COBA’s New Vision and Structure

The second decade of the new millennium has begun in COBA with a new strategic and operational focus. The Strategic Planning Council recently presented COBA’s new vision to become a top 100 business school in the next ten years. The vision is built upon a culture of engagement, distinctive competencies, diversity of faculty, and breadth and scope of the college’s impact in the region.

In a recent analysis of competitive strengths, COBA was identified as having maintained AACSB-International accreditation for more than 30 years, consistently producing more than 20 percent of campus student hours, developing substantial research and publication reputations, engaging ten regional business-outreach centers, and offering among the best business programs nationwide, as reflected in present top two-hundred rankings at both undergraduate and graduate levels.

The strategic plan envisions COBA accomplishing missions of academic excellence, student success, research, scholarship, and creative achievement, and fiscal sustainability by leveraging opportunities presented by growth in demand for business education and on-line delivery, applied research and regional business-outreach, and graduate education programs.

Operationally, a COBA Task Force organized by Dean Ron Shiffner recently announced the new organization for integrating structural changes to accommodate return of information systems to COBA, alignment of construction management and hospitality management into COBA, along with continuing commitment to AACSB-International accreditation and increasing retention and graduation rates.

Effective July 1, 2012, the Department of Finance & Economics, including finance, financial services, personal financial planning, risk management and insurance, and real estate, along with economics, international business, and regional economic development, will be merged and chaired by Geoffrey Gibbon.

The Department of Management, including management, human resources, operations management, entrepreneurship, and hospitality management, along with quantitative analysis, will be separated from Marketing & Logistics and chaired by Jerry Burke.

COBA’s vision, mission, and plan to become a top 100 business school in the next decade has the clear underlying objective of supporting Georgia Southern’s vision of being recognized as one of the best public, comprehensive universities in the nation.

**A Message from Dean Shiffler**

The College of Business Administration is going through an incredible period of change at the moment. If we look back about 18 months and ahead about 18 months, then we are mid-way through one of the most significant three-year periods in COBA’s history.

What has changed? What is going to change? For starters, about a year-and-a-half ago we launched the first-ever Ph.D. program in the 105-year history of this university. Establishing the logistics and supply chain management Ph.D. program immediately thrust Georgia Southern into a new level of higher education—the highest tier in the Carnegie Foundation classifications. You could compare this change to a baseball team moving from Triple-A to the major leagues. We are well on our way to becoming a national university that will attract students from all over the country, not just from Georgia or the Southeast.

Future students will be attracted because of our programs and our stature.

The Ph.D. program is in its second year and is thriving. To validate, one of our new Ph.D. students is from Arizona. Did she come to Georgia Southern because of the Ph.D. program? Yes! Would she have enrolled otherwise? No. That is what a Ph.D. program will do for a university. Once our doctoral students graduate and take positions in other universities, our reputation will open doors for other students to consider enrolling here.

COBA’s ability to successfully deliver a Ph.D. program yields intangible benefits in Atlanta. The Board of Regents recently approved four-year engineering degrees at Georgia Southern. The ripple effect is that a new college combining the programs in civil, electrical, and mechanical engineering with information technology and computer science will be formed.

**The 18th Annual COBA Golf Tournament**

The annual COBA golf tournament was held at Forest Heights Country Club on Friday, May 13. Winning teams were Gross—Andy Parrish, Chris Wood, Ben Lee, and Ashley Beecher; and Net—Chris Davis, Danny Nease, Shane Holland, and Jon Burns. Special awards were Straightest Drive—Brian Anderson, Closest to the Pin—Christ Ryan (#10) and Ashley Beecher (#10), and Longest Drive—Susan Williams, ladies, and Walter Garvin, men. Special thanks to corporate sponsor, Walmart Logistics.

The Georgia Southern community lost a real trooper in John Budack’s passing this fall. He had lived near Charlton and me for about 25 years and our families were very close. We cried when Lisa, his older daughter, died and when Carol, his first wife, passed away. It is still hard for me to talk about John without getting teary-eyed.

He liked to play ping pong.

We had a table in our playroom, and we played many, many hours. His serve was not so fast, but he could return anything!

John related, once, he had never caught a big bass; so, one day we went fishing at Smith Pond. He was using one of my rods with a tight drag. When a bass hit the blue jelly-worm and took off, I thought he would never get the fish to the boat. I could tell he was tiring because of the drag and offered to reel it in, but John would not give up. He was elated to see the bass weigh-in at more than five pounds.

COBA once held alumni socials around the state, Atlanta, Macon, etc., and former students often asked about their favorite professors—sometimes, about those who were not so favorite! As I recall, the two professors who were asked about most fondly were John Budack and Bobby Smith. Sure, others were mentioned, but Budack and Smith were consistently the ones our alums thought of as their best teachers who would always take time to help them. Since I was in their department, I always thought it was interesting that two of “our” guys were remembered so well.

This fall, I sent out a lot of blue cards and am looking to get them back with your updates. It really helps us to know where COBA graduates are and what they are doing. We know that, with a degree from COBA, job prospects are much better because our alums are doing so well, and we often invite alumni to interview on-campus, participate in academic events, and join us to speak to classes.

If you are thinking we might ask you for a contribution, you are right, we do need your financial support. Membership in the Eagle Executive Society is only $50 a year. If all COBA alumni joined the EExS, the $1.1 million impact would be astounding! As you know, about half our budget comes from the state, and the Board of Regents targets tuition to cover approximately 25 percent. The balance comes from contributions, grants, and sponsorships. When you were here, someone made it possible for you to have a quality education. Now, you are gainfully employed and successful, so I hope you will heed the call to give back!

If you have not been back to the ‘Boro lately, I think you will be literally amazed at the changes in the campus, community, and region. The growth continues—the official student body count for this year is 20,212. The campus is beautifully landscaped and Sweetheart Circle is more beautiful than ever. Hope to see you soon!

Best regards,

The reunion included a reception at the Alumni Center hosted by the department’s student groups and wine-tasting and dinner at the home of Steve and Paige Rutner. The wine-tasting was coordinated by in-house sommelier Geoffrey Dick. The department’s Association for Information Systems student chapter and the SAP@GSU Student Advantage group assisted the department in hosting the COBA tailgate before the Presbyterian game on October 22. Hats off to administrative secretary Donna Orme for ensuring the IS Reunion’s success.

Fall semester has been filled with information sessions and recruiting interviews many of which have included IS alums. Companies presenting information sessions for recruiting purposes have included SAP America, Cap Gemini (Raymond Richards), Coca-Cola Refreshments (Noel Hollis), Goodrich, McKesson (Jason Dean and Ryan Mendall), and Rural Sourcing Inc. Zach Sines (SNI Technologies, Inc.) has been back to campus for both TechPro and the career fair, and Darren Bridges and Brent Moore (Safe Systems) came to recruit at the career fair. To ensure that our visitors have a good on-campus experience, Paige Rutner stepped up to coordinate multiple on campus recruiting events and was assisted by Bob Szymanski.

Day for Southern Record

The 38th annual Day for Southern campaign for Georgia Southern set an all-time record in 2011 with total contributions of $1,403,862. This represents the 14th year in a row the annual one-day fundraising event, held the second week in September each year, has topped the $1 million mark, remarkable in the difficult economic environment. Last year, the campaign raised $1.3 million, while the previous record was $1,401,739 for 2008.

Volunteers, led by community chair and Georgia Southern alumna Jenny Lynn Anderson called upon individuals, local and regional businesses, faculty, staff, students, retirees, alumni, and friends of the university seeking support for the university academic and athletic foundations. Money raised goes for scholarships and programs not supported by state funding including the Museum, Wildlife Center, Botanical Garden, Performing Arts Center, Symphony, Student Recreation programs and many aspects of the athletic programs.

“In 1906, it was local and regional support that brought Georgia Southern to Statesboro. Today, that support is stronger and more important than ever. The 2011 A Day for Southern campaign speaks volumes about community support for this University,” concluded the elated Georgia Southern President Brooks Keel.

Belk Builds Relationship with Center for Retail Studies

Fraud and Forensic Education Conference

The 5th Annual Fraud and Forensic Accounting Education Conference was held at the Hyatt Regency, Savannah Riverfront, Savannah this summer. Ernest A. Almonte, CPA, MST, CFF, CITP, and CGFM, former auditor general for the state of Rhode Island, and immediate past chair of the American Institute of CPAs, was this year’s keynote speaker. Almonte is an internationally-known expert on fraud and government finance.

According to Richard Brody, conference presenter from the University of New Mexico, fraud costs U.S. businesses almost a trillion dollars annually, as much as 7 percent of business revenue, or almost $20 per employee each day of the year.

The three day conference, offering up to 20 hours of professional continuing education credit for accountants, featured more than 175 registrants and 35 speakers discussing such topics as Ponzi schemes, black markets, fraud and bank failure, red collar crime (murder), pink collar crime (women), money mules, and cyber crimes; consumer, financial institution, insurance, health care, mortgage and real estate, corporate, securities, environmental, government, tax, and bankruptcy frauds; and public corruption.

Mr. Boyd E. Search, chief staff executive of the Georgia Society of Certified Public Accountants (GSCPA) and a Certified Association Executive, spoke as the 2011 School of Accountancy Executive in Residence at the Nessmith-Lane Performing Arts Center in November 2011. This represented the 16th annual Executive-in-Residence event for the School of Accountancy.

In his leadership role with the Georgia Society, Mr. Search is responsible for the Society’s vision of enhancing the accounting profession; its mission of achieving excellence in the practice of accounting; and its purpose of providing superior advocacy, leadership, service, lifelong learning, and personal and professional development opportunities for its membership. Under his leadership, the GSCPA’s blueprint for success underscores the Society’s commitment to enhancing resources, information, and leadership for CPAs; delivering value to members by safeguarding the profession’s high professional standards; providing high-quality, timely continuing professional education, and attracting the best and brightest students and professionals to careers as CPAs.

Mr. Search holds a BS in political science with a minor in economics from Ohio State University along with accounting and MBA degrees from Franklin University, Columbus, OH. Prior to his current position, he served as vice president of education and training for the Ohio Society of CPAs, managing a professional education programs of more than 500 courses, events, and program annually.

As keynote speaker for the 2011 Executive-in-Residence program, Boyd led a very informative and spirited lecture to more than 400 Georgia Southern students in attendance. Feedback from students on his topic, “Life in the Accounting World: Lessons Learned,” was excellent. Discussions centered on change and learning from mistakes. Quoting futurist David Pearce Snyder, Search stressed increasing demand for accounting services, career diversification in a dynamic profession, and technology as the driving force of opportunity. Identified keys to success for the emerging era included multiple careers, latticed career paths, and flatten hierarchies within the profession; and finally, his assessments of challenges for the industry included standards of accounting for private U.S. companies, international financial reporting standards for U.S. public companies, and legislative advocacy against tax, medical procedure, and nuclear weapon patenting.

The Georgia Society of Certified Public Accountants is the premier professional organization for CPAs in Georgia. The School of Accountancy works with the Southeast Georgia Chapter of the Georgia Society of CPAs to invite executives to speak to students to illustrate career opportunities that exist for accounting graduates. “The Executive-in-Residence events rank among students’ favorite programs,” said Lowell Mooney, professor of accounting, who introduced Mr. Search, “Students hear about the accomplishments of these executives and their stories of challenges, perseverance, and success.” These programs have become a highlight of the academic year in the College of Business Administration.

Mr. Search and his wife, Kristin, have three daughters; Abigail (11), Madeline (8), and Elizabeth (5). The girls will tell you that there is most certainly a dog in the family’s future!�

WebMBA® Earns Tier One Ranking

The Georgia WebMBA® program—our on-line MBA program delivered through a consortium of six Georgia institutions—was recently awarded a Tier One ranking by CEO Magazine, a British publication, in its 2011 Global MBA Rankings. The rankings are grouped into on-line, executive, and part-time classifications and twelve global regions, including three emerging markets. Key performance indicators considered by the CEO review panel for the rankings included faculty qualifications, tuition and fees, international reach, innovation, delivery alternatives, and career progression.

This represents the first time the WebMBA® has earned recognition in Europe, among other U.S. on-line MBA programs, including Babson College, Boston College, Duke University, George Washington University, Indiana University, and Rochester Institute of Technology, as well as international schools such as the University of Liverpool, Liverpool, UK, Warwick University, Coventry, UK, and the Swiss Business School, Kloten, Switzerland.

In a separate three page article, CEO Magazine editor Jonathan Calens interviewed WebMBA®, Executive Director Joe Bocchi and COBA Dean Ron Shiffer about the program, highlighting the importance of accreditation as the benchmark of quality; advice and recommendations of former students; and price competitiveness of the program. They assessed key strategic success factors of the program to include focuses on student quality, managed growth, and the on-line experience approaching the face-to-face experience. The entire article is available for review at: http://coba.georgiasouthern.edu/pdf%20files/coe_article_winter_2011.pdf.

MAcc Update

The planned Fall 2012 launch of our on-line Web MAcc is under way, and the program for working professionals promises to expand our reach beyond the Statesboro-Savannah area, while continuing to serve existing students.

With a curriculum second to none, our forensic MAcc program continues to attract students from around the world. Their success is a testament to the program’s quality with all big four international accounting firms, KPMG, PricewaterhouseCoopers, Ernst & Young, and Deloitte and Touche, hiring our students.

As reported previously, the growth of our reputation enhances our applicant pool. For Spring 2012, the average GMAT score has moved up to 546 from 535 in fall, while the average gpa GPA is 3.58, up from 3.42 in fall. So, when our graduates perform well in the profession, our reputation grows, and we attract better students, a positive cycle!

Three new faculty will join us in the Fall 2012, allowing us to offer more sections, reduce class sizes, and challenge students even more, better preparing them for accounting careers. We are excited about the opportunities. If you are interested in more information, please check our website: www.GeorgiaSouthern.edu/soa.

Chamber’s Southeast Institute for Organization Management in 2008 and became one of only 13 Georgia Certified Chamber Executives in 2009. He is also a graduate of Leadership Southeast Georgia.

Kenny remains active as a volunteer in the communities and chambers in which he lives and serves, and is currently a member of the Legacy Lions Club in Loganville and a participant in Leadership Walton.

Kenny still enjoys coming down to Statesboro for as many Georgia Southern Football games as possible—Go Eagles!

Eagle Executive—Celebrating 25 Years

Page 11
Georgia Southern and COBA hosted Jimmy Dunne, senior managing principal of Sandler O’Neill, for the 11th Annual Norman Fries Distinguished Lecture in December. Sandler O’Neill is one of the largest full-service investment banking firms in the country. Dunne oversees Sandler O’Neill’s strategic functions and is active in the firm’s key client relationships. His lecture at Georgia Southern focused on how he and his firm carried on personally and professionally after the 9/11 attacks.

**PROJECT ADRIAN**

PROJECT ADRIAN returned to campus this summer with 28 white collar crime students sworn in as honorary criminal investigative “special” agents joined by fifteen agents of the Internal Revenue Service from Atlanta, Augusta, Macon, and Savannah who led C O B A ’ s fraud and forensic students through a series of mock financial crime investigations.

Students opened their criminal investigations on information of wrongdoing and pursued subjects of tax crimes including corrupt tax preparation, drug money laundering, fraudulent marketing of tax shelters, and evasion of taxes on gambling winnings.

The Professional Development Center’s upscale facility was staged to mimic an intelligence center, squad rooms, business offices, accountant offices, judge’s chambers, and everyday life locations, including residences. The IRS coaches prepared students by fine-tuning their investigative procedures. Teams were assigned to conduct record checks, serve subpoenas, analyse financial information, conduct interviews, setup surveillance, and monitor undercover operations. They also prepared and executed search warrants, collected evidence, and even arrested a subject or two.

Center for Forensic Studies Director Don Berecz, CPA, has been bringing PROJECT ADRIAN to campus since 2007. “We’re not training our students in arrest procedures; we are providing them experience in investigative accounting and law enforcement interaction needed to bring white collar criminals to justice.” Dean Ron Shiffer observed, “We can teach these concepts in the classroom ‘til the cows come home, but PROJECT ADRIAN lets them see the ‘real deal’ in white collar crime.”

COBA student Tonya Cole read the Fortune article and contacted Sandler O’Neill’s New York office, while preparing a strategic marketing report for Professor Jim Randall’s MBA class. Dunne accepted her invitation to tell his story as part of the Fries Lecture series.

**Norman Fries Distinguished Lecture**

The Norman Fries Distinguished Lecture Series was created by an endowment in honor of the late Norman Fries, founder of nearby Claxton Poultry and longtime icon of the Georgia poultry industry. In his more than 50 years in business, Fries, who died in 2001, built the company from a one-man operation into one of the nation’s largest poultry production plants. The family-owned company is now operated under the leadership of his widow, Doris Fries, and her very capable executive staff.

College. Her professional background includes production management and business consultancy for Razorfish, Inc., and Thomson Reuters. She started, owned, and operated a small grocery-restaurant business. Her research interests include supply chain governance, buyer-supplier relationships, customer experience management and innovation. Currently, Sara has research under review at a leading logistics journal and has published in multiple conference proceedings.

**Stephanie Thomas**

Stephanie earned an MBA in marketing and logistics as well as a BA in speech communication at the University of Tennessee. She has held a number of industry positions, including merchandise buyer and vendor logistics specialist for Lowe’s, purchasing manager at IBM, and warehousing and distribution with Stanley Tools, developing managerial expertise in customer service, purchasing, negotiation, logistics planning, category management, supplier management, and supply chain strategy.

Stephanie’s research interests focus on negotiations, buyer-supplier relationships, and retail supply chain management. Her research has been published in several conference proceedings and is currently under review at two leading logistics journals.

**Donnie Williams**

Donnie received his BBA in finance from Georgia Southern. His professional background includes financial service positions with Financial Design Associates, Mass-Mutual Financial Group, and Primerica Financial Services. Most recently, he has been employed as a project manager at Georgia Southern.

His research interests include innovation and entrepreneurship in logistics, integration in supply chain management, and human resource–teamwork issues in logistics and supply chain firms. His work has been published in the proceedings of the Council of Supply Chain Management Professionals conference.

**Forensic Lecturers**

These guests are involved daily in the real world of white collar crime investigation, interview, and interrogation. Their presentations were extremely interesting, but keeping up with their paces and attention to detail was challenging!

COBA Advisory Councils’ Fall Meetings

The COBA Business Advisory Council held its 24th annual meeting at the City Campus on Friday, November 4 before Homecoming weekend at Georgia Southern. The council received updates on the City Campus, new COBA strategic and organizational structure, Business Beat, upcoming AACSB reaccreditation, and an overview of graduate programs, including MBA and EMBA.

COBA Dean Ron Shiffler highlighted record fall enrollment of 20,212, a 1.6 percent increase from Fall 2010; COBA being named in The Princeton Review’s “Best Business School” list for the sixth consecutive year; COBA leadership in developing the “City Campus”; and preparations for the University’s forthcoming Capital Campaign.

The traditional breakout sessions addressed COBA’s new vision, mission statements, and board structures for 2012, including the Leadership Board for COBA and Program Advisory Boards for majors and programs.

John Budack, assistant professor of finance emeritus, who taught real estate classes for many years, passed away in October at the age of 73 in Virginia. He and his wife, Alice, had a second home in Virginia, and he had been battling a brain tumor.

Many alumni will remember Mr. Budack. He taught in COBA for 26 years from 1974 until 2000, when he retired. He returned to the classroom part-time after retirement and taught periodically until his death.

Mr. Budack was considered the godfather of real estate at Georgia Southern because he created the real estate emphasis in the finance major and taught all the courses himself for many years. Mr. Budack also supervised interns in real estate, linking literally hundreds of students to real world experience prior to graduation.

Mr. Budack served on the original greek housing committee that formed the Southern Greek Housing Corporation and developed “Greek Row” at Georgia Southern. He lead the establishment of a Phi Delta Theta chapter at Georgia Southern, served as the chapter advisor, and was province president for Georgia.

Mr. Budack earned a BBA degree in 1959 from the University of Michigan and an MBA degree in 1970 from Drake University. He is survived by a daughter, Karen, who is married to Todd Deal, professor of chemistry at Georgia Southern, and his wife, Alice.

A memorial service was held for Mr. Budack in Statesboro on October 1.
