Background: Cobb & Douglas Public Health (CDPH) was the first health district in Georgia to achieve accreditation by the Public Health Accreditation Board (PHAB) (accredited on May 12, 2015). Since then, two additional health districts, DeKalb (3-5) and Gwinnett, Newton, and Rockdale County Health Departments (3-4), have achieved accreditation. Efforts are underway among health districts statewide to become accredited, yet, little is known about life after accreditation. This presentation will highlight CDPH's approach to submitting the PHAB Annual Report, which is required of health departments in order to maintain their accreditation status.

Methods: CDPH will provide an overview of the PHAB Annual Report process and requirements. We will also share the process we used to construct a one-year timeline to prepare for the submission of the Annual Report and organize the Accreditation Team. CDPH will also provide a preview of the electronic submission process using ePHAB. Finally, CDPH will share tips, including lessons learned while preparing and submitting the Annual Report during July-August 2016. We will also discuss our experiences since submission and feedback received from PHAB's Evaluation and Quality Improvement Committee.

Results: CDPH will share knowledge and experiences related to the submission and feedback received of its first PHAB Annual Report, which was submitted August 2016.

Conclusions: Health departments devote a tremendous amount of time, money, and energy to become accredited; however, the journey continues through the submission of PHAB Annual Progress Reports and reaccreditation planning.

Keywords: Accreditation, PHAB, PHAB Annual Report
