ACADEMIC DISTINCTION

Graduation with Honors

Undergraduate students, who accomplish a high level of academic achievement, as reflected by their grade point average, receive distinction as follows:

Grade Point Average:

3.5-3.69 *Cum Laude*

3.7-3.89 *Magna Cum Laude*

3.9-4.0 *Summa Cum Laude*

Students graduating with honors are distinguished at commencement exercises by a blue and white honor cord attached to the left shoulder of their gowns. Their distinction is recognized by notation on their diplomas and in their academic transcripts.

NOTE: Since programs are prepared in advance of the receipt of final grades, the listing of graduates and honor recipients may, in some instances, be inaccurate. Also, in addition to GPA, there are other requirements to qualify for graduation with honors. The fact of graduation and the receipt of honors are validated by the students' permanent records which are kept by the Office of the Registrar.

University Honors Program Scholars

The University Honors Program offers a special Honors curriculum to a select group of academically talented students. In addition to high academic standards, the Program requires a substantial commitment to community service and experiential learning. The diplomas of graduating University Honors Program Scholars are distinguished by the Honors designation.

THE SYMBOLS OF ACADEMIC TRADITION

The Mace

Leading the Processional of faculty and administration is the Macebearer, the Moderator of the Faculty Senate at Georgia Southern University.

The Mace is a two-and-one-half foot shaft and sphere of cast Everdur Bronze and carved American walnut. This representation of the ceremonial symbol of office and authority was designed and crafted in 1988 by Thomas P. Steadman, Associate Professor of Art. Its angular forms and low-gloss finishes are reminiscent of the medieval battle mace from which the more scepter-like academic mace evolved.

The design of the Mace blends forms suggested by native flora of South Georgia. The magnolia leaves and stems encircling the head of the mace in a double helix symbolize Georgia Southern's link with its region. A small ballast rock, found on the Georgia coast and traced to probable British origin, is embedded in the finial base of the shaft representing the foundation of the institution.

Regalia

The history of academic attire is also traced to the Middle Ages when it may have been necessary for scholars to wear gowns and cowls for warmth in the unheated halls of academe of the period. The robes and hoods have evolved as ceremonial garments signifying level of degree, academic field, and the awarding institution.

Today's gowns for baccalaureate, masters, education specialist, and doctoral degrees are made of a rayon blend, always black. Bachelors gowns have pointed sleeves and are worn closed. The gowns for the masters and specialist degree, also worn closed, have an oblong sleeve with a base that hangs open at the wrist. The doctoral gowns have bell-shaped sleeves which may be worn open or closed. It is the tradition of Georgia Southern to reserve hoods for masters and education specialist degree candidates. These hoods are black, three and one-half feet long, lined with the official colors of the institution, and trimmed in velvet in the color of the degree field.

Caps in the form of mortarboards are made of cotton poplin or a similar material. The tassel is the color which reflects the degree.

The ornamental braided cord draped over the left shoulder of some of the baccalaureate graduates is called a fourragère. The design follows French military tradition and signifies special recognition of baccalaureate students graduating with honors.

Banners

Banners representing each of the eight Colleges, the Center for International Studies, and the University Library are displayed at Commencement. Representation of the Banners signifies the colors of disciplines in the Colleges, and celebrates the University's academic programs.

GEORGIA SOUTHERN UNIVERSITY

Georgia Southern University, classified as a doctoral/research institution by the Carnegie Foundation for the Advancement of Teaching, is a member of the University System of Georgia. As the largest and most comprehensive research institution in southeast Georgia, the University is a residential campus of more than 20,500 students and a premier choice for the state's HOPE Scholars. Students representing 48 states and 89 nations bring a broad array of diverse backgrounds, interests and talents to the University community.

Located in Statesboro, a safe All-American Main Street community of approximately 30,000 residents an hour northwest of Savannah, Georgia Southern provides a wealth of enriching opportunities for people of all ages. The University benefits the region and state by engaging in research and providing public services that offer creative solutions to regional challenges. Georgia Southern also extends educational opportunities to citizens at its off-campus center located in Savannah as well as through online learning.

The University's hallmark is its renowned undergraduate experience, which emphasizes academic distinction, excellent teaching, research and student success. Georgia Southern focuses on students and what they value: a well-rounded collegiate atmosphere; a faculty whose first priority is teaching; and a safe, attractive campus environment that encourages learning, discovery and personal growth.

Georgia Southern is recognized for a nationally competitive athletics program with the University's 15 Division I teams. Now part of the Sun Belt Conference, the Eagle's sweeping commitment to excellence has resulted in an unprecedented six NCAA Football Championship Subdivision (formerly I-AA) national championships and NCAA tournament participation in men's and women's basketball, baseball, golf, women's tennis and volleyball. Most recently, the football team won the 2014 Conference Championship in its first year in the Sun Belt.

As Georgia's 'large-scale, small-feel' research University, Georgia Southern is known for offering all of the benefits of a major university with the personal feel and individualized attention of a much smaller college. Additionally, with an expanding focus on research, Georgia Southern has created a valuable niche and is attracting a record number of outstanding students from across the state, region and country.

The University also has an active alumni program serving more than 75,000 alumni around the world. Some of the University's prominent alumni include country music star Luke Bryan; Mike Davis, Executive Director of the U.S. Golf Association (USGA); Hala Moddlemog, President of the Metro Atlanta Chamber; and Dan Cathy, President and Chief Operating Officer of Chick-fil-A.

Georgia Southern offers more than 120 degree programs at the baccalaureate, master's and doctoral levels through eight colleges: College of Business Administration, College of Education, College of Health and Human Sciences, Allen E. Paulson College of Engineering and Information Technology, College of Liberal Arts and Social Sciences, College of Science and Mathematics, Jiann-Ping Hsu College of Public Health and the Jack N. Averitt College of Graduate Studies. Georgia Southern is accredited by the Southern Association of Colleges and Schools and has earned special accreditation from professional and academic associations that set standards in their fields. The University continues to expand graduate offerings to meet growing demands.

For more information, visit GeorgiaSouthern.edu.

Founded in 1906, Georgia Southern lays claim to being the most beautiful campus in the state. Comprising more than 900 acres, the University grounds are an arboretum-like treasure featuring gently rolling lawns, scenic ponds and soaring pines. The historic core of campus is the quintessential college portrait - Georgian-style, red-brick buildings with white columns surround a tree-lined circular drive known as Sweetheart Circle. Beyond the traditional Circle, contemporary buildings blend into the existing architecture to showcase the continuing growth and expansion of campus facilities. Major projects recently completed include the construction and renovation of the Zach S. Henderson Library, the renovation of the Foy Building, Sanford Hall, Ted Smith Family Football Center, the opening of the 1,001-bed Centennial Place residence hall as well as Dining Commons.

“Freedom”

is a non-releasable American Bald Eagle permitted to
Georgia Southern University's
Center for Wildlife Education
& Lamar Q Ball, Jr. Raptor Center

Today, Georgia Southern University acknowledges the remarkable achievements of our graduates and celebrates a popular and enduring commencement tradition with the appearance of Freedom, our American Bald Eagle mascot. Freedom's arrival during the singing of the Georgia Southern Alma Mater signifies the conclusion of the commencement ceremony. He serves not only as an ambassador for wildlife, but as an iconic reminder of the strength and majesty of our nation.

Freedom is a male Southern bald eagle that was found knocked out of the nest in Maitland, Florida. Only weeks old and appearing like a “brown ball of fuzz,” it was discovered that the young eagle had an injury to his beak and suffered from an infection. Rushed to the Florida Audubon Center for Birds of Prey, Freedom made a complete recovery from the infection, but the injury to his beak was permanent, preventing his release into the wild. With the permission of the United States Fish and Wildlife Service, Georgia Southern acquired Freedom in 2004.

Through the Georgia Southern University Center for Wildlife Education and Lamar Q Ball, Jr. Raptor Center, thousands of visitors young and old are embraced by the power of Freedom. Freedom is one of three American Bald Eagles housed at the 18-acre sanctuary, located in the heart of Georgia Southern's campus. The Center also contains numerous species of native raptors, reptiles and amphibians.

For more information, visit: www.georgiasouthern.edu/wildlife.

Did You Know?

- The bald eagle is found only in North America.
- The bald eagle became the official symbol of the United States of America in 1782.
- Georgia Southern University adopted the eagle as its symbol in 1960.
- The bald eagle owes its name to the Middle English term “balled,” meaning “shining white.” The adult bald eagle's head and neck feathers are all white, giving it the name “balled eagle,” meaning “white eagle.”
- The bald eagle has a wingspan of 6-8 ft., and makes its home along coastlines and large bodies of fresh water.
- Eagles are mature at five years of age.
- Eagles require a 25-mile hunting territory and appear to mate for life (can live as long as 50 years).
- Forty years ago, the bald eagle was nearing extinction with just 417 nesting pairs of the birds known in the United States. Today, the bird has made a remarkable comeback and is now off the Endangered Species List.
- In 1983, no nesting pair of eagles could be found in Georgia. Today, Georgia has more than 150 known nesting pairs throughout the state.
