Naomi L. D. Cox Civil War Letters
Inventory

Note: This collection was received in the 1960's. It consists of the correspondence of the Cox family during and after the U. S. Civil War. The main correspondents are Naomi L. D. Cox, her mother Malinda D. Cox, and her two sisters Henrietta and Sallie. There are two sets of letters within this collection. One set is laminated; the other is not. Some of the letters were inventoried after the collection was received (mostly the laminated ones from what I can see), but others letters were not. This updated inventory includes all the letters in the collection. In the first section, headed "Original Inventory," each letter has been assigned a number. The original descriptive information has been kept. The second section, headed "Update," describes the uninventoried letters as much as possible. If it is noted that a letter has been digitized, that means a digital copy has been scanned and burned onto a CD available in the Special Collections office. This is eventually planned for all the letters.
