ACADEMIC DISTINCTION

Graduation with Honors

Undergraduate students who accomplish a high level of academic achievement, as reflected by their grade point average, receive distinction as follows:

Grade Point Average:

3.5-3.69 *Cum Laude*

3.7-3.89 *Magna Cum Laude*

3.9-4.0 *Summa Cum Laude*

Students graduating with honors are distinguished at commencement exercises by a blue and white honor cord attached to the left shoulder of their gowns. Their distinction is recognized by notation on their diplomas and in their academic transcripts.

NOTE: Since programs are prepared in advance of the receipt of final grades, the listing of graduates and honor recipients may, in some instances, be inaccurate. Also, in addition to GPA, there are other requirements to qualify for graduation with honors. The fact of graduation and the receipt of honors are validated by the students' permanent records which are kept by the Office of the Registrar.

University Honors Program Scholars

The University Honors Program (UHP) offers a special Honors curriculum to a select group of academically talented students. In addition to high academic standards, the Program requires a substantial commitment to community service and experiential learning. The diplomas of graduating University Honors Program Scholars are distinguished by the UHP designation.

University Honors Program 1906 Scholars

The 1906 Scholarship is the most prestigious award for incoming freshmen in the University Honors Program. In addition to their participation in the University Honors Program, these students enroll in a sequence of additional seminars dedicated to service, leadership and research.

THE SYMBOLS OF ACADEMIC TRADITION

The Mace

Leading the Processional of faculty and administration is the Macebearer, the Moderator of the Faculty Senate at Georgia Southern University.

The Mace is a two and one-half foot shaft and sphere of cast Everdur Bronze and carved American walnut. This representation of the ceremonial symbol of office and authority was designed and crafted in 1988 by Thomas P. Steadman, Associate Professor of Art. Its angular forms and low-gloss finishes are reminiscent of the medieval battle mace from which the more scepter-like academic mace evolved.

The design of the Mace blends forms suggested by native flora of South Georgia. The magnolia leaves and stems encircling the head of the mace in a double helix symbolize Georgia Southern's link with its region. A small ballast rock, found on the Georgia coast and traced to probable British origin, is embedded in the finial base of the shaft representing the foundation of the institution.

Regalia

The history of academic attire is also traced to the Middle Ages when it may have been necessary for scholars to wear gowns and cowls for warmth in the unheated halls of academe of the period. The robes and hoods have evolved as ceremonial garments signifying level of degree, academic field, and the awarding institution.

Today's gowns for baccalaureate, masters, education specialist, and doctoral degrees are made of a rayon blend, always black. Bachelors gowns have pointed sleeves and are worn closed. The gowns for the masters and specialist degree, also worn closed, have an oblong sleeve with a base that hangs open at the wrist. The doctoral gowns have bell-shaped sleeves which may be worn open or closed. It is the tradition of Georgia Southern to reserve hoods for masters and education specialist degree candidates. These hoods are black, three and one-half feet long, lined with the official colors of the institution, and trimmed in velvet in the color of the degree field.

Caps in the form of mortarboards are made of cotton poplin or a similar material. The tassel is the color which reflects the degree.

The ornamental braided cord draped over the left shoulder of some of the baccalaureate graduates is called a fourragère. The design follows French military tradition and signifies special recognition of baccalaureate students graduating with honors.

Banners

Banners representing each of the eight Colleges, the Center for International Studies, and the University Library are displayed at Commencement. Representation of the Banners signifies the colors of disciplines in the Colleges, and celebrates the University's academic programs.

GEORGIA SOUTHERN UNIVERSITY

Georgia Southern University, a Carnegie Doctoral/Research University, is a member institution of the University System of Georgia. It is one of the most comprehensive centers of higher education in Georgia. A residential campus of more than 20,500 students, Georgia Southern is one of the top universities of choice in Georgia for new freshmen and for HOPE Scholars. Students come from 49 U.S. states and 93 nations, bringing a broad spectrum of backgrounds, interests and talents to the University community.

The University's hallmark is a superior educational experience with all of the benefits of a major university, but the feel of a much smaller college. It is this combination that serves as the foundation for the University's outstanding reputation for academic excellence and focus on its students. At Georgia Southern, our students value: a well-rounded college experience, a faculty where professors know their name and their first priority is teaching. In addition, students appreciate a campus environment that encourages learning and growing. With expanding graduate programs and opportunities for discovery, Georgia Southern University also embraces its research mission.

The University offers more than 120 degree programs at the baccalaureate, master and doctoral levels through eight colleges: Liberal Arts and Social Sciences, Education, Business Administration, Health and Human Sciences, Jiann-Ping Hsu College of Public Health, Allen E. Paulson College of Engineering and Information Technology, College of Science and Mathematics and the Jack N. Averitt College of Graduate Studies. Georgia Southern is accredited by the Southern Association of Colleges and Schools and has earned special accreditation from professional and academic associations that set standards in their fields.

The University is listed in U.S. News & World Report's Best Colleges and has also been recognized as one of the most military friendly schools by multiple publications including G.I. Jobs and Military Advanced Education. In addition, its outstanding College of Business Administration and Nursing programs continue to be recognized among the best in the country.

Founded in 1906 as a district agricultural school, Georgia Southern's century of history has built a tradition of spirit, pride and achievement. The institution advanced to become a teachers' college, a senior college and in 1990 earned its status as the first university in the southern half of Georgia. Located in Statesboro, a safe, classic Main Street community of approximately 30,000 residents northwest of Savannah, the University provides enriching cultural and educational opportunities to people of all ages, and reaches out to benefit the region and state through research and public service.

Georgia Southern University's more than 900-acre campus is one of the most beautiful in the state, featuring gently rolling lawns, scenic lakes

and soaring pines. The historic heart of campus is a classic college portrait - red brick and white columns framed by live oaks and an archway of pecan trees. Beyond the circle of the original buildings, classic and contemporary lines blend in an expanding horizon of new facilities, connected by a paver-tiled walking boulevard called the Pedestrium. During the past decade, the University has witnessed extraordinary development with the construction of new academic, housing and athletic facilities. Continued enhancement and growth of the campus include a major expansion of the library, the Center for Art & Theatre, and additional fitness and recreational amenities.

Georgia Southern serves its Coastal Southeast region, state and Southeast United States through research and public services that promote educational, economic, cultural and social progress through creative solutions to regional challenges. Research varies from probing the genetic chemistry of disease-spreading parasites for keys to their biological control, to advancing the economic development of the region. Centers for business research and development, rural health, international studies, public affairs, teacher education, rehabilitation technology, water policy and biostatistics involve teams of experts working on regional and community concerns. The University extends educational opportunities through both undergraduate and graduate online degree programs and classes accessible from anywhere in the world with an internet connection.

Georgia Southern has gained recognition for its nationally competitive athletics program. The University's 15 Division I teams compete in the Southern Conference. Across-the-board commitment to excellence has resulted in an unprecedented six NCAA Football Championship Series (FCS) football national championships and NCAA participation in men's and women's basketball, baseball, golf, softball, women's tennis, women's track and field and volleyball. In March 2013, the University announced that it had accepted an invitation for its athletics teams to join the Sun Belt Conference. The move will elevate the University's football program to the Football Bowl Subdivision (FBS) level beginning in 2014 with the University becoming eligible for league revenue sharing and championships at that time. The Eagles' football team will become bowl eligible in 2015.

The University also has an active alumni program serving more than 75,000 alumni around the world. Some of the University's prominent alumni include Country Music Star Luke Bryan; Mike Davis, Executive Director of the U.S. Golf Association (USGA); Hala Moddlemog, President, Arby's Restaurants; and Dan Cathy, President and Chief Operating Officer of Chick-fil-A.

“Freedom”

is a non-releasable American Bald Eagle permitted to
Georgia Southern University's
Center for Wildlife Education
& Lamar Q Ball, Jr. Raptor Center

In what has become one of the most popular traditions at Georgia Southern University, a flight over Paulson Stadium by an American Bald Eagle concludes the University's Spring Commencement ceremony. The eagle flies over the graduates during the playing of the University's Alma Mater, making him one of only two eagles in the world known to fly during an outdoor graduation event.

Today's ceremony marks the fifth time that Freedom, Georgia Southern University's mascot, has made this ceremonial flight.

Freedom is a male Southern bald eagle that was found knocked out of the nest in Maitland, Florida. Only weeks old and appearing like a “brown ball of fuzz,” it was discovered that the young eagle had an injury to its beak and suffered from an infection. Rushed to the Florida Audubon Center for Birds of Prey, Freedom made a complete recovery from the infection, but the injury to the beak was permanent, preventing his release into the wild.

With the permission of the United States Fish and Wildlife Service, Georgia Southern University acquired Freedom in 2004. Today, Freedom serves not only as an ambassador for wildlife and as Georgia Southern's mascot, but as an iconic reminder of the strength and majesty of our nation.

Through the Georgia Southern University Center for Wildlife Education and Lamar Q Ball, Jr. Raptor Center, thousands of visitors young and old are embraced by the power of Freedom. Freedom is one of three American Bald Eagles that call Georgia Southern University home. In addition to the three American Bald Eagles, the Center for Wildlife Education and Lamar Q Ball, Jr. Raptor

Center is also home to numerous species of native raptors, reptiles and amphibians. The Wildlife Center, a one-of-a-kind facility to be found located in the heart of a major University campus, is an 18-acre sanctuary that welcomes tens of thousands of visitors every year.

Did You Know?

- The bald eagle is found only in North America.
- The bald eagle became the official symbol of the United States of America in 1782.
- Georgia Southern University adopted the eagle as its symbol in 1960.
- The bald eagle owes its name to the Middle English term “balled,” meaning “shining white.” The adult bald eagle's head and neck feathers are all white, giving it the name “balled eagle,” meaning “white eagle.”
- The bald eagle has a wingspan of 6-8 ft., and makes its home along coastlines and large bodies of fresh water.
- Eagles are mature at five years of age.
- Eagles require a 25-mile hunting territory and appear to mate for life (can live as long as 50 years).
- Forty years ago, the bald eagle was nearing extinction with just 417 nesting pairs of the birds known in the United States. Today, the bird has made a remarkable comeback and is now off the Endangered Species List.
- In 1983, no nesting pair of eagles could be found in Georgia. Today, Georgia has more than 150 known nesting pairs throughout the state.
