CREATION AND UTILIZATION OF CURRICULUM KNOWLEDGE

Issue No. 10

March, 1977

At the 1977 Annual Meeting of AERA the SIG will sponsor two formal sessions: 14.11 (Wednesday, April 6, 12:25-1:55, Trianon Rendezvous, Hilton), "Creation and Utilization of Curriculum Knowledge," a paper presentation session and the formal business meeting of the SIG; and 21.00 (Thursday, April 7, 10:35-12:05, East Ballroom, Hilton), "Sociopolitical Influences on the Curriculum and on Curriculum Research," a symposium. In addition to these two formally scheduled sessions, the Coordinating Committee of the SIG will meet informally with all interested members to discuss future directions and to formulate resolutions and nominate a slate of officers for the coming year for presentation at the business meeting. This informal meeting of the SIG will be Tuesday, April 5, 2:15-3:45, in the Americana, most probably the Malmaison room. (At the time of this writing the Malmaison had been requested but its availability still unconfirmed. Should it be unavailable, the specific place of the meeting will be prominently posted at the entrance to the Malmaison and elsewhere.)

I urge all interested members of the SIG to attend this meeting with the Coordinating Committee. It is where most of the decisions affecting the future of the SIG will actually be made, and we wish to provide a forum in which the ideas and suggestions of all members can be heard. In addition to nominating officers, we must deal specifically with actions taken recently by AERA concerning annual meeting program time for SIGs and requiring SIGs to assess members a minimum annual dues of \$2. Beyond these specifics, consideration of future directions for the SIG is urgent. We may continue with our present focus on knowledge about curriculum or broaden it to include more directly concerns about curriculum theory and curriculum policy. My own sense is that there is now a substantial need to establish a network of curriculum scholars and some means of distributing experimental papers and ideas within this network. Also pressing is the need to keep NIE alerted to the desirability of the establishment of a national center or clearinghouse for the identification, classification, and distribution of research on curriculum.

Finally, I am pleased to announce that members of the SIG (either with this Newsletter or under separate cover) are receiving a copy of William Schubert's A Chronology of Curriculum Development Literature, a bibliography listing all currently identified twentieth century books on curriculum development written in English. This bibliography will remain an invaluable reference work for curriculum researchers for into the future. The SIG could not have made this document available to members under the current dues structure without the help of Professor Schubert and institutional support from the Universities of Rhode Island and Rochester. Nonetheless, this bibliography is the first of what we expect to be a series of selected curriculum documents and papers distributed to SIG members.

AERA SPECIAL INTEREST GROUP:
"CREATION AND UTILIZATION OF CURRICULUM KNOWLEDGE"

AERA has recently required SIG's to establish dues of at least \$2.00. The decision of the Council of the SIG on "Creation and Utilization of Curriculum Knowledge" last year was to raise the dues to \$3.00 per year and to increase services during this coming year.

During the 1977-78 year, members will receive several issues of the Newsletter and a bibliography, William Schubert's A Chronology of Curriculum Development Literature, a 30-page listing of twentieth century books in English on Curriculum Development. It is also expected that other papers by members will be made available to the membership during the year. Dues also go toward payment to AERA for Annual Meeting program space.

Membership for 1977-78 will be valid upon payment of \$3.00 to SIG Secretary-Treasurer:
