natural history specimens for their classrooms, and attend a follow-up meeting. Graduate students will complete a resource notebook or term project.

GEOL 5741/5741G - Sea Turtle Conservation 3-8-4
Designed primarily for pre-service and in-service teachers, will introduce students to conservation through the study of Georgia’s sea turtles, content and process skills of science through conservation, and the integration of teaching resources and electronic technologies into their classrooms. May meet by distance learning with laboratory content delivered by Internet, distance learning, fax, or e-mail or by self-contained web-based video streaming (SREC). Included is the study of the etiology, signs and symptoms, diagnosis, treatment and prevention of diseases and conditions of the body systems including: cardiovascular, urinary, reproductive, digestive, circulatory, nervous and endocrine. Prerequisites: A minimum grade of “C” in KINS 2531/2511 and KINS 2532/2512.

HLTH 3132 - Health Care Systems 3-0-3
Covers the background and development of administrative settings for health care delivery in the United States. Explores the dynamics, trends and issues emerging from current health and medical care programs and practices with an emphasis on the ramifications of these various settings and trends with regard to health promotion and community health. Prerequisite: HLTH 2130 or permission of instructor.

HLTH 3133/3133S - Health Promotion Program Planning 3-0-3
Provides the student with the theory and practical applications of planning, developing, implementing and evaluating health promotion programs in a variety of settings. The focus will be on a global approach to planning with an emphasis on the worksite, hospital and the community as settings for health promotion programming. Prerequisite: HLTH 2130 or permission of instructor.
HLTH 3134 - Research Methods and Evaluation 3-0-3
Introduces the student to research methods used in health education and promotion. Examines the rationale and procedure to evaluate health education/promotion programs. Focuses on several topics including: research design, methods of program evaluation, planning and research and evaluation, the politics and ethics of evaluation, measurement, sampling, logistics, data analysis and the development of a student project. Prerequisite: HLTH 3133.

HLTH 3230 - Community Health 3-0-3
Provides the student with the knowledge, skills, and resources to develop, implement, and assess health education programs and projects. Emphasis is placed on the process of consumer health education and promotion. Topics include: health assessment, health education goals, theories of learning, group dynamics, evaluation methods, health education through the mass media, and the role the health educator plays in the community. Prerequisite: HLTH 3131, or permission of instructor.

HLTH 3231 - Epidemiology and Vital Statistics 3-0-3
Introduces the student to the principles and practice of epidemiology and vital statistics. Students will be exposed to the historical development of epidemiology, concepts of causation, definitions of health and disease and sources of community health data. Current principles and practices in the cause, prevention and control of diseases in various community settings will be emphasized. Prerequisite: HLTH 2130, HLTH 3131, or permission of instructor.

HLTH 3330 - Behavioral Approaches to Health Programs 3-0-3
This course is intended to introduce students to the learning and behavior science theories that provide a framework for the practice of health education and promotion. Application of the theories to planning and implementing health promotion and education programs for individuals, groups, families and communities will be emphasized. This course also introduces the students to various approaches to describing, explaining, and predicting health behaviors - behaviors that have or are perceived to have significant effect on human health. Prerequisite: HLTH 2130.

HLTH 3331 - Stress Theory and Management in Health Promotion 3-0-3
Explores issues related to the etiology of stress and stressors with emphasis on environmental, organizational, interpersonal and personal factors that influence stress in various health promotion settings. Competency in the active management of stress and mobilizing support in health settings will be evaluated. Prerequisite: HLTH 2130 or permission of instructor.

HLTH 3332 - Coordinated School Health Programs 3-0-3
Designed to study the basic principles and practices underlying the organization and administration of a coordinated school health program including the relationship to current child health status. Assessment and planning of developmentally appropriate health education, instruction, examination of health education curricula with content focus on the following health topics: nutrition, consumer health, environmental/community health, disease prevention, sexuality and substance use education will also be addressed. Prerequisite: Junior standing and formal acceptance into the Teacher Education Program or consent of instructor. (Fall semester) Prerequisites: A minimum grade of "C" in HLTH 1520 and admission to the Teacher Education Program.

HLTH 3430 - Sexuality Education 3-0-3
Explores contemporary issues in human sexuality and prepares future health professionals to conduct sexuality education with diverse populations in a variety of settings (i.e., school, community, or worksite). Content is intended to help students increase their knowledge of sexuality, improve their ability to educate about and promote sexual health and develop skills to increase their comfort level in discussing human sexuality.

HLTH 3431 - Methods and Materials for School Health Education 2-3-3
Introduces the student to productive, creative, innovative and effective methods needed to implement comprehensive school health education. Students will become familiar with organizing and presenting health content, health materials, health curricula, community resources and using technology for K-12 with emphasis on middle and secondary school students. An integral component of the class will be the participation in peer teaching experiences in the school setting. Prerequisites: A minimum grade of "C" in HLTH 3130, HLTH 3332, HLTH 3432, and admission to Teacher Education Program in Health and Physical Education.

HLTH 3452 - HPE Curriculum Development 3-0-3
Provides the student with the knowledge, skills, and resources to develop a physical education and curricular unit that is consistent with that position and with state and national guidelines. Prerequisite: Admission to Teacher Education Program in Health and Physical Education.

HLTH 3530 - Health and Physical Education for the Early Childhood Teacher 3-0-3
Develops the elementary classroom teacher’s ability to organize and implement a developmentally appropriate health and physical education program for students. Emphasis will be placed upon teaching strategies and methodologies. Prerequisite: Admission to Teacher Education Program.

HLTH 3531 - Consumer Health 3-0-3
Prepares individuals to make intelligent decisions regarding the purchasing and use of health products and services that will have a direct affect on their health. Allows students to explore the relationships among consumerism, health and education. Students will investigate consumerism, marketing and advertising as foundational aspects of consumer health. In addition, students will survey a variety of health related consumer issues and services to determine the implications and consequences of their use.

HLTH 4099/4099S - Selected Topics in Health Science 1-3-0-1-3
Provides the student with in-depth study of selected topics in health science. Prerequisite: Permission of instructor.

HLTH 4130 - Perspectives on Living While Dying 3-0-3
The web-based course lays a foundation for students’ future interactions with and care of individuals who are dying. Strategies for improving the quality of life during dying and death are examined attention to its educational. The philosophy of dying and methods of handling circumstances surrounding the process of dying and death are included. The course is directed toward students in the helping professions such as nursing, health science, sociology, psychology, and the general student population. Prerequisite: Junior/Senior level or permission of instructor.

HLTH 4230 - Maternal and Child Health 3-0-3
Reviews the historical and contemporary maternal and child health trends and issues. The application of health behavior and education theories to understanding the health status of women and their children will be central to the course. Particular emphasis will be placed on promotion and education efforts designed to improve the health, well-being and quality of life for women and children in the United States. Prerequisite: HLTH 2130 for Health majors or permission of the instructor for Non-Health majors.

HLTH 4231 - Health Aspects of Aging 3-0-3
Examines the aging process from a health education perspective. Students will become acquainted with the process of and problems associated with aging in order to effectively manage this important public health issue. Knowledge and understanding of biological, psychological, and sociological aspects of aging as related to health and wellness will also be addressed. Prerequisite: HLTH 3230 or permission of instructor.

HLTH 4330 - Promotional Strategies for Health Programs 3-0-3
Explores the application of social marketing and communication theory to the development of strategies to enhance health education and promotion programs. Prerequisite: HLTH 2130.

HLTH 4331 - Individual and Group Strategies for Health Behavior Change 3-0-3
Explores techniques and practices for improving personal communication effectiveness with both individuals and groups. An overview of the literature on group dynamics and self-directed health behavior change will be provided, focusing on skills for working with individuals and for leading and facilitating groups. Prerequisites: HLTH 2130 for Health majors or permission of the instructor for Non-Health majors.

HLTH 4618 - Senior Seminar in Community Health 1-0-1
Provides senior level Community Health majors with a colloquium in which to discuss current issues and topics, with a focus on professional ethics, professional employment opportunities, internships, development and growth and current research themes within the profession. Should be taken 1-2 semesters prior to HLTH 4798. Prerequisite: Senior level Community Health major status, HLTH 3131 or equivalent.

HLTH 4619 - Senior Seminar in Health Behavior 1-0-1
Provides senior level Health Behavior major students with a colloquium in which to discuss current issues and topics, with a focus on professional ethics, professional employment opportunities, internships, development and growth and current research themes within the profession. Should be taken 1-2 semesters prior to HLTH 4799. Includes preparation for the internship experience. Prerequisite: Senior level Health Behavior major status, HLTH 3131 or equivalent.

HLTH 4798 - Internship in Community Health 0-0-12
Provides the senior level Community Health majors with a practical experience in an appropriate health setting. Students should complete all course work in the Community Health major prior to enrolling in this course. Prerequisites: A minimum grade of “C” in all major courses, major guided electives, and Area F courses, 2.5 adjusted GPA.
HLTH 4799 - Internship in Health Behavior 12-0-12
Provides the senior level Health Behavior major student with a practical experience in an appropriate health setting. Students should complete all course work in this Health Behavior major prior to enrolling in this course. Prerequisite: HLTH 4619.

HLTH 4899 - Directed Individual Study (1-3)-0-(1-3)
Provides the student with the opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

HLTH 7099 - Selected Topics in Health Science (1-3)-0-(1-3)
Provides the student with the opportunity to conduct an in-depth study of selected topics in health science. Particular attention will be given to the critical evaluation and presentation of research. Prerequisite: Permission of instructor.

HLTH 7760 - Practicum in Community Health Education 0-36-6
Permits the student to receive practical experience in a selected health related setting. Prerequisite: Permission of Graduate Program Director.

HLTH 7899 - Directed Individual Study (1-3)-0-(1-3)
Provides the student with an opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

HLTH 8430 - Educational Strategies for Chemical Dependency 3-0-3
Emphasizes educational strategies and techniques of teaching material related to chemical dependency. Techniques of presenting instruction will be related to precursors of abuse, physiological and psychological effects and rehabilitation methods and costs to society. Prerequisite: Undergraduate course in drug use and abuse or permission of instructor.

HLTH 8431 - Health and Human Sexuality for Educators 3-0-3
Prepares current and future sexuality educators for implementing sexuality education programs in various settings, including schools, colleges and universities and community programs. Prerequisite: Undergraduate course in sexuality or permission of instructor.

Hotel and Restaurant Management (CHHS)

HNRM 2333 - Introduction to the Hotel and Restaurant Industry
An introduction to the history of services management, the organizational forms and professional opportunities in the hospitality industry.

HNRM 2334 - Hospitality Accounting and Finance 2-2-3
The practice of managerial accounting and financial management in hotels, restaurants and resorts. Prerequisite: HNRM 2333 or HNRM 3333.

HNRM 3090/3090S - Selected Topics in Hotel and Restaurant Management
Provides students with the opportunity to study contemporary and international topics and issues relevant to the hotel and restaurant management profession.

HNRM 3324 - Foodservice Theory 2-0-2
Food service and menu planning in commercial settings are studied. Emphasis is placed on forecasting, procuring, storing, producing, serving food, standardized recipes, writing specifications and utilizing computers for food service. Prerequisite: HNRM 2334, NTFS 2534, or permission of instructor. Corequisite: HNRM 3355.

HNRM 3333 - Introduction to Hospitality Operations 3-0-3
This course is an introduction to the hospitality industry that highlights critical supervision and management topics such as managerial accounting, communication skills, job opportunities and a historical overview of the hospitality industry.

HNRM 3334 - Hospitality Facilities Layout and Design 3-0-3
Provides an introduction to all the phases in the planning and execution of a hotel or restaurant design. Emphasis is placed on pre-planning stage of design development, blueprint information, installation factors, fire code regulations, environmental controls, and facility systems and maintenance. Prerequisite: HNRM 2333, HNRM 3333, or permission of instructor.

HNRM 3335 - Quantity Food Production 0-6-3
Food science theories and principles are applied in a functioning commercial food production laboratory. Food service production skills and techniques are developed in this course. Application of sanitation regulations are emphasized. Prerequisite: HNRM 2334, NTFS 2534, or permission of instructor. Corequisite: HNRM 3324.

HNRM 3336 - Hotel Operations 3-0-3
Focuses on four major lodging management components: service management, operations management, developing leadership potential and employee productivity. Prerequisites: HNRM 2334, HNRM 3333, or permission of instructor.

HNRM 3337 - The Marketing of Hospitality Services 3-0-3
The application of marketing concepts, principles and practices in the hospitality industry. Prerequisite: HNRM 2333, HNRM 3333, or permission of instructor.

HNRM 3338 - Human Resources for the Hospitality Industry 3-0-3
Examines employment laws, planning and staffing in the hospitality industry. Prerequisite: HNRM 2333, HNRM 3333, or permission of instructor.

HNRM 3339 - Catering and Beverage Operations 2-2-3
The application of small business management principles to quantity food preparation for special events. Principles of planning, production, service, presentation and evaluation of catering activities are emphasized. Prerequisite: HNRM 3335.

HNRM 4324 - Food and Beverage Operations 2-0-2
Emphasis is placed on strategic planning, the budgetary process, productivity, purchasing and the use of technological advances affecting profitability and customer satisfaction in a foodservice facility. Prerequisite: HNRM 3324, HNRM 3335, HNRM 3337, or permission of instructor. Corequisite: HNRM 4325.

HNRM 4325 - Restaurant Management 0-4-2
Actively managing a restaurant is the focus. Activities include employee supervision, food procurement, service, reservations and inventory control. Prerequisite: HNRM 3324, HNRM 3335, HNRM 3337, or permission of instructor. Corequisite: HNRM 4324.

HNRM 4336 - Hospitality Issues and Perspectives 3-0-3
The study of organizations, strategic planning and implementation, leadership and decision processes in the hospitality industry. Prerequisite: HNRM 2334 or HNRM 3333, and HNRM 3336; or permission of instructor.

HNRM 4790 - HNRM Internship 12-0-12
Supervised work-study program in a hotel, restaurant or resort. Students are expected to be employed in a full-time, semester-long position with a business that is approved by the HNRM Internship Director. Prerequisite: Attendance at pre-internship meeting with the Internship Director, permission of Internship Director and Internship Site Supervisor, Senior status, 2.0 GPA, and approval of academic advisor.

Health Services Policy Management (COPH)

HSPM 7090 - Selected Topics in Health Services (1-3)-0-(1-3)
Policy Management
Allows the student the opportunity to receive specialized and/or focused instruction in a health services policy and management health topic not generally offered by the department. Prerequisite: Permission of instructor.

HSPM 7131 - Principles of Organizational Theory and Behavior in Health
Integrating theory and concepts from organizational theory and behavior literature, this course provides applications to improve the management of health services organizations.

HSPM 7135 - Health Policy Design, Implementation, and Evaluation
This course introduces students to policy analysis and management by examining issues in the health sector. It fosters an appreciation of the complexity of policy problems and provides the basic tools used in public health policy design, implementation and evaluation.

HSPM 7230 - Health Services Leadership and Strategic Planning
This course deals with the application of leadership theory and strategic management and planning principles to a variety of “real world” management issues in health service organizations.

HSPM 7233 - Information Management and Decision Making in Health Services
Focuses on the fundamental concepts and applications of managing information as a health services corporate asset, emphasizing converting data into information for decision support.
HSPM 7330 - Strategies for Managed Care 3-0-3
Prepares students to function and make sound managerial decisions in a health care system that is shaped by managed care. The role of health care administrators in the application of economic principles in implementation of competitive managed health care programs is discussed. Critical issues pertinent to managed care that will be covered include: monitoring and analyzing medical practice patterns, installation of rigorous utilization management components, designation of Primary Care Physicians (PCPs), catastrophic case managers, establishment of quality assurance programs and patient channeling. Managed care case studies are examined in light of benchmarks for corporate policy, assessments of program options, strategies for communication and guidelines for evaluation. Prerequisite: Graduate level course in Economics.

HSPM 7133 - Health Policy, Issues and Ethics 3-0-3
Prepare students to make critical decisions in regards to health care policy and biomedical ethics. Includes exploration of basic economic, political and social determinants of health policy. Substantive legal topics covered include the balance between individual rights and public health initiatives, confidentiality, medical malpractice and informed consent, medical directives and living wills, legal rights of access to health care and health care reform. Methods of implementing change through policy making and the legislative process will be presented.

HSPM 7137 - Health Care Financing and Payment Systems 3-0-3
Provides the student with an understanding of payment systems for hospitals, long-term care organizations, integrated delivery systems, ambulatory care and other health care providers. Specific health care financing topics include: third party payment reimbursement system for private and public insurers, capitalization, legislated cost containment strategies (DRGs and PPSs), medical payment incentives, risk assessment and health reform initiatives. Prerequisite: Undergraduate course in finance or permission of instructor.

HSPM 7331 - Long Term Care Administration 3-0-3
Prepares students in the fundamentals of long term care administration. Organization and administration of long term delivery system with emphasis on nursing home administration, home health programs and hospice management will be discussed. Other topics to be covered include organization and management of interagency organizations, personnel and resident care facilities and institutions for other populations needing long term specialty treatment. Emphasis is placed upon personal and professional skills necessary to provide a range of services and quality care in these environments.

HSPM 7769 - Managerial Residency in Health Services Administration 0-3-6
Permits the student to receive practical experience in selected health related settings. Prerequisite: Permission of the Graduate Program Director.

HSPM 7890 - Directed Individual Study (1-3)-0-(1-3)
Provides the student with an opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

Humanities (CLASS)

HUMAN 2321/2331S - Humanities I 3-0-3
A historically-organized interdisciplinary approach to the fine and performing arts from antiquity to ca. 1600. Team taught large group lectures and small group discussions. Students are expected to enroll in both HUMAN 2321 and HUMAN 2322 to fulfill Area C requirement of the Core. Prerequisite: Completion of or concurrent enrollment in ENGL 1101.

HUMAN 2322/2322S - Humanities II 3-0-3
A historically-organized interdisciplinary approach to the fine and performing arts from ca. 1600 to the present. Team taught large group lectures and small group discussions. Students are expected to enroll in both HUMAN 2321 and HUMAN 2322 to fulfill Area C requirement of the Core. Prerequisite: HUMAN 2321 and completion of or concurrent enrollment in ENGL 1101.

HUMAN 2433/2433S - Classicism 3-0-3
Explores classicism as both a philosophical approach and an aesthetic style in art, rhetoric, literature, architecture, and music.

HUMAN 2434/2434S - Myth in Arts and Humanities 3-0-3
Explores selected myths and their treatments in art, rhetoric, literature, theater, and music.

Interdisciplinary Studies (CLASS)

IDS 2210 - Turning Points and Connections 1-0-1
Focuses on the connections between major turning points in history and their effects on life, as seen in art, music, philosophy, literature, politics, economics, science, or cultural outlook. Prerequisite: HIST 1112. Required of all students.

IDS 3090/3090S - Special Topics (1-3)-0-(1-3)
Offers varied courses which are interdisciplinary in nature. Prerequisite: Permission of instructor.

Interior Design (CHHS)

INDS 2430 - Design Appreciation 3-0-3
A general introduction to the principles and elements of design as they relate to the built environment. Discussion and analysis of design theory, design styles, components and materials, and spatial relationships are included.

INDS 2434 - Interior Design Graphics 1-4-3
An introduction to the basic concepts, skills, and graphics used to represent interior design applications. Design projects will include floor and building plans, sketching, blueprint reading, perspectives and other techniques.

INDS 2435 - Design Studio I 1-4-3
Fundamental execution of interior design problems to refine presentation skills. Includes measured and freehand perspectives, mixed media renderings, detail drawings, and model buildings. Prerequisites: ART 1010, ART 1020, IND 2430, and a minimum grade of "C" in IND 2434. Corequisite: IND 2435.

INDS 2436 - Interior Materials and Systems 2-2-3
Selection and application of materials and finishes in the design of components of the built environment. Introduction of cost estimations and specifications. Introduction to building technology with an emphasis on developing an awareness of buildings and their systems. Research of resources and communication with labor sources will be incorporated. Prerequisites: IND 2430 and prior or concurrent enrollment in IND 2434.

INDS 3424 - Decorative Accessories 2-0-2
Study of historic through contemporary accessories in both a residential and non-residential context. Application of design principles and elements in selection and arrangement of accessories within the built environment. Prerequisite: Prior or concurrent enrollment in FMAD 3238, or permission of instructor.

INDS 3431 - History of Interiors I 3-0-3
Survey of historic development of architectural styles, interiors, and their furnishings related to major cultures from the prehistoric period through the nineteenth century. Prerequisite: IND 2430 or permission of instructor.

INDS 3432 - History of Interiors II 3-0-3
Survey of significant developments in the design of interiors and furniture of Europe and America beginning with the late 18th and up to the 21st century. Emphasis on interior architecture, furniture, styles, interior designers, industrial designers, architects, and accessories of the contemporary movement. Prerequisite: IND 2430 or permission of instructor.

INDS 3434 - Lighting 2-2-3
The principles of lighting design and the impact on interior space are explored through an analysis of environmental constraints, calculations, economics, design theory, technical and aesthetical components. Prerequisites: IND 2434 and IND 2430 or permission of instructor.

INDS 3435 - Design Studio II 1-4-3
The design planning process as it applies to the moderate scale residential interior environment. Intermediate projects utilizing design philosophy and concept development, space planning and design development to include furniture, finish and interior architectural materials, and diverse populations. Area of emphasis is residential. Prerequisites: A minimum grade of "C" in ART 1010, ART 1020, IND 2430, and IND 2434; prior or concurrent enrollment in IND 2436. Corequisite: IND 2435.

INDS 3436 - Design Studio III 1-4-3
The design planning process as it applies to the medium scale interior space. Intermediate projects utilizing design philosophy and concept development, space planning and design development to include furniture, finish and interior architectural materials, building codes and diverse populations. Areas of emphasis may include hospitality, multi-residential, healthcare, adaptive reuse and commercial. Prerequisites: A minimum grade of "C" in IND 2435 and IND 2435; prior or concurrent enrollment in ART 1030.

INDS 3438 - Professional Practices I 3-0-3
A study of the professional practice of interior design. Basic business practices, professional organizations, client relationships, communication techniques, specification writing, estimating, internship preparation and portfolio development will be addressed. Prerequisite: IND 3435.
INTS/HIST/RELS 3251 - The Muslim World Since
Genghis Khan
See HIST 3251 for course description.

INTS/POL 3333 - International Public Relations
See PRCA 3333 for course description.

INTS/BRCT 3336/3336S - International Media Systems
See BRCT 3336 for course description.

INTS/HIST 3338/3338S - Contemporary Europe
An examination of the European experience since the end of World War II. Emphasizes the political, economic, social, cultural, and intellectual change and continuity in the years 1945 to the present.

INTS/AAST/HIST 3530 - History of Africa to 1800
See HIST 3530 for course description.

INTS/AAST/HIST 3531 - History of Africa since 1800
See HIST 3531 for course description.

INTS/HIST 3532 - The Modern Middle East
See HIST 3532 for course description.

INTS/HIST 3534 - Modern Southeast Asia
See HIST 3534 for course description.

INTS/HIST/LAST 3537 - Colonial Latin America
See HIST 3537 for course description.

INTS/HIST/LAST 3538/3538S - Modern Latin America
See HIST 3538 for course description.

INTS/POL 3730 - Introduction to United Nations
The preamble to the Charter of the United Nations identifies several ambitious goals, which framed the establishment of this international organization, including a desire "to save succeeding generations from the scourge of war" and to promote fundamental human rights, social progress, and economic development. In this course, students will be introduced to the concepts of international organizations and the part that they play today in international politics. Specifically, we will examine the United Nations, its structure and function, its failures and successes, and what the future holds for this organization.

INTS/POL 4132 - U.S. Foreign Policy
See POLS 4132 for course description.

INTS/HIST 4133 - U.S. Diplomacy: The Cold War
See HIST 4133 for course description.

INTS/POL 4135 - International Organizations
See POLS 4135 for course description.

INTS/POL 4136/4136S - Industrialized Nations
See POLS 4136 for course description.

INTS/POL 4137 - Industrializing Nations
See POLS 4137 for course description.

INTS/POL 4138 - International Terrorism
See POLS 4138 for course description.

INTS/COMS 4330 - Rhetoric of International Relations
See COMS 4330 for course description.

INTS/POL 4364 - Seminar in Comparative Politics
See POLS 4364 for course description.

INTS 4630 - Seminar in International Studies
Advanced course focusing on major themes and issues in international relations.

INTS/POL 4730 - Model United Nations
Prepares students for Georgia Southern's participation in the National Model United Nations Conference in New York City in the spring of each year. Students learn the structure, function and organization of the United Nations as well as in-depth knowledge of the particular country that they will be representing in New York. Emphasis is place on learning parliamentary procedure and diplomatic skills as part of the research conducted for becoming an advocate of the country being represented. Prerequisite: A minimum grade of "C" in INTS 3730 or POLS 3730, or permission of instructor.
IRSH 4890 - Seminar in Irish Studies 3-0-3
An advanced course emphasizing class discussion and independent research leading to the preparation and writing of a major seminar paper on some aspect of Ireland’s literature, history, language (Gaelic-Irish), culture, politics, and for society.

IRSH/ ENGL 5130/5130G - Twentieth-Century Irish Literature 3-0-3
See ENGL 5130 for course description.

Information Technology (CIT)
IT 1130 - Introduction to Information Technology 3-0-3
An introduction to IT as an academic discipline and the structure of the BS IT degree at Georgia Southern. It also provides students with an introduction to the range of applications of Information Technology, partly through an introduction to the second disciplines available to them. Finally, it introduces students to some of the techniques that they will need for later courses, in particular databases and SQL. Prerequisite: Familiarity with productivity tools.

IT 1430 - Web Page Development 1-2-3
A thorough introduction to the languages used to create web pages. Throughout it stresses the importance of good coding style. The course also introduces students to the principles of good human computer interface design, including design for people with disabilities. Finally, the course introduces students to object-oriented design. Prerequisite: Familiarity with productivity tools.

IT 3131 - Web Applications Design and Development 3-0-3
Covers design, programming, and implementation of web-enabled web-based applications. Students will learn to interface the application to files or a database via the creation, accessing, and integrating of middle tier components. Prerequisites: A minimum grade of “C” in IT 1130, IT 1430, and CISM 2230.

IT 3132 - Web Software 3-0-3
A survey of advanced web software tools used in the development and deployment of web-based systems. Course content includes the use of web authoring, animation, and graphical tools. Prerequisite: A minimum grade of “C” in IT 1430.

IT 3234 - Software Acquisition, Integration, and Implementation 3-0-3
A study of the software acquisition process, focusing on the use of packaged solutions. COTS (Commercial, Off-the-Shelf), SA-CMM (Software Acquisition, Capability Maturity Model), ERP (Enterprise Resource Planning), and BPR (Business Process Reengineering) will be discussed. Prerequisites: A minimum grade of “C” in CISM 3135, IT 3131, and STAT 2231.

IT 3333 - IT Infrastructure 3-0-3
This course allows students to develop a thorough understanding of the IT infrastructure which includes computer hardware and networks that support various IT applications, and network security. This course allows students to develop this knowledge as well as some fundamental skills in server, network system administration and management, and to become aware of the importance of information assurance and security in the design, implementation and administration of an IT Infrastructure. Prerequisite: CISM 3134.

IT 4130 - IT Issues and Management 3-0-3
Covers case studies of IT development projects to assist the student in the recognition of the need of an IT development project. The student will study and critique the development, implementation and management of both successful and unsuccessful projects. Prerequisites: A minimum grade of “C” in CISM 3135 and IT 3234. Successful completion of or concurrent enrollment in CISM 4135.

IT 4135 - Information Organization and Retrieval 3-0-3
A study of the use of existing databases (bibliographic and non-bibliographic formats), their data structure, processing and retrieval data, integrity and security, and interface design issues. Topics includes basic search logic commands using controlled vocabulary, query languages and operations indexing and searching, text and multimedia processing, web and catalog-based extraction and retrieval, use of digital libraries, algorithms and architectures for information retrieval. Prerequisites: A minimum grade of “C” in CISM 3135 or permission of instructor.

IT 4136 - Knowledge Discovery and Data Mining 3-0-3
A study of the process of automatically extracting valid, useful, and previously unknown information from large databases and using it to make crucial business decisions. Data Mining has evolved from several areas including databases, artificial intelligence, information retrieval, and statistics. This course is designed to provide students with a solid
understanding of knowledge discovery and data mining concepts and tools including machine learning, data warehousing, rule discovery, and information compression and reconstruction. Prerequisites: A minimum grade of "C" in CISM 3135 and STAT 2231 or permission of instructor.

**IT 4234 - Network Operating Environments** 3-0-3
Provides a study of functions and structures of network operating systems. Emphasis will be placed on the management of files, processes, memory, and input/output devices of major network operating systems such as UNIX, LINUX, Novell NetWare, and Windows 2000 Server. Prerequisites: A minimum grade of "C" in CISM 3134 or CISM 3135.

**IT 4235 - Problems in Web Application** 3-0-3
Addresses the issues and problems encountered in the design, development, implementation, and support of commercial web-based systems. Prerequisite: A minimum grade of "C" in IT 3131.

**IT 4335 - Network Architecture** 3-0-3
This course covers the hardware required for interconnecting digital devices for the purpose of enabling data communication through a network. Bus architectures, ports, network cards, cabling, routers, switches. Ensuring network reliability. Optimizing network performance. Prerequisite: A minimum grade of "C" in CISM 3134.

**IT 4790 - Internship in Information Technology** 0-0-0
A campus-approved and coordinated IT-experience-based internship will be required of each student. The internship will include at least 280 hours of work. A written report by the student, along with an employer evaluation of the student’s work will be required. Prerequisite: Permission of Chair.

**IT 4830 - Special Problems in Information Technology** 0-0-3
A customized course that is under the direction of a faculty sponsor. Special Problems is designed to offer students an opportunity to pursue studies at a level or on topics not covered in scheduled courses. The scope and nature of the material covered is determined in consultation with the faculty sponsor. Prerequisite: Permission of Director.

**IT 4890 - Directed Study in Information Technology** 0-0-(1-3)
Designed for independent study and research in selected areas of Information Technology under faculty supervision. Prerequisite: Permission of department chair or director.

**IT 5434 - Network Security Fundamentals** 3-0-3
This course is intended to serve the needs of individuals interested in understanding the field of network security and how it relates to other areas of information technology. The course will take a broad look at network security and provide the knowledge necessary to prepare students for further study in specialized security fields or used as a capstone course to those interested in acquiring a general knowledge of the field. Prerequisite: IT 4335.

**IT 6130 - Theoretical Foundations for Network Analysis** 3-0-3
This course will provide a detailed review of fundamentals relevant to the study of telecommunications and data communications. Topics covered will include Shannon’s Theorem, elements of Graph theory, Queuing Theory, Probability, Number Systems, Matrix and more. Student will complete several exercises using MATLAB and Microsoft Excel to reinforce topics covered in lecture by solving network related problems. Discrete event simulations software (OPNET) will also be used to observe and analyze concepts and behaviors in communications networks.

**Instructional Technology (COE)**

**ITEC 2120 - Introduction to Instructional Technology** 2-0-2
Introduction to Instructional Technology has been designed to provide the learner with an introduction to instructional applications of various formats of technology. Students in this pre-professional block course will operate instructional technologies, produce materials, and utilize technology for specific instructional intents. Corequisites: EDUF 2120, EDUF 2121, EDUF 2122, and EDUF 2123.

**ITEC 3130 - Instructional Technology for Early Childhood Education** 3-0-3
This course is an introduction to the effective uses of instructional technology for Early Childhood Education majors. A systematic approach to selecting, producing, and utilizing various instructional technologies will be covered with an emphasis on the instructional uses of the computer. The course will correlate with the Early Childhood Education pre-service experience.

**ITEC 3230 - Instructional Technology for Special Education** 3-0-3
This course is an introduction to the effective uses of instructional technology for Special Education majors. A systematic approach to selecting, producing, and utilizing various instructional technologies will be covered with an emphasis on the instructional uses of the computer. The course will correlate with the Special Education pre-service experience.

**ITEC 3430 - Instructional Technology for P-12 Teaching Fields** 3-0-3
This course is designed for students enrolled in one of the P-12 teaching fields. It is an introduction to the effective uses of technology in an instructional setting. A systematic approach to selecting, producing, and utilizing various instructional technologies will be covered with an emphasis on the instructional uses of the computer. The course will correlate with the pre-service experience for students enrolled in one of the P-12 teaching fields.

**ITEC 3530 - Instructional Technology for Middle Grades Education** 3-0-3
This course is an introduction to the effective uses of instructional technology for Middle Grades Education majors. A systematic approach to selecting, producing, and utilizing various instructional technologies will be covered with an emphasis on the instructional uses of the computer. The course will correlate with the Middle Grades Education pre-service experience.

**ITEC 7090 - Selected Topics in Instructional Technology (1-3)***0-(1-3)
Promotes specialized training in new and/or emerging instructional technology or topics/methodologies/approaches to the needs of a specific audience. Emphasis will be placed on the needs of the audience, personnel, and systems. The course will provide a learning environment with a range of topics in instruction, design, and production of instructional technologies. Prerequisite: Permission of instructor.

**ITEC 7132 - Administration of the School Library Media Program** 3-0-3
An introduction to the functions of the school library media center and the roles of the school library media specialist. Candidates will develop skills that will enable them to direct a school library media center, design a school library media center facility, manage personnel and budgets, develop policies and procedures, and evaluate the school library media program.

**ITEC 7134 - Collection Development and Organization** 3-0-3
An overview of the processes and procedures associated with developing, organizing, maintaining, and evaluating the school library media collection. Emphasis is placed on intellectual freedom, evaluating existing collections, principles of selecting materials in all formats, and applying standard methods of cataloging to organize the collection, and utilizing technology to access physical and virtual collections.

**ITEC 7136 - Reference and Information Sources** 3-0-3
Provides a working knowledge of standard reference resources in all formats. Emphasis is placed on the concept of information literacy and teacher-media specialist collaboration to integrate information literacy skills across the P-12 curriculum.

**ITEC 7230 - Selection and Development of Instructional Technologies** 3-0-3
Provides competence in the selection, production, utilization and evaluation of various formats of instructional technologies. Basic technologies are provided. The course is designed to develop the design and production of instructional technologies. Prerequisite: ITEC 7530 or permission of instructor.

**ITEC 7335 - Web Design and Development** 3-0-3
Focuses on the front-end aspects of web design: HTML, authoring, graphics production, and media development. Prerequisite: ITEC 7530 or permission of instructor.

**ITEC 7430 - Instructional Design** 3-0-3
An introduction to systems theory as applied to the design of instruction. Examines principles of systems theory in the context of the design, development, selection and utilization of curriculum, instruction and instructional materials.

**ITEC 7530 - Instructional Technology Foundations** 3-0-3
An introduction to the use of the computer in the instructional process. The course focuses on the uses of the computer as a medium of instruction. Meets the Special Georgia Technology Requirement for Teacher Certification.

**ITEC 7535 - Advanced Hardware and Software** 3-0-3
Investigates hardware and software issues that arise in the development and delivery of instruction. Topics include hardware and software troubleshooting, security, networks, and distance education and communication systems. Prerequisite: ITEC 7530 or permission of instructor.
Course Descriptions 393

ITEC 7737 - Practicum in School Library Media Centers 3-0-3
A culminating activity in the Instructional Technology program. Students are assigned specific experiences that implement content from the school library media certification program. Prerequisites: Permission of advisor and completion of Transition Point #2.

ITEC 7738 - Practicum in Instructional Technology 0-(1-10)-3
Allows the student to utilize technology to support instruction, manage technology resources and evaluate the effectiveness of technology resources for learning. Prerequisite: Permission of advisor and completion of Transition Point #2.

ITEC 8130 - Advanced Media Management and Supervision 3-0-3
Management and supervisory techniques and their application to the instructional media program. Includes management by objectives, staff development and processes for change through the supervisory role of the media specialist. Prerequisite: ITEC 7132 or permission of instructor.

ITEC 8132 - Administration of Technology Resources 3-0-3
This course is intended to provide students with the knowledge and skills required to plan, design, evaluate, and manage technology resources in various instructional and institutional environments.

ITEC 8231 - Transforming Learning with Technology 3-0-3
Critical examination of the role of technology and instructional design in the teaching/learning process. Review of quantitative and qualitative research relevant to student's area of interest and the impact of technology on student learning. Examination of the use of electronic portfolios to demonstrate student learning. Prerequisites: ITEC 8530 or InTECH/Media Tech certification and ESED 8130.

ITEC 8435 - Program Evaluation 3-0-3
Program Evaluation covers the theory and practice of systematic investigation of instructional programs, projects, products, and processes. The course is designed to teach practitioners how to assess the effectiveness of endeavors such as quality improvement, enhancing organizational performance, or improving school curricula. Prerequisite: ITEC 7430 or permission of instructor.

ITEC 8530 - Applications of Instructional Technology 3-0-3
Focuses on the effective utilization of technology in the instructional process and on systematic processes for using new technologies to enhance learning. Meets the Special Georgia Technology Requirement for Teacher Certification. Prerequisites: ITEC 7530 and ITEC 7430.

ITEC 8532 - Multimedia Tools and Applications 3-0-3
Covers issues in the design and development of interactive multimedia instructional lessons. Covers the tools required for the creation of interactive multimedia and is organized around individual student projects. Prerequisite: ITEC 7530 or permission of instructor.

ITEC 8734 - Applied Distance Education 0-0-3
Designed as a culminating experience for the M.Ed in Instructional Technology for staff development and training. The student will design, develop, implement, and evaluate instruction for use over a selected distance learning technology. Prerequisites: Completion of 24 hours of course work and permission of advisor.

ITEC 8839 - Field-Based Research in Instructional Technology 1-(3)-0-3
In this course the student will carry out a formal research study in Instructional Technology and prepare a written and oral report. Prerequisite: EDUR 8434.

ITEC 8890 - Directed Individual Study (1-3)-0-(1-3)
The student will propose and carry out an applied or theoretical project in instructional technology. Prerequisite: Permission of advisor.

Japanese (CLASS)
JAPN 1001/1001S - Elementary Japanese I 3-0-3
Introduction to listening, speaking, reading, and writing in Japanese and to the culture of Japanese-speaking regions.

JAPN 1002 - Elementary Japanese II 3-0-3
Continued listening, speaking, reading, and writing in Japanese with further study of the culture of Japanese-speaking regions. Prerequisite: JAPN 1001 or equivalent.

JAPN 1060/1060S - Accelerated Elementary Japanese 6-0-6
An accelerated introduction to listening, speaking, reading, and writing in Japanese and to the culture of Japanese-speaking regions. Completes the elementary levels of Japanese in one semester.

Building upon communication skills (understanding, speaking, reading, and writing Japanese) and cultural understanding, developed at the elementary level. Prerequisites: JAPN 1001 and JAPN 1002 or equivalent.

Continued focus on communication skills and cultural understanding. Prerequisite: JAPN 2001 or concurrent enrollment in JAPN 2001 or equivalent.

JAPN 2060/2060S - Accelerated Intermediate Japanese 6-0-6
Accelerated intermediate Japanese with continued work on listening, speaking, reading, and writing in Japanese and the culture of Japanese-speaking regions. Completes the intermediate levels of Japanese in one semester. Prerequisite: Completion of JAPN 1002 or the equivalent.

JAPN 3090/3090S - Selected Topics in Japanese (1-3)-0-(1-3)
Study of a topic in Japanese literature, culture, society, thought, or language not included in the regular offering. Continued development of all five language competencies (listening, speaking, reading, writing, and culture). May be repeated for credit provided a new topic is studied. Prerequisite: JAPN 2002.

JAPN 3110/3110S - Conversation Table 1-0-1
This course consists primarily of guided conversation in Japanese, based on current issues as reflected in contemporary journals and newspapers.

JAPN 3130/3130S - Japanese Conversation 3-0-3
Continued development of all five competencies: listening, speaking, reading, writing, and culture, with special emphasis on conversational skill. Prerequisite: JAPN 2002.

JAPN 3131/3131S - Reading Japanese 3-0-3
Introduction to the Japanese language with an emphasis on reading skills. Continued development of all five skills: listening, speaking, reading, writing, and culture. Prerequisite: JAPN 2002 or equivalent.

JAPN 3230/3230S - Modern Japanese Literature in Translation 3-0-3
A survey of major authors and movements in Japanese literature from the Meiji period to the present, including women in literature and the relations to cultural trends and other arts, such as painting and film.

JAPN 3330/3330H/3330S - Japanese Cultural Patterns 3-0-3
Development of the Japanese language with a special emphasis on its culture. Development of all five language skills: listening, speaking, reading, writing, and culture. Prerequisite: JAPN 2002 or equivalent.

JAPN 3331/3331H/3331S - Japanese Culture for Americans 3-0-3
Introduction to the Japanese culture, values, society, customs, and the language for American students.

JAPN 3530/3530S - Business Japanese 3-0-3
Introduction to the language and practice of business conventions in Japan. Development of all five language skills: listening, speaking, reading, writing, and culture. Prerequisite: JAPN 2002 or equivalent.

JAPN 4790 - Internship in Japan (1-15)-0-(1-15)
Internship in Japan. Prerequisites: Permission of instructor and department chair.

JAPN 4890/4890S - Directed Study 3-0-(3-12)
Directed study in Japanese.

Journalism (CLASS)
JOUR 2331 - Introduction to Journalism 3-0-3
An introductory study of the role of journalism, with fundamental instruction and practice in writing for the mass media. Prerequisite: ENGL 1101.

JOUR 3030 - Selected Topics in Journalism 3-0-3
Offers various courses in specialty areas of journalism. Prerequisite: Permission of instructor.

JOUR 3331 - News Reporting and Writing 3-0-3
Provides theory, instruction, and practice in a variety of news gathering and writing forms and independent assignments. Prerequisite: JOUR 2331.

JOUR 3332 - Feature Writing 3-0-3
Surveys the gathering and writing of various forms of feature stories and in-depth news stories for newspapers and magazines, emphasizing research, investigation, and interview techniques.
JOUR 3333 - Photjournalism 3-0-3
Offers theory, instruction, and practice in the process of conducting photo assignments for the print media, with special emphasis on gathering and editing pictorial material for newspapers and magazines. Prerequisite: JOUR 2351 or permission of instructor.

JOUR/BRCT 3334 - Broadcast News 3-0-3
Provides students with techniques and experiences in facets of gathering and presentation of news and interviews for radio and television newscast presentation. Prerequisite: JOUR 2331.

JOUR 3335 - Copy Editing 3-0-3
Provides instruction and practice in the fundamentals of news editing, including copy editing, grammar, journalistic style, headline writing, photo editing, and basic typography, with emphasis on editing the weekly and daily newspaper. Prerequisite: JOUR 2331.

JOUR 3336/3336S - International Media Systems 3-0-3
Studies, comparatively, mass media systems around the world. Analyzes media systems in terms of relevant political, social, economic, and cultural factors. Diversity and change in global communication is a main theme, and the influence of rapidly advancing technology is analyzed for its dynamic impact around the world, especially in developing nations.

JOUR/BRCT 3337 - Law and Ethics of Mass Communication 3-0-3
Surveys freedom of speech and press and its limitations by laws governing libel, privacy, copyright, contempt, free press, broadcast regulation, fair trial, and reporter’s shield. Broadcast industry self-regulation and ethical concerns of mass communications will be discussed. Prerequisite: COMM 2332.

JOUR 3711/3711S - Journalism Practicum 1-0-1
Provides limited overview and supervised practical experience in print journalism through the Office of Student Publications. A minimum of three hours will be applied towards the journalism major. Prerequisites: ENGL 1101 and permission of instructor.

JOUR/AMST 4331 - History of American Journalism 3-0-3
Surveys the history of journalism in America, with emphasis upon its correlation with political, social, and economic trends.

JOUR/AMST 4332/4332S - Contemporary American Newspapers 3-0-3
Surveys the American newspaper industry, emphasizing a study of the more important daily newspapers and trends in the business.

JOUR 4333 - Opinion Journalism 3-0-3
Analyzes the principles and roles of the various forms of opinion in journalism, including editorials, columns, and cartoons; and offers practice in the research and writing of opinion. Prerequisite: JOUR 2351 or permission of instructor.

JOUR 4334/4334S - Magazine Writing and Editing 3-0-3
Provides instruction in magazine journalism, from editing to production techniques, circulation, art, advertising and audience analysis.

JOUR 4335 - Creative and Investigative Journalism 3-0-3
Serves as a capstone reporting course in providing instruction and practice in public affairs journalism, with emphasis on beat reporting, social science reporting, and investigative reporting. Prerequisite: JOUR 3331.

JOUR 4711 - Journalism Practicum 1-2-1
Serves as a capstone course focusing on the development of a series of journalistic pieces on a single topic for presentation to the mass audience. Attention is given to journalistic research as well as various journalism writing and reporting formats.

JOUR 4791 - Journalism Internship (3-15)-0-(3-15)
Provides journalism majors with supervised practical experience on a full-time basis at an approved media site. Students must have permission of instructor. Prerequisites: JOUR 3332, JOUR 3335, JOUR 4335 and permission of instructor.

JOUR 4831 - Directed Study in Journalism 3-0-3
Permits students to conduct in-depth studies of issues associated with journalism but may not replace an existing course in the catalog. Prerequisites: Permission of instructor and department chair.

Kinesiology (CHHS)
Physical Activity Program
All students are required to take two, one-hour, physical activity courses. The goal of the Physical Activity Program is to help each student attain and maintain a degree of physical fitness and motor skill, as well as, develop an interest in lifetime physical activity. This goal is accomplished through imparting knowledge, movement techniques, strategies and rules of exercise, sport and physical activities. All courses are one credit hour. All students are required to read and sign the Departmental Agreement to Participate Form prior to the first day of activity. All activities are taught at the beginning level unless described otherwise. The following courses require additional fees: KINS 1115, 2115, 1216, 2216, 1310, 2310, 1318, 2318. Please contact the Healthful Living and Physical Activity Programs Office (Holllis 1104) for detailed descriptions of all physical activity courses and for specifics regarding courses that require additional fees. Proficiency testing may be used to substitute for selected courses. Proficiency testing is offered during the 10th week of Fall and Spring Semesters. Students wishing to satisfy the physical activity requirement through proficiency testing must contact the Healthful Living and Physical Activity Programs Office (Holllis 1104) prior to the test date. Courses may not be repeated for credit. A maximum of five physical activities may be applied to the 125 hours required for a degree. Course offerings are listed below:

KINS 1110 - Aerobics 0-2-1
KINS 2110 - Aerobics: Intermediate 0-2-1
KINS 1111 - Aerobic Cross Training 0-2-1
KINS 1112 - Badminton 0-2-1
KINS 2112 - Badminton: Intermediate 0-2-1
KINS 1113 - Basketball 0-2-1
KINS 2113 - Basketball: Intermediate 0-2-1
KINS 1114 - Body Conditioning 0-2-1
KINS 1115 - Bowling 0-2-1
KINS 2115 - Bowling: Intermediate 0-2-1
KINS 1116 - Canoeing 0-2-1
KINS 1117 - Dance: Ballet 0-2-1
KINS 2117 - Dance: Ballet Intermediate 0-2-1
KINS 1118 - Dance: Clogging 0-2-1
KINS 1119 - Dance: Country Western 0-2-1
KINS 1210 - Dance: Folk 0-2-1
KINS 1211 - Dance: Line 0-2-1
KINS 1212 - Dance: Modern 0-2-1
KINS 1213/1213S - Dance: Social 0-2-1
KINS 2213 - Dance: Social Intermediate 0-2-1
KINS 1214 - Dance: Square 0-2-1
KINS 1215 - Dance: Tap 0-2-1
KINS 1216 - Equestrian 0-2-1
KINS 2216 - Equestrian: Intermediate 0-2-1
KINS 1217 - Fencing 0-2-1
KINS 2217 - Fencing: Intermediate 0-2-1
KINS 1218 - Fitness Walking 0-2-1
KINS 1219 - Football: Flag 0-2-1
KINS 2219 - Football: Flag Intermediate 0-2-1
KINS 1310 - Golf 0-2-1
KINS 2310 - Golf: Intermediate 0-2-1
KINS 1311 - Jogging 0-2-1
KINS 1510 - Mountaineering 0-4-1
KINS 1312 - Outdoor Education Activities 0-2-1
KINS 1313 - PA for People with Disabilities I 0-2-1
KINS 1314 - PA for People with Disabilities II 0-2-1
KINS 1315 - PA for People with Disabilities II 0-2-1
KINS 1316 - PA for People with Disabilities IV 0-2-1
KINS 1317 - Racquetball 0-2-1
KINS 2317 - Racquetball: Intermediate 0-2-1
KINS 1318 - Scuba 0-2-1
KINS 2318 - Scuba: Intermediate 0-2-1
KINS 1319 - Self Defense 0-2-1
KINS 2319 - Self Defense: Intermediate 0-2-1
KINS 1410 - Soccer 0-2-1
KINS 2410 - Soccer: Intermediate 0-2-1
KINS 1411 - Softball 0-2-1
KINS 2411 - Softball: Intermediate 0-2-1
KINS 1412 - Swimming 0-2-1
KINS 2412 - Swimming: Intermediate 0-2-1
KINS 1413 - Swimming: Aquatic Aerobics 0-2-1
KINS 1414 - Swimming: Fitness 0-2-1
KINS 1415 - Tennis 0-2-1
KINS 2415 - Tennis: Intermediate 0-2-1
KINS 1416 - Tumbling 0-2-1
KINS 2416 - Volleyball 0-2-1
KINS 2417 - Volleyball: Intermediate 0-2-1
KINS 1419 - Water Safety: Survival Swimming 0-2-1
KINS 1418 - Weight Training 0-2-1
KINS 2418 - Weight Training: Intermediate 0-2-1

KINS 2321 - Clinical Skills in Sports Medicine I 0-6-2
Develops clinical psychomotor skills in the prevention, acute care and evaluation of athletic injuries. Prerequisites: Sports Medicine major status or permission from Undergraduate Sports Medicine Coordinator.
KINS 2322 - Clinical Skills in Sports Medicine II 0-6-2
Develops clinical psychomotor skills in the use of therapeutic modalities, therapeutic rehabilitation techniques and reconditioning techniques. Prerequisites: A minimum grade of “C” in KINS 2321 and Sports Medicine major status.

KINS 2419 - Swimming: Water Polo 0-0-1
A course designed to introduce the student to water polo basic skills and knowledge.

KINS 2420 - Lifeguard Training 2-0-2
 Prepares students to meet the requirements of the American Red Cross and qualify for certification as a lifeguard.

KINS 2421 - Water Safety Instruction 2-0-2
 Prepares the student to meet the requirements of the American Red Cross and qualify for certification as a water safety instructor.

KINS 2431 - Foundations of Health and Physical Education 1-4-3
Defines health and physical education and their role within the school curriculum. Introduces past, present, and future issues with school-based health and physical education. Reviews the HPE program requirements and sequence, and initiates student portfolio project. Introduces fundamental pedagogical concepts and components including instructional strategies, developmentally appropriate practice, planning, managerial strategies, and assessment. Observations in a variety of public school roles including administration, physical education and health classroom teaching is required. Assist teachers in facilitating lesson segments.

KINS 2511 - Human Anatomy and Physiology I Laboratory 0-3-1
The laboratory component of the first course in a two semester sequence in which human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. The laboratory course is intended to provide students with hands on experiences that will enhance and reinforce the content of KINS 2531. The experiences will be structured to encourage critical thinking, understanding of scientific methodology, and the application of scientific principles.

KINS 2512 - Human Anatomy and Physiology II Laboratory 0-3-1
The laboratory component of the second course in a two semester sequence in which human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. The laboratory course is intended to provide students with hands on experiences that will enhance and reinforce the content of KINS 2532. The experiences will be structured to encourage critical thinking, understanding of scientific methodology, and the application of scientific principles.

KINS 2531 - Human Anatomy and Physiology I 3-0-3
A two semester sequence in which human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. Course content includes: basic anatomical and directional terminology; fundamental concepts and principles of cell biology, histology, the integumentary, skeletal, muscular, and nervous systems; special senses; and the endocrine system.

KINS 2532 - Human Anatomy and Physiology II 3-0-3
A two semester sequence in which human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. This course is a continuation of KINS 2531 and includes the cardiovascular system, the lymphatic system and immunity, the respiratory system, the digestive system and metabolism, the renal system, fluid/electrolyte and acid/base balance and the reproductive systems. Prerequisites: A minimum grade of “C” in KINS 2531.

KINS 3130 - Research Methods in Kinesiology 3-0-3
Introduces the student to fundamental principles underlying research methods in kinesiology. Included will be basic procedures for conducting experimental, descriptive, historical, qualitative research, computer applications, basic measurement concepts, statistical methods, critical thinking and scholarly writing.

KINS 3131 - Biophysical Foundations of Human Movement 2-3-3
Surveys biological systems and physical principles as applied to human movement and the relationship of these systems and principles to the development of the study of human movement. Prerequisites: A minimum grade of “C” in KINS 2531/2511 and KINS 2532/2512.

KINS 3132 - Foundations of Exercise and Sport Psychology 3-0-3
Introduces the student to how individuals behave in physical activity settings. Psychological antecedents and consequences of primary and secondary involvement in exercise and sport will be explored. Prerequisite: PSYC 1101.

KINS 3133 - Physiological Aspects of Exercise 2-3-3
Provides an in-depth perspective of physiological and biochemical responses of the human body when subjected to exercise. Prerequisites: A minimum grade of “C” in KINS 3131.

KINS 3134 - Biomechanical Analysis of Movement 2-3-3
Focuses on the study of human motion through an examination of forces acting on the body and the effects produced by these forces. Prerequisites: A minimum grade of “C” in PHYS 1111, PHYS 1113, and KINS 3131.

KINS 3230 - Motor Control, Coordination, and Skill 3-0-3
Focuses on the nature of motor skill performance, motor skill learning, and the factors influencing motor skill acquisition. Prerequisites: PSYC 1101, KINS 3131 or permission of instructor.

KINS 3321 - Clinical Applications in Sports Medicine I 0-6-2
Provides the student with direct supervised clinical experiences in sports medicine. Prerequisites: A minimum grade of “C” in KINS 2321 and Sports Medicine major status.

KINS 3322 - Clinical Applications in Sports Medicine II 0-6-2
Provides the student with direct supervised clinical experiences in sports medicine. Prerequisites: A minimum grade of “C” in KINS 3321 and Sports Medicine major status.

KINS 3330 - Prevention of Injury and Illness in Sports Medicine 3-0-3
Acquaints the student with the latest techniques to identify injury/illness risk factors associated with the participation of rigorous physical activity. Successful completion of the course should allow the student to develop a comprehensive plan for the implementation of injury/illness prevention protocols for competitive and recreational athletes. Information will cover the use of pre-participation screening techniques, prophylactic strength and conditioning techniques, evaluation and fitting of protective equipment used in sport, nutritional and ergogenic aids and other therapeutic means to aid in the reduction of injury and illness associated with participation in sport. Prerequisites: HLTH 2120 for non-Sports Medicine-majors, A minimum grade of “C” in KINS 2531/2511 and KINS 2532/2512.

KINS 3331 - Pathology and Care of Sport Injury and Illness 3-0-3
Acquaints the student with the underlying pathologies and subsequent care of injury and illness associated with the participation in competitive and recreational sport. Upon the successful completion of the course the student should be able to recognize and appropriately manage and treat and/or refer the various injuries and illnesses associated with participation in rigorous physical activities. Prerequisite: KINS 3330.

KINS 3426 - Coaching Baseball and Softball 1-3-2
Provides the prospective coach with the knowledge and understanding of basic skills, fundamentals, techniques, team organization, team strategy and conditioning in baseball and softball.

KINS 3427 - Coaching Basketball 1-3-2
Provides the prospective coach with the knowledge and understanding of basic skills, fundamentals, techniques, team organization, team strategy and conditioning in basketball.

KINS 3428 - Coaching Football 1-3-2
Provides the prospective coach with the knowledge and understanding of basic skills, fundamentals, techniques, team organization, team strategy and conditioning in football.

KINS 3429 - Coaching Olympic Sports 1-3-2
Provides the prospective coach with the knowledge and understanding of basic skills, fundamentals, techniques, team organization, team strategy and conditioning in three of the following sports: golf, soccer, tennis, track and field, volleyball and other Olympic sports.

KINS 3430 - Principles of Coaching 3-0-3
Introduces the student to the sport science principles of coaching. Topics include philosophy, psychology, pedagogy, physiology, management, first aid and injury prevention. Successful completion of the course leads to certification by the National Federation Interscholastic Coaches Education Program.
KINS 4341 - Psychology of Coaching 3-0-3
Provides the prospective coach with the science and practice of various sport psychology principles as applied to coaching and athletic performance.

KINS 4342 - Elementary Physical Education I 1-4-3
Provides the introduction to a developmentally appropriate approach to teaching the elementary physical education content (gymnastics, games, and dance). Focus is on gymnastic and dance-like activities to build a movement foundation that encourages learners to resolve movement problems in a variety ways. Balance, tumbling, movement exploration, whole and part body expression, and simple rhythms are the core to these learning activities. Students will be required to design and implement a variety of movement challenges for elementary learners. Prerequisite: Admission into the Teacher Education Program in Health and Physical Education.

KINS 4343 - Elementary Physical Education II 1-4-3
Along with KINS 4342, it is designed to focus on a developmentally appropriate approach to teaching the foundations of movement to children. Focus is on dance and game-like activities to build a movement foundation that encourages learners to resolve movement problems and manipulate objects in unique ways. Movement exploration, whole and part body expression, rhythms, game creation, game variations, game strategies and some cooperative activities are the core to these learning activities. Also emphasizes the inclusion of fitness concepts in the elementary curriculum. Students will be required to design and implement a variety of movement challenges for elementary learners. Prerequisites: Admission into the Teacher Education Program in Health and Physical Education and a minimum grade of “C” in KINS 3432.

KINS 4345 - Life Span Motor Development 3-0-3
Develops the ability to survey the developmental perspective of motor development, the knowledge of changing motor behavior, the knowledge of the factors affecting motor development and the ability to apply information about motor development sequences and developmental constraints analysis to the teaching of motor skills. Prerequisite: Admission into Teacher Education Program in Health and Physical Education.

KINS 4346 - Performance and Technique in Physical Activity I I I -4-3
Enhances the knowledge, skill, and understanding of activities and games pertinent to middle and high school physical education. Identifies appropriate teaching sequences, assessment strategies, and developmentally appropriate modifications to enhance student learning. Reviews and analyzes “traditional” game and sports activities and concerns in regard to maximizing learning. Skill, strategy and conceptual transfer, across activities and games, will be identified to enhance learner skillfulness and adaptability. Content focus will be on traditional and non-traditional games and activities involving individual and group skills to diversify movement efficiency. Students will be required to design and implement a variety of movement challenges for middle and high school learners. Strategies for integrating fitness concepts into activities will be addressed. Prerequisite: Admission into Teacher Education Program in Health and Physical Education.

KINS 4347 - Performance and Technique in Physical Activity I I I I -4-3
Enhances the knowledge, skill, and understanding of dance, cooperative and adventure activities pertinent to middle and high school physical education. Identifies appropriate teaching sequences, assessment strategies and developmentally appropriate modifications to enhance student learning. Reviews and analyzes strategies for incorporating these activities into the middle and high school curriculum. Skill, strategy and conceptual transfer, across activities will be identified to enhance learner skillfulness and adaptability. Content focus will be on activities which develop social dance, teamwork, communication and outdoor/adventure skills and to diversify movement efficiency. Students will be required to design and implement a variety of movement challenges for middle and high school learners. Strategies for integrating fitness concepts into these activities will be addressed. This course will involve two weekend adventure experiences. Prerequisites: Admission into Teacher Education Program in Health and Physical Education and a minimum grade of “C” in KINS 3436.

KINS 4099 - Selected Topics in Kinesiology (1-3)-0-(1-3)
Provides the student with an in-depth study of selected topics in kinesiology. Prerequisite: Permission of instructor.

KINS 4130 - Administrative Principles in Kinesiology 3-0-3
Focuses on the study of the processes of planning, organizing, directing and controlling the functioning of movement based professions (exercise science, sports medicine).

KINS 4131 - Population Health Care Strategies 3-0-3
Overview of the levels of prevention, epidemiological principles and their impact on health promotion and disease prevention. A major focus is primary prevention relative to exercise/activity. Emphasis is placed on the clinical application of fitness appraisal and exercise prescription and the development, interpretation, implementation and management of fitness programs. Prerequisite: KINS 3133, HLTH 1520 or permission of instructor.

KINS 4231 - Fitness Evaluation and Exercise Prescription 3-0-3
Provides the student with an in-depth study of fitness appraisal and exercise prescription and the development, interpretation, implementation and management of fitness programs. Prerequisite: KINS 3133, HLTH 1520 or permission of instructor.

KINS 4330 - Evaluation of Lower Extremity Injuries 3-0-3
Presents advanced principles and techniques in the clinical evaluation of athletic injuries and illnesses involving the lower extremities and lumbar spine. Prerequisite: A minimum grade of “C” in KINS 3331.

KINS 4331 - Evaluation of Upper Extremity Injuries 3-0-3
Presents advanced principles and techniques in the clinical evaluation of athletic injuries and illnesses involving the upper extremities and cervical spine. Prerequisite: A minimum grade of “C” in KINS 4330. Corequisite: KINS 4333.

KINS 4332 - Therapeutic Modalities in Sports Medicine 3-0-3
Introduces the student to the physiological effects associated with therapeutic modalities used in the treatment and rehabilitation of athletic injuries. Prerequisites: A minimum grade of “C” in PHYS 1111, PHYS 1112 and KINS 3331.

KINS 4333 - Therapeutic Exercise and Rehabilitation 3-0-3
Imparts knowledge pertaining to the physiological effects, indications, contraindications and applications of therapeutic exercise in the rehabilitation of athletic injuries and illnesses. Prerequisites: A minimum grade of “C” in KINS 4330. Corequisite: KINS 4331.

KINS 4334 - Pharmacological Issues in Sports Medicine 3-0-3
Acquaints the student with the foundations of chemical substances and pharmacology of injury and illness in athletes. Prerequisites: A minimum grade of “C” in CHEM 1146 and KINS 3331.

KINS 4420 - Sport Conditioning Laboratory 1-3-2
Prepares students to undertake responsibilities in the areas of coaching, fitness programming and or related areas.

KINS 4421 - Principles of Officiating 1-3-2
Provides the prospective coach with the knowledge and understanding of principles and basic techniques of officiating selective sports.

KINS 4430 - Instructional Design in Health and Physical Education for Elementary Students 3-0-3
Develops skills and knowledge related to teaching physical education to young or beginning fitness learners. Specifically the course will be oriented toward developing an understanding of the characteristics and needs of children, appropriate curriculum content in elementary school physical education and effective teaching skills for elementary school physical education. To the extent possible, the majority of the course will be conducted in elementary schools, providing continuous opportunities to observe, plan for, teach and evaluate teaching physical education lessons on a regular basis. Prerequisite: ESED 3231. Corequisite: EDUP 3232.

KINS 4431 - Instructional Design in Health and Physical Education for Middle and High School Students 3-0-3
Develops instructional skills in planning, teaching and evaluating psychomotor, cognitive and affective learning in large group settings. The emphasis will be on intermediate level learning about current health issues and health related fitness at the high school level, and games/sport, dance, and fitness activities at the middle and high school levels. Specifically the course will be oriented toward developing an understanding of the characteristics of youths in both middle school and high school, appropriate curriculum content in middle school physical education, appropriate curricula content in high school health education, and effective teaching skills for middle school physical education and high school health education. Prerequisite: KINS 4430.

KINS 4432 - Adapted Physical Education 3-0-3
This is an introductory course designed to provide students with the knowledge and basic skills required to meet the professional and legal mandates pertaining to physical education for individuals with disabilities. Prerequisites: A minimum grade of “C” in KINS 4430 and admission to Teacher Education Program. Corequisite: KINS 4431.
Course Descriptions

KINS 4617 - Senior Seminar in Health and Physical Education 1-0-1
Provides senior level health and physical education majors with a colloquium in which to discuss job search strategies, trends and current issues in the profession, certification issues in education, student teaching responsibilities and advocacy strategies for promoting the profession. Prerequisite: Completion of all required coursework in the Health and Physical Education major. Corequisite: EDFU 4799.

KINS 4618 - Senior Seminar in Sports Medicine 1-0-1
Provides senior level sports medicine majors with a colloquium in which to discuss current issues and topics, with a focus on professional ethics, professional employment opportunities, development and growth and current research themes within the profession. Prerequisite: Senior level Sports Medicine major status.

KINS 4619 - Senior Seminar in Exercise Science 1-0-1
Provides senior level exercise science students with a colloquium in which to discuss current issues and topics, with a focus on professional ethics, employment opportunities, internships, development and growth and current research themes within the profession. The course also includes preparation for the internship experience. Prerequisite: Senior level Exercise Science major status.

KINS 4721 - Clinical Practicum in Sports Medicine I 2-0-2
Offers the student advanced clinical practice in sports medicine. Prerequisites: A minimum grade of "C" in KINS 3321 and Sports Medicine major status.

KINS 4722 - Clinical Practicum in Sports Medicine II 2-0-2
Offers the student advanced clinical practice in sports medicine. Prerequisites: A minimum grade of "C" in KINS 4721 and Sports Medicine major status.

KINS 4730 - Coaching Practicum 3-0-3
Provides the student with supervised coaching experience in a sport. Prerequisite: Beginning coaching course in the sport or permission of instructor.

KINS 4735 - Practicum in Exercise Science 3-0-3
Offers the student the opportunity to participate in appropriate laboratory techniques and practices within the biophysical and behavioral domains of exercise science. Prerequisite: Permission of Exercise Science Program Coordinator.

KINS 4799 - Internship in Exercise Science 12-0-12
Provides the senior level Exercise Science major student with a practical experience in an appropriate exercise setting. Prerequisite: KINS 4619.

KINS 4899 - Directed Individual Study (1-3)-0-(1-3)
Provides the student with the opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

KINS 4999 - Senior Thesis 6-0-6
Provides the student with a capstone experience focusing on designing and conducting an original research project or assisting a faculty mentor in ongoing research. Prerequisites: 3.0 GPA and permission of Exercise Science Program Coordinator.

KINS 6130 - Research Design in Kinesiology 3-0-3
Provides the student with the opportunity to develop skill in designing, evaluating and producing research, with a focus on critical thinking and problem solving. Prerequisite: Undergraduate course in research methods or permission of instructor.

KINS 6131 - Data Analysis in Kinesiology 3-0-3
Provides the student with an advanced understanding of data analysis in kinesiology. The goal of the course is for the student to obtain advanced knowledge and skills to analyze and understand research data within the field of human movement. Prerequisite: Undergraduate course in statistics, KINS 6130 or permission of instructor.

KINS 7099 - Selected Topics in Kinesiology (1-3)-0-(1-3)
Provides the student with an opportunity for in-depth study of selected topics in kinesiology. Prerequisite: Permission of instructor.

KINS 7130 - Nervous, Endocrine, Muscle, and Metabolic Exercise Physiology 3-0-3
Explores the role of metabolism and the nervous, endocrine, and muscular systems on the response of the human body to acute and chronic exercise. Prerequisite: A minimum grade of "C" in an undergraduate course in exercise physiology or permission of instructor.

KINS 7230 - Cardiovascular, Respiratory, and Environmental Exercise Physiology 3-0-3
Focuses on the study of the effects of exercise on the physiological functions of the human organism with emphasis on cardiovascular and respiratory systems and the impact of the environment on physiological function. Prerequisite: Undergraduate course in exercise physiology.

KINS 7231 - Laboratory Techniques in Exercise Physiology 2-3-3
Acquaints the student with the use of typical laboratory equipment used in exercise physiology. Prerequisite: KINS 7230 or permission of instructor.

KINS 7232 - Health Appraisal and Fitness Testing 3-0-3
Examines advanced fitness assessments and exercise prescription. Students will learn assessment techniques for a wide variety of client categories and will be responsible for demonstrating application of measurement skill in a format similar to national certification exams. Prerequisite: KINS 7230 or permission of instructor.

KINS 7233 - Fitness Program Administration 3-0-3
Focuses on the administrative aspects involved in conducting safe and effective fitness programs. Students will learn exercise leadership, patient counseling, emergency procedures, and administrative principles as they apply to clinical exercise settings.

KINS 7234 - Clinical Applications of Biomechanics 3-0-3
Provides the student with the biomechanical knowledge essential to conduct systematic quantitative and qualitative analysis of human movement in clinical settings. Prerequisite: Undergraduate courses in biomechanics, physics and functional anatomy or permission of instructor.

KINS 7235 - Instrumentation and Techniques in Biochemistry 2-3-3
Provides students with theoretical knowledge and skills for the biomechanical analysis of movement. Prerequisite: A minimum grade of "C" in an undergraduate class in biomechanics, algebra, trigonometry, or permission of instructor.

KINS 7236 - Cardiopulmonary Pathophysiology and ECG Interpretation 3-0-3
Focuses on the pathophysiology, epidemiology and rehabilitation from the effects of cardiovascular and respiratory disease. Students will learn electrocardiograph interpretation and become familiar with exercise prescriptions for persons with cardiovascular and respiratory disease. Prerequisite: KINS 7230, KINS 7322, or permission of instructor.

KINS 7237 - Exercise and Special Populations 3-0-3
Examines the various physiological processes as they are affected by pregnancy, maturation and aging, and how these changes alter a person's response to, and ability to participate in, exercise. Prerequisite: KINS 7230 or permission of instructor.

KINS 7238 - Human Performance and Nutrition 3-0-3
Examines the interaction between nutrition and physical activity, including exercise and athletic performance. Topics will include the latest research on nutrients and ergogenic aids. Prerequisite: Undergraduate course in exercise physiology or permission of instructor.

KINS 7239 - Clinical Exercise Physiology 3-0-3
Prepares the student to supervise and direct exercise for the management and rehabilitation of clinical cardiovascular, pulmonary, renal, and metabolic disease. Prerequisite: A minimum grade of "C" in an undergraduate course in exercise physiology or permission of instructor.

KINS 7240 - Clinical Teaching Skills in Athletic Training 3-0-3
Explores the student to knowledge and skills of teaching clinical education programs in athletic training. Students will be exposed to the teaching theories and schema as they relate to clinical education in athletic training. Prerequisite: Permission of instructor.

KINS 7233 - Advanced Evaluation Skills in Athletic Training 3-0-3
Focuses on the advancement of entry level knowledge and skills related to the evaluation of musculoskeletal related injury. Students will be exposed to both theoretical framework and psychomotor aspects of evaluation skills. Prerequisite: Permission of instructor.

KINS 7234 - Advanced Rehabilitation Skills in Athletic Training 3-0-3
Focuses on the advancement of entry level knowledge and skills related to the rehabilitation of musculoskeletal related injury. Students will be exposed to both theoretical framework and psychomotor aspects of rehabilitation skills. Prerequisite: Permission of instructor.
KINS 7335 - Medical Aspects in Athletic Training 3-0-3
This course is designed to enhance the student's knowledge of pathophysiology, clinical presentation, and diagnostic tests of common general medical conditions observed in physically active individuals. Content of the course will cover the following categories/systems: cardiovascular, hematological, pulmonary, ENT, renal, gastrointestinal, hepatology and immunology.

KINS 7336 - Current Issues in Athletic Training 3-0-3
This course provides the student with the opportunity to study philosophy, principles and procedures in administering an athletic team or program.

KINS 7430 - Administrative Issues in Coaching 3-0-3
Focuses on the study of exercise physiology principles applied to developing training and conditioning programs for enhancing health-related fitness and performance. Prerequisite: Undergraduate course in exercise physiology or permission of instructor.

KINS 7432 - Applied Sport Biomechanics 3-0-3
Provides the student with an in-depth study of the internal and external forces acting on the human body and the effects produced by these forces. Prerequisite: Undergraduate courses in biomechanics, algebra and trigonometry or permission of instructor.

KINS 7433 - Prevention, Recognition and Care of Athletic Injuries 3-0-3
Focuses on the study of advanced knowledge in the concepts, practices, and procedures in the prevention, recognition and care of athletic injury and illness. Prerequisites: Undergraduate courses in anatomy, physiology and exercise physiology or permission of instructor.

KINS 7434 - Current Issues in Coaching 3-0-3
Provides the student with an overview of the skills, techniques and knowledge involved in becoming a coach, focusing on current issues affecting the coaching profession.

KINS 7437 - Analysis of Teaching Physical Education 3-0-3
Examines practices of effective teaching techniques and their relationship to learning. Provides the student with an understanding of opportunities to practice effective teaching strategies and skills.

KINS 7438 - Motor Behavior 3-0-3
Presents the major theoretical frameworks for acquisition of motor skill. Emphasis is given to the understanding of concepts of motor development, motor control, motor learning and the implications for pedagogy. Prerequisite: Undergraduate course in motor behavior or permission of instructor.

KINS 7530 - Psychology of Peak Performance 3-0-3
Examines the psychological factors that may lead to peak performances in exercise and sport and their effects. Attention will be given to the physical, mental and emotional variables related to the readiness states of this ideal performance condition. Research and interventions associated with the common qualities of peak performance will be discussed. Prerequisite: Undergraduate course in sport psychology or permission of instructor.

KINS 7531 - Team Dynamics 3-0-3
Provides the student with an understanding of the influence of teams/groups within exercise and sport upon the individual performer, as well as, the influence of individuals upon teams/groups. Based upon the science/practice model, this course will discuss theory, research and application within team/group dynamics. The assignments are structured to give students experience with working in teams/groups. Prerequisite: Undergraduate course in sport psychology or permission of instructor.

KINS 7533 - Sport Psychology Interventions 3-0-3
Provides an introduction to the application of exercise and sport psychology intervention strategies to enhance performance. Students will participate in various individual-focused performance enhancement training procedures and produce a personalized performance enhancement manual. Prerequisite: KINS 7530 or permission of instructor.

KINS 7534 - Current Issues in Sport Psychology 3-0-3
Provides student with an in-depth examination of special areas, current topics, and relevant issues in the field of sport psychology. Prerequisite: Undergraduate course in sport psychology or permission of instructor.

KINS 7630 - Seminar in Kinesiology 3-0-3
Provides the student with an in-depth literature review and discussion of contemporary topics in kinesiology. Prerequisite: KINS 6130, KINS 6131, or permission of instructor.

KINS 7730 - Practicum in Coaching 0-9-3
Provides the student with coaching experiences in planning, teaching skills, conducting practice sessions, organizing game situations and analysis, scouting and structuring off-season programming. Prerequisite: Permission of instructor.

KINS 7731 - Clinical Practicum for Teaching Athletic Training Skills 0-9-3
Provides the student with an opportunity to practice knowledge and skills of teaching clinical skills in athletic training. Students will be placed in clinical environments and will assist in the teaching of clinical athletic training skills. Prerequisite: KINS 7330 or permission of instructor.

KINS 7732 - Clinical Practicum for Evaluating Athletic Training Skills 0-9-3
Allows the student to practice knowledge and skills of evaluating clinical skills in athletic training. Students will be placed in clinical environments and will assist with the supervision and evaluation of the application of athletic training skills. Prerequisite: KINS 7333, KINS 7731, or permission of instructor.

KINS 7733 - Practicum in Sport Psychology 0-9-3
Provides the student with the opportunity to practice knowledge and skills of sport psychology interventions. Students will be placed in supervised, applied environments that allow them to work with a team or individual. Prerequisite: KINS 7531, KINS 7533, or permission of instructor.

KINS 7799 - Internship in Kinesiology 9-0-0
Provides the student with an opportunity to receive practical experiences in a selected movement related setting. Prerequisite: Permission of Graduate Program Director.

KINS 7899 - Directed Individual Study 0-1-0-1-3
Provides the student with an opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

KINS 7999 - Thesis (1-6)-0-(1-6)
Provides the student with an opportunity to complete an independent research project. A written and oral defense of the project is required. Prerequisite: Permission of Graduate Program Director.

KINS 8430 - Supervision of Instruction in Physical Education 3-0-3
Assists the professional educator with acquiring the knowledge and skills essential to improving instruction and instructional programs in physical education. Supervision of novice and experienced physical education teachers will be discussed. Prerequisite: EDLD 7137.

KINS 8431 - Curriculum Issues and Trends in Physical Education 3-0-3
Identifies theoretical frameworks of curriculum development in relationship to current issues and trends.

Latin American Studies (Interdisciplinary)
LAST 3090/3090S - Selected Topics in Latin America 3-0-3
Designed to provide an introductory study of an area relating to the geography, history, culture and/or civilization of Latin America.

LAST/POLS 3133 - Latin American Politics 3-0-3
See POLS 3133 for course description.

LAST/SPAN 3331 - Latin American Civilization I 3-0-3
See SPAN 3331 for course description.

LAST/HIST/INTS 3537 - Colonial Latin America 3-0-3
See HIST 3537 for course description.

LAST/HIST/INTS 3538/3538S - Modern Latin America 3-0-3
See HIST 3538 for course description.

LAST/ANTH 4135/4135S - Mesoamerican Archeology 3-0-3
See ANTH 4135 for course description.

LAST/SPAN 4231 - Introduction to Spanish-American Literature 3-0-3
See SPAN 4231 for course description.

LAST/GEOG 4232 - Geography of Latin America 3-0-3
See GEOG 4232 for course description.

LAST/SPAN 4331 - Contemporary Hispanic-American Culture 3-0-3
See SPAN 4331 for course description.
LAST/SPAN 4436/4436S - Twentieth Century Spanish-American Literature 3-0-3
See SPAN 4436 for course description.

LAST 4890 - Seminar in Latin American Studies 3-0-3
Must be taken as the final 3-hour course in the 15-hour block required for the minor in Latin American Studies, is designed to permit interdisciplinary engagement and individualized specialization so that the student can intensify his or her studies of Latin American topics. Prerequisite: Contemporary World Cultures plus three upper division courses with significant Latin American dimension in at least two disciplines other than the major.

LAST/SPAN 5232/5232G - Literature of Hispanic Minorities 3-0-3
See SPAN 5232 for course description.

LAST/ANTH/SOCI 5436/5436G - Latin American Societies 3-0-3
See ANTH 5436 for course description.

Latin (CLASS)
LATN 1001 - Elementary Latin I 3-0-3
Introduction to the Latin language: pronunciation, fundamentals of grammar, reading, and translation.

LATN 1002 - Elementary Latin II 3-0-3
Continued study of Latin grammar and syntax begun in Latin 1001, with further reading and translation. Prerequisite: LATN 1001 or equivalent.

LATN1060 - Accelerated Elementary Latin 6-0-6
An accelerated introduction to the Latin language: pronunciation, fundamentals of grammar, reading, and translation.

LATN 2001 - Intermediate Latin I 3-0-3
Beginning series of reading in Roman authors with emphasis on prose. Elements of grammar will also be reviewed. Discussion of Roman history and culture. Prerequisites: LATN 1001 and LATN 1002 or equivalent.

LATN 2002 - Intermediate Latin II 3-0-3
Continued reading of Roman authors with emphasis on poetry. Prerequisite: LATN 2001 or concurrent enrollment in LATN 2001 or equivalent.

LATN 2060 - Accelerated Intermediate Latin 6-0-6
Accelerated intermediate Latin with continued work on pronunciation, fundamentals of grammar, reading, and translation.

LATN 3030/3030S - Selected Topics in Latin 1-3-0 (1-3)
Study of a topic in Latin literature, culture, society, thought or language not included in the regular offering. May be repeated for credit provided a new topic is studied. Prerequisite: LATN 2002.

LATN 3131 - Latin Authors 3-0-3
Concentrated study of the works of one or more Latin authors. Themes in the literature will be studied with emphasis placed on the cultural and historical significance of the written work and its author. May be repeated for credit provided a new topic is studied. Prerequisites: Two Latin courses at the 2000 level.

LATN/WGST 3330 - Roman Women 3-0-3
Study of the role of women in the ancient Roman world. Emphasis on their influence within the political, economic, social, religious, and intellectual life of Rome. Examination of the Roman world through the eyes of ancient Roman women from different historical periods and social status.

LATN 4890 - Directed Study in Latin 1-15-0 (1-15)
Concentrated study of a topic in Latin literature, culture, society, thought, or language. May be repeated for credit provided a new topic is studied. Prerequisites: Two Latin courses at the 3000 level.

LING - Linguistics (Interdisciplinary)
LING/WRIT 2000 - Selected Topics in Writing and Linguistics 1-3-0 (1-3)
See WRIT 2000 for course description.

LING 3030/3030S - Selected Topics in Linguistics 3-0-3
Offers varied courses in specialized areas of the field of linguistics.

LING 3031 - Phonology 3-0-3
An in-depth introduction to sounds and sound structures within formal grammar. Relation of basic units of sound structure to major components of linguistics including syntax, morphology, and semantics. Reading and discussion of trends in phonological theory, including nonlinear phonology and current optimality approaches. Prerequisite: ENGL 1102.

LING 3032 - Syntax 3-0-3
Abroad introduction to syntactic theory within historical and contemporary approaches to language and linguistic representation. Exploration of language as a systematic structure drawing on the Generative Transformational models complemented by the Minimalist paradigm. Prerequisite: ENGL 1102.

LING/FOREL 3131 - Greek and Latin Vocabulary 3-0-3
See FORL 3131 for course description.

LING/ANTH/POLS/AAST 3337 - Language, Power, Politics 3-0-3
An in-depth investigation of the role of language in national and international power structures. Comparative evaluation of language in social organization of politics, economic policy and law as aggregated by race, culture, ethnicity, class, group ideology, and gender. Emphasis on social policy management and minority/linguistic rights. Prerequisite: ENGL 1102.

LING/ANTH/FOREL 3533 - Introduction to Language 3-0-3
See ANTH 3533 for course description.

LING 3630 - Language and Linguistic Theory 3-0-3
Critical overview, examination and evaluation of influential theories in linguistics and their insight on language. Application of basic principles of linguistic theorizing to issues of language structure and understanding. Prerequisites: ENGL 1102.

LING 4333 - Semantics 3-0-3
Focuses on language analysis applied to practical problems of communication in contemporary society.

LING 4335 - Linguistic Analysis 3-0-3
Focuses on the fundamental concepts and principles of linguistic theory. Includes phonology and morphology as applied to certain languages.

LING/WRIT 5130/5130G - Modern English Grammar 3-0-3
See WRIT 5130/5130G for course description.

LING/WRIT 5330/5330G - History of English Language 3-0-3
See WRIT 5330/5330G for course description.

LING/ANTH/WRIT 5530/5530G - Sociolinguistics 3-0-3
See ANTH 5530 for course description.

Logistics (COBA)
LOGT 3231 - Principles of Transportation 3-0-3
An introduction to the principles of transportation with emphasis on transportation modal and intermodal operations (rail, highway, air, water, and pipeline transportation) and transportation management. Consideration is given to the economic, social, political and international aspects of the transportation industry. The role of logistics information technology in modern global transportation systems is introduced via topics including electronic interchange, global positioning systems, and intelligent transportation systems. Prerequisite: Junior standing.

LOGT 3232 - Business Logistics 3-0-3
An introduction to and study of the fundamentals of logistics and supply chain management. Course coverage includes the flow of raw materials, work-in-progress, and finished goods through the supply chain. Particular emphasis is given to the design of channels of distribution, management of inventory, evaluation of transportation alternatives, information flow, facility location, outsourcing and third-party relationships, and the rapidly expanding field of logistics information technology. Prerequisite: Junior standing.

LOGT 4231 - Logistics and Intermodal Transportation Operations 3-0-3
An examination of the design and management of supply chain operations in selected logistics settings. Particular emphasis is placed upon the areas of traffic management, carrier operations, carrier selection and contract negotiation, and warehousing. Each area is analyzed in terms of organizational differences, operational processes, variations in information needs, and performance control mechanisms. Prerequisite: LOGT 3232.

LOGT 4232 - International Logistics 3-0-3
An examination of the many differences between domestic and international supply chain management activities and functions. Considerable emphasis is placed upon the importance of ocean shipping and air transportation and their impact on international trade and global trade patterns. Other topics covered include INCOTERMS (international commercial terms), the use of EDI (electronic data interchange) in international transactions, the management of ocean carriers, the import/export process, the role of international agents and forwarders, and international sourcing decisions. Prerequisite: LOGT 3231.
LOGT 4233 - Logistics Executive in Residence 3-0-3
A capstone, integrative, case course in logistics and transportation strategy. Students participate in an Executive in Residence program that provides interaction with top-level logistics and transportation executives.
Prerequisites: A minimum grade of "C" in LOGT 3231, LOGT 3232, LOGT 4231, and LOGT 4232.

LOGT 4263 - Seminar in Intermodal Distribution 3-0-3
This course is required knowledge of a wide range of logistics terms and concepts. Students are required to read extensively from the current literature in the field and to demonstrate proficiency in sourcing intermodal information via electronic media. A major research project is an integral part of the course, involving the analysis of organizations and/or topics directly related to intermodal distribution.
Prerequisites: LOGT 3231 and LOGT 3232.

LOGT 4790 - Internship in Logistics (3-6)-0-(3-6)
A supervised work-study program in selected logistics and intermodal transportation companies. Students will be permitted to undertake internships only after review of academic qualifications and with firm pre-approval by the faculty.
Prerequisites: LOGT 3231 or LOGT 3232 and approval of the supervising faculty member.

LOGT 4830 - Special Problems in Logistics 3-0-3
A senior level course that allows LOGT majors to pursue an intensive study of a specific topic or emerging area of transportation and logistics to be developed by the instructor.
Prerequisites: LOGT 3231 and LOGT 3232 or permission of instructor.

LOGT 4890 - Directed Study in Logistics and Intermodal Transportation 0-0-(1-3)
Independent study and research in selected areas of Logistics and Intermodal Transportation under supervision of a member of the LOGT faculty.
Prerequisite: Approval of the instructor and department chair.

LOGT 7432 - Logistics Fundamentals and Strategy 3-0-3
Develops an understanding of logistics systems. The class will apply a managerial focus approach to integrating the numerous logistical activities in the supply chain including materials management, physical distribution, third party logistics, transportation, and other topics. The class will stress practical applications through a case approach and a logistics simulation.
Prerequisites: Graduate standing and the completion of the MBA prerequisites or permission of the COBA Director of Graduate Studies for non-MBA students.

Legal Studies (COBA)
LSTD 3130/3130S - International Trade Regulation 3-0-3
This course presents fundamentals of international trade operations, providing students with the experience and regulatory compliance needed for conducting the business of exporting. Prerequisite: Permission of instructor.

LSTD 3230 - Building Construction Law 3-0-3
A study of the legal concepts, statutes and regulations governing the building and construction industry, including the legal framework of contract law, construction financing, property rights zoning, lien, bonding, liability, competition, building dispute resolution, current development of government regulation of the building construction industry.
Prerequisites: 30 credit hours of Building Construction and Contracting courses or permission of instructor.

LSTD 3630 - White Collar Crime 3-0-3
This course examines the US criminal justice system along with its response to the escalating incidence of white-collar crime. Other topics include understanding human behavior, theories of crime causation, organization crime, occupational crime, and the constitutional rights of white-collar criminals.
Prerequisite: Completion of a minimum of 55 semester hours.

LSTD 3631 - Fraud and the Law 3-0-3
Fraud-fighting professionals must understand the laws governing a fraud investigation as it moves through the US legal system. This course examines the numerous legal issues associated with conducting fraud investigations including the federal rules of civil and criminal procedure along with issues involving discovery and evidence admissibility.
Prerequisite: Completion of a minimum of 55 semester hours.

LSTD 4830 - Special Problems in Legal Studies 0-0-3
A customized course that is under the direction of a faculty sponsor. The course is designed to offer students an opportunity to pursue studies at a level on topics not covered in scheduled courses. The scope and nature of the material covered is determined in consultation with faculty sponsor.
Prerequisite: Permission of director.

LSTD 4890 - Directed Study in Legal Studies 0-0-(1-3)
Designed for independent study and research in selected areas of legal studies under faculty supervision.
Prerequisite: Permission of department chair or director.

LSTD 6130 - Legal and Ethical Issues in Business 3-0-3
Business operates in a domestic and global environment shaped by social and economic forces, made to operate on managers through government regulation and incentives. This course presents an introduction to those factors in the environment of business that shape and affirm American capitalism.
Prerequisite: Graduate standing.

LSTD 7130 - Legal Environment of Business 3-0-3
A survey of the legal and ethical rules which govern the managerial decision making process, particularly focusing on constitutional "Commerce Clause" interpretation, contract and agency principles, administrative agency regulations, and evolving ethical issues which influence the application of the law. The course is set in domestic law, but includes operational legal aspects of the international market place.
Prerequisites: Graduate standing and the completion of the MBA core or permission of the COBA Director of Graduate Studies for non-MBA students.

LSTD 7230 - Law and Ethics for Accountants 3-0-3
An introduction to legal and ethical issues involving the Uniform Commercial Code and administrative agency regulations. Emphasis is on recognition of these issues to enhance professionalism for business administration.
Prerequisite: Graduate standing and LSTD 6130 or equivalent.

Mathematics (COST)
MATH 0091 - Algebra Lab 1-0-1
Provides additional instruction on selected topics from MATH 1111 and is open to all students. MATH 0091 is a required course for any student who makes below a "C" in MATH 1111. Students required to take MATH 0091 must take it concurrently with MATH 1111 until they make at least a "C" in MATH 1111. Topics covered include a study of functions, equations, graphing, and operations with polynomial, rational and radical expressions. Also included are appropriate study skills and the use of technology. (Corequisite: MATH 1111) Audit or institutional credit only.

MATH 0097 - Beginning Algebra 4-0-4
The first of two courses designed for students who are not prepared to enter a college core curriculum mathematics course: MATH 0097 consists of a study of the structure of the real number system, properties of real numbers, first degree equations and inequalities, applications, exponents, polynomials, functions and graphs. Students will be placed in MATH 0097 based on their score on a placement exam. Students will be allowed a maximum of 2 semesters to meet exit requirements for MATH 0097. Audit or institutional credit only.

MATH 0099 - Intermediate Algebra 4-0-4
The second of two courses designed for students who are not prepared to enter a college core curriculum mathematics course: MATH 0099 consists of a study of exponents, polynomials, rational expressions, equations, inequalities, radicals, graphing and functions. A student must demonstrate mastery of material taught in MATH 0097 prior to enrolling in MATH 0099. A student may exit at the end of one semester by passing the course with a "C" or better and meeting any system requirements. Audit and institutional credit only.

MATH 1101 - Introduction to Mathematical Modeling 3-0-3
Mathematical modeling using graphical, numerical, symbolic, and verbal techniques to describe and explore real-world data and phenomena. The investigation and analysis of applied problems and questions, and effective communication of quantitative concepts and results. Topics include linear, quadratic, polynomial, exponential and logarithmic models of real-world phenomena. Credit cannot be earned toward graduation for MATH 1111 if credit is earned for MATH 1101. Prerequisite: Two years of high school algebra or equivalent.

MATH 1111 - College Algebra 3-0-3
A functional approach to algebra that incorporates mathematical modeling of real data, business applications and use of appropriate technology. Emphasis will be placed on the study of linear, quadratic, piece-wise defined, rational, polynomial, exponential and logarithmic functions. Credit cannot be earned toward graduation for MATH 1101 if credit is earned for MATH 1111. Prerequisite: Two years of high school algebra or equivalent.

MATH 1112 - Trigonometry 3-0-3
Circular functions, solutions of triangles, trigonometric identities and equations, graphs of trigonometric functions, Law of Sines, Law of Cosines, applications, vectors, matrices, complex numbers, Euler’s...
Course Descriptions 401

MATH 3130 - College Geometry 3-0-3
A study of absolute and Euclidean geometry. Prerequisite: MATH 2332.

MATH 3230 - Differential Equations 3-0-3
Solution of first and higher order ordinary differential equations, applications and solutions of systems of linear differential equations. Prerequisites: MATH 2242 and MATH 2331.

MATH 3333 - Modern Algebra I 3-0-3
The fundamental algebraic structures: Groups, rings and fields. Prerequisite: MATH 2332.

MATH 4890 - Directed Study in Mathematics (1-3)-(0-2)-(1-3)
Directed study under faculty supervision. Well prepared math majors may be permitted to enroll in an independent study upon the recommendation of a Mathematics faculty member. Prerequisite: Permission of instructor and department chair.

MATH 4910 - Undergraduate Seminar 1-0-1
A specialized study of various topics in mathematics with the intention to engage students independent reading, writing and presentation of these topics under the supervision of mathematics faculty. Prerequisites: A minimum grade of "C" in MATH 2332 and MATH 2243.

MATH 4930 - Senior Research Project 3-0-3
Main objective of this course is to engage senior undergraduate students in mathematical, statistical or computer science research and writing. Students will select advisors to work with on their projects. At least one oral presentation on the progress of their research during the semester is required. Also, a final written report on the project as well as a final oral presentation is required. Prerequisite: Students must have at least 15 credit hours of upper level mathematics, statistics and/or computer science.

MATH 5090/5090G - Selected Topics in Mathematics (1-3)-(0-2)-(1-3)
Specialized study in a selected area of Mathematics. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Permission of instructor.

MATH 5130/5130G - Statistics and Geometry for K-8 Teachers 3-0-3
An in-depth study of topics in statistics, such as sampling and data analysis, and geometry, such as motion geometry and non-Euclidean geometries. For Early Childhood and Middle Grade majors only. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 3032.

MATH 5133/5133G - Basic Ideas/Problem Solving 3-0-3
Problem solving strategies applied to a variety of contexts in arithmetic, geometry and algebra. The use of these strategies by teachers of middle grades mathematics will be emphasized. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 5132 or permission of instructor.

MATH 5134/5134G - Topics in Discrete Mathematics 3-0-3
for K-8 Teachers
A survey of discrete mathematics topics such as patterns, recursion, probability, graph theory and matrix theory. For Early Childhood and Middle Grade majors only. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 3032.

MATH 5135/5135G - Calculus Concepts for K-8 Teachers 3-0-3
A study of algebraic structures with a review of precalculus. This is followed by an intuitive approach to calculus and the study of mathematical connections in the curriculum. For Early Childhood and Middle Grade majors only. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 3032.

MATH 5136/5136G - History of Mathematics 3-0-3
A survey of the historical development of mathematics. The emphasis will be on mathematical concepts, problem solving, and pedagogy from a historical perspective. Intended for Math Education majors. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 2242 or permission of instructor.
MATH 5230/5230G - Advanced Geometry 3-0-3
Selected topics from Euclidean and Non-Euclidean Geometry. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 3130 or one year of teaching high school mathematics.

MATH 5232/5232G - Mathematical Applications 3-0-3
Using Technology
Selected mathematical topics used in research, problem solving, and demonstrations will be investigated with the use of current technologies. Intended for mathematics education majors. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 2243 and 3 hours of mathematics at the junior level or above.

MATH 5234/5234G - Number Theory 3-0-3
Introduction to the principal ideas of elementary number theory: Divisibility, congruencies, linear Diophantine Equations, Fermat’s Theorem, Euler’s Theorem, Pythagorean triples and the distribution of primes. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 2332.

MATH 5236/5236G - Patterns of Problem Solving 3-0-3
A study of patterns involved in solving problems. Particular attention is paid to Pólya’s heuristics and his characterization of the problem solving process. The student will also solve many problems. The application of these techniques by mathematics teachers will be stressed. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 1441 or permission of instructor.

MATH 5238/5238G - Special Problems in Mathematics 3-0-3
Topics of special need and interest to mathematics teachers will be studied. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Permission of instructor.

MATH 5330/5330G - Operations Research 3-0-3
Introduction to basic deterministic and probabilistic operations research models of decision problems. Mathematical methods of optimization for these models will be analyzed both analytically and numerically. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: MATH 2331 and MATH 3337 or permission of instructor.

MATH 5331/5331G - Analysis I 3-0-3
Provides a transition from calculus to real analysis. Emphasis will be placed on understanding and constructing mathematical proofs. Rigorous development of fundamental concepts in analysis, including topics such as relations, functions, limits of functions, cardinality, topology of the reals, completeness axiom, compact sets, sequences, subsequences, continuity and differentiability. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: MATH 2243 and MATH 2332.

MATH 5332/5332G - Analysis II 3-0-3
A continuation of Analysis I including topics such as Riemann integration, infinite series, sequences and series of functions, metric spaces, and normed spaces. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 5331/5331G.

MATH 5334/5334G - Modern Algebra II 3-0-3
A continuation of MATH 3333. Applications and deeper properties of the fundamental algebraic structures, isomorphisms of groups, rings and fields, quotient structures, vector spaces and Euclidean constructions. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 3333.

MATH 5335/5335G - Intermediate Linear Algebra 3-0-3
General vector spaces and bases, linear operators, least squares problems, eigenvalue problems, and applications of these concepts. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of “C” in MATH 2331 and MATH 2332.

MATH 5336/5336G - Applied Numerical Methods 3-0-3
Introduction to scientific computation. Solutions of linear and nonlinear equations, polynomial interpolation, numerical differentiation and integration, data fitting, and other numerical methods. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: MATH 2331 and knowledge of a programming language.

MATH 5338/5338G - Applied Mathematics 3-0-3
Theory and applications of mathematical methods such as power series solutions, Laplace Transforms, vector calculus, Fourier series, integrals and partial differential equations. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 3230.

MATH 5339/5339G - Partial Differential Equations 3-0-3
An in-depth study of analytic and numeric solutions to partial differential equations with at least three independent variables, and Green’s function. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: MATH 5338/5338G; or MATH 3230 and permission of instructor.

MATH 5430/5430G - Mathematical Models in Population Ecology 3-0-3
An introduction to discrete and continuous time models that arise from the study of ecological populations. Difference equation, matrix equation, and ordinary differential equation models for populations will be formulated and analyzed both analytically and numerically. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 1441 or permission of instructor.

MATH 5434/5434G - Functions of a Complex Variable 3-0-3
Topics in complex variables including functions, limits, derivatives, integrals, the Cauchy-Riemann conditions, series representation of functions, Cauchy Integral formula, and elementary conformal mappings. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: MATH 2332.

MATH 5436/5436G - Introduction to Fractals 3-0-3
Fractals as nonlinear systems involving feedback and iteration. Classical fractals, limits and self-similarity. Fractal dimensions. Encoding of fractals. Decoding of fractals. Iterated function systems. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: MATH 2243, MATH 2332 and MATH 5335.

MATH 5530/5530G - Math for Scientists and Engineers 3-0-3
A survey of topics useful in the study of areas of applied mathematics such as physics, engineering and computer science. Topics include vector calculus, linear algebra, complex variables, numerical methods, Fourier series and partial differential equations. For non-math majors only. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: MATH 2243 and MATH 3230.

MATH 5539/5539G - Mathematical Models 3-0-3
A study of model construction and types of models. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: MATH 3230, CSCI 1301, and 15 additional hours of upper-level mathematics.

MATH 6030 - Special Topics for Mathematics Education 3-0-3
Topics of special need and interest to mathematics teachers will be studied. Prerequisite: Permission of instructor.

MATH 6130 - Fundamental Concepts of Arithmetic and Geometry 3-0-3
Emphasizes the mathematical content indicated, but time is also spent in exploring concepts in basic statistics and probability. There is also a field component for this course that teachers will complete by implementing course activities in their classrooms. This course is intended for teachers seeking a P-5 Mathematics Endorsement on their teaching certificate. Prerequisite: Admission to P-5 Endorsement Program.

MATH 6230 - Fundamental Ideas of Calculus 3-0-3
A review of the principal ideas of calculus, with emphases on concepts. Intended for Mathematics Education majors. Prerequisites: MATH 1441 and permission of instructor.

MATH 6232 - Fundamental Ideas of Set Theory and Topology 3-0-3
The elementary theory of sets and operations on sets, as well as an introduction to point set topology. Intended for Mathematics Education majors. Prerequisite: Permission of instructor.

MATH 6330 - Fundamental Ideas of Probability 3-0-3
Fundamental ideas of probability with emphasis on topics, examples, and applications for secondary mathematics teachers. Intended for Mathematics Education majors. Prerequisite: MATH 2242 or permission of instructor.
MATH 6430 - Fundamental Ideas of Algebra 3-0-3
The elementary theory of groups, rings and linear algebra. Intended for Mathematics Education majors. Prerequisite: Three hours of mathematics above the sophomore level or one year of teaching high school mathematics.

MATH 6432 - Fundamental Ideas of Statistics 3-0-3
Topics will include descriptive statistics, point and interval estimation, hypothesis testing, correlation and nonparametric statistics. In addition, students will work on projects which will be appropriate for teachers to use to illustrate the topics of secondary school students. Intended for Mathematics Education majors. Prerequisite: Three hours of mathematics above the sophomore level.

MATH 7090 - Selected Topics in Linear Algebra 1-3-0
Selected topics from Linear Algebra Specialized study in a selected area of Applied Mathematics. Prerequisite: Permission of instructor.

MATH 7130 - Mathematical Optimization Theory 3-0-3
Necessity and sufficiency conditions for constrained optimization problems are derived. The derived conditions are used to help answer questions concerning whether a given optimization problem has a solution, whether a solution is unique and how a solution can be found. Prerequisite: MATH 3331.

MATH 7132 - Methods of Optimization 3-0-3
Selected methods for unconstrained and constrained optimization problems with applications. Prerequisite: MATH 5300/5303 or permission of instructor.

MATH 7231 - Advanced Numerical Analysis I 3-0-3
An in-depth study of computer arithmetic, the solution of non-linear equations, the solution of systems of linear equations, eigenvalue problems and interpolation. Algorithms and methods are developed and then implemented on a computer. Prerequisite: MATH 5336.

MATH 7232 - Advanced Numerical Analysis II 3-0-3
An in-depth study of orthogonal polynomials, numerical integration, and numerical solutions of ordinary and partial differential equations. Development and computer implementation of algorithms and methods. Prerequisite: MATH 7231.

MATH 7234 - Advanced Applied Linear Algebra 3-0-3
A study of advanced topics in linear algebra including various applied problems whose solutions rely on techniques and results from the theory of linear spaces and matrices. Prerequisites: MATH 3230 and MATH 5335.

MATH 7236 - Advanced Ordinary Differential Equations 3-0-3
Linear and nonlinear ordinary differential equations and their applications to physics and engineering. Topics include solution and stability of systems of equations, approximate solutions, and phase plane analysis. Prerequisite: MATH 3230.

MATH 7330 - Advanced Applied Analysis 3-0-3
Applications of duality, linear operators, compact and Fredholm operators, Banach algebras, and Hilbert spaces. Prerequisites: MATH 3230, MATH 3331, MATH 5332, and MATH 5335.

MATH 7331 - Real Analysis 3-0-3
Theory of Lebesgue measure and integration, monotone convergence, the dominated convergence theorem, Fubini’s Theorem, Radon-Nikodym theorem, Riesz representation theorem, Lp and lp spaces, functions of finite variation, Stieltjes integral, absolute continuity. Prerequisite: MATH 5332/5332G.

MATH 7332 - Advanced Partial Differential Equations 3-0-3
Theory of partial differential equations. Topics include Fourier series, boundary value problems of partial differential equations, applications of special functions, method of characteristics, and classification of second order equations. Prerequisite: MATH 5338.

MATH 7890 - Directed Study in Applied Mathematics 1-3-0
Directed study under faculty supervision. Prerequisite: Permission of instructor and department chair.

MATH 7899 - Research Project in Applied Mathematics 1-6-0
Research project advanced toward a real world problem. Prerequisite: Permission of project advisor and permission of department chairs.

Middle Grades Education (COE)
MGED 3131 - Nature and Curriculum Needs of the Middle Grades Learner 3-2-3
Examines the curriculum, instruction and organization of middle grades schools. Provides a substantial knowledge based in the nature and needs of early adolescents, as well as, in middle school curriculum and instruction. The course also includes a field component. Prerequisite: Admission to Teacher Education Program.

MGED 3232 - Methods of Teaching Science in the Middle Grades 3-2-3
Provides an overview of the basic program of science instruction in the middle grades. Research in science education, teaching techniques and methods applicable for this age level, and organization of lessons are studied. Emphasis will be placed on science concepts and principles, an application of concepts to real life situations, science and technology and the development and implementation of hands-on activities. Includes a field based component which requires planning and teaching a science unit in a middle school classroom. Prerequisites: Admission to Teacher Education Program, MGED 3131, MGED 3332, MGED 3432, and MGED 3731. Corequisites: MGED 3532 and MGED 3731.

MGED 3332 - Methods of Teaching Language Arts/Reading in the Middle Grades 3-2-3
Designed to study current trends for integrating language arts across the curriculum in the middle school setting. Emphasis is placed on the natural connections between writing, reading and oral expression. Instructional strategies that link writing, reading, literature and language across the curriculum will be explored. Appropriate language arts curriculum, including content and pedagogy, for early adolescents will be addressed. Students will plan and teach an integrated language arts/social studies unit in a middle school classroom. Prerequisites: MGED 3131 and admission to Teacher Education Program. Corequisites: MGED 3432 and MGED 3731.

MGED 3432 - Methods of Teaching Social Studies in the Middle Grades 3-2-3
A study of the role of social studies in the education of early adolescents, with emphasis on understanding the historical and philosophical foundations of social studies, curriculum organization, planning and evaluation of instruction, social studies techniques and materials appropriate for early adolescent learners and current trends in social studies. Students will plan and teach an integrated social studies/language arts unit in a middle school classroom. Prerequisites: MGED 3131 and admission to Teacher Education Program. Corequisites: MGED 3432 and MGED 3731.

MGED 3532 - Methods of Teaching Mathematics in the Middle Grades 3-2-3
A study of teaching methods and materials, curriculum content, assessment strategies, and trends in middle grade mathematics. A field based component which requires planning and teaching a mathematics unit in a middle grade classroom is required. Prerequisites: Admission to Teacher Education Program, MGED 3131, MGED 3332, MGED 3432, and MGED 3731. Corequisites: MGED 3232, MGED 3732, and EDUF 3233.

MGED 3731 - Middle School Practicum I 0-3-3
This practicum involves structured observations, as well as planning and teaching an integrated language arts/social studies instructional unit in a middle grades classroom. Emphasis is placed on classroom management, instructional strategies for diverse populations of students, the integration of technology, classroom environment, and assessment of student learning. Prerequisites: MGED 3131 and admission to Teacher Education Program. Corequisites: MGED 3332 and MGED 3432.

MGED 3732 - Middle School Practicum II 0-3-3
This practicum involves structured observations, as well as planning and teaching instructional units in mathematics and science in a middle grades classroom. Emphasis is placed on classroom management, classroom environment, instructional strategies for diverse populations of students, the integration of technology, and assessment of student learning. Prerequisites: MGED 3131, MGED 3332, MGED 3731 and admission to Teacher Education Program. Corequisites: MGED 3232, MGED 3552, and EDUF 3233.

MGED 4799 - Student Teaching in Middle Grades 0-40-9
A period of guided teaching during which the student, under the direction of a cooperating teacher, takes increasing responsibility for leading the school experiences of a given group of learners over a period of consecutive weeks and engages more or less directly in many of the activities which constitute the wide range of a teacher’s school responsibilities. Prerequisites: Completion of the teaching field and professional education courses and admission to the Student Teaching Program.
MGED 6131 - Curriculum and Methods for the Middle Grades

An introduction to the middle school concept that emphasizes the developmental needs of early adolescents in the context of patterns of school organization, curriculum and instructional strategies that are responsive to the intellectual, social, emotional and physical needs of adolescents. Topics will include historical development, school organization, instructional methods, assessments, materials to enhance student learning, and special programs for early adolescent learners. Emphasis will be placed on interdisciplinatory lessons and units appropriate for early adolescents. Candidates will design an instructional unit that demonstrates effective instructional strategies; appropriate content; multiple assessments of student learning; and a range of learning resources, including technology. Prerequisite: Admission to Teacher Education Program.

MGED 8131 - Integrated Curriculum for the Middle Grades

A study of middle level curriculum issues and trends that focus on a variety of strategies that integrate the curriculum. Emphasis will be placed on various models for integrating the curriculum in order to be responsive to the transitional needs of the early adolescent.

MGED 8132 - Effective Middle Schools

A study of student development concepts, school structures and practices, and the important teaching and learning strategies associated with effective middle level schools. Emphasis is placed upon the relationships that exist between student development, school organization and practice and strategies for supporting effective learning and interaction among diverse learners. The course includes field-based research, project, analysis and design of significant portfolio evidence of successful interaction with the course content and other learning team members. Some components will typically be network based.

MGED 8133 - Trends, Issues, and Research in Middle Level Education

Designed to help practitioners develop critical frameworks for evaluating research within the context of current trends and issues in middle level education. Emphasis is placed on specific research findings and their application to practice, in addition to the development of analytical and communicative skills needed to improve schools for young adolescents. Students will also identify and formulate research questions worthy of investigation. Prerequisites: Admission to the Ed.S. program in Middle Grades Education or an Ed.D. program.

MGED 8637 - Seminar in Middle Grades Education

A capstone course for the M.Ed. Middle Grades program. Examines the current status and future directions in middle level education. Current research in young adolescent development, curriculum, school organization and pedagogy will serve as the focus of the course. Contains a major reading writing experience that emphasizes the relationship between theory and practice. Attention will also be given to teacher leadership roles. A field based project is included. Prerequisites: MGED 8131 and MGED 8132.

Management (COBA)

MGNT 3130/3130S/3130H - Management and Organizational Behavior

Examines the various perspectives on managing organizations and the basic management functions of planning, organizing, leading, and controlling. Emphasis is placed on the functions of organizing and leading. Designed to complement the planning and controlling skills taught in MGNT 3430. Organizational behavior topics such as motivation, communication, and decision-making are also covered. Prerequisite: Pre-business and undeclared students must meet the requirements for BBA status. Students with declared majors in other fields must have completed a minimum of 55 semester hours.

MGNT 3134/3134S - Behavior in Organizations

An advanced course that examines the determinants and consequences of human behavior in formal organizations. Specific focus is on the individual, interpersonal, and group processes which underlie Organizational Behavior. Prerequisites: A minimum grade of "C" in MGNT 3130.

MGNT 3234 - Entrepreneurship/Small Business

A study of the business formation process focusing on the behaviors of entrepreneurs and the creation of new businesses in dynamic environments. Prerequisite: A minimum grade of "C" in FINC 3131, MKTG 3131, and MGNT 3130, or permission of instructor.

MGNT 3334 - Human Resource Management

A survey course of the fundamentals of human resource management in organizations. The basics of Human Resource Management, systems, policies, and practices relative to functional areas such as workforce planning, employment, compensation and benefits, employee and labor relations, occupational health, safety and security will be covered. Prerequisites: A minimum grade of "C" in MGNT 3130.

MGNT 3430 - Operations Management

Application of the principles of management to the planning, control, design, operation, and updating of operational systems both in the manufacturing and service sectors. Prerequisite: A minimum grade of "C" in BUSA 3131 or STAT 2231.

MGNT 3437 - Service Operations Management

Students will become familiar with the various Operations Management decisions required in managing a service business. Analytical models which support these decisions will be presented and discussed. Students will also become familiar with application of these principles and models through analysis of actual firms and service firm cases. Prerequisites: A minimum grade of "C" in BUSA 3131 or STAT 2231.

MGNT 4230/4230S - International Management

Provides an appreciation for and an understanding of the operations of multinational firms. Prevailing management practices of selected international companies are studied in-depth. A semester long project with a cultural focus is required. Prerequisite: A minimum grade of "C" in MGNT 3130.

MGNT 4234 - Small Business Management

Provides a complete coverage of small business operations with proper balance between business functions and the management function. Prerequisite: A minimum grade of "C" in FINC 3131, MKTG 3131, and MGNT 3130 or permission of instructor.

MGNT 4235 - Applied Small Business Management

An applied course which involves developing a major case project tailored to the needs of an actual business. Prerequisite: A minimum grade of "C" in FINC 3131, MKTG 3131, and MGNT 3130 or permission of instructor.

MGNT 4332 - Compensation and Benefits

Designed to provide the knowledge and skills required to design and implement comprehensive compensation and benefit systems. Topics include the development of compensation strategy, internal pay structures, the role of job analysis and performance evaluation, the rewarding of individuals and groups, and administration of employee benefits. Prerequisite: A minimum grade of "C" in MGNT 3130.

MGNT 4333/4333S - Human Resource Information Systems

A study of how human resource information systems are applied in organizations to support organizational strategy, improve efficiency and flexibility, increase productivity and performance, and ensure compliance with employment law. Continuation of MUSC 1421, plus development of sight-reading, accompanying and keyboard harmony skills. Prerequisite: MUSC 1421.

MUSC 1511 - Group Piano I 0-0-1
The study of keyboard theory and development of functional piano skills in the elementary level, with emphasis on harmonization, sight-reading, transposition, improvisation, and scales and chords.
MUSC 1512 - Group Piano II 0-2-1
Continuation of skills begun in MUSC 1511. Prerequisite: MUSC 1511 or permission of instructor.

MUSC 1513 - Sight-Singing/Ear Training I 1-1-1
Development in aural perception and sight-singing skills to parallel the work in MUSC 1331. Emphasizes melodic and harmonic dictation and sight-singing. Lab work will utilize the Music CAI Lab.

MUSC 1514 - Sight-Singing/Ear Training II 1-1-1
Development in aural perception and sight-singing skills to parallel the work in MUSC 1332. Emphasizes melodic and harmonic dictation and sight-singing. Lab work will utilize the Music CAI Lab. Prerequisites: MUSC 1331 and MUSC 1513.

MUSC 1515/1515S - Technology in Music 1-1-1
Introduction to the uses of technology in music, including acoustics, hardware/software, digital keyboards and MIDI sequence recording and editing. Supervised lab work with digital synthesizers and computers.

MUSC 2211 - Instrumental Methods I 2-0-1
Designed for the choral music education student. Provides the student an overview of theoretical and practical knowledge of the woodwind and string families.

MUSC 2212 - Instrumental Methods II 2-0-1
Designed for the choral music education student. Provides the student an overview of theoretical and practical knowledge of the brass and percussion families.

MUSC 2311 - Jazz Improvisation I 1-0-1
Theory and techniques of jazz improvisation with emphasis on functional harmony, melodic form, and development of style. Prerequisites: MUSC 1331, MUSC 1332, MUSC 1513 and MUSC 1514.

MUSC 2312 - Jazz Improvisation II 1-0-1
Theory and techniques of jazz improvisation with emphasis on functional harmony, melodic form, and development of style. Prerequisite: MUSC 2311.

MUSC 2321/2321S - Composition I 2-0-2
Creative writing for small ensembles with emphasis on notation, form, and individual stylistic development. Performance of works encouraged. Prerequisites: MUSC 1332 and MUSC 1514.

MUSC 2322/2322S - Composition II 2-0-2
Creative writing for small ensembles with emphasis on notation, form, and individual stylistic development. Performance of works encouraged. Prerequisite: MUSC 2321.

MUSC 2333 - Music Theory III 3-0-3
A study of traditional, chromatic and twentieth century forms and melodic/harmonic practices. Exercises in composition are included. Prerequisites: MUSC 1332 and MUSC 1514.

MUSC 2334 - Music Theory IV 3-0-3
A study of traditional, chromatic and twentieth century forms and melodic/harmonic practices. Exercises in composition are included. Prerequisites: MUSC 2333 and MUSC 2513.

MUSC 2411 - Diction for Singers I 1-1-1
Focuses on the study of the International Phonetic Alphabet and its application to the Italian, English and Latin languages within the standard vocal literature.

Study of the historical development of the German and English song literature, focusing on selected works of representative composers in each stylistic period. Prerequisites: MUSC 2411 and MUSC 2412 or permission of instructor.

MUSC 3432 - Piano Pedagogy II 3-0-3
An introduction to the teaching of piano at the pre-school, adult and intermediate levels.

MUSC 3531 - Electronic/Digital Music I 3-0-3
Comprises the stylistic and formal analysis of representative solo piano music of the twentieth century. Prerequisite: Permission of instructor.

MUSC 4221 - Marching Band Techniques 2-0-2
Theoretical and practical approach to the instruction and direction of marching bands.

MUSC 4321/4321S - Advanced Composition I 2-0-2
Creative writing for large ensembles, including electronic/digital music. Performance of works emphasized. Prerequisite: MUSC 3522.

MUSC 4322/4322S - Advanced Composition II 2-0-2
Creative writing for large ensembles, including electronic/digital music. Performance of works emphasized. Prerequisite: MUSC 4321.

MUSC 4331 - Analytical Techniques 3-0-3
Techniques for analyzing form and other stylistic elements of music, emphasizing works from the common practice period; preparation of time lines and other graphic representations; score reading of orchestral scores with transposing instruments. Prerequisite: Completion of sophomore level music theory sequence.

MUSC 4332 - Counterpoint 3-0-3
Practical music writing experience in sixteenth, eighteenth, and twentieth century contrapuntal styles. Prerequisites: MUSC 2334 and MUSC 2514.

MUSC 4411 - Basic Conducting 1-0-1
A practical course directed toward the cultivation and development of the skills required for students who plan to conduct music ensembles.

MUSC 4421 - Voice Pedagogy 2-1-2
The development of the teaching of singing through the study of its history and the investigation and application of research in vocal production and pedagogy. Supervised teaching of applied lessons and a survey of teaching materials. Prerequisites: MUSC 2512 or MUSC 1422 and MUSC 2514 or permission of instructor.

MUSC 4422 - Introduction to Conducting 2-0-2
Designed to give the student basic skills in conducting. The student will become familiar with standard gesture patterns and techniques while acquiring knowledge of various types of conducted ensembles. Prerequisites: MUSC 2512 or MUSC 1422; MUSC 2234 and MUSC 2514.

MUSC 4431 - Choral Conducting and Literature 3-0-3
Designed to provide students with in-depth knowledge of choral conducting techniques and literature. Students will study appropriate conducting gestures specific to choral ensembles while acquiring knowledge of the great monuments of choral literature. Prerequisite: MUSC 4422.

MUSC 4432 - Instrumental Conducting and Literature 3-0-3
Development of conducting skills through the study of literature appropriate for all levels of instrumental ensembles.

MUSC 4531 - Secondary Choral Methods and Materials 3-1-3
Designed to provide the future choral music educator with rehearsal and teaching skills necessary to function in the choral music classroom. Students will learn rehearsal and teaching techniques, management and administration strategies, and develop specific skills related to becoming an effective teacher. Prerequisites: MUSC 4431 and admission to Teacher Education Program required.

MUSC 4532 - Secondary Instrumental Methods and Materials 3-1-3
A study of a variety of curricular trends and methods for teaching music at the secondary level. Opportunities will be provided for observing, planning, and teaching in the secondary school classrooms. Prerequisites: MUSC 4432. Admission to Teacher Education Program required.

MUSC 4533 - Electronic/Digital Music II 3-0-3
A study and application of techniques of digital audio sequencing, sample recording/editing, multi-media production, and advanced communication techniques. Individual projects. Prerequisite: MUSC 3531.

MUSC 4611 - Seminar in Music Education 1-1-1
Designed to provide additional field experiences for music education majors in a seminar format. Should be taken in conjunction with the appropriate music methods course (MUSC 4531, 4532, or 3232). Prerequisite: Admission to Teacher Education Program.

MUSC 4891/4891S - Special Problems in Music (1-9)-0-(1-9)
Topics vary with individual professor.

MUSC 5031/5031G/5031S - Selected Topics in Music 3-0-3
Topics vary with individual professor. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

MUSC 5230/5230G - Music in the Baroque Period 3-0-3
A survey of major historical trends, aesthetic and stylistic developments, significant figures, and selected repertory from the Baroque period. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

Provides a survey of the historical development of wind band literature and ensembles from the Renaissance to the present, with respect to composers, composition, performers, instrumentation, and events.

MUSC 7435 - Advanced Marching Band Techniques 3-0-3
A theoretical and practical approach to the instruction and direction of marching bands.

MUSC 7531 - Advanced Electronic/Digital Music 3-0-3
For the experienced electronic/digital musician; presents and develops current uses of technology, including sequence recording/editing, sample recording/editing and multi-media production. Prerequisite: MUSC 6531 or equivalent.

MUSC 7532 - Producing Music with Technology 2-2-3
Students will be proficient in the production of music through MIDI and computer-based sequencing programs including MIDI sequencing using software packages, peripheral devices, electronic orchestration, digital audio in multiple file formats, multitrack recording, post-processing of multitrack recordings, and composition of original music. Prerequisite: A minimum grade of "C" in MUSC 6531 or permission of instructor.

MUSC 7533 - Sound Design and Processing 2-2-3
Manipulating common synthesizer components to design original timbres, including composition of original material in the electro-acoustic style. Examination of recording techniques in an emphasis on digital recording and processing. Prerequisite: A minimum grade of "C" in MUSC 6531 or permission of instructor.

MUSC 7631 - Seminar in Music Theory 3-0-3
A capstone course to review concepts of music theory and examine current systems and materials used in teaching music theory.

MUSC 7632 - Interdisciplinary Music Education 3-0-3
Examines ways of integrating music education with other disciplines, focusing on social studies, language, and visual arts. Special attention will be given to using music as a tool to address issues of ethnocentrism and multiculturalism. Intended for both music and non-specialists, who will each contribute their point of view in a seminar setting.

MUSC 7891/7891S - Special Problems in Music (1-9-0)-(1-9)
Topics vary with individual professor.

MUSC 7912 - Music Technology Final Project 0-3-3
Planned project directed by the student’s project advisor. Prerequisite: Permission of the student’s project advisor and graduate coordinator.

MUSC 7913 - Music Education Final Project 0-0-3
Planned project, written or practical, directed by the student’s project advisor. Prerequisites: Permission of the student’s project advisor and the graduate coordinator.

MUSC 7999 - Thesis 0-0-1(6)
Planned research and writing directed by the student’s thesis advisor. Prerequisites: Permission of the student’s thesis advisor and the graduate coordinator.

MUSC 8231 - Music Administration 3-0-3
An introduction to the various issues in music administration including, but not necessarily limited to, those relating to academic leadership, the decision-making process, personnel matters, problem solving, new technologies in music, resource planning, development and assessment.

Music Ensemble (CLASS)
MUSE - Ensembles
Ensembles of various types are available to all students (some through audition), at both undergraduate and graduate levels. Ensembles carry 1 hour credit.
Nutrition and Food Science (CHHS)
NTFS 2514 - Professional Practice Strategies 1-0-1
Presents an overview of the career opportunities in nutrition, food science and dietetics. Focuses on the development of personal and professional skills required for success in the professions.

NTFS 2530 - Nutrition and Health 3-0-3
The basic principles of nutrition and their application to health and wellness. The interrelationship between personal nutrition and health maintenance throughout the life cycle is included.

NTFS 2534 - Introductory Food Science 1-4-3
Develops basic understanding of the principles of food preparation. Applies principles to food preparation for individuals, families and commercial food services.

NTFS 2535 - Nutrition and Diet Therapy 3-0-3
Provides a basic understanding of the importance of nutrition in health maintenance and disease. The role of the nurse/health care provider in the nutritional assessment and the delivery of nutrition support services for individuals with illness and physical stress are emphasized. Prerequisite: 8-hour laboratory science or permission of instructor.

NTFS 3534 - Human Nutrition 3-0-3
The fundamental principles of human nutrition and their application to food selection are discussed. Emphasis is placed upon the recommended dietary allowances and other dietary guidelines which promote health maintenance and disease prevention. Prerequisite: CHEM 1140 or permission of instructor.

NTFS 3535 - Life Cycle Nutrition 3-0-3
Investigates the role of nutrition and dietary factors on the growth, development and maintenance of health in individuals from birth through aging. Prerequisite: NTFS 2530, NTFS 2535, NTFS 3534, or permission of instructor.

NTFS 3536 - Meal Management 1-4-3
Principles of nutrition and food science are integrated with the management process in menu planning and quality meal service. Prerequisites: NTFS 2530 or NTFS 2535 or NTFS 3534 and NTFS 3534.

NTFS 3537 - Advanced Food Science 1-4-3
Considers the chemical, physical, and biological properties of food ingredients. Emphasis is placed on investigating the relationship between preparation methods, proportions of ingredients and final product quality. Prerequisite: NTFS 2534, NTFS 3534, CHEM 1140 or permission of instructor.

NTFS 3730 - Quantity Food Practicum 0-0-3
Food Science theories and principles are applied in an institutional food service facility. Food service production skills and techniques are developed in this course as are skills in the application of sanitation regulations. To be taken in conjunction with HNRM 3324. Prerequisite: HNRM 2334, NTFS 2534, BIOL 2240 or permission of instructor.

NTFS 4535 - Community Nutrition 3-0-3
Explores the role of nutritionists in the delivery of nutrition services through community agencies and health and wellness programs. Planning, implementation, monitoring and evaluation of community-based programs are emphasized. The role of government and the impact of the legislative process on the provision of services is examined. Prerequisites: NTFS 2530 or NTFS 3535 or NTFS 3534 and NTFS 3535 or permission of instructor.

NTFS 4536 - Metabolic Nutrition 3-0-3
Considers the principles of nutrition science with special emphasis on integration of macro and micronutrient. Prerequisite: CHEM 2542, KINS 2531/2511, KINS 2532/2512, NTFS 3534 or permission of instructor.

NTFS 4537 - Experimental Food Science 1-4-3
Considers the effects of composition, handling, and preparation techniques on food product quality. Emphasis is placed on basic concepts of research methodology, statistical analysis, and preparation of detailed technical reports. Prerequisite: NTFS 3537, STAT 2231 or permission of instructor.

NTFS 4538 - Medical Nutrition Therapy 3-0-3
Investigates the role and benefits of nutritional support and therapy in the metabolic and pathophysiological changes associated with disease in humans. Teaches the application and documentation of the nutritional care process to the needs of patients. Prerequisite: NTFS 4536 or permission of instructor.

NTFS 4539 - Issues and Trends in Food Science 3-0-3
A study of current trends and issues in the field of food science and technology. Issues related to product development, marketing and regulations and standards will be addressed. Prerequisites: NTFS 3537 or permission of instructor.

Nursing (CHHS)
NURS 3129 - Foundational Concepts of Professional Nursing 2-0-2
This course is designed to introduce the student to the emerging issues and domains of professional nursing. Within a developmental series of activities, opportunity is provided to explore educational, political and practice components of the nursing profession. Learners are introduced to the BSN Program’s Framework of Health Promotion Through Life. The concepts of person, nursing, health, environment, health promotion, human caring, communication, ethical principles, critical thinking, empowerment, research, cultural sensitivity, and collaborative professional group process are explored and applied to specific professional situations. The student is exposed to the historical aspects of nursing and healthcare environment. Healthcare delivery systems, barriers to healthcare, and legal aspects of nursing are discussed. The ANA Standards of Practice, ANA code of Ethics, and AACN Essentials of Baccalaureate Nursing Education are introduced in this course with specific emphasis on caring and ethics.

NURS 3130 - Critical Inquiry: Nursing Research 3-0-3
Focuses upon the research process and enhancement of critical thinking skills. Students learn to critique, analyze, and apply research findings to health promotion of persons, families, groups, and communities. The relationship of nursing research to nursing theory and practice is explored.
Prerequisites: NURS 3129 or NURS 3139, and STAT 2231.

NURS 3131 - Therapeutic Nursing Interventions: Health Promotion I 3-0-3
Builds a foundation for professional nursing practice including fundamental concepts and principles related to basic nursing care for a culturally diverse rural population. Emphasis is on the acquisition of basic nursing skills and utilization of enabling factors in the performance of safe and appropriate therapeutic nursing interventions. The course incorporates knowledge gained from the arts and sciences into the practice of nursing. Prerequisite: Admission to B.S.N. program and prior or concurrent enrollment in NURS 3129. Corequisites: NURS 3531, NURS 3231, and NURS 3230.

NURS 3133 - Mental Health Nursing: Health Promotion III 3-0-3
Introduces major theoretical concepts in mental health which relate to the nursing care of persons, families, groups, and communities. Utilizing the Health Promotion framework, students conceptualize how the enabling factors are incorporated into the assessment of needs and the planning of care of persons with mental health problems. Emphasis is placed on the examination of mental health alterations and the various roles and functions of the professional mental health nurse. Prerequisites: NURS 3129, NURS 3131, NURS 3331, NURS 3230, and NURS 3231. Corequisite: NURS 3323.

NURS 3139 - Conceptual Basis of Nursing: Health Promotion Throughout Life 3-0-3
Provides an introduction to the B.S.N. Program’s framework of Health Promotion Through Life. The concepts of person, nursing, health, environment, health promotion, human caring, communication, ethical principles, critical thinking, empowerment, research, cultural sensitivity, and healthcare technology are explored and applied to specific case situations. The student is exposed to the historical aspects of nursing and healthcare, with emphasis on the rural environment, as well as healthcare policy and financial implications in the current healthcare arena. Healthcare delivery systems, barriers to healthcare, and legal aspects of nursing are discussed. The ANA Standards of Nursing Practice are introduced in this course with specific emphasis on caring and ethics.

NURS 3142 - Nursing Care of Adults: Health Promotion II 4-0-4
Focuses on Health Promotion Throughout Life incorporating primary, secondary, and tertiary prevention as they apply to illness affecting adults. Application of the nursing process through nurse-person partnerships regarding promotion, maintenance, or restoration of health is emphasized through the use of case studies. Prerequisites: NURS 3129, NURS 3131, NURS 3331, NURS 3231, and NURS 3333. Corequisite: NURS 3342.

NURS 3230 - Health Assessment Across the Lifespan 2-3-3
The theoretical and laboratory course focuses on the physical, psychosocial, socioeconomic, nutritional, cultural, and spiritual parameters of persons across the lifespan. Facilitates the development of health assessment skills within the Health Promotion framework. Prerequisites: Admission to B.S.N. program or permission of instructor and prior or concurrent enrollment in NURS 3129. Corequisite: NURS 3139.
NURS 3231 - Pharmacology and Other Therapeutic Modalities 2-3-3
Introduces pharmacologic and other therapeutic modalities appropriate to culturally diverse populations across the lifespan. Ethical, legal, and teaching responsibilities are delineated. Emphasis is placed on roles and responsibilities of the nurse in collaboration with the multidisciplinary team to facilitate health promotion. Prerequisite: Admission to B.S.N. program and prior or concurrent enrollment in NURS 3129. Corequisite: NURS 3139.

NURS 3323 - Mental Health Promotion: Practicum III 0-6-2
This practicum allows students to synthesize and apply the major mental health concepts in providing nursing care to persons, families, groups, and communities. Utilizing the Health Promotion framework, students interpret and analyze the local context to generate knowledge acquired in NURS 3131 with emphasis on the performance of basic therapeutic nursing skills. 9 clinical hrs/ wk. Prerequisite: Admission to B.S.N. program and prior or concurrent enrollment in NURS 3129. Corequisites: NURS 3131, NURS 3331, NURS 3220, and NURS 3231. Corequisite: NURS 3133.

NURS 3331 - Therapeutic Nursing Interventions: Practicum I 0-9-3
Focuses on the acquisition of basic nursing skills and utilization of enabling factors needed to provide safe and appropriate therapeutic nursing interventions. Prerequisite: knowledge acquired in NURS 3311 will be expanded in the performance of basic therapeutic nursing skills. 9 clinical hrs/wk. Prerequisite: Admission to B.S.N. program and prior or concurrent enrollment in NURS 3129. Corequisites: NURS 3131, NURS 3331, NURS 3220, and NURS 3231.

NURS 3342 - Adult Health Promotion: Practicum II 0-12-4
Provides clinical experiences regarding health promotion in rural/urban primary, secondary, and tertiary health care settings. Students use the nursing process and other analytical tools to provide care to persons experiencing illnesses. Students build on skills previously mastered while acquiring new skills needed to administer safe and effective care. The practicum gives students the opportunity to integrate theory with clinical practice thereby fostering critical thinking in the solution of problems. Prerequisites: NURS 3129, NURS 3131, NURS 3331, NURS 3220, and NURS 3231. Corequisite: NURS 3142.

NURS 4090/4090S - Selected Topics in Nursing (0-3)-(0-9)-(1-6)
This course provides a mechanism for offering selected topics in nursing. Prerequisite: Permission of the instructor.

NURS 4130 - Perspectives on Living While Dying 3-0-3
The web-based course lays a foundation for students’ future interaction with and care of individuals who are dying. Strategies for improving the quality of living during dying and death are examined in the context of application. The physiology of dying and methods of handling circumstances surmounting the process of dying and death are included. The course is directed toward students in helping professions such as nursing, health science, sociology, psychology, and the general student population. Prerequisite: Junior/Senior level or permission of instructor.

NURS 4131 - Population Health Care Strategies 3-0-3
Overview of the levels of prevention, epidemiological principles and their impact on health promotion and disease prevention. A major focus is primary prevention relative to exercise/activity. Emphasis is placed on the clinical application of activity for improving health. Prerequisite: Junior/Senior level or permission of instructor.

NURS 4132/4132S - Complementary Therapeutic Modalities 3-0-3
Introduces culturally specific therapeutic modalities that are complementary to western health care. These health care modalities are examined relative to their combination with scientific therapies and professional and lay healers. Ethical, legal, and teaching responsibilities are elaborated. Emphasis is placed on the roles and responsibilities of the nurse in collaboration with the client and the multidisciplinary team to facilitate health promotion.

NURS 4133 - Complex Nursing Concepts 3-0-3
The course provides an opportunity for thorough analyses of complex concepts relative to nursing such as person, environment, health, holistic nursing, caring, rurality, spirituality, and power. Multiple theoretical models are analyzed: Health Promotion, Caring, Transcultural Nursing and others. Case study analysis and other modes, including field work, are used to apply models to life events such as birth, death and changes in health status. Attention is given to the availability and use of community resources for individuals and families experiencing dynamic change and complex health needs. Additionally, considerable attention is given to the impact of social, economic, cultural, legal, and ethical variables on the experience of profound life events. Prerequisite: Admitted to RN-BSN Program.

NURS 4134 - Nursing Care of Developing Families: Health Promotion IV 3-0-3
Focuses on health promotion of developing families throughout the prenatal experience. Enabling factors which facilitate the performance of therapeutic nursing interventions are explored. Content focuses on theories of development for the four trimesters, family developmental tasks, and health education. Prerequisites: NURS 3142, NURS 3342, NURS 3133, and NURS 3323. Corequisite: NURS 4324.

NURS 4135 - Nursing Care of Children: Health Promotion V 3-0-3
Focuses on the role of the nurse in partnership with families for the purpose of promoting the health and development of children. Family health is viewed as integral to children’s health. Theory and research serve as the theoretical foundation for the effective utilization of the principles of health care of children and their families. Content focuses on the health promotion needs of infants, toddlers, preschoolers, school-agers, and adolescents. Prerequisites: NURS 3142, NURS 3342, NURS 3133, and NURS 3323. Corequisite: NURS 4325.

NURS 4136 - Nursing in Complex Health 3-0-3
Health Promotion VII
The focus of this course is on the pathophysiological mechanisms, nursing diagnosis, and management of persons experiencing complex and/or life-threatening health problems. Students analyze current trends in health care and outcomes and the provision of care to persons with complex, critical, and/or end-of-life conditions and how these trends impact nursing, persons, and families in rural/urban settings. Prerequisites: NURS 4134, NURS 4135, NURS 4324, and NURS 4325. Corequisite: NURS 4326.

NURS 4137 - Community Health Nursing: 3-0-3
Health Promotion VI
Focuses on health promotion of diverse cultures in the rural community. Students synthesize and apply previous introduced health promotion concepts. Concepts of community health nursing, including principles and application of epidemiology and community assessment, are introduced. Students analyze variables that place populations at risk and design appropriate interventions. The importance of critical thinking and caring are stressed in the provision of therapeutic nursing interventions to culturally diverse persons, families, groups, and communities. Prerequisites: NURS 3142, NURS 3342, NURS 3133, and NURS 3323. Corequisite: NURS 4327.

NURS 4138 - Nursing Leadership and Management: 3-0-3
Health Promotion VIII
Focuses on health promotion in nursing through leadership and management in multidisciplinary environments. The importance of critical thinking to effective nursing leadership within a culturally diverse and changing health care system is emphasized. Course content includes management and leadership theories and skills, management techniques, change strategies, healthcare technology, and role transition strategies to assist the new professional nurse. Prerequisites: NURS 4134, NURS 4135, NURS 4324, and NURS 4325. Corequisite: NURS 4728.

NURS 4229 - Health Promotion: A Critical Analysis of Nursing Concepts 1-3-2
Facilitates the synthesis and application of major concepts of the Health Promotion framework in planning and implementing therapeutic nursing interventions which are empowering in promoting, maintaining, and restoring health. Students utilize the nursing process in the provision of nursing care for selected persons and families. The enabling factors of human caring, communication, ethical principles, critical thinking, empowerment, research, cultural sensitivity, and health care technology are used in providing nursing care. Prerequisites: NURS 4134, NURS 4324, NURS 4135, and NURS 4325. Corequisites: NURS 4728, NURS 4136, and NURS 4326.

NURS 4324 - Developing Families Health Promotion: 0-6-2
Practicum IV
Focuses on health promotion of families throughout the prenatal experience. Knowledge acquired in NURS 4134 is utilized in planning and implementing therapeutic nursing interventions which are empowering in promoting, maintaining, and restoring health. Students utilize the nursing process in the provision of nursing care for selected persons and families. The enabling factors of human caring, communication, ethical principles, critical thinking, empowerment, research, cultural sensitivity, and health care technology are used in providing nursing care. Prerequisites: NURS 3142, NURS 3342, NURS 3133, and NURS 3323. Proposed Corequisite: NURS 4134.

NURS 4325 - Child Health Promotion: Practicum V 0-6-2
Focuses on health promotion of children and their families. Knowledge acquired in NURS 4135 is utilized in assessing, analyzing, planning, implementing and evaluating nursing care for promotion, maintenance, and restore health of children. Clinical experiences are provided in rural/urban hospitals and community settings. Prerequisites: NURS 3142, NURS 3342, NURS 3133, and NURS 3323. Corequisite: NURS 4135.
NURS 4326 - Complex Health Promotion: Practicum VII 0-6-2
This course focuses on the provision of nursing care to persons who are experiencing complex and/or life threatening health problems. Students gain clinical experience in rural and urban settings offering complex, critical illness and obstetric care and explore conceptual approaches which affect the care of persons with critical and/or end of life conditions. Prerequisites: NURS 4134, NURS 4324, NURS 4135, and NURS 4325. Corequisites: NURS 4136.

NURS 4327 - Community Nursing Health Promotion: Practicum VI 0-6-2
Practicum VI
Focuses on the provision of nursing within community settings. Students assess and identify health problems of persons, families, groups, and communities. Focus of activities is on health promotion in partnership with selected persons, families, groups, and communities. Prerequisites: NURS 3142, NURS 3342, NURS 3133, and NURS 3323. Corequisite: NURS 4137.

NURS 4341 - Population Focused Nursing 3-4-4
This course is designed to aid the public health nurse in developing and/or revitalizing skills essential in population-based practice in conjunction with clinical/preventive skills already obtained in the workforce. Emphasis will be on conducting community assessments, planning and implementing appropriate interventions based on assessment findings, presenting health data to various groups, facilitating the development of community coalitions, and collaboration with community partners for effective change in health policy. Prerequisite: Permission of instructor.

NURS 4728 - Nursing Leadership Preceptorship: Practicum VIII 0-8-2
The practicum provides an opportunity for the student to: a) practice varied leadership roles, including the management of groups and the art of delegation; and b) gain an intensive nursing experience in a clinical specialty area of interest to the student. Students work with a qualified nurse preceptor in a variety of clinical areas and locations. Prerequisites: NURS 4134, NURS 4324, NURS 4135, and NURS 4325. Corequisites: NURS 4136, NURS 4138, NURS 4229, and NURS 4326.

NURS 4738 - Nursing Leadership and Management: Practicum VIII 0-9-3
The practicum provides opportunities for the student to function as a manager in a collaborative role within a multidisciplinary healthcare team. Students collaborate with the course instructor in developing a learning contract with clear objectives and outcome measurements. The contract is based on the student’s self-assessment of learning needs and aspirations related to nursing leadership. The student chooses an RN facilitator, subject to approval of the instructor, to assist in meeting selected objectives. Other planned activities also assist the student in meeting learning objectives. Prerequisites: Admitted to RN-BSN Program and NURS 4139.

NURS 4890/4890S - Independent Study (1-3)-(0)(1-3)
Allows the individual student to study or investigate an area of interest under the direction of a faculty member. Prerequisite: Permission of instructor.

NURS 5210/5210G - Lifespan Advanced Health Assessment Clinical 0-1-1
Group discussions provide the opportunity for learning synthesis. 90 clinical hours are required in settings which provide experience for health, developmental and diagnostic assessments; and histories and physical examinations of adults, pregnant women, children and newborns. On-campus seminar and laboratory practice and off-campus experiences in ambulatory settings with laboratory facilities serving diverse populations is required. Students taking course for graduate credit will complete additional assignments. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Corequisite: NURS 5230/5230G.

NURS 5230/5230G - Lifespan Advanced Health Assessment for APN 3-0-3
This health assessment course builds on basic assessment to evaluate persons across the life span within a transcultural context. Principles and techniques necessary to complete a total health history, developmental assessment, nutritional evaluation, physical examination and documentation of findings to form a data base on the individual, pregnant female and newborn are included. Recognition of pathological signs and symptoms associated with illness and assessment of health promotion needs are emphasized. Selected diagnostic procedures are covered. Students taking course for graduate credit will complete additional assignments. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Corequisite: NURS 5210/5210G.

NURS 6131 - Professional Roles and Issues 3-0-3
Explores concepts that prescribe the framework of advanced practice nursing with application to APN roles. Professional, ethical, and cultural issues that impact health care will be discussed. The graduate nursing student will begin to build and shape strategies for dealing with role assimilation, positive and negative role influences, and important health care issues.

NURS 6133 - Health Care Organizations and Informatics for Advanced Practice Nursing 3-0-3
Characteristics of health care organizations from rural and urban perspectives important to advanced practice nursing are examined. The American health care system, financing, health policy, national, state, and local legislative issues which impact the delivery of health care by advanced practice nurses are emphasized. Students analyze information systems and use information technologies to investigate current legislative and advanced practice nursing issues.

NURS 6134 - Differential Diagnosis and Pathophysiology 3-0-3
Explores advanced concepts of pathophysiology that alter and/or disrupt body system functioning in adults and children. Knowledge of pathophysiology concepts provide the foundation for determining differential diagnosis(es) related to presenting patient problems.

NURS 6135 - Pharmacotherapeutics for Advanced Practice Nursing 3-0-3
Builds upon the pharmacological knowledge base of the student in an advanced practice nursing major. Pharmacology and pharmacotherapeutics for selected drug classifications and prototype drugs used in primary care settings are explored. Selected primary care disorders are discussed related to appropriate pharmacological management.

NURS 6136 - Family Health Promotion for Advanced Practice Nursing 3-0-3
Family theoretical frameworks are used to explore the influence of psychological, cultural, and social aspects of rural/urban life on health. Health care problems and issues of concern to advanced practice nursing providing care to rural and urban families will be compared and contrasted. Techniques for screening at-risk families to facilitate early case finding and strategies for health maintenance and health promotion are included.

NURS 6140 - Applied Theory and Research for Advanced Practice Nursing 4-0-4
Course synthesizes the application of theory and research to utilize evidence-based practice in the APN role. Evolution of nursing theory and nursing science; critical analysis, synthesis and critique of nursing theory and research; quantitative and qualitative methodologies; and theory to practice linkages are emphasized. Theory-driven research focusing on the evaluation of outcomes applicable to nursing practice, and critical review of literature on evidence-based practice are included. Course is designed to prepare informed consumers of health care research and beginning nurse scientists. The importance of the advancement of nursing science and of the ethical conduct of nursing research are incorporated throughout the course. Prerequisite: A minimum grade of “C” in undergraduate statistics.

NURS 6811 - Research Practicum I 1-0-1
Provides an opportunity for graduate nursing students to begin investigation of an area of interest applicable to advanced nursing practice. The student will develop a specific problem and purpose statement, complete a literature review, develop a method of investigation, explore ethical issues related to the project/research, and begin to implement the design of the project/research. Completion of the project/research will occur in NURS 6812. Students may elect to participate in individual faculty research projects. Course format will be determined by the faculty mentor and committee. Prerequisite: NURS 6132.

NURS 6812 - Research Practicum II 1-0-1
Provides an opportunity for graduate nursing students under the committee process to complete the investigation of an area of interest. The student will complete an analysis of data, determine conclusions, interpret data in relation to previous research and theory, and identify implications for nursing practice and further research. Prerequisite: NURS 6811.

NURS 7090/7090S - Selected Topics Nursing (1-3)-(0)-(1-3)
Provides a mechanism for offering courses on selected topics in nursing.

NURS 7224 - Primary Care Clinical I: Women’s Health 0-2-2
This course requires the application of theoretical concepts relative to the provision of health care to the female client within the scope of practice of the family nurse practitioner. Group discussions will provide the opportunity for student learning synthesis while incorporating transcultural strategies for the client, family, and community. A total of 180 hours of
clinical experience in a primary care obstetrical/gynecological setting providing care to women experiencing reproductive or lifestyle concerns and pregnancy or gynecological conditions is required. Prerequisites: NURS 5230G, NURS 5210G, and NURS 6134. Corequisites: NURS 6135 and NURS 7231.

NURS 7225 - Primary Care Clinical II: Pediatric Health 0-2-2
This course requires the application of theoretical concepts relative to the provision of health care to the pediatric client within the scope of practice of the nurse practitioner. Group discussions will provide the opportunity for student learning synthesis while incorporating transcultural strategies for the client, family, and community. A total of 180 hours of clinical experience in pediatric ambulatory primary care setting providing care to the adult or older population is required. Prerequisites: A minimum grade of “B” in NURS 5230G, NURS 5210G, NURS 6134, and NURS 6135. Corequisite: NURS 7233.

NURS 7231 - Primary Care I: Women 3-0-3
This course explores the role of the nurse practitioner in the provision of primary health care to women in rural/urban ambulatory care settings presenting for gynecological care. Emphasis is placed on health maintenance/promotion and the management of women’s health concerns within the transcultural context of family/community. Prerequisites: NURS 5230G, NURS 5210G, and NURS 6134. Corequisites: NURS 6135 and NURS 7224.

NURS 7233 - Primary Care II: Pediatrics 3-0-3
This course explores the role of the family nurse practitioner in the provision of primary health care to the pediatric client in rural/urban ambulatory care settings. Emphasis is placed on health maintenance/promotion and the management of pediatric health within a transcultural context of the family/community. Prerequisites: NURS 5230G, NURS 5210G, NURS 6134, and NURS 6135. Corequisite: NURS 7223.

NURS 7234 - Primary Care Clinical III: Adult Health 1-2-3
This course requires the application of theoretical concepts relative to the provision of health care to the adult and older client within the scope of practice of the nurse practitioner. Group discussions will provide the opportunity for student learning synthesis while incorporating transcultural strategies for the client, family, and community. A total of 180 hours of clinical experience in a rural/urban ambulatory primary care setting providing care to the adult and older population is required. Prerequisites: A minimum grade of “B” in NURS 5230G, NURS 5210G, NURS 6134, and NURS 6135. Corequisites: NURS 7243.

NURS 7243 - Primary Care III: Adult 3-0-3
This course explores the role of the family nurse practitioner in the provision of primary health care to the adult client in a rural/urban ambulatory care setting. Emphasis is placed on health maintenance/promotion and management of adult health within the transcultural context of family/community. Prerequisites: NURS 5230G, NURS 5210G, NURS 6134, and NURS 6135. Corequisite: NURS 7244.

NURS 7322 - Women’s Health Clinical II: Advanced OB 0-2-2
This course requires the application of theoretical concepts relative to the provision of health care to the woman with a normal or high risk pregnancy within the scope of practice of the women’s health nurse practitioner. Group discussions will provide the opportunity for student learning synthesis while incorporating transcultural strategies for the client, family, and community. A total of 180 hours of clinical experience in a rural/urban obstetrical setting is required. Prerequisites: A minimum grade of “B” in NURS 5230G, NURS 5210G, NURS 6134, NURS 6135, NURS 7231 and NURS 7224. Corequisite: NURS 7331.

NURS 7331 - Women’s Health Nurse Practitioner II: 3-0-3
Problem Pregnancy
Focuses on women who are pregnant or who desire to become pregnant. Pharmacological strategies appropriate to pregnancy will be covered. Therapeutic nursing interventions related to preconceptual counseling issues, complicated pregnancy and postpartum conditions, pregnancy termination, infidelity and fetal assessment will be discussed. Health promotion strategies for the woman with problems complicating a pregnancy will be addressed. Prerequisites: NURS 7240, NURS 5230G, NURS 6135, NURS 7221 and NURS 7231. Corequisite: NURS 7332.

NURS 7341 - Women’s Health Nurse Practitioner III: 4-0-4
Complicated Gynecological and Primary Care of Women
Focuses on complex gynecological and selected primary health care problems of women. Therapeutic nursing interventions and medical management related to breast disease, reproductive infections, reproductive cancer, and technical diagnostic measures will be covered. Social, psychological, physical and non-gynecological primary care problems frequently seen by the Women’s Health Nurse Practitioner will be addressed. Health promotion strategies to improve the quality of life of the women will be emphasized. Prerequisites: NURS 5240, NURS 6134, NURS 6135, NURS 7221 and NURS 7231. Corequisite: NURS 7351.

NURS 7342 - Women’s Health Clinical III: 1-3-4
GYN/Primary Care
This course requires the application of theoretical concepts relative to the provision of health care to the woman with a gynecological or primary care problem within the scope of practice of the women’s health nurse practitioner. Group discussions will provide the opportunity for student learning synthesis while incorporating transcultural strategies for the client, family, and community. A total of 270 hours of clinical experience in a rural/urban gynecological/primary care setting is required. Prerequisites: A minimum grade of “B” in NURS 5230G, NURS 5210G, NURS 6134, NURS 6135, NURS 7224, and NURS 7231. Corequisite: NURS 7341.

NURS 7511 - Community Health Clinical I 0-1-1
Course requires 90 hours of experience with a preceptor to apply theory, evidence-based practice and clinical knowledge in the development of culturally competent, effective care to improve the health of a selected population within the community. Population assessment; health care issues identification; and the development, implementation and evaluation of intervention strategies will be addressed. Prerequisites: NURS 5230G, NURS 5210G, NURS 6134, and NURS 6135. Corequisite: NURS 7520.

NURS 7520 - Community Health I 2-0-2
Course emphasizes application of theory, evidenced-based practice and clinical knowledge in the assessment, design, and evaluation of culturally competent, effective health care provided within systems to meet the needs of individuals, families, groups, and communities within a health promotion framework. Prerequisites: NURS 5230G, NURS 5210G, NURS 6134, and NURS 6135. Corequisite: NURS 7511.

NURS 7521 - Community Health Clinical II 0-2-2
Course requires 180 hours of experience with preceptor to develop leadership skills within the context of community. Experiences will include program planning and evaluation; resource management to include budgeting, funding, and grant writing; strategic planning and decision making; and the CNS role as advocate and change agent. Prerequisites: NURS 5230G, NURS 5210G, NURS 6134, and NURS 6135. Corequisite: NURS 7530.

NURS 7530 - Community Health II 3-0-3
Course emphasizes application of theory and research applicable to the development of leadership skills within the context of community. Course includes program planning and evaluation; resource management to include budgeting, funding, and grant writing; strategic planning and decision making; and the CNS role as advocate, change agent, and consultant. Prerequisites: NURS 5230G, NURS 5210G, NURS 6134, and NURS 6135. Corequisite: NURS 7521.

NURS 7730 - Primary Care Capstone: FNP 2-1-3
This FNP capstone course provides 90 hours of clinical experiences in a variety of rural/urban ambulatory health care settings to allow synthesis and application of theoretical, evidenced-based research and clinical knowledge gained in required courses. Emphasis is placed on the provision of care by APN to persons across the life span within a transcultural and health promotion framework. Group discussions will provide an opportunity for capstone learning synthesis of the FNP role. All courses must be completed with the exception of an elected thesis. Prerequisites: All courses except Thesis.

NURS 7731 - CNS Capstone: Community Health 1-2-3
CHNS capstone course provides 180 hours of experience in a setting that supports synthesis and applications of theory and evidenced-based practice knowledge gained in required courses. Emphasis is placed on the development and evaluation of systems which provide care to a community within a transcultural and health promotion framework. Group discussions will provide an opportunity for capstone learning synthesis of the community health CNS role. All courses must be completed with the exception of an elected thesis. Prerequisites: All course work for major except Thesis.

NURS 7800 - Independent Study: Nursing (1-3)-0-(1-3)
Allows the graduate student the opportunity to investigate an area of interest under the direction of a faculty member. Prerequisite: Permission of instructor.

NURS 7999 - Thesis Nursing (0-3)-(0-3)-(1-3)
Thesis hours are elective to the graduate nursing program of study. A thesis provides the opportunity to pursue research in an area of interest within
Public Administration (CLASS)  
PBAD 7020 - Selected Skills in Public Management 2-0-2  
Intensive development of specific skills needed by public managers not covered by other courses. May be repeated once as skill areas change.

PBAD 7030 - Selected Topics in Public Management 3-0-3  
Intensive studies of specific topics in public management not covered by other courses. May be repeated once as topics change.

PBAD 7120 - Written Communication for Public Managers 2-0-2  
Teaches students the formats, styles and techniques for effective writing in a public sector organization. Attention will be given to memoranda, speech writing, reports, press releases, evaluations and recommendations, form letters, and individualized letters of response to citizen requests and complaints.

PBAD 7121 - Presentations for Public Managers 2-0-2  
Focuses on skills needed to make effective oral presentations in public settings, to conduct effective meetings, and to prepare effective supplementary materials that enhance the quality of presentations. Skills in using technology in making presentations will be covered.

PBAD 7122 - Grant Writing for Public Managers 2-0-2  
Teaches students how to locate grant opportunities and how to structure effective grant proposals that will win funding for government and nonprofit organization projects. Also examines the importance of effective grant administration.

PBAD/POLS 7130 - Ethics in Government 3-0-3  
Focuses on experiences, approaches, and strategies for confronting and solving problems. An emphasis is placed on accountability and responsibility of public officials for appropriate behavior and ethical decision-making.

PBAD 7133 - Public Law and Administration 3-0-3  
Examines the legal framework in which public managers must operate in the 21st century. Particular attention is given to understanding the implications of constitutional law on administrative behavior and decisions and on administrative laws designed to ensure due process and equal treatment for all citizens. The interrelationship of law and ethics for public managers is also examined.

PBAD 7220 - Computer Applications for Public Managers 1-1-2  
Emphasis is on selection of computer hardware and software as well as practical experience with common tools such as spreadsheets, word processors, database management systems, presentation programs, etc.

PBAD 7221 - Geographical Information Systems for Public Managers 2-2-2  
Study and demonstration of the uses of Geographic Information Systems to address public administration issues and problems.

PBAD 7230 - Budgeting in the Public Sector 3-0-3  
Examines both politics and techniques used in formulating and implementing budgets by local, state, and federal governments in the United States.

PBAD 7232 - Public Sector Financial Management 3-0-3  
An exploration of the management of revenue-raising and expenditure activities. Topics include understanding grants and contracts, recording of outlays, expenditures monitoring, procurement and purchasing, and financial audits of public agencies.

PBAD 7320 - Community Organization and Development 2-0-2  
Examines the history and theory behind the practice of community organizing and the concept of community development in the United States. Additional focus on specific problems faced in the students’ local communities will be included as will consideration of specific organizing and development strategies and techniques that might address those problems.

PBAD 7321 - Diversity Issues in Public Management 2-0-2  
Examines the ways in which human differences affect the work of public managers with respect to their employees, their colleagues, their supervisors, and the public which they serve.
PHIL/POLS 7532 - Public Policy
3-0-3
A systematic study of how public policy is developed, implemented, and evaluated. Attention is given to the skills of policy analysis, as well as the social problems and cultural interpretations that lead to public policy. Illustrations from domestic policy in the United States are supplemented with insights from other nations.

PHIL 7533 - Public Sector Planning
3-0-3
Examines the scope, theories, resources, and politics of urban, regional, state, and national planning.

PHIL 7620 - Capstone Seminar in Public Management
2-0-2
Students will meet weekly to discuss various issues related to challenges and problems they are encountering in their work sites and internship assignments in terms of the concepts and theories of public management that they have learned.

PHIL/POLS 7630 - Seminar in American Government
3-0-3
A graduate introduction to the basic structures, processes, and patterns of behavior of American national government, emphasizing the interfacing of politics, economics, and public policy.

PHIL 7631 - Foundations of Public Administration
3-0-3
Provides an overview of the tasks confronted by public managers in the American system of government at all levels: national, state, and local. The political and legal constraints on managers and the differences between problems faced by public managers when compared to private sector managers are emphasized.

PHIL 7632 - Public Safety Management
3-0-3
Provides the basic principles for important systems in the field of public safety management: law enforcement, jail administration, fire safety, emergency services, and hazard and disaster response.

PHIL 7633 - Correctional Management
3-0-3
Examines the correctional system, the correctional process, and the management of penal institutions. Provides an in-depth examination of prison management and the interface of the institutions with the court and the community. Studies management of community programs and special challenges.

PHIL 7634 - Juvenile Justice Management
3-0-3
Examines the context of the administration of a Juvenile Justice system through history, philosophy, and law. Examines the systematic process from diversion programs to incarceration.

PHIL 7635 - Police Organization and Management
3-0-3
Examines the managerial and leadership tasks of the police agency's chief executive officers. Particular emphasis will be on assessment, planning, and creation of policies, procedures, and budgets. Other topics will include organizational structure and design, planning, decision making, communication, and change.

PHIL 7636 - Administration of Justice
3-0-3
Examines the legal structure which supports the criminal system. Current and future problems of law enforcement will be discussed including judicial process, community relations, and civil liberties.

PHIL/POLS 7637 - Social Welfare Management
3-0-3
Examines the issues involved in administering social welfare programs at the local, state, and federal levels of government. Particular attention is paid to problems faced by social welfare service delivery organizations and the question of welfare reform strategy in the United States.

PHIL 7730 - Internship in Public Management
4-0-4
Students will work 30-40 hours per week in a professional capacity within a governmental organization, a nonprofit organization, or possibly a private sector organization which has been contracted to perform a government function. The internship will apply skills being learned in various public administration course work.

PHIL 7890 - Directed Reading
(1-3)-0-(1-3)
A structured set of readings and assignments mutually designed by the student and the instructor on a specific area of public management.

Philosophy (CLASS)

PHIL 1030/1030S - Introduction to Philosophy
3-0-3
An introductory course which surveys the ideas of some of the great philosophers of the Western world, focusing on issues about religion, ethics, reality, and ways of knowing.

PHIL 2232 - Critical Thinking
3-0-3
An introduction to the concepts and skills necessary for identifying, evaluating, and constructing good arguments. Topics will include strategies that are used to strengthen or weaken an argument, spot fallacious ways of reasoning, and identify hidden assumptions. The course also studies the basic elements of deductive reasoning.

PHIL 3030/3030S - Selected Topics in Philosophy
3-0-3
Selected Topics in Philosophy.

PHIL/RELS 3131 - World Religions
3-0-3
The teachings concerning people and their relations to God and the world found in the major world religions: Judaism, Christianity, Islam, Hinduism, Confucianism, Jainism, and Buddhism are among the religions studied.

PHIL/POLS 3230 - Modern Political Thought
See POLS 3230 for course description.

PHIL/POLS 3232 - Philosophy of Law
3-0-3
A study of major topics in the philosophy of law, all of which concern the relationship of law to morality and justice-including the nature of law in general; the importance of the rule of law and of limiting the rule of law; and some theory and practice of criminal law.

PHIL 3330/3330S - Introduction to Art and Beauty
3-0-3
A critical study of the philosophical theories about the nature of art and beauty drawing from both traditional and contemporary thinkers. Topics include defining art and beauty, justifying aesthetic judgments, analyzing artistic creation, and determining the value of art.

PHIL 3332 - Contemporary Moral Problems
3-0-3
A survey in applied ethics which provides a philosophic discussion of the most salient ethical problems of the day. Typically the course will cover such topics as abortion, animal rights, euthanasia, capital punishment, and suicide.

PHIL 3333 - Introduction to Ethics
3-0-3
An introduction to the main concepts of philosophical ethics such as virtue, duty, utility, rights, and liberty. The course also introduces philosophers whose ethical theories have been historically the most influential, such as Aristotle, Kant, and Mill.

PHIL 3334 - Environmental Ethics
3-0-3
A study of the moral relations between human beings and their natural environment. The course examines theories of valuing nature, applies ethical analysis to environmental problems, and explores the underlying causes of environmental degradation.

PHIL 3431/3431S - Ancient Philosophy
3-0-3
The main ideas of Socrates, Plato, Aristotle, the Stoics, the Epicureans, Plotinus, and St. Augustine and a consideration of how those ideas apply to our lives.

PHIL 3432 - Modern Philosophy
3-0-3
The main ideas held by philosophers in the seventeenth and eighteenth centuries, tracing many of the positions that lead us to think as we do today. Thinkers included are Bacon, Hobbes, Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, Kant, Galileo, Kepler, and Newton.

PHIL 3433 - Reason and Revolution:
19th Century European Philosophy
3-0-3
A survey of the Continental philosophers of the nineteenth century and their ideas regarding the nature of knowledge, truth, reality, God, religion, society, and humanity. Philosophers studied include Hegel, Marx, Schopenhauer, Kierkegaard, and Nietzsche.

PHIL 3434 - Contemporary Philosophy
3-0-3
A survey of the main philosophical movements of the twentieth century, primarily in the English-speaking world. The course will stress the importance of language in thinking about some of the traditional problems of philosophy, such as what can be known and what exists. Readings will include selections from Russell, Wittgenstein, Moore, and others.

PHIL 3531 - Theory of Knowledge
3-0-3
A study of the main theories concerning the nature of knowledge and belief. Topics will include problems of scepticism, the reliability of perception and memory, and the sources of justification.

PHIL 3532/3532S - Metaphysics
3-0-3
A study of the main theories concerning the nature of reality. Topics will include what things exist, the nature of space, time, matter, self, freedom, infinity, and God.
PHIL/RELS 3635 - Existentialism 3-0-3
A study of the existentialist movement in philosophy from its origins to the present, showing how and why the movement began, what its authors advocate, and how it has been assessed by contemporary critics. Readings will include selections from Kierkegaard, Jaspers, Heidegger, Sartre, and others.

PHIL/WGST 4130 - Feminist Philosophy 3-0-3
An introduction to the main topics in Feminist Philosophy to include the adversary method and the 'maleness' of philosophy; dualities of mind and body, male and female, self and other; women's ways of knowing; caring and maternal thinking; and ecofeminism. Feminist philosophy addresses these ideals and assumptions in the western philosophic traditions that have oppressed women and other subordinate groups.

PHIL 4233 - Introduction to Formal Logic 3-0-3
Fundamentals of propositional and predicate logic. Emphasis will be placed on construction of proofs in formal systems.

PHIL 4333 - 20th Century Ethical Theory 3-0-3
Main trends in twentieth century normative ethical theory in the Western world, to include Intuitionism, Emotivism, Prescriptivism, Act and Rule Utilitarianism, and Contractarianism.

PHIL 4532 - Philosophy of Emotions 3-0-3
This course is designed to help students understand the nature of emotions, and to enable students to become better equipped to understand their own emotions. Students will study and critically evaluate the major contemporary theories of emotion as well as historical accounts of emotion.

PHIL 4533 - Philosophy of Mind 3-0-3
An introduction to the most important questions in the philosophy of mind. The course will ask what minds are, whether statements about minds can be replaced by or reduced to statements about brains, what consciousness is, and whether there can be artificial intelligence.

PHIL/RELS 4632 - Philosophy of Religion 3-0-3
An in-depth examination of religious teachings and basic philosophical problems associated with them. Topics considered will include creation, salvation, life after death, the origin of evil, religious experience, and God.

PHIL 5030/5030G - Selected Topics in Philosophy 3-0-3
Selected Topics in Philosophy. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

Physics (COST)

PHYS 1111 - Introduction to Physics I 3-0-3
This is the first of a sequence of courses which provide a working knowledge of the basic principles of physics. Topics include mechanics, oscillations and wave motion. The student should have had pre-calculus, or have an equivalent knowledge of algebra and trigonometry. Prerequisite: MATH 1113 or an equivalent knowledge of algebra and trigonometry. Corequisite: PHYS 1113.

PHYS 1112 - Introduction to Physics II 3-0-3
This is the second in a sequence of two courses which provide a knowledge of the basic principles of physics using application that require a knowledge of trigonometry and elementary algebra. Topics include electricity and magnetism, optics and modern physics. Prerequisite: PHYS 1111. Corequisite: PHYS 1114.

PHYS 1113 - Physics Lab I 0-2-1
This is the first of a laboratory courses that provide the laboratory part of PHYS 1111, PHYS 2112 and PHYS 2212. Provides laboratory work on mechanics, wave motion and thermodynamics. Prerequisites: Requires prior or concurrent enrollment in either PHYS 1111 or PHYS 2211. In the event the student drops the lecture portion of the course, the lab should also be dropped.

PHYS 1114 - Physics Lab II 0-2-1
This is a set of experimental studies on electricity and magnetism, optics and modern physics. Serves as the laboratory portion of PHYS 2212 and PHYS 1112. In the event a student drops PHYS 2212 or PHYS 1112, this course may not be continued unless the student has already completed either PHYS 2212 or PHYS 1112. Prerequisites: Concurrent or prior completion of PHYS 2212 or PHYS 1112.

PHYS 1135 - How Things Work 3-0-3
This is a non-mathematical course designed for liberal arts students. Fifty-one objects in our everyday world are examined to answer the question "How do they work?". As a result concepts of physics that everyone uses daily are revealed in an interesting and understandable manner.

PHYS 1149 - Environmental Physics 3-2-4
A general course on the physical basis of environmental science. Emphasis is placed on the identification and effective amelioration of both natural and man made hazards to the earth's biosphere. Topics include greenhouse effects, ozone, acid rain, energy production and water disposal, radiation hazards, noise pollution and disruptive natural phenomena.

PHYS 2211 - Principles of Physics I 3-0-3
This is the first of a sequence of two courses that provide a working knowledge of the basic principles of physics using applications requiring a knowledge of calculus. Topics include mechanics, wave motion and thermodynamics. Prerequisite: Requires prior or concurrent enrollment in MATH 1441. Corequisite: PHYS 1113.

PHYS 2212 - Principles of Physics II 3-0-3
This is the second of a sequence of courses which provide a working knowledge of the basic principles of physics using applications requiring a knowledge of calculus. Topics include electricity, magnetism, optics and modern physics. Prerequisite: PHYS 2211. Corequisite: PHYS 1114.

PHYS 3131 - Optics 3-0-3
Geometric and physical optics in which the general principles of wave optics and several optical devices are studied. Prerequisites: PHYS 2211 or PHYS 1111 and PHYS 2212 or PHYS 1112.

PHYS 3149 - Methods of Theoretical Physics 3-2-4
Presents a discussion of methods for solving the equations that arise in all of the major areas of physics. Prerequisites: Requires prior or concurrent enrollment in MATH 3230, PHYS 2211 and PHYS 2212.

PHYS 3420 - Advanced Physics Lab 0-6-2
A laboratory course where the student will learn classical laboratory techniques, computer data acquisition, statistical analysis of data and proper reporting of results. This lab can be repeated up to four times with two repetitions required of all Physics majors. Prerequisite: Permission of instructor.

PHYS 3520 - Problem Solving in Physics 2-0-2
Improves the ability of Physics majors to rapidly consolidate and inter-relate knowledge of their physics courses by familiarization with the techniques of rapid characterization and solution of problems by in-class practice of rapid problem-solving. Prerequisite: PHYS 3537 or permission of instructor.

PHYS 3536 - Modern Physics I 3-0-3
Historical development of modern physics including topics on special theory of relativity, early models of the atom, atomic radiations and interaction of electrons with matter. Prerequisites: PHYS 2211 or PHYS 1111 and PHYS 2212 or PHYS 1112.

PHYS 3537 - Modern Physics II 3-0-3
A continuation of modern physics topics including atomic and molecular physics and nuclear physics. Prerequisite: PHYS 3536.

PHYS 3538 - Introduction to General Relativity 3-0-3
A course in the metric description of different spacetimes that describe flat and various curved geometries so as to derive the laws of mechanics for planets, stars, blackholes, etc. The course also introduces a very simple model of the expanding universe and touches on cosmology. Prerequisite: PHYS 3537 or permission of instructor.

PHYS 3539 - Introduction to Biophysics 3-0-3
The physics of living organisms with emphasis on physical support, movement, sensory perception and the physical properties of plant and animal processors at the molecular and organismic levels of organization. Prerequisites: Permission of instructor.

PHYS 3542 - Analog Electronics 2-6-4
A course in intermediate electronics with emphasis on topics of interest to students in physics. Discusses electronic instruments, transducers, diodes and power supplies. Amplifier behavior, the operational amplifier and wave shaping circuits are covered in detail. Discrete electronic devices are also discussed. Prerequisites: PHYS 2212 or PHYS 1111 and PHYS 2212 or PHYS 1112.

PHYS 3543 - Digital Electronics 2-6-4
Presents the concepts and application of digital electronics. Digital logic concepts and techniques are presented. Flip-flops and counting circuits are studied extensively resulting in a discussion of digital instrument development. The principles of operation, general architecture and some applications of the microprocessor (the Intel 8085) are discussed. Prerequisite: PHYS 3542.
PHYS 3790 - Teaching Internship in Physics 1-2-6-(1-3)
PHYS 3790 (student internship in the laboratory component of PHYS 1149 environment physics) will be under the mentorship of a faculty member. The student will participate in an introductory workshop immediately prior to the start of the semester, intern in the PHYS 1149 laboratory, and meet with the faculty mentor one hour each week, 1 credit hour per laboratory section of PHYS 1149 in which the student interned for a maximum of 3 credit hours interned multi-section.

PHYS 5130/5130G - Sound Waves and Acoustics 3-0-3
A study of the production, transformation, reflection, absorption and general effects of vibration and sound. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: PHYS 2211 or PHYS 1111 and PHYS 2212 or PHYS 1112.

PHYS 5134/5134G - Principles of Lasers 3-0-3
An introduction to the basic principles of laser oscillation, construction and operation of the most common laser systems, based on the rate equation and laser cavity theory. Provides practical experience in the use of many laser systems and in laser radiation safety. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: PHYS 2211 or PHYS 1111 and PHYS 2212 or PHYS 1112.

PHYS 5151/5151G - Classical Mechanics 5-0-5
Provides physics majors and student of applied mathematics and engineering with the fundamentals of analytical mechanics. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: PHYS 2211 or PHYS 1111 and PHYS 2212 or PHYS 1112 and prior or concurrent enrollment in MATH 3230.

PHYS 5152/5152G - Classical E and M Theory 5-0-5
Provides physics majors and student of applied mathematics and engineering with the fundamentals of electromagnetic field theory. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: PHYS 5151.

PHYS 5230/5230G - Quantum Optics 3-0-3
Involves theories related to laser spectroscopy, nonlinear optics, laser pulse propagation, laser cooling and various effects in laser spectroscopy related to quantum interference. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: PHYS 5557.

PHYS 5234/5234G - Applications of Lasers 3-0-3
A detailed study of the research and the development of laser applications, including applications of lasers in optical communication, industry, scientific and military research and in bio-medicine. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: PHYS 5134.

PHYS 5235/5235G - Laser Technology 3-0-3
An intensive study of the most useful technologies, such as modulation and amplification of laser beam, Q-switching, mode-locking, laser frequency tuning and wavelength conversion by nonlinear optics. Emphasis is given to laser technologies in the generation of high power, short pulsed (nanosecond, picosecond, and femtosecond) and tunable laser pulses. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: PHYS 5134.

PHYS 5439/5439G - Properties of Materials 3-0-3
Introduction to the properties of semiconductors, magnetic materials and superconductors. Particular emphasis will be placed on semiconductors with regard to developing an understanding of light emitting diodes, diode lasers and quantum well devices. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: PHYS 2211 or PHYS 1111 and PHYS 2212 or PHYS 1112.

PHYS 5490/5490G - Directed Independent Study (1-5)-0-(1-5)
Selected Topics in Physics. Students may be allowed to do special projects in Physics or Astronomy upon the recommendation of the Physics faculty member. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Permission of instructor.

PHYS 5530/5530G - Thermal Physics 3-0-3
A course in classical thermodynamics and kinetic theory. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: PHYS 2211 or PHYS 1111 and PHYS 2212 or PHYS 1112 and MATH 2243.

PHYS 5536/5536G - Studies in Physics for Secondary Teachers 3-0-3
Designed to acquaint the student with some of the problems encountered in high school physics presentations. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: MATH 1113.

PHYS 5557/5557G - Quantum Mechanics 5-0-5
A study of the basic postulates of quantum mechanics with solutions to Schrodinger’s wave equation for simple applications: the techniques of calculating position, energy and momentum with operators and the elements of perturbation theory with application to atomic spectra. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: PHYS 5536; PHYS 3537 and prior or concurrent enrollment in MATH 3230.

PHYS 5715/5715G - Laser Lab Techniques and Laser Technology 3-0-3
Provides intensive laboratory hands on training in the most important and useful laser techniques including the following areas: alignment and operation of laser systems, laser detection and parameter measurement, laser beam manipulation, laser cavity and laser mode, nonlinear optical frequency conversion, frequency tuning, Q-switching and mode-locking. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Permission of instructor.

Political Science (CLASS)
POLS 1101/1101S - Introduction to American Government 3-0-3
Surveys government and politics, with additional attention to the government and the Constitution of Georgia. Topics include the constitutional structure of American government, the role of non-governmental institutions such as interest groups and mass media, the role of governmental institutions such as Congress and the Presidency, the operation of major political process such as elections and policy making, and the interaction between institutions and processes. Satisfies the Georgia Constitution and U.S. Constitution requirements.
POLS 2101/2101S - Introduction to Political Science 3-0-3
An introduction to the concepts that are considered in the systematic study of politics, such as justice, equity, regimes, and democracy. This course will examine the means by which political scientists explore politics theoretically and in applied settings. Required of all majors and minors in political science. Prerequisite: POLS 1101.
POLS 2130 - Scope and Methods in Political Science 3-0-3
An introduction to the major theoretical models currently used in political science and to the major research techniques and methodologies. Students will have direct experience with data gathering, statistical analysis, data processing, and research reporting. Prerequisites: POLS 1101, STAT 2231, and STAT 2232.
POLS 3130 - Qualitative Research Methods 3-0-3
An introduction to the major theoretical models currently used in political science and to qualitative research techniques and methodologies. Students will have direct experience in data collection, analysis, and research reporting. Prerequisites: POLS 1101 and POLS 2101.
POLS/INTS 3132/3132S - Asian Politics 3-0-3
A study of government and politics in the larger countries in Asia. The historical, cultural, religious, and economic factors influencing the political systems of these countries are also studied in this course.
POLS/LAST 3133/3133S - Latin American Politics 3-0-3
An examination of the major domestic and international factors in comparative Latin American political systems. Special attention and detail is given to the challenges of development and democratization.
POLS 3135 - Legislative Behavior 3-0-3
The ability of elected bodies whether they are local, state, regional, or national to represent the preferences of their constituents is linked to the ability of elected officials, their staffs, and the executive agency administrators to manage change in an arena of inadequate information. This course will examine decision-making, agenda setting, elections, and institutional arrangements with a particular concern for the mechanisms legislatures have for processing information. Students will become familiar with the three contemporary approaches to the study of legislatures: historical, behavioral, and
POLS 3136 - The Presidency 3-0-3
An analysis of the political, constitutional, behavioral, symbolic and policy roles of the President. Attention is also paid to the linkages between the Presidency and the other government and political institutions.

POLS/CRJU 3137 - Judicial Process 3-0-3
Introduces students to the judicial process through analysis and evaluation of the main actors, institutions, processes, and procedures that affect the administration of justice.

POLS 3138 - Constitutional Law I 3-0-3
A study of the constitutional development of the national government through landmark Supreme Court decisions. Topics include: judicial power, separation of power, federalism, and interstate commerce.

POLS 3139 - Constitutional Law II 3-0-3
The study of the Bill of Rights through landmark Supreme Court decisions. Topics include freedom of speech, press, and religion, the right to privacy, rights of the accused, search and seizure law, and equal protection of the law.

POLS/PHIL 3230 - Modern Political Thought 3-0-3
The course in modern political thought is concerned with the differentiation of politics as an activity distinct from, and independent of, religion. Political thinkers in the modern period are distinguished by their turn to scientific and other modern modes of rationality as foundations for the analysis of politics. Central concerns include delineating the rights and powers of the individual and establishing a secular basis for a just society.

POLS 3231 - Environmental Politics 3-0-3
Examines important topics in United States environmental protection policy-making. It does so within the institutional context of American politics, including the congressional, presidential, administrative, judicial, intergovernmental, and constituency components of decisions relating to environmental protection. These decisions will be examined using the focus of the regionally important aspects of environmental quality such as water, air, and land resources.

POLS/PHIL 3232 - Philosophy of Law 3-0-3
A study of major topics in the philosophy of law, all of which concern the relationship of law to morality and justice including the nature of law in general, the importance of the rule of law and of limiting the rule of law, and some theory and practice of criminal law.

POLS 3233 - Politics and The Media 3-0-3
A comprehensive overview of the institutions and processes of the mass media in American politics. Emphasis is given to the history and role of the mass media in the United States and to the use of the media in covering news events as well as in political campaigns.

POLS/EURO/INTS 3234/3234S - Introduction to the European Union 3-0-3
See EURO 3234 for course description.

POLS/WGST 3235 - Gender and Politics 3-0-3
A study of the relationship of women to political life and to political theory-building. Focuses on political socialization, behavior, and institutional impact based on gender, using a comparative cross-national approach.

POLS/INTS 3256/325SS - International Relations 3-0-3
Introduces students to the basic concepts of international relations, including those of war and peace, power, foreign policy, international organizations, markets, demography, ecology, and the impact of information technology. Students will be provided with the necessary concepts, theories, and methods used in the discipline including quantitative analysis in order to gain a better understanding of the nature and problems of international relations.

POLS/AAST/AMST 3237 - African American Politics 3-0-3
A basic appreciation of the nature, processes, structures, and functions of African American politics in the domestic and international arena and how they differ from dominant assumptions, theories, approaches, and models of American politics. Focus is on how to seek and maintain empowerment.

POLS/INTS 3239/3239S - Human Rights in International Relations 3-0-3
This course will explore the vulnerability of various political minorities to human rights abuses at the global level and provide an assessment of the roles of states, international organizations, and non-governmental organizations in human rights issues.

POLS 3330 - State and Local Government 3-0-3
Examines the forms of organizations, the functions, and the operations of the 50 state governments. Special attention will be given to the growing problems in the urban areas such as the interplay of politics, pressure groups, and community power structures.

POLS 3331/3331S - Introduction to Public Administration 3-0-3
An examination of how local, state, and federal governments make use of human resources, financial resources, and information resources to assist in policy making, provide services to citizens, and exercise the regulatory power of government.

POLS 3332 - Political Parties and Elections 3-0-3
A comprehensive overview of the institutions and processes that connect the public to government institutions. Course emphasis is given to the history and structure of the political parties in the United States and the electoral process and voting at and below the presidential level.

POLS/AMST 3333 - Southern Politics 3-0-3
Examines the changing political conditions and trends within the eleven states of the American south since WWII. Students will examine the events which led to the unique political environment one encounters in the south. The primary focus will be on the political environment, but also on social, cultural, and economic variables as they relate to the political system.

POLS/FILM 3334 - Film and Politics 3-0-3
Considers how the art of film has contributed to an understanding of major twentieth-century political events and thoughts. Topics include war, nationalism, authoritarianism, the Cold War, presidential politics and campaigning, populism and the ethos of democracy in classic and contemporary film.

POLS 3335 - Politics of Ethnicity 3-0-3
Examines the resurgence of ethnic conflict as nations fragment in the midst of regional reconfiguration among states. Assesses and analyzes the major factors which contribute towards ethnic makeup, economic conditions, the modernization process, and technology. What are the relevant indicators of ethnicity for groups and how do they change over time? What kinds of issues does a given conflict seek to resolve? How successful are different strategies in ethnic conflict resolution?

POLS 3336 - Classical Political Thought 3-0-3
Examines political themes and thinkers from the Ancient Greeks to the Renaissance.

POLS/LING/ANTH/AAST 3337 - Language, Power, Politics 3-0-3
See LING 3337 for course description.

POLS/AAST 3431/3431S - African Politics 3-0-3
Examines salient themes and background of contemporary African political systems. The emphasis will be on government and politics of modern Africa bearing on the emergence of post-colonial states and regional and global ramifications.

POLS/IRSH 3432 - Celtic Identity and Conflict 3-0-3
This course examines contemporary issues raised by the conflict of Northern Ireland by studying conflicts in the broader historical context of the experience of the Celtic people in Ireland, Scotland, and Wales who sought to preserve their political and cultural identities in the British Isles.

POLS 3712 - Community Development 3-0-3
(1-2)-0-(1-2)
Covers the various meanings of and approaches to community development. Students will be required to work with nonprofit community development organizations outside of class for either 4 hours per week (one credit) or 10 hours per week (two credits) in addition to classroom meetings. Prerequisite: POLS 1101.

POLS/INTS 3730 - Introduction to United Nations 3-0-3
See INTS 3730 for course description.

POLS 3831 - Reading For Honors 3-0-3
Prerequisites: Permission of the department chair and instructor.

POLS 4031/4031S - Selected Topics in Political Science 3-0-3
Selected Topics in Political Science.

POLS/AMST 4130 - American Political Thought 3-0-3
Examines political themes and thinkers from the Colonial to the Contemporary period.

POLS 4131 - Public Policy 3-0-3
A study of the policy process in the American political system focusing on the analysis, formulation, implementation, and evaluation of public policies. Specific policy areas such as welfare, information technology, education, health, and foreign policy are examined. Prerequisite: POLS 1101.
POLS/INTS 4132 - U.S. Foreign Policy 3-0-3
Provides basic information and understanding of the key elements and actions involved in the formulation and execution of U.S. foreign policy. Special attention is given to the impact of U.S. foreign policy on the international system.

POLS 4133 - International Political Economy 3-0-3
Examines the interplay between international politics and international economics or business or the process of international wealth acquisition and transfer. Emphasis will be on the dynamics that give rise to asymmetric distributions: who gets what, when and how among different players in the global economy.

POLS/INTS 4134/4134S - International Law and Diplomacy 3-0-3
Examines the body of literature, concepts, and historical perspectives of international law and diplomacy as related to the critical problems of the Post-Cold War era. Focuses on the legal, oral, and strategic dimensions of several past, present, and proposed means of conflict resolution.

POLS/INTS 4135 - International Organizations 3-0-3
An analytical study of the organization, powers, and problems of global and regional international agencies with particular emphasis upon the European Union.

POLS/INTS 4136/4136S - Industrialized Nations 3-0-3
A systematic review of the empirical and theoretical literature concerning the structure, function, and problems of contemporary governments in developed countries.

POLS/INTS 4137 - Industrializing Nations 3-0-3
A study of government and politics in the major developing countries of Latin America, Africa, and Asia. Historical, cultural, religious, and economic factors influencing the political systems of these countries are also studied.

POLS/INTS 4138 - International Terrorism 3-0-3
Designed to explore the political, religious, economic, and social issues which pervade the global environment. Key issues to be addressed include different forms of terrorism, conflict resolution, and at the state level reunification issues. Emphasizes the critical, and perhaps, decisive and controlling impact which terrorist groups level on policy changes.

POLS 4139 - Contemporary Political Thought 3-0-3
Theorists since the onset of the twentieth century have questioned the scientific foundations of modern political ideas and institutions. Issues to be discussed may include the nature and limits liberalism, the rise of mass politics, the benefits and dangers of modern technology, and the emergence of multiculturalism and feminism.

POLS/INTS 4730 - Model United Nations 3-0-3
See INTS 4730 for course description.

POLS/CRIU 4732 - Politics, Government, and Criminal Justice3-0-3
See CRIU 4732 for course description.

POLS/CRIU 4733 - Theories of Justice 3-0-3
See CRIU 4733 for course description.

POLS 4791 - Field Internship in Political Science 0-0-(3-15)
Designed to give practical experience in a government qualified agency. Internship credit must be earned in addition to the 24 hours required for the major in political science. No more than 3 semester field internship hours can be used towards a minor in political science. Prerequisites: POLS 1101, POLS 2101 and permission of the department chair. This course may be repeated.

POLS 4890/4890S - Independent Study in Political Science 3-0-3
Independent Study in Political Science.

POLS 5630/5630G - Seminar in American Politics 3-0-3
A systematic focus on major themes and issues in American public policy and their roots in American politics. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Undergraduate course work in American politics or permission of instructor.

POLS 5631/5631G - Seminar in Political Theory 3-0-3
A seminar focusing on selected theoretical topics. Emphasis will be placed on normative theory and the history of political thought. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Undergraduate coursework in Political Theory or permission of instructor.

POLS 5632/5632G - Seminar in Urban Politics 3-0-3

SPAN 7195/7195S - Studies Abroad: Language 3-0-3
Studies oral and written features of Spanish within a Spanish-speaking country using native materials and resources.

SPAN 7230 - Epics and Ballads 3-0-3
An introduction to the rich tradition in Spanish literature of narrative verse. Begins with the oral traditions of medieval epics and ballads and continues through the contemporary written ballad tradition of Garcia Lorca and the mixed tradition of the Mexican-American corridos.

SPAN 7231 - Picaronesia Literature 3-0-3
Studies the theme of the antihero, “the picaro,” and the development of the picaresque as a literary sub-genre in Golden Age Spain.

SPAN 7232 - Cervantismo 3-0-3
An in-depth analysis and discussion of Cervantes’ literary works, including Don Quijote and supplementary readings in Cervantine scholarship and criticism.

SPAN 7233 - Romanticism 3-0-3
Studies the Nineteenth century romantic movement in Spain as an outgrowth of cultural change and transition.

SPAN 7234 - Don Quijote 3-0-3
Studies of Cervantes’ masterpiece. Attention will be given to both the artistry of the novel and the different facets of Cervantine humanism, in the context of his time. The course of study will be based on an analytical study supported by critical bibliography.

SPAN 7236 - Contemporary Spanish-American Literature 3-0-3
Studies selected works of the most representative Spanish-American authors from the “Boom” (1960-1975) to the present. Emphasis on the avant-garde movement and its impact on Spanish American poetry and on regional and psychological fiction and drama.

SPAN 7237 - Modernism 3-0-3
Studies the renovation of Spanish-American literature from 1880 to 1920, focusing on the plurality of its literary sources and the cultural and social factors of Spanish-America of that period. Examination of the significance of modernism on all Spanish-American literature.

SPAN 7395/7395S - Studies Abroad: Culture 3-0-3
Studies literature, culture, and/or civilization within a Spanish-speaking country, using native materials and resources.
SPAN 7890/7890S - Directed Study in Spanish  (1-3)-0-(1-3)  Independent Study under faculty supervision.

SPAN 7999 - Thesis  0-0-(1-6)  Planned research and writing directed by the student's thesis director.

Special Education (COE)

SPED 2120 - Introduction to Special Education  2-0-2  The pre-professional block course is designed to examine the etiology, diagnosis, characteristics and philosophical, educational, and legal implications of the full range of students who demonstrate a need for additional educational services in order to achieve full potential. Corequisites: EDUF 2120, EDUF 2121, ITEC 2120, and COED 2110. Successful completion of this block of courses is one of the requirements for admission into the Teacher Education Program.

SPED 3130 - Characteristics of Mild Disabilities  3-0-3  This course is designed to provide a review of the characteristics of students with Mild Disabilities with implications for their education and training. Specific emphasis will be placed on the legal and social issues related to Mild Disabilities. Prerequisite: Admission into Teacher Education Program. Corequisites: SPED 3131, SPED 3134, and SPED 3711.

SPED 3131 - Assessment in Special Education  3-0-3  This course is designed to provide an overview of a variety of assessment techniques, including observations, teacher-made tests, criterion referenced assessments, and standardized evaluation tools for use in identifying and developing programs for individuals with special learning needs. Special emphasis will be placed on interpreting assessment results for instructional planning. Prerequisite: Admission into the Teacher Education Program. Corequisites: SPED 3130, SPED 3134, and SPED 3711.

SPED 3134 - Special Education Procedures  3-0-3  Knowledge about litigation and legislation affecting Special Education and the procedures associated with pre-referral, assessment, placement, and instruction of children with special needs. The development of eligibility reports, Individual Education Plans, and Transition Plans is included in course content. Prerequisite: Admission into the Teacher Education Program. Corequisites: SPED 3130, SPED 3131, and SPED 3711. *Behavior Intervention Plans are taught in SPED 3231.

SPED 3231 - Classroom Management  3-0-3  This course is designed to initiate the preservice teacher in the basic procedures for instructional and behavior management of students with disabilities. Emphasis is placed on the understanding and development of skills in the following areas: data-based behavioral management, including several theoretical paradigms; research-based effective instructional management; and applied behavior analysis techniques. Prerequisite: SPED 3711. Corequisites: SPED 3232, SPED 3234, and SPED 3722.

SPED 3631 - Inclusive Practices  3-0-3  This course is designed to focus on best practices for educating P-12 students with diverse learning needs in the general education classroom. Candidates will investigate significant legal and historical considerations related to inclusion, pedagogical and curricular issues, collaboration, best instructional practices, and current trends. Prerequisite: A minimum grade of "C" in SPED 3711.

SPED 3711 - Special Education Practicum I  0-(2-3)-1  This practicum course is designed to provide an opportunity for students to work within the classroom to practice skills taught in corequisite courses addressing characteristics, assessment, and curricular choices for individuals with special needs. Prerequisite: Admission into the Teacher Education Program. Corequisites: SPED 3130, SPED 3131, and SPED 3134.

SPED 3722 - Special Education Practicum II  0-5-2  This practicum course is designed to provide an opportunity for preservice teacher candidates to work within the classroom to conduct formal observations of the classroom and specific students within that context. In addition, the preservice teacher candidates are required to design an Individualized Education Plan for the assigned student which will include a Behavior Intervention Plan. Preservice teacher candidates also follow diagnostic/prescriptive teaching methodologies to conduct a small-group lesson in one academic content area. Prerequisite: SPED 3711. Corequisites: SPED 3231, SPED 3232, and SPED 3234.

SPED 4090 - Special Education Special Topics  (1-3)-0-(1-3)  Designed to provide additional specialized field-based experience or remedial coursework as needed to meet the needs of preservice teachers. Attention will be placed on providing opportunities for strengthening skills necessary to special education teachers. Prerequisites: Approval of advisor, instructor, and department chair.

SPED 4230 - Instructional and Behavior Management Methods, P-5  3-0-3  This course is designed to provide students with practical methods for planning and managing group and individualized instruction in all curriculum areas for individuals with Mild Disabilities, preschool through grade 5. It includes review, demonstration, and preparation of programs, methods, and materials for such instruction in both regular and special education classrooms. The course is part of the Special Education Block experience. Prerequisites: SPED 3722 and READ 4131. Corequisites: SPED 4231 and SPED 4761.

SPED 4231 - Instructional and Behavior Management Methods, 3-0-3  This course is designed to provide students with practical methods for planning and managing group and individualized instruction in all curriculum areas for individuals with Mild Disabilities, grades 6 through 12. It includes review, demonstration and preparation of programs, methods, and materials for such instruction in both regular and special education classrooms. Instruction in methods for transitioning is one of the primary foci of this course. The course is part of the Special Education Block experience. Prerequisites: SPED 3722 and READ 4131. Corequisites: SPED 4230 and SPED 4761.

SPED 4430 - Family, Community and Professional Collaboration 3-0-3  This seminar is designed to provide preservice teachers with knowledge of effective communication skills and to present models of consultation and collaboration for use in family, community, and professional relationships. The models applied to working with families, teachers and other community professionals involved in the provision of services to students with disabilities. Prerequisite: Completion of teaching field courses and professional education sequence. Corequisite: SPED 4799.

SPED 4733 - SPED Practicum III  0-20-3  This practicum course is designed to provide an opportunity for students to work within diverse P-5 classrooms to practice instructional and classroom management skills. In addition to special education classrooms, students may be placed in inclusionary settings and/or classrooms for students identified as “at-risk” learners. The course is part of the Special Education Block experience and is designed to support content taught in the corequisite course. Prerequisites: SPED 3722 and course work related thereto, and READ 4131. Corequisite: SPED 4230.

SPED 4734 - SPED Practicum IV  0-20-3  This practicum course is designed to provide an opportunity for students to work within diverse classrooms, grades 6 through 12, to practice instructional and classroom management skills. In addition to special education classrooms, students may be placed in inclusionary settings and/or classrooms identified as “at-risk” learners. The course is part of the Special Education Block experience and is designed to support content taught in the corequisite course. Prerequisites: SPED 3722 and course work related thereto, and READ 4131. Corequisite: SPED 4231.

SPED 4799 - Student Teaching in Special Education  12-0-12  Student teaching is a period of guided teaching practice. Under the direction of a supervising teacher, students gradually assume increasing responsibility for classroom instruction and management. During this experience, students are expected to engage directly in many of the activities which constitute the wide range of a teacher’s responsibility. Prerequisites: Completion of all other teaching field courses and professional education sequence and must meet requirements for admission to Student Teaching. Corequisite: SPED 4430.

SPED 6130 - Introduction to Special Education  3-0-3  Designed to examine the etiology, incidence, diagnosis, characteristics and philosophical and educational implications of the full range of students who demonstrate a need for additional educational services in order to achieve full potential. It is a prerequisite to Master’s level coursework in Special Education and meets the educational requirements mandated by H.B. 671.

SPED 6230 - Assessment and Procedures in Special Education  3-0-3  This course is designed to provide graduate students with pre-requisite skills in procedures, and assessment in Special Education. More specifically, this course provides a review of a variety of assessment techniques, including observations, teacher-made tests, criterion referenced assessments, curriculum-based assessment, and standardized evaluation tools for program planning purposes for individuals with special learning needs. In addition, this course provides knowledge about legislative requirements and the procedures associated with assessment, placement, and instruction of students with disabilities. Prerequisite: SPED 6130.
SPED 6231 - Special Education Laws and Procedures 3-0-3
This course provides knowledge about legislative requirements and the procedures associated with assessment, placement, and instruction of children with special needs. Individual Education Plans, eligibility reports, and transition plans are designed within the current legal and legislative context of special education. Prerequisite: SPED 6130.

SPED 6330 - Classroom Management 3-0-3
This course is designed to provide graduate students with pre-requisite skills in classroom management and procedures. More specifically, this course provides an overview of basic procedures for instructional and behavior management of students with disabilities. In addition, this course provides knowledge about legislative requirements and the procedures associated with instructional and behavioral management. Also included in this course is a review of a variety of assessment techniques including observation, interviews, and other informal assessment techniques for use with individuals with disabilities. Prerequisite: SPED 6130.

SPED 7090 - Selected Topics in Special Education (1-3)-0-(1-3)
Designed to promote specialized training in new and/or emerging topics related to the preparation of practitioners in the field of special education. Attention will be given to a range of special needs as they reach special significance in local systems. Prerequisite: Permission of instructor.

SPED 7111 - Characteristics of Behavior Disorders 3-0-3
Provides an in-depth examination of the types of behaviors characteristic of children and youth with behavior disorders. Emphasis is placed on theories and practices related to appropriate assessment, identification, placement, and programming procedures. Prerequisites: SPED 6130, SPED 6230, SPED 6330, READ 4131, and a course in Abnormal Psychology.

SPED 7132 - Methods of Instruction in Behavioral Disorders 3-0-3
Focuses on identification and implementation of individualized and group methods of teaching and managing students with emotional/behavioral disorders. A developmental approach to behavioral and educational needs is emphasized. Prerequisite: SPED 7131.

SPED 7133 - Collaboration Across the Life Span 3-0-3
An in-depth examination of the issues confronted by individuals with disabilities and their families across the life span is provided. The cognitive and collaborative skills necessary to work with students with disabilities, parents, student services personnel, and community agencies across the life span are taught. Emphasis is placed on planning and implementing transitions at all stages.

SPED 7136 - Language Development 3-0-3
Provides a review of the types and causes of language problems found in exceptional child populations. Provides instruction and demonstration in diagnostic and developmental/remedial techniques in the area of speech/language.

SPED 7211 - Characteristics of Learning Disabilities 3-0-3
Provides an in-depth examination of characteristics of individuals with learning disabilities and the theories and systems related to appropriate assessment, identification and skill acquisition throughout the life span. Prerequisites: SPED 6130, SPED 6230, SPED 6330, and READ 4131.

SPED 7212 - Methods of Instruction in Learning Disabilities 3-0-3
Designed to provide practical techniques of structuring group and individualized instruction in all curriculum areas for individuals with learning disabilities. Emphasis is placed on analysis of individual strengths and weaknesses and selection of appropriate methods and materials to promote gains in cognitive, language, academic, and social skills. Prerequisite: SPED 7231.

SPED 7238 - Supervision of Teachers 3-0-3
Designed to enable the supervising mentor teacher to demonstrate in a classroom setting a mastery of skill performance related to effective observation, conferencing, and communications skills. To receive credit, the participant must have a student teacher, intern, or be serving as a mentor teacher while enrolled in this course. Prerequisite: EDLD 7137.

SPED 7331 - Advanced Characteristics of Mental Retardation 3-0-3
Designed to provide an in-depth review of syndromes, characteristics, causes, behavior, and special problems associated with all levels of mental retardation with implications for education and training. Prerequisites: SPED 6130, SPED 6230, SPED 6330, and READ 4131.

SPED 7332 - Advanced Methods of Instruction in Mental Retardation 3-0-3
Designed to provide students with the practical techniques of structuring group and individualized instruction in all curriculum areas for individuals with mental retardation. It includes review, demonstration and preparation of programs, methods, and materials for such instruction, with special emphasis on application of the diagnostic prescriptive process. Prerequisite: SPED 7331.

SPED 7630 - Seminar in Special Education 3-0-3
Requires students to address a series of topics central to current research and practice in Special Education as they relate to a specific area of disability. Students will be required to prepare for and lead class discussion on a topic of their choice. Prerequisite: Completion of 30 hours in M.Ed. Program.

SPED 7631 - Perspectives on Mild Disabilities 3-0-3
This course is designed to provide graduate students with a review of the characteristics of students with mild disabilities and the implications for their education and development. In addition, graduate students will reflect on the inter- and intra- individual differences which define the uniqueness of students with mild disabilities. Course content will integrate legal and social issues related to the instruction of students with mild disabilities. Prerequisites: Prior or concurrent enrollment in SPED 6230 and SPED 6330.

SPED 7632 - Methods for Mild Disabilities 3-0-3
This course is designed to provide graduate students with skills in social and learning methods for students with mild disabilities. Practically, this course provides an overview of basic methodology for academic and social instruction for students with disabilities. In addition, this course provides knowledge about the identification and implementation of a variety of teaching methodologies appropriate for learners with mild disabilities. Prerequisite: SPED 7631.

SPED 7633 - Introduction to Augmentative Language 3-0-3
This course is an introduction to Augmentative Language and is designed to develop conversational signing skills at the beginning level. Candidates will develop expressive and receptive sign skills, and learn the manual alphabet, numbers, and sign vocabulary. Other topics include grammar, history, fingerspelling, terminology, and Deaf culture.

SPED 7634 - Characteristics and Assessment of Low Incidence Populations 3-0-3
This course is designed to provide the graduate candidate with an introduction to the characteristics and assessment of students with moderate to severe disabilities in low incidence categories including mental retardation, sensory impairments, physical disabilities, multiple disabilities, chronic health impairments, autism, and traumatic brain injury. Historical and philosophical perspectives of programs related to students with moderate to severe disabilities using a life-span approach will be explored. Positive behavioral support strategies will be introduced. Developmentally appropriate and informal assessment will be addressed. In addition, this course will include reflection on multicultural, diversity, technology, employment and community living issues facing this population of individuals with disabilities.

SPED 7635 - Methods for Low Incidence Populations 3-0-3
This course is designed to provide students with practical techniques of structuring group and individualized instruction in all curriculum areas for individuals with moderate to severe disabilities. It includes review, demonstration, and preparation of programs, methods, and materials for such instruction, with special emphasis on application of the diagnostic-prescriptive process. Prerequisite: SPED 7634.

SPED 7736 - Internship in SPED/BDD, LD, MR/Mild 0-0-3
This course involves the implementation of prescriptive methods for teaching students identified with either Behavior Disorders, Learning Disabilities, Mental Retardation, or Mild Disabilities. Interns must complete 150 contact hours of field experience in a P-12 classroom serving students with the categorical focus identified in the student’s program of study. Prerequisites: SPED 7132, SPED 7232, SPED 7332, or SPED 7632.

SPED 8130 - Administration in Special Education 3-0-3
Designed to develop the skills necessary to organize, house, equip, staff, supervise, and provide specialized educational environments and services for children with disabilities.

SPED 8838 - Qualitative/Applied Behavioral Analysis Research 3-0-3
Designed to provide an in-depth study of the methodology involved in qualitative and ABA research. Provides students with a foundation of skills which will allow them to conduct research independently. In addition, a major goal of this course is to facilitate the development of critical thinking skills which will enable students to make reflective decisions within their professional domain. Prerequisite: EDUR 8131.
SPED 8890 - Directed Individual Study  (1-3)-(0-1-3)
The student will propose and carry out an applied or theoretical project in Special Education. Prerequisite: Permission of program faculty.

Statistics (COST)
STAT 2221 - Introduction to Statistics I  3-0-3
An introductory statistics course which covers descriptive statistics, probability, random variables and selected probability distributions, statistical inference including confidence intervals and hypothesis tests. Appropriate technology will be used for simulation and to solve statistical problems. Neither a background in calculus nor experience with computers is required. Prerequisite: A minimum grade of "C" in MATH 1101, MATH 1111, MATH 1112, MATH 1113, MATH 1232, or MATH 1441.

STAT 2232 - Introduction to Statistics II  3-0-3
A continuation of STAT 2231. The focus is on inferential procedures to compare the same characteristic between two or more populations and inferential procedures to investigate the relationship between two or more variables from the same population. Topics include tests of association, regression, correlation, and analysis of variance. The statistical software package SPSS is used. Prerequisite: A minimum grade of "C" in STAT 2231.

STAT 3130 - Applied Statistics  3-0-3
An introductory course in applied statistics for students in the natural sciences, social sciences, health and professional studies, technology, and business. The material covered will provide an introduction to statistical concepts and terminology while focusing on descriptive and inferential methods of data analysis. Both parametric and nonparametric methods are presented for the analysis of central tendency, variability, proportions, and categorical data. Topics covered also include regression and correlation. Prerequisite: MATH 1111 or equivalent.

STAT 4090 - Selected Topics in Statistics  (1-3)-(0-2)-(1-3)
Specialized study in a selected area of Statistics. Prerequisite: Permission of the instructor.

STAT 4890 - Directed Study in Statistics  (1-3)-(0-2)-(1-3)
Directed study under faculty supervision. Well-prepared statistics students may be permitted to enroll in an independent study upon the recommendation of a Statistics faculty member. Prerequisites: Permission of instructor and department chair.

STAT 5130/5130G - Sampling and Survey Methods  3-0-3
An introduction to the design and analysis of sample surveys suitable for students in business, social sciences, and biological sciences in addition to the mathematical sciences. Comparison of simple random sampling, stratified, systematic, cluster and multistage sampling. Emphasis on appropriate sample type and estimation of parameters. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in STAT 2231 or, with permission of instructor, any course in introduction to statistics.

STAT 5330/5330G - Introduction to Mathematical Statistics  3-0-3
An introductory course intended to present a solid foundation in statistical theory, and, at the same time, to provide an indication of the relevance and importance of the theory in solving practical problems in the real world. Topics include, moments and moment-generating functions, point and interval estimation, test of statistical hypothesis, contingency tables and goodness-of-fit, nonparametric methods, and introduction to linear models. This course covers part of the material outlined in the Society of Actuaries’ course 110. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in MATH 3337.

STAT 5531/5531G - Statistical Methods I  3-0-3
This is the first of a two course sequence in applied statistics. The material covered will provide an introduction to statistical concepts and terminology while focusing on descriptive and inferential methods of data analysis. Topics include descriptive statistics, parameter estimation, tests of significance, confidence intervals, analysis of variance, simple linear regression and correlation. Both parametric and nonparametric methods are presented for the analysis of central tendency, variability, proportions and categorical data. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in MATH 3337.

STAT 5532/5532G - Statistical Methods II  3-0-3
This is the second of a two course sequence in applied statistics. The material covered will provide an introduction to the ideas of linear models and experimental design while focusing on methods of data analysis using regression and analysis of variance. Topics include multiple regression analysis, analysis of variance with multiple classification, analysis of covariance, repeated measures analysis of variance, multiple comparison techniques, and diagnostic procedures and transformations. Suitable for students in business administration, economics, and the social, health and biological sciences. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in STAT 5531 or, with permission of instructor, a one semester introduction to applied statistics at the junior level or above.

STAT 6130 - Statistics for Researchers  3-0-3
An introductory course in statistical methods for students in the natural sciences, social sciences, health and professional studies, technology, and business. Sampling techniques for the various data types, data summarization techniques, analysis and reporting will be studied. Topics include descriptive statistics, point and interval estimation, hypothesis testing, categorical data analysis, contingency tables, regression and correlation analysis. Prerequisite: MATH 1111 or equivalent.

STAT 6131 - Biostatistics  3-0-3
Examines statistics in public health and related sciences, including describing populations, measurement, sampling, hypothesis testing, estimation, categorical data analysis, regression and correlation, ANOVA, nonparametric methods, and use of a statistical software package. Prerequisites: Undergraduate course in statistics or permission of instructor.

STAT 7090 - Selected Topics in Statistics  (1-3)-(0-2)-(1-3)
Selected study in a selected area of Statistics. Prerequisites: STAT 5531 and permission of instructor.

STAT 7130 - Applied Multivariate Statistical Analysis  3-0-3
Estimating and inference from the multivariate normal distribution. Hotelling’s T², multivariate analysis of variance, multivariate regression, multivariate experimental design, principle component analysis, factor analysis, discriminate analysis and cluster analysis. Prerequisite: STAT 5531.

STAT 7132 - Applied Nonparametric Statistics  3-0-3
Review of probability and statistical inference; binomial, quantile and sign tests; contingency tables; methods based on ranks. Prerequisite: STAT 5531.

STAT 7134 - Applied Regression Analysis  3-0-3
Simple and multiple linear regression, model selection, residual analysis, influence diagnostics, transformation of data to fit assumptions, multicollinearity and an introduction to nonlinear regression. Prerequisite: STAT 5531.

STAT 7231 - Design of Experiments I  3-0-3
Various statistically designed experiments are introduced including randomized blocks designs, Latin squares, incomplete block designs, factorial and fractional factorial designs with and without confounding and nested designs. Prerequisite: STAT 5531.

STAT 7232 - Design of Experiments II  3-0-3
Response surface methodology is introduced. First- and second-order models and designs are studied which includes determining optimum conditions and methods of estimating response surfaces. Multiresponse experiments, nonlinear response surface models, and mixture designs are also studied. Prerequisite: STAT 7231.

STAT 7234 - Statistical Process Control  3-0-3
Philosophy of statistical process control is studied along with SPC techniques of control charts, process-capability, designed experiments and acceptance sampling. Prerequisite: STAT 5531.

STAT 7331 - Mathematical Statistics I  3-0-3
Random variables, density functions, mathematical expectation, discrete and continuous distributions, moments and moment-generating functions and limiting distributions. Prerequisites: MATH 2242 and MATH 3337.

STAT 7332 - Mathematical Statistics II  3-0-3
Rigorous introduction/development of interval estimation, test of significance, comparison of “k” means, randomized block design, multiple comparison procedures, nonparametric test and linear regression. The general linear model will be introduced. Prerequisite: STAT 7331.

STAT 7430 - Actuarial Mathematics  3-0-3
Survival distributions and life tables, life insurance, life annuities, net premiums, multiple life functions, multiple decrement models, valuation theory for pension plans, collective risk models, population theory and theory of pension funding. Prerequisite: STAT 7331.
438 Georgia Southern University

STAT 7432 - Applied Stochastic Processes 3-0-3
Poisson process, renewal theory, Markov chains, Brownian motion, random walks and Martingales and stochastic order relations. Prerequisite: STAT 7331.

STAT 7434 - Applied Time Series Analysis 3-0-3
Basic ideas of stochastic model building techniques with applications are discussed. Properties of the autocorrelation function and the spectrum of stationary processes are investigated. Models studied include the linear stationary ARMA and linear nonstationary ARIMA models along with forecasting models. Prerequisite: STAT 7331.

STAT 7436 - Reliability Analysis 3-0-3
Probabilistic models for the reliability of coherent systems, statistical models for lifetimes of components and repairable systems, including the nonhomogeneous Poisson process, reliability estimation and prediction, MIL standards and accelerated life testing. Prerequisite: STAT 7331.

STAT 7530 - Statistical Computing I 3-0-3
Basic computer organization and computer arithmetic are investigated. Programming languages and statistical software packages are explored. Methods for approximating cumulative distribution function and percentage points of a probability distribution are studied including nonparametric procedures. Multiple comparison procedures are also examined. Random number generation and statistical tests for testing random number generators are explored. Prerequisite: STAT 7331.

STAT 7532 - Statistical Computing II 3-0-3
Various computational methods in linear algebra as applied to such statistical methods as multiple linear regression, designed experiments, multivariate analysis and the general linear model. Further topics include computational methods for unconstrained optimization, nonlinear regression and model fitting based on criteria other than least squares. Prerequisites: STAT 5532 and STAT 7331.

STAT 7534 - Data Management for Biostatistics 3-0-3
The basics concepts for data collection and management of biostatistical data will be investigated. The design of data collection methods, constructing data entry procedures, the use of databases for storing and retrieving data, methods of coding data, data documentation, quality control procedures, communicating with other databases, producing data set for valid statistical inference, and report writing will be studied. Prerequisites: STAT 5532, computer programming experience or permission of instructor.

STAT 7535 - Biopharmaceutical Statistics for Drug Development 3-0-3
Statistical aspects of drug research and development, Federal regulations, and marketing will be studied. More specifically, statistical methods useful in the areas of: pharmaceutical lead discovery and optimization, assessment of pharmacological activity, pharmaceutical formulation, preclinical and clinical safety assessment, clinical development, bioavailability and bioequivalence, clinical trials with quantitative and qualitative measurements, cancer clinical trials, and manufacturing and quality control, will be studied. Prerequisites: STAT 7132, STAT 7134, STAT 7231, and permission of instructor.

STAT 7537 - Statistical Issues in Drug R and D 3-0-3
Major statistical issues in the federal regulation of drug research and clinical development will be studied. More specifically, summarization, analysis and monitoring of adverse experiences, two treatment crossover designs, active control equivalence studies, optimization in clinical trials and combination drug development, dosing in the elderly, intention to treat in clinical trials, and dual control groups in rodent carcinogenicity studies will be studied. Prerequisites: STAT 7132, STAT 7134, STAT 7231, and permission of instructor.

STAT 7760 - Practicum in Statistics (1-3)-36(1-3)
Permits the student to receive practical experience in a selected statistics setting. Prerequisite: Permission of instructor.

STAT 7890 - Directed Study in Statistics (1-3)-(0-2)-(1-3)
Directed study under faculty supervision. Prerequisites: Permission of instructor and department chair.

STAT 7899 - Research Project in Statistics (1-6)-(0-4)-(1-6)
Research project addressed toward a real world problem. Prerequisites: Permission of project advisor and department chair.

Technology Education (COE)

TCED 1121 - Drafting for Technology Education Teachers 1-2-2
This course is an introduction to the basic principles of manual drafting. Included is a study of lettering and line quality, sketching, multiview drawings, dimensioning, auxiliary views, sections and pictorial drawings.

Emphasis will also be on the teaching of these manual drafting skills in a Technology Education laboratory setting.

TCED 2131 - Introduction to Technology Education 3-0-3
Introduces the prospective teacher to the field of Technology Education. Highlights origins, movements and leaders that have shaped this program. Goals, objectives, content and competencies will be explored through didactic and practical methods.

TCED 2132 - Lab Design 3-0-3
Includes the essentials of designing an appropriate Technology Education facility and managing such a facility in a public school setting. Program development and equipment procurement are included. Also includes the essentials of maintaining tools, equipment and the facility. In addition, the operation of programs in a public school situation and the necessary safety precautions are included.

TCED 3231 - Materials Technology for Technology Education Teachers 2-4-3
An analysis of the common materials used in the teacher preparation area of the Technology Education laboratory. Emphasis is placed on identification, nomenclature, and standard processes used to develop mock-ups and prototypes as related to the Technology Education laboratory.

TCED 3234 - Electronics Technology for Technology Education Teachers 2-4-3
This course is designed to provide the prospective Technology Education teacher with the information necessary to instruct students in the fundamentals of electronics technology and its impact upon human innovation and the environment. Upon completion of this course, students will be able to design, troubleshoot, and maintain electronic components typically found in a Technology Education laboratory.

TCED 4130 - General Technology for Teachers 3-0-3
A study of the educational aspect of the areas of production, transportation, construction and communication. An emphasis is placed on utilizing common materials discovered in the nature and the refinement of these materials in a laboratory environment through the design and development of prototypes.

TCED 5236/5236G - Technology Education Curriculum 3-0-3
Focuses on problems, techniques and procedures in the preparation, selection and organization of curriculum materials for instructional purposes. Emphasis is placed on methods, techniques and theories of learning, preparation of materials, sequencing, laboratory safety, evaluation and teacher liability in the technology setting. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: Admission to Teacher Education Program (for initial certification only).

TCED 5237/5237G - Technology Education Methods 2-3-3
The Technology Education major will be exposed to effective methods and techniques of teaching Technology Education subjects. Emphasis will be placed on class organization, course management, preparation of lesson plans and audio-visual instructional aids. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Admission to Teacher Education Program (for initial certification only).

TCED 5238/5238G - Materials and Methods of Construction 3-0-3
An introduction to and fundamental exploration of the commonly used building materials and methods of construction. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Admission to Teacher Education Program (for initial certification only).

TCED 5239/5239G - Advanced Technology Education for Teachers 2-4-3
A study of the educational aspects of human innovation and problem solving as they apply to Technology Education. An emphasis is placed on using the "Technological Problem-Solving Process" to identify, evaluate, and solve problems with existing technologies and the innovation of new technologies. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: Admission to Teacher Education Program (for initial certification only).

TCED 7111 - Organizing and Implementing Programs in Technology Education 3-0-3
An analysis of existing, emerging and proposed Technology Education programs. Content provides a foundation for the planning and implementation of quality programs of instruction at different levels.
TCED 7132 - Designs for Technology Education Teachers 3-0-3
Explores new development in the field of drafting and design emphasizing the relationship of material and form in the selection and design of projects. Participants obtain hands on experience through actual design problems and their solutions. Prerequisite: Beginning course in drafting or equivalent.

TCED 7630 - Seminar in Technology Education 3-0-3
An advanced study of Technology Education for experienced teachers and administrators and supervisors. Emphasis is placed on the development of sound principles and practices for initiating, conducting and evaluating programs. Participants will gain practical experiences and conduct intensive research on individual and group problems. Prerequisite: TCED 7131.

TCED 8131 - Philosophy of Technology Education 3-0-3
A survey of past and present philosophies that have influenced the development of Technology Education. Inclusion of movements, leaders and events will be interjected as appropriate. Emphasis will be placed on the development and/or strengthening of a personal philosophy.

TCED 8132 - Administration and Supervision of Technology Education 3-0-3
A comprehensive study of organizational structures functioning as a continuum in the public schools. Explores appropriate school facilities in light of their organized structures. Emphasis will also be placed on the development of guidelines for administration and supervision. Prerequisite: TCED 7131.

Civil Engineering Technology (COST)

TCET 2241 - Surveying 2-4-4
Principles of the level, theodolite, EDM, total station and global positioning systems, taping, note keeping, coordinate geometry, control surveys, triangulation, trilateration, plane coordinate systems, azimuth and topographic mapping. Laboratory includes use of level, theodolite, EDM, total station, GPS, transverse closure, level net closure, topographic mapping, measuring distances and heights using coordinate geometry calculations. Prerequisite: MATH 1113.

TCET 3141 - Environmental Pollution 2-2-4

TCET 3142 - Structural Analysis 3-3-4
Introduction to types of structures and loads. Analysis of statically determinate and intermediate structures by classical and other methods. The types of structures covered include beams, plane trusses and plane frames. Topics include external and internal reactions, deflections, moving loads and influence lines, approximate methods (including portal method and cantilever method), classical slope-deflection and moment distribution methods, and an introduction to matrix method. Computational laboratory activities in support of instruction, including use of industry-standard structural analysis software. Prerequisites: TENS 2121, TENS 2143, and MATH 2242.

TCET 3233 - Transportation Systems 3-0-3
Overview of transportation engineering with respect to operational and traffic characteristics of land, air and water transportation systems. Emphasis on design and traffic control devices. Laboratory involves data measurement and analysis techniques associated with transportation engineering. Prerequisite: Junior standing in Civil Engineering Technology.

TCET 3234 - Construction Materials 2-3-3
Introduction to engineering properties of common civil engineering materials including metals, soils, aggregates, Portland cement concrete, asphalt concrete, wood, and masonry. Laboratory involves performance of standard tests on aggregates, concretes, wood; emphasizing data analysis and application of test results to design specifications. Prerequisite: TENS 2143.

TCET 4141 - Water Supply Systems 2-2-4

TCET 4142 - Reinforced Concrete Design 3-2-4
Characteristics of concrete materials, introduction to ACI building code requirements for reinforced concrete, strength design of slabs, beams, columns and footings. Design/computational laboratory activities in support of instruction. Prerequisite: TCET 3142.

TCET 4146 - Structural Steel Design 3-2-4

TCET 4243 - Highway Design 3-3-4
A synthetic approach to highway design based on considerations of geometric controls, structural requirements, drainage needs, and economy. Laboratory includes design projects, field stoke out of horizontal curves, cross-sectioning, and slope staking. Prerequisites: TCET 2241, TCET 3234, and TCET 3235.

TCET 4244 - Soil Mechanics and Foundations 3-3-4
Introduction to soil mechanics and foundations, including: soil composition, index properties, classification, exploration, compaction, permeability and seepage, stress distribution, consolidation, settlement, shear strength, bearing capacity, lateral earth pressure; and application of soil mechanics to design of footings and analysis of retaining walls and pile foundations. Laboratory includes evaluation of soil properties, using the test results in design and analysis. Prerequisites: TENS 2121 and TENS 2143.

TCET 4245 - Water-Wastewater Treatment 3-3-4
Sources and characteristics of water and wastewater. Principles of design for units and processes in water and wastewater treatment plants. Treatment standards. Standard laboratory tests used to control the operation of water and wastewater treatment plants. Field trips to water and wastewater treatment plants. Computer program design of water treatment units. Prerequisites: TCET 3141 and TENS 2144.

TCET 4536 - Senior Project 0-6-3
Designed to be the culmination of the undergraduate civil engineering technology education, the course draws together diverse elements of the Civil Engineering Technology curriculum to provide interspersing experiences and to develop competence in focusing both technical and nontechnical skills in solving problems. The project involves design and analysis of a new or modified civil engineering project or system with demonstrated feasibility. Prerequisites: TCET 4142, TCET 4146, senior standing in Civil Engineering Technology, and approval of the instructor.

TCET 4890 - Special Problems in CEE 1-4-(0-4)(1-4)
Individual and specialized study in areas of civil engineering technology (CEET) not otherwise covered in the student’s program. Prerequisites: Senior standing, identification and definition of a problem or study in area and approval of the instructor.

General Technology (COST)

TCGT 1530 - Technology, Science and Environment 3-0-3
A systematic investigation of the constructs of technology in terms of its bases in scientific principles and its impact on the global environment.

TCGT 4090/4090S - Selected Topics in Technology 0-(3)-0-(6)-(1-3)
Scheduled on an infrequent basis to explore special areas in technology and will carry a subtitle. Keeps with established policies for offering a structured course on an infrequent basis. It will allow faculty to offer a course on a trial basis for possible approval at a later date.

TCGT 7131 - History of Technology 3-0-3
A study of origins and development of humankind’s mastery of the environment through technology.

TCGT 7230 - Industrial Case Study Analysis 3-0-3
The systems approach and case study format are utilized for the resolution of current technical management problems of various industries. Problem solving methods are presented, discussed, and utilized in student activities.

TCGT 7530 - Research and Technology 3-0-3
A study of modern research methods and their application to the preparation of the thesis and technical reports.

TCGT 7532 - Global Technology 3-0-3
An examination of the developments of technology and industry worldwide and the effects upon international relations.
A of angles, surveying, accessories and accessories, Steel construction. Prerequisite: W material sections, and building components.

A topic is to the semester in which the course is taken. Permission of the instructor topic experimentation, Independent of technolog study the materials, required.

A of properties to of concrete materials, and building components. Prerequisite: ACCT 2030, CISM 1110, CISM 1120, and ECON 2105.

The various aspects of heavy equipment management and ownership. Topics include equipment acquisition and disposition options, production costs and productivity, cost analysis and control, management staffing and responsibilities, selected topics in maintenance, depreciation and economic life. Prerequisite: TCM 3331.

Individualized study in the area of building construction and contracting not otherwise available in the student’s program. Prerequisite: Permission of instructor six weeks prior to beginning of term in which study is to take place.

Scheduled on an infrequent basis to allow the exploration of undergraduate topics within building construction and contracting. Course shall carry a subtitle for topic identification. Prerequisite: Permission of instructor.

Safe building construction management techniques. Topics include workers’ compensation insurance, OSHA regulations, construction disasters, safe construction training and planning, and the hidden costs of accidents. Prerequisite: TCM 3330.

Methods and procedures in estimating costs of construction projects. Topics include types and purposes of estimates, direct and indirect costs, labor and equipment cost analysis, the CSI Masterformat, approximate estimates, and computerized estimating. Prerequisites: TCM 3330 and TCM 3331.

Terms, documents and operations inherent in building construction management. Topics include business ownership, company organization, project bidding/negotiating methods, construction contracts, bonds, insurance and accounting. Prerequisites: Completion of 25 hours of TCM course work.

Fundamentals and techniques of planning and scheduling for construction projects. Topics include bar charts, Critical Path Method using both arrow and node networks, precedence networks, cost-time trade-offs, PERT, resource leveling, updating schedules during construction, introduction to project control, and computerized scheduling. Prerequisites: TCM 3330, CISM 1110, and CISM 1120.

The site development construction process with an emphasis on soils as a construction material. Topics include soils investigation, testing, classification, engineering properties and modification techniques, excavation equipment, construction dewatering, slope stability and support, layout and grading, sediment and erosion control, foundations, underground utilities and pavements. Prerequisites: TCM 3330 and TCM 3331.

An exercise in estimating and scheduling from construction documents of an actual building project utilizing major elements of the CM
program. Project includes developing a fictitious construction company organization, production of a project estimate and schedule and preparing a construction bid and construction documentation. Prerequisite: Senior standing or permission of instructor.

TCM 4740 - Internship 0-0-4
Designed for students to receive practical work experience with an approved construction firm. A total of 560 contact hours with the construction firm is required. Prerequisite: Permission of instructor.

Electrical Engineering Technology (COST) 0-3-1
Laboratory activities in support of instruction in TEET 2133. Prerequisites: TENS 2156 and TENS 2116. Corequisite: TEET 2133.

TEET 2114 - Circuit Analysis Laboratory I 0-3-1
Laboratory activities in support of instruction in TEET 2133. Prerequisites: TENS 2156 and TENS 2116. Corequisite: TEET 2133.

TEET 2143 - Circuit Analysis I 3-2-4
An introduction to basic circuit analysis including DC and AC circuits, network theorems and Kirchoff’s laws. Laboratory activities in support of instruction. Prerequisites: MATH 1441 and TENS 2146. Corequisite: TEET 2114.

TEET 2433 - Microcontrollers 3-0-3
Study and applications of the 8051 Microcontroller. Course topics include microcontroller architecture, memory, peripheral devices, interfacing, and programming. Prerequisite: TENS 2136.

TEET 2441 - Digital Circuits 3-2-4
A study of basic asynchronous and synchronous logic circuits. Topics include logic functions, Boolean operations, logic families, combinational logic, flip-flops, counters, registers, and memory systems. Also includes laboratory activities in support of instruction. Prerequisite: TENS 2146.

TEET 3116 - Circuit Analysis Laboratory II 0-3-1
Laboratory activities in support of instruction in TEET 3115. Prerequisite: TEET 2114. Corequisite: TEET 3135.

TEET 3145 - Circuit Analysis II 3-2-4
A continuation of Circuit Analysis I. Topics include AC Power, Polyphase Circuits, Transformers, Resonant Circuits, Laplace Transforms in Circuit Analysis, Transfer Functions, Fourier Analysis. Laboratory activities in support of instruction. Prerequisites: TEET 2143 and MATH 2242. Corequisite: TEET 3116.

TEET 3241 - Electronics I 3-2-4
An introduction to basic solid state devices, including diodes, BJTs and FETs; their applications in rectifiers, amplifiers, and power supplies. Also includes laboratory activities in support of instruction. Prerequisites: A minimum grade of “C” in TEET 2143 or equivalent.

TEET 3243 - Electronics II 3-2-4
A continuation of TEET 3241. Topics include FET and BJT small signal amplifiers, power amplifiers, tuned amplifiers, multistage amplifiers, feedback amplifiers, operational amplifiers, oscillators, and regulated power supplies. Prerequisites: A minimum grade of “C” in TEET 3241 or equivalent.

TEET 3246 - RF Amplifier Design 3-2-4
An introduction to modern techniques for RF amplifier design. The course concentrates on lumped element circuits in the frequency range 1-1000 MHz, RF amplifiers, oscillators, mixers and RF receivers. Prerequisite: A minimum grade of “C” in TEET 3241 or equivalent.

TEET 3341 - Rotating Machines 3-3-4
DC and AC (single and polyphase) motors and generators, energy converters and transformers. Also includes laboratory activities in support of instruction. Prerequisite: TEET 3145. Corequisite: TEET 3312.

TEET 3343 - Electrical Distribution Systems 3-3-4
A study of electrical power distribution, primarily the National Electrical Code residential and industrial, with emphasis on services, feeders, branch circuits, metering, voltage drops, sizing of conductors, demand limiting, etc. Also includes laboratory activities in support of instruction. Prerequisite: TEET 3145. Corequisite: TEET 3314.

TEET 3541 - Programmable Controllers 3-3-4
A study of sequential programmable logic controllers (PLCs) as applied to industrial processes with emphasis on ladder diagrams, input/output devices, application programming design of beginning through advanced functions, systems and networking. Also includes laboratory activities in support of instruction. Prerequisite: TEET 2146. Corequisite: TEET 3512.

TEET 3890 - Directed Independent Study 1-3-0-1-3
An individualized study involving research and applications pertaining to Electrical Engineering Technology. Prerequisites: Senior standing, identification and definition of a problem or study area and approval of the instructor.

TEET 4090 - Selected Topics in Electrical Engineering Technology 0-3-1
Designed to provide for study of Electrical Engineering Technology course topics not generally offered by the program.

TEET 4212 - Operational Amplifiers Laboratory 0-3-1
Laboratory activities in support of instruction in TEET 4231. Prerequisite: TEET 3214. Corequisite: TEET 4231.

TEET 4219 - Industrial Electronics Laboratory 0-3-1
Laboratory activities in support of instruction in TEET 4238. Prerequisites: TEET 3116 and TEET 3212. Corequisite: TEET 4238.

TEET 4231 - Operational Amplifiers 3-0-3
An introduction to operational amplifiers, basic feedback structures, op-amp characteristics, regulators, filters, and non-linear circuits. Prerequisite: TEET 3231.

TEET 4237 - Fiber Optic Communications 3-0-3
Fiber optic technology as applied to communication system. Study of various types of optical fibers, LASER and LED, photo diodes, optical connectors, and optical systems. Prerequisite: TEET 3233, TEET 4235, or permission of instructor.

TEET 4238 - Industrial Electronics 3-0-3
Industrial applications of electronic devices including SCR’s, triacs, switching circuits, timers, motor controls, and optical devices. Prerequisites: TEET 3135 and TEET 3231.

TEET 4245 - Communications Electronics 3-2-4
Devices and circuits within modern electronic communication systems. Topics include spectral analysis, electrical filters, amplitude, angle modulation and detection, pulse and digital modulations. Also includes laboratory activities in support of instruction. Prerequisite: A minimum grade of “C” in TEET 3243 or equivalent.

TEET 4540 - Automatic Controls 3-2-4
An introduction to control feedback theory including block diagrams transfer functions, stability properties of feedback, and classical design methods. This course includes laboratory activities in support of instruction. Prerequisite: A minimum grade of “C” in TEET 3146 or equivalent.

TEET 4630 - EET Senior Project 2-3-3
Individual applied “Product Design and Build” project that includes specifications, scheduling, computer-aided engineering and design (CAE/ CAD), printed circuit board fabrication and performance testing. Other requirements are weekly progress reporting, oral presentations, and a comprehensive written report. Prerequisite: Senior standing in EET.

TEET 4890 - Special Problems in EET 1-3-0-1-3
Individual and specialized study in areas of electrical engineering technology not otherwise covered in the student’s program. Prerequisites: Senior standing, identification and definition of a problem or study area and approval of the instructor.

Engineering Science (COST) 0-3-1
TENS 2121 - Digital Computation 1-2-2
An introduction to problem solving using the computer. Interactive hands on use of a programming language, spreadsheet, and other computer based tools to solve a variety of engineering technology problems. Exploration of a range of problems that are suitable for computer solution and the software tools which provide the best fit for the problems to be solved. Prerequisite: Experience with personal computer applications.

TENS 2135 - Thermodynamics 3-0-3
An introduction to thermodynamics. First and second law analysis of thermal systems. Use of property charts, tables and equations of state in analyzing common thermal processes of technological importance. Prerequisite: MATH 1441.

TENS 2137 - Engineering Economy 3-0-3
Introduction to the time value of money and its effect on economic decisions. The principles and techniques needed to make decisions about the acquisition and retirement of capital goods, the output and life of equipment, operating costs, depreciation rates and economic selection. Prerequisite: MATH 1111.
TENS 2141 - Statics (0 or 3)-(0 or 2)-(0-4)
The study of force systems and equilibrium of bodies at rest. Forces in plane trusses machines and frames, centroids and moments of inertia, and friction. Includes problem solving session in support of above topics. Prerequisite: MATH 1113.

TENS 2142 - Dynamics (0 or 3)-(0 or 2)-(0-4)
The study of kinematics and kinetics of particles and rigid bodies; work and energy and impulse and momentum as applied to particles. Includes problem solving sessions in support of the above topics. Prerequisites: MATH 1441 and TENS 2141.

TENS 2143 - Strength of Materials (0 or 3)-(0 or 2)-(0-4)
Introduction to concepts of stress and elastic deformation under axial, torsional, flexural and combined loadings and beam loading. Also includes laboratory activities in materials testing and problem solving. Prerequisites: MATH 1441 and TENS 2141.

TENS 2144 - Fluid Mechanics (0 or 3)-(0 or 2)-(0-4)
Fundamentals of fluid statics and fluid dynamics for incompressible fluids, fluid properties, static and dynamic forces, Bernoulli’s equation, pipe flow and losses, open channel flow and flow measurement. Also includes methods, procedures and the use of equipment and meters to measure standard fluid properties and phenomena. Prerequisites: MATH 1441 and TENS 2141.

TENS 2146 - Electrical Devices and Measurements (0 or 3)-(0 or 3)-(0-4)
An introduction to basic electrical devices and measurements. Coverage includes analog/digital systems and computer simulation. Also includes laboratory activities in support of instruction. Prerequisite: MATH 1441.

Technology - Fort Gordon (COST)
TFG 7531 - Telecommunication Systems 3-0-3
This course will provide students the ability to design a secure voice and data network for subscribers. A systems approach will be used to study telecommunications networks for the understanding of the function of individual components and subsystems. Attention will be given to the theory of different existing and emerging technologies. Students will receive an overview of public and private telecommunications systems, fundamentals of traffic engineering, switching, transmission, and signaling. Emphasis will be placed on the function of discrete components as well as complete systems. Prerequisite: Admission to Fort Gordon Cooperative Educational Degree Program.

TFG 7532 - Network Operations and Management 3-0-3
This course examines the management tools and software applications needed to manage the variety of local and wide area networks. The course will address data communication devices, telecommunication devices, simple network management protocol, remote monitoring, telecommunication management, and network operation and security. Prerequisite: Admission to Fort Gordon Cooperative Educational Degree Program.

TFG 7533 - Network Security 3-0-3
This course provides an in-depth study of network Security. Students will gain a respect for the threats and vulnerabilities facing U.S. voice and data networks and learn how networks are protected through organizational policy, software application, methodologies, and equipment. Topics discussed are: cryptography, Public Key Infrastructure (PKI), Internet Protocol Security (IPSEC), IP and bulk encryption, firewalls, intrusion detection systems, Certification and accreditation processes. Prerequisite: Admission to Fort Gordon Cooperative Educational Degree Program.

TFG 7534 - Network Design 3-0-3
This course examines a structured, systematic, top-down process to design telecommunications networks. Some specific objectives are: students will understand the structured network design process, the logical and physical design process for access, distribution and core networks and the planning processes for host/network security and management. Prerequisite: Admission to Fort Gordon Cooperative Educational Degree Program.

Graduate Engineering Technology (COST)
TGET 7131 - Advanced Quality Control 3-0-3
A study of modern philosophies, methodologies, and technologies for quality control and improvement with emphasis on total quality management, statistical process control, quality improvement methods and acceptance sampling.

TGET 7132 - Advanced Engineering Economy 3-0-3
Consideration of probability and risk effects on estimates, selection of the minimum, attractive rate of return, capitol rationing, among competing projects and economic analysis in government.

TGET 7133 - Facilities Planning 3-0-3
An organized approach for planning a facility that achieves facilities location and design objectives, including how the activity’s tangible assets best support achieving the activity’s objectives. It is a composite of facilities location and facilities design with the approach based on the engineering design process. Techniques can be applied equally for non-manufacturing applications.

TGET 7134 - Construction Planning and Administration 3-0-3
An in-depth treatment of the process of developing capital construction projects from the point of conception through the preliminary planning and budgeting to final design, contract or selection, and finished construction of the desired end product.

TGET 7135 - Manufacturing Systems Analysis 3-0-3
A study of the analysis of manufacturing systems, systems analysis and problem solving in manufacturing. The tools of systems analysis will be used to formulate the real problems of manufacturing, identify where computer systems can help, and solve challenging manufacturing systems problems.

Theatre (CLASS)
THEA 1100/11005 - Theatre Appreciation 3-0-3
An introductory study of dramatic literature and its relationship to the theatrical arts including set, costume, lighting design, acting, and directing.

THEA 1331 - Stage Make-up 3-0-3
Offers students an introduction to make-up materials and techniques of application. Included with the basic techniques will be work with aging, wounds, scars, prosthetics, and other types of make-up.

THEA 1711 - Theatre Practicum 1-2-0
Provides students with opportunities to take an active part in a theatrical production. A maximum of four hours may apply toward a degree. Thirty clock hours of work will equal one hour of credit.

THEA 1712 - Puppetry Practicum 1-2-0
Provides students with opportunities to take an active part in puppetry production. A maximum of 4 hours may apply toward a degree. Thirty clock hours of work will equal one hour of credit.

THEA 2332 - Stagecraft 3-0-3
Provides students with basic instruction in principles of scenic construction, design, drafting, and painting. Designed as preparatory course to production and performance.

THEA 2333 - Fundamentals of Acting 3-0-3
Includes history of actor training, the influence of Stanislavsky, the playing of objectives, character development, and rehearsal discipline.

THEA 2712 - Puppetry Practicum 1-2-0
Provides students with opportunities to take an active part in puppetry production. A maximum of four hours may apply toward a degree. A minimum of thirty clock hours of activity required to receive credit.

THEA 3030/3030S - Selected Topics in Theatre 3-0-3
Offers varied courses in specialized areas in the field of theatre.

THEA 3260 - Voice for the Stage 3-0-3
Students learn how to use their voices in a variety of performance situations.

THEA 3330 - Acting: Scene Study 3-2-2
Broadens student understanding of the craft of acting. Special emphasis will be placed on character study through the extensive use of scene work from twentieth century drama.

THEA 3331 - Advanced Stagecraft 3-0-3
Examines construction principles and techniques applied to stage scenery and design. Also, focuses on maintenance of stage facility and shop equipment. Prerequisite: THEA 2332.

THEA/AAST/AMST 3332 - African American Theatre 3-0-3
Investigates the contributions of black playwrights, actors, and directors to American theatre.

THEA/IRSH 3333 - Irish Theatre 3-0-3
Studied the theatre of Ireland from the Abbey Theatre through the present. Covers Irish theatre movement and plays by significant playwrights from W.B. Yeats to Brian Friel. Prerequisite: Permission of instructor.

THEA 3334 - Sound Design for the Theatre 3-0-3
Teaches the process of sound design for theatrical production with basic instruction in the use of equipment. Teaches techniques necessary to reproduce sound effects and music for the stage.
THEA 3335 - Scene Painting 3-0-3
History and techniques of scene painting including back drops, three dimensional textures, and trompe l’oeil effects. Course will cover a variety of paint media including transparent dye and application of gold leaf.

THEA 3336 - Theatre Management 3-0-3
Provides students with an introductory study of the principles and practices of theatrical management. Provides a systematic examination of the role of the theatre stage manager.

THEA 3337 - Play Directing 2-2-2
Includes conceptualization, communication with actors and designers, and casting and rehearsal techniques necessary to stage a play for the theatre. Prerequisite: Permission of instructor.

THEA 3338 - Rehearsal and Performance 0-12-3
This course will enable a student to receive credit for intensive participation in a theatrical production over the course of a 4- to 7-week period. The student will participate in a number of different activities: acting, set design and construction, costume design and construction, lighting design and implementation, publicity, stage management, property design and construction, house management, and others.

THEA 3711 - Theatre Practicum 1-2-0
Provides students with opportunities to take an active part in a theatrical production. A maximum of four hours may apply toward a degree. Thirty clock hours of work will equal one hour of credit.

THEA 3712 - Puppetry Practicum 1-2-0
Provides students with opportunities to take an active part in puppetry production. A maximum of four hours may apply toward a degree. Thirty clock hours of work will equal one hour of credit.

THEA 4330 - Theatre History: To the Elizabethans 3-0-3
Surveys the physical structure, production methods, and acting and stage design of the theatre up to the Elizabethan period. Includes the study of ritual and oriental theatre as well as Western European drama. Prerequisite: Permission of instructor.

THEA 4331/4331S - Theatre History: Elizabethan to Modern 3-0-3
Surveys the physical structure, production methods, and acting and stage design of Western theatre from the Elizabethan through the modern period. Prerequisite: Permission of instructor.

THEA 4332 - Children’s Theatre and Storytelling 3-0-3
Examines play theory, storytelling, and creative drama techniques for the staging of plays with and for children.

THEA 4333/4333S - Acting Styles 3-2-2
Specialized study of the techniques needed to perform in a particular style of theatre or in the work of a particular playwright. Topics include Shakespeare and verse drama, Brecht and Epic theatre, improvisational comedy, and Greek and Roman tragedy. May be repeated once for credit.

THEA 4334 - Drama in Performance 3-0-3
Examines the relationship between the play in performance and the dramatic text with special attention to historical theories of acting which influence the literary works.

THEA 4335 - Scene Design 3-0-3
Emphasizes interpretation of plays through visual images and the creation of physical spaces for performances. Includes traditional drafting and computer assisted design technologies, scale model making, perspective drawing and painted or air brushed rendering of the set. Prerequisite: THEA 2332 or permission of instructor.

THEA 4336 - Lighting Design 3-0-3
Theory and practice of lighting for a variety of stages including proscenium, thrust, and arena stage production. A practical study of the equipment and the aesthetics of lighting for the theatre. Prerequisite: THEA 2332 or permission of instructor.

THEA 4337 - Costume Design 3-0-3
The history and applied theory of theatrical costume design. An exposure to costume materials and concepts executed and demonstrated through watercolor and charcoal rendering. Prerequisite: THEA 2332 or permission of instructor.

THEA 4338 - Seminar: World Theatre 3-0-3
This course is a study of one of the forms of theater engaged in by different cultures around the world. Each course will focus on one specific area of theater chosen from: People’s Theatre, Russian Theatre, Asian Theatre, Classic Greek Theatre, Neo-Classic Theatre, or some other area within the Instructor’s expertise.

THEA 4711 - Theatre Practicum 0-2-1
Provides students with opportunities to take an active part in a theatrical production. A maximum of three hours may apply toward a degree. Forty clock hours of work will equal one hour of credit.

THEA 4712 - Puppetry Practicum 1-2-0
Provides students with opportunities to take an active part in puppetry production. A maximum of four hours may apply toward a degree. A minimum of thirty clock hours of activity required to receive credit.

THEA 4831 - Directed Study in Theatre 3-0-3
Permits students to conduct in-depth study of issues associated with theatre. This course cannot be used to replace existing courses in the catalog. Must be approved by the department chair and the instructor.

THEA 5530/5530G - Playwriting 3-0-3
The study, analysis, and practice in the art and craft of writing plays for the stage or for dramatic television and film. Undergraduates complete one act play while graduate students complete a first draft for a full length play.

THEA 5531/5531G - Puppetry 3-0-3
Acquaints the student with puppetry as an art and an educational medium. Emphasizes effective use of puppetry in the development of individual and group resources, creativity, self expression, and emotional adjustment. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

Mechanical Engineering Technology (COST) 
TMET 2128 - Solid Modeling and Analysis 4-0-2
Students will develop a working proficiency in parametric solid modeling software, such as Pro/Engineer. In addition to creating solid models, students will develop a basic understanding of structural and thermal analysis. The skills learned in the course will be applied in junior and senior level MET courses. Prerequisite: ENGR 1133 or TMFG 2522, and prior or concurrent enrollment in TENS 2143, or permission of instructor.

TMET 2521 - Introduction to Mechatronics 1-2-2
Lecture and laboratory instruction in the theory and practice of engineering technology measurements and their application to controlled activities. A familiarity with traditional measuring devices, and a proficiency with data acquisition packages will be developed. The packaging of results in reports and presentations will be emphasized. Prerequisites: TENS 2146 and prior or concurrent enrollment in TENS 2143, or permission of instructor.

TMET 3130 - Mechanism Design 2-2-3
Kinematic analysis and design of the basic machine components and to introduction to mechanism synthesis and analysis. Extensive use of commercial mechanism analysis software. Prerequisite: TENS 2142.

TMET 3135 - Machine Design 3-0-3
Principles of mechanical design, the design of machine elements with consideration given to strength requirements, fatigue, material properties and modes of failure. Computer applications are stressed. Prerequisite: TENS 2143.

TMET 3136 - Machine Component Design 3-0-3
The detailed design of components such as springs, belts, clutches, brakes, chains, bearing, gears, lubrication, and welded and riveted connections. Prerequisite: TMET 3135.

TMET 3222 - Thermodynamics II 3-0-3
A second course in thermodynamics that upon completion of the first course requires knowledge of engineering thermodynamics. Includes an in-depth analysis of power and refrigeration cycles. Serves as an introduction to combustion processes. Prerequisites: TENS 2135, TENS 2144, and prior or concurrent enrollment in CHEM 1145 or permission of instructor.

TMET 3233 - Heat Transfer 3-0-3
An introduction to basic energy transport by conduction, convection and radiation. Applications to extended surfaces, heat exchanger, etc. Prerequisites: MATH 2242 and TENS 2135.

TMET 3301 - Materials Science 3-3-4
Study of engineering materials such as metals and alloys. Atomic structure and arrangement; control of the microstructure and mechanical properties of materials, mechanical testing, solidification, cooling curves, and phase diagrams and various strengthening mechanisms. Laboratory includes problem solving sessions and experiments on materials related to strengths, toughness, solidification, and metallography. Prerequisite: CHEM 1145.
TMET 3343 - Materials Processing 3-2-4
Traditional as well as modern processing techniques. Limitation on use of different materials and their processing and their metal-casting processes end equipment, forming and shaping processes and equipment, joining processes and equipment. Laboratory includes problem solving sessions and experiments on the metallurgy of materials. Prerequisite: TMET 3341.

TMET 4090 - Selected Topics in Mechanical Engineering Technology 1-(1-6)-(1-6)
Provides for study of Mechanical Engineering technology course topics not generally offered by the program.

TMET 4123 - Vibration 2-0-2
Free and forced vibration of one, two and multi-degree-of-freedom systems. Theory is developed and applied to practical cases. Prerequisites: TENS 2132 and MATH 2242.

TMET 4137 - Mechanical System Design 0-6-3
A senior design course requiring that students call upon all of their academic preparations in the solution of mechanical systems problems. Prerequisite: Senior standing or approval of the instructor.

TMET 4225 - Thermal Science Lab 0-4-2
Laboratory activities in support of instruction in thermodynamics, heat transfer, and HVAC. Prerequisites: TMET 3232 and TMET 3233, or permission of instructor.

TMET 4244 - HVAC 3-2-4
Introductory course in Heating, Ventilating, and Air Conditioning (HVAC) systems. HVAC processes are analyzed and load calculations are performed in accordance with ASHRAE practices. Design projects are included. Prerequisite: TMET 3232.

TMET 4441 - Automation and CIM 3-2-4
A capstone course in materials science and processing. Fundamental manufacturing, automation, and topics in production and related control systems are covered. Numerical control, computer integrated manufacturing, and flexible manufacturing systems are included. Laboratory includes work with a Mini-CIM system. Prerequisites: ENGR 1133, CSCI 1232, and TMET 3343.

TMET 4890 - Special Problems in Mechanical Engineering Technology 1-(1-3)-0-(1-3)
Individual and specialized study in areas of mechanical engineering technology not otherwise covered in the student’s program. Prerequisites: Senior standing, identification and definition of a problem or study area and approval of the instructor.

TMET 4899 - Directed Independent Study 1-(1-3)-0-(1-3)
An individualized study involving research and applications pertaining to Mechanical Engineering Technology. Prerequisites: Senior standing, identification and definition of a problem or study area and approval of the instructor.

Manufacturing Technology (COST)
TMFG 1111 - Manufacturing Seminar 1-0-1
A seminar aimed to allow the student seeking a degree in the Manufacturing program to gain an understanding of the Manufacturing Degree program (courses, sequencing, purpose) and the Industrial Management major and how it integrates with other related sciences such as engineering. One single lecture period.

TMFG 1121 - Technical Drafting 1-2-2
A basic drafting course with emphasis on manual drafting skills and projection theory and practice.

TMFG 1123 - 3D Computer Drafting 1-2-2
A computer aided drafting course with emphasis on the application of 3D parametric solid modeling CAD. Study includes the features and applications of AutoDesk Inventor. Creating 3D components, assembling a 3D product and animation of presentation will be discussed in this course.

TMFG 2131 - The Manufacturing Enterprise 3-0-3
A study of the activities common to manufacturing companies in the free enterprise system. Students are engaged in academic study combined with innovative hands-on application activity in organizing, owning, and operating a simulated company which develops, produces, and markets a competitive product for profit.

TMFG 2522 - Computer Drafting 1-3-2
A basic computer drafting course. One lecture and 1 double-lab period; 2 credit hour. Prerequisites: TMFG or permission of instructor.

TMFG 3131 - Manufacturing Processes and Materials 2-3-3
A study of the industrial processes used in the manufacturing of products. Emphasis is placed on the selection of materials for processing based on their properties, characteristics, and adaptability to automated manufacturing processes.

TMFG 3132 - Materials Machining Technology 2-3-3
An experience centered course dealing with the operation of machine tools. Emphasis is placed on machining technologies used to process a variety of manufacturing materials. Both traditional and computer control machining processes are explored.

TMFG 3133 - Forming and Fabrication 2-3-3
A study of forming and fabrication technology and applications, including material properties, product design considerations, and issues impacting quality and productivity. Emphasis is on methods, tooling, and machinery involved in forming, piercing, and assembly processes for sheet, plate, tubing, wire forms and structural shapes. Laboratory activities involve experiments and projects designed to provide hands-on familiarity with typical industrial methods and equipment. Prerequisites: ENGR 1133 and TMFG 3131.

TMFG 3134 - Electrical Technology 2-3-3
Assumes that the student has had no prior knowledge of electricity and electronic concepts but is interested in this area of study for various reasons. Emphasis is placed on electrical/electronic principles and concepts covered including DC circuits, AC circuits, elementary electronics and Programmable Logic Controllers (PLCs). Prerequisite: MATH 1111.

TMFG 3230 - Productivity Measurement and Improvement 2-2-3
A study of various methods and tools used in industry and business to measure work productivity and the methods and tools used to improve work procedures. Content areas include: methods study, motion study, time study, pre-determined time standards systems, work factors, work sampling, incentive systems, ergonomics, safety, and other special topics for methods improvement and work measurement. MS Excel will be used to solve problems. Prerequisite: TMFG 2131.

TMFG 3231 - Introduction to Industrial Management 3-0-3
The development, organization and operation of manufacturing industries. Topics include: organization, engineering considerations, the manufacturing system, manufacturing cost control, materials flow control, quality assurance, and human resources. Prerequisite: TMFG 2131 or equivalent.

TMFG 3232 - Applied Industrial Statistics 2-3-3
Statistical process control in manufacturing. Topics include evaluation of the process control system, defining problems and setting priorities, analyzing the process, describing data, process capability and control charts, control charts, and determining cause. Prerequisite: TMFG 2131 or equivalent and completion of Area A math requirement.

TMFG 4121 - Machining, Forming and Fabrication Practicum 1-(1-3)-0-(1-3)
A general study and practice of machining, forming and fabrication techniques utilized in industry including conventional machining, CNC machining, layout development, beginning and forming press work, foundry mechanical assembly and welding. Prerequisite: ENGR 1133.

TMFG 4130 - Plastics Materials and Processes 2-2-3
A study of plastics and organic composites material, their properties, uses, and the manufacturing processes used to produce products from them. Reinforces and expands upon concepts and technical knowledge introduced in the prerequisite overview course. Familiarity with common processing properties, tools and equipment will be provided through laboratory work. Prerequisite: Three hours of introductory level industrial materials and processes.

TMFG 4132 - Power Systems and Control Application 2-3-3
The study of the conversation, transmission, storage and control of energy. Emphasis is placed on hydraulics, pneumatics, and electro-mechanical machine control through programmable logic control (PLC) and computer control technologies. Prerequisite: MATH 1111.

TMFG 4134 - World Class Manufacturing 2-3-3
A comprehensive study of world class manufacturing precepts of Just-In-Time production, Total Quality Control, Total Productive Maintenance and Total Employee Involvement. Manufacturing systems are developed, and trial runs are conducted and evaluated. Prerequisite: TMFG 2131 or equivalent.

TMFG 4293 - CO-OP 1-0-1
Course Descriptions 445

TMFG 4299 - Manufacturing Internship (1-6)-0-(1-6) Provides practical application and experience in cooperating industry and business. Designed to permit attendance at an approved industry-sponsored work experience for the purpose of providing the student with advanced related occupational or technical training. Prerequisite: Senior standing, preferably last semester before graduation.

TMFG 4350 - Cost Engineering 3-0-3 Cost engineering is concerned with the cost determination and evaluation of engineering design, including the various types of cost estimates, cost information, and cost assurance. Prerequisite: TMFG 2131.

TMFG 4434 - Special Problems in Apparel Manufacturing Individual research in the technology associated with apparel manufacturing. Prerequisites: Definition of the problem and permission of instructor prior to the beginning of the semester.

TMFG 4531 - Plant Layout 2-2-3 The fundamental theories, practices, and methods for the design of manufacturing and service facilities to enable productive flow of goods and services. Emphasis is placed on applied exercises utilizing MS Excel and AutoCAD software that culminates in a semester project. Prerequisites: ENGR 1133, TMFG 2131, and TMFG 3230.

TMFG 4533 - Production Planning 3-0-3 The methods used to plan and control the efficient and effective use of equipment, tooling, people, materials, and other resources to manufacture products. MS Excel will be used to solve problems. Prerequisite: TMFG 2131.

TMFG 5133/5133G - Automated Manufacturing Systems 2-3-3 Computer integrated manufacturing (CIM) concentrating on advanced computer numerical control machining, and the interface of robotics systems in manufacturing. Experiences using programming techniques, production equipment simulations and rapid prototyping are emphasized. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: ENGR 1133 and TMFG 3132, or permission of instructor.

TMFG 5230/5230G/5230S - International Manufacturing 3-0-3 A study of opportunities, issues, and problems involved in manufacturing products for import and export, and in dealing with global suppliers of materials, parts, and assemblies. Focus is on those aspects unique to the management of technical operations, such as ISO (International Organization for Standardization) quality standards, scheduling, and technology transfer. Additional topics may include transportation, Customs documentation, global trends and trade policies, and cultural issues. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

TMFG 5233/5233G - Manufacturing Applications in Information Technology A senior-level course, emphasizing the application of commercially available software to solve manufacturing production problems. Topics include Theory of Constraints, Failure Mode and Effect Analysis, Flow Charting, and Project Management. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: Senior standing, three hours of statistics or quality assurance, and three hours of technical processes, or permission of instructor.

TMFG 5234/5234G - Industrial Supervision 3-0-3 The practical problems of front line supervisors and the application of manufacturing management and leadership principles to individuals and groups. Topic include: manufacturing team leadership and motivation, planning and control, staffing and training, communication, counseling and production improvement.

TMFG 5431/5431G - Apparel Manufacturing Production 2-2-3 The study of garment manufacturing. Topics include: costing, cutting processes, sewing processes, finishing processes, theory of constraints, modular manufacturing, and work measurement. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

TMFG 5433/5433G - Quality Control and Testing 2-2-3 Apparel manufacturing quality control systems. Topics include: physical textile testing, statistical process control, and quality auditing techniques. Field trips to local industries. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

Safety and Environmental Technology (COST) TSEC 5331/5331G - Occupational Safety 3-0-3 The technical aspects of developing and implementing occupational safety programs in manufacturing industries. Emphasis on hazard identification and control. Topics include: OSHA compliance, accident investigation, first aid, machine guarding, noise abatement, and electrical safety. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

TSEC 5332/5332G - Ergonomics 3-0-3 The human machine interface in manufacturing industries as it relates to the well-being of workers and efficiency of production systems. The application of human factors from both physiological and psychological perspectives are examined. Emphasis is placed on regulatory compliance. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

TSEC 5333/5333G - Industrial Hygiene 3-0-3 Occupational health approaches for anticipating, assessing and controlling the various hazards and harmful situations in an industrial environment, which may have an adverse effect on the employees' health, comfort and performance. Regulatory agencies, compliance, and program management issues are discussed. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: One chemistry course or permission of instructor.

TSEC 5334/5334G - Hazardous Waste Management 3-0-3 A study of hazardous waste substances as they are created by various industries and their proper management by combining planning, organizing, and controlling techniques with a knowledge of generating, storing, transporting, treating, recycling and disposing of hazardous materials. Issues of environmental impact, regulatory compliance, ethics, and program management are discussed from a technical management perspective. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: One chemistry course or permission of instructor.

TSEC 5335/5335G - Systems Safety in Manufacturing 3-0-3 A study of the application of systems safety concepts to manufacturing and production systems. Emphasis is placed on the critical analysis of systems through modeling and the development of control strategies to reduce the frequency and severity of industrial accidents. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

University Honors (VPA)

UHON 1190 - Freshman Honors Seminar I (1-3)-0-(1-3) This class for 1906 Scholars will combine reading, discussion, and writing about service, citizenship, and social change. Throughout the course, students will engage in course-related service activities with local agencies or organizations designed to make a positive contribution to the lives of the people of Bulloch County. They will also consider the broader national and international context in which local issues arise. Students will consider how service relates to their honors curriculum and will write a term paper. The course is linked with GSU 1210H.

UHON 1191 - Freshman Honors Seminar II (1-3)-0-(1-3) The 1906 Scholars will build on their service activities from UHON 1190 together with their coursework. Students will reflect on the role that leadership plays in service, citizenship, and social change. Students will read, discuss, and write about different leadership styles as they explore their own leadership abilities in their service experience. Students will synthesize their coursework and their service to write a term paper. The course is linked with GSU 1211H.

UHON 2120 - Sophomore Honors Seminar 2-0-2 An enrichment course designed to supplement the standard curriculum. Topics will vary, but will always concern a specific thought-provoking issue or problem. In a seminar setting, students and their instructor will engage the chosen topic by employing innovative and interdisciplinary approaches. Prerequisite: A minimum grade of “C” in UHON 1191.

UHON 3190 - Honors Junior Research Seminar (1-3)-0-(1-3) In a seminar setting, students will conduct readings about the research process with a focus on developing an honors capstone topic. Prerequisite: A minimum grade of “C” in UHON 2120 and minimum junior standing.

Women’s and Gender Studies (Interdisciplinary) WGST 2530 - Introduction to Women and Gender Studies 3-0-3 A multidisciplinary course designed to introduce students to the field of women and gender studies. Students will examine traditional and alternative perspectives on women’s and men’s experiences.
WGST 3090 - Selected Topics in Women and Gender Studies (0-15)-(0-15)

Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGST/HIST/AMST 3137 - History of Women in the U.S. 3-0-3
See HIST 3137 for course description.

WGST/PSYC/INTS 3232 - Psychology of Gender 3-0-3
See INTS 3232 for course description.

WGST/POLS 3235 - Gender and Politics 3-0-3
See POLS 3235 for course description.

WGST/ENGL 3237 - Women and Literature 3-0-3
See ENGL 3237 for course description.

WGST/LATN 3330 - Roman Women 3-0-3
See LATN 3330 for course description.

WGST/COMS 3333 - Communication and Gender 3-0-3
See COMS 3333 for course description.

WGST 4090 - Independent Study in Women’s and Gender Studies 0-0-(1-4)
The opportunity to design and conduct independent research and/or projects under the direction of a WGST faculty member in specialized areas of Women’s and Gender Studies. Prerequisite: WGST 2530 or permission of instructor.

WGST/PHIL 4130 - Feminist Philosophy 3-0-3
See PHIL 4130 for course description.

WGST/COMM 4331 - Gender, Media, and Representation 3-0-3
See COMM 4331 for course description.

WGST/SOCI 4332/4332S - Sociology of Gender 3-0-3
See SOCI 4332 for course description.

WGST/HIST 4335 - “Woman Question” in Europe 3-0-3
See HIST 4335 for course description.

WGST/SOCI 4338 - Sociology of Competition and Game Studies 3-0-3
See SOCI 4338 for course description.

WGST/HIST/AAST 4530 - Revelation and Revolution 3-0-3
See HIST 4530 for course description.

WGST/ENGL 4539 - Literature by Women 3-0-3
See ENGL 4539 for course description.

WGST 5131/5131G - Sex, Violence, and Culture 3-0-3
Uses feminist theories of gender, sexuality, and patriarchal culture to explore the relationship between public and private violence. Placing private violence in a global perspective, this course critiques the gendered stakes of economies of domination and exploitation, the war system, and ideologies of family and nation. Prerequisite: WGST 2530.

WGST/SPAN 5235/5235G/5235S - Modern Spanish American Women Writers 3-0-3
See SPAN 5235 for course description.

WGST/ANTH 5331/5331G - Gender and Anthropology 3-0-3
See ANTH 5331 for course description.

WGST/ENGL/AAST 5539/5539G - Literature by Women 3-0-3
See ENGL 5539 for course description.

WGST/ENGL 6635 - Women’s and Gender Issues 3-0-3
See ENGL 6635 for course description.

WebMBA Consortium (COBA) 3-0-3

This course provides an overview of existing theories and models of human behavior in organizations. Using readings, cases, discussion, and guest speakers, the course explains the importance of leadership, motivation, power and influence in organizational life. Special emphasis is placed on leadership in change. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6010 - Managerial Accounting 3-0-3
A study of management accounting and control information. This course is designed to make pricing and product mix decisions, how to improve existing activities and processes, how to measure performance in decentralized operating units, and how to align organizational activities with long-term strategic objectives, both in a domestic and international setting. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6020 - Managerial Communications 3-0-3
This course is designed to meet the needs of the practicing manager. Included are the communications carried out by managers in organizations and the organizational and human variables which influence these communications. Included is the management of information systems. Communication styles of managers from different cultures are discussed. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6030 - Global and International Business 3-0-3
This course presents fundamental considerations for managers of international trade operations. This course is designed to provide graduate level skills in the management functions of global strategic planning, international organizing, leading expatriates and diverse cultures, and controlling the global organization. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6040 - Managerial Decision Analysis 3-0-3
This course is designed to expose students to the types of decision making situations they will face as managers. It will introduce students to advanced quantitative concepts and state-of-the-art techniques. By the end of the course students will be expected to be able to analyze a problem, alternative solution procedures and select the one that most successful solutions to business problems require the ability to integrate concepts from non-quantitative fields with the quantitative results. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6050 - Strategic Marketing 3-0-3
A strategy planning approach to management from conception and application perspectives. Focus is on the strategic decision-making process supported by self-analysis and external analysis. Legal, ethical, and international aspects are also considered. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6060 - Managerial Finance 3-0-3
A study of financial risk and return, capital budgeting, valuation, capital structure, working capital management and current topics in financial management. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6070 - Entrepreneurship-New Venture Analysis 3-0-3
A study of the business formation process which focuses on the creativity, risk-taking, and planning associated with new ventures. The course will provide information on the entrepreneurial process starting with idea generation, idea development, feasibility analysis, resource identification, and concluding with the development of a coherent business plan. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6080 - Management Information Systems 3-0-3
This course focuses on information technology and systems from a general management perspective. Topics of discussion include the management of the systems development process, the organizational cycle of information, technology planning, evaluation, selection, and strategic uses of information technology. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6090 - Information Technology Management (ERP) (0-3)-0-3
This course is designed to enable the manager to effectively explore and evaluate new technologies in an applied business environment. The course focuses on the evaluation, selection, implementation process, and use of advanced ERP systems, i.e. SAP R/3. This course will concentrate on the management, not the technical aspects, of information technology management. The use of relevant readings and cases are used to apply the concepts and techniques presented in the course. The course will offer the rewards for the successful implementation. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6100 - Production Operations Management 3-0-3
This course is designed to provide an understanding of the production/operations function within an organization. It will focus on the types of decisions to be made at various organizational levels and, where appropriate, on particular models and quantitative techniques that can be useful in making those decisions. Emphasis will be placed on how those decisions are interrelated and on their strategic implications for the firm. Finally, it will consider how the operations function fits in with other functional areas of the firm. Prerequisite: Completion of ebMBA Prerequisite Cycle.

WGMA 6110 - Business Strategy 3-0-3
This course focuses on global strategic management and encourages the analysis and development of business strategies within a global environment. Prerequisites: Completion of ebMBA Prerequisite Cycle and completion of WGMA 6010, WGMA 6050, and WGMA 6060.
Writing (CLASS)
WRIT 1101 - English Composition for Non-native Speakers 2-2-3
For students whose native language is not English. Concentrates on developing the student’s skills in thinking, reading and writing. Emphasis is placed on the reading and understanding of prose selections and on the writing of clear, logical, well-constructed essays that are relatively free from serious grammatical faults. Includes a research paper. Credit for this course will be accepted in lieu of credit for ENGL 1101. Upon completion of this course, the student will enroll in ENGL 1102.
Prerequisite: This course must be completed with a minimum grade of “C” before the student may enroll in ENGL 1102.

WRIT 1120 - Grammar and Punctuation Review 2-0-2
Offers a review and reinforcement of the basic grammar and punctuation rules of academic English. Emphasizes sentence and paragraph level writing with skills practice, work sheets, and quizzes and will benefit any student at any level of course work.

WRIT/LING 2000/2090S - Selected Topics in Writing and Linguistics
Introduces students to one or more topics preliminary to study of more specialized areas of Writing and Linguistics. Prerequisite: A minimum grade of “C” in ENGL 1101.

WRIT 2130 - Technical Communication 3-0-3
Teaches students to improve written, oral, and visual communication by requiring assignments relevant to their proposed professions. The focus is on the type of communication required by the scientific and engineering discourse communities.

WRIT 2131 - Everyday Creative Writing 3-0-3
Investigates the uses of creative writing in “everyday” forums such as music, journalism, radio, television, and other forms of popular culture. Students will learn the elements common to all types of creative writing - word play, figurative expression, sound effects, concrete language, attention to detail - and apply these elements in their own creative writing exercises and projects.

WRIT 3030/3030S - Selected Topics in Writing
Offers varied courses in specialized areas of the field of writing.

WRIT 3130/3130S - Creative Writing
The writing of poetry and fiction through close analysis of poetic and narrative forms with the purpose of encouraging students to develop their creative writing abilities and their awareness of creative writing techniques and strategies.

WRIT 3131 - Teaching Writing 3-0-3
An introduction to the theory and practice of teaching writing, including making the writing assignment, pre-writing, revising writing, and evaluating student writing. Prerequisite: ENGL 2111 or ENGL 2112.

WRIT 3230 - Writing in the Workplace 3-0-3
Prepares students from all disciplines to be effective communicators in their chosen professions. Students learn to write and prepare a variety of documents, including memos, letters, reports, proposals, critical studies, and recommendations. Prerequisite: ENGL 1102.

WRIT 3232 - Document Creation for Technical and Professional Writers
Overviews theories of document creation, including human perception, psychology of color, and principles of design as they relate to needs of professional and technical writers. Students will learn to apply these theories by producing technical documents and projects which incorporate the principles of visual communication and usability. Prerequisite: A minimum grade of “C” in ENGL 1102.

WRIT 3233 - Technical and Professional Editing 3-0-3
Encompasses the ideas of editing as a professional writing skill, with a focus on the job of a technical editor. Emphasizes proofreading skills and the manipulation of documents from inception through presentation as finished products. Layout, document design, and contemporary production processes are also emphasized. Prerequisite: A minimum grade of “C” in ENGL 1101.

WRIT 3234 - Research Methods for Technical and Professional Writers
Introduction to quantitative and qualitative research designs in professional and technical communication. Intensive study of planning and research designs including primary (surveys, interviews, experiments, questionnaires, files, research, etc.) and secondary research tools (i.e. Internet, print sources, bibliographies). Prerequisite: A minimum grade of “C” in ENGL 1102.

WRIT 3430 - Linguistics and Grammar for Teachers 3-0-3
Through lecture, workshops, and projects about writing, students will develop a metalinguage for teaching grammar and usage in order to effectively teach basic grammatical, mechanical, and usage concepts. Prerequisite: ENGL 1102.

WRIT 3531 - Frameworks in Writing Studies 3-0-3
Explores the areas of literacy, composition, rhetoric, and cultural studies as they pertain to writing studies and provides an overview of the ways in which culture shapes and is shaped by writing. Prerequisite: A minimum grade of “C” in ENGL 1102.

WRIT 4130 - Creative Non-fiction 3-0-3
Provides a workshop environment for writing a wide variety of expository material generally not covered in freshman English. Students are encouraged to try forms, topics, and voices which broaden their writing experience. Prerequisite: ENGL 1102.

WRIT 4430 - Poetry Writing 3-0-3
A creative writing workshop in which students review and practice the fundamentals of poetry writing, such as the use of imagery, figurative language, and sound effects; and also learn and practice more complex aspects of poetry writing, such as writing in specific forms and genres. Students read and discuss poetry by established poets, evaluate the work of their peers, and produce a portfolio of instructor-assigned and self-generated poems. Prerequisites: WRIT 2131 or a minimum grade of “C” in WRIT 3130 or permission of instructor.

WRIT 4530 - Fiction Writing 3-0-3
A creative writing workshop in which students review and practice the fundamentals of fiction writing, such as the importance of beginnings, scene building, narrative drive, stance, character development, endings; and also learn and practice more complex aspects of literary fiction strategies in specific genres (the traditional short story, magical realism, flash fiction, novellas). Students read and discuss fiction by established writers, evaluate their work and the work of their peers, and produce a portfolio. Prerequisites: A minimum grade of “C” in WRIT 3130 or WRIT 2131 or permission of instructor.

WRIT 4550 - Literary Studies 3-0-3
A course designed to introduce students to the literature and historical background of their area of study. Students study key themes, theories, and controversies as well as explore how knowledge and identity are both mediated by writing. Prerequisite: A minimum grade of “C” in WRIT 3531.

WRIT 4570 - Rhetoric in Writing 3-0-3
Surveys the rhetorical tradition as it applies to writing, examines the role of rhetorical studies in the field of writing, and explores how rhetoric informs the writing classroom. Prerequisites: A minimum grade of “C” in WRIT 3531.

WRIT 4580 - Cultural Studies in Writing 3-0-3
Traces the contributions that cultural studies makes to writing studies and investigates the fundamental elements of cultural analysis, including studies in the political and economic aspects of writing. Prerequisites: A minimum grade of “C” in WRIT 3531.

WRIT 5030/5030G - Selected Topics in Writing 3-0-3
A course on particular topics in rhetoric and composition, the teaching of writing, English as a Second Language, linguistics, and creative writing not covered by other courses. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

WRIT/LING 5130/5130G - Modern English Grammar 3-0-3
A study of the system of rules of word formation and sentence construction that we unconsciously employ in our daily use of the English language. Graduate students will be given an assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ENGL 1102.

WRIT 5230/5230G - Theory of Composition 3-0-3
A survey of the theories behind the most important issues and components of the teaching of writing, such as composing processes, grammar, modes, grading, basic writing, invention, style, and more. Students are asked to test some of these theories by direct application to their own or other assignments written texts. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ENGL 1102
WRIT/LING 5330/5330G - History of English Language 3-0-3
A study of the English language from linguistic, social, and historical perspectives. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: ENGL 1102

WRIT 5331/5331G - Twentieth Century Rhetoric 3-0-3
Addresses the modernity and postmodernity of rhetoric by examining problems and issues in selected rhetorical writings. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do.

WRIT 5430/5430S/5430G/5430S - Advanced Poetry Writing 3-0-3
A creative writing workshop which focuses primarily on the students' own poems. The course deepens and expands the poetry writing skills and knowledge developed in lower-level creative writing workshops. Students will read and discuss poetry by established writers, evaluate their work and the work of their peers and produce a portfolio. Prerequisite: ENGL 1102

WRIT/ANTH/LING 5530/5530G - Sociolinguistics 3-0-3
See ANTH 5530 for course description.

WRIT 5531/5531G - Advanced Creative NonFiction 3-0-3
A creative writing workshop which focuses primarily on the students' own creative nonfiction. The course deepens and expands the writing skills and knowledge learned in undergraduate expository writing courses and allows students to specialize in a specific genre, such as the memoir, the travel essay, travel writing, etc. Students read and discuss creative nonfiction by established writers, evaluate their work and the work of their peers, and produce a portfolio. Prerequisite: A minimum grade of "C" in WRIT 4130 or permission of instructor.

WRIT 5540/5540G - Advanced Fiction Writing 3-0-3
A creative writing workshop which focuses primarily on the students’ own fiction. The course deepens and expands the fiction writing skills and knowledge developed in lower-level creative writing workshops. Students will read and discuss fiction by established writers, evaluate their work and the work of their peers, and produce a portfolio. Prerequisite: ENGL 1102

WRIT 5550/5550G - Technologies of Writing 3-0-3
Analyzes the meanings and implications of the new technologies on reading and writing as well as explores the relationship between a culture’s technologies of writing and cultural narratives of identity, subjectivity, and agency. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: ENGL 1102 and six hours of writing courses above the 2000 level.

WRIT 5631/5631G - Writing Crime Fiction 3-0-3
A creative writing workshop in which students learn the history of crime fiction and read examples to develop their own fiction. Students will formally evaluate the work of their peers. Visiting authors will be a highlight of this course. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in ENGL 1102.

WRIT 5632/5632G - Writing Flash Fiction 3-0-3
A creative writing workshop in which students investigate the short-short story by reading and writing examples. The form is both ancient (dreams, parables) and cutting edge (Flash Fictions, Sudden Fiction). Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisite: A minimum grade of "C" in ENGL 1102.

WRIT 5930/5930G - Technical Writing 3-0-3
Focuses on the study and authoring of technical documents found in business, engineering, government, scientific, and other technical professions, including reports, proposals, manuals, presentations, and electronic communication. Students will have hands-on practice working with various computer applications, including word processing and spreadsheet applications, presentation software, and graphics and hypertext authoring tools. No previous computer experience necessary. Graduate students will be given an extra assignment determined by the instructor that undergraduates will not be required to do. Prerequisites: ENGL 1102 or admission to graduate-level standing.

WRIT 7130 - Advanced Composition 3-0-3
A study of the forms and techniques of the essay with varied reading and writing assignments to develop the student’s own writing skills.
The University System of Georgia

The University System of Georgia’s Board of Regents was created in 1931 as part of a reorganization of Georgia’s state government. With this act, public higher education in Georgia was unified for the first time under a single governing and management authority. The Board oversees 35 institutions: 4 research universities, 2 regional universities, 13 state universities, 4 state colleges, and 12 two-year colleges. These institutions enroll more than 235,000 students and employ more than 9,000 faculty and 35,000 employees to provide teaching and related services to students and the communities in which they are located.

The governor appoints members to the Board, who each serves seven years. Today the Board of Regents is composed of 18 members, five of whom are appointed from the state-at-large, and one from each of the 13 congressional districts. The Board elects a chancellor who serves as its chief executive officer and the chief administrative officer of the University System, but is not a member of the Board. The Chair, the Vice Chair, and other officers of the Board are elected by the members of the Board. The System’s programs and services are offered through three major components: Instruction, Public Service/Continuing Education, and Research.

INSTRUCTION consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates. Instruction is conducted by all institutions. Requirements for admission of students to instructional programs at each institution are determined, pursuant to policies of the Board of Regents, by the institution. The Board establishes minimum academic standards and leaves to each institution the prerogative to establish higher standards. Applications for admission should be addressed in all cases to the institutions.

A core curriculum, consisting of freshman and sophomore years of study for students whose educational goal is a degree beyond the associate level, is in effect at the universities and two-year colleges. This curriculum requires 60 semester credit hours, including 42 in general education—humanities and fine arts, mathematics and natural sciences, and social sciences—and 18 in the student’s chosen major area of study. It facilitates the transfer of freshman and sophomore degree credits within the University System.

PUBLIC SERVICE/CONTINUING EDUCATION consists primarily of non-degree activities and special types of college-degree-credit courses. Non-degree activities may include short courses, seminars, conferences, lectures, consultative, and advisory services in many areas of interest. Non-degree public service/continuing education is conducted by all institutions. Typical college-degree-credit public service/continuing education courses are those offered through extension center programs and teacher education consortia.

RESEARCH encompasses investigations conducted primarily for discovery and application of knowledge. These investigations include clearly-defined projects in some cases, non-programmatic activities in other cases. Research is conducted both on and off campus and explores a variety of matters related to the educational objectives of the institutions and to general societal needs.

The policies of the Board of Regents for the government, management, and control of the University System and the administrative actions of the Chancellor provide autonomy for each institution. The executive head of each institution is the President, whose election is recommended by the Chancellor and approved by the Board.

Mission: The mission of University System of Georgia Independent and Distance Learning (IDL) is to offer University System academic credit courses to University System students and individuals who are interested in earning academic credit through distance learning methods and technologies. IDL strives to increase access to higher education by transcending barriers of geography and time, while meeting the highest academic standards, encouraging academic rigor, and requiring equivalent levels of student achievement and quality of courses regardless of delivery format. It allows flexibility of registration, permitting students to register at any time and take up to three courses simultaneously with nine months to complete each course.

Independent and Distance Learning courses are offered by academic departments located at senior institutions of higher education within the University System of Georgia, including Georgia Southern University. Faculty of the academic departments develops the courses offered and grade lessons submitted by students to satisfy requirements of the course. Academic credits earned through IDL are recorded on the student’s transcript in the University of Georgia Registrar’s Office and may be used for degree requirements according to the regulations of the college or university from which the student plans to graduate. The total number of hours earned through IDL that may be applied toward a baccalaureate degree program within the University System of Georgia may not exceed one-fourth of the hours required for graduation.

Tuition Fees: Tuition for IDL courses is $152 per semester hour. Fees paid to IDL are in addition to other tuition fees paid to an institution. All fees are subject to change at the end of any academic term. Contact IDL for tuition information, or visit the IDL website at http://www.georgiacenter.uga.edu/idl for current fee information.

IDL Academic Calendar
Summer Semester March 1, 2006 - June 30, 2006
Fall Semester July 1, 2006 - September 30, 2006
Spring Semester October 1, 2006 - February 28, 2007

The IDL academic calendar registration date will be utilized to assign a student registration to a particular academic term for purposes of enrollment certification, financial aid, and enrollment reporting. The grade earned in an IDL course will be credited to the term of registration.

Registration: Students may register online with credit card payment from the IDL Web site http://www.georgiacenter.uga.edu/idl or by obtaining a registration form from the IDL office, catalog, or from the web site and online catalog (printable form).

The registration form with the fees payment (follow instructions on form) should be mailed to the following address:

Independent and Distance Learning
Suite 193
Georgia Center for Continuing Education
University of Georgia
Athens, Georgia 30602-3603

IDL registration is continuous throughout the year (the office is closed during University of Georgia holidays). Office hours are Monday - Friday, from 8:00 a.m. to 5:00 p.m.

Advisement: To ensure appropriate course selection, particularly in the major field of study, students should seek approval from the advisors of their degree programs. IDL is not responsible for misadvisement, changes in programs of study, or other actions resulting in improper selection of courses.

Prerequisites/Recommendations
Students should consult with their academic advisors regarding prerequisites and recommendations listed in the course descriptions.

Technology Options
A growing number of IDL courses available as web courses are available for registration. These are indicated in the print catalog and on the IDL website (http://www.georgiacenter.uga.edu/idl).

Web Courses
Web Courses are taken completely online, with the exception of the course midterm and/or final examinations. (All IDL examinations must be taken at an official test site.) Web Courses offer a variety of features online, such as course guides, lesson substitution, internet resources, and e-mail links to IDL. Selected courses may offer self-assessments with immediate feedback, and interaction with faculty and other students.

Note: All IDL courses are available in the traditional print version course guide allowing submission of lessons via postal service.

Academic Credit Course Listing: University System of Georgia IDL courses are offered for nonresident credit. Courses are subject to revision due to instructor and textbook changes and may be temporarily closed for registration. University System of Georgia universities offering courses through University System of Georgia IDL are designated by the following abbreviations:

- AASU: Armstrong Atlantic State University
- GCSU: Georgia College and State University
- GSU: Georgia Southern University
- NGCSU: North Georgia College and State University
- UGA: The University of Georgia
- UWG: University of West Georgia
- VSU: Valdosta State University

Courses designated by a “U” following the course prefix and number are offered by universities other than the University of Georgia. Contact IDL for course availability.
