How to Use This Catalog
This year’s General Catalog offers detailed information concerning the upcoming change to the Semester System. Highlights include alphabetized course descriptions in one section, consistently presented degree requirements by college, and a table that illustrates subject areas in which we offer degrees, majors, minors, teacher certification, and/or emphases. A gray border marks the graduate section. An improved index should make it easier to find answers to specific questions. We plan to offer this Catalog on the World Wide Web via the University’s home page, <http://www.gasou.edu>.

The Board of Regents has designated Fall of 1998 as the time when all University System institutions, with the exception of Georgia Tech, will convert to the semester system. Students who plan to be enrolled Fall 1998 and later should consult with their academic advisor concerning how the semester conversion may affect them. Such students may also want to refer to semester equivalency charts for all degree programs which are available in departmental offices, in the academic advisement centers and in notebooks for each college at the reserve desk in the Henderson Library. Core curriculum equivalencies are also available via the Internet @ <http://www.firstyear.gasu.edu/sems/sems.html>.

If you have suggestions for improving this Catalog, please email us at <jsmith@gasu.edu>.

Equal Opportunity Policy Statement
It continues to be the policy of Georgia Southern University to implement affirmative equal opportunity to all employees, students, and applicants for employment or admission without regard to race, color, gender, sexual orientation, national origin, religion, age, veteran status, political affiliation, or disability. This policy extends to participation in any of Georgia Southern’s programs. Questions regarding this policy of nondiscrimination should be directed to Director of the Office of Affirmative Action, at (912) 681-5136, P.O. Box 8035, Statesboro, GA 30460-8035.

Accommodations for Americans With Disabilities
In compliance with the Americans with Disabilities Act (ADA), Georgia Southern University will honor requests for reasonable accommodations made by individuals with disabilities. Students must self disclose their disability to the Student Disability Resource Center (SDRC) Director before academic accommodations can be implemented. The University offers modern technological devices for people with visual and hearing impairments. For additional information, please call the ADA Compliance Officer at (912) 681-5136, TDD (912) 681-0273, or the SDRC Director at (912) 871-1566, TDD (912) 681-0666. The TDD phone numbers are specifically for those with hearing impairments.
The statements set forth in this Catalog are for information purposes only and should not be construed as the basis of a contract between the students and this institution. While the provisions of this Catalog will ordinarily be applied as stated, Georgia Southern University reserves the right to change any provision listed herein, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of such changes. Information on changes will be available in the Registrar’s Office. Ultimately, each student is responsible for keeping himself or herself apprised of current graduation requirements in his or her particular degree program. While academic advisors should be consulted regularly, students are responsible for the completion of their chosen degrees.

FALL SEMESTER 1998

June 1   Deadline for Fall Semester International Graduate Student Application for Admissions
July 1   Deadline for Fall Semester Undergraduate Application
July 3   Independence Day (observed) - Administrative offices will be closed
July 15  Deadline for Fall Semester Graduate Application
July 31  Admissions Document Deadline
August 7  Early Registration Fee Payment Deadline for Fall Semester 1998
August 10  Academic year begins
August 11  Admissions Committee Meeting, 2:00 p.m.
August 12  New Faculty Orientation and Workshop, 8:30 a.m.- 4:00 p.m.
August 13  Deans, Directors, and Department Chairs Meeting, 9:00 a.m.
August 14  Faculty Meetings by Colleges:
            College of Liberal Arts and Social Sciences, 9:00 a.m.
            College of Business Administration, 9:00 a.m.
            College of Education, 9:00 a.m.
            College of Health and Professional Studies, 9:00 a.m.
            Allen E. Paulson College of Science and Tech., 9:00 a.m.
August 14  General Faculty Meeting, 2:00 p.m. - 4:00 p.m.
August 14  Undergraduate Evening Studies Final Registration, 5:00-6:00 p.m.
August 15  Residence Hall check-in, 9:00 a.m.
August 17  New Student Orientation
August 17  Hinesville, Liberty County Fall Registration
August 18  Graduate Registration in Savannah, 4:00 - 7:00 p.m. (pre-registration by mail)
August 18  Admissions Committee Meeting, 9:00 a.m.
August 18  New Student Registration, 9:00 a.m.
August 19  Former Student Registration, 1:00 - 6:00 p.m.
August 20  Drop/Add, 8:00 a.m. - 4:00 p.m.
August 20  Brunswick Graduate Registration, 4:00-6:00 p.m. (pre-registration by mail)
August 21  Classes Begin
August 21, 22, 23, 24 - 26  Schedule Adjustment, 9:00 a.m.-4:00 p.m.
August 21  Final date for filing Application for Graduation in Registrar’s Office for completing degree requirements Fall Semester
August 24  Admissions Committee, 9:00 a.m.
August 27  $50 Late Registration Fee Begins
September 4  Fee payment deadline for final registration, Fall Semester
September 7  Labor Day - Administrative offices will be closed - No classes for students
October 1  Deadline for Spring Semester International Graduate Student Application for Admissions
October 2  Deadline for M.Ed. students to register to take the comprehensive examination during Fall Semester
October 8, 9  Fall Break for students, Administrative offices open
October 16  Deadline for filing former student application to be eligible for early registration for Spring Semester
October 17  Homecoming (Classes beginning at 1 p.m. or later on October 16 will be canceled)
October 19  Last day to withdraw without academic penalty from regular day classes
October 20  Admissions Committee Meeting, 2:00 p.m.
*October 26  Early Registration for Undergraduate Evening Studies classes, Spring Semester 1999, 5:00 - 6:00 p.m.
*October 26 - 29  Early Registration for Spring Semester 1999
November 20  Final date for EDD Dissertation Defense
October 31  Comprehensive Examination for M.Ed. students
October 31  Parents’ Day
November 13  For Graduate Candidates, Final Date for Holding Comprehensive Examinations
November 15  Deadline for Spring Semester 1999 Graduate Application
November 16  Deadline to submit corrected Final Dissertation copy to the Office of the Associate VP for AA and Dean of Graduate Studies for Final review
November 20  For Graduate Candidates, One Copy of Completed Thesis Due in the Office of the Assoc VP for AA and Dean of Graduate Studies (By Appointment)
November 24  Residence Halls close at 6:00 p.m.
November 25-27  Thanksgiving holiday, Administrative offices will be closed - No classes for students
November 29  Residence Halls open at 1:00 p.m.
December 1  Deadline for Spring Semester Undergraduate Application
December 7  Deadline to submit Final Dissertation copy to the Office of the Assoc VP for AA and Dean of Graduate Studies
December 8  Final Exam for Tuesday evening classes
December 9  Early Registration Fee Payment Deadline for Spring Semester
December 11  Last Day of Classes
December 14-18  Examinations for Regular Day Classes (See Exam Schedule in Fall Semester Schedule of Classes)
December 14  Final Exam for Monday evening classes
December 14  Deadline to Submit Final Approved Dissertation to the Office of the Assoc VP for AA and Dean of Graduate Studies (8 copies)
December 14  Deadline to Submit Dissertation Abstract Plus One Copy of Signed Dissertation Title Page in the Office of the Assoc VP for AA and Dean of Graduate Studies
December 15  Final Exam for Tuesday/Thursday evening classes
December 16  Final Exam for Wednesday evening classes and Monday/Wednesday evening classes
December 17  Final Exam for Thursday evening classes
December 19  Residence Halls close at 10:00 a.m., except for graduating students
December 19  Graduation
December 21  Christmas Break for students begin
December 21-25  Christmas holiday, Administrative offices will be closed
December 28  Admission Document Deadline

General Information

University Mission

GEORGIA SOUTHERN UNIVERSITY is a predominantly undergraduate university devoted to “teaching first,” a student-centered residential campus that nurtures a fulfilling college experience, and a serving institution strongly identified with the heritage and hopes of its region. The University’s uncommon breadth of nationally accredited academic programs in the liberal arts and professional studies attracts a statewide enrollment of undergraduate students. As a University granting professionally-oriented doctoral degrees and an array of master’s degrees designed to meet the needs of the region, Georgia Southern University is cultivating a resident cadre of leaders with advanced education in critically-needed professions.

OUR MISSION IS ROOTED in South Georgia, a largely rural region that encompasses coastline, wetlands, cities with rich histories, and areas of endemic privation but abundant potential. Our quest is to uplift our region’s educational attainment, cultural opportunities, economic growth, environmental quality, scientific and technological progress, and social and personal well-being. Our hallmark is a comprehensive university experience that promotes student growth and success through creative strategies for using technology, enhancing learning, and connecting all we do to those around us.

MOST OF OUR STUDENTS are Georgians who begin as full-time freshmen, reflect Georgia’s and the globe’s cultural diversity, and have the motivation and ability to complete our increasingly demanding programs. Working professionals and transfer students are a growing presence. Student life is characterized by a culture of learning inside and outside the classroom. A safe campus serves as a laboratory for developing citizenship and leadership in a collegial environment. The Georgia Southern University experience promotes the development of students who value honesty, civility, and the dignity of work. Our mission is to graduate students who are knowledgeable, clear-thinking, articulate, and effective in problem-solving.

OUR COMPREHENSIVE CURRICULUM FOCUSES on undergraduate programs of high quality, enhanced by master’s and professionally-oriented doctoral programs pertinent to the region. At the University’s core is excellent instruction, strengthened by research and service. Innovative classes increasingly incorporate new instructional techniques and technologies.

THE UNIVERSITY IS A CENTER OF LEARNING APPLIED to regional planning, economic development, partnerships in schools, science, industries, international trade, community needs, and the health of South Georgians. We expand horizons through outreach in sciences and liberal arts, preservation of distinctive cultural legacies, and attention to the integrity of South Georgia’s environment. Faculty, staff, and students exemplify service, contributing time and expertise to enhance the quality of life.

SCHOLARSHIP IS CENTRAL TO THE MISSION OF THE UNIVERSITY. We practice scholarship in terms of the discovery, integration, application, and teaching of knowledge and creative activity. Scholarship of relevance to South Georgia, and of a standard that can earn national or international recognition, is especially esteemed.

GEORGIA SOUTHERN UNIVERSITY WILL BE one of the nation’s best public undergraduate universities by nurturing a faculty who are devoted to teaching able and diverse students. We will provide society with graduates who are both equipped to master a competitive world and educated to build a better civilization. Georgia Southern University exemplifies how kindness, quality, and collaboration can complement efficiency, effectiveness, and integrity. Georgia Southern University will be a catalyst for the aspirations of South Georgians and an emblem of their achievements.

Approved by the Board of Regents, July 9, 1996

History of Georgia Southern University

On December 1, 1906, the newly appointed First District Board of Trustees convened in Savannah, Georgia. It was one of eleven such boards created for each congressional district by state legislation that year to build and oversee agricultural and mechanical schools for elementary and secondary students. The trustees were prepared to hear bids from local leaders who wanted the First District A&M School to be built in their communities and were willing to provide the funding to do so. Among the bidders were fifty representatives from Bulloch County, who had journeyed from Statesboro on a train called the “College Special.” Their bid of $125,000 in cash and in-kind contributions -- including donation of 300 acres for a campus -- won handily. Early in 1908, just outside Statesboro (on a site called “Collegeboro”), the First District A&M School opened its doors with fifteen students, four faculty members, and three buildings.

By 1920 the First District A&M School had 150 students and was fielding teams in football and baseball; the “Aggies” typically won more than half their games in any given season. But by 1921 a combination of rapidly growing debt and drastically declining enrollments almost spelled the end of the fledgling school.

Hard work and commitment prevailed, however, and by 1924 not only were the school’s finances and enrollments back on track, but the Georgia Assembly upgraded the school to a two-year college for teacher training and retitled it the Georgia Normal School, one of three in the state. With this first change in the school’s status, “Principal” Ernest V. Hollis became “President” Hollis, Georgia Southern University’s first president. The following year private donors funded the first scholarships for the campus.

In 1929 the General Assembly was persuaded that yet another major institutional promotion was due, and the Georgia Normal School became the South Georgia Teachers College via state legislation, converting the Statesboro campus from a two-year junior college to a four-year teachers college. The Aggies had receded, and the “Blue Tide” had rolled in, bringing programs not only in football and baseball, but also in basketball and track; basketball was played in a tobacco warehouse until the first gymnasium was built in 1931.

Also in that year the long-supportive First District Board of Trustees, like all freestanding boards of college trustees in the state, was dissolved by state legislation. Higher education in Georgia was reorganized into its present form, with all state colleges and universities reporting to a single Board of Regents. Now the Regents, not the General Assembly, were responsible for determining any changes in mission for the college in Statesboro.
In 1939 South Georgia Teachers College became Georgia Teachers College by action of the Board of Regents. This new title represented less a change of status for the college and more a recognition by the Regents that the Statesboro campus was the statewide college for teacher education. Later, the “Blue Tide” receded, and “The Professors” became the official name of Georgia Teachers College’s intercollegiate teams.

When Eugene Talmadge was elected governor in 1940, he remembered, according to some observers, that the electoral district dominated by Georgia Teachers College had voted for his opponent. Within a year the governor had initiated an effort to remove President Marvin Pittman on charges that included advocating “racial equality and teaching communism” (the latter conclusively disproved). President Pittman was fired, and as a direct result of his dismissal, all state-supported institutions of higher education in Georgia saw their regional academic accreditation withdrawn by what is now the Southern Association of Colleges and Schools. In 1942 a new governor was elected, and the Board of Regents was reorganized; a year later Georgia Teachers College and the University System of Georgia were reaccredited, and Dr. Pittman was reinstated by the Board as president of Georgia Teachers College.

This incident, which received international media coverage at the time, was a formative and symbolic experience in the history of Georgia Southern University and a measure of its resilience in the defense of academic and institutional integrity -- qualities that remain today.

In 1957 the college in Statesboro was authorized by the Board of Regents to offer its first graduate degree, a Master of Education. In some ways, that benchmark was the beginning of the ultimate evolution from a college to a university.

Only two years later Georgia Teachers College was upgraded by the Board of Regents to Georgia Southern College, a recognition by Georgia’s policymakers that the College was now a comprehensive institution with responsibilities well beyond the specialized mission of educating teachers. In 1960 the “Professors” were retired as the name of the Georgia Southern’s intercollegiate teams, and by student vote, “The Eagles” were hatched.

The first fraternities and sororities were chartered on the campus in 1967 and 1968. The first three Schools -- Education, and Graduate Studies -- were established in 1968, followed by the School of Business in 1971, and the School of Health, Physical Education, Recreation and Nursing and the School of Technology in 1980. Today, these schools have been organized as the College of Liberal Arts and Social Sciences (in 1994), Education, Graduate Studies, Business Administration, Health and Professional Studies, and the Allen E. Paulson College of Science and Technology (in 1994). In 1981 football was reintroduced to Georgia Southern after a hiatus of almost forty years, inaugurating a new winning tradition of Division I intercollegiate sports.

Beginning in the early 1970s, a resurgent effort to acquire university status for the Statesboro campus emerged, culminating in 1989 with the Board of Regents’ vote to promote Georgia Southern College to Georgia Southern University. When university status became effective on July 1, 1990, Georgia Southern received its sixth and final name. Georgia Southern University became the first new university of Georgia in twenty-one years and the third largest university in Georgia. In 1992, the Regents authorized Georgia Southern University to initiate its first doctoral program, the Doctorate of Education, which was the first doctorate to be offered by an institution located in South Georgia.

The Georgia Southern University story is a story of determination to be the best one can be.

---

**Administrative Structure**

**HARRISON S. CARTER, B.S., M.S., Ph.D.**
Acting President

**LINDA BLEICKEN, B.B.A., M.S., Ph.D.**
Acting Provost

**RONALD J. CORE, B.A., M.Ed., Ed.D.**
Vice President for Business and Finance

**JAMES M. BRITT, B.S., M.DIV., M.A., Ed.D**
Vice President for Development and University Relations

**JOHN F. NOLEN, B.A., B.D., Ph.D.**
Vice President for Student Affairs and Dean of Students

**CHARLENE R. BLACK, A.B., M.A., Ph.D.**
Associate Vice President for Academic Affairs and Dean of Undergraduate Studies

**G. LANE VAN TASSELL, B.A., M.S., Ph.D.**
Associate Vice President for Academic Affairs and Dean of Graduate Studies

**MELANIE McCLELLAN, B.A., M.Ed., Ph.D.**
Associate Vice President for Student Affairs

Vacant

University Librarian

**ARNOLD COOPER, B.S.Ed., M.A., M.A., Ph.D.**
Dean, College of Education

**CARL W. GOODING, B.S., M.B.A., Ph.D.**
Dean, College of Business Administration

**ROOSEVELT NEWSON, JR., B.M., M.M., D.M.A.**
Dean, College of Liberal Arts and Social Sciences

**JIMMY L. SOLOMON, B.S., M.S., Ph.D.**
Dean, Allen E. Paulson College of Science and Technology

**FREDERICK K. WHITT, B.S., M.A., Ed.D.**
Dean, College of Health and Professional Studies

---

**College Structure**

The academic credit programs of the University are administered by six colleges. They are the College of Liberal Arts and Social Sciences, the College of Business Administration, the College of Education, the College of Health and Professional Studies, the Allen E. Paulson College of Science and Technology, and the College of Graduate Studies. Each of these is subdivided into schools or departments. A dean directs each college, a director or chair each school, and a chair each department.

The following organizational structure provides for the degrees, fields of study, and courses set out in this catalog:

**I. College of Business Administration**

Dr. Carl Gooding, Dean

School of Accountancy

Dr. J. Ralph Byington, Director

Department of Finance and Economics

Dr. William Whitaker, Chair

Department of Management

Dr. Barbara Price, Chair

Department of Marketing

Dr. Mary F. Smith, Chair

**II. College of Education**

Dr. Arnold Cooper, Dean

Department of Early Childhood Education and Reading

Dr. Beverly Stratton, Chair

Department of Curriculum Foundations, and Research

Dr. Jane Page, Chair

Department of Educational Leadership, Technology, and Human Development

Dr. Ronald Davison, Chair

Department of Middle Grades and Secondary Education

Dr. Ronnie Sheppard, Chair
III. College of Health and Professional Studies
Dr. Frederick Whitt, Dean
Department of Family and Consumer Sciences
  Dr. Nancy Kingsbury, Chair
Department of Health and Kinesiology
  Dr. Charles Hardy, Chair
School of Nursing
  Dr. June Alberto, Acting Chair
Department of Recreation and Sport Management
  Dr. Henry Eisenhart, Chair
Center for Rural Health and Research
  Dr. Lynn Wolfe, Assistant Dean

IV. College of Liberal Arts and Social Sciences
Dr. Roosevelt Newson, Dean
Department of Art
  Mr. Richard Tichich, Chair
Department of Communication Arts
  Dr. Hal Fulmer, Chair
Department of Foreign Languages
  Dr. Donnie Richards, Acting Chair
Department of History
  Dr. Jerry Steffen, Chair
Department of Literature and Philosophy
  Mr. John Parcels, Acting Chair
Department of Music
  Dr. David Mathew, Acting Chair
Department of Political Science
  Dr. Lois Duke-Whitaker, Chair

Department of Psychology
  Dr. Richard Rogers, Chair
Department of Sociology and Anthropology
  Dr. Sue Moore, Acting Chair
Department of Writing and Linguistics
  Dr. Larry Burton, Acting Chair

V. Allen E. Paulson College of Science and Technology
Dr. Jimmy Solomon, Dean
Department of Biology
  Dr. John Averett, Chair
Department of Chemistry
  Dr. Bill Ponder, Chair
Department of Geology and Geography
  Dr. Dallas Rhodes, Chair
Department of Mathematics and Computer Science
  Vacant, Chair
Department of Military Science
  Lt. Col. Brian K. Knox, Chair
School of Technology
  Vacant, Director
Institute of Arthropodology and Parasitology
  Dr. James Oliver, Director

VI. College of Graduate Studies
Dr. G. Lane Van Tassell, Dean
**Academic Services**

In addition to the Colleges, several other departments or agencies within Georgia Southern University enhance the academic life of the University.

**Advisement**

*Philosophy*

Georgia Southern University accepts the premise that ultimately a student’s program is his or her own responsibility. Any system of advisement must reflect students’ freedom of choice and their right to make their own decisions. It is important for students to see their advisors prior to registration each semester and meet with their advisors at other times in order to plan programs carefully and make sure all requirements are being met.

It is the institution’s responsibility, however, to provide guidance, information, and assistance to the student whenever possible. It is the institution’s responsibility to see that advisors have accurate information, that they are concerned about the students, and that they are accessible to the students on a reasonable basis. It is the institution’s responsibility also to give the necessary support to those faculty members who choose advisement as an area of service and to see that good advisement is appropriately included in merit considerations.

Georgia Southern University also accepts the philosophy that faculty members should be involved in student advisement when possible since they provide a necessary academic orientation to the process. It is important that the students have as much direct contact with faculty as possible, and advisement is a particularly individualized avenue of communication. Advisement also provides the faculty member with a vital area of service.

**Definition of the Role of Advisors**

Advisors should fill three roles for students. They should serve as resource persons, providing information about university programs and institutional requirements in order to assist students in developing the most coherent plan for their college years. Second, they should serve as a link between students and the university community, referring them to areas of assistance and familiarizing them with the resources provided by the institution to meet whatever needs and goals they might have. Finally, advisors should assist students in understanding the nature and purpose of higher education and help them develop self-direction in the process of decision making.

**Responsibility for Advisement**

Advisement for students who have declared a major is provided by faculty and/or professional staff advisors in centers or in faculty offices. The College of Business Administration, College of Education, and College of Health and Professional Studies have established advisement centers. Individual departments assume advisement responsibility for students in the College of Liberal Arts and Social Sciences and the Allen E. Paulson College of Science and Technology. Graduate students are assigned faculty advisors. Advisement for students who have not declared a major, along with transient, professional, and most non-degree students, is provided by faculty and staff advisors in the Academic Advisement Center, ground floor Williams Center.

The Advisement Center is also responsible for advising students in the Bachelor of General Studies degree program. Learning Support students are advised by faculty in that program until they exit all requirements; at that point they either declare a major or are advised in the Academic Advisement Center.

The Director of Advisement serves as coordinator for the campus advisement program and is responsible for providing information to advisors, coordinating advisement activities, providing programs to improve the quality of advisement, and representing the concerns of advisors where needed.

**Continuing Education and Public Services**

Created in 1969 to meet the Regents’ commitment to offer continuing education and public service programs at all University System units, the Division of Continuing Education and Public Services (DCEPS) provides the avenue for the University to fulfill its service mission to the community.

The division’s mission is to meet the lifelong learning needs of the region. The division provides a variety of programs designed to improve skills in the professions, to enhance societal and cultural understanding, to facilitate healthy lifestyles and proper use of leisure time, and to address the personal development and enrichment needs of the region.

In accordance with Southern Association of Colleges and Schools and University System of Georgia requirements, DCEPS is responsible for keeping an account of the University’s non-credit programs of instruction via continuing education units, or CEUs. The CEU is a nationally recognized unit of measure for non-credit instructional participation in continuing education programs.

The division provides a number of services including needs assessment, market analysis, marketing services, registration services, facilities coordination, and program evaluation. These services are available for programs the division develops as well as for programs developed by external organizations.

On-campus programs generally are held in the Southern Center, one of a few facilities in the University System designed especially for training and development programs for adults.

A component of DCEPS, the University’s Facilities Scheduling Office schedules meeting facilities and obtains support services for external groups desiring to use University facilities. Faculty and staff are encouraged to contact the Division of Continuing Education and Public Services for information on services and programs.

**Continuing Education Units**

Participants in designated Continuing Education programs earn continuing education units (CEUs), the standardized national measure of participation in professional education and training and development programs. One CEU represents 10 contact hours of participation in an organized program where there is evidence of qualified instruction, capable direction, and responsible sponsorship. Permanent records of CEUs earned by participants are maintained by the university Registrar. All Continuing Education programs and activities are offered in accordance with the programmatic and fiscal requirements of the Commission on Colleges, Southern Association of Colleges and Schools, and the University System of Georgia.

**Public Service Institute**

The Division of Continuing Education and Public Services encompasses the university’s Public Service Institute, established by approval of the University System of Georgia Board of Regents for the purpose of cooperating with businesses, government institutions, and government agencies to address the needs and problems of southeast Georgia.

**Intensive English Program**
Georgia Southern University’s Intensive English Program is a non-credit English as a second language program offered through the Division of Continuing Education and Public Services. It is designed for students who have some English background but do not meet university English proficiency requirements. The program includes five hours a day of classroom study as well as study and preparation outside of class. Program participants must be financially self-supporting. Please direct inquiries to:

**Conference Center**
The Southern Center boasts a 28,000 square foot conference center scheduled for expansion in 1998. The facility offers more than 11,000 square feet of meeting space including a 412-seat auditorium and a 15-station computer training center. Training support systems such as audiovisual equipment and teleconferencing equipment are available.

**Services**
Division of Continuing Education and Public Services program specialists are available to assist with program development tasks including needs assessment, program planning, program administration and coordination, fiscal management, marketing, and program evaluation. A full range of meeting planning and conference services is available, as well as in-house (contract) training programs for businesses, industries, institutions, and agencies. Please direct inquiries to:

**Development and University Relations**
The Division of Development and University Relations builds private and public support for the University through three primary areas: enhancing the University’s image, impact, and recognition through communication; augmenting the University’s resources for quality enrichment through fund raising; and involving the University graduate in a lifelong relationship with his or her alma mater through alumni activities and services. The division is organized into three departments: Resource Development, Public Relations, and Alumni Relations.

**Resource Development** is responsible for all fund raising programs and projects that supplement support for scholarships, academic enhancement, and cultural and educational outreach. Programs include the annual community and alumni loyalty campaigns, corporate proposals, major gifts solicitation, planned giving, scholarship endowments, and special projects. The Development office is the liaison for the Georgia Southern University Foundation.

**Alumni Relations** programs maintain ties and build support among the University’s graduates by keeping them informed and involved with their alma mater through publications, social events on campus and in their communities, membership in the Alumni Association, recognition of outstanding alumni, and special services and privileges. Along with the Office of Alumni Development, the Association plans year-round events including Homecoming activities, regional receptions, and alumni Chapter meetings. Association members often assist the University in recruiting students, fund-raising, and career placement for recent graduates.

**Distance Learning at Georgia Southern University**
The distance learning program at Georgia Southern University provides credit and non-credit classes in various disciplines to students across the southeast Georgia area. The goal of this program is not only to provide students with access to instruction at more than one location but also to provide them with an educational opportunity equal to that in the traditional classroom setting. To this end the system provides for live, real-time interaction between instructors and students regardless of geographical distance. There are five distance learning classrooms on the Georgia Southern University campus, each equipped with computers having Internet and WWW access.

Georgia Southern University began utilizing distance learning technology in 1992 and since that time has offered credit and non-credit classes in many areas. We currently teach 30-35 classes to approximately 15 remote sites per term. Since beginning we have served over 4,000 students by offering more than 300 courses from over 25 academic departments. Our remote sites include Vidalia, Swainsboro, Millen, Sandersville, Savannah, Dublin, Jesup, Brunswick, St. Mary’s, and Baxley.

Although the distance learning program at Georgia Southern University targets potential students in the southeast Georgia area, our system is part of a statewide network called GSAMS, Georgia Statewide Academic and Medical Systems. The GSAMS Network has over 350 sites around the State of Georgia including sites at public colleges and universities, adult and technical schools, K-12 schools, the Georgia General Assembly, Skidaway Institute, Zoo Atlanta, and Fernbank Science Museum. The GSAMS Network in not limited to sites in Georgia. Using this technology we can connect to sites around the world.
Courses Offered
Georgia Southern University offers distance learning courses in several different areas. Most of our day-time classes are in the area of Post Secondary Options or PSO. These PSO classes are offered to qualifying high school juniors and seniors for college credit. Tuition for these courses paid for by the state-funded Post Secondary Options Program. Classes offered include English composition, college algebra, calculus, American government, history, psychology, astronomy, sociology, and public speaking. For further information on the Post Secondary Options program or if you are interested in setting up your location as a remote site, contact the Distance Learning Center.

In addition to Post Secondary Options courses Georgia Southern University offers upper division courses in area such as sociology, management, marketing, nursing, health, geology, and finance.

The majority of our distance learning courses are in the evening and are graduate classes in the areas of business administration, nursing, education, geology, health and kinesiology, foreign language, sociology and anthropology, and public administration.

To obtain information on courses in your area contact your advisor, the Georgia Southern University Course Bulletin or the Distance Learning Center Web Page. Students taking distance learning classes must be registered as a regular or transient student. Please contact the Admissions Office, Registrar’s Office, or Graduate School for current information.

Internet Courses
Georgia Southern University is currently in the development stage of delivering credit courses via the Internet and the World Wide Web. Please watch the Distance learning Center web site for updates on these courses.

Other Services
The GSAMS classrooms at Georgia Southern University can be utilized for many events other than credit classes. Meetings, conferences and enrichment programs have been provided to public school students and teachers, local and state government officials, law enforcement personnel, nurses and other health care providers, employees in business and industry, and professional staff in human service agencies and organizations. Examples include: technology updates, law enforcement training, web page and Internet training, Cooperative Extension Service workshops, sports programs, town hall meetings, and press conferences. Please let us know if you would like a demonstration of how GSAMS can be used for your next training session, meeting, or conference.

How To Contact Us

Henderson Library
The Zach S. Henderson Library is a major academic resource for the campus, with its extensive collections of academic books and journals, government publications, special book and manuscript collections, and links to networked information resources in various electronic formats. The service patterns established by the Library accommodate more than 3,000 users each day during the academic terms.

The Henderson Library is centrally located on campus in a four-story building constructed in 1975. The building has 158,000 square feet of space, will hold 800,000 books at total capacity, and seats 950 people in the book stack areas. The Library currently offers the most extensive operating schedule of any academic library in the state of Georgia. During 148 of the 168 hours in a typical week during the academic term, the first and second floors of the Library remain open on a 24-hour basis to provide access to the Library’s computer resources, periodical collections, reserve reading collections, and study facilities.

As of July 1997, the Library’s collections contained 500,085 bound volumes; 801,000 microform units; and 550,000 government documents. The Library maintains subscriptions to 3,467 serial and periodical titles. In addition to the extensive collections in paper and microform, the Library has a large set of information materials in electronic format, including full-text copies of articles from thousands of academic periodicals and newspapers. These electronic resources are accessible from a networked group of more than 275 microcomputers within the Library building and from any Internet-connected computer or telephone dial-in location in the world.

The Library network also provides access to many standard software applications in the areas of word processing, spreadsheets, database management, programming languages, and graphical design. Other programs, more directly related to specific curriculum-based needs for designated courses, are also available via the network. All of the Library’s publicly accessible microcomputers are linked to the Internet through high-speed network connections. The Library’s networked computers thus serve as one of the University’s large general-purpose student computer laboratories, operated in coordination with the other student computing facilities.

The Library has installed a comprehensive library information system that links the on-line catalog, circulation procedures, periodical indexes, full-text databases, and in-process library acquisitions into one integrated system. The Library’s catalog is available on-line through the Internet and is also incorporated as a part of a combined catalog for the University System of Georgia, making an additional three million book titles and thousands of academic journals available within days of a request. The Library is a full participant in the GALILEO project, Georgia’s statewide library sponsored by the University System of Georgia, providing more than 100 major databases and more than 1,500 academic journals in full-text format, as well as rapid interlibrary loan across the state. Computer stations in the Library that are used to access GALILEO may also be used to access other library catalogs and databases located throughout the world via the Internet.

The Library employs 61 faculty and staff members and approximately 125 student assistants. The functional areas of the Library are organized into the following five departments: Access Services, Acquisitions, Cataloging, Government Documents, and Information Services.
• The Access Services Department is responsible for circulation transactions, the book and periodical reshelving operation, interlibrary loan and document delivery (including off-campus library delivery services), academic reserves, audiovisual services, photocopier maintenance, and building security.

• The Acquisitions Department is responsible for purchasing all materials that are to be added to the Library’s collection. This department also processes gift materials and supervises the binding of paperback books and individual periodical volumes. All activities involving serial publications, including subscriptions, cataloging, cancellations, and microformats, are also handled in this department. Faculty members in the academic departments may request materials to be ordered through their departmental library representative, who administers a special fund for this purpose and who also works in close coordination with the Acquisitions staff to see that appropriate books are received by the Library automatically upon their publication through the approval purchase program.

• The Cataloging Department catalogs all books and audiovisual materials added to the collection, with the exception ofserials (noted above) and government documents (noted below). The Library of Congress classification system is used. The Library’s online catalog is available on the campus network.

• The Government Documents Department is responsible for a large collection of publications of the agencies of the U.S. Government. These publications are classified and shelved according to the Superintendent of Documents classification system. The faculty and staff members within the Government Documents Department are available to assist students and faculty members with the use of this valuable collection. An online catalog of this collection is available in compact disk format. As a depository for publications of the United States Government, the library has a special responsibility to make those publications available to the general public in accordance with the rules and policies of the Government Printing Office and the Federal Depository Library Program.

• The Information Services Department is responsible for assisting users with the information resources of the Library in both print and electronic formats. This department maintains a large set of electronic databases, and also supervises a traditional collection of reference books and periodical indexes. Reference librarians are on duty at the Reference Desk (second floor) to assist users with these collections and to answer general questions about the Library, and staff members and student assistants are available at the first floor Help Desks to assist users with the resources and programs available on a large installation of more than 275 networked microcomputers, all of which have full access to the campus information network and the resources of the Internet. The reference librarians are available to instruct classes on the use of library materials in specific subject areas, and they are also available for individual consultations with students and faculty members.

The Henderson Library publishes a newsletter during the academic terms that is available in electronic form to the campus through the Library’s WWW homepage, which has links to many other information resources. Through the newsletter and other avenues, the Library’s administration actively seeks comments and suggestions concerning any aspect of its operations and collections. The University Librarian is available to meet with any member of the academic community to discuss the Library, its collections and services, or its connections to other information networks and services throughout the world.

Institute of Arthropodology and Parasitology
The Institute of Arthropodology and Parasitology (IAP) coordinates an area of interdepartmental research among the departments of Biology, Geology and Geography, Psychology, and History. It includes faculty, post-doctoral students, graduate and undergraduate students, technicians and adjunct professors. In August 1990 the U.S. National Tick Collection along with its Curator, was moved from the Smithsonian Institution in Washington, D.C. and is now part of Georgia Southern University. The Collection is housed in the IAP Building. This addition to the Institute has made it one of the foremost centers for tick research in the world. Independent research group seminars and lectures arranged and conducted by the group emphasize transmission of microbes by arthropods, and development, physiology, genetics, cytogenetics, reproductive biology, population biology and biomics of selected arthropods, nematodes, trematodes, and cestodes of regional and international importance. Laboratory and field research is conducted by Institute members. For information contact Dr. James H. Oliver, Jr., director, at 681-5564.

Intercollegiate Athletics
Intercollegiate athletics provide an opportunity for highly skilled student-athletes to compete regionally and nationally in athletics. These activities are conducted under the control of the Georgia Southern University Faculty Athletic Committee and within the rules and regulations of the National Collegiate Athletic Association and the Southern Conference. Intercollegiate athletics are an integral part of the total college program and, as such, maintain active programs for men in football, baseball, basketball, golf, soccer, swimming, tennis and cross country, and for women in basketball, volleyball, swimming, softball, soccer, tennis and cross country.

Over the last decade, Georgia Southern University has developed one of the most successful broad-based athletics programs in the country. Across-the-board commitment to excellence has resulted in four football national championships and NCAA Tournament participation in men’s and women’s basketball, baseball and golf. GSU joined the Southern Conference in 1992 and has claimed nine league titles.

Postal Services
The Campus Postal Service is a university owned and operated facility located in the Landrum Center. This facility provides mail pick up, delivery, posting and boxing and window services for faculty, staff and students.

Upon registration a mail box and combination number will be printed on each student’s schedule. All student mail boxes are located in the Landrum Center. The Campus Postal Service will identify recently assigned mail boxes and provide services within hours after registration.

Student Disability Resource Center
Georgia Southern University is committed to providing an equal educational opportunity to qualified students with disabilities. The Student Disability Resource Center (SDRC) is the primary source of services for these students. Students with an array of disabilities are eligible for services; however, documentation standards exist for all conditions, including Specific Learning Disabilities and Attention Deficit Disorder.
Students initiate services by completing the Voluntary Declaration of Disability that accompanies their acceptance letter. The SDRC will contact students concerning documentation standards upon receipt of that document.

Services include advocacy with faculty, assistive technology, early registration, books on tape and other accommodations derived from documentation. There is no charge for services.

The SDRC is located on Knight Drive in Hampton Hall, building #5. Please call 912-871-1566 or TDD at 681-0666.

Regents Center for Learning Disorders at Georgia Southern University

The Regents Center for Learning Disorders (RCLD) at Georgia Southern University is one of three centers in Georgia established by the Board of Regents to provide standardized assessment, resources and research related to students within the University System suspected of having learning disorders. Each center serves designated colleges and universities within a geographic region, and follows criteria established by the Board of Regents for identifying students with suspected specific learning disabilities or Attention Deficit/Hyperactivity Disorder (ADHD). The RCLD’s professional staff members will review documentation, supplied by a student, for specific learning disabilities or ADHD. Students may need to provide additional information or undergo a new evaluation.

Students in need of, or interested in, having an evaluation must contact the Disabilities Service Provider or Coordinator on their own campus for information concerning the availability of this service. Georgia Southern University students (or prospective students) should contact the SDRC (above). The Disabilities Service Provider or Coordinator will also make available the criteria for identifying specific learning disabilities or ADHD or for accepting outside evaluations (assessments completed by an agent other than one of the three Regents centers). Assessments may be done through the RCLD or through an outside agency.

The Georgia Southern University Museum

Since 1982, the Georgia Southern University Museum has sought to preserve, exhibit, and interpret objects pertaining to the unique cultural heritage and natural history of this region. A world-class mosasaur specimen and some fossil remains from the Vogtle Whale are among the many exhibits about our prehistoric past. The museum also hosts a variety of contemporary exhibits and programs relevant to the university’s academic departments. Hands-on exhibits provide entertainment as well as education. Each spring the museum hosts an exhibit in cooperation with the Georgia Southern International Student Program. The museum serves as a research and educational resource for faculty, staff, students, the general public, and schools in south Georgia. Opportunities exist for undergraduate and graduate student involvement in all aspects of the museum’s programs. The museum is open on weekdays from 9 AM to 5 PM, and on Saturdays and Sundays from 2 to 5 PM. There is no admission charge.

Botanical Garden

Georgia Southern University Botanical Garden is located on an 11-acre site between Fair Road and Georgia Avenue near the southeast end of campus. Once the home of Dan and Catherine Bland, the Garden’s rural ambience evokes the past as well as providing the backdrop for the Garden’s growing collection of Southeastern native plants, especially those of the Coastal Plain. The Garden’s primary mission is to increase knowledge and appreciation of the plants, animals, and ecology of Georgia through its collections, exhibits, educational programs, and research activities. Workshops, tours, school field trips, special events, seasonal festivals, and community outreach are part of the Garden’s public programs. For information call the Garden at 871-1114.

Foy Gallery 303

Gallery 303, located on the third floor of the Foy Fine Arts Building, presents eight major exhibitions during the academic year featuring contemporary art works by faculty and students. They range from traditional oil paintings to “installation” works using a multimedia effort. Typically the exhibitions appear for a month. In addition to opening receptions, visiting artists meet with classes and the community in both formal and informal settings. Exhibitions are free to the public and open 8 am to 5 pm Monday through Friday. Guided tours are available through the Art Department, 681-5358.

Music Program

The Department of Music presents more than 100 public concerts each year, including the Faculty Recital Series, performances by the major ensembles, guest performers sponsored by the Campus Life Enrichment Committee (CLEC), and student recitals. Beginning with “The Faculty Showcase Recital” early each Fall term, the series features concerts by individual faculty performers throughout the academic year. Major ensembles include the Opera Theater, the Statesboro-Georgia Southern University Symphony Orchestra, the Jazz Ensemble, the Symphonic Wind Ensemble, the Southern Chorale, the University Singers, the Percussion Ensemble, and many studio ensembles such as the Clarinet Choir, Brass Quintet, and Trumpet Choir. CLEC supports a music department program of guest recitalists/lecturers, the purpose of which is to enhance various aspects of the academic program. Students perform in graduation, junior and senior solo recitals, as well as in many general recitals. With the exception of the Statesboro-Georgia Southern University Symphony, all concerts are free and open to the public. For symphony tickets, contact the Department of Music, 681-5396.

Office of Research Services & Sponsored Programs

The Office of Research Services and Sponsored Programs (ORSSP) assists faculty and staff in securing external funding to support research, instruction, training, and public service. The Office maintains current information on funding agencies and regularly disseminates to faculty and staff information concerning grant opportunities, deadlines, and guidelines. Additionally, the office acts as liaison between the faculty and funding agencies, assists the faculty in complying with all agency and university regulations (including those associated with animal welfare, the protection of human subjects, and other research compliance issues), and promotes faculty development through grant development workshops and presentations.
This office offers a range of services to facilitate research and the development of grant proposals, including: identifying appropriate funding sources; assistance in revising proposals for resubmission; obtaining compliance and assurance forms; transmitting proposals to funding agencies; assistance in conceptualizing projects, designing programs, and structuring proposal narratives; preparing institutional capability statements; reviewing proposal drafts; developing budgets; and coordinating the institutional signoff process through which university support for proposed projects is formally committed.

A number of internal support programs also are coordinated by ORSSP, including the Faculty Research competitions (in support of the Faculty Research Subcommittee), the Graduate Student Professional Development Fund (funded by Student Activity Fees), and the University’s membership in the National Association for the Exchange of Industrial Resources (NAEIR).

Finally, the office now provides electronic access to research resources through its continually expanding Gopher area and World Wide Web Home Page. Faculty and staff can access current grant announcements and download university and agency guidelines, forms, policies and procedures through the office’s Home Page <http://www2@GaSoU.edu/research/>. Several ongoing enhancements to the office’s Web site enable university personnel to search a funding database from their own computers or review several ORSSP publications, such as the University’s first Research and Service Infrastructure guide, Grants Manual, and Grant and Contract Management Manual.

Tutorial Services

Tutorial Services at Georgia Southern University maintains a commitment to the students to provide tutorial assistance in critical areas of the core curriculum. Peer tutors provide expertise in various subject areas through both organized tutorial programs and private tutorial sessions. Tutorial Services maintains a list of certified tutors in various academic disciplines as well as a list of the available tutoring programs at GSU. For information on becoming a certified tutor or for information about available assistance, contact us at 681-5802 or e-mail: cnessmith@gsvms2.cc.GaSou.edu.

Tutorial Center

The Tutorial Center located on the ground floor of Henderson Library offers all GSU students free tutoring in mathematics, writing (across the curriculum), college reading, study skills, statistics, anthropology, history, American government, and biology.

The Tutorial Center’s mission is to provide a supportive learning environment. The tutors are students recommended by professors in their subject areas and are certified by the GSU Tutorial Services. The center has a full-time coordinator and 3 faculty consultants from math, English, and reading/study skills who work with the tutors in the implementation of the program. Mentors from other departments offer assistance in the training and evaluation of tutors in their subject areas.

Each term a workshop series dealing with academic success topics is offered through the Center. Tutoring and workshop schedules are circulated each term and posted on department and classroom bulletin boards. Tutoring schedules and other information can be found on the Center’s home page (http://www2.gasou.edu/library/tutorial/tc-home.htm) or by calling 681-0321.

The Center for Wildlife Education and The Lamar Q Ball, Jr., Raptor Center

The Center for Wildlife Education and The Lamar Q Ball, Jr. Raptor Center is a 4.5 acre nature center in the heart of campus. This facility displays 12 species of native Birds of Prey in natural habitat enclosures. A flighted raptor demonstration is offered to the public on weekends, and to scheduled groups on weekdays. The main center building houses exhibits dedicated to Georgia’s wildlife, as well as a lecture hall and gift shop. Built through private donations but supported operationally by GSU, the $1.8 million center introduces school children, families and university students, faculty and staff to numerous live animals, but particularly to raptors and reptiles. Admission is free.
Academic Information

The following information pertains to undergraduate students. Graduate students please reference The College of Graduate Studies section regarding graduate academic information.

Requirements for All Degrees

**Essential Skills**, 9 hours; **Institutional Options**, 4 hours; **Humanities and Fine Arts**, 6 hours; **Social Science**, 12 hours; **Additional Requirements**, 6 hours; **Science, Mathematics, and Technology**, 11 hours; **Upper Division Requirements and Electives**, to total a minimum 126 semester hours.

**General Academic Information**

The University is organized on the semester system with each of the two terms in the regular session extending over a period of approximately 15 weeks.

The semester hour is the unit of credit in any course. It represents a recitation period of one fifty-minute period per week for a term. A course meeting three periods per week when completed satisfactorily will thus give credit for three semester hours. Two laboratory or activity periods are the equivalent of one recitation class period.

The Board of Regents has designated Fall of 1998 as the time when all University System institutions, with the exception of Georgia Tech, will convert to the semester system. Students who plan to be enrolled Fall 1998 and later should consult with their academic advisor concerning how the semester conversion may affect them. Students may also want to refer to semester equivalency charts for all degree programs which are available in departmental offices, in the academic advisement centers and in notebooks for each college at the reserve desk in the Henderson Library. Core curriculum equivalencies are available via the internet at [http://www.firstyear.gasou.edu/sems/sems.html](http://www.firstyear.gasou.edu/sems/sems.html).

**Classification**

Students are classified at the beginning of each term on the following basis:

- Freshmen: 0 - 29.99 hrs. earned
- Sophomores: 30 - 59.99 hrs. earned
- Juniors: 60 - 89.99 hrs. earned
- Seniors: 90 and up earned

**Course Load**

A student’s course load is computed on the credit hour value of all courses taken for credit during the term whether taken on campus, off campus, or by correspondence. A normal load in a term is 12 to 18 hours. Twelve or more hours is considered a full-time load for determination of tuition and most financial aid benefits for undergraduate students. An advisor may approve an overload for 19 - 21 hours. The Dean of the College in which the student’s major is found may approve an overload for 22 - 23 hours. Under extraordinary circumstances a student’s dean may recommend to the Provost that a student be allowed to take more than 23 hours, but never more than 25 hours.

Students are limited to a 16 semester hour course load during the summer term. Exceptions to this policy may only be approved by deans in extenuating circumstances.

**Class Attendance**

Each professor has the responsibility for setting specific policies concerning class attendance. Professors should clearly state policies to each class and will make clear what constitutes excessive absences. Departments may establish policies concerning class attendance provided there is unanimous agreement by faculty members within the department. The student is responsible for all material presented in class and for all announcements and assignments.

The University does not issue an excuse to students for class absences. In case of absences as a result of illness, representation of the University in athletic and other activities or special situations, instructors may be informed of reasons for absences, but these are not excuses.

It is the policy of the University to permit students, faculty, and staff to observe those holidays set aside by their chosen religious faith. The faculty should be sensitive to the observance of these holidays so that students who choose to observe these holidays are not seriously disadvantaged. It is the responsibility of those who wish to be absent to make arrangements in advance with their instructors.

**Grades and Grade Points**

The “A” grade may be interpreted to mean that the instructor recognized exceptional capacities and exceptional performance.

The grade of “B” signifies that the student has, for any combination of reasons, demonstrated a significantly more effective command of the material than is generally expected in the course.

The “C” grade is the instructor’s certification that the student has demonstrated the required mastery of the material.

The student is graded “D” when his/her grasp of the course is minimal.

The “F” grade indicates failure to master the essentials and the necessity for repeating before credit may be allowed.

Symbols used in reporting grades and grade points are as follows:

<table>
<thead>
<tr>
<th>Symbols</th>
<th>Explanation</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4.0</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3.0</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2.0</td>
</tr>
<tr>
<td>D</td>
<td>Passing</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>0.0</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete</td>
<td>0.0</td>
</tr>
<tr>
<td>*IP</td>
<td>In Progress</td>
<td>0.0</td>
</tr>
</tbody>
</table>

*IP grades may be assigned only to courses which may extend over more than one term. No credit is earned until the course is completed.

- W: Withdrawed 0.0
- WF: Withdrawed Failing 0.0
- V: Audit 0.0
- S: Satisfactory 0.0
- U: Unsatisfactory 0.0
Other Transcript Designations

- Academic Renewal (Forgiveness) Policy - not used in calculating GPA
- College Preparatory Curriculum (CPC)
- Satisfactory-No Earned Hours - not used in calculating GPA
- No grade reported
- Credit earned through military experience - not used in calculating GPA
- Credit earned through examinations - not used in calculating GPA

An incomplete grade ("I") indicates that the student was doing satisfactory work but was unable to meet the full requirements of the course due to non-academic reasons. The instructor assigning an "I" grade must document on the grade roll the reason for assigning the grade. An "I" must be removed by the end of the third term (one calendar year) following the term in which it was recorded. The student must complete the requirements of the instructor who assigned the incomplete and should not re-register for the course. If the "I" is not satisfactorily removed at the appropriate time it will be changed to an "F".

A "W" indicates official withdrawal from a course without penalty. It is assigned when a student withdraws before the midpoint of the term. Beyond the mid-term, a "WF" will be assigned except in cases of hardship as determined by the Dean of the appropriate school. A "W" is not considered in computing the GPA. The "WF" is computed as an "F". A student who withdraws from school after mid-term is assigned a "W" if passing at the time of withdrawal or a "WF" if the student is failing at that time.

An "S" indicates satisfactory performance and that credit has been given for completion of course requirements.

The symbol "U" indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work. Neither "S" nor "U" is included in the computation of the GPA.

The symbol "V" indicates that a student was given permission to audit the course. Students may not transfer from audit to credit status nor from credit to audit status after the last day of Schedule Adjustment.

The symbol "K" indicates that credit was given for the course by an examination program (See "Credit by Examination.")

S/U Grading Option

Students may select the S/U grading option under the following conditions:

1. Student must have earned 67 semester hours of credit prior to enrolling in any course for S/U grading.
2. Student must be in good academic standing.
3. Student must have declared a major.
4. S/U grading will be permitted only in courses being used to satisfy the free elective or minor requirements of the individual student’s degree program. A maximum of 5 hours will be allowed for any minor. The option applies only to undergraduate courses.
5. Student may not change from S/U grading status to letter grade status or vice versa after the last day of Schedule Adjustment.

The course content and requirements are the same for S/U registrants as for regular registrants. The minimum performance for an "S" grade is equivalent to the minimum performance for the letter grade "D".

A student wishing to elect the S/U grading option must obtain approval from the student’s advisor. The advisor giving such approval should give the student a memo specifying this approval. The student must present this memo at time of registration.

Petition to Review/Change a Grade

The evaluation of the quality of a student’s performance is the prerogative of the instructor. Nothing stated below is intended to place a limitation on this prerogative and the instructor will be involved in the review at each stage in the appeal process. All grade appeals should be viewed as confidential matters between the student, the instructor and the appropriate administrators.

If a student does not understand the reason for a grade, it is the student’s responsibility to consult the instructor of the course about the grade. If after such consultation the student does not agree with the basis on which the grade was assigned, the student may initiate an appeal according to the procedures given below. The burden of proof will rest with the student. There are four stages of appeal available to a student and they must be followed sequentially. Stages Two through Four must be completed during the term immediately following the term in which the grade was assigned unless an extension is authorized by the Provost for Academic Affairs. At the completion of each stage of the appeal the student is to be notified of the decision in writing.

Procedures

Stage One: An appeal must be initiated within twenty working days after the grade has been mailed by the Registrar’s Office. The student should petition the instructor in writing, giving salient reasons for the grade appeal. The student should retain a copy of the written appeal for personal records.

Stage Two: If the student is not satisfied after the review by the instructor, the student should consult the Department Chair and submit a copy of the written appeal. The Department Chair will attempt to resolve the grade appeal. The Chair will meet with the instructor and may consult with other persons who have relevant information.

Stage Three: If all efforts to resolve the grade appeal at the Departmental level are unsuccessful, the student may submit the written appeal to the Dean of the appropriate College. The Dean will examine the appeal and other pertinent materials submitted by the student. The Dean will meet with the instructor and may also request from the instructor materials deemed relevant. In an attempt to resolve the grade appeal, the Dean may interview the student, instructor, and others who may have pertinent information. If the Dean determines the need for a review committee to examine the issue the committee shall consist of:

- One faculty member from the Department
- One faculty member from the College, but not from the Department of the instructor
- One faculty member from another College
- Ex Officio: A staff member from Student Affairs recommended by the Provost.

The committee, if appointed, will advise the Dean regarding the grade under appeal. Whether the Dean chooses to appoint a committee or not, the Dean will render a final decision on the grade appeal at the College level.
Stage Four: If all efforts to resolve the grade appeal at the College level are unsuccessful, the student may submit the written appeal to the Provost. The Provost will examine the appeal and other pertinent material submitted by the student. The Provost will meet with the instructor and also may request materials deemed relevant. In an attempt to resolve the grade appeal, the Provost may interview the student, instructor, and others who may have pertinent information.

If a committee was constituted at the College level, then the Provost will review the process, the committee findings, and the decision of the Dean and render a final University decision. If a committee was not appointed at the College level, then the Provost has the option of appointing a review committee which will conform to the composition described in Stage Three.

The committee, if appointed, will advise the Provost regarding the grade under appeal. Whether the Provost chooses to appoint a committee or not, the Provost will render a final University decision.

Grade Point Average
The grade point average is the grade average on all work for which the student is enrolled excluding remedial and institutional credit. It is obtainable by dividing the total number of grade points earned, by the total number of semester hours attempted (GPA hours). The GPA is based only on the coursework done at Georgia Southern University and does not include transfer coursework.

Students will have calculated for them an adjusted GPA as well as the official cumulative grade point average. The cumulative GPA is the average of all grades in college credit courses the student has taken at Georgia Southern. The adjusted GPA is used for determining a student’s academic standing. If a student repeats a course, the last grade in the course counts and only the last grade is calculated in the adjusted GPA. However, students should be aware that all grades earned at Georgia Southern University will appear on the Georgia Southern transcript.

A grade point average is computed for each level (undergraduate, masters, specialist, doctorate) of coursework. For example, a student who has been enrolled as both an undergraduate and as a masters student will have one GPA for all undergraduate coursework and one GPA for masters coursework.

Withdrawal from Course
Official withdrawal from a course after the last day of registration (Schedule Adjustment) must be approved by a designated Georgia Southern University Official. Any student who registers for a course must either complete course requirements or officially withdraw before the predetermined date. An “F” will be assigned to any student who discontinues attending class without officially withdrawing. To withdraw from a course, a student must present an approved drop/add form to the Registrar’s Office prior to the announced date.

Withdrawal From School
Prior to the first day of classes, a student should complete a Pre-registration Voluntary Cancellation Form obtained from and returned to the Registrar’s Office. Any student who wishes to withdraw from school during the term must present an Official Withdrawal Form to room #2034 in the Rosenwald Building. Failure to do so will result in the assignment of failing grades in all courses for which the student registered. Withdrawal is not permitted after the last day of class.

Medical Withdrawals
A student may be administratively withdrawn from the university when it is determined that the student suffers from a physical, mental, emotional or psychological health condition which: (a) poses a significant danger or threat of physical harm to the student or to the person or property of others or (b) causes the student to interfere with the rights of other students or with the exercise of any proper activities or functions of the university or its personnel or (c) causes the student to be unable to meet institutional requirements for admission and continued enrollment, as defined in the Student Conduct Code and other publications of the University.

Except in emergency situations, a student shall, upon request, be accorded an appropriate hearing prior to final decision concerning his or her continued enrollment at the institution.

Medical withdrawals are not permitted after the last day of class.

Petition to Withdraw Without Penalty After Mid-term
In every case in which a student withdraws before the mid-point of the term, a “W” (Withdrawal without penalty) is assigned. No petition is involved. Simply complete the formal withdrawal procedure through the Registrar’s Office. For a student to withdraw without penalty from individual courses after the mid-point of the term, the instructor must certify all four of the conditions below and recommend withdrawal.

1. All work was up-to-date at mid-term.
2. The work was of passing quality at mid-term.
3. Attendance was satisfactory up to mid-term.
4. The factors justifying withdrawal are essentially non-academic and developed after mid-term.

The Department Chair also must recommend withdrawal. After conferring with the instructor and department chair, the student must submit the completed Petition for Withdrawal form to the Dean of his/her college. The Dean will submit the petition to the Registrar’s Office.

Dean’s List
During any term, an undergraduate or post baccalaureate student carrying 12 or more hours and making a term grade point average of 3.5 or higher will be placed on the Dean’s List.

Transcripts
A complete copy of the student’s academic record (transcript) may be obtained by the student presenting a written request to the registrar. Telephone requests will not be honored. Two weeks must be allowed for processing a transcript request. There is no charge for transcript services.
Registration Time Cards
Undergraduate students are admitted to the registration area each term by means of a time card. Times are assigned on the basis of total adjusted cumulative hours earned.

Students who have been admitted to the Graduate School are not required to have a time card. Graduate students may register at any time during scheduled registration hours. Upon entering the registration area, service will be provided on a first come first serve basis.

Transient Students
Georgia Southern University students who wish to take coursework at another institution and receive academic credit at the institution may do so if the following conditions are met:
1. Student is not on academic probation or academic or disciplinary dismissal (exclusion).
2. Student must complete a “Transient Form” (available in the Registrar’s Office) obtaining the approval of his/her advisor and the Registrar.
3. If the student is within the last 30 hours of graduation, the student must also obtain the written approval of his/her dean.
4. Students with learning support requirements must obtain permission from the Learning Support Department Chair.
5. Students may be approved for transient status for only one term at the time.
6. Students must make a “C” or better grade to assure that the course will be accepted in transfer.
7. Students attending another institution as a transient student must request that an official transcript of coursework as a transient be sent to Georgia Southern University.
8. A student who takes his/her last work for a degree as a transient student during any graduation term will not be eligible for graduation that term.
9. A student must make application to the school he/she wishes to attend.

Note: Courses taken as a transient will not be calculated in the grade point average. However, transient work may affect a student's eligibility for graduation with honors.

Academic Policies
A student shall be considered in good academic standing unless he/she has been excluded from the University and not readmitted. A student whose adjusted cumulative GPA falls below 2.0 will be subject to the policies listed below.

Probation
Probation serves as a notice that academic dismissal from the University will follow unless the quality of academic work improves and the terms of probation are satisfied. A student will be placed on probation at the end of any term in which the adjusted cumulative GPA drops below 2.0. Probation status is noted on the student’s transcript.

A student will be allowed to continue on probation a maximum of two successive terms of enrollment as long as he/she maintains a term GPA of 2.0 or better. Probation will be removed at the end of any term in which the adjusted cumulative GPA reaches 2.0. If at the end of two successive terms of enrollment the adjusted cumulative GPA has not reached 2.0, the student will be placed on Restricted Enrollment or Exclusion.

Students who have earned less than 30 hours will be required to comply with the Academic Intervention Policy.

If a student returns to satisfactory status (2.0 or better adjusted cumulative GPA) and later falls below again, the student will again have two successive terms to reach an adjusted cumulative GPA of 2.0 as long as the term GPA is at least 2.0.

Academic Intervention Policy
Any student with fewer than 30 GPA hours at Georgia Southern University and whose adjusted cumulative GPA is 1.5 or below must meet the following conditions: This policy also applies to transfer students.

1. May enroll in no more than 13 hours until the adjusted cumulative GPA is above 1.5. The typical load would be academic courses for 9 - 10 hours, GSU 1120 for 2 hours (see #2 below), and a physical activity course (KINS prefix) for 1 hour.
2. Must enroll in GSU 1120, Methods of Learning, unless the student has completed that course with a C or better. The GSU 1120 course is specifically designed to improve study skills and overall academic performance.

Exceptions to this policy must be approved by the Director of Advisement. In addition to these requirements, students are strongly urged to have regular meetings with their advisors for periodic updates on academic progress, for consultation, and for referral to appropriate support services as needed.

While on academic intervention, a student may preregister for a subsequent term without being subjected to the 13 hour rule.

Restricted Enrollment
Restricted Enrollment only applies to a student who has not had a prior exclusion. Restricted Enrollment will occur in either of the following two conditions:

1. Failure to earn a term GPA of 2.0 or better while on probation or failure to remove probation status after two successive terms of enrollment.
2. When a student is enrolled in 9 or more hours of course work at the 1000 level or above, completes the term, receives grades other than “I” or “W”, fails to earn any credit for that term, and the adjusted cumulative GPA is below 2.0.

A student on restricted enrollment will be subject to probation requirements with the probation counter starting over the first term on restricted enrollment. Therefore, if a student earns a term GPA below 2.0 while on restricted enrollment and the adjusted cumulative GPA is below 2.0, or fails to earn an adjusted cumulative GPA of at least 2.0 within two terms after placement on restricted enrollment, the student will be excluded.

A student placed on restricted enrollment should consider repeating courses in which he/she has earned “D” or “F” grades. The student should meet with his/her academic advisor to discuss ways to regain good standing.
Exclusion
An exclusion is an involuntary separation imposed upon a student who has previously been on Restricted Enrollment and who fails to meet the terms of probation. Exclusion results when a student in this situation either fails to earn a term GPA of at least 2.0 or fails to clear probation by the end of two consecutive terms of enrollment. The purpose of exclusion is to allow the student time to reflect on the jeopardy of his/her academic status. A first exclusion is for one term. The summer term will be treated as any other term, including terms of involuntary separation. Any subsequent exclusion is for one calendar year. A student who is readmitted after an exclusion must enroll under the conditions of probation. Academic exclusion is noted on the student’s transcript. For a student with a previous restricted enrollment, academic exclusion will also result when a student is enrolled in 9 or more hours of coursework at the 1000 level or above, completes the term, receives grades other than “I” or “W”, fails to earn any credit for that term, and the adjusted cumulative GPA is below 2.0.

Learning Support Dismissal
1. A Learning Support student who is placed on dismissal for failure to exit the Learning Support Program will be excluded for one term. After the one term dismissal, the student is eligible for one additional attempt to complete any remaining Learning Support requirements. During that term of attempt, the student may register for only the Learning Support courses needed to complete his/her requirements. Any subsequent failure to complete Learning Support requirements will result in dismissal for one calendar year.
2. Alternately, a Learning Support student who is placed on dismissal for failure to exit Learning Support may apply for readmission as a transfer student after satisfying Learning Support requirements and completing twenty hours of college level work with a minimum GPA of 2.0.

Readmission
A student who has been placed on first academic exclusion may apply for readmission to Georgia Southern University after remaining out for one term. After a subsequent exclusion, a student may apply for readmission after remaining out for one year. A former student application should be completed for the term readmission is desired.

Right of Appeal
In all matters concerning academic standing the student may appeal by writing to the Registrar and clearly stating the basis for an appeal. The appeal will be considered by the Admissions Committee.

A written appeal should be submitted as soon as possible but must be received in the Registrar’s Office prior to 5 p.m. on the first day of classes for the term a student is seeking admission or readmission to Georgia Southern University. Individuals failing to satisfy the deadline may submit their appeal for the following term.

Requirements After Readmission
Following any academic dismissal and a subsequent readmission on probation, academic exclusion results from failure to earn a term grade point average of 2.0 or better, or failure to remove probation by the end of two successive terms of enrollment.

Repeating Courses
A student may repeat any course and the most recent grade becomes the official grade for the course even if the most recent grade is lower. In computing the adjusted GPA, only the most recent grade will be used (the earlier grade will remain on the transcript and in the official cumulative GPA). The adjusted GPA will be used to determine academic standing and graduation GPA requirements.

Attending Other Colleges and Universities
The University cannot request another institution to accept a student during any period of ineligibility at Georgia Southern University. No transfer credit will be awarded for credits earned at another institution during any period of academic or disciplinary ineligibility.

Academic Renewal Policy
The Academic Renewal policy allows students who are enrolled in the University System of Georgia to have a fresh start if they have had academic difficulties in the past. The student must reenroll at the same institution in which he/she experienced the problems and must not have attended any postsecondary institution for at least five calendar years prior to reenrolling.

Former Learning Support (Developmental Studies) students may not apply for Academic Renewal unless they have successfully completed all Learning Support (Developmental Studies) requirements during their previous enrollment.
1. All previously attempted coursework will continue to be recorded on the student’s official transcript. The student’s cumulative grade point average will include all credit courses taken excluding Learning Support courses. Any scholastic suspensions or exclusions that occurred in the past shall remain recorded on the student’s permanent record.
1.1 Students must apply for Academic Renewal, and Academic Renewal shall be granted upon application by the student. A student can be granted Academic Renewal status only once. Students should contact the Office of the Registrar to apply for Academic Renewal.
1.2 An Academic Renewal Grade Point Average is begun when the student resumes taking coursework following the five-year period of absence. A statement will be placed on the student’s transcript indicating the Academic Renewal status.
1.3 The Academic Renewal GPA will be used for determining academic standing and eligibility for graduation. Eligibility for graduation with honors will be based on an overall grade point average as defined in the policies for determining graduation with honors.
1.4 Academic credit for previously completed coursework—including transfer coursework—will be retained only for courses in which an “A”, “B”, “C”, or “S” grade has been earned. Retained grades are not calculated in the Academic Renewal GPA but are counted in the Academic Renewal Hours Earned.
1.5 Retained hours earned prior to Academic Renewal may be used to satisfy Georgia Southern’s residency requirement.
2. If a student does not request Academic Renewal status at the time of re-enrollment after a five year or greater period of absence from any postsecondary institution, the student may do so within three academic terms of re-enrollment or within one calendar year, whichever comes first.
2.1 The Academic Renewal GPA begins with the first term following re-enrollment.
3. Reenrollment into any program is not automatic.
4. The granting of Academic Renewal does not supersede financial aid policies regarding Satisfactory Academic Progress.
5. The granting of Academic Renewal at Georgia Southern University will not supersede the admissions requirements of certain programs, e.g., teacher education, nursing, which require a specific minimum grade point average based upon all coursework.
6. United States and Georgia History and Constitution requirements met prior to the granting of Academic Renewal will remain on the student’s permanent record even though the courses may not count in the Academic Renewal GPA. Also, Regents’ Test scores prior to Academic Renewal will remain on the student’s record. Georgia Southern University will count all hours earned prior to Academic Renewal in regards to Regents’ Test, College Preparatory Curriculum, and other Board of Regents’ Policy requirements.
7. **Note for Students Granted Academic Renewal:** The granting of academic renewal at Georgia Southern University will not supersede the admission requirements to graduate programs as set by the departments and the College of Graduate Studies.

### Degree Requirements

**Regents’ Testing Program**

The Regents’ Test is an examination that assesses the competency level in reading and writing of those students enrolled in undergraduate degree programs in University System institutions. The following statement is policy of the Board of Regents of the University System of Georgia:

Each institution of the University System of Georgia will ensure the other institutions and the system as a whole that students obtaining a degree from the institution possess literacy competence.

The Regents’ Testing Program has been developed to attain this goal. The objectives of the Testing Program are:

1. to provide system wide information on the status of student competence in the areas of reading and writing; and
2. to provide a uniform means of identifying those students who fail to reach the minimum levels of competence in these areas.

A student must pass all components of the test by scoring above the cutoff score specified for each component. The test may be administered either in its entirety or as one or more components depending on the student’s needs. If one component of the test is passed, that component shouldn’t be retaken; this provision is open to all students who have taken the test in any form since the beginning of the program.

A student holding a baccalaureate or higher degree from a regionally accredited institution of higher education will not be required to complete the Regents’ Test in order to receive a degree from a University System institution.

**When to Take the Test:**

1. Must take it after having earned 30 semester hours of degree credit. Students who do not pass the test(s) must continue taking the test(s) each term until each is passed.
2. Although it is recommended that a student take the exam during the term enrolled in ENGL 1102 or after the completion of this course, it may be taken at anytime.

**Who Shall Take the Test:**

1. All regularly enrolled undergraduate students of Georgia Southern University.
2. Students whose native language is not English will take the test, but will be tested separately under the guidelines of the International Students’ policies.
3. Disabled students will take the test under provisions approved by the Exceptions Committee (see guidelines below).

**When to Take a Review Course:**

1. Must take a review or remedial course(s) if the student has earned 45 semester hours of degree credit until both portions of the test have been passed.

**Transfer Students**

Students with 30 or more semester credit hours transferring from outside of the System or from a System program that does not require the Regents’ Test should take the test during their first semester of enrollment in a program leading to the baccalaureate degree. Those who have not passed before their third semester of enrollment are subject to the remediation requirement.

**Regents’ Remedial Courses**

Each course carries two hours of institutional credit and will be considered a part of the student’s academic load. The student may register for only 18 hours or less of degree credit including the review courses.

**READING:** RGTR 0198 - This course will meet for six hours per week for the five weeks immediately preceding the Regents’ Test date. Schedule may vary with the term.

**ESSAY:** RGTE 0199 - This course will meet twice a week (two hours per class) for eight weeks immediately preceding the Regents’ Test date. Schedule may vary with the term.

**Exceptions:**

1. Students will not be allowed to take the test when they are in violation of policies.
2. International students will be subject to the policies approved by the Faculty Senate. Exceptions to these policies will be dealt with by the Exceptions Committee.

Students who fail to meet the above requirements will be subject to this action: A student required to take review courses who does not meet the attendance requirements of the course will not be allowed to take the Regents’ Test during the term in which the student is enrolled. Students who are required to enroll in review courses for the Regents’ Test and do not register for them before the first class meeting are in violation of Regents’ and Institution’s policy. Such students will be administratively withdrawn from the University.

**Campus Review Procedure:**

1. A student may request a formal review of his/her failure on the essay component of the test if that student’s essay received at least one passing score among the three scores awarded and if the student has passed ENGL 1101 and 1102.
2. The review procedure is as follows:
   a. The student gives a written request to the Director of Testing.
   b. The request must be received no later than one week after late registration the following term.
c. The Director of Testing will verify the validity of the review request and will notify the Chair of the Writing and Linguistics Department. He will appoint three members of the English faculty to review the essay. Action of the Writing and Linguistics Department Review Committee will be final. The review must be completed within one week of the request by the Department Chair.
d. The Chair of the Writing and Linguistics Department will send the results of the committee’s findings to the Director of Testing, who will inform the student of the results.
e. If the committee’s findings support the student, the Director of Testing will send the appeal to the Board of Regents’ office for action.
3. The results of the review by the Board of Regents Testing Office will be final. The student will be notified through the institution of the results. Action on the appeal is generally taken after mid-term and after the next administration of the Regents’ Test.

Degree Requirements on United States and Georgia History and Constitution
Georgia law requires that each candidate for a degree or certificate demonstrate a knowledge of the history and constitution of the Unites States and Georgia. These requirements may be met by passing examinations offered each term or by receiving a passing grade in certain courses.

The courses and the requirement(s) each course satisfies are as follows:
POLS 1101 satisfies Georgia Constitution and U.S. Constitution
HIST 2110 satisfies Georgia History and U.S. History
POLS 2201 satisfies Georgia Constitution
HIST 4130 satisfies Georgia Constitution and Georgia History.

The requirements are satisfied by completing Georgia Southern University’s Core Curriculum. Equivalent courses taken at other institutions may not meet these requirements. Therefore, students who transfer courses from other colleges should have their transcripts evaluated by the Registrar at Georgia Southern University no later than the beginning of the senior year to see if these courses satisfy the requirements.

Students taking College Level Examination Program tests or Advanced Placement Program tests for POLS 1101 or HIST 2110 should be aware that credit for these exams will satisfy only the U.S. components of the History and/or Constitution requirements.

Foreign Language Requirements
1. Requirements for Students Not Subject to CPC-High School Graduation Before Spring 1988
Students graduating from high school before Spring 1988 are not subject to CPC. These students may count the foreign language toward graduation even though they may have completed these levels of the same language in high school.

2. Requirements for Students Subject to CPC-High School Graduation Spring 1988 and After
Students graduating from high school Spring 1988 and after are subject to CPC. These students are required to complete two years of the same foreign language in high school to satisfy CPC requirements. These students may not count toward college graduation the first course (FL 1001) of the same foreign language taken in high school. Therefore, students may not get “duplicate” credit by repeating the first course of a language they took in high school.

Students who received GED’s Spring 1988 and after are subject to CPC. These students must meet the same CPC requirements as a student who graduated from high school Spring 1988 and after.

Students who graduate from high schools outside the United States are not subject to the CPC requirements.

Students whose native language is not English and have graduated from a high school in the U.S. and who have not satisfied CPC in high school may take a proficiency exam in their native language and satisfy their CPC requirement if they are proficient at the Elementary II (1002) level of their language.

II. Foreign Language Degree Requirements
A. BA Degree Requirements in Foreign Languages
BA degree students must complete through FORL 2002 (Intermediate II) course or its equivalent. Equivalence may be demonstrated by 1) secondary school background showing four (4) years or more of preparation in a single language; 2) taking and passing a placement test which grants credit through the FORL 2002 course; or 3) written certification by the Department of Foreign Languages that the student’s residence abroad, family background, or other non-academic circumstance has provided the equivalent of Intermediate II proficiency.

Students who continue the language which they began in high school may do one of the following:
1) enroll in FORL 2001 (Intermediate I) and complete the foreign language sequence through FORL 2002 (Intermediate II). Students who are admitted with three or more years of preparation in a single language may want to seek higher placement through testing or advisement.
2) take a placement test for credit for FORL 2001 (Intermediate I) and/or FORL 2002 (Intermediate II). Students who receive credit for FORL 2001 but not FORL 2002 may then enroll in FORL 2002.
3) enroll in one or more Elementary foreign language courses (FORL 1001/1002) as well as the two Intermediate level courses (FORL 2001/2002). Students will not receive credit toward graduation for the FORL 1001 course of the language which they used for admission. Students of French and Spanish should enroll in the 5-credit Accelerated French or Spanish courses (FREN 1050 or SPAN 1050) instead of in FREN or SPAN 1001/1002. The Accelerated Elementary courses count toward graduation.

BA degree students who choose to start a DIFFERENT language from the one used for admission take all four basic sequence courses (FORL 1001, FORL 1002, FORL 2001, FORL 2002). All count toward graduation.

B. BS Degree Requirements in Foreign Languages
BS degree students whose programs specify a foreign language or allow for the option of a foreign language must complete through the FORL 2001 (Intermediate I) course or equivalent. Equivalence may be demonstrated by 1) secondary school background showing three (3) years or more of preparation in a single language; 2) taking and passing a placement test which grants credit through the FORL 2001 course; or 3) written certification by the Department of Foreign Languages that the student’s residence abroad, family background, or other non-academic circumstance has provided the equivalent of Intermediate I proficiency.

Students who continue the language which they began in high school may do one of the following:
1) complete coursework through FORL 2001 (Intermediate I).
2) take a placement test for credit for FORL 2001 (Intermediate I). Students who are admitted with three or more years of preparation in a single language may want to seek credit for FORL 2001 or higher placement through testing or advisement.

3) enroll in one or more Elementary foreign language courses (FORL 1001/FORL 1002) as well as the Intermediate level course (FORL 2001). Students will not receive credit toward graduation for the FORL 1001 course of the language which they used for admission. Students of French and Spanish should enroll in the 5-credit Accelerated French or Spanish courses (FREN 1050 or SPAN 1050) rather than in FREN or SPAN 1001/1002. The Accelerated Elementary courses count toward graduation.

BS degree students who choose to start a DIFFERENT language from the one used for admission take all three basic sequence courses (FORL 1001, FORL 1002, FORL 2001). All count toward graduation.

Graduation Requirements

Subject to the limitations and qualifications stated elsewhere in this catalog, the requirements for the baccalaureate degree are as follows:

• Students should have their programs of study checked with their advisors at least three terms before anticipated completion of degree and submit an Application for Graduation. An Application for Graduation must be submitted no later than the last day of official registration (as stated in the official University Calendar) during the term before completing academic requirements.

• The graduation fee must be paid and all other financial obligations or "holds" must be satisfied or removed before a student is cleared for graduation.

• Students must earn at least 30 percent of their degree requirements in residence at Georgia Southern University. The last 30 semester hours of work must be earned at Georgia Southern University.

• For the B.A. degree, a maximum of 30 semester hours of upper division coursework in the major may be allowed to count toward the minimum of 126 hours required for graduation.

• For the B.S. degree, a maximum of 40 semester hours of upper division coursework in the major may be allowed to count toward the minimum of 126 hours required for graduation.

• At least half of the courses required in the major must be taken at Georgia Southern University.

• At least nine semester hours of the fifteen required in the minor must be taken at Georgia Southern University.

• At least twelve semester hours of the eighteen required in the concentration must be taken at Georgia Southern University.

• A maximum of three semester hours may be taken under the S/U grading system within any minor.

• The adjusted cumulative GPA of all courses (at least 126 semester hours) applying to the degree must be 2.0.

• Students seeking a second major within the same degree program must complete the specific requirements for both majors. An application for the second major must be submitted to the Registrar’s Office. Both majors will be noted on the transcript.

• A student cannot graduate immediately following the term he/she is in attendance as a transient student at another institution unless an official transcript of transient credit is received by the Registrar prior to graduation. This policy also applies to courses taken by correspondence or extension.

• A student must fulfill all major, minor and specific requirements prescribed for the degree and satisfy the legal requirements with regard to evidence of an understanding of the History and Constitutions of Georgia and of the United States.

• A student must pass the Regents’ Test as required by the University System of Georgia. (See Regents’ Testing Program) Satisfactory scores will be evidence of competence and shall satisfy the requirement. This is a requirement for graduation.

• All students will be required to complete any current requirements beyond the catalog, such as legislative, certification and Board of Regents requirements.

• Students typically satisfy the requirements for graduation listed in the catalog when they initially enroll at Georgia Southern University. With the approval of their advisor, students enrolled Fall 1998 and after may elect to satisfy the graduation requirements specified in any of the catalogs in effect while they are enrolled. Any exception requires the approval of the advisor, department chair, and dean.

• For students enrolled Fall 1998 and after, a change of major does not constitute a change of catalog. A student may change to the current catalog at any time if approved by the advisor.

• Advisors may recommend course substitutions when deemed necessary by submitting the request for approval to their department head. The substitution is then submitted to the Registrar who will review each request in accordance with the Board of Regents and institutional policies.

• For non-music majors not more than six semester hours in performing groups (MUSE) and applied music courses (MUSA) may apply toward satisfying the minimum of 126 semester hours required for the degree.

• For students whose initial enrollment is Fall 1998 and after, GSU 1120 may not apply to the degree.

• Students may take ENPR 1220 repeatedly for credit, but only two credit hours may be applied to graduation.

• Credit for Military Science (MSCI) Courses will appear on the student’s record. Four of these credit hours, either transfer or resident, may be applied toward the 126 hours required for a degree provided it meets with the approval of the appropriate advisor and department.

• Students must complete ENGL 1101 and 1102 with a minimum grade of “C”. ENGL 1101 must be completed with a minimum grade of “C” before the student may enroll in ENGL 1102.
**Second Degrees**

A graduate of any program may receive the baccalaureate degree of any other program by completing all the additional studies required in the second baccalaureate degree. The minimum resident requirement is 30 per cent of the degree requirements being taken at Georgia Southern University. Students may not earn the same degree a second time at Georgia Southern University.

**Graduation With Honors**

Honors are computed in the Registrar’s Office and all questions concerning honors should be directed to that office. There are three sets of criteria in effect, and the set that applies is determined by the student's matriculation date. Only baccalaureate degree candidates are eligible to graduate with honors. Students seeking graduate degrees are not eligible for graduation with honors. The following requirements must be met:

1. At least 60 hours of credit must be earned at Georgia Southern University.
2. At least 50 hours of credit must be earned in regularly scheduled academic courses in which “A”, “B”, “C”, “D”, or “F” grades are assigned.
3. The first GPA criterion is that the minimum average for a particular level of honors must be earned on all undergraduate coursework taken at Georgia Southern University.
4. The second GPA criterion is that the minimum average for a particular level of honors must be earned on all undergraduate coursework attempted at all institutions attended.
5. In applying the two GPA criteria, the lower GPA will be used to assess the level of honors, if any.
6. The honors assigned and the scholastic records are:
   - Cum Laude: 3.5 - 3.6
   - Magna Cum Laude: 3.7 - 3.8
   - Summa Cum Laude: 3.9 - 4.0
7. Spring term grades for May Graduation, Summer term grades for August Graduation, and Fall term grades for December Graduation will not be used in computing the GPA for honors prior to graduation. (Credit hours earned in the last terms apply toward the 60 hour minimum.) After May, August and December graduations, the GPA is rechecked for honors, which may be added if qualified.
8. **HONS FOR SUBSEQUENT BACCALAUREATE DEGREES:** In addition to the foregoing, a third GPA criterion applies to students earning subsequent undergraduate degrees. The student must earn the minimum average for a particular level of honors on all coursework taken between the most recent undergraduate degree and the current degree. The lowest of the three GPA calculations will be applied to assess the level of honors, if any.

**Honors Day - Academic Awards**

Each year in April the University honors outstanding students from all disciplines and areas of college life. The Honors Day Convocation highlights outstanding awards such as the Alumni Association Scholarship Award, Excellent Scholarship, selection to the Honor Society of Phi Kappa Phi and other honor societies, Who’s Who Among Students in American Universities and Colleges, and Constructive Leadership/Unselfish Service. In addition, other students receive special awards from departments and divisions of the college or from business organizations.

To be honored for Excellent Scholarship, the student must have earned at Georgia Southern University a cumulative GPA of 3.5 or better. The student must have completed at least 15 semester hours of resident degree credit at Georgia Southern University. This group will include currently enrolled students, those who have completed requirements for the upcoming graduation, and baccalaureate students working toward a second degree.

**Election to membership in the national Honor Society of Phi Kappa Phi**

Will be made on the basis of the following criteria:

1. A GPA of 3.5 or above with senior classification; 3.7 or above with junior classification.
2. Sound character.
3. Enrollment at GSU for at least one year.
4. Juniors elected may not exceed one percent of candidates for graduation that year.
5. Seniors elected may not exceed ten percent of candidates for graduation that year.
6. Graduate elected may not exceed ten percent of students receiving graduate degrees that year.

Selections for Who’s Who Among Students in American Universities and Colleges will be made on the basis of the following criteria:

1. A cumulative GPA of 2.8 or above.
2. Campus and/or community leadership.
3. Campus and/or community service.
4. Junior or senior classification.

Any member of the faculty, staff, or student body may nominate candidates for Who’s Who Among Students in American Universities and Colleges. Final selections will be made by the Honors Committee from these nominations. These awards will be presented on stage.

**Selections for Leadership/Service awards**

Will be made on the basis of the following criteria:

1. A cumulative GPA of 2.5 or above.
2. Must not have been selected for Who’s Who.
3. Number selected cannot exceed the Who’s Who allotment.
4. Points system used in the Who’s Who criteria will be used for Leadership and Service.
5. Honors Committee will make final selections.
6. Awards will be made on stage.

**Selections for Special Awards**

Will be made by the various organizations and departments in keeping with established criteria. Any organization wishing to present a new award should make application through the Honors Committee.

Georgia Southern University offers or will endeavor to offer Co-Operative Education Programs in most areas of study excluding majors in Nursing and those within the College of Education. Please contact career Services for more detailed information.
University Programs & Courses

Bachelor of General Studies
Degree (B.G.S.)

The Bachelor of General Studies program provides opportunities for non-traditional college students who are interested in combining a liberal arts background with some degree of specialization. It offers a solid core curriculum program along with the freedom to choose from a wide range of concentrations.

While the General Studies degree allows for study in several areas, it is organized to provide an academically sound program with carefully planned concentrations. The student who earns this degree will have achieved a broad-based education that meets high standards of learning.

The program is administered by the Academic Advisement Center.

Requirements
The degree requires fulfillment of the core curriculum (Areas A, B, C, D and E) including the requirements for health and kinesiology.

Area F
Foreign Language .................................................. 6 hours
Social or Natural Science ..................................... 3 hours
Fine Arts .......................................................... 3 hours
Computer Literacy .............................................. 3 hours
Interdisciplinary Study ........................................ 3 hours
Total ..................................................................... 18 hours

The General Studies Degree requires students to complete three areas of concentration, which they may select from a wide range of offerings. Two concentrations must consist of 18 semester hours and one may be 15 semester hours.

The General Studies Degree requires students to complete three areas of concentration, which they may select from a wide range of offerings. Two concentrations must consist of 18 semester hours and one may be 15 semester hours.

The three concentrations add up to a total of 51 semester hours. Nine of these hours may be at the lower division (1000-2000) level, but 42 of the hours must be at the upper division (3000 or above) level.

The remaining nine hours to meet the required 126 total hours will be electives approved by the advisor. The following concentration areas are available:

African and African-American Studies

AAST 3230 - Introduction to Africa and Its Diaspora and five other courses, with at least one each from the humanities and the social sciences. A list of approved courses is available from the Center for African and African-American Studies.

American Studies

AMST 3033 - Introduction to American Studies, AMST 4033 - Seminar in American Studies, and three or four cross-listed American Studies elective courses from two different disciplines.

Asian Studies

Students will complete a required course INTS 3130 - Contemporary World Cultures, and select an additional fifteen (15) hours of Asian courses in at least three disciplines from the following approved list for a total of eighteen (18) semester hours. Although not required, course work in an Asian language is strongly recommended.

ANTH 4335 - Cultural Anthropology and International Business
ANTH 4435 - Peoples and Cultures of the Middle East
ART 3438 - Art of Asia
JAPN 3331 - Japanese Culture for America
HIST/INTS 3532 - The Modern Middle East
HIST/INTS 3533 - Modern South Asia: India, Pakistan, and Bangladesh
HIST/INTS 3534 - Modern Southeast Asia
HIST/INTS 3535 - Islamic Civilization
HIST/INTS 5531 - Modern Japan
HIST/INTS 5532 - Modern China
HIST/INTS 5533 - Economic Rivals - United States, European Community, Japan

POLS 3134 - Politics of the Middle East

Business

The courses required for the business concentration should be selected in consultation with a faculty advisor to provide a representative understanding of the basics of business. Courses will include ACCT 2030 - Survey of Accounting and at least four three-semester hour courses selected from the following: BUSA 2106 - The Environment of Business or any 3000 or 4000 level business course for which prerequisites have been satisfied.

Culture and Society

Prerequisites: ANTH 1102 and SOCI 1101. Of the 15-18 hours required for this interdisciplinary concentration, no more than three courses (9 hours) may be taken from one discipline.

ANTH 3131 - World Archaeology
ANTH 3331 - Cultural Anthropology
ANTH/COMM/WRIT 5530 - Sociolinguistics
ANTH 4333 - Comparative Social Organization
SOCI 3335 - Social Change
SOCI 3337 - Urban Sociology
SOCI 4334 - Organizations
SOCI 4335 - Self and Society
SOCI 4431 - Inequality
SOCI 5132 - Sociology of Community
SOCI 5133 - Sociology of Religion
SOCI 5138 - Sociology of the Family

Education

The Pre-Professional Block (6 hours) plus 9-12 upper division hours concentrated in a B.S. in Education program approved by the Education concentration advisor or from a pre-approved list in the Academic Advisement Center. (Note: Admission into the Teacher Education Program is required.)

Industrial Management

Scheduling of the following courses must be approved in advance by the coordinator of the Industrial Management program.

TMFG 3131 - Industrial Processes and Materials
TMFG 3231 - Intro to Industrial Management
TMFG 3232 - Applied Industrial Statistics and Quality Assurance
TMFG 5230 - International Manufacturing
TMFG 5234 - Industrial Supervision
TSEC 5331 - Human Resource Protection
International Studies
INTS 3130 - Contemporary World Cultures, INTS 3230 - Global Issues, and an additional twelve (12) semester hours of upper-division courses with significant international dimension from three different disciplines must be completed for a total of eighteen (18) semester hours. The three additional twelve (12) elective course hours must be selected from the list of courses approved by the International Studies Curriculum Committee. Copies of the list of approved courses are available at the Center for International Studies.

Latin American Studies
INTS 3130 - Contemporary World Cultures, LAST 4890 - Seminar in Latin American Studies, and an additional twelve (12) semester hours of courses with significant Latin American dimension in at least two disciplines other than the major must be completed for a total of 18 semester hours. Courses may be selected from the list below of courses approved for the concentration. Other courses must be approved by the director of the Latin American Studies Concentration.

GEOG/LAST 4232 - Geography of Latin America
HIST/INTS/LAST 3537 - Colonial Latin America
HIST/INTS/LAST 5330 - Modern Spain and Portugal
HIST/INTS/LAST 3538 - Modern Latin America
POLIS/LAST 3133 - Latin American Politics
SPAN/LAST 3331 - Latin American Civilization
SPAN/LAST 4231 - Intro to Spanish American Literature
LAST 3090 - Selected Topics in Latin American Studies

Linguistics
FORL 3533 - Introduction to Language and five other language and linguistics courses. A list of approved courses is available from the Department of Writing and Linguistics.

Printing Management
The Printing Management Concentration requires each of the following courses and upper level electives, as necessary, approved by the Printing Management Concentration advisor:

TCPM 1131 - Introduction to Printing Technology
TCPM 1321 - Desktop Publishing
TCPM 1411 - Desktop Publishing Lab
TCPM 2132 - Image Preparation I
TCPM 2212 - Image Preparation Lab
TCPM 2333 - Image Preparation II
TCPM 2413 - Image Preparation II Lab
Approved PM electives

Religious Studies
RELS 4890 - Seminar in Religious Studies and five courses including RELS 2130 - Introduction to Religion from at least three different disciplines, selected from the following and approved by the Religious Studies Committee:

PHIL 3331 - Great Moral Philosophers
PHIL/RELS 3131 - World Religions
PHIL/RELS 4632 - Philosophy of Religion
PSYC 3231 - Psychology of Religion
HIST/RELS 3139 - Introduction to the History of Religion in the United States
HIST/RELS 4331 - Heresy and Dissent in Western Religious History
HIST 5332 - The Age of Reformation
HIST/RELS 5334 - Major Themes in Western Religious History
SOCI/RELS 5133 - Sociology of Religion
ENGL 4530 - The Bible as Literature
HIST 4336 - Science and Religion
HIST 4330 - The Early Church

Southern Studies
Within the 15-18 hours required for this interdisciplinary concentration, students may select no more than two courses (6 hours) in any discipline.

ANTH 4132 - Archaeology of the Southeastern United States
ANTH 5133 - Georgia Archaeology
ANTH 5432 - Indians of the Southeastern U.S.
ANTH 5435 - The Rural South
ENGL 5234 - Southern Literature
GEOG 4131 - Geography of the South
HIST 3130 - African American History to 1877
HIST 3131 - African American History since 1877
HIST 4130 - Georgia History
HIST 5134 - Civil War and Reconstruction
HIST 5137 - The Antebellum South
HIST 5138 - The New South
POLIS 2201 - State and Local Government
POLIS 3237 - African American Politics
SOCI 4333 - Race and Ethnicity
SOCI 5133 - Sociology of Religion
SOCI 5435 - The Rural South

Women's and Gender Studies
WGST 3230 - Introduction to Women's and Gender Studies and four to five courses selected from the following or others approved by the Women’s and Gender Studies Committee:

COMM/WGST 4331 - Women and Media
SPCM 3333 - Communication and Gender
ENGL/AAST 4539 - Literature by Women
HIST/AMST/WGST 3137 - History of Women in the U.S.
HIST/WGST 3433 - Women in Modern Europe
HIST 4332 - “Women Question” in Europe
LATN/WGST 3330 - Roman Women
PHIL/WGST 4130 - Feminist Philosophy
POLIS 3235 - Gender and Politics
PSYC 3232 - Psychology of Gender
SOCI/WGST 4332 - Sociology of Gender
WGST 4790 - Special Problems in Women’s and Gender Studies

Individual Emphasis
Student must submit a proposed plan including justification of the plan. The plan must be presented to the Bachelor of General Studies advisor and appropriate department chairs for approval. If the plan is acceptable, all involved must sign the plan indicating approval.

Emphasis must comprise 15-18 hours of upper level courses. Prerequisites and lower level courses will not count in the 15-18 hours.

Enrichment Program
F. Richter, Director (681-5803)
Georgia Southern University regularly provides a generous range of culturally enriching extra classroom activities, including films, lectures, symposia, music concerts, dance, opera and theatre performances, art and museum exhibits, historical and aesthetic tours and field trips. Fundamentally interdisciplinary and drawing on these resources, the Enrichment Program is structured around a prepared schedule of weekly extra classroom events selected from among those offered on campus. Classes meet two hours per week. Two hours credit. No prerequisites.

Enrichment Program Curriculum
ENPR 1220 - Enrichment Program
A combined activity/seminar course designed to engage students in a broad range of extra classroom intellectual, cultural, and aesthetic events as a regular part of their educational experience. Students may take the course repeatedly, but a maximum of two credit hours may be applied to the 126 minimum for graduation.
The University Honors Program

The Georgia Southern University Honors Program encourages superior students to explore a course of study designed for greater depth. The Program creates a learning environment of small classes enriched by inventive, interdisciplinary instruction and extracurricular experiences that connect classroom learning with the larger world. It also happens at a campus which prides a tradition of teaching as our paramount priority.

Every academic class you take at Georgia Southern University will be taught by a professor -- not a graduate student. Your Honors program classes will be taught by professors who thrive on the challenge of leading adventurous learners to new horizons of discovery and growth.

Benefits of Membership: Georgia Southern University values the intellectual exhilaration exceptional students bring to the academic environment. Every new freshman admitted to our Honors Program in Fall 1998 will be awarded a $500 scholarship in addition to any other aid, such as the HOPE Grant.

As a member of the Honors Program, you will benefit from these special opportunities:

- Seal on your diploma, signifying completion of the Honors Program.
- An Honors advisor/advocate attentive to Honors students' needs.
- Honors-oriented freshman-to-senior-year mentoring.
- Priority for "quiet" wings in campus residence halls.
- Eligibility to apply for scholarships for study abroad.
- A book loan program covers most core Honors courses.
- An Honors Center with a study lounge and meeting rooms.
- Leadership Training.
- Independent Study.
- Special events, such as guest speakers, musical programs, and socials.
- "Backstage" access to selected speakers and performers.

Graduate Options Lead to Graduation Honors. The Georgia Southern Honors Program is divided into three levels leading to graduation with Honors:

The Core Curriculum Honors Program for freshmen and sophomores requires one honors course in the core curriculum per semester and 50 hours of community service each year.

The College Honors Program for juniors and seniors includes at least nine semester hours of course work and seminars, plus a well-defined capstone experience (thesis, performance, project, or exhibit).

University Honors are awarded to students who complete both the Core Curriculum Honors and College Honors requirements. Graduates are recognized for their achievement by an Honors seal on their diplomas and notation on their University transcripts.

To Qualify for admission to the University Honors Program

General criteria for admission to the University Honors Program requires a minimum score of 1150 on the SAT, or equivalent score on the ACT and a high school academic or college grade point average of 3.5. Exceptions may be made for students who demonstrate special abilities, talents, or achievements.

The Orell Bernard Bell and Sue Louise Floyd Bell Honors Program

The Bell Honors Program offers a challenging and innovative interdisciplinary alternative core curriculum for the exceptionally able, creative, and motivated student.

The program provides a context in which such students can make full use of their abilities in intellectually stimulating courses which nurture originality, critical thinking, and a genuine love of learning. The program curriculum meets general education requirements, providing Bell Honors Program Scholars well prepared entry into any major program or specialization available at Georgia Southern University.

The Bell Honors Program features small classes with high faculty to student ratios. The approach is interdisciplinary; classes are taught by two or more professors from a variety of academic disciplines. Classes are informal, emphasizing discussion and independent endeavor. These characteristics are particularly prominent in the Freshman and Sophomore Honors Seminars, meeting weekly for discussion of problems oriented reading. The Honors Colloquia, taken during the junior and senior years, provide continuity of the atmosphere of the seminars while students are involved in their major programs of study.

The Bell Honors Program is governed by an Honors Council composed of ten faculty members, representing all colleges of the university, and two Bell Honors Program Scholars, elected annually by their peers in the program. Selection to the program is in the hands of this body.

Each year in the spring a maximum of eighteen new Bell Honors Program Scholars are selected from among applicants who are completing their senior high school year and who will enter Georgia Southern University as new freshmen in the ensuing fall semester. High school seniors with outstanding scores on the SAT or ACT and exemplary high school academic records are invited to apply for admission, but these are not the absolute nor the only criteria of selection. Other evidence of unusual academic promise and creativity will receive full and careful consideration. A personal interview with the Honors Council is the final stage of selection. High school juniors considering early enrollment in college may also apply, but particularly strong credentials are expected of such applicants. All students admitted to the Bell Honors Program receive scholarships covering the costs of tuition, including out-of-state fees for students who are not residents of Georgia.

Prospective students seeking additional information on the Bell Honors Program or wishing to apply for admission to the program should contact: Professor Hew Joiner, Director, The Bell Honors Program, PO Box 8036, Georgia Southern University, Statesboro, GA 30460-8036, (912) 681-5773.

Except in highly unusual circumstances, no applications can be accepted later than March 1.

For an application and information about the Honors Program, qualifications for admission, and your own eligibility, contact the Honors Program Office at (912) 681-5385.
The Bell Honors Program Curriculum

BHON 1101—Seeing and Writing I
Seeing and Writing I provides in-depth study in the techniques of good writing and of critical thinking, with exposure to various ways of seeing the world and one's relation to it through intensive readings in the humanities. Students will write essays; read novels, stories, poetry, and non-fiction prose; and see and analyze within established course contexts serious motion pictures. Interdisciplinary and team-taught.

BHON 1102—Seeing and Writing II
Seeing and Writing II emphasizes refining the skills in writing, critical thinking, and reading acquired in Seeing and Writing I. In addition to writing essays, students will write a longer course paper, synthesizing materials of both courses, in which they will apply, interactively, important personal concerns and interests and nurture basic research skills. Interdisciplinary and team-taught.

BHON 1110—Freshman Seminar I
The freshman BHP Seminars are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 1111—Freshman Seminar II
The freshman BHP seminars are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 1131—Human Dawn
A study of the development of world cultures from human origins throughout the era of Tamerlane, Dante, and the cresting of Ottoman power in the Middle East. The role of economics in the development of social and political institutions is a central emphasis. Interdisciplinary and team-taught.

BHON 1132—Genesis Modern Societies
A study of the evolution of world cultures from the high Renaissance in the west, the Ming period in China, and the cresting of the Incan Empire, via the Protestant Reformation and the age of explorations, the Mughal Empire of India, the scientific revolution and the Enlightenment, through the American and French revolutions to the era of Napoleon, the Tokugawa Shogunate in Japan, and the independence movements in South America. The role of economics in the development of social and political institutions is a central emphasis. The development of U.S. government and the Constitution, and the history of Georgia are also focal themes. Interdisciplinary and team-taught.

BHON 1441—Essential Skills in Math
Essential Skills in Mathematics imparts the content of the first calculus course, with additional content determined by the instructor, but to include probability and matrices, systems of equations, and number theory. Three lecture hours and one computer laboratory hour per week. BHP Scholars entering with exceptionally strong backgrounds in calculus, demonstrated by AP scores and/or Post-Secondary Option college work, would, when appropriate, be permitted to take Calculus II or a higher level course in lieu of this course; this would not normally be advised.

BHON 2111—Sophomore Seminar I
The sophomore BHP Seminars are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 2133—Foundations of the Contemporary World
A study of world cultures of the nineteenth and twentieth centuries, down to the present. Central attention is given to the role of economics and its influence on the development of social and political institutions. The institutions of American government, the U.S. Constitution, and the History and Constitution of Georgia are also focal themes. Interdisciplinary and team taught, with a political scientist as one member of the team.

BHON 2134—The Shape of Things to Come
A capstone and conclusion to BHP courses in all areas. An interdisciplinary and team-taught exploration of the best thinking on projected future developments of world issues and world cultures. The central theme is the role of economics, applying micro- and macro-economic methods, and its influence on shaping the future. A broad spectrum of other topics—art, music, and contemporary art, music, and contemporary thought through world political issues to business and law are considered in their relation to economic forces and institutions. Employs extensive use of guest professors, to provide a wide variety of perspectives on the future. Includes an economist as one member of the core teaching team.

BHON 2210—Turning Points and Connections
A special BHP section, focusing on the connections between major turning points in history and their effects on life, as seen in art, music, philosophy, literature, politics, science, economics, and cultural outlook. Serves as BHP seminar in spring semester of the sophomore year.

BHON 2230—Ideas & the Arts
An interdisciplinary and team taught introduction to philosophy and the fine arts and their interrelationships.

BHON 2241—Science & Contemporary World Issues
Explores contemporary issues and controversies in the sciences and the role of science and scientists in issues facing the world of today. A study of environmental issues is central. Continuing attention is paid to applications of mathematics. Includes a laboratory component, with laboratory content appropriate to the disciplines of faculty teaching the course. Interdisciplinary and team taught.

BHON 3110—Junior Colloquium I
The junior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 3111—Junior Colloquium II
The Junior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 4110—Senior Colloquium I
The Senior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 4111—Senior Colloquium II
The Senior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.
International Studies Abroad

Studying abroad enables students to increase knowledge of a foreign language, provides the opportunity to gain insights into and appreciation for the cultures and institutions of other peoples, facilitates the development of relevant career skills, and contributes to personal maturity, a sense of independence, self-knowledge, and confidence.

Georgia Southern offers study abroad programs in a variety of disciplines. Each program is administered by the Dean of the appropriate College and coordinated by the Center for International Studies. Current programs include:

**Georgia Southern at Oxford.** Departments of History, Early Childhood Education & Reading, and Middle Grades & Secondary Education

**German Studies in Erlangen, Germany.** Department of Foreign Languages

**GSU in Segovia, Spain.** Department of Foreign Languages

**Summer Studies Abroad in Costa Rica.** Department of Foreign Languages

**Summer Study Abroad in Italy and Greece.** Department of Art

**Summer Study in Saumur, France.** Department of Foreign Languages.

The Office of International Services and Programs of the University System of Georgia coordinates many opportunities for students to study abroad while earning academic credit toward completion of degree requirements at their home campus. Summer study abroad programs were offered in Africa, Asia, Austria, Europe, Canada, Central America, Mexico, and South America.

The European Council of the University System is sponsoring study abroad programs to London, England, and to Metz, France. These unique programs feature faculty members from Georgia institutions who will teach a variety of core and upper division courses at these overseas sites. Georgia Southern students may register on campus through the Center for International Studies.

The University System programs are open to all undergraduate students with a minimum cumulative GPA of 2.5; however, certain programs may require a higher GPA and completion of prerequisites. Graduate students are required to have a 3.0 GPA. Students in the University System of Georgia who are eligible for financial aid may use that aid toward system programs.

Information on Georgia Southern University study abroad programs, on programs coordinated by the Office of International Services and Programs, and on numerous programs offered worldwide is available at the Center for International Studies.

For further information, contact Dr. Nancy W. Shumaker, Assistant Director of the Center for International Studies and Coordinator of Study Abroad Programs, Georgia Southern University, P. O. Box 8106, Statesboro, GA 30460-8106. (912) 681-0332.
INTERNATIONAL STUDIES B.A. 126 HOURS

The Center for International Studies at Georgia Southern University offers a course of study designed to provide students with a basic knowledge of world affairs and how they affect American foreign and domestic policies. One of the main objectives of this program is to prepare students to cope realistically and intelligently with the changing world, a world which is becoming increasingly interdependent and in which vast new multiplications of cultural forces are emerging. Students may major in International Studies or International Trade. 
See pages 26-27 for Core Curriculum, required of all students.

Area A - Essential Skills ................................................................................................................................. 9 Hours
Area B - Institutional Options ............................................................................................................................ 4 Hours
Area C - Humanities and the Fine Arts ................................................................................................................ 6 Hours
Area D - Science, Mathematics and Technology ................................................................................................. 11 Hours
Area E - Social Sciences ..................................................................................................................................... 12 Hours
Area F - Courses Applicable to Major ................................................................................................................. 18 Hours

Completion of Foreign Language Intermediate II (F0RL 2002) (0-6)
STAT 2231 - Introduction to Statistics I (3)
STAT 2232 - Introduction to Statistics II (3) Six
   to twelve hours from the following: (6-12)
ANTH 1102 - Introduction to Anthropology (3)
ECON 2105 - Economics in a Global Society (3) or ECON 2106 - Business Economics (3)
GEOG 1130 - World Regional Geography (3)
PHIL 2130 - Living Issues in Philosophy (3)
PSYC 1101 - Introduction to Psychology (3)
RELS 2130 - Introduction to Religion (3)
SOCI 1101 - Introduction to Sociology (3)

Specific Requirements .................................................................................................................................................. 12 Hours
INTS 3130 - Contemporary World Cultures (3)
INTS 3230 - Global Issues (3 hours)
INTS 4630 - Seminar in International Studies (3)
Three hours from one of the following: (3)
ANTH 5337 - Ethnographic Methods (3)
HIST 2630 - Historical Methods (3)
POLS 2130 - Scope and Methods in Political Science (3)

Health and Physical Education Activities .............................................................................................................. 4 Hours
HLTH 1520 - Healthful Living (2)
Physical Education Activities (2)

Orientation I & II .................................................................................................................................................... 2 Hours

Major ........................................................................................................................................................................ 24 hours

Students will take a further twenty-four (24) hours within the major, choosing five courses from one of the three central themes under the Topical Emphases (list A) below. They must include two courses each from two of the four world areas listed under (B) below. They will also include one course in the theory of the field (C), chosen in consultation with their advisor. A grade of “C” or above must be made in every course of the International Studies major.

*(A) Topical Emphases (15 hours) *(B) Area Emphases (6 hours) *(C) Theory (3 hours)
1. Modernization, Development, and Environment 1. Asia
2. War and Peace Studies 2. Africa
3. Society, Cultures, and Tradition 3. Latin America

Minor: Must be in a foreign language .................................................................................................................... 15 hours

Electives .................................................................................................................................................................... 9 hours

*The list for Topical and Area Emphases is available at the Center for International Studies in the Forest Drive Bldg.
**INTERNATIONAL TRADE**

**B.S.**

**ADVICEMENT:** Director, Center for International Studies, PO Box 8106, (912) 681-0332
Freshman Orientation Courses

GSU 1210 - University Orientation I
Designed to help first year students understand the purpose of a college education, to learn about college resources and requirements, to explore values and interests, to learn to make decisions and realistic choices, to explore career objectives and programs of study, and to establish supportive relationships with faculty and staff. Required of all new students during their first semester.

GSU 1211 - University Orientation II
Encompasses principles of leadership, characteristics of leaders, and applications of leadership principles. Provides opportunities to examine and develop skills that are essential for leadership effectiveness. Required of all students.

Learning Skills Course

GSU 1120 - Methods of Learning
Designed to promote academic success, Methods of Learning emphasizes opportunities for students to learn and apply strategies that lead to success in their academic courses, including interpreting, organizing, and synthesizing academic information in texts and lectures; identifying and assessing individual learning styles; setting and achieving academic goals; managing time effectively; taking comprehensive notes; and preparing for tests.

Learning Support

Georgia Southern University maintains the philosophy that all students who gain admission should be given the best chance possible to succeed. Since students enter at many levels of ability and preparation, the University seeks to give assistance to each student where needed.

The purpose of the Learning Support Program is to provide students who have been admitted with inadequate skills in reading, composition and/or mathematics the opportunity to develop those skills to entry level competency for regular freshman credit hours. If results of the placement tests reflect a need for assistance in developing academic skills of those who qualify for new admission, students will be enrolled in a portion or in all of the Learning Support curriculum.

Learning Support courses carry institutional credit but not credit toward a degree. Except for Hope scholarship calculations, institutional credit is not used in computing grade point averages. If the diagnostic tests so indicate, a student may be allowed to enroll in one or more college-level courses for degree credit concurrently with Learning Support courses. The student’s first obligation, however, is to satisfy Learning Support requirements, and a student may not accumulate more than twenty (20) hours of degree-credit before completing Learning Support requirements.

Students’ progress will be assessed periodically, and they may move out of Learning Support courses at the end of any semester, provided satisfactory levels of proficiency have been reached. Students must establish proficiency in Learning Support courses within a maximum of three semesters.

Students may carry a maximum of 15 hours except in their third semester when they are limited to 12 hours.

Students who apply for or receive financial aid and who are enrolled as Learning Support students will receive the same consideration and awards as any other student.

Students who are not required to enroll in a Learning Support course may enroll on an audit basis only. They will be expected to participate in the course and take the tests, but they will not be subject to the Learning Support exit requirements.

Applicants accepted for the Learning Support Program at Georgia Southern University must contact the Learning Support Department should they wish to enroll at another college prior to attending Georgia Southern University. (See policies for Admission as a Transfer Student.)

A Learning Support student who is placed on dismissal for failure to exit Learning Support may apply for readmission as a former student after a three year exclusion or as a transfer student after satisfying Learning Support requirements and completing twenty hours of college-level work with a minimum 2.0 grade point average.

Department of Learning Support

Janet O’Brien, Acting Chair
Associate Professors: L. Arthur, B. Bitter (Emerita), M. McLaughlin, B. Nichols, C. Ricker, R. Stallworth-Clark
Temporary Instructors: L. Bragg, B. Burke, J. Darley, W. Habegger, B. Meisel, R. Sparks, D. Zimmerman
Part-time Instructors: E. Deloach, K. Harwood, B. Warchol

LESP 3090--Selected Topics in Learning Support
Specialized study in a selected area of Learning Support. Institutional credit or audit only. 1-3 hours.

See Course Descriptions for:
RGTR 0198-Regents’ Test Intensive Reading Survey
READ 0099 A, B, C-Reading Development
ENGL 0099 A, B, C-Communication Skills
MATH 0091-Algebra Lab
MATH 0097 A, B-Elementary Algebra
MATH 0099 A, B, C--Intermediate Algebra
Minors

Students in all baccalaureate programs who wish to do so may add a minor to their programs from the following list of minor programs. The Bachelor of Arts (B.A.) degree program requires a minor.

The courses to make up the minor should be planned with the major advisor, unless otherwise noted, and must be approved by the time the student applies for graduation.

Within the fifteen hours of course work presented for the required minor in the B.A. programs or the optional minor in any bachelor’s degree program, the student must have a minimum adjusted grade point average of “C,” with no more than three hours of “D” work. A minimum of nine of the fifteen hours must be earned at Georgia Southern University

A maximum of three hours may be taken under the S/U grading system within any minor.

Anthropology
Prerequisite: ANTH 1102 - Introduction to Anthropology, or equivalent. Fifteen hours in Anthropology from upper-division offerings.

Apparel Manufacturing
Prerequisite for the Minor Program Courses:
TMFG 1131 - The Manufacturing Enterprise

Lower Division
TMFG 3432 - Basic Stitchology (3)

Upper Division choose 12 hours from the following list:
TMFG 5230 - International Manufacturing (3)
TMFG 5431 - Apparel Manufacturing Production System (3)
TMFG 5433 - Quality Control and Testing (3)
TMFG 4434 - Special Problems in Manufacturing (3)
FMAD 4231 - Apparel Design Analysis I (3)
FMAD 4235 - Computer Aided Design I (3)
FMAD 3234 - Textiles (3)
FMAD 4790 - Internship (Only 3 hours may be counted toward minor)

Art
Prerequisites: ART 1131 - Drawing I, ART 1231 - Two-Dimensional Design or ART 1232 - Three Dimensional Design) or permission from the department chair.
Minor program: 15 hours in Art from upper-division offerings upon permission of the department chair.

Biology
Prerequisites for the Minor Program Courses (6-8 hrs)
Any combination of two biology and/or chemistry courses (Area D offerings accepted)

Lower Division (6 hrs)
Choose two of the following three courses:
BIOL 2131 - Cellular Biology (3)
BIOL 3132 - Biology of Organisms (3)
BIOL 3133 - Evolution & Ecology (3)

Upper Division (9 hrs)
9 hrs of Upper Division Biology Courses approved by a Biology Advisor; at least one laboratory offering required.

Additional Minor Requirements/Recommendations:
All three courses listed under the lower division requirements recommended.

Broadcasting
Prerequisites: 2.35 Adjusted GPA
COMM 2332 - Introduction to Mass Communication.
The following 15 hours of upper division courses are required for a minor in broadcasting:
BRCT 3331 - Audio Production
BRCT 3332 - Video Production
BRCT 3333 - Telecommunications
BRCT 3337 - Law and Ethics of Mass Communication
Upper Division Broadcasting elective.

Business
This minor is acceptable only as a second minor in the B.A. programs or as an optional minor in the other baccalaureate programs.
Requirements for the Business Minor are: ACCT 2030 - Survey of Accounting and 12 hours upper-division courses for which the prerequisites have been met.

Chemistry
Prerequisites for the Minor Program Courses (8 hrs)
CHEM 1145 & 1146 - Principles of Chemistry I and II (8)
Lower Division (3 hrs)
CHEM 2031 - Introduction to Research Methods (3)
Upper Division (12 hrs)
CHEM 3341 & 3342 - Organic Chemistry I and II (8)
One Upper Division course approved by a Chemistry Advisor (4)

Child and Family Development
CHFD 2134 - Family Development
CHFD 2135 - Child Development
Select 9 hours from the following
CHFD 3132 - Prenatal and Infant Development
CHFD 3134 - Child Development: Principles and Techniques
CHFD 3135 - Middle Child and Adolescence
CHFD 3136 - Families in Later Life
CHFD 4130 - Administration of Programs: Children and Families
CHFD 4134 - Family Life Education
CHFD 4135 - Parenting: Family/Child Interaction
CHFD 4136 - Assessment of Children and Families
CHFD 4137 - Psychosocial Care of Children in Hospitals and Other Settings

Additional Minor Requirements/Recommendations: Consultation with a CHFD faculty member

Community Health
Course Requirements:
HLTH 2130 - Foundations of Health Education (3)
HLTH 3133 - Health Promotion Program Planning (3)
HLTH 3230 - Community Health (3)
HLTH 3231 - Epidemiology & Vital Statistics (3)
Select 1 from the following:
HLTH 4230 - Maternal & Child Health (3)
HLTH 4231 - Health Aspects of Aging (3)
The Community Health Minor is open to any student interested in community health. Contact the Department of Health and Kinesiology Office, Room 2115, Hollis Bldg., (912) 681-0200 for information and advisement.
Computer Science
Prerequisites for Minor Program Courses (17 hrs)
- MATH 1441, 2242 - Calculus I, II (8)
- CSCI 1301, 1302 - Programming Principles I, II (7)
- MATH 2320 - Intro. to Linear Algebra (2)
Lower Division (3 hrs)
- MATH 2332 - Mathematical Structures (3)
Upper Division (12 hrs)
- CSCI 3230 - Data Structures (3)
- CSCI 5236 - Theoretical Foundations (3)
- 6 hrs from CSCI upper-division courses accepted for the Computer Science major.

English
Any 15 hours of upper-division English courses are required for a minor in English.

Exercise Science
Prerequisites of Minor Program Courses:
- Prerequisites apply to Option 1 ONLY.
- Grade of C or higher in:
  - KINS 2531/2511 - Human Anatomy and Physiology I/Lab
  - KINS 2532/2512 - Human Anatomy and Physiology II/Lab
- Grade of C or higher in:
  - PHYS 2211/1113 - Principles of Physics I/Lab
  - PSYC 1101 - Introduction to Psychology.
Course Requirements:
- OPTION 1 Exercise Behavior Emphasis Requirements
  - KINS 3131 - Biophysical Foundations of Human Movement (3)
  - KINS 3132 - Foundations of Exercise & Sport Psychology (3)
  - KINS 3133 - Physiological Aspects of Exercise (3)
  - KINS 3134 - Biomechanical Analysis of Movement (3)
- Select 1 from the following:
  - KINS 3230 - Motor Control, Coordination, & Skill (3)
  - KINS 4231 - Fitness Evaluation & Exercise Prescription (3)
- OPTION 2 Coaching Behavior Emphasis Requirements
  - KINS 3430 - Principles of Coaching (3)
  - KINS 3431 - Psychology of Coaching (3)
  - KINS 4420 - Sport Conditioning Laboratory (2)
  - KINS 4730 - Coaching Practicum (3)
- Select 2 from the following:
  - KINS 3426 - Coaching Baseball & Softball (2)
  - KINS 3427 - Coaching Basketball (2)
  - KINS 3428 - Coaching Football (2)
  - KINS 3429 - Coaching Olympic Sports (2)
  - KINS 4421 - Principles of Officiating (2)
The Exercise Science Minor is open to any student interested in exercise science. Students can choose between two emphases: exercise behavior or coaching behavior. Contact the Department of Health and Kinesiology Office, Room 2115, Hollis Bldg. (912) 681-0200 for information and advisement.

Fashion Merchandising and Apparel Design
- FMD 1234 - Apparel I or
- FMD 2230 - Social/Psychological Aspects of Clothing
- FMD 3231 - Fashion Fundamentals
- FMD 3234 - Textiles
- Select two courses from the following:
  - FMD 3235 - History of Costume
  - FMD 3232 - Principles of Merchandising
  - FMD 3236 - Apparel II
  - FMD 4234 - Fashion Presentation and Promotion
  - FMD 4231 - Apparel Design Analysis I
  - FMD 3233 - Visual Merchandising
  - FMD 4232 - Apparel Design Analysis II
  - FMD 4235 - Computer Aided Design
  - FMD 4236 - Fashion Study Tour

French
Prerequisites:
- FREN 1001 - Elementary French I
- FREN 1002 - Elementary French II or
- FREN 1050 - Accelerated Elementary French and
- FREN 2001 - Intermediate French I or equivalent(s).
Minor Program:
- FREN 2002 - Intermediate French II or equivalent and 12-15 hours of upper-division offerings in French. Students must earn a minimum grade of "C" in each upper division course in French.

Geography
Prerequisites for the Minor Program Courses (3-4 hrs)
- GEOG 1111 - Physical Geography (4), or
- GEOG 1130 - World Regional Geography (3), or
- GEOG 1101 - Introduction to Human Geography (3)
Upper Division (15 hrs)
- Any combination of courses which follow a particular track (Human, Physical, Regional Geography or Geographic Technique) and which total 15 hrs.

Geology
Prerequisites for the Minor Program Courses:
- GEOL 1121 - Physical Geology (4)
Upper Division (15 hrs)
- GEOL 3541 - Mineralogy and
- GEOL 3542 - Petrology (8) or
- GEOL 5141 - Invertebrate Paleontology and
- GEOL 5142 - Stratigraphy & Sedimentation (8) plus any combination of upper level courses that will total at least 7 hrs.
Additional Minor Requirements/Recommendations:
- Students are encouraged to take one of two basic course tracks, either the “hard rock” sequence or the “soft rock” sequence in order to develop strength in at least one area of the science.

German
Prerequisites: GRMN 1001, 1002, 2001 or equivalent(s). Minor Program: GRMN 2002 or equivalent and 12-15 hours of upper-division offerings in German. Students must earn a minimum grade of "C" in each upper-division course in German.

Health Behavior
Course Requirements:
- HLTH 2130 - Foundations of Health Education (3)
- HLTH 3133 - Health Promotion Program Planning (3)
- HLTH 3330 - Theories of Health Behavior Change (3)
- HLTH 3331 - Stress Theory & Management in Health Promotion (3)
- HLTH 4330 - Promotional Strategies for Health Programs (3)
The Health Behavior Minor is open to any student interested in health behavior. Contact the Department of Health and Kinesiology Office, Room 2115, Hollis Bldg. (912) 681-0200 for information and advisement.

History
Minor program: 15 hours in history from upper-division history offerings.

Industrial Safety and Environmental Compliance
Prerequisite: TMFG 3231 - Intro to Industrial Management
Minor Program: 20 hours from the following:
- TSEC 5332 - Ergonomics
- TSEC 5333 - Industrial Hygiene
- TSEC 5334 - Hazardous Waste Management
- TSEC 5331 - Human Resource Protection
- TSEC 5335 - System Safety in Manufacturing
**Journalism**
Prerequisites:
- JOUR 2331 - Introduction to Journalism
- COMM 2332 - Introduction to Mass Communication.
The following 15 hours are required of all journalism minors:
- JOUR 3331 - News Reporting and Writing
- JOUR 3335 - Copy Editing
- JOUR 3337 - Law and Ethics of Mass Communication
- JOUR 4331 - History of Journalism or
- JOUR 4332 - Contemporary American Newspapers, and one upper-division journalism elective.

**Manufacturing**
Prerequisites for the Minor Program Courses - None
- Lower Division Courses (6 hrs)
  - TMFG 1111 - Manufacturing Seminar (1)
  - TMFG 1121 - Technical Drafting (2)
  - TMFG 1131 - The Manufacturing Enterprise (3)
- Upper Division Courses (9 hrs) (select three courses)
  - TMFG 3131 - Industrial Processes and Materials (3)
  - TMFG 3231 - Introduction to Industrial Management (3)
  - TMFG 3232 - Applied Industrial Statistics and Quality Assurance (3)
  - TMFG 4132 - Energy/Power Systems (3)
  - TMFG 4134 - World Class Manufacturing (3)
  - TMFG 4299 - Manufacturing Internship (only 3 hours may be taken toward minor)
  - TMFG 5133 - Automated Manufacturing Systems (3)
  - TMFG 5230 - International Manufacturing (3)
  - TMFG 5233 - Manufacturing Management Issues and Methods (3)
  - TSEC 5331 - Human Resource Protection (3)

The three lower division courses are required “foundation” courses for this minor. The intent is that the student will then select three upper division courses to build upon this foundation. This arrangement complies with the current academic policy specifications.

Any additional catalog-specified prerequisites for the upper division courses would normally be taken before entering the selected upper division courses. However, to permit some degree of timing or sequence flexibility for non-majors, prerequisites may be waived by the consent of the instructor based on the goals, prior education and/or experience of the student. This action will occur on a case-by-case basis.

**Mathematics**
Prerequisites for Minor Program Courses (10 hrs)
- MATH 1441, 2242 - Calculus I, II (8)
- MATH 2320 - Intro. to Linear Algebra (2)
- Lower Division (3 hrs)
  - MATH 2332 - Mathematical Structures (3)
- Upper Division (12 hrs)
  - 12 hrs from MATH upper-division courses approved by an advisor of the Math B.S. degree programs.

**Music**
MUSC 1100 (Music Appreciation) and MUSC 1333 (Music Theory), and an additional 9 hours of music course offerings, 6 of which must be upper division. Choice of courses must be approved by Music advisor.

**Nutrition and Food Science**
- NTFS 2534 - Introductory Food Science
Select one course from the following
- NTFS 2530 - Nutrition and Health
- NTFS 2535 - Nutrition and Diet Therapy
- NTFS 3534 - Human Nutrition
Select three courses from the following
- NTFS 3535 - Life Cycle Nutrition
- NTFS 3536 - Meal Management
- NTFS 3537 - Advanced Food Science
- NTFS 4535 - Community Nutrition
- NTFS 4539 - Issues and Trends in Food Science

**Philosophy**
The following is required of Philosophy minors: any 15 hours of upper-division philosophy courses, or PHIL 2231 - Introduction to Logic and any 12 hours of upper-division philosophy courses.

**Physics**
Prerequisites for the Minor Program Courses (8 hrs)
- PHYS 2211 and 2212 - Principles of Physics I and II (6) or
- PHYS 1111 and 1112 - Intro to Physics I and II (6)
- PHYS 1113 and 1114 - Physics Lab I & II (2)
- Upper Division (15 hours) chosen from the following list with the approval of the physics advisor:
  - PHYS 3536 and PHYS 3537 - Modern Physics I and II (6)
  - PHYS 3420 - Advanced Physics Laboratory (2) (must take twice)
  - PHYS 5151 - Classical Mechanics (5)
  - PHYS 5152 - Classical Electromagnetic Theory (5)
  - PHYS 5557 - Quantum Mechanics (5)
  - PHYS 3131 - Optics (3)
  - PHYS 5530 - Thermal Physics (3)
  - PHYS 3420 - Advanced Physics Laboratory (2)
  - PHYS 3542 - Analog Electronics (4)
  - PHYS 3543 - Digital Electronics (4)
  - PHYS 5134 - Principles of Laser (3)
  - PHYS 5230 - Quantum Optics (3)
  - PHYS 5235 - Laser Technology (3)
  - PHYS 5234 - Applications of Lasers (3)
  - PHYS 5715 - Laser Laboratory Techniques (1)
  - PHYS 3538 - Physical Astronomy (3)
  - PHYS 5439 - Properties of Materials (3)
  - Sound Waves and Acoustics (4)
  - PHYS 3539 - Introduction to Biophysics (3)
  - PHYS 3149 - Methods of Theoretical Physics (4)

**Political Science**
Prerequisites: POLS 1101 - American Government or its equivalent and POLS 2101 - Introduction to Political Science. Minor program: 15 hours in Political Science from upper-division offerings planned with major advisor.

**Psychology**
Prerequisites: PSYC 1101 - Introduction to Psychology. Psychology minors must take 15 hours of upper-division courses—one course from Group 1, one course from Group 2, plus any three additional upper-division psychology courses as approved by the major advisor. Group 1: PSYC 3330, 3334, 3333, 3331, 3335, 3130. Group 2: PSYC 4430, 4431, 4433, 4434, 4432, 5430.
Printing Management
Prerequisite: TCM 1131 - Introduction to Printing Technology
Minor Program: 15 hours from the following:
  TCM 1321 - Desktop Publishing
  TCM 1411 - Desktop Publishing Lab
  TCM 2132 - Image Preparation I
  TCM 2212 - Image Preparation I Lab
  TCM 2333 Image Preparation II
  TCM 2413 Image Preparation II Lab
Approved TCM Electives

Public Relations
Prerequisites: COMM 2332 - Introduction to Mass Communication.
The following lower-division course is required of all public relations majors:
  JOUR 2331 - Introduction to Journalism. The following upper-division courses are required of all public relations majors:
  PRCA 2330 - Introduction to Public Relations, PRCA 3330 - Public Relations Writing or JOUR 3321 - News Reporting
  and Writing, two upper-division public relations electives. Additional minor requirements are recommended. Upper-division electives cannot include internship courses.

Sociology
Prerequisite: SOCI 1101 - Introduction to Sociology.
9-15 hours with at least two courses from the following:
  SOCI 4431 - Inequality
  SOCI 4332 - Sociology of Genders
  SOCI 4333 - Race and Ethnicity
  SOCI 4334 - Organizations
  SOCI 4335 - Self and Society
  SOCI 5132 - Sociology of Community
  SOCI 5133 - Sociology of Religion
  SOCI 5136 - Sociology of Education
  SOCI 5138 - Sociology of the Family and no more than two courses from offerings other than these.

Spanish
Prerequisites: SPAN 1001, 1002, or 1050, and SPAN 2001 or equivalent(s). Minor Program: SPAN 2002 or 2003 or 2004 or equivalent and 12-15 hours of upper-division offerings in Spanish. Students must earn a minimum grade of "C" in each upper division course in Spanish.

Speech Communication
Prerequisites: COMM 1100 - Introduction to Human Communication, SPCM 2331 - Principles of Public Speaking (Board of Regents equivalent course COMM 1110). The following upper division courses are required for a minor in speech communications: 15 hours of speech communication electives.

Sports Medicine
Prerequisites of Minor Program Courses:
Grade of C or higher in Anatomy and Physiology I & II (lecture/ lab). Grade of C or higher in Principles of Physics I & II (lecture and lab).
Course Requirements:
  KINS 3330 - Prevention of Injury & Illness in Sports Medicine (3)
  KINS 3331 - Pathology and Care of Sport Injury and Illness (3)
  KINS 4330 - Evaluation of Lower Extremity Injuries (3)
  KINS 4331 - Evaluation of Upper Extremity Injuries (3)
Select 1 from the following:
  KINS 4332 - Therapeutic Modalities in Sports Medicine (3)
  KINS 4333 - Therapeutic Exercise and Rehabilitation (3)
The Sports Medicine Minor is open to any student interested in sports medicine. Contact the Department of Health and Kinesiology Office, Room 2115, Hollis Bldg., (912) 681-0200 for information and advisement.

Theatre
Prerequisites: Introduction to Theatre. One of the following lower-division courses is required for a minor in theatre: THEA 2333 - Fundamentals of Acting or THEA 2332 - Stagecraft. Twelve hours of upper-division theatre courses are required for a minor in theatre: 12 hours of theatre electives.

Writing
Minor Program: 15 credit hours (5 three-hour courses), all of which must be from upper-division courses. A minimum of three and a maximum of four writing courses, and a minimum of one and a maximum of two literature courses at the 4000 or 5000 level.

Interdisciplinary Minors
Minors are available in eight interdisciplinary areas, each of which is coordinated by a committee of faculty from the disciplines involved. A student who minors in one of these areas typically will major in one of the disciplines whose courses are listed in the minor. Otherwise, the student must secure the approval of the committee. Approval also is required for the group of courses selected to comprise the minor.

Guidelines For Interdisciplinary Minors
The interdisciplinary minor offers an opportunity to elect courses focused on a given area of study from more than one discipline. As with single discipline minors, the interdisciplinary minor is distinct from the major program of study.

The following guidelines apply to all interdisciplinary minors:
1. A minor must contain 15 semester hours of coursework with at least 12 upper division hours. Typically, courses taken for the minor shall be in at least two disciplines other than the major.
2. While courses taken to satisfy Core Areas A through E may not be used to satisfy coursework in the minor also, courses listed in Area F may be counted as coursework in the minor.
3. A student has the option of taking one authorized lower division course and one upper division course crosslisted with the student’s major to fulfill minor requirements.
4. The chairperson of the minor program must approve the courses selected for the minor.
5. Students should declare the minor by the beginning of the junior year and advise the chairperson of the minor program of that decision.

African and African-American Studies Minor
Department: Center for African and African American Studies
Contact: Dr. Abiodun Goke-Pariola
Requirements: AAST 3230 - African and African American Studies

An additional 12 semester hours of courses with a significant African and African American Studies dimension in at least two disciplines other than the major must be completed for a total of 15 semester hours. Courses may be selected from the list of courses approved for the minor. Other courses must be approved by the director of the African and American Studies Minor.

Courses approved for the African and African American Studies Minor include:
  ART 3436 - African American Art
  ANTH 5435 - The Rural South
  ANTH 5437 - Cultures of Africa
  ENGL/AAST 3231 - Survey of African American Literature
  ENGL/AAST 5232 - Studies in African American Literature
  HIST/AAST 3130 - African American History to 1877
ART 4530 - Twentieth Century Art
FILM 3332 - Documentary Film
FILM 3333 - Art of Film
PHIL 3330 - Aesthetics
COMM 3331 - Media Criticism

For non-Foreign Language majors, one foreign language literature course (3).

International Studies Minor
Department: Center for International Studies
Contact: Dr. Zia Hashmi
Requirements: INTS 3130 - Contemporary World Cultures
INTS 3230 - Global Issues

An additional 9 semester hours of courses with significant International Studies dimension in at least two disciplines other than the major must be completed for a total of 15 semester hours. Courses may be selected from the list of courses approved for the minor. Other courses must be approved by the director of the International Studies Minor.

Courses approved for the International Studies Minor can be obtained in the office of the director of the minor program.

Latin American Studies Minor
Department: Center for International Studies
Contact: Dr. Nancy W. Shumaker
Requirements: INTS 3130 - Contemporary World Cultures (3)
LAST 4890 - Seminar in Latin American Studies (3)

An additional 9 semester hours of courses with significant Latin American dimension in at least two disciplines other than the major must be completed for a total of 15 semester hours. Courses may be selected from the list of courses approved for the minor. Other courses must be approved by the director of the Latin American Studies Minor.

Courses approved for the Latin American Studies Minor:
GEOG/LAST 4232 - Geography of Latin America
HIST/INTS/LAST 3537 - Colonial Latin America
HIST/INTS/LAST 5330 - Modern Spain and Portugal
HIST/INTS/LAST 3538 - Modern Latin America
POLS/LAST 3133 - Latin American Politics
SPAN/LAST 3331 - Latin American Civilization
SPAN/LAST 4231 - Introduction to Spanish American Literature
LAST 3090 - Selected Topics in Latin American Studies

Linguistics Minor
Department: Writing and Linguistics
Contact: Dr. Abiodun Goke-Parola
Requirements: LING/FORE/ANTH 3533 - Introduction to Language

An additional 12 semester hours of courses with a significant Linguistics dimension in at least two disciplines other than the major must be completed for a total of 15 semester hours. Courses may be selected from the list of courses approved for the minor. Other courses must be approved by the director of the Linguistics Minor.

Courses approved for the Linguistics Minor include:
LING 4330 - History of the English Language
LING/COMM/ANTH 5530 - Sociolinguistics
LING/FORE 3131 - Greek and Latin Vocabulary
FORL 3030 - Selected Topics in Foreign Language
FORL 4030 - Selected Topics in Foreign Language
LING/SPCM 4333 - Semantics
LING/SPCM 4335 - Linguistic Analysis
The list of additional courses approved for the American Studies Minor can be obtained in the office of the director of the minor program.

**Religious Studies Minor**
Department: History  
Contact: Dr. George Shriver  
Requirements: RELS 2130 - Introduction to Religion  
RELS 4890 - Seminar in Religious Studies

An additional 9 semester hours of courses with significant Religious Studies dimension in at least two disciplines other than the major must be completed for a total of 15 semester hours. Courses may be selected from the list of courses approved for the minor. Other courses must be approved by the director of the Religious Studies Minor.

Courses approved for the Religious Studies Minor:
- HIST 3139 - History of Religion in the U.S.
- HIST 4336 - Science and Religion
- HIST 4330 - The Early Church
- HIST 4331 - Heresy and Dissent in Western Religious History
- HIST 5332 - Age of the Reformation
- HIST 5334 - Major Themes in Western Religious History
- PSY 3231 - Psychology of Religion
- SOCI 5133 - Sociology of Religion
- PHIL 3131 - World Religions
- PHIL 3331 - Great Moral Philosophers
- ENGL 5530 - The Bible as Literature
- PHIL 4632 - Philosophy of Religion

**Women’s and Gender Studies Minor**
Department: Political Science  
Contact: Dr. Gale Harrison  
Requirements: WGST 3230 - Women’s and Gender Studies

An additional 12 semester hours of courses with significant Women and Gender Studies dimension in at least two disciplines other than the major must be completed for a total of 15 semester hours. Courses may be selected from the list of courses approved for the minor. Other courses must be approved by the director of the Women’s and Gender Studies Minor.

Courses approved for the Women’s and Gender Studies Program include:
- COMM/WGST 4331 - Women and Media
- SPCM 3333 - Communication and Gender
- ENGL/WGST 4539 - Literature by Women
- HIST/AMST/WGST 3137 - History of Women in the U.S.
- HIST/WGST 3433 - Women in Modern Europe
- HIST/WGST 4332 - “Woman Question” in Europe
- LATN/WGST 3330 - Roman Women
- PHIL/WGST 4130 - Feminist Philosophy
- POLS 3235 - Gender and Politics PSYC 3232 - Psychology of Gender
- SOCI/WGST 4332 - Sociology of Gender
- WGST 4790 - Special Problems in Women’s and Gender Studies

**Interdisciplinary Concentrations**
Students in baccalaureate programs may add an area of interdisciplinary concentration to their program of study. Such concentrations offer students the opportunity to elect courses focused on a given area of study from more than one discipline. As with minor programs, the interdisciplinary concentration is distinct from the major program of study. The interdisciplinary concentration permits students to add a significant segment of coursework focused on a particular area of study to their major degree program. Recognition of the concentration will be provided in the form of a certificate issued at the time of graduation.

The concentration consists of 18 hours of coursework, 15 hours of which must be at the upper division level. At least 12 hours of the total 18 hours must be taken at Georgia Southern University. A minimum grade of C is required for all courses used to complete the interdisciplinary concentration.

The courses taken to make up the concentration should be planned with the major advisor and the director of the concentration program. Students should declare the concentration by the beginning of the junior year.

Interdisciplinary concentration programs are administered through the Office of the Vice President for Academic Affairs.

**Guidelines For Interdisciplinary Concentrations**
The interdisciplinary concentration offers students the opportunity to elect courses focused on a given area of study from more than one discipline. As with minor programs, the interdisciplinary concentration is distinct from the major program of study.

The following guidelines apply to all interdisciplinary concentrations:

1. A concentration must contain 18 semester hours of coursework with at least 15 upper division hours. Typically, courses taken for the concentration shall be in at least two disciplines other than those used in additional concentrations or the major program of study.
2. While courses taken to satisfy Core Areas A through E may not be used to satisfy coursework in the area of concentration also, courses listed in Area F may be counted as coursework in the area of concentration.
3. A student has the option of taking one authorized lower division course and one upper division course crosslisted with the student’s major to fulfill concentration requirements.
4. The chairperson of the concentration program must approve the courses selected for the concentration.
5. Students should declare the concentration by the end of the junior year and advise the chairperson of the concentration program of that decision.

**African and African-American Studies Concentration**
AAST 3230 - Introduction to Africa and Its Diaspora and five other courses, with at least one each from the humanities and the social sciences. A list of approved courses is available from the Center for African and African-American Studies.

**American Studies Concentration**
AMST 3033 - Introduction to American Studies, AMST 4033 - Seminar in American Studies, and three or four cross-listed American Studies elective courses from two different disciplines.
Asian Studies Concentration
Students will complete a required course INTS 3130 - Contemporary World Cultures, and select an additional fifteen (15) hours of Asian courses in at least three disciplines from the following approved list for a total of eighteen (18) semester hours. Although not required, course work in an Asian language is strongly recommended.

ANTH 4335 - Cultural Anthropology and International Business
ANTH 4435 - Middle Eastern Cultures
ART 3438 - Art of Asia
JAPN 3331 - Japanese Culture for Americans
HIST/INTS 3532 - The Modern Middle East
HIST/INTS 3533 - Modern South Asia
HIST/INTS 3534 - Modern Southeast Asia
HIST/INTS 3535 - Islamic Civilization
HIST/INTS 5531 - Modern Japan
HIST/INTS 5532 - Modern China
HIST/INTS 5533 - Economic Rivals--United States, European Community, Japan
POLS 3134 - Middle Eastern Politics

International Studies Concentration
INTS 3130 - Contemporary World Cultures, INTS 3230 - Global Issues, and an additional twelve (12) semester hours of upper-division courses with significant international dimension from three different disciplines must be completed for a total of eighteen (18) semester hours. The three additional twelve (12) elective course hours must be selected from the list of courses approved by the International Studies Curriculum Committee. Copies of the list of approved courses are available at the Center for International Studies.

Latin American Studies Concentration
Students will complete two required courses, INTS 3130 - Contemporary World Cultures and LAST 4890 - Seminar in Latin American Studies along with an additional 12 semester hours of courses with significant Latin American dimension in at least two disciplines other than the major for a total of 18 semester hours. Courses may be selected from the list of courses approved for the concentration. Other courses must be approved by the director of the Latin American Studies Concentration.

Courses approved for the Latin American Studies Concentration:
GEOG/LAST 4232 - Geography of Latin America
HIST/INTS/LAST 3537 - Colonial Latin America
HIST/INTS/LAST 5330 - Modern Spain and Portugal
HIST/INTS/LAST 3538 - Modern Latin America
POLS/LAST 3133 - Latin American Politics
SPAN/LAST 3331 - Latin American Civilization
SPAN/LAST 4231 - Introduction to Spanish American Literature
LAST 3090 - Selected Topics in Latin American Studies

Linguistics Concentration
FORL 3533 - Introduction to Language and five other language and linguistics courses. A list of approved courses is available from the Department of Writing and Linguistics.

Religious Studies Concentration
RELS 4890 - Seminar in Religious Studies and five courses including RELS 2130 - Introduction to Religion from at least three different disciplines, selected from the following and approved by the Religious Studies Committee:
PHIL 3331 - Great Moral Philosophers
PHIL/RELS 3131 - World Religions
PHIL/RELS 4632 - Philosophy of Religion
PSYC/RELS 3231 - Psychology of Religion

Mission
The College of Business Administration of Georgia Southern University is committed to providing quality educational programs. At the undergraduate level, degree programs in accounting, economics, finance, information systems, management, marketing, and logistics are offered. At the graduate level, the Master of Business Administration and Master of Accounting degrees prepare students for management and accounting positions of significant responsibility. The accreditation of the degree programs by the American Assembly of Collegiate Schools of Business underscores the College’s dedication to continuous improvement and commitment to excellence.

We recognize that our existence and success are dependent on how well we meet our responsibility to several critically important groups:

Our first responsibility is to our students. Faculty members encourage excellence in academic performance by exhibiting professionalism in instruction and by being readily accessible for consultations outside the classroom. Although the majority of our students are Georgia residents, we welcome and encourage the diversity that occurs as we gain increasing numbers of students from beyond our state and national borders.

As a College within a state-supported regional university, we recognize and provide opportunities to assist in the development of our regional economy. Our desire to serve extends to providing regional businesses with professional assistance and learning opportunities in areas which cover an extensive range of domestic and international business practices.

We recognize our involvement in the local community as a central part of our responsibilities. Support of and involvement in our community make it a better place in which to live and provide a better environment for our students.

The College supports a collegial atmosphere for faculty and staff in which academic freedom and life-long learning are encouraged. While a balance of activities in teaching, scholarship, research and service is promoted, faculty members devote a significant amount of time and energy to teaching and other interactions with students. Scholarly efforts are predominantly focused on applied research which supports the regional service dimension of our mission.

Congruent with the policies of the University, the College of Business Administration engages in affirmative recruitment and retention of women and minorities among faculty, staff, and students.

Five Core Competencies
The faculty and staff of the College of Business Administration are committed to providing academic programs that will enable our graduates to become managers...

- able to communicate effectively.
- skilled in the collection and analysis of information for use in decision-making.
- having a global perspective to help their companies compete in international as well as domestic markets.
- capable of formulating decisions that integrate practical, economic, and ethical considerations.
- appreciative of the vagaries and uncertainties of real life business situations and the importance of life-long learning.

Structure
School of Accountancy
J. Ralph Byington, Director
Professors: R. Byington, L. Hamilton, O. James (Emeritus), P. Lagrone (Emeritus), J. Martin, H. O’Keeffe (Emeritus), N. Quick, (Emeritus)
Associate Professors: W. Bostwick, H. Harrell, N. Herring, K. Johnson, R. Landry, L. Mooney, S. Wise, H. Wright
Assistant Professors: L. Fletcher, W. Francisco, L. Higgins, C. Pacini, A. Parham, B. Thompson, K. Williams
Instructors: W. Moore

Department of Finance and Economics
W. Whitaker, Chair
Professors: L. Carnes (Emeritus), R. Coston, E. Davis, S. Forbes, F. Hodges (Emeritus), M. Jones, L. Price (Emeritus), D. Weisenborn (Emeritus), W. Whitaker
Associate Professors: J. Hatem, W. Levernier, W. Smith (Emeritus), J. White

Department of Management
B. Price, Chair
Assistant Professors: C. Campbell, R. Hirschfeld, C. Randall, C. Rogers, S. Taylor, E. Walker, Jr., J. Whitworth, B. Williams
Instructors: J. Earle, E. Levernier

Department of Marketing
M. Smith, Chair
Professors: W. Bolen, M. Miles, L. Munilla, E. Randall, M. Smith, D. Thompson (Emeritus), J. White (Emeritus)
Associate Professors: L. Denton, B. Gibson, R. Hilde, C. Swift, J. Wilson
Assistant Professors: J. Ezell (Emeritus), A. Moxley (Emeritus), S. Rutner
Programs: Undergraduate

Accounting
The accounting major educates students so that they can begin and continue to develop careers as professional accountants. The AACSB accredited program provides both entry-level competence to make sound independent judgments and a foundation for career development. The student is prepared for a wide range of professional careers in industry, finance, government, and other not-for-profit organizations. Students are also prepared for further study in law school or in graduate programs in accounting and business. Candidates for the CPA Examination in the State of Georgia must have 150 semester hours of college education. The School of Accountancy has structured a thirty semester hour Master of Accounting degree to meet these requirements. These hours include eighteen semester hours of accounting, three hours of accounting based legal and ethics study, and nine semester hours of master’s level business education. Please see the graduate catalog for a complete description of the program.

Emphasis in Managerial Accounting
A student selecting an emphasis in managerial accounting is planning a career in management accounting, both in the private and public sector, as well as accounting and finance.

Emphasis in Public Accounting
A student selecting an emphasis in public accounting is preparing to begin a career that will involve auditing of financial statements, financial accounting, not-for-profit accounting, or tax accounting. This emphasis is used to identify those students who plan to enter a master’s program and to qualify to take the CPA examination.

Economics
This major is designed to give the student in business administration a broad knowledge of the field of economics in order to provide a foundation for professional careers in business and industry or for graduate training in economics.

Emphasis in Business Economics
A student who majors in economics may elect an emphasis in Business Economics. Business economists analyze and interpret the business cycle, government policies, international crises and other events which may impact a firm. Probable impacts on consumer demand, prices, costs, competitive pressure and financial conditions are ascertained. Excellent career opportunities are available in financial institutions, large corporations, utility companies and also with government agencies.

Emphasis in International Business
The emphasis in international business is designed to provide the student with a broad exposure to international business issues. The coursework in the major is drawn from several different business disciplines. Career opportunities are excellent for graduates seeking employment in international firms.

Finance
Study in this area develops familiarity with the institutions and instruments within our financial system and an understanding of the problems of financing business activity. It includes study of the techniques and tools for solving these problems.

Emphasis in Banking
The emphasis in banking is designed to allow a student to specialize in the management of financial institutions, especially banks.

Emphasis in Financial Planning
This emphasis prepares a student to work with individuals and households on strategies for reaching financial goals, including estate planning. The program is designed to facilitate pursuit of the Certified Financial Planner designation.

Emphasis in Real Estate
The emphasis in real estate allows a student to specialize in the growing and dynamic field of real estate.

Emphasis in Risk Management
A student who selects insurance will be provided with a valuable background to enter this growing field of business activity.

Information Systems
The major in information systems builds on the student’s knowledge of basic business functions to provide a solid understanding of the role of information technology in today’s business environment. The curriculum includes a strong foundation in applications development, systems analysis and design, data base, and client-server systems, object-oriented programming and development, data communications, information resource and project management. Information systems majors are prepared for a wide range of opportunities in applied information systems.

Management
This major emphasizes the integrative nature of the management discipline in planning, organizing, directing, and controlling contemporary profit and non-profit organizations. The program includes the study of both qualitative and quantitative contributions from the management sciences to provide the student with modern analytic concepts, tools, and techniques that can be used as aids to managerial decision-making. The impacts of the international environment and of the social responsibilities of managers receive special attention across the broad range of management courses. Various teaching methods are used in an effort to bring reality to classroom considerations of relevant business problems. The student who wishes to major in management can select one of four options: (1) the management major without an area of emphasis; (2) the management major with an emphasis in entrepreneurship small business management; (3) the management major with an emphasis in human resource management; or (4) the management major with an emphasis in operations management. Each of these options is described below.

Management Major Without an Area of Emphasis
Because of the flexibility allowed by this degree, it is imperative that the student develop a close relationship with an advisor who can provide specific guidance as to the selection of individual courses.

Emphasis in Entrepreneurship/Small Business Management (E/SB)
This emphasis is designed for persons whose career aspirations include starting, managing, and developing their own businesses. The distinguishing characteristic of the emphasis is that it focuses on teaching students how to assume total responsibility for a business enterprise. This emphasis is especially appealing to self-motivated individuals who prefer to be their own bosses and who are unafraid of expressing and taking action on their ideas.
Emphasis in Human Resource Management (HRM)
The human resource management emphasis allows a student to specialize in the study of personnel administration and human resource management. While this emphasis is especially appealing to individuals whose career aspirations are focused on working in the human resources management areas, the collection of courses included in this emphasis are relevant to managers in all areas of today’s organizations.

Emphasis in Operations Management (OM)
The operations management emphasis allows the student to prepare for positions in manufacturing and other organizations with operations departments and for management careers in manufacturing and service organizations. While much of the course work focuses on manufacturing management, the approaches that are covered and the skills that are developed are generalizable to service operations.

Logistics And Intermodal Transportation
Transportation companies, industrial firms and government agencies are all looking for the qualified graduate with training in the field of physical distribution. The major in logistics and intermodal transportation prepares the student for this career choice by providing general knowledge of the field of business and supporting course work in the areas of logistics, transportation and marketing. The program also offers an international emphasis and internships are available and strongly recommended for qualified students.

Marketing
Preparation in this area will provide the student with an awareness of the marketing problems confronting today’s business firms, some knowledge and experience in application of the tools and techniques of marketing problem solving and a more detailed acquaintance with one or more specific areas of the marketing discipline. Students may choose to major in general marketing or in one of the three emphasis areas under marketing.

The Marketing Major Without an Area of Emphasis
The general marketing track is the least specialized and supports the largest number of career opportunities in the field of marketing.

Emphasis in Fashion Merchandising
The fashion merchandising emphasis is designed to provide the student with a broad knowledge of business and marketing while stressing the areas of retailing and fashion.

Emphasis in Retailing Management
The retailing management emphasis is for students interested in retail careers or in marketing positions where knowledge of retailing is important.

Emphasis in Sales and Sales Management
The sales and sales management emphasis is for the student interested in sales as an entry-level marketing position or in sales as a career.

Programs: Graduate
Master of Business Administration
The purpose of the MBA program at Georgia Southern University is to prepare men and women for careers in business and non-profit organizations in an increasingly complex and changing world. It emphasizes the fundamental knowledge and skills underlying modern administration and management, and applies these with emphasis upon the area of managerial and executive decision-making.

Georgia Southern University has offered the Master of Business Administration degree for over 28 years, with graduates going on to pursue successful careers in banking and finance, marketing, manufacturing, and international organizations. The MBA program requires one and one half years of full-time study, yet it is flexible enough to accommodate part-time students. Classes are moderate in size to create an optimal environment for effective learning and thought-provoking discussions.

Master of Accounting
To sit for the CPA Examination in the State of Georgia, candidates must have 150 semester hours of college education. The School of Accountancy has structured a thirty semester hour Master of Accountancy to meet and exceed these requirements. These hours include eighteen semester hours of accounting, three hours of accounting based legal and ethics study, and nine semester hours of master’s level business education. The program outcomes include: To increase the student’s intellectual skills, to increase the student’s communication skills, and to increase the student’s interpersonal skills. Please see the graduate catalog for a complete description of the program.

Advisement
Undergraduate
Academic advisement for all pre-business majors occurs in the College of Business Advisement Center.
Location: Room 1100, College of Business Administration
Telephone: (912) 681-0515

Upper division Bachelor of Business Administration students are assigned a faculty advisor in the student’s major area.

Graduate
Academic advisement for Master of Business Administration students occurs in the Graduate Studies Office in the College of Business Administration.
Location: Room 1133, College of Business Administration
Telephone: (912) 681-5767

Academic advisement for Master of Accounting students occurs in the Accounting Department Office in the College of Business Administration.
Location: Room 2203, College of Business Administration
Telephone: (912) 681-5061

Experiential Learning Opportunities
Internships
Internship opportunities are available through all departments in the College of Business Administration. Internships are supervised work-study programs, designed to allow upper division students an opportunity to receive practical experience in their chosen field of study. Prerequisites include junior standing, a review of academic qualifications, and approval of supervising instructor and department chair. Students should consult with their academic advisors for further information.

Cooperative Education
Co-ops allow students the opportunity to gain work experience related to their academic major while earning a salary. To participate in a cooperative education opportunity, a student must have completed at least 30 semester hours of instruction, have a grade point average of at least 2.5, and be willing to participate in a minimum of two alternating co-op work quarters. Work responsibilities and salaries are determined by the employer. Co-op students register for the designated Cooperative Education section. This is a non-credit course.

Mission, Vision, and Conceptual Framework
The mission of the College of Education is to provide professional preparation for educators and to collaborate in the reform of education.

To prepare for the next decade, the College of Education is committed to:
1. responsible ethical and moral development and behavior.
2. recognizing, articulating, and responding to the various roles of educators as they impact on the education of learners.
3. providing learners (students, faculty, and staff) the opportunity to develop and expand their personal vision and critical thinking skills and to achieve a global perspective so that they may reach their full potential.
4. developing linkages with schools, school districts, community agencies, and postsecondary institutions in a collaborative effort to support children and to participate with these constituents as partners in the reformation of education.
5. responding to change in a proactive manner and to developing change agents.
6. providing greater access to information and technology within the community and region and to developing an awareness of technology as an important tool for daily operation, information, and communication.

The College of Education has adopted the theme, “Educator as Curator/Creator: Preserving the Past...Creating the Future,” which represents its Conceptual Framework, the beliefs that guide the College’s curriculum and endeavors. The following outlines the operating functions of the Conceptual Framework which is currently under review.

General Statement - We are working with present and future educators to provide them with the tools necessary to facilitate the development of their clients in their cognitive, physical, social and emotional growth and development. To do this we strive:
• to present a strong research-based view of current theory and practice of the various disciplines in order to provide the necessary skills and understandings to be effective decision makers in various educational settings;
• to provide flexible thinkers in a changing environment, who are proactive problem-solvers with the tools needed to be agents of change in collaborative relationships within the educational settings.

Cognitive - In order for our students to promote cognitive growth they must:
• be knowledgeable about learning theories and related methodologies;
• possess strong subject matter knowledge to impart a firm basis for lifelong learning within their fields;
• exhibit abilities to evaluate assessment material in relationship to curricular goals;
• have personal guidelines for decision making in a professional context;
• be knowledgeable about the history of education, how it works, where it comes from, and to where it may go;
• be able to view knowledge as personal and/or cultural artifact.

Physical - In order for our students to promote physical growth they must:
• be knowledgeable about human growth and development and how it impacts on the other three domains;
• be able to enhance each student’s learning by addressing various learning styles and providing methods to expand the learning styles of each individual;
• be able to provide for the needs, rights and responsibilities of all students, especially those with special needs.

Social - In order for our students to promote social growth they must:
• be aware of the interrelatedness of individuals, small groups, and society, both locally and globally, in heterogeneous and homogeneous situations;
• be active in dealing with multicultures, diversity, and equity;
• be aware of the political nature of education and how to effect needed changes;
• be cognizant of the ideological, economic and special interest pressure groups in education;
• possess the tools to enhance communication among all users of education in the school, community, home and industry.

Emotional - In order for our students to promote emotional growth they must be cognizant of:
• how emotions interact with the other domains;
• the effect of teacher attitudes on learning;
• their personal perceptions about self, work, and relationships to students, and colleagues’ effect on professional choice;
• our own and others’ presence and the effect of prejudice on our education behavior.

Structure
The College of Education is organized into four academic departments:

The Department of Early Childhood Education and Reading is responsible for undergraduate teacher preparation in early childhood education (grades P-5). Graduate programs are offered in the fields of early childhood education and reading specialist. The programs are based upon the concept of developmentally appropriate practices and a value of diverse, intensive field experience in preschool and elementary school settings.

Beverly D. Stratton, Chair
Professors: M. McKenna, M. Moore, B. Stratton
Associate Professors: S. Franks, A. Heaston, A. Hosticka, J. Kent, J. Rakestraw, B. Romine
Assistant Professors: C. Brewton, J. Feng, S. Kent, M. McGovern, W. Mo, L. Plevyak
Instructors: P. Moller, M. Parker, V. Zwald
The **Department of Middle Grades and Secondary Education** offers undergraduate and graduate programs in middle grades education (grades 4-8); secondary teaching fields (grades 7-12) in science, social science, mathematics, technology, business, family and consumer sciences, English, and workforce education; and P-12 teaching fields in art, music, health and physical education, and foreign language. Programs blend sound preparation in teaching content with current knowledge about adolescent development.

Ronnie Sheppard, Chair  
Professors: M. Allen, F. Page, R. Sheppard, J. Strickland, J. Van Deusen  
Associate Professors: C. Alexander, M. Schriver, J. Stephens, R. Stevens  
Assistant Professors: R. Carroll, M. Kostin, D. Thomas, S. Trimble  
Instructors: M. Bennett, V. Cole, R. McCall, B. McKenna

The **Department of Educational Leadership, Technology and Human Development** offers a broad range of programs that provide school/system-wide and student-oriented support services for traditional and alternative settings. Undergraduate and graduate teacher preparation is offered by the special education programs; and a diverse selection of graduate programs prepare school and community agency personnel in the areas of adult and vocational education, school and community counselor education, educational leadership, higher education (student services), instructional technology, and school psychology. A doctoral degree program in educational administration is also offered by this department.

Ron G. Davison, Chair  
Professors: J. Bergin, A. Chew, R. Davison, G. Petrie, H. Pool, M. Richardson  
Associate Professors: L. Beard, T. Chan, K. Clark, E. Downs, D. Grant, S. Heggoy, R. Martin, J. Repman  
Assistant Professors: R. Carlson, D. Hammitte, C. Hansman, M. Jackson, S. Kenney, M. LaMontagne, P. Lindauer, L. Spencer  
Instructors: S. Marchbanks, B. Wasson

The **Department of Curriculum, Foundations, and Research** provides a service function to all other programs in the College. Undergraduate and graduate level courses are offered in the areas of educational foundations, educational psychology, curriculum theory and development, and educational research. A doctoral degree program in curriculum studies is offered by this department.

Jane Page, Chair  
Professors: S. Jenkins, J. Page, W. Reynolds, E. Short  
Associate Professors: D. Battle, W. Custer, B. Deever, G. Dmitriyev, C. Douzenis, M. Griffin, D. Rea, C. Shea, R. Rarkentin  
Assistant Professors: N. Bryant, B. Griffin, M. He, D. Liston, K. Ritschof

The College of Education also has a variety of centers and offices that provide specific services to its students, faculty, and public schools:

The **Office of School and Community Relations** coordinates student teaching and all other field experiences at the undergraduate and graduate levels in collaboration with the various departments and public schools. The Coastal Area Teacher Education Service (CATES), a consortium of University System of Georgia institutions and cooperating school systems in Southeast Georgia, is housed in this office.

The **College of Education Advisement Center** is responsible for the advisement of all undergraduate education majors and non-degree students seeking initial certification. The Certification Programs Coordinator, whose office is located in the Advisement Center, serves as a liaison between the College and the Georgia Professional Standards Commission dealing with certification matters. The Certification Programs Coordinator evaluates student transcripts to determine course needs for acquiring initial or additional certification fields and makes the College’s recommendations for certification.

The **Instructional Resources Center** provides computer laboratories, portable multimedia stations, a variety of media resources for instruction, and equipment for media production for College of Education faculty and students.

The **Publications Center** provides support services in the preparation of materials related to professional research, manuscripts, presentations, and classroom instruction.

**Programs**

The College of Education offers undergraduate and graduate programs to prepare its students for work in public education, in community agencies, and in higher education. Programs are developed in collaboration with departments across the campus and with professionals in the field of education. Each program has been approved by the Georgia Professional Standards Commission, the National Council for Accreditation of Teacher Education, and the Southern Association of Colleges and Schools.

**Undergraduate Degree Programs**

- Art Education - B.S.Ed.
- Early Childhood Education - B.S.Ed.
- Foreign Language Education - B.S.Ed.
- French  
  - German  
  - Spanish
- Health and Physical Education - B.S.Ed.
- Music Education - B.M. (Teacher preparation program offered by the Department of Music)
- Middle Grades Education - B.S.Ed.
- Secondary Education - B.S.Ed.
  - Business Education  
  - English Education  
  - Family and Consumer Sciences  
  - Mathematics Education  
  - Science Education  
  - Social Science Education  
  - Technology Education  
  - Workforce Education
- Special Education (Interrelated/Mild) - B.S. Ed

**Graduate Degree Programs**

- Adult Education - M.Ed.
- Art Education, M.Ed., Ed.S.
- Business Education, M.Ed.
- Counselor Education - M.Ed., Ed.S.
  - Community Counseling  
  - School Counseling
- Curriculum Studies - Ed.D.
- Early Childhood Education - M.Ed., Ed.S.
- Educational Administration - Ed.D.
- Educational Leadership - M.Ed., Ed.S.
- German Education - M.Ed., Alternative M.Ed.
- Health and Physical Education - M.Ed., Ed.S.
- Higher Education Student Services - M.Ed.
- Instructional Technology - M.Ed., Ed.S.
Admission into the Teacher Education Program

Admission to the Teacher Education Program is required for those students wishing to pursue a degree in any undergraduate or non-degree program that results in initial teacher certification. Students must be admitted into the Teacher Education Program as a prerequisite for enrollment in junior/senior level education courses. Students must make formal application for admission into the Teacher Education Program through the submission of an admission’s portfolio. Typically this portfolio is developed during enrollment in the Pre-Professional Block, a set of three courses taken concurrently during the second semester of the sophomore year, and a decision is made by an admission’s review committee at the end of the term.

In order to be admitted into the Teacher Education Program (TEP), a student must have:

- An adjusted gpa of 2.50 or better on all course work (both GSU course work and any transfer hours which have been accepted by GSU)
- Completed Area A and Area F course work (including the Pre-Professional Block) with a “C” or better and a 2.75 gpa in both areas combined
- Successfully completed the Regents Testing Program
- Successfully completed the Praxis I examination
- Earned a minimum of 50 semester credit hours in Core Curriculum courses, including Pre-Professional Block courses (EDUF 2131, EDUF 2130, SPED 2130)
- Successfully completed the admissions portfolio review

All of the following requirements must be met for retention in the Teacher Education Program:

- Students must maintain an adjusted gpa of 2.50 or better on all course work.
- Students must maintain an adjusted gpa of 2.75 or better on all professional education and all teaching field course work.
- Students must successfully complete all field experiences.
- Students must not have been found in violation of the GSU Student Conduct Code. Reviews will be made on a case-by-case basis based on the seriousness of the violation and with regard to consistency.
- Students must not have violated the Georgia Professional Practices Commission’s Code of Ethics for Professional Educators. Students are provided a copy upon admission and must sign a statement agreeing to abide by this Code of Ethics upon admission into TEP.
- Students must be making satisfactory progress toward meeting program objectives. Programs will be responsible for monitoring student progress and providing guidance to students who may be having difficulty meeting retention requirements. The Ambassadors for Diversity in Education (ADE) program will also assist in retention efforts.
Admission to Student Teaching
Student Teaching is required in all teacher preparation programs at the undergraduate level. In order to participate in the student teaching program, a student must:

1. Meet all admission and retention requirements for the Teacher Education Program.
2. Make application to Student Teaching no later than one semester prior to the school year in which registration for the course occurs.
3. Meet admission requirements for Student Teaching no later than one semester prior to enrollment for the course.
4. Have met the College and departmental prerequisites for majoring in the field.
5. Have a disciplinary record clear of any actions which might be a detriment to successful performance in the classroom.
6. Possess mental, emotional, and physical health compatible with the expectations of the profession.
7. Participate in the orientation activities for Student Teaching.
8. Complete the professional education program and courses in the teaching field with a grade of “C” or better and an adjusted GPA of 2.75 or better.
9. Successfully pass the Praxis II teacher certification examination for the teaching field.

Internships
Some graduate programs require extensive teaching experience through internships as a program requirement. The student’s faculty advisor arranges the internship in cooperation with the student and the Office of School and Community Relations. Non-degree and Alternative M.Ed. students may also participate in internships in order to meet Student Teaching requirements if Provisional Certification and program course work requirements are met.

Teaching Certificates
The programs offered by the College of Education at the undergraduate and graduate levels are designed to prepare teachers and other school personnel for certification in the State of Georgia. Types of certificates include the Georgia Level Four (bachelors degree), Five (masters degree), Six (education specialist degree), and Seven (doctoral degree) certificates. The College of Education, in accordance with the Georgia Professional Standards Commission, provides courses for individuals who wish to reinstate expired certificates, add fields, and update certificates. For individuals who hold a bachelor’s degree, initial certification may be obtained through non-degree course work or, in some teaching fields, through the completion of an Alternative M.Ed. program. All students working on certification must be admitted into the Teacher Education Program and meet admission requirements to Student Teaching. They must also have their transcripts evaluated before beginning their course work to determine the appropriate program of study.

All graduates of the University who plan to teach in Georgia after graduation must file an application for a teaching certificate. Students enrolled in Student Teaching are given an opportunity to make application at a prescribed time. All candidates for a teaching certificate must pass the Georgia teacher certification test (Praxis II) in the appropriate field, must have transcripts reviewed by the Certification Programs Coordinator, and be recommended to the Georgia Professional Standards Commission for certification. Forms for this purpose are available in the Office of the Dean and the College of Education Advisement Center.
ART EDUCATION  B.S.Ed.  126 HOURS
See pages 26-27 for Core Curriculum, required of all students.
Area A - Essential Skills ........................................................................................................ 9 Hours

OTHER PROGRAM REQUIREMENTS:
• Must meet all requirements for retention in the Teacher Education Program
• Must earn a “C” or better grade on all courses in the teaching field and professional education, an adjusted GPA of 2.75 or better in this course work, and maintenance of overall GPA of 2.50 or better
• Must successfully complete all field experiences
• Must take courses in proper sequence
• Must meet requirements for admission to Student Teaching including passing score on the Georgia teacher certification test, Praxis II
GERMAN EDUCATION  

B.S.Ed.  

126 HOURS

See pages 26-27 for Core Curriculum, required of all students.

Area A - Essential Skills ................................................................. 9 Hours
Area B - Institutional Options .......................................................... 4 Hours
Area C - Humanities and Fine Arts ..................................................... 6 Hours
Area D - Science, Mathematics, and Technology .................................. 11 Hours
Area E - Social Science ................................................................. 12 Hours
Area F - Courses Appropriate to Major ............................................ 18 Hours

Pre-professional Block (taken concurrently)
EDUF 2131 - Foundations of Education (3)
EDUF 2230 - Human Growth and Development (3)
SPED 2130 - Identification & Instruction of Exceptional Learners (3)
Other courses for the major:
GRMN 2001 - Intermediate German I (3)
GRMN 2002 - Intermediate German II (3)
Advisor Approved Elective (3)

Health and Physical Education Activities ........................................... 4 Hours

HLTH 1520 - Healthful Living (2)
Physical Education Activities (2)

Orientation I & II ........................................................................... 2 Hours

Professional Education ..................................................................... 24 Hours

EDUF 3232 - Educational Psychology (3)
ESED 3131 - Analysis of Effective Teaching/Curriculum Foreign Language (3)
ESED 4799 - Student Teaching in P-12 Education (12)
FORL 3431 - Foreign Language Methods P-5 (3)
FORL 3432 - Foreign Language Methods 6-12 (3)

Major Requirements ..................................................................... 33 Hours

27 Hours upper division German courses, including courses in literature, culture, and phonetics (27)
6 Hours upper division electives related to the major (6)

Elective ..................................................................................... 3 Hours

ADVISEMENT: Each student in German Education is assigned to an advisor in the College of Education Advisement Center for program planning and course scheduling. Telephone: (912) 681-0698. E-Mail: TOZ@svms2.cc.gasou.edu

PROGRAM ADMISSION CRITERIA: See B.S.Ed. Degree Requirements

• Must be admitted into the Teacher Education Program

OTHER PROGRAM REQUIREMENTS:

• Must meet all requirements for retention in the Teacher Education Program
• Must earn a “C” or better grade on all courses in the teaching field and professional education, an adjusted GPA of 2.75 or better in this course work, and maintenance of overall GPA of 2.50 or better
• Must successfully complete all field experiences
• Must take courses in proper sequence
• Must meet requirement for admission to Student Teaching including passing score on the Georgia teacher certification test, Praxis II
### HEALTH & PHYSICAL EDUCATION  
**B.S.Ed.  
126 HOURS**

- SPED 2130 - Identification & Instruction of Exceptional Learners (3)
- Other courses for the major:
  - KINS 2531 - Human Anatomy & Physiology I (3); KINS 2511 - Human Anatomy & Physiology I Lab (1)
  - KINS 2532 - Human Anatomy & Physiology II (3); KINS 2512 - Human Anatomy & Physiology I Lab (1)
  - KINS 2414 - Introduction to Health & Physical Education (1)

#### Health and Physical Education Activities
- HLTH 1520 - Healthful Living (2)
- Physical Education Activities (2)

#### Orientation I & II
- EDUF 3232 - Educational Psychology (3)
- ESED 3231 - Analysis of Effective Teaching/Curriculum Health & Physical Education (3)
- ESED 4799 - Student Teaching in P-12 Education (12)

#### Major Requirements
- Health Science & Kinesiology Core (18)
- HLTH 3130 - Substance Use and Abuse (3)
- HLTH 3430 - Sexuality Education (3)
- HLTH 3431 - Health Promotion Concepts & Application (3)
- KINS 3131 - Biophysical Foundations of Human Movement (3)
- KINS 3230 - Motor Control/Coordination/Skill (3)
- KINS 3435 - Life Span Motor Development (3)
- Movement Content & Performance Core (12)
- KINS 3420 - Educational Games (2)
- KINS 3421 - Educational Dance (2)
- KINS 3422 - Educational Gymnastics (2)
- KINS 3423 - Performance & Technology in Physical Activity I (2)
- KINS 3424 - Performance & Technology in Physical Activity II (2)
- KINS 3425 - Performance & Technology in Physical Activity III (2)
- Instructional Design & Development Core (9)
- KINS 4425 - Health & Physical Education Curriculum Development (2)
- KINS 4430 - Instructional Design in Physical Education for Elementary Students (3)
- KINS 4431 - Instructional Design in Physical Education for Middle & High School Students (3)
- KINS 4617 - Senior Seminar in Health & Physical Education (1)

#### Elective
- 3 Hours

**ADVISEMENT:** Each student in Health & Physical Education is assigned to an advisor in the College of Education.

Advisement Center for program planning and course scheduling. Telephone: (912) 681-0698. E-Mail: bwray@gsvms2.cc.gasou.edu

**PROGRAM ADMISSION CRITERIA:** See B.S.Ed. Degree Requirements

- Must be admitted into the Teacher Education Program

**OTHER PROGRAM REQUIREMENTS:**

- Must meet all requirements for retention in the Teacher Education Program
- Must earn a “C” or better grade on all courses in the teaching field and professional education, an adjusted GPA of 2.75 or better in this course work, and maintenance of overall GPA of 2.50 or better
- Must successfully complete all field experiences
- Must take courses in proper sequence
- Must meet requirements for admission to Student Teaching including passing score on the Georgia teacher certification test, Praxis II
MATHEMATICS EDUCATION  B.S.Ed.  126 HOURS

See pages 26-27 for Core Curriculum, required of all students.

Area A - Essential Skills ........................................................................................................ 9 Hours
Area B - Institutional Options ................................................................................................ 4 Hours
Area C - Humanities and Fine Arts ..................................................................................... 6 Hours
Area D - Science, Mathematics, and Technology ................................................................. 11 Hours
Area E - Social Science ......................................................................................................... 12 Hours

Area F - Courses Appropriate to Major .............................................................................. 18 Hours

- Pre-professional Block (taken concurrently)
- EDUF 2131 - Foundations of Education (3)
- EDUF 2230 - Human Growth and Development (3)
- SPED 2130 - Identification & Instruction of Exceptional Learners (3)

Other courses for the major:
- *MATH 1441 - Calculus I (4)
- *MATH 2242 - Calculus II (4)

Electives in Math Applications (CSCI, PHYS, BUSINESS, ENGINEER) (1-7)

*If taken in Area A or D, substitute elective in Math Applications (approved by advisor).

Health and Physical Education Activities ............................................................................ 4 Hours

- HLTH 1520 - Healthful Living (2)
- Physical Education Activities (2)

Orientation I & II ............................................................................................................... 2 Hours

Professional Education ....................................................................................................... 21 Hours

- EDUF 3232 - Educational Psychology (3)
- SCED 3537 - Methods of Teaching Mathematics in the Secondary School (3)
- SCED 4138 - Secondary Curriculum (3)
- SCED 4799 - Student Teaching in the Secondary School (12)

Major Requirements .......................................................................................................... 36 Hours

- CSCI 1230 - Introduction to Basic Programming (3)
- CSCI 5130 - Data Management for Math & Science (3)
- MATH 2243 - Calculus III (4)
- MATH 2320 - Introduction to Linear Algebra (2)
- MATH 2332 - Mathematical Structures (3)
- MATH 3130 - College Geometry (3)
- MATH 3333 - Modern Algebra (3)
- MATH 3335 - Linear Algebra (3)
- MATH 3337 - Probability (3)
- MATH 5234 - Number Theory (3)
- STAT 5531 - Statistical Methods I (3)

Electives in Math Applications (CSCI, PHYS, BUSINESS, ENGINEER) (3)

Elective ............................................................................................................................. 3 Hours

ADVICEMENT: Each student in Mathematics Education is assigned an advisor in the College of Education Advisement Center for program planning and course scheduling. Telephone: (912) 681-0698. E-Mail: TOZ@gsvms2.cc.gasou.edu

PROGRAM ADMISSION CRITERIA: See B.S.Ed. Degree Requirements
- Must be admitted into the Teacher Education Program

OTHER PROGRAM REQUIREMENTS:
- Must meet all requirements for retention in the Teacher Education Program
- Must earn a “C” or better grade on all courses in the teaching field and professional education, an adjusted GPA of 2.75 or better in this course work, and maintenance of overall GPA of 2.50 or better
- Must successfully complete all field experiences
- Must take courses in proper sequence
- Must meet requirements for admission to Student Teaching including passing score on the Georgia teacher certification test, Praxis II
MIDDLE GRADES EDUCATION B.S.Ed. 126 HOURS

See pages 26-27 for Core Curriculum, required of all students.

Area A - Essential Skills ................................................................................................................. 9 Hours
Area B - Institutional Options ............................................................................................................... 4 Hours
Area C - Humanities and Fine Arts .................................................................................................... 6 Hours
Area D - Science, Mathematics, and Technology .................................................................................. 11 Hours
Area E - Social Science ...................................................................................................................... 12 Hours
Area F - Courses Appropriate to Major ........................................................................................... 18 Hours
  Pre-professional Block (taken concurrently)
EDUF 2131 - Foundations of Education (3)
EDUF 2230 - Human Growth and Development (3)
SPED 2130 - Identification & Instruction of Exceptional Learners (3)
  Course work in one or more of the concentration areas from Area A, B, C, D, and E of the Core Curriculum (9)
Health and Physical Education Activities ............................................................................................. 4 Hours
  HLTH 1520 - Healthful Living (2)
  Physical Education Activities (2)
Orientation I & II ..................................................................................................................................... 2 Hours
Professional Education ......................................................................................................................... 24 Hours
  EDUF 3233 - Educational Psychology: Middle Grades (3)
  MGED 3131 - The Middle School (3)
  MGED 4638 - Middle School Seminar (3)
  MGED 4738 - Middle School Practicum (3)
  MGED 4799 - Student Teaching in Middle Grades Education (12)
Major Requirements ................................................................................................................................. 33 Hours
  Required courses to provide breadth of preparation (18)
MATH 5131 - Basic Ideas of Arithmetic (3)
MATH 5132 - Basic Ideas of Geometry (3)
MGED 3232 - Methods of Teaching Science in the Middle Grades (3)
MGED 3332 - Methods of Teaching Language Arts/Reading in the Middle Grades (3)
MGED 3432 - Methods of Teaching Social Studies in the Middle Grades (3)
MGED 3532 - Methods of Teaching Mathematics in the Middle Grades (3)

Concentrations
Primary Concentration: A minimum of 22 hours including courses in Areas A, B, C, D, E, and F of the Core Curriculum
Secondary Concentration: A minimum of 18 hours including courses in Areas A, B, C, D, E, and F of the Core Curriculum
Elective .................................................................................................................................................... 3 Hours

ADVISEMENT: Each student in Middle Grades Education is assigned to an advisor in the College of Education
Advisement Center for program planning and course scheduling. Telephone: (912) 681-0698. E-Mail: TOZ@gsvms2.cc.gasou.edu

PROGRAM ADMISSION CRITERIA: See B.S.Ed. Degree Requirements
  • Must be admitted into the Teacher Education Program

OTHER PROGRAM REQUIREMENTS:
  • Must meet all requirements for retention in the Teacher Education Program
  • Must earn a “C” or better grade on all courses in the teaching field and professional education, an adjusted GPA of 2.75 or better in this course work, and maintenance of overall GPA of 2.50 or better
  • Must successfully complete all field experiences
  • Must take courses in proper sequence
  • Must meet requirements for admission to Student Teaching including passing score on the Georgia teacher certification test, Praxis II

**Area F - Courses Appropriate to Major** 18 Hours
- Pre-professional Block (taken concurrently)
  - EDUF 2131 - Foundations of Education (3)
  - EDUF 2230 - Human Growth and Development (3)
  - SPED 2130 - Identification & Instruction of Exceptional Learners (3)
- Lab courses from a science area not taken in Area D: BIOL, PHYS, GEOL, CHEM (8)
- Advisor approved elective (1)

**Health and Physical Education Activities** 4 Hours
- HLTH 1520 - Healthful Living (2)
- Physical Education Activities (2)

**Orientation I & II** 2 Hours

**Professional Education** 21 Hours
- EDUF 3232 - Educational Psychology (3)
- SCED 3237 - Methods of Teaching Science in the Secondary School (3)
- SCED 4138 - Secondary Curriculum (3)
- SCED 4799 - Student Teaching in Secondary Education (12)

**Major Requirements** 36 Hours

**Biology Emphasis:**
- 16 hours in Biology beyond the introductory lab courses (16)
- 2 introductory lab courses in each of the non-emphasis science areas not taken in Areas D or F: PHYS, GEOL, and CHEM (16)
- Non-lab or lab science elective (3-4)

**Earth-Space Science Emphasis:**
- 16 hours in Geology beyond the introductory lab courses (16)
- 2 introductory lab courses in each of the non-emphasis science areas not taken in Areas D or F: BIOL, PHYS, and CHEM (16)
- Non-lab or lab science elective (3-4)

**Chemistry Emphasis:**
- 16 hours in Chemistry beyond the introductory lab courses, which include CHEM 1145 and CHEM 1146 (16)
- CHEM 2031 - Introduction to Research Methods in Chemistry (3)
- CHEM 2242 - Analytical Chemistry (4)
- CHEM 3341 - Organic Chemistry I (4)
- CHEM 3342 - Organic II or CHEM 2542 - Nutritional Biochemistry (4)
- CHEM 4890 - Chemistry Research Experience or CHEM 3610 - Junior Seminar (1)
- 2 introductory lab courses in each of the non-emphasis science areas not taken in Areas D or F: PHYS, GEOL, and BIOL (16)
- Non-lab or lab science elective (3-4)

**Physics Emphasis:**
- 16 hours in Physics beyond the introductory lab courses (16)
- 2 introductory lab courses in each of the non-emphasis science areas not taken in Areas D or F: BIOL, GEOL, and CHEM (16)
- Non-lab or lab science elective (3-4)

**Elective** 3 Hours

**ADVICEMENT:** Each student in Science Education is assigned to an advisor in the College of Education Advisement Center for program planning and course scheduling. Telephone: (912) 681-0698. E-Mail: TOZ@gsvms2.cc.gasou.edu

**PROGRAM ADMISSION CRITERIA:** See B.S.Ed. Degree Requirements

- Must be admitted into the Teacher Education Program

**OTHER PROGRAM REQUIREMENTS:**

- Must meet all requirements for retention in the Teacher Education Program
- Must earn a “C” or better grade on all courses in the teaching field and professional education, an adjusted GPA of 2.75 or better in this course work, and maintenance of overall GPA of 2.50 or better
- Must successfully complete all field experiences
- Must take courses in proper sequence
- Must meet requirement for admission to Student Teaching including passing score on the Georgia teacher certification test, Praxis II
SOCIAL SCIENCE EDUCATION  B.S.Ed.  126 HOURS

See pages 26-27 for Core Curriculum, required of all students.

Area A - Essential Skills ................................................................. 9 Hours
Area B - Institutional Options .................................................. 4 Hours
Area C - Humanities and Fine Arts ............................................. 6 Hours
Area D - Science, Mathematics, and Technology ....................... 11 Hours
Area E - Social Science .............................................................. 12 Hours
Area F - Courses Appropriate to Major ...................................... 18 Hours
  Pre-professional Block (taken concurrently)
  EDUF 2131 - Foundations of Education (3)
  EDUF 2230 - Human Growth and Development (3)
  SPED 2130 - Identification & Instruction of Exceptional Learners (3)
  Other courses for the major:
  HIST 1111 - World History I: Development of World Civilization (3)
  HIST 2630 - Historical Methods and Practice (3)
  Anthropology, Sociology, Geography, or Psychology (3)

Health and Physical Education Activities .................................. 4 Hours
  HLTH 1520 - Healthful Living (2)
  Physical Education Activities (2)

Orientation I & II ......................................................................... 2 Hours

Professional Education .......................................................... 21 Hours
  EDUF 3232 - Educational Psychology (3)
  SCED 3437 - Methods of Teaching Social Science in the Secondary School (3)
  SCED 4138 - Secondary Curriculum (3)
  SCED 4799 - Student Teaching in Secondary Education (12)

Major Requirements ................................................................. 36 Hours
  HIST/AS 3133 - U.S. Constitutional History (3)
  U.S. History Elective (3)
  European History Elective (3)
  HIST 4630 - Capstone Seminar in History (3)
  History Elective (3)
  Non-Western Elective (3)
  6 hours of upper division course work in each of the three additional social science areas: behavioral science, geography, and political science. Courses must include ANTH 3331: Cultural Anthropology and POLS 2201: State and Local Government. (18)

Elective ......................................................................................... 3 Hours

ADVISEMENT: Each student in Social Science Education is assigned to an advisor in the College of Education Advisement Center for program planning and course scheduling. Telephone: (912) 681-0698. E-Mail: TOZ@gsyms2.cc.gasou.edu

PROGRAM ADMISSION CRITERIA: See B.S.Ed. Degree Requirements

• Must be admitted into the Teacher Education Program

OTHER PROGRAM REQUIREMENTS:
• Must meet all requirements for retention in the Teacher Education Program
• Must earn a “C” or better grade on all courses in the teaching field and professional education, an adjusted GPA of 2.75 or better in this course work, and maintenance of overall GPA of 2.50 or better
• Must successfully complete all field experiences
• Must take courses in proper sequence
• Must meet requirements for admission to Student Teaching including passing score on the Georgia teacher certification test, Praxis II
SPANISH EDUCATION

B.S.Ed. 126 HOURS

See pages 26-27 for Core Curriculum, required of all students.

Area A - Essential Skills ................................................................................................................. 9 Hours

  *WFED 5799 - Internship for New Teachers (3)
  * Repeat for a second semester

Elective ....................................................................................................................................... 3 Hours

ADVICEMENT:  Mr. Ron McCall, P.O. Box 8134. Telephone: (912) 681-5449. E-Mail: rmccall@gsaix2.cc.gasou.edu

PROGRAM ADMISSION CRITERIA: See B.S.Ed. Degree Requirements
  • Must be admitted into the Teacher Education Program

OTHER PROGRAM REQUIREMENTS:
  • Must meet all requirements for retention in the Teacher Education Program
  • Must earn a “C” or better grade on all courses in the teaching field and professional education, an adjusted GPA of 2.75
    or better in this course work, and maintenance of overall GPA of 2.50 or better
  • Must successfully complete all field experiences
  • Must take courses in proper sequence
  • Must meet requirement for admission to Student Teaching including passing score on the Georgia teacher certification
    test, Praxis II

Mission and Objectives
The College of Health and Professional Studies (CHPS) is committed to building undergraduate and graduate programs of distinction. The academic units in the College include the departments of Family and Consumer Sciences, Health and Kinesiology, Recreation and Sport Management and the School of Nursing. This unique blend of diverse disciplines is enjoined to provide educational opportunity, inspired learning, creative and contemporary scholarship, and socially germane service activities.

The College of Health and Professional Studies prepares students who seek careers in professions that promote the health and well being of individuals, families, and communities.

Our programs of study are distinguished by instruction that extends beyond the classroom to clinical and field experiences. Our innovations and leadership in technology have enabled the College to transport curricula to remote sites and to place-bound professionals seeking opportunities for graduate education.

CHPS programs of study are also distinguished by their commitment to quality. Accreditation is recognized as one benchmark of program excellence and internal and external reviews are welcomed in the College’s quest for continuous improvement.

Our values guide our decision making.

We value our human resources. We believe that a collegial atmosphere encourages faculty collaboration and fosters a fertile learning environment for students.

We value teaching. Within the College, excellent teaching is rewarded and it is strengthened by research and service.

We value scholarship. We are resolute in our commitment to research excellence recognizing that it supports our service mission, our graduate programs and the development of our disciplines.

Decisions within the College are guided by a faculty desiring to help students develop as world citizens who value honesty, civility, innovation, diversity of perspective, and the dignity of work. It is our goal to graduate students who are equipped to master a competitive workforce and educated to build a better civilization.

Structure
The College of Health and Professional Studies is organized into four academic units: The Department of Family and Consumer Sciences, the Department of Health and Kinesiology, the Department of Recreation and Sport Management, and the School of Nursing. The College also houses a Student Services Center and a Computer Laboratory located in the Hollis Building. Magnolia Coastlands Area Health Education Center is co-located within the College’s Center for Rural Health and Research.

Department of Family and Consumer Sciences
Nancy Kingsbury, Chair
Professors: J. Beasley, N. Kingsbury
Associate Professors: D. Cone, L. Furr, J. Kropp
Instructors: J. Brown
Laboratory Teachers: B. Waters

Department of Health and Kinesiology
Charles J. Hardy, Chair
Professors: J. Blankenbaker, S. Gallemore, C. Hardy, F. Whitt
Associate Professors: B. Joyner, J. McLaughlin, J. McMillan, J. Stallings,
Instructors: D. Chaput, K. Pruitt, L. Rushing, K. Tsang, M. Waters
Part-time Instructors: K. Beene, J. Laird, T. Lane, T. Lambie, J. Ray, L. Wilhoite
Adjunct Instructors: T. German, D. Gruber, K. Johnson, S. Oswald

School of Nursing
June Alberto, Acting Chair
Professors: C. Hanson
Associate Professor: J. Alberto, E. Hapshe, D. Hodnicki, K. Koon, A. Scott-Stiles, C. Simonson
Assistant Professor: S. Abbott, E. Emerson, B. Hamilton, E. Hilde, A. Rushing, C. Shriver, B. Talley
Instructors: A. Anumolu, R. Gee, K. Rushing, J. Watkins, D. Wood

Department of Recreation and Sport Management
Henry Eisenhart, Chair
Professors: W. Becker, H. Eisenhart, P. Thomason
Associate Professors: J. Bigley, M. Li, D. Wagner
Assistant Professors: S. Atte, L. Blankenbaker, E. Broach, G. Gaudet, L. McCarthy, L. Mutter

Center for Rural Health and Research
Jay Strickland, Interim Director
M. Pevey, Coordinator, Senior Companion Program
V. Jones, Administrative Assistant, Tools for Life
R. Bowen, Staff Assistant, SEGRA
J. Daughtry, Staff Assistant, GA Family Link
Magnolia Coastlands AHEC - co-located within CRHR
M. Pung, Director
R. Reineheimer, Preceptor Coordinator

CHPS Student Services Center
Deborah Kittrell-Mikell, Coordinator
A. Dillard, Academic Advisor
M. Groover, Academic Advisor
J. Joyner, Administrative Assistant
Programs: Undergraduate
The following undergraduate degree programs and emphasis areas are offered by the academic units within the College:

Department of Health and Kinesiology
Bachelor of Science in Kinesiology
  Major in Exercise Science
  Major in Sports Medicine
Bachelor of Science in Health Science
  Major in Community Health
  Major in Health Behavior
Bachelor of Science in Medical Technology

The Bachelor of Science in Education with a major in Health and Physical Education is also supported by the department. For students seeking a coaching certification, a Coaching Behavior option under the minor in Exercise Science is also offered.

Department of Recreation and Sport Management
Bachelor of Science
  Major in Sport Management
  Major in Recreation

School of Nursing
Bachelor of Science in Nursing

Department of Family and Consumer Sciences
Bachelor of Science
  Major in Fashion Merchandising and Apparel Design
  Major in Child and Family Development
  Major in Nutrition and Food Science
  Major in Interior Design
  Major in Hotel and Restaurant Management

The Nutrition and Food Science Program has received approval by the American Dietetic Association Plan IV, V Competencies in the Dietetics Emphasis. The Bachelor of Science in Education with a major in Home Economics Education is also supported by the department.

Programs: Graduate
The following graduate degree programs are offered by the academic units within the College:

Department of Health and Kinesiology
Master of Science
  Major in Kinesiology
Master of Education
  Major in Health and Physical Education
Education Specialist
  Major in Health and Kinesiology
Emphasis Areas: Exercise Science, Sports Medicine, Sport Psychology and Coaching

School of Nursing
Master of Science in Nursing
  Major in Rural Community Health Nursing Specialist
  Major in Family Nurse Practitioner
  Women’s Health Nurse Practitioner Option
Post MSN Certificate

Department of Recreation and Sport Management
Master of Science
  Major in Recreation Administration
Master of Science
  Major in Sport Management

Advisement: Undergraduate and Graduate
Undergraduate students in the College of Health and Professional Studies are advised and registered in the CHPS Student Services Center which is located in Room 0107 in the Hollis Building. Graduate Students are advised by their academic department. Students receive correspondence regarding their advisement/regISTRATION time and site.

Experiential Learning Opportunities
Experiential Learning undergirds most of the professional programs in the College of Health and Professional Studies. Nursing and Sports Medicine majors spend significant time in clinical sites. Internships provide another opportunity for students to work under the supervision of a practitioner in the field. Whether a Recreation major assigned to a resort, or a Community Health major shadowing a public health educator, intern students learn valuable lessons from experts in their discipline.

Laboratories also provide CHPS students with experiential learning opportunities. Specially equipped labs in Biomechanics, Human Performance, Sport Psychology and Sports Medicine give students hands-on experience with the technology and equipment they will typically encounter in the work environment.

The Department of Family and Consumer Sciences operates a 50-seat restaurant supported by a state-of-the-art commercial kitchen where students gain experience in menu planning, food preparation, restaurant management and catering. A Lectra System Lab enables students to create computerized patterns using technology that is the gold standard in industry. Other experiential learning opportunities include Interior Design Studio experiences, Fashion Study Tours to the New York market and garment district, Historic Preservation Tours to Charleston and other sites, and opportunities to observe and work at the Family Life Center where students interact with preschoolers and experience first-hand the theory discussed in class or seminar sessions.

All CHPS academic units offer classes that use the CHPS computer laboratory. Located in the Hollis Bldg. and funded by student technology fees, the lab makes available word processing, spreadsheet, database, presentation, and graphics software; additionally, the lab is equipped with specialized software such as SPSS, ADAM, RECware, Epidemiological programs, and Nursing test and practice models. When not in use for instructional purposes, the lab is open for general student use between the hours of 8:00 a.m. and 5:00 p.m.

ADVISEMENT: Contact the College of Health and Professional Studies Student Services Center, Room 0107, Hollis Bldg., (912) 871-1931, for information regarding admission and advisement.

* The following courses are required of all students majoring in Nutrition and Food Science with a Dietetic Emphasis. These courses include: KINS2531/2511 - Human Anatomy and Physiology I, KINS 2532/2512 - Human Anatomy and Physiology II, SOCI 1101 - Intro to Sociology or ANTH 1102 - Intro to Anthropology, PSYC 1101 - Intro to Psychology, STAT 2231 - Intro to Statistics, and CISM 2130 - Computers and Applications. Any of these courses not taken in the Core or in Area F should be taken in the Non-Major Requirements area. Any available hours beyond these may be taken as Free Electives.

**ADVISEMENT:** College of Health and Professional Studies Student Services Center Room 0107, Hollis Building will advise B.S. in MT majors prior to transfer. After transfer to AASU, Department of Medical Technology faculty and staff will assume advisement responsibilities.

**PROGRAM ADMISSION CRITERIA:**

Students may be admitted to the program of study at Georgia Southern who satisfy the admission requirements of the University. Acceptance into the AASU program will be determined by the AASU evaluation committee and is based on completion of required courses, strength of application, GPA, and Science GPA. For information and application materials for the AASU program contact Lester Hardegree, Jr., Program Director, Medical Technology, 11935 Abercorn St., Savannah, GA 31419-1997, (912) 927-5204.

*If taken in area A or D, then use Fundamentals to complete area F, Guided Electives.

**If Principles of Physics I taken in area D, then CHEM 1145, CHEM 1146, or PHYS 2212/w Lab required to complete area F, Guided Electives.

Note: Sports Medicine Majors must complete Fundamentals to include MATH 1441, CHEM 1145, CHEM 1146, PHYS 2211/w Lab, and PHYS 2212/w Lab. Students not able to complete Fundamentals in areas A, D, and F will take these courses as part of their Guided Major Electives and/or as course substitutions in the major requirements - appropriate substitutions to be determined by the Health and Kinesiology Department Chair.

ADVICEMENT: Contact the College of Health and Professional Studies Student Services Center, Room 0107, Hollis Bldg., (912) 871-1931, for information regarding admission and advisement.

PROGRAM ADMISSION CRITERIA:

• Admission to Georgia Southern University
• An adjusted grade point average (GPA) of 3.0 or better on all course work attempted (transfer course work and work completed at Georgia Southern University are considered)
• Completed a minimum of 17 semester hours and enrolled in at least 15 hours during the time of application. Total hours must reflect at least 7 hours from Area D.
• A grade of C or better in all Area D and Area F course work
• A personal interview

To be considered for the Sports Medicine Major students must submit an application. Applications are available from the Health and Kinesiology Department Office, Hollis 2115. Students interested in the major should declare Pre-Sports Medicine as their major.

The BSN Program is a participant in the Georgia RN-BSN Articulation Model for registered nurses returning for the BS degree in nursing. After successful completion of 6 hours of specified junior level nursing courses, RN students will be awarded 29 credit hours in the nursing major.

**ADVICEMENT**: Pre-nursing majors are advised in the College of Health and Professional Studies Student Services Center, Hollis Building, Room 0107, (912) 871-1931. Nursing majors (BSN) are advised in the School of Nursing, Nursing Building II, Room 1004, (912) 681-5242. RN-BSN Track students are advised in the School of Nursing, RN-BSN Office, Nursing I, Room 1022, (912) 681-5994.

(Continued on next page)
NURSING

(CONTINUED)

PROGRAM ADMISSION CRITERIA: BSN Program applicants must meet the University entrance requirements as described in the University General Catalog. All applicants must apply for admission to both the University and the School of Nursing. Once admitted to the University, students should contact the Student Services Center or the School of Nursing for advisement. Requirements for admission into the School of Nursing are based on requirements in place at the time of application to the BSN Program. In order to be considered for the Bachelor of Science in Nursing degree program, applicants must have met the following minimum requirements by the application deadline:

1. Attained admission to Georgia Southern University.
2. Achieved a minimum adjusted grade point average of 2.7 on all course work attempted (including transfer course work and course work completed at Georgia Southern University).
3. Completed a minimum of 45 semester hours of required course work.
4. Completed the required 8 hour lab science courses and anatomy and physiology courses, and earned a grade of “C” or better in each course.
5. Returned the nursing application to the School of Nursing by the announced deadline.
6. For transfer students: Requested official transcript(s) for all college course work attempted and assured that the transcripts have been received in the Admissions Office by the announced deadline.

After admission, students must meet the following requirements before enrolling in a nursing course:

1. Maintained a minimum adjusted GPA of 2.5.
2. Satisfied the University System of Georgia Core Requirements (nonsystem transfer students must have completed a minimum of 60 hours of specified course work) and earned a grade of “C” or better in Math I, Lab Sciences, Statistics, Anatomy and Physiology I and II, Lifespan Growth and Development, and Microbiology.
3. Met School of Nursing clinical requirements including: (a) health history and physical examination; (b) essential performance standards for nursing practice; (c) immunization requirements including measles, rubella, and hepatitis B (see Department of Nursing Student Handbook for specific details); (d) rubella titer; (e) tuberculosis screening; (f) current American Heart Association CPR for Health care Professionals certification; (g) professional liability insurance, and (h) proof of personal health insurance.
4. Attended a School of Nursing orientation session.
5. For applicants holding a current valid health profession's license (e.g. LPN, EMT, RT, RD): Provided faculty with visualization and copy of the license.
6. Completed the Nurse Entrance Test (NET).

RN applicants:
To be considered for admission to the Bachelor of Science in Nursing degree program, RN applicants must have met the following minimum requirements by the application deadline:

1. Attained admission to Georgia Southern University.
2. Achieved a minimum adjusted grade point average of 2.7 on all course work attempted OR a minimum of 2.5 for provisional admission (see School of Nursing Student Handbook).
3. Completed a minimum of 45 semester hours of required course work.
4. Furnished proof of a valid current Georgia RN license.
5. Returned the nursing application to the School of Nursing by the announced deadline.
6. Met the requirements of the Georgia RN-BSN Articulation Model.

RN applicants must have met the following requirements before enrollment in the first nursing course:

1. Maintained a minimum adjusted GPA of 2.5.
2. Provided faculty with visualization and copy of a current valid Georgia Registered Nurse license.
3. Met School of Nursing clinical requirements including: (a) health history and physical examination; (b) immunization requirements including measles, rubella, and hepatitis B (see School of Nursing Student Handbook for specific details); (c) rubella titer; (d) tuberculosis screening; (e) current American Heart Association CPR for Health care Professionals certification; (f) professional liability insurance, and (g) proof of personal health insurance.

OTHER PROGRAM REQUIREMENTS:
Students are responsible for:
• transportation for off-campus practicums and field trips.
• the purchase of uniforms, white shoes, stethoscope, and sphygmomanometer.
• maintaining personal health and accident insurance coverage and professional liability insurance.
• fees for selected achievement tests during junior and senior years.
• additional expenses which may include the cost of a nursing pin, academic regalia rental, and state board licensing examinations fees.

For additional information, contact the BSN Program secretary, School of Nursing, Nursing Building II, Room 1004, (912) 681-5242. RN students wishing to pursue the BSN degree should contact the RN-BSN Completion Track secretary, Nursing Building I, Room 1022, (912) 681-5994.

The School of Nursing Programs are accredited by the commission on Collegiate Nursing Education and the National League for Nursing Accrediting Commission and approved by the Georgia Board of Nursing. The National League for Nursing Accrediting Commission (NLNAC) is a resource for information about tuition, fees, and length of program. For specific information contact the NLNAC at 350 Hudson Street, New York, N.Y., 10014, 1-800-669-9656.

Mission and Objectives

The College of Liberal Arts and Social Sciences includes those academic disciplines that explore human society, behavior, communication, and artistic achievement. Three areas of knowledge essential to this purpose are the humanities, fine arts, and social sciences. The College also recognizes that a vital part of life is the work that one does, and so it encompasses a number of programs that offer career preparation. The goals of the College of Liberal Arts and Social Sciences are to

- offer programs of study in the liberal arts, primarily the B.A. degree
- offer preparation in the professions, often leading towards advanced degrees, chiefly in the B.S. degree
- offer training in selected vocations
- infuse the college’s professional vocational programs with a solid grounding in the liberal arts
- provide core curriculum and elective courses for all the students of Georgia Southern University and in other ways to promulgate humanistic values on the campus.

Structure

The College of Liberal Arts and Social Sciences includes ten departments:

Department of Art
Richard Tichich, Chair
Professors: S. Bayless (Emeritus), F. Gernant (Emerita), J. Hines, J. Olson (Emeritus), R. Remley, (Emerita), T. Steadman, R. Tichich
Associate Professors: J. Rhoades Hudak, H. Iler, B. Little, O. Onyile, J. Pleak, R. Sonnema
Assistant Professors: P. Carter, J. McGuire, P. Walker

Department of Communication Arts
Hal Fulmer, Chair
Professors: D. Addington (Emeritus), M. Shytes (Emerita)
AssociateProfessors: G. Dartt, A. Fulmer, C. Geyerman, R. Johnson (Emeritus), P. Pace, R. Smith, E. Wyatt
Temporary Instructors: C. Feldman, M. Len-Rios

Department of Literature and Philosophy

John Parcels, Acting Chair

The former Department of English and Philosophy is now the Department of Literature and Philosophy and the Department of Writing and Linguistics. Curtis Ricker is the Associate Dean of English and Philosophy.

Department of Literature and Philosophy

Professors: J. Humma, J. Nichols, F. Sanders
Assistant Professors: R. Costomiris, M. Cyr, V. Daigre, M. Fox, G. Kundu, T. Whelan

Department of Writing and Linguistics

Larry Burton, Acting Chair

Emerita/Emeritus-English and Philosophy
Professors: H. Cate, P. Gillis, L. Huff, P. Spurgeon, A. Whittle
Associate Professors: B. Bitter, P. LaCerva, D. Lanier, E. Little
Assistant Professors: G. Hicks, C. Hoff, A. Hooley, E. James, D. Jones, E. Mills, S. Rabitsch
Instructor: N. Huffman

Department of Foreign Languages

Donnie Richards, Acting Chair

Professors: L. Bouma (Emeritus), Z. Farkas (Emeritus), C. Krug, J. Schomber, D. Seaman, N. Shumaker, J. Weatherford
Associate Professors: D. Alley, J.P. Carton, D. Richards
Assistant Professors: N. Barrett (Emerita), L. Borowsky (Emerita), R. Haney, J. Hecker, M. Hidalgo, C. Johnson, H. Kurz, M. Lynch (Emerita), D. Martinez-Conde, J. Suazo
Temporary Assistant Professor: B. Small
Instructors: L. Collins, D. Osanai
Temporary Instructor: G. Dimetry
Part-time Instructors: M. Arancibia, N. Eisenhart, Y. B. Tian
Department of History
Jerry Steffen, Chair
Professors: J. Buller, V. Egger, J. Fraser, H. Joiner, C. Moseley (Emeritus), G. Rogers (Emeritus), F. Saunders (Emeritus), G. Shriver, J. Smith (Emerita), J. Steffen, C. Thomas, D. Ward (Emeritus), A. Young
Associate Professors: R. Barrow (Emeritus), C. Ford (Emerita), D. Rakestraw, C. Roell, A. Sims, J. Woods

Department of Music
David Mathew, Acting Chair
Professors: H. Arling, M. Braz, N. da Roza, J. Graham (Emeritus), D. Graves, D. Mathew, D. Pittman
Associate Professors: L. Cionitti, G. Harwood, S. McClain, J. Robbins (Emeritus), D. Wickiser (Emeritus), W. Schmid
Assistant Professors: C. Bryan, R. Caldwell, M. Fallin, K. Hancock, T. Pearsall
Visiting Instructors: R. Berry, R. Kho, C. Purdy, L. Tomlin
Staff Accompanist: M. Gutierrez Springfield

Department of Political Science
Lois Duke Whitaker, Chair
Political Science
Associate Professors: R. Dick (Emeritus), G. Harrison, S. Jallow, S. Ratan, D. Sabia, S. Tracy, G. Waters
Assistant Professors: R. Davis, F. Ferguson, C. Gossett, K. McCurdy, P. Novotny, G. Okafor
Part-Time Assistant Professors: F. Willis, A. Jones
Temporary Instructors: K. Cook, D. Martin
Justice Studies
Professor: G. Cox
Associate Professors: S. Tracy, G. Waters
Assistant Professors: R. Davis, F. Ferguson
Temporary Assistant Professor: G. Armstrong
Part-Time Assistant Professors: M. Beberman, M. Classens, F. DiMarino

Department of Psychology
Richard Rogers, Acting Chair
Associate Professors: W. McIntosh, J. Stein, D. Webster

Department of Sociology and Anthropology
Sue Moore, Chair
Anthropology
Professors: C. Black, R. Branch, R. Greenfield (Emeritus), H. Mobley (Emeritus), S. Moore, R. Persico
Associate Professors: A. Goke-Pariola, S. Hale, B. Hendry, N. Shumaker
Assistant Professor: W. Young

Sociology
Professors: C. Black, R. Branch, R. Greenfield (Emeritus), H. Mobley (Emeritus)
Associate Professors: H. Kaplan, W. Smith, J. Strickland
Assistant Professors: P. Hargis, D. Hill, S. Kinsella (Temporary), L. Pohlmam, G. Pratt, P. Zhang (Temporary)
Temporary Instructors: G. Guzzo, J. Rosen

Programs: Undergraduate
Bachelor of Arts (B.A)
General requirements:

- Fulfillment of the core curriculum (including area F courses which are peculiar to the individual major) as well as 2 hours of physical education, 2 hours of health, and 2 orientation courses.
- Completion of the 2002 level course of a foreign language.
- A minimum of 21 hours in the major field with half of those hours in residence (only 30 hours of upper-division course work in the major may count toward the minimum of 126 hours for graduation).
- A minimum of 15 hours in a minor field with at least 9 hours in the upper division. Second minors may be chosen, approved by the advisor before the student applies for graduation, and both minors may be listed on the transcript.
- A minimum 2.0 adjusted grade point average in upper-division hours in the major discipline. A minimum of 126 hours for graduation. Departments may establish program admission criteria and additional grade requirements; these are listed along with the course requirements for each major.

The College of Liberal Arts and Social Sciences offers Bachelor of Arts Degrees in the following majors: anthropology, art, fine arts, communication arts, economics (emphasis in international economics), English, French, German, history, music, philosophy, political science, psychology, sociology, Spanish, and theatre.

Minors
The minor (15 hours of courses in a single field or interdisciplinary field, at least 9 of which are upper division courses) for the B.A. Degree may be chosen from any department or college in the University which offers a minor with one exception. An English major may not have a writing minor. The minor should be selected and communicated to the advisor by the beginning of the junior year.

Bachelor of Fine Arts (B.F.A.)
General requirements:

- Fulfillment of the Core Curriculum (including area F courses which are peculiar to the individual major) as well as 2 hours of physical education, 2 hours of health, and 2 hours of orientation courses.
- Completion of 3 hours of electives outside the art department.
- Completion of a minimum of 21 hours from exploratory studio art courses.
- Completion of 9 hours of approved art history courses.
- Completion of 27 hours from a studio concentration.
- A minimum of 126 hours for graduation.

The department may establish program admission criteria and additional grade requirements; these are listed along with the course requirements for each major.
Bachelor of Music (B.M.)
General requirements:
• Satisfactory entrance audition
• Completion of the core curriculum as well as 2 hours of physical education, 2 hours of health, and 2 hours of orientation courses
• Completion of all requirements in music
• A minimum of 126 hours for graduation.

The department may establish program admission criteria and additional grade requirements; these are listed along with the course requirements for each major.

The majors available in the Bachelor of Music degree are composition, music education, and performance.

Bachelor of Science (B.S.)
General requirements:
• Completion of the core curriculum, area F courses specific to the major, as well as 2 hours of physical education, 2 hours of health, and 2 hours of orientation courses
• Departments may require the completion of the 2001 course of a foreign language or one 3 hour course with international content, or in some degrees, the student may select one of the two options. See specific degree programs to determine what is required
• A maximum of 40 semester hours of courses in the major, at least 21 at the upper division level
• A minimum 2.0 adjusted grade point average in required upper-division hours in the major discipline
• A minimum of 126 hours for graduation.

Departments may establish program admission criteria and additional grade requirements; these are listed along with the course requirements for each major.

The College of Liberal Arts and Social Sciences offers Bachelor of Science Degrees in the following majors: broadcasting, journalism, political science, psychology, public relations, sociology, and speech communication.

Bachelor of Science in Justice Studies (B.S.J.S.)
General requirements:
• Completion of the core curriculum, area F courses specific to the major, as well as 2 hours of physical education, 2 hours of health, and 2 hours of orientation courses
• Completion of 21 hours of upper-division courses from several disciplines
• Completion of 18 hours of upper division justice studies courses
• Completion of 3 hours from a course with significant international content or the 2001 level of a foreign language
• Completion of 18 hours of free electives
• A minimum 2.0 adjusted grade point average in all upper division requirements for graduation
• A minimum of 126 hours for graduation.

Programs: Pre-Professional
Pre-Law
No specific major is required for law school entry. Admission to law school is determined by a student’s grades, courses, letters of reference, life experiences, and score on the Law School Admissions Tests (LSAT). The three pre-law advisors with current information regarding law schools are Professor Lynda Hamilton, Department of Accounting and Law; Professor Rebecca Davis, Department of Political Science; and Professor Ruth Thompson, Department of History. Pre-law students should contact one of the pre-law advisors to assist them in planning a course of study that will enhance their ability to pursue a career in law.

Programs: Graduate
Master of Arts with the major in English, History, Political Science, and Sociology
Master of Fine Arts
Master of Music
Master of Public Administration
Master of Science with the major in Psychology

Advisement for Liberal Arts and Social Science Majors
Undergraduates
New fall freshman majors (except music majors) are advised in the Academic Advisement Center in the Williams Center. All music majors are advised in the Music Department. All other CLASS undergraduates are advised in their major departments. Before the first quarter of the junior year, students must plan a satisfactory major program with their major advisor.

Graduates
Graduate students are advised in their major departments.

Experiential Learning Opportunities
Internships typically involve one semester of professional experience. Academic requirements and the award of academic credit for internships vary by department.

Cooperative education experiences are coordinated by the Office of Career Services. Students must have earned a 2.5 AGPA and have earned 30 quarter hours of credit to apply. See Cooperative Education for more information.

Area E - Social Science .................................................................................................................................................. 12 Hours
Area F - Courses Appropriate to Major .......................................................................................................................... 18 Hours

Required: (0-6)

- GRMN 2001 - Intermediate GRMN I or equivalent (3)
- GRMN 2002 - Intermediate GRMN II or equivalent (3)

Elective Courses: (12-18 hours)

Elementary Foreign Language (ARAB, CHIN, FREN, FULA, GRMN [except for GRMN begun at the pre-college level], JAPN, KORN, LATN, RUSS, SPAN, YORU 1001, 1002; FREN 1050, SPAN 1050; Intermediate FORL courses 2001, 2002, ANTH 1102, ART 2531, ART 2532, SPCM 2331, FILM 2331, INTS 2120, MUSC 1101, PHIL 2130, RELS 2130, THEA 2331, HIST 1111, GEOG 1130, ENGL 2111, ENGL 2212, HUMN 2321, HUMN 2322, PSYC 1101; SOCI 1101

Health and Physical Education Activities ...................................................................................................................... 4 Hours

- HLTH 1520 - Healthful Living (2)
- Physical Education Activities (2)

Orientation I & II ............................................................................................................................................................ 2 Hours

Major Requirements ........................................................................................................................................................... 24 Hours

Specific Requirements (4 hours):

- FORL 3510 - Futures in Foreign Languages (1)
- FORL 3533 - Introduction to Language (3)

Twenty-four hours of German from upper division offerings, at least 12 of which must be at the 4000 level and above.

Choose 6 hours of literature courses:

- GRMN 3210 - German Songs (1)
- GRMN 3220 - German Poetry (2)
- GRMN 3230 - Introduction to Literature (3)
- GRMN 3231 - Texts and Media (3)
- GRMN 5230 - Survey of German Literature I (3)
- GRMN 5231 - Survey of German Literature II (3)
- GRMN 5232 - German Prose Works (3)

Choose 3 hours from culture and civilization courses:

- GRMN 3330 - Germany Today (3)
- GRMN 3530 - Business German (3)
- GRMN 4330 - German Heritage (3)
- GRMN 5530 - German for the Professions (3)

Choose 15 hours from the following:

- GRMN 3030 - Selected Topics in German (3)
- GRMN 3090 - Selected Topics in German (3)
- GRMN 3110 - Advanced Discussion Topics (1)
- GRMN 3120 - German Phonetics (2)
- GRMN 3130 - Conversation (3)
- GRMN 3132 - Grammar Review (3)
- GRMN 3134 - Writing in German (3)
- GRMN 3195 - Intermediate Conversation (in Germany) (3)
- GRMN 3395 - Contemporary Germany (in Germany) (3)
- GRMN 4790 - Internship in Germany (3)
- GRMN 4890 - Directed Independent Study in German (3)
- GRMN 5030 - Great Authors (3)
- GRMN 5195 - Adv German Conversation (in Germany) (3)
- GRMN 5196 - German Language Studies (in Germany) (3)
- GRMN 5233 - German Drama (3)
- GRMN 5395 - German Landeskunde (in Germany) (3)

Electives ........................................................................................................................................................................... 15-18 Hours

Required Minor ................................................................................................................................................................. 15 Hours

ADVICEMENT: Department of Foreign Languages, Forest Drive Building, (912) 681-5181.

OTHER PROGRAM REQUIREMENTS:

- Students must earn a minimum grade of “C” in each upper division course in German.
- Students must complete a minimum of 12 hours of German at the 4000 level and above.
FOREIGN LANGUAGES  B.A. IN SPANISH  126 HOURS

**Minor - Required. Must be approved by advisor** ................................ 15 Hours

**Electives (includes any elementary-level foreign languages)** .................. 21 Hours

**ADVICEMENT:** Department of History faculty, Forest Drive Building, (912) 681-5586.

**PROGRAM REQUIREMENTS:**

- Must have a grade of “C” or above in every History course in the major.
- No more than 30 hours of upper division course work in the major may count toward the minimum of 126 hours required for graduation.
REQUIREMENTS FOR ALL MUSIC DEGREE PROGRAMS

Admission Requirements  
All prospective music majors must pass an entrance audition on the primary instrument.

Performance Requirements  
Each candidate for a music degree must complete applied music proficiency level requirements appropriate to the candidate’s specific degree plan as well as fulfill other performance requirements consistent with the degree plan or individual course objectives. The appropriate applied music teacher will assist in this area.

A jury examination will be taken on the major applied instrument during the examination week or shortly before the end of each semester. Students not majoring in music who take applied music lessons may take a jury examination upon the recommendation of the applied instructor.

Recital requirements: Prior to performing a graduation, junior or senior recital, the candidate must pass a recital approval examination no less than three weeks before the recital date.

Candidates for the B.A. degree may be invited to perform a full public recital in their senior year on their primary instrument.

Group Piano Placement/Exit Examination  
A placement examination in piano is required of all transfer students. Freshman music majors with prior keyboard experience should also take the placement examination. A maximum of four hours credit of group piano is allowed toward graduation requirements. All music majors must pass the group piano exit examination.

Music Theory Placement/Exit Examinations  
A placement examination in music theory is required of all transfer students. Freshman music majors may elect to take the placement examination. Placement exam results are for advisement purposes only. Each music major must pass (70 per cent or better) the music theory exit exam. No student may register for any upper-level theory course unless the theory exit exam is successfully completed.

The requirements stated above for exiting the lower-level theory sequence apply regardless of grades received in the lower level theory courses.

Departmental Grading Policy  
Music majors must earn a minimum grade of “C” in each music class which applies toward graduation. Students earning less than a “C” grade in a sequential course offering may not enroll in the next course in the sequence until the course is repeated and a grade of “C” or higher is earned. In addition, students must earn a grade of “C” or higher in a prerequisite course prior to registering for an advanced course in the same subject area.

Applied Music (Private Lessons)  
Instruction in various instruments and voice is offered. The fee for receiving one hour credit (25 minute lesson per week) is $18.75 per semester; the fee for receiving two hours credit (50 minute lesson per week) is $37.50; the fee for receiving three hours credit (75 minute lesson per week) is $56.25.

Enrollment in any applied music course, including Junior Recital and Senior Recital, is by permission of the instructor and/or the department chair of music only.

Additional Policies  
See the Department of Music Handbook for additional policies governing degree programs in music.

The Department of Music is a full member of the National Association of Schools of Music.

Mission and Objectives
The objectives of the Allen E. Paulson College of Science and Technology are to offer balanced programs of study in mathematics, computer science, technology, and the natural sciences; to offer preparation and education in mathematical, technological, and scientific basics for all students of Georgia Southern University; to provide a strong foundation for achievement of advanced degrees; and to provide increased knowledge and appreciation of nature, technology, the sciences and the scientific method.

Structure
Department of Biology
The Department of Biology emphasizes several areas of Biology including Cell Biology, Conservation Biology, Ecology, Evolution, Genetics, Medical Entomology, and Physiology. A faculty of 25 full-time faculty convey the excitement and importance of biological sciences to both non-major and major students. Southeast Georgia is a biologically rich and ecologically diverse area that encompasses coastline, wetlands, woodlands, and cities. Consistent with the mission of the University, the Biology Department seeks to expand horizons through outreach, preserve distinctive cultural and natural legacies, and maintain the integrity of South Georgia’s environment.

John E. Averett, Chair
Associate Professors: D. Drapalik, W. Irby, K. Maur (Emeritus), D. K. McLain, A. Pratt, O. Pung, D. Rostal, S. Vives
Assistant Professors: R. Chandler, Q. Fang, S. George, D. Gleason, A. Morrison-Sethlar, L. Wolfe
Adjunct Professors: J. Ertel, R. Hanson, J. Lee, R. Lee, D. Menzel, H. Sengbusch, S. Stevens, R. Walker, H. Windom

Department of Chemistry
The goal of the Department of Chemistry is to provide top quality instruction and training to those whose chosen professions require a strong background in chemistry. This includes those whose specific interests are in making chemistry their career, as well as those whose interests lie in closely related areas.

Bill W. Ponder, Chair
Professors: R. Boxer, B. Ponder
Associate Professors: T. Deal, M. Hurst, C. Kellogg, R. Nelson, J.A. Orvis, N. Schmidt
Assistant Professors: P. Cerovicz, R. Cox, A. Dobson, J. D. Jenkins, J. LoBue, J. N. Orvis, J. Rice, C. Whitlock

Department of Geology and Geography
The department strives to offer a balance of teaching, research, and service to the region served by the University, and beyond. Areas of focus among geology faculty include igneous and metamorphic petrology, paleontology, sedimentology, structural geology, hydrogeology, environmental geology, and natural history of the Coastal Plain. Geography faculty interests include climatology, geomorphology, human and cultural geography, and biogeography. Both programs emphasize computer applications, including Geographic Information Systems.

Dallas Rhodes, Chair
Professors: G. Bishop, D. Good, S. Hanson (Emeritus), V.J. Henry, F. Rich
Associate Professors: J. Battle, J. Darrell, R. Hulbert, K. Vance
Assistant Professors: P. Asher, S. Couch, J. Reichard, M. Welford
Adjunct Professor: J. Bozeman
Adjunct Assistant Professor: C. Alexander, M. Evans

Institute of Arthropodology and Parasitology
The Institute of Arthropodology and Parasitology (IAP) is an interdepartmental organization that provides an identity to an area of exceptional research and teaching strength on campus. Members of the IAP include faculty and students from several departments including biology, geology, geography, history, and psychology. It also has three-full time scientists and support personnel. Membership in the IAP is open to any researchers with an interest in arthropods (insects, mites, ticks, spiders, crabs, and other joint-legged animals) and parasites (viruses, bacteria, fungi, Protozoa, worms, etc.). Several members are especially interested in diseases of humans, livestock, wildlife, and plants. The IAP serves as a center where persons with these types of interests can interact and focus on research and applied problems. The IAP is also the home of the U.S. National Tick Collection in association with the Smithsonian Institution in Washington D.C.

James H. Oliver, Director and Callaway Professor of Biology
Professors: J. Oliver, J. Keirans
Assistant Professor: L. Durden

Department of Mathematics and Computer Science
The primary interests of the Department of Mathematics and Computer Science are: mathematics, mathematics education, and computer science. The Department offers undergraduate degrees in both mathematics and computer science as well as an M.S. degree in mathematics. Concentrations in the M.S. degree program are available in applied math, statistics, and computer science. The Department also supports a very strong undergraduate B.S. Ed. degree in mathematics. The Department’s Computer Science program is accredited by the Computer Science Accreditation Commission (CSAC) of the Computing Sciences Accreditation Board, Inc. (CSAB) and is one of only three accredited Computer Science programs in Georgia.
The Department has fifty-nine full-time faculty members. Thirty-eight of these are regular Mathematics and Computer Science faculty members while twenty are joint Mathematics and Learning Support faculty members.

Vacant - Chair
Professors: A. Barbour, C. Champ, J. Davenport, R. Hathaway, A. Pierce, J. Solomon, A. Sparks, D. Stone, N. Wells (Emeritus)
Associate Professors: M. Abell, M. Aulick, C. Christmas (Emeritus), Y. Hu, C. Kariotis (Emeritus), E. Lavender, X. Li, B. McLean, J. Rafler, L. Roberts, C. Xu
Part-Time Instructors: K. Barrs, D. Raithe, J. Strozzo

Department of Military Science
The Georgia Southern University Military Science Department is charged with managing the Army’s Reserve Officer Training Corps (ROTC) program on campus. Army ROTC provides college-trained officers for the U.S. Army, the Army National Guard, and the U.S. Army Reserve. It does this through a combination of college courses in military science and summer training sessions. The Professor of Military Science at GSU also administers the programs at Armstrong State and Savannah State Colleges.

Brian K. Knox, Chair
Professor: B. Knox
Assistant Professor: R. West
Instructors: I. Murray, S. Mulig, R. Smith, N. Greene, K. Quarles

Department of Physics
The Department of Physics has 11 faculty, seven of which are research faculty. There are currently seven different research projects in the areas of Astronomy and Theoretical and Experimental Atomic, Molecular, and Optical Physics. Our goal is to continue to provide a superior education to GSU students and to conduct state of the art research in Astronomy, Laser Physics, and Theoretical Physics.

Marvin G. Payne, Chair
Professors: M. Payne, B. Zellner, J. Zhang
Associate Professors: C. Dean, L. Deng, M. Edwards, W. Grant, V. Hassapis (Emeritus), C. Mobley (Emeritus), J. Rogers (Emeritus)
Assistant Professor: J. Hughes, X. Wang
Temporary Assistant Professor: L. Ma
Adjunct Instructor: T. Deal

School of Technology
The School of Technology consists of 32 faculty members. This unit focuses on offering students a hands-on educational experience in a variety of technical and industrial disciplines including civil engineering technology, electrical engineering technology, mechanical engineering technology, industrial engineering technology, building construction and contracting, printing management, apparel manufacturing, industrial management, and through the Engineering Studies program, an opportunity to complete the first two years of an engineering degree.

The Bachelor of Applied Science (B.A.S.) degree provides articulation with technical institutes by permitting transfers of credit from A.S. degree programs. The Master of Technology degree provides a master’s level education in a variety of concentration options.

Vacant, Director
Professors: M. Degenys, R. Hickman (Emeritus), J. Holmes, G. Jones, J. Karrh (Emeritus), S. Laskin (Emeritus), J. Manning (Emeritus), W. Meeks, J. Wallace, S. Williams
Associate Professors: D. Armel, G. Clark, N. Das, M. Davoud, L. Fine, R. Hanson, V. Kouch, H. Mortensen, S. Naveea, C. Perry, R. Redderson (Emeritus), P. Waldrop, D. Williams
Assistant Professors: C. Bearden, D. Duncan, D. Lambert, M. Malek, C. Parrish-Wood, W. Zabel

Programs: Undergraduate
The Department of Biology offers a Bachelor of Science in Biology and a Bachelor of Arts with a major in Biology.

The Department of Chemistry offers a Bachelor of Science in Chemistry and a Bachelor of Arts with a major in Chemistry.

The Department of Geology and Geography offers a Bachelor of Science with a major in Geology, a Bachelor of Science with a major in Geography, and a Bachelor of Arts with a major in Geology.

The Department of Mathematics and Computer Science offers a Bachelor of Science in Mathematics, a Bachelor of Science with a major in Computer Science and a Bachelor of Science with a major in Mathematics.

The Department of Physics offers a Bachelor of Science in Physics and a Bachelor of Arts with a major in Physics.

The School of Technology offers a Bachelor of Science in: Civil Engineering Technology; Electrical Engineering Technology; Industrial Engineering Technology; Mechanical Engineering Technology; Construction; Manufacturing with a major in Apparel Manufacturing; Manufacturing with a major in Industrial Management; Printing Management; and the Bachelor of Applied Science with a major in Technology. Through the Engineering Studies program, it is possible to complete the first two years of engineering education and transfer to Georgia Tech or other engineering schools.

Advisement
Students are assigned an academic advisor based on their proposed major and are advised in their assigned advisor’s office. Undeclared majors are advised in the Academic Advisement Center. The advisor approves the student’s schedule prior to registration each quarter. Final responsibility for meeting degree requirements rests upon the student.

All Georgia Southern students will complete the Core Curriculum as outlined. All majors have specific mathematics and science requirements. Therefore, it is to the student’s advantage to fit these specific requirements into the Core Curriculum whenever possible. In this way, both the Core Curriculum and the requirements of the major may be met.
Experiential Learning Opportunities

A Cooperative Education (co-op) Program is provided on an optional basis in all engineering studies and technology majors and in selected science, mathematics, and computer science majors. The co-op plan may be student, college, or industry initiated. Normally, students must have earned 30 quarter hours of credit toward their major, have a GPA of 2.5 or better, and be willing to participate in no less than two alternating co-op work assignments. Salaries and benefits are determined by the employer and normally increase as the program proceeds. Board and lodging are the responsibility of the student, but in many cases the employers provide assistance in locating suitable accommodations. Dormitory rooms and meal plans are available to students working near the campus.

Co-op students register for a designated Special Problems/Co-op course each quarter that they are on a work assignment. Students should refer to their advisor for the appropriate course designation. Co-op students in designated majors may receive one quarter hour credit each quarter they are on a work assignment. An S/U grade is assigned for each work quarter on the basis of the employer’s evaluation only.

No commitment is made by either the student or employer for full-time employment upon completion of the co-op program. However, a company may offer employment upon graduation.
BIOLOGY  B.A.  126 HOURS

See pages 26-27 for Core Curriculum, required of all students.

Area A - Essential Skills .................................................................................................................. 9 Hours

  - MATH 2320 - Intro. to Linear Algebra# (2)
  - MATH 2332 - Mathematical Structures (3)
  - Second course in Lab Science sequence (4) (first course in sequence assumed taken in Area D1)

* The Computer Science major will take either Pre-calculus or Calculus I in Area A. If he/she takes Calculus I, 3 of the 4 hours credit will count in Area A and 1 hour in Area F. The Computer Science major will take a calculus course in Area D, and 3 of the 4 hours credit will count in Area D and 1 hour in Area F.

*Although a mathematics course, this is a lower-division course and may be taken as an Area F elective.*

**Major Requirements**  
- 40 Hours

**Mathematics And Statistics (6)**
  - MATH 3337 - Probability (3)
  - STAT 5531 - Statistical Methods I (3)

**Computer Science (34)**

**Required courses**
  - CSCI 3230 - Data Structures (3)
  - CSCI 5232 - Operating Systems (3)
  - CSCI 5236 - Theoretical Foundations (3)
  - CSCI 5240 - Computer Organization/Architecture (4)
  - CSCI 5320 - Data Communications and Networking (3)
  - CSCI 5432 - Database Systems (3)
  - CSCI 5434 - Theory of Programming Languages (3)
  - CSCI 5530 - Software Engineering (3)
  - Elective courses: (choose any three from the list below)
  - CSCI 5230 - Discrete Simulation (3)
  - CSCI 5234 - Parallel Processing (3)
  - CSCI 5330 - Algorithm Design & Analysis (3)
  - CSCI 5334 - Object-Oriented Programming (3)
  - CSCI 5336 - Applied Numerical Methods (3)
  - CSCI 5430 - Artificial Intelligence (3)
  - CSCI 5432 - Database Systems (3)

**Electives**  
- 11 Hours

**Foreign Language Requirement: Third Course**  
- 0 - 3 Hours

**ADVISEMENT:** Mathematics and Computer Science faculty, Math, Physics, Psychology room #3008, 681-5390

**PROGRAM ADMISSION CRITERIA:** A student must have completed CSCI 1302 - Programming Principles II with a grade of “C” or above in order to be accepted as a major in Computer Science. A student declaring an intent to major in Computer Science but who has not yet completed CSCI 1302 with a grade of “C” or above will be declared a “Pre-Computer Science” major.

**OTHER PROGRAM REQUIREMENTS:** A grade of “C” or above is required for each CSCI, MATH, and STAT course taken in the major. This applies to all courses (lower- and upper-division).
**MATHEMATICS**

See pages 26-27 for Core Curriculum, required of all students.

MILITARY SCIENCE  NON-DEGREE  20 HOURS

ARMY RESERVE OFFICERS’ TRAINING CORPS (ROTC)

All students entering Military Science courses should have a statement from a physician attesting that the student is capable of participating in strenuous physical activities. This statement must be no more than one year old from time of entry. Coordination for an appointment may be made through the Military Science Department if the student cannot obtain one from his or her personal physician.

Health and Physical Activities

Students enrolled in 3000 and 4000 level Military Science courses are required to participate in physical education 3 hours a week as part of those courses.

Specific Requirements

Basic Course Credit

Students may take four 2-hour courses or Basic Military Skills Practicum (5 hours)

MSCI 1121 - Introduction to Military Science (2)
MSCI 1122 - Basic Military Leadership (2)
MSCI 2121 - Basic Military Skills (2)
MSCI 2122 - Basic Military Tactics (2)
OR
MSCI 2731 - Basic Military Skills Practicum (5)

See next page for other options for completing the Basic Course.

Advanced Course Credit

MSCI 3131 - Advanced Tactics I (3)
MSCI 3132 - Advanced Tactics II (3)
MSCI 3731 - Advanced Military Skills Practicum (3)
MSCI 4131 - Leadership/Management Seminar (3)
MSCI 4132 - Transition to Lieutenant (3)

ADVISEMENT: Department of Military Science, Military Science Bldg., 681-5320

PROGRAM ADMISSION CRITERIA: The Basic Course enrollment is open to all medically qualified college students. Advanced Course enrollment is restricted to qualified students who have met the Basic Course requirements. Army regulation and medical requirements must be met for the 3000 and 4000 level courses. See advanced course eligibility requirements.

OTHER PROGRAM REQUIREMENTS:

- Basic Computer Literacy
- Written and Oral Communication Skills
- Military History

U. S. ARMY RESERVE OFFICER TRAINING PROGRAM

The Department of Military Science is a Senior Division Reserve Officer Training Corps (ROTC) Instructor Group staffed by Regular Army personnel. The department provides a curriculum that qualifies the college graduate for a commission as an officer in the U. S. Army, U. S. Army Reserve or the Army National Guard. Enrollment is open to all students who are eligible to pursue a commission in the U. S. Army. The Reserve Officer Training Corps program is designed to provide students with the knowledge and practical experience in leadership and management that will be useful in any facet of society. Additionally, each student is provided a working knowledge of the organization and functioning of the Department of Defense and the role of the U. S. Army in national security and world affairs.

The Reserve Office Training Corps program is divided into two main phases: the basic course, which is normally pursued during the freshman and sophomore years, and the advanced course, which is taken during the junior and senior years.
Basic Course
The Military Science Basic Course teaches the organization and roles of the U.S. Army and introduces essential background knowledge of customs and traditions, leadership, map reading, small unit organization, and marksmanship. These courses have the objective of developing the student’s leadership, confidence, self-discipline, integrity, and sense of responsibility. There is no obligation to continue in Reserve Officer Training Corps as a result of taking any Basic Course classes. However, the Basic Course classes need to be taken to qualify for entrance into the advanced program. If all the basic course classes are not taken, the student may elect to attend Camp Challenge to qualify for the advanced program. (See Two-Year Program vs the Four-Year program)

Advanced Course
The Military Science Advanced Course is taken during the junior and senior years. Students learn land navigation, communications, small unit tactics, patrolling, military management, staff operations, logistics, army administration, military law, ethics, and professionalism. Additionally, students must satisfy Professional Military Education (PME) requirements with courses in the following areas: communications skills, computer literacy, and military history. Courses mentioned above, taken in pursuit of your degree, will satisfy these PME requirements. Students must meet eligibility requirements and sign a contract for commissioning with the U.S. Army.

The general objective of these courses is to produce junior officers who, by education, training, attitude, and inherent qualities, will be the future officer leadership of the U.S. Army, U.S. Army Reserve, or the Army National Guard.

Advanced Summer Camp
Students contracting to pursue the advanced course are required to attend advanced summer camp, normally between their junior and senior academic years. Students attending this camp are paid and given travel allowance from their home to camp and back. Advance Camp can count for 5 general elective credits.

Eligibility For Advanced Course Enrollment
For selection and retention in the advanced course, a student must have completed the basic course or received placement credit for the basic course (see paragraph below). The contracting student must be physically qualified, be an academic junior, have a GPA of 2.0 or better, and must demonstrate a potential for further leadership development.

Generally, veterans, JROTC graduates (with at least three years of high school JROTC), and students who have completed military science courses in the military preparatory schools and junior colleges are eligible for advanced placement. The entire basic course may be credited. The amount of credit to be awarded is at the discretion of the Professor of Military Science.

Completion of or placement credit for the basic course is a prerequisite for admission into the advanced course.

Students who are given placement credit for any portion of the basic course must be academically aligned as a junior in order to contract into the advanced course.

Two Year Program Versus The Four Year Program
The Reserve Officer Training Corps program is designed as a 4-year course of study. However, students who are not eligible for advanced placement and who have not completed the basic course program may still become qualified for the advanced program. They must satisfactorily complete a basic summer camp, of six weeks duration, during the summer between their sophomore and junior years. Students attending this basic camp (Camp Challenge) at a regular army post are paid and given a travel allowance from their home to camp and return. Basic Camp can count for 5 general credits.

Obligation
There is no obligation for participating in the basic course. Prior to admittance in the advanced course the student agrees to complete the advanced course and to accept a commission. The options as to the obligations after commissioning are numerous and varied. Those offered a Reserve commission, with active duty, incur a three or four year obligation. Other options include Guaranteed Reserve Forces Duty, which calls for three months to one year on active duty at an officer’s basic course and 8 years service (monthly weekend drills and two weeks annual training with the United States Army Reserve or National Guard). Another option is the individual Ready Reserve, which requires attendance at the officer’s basic course, but not active duty, United States Army Reserve, or National Guard service. Graduate delay programs are also available.

Financial Assistance
All contracted cadets are paid a subsistence allowance of $150 per month (for up to 10 months per year) while enrolled in the advanced course. This amounts to $3,700 when including advanced camp payment.

Scholarship Program
Each year the U.S. Army awards two, three, and four year scholarships to outstanding young men and women participating in the Army Reserve Officer Training Corps who desire careers as Army officers. In most cases, the Army pays the tuition and required fees incurred by the scholarship student. In addition, they receive $450 per year for books and $150 per month (for up to 10 months per year) for the academic year. The ROTC program at Georgia Southern has control of up to 12 three and 12 two year scholarships to be awarded per year to students enrolled at Georgia Southern. Individuals desiring to compete for these scholarships should apply to the Army Military Science Department at Georgia Southern University between December 1st and February 28th.

Some students who are enrolled in highly technical academic discipline programs and who qualify for Reserve Officers Training Corps scholarship benefits may be required to take an academic course load that will necessitate more than four academic years of study prior to graduation. It is possible to extend the Army Scholarships benefit to cover this additional period. ROTC students successfully completing Advanced Camp may compete for civilian sponsored Scholarships awarded during their senior year. National winners receive $1500 and regional winners receive $1000. Contact the Georgia Southern University, Department of Military Science at (912) 681-5320 for further information.

Army Reserve Officer Training Corps Uniform, Books, And Supplies
Students enrolling in the Army ROTC program will be issued U.S. Army uniforms, military books and supplies by the Military Science Department. Uniforms must be returned before commissioning or upon disenrollment from the Reserve Officers Training Corps program.

| Foreign Language or Approved International Studies Course | 0-3 Hours |

| Electives | 9-24 Hours |

**ADVICEMENT:** Physics Faculty of the Allen E. Paulson College of Science and Technology, Math/
Physics/Psychology Building, 681-5292

**OTHER PROGRAM REQUIREMENTS:**
- No more than 36 hours of upper-division course-work in Physics may count toward the 126 hr minimum for graduation.
### TECHNOLOGY  
**B.A.S. IN TECHNOLOGY**  
**126 HOURS**

*See pages 26-27 for Core Curriculum, required of all students.*

- **Area A - Essential Skills** ........................................................................................................... 9 Hours
- **Area B - Institutional Options** ................................................................................................... 4 Hours
- **Area C - Humanities and Fine Arts** .............................................................................................. 6 Hours
- **Area D - Science, Mathematics, and Technology** ......................................................................... 11 Hours
- **Area E - Social Science** .................................................................................................................. 12 Hours
- **Area F - Courses Appropriate to Major** ....................................................................................... 18 Hours
  - TMFG 1121 - Technical Drafting (2)
  - TMFG 1122 - Computer Drafting (2)

A maximum of 39 semester hour block may be applied to the BAS from technical institute/two year college with AAS or AAT degree. These hours will be applied to the core and/or major area as appropriate.

- **Health and Physical Education Activities** .................................................................................... 4 Hours
  - HLTH 1520 - Healthful Living (2)
  - Physical Education Activities (2)

- **Orientation I & II** ......................................................................................................................... 2 Hours

- **Major Requirements** .................................................................................................................... 36 Hours
  - TIET 4533 - Production Planning (3)
  - TIET 4531 - Plant Layout (3)
  - TMFG 3131 - Industrial Processes and Materials (3)
  - TMFG 3231 - Introduction to Industrial Management (3)
  - TMFG 3232 - Applied Indus. Statistics & Quality Assurance (3)
  - TMFG 4134 - World Class Manufacturing (3)
  - TMFG 5233 - Manufacturing Management Issues & Methods (3)
  - TMFG 5234 - Industrial Supervision (3)
  - TSEC 5331 - Human Resource Protection (3)

- **Elective** ............................................................................................................................................. 3 Hours

**ADVISEMENT:** Dr. Charles Perry, Room 1005B, Carruth Building, 681-0423.

**PROGRAM ADMISSION CRITERIA:** Students must complete in sequence a technical diploma from area Vocational/Technical Institute and then complete A.A.S. or A.A.T. degree from a two-year college before being admitted to the BAS program.
CIVIL ENGINEERING TECHNOLOGY

B.S. IN C.E.T.  134 HOURS

See pages 26-27 for Core Curriculum, required of all students.

Area A - Essential Skills ........................................................................................................................................ 9 Hours

Area B - Institutional Options ............................................................................................................................... 4 Hours

Area C - Humanities and Fine Arts ..................................................................................................................... 6 Hours

Area D - Science, Mathematics, and Technology .................................................................................................. 11 Hours

Area E - Social Science ........................................................................................................................................ 12 Hours

Area F - Courses Appropriate to Major ............................................................................................................... 18 Hours

CHEM 1145 - General Chemistry I with Lab (4)
MATH 2242 - Calculus II (4)
PHYS 1112 - Introduction to Physics II (3); PHYS 1114 - Physics Lab II (1)
TENS 2121 - Digital Computation (2)
TMFG 1121 - Technical Drafting (2)
TMFG 1122 - Computer Drafting (2)

Health and Physical Education Activities .......................................................................................................... 4 Hours

HLTH 1520 - Healthful Living (2)
Physical Education Activities (2)

Orientation I & II .................................................................................................................................................. 2 Hours

Specific Requirements ........................................................................................................................................... 20 Hours

Carryover from Area D (1)
TENS 2111 - Statics Lab (1)
TENS 2112 - Dynamics Lab (1)
TENS 2113 - Strength of Materials Lab (1)
TENS 2114 - Fluid Mechanics Lab (1)
TENS 2131 - Statics (3)
TENS 2132 - Dynamics (3)
TENS 2133 - Strength of Materials (3)
TENS 2134 - Fluid Mechanics (3)
TENS 2137 - Engineering Economy (3)

Major Requirements .............................................................................................................................................. 45 Hours

TCET 2512 - Surveying Lab (2)
TCET 2531 - Surveying (3)
TCET 3212 - Construction Materials Lab (1)
TCET 3216 - Soil Mechanics and Foundations Lab (1)
TCET 3231 - Construction Materials (3)
TCET 3235 - Soil Mechanics and Foundations (3)
TCET 3312 - Environmental Control Lab (1)
TCET 3331 - Introduction to Environmental Control (3)
TCET 3412 - Structural Analysis Lab (1)
TCET 3431 - Structural Analysis (3)
TCET 3514 - Route Surveying Lab (1)
TCET 3516 - Transportation System Design Lab (1)
TCET 3533 - Route Surveying (3)
TCET 3535 - Transportation System Design (3)
TCET 4312 - Pipe Design Lab (1)
TCET 4314 - Treatment Plant Design Lab (1)
TCET 4331 - Collection and Distribution System Design (3)
TCET 4333 - Treatment Plant Design (3)
TCET 4414 - Steel Design Lab (1)
TCET 4416 - Concrete Design Lab (1)
TCET 4433 - Steel Design (3)
TCET 4435 - Concrete Design (3)

Elective ................................................................................................................................................................. 3 Hours

ADVISEMENT: CET program advisors, Technology Building, 681-5373

OTHER PROGRAM REQUIREMENTS:

- At least 30 semester hours of approved upper division engineering technology credits must be earned at Georgia Southern.
- The Area A math requirement is Pre-Calculus and College Physics I is recommended as an Area D lab science.
ELECTRICAL ENGINEERING TECHNOLOGY  
B.S. IN E.E.T.  
134 HOURS

See pages 26-27 for Core Curriculum, required of all students.

Area A - Essential Skills ........................................................................................................... 9 Hours
Area B - Institutional Options ........................................................................................................ 4 Hours
Area C - Humanities and Fine Arts ............................................................................................... 6 Hours
Area D - Science, Mathematics, and Technology ........................................................................ 11 Hours
Area E - Social Science ............................................................................................................... 12 Hours
Area F - Courses Appropriate to Major ...................................................................................... 18 Hours

CHEM 1145 - General Chemistry I (4)
MATH 2242 - Calculus II (4)
PHYS 1112 - Introduction to Physics II (3); PHYS 1114 - Physics Lab II (1)
TENS 2121 - Digital Computation (2)
TMFG 1121 - Technical Drafting (2)
TMFG 1122 - Computer Drafting (2)

Health and Physical Education Activities ................................................................................... 4 Hours
HLTH 1520 - Healthful Living (2)
Physical Education Activities (2)

Orientation I & II .......................................................................................................................... 2 Hours

Specific Requirements .................................................................................................................. 11 Hours

Carryover from Area D (1)
TENS 2137 - Engineering Economy (3)
WRIT 2130 - Technical Communication (3)
Technical Elective (4)

(Choose from Dynamics, Strength of Materials, Thermodynamics, Fluid Mechanics, Calculus III, or any upper division Math, Physics, Computer Science, Engineering Technology, or Industrial Technology course approved by the advisor.) Major Requirements .................................................................................................................. 54 Hours

TEET 2114 - Circuit Analysis I Lab (1)
TEET 2133 - Circuit Analysis I (3)
TEET 2412 - Digital Circuits Lab (1)
TEET 2431 - Digital Circuits (3)
TEET 2433 - Microcontrollers (3)
TEET 3116 - Circuit Analysis II Lab (1)
TEET 3135 - Circuit Analysis II (3)
TEET 3212 - Electronics I Lab (1)
TEET 3214 - Electronics II Lab (1)
TEET 3231 - Electronics I (3)
TEET 3233 - Electronics II (3)
TEET 3312 - Rotating Machines Lab (1)
TEET 3331 - Rotating Machines (3)
TEET 4212 - Operational Amplifiers Lab (1)
TEET 4231 - Operational Amplifiers (3)
TEET 4630 - EET Senior Project (3)
TENS 2116 - Introduction to EET Lab (1)
TENS 2136 - Introduction to EET (3)
EET Electives (16)

Elective .................................................................................................................................. 3 Hours

ADVICEMENT: Dr. Veng Couch, Technology Bldg., Room 2125: 681-5729.

ENGINEERING STUDIES TRANSFER PROGRAM (NON-DEGREE)  
HOURS VARY

**COURSE REQUIREMENTS FOR ALL ENGINEERING MAJOR FIELDS:**

**Area A - Essential Skills**  ........................................................................................................ 9 Hours
- ENGL 1101 - Composition I (3)
- ENGL 1102 - Composition II (3)
- MATH 1441 - Calculus I required (4)

**Area B - Institutional Options**  .................................................................................................. 4 Hours
(To be satisfied at Georgia Tech)

**Area C - Humanities/Fine Arts**  ................................................................................................ 6 Hours
(To be satisfied at Georgia Tech)

**Area D - Science, Mathematics, and Technology**  .................................................................. 11 Hours
- CHEM 1145 - General Chemistry I (4)
- CHEM 1146 - General Chemistry II (4)
- MATH 2242 - Calculus II (4)

**Area E - Social Science**  ......................................................................................................... 12 Hours
- HIST 2110 - The United States: A Comprehensive Survey (3)
- POLS 1101 - American Government (3)
(The remaining 6 hours of Area E will be satisfied at Georgia Tech)

**Area F - Courses Appropriate to Major**  .................................................................................. 18 Hours
- ENGR 1111 - Intro To Engineering (1)
- ENGR 1132 - Computing For Engineers (3)
- MATH 2243 - Calculus III (4)
- PHYS 2211 - Principles of Physics I (3); PHYS 1113 - Physics Lab I (1)
- PHYS 2212 - Principles of Physics II (3); PHYS 1114 - Physics Lab II (1)

One hour from the mathematics requirement of Area A (1)

One hour from the mathematics requirement of Area D (1)

**COURSES REQUIRED FOR SPECIFIC FIELDS OF ENGINEERING:**

KEY: A = Aerospace, Ag = Agricultural, B = Biological (Biomedical), C = Civil, Ch = Chemical, Cp = Computer, E = Electrical, I = Industrial, M = Mechanical, Mt = Materials, N = Nuclear, T = Textiles, U = Undecided

- BIOL 2131 - Cellular Biology (Ag,B) (3) BIOL
- 2111 - Cellular Biology Lab (Ag,B) (1) BIOL
- 3132 - Biology of Organisms B (3) BIOL
- 3112 - Biology of Organisms Lab B (1) CHEM
- 3341 - Organic Chemistry I (Ch,Mt) (4) CHEM
- 3342 - Organic Chemistry II (Ch) (4)
- CSCI 1301 - Programming Principles I (Ag,B,C,E,I) (4)
- ENGR 1133 - Engineering Graphics (A,Ag,B,C,I,M,N,U) (3)
- ENGR 2231 - Engineering Mechanics I (A,Ag,B,C,Ch,I,M,Mt,N,T,U) (3)
- ENGR 2232 - Engineering Mechanics II (A,Ag,C,I,M,T,U) (3)
- ENGR 2323 - Digital Design Lab (Cp,E) (2)
- ENGR 2332 - Intro To Computer Engineering (Cp,E) (3)
- ENGR 2334 - Circuit Analysis (Ag,Cp,E) (3)
- ENGR 2341 - Intro To Signal Processing (Cp,E) (4)
- ENGR 3233 - Deformable Body Mechanics (A,Ag,B,C,M,Mt,N,T,U) (3)
- ENGR 3431 - Thermodynamics I (Ag,B,C,I,M,N,T,U) (3)
- MATH 3230 - Differential Equations (A,Ag,B,C,Ch,Cp,E,M,Mt,N,T,U) (3)
- MATH 2332 - Mathematical Structures I (I) (3)

**ADVICEMENT:** Engineering Studies Office, 1007 Carruth Building, 871-1010. Students should obtain a copy of The Engineering Studies Program Handout for a complete description of the program and a suggested course sequence for each engineering field.

(Continued on next page)
ENGINEERING STUDIES TRANSFER PROGRAM (NON-DEGREE) (CONTINUED)

PROGRAM ADMISSION CRITERIA:

A. Incoming Freshmen.
Incoming freshmen who request a major of Engineering Studies are initially placed in the Two-Plus Engineering Transfer major unless they are placed in Learning Support. Learning Support engineering majors should be advised by the engineering faculty in addition to the Learning Support faculty. If incoming freshmen Two-Plus majors meet the more rigorous standards for the Regents Engineering Transfer Program (See below), they will be reclassified as RETP majors upon enrollment at GSU. Those not meeting the RETP criteria will remain as Two-Plus majors. However, they may earn RETP status by their performance at GSU as outlined below. The RETP is only for Georgia residents who plan on attending Georgia Tech to complete the engineering degree.

Regents Engineering Transfer Program Requirements.
Category 1. All Engineering Studies majors who have minimum scores of 530 verbal and 560 math on the SAT and have a high school grade point average of 3.00/4.00 in academic subjects as recalculated by the Georgia Southern University Admissions Office will be classified as RETP students upon enrolling at Georgia Southern. Students may not retake the test after enrolling at GSU.
Category 2. Engineering Studies Two-Plus majors who do not meet the standards of Category 1 may earn RETP classification by obtaining grades of B or better in CHEM 1145, CHEM 1146, MATH 1441, and MATH 2242 with a minimum cumulative grade point average of 3.00/4.00. Students must request this change of classification from the Coordinator of The Engineering Studies Program.
Category 3. Engineering Studies Two-Plus majors who do not satisfy the requirements of Category 1 or 2 may still be admitted to Georgia Tech (at the discretion of the Georgia Tech RETP Coordinator) by completing the required RETP course of study for their major field of engineering and attaining a cumulative grade point average of 2.50/4.00 or better in this curriculum.

B. Current Georgia Southern University Students and Incoming Transfer Students From Other Institutions.
In order to be accepted into The Engineering Studies Transfer Program, the student must have an adjusted grade point average of 2.50/4.00 at Georgia Southern University or at their previous institution in the case of a transfer student. However, students will be advised that a minimum cumulative grade point average of 2.50/4.00 is required in order to transfer to Georgia Tech and most other engineering schools.

OTHER PROGRAM REQUIREMENTS:
• In order to transfer to Georgia Tech, Georgia residents must complete the required course of study for their specific major field of engineering with a minimum cumulative grade point average of 2.50 or better.
• Non-Georgia residents will require a higher grade point average which depends on the particular major field of engineering.
• For other engineering schools, the admission requirements vary considerably. Students should see the Coordinator of the Engineering Studies Program for more detailed information about other schools.
Pre-Forestry (Two-year)

Georgia Southern University, in cooperation with the Warnell School of Forest Resources, University of Georgia, has developed a joint program of study for students interested in pursuing a degree and career in forestry. Students selecting a pre-forestry program of study follow a prescribed curriculum, depending on the intended major, at Georgia Southern University during the freshman and sophomore years. This curriculum prepares students for transfer to the Warnell School of Forest Resources to complete a Bachelor of Science in Forest Resources (BSFR). A limited number of students are accepted into the forest resources program. Students seeking admission to University of Georgia Warnell School of Forest Resources must complete an application which is separate from the University of Georgia admission application. Application for fall semester admission should be submitted by April 15th, and for spring semester submitted by Sept. 30th. Application and scholarship forms may be obtained from the undergraduate coordinator, School of Forest Resources. For complete admission information contact the Office of Student Services, Warnell School of Forest Resources, U.G.A., Athens, GA, 30602-2152. The advisor to the pre-forestry program at Georgia Southern is Dr. John W. Parrish, Department of Biology.

- Language (1000-2000 level); MUSC 1101; or PHIL 2130
- GEOL 1121/1120 or 1122/1123; or PHYS 1111/1113
- MATH 1113 and 1441
- POLS 1101

*Social Science Electives:*

- ANTH 1102; ECON 2105; GEOG 1130;
- HIST 1111, 1112 or 2110; PSYC 1101; or SOCI 1101
- Physical Education activities (KINS)
- SPCM 2331 Public Speaking (Board of Regents equivalent course COMM 1110)

*Other electives:*

- BIOL 3545 (required for Wildlife and Fisheries), or
- GEOL 1121/1120 or 1122/1123, CHEM 3341, or
- PHYS 1111/1113 (required for Soil and Water Resources)

Pre-Medicine, Pre-Dentistry, and Para-Medical Pre-Professional Programs

Students intending to prepare for medicine, dentistry, medical technology and other para-medical fields should conform to the course of study covering their respective pre-professional requirements as prescribed in the catalogs of the institutions in which they plan later to enroll. The following programs are suggestive only; program details should be worked out with the assistance of the appropriate faculty advisor considering the student’s personal plans. Students planning to complete the medical technology program are currently advised in the College of Health and Professional Studies Services Center. These students complete the program described later in this catalog.

Students interested in pre-pharmacy typically do not complete a bachelor’s degree program at Georgia Southern University, but take courses appropriate for admission to professional schools. Students interested in pre-optometry typically complete a bachelor’s degree program, but some may complete all of the course requirements in three years. For students in each of these areas, the University provides advisors who assist them in planning their schedules. These advisors are:

- **Pre-Pharmacy**
  - Ms. Jessica Orvis
  - Department of Chemistry

- **Pre-Optometry**
  - Dr. Donald Drapalik
  - Department of Biology
Pre-Pharmacy (Two-year)
Pre-Pharmacy Transfer Program
Georgia Southern University offers a two-year program in pre-pharmacy. Students wanting to complete a degree in pharmacy in the minimum period of time should plan on transferring to a school of pharmacy no later than summer following their sophomore year and should begin the transfer application process after the first year of undergraduate study. Some students, however, may apply for admission to a pharmacy program at a later stage, such as following the completion of an undergraduate degree, provided they have met the admission requirements. An additional four years in pharmacy school results in the professional Pharm. D. degree.

Registration in the pre-pharmacy program does not guarantee admission to the professional phases of a school of pharmacy. Enrollment in the professional phase is limited, and the student will be accepted in accord with academic standing, aptitude for career in pharmacy, and PCAT (Pharmacy College Admission Test) scores. The PCAT should be taken at least one year prior to enrollment in pharmacy school. Because enrollment in pharmacy school is competitive, a GPA of 2.5 is required to enter or stay in the pre-pharmacy program.

The state of Georgia has two schools of pharmacy—The University of Georgia College of Pharmacy and Mercer Southern School of Pharmacy. The courses required in the pre-pharmacy curricula differ slightly, therefore the pre-pharmacy student should observe the difference in the two curricula outlined below to insure that all courses required for application and transfer to the school of choice have been completed.

Pre-Optometry
The requirements for admission into the various optometry schools and colleges are not identical. Contact the pre-optometry advisor, Dr. Donald Drapalik, for the specific requirements of each school. Typically, the requirements include courses in biology, calculus, chemistry, English, physics, psychology, and the social sciences. The pre-optometry course requirements represent a minimum of three academic years of study. However, students are encouraged to obtain a four year degree prior to application for optometry school.

Direct individual inquiries are invited by the American Optometric Association, Department of Public Affairs, 243 N. Lindbergh Blvd., St. Louis, Missouri 63141 (Telephone (314) 991-4100).
Pre-Medicine, Pre-Dentistry And Pre-Veterinary

Students intending to prepare for medicine, dentistry, or veterinary medicine must select a course of study leading to a bachelor’s degree in an academic area. Any major may be selected as long as the student is careful to complete courses recommended by the professional schools as well as those required for completion of the student’s bachelor’s degree program. Students must be advised by an academic advisor in their major area.

These advisors are:

**Pre-Med**
- Biology Majors: Dr. Sara Bennett
- Chemistry Majors: Dr. Jeff Orvis
- Physics Majors: Dr. Marvin Payne
- Other majors contact specific departments

**Pre-Dentistry**
- Biology Majors: Dr. Wayne Krissinger
- Chemistry Majors: Dr. Jeff Orvis
- Physics Majors: Dr. Marvin Payne
- Other majors contact specific departments

**Pre-Veterinary Medicine**
- Biology Department: Dr. Frank French & Dr. William Irby
- Chemistry Department: Dr. Bill Ponder

**Pre-Medical Program**

There is no major in “Pre-Medicine”. Students desiring to go to medical school should pursue courses of study leading to bachelor’s degrees in academic areas chosen according to their interests and aptitudes. Pre-medical academic advisors are: Dr. Sara Neville Bennett, biology; Dr. Jeff Orvis, chemistry; and Dr. Marvin Payne, physics. Students with majors other than biology, chemistry, or physics should be advised by Dr. Bennett in addition to the academic advisor in the chosen major. Students must be careful to complete courses required for acceptance into medical school as well as those courses required for their degrees.

**Freshman Pre-Medical Students:**

During their first three semesters, in addition to one course appropriate for the chosen major, beginning freshmen should take BIOL 2131/2111, 3132/3112, 3133/3113; CHEM 1145, 1146; MATH 1113, 1441. Students with advanced backgrounds in mathematics will take the appropriate courses through MATH 2242. For Fall semester, regardless of their majors, freshmen pre-medical students will be advised by the designated advisor in biology*, chemistry, or physics. During the designated advisement periods for pre-registration for Spring semester, all pre-medical students will be advised by the members of the Medical/Dental Admissions Review Board. Those students who achieve at least a 3.0 cumulative, non-adjusted GPA after completing one semester (15-16 hours), will be assigned to a Pre-Medical advisor who will advise them during the Spring semester advisement period, for pre-registration for Summer sessions and/or Fall semester of the Sophomore year.

*All first semester biology majors are advised in the Academic Advisement Center

**Sophomores, Juniors, Seniors, and Transfer Pre-Medical Students:**

These students will be admitted to the Pre-Medicine Program and assigned to a Pre-Medical advisor only after demonstrating that they have the potential for being competitive for acceptance into medical school. Evidence of this is a cumulative, non-adjusted GPA of at least 3.0.

**Medical College Admissions Test (MCAT):**

Scores on the MCAT are required by almost all medical schools. Currently, the test is given in April and in August. It is recommended that the test be taken in April prior to the time the application is submitted and approximately a year and a half before matriculation at the medical school is desired. Prior to Spring semester of Year 3 for the April administration of the MCAT, or prior to the Summer sessions following year 3 for the August administration of the MCAT, students should complete two years of chemistry, one year of physics and at least two years of biology in order to be prepared to study for the exam. Students are not advised to take the MCAT unless they have finished these courses at least one semester prior to the exam time. Students who do not complete the above courses on time should be prepared to have their time of entrance into medical school delayed accordingly. Students are better prepared for the MCAT if they elect to take calculus-based physics rather than the other series of physics courses. The attainment of competitive scores on the MCAT requires an extended period of intensive study. Students are advised to obtain appropriate study materials and to study seriously and diligently over a period of several months. They are also advised to avail themselves of preparatory courses designed to tutor the student for the MCAT.

**Application Procedures for Medical and Dental Schools:**

For most schools, deadlines for application are during the fall preceding the year of entry into the school. Early application is recommended. It is the responsibility of the student to secure the proper application materials and to meet all deadlines. Requests for college transcripts to be sent as part of the application should be made at least three weeks prior to the time they are needed.
The Medical/Dental Admissions Review Board:

Letters of recommendation for pre-dental and pre-medical students are prepared by the Medical/Dental Admissions Review Board, as required by most medical schools. Letters will be written only for those students who have been interviewed by the Board and under no circumstances will letters be written for students by individual members of the Board. Students desiring letters should contact the chair, Dr. Sara Neville Bennett, Department of Biology, to arrange for an interview with the Board. Interviews normally are held Spring and Fall semesters. Competition for admission to the schools is such that favorable letters can be written only for those students who have achieved adequate GPAs and test scores. Pre-dental students requesting an interview must have at least a 2.8 cumulative, non-adjusted GPA. Pre-medical students requesting interviews must have at least a 3.0 cumulative, non-adjusted GPA and a total of at least 20 points on the MCAT. Students who do not meet these requirements and who think that there are extenuating circumstances should make this known, in writing, to Dr. Bennett. Subsequently, the Board will make a decision regarding the eligibility of the student for an interview. Students anticipating participation in early acceptance programs which have deadlines prior to Fall semester, should advise Dr. Bennett of their intentions and must request interviews during Spring semester, since they cannot be assured of interviews during the Summer. Only form letters of reference will be sent from the Board for any student who was not interviewed, but who has requested a letter. The above are minimum criteria for consideration for recommendation by the Board and do not ensure acceptance into the respective schools.

Pre-Veterinary Medicine

Students interested in pursuing studies leading to the Doctor of Veterinary Medicine (DVM) must select a course of study leading to a bachelor’s degree in an academic area. This curriculum is designed to qualify students for admission into a college of veterinary medicine. Dr. Frank French and Dr. William Irby, Department of Biology, and Dr. Bill Ponder, Department of Chemistry, serve as advisors to students in this program.

The College of Graduate Studies

Purpose And Organization
Responding to increasing needs for graduate/professional programs in South Georgia, the Board of Regents of the University System of Georgia approved university status for Georgia Southern College, effective July 1, 1990. Georgia Southern University is now the state’s most comprehensive university south of Atlanta.

The elevation of Georgia Southern to university status has led to an increased number of graduate programs and courses in Savannah, Brunswick, Augusta, and other sites within Southeast Georgia.

Graduate programs are designed to provide students with the opportunity and resources to enhance their educational, professional and cultural backgrounds while improving their professional skills and competence. Graduate programs encourage scholarly inquiry through the appropriate application of valid research methods.

Georgia Southern University offers the following graduate degree programs:

Off-Campus Graduate Centers

Resident graduate credit is offered at the off-campus centers at Brunswick. Students in Brunswick may pursue graduate study leading to Master of Education (M.Ed.) programs in: Early Childhood Education, Educational Leadership, Special Education, and Middle Grades Education, Public Administration (MPA), Business Administration (MBA), or Nursing (MSN). Off-campus admission and degree requirements are identical to those of the on-campus programs.

Admission to Graduate Studies

Graduates of colleges or universities accredited by the proper regional accrediting association may apply for admission to the College of Graduate Studies. Admission is restricted to include only those students whose academic records indicate that they can successfully undertake graduate work. Only students formally admitted to the College of Graduate Studies are eligible to enroll in graduate courses (courses numbered 5000, 6000, 7000, 8000 and 9000).

Application information is available in the following offices:

The College of Graduate Studies
Georgia Southern University
Post Office Box 8113
Statesboro, Georgia 30460-8113
Voice: (912) 681-5384
Fax: (912)681-0740
E-Mail: gradschool@gsvms2.cc.gasou.edu
or: www2.gasou.edu/gradcoll/gradcat.htm

GSU Savannah Office
Coastal Georgia Center
305 Martin Luther King Jr., Blvd.
Savannah, Georgia 31401
(912) 651-2550

Brunswick Center
Coastal Georgia Community College
Brunswick, Georgia 31523
(912) 264-7227

All application materials must be returned to:

The College of Graduate Studies
Georgia Southern University
Post Office Box 8113
Statesboro, Georgia 30460-8113

Application Procedures

All degree-seeking applicants for admission to the College of Graduate Studies must:
1. Submit a completed Graduate application for admission.
2. Submit two (2) official transcripts from all institutions previously attended.
3. Submit official test scores as required for the selected program. (To be official, test scores must be sent to the College of Graduate Studies directly from the testing agency or be recorded on an official transcript.)
4. Submit official TOEFL scores if an International applicant or if English is not native language. TOEFL scores may not be more than two years old.
5. Submit other documents as required by departments or colleges.
All applicants who do not wish to work toward a degree must:

1. Submit a completed application and other required forms. Test scores are not required for Non-Degree applicants.
2. Submit two (2) official transcripts from all institutions previously attended.

Transcripts must be officially embossed copies sent directly from the institution to the College of Graduate Studies at Georgia Southern University.

The completed application and all credentials must be received by the College of Graduate Studies by the application deadline dates listed in the Georgia Southern University Graduate Calendar. Materials submitted in support of an application become the property of Georgia Southern University and cannot be forwarded or returned.

Each completed application with supporting materials is referred to the college or department in which the applicant proposes to study. The graduate faculty in that department or program consider the application and submit an admission recommendation to the College of Graduate Studies.

**Admission By Appeal**

A student denied admission to a department and/or college, may appeal the admission decision. The student will be required to provide additional information in support of the appeal. For appeal information and procedures he/she should contact the College of Graduate Studies.

A student whose appeal for admission is denied by a department and/or college, may appeal to the Associate Vice President for Academic Affairs and Dean of the College of Graduate Studies. The final decision on an appeal will be made by the Associate Vice President for Academic Affairs and Dean of the College of Graduate Studies.

**Test Score Time Limit**

Official copies of standardized admission test scores greater than five years old that are in excess of minimum College of Graduate Studies admission test scores may be reviewed and accepted by Graduate Program Directors or Graduate Program Coordinators in the individual colleges.

**Admission Notification**

A student must be admitted to the College of Graduate Studies in order to be admitted to a graduate degree program or be eligible to enroll in graduate courses. The official letter of admission notification is sent to the applicant along with a statement outlining any conditions that may be attached to the admission.

A student must be admitted by the close of the first week of an academic term in order for the admission to be effective for that term. If the admission process is completed after that deadline, due to an incomplete file or because departmental action was not taken earlier, the admission will be effective the following academic term. The term for which the applicant is admitted is stated in the official notification of admission letter from the College of Graduate Studies.

**Admission Classification**

A prospective student who has earned a baccalaureate degree and plans to take additional work beyond the baccalaureate degree must apply to the College of Graduate Studies and be admitted under one of the following classifications:

**Degree Admission**

Students who are admitted to the College of Graduate Studies with the expressed intention of following a program leading to a graduate degree are classified as degree students. When admitted as a degree student, the applicant will be placed in one of the following categories:

1. **Regular** - A prospective candidate for a degree who meets all requirements for unqualified admission and has been recommended by the college, department or program in which he/she proposes to study and approved by the College of Graduate Studies.
2. **Provisional** - A prospective candidate for a degree who does not satisfy the full admission requirements will be classified in this category under conditions specified at the time of admission. The College of Graduate Studies will establish these conditions based on the recommendation of the graduate faculty of the department in the college or program in which the student proposes to study. A student admitted in this category will be reclassified to regular admission when the conditions have been met. A student initiating graduate work under this classification may enroll in graduate courses leading to a degree and such courses may be counted in a degree program when the student has met the specified conditions and has been reclassified. Only credit earned in graduate courses at Georgia Southern University may be used to satisfy provisional admission requirements. Failure to satisfy the conditions of provisional admission will result in the student’s ineligibility to continue work in the College of Graduate Studies.

There is no provisional admission to the Master of Education in School Psychology, the Education Specialist degree programs, or the Doctorate of Education.

**Non-Degree Student**

An applicant may be admitted to the College of Graduate Studies as a non-degree student to earn credit in graduate courses without working toward a degree. One who is admitted as a non-degree student may apply to a degree program at any time. **Upon the advisor’s recommendation, a maximum of 9 semester hours of credit may be included in a program of study should the student gain reclassification as a degree student.** Some departments do not permit non-degree enrollment or limit non-degree enrollment in graduate courses to less than nine (9) semester hours. No credit earned as a non-degree student may be counted toward Education Specialist programs. A student may be admitted in one of the following non-degree admission categories:

1. **Limited** - A student whose file is incomplete because certain required application materials have not been received in the College of Graduate Studies for degree admission consideration may be admitted to the College of Graduate Studies with enrollment limited to a maximum of nine (9) semester hours credit in graduate courses.
2. **Post-Grad** - A student admitted to the College of Graduate Studies but not to a degree program who holds a graduate degree may enter as non-degree, post-graduate. A student enrolling for graduate work under this classification is not limited in the number of semester hours of graduate credit earned.

3. **Certificate** - A student seeking initial teaching certification may enroll in graduate courses required for certification in any seven contiguous years. A student initiating graduate work under this classification may apply for a degree program by submitting proper credentials.

4. **Graduate Special** - A student not admitted to a degree program and who wishes to take courses for personal or professional interest. A student admitted in this classification is limited to eighteen (18) semester hours in any seven contiguous years.

**Transient**

In order to be admitted to the College of Graduate Studies under this classification, the student must submit a transient student application and a certificate stating that he is in good standing in a recognized graduate school at another institution. The transient student application form is available from the College of Graduate Studies at Georgia Southern University. A student is admitted under this classification for one semester only. The student must be readmitted under this classification each semester to be eligible to enroll in graduate courses.

**Teacher Certification**

In-service teachers enrolling to meet requirements of a local board of education or the State Department of Education to renew or reinstate a certificate or to certify in a new area may enroll in graduate courses for credit for this particular purpose after formal admission to the College of Graduate Studies as a Non-Degree student.

**Graduate Credit for Seniors**

A senior enrolled at Georgia Southern University within six hours of completing the requirements for the bachelor’s degree, may enroll for a maximum of six semester hours of graduate credit providing:

1. A complete application has been submitted to the College of Graduate Studies.
2. Official test scores, as required for the selected program, are received prior to the beginning of the semester for which admission is requested.
3. The student meets all criteria for regular admission to the College of Graduate Studies with the exception of the baccalaureate degree.
4. Permission to enroll in such courses is approved by the College of Graduate Studies upon the recommendation of the graduate faculty of the department in the college or program in which the applicant proposes to study.
5. The total number of hours of course work for the semester does not exceed nine, with no more than six hours for graduate credit.

*Under no circumstances may a course be used for both graduate and undergraduate credit.*

**International Students**

Georgia Southern University subscribes to the principles of international education and to the basic concept that only through education and understanding by individuals from diverse cultures can mutual respect, appreciation and tolerance of others be achieved.

International students must qualify for regular admission to be granted admission to the College of Graduate Studies. In addition to meeting the regular admission requirements, a prospective international student or non-native speaker of English should satisfy the following requirements:

1. It is recommended the student present results of the TOEFL (Test of English As A Foreign Language) especially if they are asking to be considered for a Graduate Assistantship. **TOEFL examination scores are not accepted if they are over two years old.** Regardless of TOEFL scores all students whose native language is not English are tested upon arrival on the campus and their proficiency in English is evaluated by the Foreign Student Advisor. Individuals evaluated as having deficiency in English will be required to enroll in an appropriate ESL (English As a Second Language) class. Continued enrollment in such remedial ESL classes will be required until proficiency is achieved. All costs for ESL programs must be paid by the student and may prolong the time necessary to achieve a degree.
2. International students must provide evidence of their ability to meet all financial obligations for the expected duration of the period of study requested.
3. Submit ORIGINAL, certified copies of all certificates and transcripts from ALL institutions of higher education attended by the applicant. In cases where there is only one original copy, the institution will inspect the original, copy it and return the original to the applicant. **IN NO CASE WILL AN APPLICATION BE EVALUATED UNTIL AN ORIGINAL COPY HAS BEEN SUBMITTED FOR INSPECTION.** Applicants must also submit satisfactory scores on the appropriate GRE, GMAT, or MAT test. All application materials must be received in the College of Graduate Studies 90 days prior to the term start date for which the applicant is applying.
4. Georgia Southern University reserves the right to request other information which may be necessary to evaluate an application, including syllabi of courses taken and other materials considered essential in the evaluation process.
5. Only those international applicants demonstrating good academic qualifications, adequate financial resources, and appropriate English Language Proficiency will be admitted.

**Health Insurance** - All international students are required to purchase a student Health Insurance Plan made available through the University. Substitutions are not permitted or acceptable, except under exceptional situations. The current cost for students of this insurance is $38.00 per month and is subject to change. Charges for this insurance will be on the student’s invoice and collected with other university fees. Insurance for families is available at a significantly higher cost. **Proof of health insurance is required before a student may register for classes.**

**Course Load** - International students on a student visa are required to carry a full course of study by U.S. Immigration Law. Failure to do so may result in the loss of visa and a requirement that the student leave the United States.

**Financial Information** - International students should not expect to work during their first year in the United States. All financial support necessary must be available without the necessity for working.
International students may apply for Graduate Assistantships. However, these are usually not awarded until the second year when the major department has had an opportunity to evaluate the work of the student and assess English proficiency.

Georgia Southern University offers a limited number of Out-Of-Country tuition waivers to exceptional international students. However, this is a limited grant covering approximately 20% of required expenses and it is the student's responsibility to provide all monies necessary to pay all other expenses.

**Visa Information** - The University will issue the I-20 or IAP-66, whichever is appropriate. AFTER the applicant has been fully admitted. These documents permit the applicant to obtain the appropriate student visa from a U.S. embassy if outside the United States or effect a transfer if within the U.S. Students residing in the United States must submit proof that they are “In Status” with the U.S. Immigration Service before final admission.

**International Student Advisor** - Georgia Southern University has an International Student Office with experienced, qualified advisors available to help international students become oriented to the campus and registered for classes. Advisors are available for advice and support while a student is enrolled. A full social and cultural program is available.

**Required Entrance Examinations**

Prospective candidates for graduate degrees are required to submit scores from the examination appropriate to their specific degree program. To be official, test scores must be sent from the testing agency directly to the College of Graduate Studies or be recorded on an official transcript. Further information on test dates and fees may be obtained from the Testing Office, Post Office Box 8067, Georgia Southern University, Statesboro, GA 30460-8067 (912) 681-5415.

- Doctor of Education (GRE or MAT)
- Education Specialist (GRE or MAT)
- Master of Accounting (GMAT)
- Master of Arts (GRE)
- Master of Business Administration (GMAT)
- Master of Education (GRE or MAT)
- Master of Music (GRE or GMAT)
- Master of Public Administration (GRE)
- Master of Science (Biology)(GRE)
- Master of Science (Kinesiology)(GRE or MAT)
- Master of Science (Mathematics)(GRE)
- Master of Science (Psychology) (GRE)
- Master of Science (Recreation Administration) (GRE, GMAT or MAT)
- Master of Science (Sport Management)(GRE, MAT, or GMAT)
- Master of Science in Nursing (GRE or MAT)
- Master of Technology (GRE)

**Graduate Management Admission Test (GMAT)**
The GMAT consists of seven separately timed sections, and consists of two essays and multiple choice questions. Total test time is three and one-half hours. The GMAT measures general verbal and mathematical skills that are associated with success during the first year of graduate study in management. Verbal and quantitative scores are required.

**Graduate Record Examinations (GRE)**
The GRE General Test contains sections designed to measure verbal, quantitative, and analytical abilities. The test consists of seven 30-minute sections. Specialized Subject Tests are also offered. General Test scores are required.

**Miller Analogies Test (MAT)**
The MAT consists of 100 multiple choice questions designed to measure verbal aptitude. The total exam time is 50 minutes. A single raw score is assigned.

**Graduate Student Advisors**

When the student is notified of admission to the College of Graduate Studies, a faculty member in the student’s major field will be assigned. If a department faculty is not designated as the student’s advisor, the Graduate Program Director will serve as advisor.

A graduate student may request a change in advisor by contacting the Graduate Program Director in writing. If the request is granted, the student will be notified in writing.

The graduate student advisor will assist in:
1. Helping the student plan a program of study in keeping with the student’s field and goals.
2. Approving all course selections prior to registration. Students who are initially uncertain about their graduate program of studies and Transient Students taking graduate classes at Georgia Southern University for degree credit at another college or university may be advised by the Associate Dean of the College of Graduate Studies. International graduate students will be advised by the Dean of Students as well as by a faculty advisor in their academic program. Graduate students with physical or developmental disabilities are encouraged to avail themselves of the services of the Counselor for Disabled Students in the Counseling and Career Development Center.

**Graduate Credit**

All courses carrying graduate credit at Georgia Southern University are numbered 5000 or above. Courses numbered 6000 and above are open to graduate students ONLY. Courses numbered 9000-9999 and above are open to Ed.D graduate students ONLY.

A student who has been admitted to the College of Graduate Studies in a degree program or a non-degree program may register for graduate courses as detailed on the notice of admission.

At least fifty percent of the courses applicable toward a degree must be courses in which enrollment is restricted to graduate students.

A maximum credit of six semester hours earned in “Reading and Conference” may apply toward a graduate degree, with the approval of the major professor, provided the student was classified in “Regular” graduate standing when the work was taken. NOTE: See section Reading and Conference.

*Graduate credit is not allowed for work done in extension or by correspondence.*

A student seeking a second master’s degree may count up to three courses (not more than 9 semester hours) from the first degree toward requirements for the second degree upon the recommendation of the student’s advisor and approval of the department chairperson. Only courses with grades of B or better may be counted.
Credit By Transfer
A graduate student may transfer graduate credit from a regionally accredited institution for recording on a permanent record. Maximum graduate credit of six semester hours from a regionally accredited institution may apply toward a graduate degree provided:

1. The institution offers the graduate degree program for which the student has been admitted at Georgia Southern University.
2. Two official transcripts are sent directly to the College of Graduate Studies from the institution in which graduate work was taken.
3. The credit was earned no more than seven years prior to date of completion of the graduate degree.
4. The student’s major professor or advisor has to approve the transfer credit as a part of the student’s planned program of study.

A student pursuing a graduate degree at Georgia Southern University who plans to take graduate courses at another institution as a transient student must obtain prior approval from the major professor and submit a request to the College of Graduate Studies. This procedure insures that courses taken as a transient student at another institution will constitute a part of the planned program of study. Students who take courses without prior approval are doing so with the possibility that the course may not count in the degree program.

A degree candidate may not graduate at the end of a term in which he/she is enrolled as a transient student at another institution.

The student, upon request, will be furnished a statement that all requirements for the degree have been completed when said requirements have been satisfied.

NO GRADE LOWER THAN A “B” IN A COURSE EARNED AT ANOTHER INSTITUTION MAY BE ACCEPTED IN TRANSFER CREDIT TO COUNT TOWARD A GRADUATE DEGREE AT GEORGIA SOUTHERN UNIVERSITY.

Course Registration
A student admitted to the College of Graduate Studies must register for courses within twelve months after admission to the College of Graduate Studies. An applicant who does not register within the period of twelve months will be required to submit a new application for admission at a later date. A student who reapplies must satisfy all conditions for admission required at the time of re-application. A student who has been admitted to the College of Graduate Studies and begins a program of study and fails to enroll in any term following the period in which he/she initiated the course work must notify the College of Graduate Studies of his/her intention to enroll in a subsequent term and may be required to complete an application for readmission furnished by the College of Graduate Studies.

Course Load
The course load for graduate students does not exceed twelve semester hours and the student may earn credit for no more than twelve semester hours in any one semester/term without written permission from the College of Graduate Studies.

Program of Study Procedures
After the completion of twelve semester hours, the student will formalize a program of study with his/her advisor. Both the advisor and the student will sign the PROGRAM OF STUDY and submit a copy to the College of Graduate Studies for final approval. Students must have an approved Program of Study on file to be eligible to graduate.

If any change in the approved program of study is required, an AMENDED PROGRAM OF STUDY signed by the advisor and the student must be submitted to the College of Graduate Studies for final approval.

Reading and Conference
A graduate student may be granted permission to register for a maximum credit of six semester hours in “Reading and Conference,” to apply toward a graduate degree provided that:

1. Applicant has unqualified admission to the College of Graduate Studies.
2. Applicant has completed a minimum of nine semester hours in a graduate program prior to making application for a course through “Reading and Conference.”
3. The course requested is not scheduled during the college year at a time or place accessible to the student.
4. Once approved, the student continues a course through “Reading and Conference” of sufficient length to insur the academic integrity of the course. It is conceivable that the time factor may call for more conferences with the instructor than the number of periods on campus to meet requirements of a regularly scheduled course.
5. Applicant secures the signature of the instructor who will be responsible for supervising the “Reading and Conference” course, as well as the student’s advisor and department chair.

Under no circumstances may a graduate student register for more than one reading and conference course per semester.

Change of Degree Program or Major within a Degree Program
With the approval of the College of Graduate Studies, a student may change his/her degree objective or major within a degree program provided the student is in good standing and has unqualified admission to the College of Graduate Studies. The student will be required to satisfy in full the course requirements as prescribed by his/her new academic advisor and if changing degree programs, the student must meet all admission requirements for the new degree.

Required Academic Standing
Graduate students must have a cumulative graduate GPA of 3.0 or higher on all graduate work and in the program of study, to graduate. In the Master of Education and the Education Specialist, a cumulative GPA of 3.0 must also be maintained in the subject matter fields as well as in the total program. Only grades of “C” or above may apply toward a degree.

A cumulative graduate GPA of at least 3.0 is required for a student to sit for the comprehensive examination, terminal examination, thesis or dissertation defense for Ed.D. Curriculum Studies. A cumulative graduate GPA of at least 3.5 is required for the Ed.D. in Education Administration.

Graduate students are ineligible to graduate with grades of “I” or “IP” on their graduate academic record.
Credit to Raise Grade Point Average to Qualify for Admission
Credits taken as a non-degree student in order to meet the cumulative grade point average required for admission to a degree program may not be used to satisfy the graduation requirements of the program.

Probation and Exclusion
A student whose cumulative grade point average falls below 3.0 upon completion of three courses, or nine semester hours, will be placed on probation. If the cumulative GPA remains below 3.0 after the completion of three additional courses, or nine semester hours, the student will be ineligible to continue graduate work. Only credit earned in graduate courses at Georgia Southern University may be used to repair deficiencies in the grade point average.

Reinstatement Following Exclusion
Students excluded from a degree program due to academic reasons, may appeal for reinstatement following exclusion. To appeal for reinstatement, the student must submit a letter to the College of Graduate Studies specifically indicating what the student is appealing and the justification for filing the appeal. The appeal must be accompanied by at least three letters of support from the department graduate faculty. The appeal will be reviewed by the academic department, the college appeals committee (if appropriate), and the college dean. A recommendation will be forwarded to the College of Graduate Studies for review by the Dean of the College of Graduate Studies.

If the appeal is approved by the Dean of the College of Graduate Studies, the appellant will be allowed to proceed toward the degree under conditions specified by the appropriate department and/or college.

Academic Dishonesty
1. All graduate students of Georgia Southern University are required to comply with the standards of conduct published in The Eagle Eye Student Conduct Code.
2. In graduate studies, academic dishonesty includes: (1) cheating on examinations or assignments and/or (2) plagiarizing published materials or the work of other current or former students. Complete definitions of these concepts are provided in the Academic Dishonesty section of the Conduct Code. Disciplinary process and appeal rights are described in the Disciplinary Procedures section of the same code.
3. Copies of The Eagle Eye are available from the Division of Student Affairs, Post Office Box 8063, Georgia Southern University, Statesboro, GA 30460.

Residence and Time Limits
All work credited toward the degree must be completed within seven years. Extension of time may be granted only on conditions beyond the control of the student. A formal request outlining the extenuating circumstances for an extension of time should be addressed to the College of Graduate Studies.

The minimum residence requirement for a Master’s degree is one academic year or three summer sessions.

Registration for Thesis or Dissertation
A prospective candidate for a graduate degree must be registered during each term in which an internship is being conducted, a project (in lieu of thesis), thesis (if required), or a dissertation is under preparation and where university facilities and/or staff time are utilized, including the final term in which the internship, project, thesis or dissertation is being completed.

Policy Regulations:
1. A student must register by the term registration deadline. Any student failing to register by the term registration deadline will be enrolled in the following term and will be updated for graduation for the same term, if applicable.
2. The student’s advisor and/or major professor will be responsible for advising the student to register for the appropriate number of credit hours to comply with internship, project, thesis, dissertation, and/or comprehensive examination enrollment requirements.
3. A grade of IP will be recorded for all internship, project, thesis, or dissertation credit work in progress, and will automatically be recorded each term the student is enrolled.
4. The grade of S/U must be recorded for all theses, or dissertation credit when completed.

The advisor and/or major professor will report a final thesis, or dissertation grade of S or U. Any reported grade other than S/U, will be changed to an S/U grade according to the following:
REPORTED GRADE OF A, B, C = S
REPORTED GRADE OF D, F = U

Upon completion of internship, project, thesis, or dissertation requirements, final grades for preceding terms will be changed to the appropriate grade.

Comprehensive Examination Procedure
The degree candidate must schedule the comprehensive examination and/or thesis defense through his/her major professor. The examination/defense must be completed no later than two weeks prior to the last day of classes for the term. Check the calendar in the Catalog for the examination/defense deadlines. During the examination the candidate is expected to prove a competency to discuss facts, justify interpretations, and defend opinions. The decision on the candidate’s performance on the examination shall be reported “pass,” or “fail”, to the College of Graduate Studies no later than one week prior to the last day of classes in the term in which the student plans to graduate.

The comprehensive examination may be divided into two parts. The department in which the student plans to graduate may elect to conduct part one of the examination over graduate course work when all the courses in the student’s planned program of study are completed. If the department chooses this option, part two of the examination will be the defense of the thesis only. If the department does not select this option, the examination will be held at one sitting with the examination of the course work and the defense of the thesis included.
Dissertation Defense Procedure
The oral dissertation defense will be conducted by the dissertation committee chair and must be attended by all members of the committee. This meeting is open to all members of the University community. The dissertation defense must be completed by the final date for dissertation defense established by the College of Graduate Studies for each term. The candidate’s performance on the dissertation defense will be reported in writing as “pass” or “fail” by the dissertation committee chairperson to the College of Graduate Studies at least two weeks prior to graduation.

Requirements for Graduation
Subject to the limitations and qualifications stated elsewhere in this Catalog, the requirements for an advanced degree are as follows:

1. A minimum of three semesters (one academic year) or three summer sessions in residence.
2. Satisfactory completion of course work and other requirements appropriate to the advanced degree for which the student is a candidate.
3. Graduate Application for Graduation must be filed in the Office of the Registrar by the application deadline listed in the official academic calendar.
4. Refer to the calendar in this Catalog for the final dates for filing an application for graduation each term.

The graduation fee must be paid and all other financial obligations or “holds” must be satisfied before a student is cleared for graduation.

Grading System
The “A” grade may be interpreted to mean that the instructor recognized the student’s exceptional mastery of the course material.

The grade of “B” indicates that the student has demonstrated an above average mastery of the course material.

The “C” grade is the instructor’s certification that the student has demonstrated minimal mastery of the course material.

The student is graded “D” or “F” when his/her grasp of the course material is unacceptable.

No grade below a “C” may apply toward any graduate degree.

An “IP” symbolizes an incomplete in progress. It is used for credit designed to extend over more than one term, i.e., dissertation, thesis, internship and practicum credit.

An incomplete grade “I” indicates that the student was doing satisfactory work but was unable to meet the full requirements of the course due to non-academic reasons beyond his/her control. An “I” must be removed within one calendar year following the term in which it was recorded. It is the student’s responsibility to insure that the course work is completed. If the “I” is not satisfactorily removed at the appropriate time it will be changed to an “F”.

An “S” indicates that credit has been given for completion of degree requirements other than academic course work.

The symbol “U” indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work.

Neither “S”, nor “U” is included in the computation of the grade point average.

A student who registers for a course and finds that he/she has made an error at registration must make the official change through drop/add. Under no conditions may a student earn credit for a course unless he/she is registered officially for the course. It is the student’s responsibility to follow the proper procedures in changing courses.

A student may not repeat any course for credit for which he/she has already received a grade of C or better unless specifically permitted by the degree program department policy.

Withdrawal from Course/School
A “W” is employed to indicate official withdrawal from a course without penalty. It is assigned in all cases in which a student withdraws before the mid-point of the term. Beyond the mid-term a “WF” will be assigned except in cases of hardship as determined by the instructor. A “W” is not considered in computing the grade point average. The “WF” is computed as an “F”.

Any withdrawal from a course must be approved by the instructor and the student’s advisor. Any student who discontinues attending a class for which he/she is registered will receive an “F” unless he/she officially (by appropriate signatures) withdraws from the course at the time he/she ceases to attend.

Any student who wishes to withdraw from school during the term must present an official Withdrawal From School Form to the Registrar. If a student is only taking one course at the time of withdrawal, he/she must complete this withdrawal form. Failure to do so will result in the assignment of failing grades in all courses for which the student registered. Withdrawal is not permitted after the last day of class. Withdrawing from school in any one term does not prevent the student from registering in subsequent terms.

Petition to Review/Change a Grade
See Academic Information.

Grade Point Average
The cumulative grade point average is the grade average made by a student on all work for which he/she has enrolled. It is obtained by dividing the total number of grade points earned by the total number of hours attempted. Courses carrying an “S” grade are not included.

When courses in which a student has made a grade of “D” or “F” are repeated, the last earned grade is the official grade. However, all hours attempted are counted in computing the grade point average.

Unit of Credit
The University year is organized on the semester system, each of the two semesters in the regular session extending over a period of approximately fifteen weeks.

A semester hour is equivalent to 15 clock hours.

Transcripts
A complete copy of the student’s academic record (transcript) may be obtained by presenting a written request to the Registrar. Telephone requests will not be honored. Two weeks must be allowed for processing a transcript request. There is no charge for transcript services.
**Academic Common Market**
Students from a number of states may be eligible for an out-of-state fee waiver based upon the Academic Common Market agreement that Georgia shares with these participating states. If a student majors in disciplines at Georgia Southern University that are not available in their home states, they may be eligible for the waiver. Sport Management is currently approved for graduate students from selected states. Please contact the Registrar’s Office at 912-681-0862 for more details.

**Border County Fee Waiver**
Graduate students who are legal residents of out-of-state counties bordering on Georgia counties an institution of the University System is located and who are enrolled in said institution may be eligible for a fee waiver based upon the Border County rule. For more information, please contact the Registrar’s Office at 912-681-0862.

**Financial Aid Programs**
See Financial Aid section of this catalog.
College of Business Administration

MASTER OF BUSINESS ADMINISTRATION  M.B.A.  33 HOURS
Advising: College of Business Administration, Dr. J. Michael McDonald, P.O. Box 8125, Statesboro, GA 30460, Edna Levernier, (912) 681-0290 or (912) 681-5767, or eleverni@gsai2.cc.gsu.edu, FAX (912) 681-0292

Admission Requirements
A prospective student who has earned a baccalaureate degree and plans to take courses in the MBA program must be admitted under one of the following classifications:

Degree Student
Students who are admitted to the College of Graduate Studies with the expressed intention of following a program leading to a graduate degree are classified as degree students. When admitted as a degree student, the applicant will be placed in one of the following categories:

Regular Admission
A prospective candidate for the MBA degree who meets all requirements for unqualified admission and has been recommended by the Director of Graduate Studies in the College of Business Administration and approved by the College of Graduate Studies is classified as a regular degree student. A student with a standard formula score of 1000 or higher (or with an upper-level score of 1050 or higher) will be admitted as a regular MBA student. Student transcripts are evaluated for the prerequisite requirements prior to admission. The requirement to make up deficiencies in the prerequisite courses is listed on the notification of acceptance as a condition of acceptance.

Provisional Admission
A prospective candidate for a degree that does not satisfy the full admission requirements as defined by the standard formula\(^1\) may be classified in this category under conditions specified at the time of admission by the College of Graduate Studies upon the recommendation of the Director of Graduate Studies in the College of Business Administration. A student with an index equal or greater than 950 and less than 1000 will be admitted as a Provisional MBA student provided the undergraduate GPA is 2.80 or higher, or the GMAT score is a 470 or higher. A student admitted in this category will be required to make a grade of “B” or higher in each of the first three graduate courses. Only credit earned at Georgia Southern University may be used to satisfy this admission requirement. A student admitted in this category will be reclassified to regular admission when the conditions have been met. Failure to satisfy the conditions in the specified course limit will result in the student’s ineligibility to continue work in the MBA program.

\(^1\) - Standard formula score is calculated by multiplying undergraduate GPA times 200 plus the GMAT score, [(UGPA x 200) + GMAT => 1000]. Upper level formula is [(Last 60 semester hours UGPA x 200) + GMAT => 1050].

Non-degree Student
An applicant may be admitted to the College of Graduate Studies as a non-degree student to earn credit in graduate courses without working toward a degree. One who is admitted as a non-degree student may apply to the MBA program at any time. Students are admitted non-degree in business in one of the following categories:

Post-Graduate
An applicant admitted to the College of Graduate Studies with the intention of enrolling in MBA courses but not to the MBA degree program that holds a Master’s degree may enter as non-degree, post-graduate. Once admitted under this classification an acceptable GMAT score must be submitted to the college of Graduate Studies by the completion of the third graduate level course in order to continue with additional graduate courses in the MBA program.

Limited
An applicant admitted to the College of Graduate Studies but not to the MBA degree program is limited to earning a total of 9 semester hours of credit in graduate courses. A student who has not taken the GMAT may be admitted under this classification provided that the overall undergraduate GPA is 3.25 or higher, or the upper-level (last 60 semester hours) GPA is 3.50 or higher. Once admitted under this classification, an acceptable GMAT score must be submitted by the completion of the second graduate level course in order to continue with additional graduate courses in the MBA program. The requirement to make up deficiencies in the prerequisite courses is listed on the notification of acceptance as a condition of acceptance. Graduate credit earned under this classification may not count toward the degree program except under special conditions decided at the time of admission to the MBA degree program.

(Continued on next page)
Graduate Special
A student not admitted to a degree program and that wishes to take courses for personal or professional interest may be admitted in this classification and is limited to twenty (20) semester hours in any seven contiguous years.

Prerequisites (A student admitted as a prospective candidate for the MBA degree must complete the following prerequisite courses or must present evidence of completion of a Bachelor of Business Administration (BBA) degree or equivalent degree.):
- ACCT 6130 - Accounting and Control (3)
- ECON 6230 - Foundations of Economics (3)
- FINC 6220 - Fundamentals of Corporate Finance (2)
- LSTD 6120 - Legal & Ethical Issues in Business (2)
- MGNT 6320 - Survey of Management & Human Behavior in Organizations (2)
- MGNT 6321 - Production/Operations Management (2)
- MGNT 6330 - Quantitative Methods for Business (3)
- MKTG 6420 - Marketing Environment (2)

General Requirements ............................................................................................................................................... 21 Hours
- ACCT 7230 - Accounting for Executives (3)
- BUSA 7530 - Global Business Strategy (3)
- CISM 7321 - Information Technology Management (2)
- FINC 7231 - Financial Problems (3)
- MGNT 7322 - Management of Operations for Competitive Advantage (2)
- MGNT 7323 - Leadership and Motivation (2)
- MGNT 7331 - Problem Solving with Quantitative Methods (3)
- MKTG 7431 - Strategic Marketing Management (3)

MBA Electives (Select four) ......................................................................................................................................... 12 Hours
Selected from 7000-level courses offered by the College of Business Administration or from approved electives offered elsewhere in the University

NOTE: ALL ELECTIVE COURSES TAKEN FOR CREDIT TOWARD COMPLETION OF ANY MASTERS LEVEL DEGREE PROGRAM IN THE COLLEGE OF BUSINESS ADMINISTRATION WILL INCLUDE ONLY THOSE COURSES RESERVED EXCLUSIVELY FOR GRADUATE STUDENTS.

MASTER OF ACCOUNTING

M.Acc.  30 HOURS

Advising: College of Business Administration, Dr. J. Ralph Byington, P.O. Box 8141, Statesboro, GA 30460, (912) 681-5678, FAX: (912) 681-0105

Admission Requirements
Beginning in January 1998, to sit for the CPA Examination in the State of Georgia, candidates must have 150 semester hours of college education. The School of Accountancy has structured a thirty semester hour Master of Accounting to meet and exceed these requirements. The Master of Accounting includes eighteen hours of accounting, three hours of legal studies, and nine hours of masters' level business education.

A prospective student who has earned a baccalaureate degree and plans to take courses in the program must be admitted under one of the following classifications:

Degree Student
Students who are admitted to the College of Graduate Studies with the expressed intention of following a program leading to a graduate degree are classified as degree students. When admitted as a degree student, the applicant will be placed in one of the following categories:

Regular Admission
A prospective candidate for the degree who meets all requirements for unqualified admission and has been recommended by the Director of Graduate Studies in the College of Business Administration and approved by the College of Graduate Studies is classified as a regular degree student. A student with a standard formula score of 1000 or higher (or with an upper-level score of 1050 or higher) will be admitted as a regular degree student. Student transcripts are evaluated for prerequisite requirements prior to admission. The requirement to make up deficiencies in prerequisite courses is listed on the notification of acceptance as a condition of acceptance.

Provisional Admission
A prospective candidate for a degree who does not satisfy the full admission requirements as defined by the standard formula may be classified in this category under conditions specified at the time of admission by the College of Graduate Studies upon the recommendation of the Director of Graduate Studies in the College of Business Administration. A student with an index equal or greater than 950 and less than 1000 will be admitted as a Provisional student provided the undergraduate GPA is 2.80 or higher, or the GMAT score is a 470 or higher. A student admitted in this category will be required to make a grade of “B” or higher in each of the first three graduate courses. Only credit earned at Georgia Southern University may be used to satisfy this admission requirement. A student admitted in this category will be reclassified to regular admission when the conditions have been met. Failure to satisfy the conditions in the specified course limit will result in the student=s ineligibility to continue work in the M.Acc. program.

1 - Standard formula score calculated by multiplying undergraduate GPA times 200 plus the GMAT score, [(UGPA x 200) + GMAT => 1000]. Upper level formula is [(Last 60 semester hours UGPA x 200) + GMAT => 1050].

Non-degree Student
An applicant may be admitted to the College of Graduate Studies as a non-degree student to earn credit in graduate courses without working toward a degree. One who is admitted as a non-degree student may apply to the program at any time. Students are admitted non-degree in business in one of the following categories:

Post-Graduate
An applicant admitted to the College of Graduate Studies with the intention of enrolling in M.Acc. courses but not to the degree program that holds a Master's degree may enter as non-degree, post-graduate. Once admitted under this classification an acceptable GMAT score must be submitted to the college of Graduate Studies by the completion of the third graduate level course in order to continue with additional graduate courses in the program.

Limited
An applicant admitted to the College of Graduate Studies but not to the degree program is limited to earning a total of 9 semester hours credit in graduate courses. A student who has not taken the GMAT may be admitted under this classification provided that the overall undergraduate GPA is 3.25 or higher, or the upper-level (last 60 semester hours) GPA is 3.50 or higher. Once admitted under this classification, an acceptable GMAT score must be submitted by the completion of the second graduate level course in order to continue with additional graduate courses in the program. The requirement to make up deficiencies in the prerequisite courses is listed on the notification of acceptance as a condition of acceptance. Graduate credit earned under this classification may not count toward the degree program except under special conditions decided at the time of admission to the degree program.

Master of Education Programs

Master of Education (M.Ed.) degree programs are offered in 22 areas of study. A student admitted to the College of Graduate Studies as a prospective candidate for the M.Ed. degree must satisfactorily complete a planned program of study of at least thirty-six semester hours, including a minimum of 6-9 hours in the professional education Core and a minimum of 15 hours in the content field of the major. Since programs of study in all areas are planned to enable students to meet the certification requirements of the Georgia Professional Standards Commission as specified in Georgia Southern’s “approved programs,” it is critical that students meet with their advisors early in their course work to plan an appropriate program of study. The development of the program of study expedites the registration process and ensures that all course work may be applied toward fulfilling degree requirements. Upon successful completion of the program of study, graduates will be recommended for the appropriate Georgia Level Five Professional Certificate.

M.Ed. programs of study must include at least 50% “graduate only” courses. However, students and their advisors are strongly encouraged not to include more than one split-level course in the program of study.

Alternative M.Ed. Programs

Alternative teacher preparation programs are available to individuals who hold a bachelor’s degree and seek initial certification. These alternative programs are designed to support completion of the M.Ed. degree in selected areas of Secondary and P-12 Education and in Middle Grades Education. Through several steps of course work, students achieve Provisional Certification, Clear Renewable Level Four Teacher’s Professional Certification, and finally, the Master’s degree and Level Five Teacher’s Professional Certification.

Linked M.Ed. Programs

A collaborative relationship exists between Georgia Southern University and Armstrong Atlantic State University (AASU) and, as a result, selected M.Ed. programs are offered as “linked programs.” The “linked programs” include the M.Ed. in Early Childhood Education, Middle Grades Education, select Secondary Education programs, and Special Education. Students in these programs may take courses from either institution with easy transferability. Graduate advisor approval must be obtained in advance for courses to apply to the program of study. Students are required to complete a minimum of 9 semester hours of their program at any of the residential sites of the degree-granting institution they have chosen. The residential sites for AASU are Chatham, Camden, and Bryan Counties. Effingham and Liberty Counties are residential sites for both AASU and Georgia Southern. The residential sites for Georgia Southern are all other counties in southeast Georgia. Additional information can be obtained from the College of Education or the College of Graduate Studies at Georgia Southern University.

Off-Campus Graduate Offerings

M.Ed. programs in Adult Education, Counselor Education, Educational Leadership, and School Psychology are offered in Savannah. The Educational Leadership program is also offered in Camden County and Glenn County. Major portions of M.Ed. programs in Early Childhood Education, Middle Grades Education, and select Secondary and P-12 Education programs are offered in Savannah, Brunswick, and other off-campus sites. Core courses and various content courses are offered regularly at various off-campus and distance learning sites.

Admission to M.Ed. Programs

Regular Admission

For regular admission to the College of Graduate Studies to pursue the Master of Education degree, the applicant must:

1. Possess a bachelor’s degree from a regionally accredited institution.
2. Possess or be eligible for the Professional Level Four Certificate in the proposed field of study.

Two exceptions to this requirement exist:

a. Applicants who hold a bachelor’s degree outside the field of education may have their transcripts evaluated and apply for admission into the Alternative M.Ed. Program. Possess or be eligible for Level Four Certification in the particular field. These include: Adult Education, Counselor Education, Educational Leadership, Higher Education Student Services, Instructional Technology, Reading Specialist, School Psychology, and Special Education. Refer to the program for specific information.

3. Present a 2.50 (4.0 scale) grade point average or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtests of the Graduate Records Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT). The M.Ed. program in School Psychology has different admission requirements; refer to the program for specific information.

NOTE: Some programs have additional admissions requirements; refer to programs for specific information.

Provisional Admission

A student may be granted provisional admission if the requirements listed in one, two, and three for “regular admission” are met and the test scores fall within the following parameters: a score of at least 35 on the MAT or a score of 400 on the verbal subtest and 400 on either the quantitative or analytical subtests of the GRE. The M.Ed. program in Special Education allows for provisional admission without the certification requirement by prescribing prerequisite coursework for regular admission. Refer to the program for specific information. Provisional admission is not available for the M.Ed. program in School Psychology; however, those who are denied regular admission into this program may appeal the decision through the Exceptions Committee. Provisional admission for a grade point average below 2.50 is not available for admission into M.Ed. or Alternative M.Ed. programs.

Admission by Appeal

A student who does not meet the test score criteria for provisional admission may appeal for admission to the College of Education Exceptions Committee. The Exceptions Committee examines additional information in support of a student’s request for admission to a graduate program and makes recommendations to the Dean of the College of Education. Information required in the appeals process may be secured by contacting the College of Graduate Studies. In order for the Exceptions Committee to hear an appeal, the student must have a score of at least 27 on the MAT or 350 on the verbal subtest and 350 on either the quantitative or analytical subtest of the GRE. These are system-wide minimum requirements set by the Board of Regents. Students who are successful in the appeals process will be admitted “provisionally” to the M.Ed. program in the College of Graduate Studies and will be expected to meet requirements for “regular admission” during the first 15 quarter hours of graduate work after admission.
M.Ed. Comprehensive Exit Examination
A written and/or oral comprehensive examination is required of students seeking the Master of Education degree. The examination consists of two parts: (1) a written examination on the M.Ed. "core," and (2) a written and/or oral examination on the content area. The examination is offered each quarter. In order to take the examination, students must have completed the core courses and at least 30 quarter hours in the content area and must have an approved program of study on file with the College of Graduate Studies. Students must apply for the examination in the College of Education departmental office for their particular field study, having first received advisor's approval and verification that requirements have been met. The following registration deadlines must be met:

- October 2 for Fall Semester Exam
- February 19 for Spring Semester Exam
- May 28 Summer Semester Exam

Students are eligible to receive the M.Ed. degree at the close of the semester upon completion of all course work in the planned program and a satisfactory performance on both the core and content parts of the comprehensive examination. For specific information on the core and content examinations, contact the Chair or assigned graduate advisor for the field of study.

Non-Degree Graduate Studies/Endorsements
Initial certification may be achieved through non-degree graduate and/or undergraduate course work in all certification areas except Counselor Education. The Alternative M.Ed. Programs are recommended instead of non-degree work in available teaching fields. For initial certification, admission to the teacher Education Program is required. A transcript evaluation is required for advisement in non-degree work if initial certification is sought. Persons may add certification fields as non-degree students; however, for all teaching fields, a letter outlining requirements from the Georgia Professional Standards Commission is required for advisement. Courses may also be taken for recertification and professional enrichment through non-degree status.

Certification requirements may be met in specific fields as an endorsement to a professional certificate in teaching, service, or leadership fields and may be accomplished through non-degree course work. Endorsement programs are available as in the following areas: English for Speakers of Other Languages (ESOL), Gifted Education, Teacher Support Specialist (TSS), Leadership Endorsements, Coordinator of Cooperative Education (CVAE), Diversified Cooperative Training (DCT), and Related Vocational Instruction (RVI). Contact the Teacher Certification Programs Coordinator for further information and/or transcript evaluation.

Education Specialist Programs
The Education Specialist (Ed.S.) degree is a unique professional degree for educators that is designed to provide the opportunity to develop a high level of proficiency in the field of study as well as develop research and leadership skills. Ed.S. degree programs are offered in 16 areas of study. Programs of study leading to the Ed.S. degree can be planned to enable students to meet certification requirements for the Georgia Professional Standards Commission as specified in Georgia Southern’s "approved programs." Upon successful completion of the program, graduates are eligible for the appropriate Level Six Professional Certificate. Typically students are not allowed to change fields of study at the Ed.S. level. However, select programs, including Educational Leadership, Instructional Technology, Middle Grades Education, and Reading Specialist, allow for this possibility after transcript review and with the prescription of additional course work to the program of study.

The Ed.S. degree requires a program of study that includes a minimum of 27 semester hours of course work with at least a "B" average. The program of study must include a research sequence of nine to twelve semester hours, including EDUR 8131, EDUR 8434, and a directed field-based research course in the field of study, and a minimum of 15 hours in the content field of the major. The combined Masters and Education Specialist programs must include a minimum of 21 hours in professional education courses and 30 hours in the instructional content field of the major. Upon admission into the Ed.S. program, the student is responsible for meeting with the assigned graduate faculty advisor. Collaboratively an individualized program of study should be developed that meets degree requirements and also reflects the student’s career goals, educational background, interests, and needs. Each program requires a culminating experience that is connected with the field-based research course, serves as the comprehensive exit assessment, and must be satisfactorily completed in order for the Ed.S. degree to be awarded. Upon completion of the Ed.S. degree, graduates are eligible to apply for the Georgia Level Six Professional Certificate if they possess the Level Five Certificate in the field.

Admission to Ed.S. Programs
Georgia Southern admits persons who display an educational development and achievement level that are better than average. To this end, admission requirements reflect previous educational orientation, and a judgment of admission or rejection is made by the College. For admission to the College of Graduate Studies to pursue the Education Specialist degree, the applicant must:

1. Possess or be eligible for the Professional Level Five Certificate in the proposed field of study based on a Master’s degree from a regionally accredited institution. For admission to the School Psychology program, the applicant must possess or be eligible for the Non-Renewable Level Five Certificate.
2. Present a 3.25 (4.0 scale) grade point average on all graduate work attempted.
3. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Records Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).
4. Have had two years of experience in school work (dependent on program)

A graduate student who is within six hours of completing a Master’s program may enroll for a maximum of three semester hours of graduate credit toward an Ed.S. program provided: (1) a completed application to the Ed.S. program has been submitted to the College of Graduate Studies; (2) except for the degree, the student meets all criteria for unqualified admission to graduate study in the Ed.S. program; (3) permission to enroll in such courses is approved by the College of Graduate Studies upon the recommendation of the graduate faculty advisor of the Ed.S. program in which the applicant proposes to study; (4) the total number of hours of course work for the term does not exceed nine hours of graduate credit; and (5) the comprehensive examination for the Master’s program has been successfully completed or is scheduled to be taken during the final semester of the Master’s program. For any course work to count toward the Ed.S. program, the comprehensive examination must be successfully completed by the end of the semester in which the course is taken. Under no circumstances may a course be used for credit in both a student’s Master’s and Education Specialist programs of study. Credit earned before admission into the Ed.S. program will not count toward the degree.

Provisional admission does not exist for the Ed.S. program.
Admission by Appeal

A student who does not meet the grade point average and/or test score criteria for admission may appeal for admission to the College of Education Exceptions Committee. The Exceptions Committee examines additional information in support of a student’s request for admission to a graduate program and makes recommendations to the Dean of the College of Education. The Committee suggests that students make more than one attempt at the GRE and MAT, make a recent attempt to meet test score requirements for admission, and submit letters of recommendation from previous instructors with the appeal for admission. Information required in the appeals process may be secured by contacting the College of Graduate Studies.

Ed.S. Comprehensive Exit Assessment

To complete degree requirements for the Ed.S. degree, each student must demonstrate the ability to conduct and present a field-based research project. The student and the graduate faculty advisor should consider possible research topics that complement the student’s career objectives and program of study. Upon enrollment in EDUR 8434, Field-Based Educational Research, the second course in the research sequence, the student is expected to have formulated a research topic and will select three graduate faculty members to serve on an Advisory Team. This team will approve the research topic, mentor the progress of the research, and attend a formal presentation of the research. The team will be comprised of a content area instructor, the student’s graduate advisor, and one member of the student’s choice selected with the advisor’s approval. The third member may be from a field outside the student’s major area. The research proposal developed in EDUR 8434 will include the statement of the problem, a literature review, and research methodology. In the directed field-based research course specific to the field of study, the student engages in guided field research to develop inquiry and problem-solving skills and implements the proposal developed in EDR 852. The instructor, collaborating with the Advisory Team, is responsible for evaluation of the research project/thesis and assigns a final course grade. A formal presentation of the research is made during which the Ed.S. candidate orally shares the research and related findings. The presentation may be up to forty minutes followed by a period when the student’s Advisory Team or others attending may make inquiry pertaining to the research being presented. The entire presentation and inquiry session should not exceed one hour and should be open to all faculty and students.

Doctor of Education Programs

Doctor of Education (Ed.D.) degree programs are offered in the areas of Curriculum Studies and Educational Administration. The Ed.D. program in Curriculum Studies prepares graduates to work directly in the schools as master teachers, curriculum supervisors, curriculum coordinators, curriculum consultants, or curriculum theorists, as well as gain employment in government and private agencies. The design of the Ed.D. program in Curriculum Studies strikes a triadic balance between general core studies in Curriculum and the Foundations of Education, courses in Research and scholarly Inquiry, and studies in an Emphasis area, representing a unique and contemporary approach to doctoral study in Curriculum. See program for specific information on admission, program of study, and other requirements.
ADULT EDUCATION  M.Ed.  36 HOURS

Advising: Department of Educational Leadership, Technology, and Human Development, Dr. Catherine Hansman, P.O. Box 8131, Statesboro, GA 30460, (912) 681-0032, chansman@gsou.edu, FAX: 486-7104, http://www2.gasou.edu/elrt/dept1.html

Program Intent: This program is designed for persons who may or may not hold a teaching certificate but who are interested in working with adult learners in a variety of settings, such as technical institutes, ABE and/or GED programs, or human resource development in governmental or business settings. Although no certification exists for teachers of adults in Georgia, teachers who already are certified in other teaching fields will be eligible to apply for the Professional Level Five Certificate upon completion of the program. Hours taken toward the M.Ed. in Adult Education may also be used to renew existing teaching certificates.

Admission Requirements:

Regular:
1. Complete requirements for a bachelor's degree from a regionally accredited institution.
2. Present a 2.50 GPA or higher on all undergraduate work.
3. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
1. All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Professional Education Core Requirements ................................................................. 6 Hours
- EDUF 7130 - Learning Theories and Applications (3)
- EDUR 7130 - Educational Research (3)

Specific Requirements ................................................................................................... 24 Hours
- ADED 7131 - The Adult Learner (3)
- ADED 7132 - Teaching Adults (3)
- ADED 7230 - Trends and Issues in Adult Education (3)
- ADED 7330 - Administration of Adult Education (3)
- ADED 7430 - Program Planning for Adult Learners (3)
- ADED 7737 - Practicum in Adult Education (3)
- ADED 7830 - Final Master's Project (3)
- EDUF 7255 - Multicultural Education (3)

Electives .......................................................................................................................... 6 Hours
The following list contains suggestions for elective courses for Adult Education graduate students. However, students may also choose to take courses within their own subject area in a different college. All electives must be approved in advance by the student's major advisor.

Suggested Electives:
- ADED 8630 - Seminar in Adult Education (3)
- ADED 8890 - Directed Individual Study in Adult Education (3)
- COUN 7338 - Lifespan Development (3)
- COUN 7336 - Career Counseling (3)
- COUN 7331 - Introduction to Counseling (3)
- COUN 8534 - Vocational Assessment (3)
- EDLD 7135 - Educational Leadership (3)
- EDLD 8431 - Higher Education/Law (3)
- EDLD 8434 - The Community College (3)
- EDUC 7130 - Curriculum, Theories and Design (3)
- EDUF 7234 - History of American Education (3)
- ITEC 7530 - Instructional Technology for Educators (3)
- ITEC 8530 - Applications of Instructional Technology (3)
- HIED 7131 - Student Services in Higher Education (3)
- HIED 7132 - Contemporary College Students (3)
- HIED 7134 - Ethical & Professional Issues in Student Services (3)
- READ 7131 - Approaches to Reading Instruction (3)
- SPED 7137 - Lifespan Issues in Special Education (3)
- WFED 7231 - Developing Vocational Education Curriculum (3)
- WFED 7232 - Management of Programs in Vocational & Technical Education (3)
ART EDUCATION  M.Ed.  36 HOURS
Advising: Department of Art, Foy Fine Arts Building, Dr. Richard Tichich, P.O. Box 8032, Statesboro, GA 30460, (912) 681-5358, rtichich@gsvms2.cc.gasou.edu, FAX: (912) 681-5104

Admission Requirements
Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Four Certificate or equivalent in Art Education.
3. Present a 2.50 GPA or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Professional Education Core Requirements ................................................................. 9 Hours
   EDUC 7130 - Curriculum Theories & Design (3)
   EDUF 7130 - Learning Theories & Applications (3)
   EDUR 7130 - Educational Research (3)

Major Requirements .................................................................................................... 24 Hours
   ART 7430 - Foundations of Art Education (3) ART
   7431 - Cultural Diversity Through Art (3) ART
   7435 - Aesthetics Criticism Art Education (3)
15 hours of graduate art courses approved by the advisor. Courses must include a minimum of one Art History and one Studio Art. (15)

Elective ......................................................................................................................... 3 Hours

Other Program Requirements
• Successful completion of the M.Ed. Comprehensive Exit Examination

ART EDUCATION  Ed.S.  27 HOURS
Advising: Department of Art, Foy Fine Arts Building, Dr. Richard Tichich, P.O. Box 8032, Statesboro, GA 30460, (912) 681-5358, rtichich@gsvms2.cc.gasou.edu, FAX: (912) 681-5104

Admission Requirements
Regular:
1. Complete requirements for a master’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Five Certificate or equivalent in Art Education.
3. Present a 3.25 GPA or higher on all graduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).

Prerequisites:
   EDUR 7130 - Educational Research (3)

Research Sequence Requirements .................................................................................. 9 Hours
   EDUR 8131 - Educational Statistics I (3)
   EDUR 8434 - Field-Based Educational Research (3)
   ESED 8839 - Seminar and Field Study (3)

Major Requirements .................................................................................................... 15 Hours
   15 hours of graduate art courses approved by the advisor

Elective ......................................................................................................................... 3 Hours

Other Program Requirements
• Successful completion of the Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.

COUNSELOR EDUCATION  M.Ed.  48 HOURS

Advising: Department of Educational Leadership, Technology and Human Development, Dr. Jim Bergin, P.O. Box 8131, Statesboro, GA 30460, (912) 681-0873, jim_bergi@gsvms2.cc.gasou.edu, FAX: (912) 486-7104; Dr. Mary Jackson (School Counseling), P. O. Box 8131, Statesboro, GA 30460, (912) 681-5736, mjjackson@gsvms2.cc.gasou.edu, FAX: (912) 486-7104; Dr. Leon Spencer (Community Counseling), P. O. Box 8131, Statesboro, GA 30460, (912) 681-5917, lespence@gsvms2.cc.gasou.edu, FAX: (912) 486-7104, http://www2.gasou.edu/erl/dept1.html

Program Intent: The Counselor Education program prepares counselors for elementary, middle level, secondary, or post-secondary educational and related agency settings. There are three degree program emphases/tracts based on educational background and career goals:

Emphasis/Track One: School Counseling - Does not require Professional Level Four Certification for admission. This tract is designed for those students who wish to pursue a career in School Counseling.

Emphasis/Track Two: Community Counseling - This tract is designed for those students who seek counselor preparation for a variety of settings not requiring Level Five Certification in School Counseling for employment.

Emphasis/Track Three: Student Affairs Practice in Higher Education - (See M.Ed. in Higher Education Student Services). This tract is designed for those students seeking employment in student affairs in a variety of post-secondary educational settings.

Admission Requirements
There is an application deadline of April 1 for students seeking admission for Fall Semester of the same calendar year. Note: “Non-Degree, Limited Students” are not eligible for admission to the Counselor Education program.

Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Present a 2.50 GPA or higher on all undergraduate work.
3. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Provisional:
All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT). Counselor Education Program Application Packet must be submitted.

Adding Field: Persons with a Level Five Certificate other than School Counseling may earn the School Counselor Level Five Certificate by completing the M.Ed. in Counselor Education. Up to three courses from a previous M.Ed. program may be applied toward degree requirements. Persons holding a Master’s degree in a counseling field other than School Counseling (with a probationary or provisional counseling certificate issued by the Professional Standards Commission) may add School Counseling by completing a minimum of 18 hours in Counselor Education. Persons holding a Level Six or Level Seven Certificate in another field may add School Counseling by completing a minimum of 39 hours in Counselor Education. Additional courses may be required based on individual evaluation. The M.Ed. in Counselor Education does not permit persons to add the field as a non-degree student. All Counselor Education majors seeking recommendation for professional certification must complete a total of 600 hours in a School Counseling Internship in a school setting.

Emphasis/Track One: School Counseling

COUNSELOR EDUCATION        Ed.S.        30 HOURS
Advising: Department of Educational Leadership, Technology and Human Development, Dr. Alex Chew, P.O. Box 8131, Statesboro, GA 30460, (912) 681-0121, alchew@gsvms2.cc.gasou.edu, FAX: (912) 486-7104, http://www2.gasou.edu/elrt/dept1.html

Regular:
1. Hold a master’s degree in the field of counseling from an accredited graduate institution.
2. If seeking Georgia Level Six Certification in Counselor Education, must possess or be eligible for the Level Five Certificate in the field.
3. Present a 3.25 GPA on all graduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examinations (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Prerequisites:
EDUR 7130 - Educational Research (3)

Research Sequence Requirements
COUN 8839 - Action Research in Counselor Education (3)
EDUR 8131 - Educational Statistics I (3)
EDUR 8434 - Field-Based Educational Research (3)

Specific Requirements
COUN 8531 - Advanced Counseling Theory (3)
COUN 8737 - Advanced Counseling Practicum & Supervision (3)

Major Requirements
9 hours must be selected from the following:
COUN 7231 - Community Counseling (3)
COUN 7232 - Addiction Counseling (3)
COUN 7233 - Family Counseling (3)
COUN 7338 - Life Span Development (3)
COUN 8532 - Interp. Of Psychoeducational Tests (3)
COUN 8533 - Professional Practice & Ethics (3)
COUN 8534 - Vocational Assessment (3)
COUN 8535 - Organization & Administration of Student Services (3)
COUN 8890 - Directed Individual Study (Advisor Permission Required) (3)

Electives
May be outside major field. NOTE: Additional electives may be chosen from Counselor Education, Educational Leadership, Higher Education Student Services, Psychology, Sociology, or other areas related to projected work setting.

Other Program Requirements

• Successful completion of Ed.S. Comprehensive Exit Assessment: Involves constituting a three faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
EARLY CHILDHOOD EDUCATION M.Ed. 36 HOURS

Advising: Department of Early Childhood Education and Reading. Dr. Beverly Stratton, P. O. Box 8083, Statesboro, GA 30460, (912) 681-5121, bevstrat@gsvms2.cc.gasou.edu. FAX: (912) 681-0885,

ECED 7530 - Advanced Social Studies Methods (3)
ECED 7639 - Seminar in P-5 (3)

Birth Through Age Eight Emphasis ..................................................................................................... 18 Hours
ECED 7131 - Trends and Issues in P-5 (3)
ECED 7231 - Emerging Literacy (3)
ECED 7331 - Emerging Science and Mathematics Concepts (3)
ECED 7639 - Seminar in P-5 (3)
6 hours of specialized content with advisor approval

Electives ................................................................................................................................................... 9 Hours
Must be approved by advisor

Other Program Requirements
• Successful completion of the M.Ed. Comprehensive Exit Examination
**EARLY CHILDHOOD EDUCATION**

**Ed.S.**

**30 HOURS**

Advising: Department of Early Childhood Education and Reading, Dr. Beverly Stratton, P. O. Box 8083, Statesboro, GA 30460, (912) 681-5121, bevstrat@gsou.edu, FAX: (912) 681-0885, http://www2.gasou.edu/Early_Child_Ed_and_Reading/

Admission Requirements

Regular:

1. Complete requirements for a master’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Five Certificate or equivalent in Early Childhood Education.
3. Present a 3.25 GPA or higher on all graduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).

Prerequisites:

EDUR 7130 - Educational Research (3)

Note: The following courses must be taken during the Ed.S. program if not taken previously at the graduate level: an Instructional Technology course in the area of computer usage, ECED 7130 - Creativity and Children, and ECED 7232 - Children’s Literature.

Research Sequence Requirements ................................................................. 9 Hours

- ECED 8819 - Advanced Seminar and Field Study I (1) - Level III
- ECED 8829 - Advanced Seminar and Field Study II (2) - Level III
- EDUR 8131 - Educational Statistics I (3) - Level I
- EDUR 8434 - Field-Based Educational Research (3) - Level II

Major Requirements .................................................................................................................. 6 Hours

- Must select two of the following - Level I
  - ECED 8230 - Problems in P-5 Language Arts (3)
  - ECED 8330 - Problems in P-5 Mathematics (3)
  - ECED 8430 - Problems in P-5 Science (3)
  - ECED 8530 - Problems in P-5 Social Studies (3)

Electives ................................................................................................................................. 15 Hours

- Must be approved by advisor.

Other Program Requirements

- This program is sequenced and course work must be taken by Level. Nine hours of Level 1 course work must be completed before continuing to Level 2.
- Successful completion of the Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
EDUCATIONAL LEADERSHIP  M.Ed.  36 HOURS

Advising: Department of Educational Leadership, Technology, & Human Development, Dr. Garth Petrie, P.O. Box 8131, Statesboro, GA 30460, (912) 681-5304, gfpetrie@gsvms2.cc.gasou.edu, FAX: (912) 486-7104, http://www2.gasou.edu/elrt/dept1.html

Admission Requirements

Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Four Certificate or equivalent in a teaching field. Persons with a Master’s degree in a related field may be admitted; however, additional course work may be required.
3. Present a 2.50 GPA or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Professional Education Core Requirements ........................................................................................................ 12 Hours

EDUR 7130 - Educational Research (3)
EDUF 7130 - Learning Theories and Applications (3)
EDUC 7130 - Curriculum, Theories and Design (3)
ITEC 7530 - Instructional Technology for Educators OR
ITEC 8534 - Instructional Technology for Leaders (3)

Specific Requirements ........................................................................................................................................ 24 Hours

EDLD 7130 - Educational Supervision (3)
EDLD 7131 - Educational Personnel Management (3)
EDLD 7135 - Organizational Leadership (3)
EDLD 7230 - Site Administrator (3)
EDLD 7232 - Team Building for Leaders (3)
EDLD 7330 - Fiscal/Facilities Management (3)
EDLD 7333 - School Law (3)
EDLD 7737 - Supervised Field Experience (3)

NOTE: Upon evidence of three years of acceptable (certified) school experience, completion of all M.Ed. degree requirements, and successful completion of the PRAXIS II test in Administration/Supervision, the student will qualify for the clear, renewable Level 5 Certificate in Administration & Supervision.

Other Program Requirements

• Successful completion of the M.d. Comprehensive Exit Examination
EDUCATIONAL LEADERSHIP  Ed.S.  30 HOURS
(For Students Holding Level 5 Certification and Seeking Level 6 Certification)

Advising: Department of Educational Leadership, Technology, & Human Development. Dr. Garth Petrie (912) 681-5304, gfpetrie@gsms2.cc.gasou.edu, FAX: (912) 486-7104, http://www2.gasou.edu/elrt/dept1.htm

Admission Requirements
Regular:
1. Complete requirements for a master’s degree from a regionally accredited institution.
2. Possess or be eligible for the Professional Level Five Certificate or equivalent in Educational Leadership.
3. Present a 3.25 GPA on all graduate work attempted.
4. Present a score of no less than 450 on the Verbal subtest and a score of no less than 450 on either the Quantitative or Analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).
5. Have had two years of experience in school work.

Prerequisites:
EDUR 7130 - Educational Research (3)

Research Sequence Requirements................................................................................................................................. 12 Hours
EDLD 8130 - Educational Evaluation (3)
EDLD 8839 - Directed Research in Educational Leadership (3)
EDUR 8131 - Educational Statistics (3)
EDUR 8434 - Field-based Educational Research (3)

Area of Specialization (selected in consultation with adviser) ...................................................................................... 18 Hours
ADED 7230 - Trends and Issues in Adult Education (3)
EDLD 8230 - The Curriculum Leader (3)
EDLD 8330 - Clinical Supervision (3)
EDLD 8430 - School Finance (3)
EDLD 8530 - Advanced School Law (3)
EDLD 8531 - School Public Relations (3)
EDLD 8532 - Policy Studies in Schools (3)
EDLD 8533 - Politics of Education (3)
EDLD 8534 - The Superintendency (3)
EDLD 8739* - Advanced Field Experience (3)

*Required in EdS program of study when the student lacks one year of administrative/supervisory experience.

Other Program Requirements
• Successful completion of Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field
EDUCATIONAL LEADERSHIP       Ed.S.        42 HOURS
(For Students Seeking Initial Level 5 and Level 6 Certification)

Advising: Department of Educational Leadership, Technology, & Human Development. Dr. Garth Petrie (912) 681-5304, gfpetrie@gsvms2.cc.gasou.edu, FAX: (912) 486-7104 http://www2.gasou.edu/elrt/dept1.html

Admission Requirements

Regular:
1. Complete requirements for a master’s degree from a regionally accredited institution.
2. Present a 3.25 GPA on all graduate work attempted.
3. Present a score of no less than 450 on the Verbal subtest and a score of no less than 450 on either the Quantitative or Analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).
4. Have had two years of experience in school work.

Prerequisites:
- EDLD 7737* - Supervised Field Experience (3)
- EDUC 7130 - Curriculum, Theories and Design (3)
- EDUF 7130 - Learning Theories and Applications (3)
- EDUR 7130 - Educational Research (3)

*Can be included in courses required for L-5 certification endorsement

Research Sequence Requirements.................................................................................................................. 12 Hours
- EDLD 8130 - Educational Evaluation (3)
- EDLD 8839 - Directed Research in Educational Leadership (3)
- EDUR 8131 - Educational Statistics (3)
- EDUR 8434 - Field-based Educational Research (3)

Area of Specialization (selected in consultation with adviser) ................................................................. 30 Hours

EDUCATIONAL LEADERSHIP

(For Doctoral Bound Students)

Advising: Department of Educational Leadership, Technology, & Human Development. Dr. Garth Petrie (912) 681-5304, gfpetrie@gsvms2.cc.gasou.edu, FAX: (912) 486-7104 http://www2.gasou.edu/elrt/dept1.html

Program Intent: Provides students with greater expertise in cognate areas that support eventual matriculation into the Ed.D. program in Educational Administration.

Admission Requirements

Regular:
1. Complete requirements for a master’s degree from a regionally accredited institution.
2. Possess or be eligible for the Professional Level Five Certificate or equivalent in Educational Leadership.
3. Present a 3.25 GPA on all graduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).
5. Have had two years of experience in school work.

Prerequisites:

EDUR 7130 - Educational Research (3)

Research Sequence Requirements ............................................................................................................................. 12 Hours

EDLD 8130 - Educational Evaluation (3)
EDLD 8839 - Directed Research in Educational Leadership (3)
EDUR 8131 - Educational Statistics I (3)
EDUR 8434 - Field-based Educational Research (3)

Area of Specialization (selected in consultation with adviser) ............................................................................... 18 Hours

Option A. Administration/Management Emphasis

EDLD 8430 - School Finance (3)
EDLD 8530 - Advanced School Law (3)
EDLD 8531 - School Public Relations (3)
EDLD 8532 - Policy Studies in Schools (3)
EDLD 8533 - Politics of Education (3)
EDLD 8534 - The Superintendency (3)

Option B. Supervision/Leadership Emphasis

ADED 7330 - Administration of Adult Education (3)
EDLD 8230 - The Curriculum Leader (3)
EDLD 8330 - Clinical Supervision (3)
EDLD 8531 - School Public Relations (3)
EDLD 8532 - Policy Studies in Schools (3)
EDLD 8533 - Politics of Education (3)
EDLD 8739* - Advanced Field Experience (3)

*Required in the program of study when the student lacks one year of administrative/supervisory experience.

Other Program Requirements

• Successful completion of Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
ENGLISH EDUCATION  M.Ed.  36 HOURS

• Successful completion of the Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
ALTERNATIVE MASTER OF EDUCATION
FOREIGN LANGUAGE EDUCATION

M.Ed. 36 HOURS

Advising: Department of Middle Grades and Secondary Education, Dr. Ronnie Sheppard, P.O. Box 8134, Statesboro, GA 30460, (912) 681-5203, sheppard@gsax2.cc.gasou.edu, FAX: (912) 681-5093, http://www2.gasou.edu/middlegrades/home.htm

Admission Requirements
This M.Ed. Program provides an alternative route to initial teaching certification for those persons who hold a baccalaureate degree. The total hours in an individual’s program of study is dependent on previous course work in the teaching content area; therefore, transcript evaluation by the College of Education Teacher Certification Programs Coordinator is required at the outset. Prerequisite content course work, based on the transcript evaluation, must be completed as a Non-degree student before admission into the program.

Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Present a transcript evaluation by the College of Education Teacher Certification Programs Coordinator; completion of specified prerequisite course work.
3. Present a 2.50 GPA grade point average or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
1. Completed requirements for a bachelor’s degree from a regionally accredited institution.
2. Present a transcript evaluation by the College of Education Teacher Certification Programs Coordinator; completion of specified prerequisite course work.
3. Present a 2.50 grade point average or higher on all undergraduate work. NOTE: A grade point average of 2.50 or higher is required for initial certification; therefore, provisional admission for those with a grade point average less than 2.50 is not available.
4. Present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Prerequisites:
Identified through transcript evaluation. Acceptable content courses must meet the 36 hour major field requirements. Previous course work must reflect competence in written language skills, evidenced by grades of “C” or above in Freshman composition courses. In order to enter the Alternative Teacher Education Preparation Program, students must complete all prerequisites course work and receive Admission to Teacher Education (including a passing score on Praxis I).

Alternative M.Ed. Program Sequence:
Step One: Complete requisite course work (with a 2.75 GPA or higher) for Provisional Certification
   EDUF 7130 - Learning Theories and Design (3)
   ESED 7231* - Foreign Language Curriculum (3)
   ESED 7232* - Foreign Language Methods (3)
   SPED 2130* - Identification & Instruction of Exceptional Learners (3)
   6 hours of teaching field courses in the major
   *Certification courses not included in the M.Ed. Program of Study

Step Two: Acquire Provisional Certification
1. Pass the Praxis II Test in the appropriate teaching field area.
2. Apply for Provisional Certification from the Georgia Professional Standards Commission (dated and valid for 3 years). Must have teaching position for Provisional Certification (not required to continue in the Alternative M.Ed. Program).

Stage Three: Complete requisite course work for Level Four Certification (Initial Clear Renewable Certificate).
1. Completion of ESED 6799* - Internship: P-12 Programs (3-12) OR
   ESED 4799 - Student Teaching (12 hours)
   *Must have Provisional Certification and a teaching position in order to enroll in ESED 6799. Credits may vary due to individual needs.

Step Four: Successful completion of admission requirements for M.Ed. degree program (regular or provisional status)

Step Five: Clear Renewable Level Four Certification recommended to Professional Standards Commission (regular or provisional status).

Step Six: Complete course work (with a 2.75 GPA or higher) for the M.Ed. degree and Level Five Certification
   EDUF 7130 - Educational Research (3)
   EDUC 7130 - Curriculum Theories & Design (3)
   FREN 5130 - Advanced Grammar OR
   SPAN 7131 - Stylistics in Spanish OR
   GRMN 7131 - Advanced Grammar & Composition (3)
   FREN, GRMN, or SPAN 7130: Second Language Acquisition (3)
   9 hours of teaching field courses
   Electives (6)

Step Seven: Level Five Certification recommended to the Professional Standards Commission.

Other Program Requirements
• Successful completion of M.Ed. Comprehensive Exit Examination
**FRENCH EDUCATION**  
**M.Ed.**  
36 HOURS

  • Successful completion of the Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
HIGHER EDUCATION STUDENT SERVICES  M.Ed.  48 HOURS  
Advising: Department of Leadership, Technology, & Human Development, Dr. Dale Grant, P.O. Box 8131, Statesboro, GA 30460, (912) 681-5031, dalegrant@gsvms2.cc.gasou.edu, FAX: (912) 681-486-7104, http://www2.gasou.edu/elrt/dept1.html

Admission Requirements

Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution in any undergraduate field of study.
2. Present a 2.50 GPA or higher on all undergraduate work.
3. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).

Provisional:
All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Professional Education Core Requirements ........................................................................................................... 6 Hours
EDUR 7130 - Educational Research (3)
EDUR 8131 - Educational Statistics I (3)

Specific Requirements

Counselor Education .................................................................................................................................................. 15 hours
COUN 7332 - Theories of Counseling (3)
COUN 7336 - Career Counseling (3)
COUN 7333 - Models and Techniques of Counseling (3)
COUN 7335 - Individual Analysis (3)
COUN 7334 - Group Dynamics (3)

Higher Education ...................................................................................................................................................... 18 hours
HIED 7132 - Contemporary College Students (3)
HIED 7131 - Student Services in Higher Education (3)
HIED 7133 - Administration and Leadership in Student Services (3)
HIED 7134 - Ethical and Professional Issues in Student Services (3)
HIED 7798 - Internship I in Higher Education (3)
HIED 7799 - Internship II in Higher Education (3)

Thesis Option ............................................................................................................................................................ 6 hours
HIED 7999 - Thesis (6)

Non-Thesis Option .................................................................................................................................................... 6 hours
HIED 7838 - Action Research in Education (3)
EDUF 7130 - Learning Theories and Applications (3)

Content Elective ......................................................................................................................................................... 3 hours

Other Program Requirements

• Successful completion of the M.Ed. Comprehensive Exit Examination
INSTRUCTIONAL TECHNOLOGY  M.Ed.  36 HOURS
(For Students Seeking Level 5 Certification as a Media Specialist)
Advising: Department of Leadership, Technology, & Human Development, Dr. Kenneth Clark, P.O.Box 8131, Statesboro, GA 30460, (912) 681-0002, kclark@gasou.edu, FAX: (912) 681-5093, http://www2.gasou.edu/elrt/dept1.html

Admission Requirements
Regular:
1. Completed requirements for a bachelor’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Four Certificate or equivalent in a teaching field. Persons not holding Level Four Certification may be admitted; however, the program will exceed 36 hours.
3. Present a 2.50 GPA or higher on all undergraduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examinations (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
All requirements must be met with the exception of test score criteria: present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Prerequisites:
None, if the person possesses or is eligible for a Professional Level Four Certificate or equivalent in a teaching field.
If the person does not possess a Professional Level Four Certificate or equivalent in a teaching field, the following courses are required as prerequisites:
EDUC 7130 - Curriculum Theory and Design (3)
SPED 6130 - Introduction to Special Education (3)

Professional Education Core Requirements ................................................................. 6 Hours
EDUF 7130 - Learning Theories and Applications (3)
EDUR 7130 - Educational Research (3)

Specific Requirements .................................................................................................. 30 Hours
ECED 7232 - Multimedia Approach to Children’s Literature (3)
ITEC 7132 - Administration of Instructional Media Program (3)
ITEC 7134 - Collection Development and Organization (3)
ITEC 7136 - Reference and Information Sources (3)
ITEC 7230 - Selection and Development of Instructional Technology (3)
ITEC 7430 - Instructional Design (3)
ITEC 7530 - Instructional Technology for Educators (3)
ITEC 7535 - Instructional Technology Planning and Development (3)
ITEC 7737 - Practicum in Instructional Technology (3)
ITEC 8530 - Applications of Instructional Technology (3)
MGED 7331 - Literature for the Early Adolescent OR

Other Program Requirements
• Successful completion of M.Ed. Comprehensive Exit Examination
INSTRUCTIONAL TECHNOLOGY  M.Ed.  36 HOURS
(For Students Not Seeking Level 5 Certification as a Media Specialist)

Advising: Department of Leadership, Technology, & Human Development, Dr. Kenneth Clark, P.O. Box 8131, Statesboro, GA 30460, (912) 681-0002, kclark@gasou.edu, FAX: (912) 681-5093, http://www2.gasou.edu/elrt/dept1.html

Program Intent: This program does not lead to a Level Five Instructional Media Specialist certification.

Admission Requirements

Regular:
1. Completed requirements for a bachelor’s degree from a regionally accredited institution.
2. Present a 2.50 GPA or higher on all undergraduate work attempted.
3. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

A minimum of 9 hours of graduate courses approved by the advisor in a primary concentration from: science, social studies, language arts, or mathematics and a minimum of 6 hours in a second concentration from mathematics, language arts, science, social studies, health & physical education, art, or music

Elective ...................................................................................... 3 Hours

Other Program Requirements
• Successful completion of the M.Ed. Comprehensive Exit Examination
ALTERNATIVE MASTER OF EDUCATION  M.Ed.  36 HOURS
MIDDLE GRADES EDUCATION

Advising: Department of Middle Grades and Secondary Education, Dr. Ronnie Sheppard, P.O. Box 8134, Statesboro, GA 30460, (912) 681-5203, sheppard@gsaix2.cc.gasou.edu, FAX: (912) 681-5093, http://www2.gasou.edu/middlegrades/home.htm

Admission Requirements
This M.Ed. Program provides an alternative route to initial teaching certification for those persons who hold a baccalaureate degree. The total hours in an individual’s program of study is dependent on previous course work in the teaching content area; therefore, transcript evaluation by the College of Education Teacher Certification Programs Coordinator is required at the outset. Prerequisite content course work, based on the transcript evaluation, must be completed as a Non-degree student before admission into the program.

Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Present a transcript evaluation by the College of Education Teacher Certification Programs Coordinator; completion of specified prerequisite course work.
3. Present a 2.50 GPA or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Present a transcript evaluation by the College of Education Teacher Certification Programs Coordinator; completion of specified prerequisite course work.
3. Present a 2.50 grade point average or higher on all undergraduate work. NOTE: A grade point average of 2.50 or higher is required for initial certification; therefore, provisional admission for those with a grade point average less than 2.50 is not available.
4. Present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies test (MAT).

Prerequisites:
Identified through transcript evaluation. Acceptable content courses must meet the 36 hour major field requirements. Previous course work must reflect competence in written language skills, evidenced by grades of “C” or above in Freshman composition courses. In order to enter the Alternative Teacher Education Preparation Program, students must complete all requisites course work and receive Admission to Teacher Education (including a passing score on Praxis I).

Alternative M.Ed. Program Sequence:

Step One: Complete requisite course work (with a 2.75 GPA or higher) for Provisional Certification
   EDUF 7130 - Learning Theories and Design (3)
   MGED 6131* - Middle Grades Curriculum (3)
   MGED 6132* - Middle Grades Instruction (3)
   SPED 2130* - Identification & Instruction of Exceptional Learners
   3 hours of teaching field course in primary concentration
   3 hours of teaching field course in secondary concentration

*Certification courses not included in the M.Ed. Program of Study

Step Two: Acquire Provisional Certification
1. Pass the Praxis II Test in the appropriate teaching field area.
2. Apply for Provisional Certification from the Georgia Professional Standards Commission (dated and valid for 3 years). Must have teaching position for Provisional Certification (not required to continue in the Alternative M.Ed. Program).

Step Three: Complete requisite course work for Level Four Certification (Initial Clear Renewable Certificate)
   Completion of MGED 6799* - Internship: Middle Grades (3-12) OR
   MGED 4799 Student Teaching (12 hours)

*Must have Provisional Certification and a teaching position in order to enroll in MGED 6799. Credits may vary due to individual needs.

Step Four: Successful completion of admission requirements for the M.Ed. degree program (regular or provisional status)

Step Five: Clear Renewable Level Four Certification recommended to Professional Standards Commission (regular or provisional status)

Step Six: Complete course work (with a 2.75 GPA or higher) for M.Ed. degree and Level Five Certification
   EDUR 7130 - Educational Research (3)
   EDUC 7130 - Curriculum Theories & Design (3)
   MGED 8131 - Integrated Curriculum for the Middle Grades (3)
   MGED 8132 - Effective Middle Schools (3)
   3 hours of teaching field course in primary concentration
   3 hours of teaching field course in secondary concentration
   3 hours of additional teaching field course
   MGED 8633 - Seminar in Middle Grades Education (3)
   Elective (3)

Step Seven: Level Five Certification recommended to the Professional Standards Commission.

Other Program Requirements
• Successful completion of M.Ed. Comprehensive Exit Examination
MIDDLE GRADES EDUCATION          Ed.S.          27 HOURS
Advising: Department of Middle Grades and Secondary Education. Dr. Ronnie Sheppard, P.O. Box 8134, Statesboro, GA 30460, (912) 681-5203, sheppard@gsaix2.cc.gasou.edu, FAX: (912) 681-5093, http://www2.gasou.edu/middlegrades/home.htm

Admission Requirements

Regular:
1. Complete requirements for a master’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Five Certificate or equivalent in Middle Grades Education.
3. Present a 3.25 GPA or higher on all graduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).

Prerequisites:
EDUR 7130 - Educational Research (3)

Research Sequence Requirements
EDUR 8131 - Educational Statistics I (3)
EDUR 8434 - Field-Based Educational Research (3)
MGED 8839 - Seminar and Field Study (3)

Major Requirements
A minimum of 9 hours in a primary concentration from science, social studies, language arts, or mathematics and 6 hours in a second concentration from: science, social studies, language arts, mathematics, health and physical education, art, or music.

Elective

Other Program Requirements
• Successful completion of the Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
MUSIC EDUCATION  M.Ed.
See Alternative Master of Education program in Music Education if applicant seeks initial certification.
See Master of Music program (Department of Music) if applicant possesses Professional Level Four Certificate or equivalent in Music Education.

ALTERNATIVE MASTER OF EDUCATION  M.Ed.  36 HOURS

MUSIC EDUCATION

*Must have Provisional Certification and a teaching position in order to enroll in ESED 6799. Credits may vary due to individual needs.

(Continued on next page)
ALTERNATIVE MASTER OF EDUCATION
MUSIC EDUCATION

M.Ed. (CONTINUED)

Step Four: Successful completion of admission requirements for the M.Ed. degree program (regular or provisional status).

Step Five: Clear Renewable Level Four Certification recommended to Professional Standards Commission (regular or provisional status).

Step Six: Complete course work (with a 2.75 GPA or higher) for the M.Ed. degree and Level Five Certification.

Electives
Three hours selected from:
- MUSC 7234 - 20th Century Music Methods (3)
- MUSC 7331 - Advanced Analytical Techniques (3)
- MUSC 7431 - Advanced Choral Arranging (3)
- MUSC 7435 - Marching Band Techniques (3)
- MUSC 7531 - Advanced Band Techniques (3)

Step Seven: Level Five Certification recommended to the Professional Standards Commission.

Other Program Requirements
- Successful completion of M.Ed. Comprehensive Exit Examination

MUSIC EDUCATION

Ed.S. 27 HOURS

Advising: Department of Music, Foy Fine Arts Building, Dr. David Mathew, P.O. Box 8052, Statesboro, GA 30460, dmathew@gsvms2.cc.gasou.edu, FAX: (912) 681-0583

Admission Requirements

Regular:
1. Complete requirements for a master’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Five Certificate or equivalent in Music Education.
3. Present a 3.25 GPA or higher on all graduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).

Prerequisites
- EDUR 7130 - Educational Research (3)

Research Sequence Requirements
- EDUR 8131 - Educational Statistics I (3)
- EDUR 8434 - Field-Based Educational Research (3)
- ESED 8839 - Seminar and Field Study (3)

Major Requirements
- MUSC 6531* - Technology in Music (3)
- MUSC 7232 - Research Methods — Music Education (3)
- MUSC 8231 - Music Administration (3)
- Music Theory or Composition Elective (3)
- Music History or Literature Elective (3)

*If MUSC 6531 - Technology in Music was previously taken as part of the Master's Program, substitute a 3 hour Music Education elective approved by the advisor.

Elective

Other Program Requirements
- Successful completion of the Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
READING SPECIALIST M.Ed. 36 HOURS

Advising: Department of Early Childhood Education and Reading, Dr. Beverly Stratton, P. O. Box 8083, Statesboro, GA 30460, (912) 681-5121, bevstrat@gsvms2.cc.gasou.edu. FAX: (912) 681-0885.
http://www2.gasou.edu/Early_Child_Ed_and_Reading/

Admission Requirements

Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Four Certificate or equivalent in a teaching field. Persons with a master’s degree in a related field may be admitted into the program if not seeking certification.
3. Present a 2.50 GPA or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Professional Education Core Requirements ................................................................................................................. 9 Hours
- EDUC 7130 - Curriculum Theories and Design (3)
- EDUF 7130 - Learning Theories and Application (3)
- EDUR 7130 - Educational Research (3)

Specific Requirements ....................................................................................................................................................... 24 Hours
- ECED 7230 - Advanced Language Arts Methods (3)

- READ 7733 - Advanced Practicum (3)
- READ 7430 - Literacy and Technology (3)

Electives ............................................................................................................................................................................. 3 Hours
- Must be approved by advisor

Other Program Requirements
- Successful completion of the M.Ed. Comprehensive Examination
READING SPECIALIST  Ed.S.  30 HOURS

Advising: Department of Early Childhood Education and Reading. Dr. Beverly Stratton, P. O. Box 8083, Statesboro, GA 30460, (912) 681-5121, bevstrat@gsvms2.cc.gasou.edu, FAX: (912) 681-0885, http://www2.gasou.edu/Early_Child_Ed_and_Reading/

Admission Requirements

Regular:
1. Complete requirements for a master’s degree in Reading Education from a regionally accredited institution. Applicants who hold a master’s degree in a related field may be admitted with transcript evaluation; however, the program will exceed 30 semester hours.
2. Possess or be eligible for a Professional Level Five Certificate or equivalent in Reading Education.
3. Present a 3.25 GPA or higher on all graduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).

Prerequisites:
EDUR 7130 - Educational Research (3)

Research Sequence Requirements .............................................................................................................. 9 Hours
EDUR 8131 - Educational Statistics I (3)
EDUR 8434 - Field-Based Educational Research (3)
READ 8839 - Field Project in Reading (3)

Specific Requirements ............................................................................................................................... 12 Hours
ECED 8230 - Problems in P-5 Language Arts (3)
READ 8130 - Advanced Diagnosis and Correction of Reading Difficulties (3)
READ 8230 - Organization and Supervision of Reading Programs (3)
READ 8330 - Psychology of Reading (3)

Electives ...................................................................................................................................................... 9 Hours
Must be approved by advisor

Other Program Requirements
• Successful completion of Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
Program Intent: This program prepares psychologists to serve children and adolescents with learning, behavioral, or emotional problems in educational settings. The M.Ed. degree may be obtained after the successful completion of the prescribed program of study; however, the Level Six Certificate in School Psychology is required for Professional Certification in Georgia. Successful completion of the combined Master’s and Specialist programs and an acceptable score on the PRAXIS II examination in School Psychology are required for the Renewable Level Six Certificate. Level Four Certification is not required for admission.

Admission Requirements

Regular:
1. Complete requirements for a bachelor’s degree in the social sciences or in education from a regionally accredited institution.
2. Present a 2.50 GPA or higher on all undergraduate work.
3. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).
4. Additional admission requirements as specified by program.

Prerequisites:
- SPED 2130 - Identification and Instruction of Exceptional Learners OR
- SPED 6130 - Introduction to Special Education (3)

Professional Education Core Requirements ................................................................................................................................. 9 Hours
- EDUC 7130 - Curriculum Theories & Design (3)

ALTERNATIVE MASTER OF EDUCATION
SECONDARY EDUCATION

M.Ed. 36 HOURS

Advising: Department of Middle Grades and Secondary Education. Dr. Ronnie Sheppard, P.O. Box 8134, Statesboro, GA 30460, (912) 681-5203, sheppard@gsaix2.cc.gasu.edu, FAX: (912) 681-5093, http://www2.gasu.edu/middlegrades/home.htm

Admission Requirements
This M.Ed. Program provides an alternative route to initial teaching certification for those persons who hold a baccalaureate degree. The total hours in an individual’s program of study is dependent on previous course work in the teaching content area; therefore, transcript evaluation by the College of Education Teacher Certification Programs Coordinator is required at the outset. Prerequisite content course work, based on the transcript evaluation, must be completed as a Non-degree student before admission into the program.

Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Present a transcript evaluation by the College of Education Teacher Certification programs Coordinator; completion of specified prerequisite course work.
3. Present a 2.50 GPA or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Present a transcript evaluation by the College of Education Teacher Certification Programs Coordinator; completion of specified prerequisite course work.
3. Present a 2.50 GPA or higher on all undergraduate work. NOTE: A grade point average of 2.50 or higher is required for initial certification; therefore, provisional admission for those with a grade point average less than 2.50 is not available.
4. Present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies test (MAT).

Prerequisites:
Identified through transcript evaluation. Acceptable content courses must meet the 36 hour major field requirements. Previous course work must reflect competence in written language skills, evidenced by grades of “C” or above in freshman composition courses. In order to enter the Alternative Teacher Education Preparation Program, students must complete all requisite course work and receive Admission to Teacher Education (including a passing score on Praxis I).

Alternative M.Ed. Program Sequence:
Step One: Complete requisite course work (with a 2.75 GPA or higher) for Provisional Certification
   EDUF 7130 - Learning Theories and Design (3)
   SCED 6131* - Secondary School Curriculum (3)
   SCED 6132* - Methods for the Secondary School (3)
   SPED 2130 - Identification & Instruction of Exceptional Learners
   6 hours of teaching field course in the major
   *Certification courses not included in the M.Ed. Program of Study

Step Two: Acquire Provisional Certification
1. Pass the Praxis II Test in the appropriate teaching field area.
2. Apply for Provisional Certification from the Georgia Professional Standards Commission (dated and valid for 3 years).
3. Must have teaching position for Provisional Certification (not required to continue in the Alternative M.Ed. Program).

Step Three: Complete requisite course work for Level Four Certification (Initial Clear Renewable Certificate)
1. Completion of SCED 6799* Internship: Secondary (3-12) or SCED 4799 Student Teaching (12 hours)
   *Must have Provisional Certification and a teaching position in order to enroll in SCED 6799. Credits may vary due to individual needs.

Step Four: Successful completion of admission requirements for M.Ed. degree program (regular or provisional status)
Step Five: Clear Renewable Level Four Certification recommended to Georgia Professional Standards Commission (regular or provisional status).

Step Six: Complete course work (with a 2.75 GPA or higher) for the M.Ed. degree program and Level Five Certification.
   EDUF 7130 - Educational Research (3)
   EDUC 7130 - Curriculum Theories & Design (3)
   Appropriate advanced methods course (dependent on requirement of specific program area; 3 hours)
   12 hours of teaching field courses
   SCED 8633 - Seminar in Secondary Education (3)
   Elective (3)

Step Seven: Level Five Certification recommended to the Professional Standards Commission.

Other Program Requirements
• Successful completion of M.Ed. Comprehensive Exit Examination
SOCIAL SCIENCE EDUCATION M.Ed. 36 HOURS
Advising: Department of Middle Grades and Secondary Education, Dr. Ronnie Sheppard, P.O. Box 8134, Statesboro, GA 30460, (912) 681-5203, sheppard@gsaix2.cc.gasou.edu, FAX: (912) 681-5093, http://www2.gasou.edu/middlegrades/home.htm

Admission Requirements
Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Four Certificate or equivalent in Social Science Education.
3. Present a 2.50 GPA or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Professional Education Core Requirements ................................................................. 9 Hours
EDUC 7130 - Curriculum Theories & Design (3)
EDUF 7130 - Learning Theories & Applications (3)
EDUR 7130 - Educational Research (3)

Specific Requirements .................................................................................................. 6 Hours
SCED 7431 - Teaching Social Studies in the Secondary School (3)
SCED 8633 - Seminar in Secondary Education (3)

Major Requirements .................................................................................................... 18 Hours
18 hours of graduate social science courses approved by the advisor. Courses must include four social science areas selected from history, behavioral science, geography, political science, and economics.

Elective ......................................................................................................................... 3 Hours

Other Program Requirements
• Successful completion of the M.Ed. Comprehensive Exit Examination

SOCIAL SCIENCE EDUCATION Ed.S. 27 HOURS
Advising: Department of Middle Grades and Secondary Education, Dr. Ronnie Sheppard, P.O. Box 8134, Statesboro, GA 30460, (912) 681-5203, sheppard@gsaix2.cc.gasou.edu, FAX: (912) 681-5093, http://www2.gasou.edu/middlegrades/home.htm

Admission Requirements
Regular:
1. Complete requirements for a master’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Five Certificate or equivalent in Middle Grades Education.
3. Present a 3.25 GPA or higher on all graduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).

Prerequisites:
EDUR 7130 - Educational Research (3)

Research Sequence Requirements ................................................................................... 9 Hours
EDUR 8131 - Educational Statistics I (3)
EDUR 8434 - Field-Based Educational Research (3)
SCED 8839 - Seminar and Field Study (3)

Major Requirements .................................................................................................... 15 Hours
15 hours of graduate courses approved by the advisor. Courses must include four social science areas selected from history, geography, political science, economics, and behavioral science.

Elective ......................................................................................................................... 3 Hours

Other Program Requirements
• Successful completion of the Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
SPANISH EDUCATION  M.Ed.  36 HOURS
Advising: Department of Middle Grades and Secondary Education, Dr. Ronnie Sheppard, P.O. Box 8134, Statesboro, GA 30460, (912) 681-5203, sheppard@gsaix2.cc.gasou.edu, FAX: (912) 681-5093, http://www2.gasou.edu/middlegrades/home.htm

Admission Requirements

Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Four Certificate or equivalent in Spanish Education.
3. Present a 2.50 GPA or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:
All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT).

Specific Requirements ........................................................................................................ 6 Hours
ESED 7231 - Foreign Language Curriculum (3)
ESED 7232 - Foreign Language Methods (3)

Major Requirements ........................................................................................................... 15 Hours
*SPAN 7130 - Second Language Acquisition in Spanish (3)
SPAN 7131 - Stylistics in Spanish (3)
9 hours of graduate Spanish courses approved by the advisor
*If taken at the undergraduate level, substitute an additional course in Spanish.

Electives ............................................................................................................................... 6 Hours

Other Program Requirements
• Successful completion of the M.Ed. Comprehensive Exit Examination
SPECIAL EDUCATION

M.Ed. 36 HOURS

Advising: Department of Leadership, Technology & Human Development, Dr. Diana Hammitte, P.O. Box 8131, Statesboro, GA 30460, (912) 681-5600, djhammit@gsvms2.cc.gasou.edu, FAX: (912) 486-7104, http://www2.gasou.edu/elrt/dept1.html

Admission Requirements

Regular:
1. Complete requirements for a bachelor’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Four Certificate or equivalent in Special Education. Persons may be admitted into the program with Level Four Certification in a teaching field other than Special Education if prerequisite course work is completed.
3. Present a 2.75 GPA or higher on all undergraduate work.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 44 on the Miller Analogies Test (MAT).

Provisional:

All requirements must be met with the exception of test score criteria; present a score of no less than 400 on the verbal subtest and a score of no less than 400 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 35 on the Miller Analogies Test (MAT). In addition to the above requirements, all new Master’s level students must schedule and meet with their assigned Special Education advisor for a brief interview and orientation meeting prior to their first semester of course work in order to meet the registration requirements of the program.

Prerequisites:

ECED 4131 - Mathematics Methods for Special Education (3)
*PSYC 3330 - Abnormal Psychology (undergraduate level only) (3)
READ 4131 - Teaching Reading for Special Education (3)
SPED 6130 - Introduction to Special Education (3)
SPED 6230 - Assessment in Special Education (3)
SPED 6330 - Classroom Management (3)
SPED 6430 - Special Education Procedures (3)

*Prerequisite for M.Ed. in Special Education with a focus in Behavior Disorder only

Program of Study for Certification Areas

Professional Education Core Requirements

EDUR 7130 - Educational Research (3)
EDUF 7130 - Learning Theories & Applications (3)
EDUC 7130 - Curriculum Theories & Design (3)

Specialized Content for Teaching

SPED 7136 - Language Development (3)
SPED 7139 - Consultation & Collaboration of Special Educators (3)
SPED 7630 - Seminar in Special Education (3)

Specialized Area of Emphasis Courses

15 hours in courses specific to the certification area: Behavior Disorders, Learning Disabilities, or Mental Retardation (must have advisor approval)

Electives

NOTE: Endorsements may be added in Gifted Education and Preschool Handicapped through selected course work; however, program may exceed 36 semester hours.

Other Program Requirements

- Successful completion of the M.Ed. Comprehensive Exit Examination
SPECIAL EDUCATION Ed.S. 33 HOURS

Advising: Department of Leadership, Technology, & Human Development, Dr. Diana Hammitte, P.O. Box 8131, Statesboro, GA 30460, (912) 681-5301, djhammit@gsvms2.cc.gasou.edu, FAX: (912) 486-7104, http://www2.gasou.edu/elrt/dept1.html

Admission Requirements:

Regular:
1. Complete requirements for a master’s degree from a regionally accredited institution.
2. Possess or be eligible for a Professional Level Five Certificate or equivalent in Special Education.
3. Present a 3.25 GPA or higher on all graduate work attempted.
4. Present a score of no less than 450 on the verbal subtest and a score of no less than 450 on either the quantitative or analytical subtest of the Graduate Record Examination (GRE), or a score of no less than 49 on the Miller Analogies Test (MAT).

Prerequisites:
- EDUR 7130 - Educational Research (3)

Research Sequence Requirements
- EDUR 8131 - Educational Statistics I (3)
- EDUR 8434 - Field-Based Educational Research (3)
- SPED 8838 - Applied Behavioral Analysis Research (3)

Specific Requirements

  SCED 8839 - Seminar and Field Study (3)

Major Requirements ................................................................................................................................................ 15 Hours
  TCED 8131 - Philosophy of Technology Education (3)
  TCED 8132 - Administration & Supervision of Technology Education (3)
  9 hours of graduate courses approved by the advisor, which includes a minimum of two cluster areas from communication, manufacturing, construction, and transportation.

Elective ................................................................................................................................................................. 3 Hours

Other Program Requirements
• Successful completion of the Ed.S. Comprehensive Exit Assessment; involves constituting a three-faculty advisory committee to guide field study, preparing a satisfactory written field study paper, and an oral presentation.
DOCTOR OF EDUCATION, EDUCATIONAL ADMINISTRATION

75 semester hours beyond Master’s including dissertation; 66 semester hours of course work

Advising: Department of Educational Leadership, Technology & Human Development, Dr. Michael Richardson, P.O. Box 8131, Statesboro, GA 30460, (912) 681-5079, mdrich@gsvms2.cc.gasou.edu, FAX: (912) 486-7104, http://www2.gasou.edu/elrt/dept1.html

Admission Requirements.
Applicants who wish to pursue advanced professional preparation in Educational Administration beyond the Specialist degree, with a view for becoming a candidate for the Ed.D. degree, will be expected to file a formal application and present themselves to the faculty of the appropriate department in the College of Education for special tests and/or interviews. Recommendations on admission will be made by department faculty only after screening procedures have been carried out. Admission will be upon the recommendation of the departmental committee, or the committee’s designated representative, and the approval of the Dean of the College of Graduate Studies.

Admission to the Ed.D. program in Educational Administration requires the applicant’s satisfaction of the following standards:

1. Complete all College of Graduate Studies admission requirements.
2. Hold the Master’s degree. Applicants who anticipate eventual endorsement for the Level Six and Level Seven certificates in Educational Leadership must hold the Georgia Level Five certificate at the point of admission.
3. Present a minimum grade point average of 3.5 (4.0 scale) in previous graduate work.
4. Hold an administrative or supervisory position at the P-12 or post-secondary level. Alternate admission criteria are applied when the applicant is not so employed.
5. Achieve a GRE (General Test) minimum verbal score of 450, a minimum score of 450 on either the quantitative or analytical subtest (the sum of the two parts, one verbal, must be at least 1000). A minimum raw score of 55 on the Miller Analogies Test is also acceptable. Applicants may file a formal appeal when their scores fall below these minimums.
6. Submission of four professional references which attest to the applicant’s potential for success in a doctoral program and for executive leadership in education.
7. Submission of a personal statement which outlines the applicant’s future direction and how the degree will benefit the applicant.
8. Submission of a brief, two-page resume which highlights the achievements of the applicant.
9. Successful interview, if requested.

The final phase of the admission process will require adherence to the following procedures:

1. Applicant credentials are rated by Educational Leadership (EDL) faculty.
2. These faculty, meeting as a committee of the whole, will use these ratings to assemble a list of top candidates.
3. Students may be required to interview with EDL Faculty. The interview would explore their potential for leadership in educational organizations, qualifications for doctoral study, their career aspirations, their visions for education, and their thoughts on topics for doctoral level study.
4. A writing sample or personal interview may be required.

Residency. The Ed.D. degree pre-supposes a minimum of six semesters of continuous study beyond the Specialist Degree and cannot be secured through summer study alone. At least six semester hours must be completed during each of two semesters to satisfy full-time residency requirements at Georgia Southern University (semesters do not have to be consecutive).

Time Limit. All requirements for the Ed.D. degree, except the dissertation and the final oral examination, must be completed within a period of three years. This time requirement begins with the first registration for core (Tier II) courses on the student’s approved program of doctoral study. In addition, a candidate for the Ed.D. degree who fails to complete all degree requirements within five years after passing the comprehensive examinations and being admitted to degree candidacy will be withdrawn from the program, or must retake comprehensive examinations to be reinstated.

Grade Average. To be eligible for graduation, a student must maintain a 3.50 (B) grade point average on all graduate courses taken and on all courses on the program of study.

(continued on next page)
DOCTOR OF EDUCATION, EDUCATIONAL ADMINISTRATION  

(CONTINUED)

Supervisory Committee. Before the end of the first year of study of a prospective candidate for the Ed.D. degree, the Dean of the College of Graduate Studies shall, upon the recommendation of the chair of the department offering the degree, appoint a Supervisory Committee for the student. The committee will consist of a major professor, who will serve as committee chairperson, and three additional members. The chair of the Supervisory Committee must meet all requirements established by the College of Graduate Studies for directing doctoral dissertations. All members of the committee must have graduate faculty status. Department recommendations for committee membership, and any necessary replacements, shall be determined by procedures established by the majority of the graduate faculty of that department. The Supervisory Committee, in consultation with the student, is charged with planning and approving the student’s program of study. It is also charged with approving a subject for the dissertation, and approving the student’s oral defenses of his/her research. The committee will advise the student of the skills and understandings required both in content and inquiry/research areas.

Program of Study. A preliminary program of study based on a minimum of seventy-five semester hours beyond the Master’s degree, will be submitted to the Supervising Committee Chair (i.e., the major professor) by the end of the student’s first year of study. The preliminary program must be developed by the Committee Chair and the doctoral student and approved by a majority of the Supervisory Committee. A total of 30 semester hours of course work, exclusive of dissertation credit, must be taken at Georgia Southern University at the doctoral level. A final program of study must be approved by the Supervisory Committee, the Department Chair, and the Dean of the College of Graduate Studies before application for admission to degree candidacy. The final program of study submitted prior to graduation must show all graduate courses relevant to the Ed.D. program (Specialist and transfer credit), and not just courses satisfying minimum degree requirements. A minimum of nine semester hours of dissertation credit must be included in the program of study. Department faculty will evaluate carefully and fully each doctoral student’s progress at the end of each year of study to advise the student whether or not to continue in the program.

Comprehensive/Qualifying Examinations. A student must pass formal, comprehensive written and oral examinations before being admitted to candidacy for the degree. These examinations will be administered by the student’s Supervisory Committee in accordance with policies in effect in the College of Graduate Studies and the student’s department. The oral examination will be an inclusive examination within the student’s field of study. An examination over the student’s dissertation pre-prospectus will be scheduled at a later date. This examination will not take the place of the oral comprehensive examination. All members of the student’s Supervisory Committee must be present for the entire period for the comprehensive oral examination. The oral comprehensive examination is open to all members of the faculty and shall be announced by the College of Graduate Studies. The Department Chair must notify the College of Graduate Studies of the time and place of the examination at least two weeks before the date of examination. Following each examination, written and oral, each member of the Supervisory Committee will cast a written vote of “pass” or “fail” on the examination. At least three out of a possible four positive votes are required to pass each examination. The results of both examinations will be reported to the College of Graduate Studies.

Admission to Degree Candidacy. The student is responsible for initiating an application for admission to degree candidacy so that it is filed with the College of Graduate Studies at least two semesters before the date of graduation. The application for degree candidacy is a certification by the student’s major department that the student has shown the ability to do acceptable graduate work in the chosen field of study and that:

a. all prerequisites set as a condition for admission have been met;

b. all inquiry/research skill requirements have been met;

c. the final program of study has been approved by the Supervisory Committee, the Department Chair, and the Dean of the College of Graduate Studies;

d. a grade point average of 3.5 (B) has been maintained on all graduate courses taken and on all completed courses on the program of study (no more than one grade of C (2.0) may be placed on the final program of study);

e. written and oral comprehensive examinations have been passed and reported to the College of Graduate Studies;

f. a dissertation pre-prospectus has been approved by the Supervising Committee;

g. the Supervising Committee, including any necessary changes in the membership, is confirmed and all its members have been notified of their appointments; and

h. the residency requirement has been met.

The Supervisory Committee Chair has the primary responsibility for guiding the student’s research, but the student should regularly consult all members to draw upon their expertise in relevant areas. After admission to degree candidacy, a student must register for a minimum of nine semester hours. Students in the Ed.D. degree program in Educational Administration must enroll in EDLD 9999--Dissertation. Students must be enrolled for a minimum of three semester hours of credit in any semester when using University facilities or staff time.

(continued on next page)
DOCTOR OF EDUCATION, EDUCATIONAL ADMINISTRATION (CONTINUED)

Dissertation Planning. The full dissertation prospectus for the Ed.D. degree in Educational Administration will be defended by the candidate upon completion of all prerequisite course work, including EDLD 9632 Research Seminar II. It is possible that the composition of the student’s Supervisory Committee may change to ensure that faculty members are knowledgeable in the areas of the student’s research. If changes in the composition of the original committee are in order, all affected parties will be notified, including the Dean of the College of Graduate Studies. The Supervisory Committee Chair and the committee membership will guide the student in planning the dissertation. When the Committee Chair certifies that the dissertation prospectus is satisfactory, it must be formally considered by the Supervisory Committee at a meeting with the student. Following the meeting, each committee member will cast a written vote of “pass”, “fail,” or “pass with modifications.” At least three out of a possible four positive votes are required for approval. Their signatures on the appropriate form with a final copy of the approved prospectus, will be filed in the department office. A copy of the approval/disapproval form will be forwarded to the College of Graduate Studies.

Dissertation Defense and Approval. When the Supervisory Committee chair is satisfied with the completed dissertation, he/ she will certify approval and indicate that it is ready to be read by all members of the Supervising Committee. Copies will be distributed to the remaining members of the Supervisory Committee, a final oral defense scheduled, and the College of Graduate Studies notified. The College of Graduate Studies will announce the time and place of the defense of the dissertation. Committee members will have at least three weeks to read and evaluate the dissertation. If the committee declines to approve the dissertation, the Supervisory Committee Chair will so notify the student and the College of Graduate Studies. The oral defense session will be led by the Supervising Committee Chair and must be attended by all members of the committee. This meeting is open to all members of the University community. Three out of four members of the committee must approve the student’s dissertation and defense and certify their approval in writing. The results of the defense must be reported to the College of Graduate Studies as per deadlines announced by the College of Graduate Studies. Once the dissertation has been approved by the Supervisory Committee and the final oral examination has been passed, the dissertation must be submitted to the College of Graduate Studies for final approval by the deadline announced by the College of Graduate Studies.

Binding the Dissertation. Eight (8) official copies of the dissertation must be filed with the University Library for binding. Each copy must carry an original certificate of approval signed by the Supervising Committee Chair, the Supervisory Committee members, and the Dean of the College of Graduate Studies.

Other Requirements. The student must submit a receipt showing that he/she has deposited with the University Controller the cost of microfilming the dissertation. (If the student wishes to copyright the dissertation, an additional charge must be paid.) This fee must be presented to the Dean of the College of Graduate Studies in the form of a receipt from the Georgia Southern University Business Office.

DOCTOR OF EDUCATION, EDUCATIONAL ADMINISTRATION  

(CONTINUED)

Program of Study

Ed.D. Courses in Educational Leadership ........................................................................................................... 24 hours

   EDLD 9231 - Administrative Theory (3)
   EDLD 9232 - Decision making/Problem solving (3)
   EDLD 9233 - Leadership Theory (3)
   EDLD 9631 - Research Seminar I (3)
   EDLD 9632 - Research Seminar II (3)
   EDLD 9999 - Dissertation (9 minimum)

Ed.D. Courses in Inquiry Areas .................................................................................................................................. 9 hours

   EDUR 8132 - Educational Statistics II (3) EDUR 9231 - Doctoral Research Methods (3) EDUR 9231 - Qualitative Research in Education (3)

Ed.D. Electives

Elective course selection is dependent upon the program option. Course credit is given in Option A for Ed.S. course work to a maximum of 36 semester hours, provided the course work was completed in a timely manner at an accredited institution authorized to offer the Ed.S. in Educational Administration/Leadership.

Option A: For persons who hold the Education Specialist degree and/or the Georgia Level Six certificate in Educational Leadership ........................................................................................................... 6 hours

Selected in consultation with the Chair of the student’s Supervisory Committee. Choices should strengthen the knowledge bases that support development of the dissertation proposal. Related fields may include, but are not limited to, anthropology, business administration, educational technology, political science, adult education, public administration, and sociology.

Option B: For persons who hold the Master’s degree and/or the Georgia Level Five Certificate in Educational Leadership ........................................................................................................... 42 hours

Selected in consultation with the Chair of the student’s Supervisory Committee. Choices should strengthen the knowledge bases that support development of the dissertation proposal.

The following are required:

   EDLD 8830 - Directed Research in Educational Research (3)
   EDUR 7130 - Educational Research (3)
   EDUR 8434 - Field-based Educational Research (3)

The following are strongly suggested:

   EDLD 8130 - Educational Evaluation (3)
   EDLD 8230 - The Curriculum Leader (3)
   EDLD 8330 - Clinical Supervision (3)
   EDLD 8430 - School Finance (3)
   EDLD 8530 - Advanced School Law (3)
   EDLD 8531 - School Public Relations (3)
   EDLD 8533 - Politics of Education (3)
   EDLD 8532 - Policies Studies in Schools (3)
   EDLD 8534 - The Superintendency (3)
   ITEC 8534 - Instructional Technology for School Leaders (3)

Option C: For persons who hold the Master’s degree and are presently employed at post-secondary institutions ............ 42 hours

Selected in consultation with the Chair of the student’s Supervisory Committee. Choices should strengthen the knowledge bases that support development of the dissertation proposal.

The following are required:

   EDLD 8431 - Higher Education Law (3)
   EDLD 8432 - Postsecondary Education Finance (3)
   EDLD 8433 - Postsecondary Education Governance (3)
   EDLD 8434 - The Community College (3)
   EDLD 8435 - Postsecondary Education Policy (3)
   EDLD 8830 - Directed Research in Educational Research (3)
   EDUR 7130 - Educational Research (3)
   EDUR 8434 - Field-based Educational Research (3)

The following are strongly suggested:

   EDLD 8130 - Educational Evaluation (3)
   EDLD 8533 - Politics of Education (3)
   EDLD 8735 - Postsecondary Education Field Experience (3)
DOCTOR OF EDUCATION, CURRICULUM STUDIES  Ed.D.

63 semester hours beyond Master’s including dissertation, 54 hours beyond Master’s excluding dissertation

Advising: Department of Curriculum, Foundations, & Research. Dr. Bryan Deever, P. O.Box 8144, Statesboro, GA 30460, (912) 681-5252, bdvr@gsvms2.cc.gasou.edu, FAX: (912) 681-5093, http://www2.gasou.edu:80/facstaff/bdvr

Admission Requirements

The following minimum admission requirements must be met:

1. Complete the work necessary to be eligible for the minimum of a Master’s degree from an accredited graduate institution.
2. Present a minimum grade point average of 3.50 (4.0 scale) in all graduate work attempted.
3. Present scores of no less than 500 on the verbal and 500 on the quantitative or analytical subtests of the Graduate Record Examination (GRE) or a minimum score of 55 on the Miller’s Analogies Test (MAT). International Students who have not earned a degree at an institution of higher education in the United States must also submit the results of the TOEFL Examination.
4. Complete all College of Graduate Studies admission requirements, including:
   - Application for admission
   - Immunization record
   - Official test scores
   - Official transcripts from all institutions previously attended
   - Three professional references
   - One page autobiographical sketch

Once the applicant has been admitted to the College of Graduate Studies, the materials will be forwarded to the Doctoral Admissions Committee of the Department of Curriculum, Foundations, and Research for review and an interview will be scheduled with members of the committee. The student will produce an on-site writing sample the day of the interview.

Residency. One academic year of continual enrollment.

Time Limit. All coursework credited toward the degree and the Candidacy Examination must be completed within seven years after the completion of the first course in the program of study following admission to the program. Students must complete and defend the dissertation within five years of admission to candidacy. If the time limits are not met, a student may be required to take additional coursework and/or retake the Candidacy Examination.

Program of Study. This degree program consists of work in four areas: (1) The Doctoral Core, (2) Research and Inquiry, (3) Emphasis Area and (4) Dissertation. The first two areas require a combined minimum of 39 semester hours of course work, the third area requires a minimum of 15 semester hours of course work, and the fourth area requires a minimum of 15 semester hours. The complete program requires a minimum of 54 semester hours of coursework plus 9 hours of dissertation credit.

Prerequisites. Students must meet prerequisites required by the program and by certain courses within the program. The program prerequisites are:

EDUC 7130 - Curriculum Theories and Design (3)
EDUF 7130 - Learning Theories and Applications (3)
EDUR 7130 - Educational Research (3)
EDUF 7235 - Multicultural Education (3)

Some students might enter the program carrying coursework beyond the Master’s degree. Up to 18 semester hours of applicable and appropriate post-Master’s work can be applied toward degree requirements with the approval of the student’s Candidacy Committee Chair.

Endorsements. Students can pursue two Georgia endorsements within the Instructional Improvement Emphasis area.

Instructional Supervision Endorsement

EDUC 7130 - Curriculum Theories and Design (3) (Program Prerequisite)
EDLD 7135 - Organizational Leadership (3)
EDLD 7130 - Educational Supervision (3)

L-5 Leadership Certificate

EDUC 7130 - Curriculum Theories and Design (3) (Program Prerequisite)
EDLD 7131 - Educational Personnel Management (3)
EDLD 7330 - Fiscal/Facilities Management (3)
EDLD 7135 - Organizational Leadership (3)
EDLD 7130 - Educational Supervision (3)
EDLD 7333 - School Law (3)

Supervised Field Experience (Practicum to be completed outside the requirements of the Ed.D. Curriculum Studies Program through the Department of Educational Leadership, Technology, and Human Development.)

(continued on next page)
DOCTOR OF EDUCATION, CURRICULUM STUDIES

(CONTINUED)

The Doctoral Core. This is the nexus of the program. As such, it contains courses to be taken by all doctoral students. The Core intertwines the theoretical, ethical, and historical concepts underpinning curriculum work with advanced theories of design, development, and implementation.

Research and Inquiry. This portion of the program is designed to create scholars who might apply their knowledge base to the solving of problems encountered in daily education work. Both components of this segment are understood to be essential in the preparation of doctoral students who will engage in meaningful, productive investigations into critical issues in curriculum. The Research component of the segment provides for advanced study into specific methodologies and their appropriate applications. The Inquiry component addresses theoretical questions of orientation of various research paradigms so that the doctoral student might make an informed decision as to the general approach (i.e. quantitative or qualitative) he/she will wish to pursue in order to effectively address a topic or problem in curriculum.

Emphasis Areas. This program offers five interdisciplinary emphasis areas covering a broad terrain of scholarly inquiry and educational application.

1. Curriculum Theory
   This area provides opportunities for doctoral students to engage in highly advanced and specialized study of curriculum theory, design, and evaluation. As such, students will exit the program capable of gaining employment at the administrative levels of public school systems as curriculum specialists or of entering the professoriate as curriculum scholars. The program provides both depth and breadth of learning experiences in the field of curriculum beyond the studies of the Doctoral Core, and ensures an intensive exposure to critical aspects of the field.

2. Instructional Improvement
   This area meets the needs of many practicing professionals in South Georgia. These include curriculum directors, staff development personnel, instructional coordinators, high school department chairs, and lead teachers as well as others in teaching or administrative positions at the P-12 level or in higher education. Education will improve only if teaching improves, and individuals in positions to work with teachers need to be highly qualified and well-trained in innovative techniques for instructional improvement.

3. Literacy Education
   Literacy has been largely conceptualized in the nation’s schools as the acquisition of reading and writing skills. This Emphasis Area moves beyond the utilitarian definition of the term to invoke a larger sphere which integrates diverse aspects of reading, writing, and language which are usually addressed in separate programs. As such, we offer an interdisciplinary approach utilizing a broad definition of literacy as the construction and organization of experience and its articulation through both written and oral forms of communication. The strength of the Emphasis in Literacy Education lies both in its reflection of modern research and perspectives by integrating diverse aspects of language, reading, and writing, traditionally addressed by distinct programmatic organizational patterns; and its targeting of an array of problems endemic to the region.

4. Mathematics/Science/Computing Technology Education
   This area is for mathematics and science teachers, curriculum directors, and others with a high degree of interest and aptitude in any of these areas. This Emphasis is not intended as a set of separate inquires into discrete content areas, but rather as an interdisciplinary program emphasizing the connections between mathematics in science education, science in mathematics education, and computing technologies in both these fields. Students selecting this Emphasis Area will be better equipped to enhance their own instructional practices as well as provide leadership in interdisciplinary applications of mathematics/science/computing technology education within their constituent schools and school systems.

5. Multicultural Education
   Originally linked to concerns of racism in schools and schooling, the content of multicultural education has expanded to address inequities based upon gender, class, age, and/or physical ability, as well as wider concerns of cultural diversity. We emphasize both the breadth of analysis inherent in contemporary approaches to multicultural education and the relationship of inquiry to those same analytics. The Emphasis Area will explore new methods for meeting the challenges posed by individual and structural racism, as well as provide for the intense investigation of the needs and problems of the culturally diverse groups found within the region. In addition, this Emphasis facilitates the study of cultural conflicts to determine the roles of family and community in successful multicultural education. Further, the Emphasis Area addresses how schools might be organized to promote creative or non-violent conflict resolution, appreciation of cultural diversity, and the relationship of culture and academic achievement.

(continued on next page)
DOCTOR OF EDUCATION, CURRICULUM STUDIES (CONTINUED)

Grade Average. To be eligible for graduation, a student must maintain a cumulative 3.0 grade point average. Student Assessment. Students will be assessed regularly throughout the program at a variety of administrative and curricular checkpoints. The official sequence is as follows.
1. Admission to the program.
2. Coursework.
3. Candidacy examinations.
4. Proposal defense.

Examinations and Committees. During their tenure in the program students, with their advisors, will assemble two separate examination committees. The first is the Candidacy Examination Committee, and the second is the Dissertation Committee. Each committee has a distinct mission in the program of the student and specific membership criteria. The membership of these committees may or may not be comprised of the same individuals, at the student’s discretion. The following is a description of the mission and membership requirements of each committee.

The Candidacy Examination. Following the completion of the prescribed minimum coursework and before a student is formally admitted to candidacy for the doctoral degree, the Candidacy Examination must be passed. This examination evaluates both the work to date and the student’s qualifications for advanced research. The content of the examination will cover three blocks: the Core, Research, and an Emphasis area. The administration of the examination consists of two parts: written and oral. The formats for the written portion can be either take-home or timed. Students, in concert with their committee chair, will determine which format to employ for the individual blocks of the written examination. The oral portion must be completed within four weeks after the written portion is concluded and the entire examination process must be completed within nine weeks. If a student does not pass all sections of the candidacy examination, the committee may grant one additional examination over the failed section/s to be administered under conditions stipulated by the committee members. These conditions might include additional course work at the committee’s discretion. Students may not take the additional examination any earlier than the term following the first examination.

The Candidacy Committee. The committee will be comprised of three faculty, each responsible for one of the examination blocks (Core, Research, Emphasis). All committee members must hold Graduate Faculty status. If the committee is larger than three (at the student’s request), there may be only one dissenting vote in order for the candidate to pass. Upon successful completion of the Candidacy Examination, the student is formally admitted to candidacy and will begin work on the dissertation.

The Proposal Hearing. The dissertation is simultaneously the last requirement in the program and the first research project as a curriculum scholar. There are two check points in the dissertation process, the first being the Proposal Hearing. This is to ensure the committee’s agreement with the project and to elicit any preliminary suggestions and/or redirection of question, context, method, and/or analysis.

The Dissertation Defense. The defense which will be undertaken once the project is complete. Although there are traditional formats for dissertations in education, the Department requires no template for construction. There are, however, certain tenets of educational research which should be addressed in some manner in the work depending upon the general theoretical structure (quantitative or qualitative), and the methodological approach chosen from within that theoretical paradigm. The role of the dissertation chair is critical in this process and candidates should carefully choose the individual with whom they wish to work.

The Dissertation Committee. The Proposal Hearing and the Dissertation Defense is proctored by at least four members of the Graduate Faculty and conducted in a public forum. The membership is as follows: the Director of the dissertation and three readers, one of whom must be from outside the College of Education. Candidates, in concert with their chair, will choose the individuals of the committee. Three of the four members must approve the dissertation and the final examination in order for the candidate to receive the doctoral degree. If the committee is larger than four (at the candidate’s discretion), there may be only one dissenting vote in order for the candidate to pass.

Distinguished Off-Campus Scholar. Having a highly respected scholar from another institution or research center serving on a doctoral examination committee can be very valuable. Therefore, a person who is a nationally or internationally recognized scholar may serve as a voting member of a dissertation examination committee for an individual doctoral student. Further information and criteria for such an appointment should be obtained from the dissertation chair or the program director.

## MASTER OF SCIENCE, MAJOR IN KINESIOLOGY

**M.S.** 36 HOURS

**Advising:** Department of Health & Kinesiology, GSU, P. O. Box 8076, Statesboro, GA 30460, (912) 681-0200, FAX: (912) 681-0381, http://www2.gasou.edu/KIN/HK.html

### Admission Requirements

**Regular:**
1. Completion of a Bachelor’s degree from an accredited institution.
2. A 2.75 (4.0 scale) cumulative grade point average on all undergraduate work attempted.
3. A Graduate Record Examination (GRE) score of no less than 450 on the Verbal sub-test and a total of 1450 on the combined Verbal/Quantitative/Analytical sub-tests. If the Verbal sub-test score is between 400 and 449, the combined Verbal/Quantitative/Analytical scores must be at least 1500.
4. Submission of a full vita including contact information for a minimum of three references.

**Provisional:**
1. Completion of a Bachelor’s degree from an accredited institution.
2. A 2.50 (4.0 scale) cumulative grade point average on all undergraduate work attempted.
3. A Graduate Record Examination (GRE) score of no less than 350 on the Verbal sub-test and a total of 1350 on the combined Verbal/Quantitative/Analytical sub-tests.
4. Submission of a full vita including contact information for a minimum of three references.

**NOTE:** Prerequisite undergraduate course work may be required. Contact the Graduate Program Director in the Department of Health and Kinesiology for complete information.

### Investigative Core

MASTER OF SCIENCE IN NURSING  

Total Hours: 36-48 credit hours depending on major. Post-MSN Certificate options variable in length.

Advising: School of Nursing, MSN Program, Dr. Donna Hodnicki, P. O. Box 8158, Statesboro, GA 30460-8158, (912) 681-0017, FAX (912) 871-1679; dhodnick@gasou.edu

Admission Requirements

Regular:
1. Bachelor’s degree in the proposed filed of study (BSN) or its equivalent from a college accredited by the appropriate accrediting association.
2. Current Georgia RN license. Out-of-state students must apply for Georgia RN license.
3. Two years of clinical nursing experience prior to entering the major clinical specialty courses.
4. Prerequisite undergraduate statistics course or a statistically oriented methodology course.
5. Completion at “B” level of an undergraduate basic health assessment course for Rural Community Health Nurse Specialist major.
6. Pre-admission interview by nursing faculty.
7. Submission/completion of documentation:
   a. College of Graduate Studies application
   b. GSU Health Services form
   c. School of Nursing graduate application
   d. Proof of current malpractice liability insurance
   e. Proof of American Heart Association Level C (2 person) CPR certification
   f. Three letters of recommendation
   g. School of Nursing Student Health Appraisal forms

Specific Admission Policies

1. Must gain Regular or Provisional Degree-Seeking Status admission to the MSN program to be eligible to enroll in graduate nursing courses. Non-degree students are not permitted to enroll in graduate nursing courses with the exception of students formally admitted to the Post-MSN Certificate options.
2. Admission to Regular Degree-Seeking Status: Minimum undergraduate GPA of 3.0 (on 4.0 scale) plus minimum Graduate Record Examination (GRE) score of 450 Verbal and 450 Quantitative or Analytical, or a minimum score on the Miller Analogy Test (MAT) of 44.
3. Admission to Provisional Degree-Seeking Status: Minimum undergraduate GPA of 2.7 (on 4.0 scale) plus minimum Graduate Record Examination (GRE) score of 450 Verbal and 350 Quantitative or Analytical, or a minimum score on the Miller Analogy Test (MAT) of 36.

Required Credits:

MASTER OF SCIENCE IN NURSING  M.S.N.  (CONTINUED)

Options:
NURS 7090 - Selected Topics in Nursing (1-3)
NURS 7890 - Independent Study in Nursing (1-3)
NURS 7999 - Thesis in Nursing (4-6)

SPECIALTY CORE:
Family Nurse Practitioner (& Post-MSN FNP) .......................................................... 22 Hours
NURS 7221 - Primary Care Clinical 1 (120 clinical hours) (2)
NURS 7222 - Primary Care Clinical 2: FNP (120 clinical hours) (2)
NURS 7231 - Primary Care 1 (3)
NURS 7232 - Primary Care 2: FNP (3)
NURS 7740 - Primary Care Clinical Practicum (180 clinical hours) (4)
NURS 7241 - Primary Care 3: FNP (4)
NURS 7242 - Primary Care Clinical 3: FNP (240 clinical hours) (4)
FNP: DIDACTIC 540 HRS; CLINICAL 720 HRS

Women’s Health NP (& Post-MSN WHNP) .......................................................... 20 Hours
NURS 7221 - Primary Care Clinical 1 (120 clinical hours) (2)
NURS 7231 - Primary Care 1 (3)
NURS 7331 - Women’s Health 2 (3)
NURS 7332 - Women’s Health Clinical 2 (180 clinical hours) (3)
NURS 7341 - Women’s Health Care 3 (4)
NURS 7351 - Women’s Health Clinical 3 (300 clinical hours) (5)
WHNP: DIDACTIC 525 HRS; CLINICAL 660 HRS

Rural Community Health Nurse Specialist (& Post-MSN RCHNS) .......................... 20 Hours
NURS 7431 - Leadership in the Context of Community for Advanced Practice Nursing (3)
NURS 7433 - Costing-out Health Care Services for Advanced Practice Nursing (3)
NURS 7434 - Health Program Planning and Evaluation for Advanced Practice Nursing (3)
NURS 7435 - Care of Vulnerable Populations 1 (60 clinical hours) (3)
NURS 7441 - Care of Vulnerable Populations 2 (60 clinical hours) (4)
NURS 7741 - Rural Community Health Nurse Specialist Practicum (240 clinical hours) (4)
RCHNS: DIDACTIC 450 HRS; CLINICAL 360 HRS

Other Program Requirements
• See academic standards and regulations in the graduate section for information on program of study and comprehensive examination procedures.
• A student admitted Non-degree to the Post-MSN Certificate options must meet the same academic standards and regulations for progress and retention as a Degree-seeking student.
• Students completing the Family Nurse Practitioner and Women’s Health Nurse Practitioner MSN degree or Certificate option are eligible to sit for national certification examination.
• Preference is given to applicants with a desire to work in rural or under served areas. Minority and rural students are encouraged to apply.
MASTER OF SCIENCE, MAJOR IN RECREATION ADMINISTRATION       M.S.     36 HOURS

Total Hours: 36
Advising: Department of Recreation and Sport Management, Dr. Henry Eisenhart, GSU, P. O. Box 8077, Statesboro, GA 30460, (912) 681-5462, FAX: (912) 681-0386

Admission Requirements

Regular:
For unqualified admission to the College of Graduate Studies to pursue work leading to the Master of Science (Major in Recreation Administration), the applicant must have:
1. Completed requirements for the bachelor’s degree in a college accredited by a proper regional accrediting association.
2. A 2.75 (4.0 scale) cumulative grade point average or higher in undergraduate work.
3. A total score on all three sections of no less than 1450 on the Graduate Record Examination (GRE) or a score no less than 450 on the Verbal section and a score of no less than 450 on either the Quantitative or Analytical sections for a two section total of no less than 900. One may also score 44 on the Miller Analogies Test (MAT) or make an acceptable score on the Graduate Management Test (GMAT). GMAT scores are evaluated by the following formula: 200 x overall GPA + the GMAT score must equal no less than 1000 for regular admission.
4. An undergraduate major in Recreation or a discipline closely related to one of the recognized emphasis areas associated with undergraduate recreation education.
5. Successfully completed a three semester hour introductory recreation course and a three semester hour introductory statistics course. Those candidates who have not completed the above courses will be required to complete these or equivalent courses prior to or during graduate coursework. Exceptions to this requirement must be approved by the Chair of the Department of Recreation and Sport Management.
6. Three letters of recommendation by persons familiar with the applicant’s academic and/or employment experience.

Provisional:
Provisional admission may be granted with a 2.5 undergraduate grade point average and a 1350 total (all three sections) GRE score or minimum 400 verbal and minimum 400 on either the Quantitative or Analytical sections for a two section total of no less than 800. Provisional admission may also be granted with a 40 MAT.

Program of Study:
The Chair of the Department of Recreation and Sport Management shall name the major professor who, in conference with the graduate student, will develop a program of study to include:

Required Recreation Core Requirements .................................................................................................................. 18 hours
- RECR 7235 - Issues and Trends in Recreation (3)
- RECR 7236 - Philosophy of Recreation (3)
- RECR 7237 - Recreation Management (3)
- RECR 6030 - Selected Topics in Recreation and Sport or Directed Individual Study (3)
- RECR 6230 - Computer Applications in Recreation and Sport Management (3)
- RECR 7230 - Research Methods & Statistical Applications in Recreation & Sport Mgt. (3)

Required Administrative .................................................................................................................................. 9 hours
Students choose 9 hours from the following:

Public Administration
- PBAD 7130 - Ethics in Government (3)
- PBAD 7230 - Budgeting for State and Local Government (3)
- PBAD 7330 - Intergovernmental Relations (3)
- PBAD 7331 - Managing Small Cities and Towns (3)
- PBAD 7430 - Public Personnel Management (3)
- PBAD 7631 - Public Sector Management (3)

Business
- LSTD 7130 - Legal and Ethical Issues in Business (3)
- MGNT 6320 - Survey of Management and Human Behavior in Organizations (2)
- MGNT 7323 - Leadership and Motivation (2)
- MKTG 6420 - Marketing Environment (2)
- MKTG 7433 - Advanced Buyer Behavior (3)
- MKTG 7436 - Advanced Marketing Research (3)

Emphasis Area, Advisor-approved Electives/Thesis Option* .............................................................................. 9 hours
Students may choose electives that will lead to an emphasis in an area such as:
- Environmental Studies
- Natural and Cultural Resource Management
- Hospitality
- Tourism
- Sport Management
- Historic Preservation

In addition to coursework, students must pass a written Comprehensive Examination which is administered in the student’s final semester.

*Students selecting the thesis option receive six semester credit hours.
MASTER OF SCIENCE, MAJOR IN SPORT MANAGEMENT  M.S.  36 HOURS
Advising: Department of Recreation and Sport Management, Dr. Larry McCarthy, GSU, P. O. Box 8077, Statesboro, GA 30460, (912) 871-1552, FAX: (912) 681-0386, E-Mail: larry_mc@gsvms2.cc.gasou.edu

Admission Requirements
Regular:
For regular admission to the College of Graduate Studies to pursue graduate work leading to the Master Of Science (Major in Sport Management), the applicant must have:
1. Completed requirements for the bachelor’s degree in a college or university accredited by the proper regional accrediting association.
2. A 2.75 (4.0 scale) cumulative grade point average or higher on all undergraduate work.
3. A total score on all three sections of no less than 1450 on the Graduate Record Examination (GRE), or a score no less than 450 on the Verbal section and a score of no less than 450 on either the Quantitative or Analytical sections for a two section total of no less than 900. One may also score 44 on the Miller Analogies test (MAT) or make an acceptable score on the Graduate Management Admission Test (GMAT). GMAT scores are evaluated by the following formula: 200 x overall GPA + the GMAT score must equal no less than 1000 for regular admission.
4. Successful completion of a personal interview with members of the faculty.

Provisional:
Provisional admission may be granted with a 2.5 undergraduate grade point average and a 1350 total (all three sections) GRE score or a minimum 400 verbal on either the Quantitative or Analytical sections for a two section total of no less than 800. Provisional admission may also be granted with a 36 MAT or 950 GMAT formula.

Program of Study:
The Chair of the Department of Recreation and Sport Management shall name the major professor who, in conference with the graduate student, will develop a program of study to include:

Sport Management Requirements ................................................................. 21-24 hours
- SMGT 6330 - Social and Ethical Issues in Sport (3)
- SMGT 6335 - Sport Administration (3)
- SMGT 7330 - Research Methods and Statistical Applications in Recreation and Sport Management (3)
- SMGT 7335 - Sport Law and Risk Management (3)
- SMGT 7337 - Sport Marketing (3)
- SMGT 7790 - Internship (9) or
- SMGT 7999 - Thesis (6)

Restricted Business Electives ................................................................. 9 hours
- MGNT 6320 - Survey of Management & Human Behavior in Organizations (2)
- MGNT 7323 - Leadership and Motivation (2)
- MGNT 7332 - Management of Not for Profit Organizations (3)
- MKTG 7433 - Advanced Buyer Behavior (3)
- MKTG 7436 - Advanced Marketing Research (3)

Advisor Approved Electives ................................................................. 3 or 6 hours

Thesis/Internship Option
Thesis Option:
This option is for students who have an interest in research and is strongly recommended for those students planning to pursue doctoral study. Students, with support from their major professor and committee, will develop a thesis proposal, conduct appropriate research, analyze results, and produce a finished written product. Students must follow all policies and guidelines developed by the College of Graduate Studies, including the Georgia Southern University Graduate Student Manual. The thesis option is completed by a thesis defense.

Internship Option:
This option is for students whose primary interest lies in a career in the sport industry. The internship may begin upon completion of at least 30 hours of course work. The internship must consist of at least one full academic semester. The student/intern is expected to work 35/40 hours per week. At the conclusion of the internship, the student will make a presentation to faculty on all aspects of their activities during the internship.
HEALTH SERVICES ADMINISTRATION CONCENTRATION

12 HOURS

Advising: Department of Health & Kinesiology, GSU, P. O. Box 8076, Statesboro, GA 30460, (912) 681-0200, FAX: (912) 681-0381, http://www2.gasou.edu/KIN/HK.html

Advisement

Graduate students interested in this concentration should contact the Graduate Program Director in the Department of Health and Kinesiology for complete information. This concentration is designed to develop the knowledge, understanding, and skills that graduate students need to succeed in the health care industry. Specialized courses in health care administration, health and disease, health care financing, and health care policy and ethics lay the foundation for the future graduate to analyze health information, make decisions and manage change in health care organizations. While this program is designed for the MBA student, interested students can elect to take the courses.

COURSE REQUIREMENTS:

- HLTH 7231 - Epidemiology (3)
- HLTH 7330 - Health Services Administration (3)
- HLTH 7331 - Health Care Financing (3)
- HLTH 7332 - Health Policy, Issues, and Ethics (3)
College of Liberal Arts and Social Sciences

MASTER OF ARTS, MAJOR IN ENGLISH

M.A. 36 HOURS

Advising: College of Liberal Arts and Social Sciences, Department of Literature and Philosophy, Dr. John Humma, GSU, P.O. Box 8023, Statesboro, GA 30460, (912)681-5471, FAX: (912)681-0653

Admission Requirements

Regular:
1. Completed requirements for the bachelor’s degree in a college accredited by the appropriate regional accrediting associations
2. A 3.0 (4.0 scale) cumulative grade point average or higher on all undergraduate work.
3. A score of no less than 550 on the Verbal section of the Graduate Record Examinations (GRE).
4. An undergraduate major or the equivalent in the proposed field of study.
5. Two letters of recommendation by persons familiar with the applicant’s academic experience.

Provisional:
A minimum score of 450 on the Verbal section of the GRE accompanied by a better than 2.75 (4.0 scale) cumulative grade point average on undergraduate college work. Students who do not meet provisional requirements may appeal to a departmental committee of graduate faculty members for admission.

Program of Study

Candidates for the M.A. in English must complete 33 hours of graduate courses, including English 7111 and 7120 and at least 15 hours of seminar level courses. In cooperation with a thesis advisor and committee, the student will write an M.A. thesis with a minimum of 60 pages, not counting “Notes” and “Works Cited.” Depending on the scope and nature of the research project, the thesis director may require more than 60 pages. The student must pass an oral examination consisting of a discussion of the thesis and of questions related to it. Instead of the traditional M.A. thesis on a literary subject, candidates may write a creative thesis in poetry or fiction which will include a critical introduction for 15 - 20 pages in the 60-page minimum length. The student must sign up for 3 hours of thesis credit.

Other Program Requirements

Language Requirement
All degree programs leading to the Master of Arts degree require a reading knowledge of a foreign language. Either French, German, or Spanish is generally required, but another language may be specified by the major professor when the latter is appropriate to the area of research proposed by the student in the thesis prospectus. A foreign national may not use English or his or her native language to satisfy the language requirements.

Georgia Southern University offers the following two options for graduate students who need to complete a foreign language requirement:

1. The language requirement may be satisfied by a grade of “C” or better in the fourth course of a college-level foreign language that is approved by the student’s advisor.

2. A student primarily interested in reading research in his or her field should prepare to take the Foreign Language Graduate Reading Exam administered by the Department of Foreign Languages. The exam is given during the third week of each quarter. The student must register for the exam with the Department of Foreign Languages no later than the last week of the quarter before the test is to be taken.

The examination will be based on material selected in advance by the student and approved by the examiner. The student can select either a book of at least 150 pages or several articles totaling at least 75 pages, excluding graphs, tables, etc. The exam will have a limit of two hours, during which time the student will be expected to prepare a reasonably accurate written translation of several passages selected by the examiner. The use of dictionaries and grammars during the exam will be permitted. The examining committee for foreign languages shall report “pass” or “fail” to the College of Graduate Studies.

Thesis
Each candidate for the Master of Arts degree must complete a thesis on a subject connected with his or her major field of study. In depth and scope, the thesis must demonstrate originality in research as well as independent and critical judgement in interpreting materials.

The major professor shall supervise the research, direct the writing of the thesis, and approve the thesis in its final form. Prior to final approval, the thesis will have been read by the members of the thesis committee. One member, termed the second reader, shall have the responsibility for an intensive and vigorous criticism of the thesis, and the third member of the thesis committee shall have the responsibility of an “editorial reader.” Both second and third readers shall report all comments to the major professor.

See the Graduate Student Manual for additional Thesis information.

Seminars:
ENGL 5090 - Seminar in Selected Topics
ENGL 6630 - Seminar in Medieval Literature
ENGL 6631 - Seminar in Shakespeare
ENGL 6632 - Seminar in Literature of the English Renaissance
ENGL 6633 - Seminar in Eighteenth-Century and Restoration Lit
ENGL 6634 - Seminar in Major Authors
ENGL 6635 - Seminar in Women’s and Gender Studies
ENGL 6637 - Seminar in Criticism and Theory
ENGL 7630 - Seminar in World and Comparative Literature

ENGL 7631 - Seminar in the British Novel
ENGL 7632 - Seminar in the American Novel
ENGL 7633 - Seminar in Nineteenth-Century British Lit
ENGL 7635 - Seminar in Nineteenth-Century American Lit
ENGL 7637 - Seminar in Twentieth-Century American Literature
ENGL 7638 - Seminar in Twentieth-Century Poetry
ENGL 7999 - Thesis
MASTER OF ARTS IN HISTORY  

Advising:  College of Liberal Arts and Social Sciences, Department of History, Dr. Alan C. Downs, GSU,  P.O. Box 8054, Statesboro, GA 30460, (912) 681-5586, FAX: (912) 681-0377

Admission Requirements:

Regular: A student must have the following items in his or her portfolio:

1. Completed requirements for the bachelor’s degree in a college accredited by the proper regional accrediting associations.
2. A 3.0 (4.0 scale) cumulative grade point average or higher on all undergraduate work.
3. A minimum score of 500 on the verbal portion of the Graduate Record Examination and a minimum score of 500 on the quantitative or analytical portion of the GRE. Scores lower than 500 will be considered, but the applicant will need strong evidence of the ability to perform satisfactorily in graduate level work.
4. An undergraduate major or the equivalent in history. Students with majors in other fields of study are given equal consideration for admission providing they have at least 15 hours of history (with a 3.0 cumulative in history and no grade in history lower than a “C”) and a total of 30 hours in the social sciences.
5. Two letters of recommendation by individuals who are familiar with the applicant’s potential for successful graduate study.
6. A statement of purpose.

Provisional:

Provisional admission may be granted with a minimum score of 450 on the Quantitative or Analytical sections of the GRE accompanied by a better than 2.75 (4.0 scale) cumulative grade point average on undergraduate work.

Program of Study

The degree candidate for a Master of Arts in History will take 30 hours of course work (out of a total of 36) which includes the following:

General Requirements

Required Hours

The Historian’s Craft (3)
Reading Colloquium (in area of concentration) (3)
Reading Colloquium (outside area of concentration) (3)
Seminar (in area of concentration) (3)
Seminar (outside area of concentration) (3)

Electives (lecture courses) ........................................................................................................................................... 12 Hours*

Historical Writing and Editing (3)

*up to six hours may be taken in other disciplines upon approval of advisor

Thesis ........................................................................................................................................................................... 6 Hours

Non-Thesis Option

Same as above, except candidate will produce an article-length paper (10,000 words) instead of a thesis. (3 credit hours and student will take an additional elective.)

Other Program Requirements

The student must also pass a reading knowledge examination in an appropriate foreign language and pass an oral examination(s) on the thesis and on all courses taken for the degree.
MASTER OF POLITICAL SCIENCE

Advising: College of Liberal Arts and Social Sciences, Department of Political Science, M.A. Director, Professor Gale Harrison, Mailing Address: GSU, P.O. Box 8101, Statesboro, GA 30460, (912)681-5733, gharrison@gsu.edu
FAX: (912) 681-5348

Admission Requirements:
Regular: For unqualified admission to the College of Graduate Studies to pursue graduate work leading to the Master of Arts degree with a major in Political Science, the applicant must have:
1. Completed requirements for the bachelor’s degree in a college accredited by the proper regional accrediting associations.
2. A 3.0 (on a 4.0 scale) cumulative grade point average or higher on all undergraduate work.
3. A score of no less than 550 on the Verbal section and 450 on the Quantitative section or 450 on the Analytical section of the Graduate Record Examinations (GRE).
4. An undergraduate major of the equivalent in the proposed field of study.

Provisional:
Provisional admission may be granted with a minimum score of 450 on the Verbal Section and 400 on the Quantitative section or 400 on the Analytical section of the GRE accompanied by a better than 2.75 (4.0 scale) cumulative grade point average on undergraduate college work.

Program of Study:
The requirements for the M.A. degree in Political Science include satisfactory completion of a minimum of 36 graduate credit hours. In their program of studies, all students must take POLS 7631, Empirical Political Theory. In addition, students must select at least two courses from the Institutions area, one course from the Analysis Techniques area, and one course from the Public Policy area. Students in conjunction with their faculty advisors will select a cognate field consisting of courses outside the department that support their particular area of investigation. At least fifteen credit hours must be completed at the 7000 level or above. No more than six credit hours of POLS 7999, Thesis, and no more than six credit hours of POLS 7890, Directed Readings in Political Science may apply to the M.A. degree. In addition, each student must write and successfully defend a thesis and pass a proficiency examination in a foreign language of their choice.

General Requirements:
Completion Of Graduate Course Work, Written Thesis, And Oral Defense
Specific Requirements .................................................................................................................. 3 Hours
POLS 7631 - Empirical Political Theory (3)

Select One American Political Institutions Course ........................................................................ 3 Hours
POLS 5630 - Seminar in American Politics (3)
POLS 7330 - Intergovernmental Relations (3)
POLS 7331 - Local Government (3)
POLS 7332 - State Government (3)
POLS 7630 - Seminar in American Government (3)

Select One Comparative Political Institutions Course ...................................................................... 3 Hours
POLS 5633 - Seminar in International Politics or POLS 7633 International Politics (3)
POLS 5634 - Seminar in Comparative Politics or POLS 7632 Comparative Politics (3)
POLS 5635 - Seminar in International Organizations (3)
POLS 7336 - Comparative Public Management (3)
POLS 7636 - International Law and Diplomacy (3)

Select One Analysis Technique course ............................................................................................ 3 Hours
POLS 7530 - Research Methods for Government (3)
POLS 7531 - Public Program Evaluation (3)
POLS 7533 - Qualitative Research Methods (3)

Select One Public Policy course .................................................................................................... 3 Hours
POLS 7231 - United States Foreign Policy (3)
POLS 7232 - Comparative Foreign Policy (3)
POLS 7234 - International Political Economy (3)
POLS 7337 - Environmental Management and Policy (3)
POLS 7532 - Public Policy (3)
POLS 7637 - Social Welfare Management (3)

Cognate Field ................................................................................................................................. 6 Hours
Students, in consultation with their advisor, must select a cognate field. At least six graduate credit hours of courses outside of political science and public administration must be taken.

Electives ......................................................................................................................................... 9 Hours

Thesis—POLS 7999 ......................................................................................................................... 6 Hours
MAJOR IN SOCIOLOGY

Advising: College of Liberal Arts and Social Sciences, Department of Sociology and Anthropology, Dr. Peggy G. Hargis, GSU, P.O. Box 8051, Statesboro, GA 30460, (912) 681-5426, FAX: (912) 681-0703

Admission Requirements

Regular:
1. Received a bachelor’s degree in sociology or a related field from an accredited college or university;
2. Completed, with a grade of C or better, three undergraduate prerequisite courses—sociological theory, sociological methods and statistics;
3. Earned a 2.75 (4.0 scale) or higher cumulative grade point average on all undergraduate work;
4. Earned a score of 450 or higher on the Verbal section and 450 or higher on the Quantitative section of the Graduate Record Examinations (GRE);
5. Submitted two letters of recommendation from faculty members who are familiar with the applicant’s potential for graduate study.

Core Course Work .................................................................................................................................................. 9 Hours
- SOCI 6431 - Contemporary Theory (3)
- SOCI 6434 - Research Design and Methodology (3)
- SOCI 6435 - Quantitative Data Analysis and Lab (3)

Speciality Courses .................................................................................................................................................. 21-24 Hours
In consultation with the Sociology Graduate Coordinator, students will select 21 hours of additional course work (or 24 hours of speciality course work if pursing the applied monograph option). These courses should apply to the student’s educational and career goals, including the anticipated thesis/monograph topic. Six hours of relevant graduate course work may be completed outside the department if approved by the graduate coordinator. All speciality course work must be taken at the graduate level (5000 level or above), but at least 50% of the courses applicable toward a degree must be courses in which enrollment is restricted to graduate students. (6000 level or above).

Other Program Requirements

Terminal Project ....................................................................................................................................................... 3-6 Hours
In light of students’ personal objectives, degree candidates may elect to complete either a traditional research thesis (6 hours) or an applied monograph (3 hours) as their terminal project. Both the research thesis and the applied monograph must be successfully defended.

Foreign Language Requirement
The Sociology M.A. language requirement may be fulfilled through any of the three options listed below during the course of the student’s undergraduate or graduate studies.
1. Foreign Language Course Work
   The student earns a “C” or better in the fourth course of a college-level foreign language. German, Spanish, and French are approved on a standing basis.
2. Foreign Language Exam
   The student passes a Foreign Language Reading Exam administered by the Department of Foreign Languages. Information about this exam is presented in the Graduate Catalog. German, Spanish and French are approved on a standing basis.
3. Statistics/Computer Option
   The student earns a “C” or better in two computer applications and/or statistics courses at the graduate level. These courses should be approved by the Graduate Coordinator/Advisor prior to enrollment.

Courses that are taken to fulfill prerequisites in sociology or deficiencies in foreign language may not be used to satisfy speciality course hours. See the Graduate Student Manual for additional Thesis information
MASTER OF FINE ARTS

Advising: College of Liberal Arts and Social Sciences, Department of Art, Mr. Richard Tichich, GSU, PO Box 8032, Statesboro, GA 30460, (912) 681-5358, FAX: (912) 681-5104

Admission Requirements

Regular:
1. Completed requirements for the bachelor's degree in a college accredited by the appropriate regional accrediting association.
2. Completed a minimum of 18 semester hours of undergraduate studio arts courses and a minimum of 9 semester hours of art history.
3. A 2.5 (4.0 scale) cumulative grade point average or higher on all undergraduate work. Prospective students are required to submit a creative portfolio for consideration by the graduate faculty in the Art Department.

Program of Study

A student admitted to the master of Fine Arts degree will pursue either a two-dimensional or three-dimensional concentration. Between the completion of 30 and 45 hours, the student must pass a review board consisting of a major professor and two other faculty members appointed by the head of the department.

The review will consider successful completion of the program. Upon approval, the student will be expected to complete the program within a two-year period.

A grade of A or B is required in course work applied toward the degree.

Course Requirements:

Studio Concentration (2-D, 3-D) ......................................................................................................................... 35 Hours
- ART 7190 - Drawing (3)
- ART 7191 - Ceramics (3)
- ART 7192 - Painting (3)
- ART 7193 - Sculpture (3)
- ART 7194 - Graphic Design (3)
- ART 7195 - Photography (3)
- ART 7196 - Printmaking (3)
- ART 7890 - Problems in Art (0-9)
- ART 8030 - Selected Topics in Art (0-9)

Art History .......................................................................................................................................................... 9 Hours
- ART 7231 - Ancient Art (3)
- ART 7232 - Medieval Art (3)
- ART 7233 - Renaissance Art (3)
- ART 7234 - Baroque and Rococo (3)
- ART 7235 - Nineteenth Century Art (3)
- ART 7236 - Twentieth Century Art (3)
- ART 7237 - Contemporary Art (3)
- ART 7238 - African Art (3)
- ART 7239 - African American Art (3)
- ART 7330 - American Art (3)
- ART 7331 - Art of Asia (3)
- ART 7630 - Art History Seminar (3)

Graduate M.F.A. Seminar ................................................................................................................................. 4 Hours
- Four 1 credit courses (4)
- ART 9610 - Master of Fine Arts Seminar (1)

Thesis ................................................................................................................................................................. 6 Hours
- ART 8999 - Master of Fine Arts Thesis 6 credits

Electives .............................................................................................................................................................. 6 Hours
MASTER OF MUSIC                M.M.                                 33 HOURS
Advising: College of Liberal Arts and Social Sciences, Department of Music, Dr. Gregory W. Harwood, GSU, P.O. Box 8052, Statesboro, GA 30460-8052, (912) 681-5813, gharwood@gsvms2.cc.gasou.edu, Fax: (912) 681-0583

Admission Requirements

Regular:
1. A completed bachelor’s degree in music or equivalent diploma from an accredited institution
2. A minimum 2.5 (4.0 scale) cumulative grade point average in undergraduate work.
3. Minimum GRE subtest scores of 450 on the verbal section and 450 on either the quantitative or analytical section; alternatively, a minimum score of 44 on the MAT.
4. Two letters of recommendation.
5. Requirements pertinent to the student’s intended major area of emphasis:
   a. Composition: submit completed scores for at least three different types of compositions
   b. Music Education: L-4 certification by the State of Georgia or its equivalent
   c. Music History & Literature: submit a sample research paper
   d. Performance: a satisfactory audition that includes compositions from at least three different periods
6. Acceptable proficiency (undergraduate exit level) in music theory (part-writing, analysis, and ear-training) and music history, determined through a test administered by the Department of Music. In the area of Music History and Literature, prospective students must also demonstrate, through a test administered by the Department of Music, reading proficiency in one foreign language, preferably German or French. Candidates in voice must demonstrate proficiency in diction in both English and at least two foreign languages during their audition. In addition, they must demonstrate basic undergraduate proficiency levels in the International Phonetic Alphabet (IPA) in German, French, Italian and in basic keyboard skills.

Provisional:
1. Minimum GRE subtest scores of 400 on the verbal section and 400 on either the quantitative or analytical section; alternatively, a minimum score of 35 on the MAT. For these lower scores to be considered, the candidate should have a cumulative undergraduate grade point average of 2.75 or higher.
2. Students admitted provisionally due to lack of proficiency in the items listed in #6 above will not be permitted to take more than 12 semester hours toward the degree and will not be permitted to register for graduate-level courses relating to the deficient area until proficiency is established.

General Requirements ......................................................................................................................................................... 9 Hours
MUSC 6131 - Music Reference Tools & Resources (3)

Music history elective chosen from the following: (3 hours)
MUSC 5131 - History of Opera (3)
MUSC 5133 - Music of the Baroque Period (3)
MUSC 5134 - Music of the Classical Period (3)
MUSC 5135 - Music in the Romantic Period (3)
MUSC 5136 - Music in the Contemporary Period (3)
MUSC 5137 - Music in the United States (3)
MUSC 7092 - Selected Topics in Music (history or literature based)

Music theory elective chosen from the following: (3 hours)
MUSC 6531 - Technology in Music (if not required in the area of emphasis) (1)
MUSC 7331 - Advanced Analytical Techniques (3)
MUSC 7332 - 20th-Century Harmony (3)
MUSC 7333 - Contrapuntal Techniques (3)
MUSC 7334 - Advanced Choral Arranging (3)
MUSC 7531 - Advanced Electronic/Digital Music (3)
MUSC 7631 - Seminar in Music Theory (3)

Specific Requirements Relevant to each Emphasis ................................................................................................................. 12-18 Hours

Emphasis in Composition (12)
MUSA 7191 - Recital (3)
MUSA 6531 - Technology in Music (3)
MUSA 7391 - Composition (6)

Emphasis in Performance (12)
MUSA - Applied Music (6)
MUSA 7191 - Recital (3)
MUSA 6531 - Technology in Music (3)
MUSA 7391 - Composition (6)

(Continued on next page)
MASTER OF MUSIC  

Emphasis in Music History & Literature (15)
- MUSC - Music History/Literature elective (see above list; this class is in addition to d general requirementsu)
- MUSC 7331 - Advanced Analytical Techniques (3)
- MUSC 7999 - Thesis (6)

Emphasis in Music Education (18)
- MUSC 7231 - History and Philosophy of Music Education (3)
- MUSC 7232 - Music Education Research Techniques & Methodologies (3)
- MUSC 7991 - Music Education Final Project (3)

6 hours chosen from the following:
- MUSC 7233 - Methods & Materials in General Music (3)
- MUSC 7234 - 20th-Century Music Education Methodologies (3)
- MUSC 7431 - Advanced Choral Techniques & Materials (3)
- MUSC 7432 - Choral Literature (3)
- MUSC 7433 - Advanced Instrumental Techniques & Materials (3)
- MUSC 7434 - Band Literature (3)

3 hours chosen from the following:
- ECED 7130 - Creativity & Children (3)
- EDUC 7130 - Curriculum Theories & Design (3)
- EDUC 8130 - Curriculum for Effective Schooling (3)
- EDUC 9133 - Theories of Educational Inquiry (3)
- EDUC 7130 - Learning Theories & Applications (3)
- EDUC 8131 - Theories of Adolescence (3)
- EDUC 8133 - Interaction & Learning (3)
- EDUC 8134 - Models of Motivation (3)
- EDUC 8135 - Thinking & Problem Solving (3)
- EDUC 8136 - Theories of Development (3)
- EDUR 8131 - Educational Statistics I (3)
- EDUR 8132 - Educational Statistics II (3)
- MGED 8131 - Integrated Curriculum (3)
- SCED 6131 - Secondary School Curriculum (3)
- SCED 6132 - Methods for the Secondary School (3)

Electives (in courses approved by the student’s advisor to meet minimum degree total of 33 hours) ................. 6-12 Hours
MASTER OF PUBLIC ADMINISTRATION

M.P.A.  36 HOURS

Advising: College of Liberal Arts and Social Sciences, Department of Political Science, Dr. Charles W. Gossett, MPA
Program, GSU, P.O.Box 8101, Statesboro, GA 30460, (912) 871-1400, Fax:(912) 681-5348, mpa@gasu.edu

Admission Requirements

Regular:
A student must have the following items in his or her portfolio:
1. Completed requirements for the bachelor's degree in a college accredited by proper regional accrediting association.
2. A 2.5(4.0 scale) cumulative grade point average in undergraduate work.
3. Scores of at least 400 on the verbal portion of the Graduate Record Examination and at least 400 on the quantitative or analytical portion of the exam; the combined total of two parts must be 900 or better.
4. An undergraduate major appropriate to the proposed field of study.
5. A current resume detailing relevant work experience.
6. Three (3) letters of recommendation from persons familiar with the applicant's academic or employment experience.

Provisional:
In the following circumstances, applicants who do not meet the above criteria may be admitted:
1. An applicant who has GRE scores below 400 on either portion or whose total of two parts does not equal 900 or higher may be admitted on the basis of previous work experience and other strong evidence of an ability to perform satisfactorily in graduate work.
2. An applicant whose undergraduate major is in a field of study unrelated to public administration, satisfactory completion of a course in American Government designated by the program may be substituted.

NonDegree:
In cases of incomplete admission applications, an applicant must have an undergraduate GPA of 2.5 and will be restricted to one course until completion of the admission criteria.

Program of Study
The graduate student and the MPA Program Director shall jointly develop a program of study which includes a 3 semester hour core course, 2 semester hours in a capstone course, 15 semester hours in basic principles courses, 4 semester hours in administrative skill courses, 9 (pre-service students) or 12 (in-service students) hours of electives, and 3 semester hours of internship (pre-service students only)

Core Requirements ........................................................................................................................................... 5 Hours
PBAD 7631 - Public Sector Management (3)
PBAD 7620 - Capstone Seminar in Public Management (2)

Specific Requirements ........................................................................................................................................ 15 Hours
PBAD 7430 - Public Personnel Management (3) or
PBAD 7431 - Organizational Behavior in the Public Sector (3)
PBAD 7231 - Budgeting for Federal Government (3) or
PBAD 7230 - Budgeting for State and Local Government (3) or
PBAD 7232 - Public Sector Financial Management (3)
PBAD 7530 - Research Methods for Government (3) or
PBAD 7532 - Public Policy (3) or
PBAD 7531 - Public Program Evaluation (3)
PBAD 7130 - Ethics in Government (3) or
PBAD 7131 - Constitutional Law (3) or
PBAD 7132 - Administrative Law (3)
PBAD 7332 - State Government (3) or
PBAD 7331 - Managing Small Cities and Towns (3) or
PBAD 7334 - Rural Development Management (3) or
PBAD 7335 - Urban Management (3) or
PBAD 7330 - Intergovernmental Relations (3)

Any two of the following courses ......................................................................................................................... 4 Hours
PBAD 7120 - Written Communication for Public Managers (2)
PBAD 7121 - Presentations for Public Managers (2)
PBAD 7122 - Grant Writing for Public Managers (2)
PBAD 7220 - Computer Applications for Public Managers (2)
PBAD 7221 - Geographic Information Systems (2)
PBAD 7320 - Community Organizing and Development (2)
PBAD 7321 - Diversity Issues in Public Management (2)

Public Administration or Related Electives: .......................................................................................................... 9 Hours (preservice) 12 Hours (in service)

Other Program Requirements ............................................................................................................................. 3 Hours

Students who are not professionally employed in the public sector while a student in the MPA program will be required to complete an internship in a public agency or non-profit organization before completing the program. Students must have completed at least 12 semester hours and have a GPA in the MPA program of at least 3.0 before enrolling for credit in the internship.
Advising: College of Liberal Arts and Social Sciences, Department of Psychology, Dr. Richard Rogers, GSU, P.O. Box 8041, Statesboro, GA 30460, (912) 681-5539, FAX: (912) 681-0751

Admission Requirements

Regular:
The applicant must have:
1. Completed requirements for the bachelor’s degree in a college accredited by the proper regional accrediting associations.
2. Taken Introduction to Psychology, an introductory statistics course, and at least two additional courses in psychology. For the experimental track, it is preferred that the applicant have taken Research Methods or Experimental Psychology and, for the Clinical Track, Abnormal Psychology.
3. A 3.0 (4.0 scale) cumulative grade point average or higher on undergraduate work.
4. A score of no less than 500 on the Verbal section and 500 on the Quantitative section of the Graduate Record Examinations (GRE).
5. Submitted:
   a. A personal statement that includes a description of career goals, reasons for applying for graduate study at Georgia Southern University, a list of academic achievements, non-academic achievements, relevant work experience, a self-evaluation of maturity level and character, and a choice of track in the Psychology graduate program: Experimental or Clinical.
   b. Recommendations from three individuals who can speak of the applicant's undergraduate academic performance, potential for graduate study, and maturity level and character.

Provisional:
For applicants who meet one but not both the GPA requirement and the GRE requirement, provisional admission may be granted by the departmental graduate faculty based on their consideration of the materials submitted by the applicant and the interview.

Program of Study for the Experimental Track:
Statistics and Research Design (6)
Content courses, e.g., Developmental Psychology, Cognitive Psychology (18)
Applied research courses, e.g., Research Experience (6)
Thesis (6)

Total ........................................................................................................................................................................ 36 Hours

Program of Study for the Clinical Track
Research for Applied Psychology (3)
Clinical skills course, i.e., Assessment and Therapy (18)
Content courses, e.g., Developmental Psychology, Psychopathology (18)
Practica in Assessment and Therapy (6)

Total ........................................................................................................................................................................ 45 Hours

Other Program Requirements:
All students in the MS program must pass a written, comprehensive exam given early in the spring semester of the second year. Students doing a thesis must pass an oral defense of their thesis.
Allen E. Paulson College of Science and Technology

MASTER OF SCIENCE IN BIOLOGY

Advising: Allen E. Paulson College of Science and Technology, Department of Biology, Dr. Stephen Vives, Dept. Biology, GSU, P.O. 8042, Statesboro, GA 30460-8042, (912) 681-5954, svives@gasou.edu, FAX: (912) 681-0845, Departmental Web Page: http://www.bio.gasou.edu

Admission
Students are selected for the Master of Science in Biology degree program on a competitive basis. Meeting minimum requirements does not guarantee admission. Applications are usually evaluated during the eighth week of the semester prior to the semester of admission. Applications for graduate assistantships must be received by March 15 to receive full consideration for fall. Assistantships are awarded for a maximum of five semesters and are reviewed on an annual basis.

Admission Requirements: For unqualified admission to the College of Graduate Studies to pursue graduate work leading to the Master of Science degree in Biology, the applicant must have:

Regular:
1. Completed requirements for the bachelors degree in a college accredited by the proper regional accrediting associations.
2. A 2.75 (4.0 scale) cumulative grade point average or higher on all undergraduate work.
3. Scores of at least 450 on the verbal and on quantitative portions of the Graduate Record Examination (GRE) are typical for applicants to the Master's Program in Biology. Lower scores will sometimes be considered, but the applicant will need strong evidence of ability to perform satisfactory graduate work.
4. An undergraduate major or the equivalent appropriate to the proposed field of study. Adequately prepared applicants will typically have completed 24 hours of biology, 9 hours of mathematics, 16 hours of chemistry (including organic chemistry), and 8 hours of physics (or geological science).
5. Two letters of recommendation from persons familiar with the applicant's potential to complete successful graduate work.
6. A statement of career goals.

Provisional:
Students that fail to meet one of the requirements 2-4 above (GPA less than 2.75, GRE scores below 450, bachelors degree with inadequate background in biology, math, or chemistry) may be admitted provisionally. Provisional students must earn a B or higher in their first 6 hours of courses to be converted to regular status.

Non-degree:
Non-degree students are accepted on an individual basis as space is available.

Program of Study
The graduate student and their graduate committee shall jointly develop a program of study that includes 24 semester credit hours in graduate coursework plus 3 credit hours of research and 3 credit hours of thesis. Of the 30 required credit hours, 15 must be at level 6000 or higher.

General Requirements
Core Requirements
- BIOL 7610 Graduate Seminar (2-4)

Specific Requirements:
- BIOL 7610 Graduate Seminar (2-4)
- BIOL 7895 Research (3)
- BIOL 7999 Thesis (3)

Electives ........................................................................................................................................... 20-22 Hours
Courses at 5000 level or above

Other Program Requirements:
Each candidate for the Master of Science degree in Biology must complete a thesis on a subject approved by his/her graduate committee. The thesis must be defended before the graduate committee and presented as a public exit seminar. The final comprehensive/thesis examination may include questions on the thesis, subject matter related to the thesis, and on coursework taken at Georgia Southern University. In addition, a knowledge of a broad range of biological principles such as those covered in a general biology course is expected. Toward this end, a qualifying examination equivalent to a final in a general biology course must be passed with a minimum score of 80 percent. Students that do not pass the qualifying exam may retake the exam no sooner than the following semester.
MASTER OF SCIENCE IN MATHEMATICS  M.S.  36 HOURS
Advising: College of Science and Technology, Department of Mathematics and Computer Science, Graduate
Coordinator, GSU, P.O. 8093, Statesboro, GA 30460, 912-681-5390, mmath@gsu.cs.gasou.edu

Admission:

Regular: For regular admission to the College of Graduate Studies to pursue work leading to the Master of Science with a
Major in Mathematics, the applicant must have
1. Completed requirements for the bacheloras degree in a science, engineering, or mathematical discipline at a regionally
   accredited college or university.
2. Provided scores from the Graduate Record Examinations to the College of Graduate Studies with other admission
documents.
3. Successfully completed courses in calculus, probability, and linear algebra.
4. Demonstrated proficiency in at least one computer programming language.

Provisional: Applicants who do not meet admission requirements may be admitted provisionally but must take appropriate
undergraduate courses before full admission. Admission of an applicant who is deemed marginal may require that an interview
be conducted by a committee of graduate faculty members from the department.

Applied Math Concentration: A concentration in applied mathematics requires prerequisite knowledge of ordinary differential
equations and introductory analysis.

Computer Science Concentration: A concentration in computer science requires prerequisite knowledge of data structures
and computer architecture.

Program of Study:
The graduate student and the graduate advisor shall develop a program of study that includes 12 hours of graduate courses
called core requirements and 18 additional hours of elective coursework in one of three concentration areas: applied mathematics,
computer science, or statistics. At least 50% of courses in the program of study must be from those courses in which enrollment
is restricted to graduate students. In addition, the program of study will include a 6 semester hour research project in the area
of concentration. A foreign language is not required.

General Requirements:

- Core Requirements (12)
  - CSCI 5230 - Discrete Simulation (3)
  - MATH 5330 - Operations Research (3)
  - MATH 7231 - Advanced Numerical Analysis I (3)
  - STAT 5531 - Statistical Methods I (3)
  - Selected Courses in CSCI, MATH, STAT
  - Electives in Concentration Area (18)
  - Research Project in Concentration Area (6)

The student must submit a written report in compliance with requirements and procedures similar to those with a thesis. In
addition, the student is required to complete a successful defense of the results of the research project before a faculty committee.
MASTER OF TECHNOLOGY  M.T.  33 HOURS

Total Hours: Thesis Track 27 + 6 hrs thesis
Non Thesis Track 36 hrs

Advising: School of Technology, Dr. David Williams, GSU, P.O. Box 8046, Statesboro, GA 30460, (912) 681-5810, FAX: (912) 871-1455, E-mail: ddawms@gsvms2.cc.gasou.edu

Admission Requirements

Regular:
1. Completed requirements for the bachelors degree in college accredited by the proper regional accrediting association.
2. A 2.5 (4.0 scale) cumulative grade point average or higher on courses in undergraduate work.
3. A score of no less than 450 on the Verbal Section and 450 on the Quantitative section or the Analytical section of the Graduate Record Examinations.
4. An undergraduate major or the equivalent in the proposed field of study.

Provisional:
A student may be granted provisional admission with a minimum of 400 on the Verbal Section and 400 on the Quantitative section or the Analytical section of the Graduate Record Examinations accompanied by a better than 2.5 (4.0 scale) cumulative grade point average on undergraduate college work. A recommendation by the Department Admissions Committee is also necessary.

Program of Study

The Director of the Master of Technology Program in the School of Technology will develop a program of study to include:

Core Program (Thesis Track) ........................................................................................................................................... 9 hours
- TCGT 7230 - Manufacturing Case Study Analysis (3)
- TCGT 7530 - Research and Technology (3)
- TCGT 7532 - Global Technology(3)

Restricted Electives .................................................................................................................................................. 18 Hours
Thesis ........................................................................................................................................................................ 6 Hours

Core Program (Non Thesis Track) .................................................................................................................................... 9 Hours
- TCGT 7230 - Manufacturing Case Study Analysis (3)
- TCGT 7530 - Research and Technology (3)
- TCGT 7532 - Global Technology(3)

Restricted Electives .................................................................................................................................................. 27 Hours

Other Program Requirements
Comprehensive Examination

Multi-Disciplinary Options
The Master of Technology degree program also provides multi-disciplinary options in Environmental Studies and Information Technology. Environmental Studies is offered in cooperation with the College of Business Administration, the Master’s of Public Administration program, the College of Health and Professional Studies, and the Departments of Biology, Chemistry, and Geology. The Computing Technology option is offered in cooperation with the College of Business Administration and the Math and Computer Science Department.

Environmental Studies Option
Core Program (Thesis Track) ........................................................................................................................................... 15 hours
- BIOL - Introduction to Environmental Science (4)
- PBAD 7337 - Environmental Policy and Management (3) or ECON 5430 - Land Use and the Environment (3)
- TCGT 7530 - Research in Technology (3)
- TSEC 5333 - Industrial Hygiene (3)
- One Advanced Science Elective (from the list below) (4)
- BIOL 5540 - Advanced Ecology (4)
- CHEM 5243 - Environmental Chemistry (4)
- GEOL 6440 - Environmental Geology (4)

(Continued on next page)
MASTER OF TECHNOLOGY  M.T. THESIS TRACK  (CONTINUED)

Restricted Electives (selected from designated cluster areas) ................................................................. 12 Hours
Thesis ....................................................................................................................................................... 6 Hours

Core Program (Non-Thesis Track) ........................................................................................................... 15 Hours
  BIOL  - Introduction to Environmental Science (4)
  PBAD 7337 - Environmental Policy and Management (3) or ECON 5430 - Land Use and the Environment (3)
  TCGT 7530 - Research in Technology (3)
  TSEC 5333 - Industrial Hygiene (3)

One Advanced Science Elective (from the list below) (3)
  BIOL 5540 - Advanced Ecology (4)

Comprehensive Examination

Other Program Requirements

Thesis
Each candidate for the Master of Technology Thesis Track degree must complete a thesis on a subject approved by the graduate thesis committee. The major professor supervises the research, directs the writing of the thesis, and approves the thesis in its final form. Prior to the final approval, the thesis is read by the thesis committee. One member, termed the second reader, has responsibility for an intensive and rigorous criticism of the thesis and a third member of the thesis committee has the responsibility of a editorial reader. Both second and third readers must report all comments to the major professor. The thesis must be defended in an oral examination before the graduate committee prior to final approval and sign-off.

The style and format for the completed thesis shall follow that prescribed by the Director for the Master of Technology degree. Procedural steps in the preparation of the thesis are as follows:
1. The prospectus for the thesis shall be submitted to the major professor and thesis committee for approval.
2. An original of the completed thesis shall be submitted to the Dean of the College of Graduate Studies at least thirty days before graduation. After approval, the student submits the number of copies as required in the Graduate Student Manual.
3. The copies of the thesis must contain the written approval of the major professor, the members of the thesis committee, and the Dean of the College of Graduate Studies.

See the Graduate Student Manual for additional Thesis information
Course Descriptions

Introduction
This section of the catalog offers an alphabetical listing of under
dergraduate and graduate courses offered at Georgia Southern
University, along with the college in which that course is
taught. Prerequisites are noted at the end of each description.
Graduate courses, in general, begin with a 6, 7, 8, or 9. Under
the semester format we will offer a 5000 level course that may
be taken for undergraduate or graduate credit. (See “Course
Numbering” below)

• Core Curriculum
Course titles preceded by a bullet • are part of the Core Curricu-
um -- Areas A - E -- of the University System of Georgia. They
are transferable within the University System and to most private
institutions. Course titles not preceded by a bullet are designed
for students who seek a major, minor, or emphasis in a specific
program, and may or may not transfer to other institutions. Stu-
dents should work closely with their advisors in selecting courses
each term, especially if a student is considering transferring or
changing majors.

Course Numbering System
In general, the first digit of the course corresponds to the level of
the class. (1- Freshman, 2 - Sophomore, 3 - Junior, 4 - Senior,
5 - dual Undergraduate/Graduate, 6 - Lower Division Graduate,
7 - Upper Division graduate, 9 - Doctoral Level Graduate.)

The second digit in the course number indicates the course type.
(1-5 - Traditional course format, 6 - Seminar, 7 - Internships and
Practica, 8 - Independent Study, 9 - Research, 0 - Topics courses)

The third digit indicates the credit hours. (0-4 - Actual number of
hours, 5-8 - Other 3 hour courses, 9 - variable)

The fourth digit indicates the sequence of the course.

College Abbreviations
CHPS - College of Health and Professional Studies
CLASS - College of Liberal Arts and Social Sciences
COBA - College of Business Administration
COE - College of Education
COST - Allen E. Paulson College of Science and Technology
VPAA - Office of Vice President for Academic Affairs
Interdisciplinary - Courses offered by more than one department
and/or college.

Accounting (COBA)

ACCT 2030-Survey of Accounting
The theory and application of accounting concepts used to gather and report economic information to users within and outside of the organization. The course stresses the use of accounting information for decision making within the framework of a free economy.

ACCT 2101-Financial Accounting
The theory and application of accounting concepts for reporting financial information to outside users. The course stresses the relationship between the rules by which financial statements are prepared and the use of financial statement information for decision making. Prerequisite: Completion of Area A.

ACCT 2102-Managerial Accounting
The theory and application of managerial accounting concepts. The course stresses the use of accounting information for decision making and the role of managerial accounting in a business environment. Prerequisite: ACCT 2101.

ACCT 3110-Basic Financial Accounting Concepts
The nature and purpose of financial accounting and reporting, with emphasis on standard-setting, the conceptual framework, and the accounting process. The course stresses problem solving and critical thinking. Prerequisite: ACCT 2101.

ACCT 3131-Intermediate Accounting I
The nature of financial accounting, reporting and current practice in the preparation of financial statements and in accounting for cash; current receivables; inventories; property, plant and equipment; intangible assets; current liabilities; and contingencies. The time value of money is emphasized. The course stresses problem solving and critical thinking. Prerequisite: ACCT 2102.
ACCT 3132-Intermediate Accounting II
Provides detailed coverage of several financial accounting topics, including long-term liabilities, stockholders' equity, investments, accounting for income taxes, accounting for pensions and other post retirement benefits, accounting for leases, accounting changes and error analysis, the statement of cash flows, and financial statement disclosure. Prerequisite: ACCT 3131.

ACCT 3231-Management Accounting I
Preparation and analysis of information to assist management in decision making, learning, planning, and controlling business activities. The use of management accounting information for costing products and services, budgeting, pricing and product mix decisions, and evaluating operating performance are emphasized. Prerequisite: ACCT 2102.

ACCT 3330-Income Tax
Develops an understanding of the reporting of individuals, corporations, partnerships, trusts, and estates. Prerequisite: ACCT 3131.

ACCT 3530-Tax Aspects of Business Decisions
An introduction to basic tax, business, and legal concepts instrumental in decreasing federal taxes. The course stresses problem solving, critical thinking, and application of skills necessary to reduce taxes. Open to both BBA and Non-BBA students, but will not substitute for ACCT 3330. Prerequisites: ACCT 2101 and ACCT 2102 for BBA students. ACCT 2030 for Non-BBA students.

ACCT 4120-International Accounting
Develops the background to understand international accounting issues and business operations in a global environment. The topics relate to accounting personnel and executives in multinational corporations and to individuals involved in exports, services, or capital transactions at an international level. Prerequisite: ACCT 3132.

ACCT 4130-Accounting Information Systems
An introduction to how accounting activities are implemented and integrated in manual and computer-based accounting information systems. Topics include AIS components, transaction cycles, system development, internal control, the relationship between AIS design and the audit process, and the effects of technology. The course stresses problem solving, critical thinking, and computer application skills. Prerequisite: ACCT 3131.

ACCT 4232-Management Accounting II
Continues the study of management accounting to increase competence in managerial accounting techniques that can be used to assist managers in the pricing of products or services, to demonstrate the application of specialized uses of accounting information in inventory costing, planning and control functions, and to enhance the use of a variety of decision making techniques. Prerequisite: ACCT 3231.

ACCT 4430-Auditing
Develops the background to understand the auditing process and judgments made by auditors. Topics include external, internal and governmental auditing. Prerequisite: ACCT 4130.

ACCT 4530-Governmental and Institutional
An introduction to accounting and financial reporting for state and local governments and not-for-profit entities. Financial management and accountability considerations particular to government and not-for-profit organizations are emphasized. Prerequisite: ACCT 3132.

ACCT 4790-Internship in Accounting
A supervised work-study program in selected business and accounting firms throughout the southeast. Any student enrolled in the internship program will be required to work for one full semester. Prerequisites: Adjusted GPA of 2.5 or better, permission of advisor and director.

ACCT 4830-Special Problems in Accounting
A customized course that is under the direction of a faculty sponsor. The course is designed to offer students an opportunity to pursue studies at a level or on topics not covered in scheduled courses. The scope and nature of the material covered is determined in consultation with faculty sponsor. Prerequisite: Senior standing and permission of advisor.

ACCT 6130-Accounting and Control
Provides an overview of financial and management accounting. It illustrates how financial accounting information is generated, analyzed, and used for external reporting purposes and how management accounting information is used in management decision making. Differences in accounting practices between and among nations are also explored. Prerequisite: Graduate standing.

ACCT 7130-Seminar in Financial Accounting
A study of business combinations, consolidation of financial statements of affiliated companies, multinational operations, foreign currency transactions, translation of foreign currency financial statements, reporting disaggregated information, and interim financial statements. Prerequisite: Graduate standing.

ACCT 7131-Current Topics in Financial Accounting
A study of current issues related to recognition, measurement, and reporting in financial accounting. Topics will reflect current projects of the various rule-making organizations and issues recently treated in the business, professional, and academic press. Prerequisite: Graduate standing and ACCT 7130.

ACCT 7132-Theory of Accounting
A study of historical and contemporary developments of accounting theory, policy, and reporting procedures. The objectives of financial reporting are reviewed within the conceptual framework of accounting and the accounting standard setting process. Particular emphasis is placed on financial accounting theory formulation and the application of accounting theory to selected contemporary issues. Prerequisite: Graduate standing.

ACCT 7230-Accounting for Executives
A study of management accounting and control information. This course shows how to make pricing and product mix decisions, how to improve existing activities and processes, how to measure performance in decentralized operating units, and how to align organizational activities with long-term strategic objectives, both in a domestic and international setting. Prerequisites: Graduate standing and the completion of the MBA prerequisites.
ACCT 7330-Taxation of Corporations and Partnerships
A study of the laws involving the formation, operation, and liquida
tion of corporations, S corporations, and partnerships. Prereq-
usite: Graduate standing.

ACCT 7331-Taxation of Estates, Gifts, and Trusts
 Covers transfers pursuant to estates and gifts as well as the taxa-
tion of both simple and complex trusts and estates. Prerequisite: 
Graduate standing.

ACCT 7332-Advanced Business Tax Planning
Advanced tax topics such as tax-free exchanges, including like-
kind exchanges, involuntary conversions, exchanges pursuant to
 corporate reorganizations, mergers and acquisitions, as well as
defered compensation. Prerequisite: Graduate standing.

ACCT 7430-Seminar in Auditing
Advanced topics in internal, internal, and governmental au-
diting. Prerequisite: Graduate standing.

ACCT 7431-Auditing Practice
Practical and theoretical components are considered related to au-
diting topics including auditing in the computer environment, con-
ducting auditing research, and report writing. Prerequisite: 
Graduate standing.

ACCT 7530-Seminar in Accounting Information Systems
Develops an understanding and appreciation for the design, analy-
sis, development and implementation of computer-based account-
ing information systems with an emphasis on control and
management issues of this accounting function. Practical applica-
tion will be examined through computer projects and systems' cases.
Prerequisite: Graduate standing.

ACCT 7899-Directed Study in Accounting
Designed for independent study and research in selected areas of
accounting under faculty supervision. Prerequisite: Graduate stand-
ing and permission of the instructor, director, and program advisor.

Adult Education (COE)
ADED 7131-The Adult Learner
Students review and learn models for learning, motivation theo-
ries, participation patterns, and human development principles
which influence how adults respond to and participate in formal
and informal learning situations. The implications of physical,
intellectual, moral, social, ethnic and gender development of adults
are analyzed and applied to adult learning theories. Skills neces-
sary for using and applying theories with adult learners are dis-
cussed and analyzed. Prerequisite: EDUF 7130 or permission of
instructor.

ADED 7132-Teaching Adults
The participants will concentrate on teaching strategies and group
methods appropriate for adult learners. Relevant concepts, prin-
ciples and theories concerning adult education are analyzed and
 applied to teaching methodology. Students will develop proficiency
in the use of applicable teaching methods for adult learners through
planning lessons or other activities, teaching units, and designing
evaluation procedures. Prerequisite: ADED 7131 or permission of
the instructor.

ADED 7230-Trends and Issues in Adult Education
Students will analyze the historical and sociological development
of adult education, examining the history, key concepts, philos-
ophies, issues, trends, values and social purposes underlying adult
education practice in public and private programs.

ADED 7330-Administration of Adult Education
Participants will examine general principles and practices of ad-
ministering adult education organizations. The basic features
of adult education organizations and the role expectations of admin-
istrators and leaders of adult education programs are identified while
examining adult education administrative practices. Major chal-
enges faced by adult and postsecondary education administrators
are discussed and analyzed.

ADED 7430-Program Planning for Adult Learners
Participants will focus on the study of and practice in designing,
developing, and evaluating programs and curriculum in Adult and
Postsecondary Education. Theories, principles, and methods of
planning programs, assessing needs, establishing program objec-
tives, and critically designing and evaluating programs in Adult
and Postsecondary education are analyzed and practiced.

ADED 7737-Practicum in Adult Education
Field and practical experiences will be co-designed by the partici-
ant with the advisor to develop the teaching, administration, and/
or program planning competencies in Adult Education. Prerequi-
sites: Permission of the instructor.

ADED 7830-Final Project in Adult Education
Students will complete a research project focused in their area of
interest in adult education. With the instructor’s supervision, stu-
dents may collect and evaluate data, develop curriculum, design
program evaluations, or otherwise design and complete a project
within the field of Adult Education. Prerequisites: EDUR 7130, a
minimum of 27 hours completed toward the M.Ed. degree, and
permission of the instructor.

ADED 8630-Seminar in Adult Education
A forum for graduate students of advanced standing to examine
contemporary issues, challenges and trends in the study and effec-
tive practice to adult and postsecondary education. Prerequisites:
Completion of M.Ed. program and permission of the instructor.

ADED 8890-Directed Individual Study
This course is an extension of the research consumer skills of Edu-
cational Research. Students may choose to study a topic of inter-
est and importance in adult/postsecondary education. The study
will be directed by the instructor, and the results will be presented
in a written scholarly paper reflecting the content of library re-
search and/or applied research methodology. Prerequisites: Per-
mission of the instructor.

American Studies (Interdisciplinary)
AMST/ENGL 2430-Native American Literature
See ENGL 2430 for course description.

AMST 3033-Introduction to American Studies
The first course in the American Studies minor program, introduc-
ing students to the interdisciplinary nature of American Studies.
Prerequisite: ENGL 1101.

AMST/HIST/AAST 3130-African American History to 1877
See HIST 3130 for course description.

See SOCI 4333 for course description.

AMST/SPCM/AAST 4337-Rhetoric of Social Movements
See SPCM 4337 for course description.

AMST 4890-Seminar in American Studies
Encourages students to pursue specific problems in the interdisciplinary exploration of American Studies related to their major and minor curricula. Prerequisites: 9 hours of American Studies courses or permission of instructor.

AMST/GEOG 5130-Historical Geography of North America
See GEOG 5130 for course description.

AMST/ANTH 5131-Historical Archeology
See ANTH 5131 for course description.

AMST/HIST 5132-Colonial America
See HIST 5132 for course description.

AMST/HIST 5133-Revolutionary America
See HIST 5133 for course description.

AMST/HIST 5134-Civil War and Reconstruction
See HIST 5134 for course description.

AMST/HIST 5135-Emergence of Modern America
See HIST 5135 for course description.

AMST/MUSC 5136-Music in the United States
See MUSC 5136 for course description.

AMST/HIST 5137-The Antebellum South
See HIST 5137 for course description.

AMST/HIST 5138-The New South
See HIST 5138 for course description.

AMST/MUSC/AAST 5236-Jazz History
See MUSC 5236 for course description.

AMST/ANTH 5431-North American Indians
See ANTH 5431 for course description.

AMST/ANTH 5432-Southeastern Indians
See ANTH 5432 for course description.

AMST/AAST/SOCI/ANTH 5435-The Rural South
See SOCI 5435 for course description.

AMST/ANTH 6131-North American Archeology
See ANTH 6131 for course description.

AMST/ANTH 6132-Southeastern Archaeology
See ANTH 6132 for course description.
Anthropology (CLASS)

• ANTH 1102-Introduction to Anthropology
The comparative study of humankind draws materials from the widest possible range of peoples, cultures, and time periods to determine and explain similarities and differences among peoples of the world. This course brings the perspectives of all of the subfields of anthropology to the study of humanity: cultural anthropology, archaeology, linguistics, and biological anthropology.

ANTH 3091-Selected Topics Anthropology
Various topics. May be dual numbered. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 3131-World Archeology
An introduction to the archeology of the Old and New Worlds. This course will examine significant cultural developments from an archeological perspective. A particular focus will be on the development of farming and complex societies. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 3331-Cultural Anthropology
An exploration of the nature, structure, and dynamics of human culture systems through the examination of a variety of cultures, including our own, from around the world. It will provide the student with a better understanding and tolerance of cultural differences and of how and why people, including ourselves, live and act as they do. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 3531-Biological Anthropology
Examines the interaction of biological and cultural forces in shaping human behavior and physical diversity. Key areas of study include human evolution, primatology and the physical diversity of modern populations. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH/FORE/LING 3533-Introduction to Language
A general introduction to the nature and structure of language and its role in society.

ANTH 4131-North American Archeology
An introductory course on the archeology of North America. Concentrates on the prehistory and protohistory of Native Americans as well as introducing students to the history of North American archeology. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4132-Southeastern Archeology
The prehistoric cultures of the Southeastern U.S., including their patterns of subsistence, economy, social and political organization, art, and architecture. The relationship between culture and environment in producing culture change is emphasized. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4135-Mesoamerican Archaeology
An examination of the prehistoric cultures of Central America beginning with the Paleolimindians and culminating with the Aztec and Maya. Materials covered include the art, iconography, architecture, religion, economy, social and political organization of the Olmec, Mixtec, Aztec, Toltec, Totanec, Maya, and Huastec Civilizations. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4231-Methods and Theory in Archeology
Examination and application of current topics in archeology relating to excavation strategy and interpretation. Analysis of various theoretical approaches as well as field techniques. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4233-Zooarcheology
An introduction to the analysis of animal remains from archeological sites. Emphasis will be placed on the identification of specimens and the methodologies of interpretation. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4235-Advanced Archeological Analysis
An advanced course in the analysis of archeological sites and materials. In-depth examination of certain types of archeological materials. Students also learn about the conservation of archeological materials. Prerequisites: ANTH 1102 plus an upper level archeology course or permission of the instructor.

ANTH 4261-Field Session in Archeology
On-site participation in the excavation of an archeological site including training in the physical and observational techniques of the extractive processes of archeological excavation. Experience in excavation, analysis, recording and interpretation of archeological materials is provided. Prerequisite: ANTH 1102 or permission of the instructor. Group size limited.

ANTH 4331-Anthropology and Human Problems
A study of the applications of anthropology in coping with a variety of problems among diverse peoples of the world. Issues include intercultural health care, rural to urban migration, and international development. The history, methods, and ethics of practical or applied anthropology are examined, as well as career opportunities. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4333-Comparative Social Organization
A cross-cultural examination of patterns of social organization including family, kinship, associations, and social networks, through comparative studies of selected cultures from around the world. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4335-Anthropology and International Business
A study of the applications of anthropological concepts and methods in the study of the cultural dimensions of business in other countries. It examines the problems and skills involved in intercultural business relationships including intercultural communication, cultural sensitivity, organizational cultures, culture shock, and cross-cultural misunderstandings. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4337-Folklife
A survey of the creation and persistence of tradition in societies and of the process of change as demonstrated in such aspects as narrative, music, song celebration, festival, belief, and material culture. Emphasis will be given to understanding the multi-ethnic nature of the traditions in the U.S.A. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4431-European Cultures
An examination of the differences and similarities among European peoples and the effects of social, political, and economic changes on their cultures from an anthropological perspective. It also examines the principal anthropological methods and theories used in the study of European culture systems. Prerequisite: ANTH 1102 or permission of the instructor.
ANTH 4435-Middle Eastern Cultures
An ethnological examination of the lifeways of the diverse peoples of the Middle East. The focus of the course will be on who the peoples of the Middle East are, how they live, and why they live as they do. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 4890-Directed Individual Study
Independent study under faculty supervision. Prerequisite: Permission of the instructor.

ANTH 5091-Selected Topics in Anthropology
Various topics. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH/AMST 5131-Historical Archeology
An introduction to the field designed to provide a background in basic research methods in historical archeology and ethnohistory. Emphasis will be placed on regional studies of the southeastern United States. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 5133-Georgia Archeology
A basic background in archeology specifically centered on the state of Georgia. It examines the archeological record from earliest times through the antebellum period in an attempt to place Georgia in the larger archeological setting of the southeastern United States. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH/WGST 5331-Gender and Anthropology
An examination of the biocultural and multi-cultural perspectives of gender provided by anthropology. Theories and case examples of gender studies from selected cultures will be examined using insights from physical anthropology, archeology, cultural anthropology, and linguistics. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 5337-Ethnographic Methods
A study of the research methods used by cultural anthropologists to gather and analyze data in order to describe and explain how people live and why they live that way. Emphasizes qualitative techniques such as interviewing and participant observation. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH/AMST 5431-North American Indians
A study of the lifeways of the Native North Americans from the time of European contact through the present. It focuses on understanding the nature and variety of traditional Native American cultures, and on the changes they have undergone. Prerequisite: ANTH 1120 or permission of the instructor.

ANTH/AMST 5432-Southeastern Indians
A study of the lifeways of the native peoples of the Southeastern United States from the late prehistoric period to the present. Their patterns of family life, economy, politics, religion, and ceremony are examined to understand their cultures, appreciate their accomplishments, and obtain insights into the nature of human cultural behavior. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH/SOCI/AST/AMST 5435-The Rural South
A study of the lifeways and social organization of rural society with emphasis on the South. Examines social institutions, community dynamics, social change, and the cultural distinctions of the region. Prerequisite: ANTH 1102 or SOCI 1101 or permission of instructor.

ANTH/AAST 5437-Cultures of Africa
A comparative study of the lifeways of African peoples south of the Sahara. Traditional cultures, contemporary development, and the course of culture change in various regions are examined. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH/LING/WRIT 5530-Sociolinguistics
The principles and methods used to study language as a sociocultural phenomenon. These are examined both from the linguistic viewpoint and the social scientific viewpoint. Prerequisite: ANTH 1102 or SOCI 1101.

ANTH 5531-Anthropological Theory
A study of the major anthropological theories of human culture covering the history of theory and contemporary materialist and idealist theories. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6091-Selected Topics in Anthropology
Various topics. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH/AMST 6131-North American Archeology
An introductory course on the archeology of North America. Concentrates on the prehistory and protohistory of Native Americans as well as introducing students to the history of North American archeology. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH/AMST 6132-Southeastern Archeology
A study of the prehistoric cultures of the Southeastern U.S. including their patterns of subsistence, economy, social and political organization, art, and architecture. The relationship between culture and environment in producing culture change is emphasized. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6135-Mesoamerican Archaeology
An examination of the prehistoric cultures of Central America beginning with the Paleoindians and culminating with the Aztec and Maya. Materials covered include the art, iconography, architecture, religion, economy, social, and political organization of the Olmec, Mixtec, Aztec, Toltec, Totanec, Maya and Huastec civilizations. Prerequisite: ANTH 1102 or permission of instructor.

ANTH 6231-Methods and Theory in Archeology
Examination and application of current topics in archeology relating to excavation strategy and interpretation. Analyzes various theoretical approaches as well as field techniques. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6233-Zooarcheology
An introduction to the analysis of animal remains from archeological sites. Emphasis will be placed on the identification of specimens and the methodologies of interpretation. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6235-Advanced Archeological Analysis
An advanced course in the analysis of archeological sites and materials. In-depth examination of certain types of archeological materials. Students also learn about the conservation of archeological materials. Prerequisites: ANTH 1102 plus a 4000 level archeology course or permission of the instructor.
ANTH 6262-Field Session in Archaeology
On-site participation in the excavation of an archeological site including training in the physical and observational techniques of the extractive processes of archeological excavation. Experience in excavation, analysis, recording, and interpretation of archeological materials is provided. Prerequisite: ANTH 1102 or permission of the instructor. Group size limited.

ANTH 6330-Cultural Anthropology
Focuses on the nature of human culture and its role in shaping human behavior through the examination of particular culture systems selected from around the world. It examines the components of culture systems and how they develop, function and change. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6331-Anthropology and Human Problems
A study of the applications of anthropology in coping with a variety of problems among diverse peoples of the world. Issues include intercultural health care, rural to urban migration, and international development. The history, methods, and ethics of practical or applied anthropology are examined, as well as career opportunities. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6333-Comparative Social Organization
A cross-cultural examination of patterns of social organization including family, kinship, associations, and social networks through comparative studies of selected cultures from around the world. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6335-Anthropology and International Business
A study of the applications of anthropological concepts and methods in the study of the cultural dimensions of business in other countries. It examines the problems and skills involved in intercultural business relationships including intercultural communication, cultural sensitivity, organizational cultures, culture shock, and cross-cultural misunderstandings. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6337-Folklife
A survey of the creation and persistence of tradition in societies and of the process of change as demonstrated in such aspects as narrative, music, song celebration, festival, belief, and material culture. Emphasis will be given to understanding the multi-ethnic nature of the traditions in the U.S.A. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6431-European Cultures
An examination of the differences and similarities among European peoples and the effects of social, political, and economic changes on their cultures from an anthropological perspective. It also examines the principal anthropological methods and theories used in the study of European culture systems. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6435-Middle Eastern Cultures
An ethnological examination of the lifeways of the diverse peoples of the Middle East. The focus of the course will be on who the peoples of the Middle East are, how they live, and why they live as they do. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6631-Seminar in Anthropology
Exploration of selected topics of contemporary relevance in anthropology. Topics will vary with professional interest of students as to their specialization in the graduate curricula of the University. Prerequisite: ANTH 1102 or permission of the instructor.

ANTH 6632-Seminar in Archaeology
Exploration of selected topics in archaeology of interest to individual or small groups of students which are relevant to their course of specialization in the graduate curricula of the University. Prerequisite: ANTH 1102 or permission of the instructor.

Arabic (CLASS)

ARAB 1001-Elementary Arabic I
Introduction to listening, speaking, reading, and writing in Arabic and to the culture of Arabic-speaking regions.

ARAB 1002-Elementary Arabic II
Continued listening, speaking, reading and writing in Arabic with further study of the culture of Arabic-speaking regions. Prerequisite: ARAB 1001 or equivalent.

ARAB 2001-Intermediate Arabic I
Building upon communication skills (understanding, speaking, reading, and writing Arabic) and cultural understanding, developed at the elementary level. Prerequisites: ARAB 1001 and ARAB 1002 or equivalent.

ARAB 2002-Intermediate Arabic II
Continued focus on communication skills and cultural understanding. Prerequisite: ARAB 2001 or concurrent enrollment in ARAB 2001 or equivalent.

ARAB 3030-Selected Topics in Arabic
Study of a topic in Arabic literature, culture, society, thought or language not included in the regular offering. Continued development of all five language competencies (listening, speaking, reading, writing, and culture). May be repeated for credit provided a new topic is studied. Prerequisite: ARAB 2002.

ARAB 3130-Arabic Conversation
Continued development of language competencies (listening, speaking, reading, writing, and culture) with special emphasis on Arabic conversation. Prerequisite: ARAB 2002 or equivalent.

ARAB 3330-Arabic Culture
Introduction to Arabic culture patterns, behaviors, and monuments. Continued development of language competencies. Prerequisite: ARAB 2002 or equivalent.

ARAB 3530-Commercial Arabic
Introduction to the language and practices of doing business in the Arab world. Continued development of language competencies. Prerequisite: ARAB 2002 or equivalent.

ARAB 4890-Directed Study in Arabic
Concentrated study of a topic in Arabic literature, culture, society, thought or language. May be repeated for credit provided a new topic is studied. Prerequisites: Two Arabic courses at the 3000 level.
ART (CLASS)

• ART 1130-Art in Life
  A general introduction to art and aesthetics and their role in human life and culture. Includes discussion and analysis of architecture, sculpture, painting, ceramics, drawing, printmaking, photography, design, and other art forms from various historical periods and world cultures.

ART 1131-Drawing I
  An introduction to the basic materials and methods of drawing. Students will develop skills in direct observations, composition, and techniques using still-life and natural forms.

ART 1135-Painting I
  An introduction to oil and/or acrylic painting through a variety of studio experiences. Designed to familiarize students with skills necessary for creating a painting. Emphasis is placed on technical competence with the media, mixing color, value, and composition. Equally stressed are iconographic concepts such as symbolic use of color, marks and form to increase expressionistic content within a work of art. Direct observation is utilized.

ART 1230-Ceramics I
  An introduction to clay and the various techniques, including pinching, coil construction, slab building, architectural relief, wheel throwing, and firing.

ART 1231-Two Dimensional Design
  Emphasizes two-dimensional design through analysis of line, texture, color, size, shape, and mass. Individual experiences with a variety of media.

ART 1232-Three Dimensional Design
  Uses lectures, demonstrations, discussions, and hands on experiences to introduce students to a variety of basic materials, techniques, and general concepts related to design within the contexts of 3-D form and space.

ART 1235-Sculpture I
  A study of the processes and concepts of sculpture. Primitive and historical technologies will be employed in the production of sculpture. Students will gain experience working with a variety of media and materials.

ART 1335-Photography I
  This is a studio course that explores fundamentals in techniques and applications of the photographic medium within the context of art. Students learn the use of the 35mm camera, exposure, meter, black and white film processing, printing, and the use of the camera as a means of personal creative self-expression.

ART 1430-Printmaking I
  A brief overview of all printing processes with focus on relief and intaglio. Emphasis will be placed on understanding the printmaking process within a historical and critical context.

ART 2131-Drawing II
  Through direct observation and experimentation the student is led to develop a personal approach to expression. The figure, landscape and still-life are examined in a variety of materials.

ART 2135-Painting II
  An advanced exploration of paint as an expressive medium. Emphasis is on the cultivation of personal imagery and creative exploration as informed by a knowledge of traditional and contemporary art. Technical competence handling traditional formal elements such as composition, color mixing, and paint surface are stressed. The student is urged to develop a personal iconography and to deepen the expressionistic content of their work.

ART 2230-Ceramics II
  Intermediate exploration in selected technical areas of ceramics and firing. Students will explore glaze problems, firing techniques and aesthetics. Emphasis will be on historical and aesthetic concern dealing with the form.

ART 2233-Computer Graphics
  This is an introductory overview of computer-based imaging. Students will create and manipulate digital images.

ART 2235-Sculpture II
  Advanced studio work in the concepts and processes of sculpture. A major emphasis will be placed on using casting techniques to produce original works of art.

ART 2330-Typography
  Introduction to the basic foundations of typographic design. Creative solutions to typographical design program will be explored, along with the student of the practical and technical aspects of typography.

ART 2331-Graphic Design I
  A general introduction to graphic design. The focus of this course will be on students’ development of their creativity and skills at effective visual communications, while also learning about general concepts and issues that apply to the field of graphic design.

ART 2335-Photography II
  This is a studio course that explores the use of the 35mm camera and black and white processing to creatively express ideas and emotions. Emphasis is on the continued development of technique and personal aesthetic.

ART 2430-Printmaking II
  Intermediate study of printmaking focusing on the planographic and serigraphic print processes. Emphasis will be placed on understanding the printmaking process within a historical and critical context.

ART 2531-Art History I
  A chronological survey of world visual arts from pre-historic times through the Middle Ages in the West and various non-western cultures. Emphasis is on architecture, sculpture, painting, and other major media. This course introduces questions of style, meaning, and cultural context for works of art.

ART 2532-Art History II
  A chronological survey of the visual arts from the Renaissance to contemporary times. Emphasis is on architecture, sculpture, painting, and other major media. Introduces questions of style, meaning, and cultural context for works of art.
ART 3131-Drawing III
Involves students in drawings of an advanced technical and conceptual nature. Students are encouraged to experiment with traditional and contemporary approaches to personal image making in a variety of drawing materials. Prerequisites: All area F Art courses.

ART 3132-Figure Drawing
The historical, structural, anatomical, and compositional study of the human figure as an expressive subject. Prerequisites: All area F Art courses.

ART 3134-Art for the General Classroom Teacher P-8
Prepares the future elementary and middle school classroom teacher to plan, implement and evaluate visual art education for children in grades Pre K-8.

ART 3135-Art Teacher P-5
The art education major will learn to plan, implement, and evaluate visual art education for children in grades PreK-5. Course work addresses the history and theories of art education; state and national standards for the teaching of visual arts; children’s artistic development, and related teaching strategies.

ART 3136-Art Methods for the Art Classroom Teacher 6-12
Students examine history, theory, instructional strategies studio skills necessary to integrate art learning experiences in aesthetics, art criticism, art history and art production. Emphasis is on developing advanced skills in planning, implementation and evaluation of art instruction for grades 6-12.

ART 3230-Ceramics III
Advanced exploration into clay forms including surfaces and various firing techniques. Students develop a vocabulary of visual work supported by research in the history of ceramics. Prerequisite: ART 3230.

ART 3235-Sculpture III
Advanced studio work in the concepts and processes of sculpture. Major emphasis will be placed on using casting techniques to produce original works of art.

ART 3330-Packaging Design
A study of the various aspects of package design. Creative solutions to a diverse range of package design problems will be explored, along with study of practical and technical demands specific to three dimensional design.

ART 3331-Graphic Design II
An intermediate level course which teaches page design and layout of various types, focusing on books, magazines, catalogs, and newspapers. Special emphasis will be on developing students’ abilities to find creative yet functional solutions to a diverse range of paper design problems. Prerequisite: ART 2331.

ART 3332-Graphic Design III
An advanced level course which focuses on advertising design. Various types of advertisement will be explored, including magazine, catalogs, brochures, and newspapers as well as electronic advertising designed for the web. Students will explore marketing related issues and learn to develop visual design which effectively communicate a client’s desired message.

ART 3333-Corporate Identity
A study of how to design a company’s visual identity system and its components which includes logos, trademarks, letterheads, business cards, signage, brochures, catalogs, electronic web designs and other forms of communications. Prerequisite: ART 3332.

ART 3334-Professional Practices
This advanced level course will cover the practical issues that confront today’s professional graphic designers. Included will be job searching, freelancing (self-employment), contract negotiations, ownership of intellectual property, clients, presentations, etc. Students will know how to prepare files for printing and standards within the graphic design industry. Prerequisite: ART 3332.

ART 3335-Photography III
A studio course that explores a variety of photographic methods to achieve an advanced level of personal expression and an understanding of aesthetics.

ART 3336-Photography IV
A studio course that explores photographic seeing thought, the application of advanced processing, and printing techniques. Experimental imagery will be encouraged. Emphasis on the development of a personal style. Prerequisite: ART 3335.

ART 3430-Printmaking III
Advanced instruction in various printing processes with emphasis on one process. Students are encouraged to develop their own form of individual expression and critical understanding within the visual language of printmaking.

ART/AAST 3435-African Art
Surveys the major themes, cultural groups, and art traditions of Africa. It focuses on materials, function, meaning, and the contexts in which art is used.

ART/AAST 3436-African American Art
The study of African American art and design from the period of pre-colonial Africa to the contemporary United States. Investigates the creativity and cultural identity of African Americans and their contributions to the visual culture in America.

ART/AMST 3437-American Art
Study of American architecture, painting, sculpture, graphic art, decorative art, and photography from the seventeenth century to the present. Art works, styles, issues, and artists will be studied in relation to the historical, social, cultural, and political background which they reflected and which gave them meaning.

ART 3438-Art of Asia
A study of art and architecture from the major cultures in Asia and the Far East including India, Southeast Asia, China, Korea, and Japan.

ART 3490-Problems in Printmaking
Intensive individual research in a specific printmaking process or specific mixed media approach. Emphasis will be placed on creating a cohesive body of work which could include the exploration of artist’s books and papermaking. Prerequisite: Advanced Printmaking.
ART 3530-Ancient Art
A study of the architecture, sculpture, painting, and applied arts of major civilizations in the Middle East and the Mediterranean world from prehistory to the 4th century C.E., with emphasis on developments in Greece and Rome.

ART 3531-Medieval Art
A study of architecture, painting, sculpture, and applied arts in Europe and the Mediterranean world from the Fall of Rome to the thirteenth century.

ART 3532-Renaissance Art
A study of the architecture, sculpture, painting, and applied arts in Europe from the fourteenth through the sixteenth centuries with emphasis on developments in Italy and Northern Europe.

ART 3533-Baroque and Rococo Art
A study of architecture, painting, sculpture, and graphic arts in Europe during the seventeenth and eighteenth centuries.

ART 3534-Nineteenth Century Art
A chronological study of the visual arts in Europe and America from the late eighteenth through the early twentieth centuries. Examines the art, artists and issues in nineteenth century art through lectures and discussion.

ART 4190-Problems in Drawing
An intensive exploration of drawing media with special focus on advanced levels of personal expression. Thematic content, style, and expressive interpretation are to be determined by the student in consultation with the instructor.

ART 4191-Problems in Painting
An advanced exploration of paint as an expressive medium. Emphasis is on the cultivation of personal imagery and creative exploration as informed by a knowledge of traditional and contemporary art. Technical competence in handling traditional formal elements such as composition, color mixing, and paint surface are stressed.

ART 4230-Kiln Building
The history, design, and construction of ceramic kilns. Students will design and construct a variety of kilns used throughout the history of ceramics. Includes the study of how fuels interact with the structure to achieve desired design results. Prerequisite: ART 2230.

ART 4231-Glaze Calculation
Introduction to the development of clay bodies and glazes. Students will utilize specific glaze and ceramic formulas for desired technical and aesthetic results. Traditional glazes will be contrasted with experimental approaches. Prerequisite: ART 3230.

ART 4290-Problems in Ceramics
Intensive individual research in a specific area of ceramics.

ART 4291-Problems in Sculpture
Individual research in sculpture.

ART 4331-Portfolio Design I
A two course sequence designed to be taken in the final year of undergraduate study. The emphasis is to assist the student with compiling a professional portfolio and to provide the opportunity for the student to exhibit creative work to the public. Prerequisite: Permission of instructor.

ART 4332-Portfolio Design II
A two course sequence designed to be taken in the final year of undergraduate study. The emphasis is to assist the student with compiling a professional portfolio and to provide the opportunity for the student to exhibit creative work to the public. Prerequisite: ART 4331.

ART 4390-Problems in Graphic Design
Individual research in graphic design. Specific problems such as Web page design, 3D modeling, illustration, etc., will be assigned to the student. Prerequisite: ART 3332.

ART 4391-Problems in Photography
A studio course in which students organize and assemble a photographic portfolio. Emphasis is on the development of a personal style using advanced photographic techniques and aesthetics.

ART 4435-Art History Travel
A study of important art works on location at museums, galleries, monuments and other sites. Specific topics and locations to be announced.

ART 4473-Senior Painting Exhibition
Student prepares and mounts an exhibition of images they created as a student at Georgia Southern. In this exhibition the student shows the depth and breadth of their understanding for developing a personal iconography and for increasing the expressionistic content of their work. Prerequisites: Completion of 9 credits of Problems in Painting.

ART 4490-Problems in Printmaking
Intensive individual research in a specific printmaking process or specific mixed media approach. Emphasis will be placed on creating a cohesive body of work which could include the exploration of artist’s books and papermaking.

ART 4530-Twentieth Century Art
Surveys in detail the development of the artistic avant-garde in Europe and America from the late nineteenth century to the present. Major movements, individuals, and theoretical issues will be considered. Emphasis on painting and sculpture with some attention to photography, architecture, printmaking and other areas.

ART 4531-Contemporary Art
Examines in detail the major tendencies in contemporary painting, sculpture, printmaking, performance, video, photography, and environmental art from the middle of the twentieth century to the present. Emphasis is on the major themes, styles, and approaches to art in the contemporary world.

ART 4590-Problems in Art
Individual research in a specific area of art.

ART 4631-Art History Seminar
A seminar-format course on selected topics in art history with emphasis on directed readings and classroom discussion.

ART 4731-Senior Ceramics Exhibition
The student will develop an exhibition of ceramic work. Documented by way of photographic slides. The student will be expected to produce a resume and an artist’s statement. Prerequisite: Permission of instructor.
ART 4732-Senior Drawing Exhibition
The capstone course of the drawing concentration in which the students produce works for a final exhibition and stage an exhibit of their work before graduating.

ART 4733-Senior Painting Exhibition
Students prepare and mount an exhibition of images they have created. In this exhibition the students show the depth and breadth of their understanding for developing a personal iconography and for increasing the expressionistic content of their work.

ART 4734-Senior Photography Exhibition
Work leading up to the presentation of a professional and cohesive body of printmaking within an individual senior exit show. Pre-requisites: Six credits of ART 4391.

ART 4735-Senior Printmaking Exhibition
Work leading up to the presentation of professional and cohesive body of printmaking within an individual senior exit show. Pre-requisites: Nine hours of ART 4490.

ART 4736-Senior Sculpture Exhibition
Individual research and exhibition of advanced studio work. Pre-requisite: Permission of instructor.

ART 4737-Practicum in Art Education
Prepares the art education major to competently plan, implement, and evaluate instructional programs in visual art education in grades P-12. Examination of current trends and issues in art education theory include the areas of studio, art history, art criticism, aesthetics, and perceptual awareness.

ART 4830-Art History Research
Independent research and study on selected topics in art history.

ART 7190-Drawing
An intensive exploration of drawing media with special focus on advanced levels of personal expression. Thematic content, style, and expressive interpretation are to be determined by the student in consultation with the instructor.

ART 7191-Ceramics
Individual research in a specific area of ceramics.

ART 7192-Painting
An advanced exploration of paint as an expressive medium. Emphasis is on the cultivation of personal imagery and creative exploration as informed by a knowledge of traditional and contemporary art. May be repeated up to a total of 9 hours of credit.

ART 7193-Sculpture
Advanced studio work in the concepts and processes of sculpture. A major emphasis will be placed on using casting techniques to produce original works of art.

ART 7194-Graphic Design
An advanced level course which focuses on advertising design. Various types of advertisement will be explored including magazines, catalogs, brochures, and newspapers as well as electronic advertising designed for the web. Students will explore marketing related issues and learn to develop visual designs which effectively communicate a client’s desired message.

ART 7195-Photography
A studio course in which students organize and assemble a photographic portfolio. Emphasis is on the development of a personal style using advanced photographic techniques and aesthetics.

ART 7196-Printmaking
Individual research in a specific printmaking process or specific mixed media approach. Emphasis on creating a cohesive body of work.

ART 7231-Ancient Art
A study of the architecture, sculpture, painting, and applied arts of major civilizations in the Middle East and the Mediterranean world from prehistory to the 40th century C.E. with emphasis on developments in Greece and Rome.

ART 7232-Medieval Art
A study of architecture, painting, sculpture, and applied arts in Europe and the Mediterranean world from the fall of Rome to the thirteenth century.

ART 7233-Renaissance Art
A study of architecture, painting, sculpture, and applied arts in the European world from the fourteenth through the sixteenth centuries with emphasis on developments in Italy and Northern Europe.

ART 7234-Baroque and Rococo Art
A study of architecture, painting, sculpture, and graphic arts in Europe during the seventeenth and eighteenth centuries.

ART 7235-Nineteenth Century Art
A chronological study of the visual arts in Europe and America from the late eighteenth through the early twentieth centuries. Examines the art, artists, and issues in nineteenth century art through lectures and discussions.

ART 7236-Twentieth Century Art
Surveys in detail the development of the artistic avant-garde in Europe and America from the late nineteenth century to the present. Major movements, individuals, and theoretical issues will be considered.

ART 7237-Contemporary Art
Examines in detail the major tendencies in contemporary painting, sculpture, printmaking, performance, video, photography, and environmental art from the middle of the twentieth century to the present. Emphasis on the major themes, styles, and approaches to art in the contemporary worlds.

ART 7238-African Art
Surveys the major themes, cultural groups, and art traditions of Africa. Focuses on materials, function, meaning, and the contexts in which art is used.

ART 7239-African American Art
The study of African American art and design from the period of pre-colonial Africa to the contemporary United States. Investigates the creativity and cultural identity of African Americans and their contributions to the visual culture in America. Format is lecture and discussion.
ART 7330-American Art
Study of American architecture, painting, sculpture, graphic art, decorative art, and photography from the seventeenth century to the present. Art works, styles, issues, and artists will be studied in relation to the historical, social, cultural, and political background which they reflect and gave meaning.

ART 7331-Art of Asia
A study of art and architecture from the major cultures in Asia and the Far East including India, Southeast Asia, China, Korea, and Japan.

ART 7339-Methods in Middle and Secondary School Art
Students examine history, theory, instructional strategies, and studio skills necessary to integrate art learning experiences in aesthetics, art criticism, art history, and art production. Emphasis is on developing advanced skills in planning, implementing, and evaluating art instruction for grades 6-12.

ART 7430-Foundations of Art Education
The study of theoretical and historical foundations of art education: philosophical, psychological, anthropological, and sociological approaches and their influence on curriculum development at the elementary and secondary levels.

ART 7431-Cultural Diversity Through Art
Provides an opportunity to explore the role art plays in the interpretation and dissemination of cultural, historical, and philosophical views by comparing and contrasting art from various world cultures.

ART 7432-Curriculum and Methods in P-5 Art Education
The practices for the teaching of perceptual awareness, production, art history, aesthetics, and criticism of the visual arts in grades P-5. Analysis of common situations in early childhood and elementary education will be made to discover opportunities for creative work and the methods and materials by which they may be realized are explored.

ART 7433-Methods in Middle and Secondary School Art
Students examine history, theory, instructional strategies, and studio skills necessary to integrate art learning experiences in aesthetics, art criticism, art history, and art production. Emphasis is on developing advanced skills in planning, implementing, and evaluating art instruction for grades 6-12.

ART 7434-History and Philosophy of Art Education
An examination of the historical dimensions of art education in the United States.

ART 7435-Aesthetics and Criticism in Art Education
An introduction to basic issues related to the teaching aesthetics, art criticism, and art history to P-12 students. Students will design, implement, and evaluate developmentally appropriate instruction for teaching these issues.

ART 7436-Art Therapy/Special Populations
Introduces art teachers to art therapy and special populations. Emphasizes instructional strategies and therapeutic techniques relevant to social and learning needs.

ART 7437-Arts Administration and Supervision
An introduction to a variety of organizational structures and managerial strategies in the arts field. Emphasizes the history and philosophy of arts’ administrators, the status and role of arts’ administrators, and implementation and assessment strategies in art institutions. Prerequisite: Ed. S. in Art Candidacy.

ART 7438-Curriculum Development in Art Education
The planning, implementation and evaluation of a sequential curriculum for the fine arts in school, museums, and art centers. Areas of analysis include past and present art programs and art education movements as alternative models for curriculum design; creation and evaluation of innovative school, college, museum, and other institutional art programs; meaning and method of curriculum improvement; guidelines for curriculum decision making; testing and evaluating curriculum innovations. Prerequisites: Graduate coursework in at least two courses of one medium to be target of research.

ART 7530-Problems in Studio Pedagogy
The development of qualitative curricula as it relates to the pedagogy of a studio media for grades P-college. The student will develop a curriculum in a specific 2D or 3D media. Investigation includes planning, implementation, and evaluation of learning in relation to the studio skills, vocabulary, history, aesthetics, and criticism. Prerequisites: Graduate coursework in at least two courses of one medium to be target of research.

ART 7630-Art History Seminar
A seminar-format course on selected topics in art history with emphasis on directed readings and classroom discussion. Prerequisites: Permission of instructor.

ART 7890-Problems in Art
Individual research in a specific area of art.

ART 7999-M.E.D. Thesis Project in Art Education
Having completed all other degree requirements, individuals engage in a substantive special project/scholarly inquiry into an area of art education.

ART 8030-Selected Topics in Art
Specific themes in the visual arts. Topics vary.

ART 8330-Museum Art Education
Gives a broad overview of museum art education. The history, theory, and practice of museum art education in North America will be investigated. A variety of learning experiences will be provided in order for students to plan, implement, and evaluate instructional art programs in museum settings.

ART 8630-New Art Theory and Criticism
A seminar on new theoretical ideas about art and art criticism. The course is organized around the most important recent critical writings on various topics—such as postmodernism, feminism, myth, semiotics, aesthetics, psychoanalysis, the avant-garde—and how they affect contemporary art and artists.

ART 8830-Problems in Art Education
Individual and specialized study in areas of art education not otherwise covered in the student’s program.

ART 8831-Art History Research
Independent research and study on select topics in art history.

ART 8832-Research in Art Education
Individual and specialized study in research methodology, critical evaluation of art education research, and proposed topics of research in art education.
ART 8834-Readings in Art Education
A critical examination of the scholarly literature from a variety of disciplines which have bearing on the nature and practice of art education.

ART 8999-Master of Fine Arts Thesis
Provides the Master of Fine Arts degree candidate the opportunity of presenting a visual thesis. The candidate will present an exhibition which will be supported by a written defense. A major professor will supervise the creation of the thesis work and the written documentation. Prerequisites: Permission of major professor.

ART 9610-Master of Fine Arts Seminar
Provides the Master of Fine Arts degree candidates the opportunity of formally discussing issues relative to their degree. The course will combine group critiques with seminar discussions. Prerequisites: Permission of major professor.

Astronomy (COST)
• ASTR 1000-Introduction to the Universe
A study of the motions and constitution of the solar system, stars and other celestial bodies. Theories of evolution of celestial bodies and the universe are considered in addition to the instrumentation used by astronomers.

• ASTR 1010-Astronomy of the Solar System
A study of the motions and physical properties of the planets, asteroids, and comets.

• ASTR 1020-Stellar and Galactic Astronomy
A study of the physical properties of stars and galaxies and of the origins of the universe.

• ASTR 1211-Astronomy Lab
A series of laboratories designed to measure the physical properties of planets, stars, and galaxies. Prerequisites: Must be taken concurrently with either ASTR 1010 or ASTR 1020.

• ASTR 3538-Physical Astronomy
The physical nature of the solar system, stars and galaxies will be studied in detail. Principles of physics will be used and illustrated, especially in the areas of mechanics, thermodynamics, physical optics, and spectral analysis. Prerequisites: PHYS 2211 and PHYS 2212.

Business Education (COE)
BEED 3131-Beginning Keyboarding
A beginning course incorporating basic keyboarding skills and techniques of learning successful touch keyboarding. Included are introduction to business letters, forms, tables, and short reports; proofreading skills, punctuation and word division and acceptable material arrangement. Significant individual time in a keyboarding lab will be required. This course may be exempted with a grade of a “C” or above on a beginning keyboarding proficiency exam.

BEED 3132-Advanced Keyboarding Application
Focuses on application of skill in business document, composition and preparation. Speed and accuracy in keyboarding are further developed. Significant individual time in a keyboarding lab is required. Prerequisite: BEED 3131 or proficiency of 30 wpm, and Admission to Teacher Education.

BEED 3133-Word/Information Processing
A “hands-on” microcomputer course designed to provide students with the skills and knowledge necessary in producing documents using specialized software. Content includes the keying, formatting, editing and composing of a variety of business documents. Acceptable mailability and production standards are emphasized throughout the course. Prerequisites: BEED 3132 and Admission to Teacher Education.

BEED 3134-Business Communications
Emphasizes an application to business of logical and psychological communication principles through letters, memos, reports, and oral presentations. Prerequisites: ENGL 1101, ENGL 1102, BEED 3131 or proficiency exam for the beginning keyboarding course and Admission to Teacher Education.

BEED 3236-Methods of Teaching Business Subjects in the Secondary School
An introduction to various methods and materials for teaching business subjects in the secondary school. A field based component will be arranged. Focuses on instructional methods in the teaching of skill development courses, including classroom interaction patterns, instruction modification and evaluation techniques. A field based component is included. Prerequisites: Completion of 24 hours in the business teaching field and Admission to Teacher Education. Corequisites: SCED 4138 and EDUF 3232.

BEED 3237-Accounting Methods
An introduction to various methods and materials for teaching accounting and data processing subjects in the secondary school. Prerequisite: Accounting I and II, BEED 3236 and admission to Teacher Education.

BEED 4090-Business Education Special Topics
Designed to promote specialized training appropriate to the needs of pre-service teachers. Attention will be given to a range of specific problems as they relate to the secondary school classroom. Prerequisites: Approval of the advisor, instructor and department chair.

BEED 4130-Office Procedures
This integrative course is designed to help students acquire office techniques, skills and knowledge essential for a highly competent worker, and a proficient teacher of prospective office workers. Major emphasis is on the development of decision making competencies and developing effective interpersonal skills and office/workplace competencies. Prerequisites: Admission to Teacher Education and BEED 3131 or proficiency exam for beginning keyboarding.

BEED 5130-Cooperative Vocational Education
Considers all cooperative curriculum programs in the high school, as well as, the philosophy and background for the program. Prerequisite: Admission to Teacher Education or possess a Bachelor of Science in Education (BSED).

BEED 7090-Selected Topics in Business Education
Designed to promote specialized training appropriate to the needs of in service teachers. Attention will be given to a range of specific problems as they relate to the secondary school classroom. Repeatable up to 6 credit hours. Prerequisites: Approval of the advisor, instructor, and department chair.
BEED 7130-Office Administration
The total operations of an office will be analyzed for effective planning, controlling, organizing, and actuating techniques utilizing the systems management approach in which office activities are considered components of systems. The course involves in-depth reading and analysis of the components of office systems including technical, organizational, and communicational dimensions.

BEED 7230-Trends in Teaching Business and Accounting
A study of current literature, research findings and practices with special reference to current trends, issues and integration of technology in basic business and accounting.

BEED 7330-Coordination of Vocational Business
Acquaints students with the policies, problems and procedures involved in cooperative business education. It is designed to prepare students to effectively organize and operate a planned cooperative business education program according to national, state and local guidelines and to analyze business workplace skills needed in a technological society.

BEED 7431-Principles and Problems
A study of the evolution of business education principles and practices, content and curricula for business programs. Consideration is given to such problems as objectives, relationships of vocational to general education, place of business education in changing secondary school curriculum, standards of achievement, and the effect of modern trends and developments.

BEED 7432-Administrative Support
A study of current literature, research findings and practices with special reference to current trends and issues in administrative support systems.

BEED 7433-History and Philosophy of Business Education

BEED 7434-Business Research Writing
Effective communication in business and education, including business letters, proposals, abstracts, articles, and business reports. Attention is given to the creative and functional aspects in understanding problems, gathering and organizing data, analysis preparation, research methods, tools and interpretation of research data. Prerequisite: EDUR 7130.

Honors (Bell Honors Program)
BHON 1101-Seeing and Writing I
Provides in-depth study in the techniques of good writing and of critical thinking with exposure to various ways of seeing the world and one’s relation to it through intensive readings in the humanities. Students will write essays, read novels, stories, poetry and non-fiction prose, and see and analyze within established course contexts serious motion pictures. Interdisciplinary and team-taught.

BHON 1102-Seeing and Writing II
Emphasizes refining the skills in writing, critical thinking, and reading acquired in BHON 1101. In addition to writing essays, students will write a longer course paper, synthesizing materials of both courses, in which they will apply, interactively, important personal concerns and interests and nurture basic research skills. Interdisciplinary and team-taught.

BHON 1110-Freshman Seminar I
The freshman BHP Seminars are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 1111-Freshman Seminar II
The freshman BHP seminars are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 1131-Human Dawn
The development of world cultures from human origins through-out the era of Tamerlane, Dante, and the cresting of Ottoman power in the Middle East. The role of economics in the development of social and political institutions is a central emphasis. Interdisciplinary and team-taught.

BHON 1132-Genesis Modern Societies
The evolution of world cultures, from the high Renaissance in the west, the Ming period in China, and the cresting of the Incan Empire, via the Protestant Reformation and the age of explorations, the Mughal Empire of India, the scientific revolution and the Enlightenment, through the American and French revolutions to the era of Napoleon, the Tokugawa Shogunate in Japan and the independence movements in South America. The role of economics in the development of social and political institutions is a central emphasis. The development of U.S. government and the Constitution, and the history of Georgia are also focal themes. Interdisciplinary and team-taught.

BHON 1441-Essential Skills in Math
Imparts the content of the first calculus course, with additional content determined by the instructor, but to include probability and matrices, systems of equations and number theory. BHP Scholars entering with exceptionally strong backgrounds in calculus, demonstrated by AP scores and/or Post-Secondary Option college work, would, when appropriate, be permitted to take MATH 2242 or a higher level course in lieu of this course; this would not normally be advised.

BHON 2111-Sophomore Seminar I
The sophomore BHP Seminars are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

BHON 2133-Foundations of the Contemporary World
A study of world cultures of the nineteenth and twentieth centuries, down to the present. Central attention is given to the role of economics and its influence on the development of social and political institutions. The institutions of American government, the U.S. Constitution and the history and Constitution of Georgia are also focal themes. Interdisciplinary and team-taught, with a political scientist as one member of the team.

BHON 2134-The Shape of Things to Come
A capstone and conclusion to BHP courses in all areas. An interdisciplinary and team-taught exploration of the best thinking on projected future developments of world issues and world cultures. The central theme is the role of economics, applying micro- and macro-economic methods, and its influence on shaping the future.
A broad spectrum of other topics—art, music, and contemporary thought through world political issues to business and law are considered in their relation to economic forces and institutions. Employs extensive use of guest professors, to provide a wide variety of perspectives on the future. Includes an economist as one member of the core teaching team.

**BHON 2210-Turning Points and Connections**
A special BHP section, focusing on the connections between major turning points in history and their effects on life, as seen in art, music, philosophy, literature, politics, science, economics and cultural outlook. Serves as BHP seminar in spring semester of the sophomore year.

**BHON 2230-Ideas and the Arts**
An interdisciplinary and team-taught introduction to philosophy and the fine arts and their interrelationships.

**BHON 2241-Science and Contemporary World Issues**
Explores contemporary issues and controversies in the sciences and the role of science and scientists in issues facing the world of today. A study of environmental issues is central. Continuing attention is paid to applications of mathematics. Includes a laboratory component, with laboratory content appropriate to the disciplines of faculty teaching the course. Interdisciplinary and team-taught.

**BHON 3110-Junior Colloquium I**
The junior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

**BHON 3111-Junior Colloquium II**
The Junior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

**BHON 4110-Senior Colloquium I**
The Senior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

**BHON 4111-Senior Colloquium II**
The Senior BHP Colloquia are special additional enrichments of the general educations of Bell Honors Program Scholars. Content is determined when selections are made by the Honors Council from annually submitted proposals from faculty.

**Biology (COST)**

- **BIOL 1110-General Biology Laboratory**
  A series of laboratory components that involve hands on experimentation with the biological concepts of genetics, growth, ecology, reproduction, development and physiological processes.

- **BIOL 1130-General Biology**
  An introductory course covering the concepts and applications of biological diversity. In this course, cell organization, genetics, diversity, plant and animal structure and function, ecology, evolution, and our impact on the environment will be discussed in class.

- **BIOL 1210-Environmental Biology Laboratory**
  A series of laboratory components that are directed toward ecological and environmental science and stress experimental design and data analysis.

- **BIOL 1230-Environmental Biology**
  A consideration of environmental issues and ecological processes including interspecific interactions, community dynamics, biodiversity, and the major biomes of the world. Human impact on earth, population growth, conservation, energy production, food production, and pollution will be related to those basic ecological processes.

- **BIOL 1331-Insects and People**
  An introduction to the role insects and other arthropods serve in relation to humans. Insect human interactions in the home, yard, garden, workplace, recreational areas, and human body are included. Consideration of the natural history, life cycles and optional human actions regarding pests, beneficial insects, insects and disease, insects and food, and aesthetics.

- **BIOL 1333-From Neuron to Brain**
  A consideration of the workings of the brain from a biological perspective. The mechanisms of neural function from cell to network to brain will be studied. Topics will include neurons, neurotransmitters, nerve nets, the biological basis of learning, vision, language, brain sex differences, major disorders of mind and brain, and aging of the brain.

- **BIOL 1335-Plants and Civilization**
  An introduction to major groups of economic plants and their role in the origin and maintenance of civilization. The course also deals with plant biodiversity and the potential impact of biological losses.

**BIOL 2111-Cellular Biology Laboratory**
Laboratory course emphasizing hands on experience in the applications of cellular and molecular biology through emphasis on experimental design and data analysis. Prerequisite: CHEM 1145 (may be taken concurrently).

**BIOL 2131-Cellular Biology**
A general course covering the concepts and applications of cellular and molecular biology. Includes scientific method, cell organization, gene regulation, molecular genetics, cell diversity, cell structure and function, and evolution. Prerequisite: CHEM 1145 (may be taken concurrently).

**BIOL 2240-Microbiology**
Emphasizes fundamental principles of microbiology. Topics will include structure, physiology, and economic importance of microorganisms. Prerequisites: 4 credit hour laboratory course in Biology or Chemistry and sophomore standing.

**BIOL 3099-Selected Topics in Biology**
Course taught on a selected topic in biology on a one-time basis. Prerequisites: BIOL 2131, BIOL 3132, and BIOL 3133.

**BIOL 3112-Biology Of Organisms Laboratory**
Laboratory survey of the diversity and basic biology of viruses, bacteria, protista, fungi, plants, and animals. Emphasis will be placed on recognition of the major groups of organisms and understanding of the relationship between structure, function and organismal success. Prerequisites: BIOL 2111 and BIOL 2131.
BIOL 3113-Evolution and Ecology Laboratory
Emphasizes quantitative and graphical analyses in transmission genetics, evolutionary biology including systematics, and ecology. Students will conduct controlled experiments followed by analysis and formal written presentation of the methods and results. Exercises will utilize manipulation of live organisms, computer simulations, and preserved/prepared specimens. Prerequisites: BIOL 2111 and BIOL 2131.

BIOL 3132-Biology of Organisms
Survey of the diversity and basic biology of viruses, bacteria, protists, fungi, plants and animals. For each group, emphasis will be placed on systematic relationships at higher taxonomic levels, recognition of diagnostic structures, functional systems and reproduction. Prerequisites: BIOL 2111 and BIOL 2131.

BIOL 3133-Evolution and Ecology
Provides a review of major principles in evolutionary biology, genetics, and ecology. Covers Mendelian genetics, quantitative and population genetics, and relevant aspects of probability theory and statistical analysis. Students are introduced to cladistics, the historical development of population biology, and the neo-Darwinian paradigm, with emphasis on microevolutionary processes of natural selection, drift, and gene flow. Evolutionary principles are integrated into the presentation of ecosystem function, community development, and species interactions. Prerequisites: BIOL 2111 and BIOL 2131.

BIOL 3230-Introduction to Immunology
Introduction to the biology of lymphocytes and adaptive immune responses including the study of immunoglobulins and cytokines. The roles of the immune system in health and disease are also examined. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and three or four courses in chemistry.

BIOL 3240-Biology of Microorganisms
Covers the principles and techniques of general microbiology, including physiology, genetics, and host-parasite interactions involving bacteria, eukaryotic microorganisms and viruses. Prerequisites: BIOL 2131, BIOL 3132, and BIOL 3133.

BIOL 3341-Nonvascular Plants
A general survey of bacteria, algae, fungi, lichens, and bryophytes, stressing identification, morphology, life cycles, economic importance, and role in ecosystems. Prerequisites: BIOL 2131, BIOL 3132, and BIOL 3133.

BIOL 3343-Vascular Plants
A general survey of vascular plants including life histories, morphology, ecology, and identification. The woody plants of Bulloch County and vicinity are emphasized. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 3440-Field Biology
A field introduction to the natural history of plants and animals of the Georgia coastal plain. Field collections and observations are integrated with laboratory identification and lectures. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 3533-Field Entomology
An off campus concentrated introduction to the study of insects. Field collection and laboratory identification supplement the lecture, which focuses on external and internal morphology, development, behavior, and interactions with plants and animals. Prerequisites: BIOL 2131, BIOL 2132 and BIOL 3133.

BIOL 3541-Invertebrate Zoology
A survey of the diversity and basic biology of the invertebrates. Emphasis is placed on adaptations responsible for the diversity and life history strategies of invertebrates, and identification of locally important invertebrate groups. Field trips and research project required. Prerequisites: BIOL 2131, BIOL 2132 and BIOL 3133.

BIOL 3545-Vertebrate Zoology
Study of the vertebrates with emphasis on the form, function, identification, evolution, distribution, and life histories of local vertebrate fauna. Field trips required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 3790-Teaching Internship in Biology
Student internship in BIOL 1210 under the mentorship of a faculty member. The student will participate in an introductory workshop immediately prior to the start of the semester, intern in BIOL 1210, and meet with the faculty mentor one hour each week. Prerequisites: Junior standing or above, 3.0 GPA, letter of recommendation from a professor and permission of instructor. 1 credit hour per laboratory section of BIOL 1210 in which the student interns, repeatable for credit, for a maximum of 3 credit hours.

BIOL 4340-Field Botany
An introduction to plant systematics with primary emphasis on identification and classification of non-woody flora. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 or permission of the instructor.

BIOL 4441-Marine Ecology
Stresses ecological processes and adaptations that act to structure coastal associations and permit their persistence through time. Field trips required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 4620-Undergraduate Seminar
Group study of selected biological topics held in conjunction with the normal seminar schedule of the Department of Biology. Topics will vary each semester and will be led by biology faculty. Prerequisite: Junior standing.

BIOL 4730-Internship in Biology
Qualified biology majors may acquire practical experience by working with a government agency that specializes in the proposed area of study. Faculty members of the biology department must act as consultants. Internships must be approved by the head of the department. An oral presentation of the results must be presented at the end of the semester. Prerequisites: Minimum GPA of 2.75 and junior standing.

BIOL 4890-Directed Individual Study
Well prepared biology majors may be permitted to carry out independent study upon the recommendation of the instructor with whom the student wishes to work. The recommendation must have approval of the head of the biology department. An oral presentation of the results by the student must be presented at the end of the semester. Prerequisites: Minimum GPA of 2.75 and junior standing.

BIOL 5099-Selected Topics/Biology
A course taught on a one-time basis. Lecture only courses will be three credit hours while courses with a laboratory will be four credit hours. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.
BIOL 5130-Biology of Cell Membranes
A comparative course on membrane structure and function. Specific areas to be included: transport kinetics, physiochemical properties, electrical properties, membrane transport, comparative studies, biochemical assays for membrane proteins, cell-cell communication and medical applications of membrane biology. Prerequisites: BIOL 5144 and BIOL 5230 strongly recommended.

BIOL 5132-Eukaryotic Molecular Genetics
Examines aspects of inheritance of eukaryotes at the molecular, biochemical, cytological, organismic, and population levels. Prerequisite: A combination of 20 hours of Biology and Organic Chemistry.

BIOL 5134-Population/Quantitative Genetics
Introduction to the dynamics of evolutionary change for qualitative and metric characters. Hardy-Weinberg equilibrium will provide a basis for further analysis of microevolutionary "forces" of selection, drift, gene flow, and mutation. Methods for estimating heritability of metric traits and predicting the course of selection will also be introduced. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133. A statistics course and first calculus recommended.

BIOL 5140-Bacteriology
A survey of bacteriology with emphasis on fundamental techniques, microbial physiology, medical applications, and contemporary aspects of applied bacteriology. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5142-Molecular Biotechniques
Highlights modern discoveries in molecular genetics and their application in today's world. In addition to the body of facts associated with molecular methodology, the course will introduce students to experimental techniques such as PCR, electrophoresis, restriction enzyme digest analysis, and DNA sequencing. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5144-Advanced Cell Biology
Examines the structure and physiology of cells and subcellular organelles. Topics include membrane transport, DNA, RNA and protein synthesis, cellular respiration, the secretion, synthesis, function of macromolecules, the cellular biology of neural and endocrine cells, and the cellular biology of bioluminescence. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and two semesters of chemistry.

BIOL 5146-Developmental Biology
Examines the development of the chordates with emphasis on interpretation of experimental procedures. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5148-Human Genetics
Basic principles of Mendelian inheritance and molecular genetics are applied to a systematic review of human disorders. Included are disorders of blood, connective tissue, muscles, lysosomes, lipoproteins, transport membrane and mechanisms, amino acid metabolism and the immune system. Special attention is given to diseases caused by chromosomal abnormalities. Sex determination, genetic markers, gene mapping and population genetics are also covered. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133, and CHEM 3341.

BIOL 5210-Comparative Animal Physiology Laboratory
Laboratory study of the basic physiological processes of animals, with integrated studies of molecular, cellular, metabolic and organ-system functions. Prerequisite: BIOL 5230 or concurrent registration, or permission of the instructor.

BIOL 5230-Comparative Animal Physiology
A comparative review of the function and regulation of the major organ systems in animals. Topics include homeostasis, membrane transport, osmoregulation, and energetics. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5233-Biology of Aging
Covers biological processes accompanying aging in humans and other organisms. Emphasizes physiological decline, theoretical explanations, attempts to prolong life, and the utility and limitations of model systems used to analyze human aging. Field trips required. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 or permission of instructor.

BIOL 5235-Fish Physiology and Behavior
A comparative study of the physiological and behavioral processes in cartilaginous and bony fishes. Selected topics include acid-base metabolism, cardiovascular function, excretion, feeding, locomotion, migration, osmoregulation, reproduction, respiration, sensory systems and thermoregulation. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and BIOL 5230. BIOL 3545 recommended.

BIOL 5240-Histology
Examines the origin, development, structure and function of vertebrate and issues. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5241-Comparative Vertebrate Anatomy
A comparative and functional study of the morphological systems of vertebrates. Laboratory emphasizes dissection of representative vertebrate groups. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5243-Toxicology
An introduction to the principles of toxicology with a focus on the toxicology of aquatic organisms. Topics include risk assessment, regulatory toxicology, mutagenesis, teratology, and toxicology of the nervous and reproductive systems. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133. BIOL 5230 and CHEM 1145 AND CHEM 1146 recommended.

BIOL 5244-Insect Physiology
An introduction to insect physiology. Topics include ingestion and utilization of food, reproduction, water balance, muscles, sensory systems and pheromones. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5245-Physiology of Insects
An intensive off-campus examination of insect sensory and motor systems. Topics include insect structure and function, behavior of insects, measurement and analysis of simple and complex behaviors. Course is held in residence at a field station. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5246-Human Pathophysiology
A selective survey of causes and effects of disease in humans at the molecular, cellular, and systemic level. Selected topics include cellular malfunctions, altered cell environments, cancer biology, and the pathophysiology of the nervous, endocrine, cardiovascular, pulmonary, and renal organ systems. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and BIOL 5230. BIOL 5132 and BIOL 5248 recommended.
**Biol 5247-Endocrinology**
A study of endocrine mechanisms, including their evolution and importance at various levels of biological organization. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5248-Immunology**
A detailed study of the mammalian immune system emphasizing the experimental basis of current immunological theories. Topics include antigen-antibody interactions, organization and expression of immunoglobulin genes, complement, major histocompatibility complex, antigen processing and presentation, and generation of humoral and cellular immune responses. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and CHEM 3341 and CHEM 3342, or permission of the instructor.

**Biol 5249-Neurobiology**
Introduction to the mechanisms of neural responses, neural integration, neural developments, and environmental effects on developing mature nervous systems. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133. BIOL 5144, CHEM 1146 and PHYS 1112 recommended.

**Biol 5340-Plant Pathology**
A broad introduction to representative common plant diseases and disorders with emphasis on diagnoses, causes, epidemiology, and methods of control. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5341-Parasitology**
A study of the general principles of parasitism, with emphasis on morphology, classification, identification, and life cycles of parasites of vertebrates. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5343-Medical-Veterinary Entomology**
An intensive study of the role of arthropods in the transmission, dissemination and causation of diseases of humans and animals. Topics include identification of vector arthropods and associated diseases, ecology, and control. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and one of the following: BIOL 5442, BIOL 5341 or BIOL 3541.

**Biol 5345-Systematic Biology**
Introduces the principles and methods of biosystematics. Speciation, bio-nomenclature, hierarchical taxonomic categories, systematic characters, molecular systematics, and phylogenetic analyses are discussed. Laboratories involve use of modern molecular techniques and computational analysis with a variety of software packages. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5430-Math Models/Population Ecology I**
An introduction to discrete time models that arise from the study of ecological populations. Difference equation and matrix equation models for populations will be formulated and analyzed both analytically and numerically. Prerequisites: MATH 1441 or permission of instructor. Biology majors should have completed BIOL 3133.

**Biol 5431-Virology**
A survey of the biology of viruses, with emphasis on viral diversity, virus-host interactions, viral diseases of humans, animals and plants and uses of viruses in medicine, research and biocontrol. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5440-Protozoology**
A survey of the diversity and basic biology of the protista with emphasis on protistan adaptations that have allowed them to invade a wide range of habitats. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5441-Mycology**
Broad introduction to various taxonomic groups of Fungi, including morphology, taxonomy, evolution, physiology, and economic importance. Selected mycotic fungi and diseases will also be included and symbiotic relationships in nature will be explored. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and two courses of chemistry.

**Biol 5442-Entomology**
Examines the phylogeny, morphology, life history and ecology of insects. Identification of local species will be emphasized. Field trips required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5444-Ichthyology**
Emphasizes the systematics, evolution, biology, ecology and behavior of recent and extinct fishes. Laboratory emphasizes the identification, morphology, and natural history of fishes. Field trips required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5445-Herpetology**
Examines the phylogeny, morphology, life history and ecology of reptiles and amphibians. Field identification of local species will be emphasized. Field trips required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5446-Ornithology**
An introduction to the study of birds, emphasizing field identification, songs and calls, classification, and life histories of Georgia’s birds. Anatomical, physiological and behavioral adaptations are reviewed. Field trips required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5447-Advanced Ornithology**
Advanced course reviews current research topics in the field of ornithology. Students develop practical field skills for ornithological research, including banding, censusing, and behavioral observations. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and BIOL 5446, or graduate status.

**Biol 5448-Mammalogy**
Course examines the classification, evolution, distribution and life histories of mammals. The laboratory includes identification and preparation of specimens and development of field techniques. Field trips required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

**Biol 5449-Vertebrate Paleobiology**
An investigation of the evolution, relationships and biology of fossil vertebrates, including major radiations, extinction events, and the roles of plate tectonics and paleoclimate. Current and controversial topics in paleontology will also be discussed. Field trip required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.
BIOL 5530-Wildlife Management
Emphasizes the principles, practices and prescriptions used in restoring and managing wildlife and other natural resources on a sustainable basis. All elements of wildlife management are examined in relation to basic land and water uses affecting the landscape. Factors influencing wildlife populations, including behavior, diseases, hazardous substances, predation and harvests are covered in practical perspectives. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133. BIOL 5540 strongly recommended.

BIOL 5532-Evolution
Covers the historical development of evolutionary thought and focuses on current issues in evolution. Emphasis is placed on the perceived importance of natural selection, mechanisms of speciation, the history of life on Earth, and human evolution. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5533-Evolutionary Ecology
Focuses on the evolutionary response of populations to selection pressures arising from their external abiotic and biotic environments. Responses to evolutionary pressures will be reviewed and analyzed from the contexts of demography, population growth, community structure, and biogeography. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5535-Sex and Evolution
Focuses on the evolution of sex and the subsequent conflict that arises between sexes. Models for the evolution and maintenance of sexual reproduction are compared. Sex allocation theory is reviewed and special attention is drawn to genetic mechanisms that permit sex ratio of offspring to be manipulated. Sexual selection and mate choice tactics are evaluated with reference to empirical studies in behavioral ecology. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5537-Biogeography
Examines the distributional patterns of animals and plants from the perspectives of vicariance biogeography and organismal dispersal. One field trip required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5538-Vertebrate Paleoecology
Introduces topics and techniques in paleoecology, including preservation, fossil recovery, sampling of fossil faunas and paleoecological analysis of fossil communities. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133. BIOL 5449 recommended.

BIOL 5539-Biological Macrophotography
Introduction to techniques in photographing biological specimens both in the field and in the lab. Basic techniques of black and white film processing will be covered. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 and two additional biology courses.

BIOL 5540-Advanced Ecology
Reviews basic ecological principles and current hypotheses relevant to biological organisms from the level of the population to ecosystems. Application of mathematical models to biological processes is emphasized. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5542-Aquatic Ecology
Covers the biological and physiochemical factors that affect common organisms found in local aquatic ecosystems, including streams and rivers, wetlands, estuaries, and lakes. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133, CHEM 1145 and CHEM 1146.

BIOL 5543-Advanced Field Ecology
A field expedition involving ecological investigations of a major biome or natural area of North America. Expeditions normally require three to five weeks in the field, depending upon the habitat selected and the type of travel required. In addition to tuition, students must bear all travel expenses while in the field. Prerequisites: Junior standing and permission of the instructor(s).

BIOL 5544-Population Biology
A review of the genetic consequences of evolutionary forces that impact population structure, cohesion, and persistence. Special attention is given to the behavioral, ecological, and demographic responses of populations to natural selection pressures arising from the social environment and the presence of other species in the community. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5546-Plant Evolutionary Ecology
Examines the complex nature of plant reproductive biology, with focus on the evolution and maintenance of diverse breeding systems, the dynamics of plant-pollinator relationships, seed and seedling ecology, and coevolution. Students will design and carry out research projects, read the primary literature and present oral seminars. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5548-Conservation Biology
Explores the causes and consequences of the loss of biodiversity, as well as methods for conserving rare species and ecosystems. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 5549-Ethology and Neuroethology
An introduction to the integrated study of animal behavior in the field and laboratory. Topics include the description of behavior and its control, development, consequence, and phylogeny. The visual and auditory worlds of animals, recognition of objects and prey in space, mating behavior and the control of behavioral acts by central pattern generators are discussed. One field trip required. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133.

BIOL 7090-Selected Topics/Biology
A course taught on a one-time basis. Prerequisites: BIOL 2131, BIOL 3132, BIOL 3133 or equivalent.

BIOL 7131-Molecular Techniques
Highlights modern discoveries in molecular genetics and the application in today’s world. In addition to the body of facts associated with genetics, the course also introduces students to experimental methods used to test competing theories. Prerequisites: Three hours genetics, organic chemistry, biochemistry recommended, or permission of instructor. Simultaneous enrollment in BIOL 7133 recommended.

BIOL 7133-Molecular Genetics
Studies from a molecular viewpoint of gene structure and action in both prokaryotic and eukaryotic organisms. Emphasis is placed on how genes function in their biological context. Prerequisites: Three semester hours of genetics, organic chemistry, biochemistry recommended. Simultaneous enrollment in BIOL 7131 recommended.

BIOL 7135-Cyto genetics
Studies from a cytological aspect of eukaryotic chromosomes including chromosome structure, chromosomal aberrations, and chromosome mapping.
BIOL 7341-Local Flora
A study of Georgia’s plants with emphasis on ferns and seed plants, including methods of plant collection, identification, and preservation. Meets on alternate weekends. Not for Master of Science in Biology students. Prerequisites: BIOL 2131, BIOL 3132 and BIOL 3133 or permission of instructor.

BIOL 7410-Insect Hematophagy
Examines aspects of the biology of blood-sucking insects, host location, feeding, ingestion of blood, host-insect interactions and transmission of parasites.

BIOL 7440-Vector Ecology
Examines physiological, evolutionary, and ecological relationships between arthropod vectors, microbial pathogens they transmit and their vertebrate hosts.

BIOL 7521-Research Methods I
An introduction to the methodology of research and its effective presentation. Topics will include computer skills in biology, literature searching and scientific writing formats. This course is designed for first year M.S. students and is a prerequisite to BIOL 7522.

BIOL 7522-Research Methods II
An introduction to the methodology of research and its effective presentation. Topics will include darkroom and digital photographic skills, oral and written scientific presentation, grant writing and the peer review process. Designed for second year M.S. students. Prerequisite: BIOL 7521.

BIOL 7530-Biometry
Provides students with basic skills in the analysis of biological data. Lectures cover both parametric and nonparametric methods, with an emphasis on the practical problems posed by biological data. Prerequisite: Graduate status.

BIOL 7610-Graduate Seminar
An intensive study of an advanced biological topic covered by one or more members of the graduate faculty from the Department of Biology. The selected topic will vary from semester to semester. Required for the M.S. degree. Prerequisite: Graduate status.

BIOL 7890-Directed Individual Study
An independent or directed individual study supervised by a member of the graduate faculty of the Department of Biology. Prerequisites: Permission of the instructor and approval by the chair of the Department of Biology.

BIOL 7893-Biological Problems
Studies of biological problems in a specialized area of biology under the supervision of a member of the biology faculty. Prerequisites: Permission of the instructor and approval by the chair of the Department of Biology.

BIOL 7895-Research
Graduate students will pursue, under the direction of their advisory committee, a program of independent research in a particular area of biology. Results of the research will be presented as a thesis in partial fulfillment of the requirements for the Master of Science degree.

BIOL 7999-Thesis
Results of individual research will be presented as a thesis in partial fulfillment of the Master of Science degree. The thesis requires defense of design, execution, analysis and interpretation of the research project.

Broadcasting (CLASS)
BRCT 2331-Broadcast Performance
Introduces techniques and develops skills for successful radio and television announcing. Through practice, critique, and practical experience, the course helps build on-air quality performance skills. Students refine individual skills and develop methods to complete specialized announcing assignments.

BRCT 3331-Audio Production
Introduces fundamentals of audio production and equipment, production principles and techniques, station operations, radio history, and FCC regulations. Focus and emphasis is on production of laboratory projects and programs with student activity in various studio tasks involved with broadcast radio production. Prerequisite: BRCT 2381

BRCT 3332-Video Production
Introduces basic television equipment and elements of studio operation. Analyzes the techniques, equipment, materials, aesthetics, and problems of video and lighting. Students will participate in various studio roles while producing several laboratory programs. Prerequisites: COMM 2332, COMM 2333 or BRCT 2331, or permission of instructor.

BRCT 3333-Telecommunications
Studies the operations of the various forms of media as they relate to the burgeoning information-based economy. Offers theoretical and practical knowledge toward understanding and forecasting the roles of new and evolving media technologies as well as comprehending the societal, public policy, and economic impact of information technologies. Prerequisite: COMM 2332.

BRCT/JOUR 3334-Broadcast News
Provides students with techniques and experiences in facets of gathering and presentation of news and interviews for radio and television newscast presentation. Prerequisites: JOUR 2331, BRCT 2331, BRCT 3331, and BRCT 3332.

BRCT 3335-Writing for Electronic Media
Provides the principles and techniques necessary for adapting the principles of copy writing to the electronic media, specifically radio and television. Prerequisite: COMM 2332.

BRCT/INTS 3336-International Media Systems
Studies, comparatively, mass media systems around the world. Analyzes media systems in terms of relevant political, social, economic, and cultural factors. Diversity and change in global communication is a main theme, and the influence of rapidly advancing technology is analyzed for its dynamic impact around the world, especially in developing nations. Prerequisite: COMM 2332.

BRCT/JOUR 3337-Law and Ethics
Surveys freedom of speech and the press and its limitations by laws governing libel, privacy, copyright, contempt, free press, broadcast regulation, fair trial, and reporter’s shield. Broadcast industry self-regulation and ethical concerns of mass communications will be discussed. Prerequisite: COMM 2332.
BRCT 3338-Electronic Media Sales
Studies selling of commercial advertising in electronic media. Examines analytical and creative aspects of spots and sponsorship. Students gain working knowledge of the skills for success in commercial objectives for electronic media. Course develops audience research techniques and audience oriented media-marketing principles. Prerequisites: MKTG 3132 and COMM 2332.

BRCT 3339-Politics and the Media
See POLS 3233 for course description. Prerequisite: POLS 1101 and COMM 2332.

BRCT 4030-Selected Topics In Broadcasting
Offers varied courses in specialized areas of the field of broadcasting study. Prerequisite: Permission of instructor.

BRCT 4331-Advanced Audio Production
Designed to increase audio production techniques including, but not limited to, enhancement of audio with signal processing techniques, multi-voice production, and digital audio editing procedures. Students produce audio projects such as complex commercials and simulated live programming in the style of professional radio broadcasters. Prerequisite: BRCT 3331.

BRCT 4332-Advanced Video Production
Offers understanding in video editing techniques, field production techniques, and greater understanding of video aesthetics and producing/directing of a variety of video aesthetics and producing/directing of a variety of video programs on location. Prerequisites: BRCT 3331 and BRCT 3332.

BRCT 4333-Electronic Media Management
Studies the organization and operation of broadcast station policies and procedures. Examines telecommunications management theory and practice, key media administrator roles, media industry processes and departments, and media manager skills in finances, personnel, programming, promotion/marketing, and audience research. Prerequisite: COMM 2332.

BRCT 4337-Digital Video Editing
Teaches the fundamentals of non-linear digital video editing via computer-based system. Prerequisite: BRCT 3332.

BRCT 4712-Broadcast Production Practicum
Offers instruction and practical experience in broadcast program production. The student will take an active part in the research and creative production of prospective programs. This practicum may be taken once with a radio focus and once with a television focus. A minimum of 40 clock hours is required for one hour of course credit. Prerequisites: BRCT 3331 and BRCT 4332.

BRCT 4713-Broadcast News Practicum
Provides practical experience in broadcast news operations. Students take an active part in the production of radio and television news segments and programs. A minimum of 40 clock hours is required for one hour of course credit. Prerequisites: BRCT 3331, BRCT 3332, BRCT 3334 and BRCT 4332.

BRCT 4714-Industrial Video Practicum
Offers instruction and practical experience in industrial video production. The student will take an active role in the production of an industrial video program. A minimum of 40 clock hours is required for one hour of course credit. Prerequisites: BRCT 3332, BRCT 3335 and BRCT 4332.

BRCT 4791-Broadcast Internship
Required internship to complete the Broadcasting major. Students are placed by the faculty internship supervisor in approved radio, television, cable TV, or industrial production sites. Students will work 30 or 40 hours per week depending on the number of credit hours taken. Prerequisite: Completion of all course requirements for the broadcast major.

BRCT 4831-Directed Study in Broadcasting
Permits students to conduct in-depth study of issues associated with broadcasting. This course cannot be used to replace existing catalog courses. Course designs must be approved by the instructor and the department chair. Prerequisite: Permission of instructor.

Business Administration (COBA)

BUSA 1105-Introduction to Business
A survey course that acquaints beginning college students with the major institutions and practices in the business world, provides an understanding of basic business concepts, and presents a view of career opportunities that exist in business. Prerequisites: Only pre-business and non-business majors who have not completed other business courses may register for this course.

BUSA 2106-Environment of Business
Business operates in a domestic and global environment shaped by social and economic forces, made to operate on managers through government regulation and incentives. This course presents an introduction to those factors in the environment of business that shape and affirm American capitalism. Prerequisites: ENGL 1102 or equivalent.

BUSA 3131-Business Statistics
This introductory course covers the concepts and techniques concerning exploratory data analysis, frequency distributions, central tendency and variation, probability, sampling, inference, regression, and correlation. Students will be exposed to these topics and how each applies to and can be used in the business environment. Students will master problem solving using both manual computational and statistical software. Prerequisite: MATH 1232 and the completion of 60 hours of semester course work or the permission of instructor.

BUSA 3132-Quantitative Analysis
Focuses on the analysis of the scientific decision-making methods of modern day managers, including such topics as decision making under uncertainty and uncertainty, linear programming, queuing models, simulation, project management, and forecasting. Students will be exposed to these topics as well as their solutions using both manual computations and statistical software packages on the computer. Prerequisites: BUSA 3131 or permission of instructor.

BUSA 3134-Accounting for Management
Presents the internal and independent audit functions, demonstrating how they assist managers in organizations. Accounting information is used to enhance management decision making in a variety of business contexts, such as analyzing an annual report and making product pricing decisions for both internal and external customers. Prerequisites: ACCT 2101 and ACCT 2102 or ACCT 2030.

BUSA 4110-Business Plan
An integrative course where the student generates an idea for a business, gathers relevant information, and completes a plan to start and/or operate the business. Prerequisites: Completion of Area F and MGNT 3130, MGNT 3430, FINC 3131, MKTG 3131, and WRIT 3230.
BUS 4112-Business Simulation
A laboratory course utilizing a management game. Teams play the role of managers of a total enterprise simulation and engage in a capstone experience to integrate all of the functional areas of business. Special emphasis is given to the application of the strategic management process. Prerequisites: Senior standing, completion of the upper division business core, and last two semesters prior to graduation. Must be taken after or concurrently with BUSA 4131.

BUS 4131-Strategic Management
The major purpose of this course is to develop an understanding of the strategic management process and enable students to integrate the functional areas of business. Prerequisites: Senior standing, completion of the upper division business core, and in last two semesters prior to graduation.

BUS 4610-Senior Seminar
The senior seminar allows the student to pursue further study in a specific topic or to develop competency in a specific area. Topics for this course may include (but are not limited to): Business Law, Career Planning, and Leadership Development. Prerequisites: Completion of 80 semester hours of coursework.

BUS 7030-Special Topics in Business
A standard course developed for a special or newly emerging topic that is in demand by MBA students. Lectures, group work, readings, research, and writing are required as in any other advanced elective course. Prerequisites: Cumulative graduate GPA of 3.0 or better, completion of the MBA prerequisites, and permission of the Director and instructor.

BUS 7130-International Trade Management
This course presents fundamental considerations for managers of international trade operations, providing students with the experience of simulating the business of exporting. Prerequisites: Graduate standing and the completion of the MBA prerequisites or permission of the instructor.

BUS 7530-Global Business Strategy
This course focuses on global strategic management and encourages the analysis and development of business strategies within a global environment. Prerequisites: ACCT 7230, FINC 7231, MGMT 7322, and MKTG 7431 or permission of the Director.

BUS 7790-Internship in Business
A supervised work/study program in selected organizations throughout the U.S.A. and abroad. Any student enrolled in the internship program will be required to work for one full semester. Prerequisites: Cumulative graduate GPA of 3.0 or better, completion of the MBA prerequisites, and permission of the Director.

BUS 7830-Individual Research
A guided individual research project that provides the student with an opportunity to explore a particular topic in-depth. Normally, the course would culminate in a research report or case study. Prerequisites: Graduate standing, completion of the MBA prerequisites, and permission of the Director.

Chemistry (COST)
- CHEM 1030-Chemistry and Your World
  Introduces students to the many ways in which chemistry affects their lives. Topics include plastics, nutrition, drug design and the many aspects of environmental chemistry. Decision-making activities related to real-world societal issues will help develop critical thinking skills.

- CHEM 1040-Chemistry and the Environment
  Students will study the fundamental aspects of chemistry in its political, economic, social, and international context. The laboratory will be a primary component of the course in that some of the course material will be first experienced in the laboratory. The laboratory will stress experimental design and data analysis as applied to environmental science.

- CHEM 1140-Introduction to General and Organic Chemistry
  Introduces students to the basic concepts of chemical structure and reactivity with a focus on organic chemistry. After covering the elementary concepts of the atom, elements, and compounds, the students will apply these concepts to understand the significance of structure in organic chemistry and relate these concepts to the reactivity of organic compounds. Prerequisite: Completion of or exemption of learning support math.

- CHEM 1145-Principles of Chemistry I
  Introduces students to many of the basic concepts of chemistry, emphasizing chemical structure. Beginning at the atom, the course evolves to a consideration of chemical bonding and intermolecular forces, ending with phase changes, the chemical reactions involving changes in the states of matter.

- CHEM 1146-Principles of Chemistry II
  Completes the introduction to chemistry, focusing on advanced topics of chemical reactivity (including kinetics, thermodynamics and equilibrium) and concludes with a detailed look at the applications of chemistry to a variety of issues and problems in society. Prerequisite: CHEM 1145.

- CHEM 2031-Introduction to Chemical Research Methods
  An introduction to the techniques and resources related to data reduction and management and an introduction to primary and secondary sources of chemical information. Prerequisites: CHEM 1146 and MATH 1113.

- CHEM 2242-Analytical Chemistry
  The study of modern quantitative determination methods, including volumetric and gravimetric analyses, equilibrium calculations, and acid/base chemistry, as well as, the fundamental theory of chromatography, spectroscopy, and electrochemistry. Prerequisite or corequisite: CHEM 2031.

- CHEM 2542-Nutritional Biochemistry
  Designed to introduce the biochemical aspects of nutrition. Topics to be covered include the energetics of metabolism, the structure and metabolism of proteins, carbohydrates, and lipids, and the integration of metabolic systems. The laboratory focuses on isolating, purifying, and quantifying the biomolecules in various food-stuffs. Prerequisite: CHEM 1140.
CHEM 3010-Scientific Glassblowing
Develops the fundamental glassblowing skills required for the construction of glassware used in scientific investigations. Prerequisites: Junior standing and science major.

CHEM 3090-Special Topics in Chemistry
An intensive study in a specialized field of chemistry. Provides an in-depth look at an area of special interest which is not a part of the standard coursework in chemistry. Prerequisite: Permission of instructor.

CHEM 3140-Advanced Inorganic Chemistry
Introduces students to a broad overview of modern inorganic chemistry. Included are considerations of molecular symmetry and group theory, bonding and molecular orbital theory, structures and reactivities of coordination compounds, organometallic chemistry, catalysis and transition metal clusters. Laboratory experiences will include the measurement of several important features of coordination compounds, such as their electronic spectra and paramagnetism, as well as, synthesis and characterization of organometallic compounds. Prerequisites: CHEM 3342 and CHEM 3440.

CHEM 3341-Organic Chemistry I
Introduces the fundamental concepts of structure and reactivity of organic compounds. Topics covered include the chemistry of alkanes, alkylhalides, alkenes, and alcohols, as well as, the concepts of reaction mechanisms, stereochemistry and spectroscopy of organic compounds. Prerequisite: CHEM 1146.

CHEM 3342-Organic Chemistry II
A continuation of CHEM 3341 focusing on alkanes, aromatic compounds, aldehydes, ketones, amines, and carboxylic acids and their derivatives. Emphasizes the synthetic and mechanistic aspects of these compounds and will continue the study of spectroscopy of organic compounds. Prerequisite: CHEM 3341.

CHEM 3440-A Survey of Physical Chemistry
A survey of chemical kinetics and thermodynamics. Covers the kinetic theory of gases, rates of reaction, integrated rates, rate laws and reaction mechanisms, followed by a development of the three laws of thermodynamics, chemical and phase equilibria and solution thermodynamics. Prerequisites: CHEM 2242, MATH 2242 and PHYS 1112.

CHEM 3610-Junior Seminar
Introduces students to the skills necessary to be a competitive chemical professional. Topics covered may include resume writing, choosing and applying to a graduate school, chemistry related careers and preparing and delivering a research presentation. Outside speakers from industry and academia will be a regular part of this course. Prerequisite: Junior standing.

CHEM 3790-Teaching Internship in Chemistry
Student internship in the laboratory component of CHEM 1040 (Chemistry and the Environment) under the mentorship of a faculty member. The student will participate in an introductory workshop immediately prior to the start of the semester, intern in the CHEM 1040 laboratory and meet with the faculty mentor one hour each week. Prerequisites: Permission of the instructor and one of the following: CHEM 2031 or CHEM 3341. 1 credit hour per laboratory section of CHEM 1040 in which the student intern, repeatable for credit, for a maximum of 3 credit hours.

CHEM 4030-Polymer Chemistry
An introduction to synthetic and naturally occurring polymers with a focus on the relationship between the structure of a polymer and its properties. Prerequisite: CHEM 3342.

CHEM 4241-Instrumental Analysis
The study of modern spectroscopy and chromatography methods. The spectoscopic methods to be covered may include mass spectrometry, ultraviolet/visible spectroscopy, fluorescence spectroscopy, atomic spectroscopy, infrared spectroscopy and raman spectroscopy. The chromatographic methods to be covered may include gas chromatography, liquid chromatography, supercritical fluid chromatography, thin-layer chromatography and capillary zone electrophoresis. Prerequisite: CHEM 2242.

CHEM 4242-Electrochemical Analysis
Theory and practice of modern electrochemical methods of analysis. These methods include potentiometry, coulometry, voltammetry, computer simulation and other modern forms of electrochemical analysis. Prerequisite: CHEM 2242.

CHEM 4244-Advanced NMR Spectroscopy
Introduces students to modern aspects of nuclear magnetic resonance spectroscopy. Details of one dimensional spectra of proton and carbon 13 will be discussed in-depth, as well as, the more advanced two dimensional experiments of COSY and HETCOR. Students will gain skill in the hands on operation of the spectrometer, as well as, in the spectral interpretation of complex organic and biomolecules. Prerequisites: CHEM 3440 and CHEM 3342.

CHEM 4330-Advanced Organic Chemistry
Builds upon the knowledge gained in CHEM 3341 and CHEM 3342. Topics covered may include considerations of structural and mechanistic organic chemistry, synthetic organic chemistry and bioorganic chemistry. Prerequisite: CHEM 3342.

CHEM 4441-Molecular Structure
A development of quantum chemistry and its application in a number of relevant areas. Covers atomic structure, molecular structure, molecular spectroscopy, and statistical mechanics. Prerequisite: CHEM 3440.

CHEM 4442-Computational Methods in Chemistry
A survey of methods and strategies to calculate atomic and molecular properties relevant to chemical reactions and molecular structure. Prerequisite: CHEM 3440.

CHEM 4611-Senior Seminar I
A continuation of the junior seminar with increased emphasis on the preparation and presentation of a research topic. Prerequisite: CHEM 3610.

CHEM 4612-Senior Seminar II
Introduces students to the skills of critical reading and evaluation of the chemical literature. Focuses on developing students scientific reading and writing skills and will require the students to give an oral presentation on a research topic. Prerequisite: CHEM 4611.

CHEM 4890-Chemical Research Experience
An independent research experience in which a student will investigate a research problem under the direction of a faculty member. All laboratory. Prerequisite: Permission of instructor.
CHEM 5243-Environmental Chemistry
A survey of the current environmental issues and the underlying chemistry associated with them, including stratospheric chemistry, air pollution, global climate change, toxic organic chemicals, natural water systems, soil chemistry, and energy production. Prerequisites: CHEM 2242 and CHEM 3342.

CHEM 5541-Biochemistry I
Surveys the fundamental principles of protein structure, enzyme mechanisms, carbohydrate structure, and the major metabolic pathways of carbohydrate metabolism. Prerequisite: CHEM 3342.

CHEM 5542-Biochemistry II
Examines the structure and function of biological membranes, as well as, additional metabolic pathways not covered in CHEM 5541, including the degradation and biosynthesis of lipids and amino acids. In addition, the course will examine nucleic acid chemistry, including DNA replication, transcription, recombinant DNA technology and related topics. Prerequisite: CHEM 5541.

Child and Family Development (CHPS)

CHFD 2130-Family Economic Environment
A study of the consumer in American society, management of family financial resources, legal protection and consumer responsibility in the marketplace.

CHFD 2134-Family Development
A study of factors affecting family development and the individual within the family. Stresses the internal dynamics of interpersonal relationships, communication, contemporary issues, and normative and catastrophic stressors.

CHFD 2135-Child Development
A study of the developmental characteristics of young children ages 3 to 6, using a whole child approach. Reviews research, theory, and practice that contribute to a developmentally appropriate experience for children in a quality group setting. Observation and interaction at the Family Life Center Child Development Laboratory required.

CHFD 2137-Lifespan Development
Investigates human development throughout the lifespan as influenced by the family and society. Emphasis is placed on the physical, intellectual, and psycho-social development processes.

CHFD 3120-Research Methods in Child and Family Development
A study of the basic techniques and methods of research is presented which enables students to effectively read, understand and critique research, particularly as it pertains to the field of child and family development. Prerequisites: CHFD 2134 and CHFD 2135.

CHFD 3132-Prenatal and Infant Development
Emphasis on development from conception through the first thirty-six months of life. Reviews research, theory, and practice as they apply to the development of the very young child. Observation and interaction with a child under the age of three are required. Prerequisite: CHFD 2135.

CHFD 3134-Child Development: Principles and Techniques
Planning and implementing developmentally appropriate activities for children 3 to 6 is the focus. Activities used must be consistent with the whole child philosophy and guidelines established by NAECY. Students participate in the Family Life Center Child Development Laboratory. Prerequisite: CHFD 2135.

CHFD 3135-Middle Childhood and Adolescence
Reviews research, theory and practice as it relates to the physical, intellectual, language, and social and emotional development of children ages 6 to 18. Emphasis will be on current issues that relate to these years and the role of parent(s), family and other adults in fostering their development. Prerequisites: CHFD 2134 and CHFD 2135.

CHFD 3136-Families in Later Life
An in-depth study of factors influencing interrelationships in family development in the later years of the life cycle. Prerequisite: CHFD 2134.

CHFD 4130-Administration of Programs for Children and Families
Administration of programs for children and families in a variety of settings. Topics studied include advocacy, policy-making, management of personnel, licensure, budgeting, etc. Supervised trips to various programs. Prerequisites: CHFD 2130, CHFD 2134, and CHFD 2135.

CHFD 4134-Family Life Education
An introduction to the programs, procedures, techniques, resources, and counseling skills needed to promote an understanding of family life education through the life cycle. Prerequisite: CHFD 2134.

CHFD 4135-Parenting: Family Child Interaction
The structure, function, and process of parenting are explored. An emphasis is placed on understanding characteristics of parents and parenting behavior and their consequences on children and parent-child relationships. Prerequisites: CHFD 2134 and CHFD 2135.

CHFD 4136-Assessment of Children and Families
Developmental assessment and research as related to children and families. Students will administer, score and interpret results using a variety of assessment techniques. Prerequisites: CHFD 2134 and CHFD 2135.

CHFD 4137-Psychosocial Care of Children in Hospitals and Other Settings
Special psychosocial needs of children who are hospitalized will be identified. Students will learn to assess children (age 0-18) in a holistic manner, and to function as part of a health care team. This course will, in part, prepare students for certification as a Child Life Specialist or to work with children in other treatment environments. Prerequisite: Permission of the instructor.

CHFD 4790-Internship in Child and Family Development
Supervised experience in Child and Family Development which requires the student to employ the knowledge base acquired. Site is selected by the student and preapproved by the student's academic advisor. Students enrolled in the program must agree to abide by the regulations governing all employees of the sponsor. Grading will be on the satisfactory/unsatisfactory mode. Prerequisites: Senior status, 2.00 GPA, approval of academic advisor.

Chinese (CLASS)

CHIN 1001-Elementary Chinese I
Introduction to listening, speaking, reading, and writing in Chinese and to the culture of Chinese-speaking regions.

CHIN 1002-Elementary Chinese II
Continued listening, speaking, reading, and writing in Chinese with further study of the culture of Chinese-speaking regions.
CHIN 3030-Selected Topic in Chinese  
Study of a topic in Chinese literature, culture, society, thought, or language not included in the regular offering. Continued development of all five language competencies (listening, speaking, reading, writing, and culture). May be repeated for credit provided a new topic is studied. Prerequisite: CHIN 2002.

CHIN 4890-Directed Study-Chinese  
Concentrated study of a topic in Chinese literature, culture, society, thought, or language. May be repeated for credit provided a new topic is studied. Prerequisites: Two Chinese courses at the 3000 level.

Computer Information Systems (COBA)  
- CISM 2130-Computers and Applications  
A survey course addressing the evolution of computers in society, hardware and software terminology and function and computer uses. Offers detailed instruction in application software such as spreadsheets and word processing systems. Other applications such as a library catalog and database searches and public networks will also be included. Prerequisites: ENGL 1101 and MATH 1111 or equivalents.

CISM 3130-Applications Development  
An introduction to computer programming using a high-level programming language. This course focuses on problem analysis, algorithm development, structured logic, and the use of fundamental data structures. Prerequisites: (1) A “C” or better in CSCI 1301 and (2) CISM 2130.

CISM 3134-Data Communications  
An overview of traditional and emerging telecommunications technologies and applications in today’s business environment including voice, data, and video communications. The application of business telecommunications to satisfy information system requirements is emphasized. Prerequisites: (1) A ‘C’ or better in CISM 3130, (2) CISM 3135 is recommended.

CISM 3135-Systems Analysis and Design  
Introduces the fundamental principles of information systems analysis and design. In this course, students will learn to apply the tools and techniques commonly used by systems analysts to build and document information systems. Classical and structured tools for describing data flow, data structure, process flow, file design, input and output design, and program specifications will be studied. Object-oriented concepts and techniques will also be introduced. Prerequisite: A “C” or better in CISM 3130 or CSCI 1301 and CSCI 1302.

CISM 4134-Data Management  
An applied study of business databases, their design and implementation. The focus of the course is on application development with fourth generation systems. Applications using a third generation host language and application generators are used to demonstrate concepts and techniques. Prerequisites: (1) A “C” or better in CISM 3130 and (2) CISM 3135.

CISM 4135-Project Management and Development  
Places information technology solutions to business problems in the larger context of the existing and projected technology and business environment. This course will examine new hardware and software technologies including network applications, data management options and opportunities, decision support systems, project management goals and techniques, and likely trends for the future. Prerequisites: A “C” or better in CISM 3130, MGMT 3130 and senior standing.

CISM 4136-Global Information Resource Management  
A study of the international management of the organization’s information systems function from the perspective of information as a critical organization resource and as a key to competitiveness in the global market. Emphasis will be placed on the application of the technology to meet information systems requirement. Prerequisite: CISM 2130 or permission of instructor.

CISM 4234-Application Development with Objects  
Extends the fundamentals of object-oriented design and moves into the realm of developing object-oriented applications with a current development system. Prerequisites: CISM 3135 and CISM 4134.

CISM 4235-Application Development with COBOL  
Provides a complete treatment of the COBOL language. Includes file handling, programming using multiple tiered control breaks, the manipulation of two and three dimensional tables, the exploration of sequential and indexed sequential files, and exposure to interactive programs. Prerequisite: A “C” or better in CISM 3130.

CISM 4236-AS/400 and Its Application  
Provides an introduction to and experience in developing applications on the AS/400. Students will develop business applications using the unique features of the AS/400, including OS/400 and DB2/400. Development will be in both third generation languages, i.e. COBOL and RPG4, and fourth generation languages, i.e. SQL4/400 and QUERY/400. Emphasis will be on the use of the AS/400 in a distributed, networked environment. Prerequisite: CISM 3135.

CISM 4237-Decision Support Systems  
Examines the role of decision support systems in the organizational environment. Upon completion, the student will be capable of designing and implementing decision support systems with a variety of development systems. Prerequisites: CISM 3135 and CISM 4134.

CISM 4238-Network Administration  
An applied study of the problems inherent in the maintenance and management of the heterogeneous networking environments prevalent in the modern business enterprise. Emphasis will be placed on acquiring and integrating the practical management / technical skills that define the effective networking specialist. Prerequisite: CISM 3134.

CISM 4790-Internship in Information Systems  
A supervised work-study program in selected business firms throughout the southeast. Prerequisites: Adjusted GPA of 2.5 or better, permission of advisor and department chair.

CISM 4890- Special Problems in Information Systems  
A customized course that is under the direction of a faculty sponsor. This course is designed to offer students an opportunity to pursue studies or topics not covered in scheduled courses. The scope and nature of the material covered is determined in consultation with the faculty sponsor. Prerequisite: Senior standing.
CISM 7321-Information Technology Management
Designed to enable the manager to effectively utilize and manage information technology in the applied business environment. The course focuses on the managerial, not the technical aspects of information management. No prior technical expertise is required. The use of relevant readings and cases are used to apply the concepts and techniques presented in the course. Prerequisites: Graduate standing and the completion of the MBA prerequisites.

CISM 7331-Business Systems Analysis
Introduces the fundamental principles of business systems analysis and design. Students will learn to apply the tools and techniques used by systems analysts to analyze business problems and design information systems-based solutions to those problems. While classical, structured tools for describing data flows, data structures and input/output design will be presented, the emphasis will be on the concepts and techniques of object-oriented systems analysis and design. Prerequisite: CSCI 7140.

CISM 7332-Client/Server Computing
Provides an overview and detailed examination of electronic commerce (EC). Students are exposed to various forms of electronic commerce including electronic data interchange (EDI) and Internet/World Wide Web applications. Particular emphasis is placed on the evolution of EC, network infrastructure, security and the impacts of EC on business organizations and society. Student projects focus on the detailed analysis/critical evaluation of Web based business applications. Prerequisite: CISM 7331.

CISM 7333-Electronic Commerce
Provides an overview and detailed examination of electronic commerce (EC). Students are exposed to various forms of electronic commerce including electronic data interchange (EDI) and Internet/World Wide Web applications. Particular emphasis is placed on the evolution of EC, network infrastructure, security and the impacts of EC on business organizations and society. Student projects focus on the detailed analysis/critical evaluation of Web based business applications. Prerequisite: CISM 7331.

CISM 7334-Information Technology Evaluation and Adoption
Provides a basis for evaluating information technology (IT) from a managerial and entrepreneurial perspective. As technology continues to advance at an almost incomprehensible rate, this course leads the student to an understanding of how IT can be used for competitive advantage in the firm. The student will understand how organizations are transformed by information technology. Prerequisite: CISM 7331.

Comparative Literature (CLASS)
COML 3090-Selected Topics
Selected topics in comparative literature.

COML 3530-Literary Translation
Introduction to the history and theory of literary translation. Emphasis on practical problems and techniques, with exercises culminating in the translation of a foreign language text appropriate to the student’s interests and abilities. Prerequisites: Completion of the fourth semester of a foreign language.

COML 3531-Introduction to Comparative Literature
An introduction to theories, methods, and topics relevant to the comparative study of literature. Prerequisites: ENGL 2111 or ENGL 2212.

COML/ENGL 4537-Contemporary World Fiction
See ENGL 4537 for course description.

COML/ENGL 4538-Literary Criticism
See ENGL 4538 for course description.

COML 4632-Seminar in Comparative Literature
A detailed study of a specific literary topic dealt with from a comparative standpoint. Readings drawn from a variety of non-English languages, one of which the students are expected to read in the original.

COML/ENGL 5330-Drama to Romanticism
See ENGL 5330 for course description.

COML/ENGL 5334-Modern Drama
See ENGL 5334 for course description.

COML/ENGL/RELS 5530-The Bible as Literature
See ENGL 5530 for course description.

COML/ENGL 5536-Post-Colonial Literature
See ENGL 5536 for course description.

COML/ENGL 5537-Contemporary World Fiction
See ENGL 5537 for course description.

Communication Arts (CLASS)
COMM 1100-Introduction to Human Communications
Surveys the historical roots of communication, discusses the encoding and decoding of messages, and introduces the contexts of communication. Prerequisite: ENGL 1101.

COMM 1110-Principles of Public Speaking
The critical study and practice of public speaking emphasizing the art of rhetoric from a humanistic perspective. Areas of study include research and preparation, ethics, audience analysis, and presentation of speeches. Prerequisite: ENGL 1101.

COMM 2332-Introduction to Mass Communication
Introduction to print and electronic mass communications and media-related professions. Surveys the media’s historical development in the United States with particular focus on structure, social roles, and related theories. Also considers change factors that can affect the future of media. Prerequisite: ENGL 1101.

COMM/LING 2333-Voice and Phonetics
An introductory course in the use of the International Phonetic Alphabet along with a study of the fundamentals of acoustics, anatomy, and voice production designed to aid the student in a more effective, efficient use of the voice. Prerequisite: ENGL 1101.

COMM 3030-Selected Topics In Communication Arts
Offers varied courses in specialized areas of the field of Communication Arts. Prerequisite: Permission of instructor.

COMM 3331-Media Criticism
Familiarizes students with dominant paradigms currently used in media studies. Particular emphasis will be given to theories addressing the social context of the media and criticism as a rhetorical act.
COUN 7332-Theories of Counseling
Study of the nature of counseling, alternative theoretical strategies and the process of counseling. Provides a base from which the student can build a personal theory of counseling. Prerequisite: COUN 7331.

COUN 7333-Models and Techniques of Counseling
Systematic, developmental counseling models are presented in which theoretical approaches may be practiced. Role playing and other experimental techniques are utilized to demonstrate effective counselor/client relationships and processes. Pre-practicum activities include analysis of audio and video taped counseling sessions. Prerequisites: COUN 7332 and proof of professional liability insurance coverage.

COUN 7334-Group Dynamics
Designed to provide an understanding of group development, dynamics, counseling theories, group counseling methods and skills and other group work approaches. Prerequisites: COUN 7331 and COUN 7333.

COUN 7335-Individual Analysis
Cognitive and affective group and individual test instruments and techniques used for individual analysis in counseling and in educational psychology and for instructional and administrative purposes.

COUN 7336-Career Counseling
The career counselor facilitates career development based on knowledge of the strengths and limitations of the career theories, self assessment strategies, knowledge of the world of work and resources. The ability to identify needs/issues and develop intervention which assist diverse populations is also stressed.

COUN 7337-Cross Cultural Counseling
Builds cross cultural counseling skills. Will familiarize students with theories, counseling techniques, skill development and a wide range of issues regarding ethical and effective counseling in a world of cultural differences. Emphasis is placed on expanding cultural awareness, knowledge and skill building in order to facilitate an appreciation of cultural, racial, ethnic, age, gender and sexual preference issues. Prerequisites: COUN 7333 and proof of professional liability insurance.

COUN 7338-Life Span Development
Developmental processes throughout the life span are covered in the physical, cognitive and social/emotional areas. Theoretical and practical instruction are designed for application of developmental research and theory to counseling and related educational settings.

COUN 7431-Consultation and Program Development
The organization of comprehensive development of school counseling programs in the elementary, middle and high schools, and the counselor’s roles as coordinator and consultant are covered. Topics include: needs assessment, program planning and implementation, scheduling, research and evaluation, counselor accountability, public relations and counselor consultation with parents, teachers and administrators. Coordination of the school’s pupil personnel specialists team and referral services is also examined as a role of the counselor.
COUN 7432-Developmental Guidance Curriculum
The role and functions of the school counselor in designing and implementing the developmental guidance curriculum for grades P-12. Large group guidance, small group counseling and individual counseling interventions are examined and guidance units organized to address clients’ development needs. Ethical and diversity issues in designing curricula are emphasized.

COUN 7737-Practicum
Areas covered in this course are application and critical evaluation of all counseling skills in practical situations with provision of clinical experiences under supervision for a total of 100 clock hours, 40 of which will be direct service work with clients. Individual and group counseling will be audio and/or video taped, critiques and evaluated. Prerequisites: COUN 7332, COUN 7333 and proof of professional liability insurance coverage.

COUN 7738-Internship I
Primary emphasis is on the integration of process, conceptual, professional and personal skills. Internship provides extensive supervised on-the-job experience in a school, community, or college counseling setting closely aligned with the student’s professional career goals. The student is required to complete 300 hours of field experience. Repeatable up to 6 credit hours. Prerequisites: COUN 7332, COUN 7333, COUN 7334, COUN 7337, three other content courses in counselor education or higher education approved by advisor and proof of professional liability insurance coverage.

COUN 7739-Internship II
Primary emphasis is on the integration of process, conceptual, professional and personal skills. Internship provides extensive supervised on-the-job experience in a school, community or college counseling setting closely aligned with the student’s professional career goals. The student is required to complete 300 hours of field experience. Repeatable up to 6 credit hours. Prerequisites: COUN 7738, approved by advisor, and proof of professional liability insurance coverage.

COUN 8531-Advanced Counseling Theory
Advanced study of the cognitive dynamic (action oriented) approaches in counseling and their application to therapeutic work with individual clients and groups in variety of settings. Student will research and demonstrate an in-depth knowledge and skill level of theory(s) of their choice. Prerequisite: Admission to the Ed.S. program in Counselor Education or permission of instructor.

COUN 8532-Interpretation of Psychodiagnostic Tests
Fosters accurate interpretation of individual educational and psychological test results to produce appropriate instructional approaches for children with learning or behavior problems. Training in multifaceted assessment skills, particularly as they relate to the interpretation of psychodiagnostic evaluations, is emphasized. Prerequisite: Admission to the Ed.S. Program or permission of instructor.

COUN 8533-Professional Practice and Ethics
Informs students of ethical standards, laws, ordinances, and statutes that govern professional behavior of counselors in schools and in community/mental health settings. Specific topics explored will include professional practice and ethics involving professional relationships, the impact of values, confidentiality, violations and licensure laws.

COUN 8534-Vocational Assessment
Students learn vocational assessment processes. Emphasis is placed on the evaluation of students with disabilities. Consideration of the impact of cognitive and physical disabilities, as well as, the affect of the assessment, evaluation and decision making processes associated with vocational choice and quality of life are addresses.

COUN 8535-Organization and Administration of Student Services
Investigation of recent trends and development in the organization and administration of student services in elementary, secondary and post-secondary settings; and evaluation of job performance and programs. A required course for certification as a Director of Pupil Personnel Services. Prerequisite: Admission to the Ed.S. program in Counselor Education or School Psychology, or permission of the instructor.

COUN 8537-Advanced Counseling Practicum and Supervision
Advanced clinical experience in application of counseling theories, tools and techniques in counseling. Includes monitored experience in the supervision of counseling. Prerequisite: Admission to the Ed.S. program in Counselor Education or permission of the instructor.

COUN 8539-Action Research
Each student will implement a research study based on the proposal prepared in the field based Educational Research class. Should be related to a practical problem in professional practice setting. Oral presentation of the study is required. Prerequisites: EDUR 8131 and EDUR 8434.

COUN 8839-Action Research
Each student will implement a research study based on the proposal prepared in the field based Educational Research class. Should be related to a practical problem in professional practice setting. Oral presentation of the study is required. Prerequisites: EDUR 8131 and EDUR 8434.

COUN 8890-Directed Individual Study
Used to meet individual needs or interests that students may have in various areas. The needs or interests that students may have in group procedures, career development or vocational evaluation. Library research, empirical research and practice applications are typical aspects of many individual projects. Results are presented in written form and frequently include guides or manuals for practice in projected work settings. Prerequisite: Permission of instructor.

Criminal Justice (CLASS)
CRJU 1131-Introduction to Criminal Justice
A 3-hour survey of the criminal justice system, its law enforcement, courts, and corrections components, theories of causation, and the juvenile justice system.

CRJU 2131-Justice and Ethics
Introduces students to some of the philosophical theories that will provide a framework for them to study and analyze ethical and moral issues in crime and justice. The police, courts, and corrections, which comprise the criminal justice system, will be explored in light of ethical concerns. Criminal justice research and crime control policy will also be examined. Finally, a justice ethic for the future is offered for students to consider. Prerequisites: CRJU 1131, PHIL 2130.
CRJU 3131-Crimes
A study of the nature, origins, and purposes of criminal law in the United States. Addresses the constitutional limits on criminal law, general principles of criminal liability, elements of specific crimes, and defenses to criminal liability. Prerequisite: CRJU 1131.

CRJU 3132-Evidence
An introduction to the nature, kinds, and degrees of evidence. Addresses the rules governing the admission and exclusion of evidence; judicial notice; presumptions; demonstrative, circumstantial, and illegal evidence; the hearsay rule and its exceptions; best evidence rule, impeachment and privileges of witnesses, and the burden of proof. Prerequisite: CRJU 1131.

CRJU 3133-Criminal Procedure
Study of the criminal justice process from arrest through appeal with emphasis upon the rights of the accused including due process, the right to counsel, search and seizure, and the privilege against self-incrimination. Prerequisite: CRJU 1131.

CRJU 3134-Advanced Criminal Investigations
Introduces students to the fundamentals of conducting a criminal investigation. Topics include terminology associated with a criminal investigation; steps taken at a crime scene; evidentiary issues; legalities; completing an investigation; and writing the final report. Prerequisite: CRJU 1131.

CRJU 3231-Police Administration
Introduces students to organizational and managerial issues associated with policing. Examines what police administration is: organizational, managerial, and leadership functions; the skills associated with administering a police agency; and various other issues related to police administration such as organizational change. Prerequisite: CRJU 1131.

CRJU 3232-Introduction to Industrial and Private Security
Addresses the full range of internal and external industrial and private security functions and procedures, including building and perimeter security, intrusion and access control, personnel policies, emergency planning for man-made and natural disasters, loss prevention, insurance and special security concerns. Prerequisite: CRJU 1131.

CRJU 3331-Advanced Corrections
A systematic study of the role and function of facilities and programs for offenders. Special attention will be given to the development of historical and contemporary correctional facilities, operational philosophies, inmate classification systems, programs, special populations, prison industries, correctional workers, prisoners’ rights, and privatization of correction institutions. Prerequisite: CRJU 1131.

CRJU 3431-Juvenile Justice
Provides the student with an overview of basic philosophy and procedures of juvenile, status, and delinquent offenses. This course begins with a historical background of the juvenile justice system; however, past and present processes of the system will be examined. Current practices will be studied including the rights of juveniles and how they are treated and processed in the juvenile justice system. Prerequisite: CRJU 1131.

CRJU/SOCI 3432-Gang, Drugs, and Criminal Justice
Provides an overview of one of the contemporary major crises facing our American communities: gang activities and illegal drug hierarchy.

CRJU 4031-Offender Counseling and Support
Examines the major therapeutic approaches to the correction of criminal and delinquent behavior. Surveys the basic principles and techniques of counseling offenders including psychoanalytic therapy, behavior modification, social learning methods, group and family therapies. Students will review the processes and procedures of corrections and the research on the outcome of the various treatment approaches. Prerequisite: CRJU 1131.

CRJU 4132-Special Topics
Designed and offered periodically based on current needs, trends, and available faculty. Examples of such courses include: Careers in Criminology and Criminal Justice, Terrorism, Legal Research, Corporate and Organized Crime, Victimology, Contemporary Issues in Criminal Justice.

CRJU 4133-Criminal Justice Organizations
Requires a major literature review of a criminal justice organization in which a student serves an internship. Prerequisite: Junior or senior standing, internship or permission of instructor.

CRJU 4135-Directed Study in Criminal Justice
Substantive reading in an area of special interest by a faculty member. This 3-hour course can be repeated for a maximum of 6 hours. Prerequisites: Junior or senior standing and permission of instructor.

CRJU 4631-Seminar in Justice Studies
Integrates the various subjects covered in the major core courses. Students will be able to demonstrate their fundamental understanding of criminal justice and criminology through a comprehensive written project and classroom presentation. Exploration of employment in the field will occur also. Prerequisites: Senior standing.

CRJU 4792-Internship in Criminal Justice
Provides opportunities for students that will allow them to utilize, in a supervised setting, the knowledge they have obtained in the classroom. It may also serve to provide the student with connections for future employment opportunities, help the student intern decide a specific area of interest, and act as a recruitment source for participating agencies. The student intern will work in an agency a full semester. Students must attain senior status or permission of the director to enroll.

Computer Science (COST)
• CSCI 1230-Introduction to BASIC Programming
Basic concepts, logic and syntax of the BASIC programming language. Elementary programming techniques and algorithms. Topics include: arithmetic operations, input/output, IF blocks, loop structures, subprograms, one- and two-dimensional arrays, file processing and applications. Prerequisites: Three hours of mathematics.

• CSCI 1232-Introduction to FORTRAN Programming
Basic concepts, logic and syntax of the FORTRAN programming language. Elementary programming techniques and algorithms. Topics include: arithmetic operations, input/output, IF blocks, loop structures, subprograms, one- and two-dimensional arrays, file processing and applications. Prerequisites: Three hours of mathematics.

CSCI 1234-Mathematica Programming
Introduction to the algebraic and graphical commands in Mathematica. Using Mathematica as a programming language. Different styles of programming that will be covered are: functional, procedural and rule-based. Prerequisite: a minimum grade of C in MATH 1113, or equivalent.
CSCI 1301-Programming Principles I
Provides a fundamental understanding of the development of computer solutions to solve problems with emphasis on structured, top-down development and testing. Concepts include the following: an overview of computer system design, problem solving and procedural abstraction design of computer solutions, algorithm development using simple data types and control structures, implementation and testing of programmed problem solutions, design modularization using subprograms and structured and user-defined data types. Prerequisites: A knowledge of MATH 1111 and one of the following: Knowledge of a programming language, CISM 2130, MATH 1441.

CSCI 1302-Programming Principles II
A continuation of CSCI 1301. Emphasis is on advanced programming techniques such as recursion, data-driven design and implementation and file processing techniques. Prerequisites: A minimum grade of C in CSCI 1301.

CSCI 2120-Computers, Ethics and Society
An investigation of issues related to the use of computers and computer technology including the following: computer ethics, professional standards, and social impact of computer applications. Some topics to be researched include: philosophical ethics, the application of ethical theory to situations involving computer technology, codes of conduct, privacy, data protection, employee privacy, data regulation, artificial intelligence, copyright/patent issues, computer malfunction liability, computer crime and responsibilities of computer users. Prerequisites: A minimum grade of C in CSCI 1301.

CSCI 2230-C Programming
A study of the C programming language. Designed for transfer students. Credit cannot be received for this course and CSCI 1302 if Programming Principles II was taken in either the C or C++ programming language. Prerequisites: CSCI 1302 in a language other than C or C++ programming language.

CSCI 3230-Data Structures
Applying algorithmic design techniques to data manipulation and an introduction to algorithm analysis and memory management. Prerequisites: MATH 2320 and CSCI 1302; Pre- or Corequisite: CSCI 5236.

CSCI 4790-Special Problems/CO-OP
Work experience in computer science through the CO-OP program. A student may enroll in this course more than once, but cumulative credit may not exceed three credit hours. Prerequisite: Acceptance as a CO-OP student in the area of computer science.

CSCI 4890-Directed Study in Computer Science
Directed study under faculty supervision. Well prepared Computer Science majors may be permitted to enroll in an independent study upon the recommendation of a Computer Science faculty member. Prerequisites: Permission of instructor and department chair.

CSCI 5090-Selected Topics in Computer Science
Specialized study in a selected area of Computer Science. Prerequisite: Permission of instructor.

CSCI 5130-Data Management for Math and the Sciences
Topics in data management, including operating systems, word processing, spreadsheets, and database management and their applications to mathematics and the sciences. Intended primarily for those majoring or minoring in Computer Science, this course may not be used as an upper level Computer Science elective. Prerequisite: CSCI 1230 or permission of the instructor.

CSCI 5230-Discrete Simulation
Introduction to discrete simulation models and their implementation on computers. Topics include modeling techniques, experiment design, analysis and verification of results. Students will be exposed to one or more computer simulation languages. Prerequisites: CSCI 1301 or equivalent, and STAT 5531.

CSCI 5232-Operating Systems
A study of functions and structures of operating systems. Emphasis will be placed on the management of files, processes, memory, and input/output devices of the Unix operating system. Prerequisite: CSCI 3230.

CSCI 5234-Parallel Processing

CSCI 5236-Theoretical Foundations
Language definition, grammars, finite state machines, push-down automata, the Chomsky language hierarchy, Turning machines and computable functions, and computational complexity. Prerequisites: MATH 2332 and CSCI 1302.

CSCI 5240-Computer Organization/Architecture
Computer systems organization, von Neumann machine, computer architecture hardware elements, assembly language programming, micro programmed architecture, reduced instruction set architecture and parallel architecture. Prerequisites: MATH 2332 and CSCI 1302.

CSCI 5330-Algorithm Design and Analysis
An in-depth study of the design, implementation, testing, and analysis of algorithms. Prerequisites: CSCI 3230 and CSCI 5236.

CSCI 5332-Data Communications and Networking
Fundamental concepts of data communication, with error detection and correction. Principle and methods of connecting computers into networks, including wide and local area networks. Prerequisites: CSCI 5232 and CSCI 5240.

CSCI 5334-Object-Oriented Programming
Object oriented paradigm, objects, messages, methods, object oriented software design, inheritance and polymorphism, and implementation issues. Examples from one or more object oriented languages. Prerequisites: CSCI 3230 and CSCI 5236.

CSCI 5336-Applied Numerical Methods
Introduction to scientific computation on digital computers. Solution of nonlinear equations and systems of linear and nonlinear equations, polynomial interpolation, numerical differentiation and integration, data fitting and other numerical methods. Prerequisites: MATH 3335, either CSCI 1232 or both CSCI 1301 and a knowledge of FORTRAN.

CSCI 5430-Artificial Intelligence
Introduction to different paradigms for creating agents that can reason, access a knowledge base, handle uncertainty, learn, communicate, perceive and act. Prerequisites: MATH 2332, CSCI 3230 and CSCI 5236.
CSCI 5432-Database Systems
The fundamental concepts of database management systems (DBMS) including logical and physical database organization, date models and design issues. Emphasis will be placed upon the relational data model including design and implementation using commercial database systems. Prerequisites: CSCI 2120, CSCI 3230 and CSCI 5236.

CSCI 5434-Theory of Programming Languages
A study of the formal description, the abstraction, and the features of modern programming languages. Various computational paradigms and corresponding languages are introduced. Prerequisites: CSCI 3230, CSCI 5236 and a knowledge of at least two different programming paradigms.

CSCI 5530-Software Engineering
A study of the development and management of software; strategies and techniques of design, testing, documentation and maintenance. Prerequisite: CSCI 5432.

CSCI 7090-Selected Topics in Computer Science
Specialized study in a selected area of Computer Science. Prerequisites: Permission of instructor.

CSCI 7140-Software Development and Machine Architecture
Software and hardware topics that include an object oriented language, web page construction, electric circuits, architecture, language translation, operating systems and networks. Primarily intended for those that are beginning a Masters Degree in Technology. Cannot be taken for credit by those earning a Masters in Mathematics. Prerequisites: Enrollment in the Master of Technology degree program or permission of the instructor.

CSCI 7230-Advanced Computer Architecture
Comparing different modern computer systems architecture and investigating their performances. Topics include: parallel computer systems, pipelining techniques, vector processor arrays, multiprocessor systems, data flow machines and fault-tolerant computer systems. Prerequisite: CSCI 5240, equivalent or by permission of instructor.

CSCI 7232-Switching Theory
Introduction to sets, relations, lattices, and switching algebra. Minimization techniques. Special switching functions. Multivalued logics. Finite state automata. Hazard analysis, fault detection and correction. Testing and testability. Prerequisite: CSCI 5240, equivalent or by permission of instructor.

CSCI 7330-Advanced Operating Systems
A study of functions and structures of distributed operating systems: communication, synchronization, file system, processes and memory management. Prerequisite: CSCI 5232.

CSCI 7332-Parallel Algorithms Design and Analysis
A study of parallel constructs for providing experiences in designing and analyzing parallel algorithms. Prerequisite: CSCI 5232 or CSCI 5332.

CSCI 7334-Unix Network Programming
A study of UNIX interprocess communication protocols and how they can be used in programs. Prerequisite: CSCI 5232.

CSCI 7430-Advanced System Modeling and Simulation
Advanced study directed toward system and modeling theory, analysis, validation, verification techniques, simulation languages to model and analyze real systems. Prerequisite: CSCI 5230, equivalent, or by permission of instructor.

CSCI 7432-Algorithm Analysis and Data Structures
Advanced topics in algorithm design and analysis and data structures for implementing these algorithms. Problems considered from areas of information storage and retrieval, graph theory, cryptology and parallel processing. Prerequisites: CSCI 3230 and CSCI 5330.

CSCI 7434-Data Mining
Discusses approaches for extracting implicit, unknown information from data using machine learning, statistical, visualization, and pattern recognition tools. Application to different industries are considered. Prerequisite: Enrollment in the Master of Technology degree program or permission of the instructor.

CSCI 7890-Directed Study in Computer Science
Directed study under faculty supervision. Prerequisites: Permission of instructor and department chair.

CSCI 7899-Research Project in Computer Science
Research project addressed toward a real world problem. Prerequisites: Permission of project advisor and permission of department chair.

Early Childhood Education (COE)
ECED 2230-Language and Cognitive Development
Examines language and cognitive development from infancy to adolescence. An overview of language and cognitive development will focus on relevant theories and supporting research. In addition, students will examine the relation between cognition and language in infancy to adolescence. To investigate this relationship, evidence from various content areas will be considered. Parallels between language and cognitive development in children who are developing typically as well as atypically will be studied. Corequisite: Concurrent enrollment in Area F Pre-Professional Block.

ECED 3131-The P-5 Curriculum
Introduces the student to the curriculum, instruction, and organization of elementary schools serving a preschool through fifth grade population. Emphasis is placed on elementary schools implementing developmentally appropriate practices to meet the diverse needs of the P-5 population. Prerequisite: Admission to Teacher Education.

ECED 3132-Assessment and Management
Provides advanced preparation in two important teaching skill areas. First, it will provide students with the knowledge and skills to create and implement developmentally appropriate forms of assessment that will prepare them to evaluate development and learning in the social, emotional, physical, and cognitive domains. Second, this course will help students to develop knowledge of and skills in effectively motivating students and managing classrooms through preventive and interventional techniques. This course will further develop and expand upon selected topics initially addressed in Educational Psychology. Prerequisites: EDUF 3231, ECED 3131, and ITEC 4130.
ECED 3232-P-5 Creative Arts
Provides opportunities for the students to familiarize themselves with the basic theories and practices of creative arts. Emphasizes the use of creative arts across the curriculum while developing the whole child. Prerequisites: ECED 3131 and ITEC 4130.

ECED 3262- P-5 Language and Literacy
Designed to explore materials and methods of teaching language and literacy in the P-5 classroom. Students will study language and literacy development as well as the implications of student diversity for language learning. Information about the processes of language arts, reading, writing, speaking and listening, as well as, a theoretical background and research base supporting these processes will be investigated. Students will also become acquainted with the vast selection of children’s literature and strategies for incorporating literature into the curriculum. Prerequisites: ECED 2230, ECED 3131, ITEC 4130. Corequisite: ECED 3732.

ECED 3732-Methods I Practicum
Designed to provide the preservice teacher with opportunities to integrate theory with practical application in the methods of teaching language, literacy and the creative arts in the K-2 classroom. Students will observe in an early primary classroom setting, plan an instructional unit of study and teach students within that setting. Prerequisites: ECED 3131, ITEC 4130, or concurrent enrollment in ECED 3232. Corequisite: ECED 3732.

ECED 4090-Early Childhood Education Special Topics
Designed to provide specialized training and/or field-based experiences to meet the needs of students. Attention will be directed toward a wide range of skills as they relate to the early childhood classroom and early childhood teachers. Prerequisites: Approval of advisor, instructor, and department chair.

ECED 4131-Mathematics Methods for Special Education
Studies the role of mathematics in the elementary curricula, with emphasis on the understanding of content; current trends in teaching; use of appropriate teaching materials; and planning for and evaluation of instruction. Designed to give the perspective special education teacher an understanding of how children learn mathematics and methods which will facilitate the learning process for each child in a pre-algebra setting. Prerequisites: SPED 3430, SPED 3130, and SPED 3330.

ECED 4333-P-5 Teaching Mathematics
Studies the role of mathematics in the education of elementary school children, with emphasis on: the understanding of curriculum content; current trends in teaching; use of appropriate teaching materials; and planning for and evaluating instruction. Designed to give the prospective teacher an understanding of how children learn mathematics and have at their disposal methods which will facilitate this process for each child in a P-5th grade range. Prerequisites: MATH 2132, ECED 3131, ITEC 4130, and EDUF 3231.

ECED 4433-P-5 Science
Designed to prepare students for teaching science in grades P-5. The content of science is reviewed. Methods of teaching and assessing a diverse population of learners in P-5 science education are examined. Emphasis is placed on the importance of science in social and environmental issues. Prerequisites: ECED 3131, ITEC 4130 and EDUF 3231.

ECED 4533-P-5 Social Studies
Designed to prepare students for teaching social studies in grades P-5. The goals and definitions related to the early childhood social studies program will be considered. The content of P-5 social studies will be reviewed. Students will become acquainted with appropriate teaching methods, materials, and organizational techniques for providing children with successful learning experiences in social studies. Prerequisites: ECED 3131, ITEC 4130, and EDUF 3231.

ECED 4633-P-5 Senior Seminar
Students will analyze issues related to school law, classroom/behavior management, and appropriate instruction for a diverse student population. Special emphasis will be placed on instructional setting, strategies, and related services. Prerequisites: ECED 3732, ECED 3132, or concurrent enrollment in ECED 4733.

ECED 4733-Methods II Practicum
Designed to provide the preservice teacher with observation and actual teaching experience in a supervised classroom setting. A major emphasis is on planning and teaching an integrated unit in a 3-5 classroom. Prerequisites: ECED 3132, ECED 3732, or concurrent enrollment in: ECED 4333, ECED 4433, and ECED 4533.

ECED 4799-Student Teaching in Early Childhood Education
Provides a period of guided teaching during which the student, under the direction of a classroom supervising teacher, takes increasing responsibility for leading the school experiences of a given group of learners over a period of fifteen consecutive weeks and engages directly in the activities which constitute the wide range of a teacher’s assigned responsibilities. The student teacher will be responsible for assuming the full responsibilities of the teacher for a minimum of fifteen days. Prerequisite: Completion of teaching field courses and professional education sequence; must meet requirements for admission to Student Teaching including passing scores on Praxis II certification exam.

ECED 7090-Selected Topics in P-5 Education
Designed to serve dual purposes: 1) allows the department to respond to specific needs of area schools with in-service education, and 2) allows the department to respond to current issues and trends in P-5 education with topical courses.

ECED 7130-Creativity and Children
Provides students with the opportunity to examine current research and practice regarding creativity. Emphasizes utilizing research findings to analyze classroom practices leading to the development of creativity and the integration of the creative arts in the P-5 curriculum. Prerequisites: Master’s Core and ECED 7131.

ECED 7131-Trends and Issues in P-5
Provides students the opportunity for in-depth examination of current trends and issues related to education programs serving the preschool through 5th grade population. Various curriculum models and developmentally appropriate practices are emphasized in the course.

ECED 7138-Supervision of Teachers
Designed to enable the supervising-mentor teacher to demonstrate, in a classroom setting, mastery of skills related to effective observation, conferencing, and communication. To receive credit, the course participant must have a student teacher or an intern, or be serving as a mentor teacher while enrolled in this course. Prerequisites: EDLD 7137 and completion of emphasis area.
ECED 7230-Advanced Language Arts Methods
Designed to build on the graduate students’ knowledge of materials and methods of teaching language and literacy in the 2-5 classroom. Students will examine issues related to language arts instruction, the implications of student diversity for language learning, the processes of language arts (i.e., reading, writing, speaking and listening), as well as, the theoretical background and research base supporting these processes. Prerequisites: Undergraduate Language Arts/Reading Course, Master’s Core, ECED 7131.

ECED 7231-Emerging Literacy
Provides students with the opportunity to examine current research and practice regarding emerging literacy. Emphasizes utilizing research findings to analyze grades P-12 classroom practices leading to the development of emerging literacy. Prerequisites: M.Ed. Core courses, ECED 7131.

ECED 7232-Children’s Literature
Designed for the graduate student who has some knowledge of children’s literature. Attempts to update the student’s knowledge of children’s literature in the classroom and media center. Prerequisites: EDUR 7130 and EDUF 7130.

ECED 7330-Advanced Mathematics Methods
An extension of the knowledge base acquired at the undergraduate level that is necessary to provide a firm foundation for mathematics instruction to the 2-5 child. Emphasis will be on problem solving, mathematical reasoning and communication, and the use of technology when delivering instruction. Prerequisites: Undergraduate Math Methods Course or equivalent, Master’s Core, and ECED 7131.

ECED 7331-Emerging Science and Mathematics Concepts
Provides students with the opportunity to examine current research and practice regarding emerging science and mathematics concepts. Emphasizes utilizing research findings to analyze P-2 classroom practices leading to the development of science and mathematics thinking. Prerequisites: M.Ed. Core courses, ECED 7131.

ECED 7430-Advanced Science Methods
An extension of the undergraduate science methods course, emphasizing grades 2-5. Students are given the opportunity to reinforce and extend basic science content knowledge and science process skills as well as enhance current teaching strategies. The impact of current issues and trends on science instruction will be emphasized. Prerequisites: Undergraduate Science Methods Course, Masters Core, ECED 7131.

ECED 7530-Advanced Social Studies Methods
A social studies instructional methodology and inquiry in the 2nd-5th grade classroom. Components and theoretical foundations of early childhood social studies curriculum will be investigated. Concepts, skills, and attitudes associated with elementary school social studies will be discussed in conjunction with various teaching methods, models, and materials considered developmentally appropriate and effective for children. Strategies for integrating social studies instruction with other areas of curriculum are investigated through active student participation. Prerequisites: Undergraduate Social Studies Methods, M.Ed. Core courses, ECED 7131.

ECED 7639-Seminar in P-5
Designed as a culminating experience for students to integrate educational theory with classroom practice in a P-5 setting. Emphasis is placed on appropriate application of educational theory and content knowledge in a P-5 setting through analysis and evaluation of current classroom practices. Prerequisites: Completion of Master’s Core, ECED 7131 and emphasis area.

ECED 8230-Problems in P-5 Language Arts
Focuses on research related to the identification of methods to address problems in the teaching and learning of language arts in the P-5 curriculum. Prerequisites: M.Ed. Core courses, ECED 7230, and EDUR 8131.

ECED 8330-Problems in P-5 Mathematics
Focuses on research related to the identification of methods to address problems in the teaching and learning of mathematics in the P-5 curriculum. Prerequisites: M.Ed. Core courses, ECED 7330, and EDUR 8131.

ECED 8430-Problems in P-5 Science
Focuses on research related to the identification of methods to address problems in the teaching and learning of science in the P-5 curriculum. Prerequisites: M.Ed. Core courses, ECED 7430, and EDUR 8131.

ECED 8530-Problems in P-5 Social Studies
Focuses on research related to problems in the teaching and learning of social studies in the P-5 curriculum. Prerequisites: M.Ed. Core courses, ECED 7530, and EDUR 8131.

ECED 8819-P-5 Advanced Seminar and Field Study I
Designed to enable students to research a topic designed to lead to instructional improvement implemented in a P-5 situation. Students will meet to discuss each other’s projects and to gain support in researching their individual projects developed in Field-Based Educational Research. Prerequisite: EDUR 8434.

ECED 8829-P-5 Advanced Seminar and Field Study II
Designed to enable students to do research and prepare for presentation in oral and written form the findings of their research topic developed in Field-Based Educational Research. Prerequisites: ECED 8819.

ECED 8890-Directed Individual Study
Provides an opportunity for a student to pursue an area of interest not covered by any existing courses in a guided, independent format. The student is responsible for defining an area of study, course objectives, activities and assessment procedures and identifying a graduate faculty member in the Early Childhood Education department who will supervise the study. Prerequisite: Permission of department chair.

Economics (COBA)
- ECON 2105-Economics in a Global Society
  The market mechanism and its relationship to the major institutions of developed economies, current events, and the challenges of globalization; particularly emphasizes informed decision-making about issues of the aggregate economy in a global setting.

ECON 2106-Business Economics
Analyzes the behavior of firms, workers, and consumers in perfectly competitive and imperfectly competitive markets. Particular emphasis is placed on firm behavior and how it is affected by the characteristics of the market. Prerequisite: ECON 2105.
ECON 3131-Aggregate Economic Analysis
The study of forces which determine the level of income, employment, inflation, interest rates, output with particular attention to the effects of government monetary and fiscal policy. Prerequisites: ECON 2105 and ECON 2106.

ECON 3132-International Economics I
A study of macro-economic policies for open economies, linking domestic economic policy and international economic reality within the context of international trade, finance and development. The course will make extensive use of case studies which will allow students to analyze current trade and macroeconomic relations. Provides students with the tools necessary to recognize those international economic factors likely to impact the effectiveness of domestic economic policy. Prerequisites: ECON 2105 and ECON 2106.

ECON 3231-Microeconomic Analysis
The market mechanism and its relationship to major institutions. Household decision making and consumer demand. Production, cost and the firm’s supply decision. Market structures, market failures and the appropriate role of government policy. Prerequisites: ECON 2105 and ECON 2106.

ECON 3232-International Economics II
A rigorous economic analysis of modern trade models and of the economic impact of various types of trade barriers. An examination of the criteria for selection of an exchange rate system in both industrialized countries, developing and transitional countries and the design of commercial and macroeconomic policies to direct or control trade and monetary flows. Prerequisite: ECON 3132.

ECON 3531-Economics of Social Issues
An economic analysis of various social problems and policies designed to alleviate them. Topics include crime and illegal drugs, poverty and income inequality, discrimination, pollution control, and health care. Prerequisite: ECON 2105.

ECON 4331-Money and Banking
A study of money, banking, and financial markets with particular emphasis on the impact that monetary policy has on business decision making. Prerequisites: ECON 2105 and ECON 2106.

ECON 4332-Labor Economics
A study of wage and employment determination in the labor market. Topics include discrimination, human capital development, labor union, and unemployment. Prerequisites: ECON 2105 and ECON 2106.

ECON 4333-Managerial Economics
Presents the theory of the firm as an aid to business decision-making, examines the employment relationship and incentive structures within and among firms, the make-or-buy decision, and the problems arising from incomplete contracting and opportunism. Prerequisites: ECON 2105, ECON 2106 and MGNT 3130.

ECON 4334-Transportation Economics
Provides students with the basic economic analysis of transportation, including the economic theories of transportation and location of economic activity, the history and current status of government regulation of transportation activities, and empirical analysis of the behavior of the transportation industries. Prerequisites: ECON 2105 and ECON 2106.

ECON 4431-Economic Development
Focuses on the economic analysis of growth patterns and technological change, with an emphasis on the macro-economic aspects of development planning and development strategies. Part of the debate will center on specific case studies of Third World Countries. Prerequisites: ECON 2105 and ECON 2106.

ECON 4432-Agricultural and Rural Economics
A study of agricultural and rural economics which utilizes economic and management principles, taking account of the changes in economic conditions affecting the farm, including the acquisition and management of farm resources. Prerequisites: ECON 2105 and ECON 2106.

ECON 4433-Evolution of Economic Systems
Analyzes in detail the historical development of economic doctrine, the resulting theoretical underpinnings of economic policies and institutions, and the implementation of economic policies in various societies. Empirical evidence regarding the comparative performance of various economic systems will also be examined. Prerequisite: ECON 2105.

ECON 4531-Applied Economic Analysis
Gathering, organizing, and analyzing economic data using a computer spreadsheet and a regression software package as an aid to economic and business problem solving. Prerequisites: ECON 2105, ECON 2106, CIS 2130, MATH 1232, and BUSA 3131 or STAT 2231.

ECON 4790-Internship in Economics
The student is to work with/for a manager of the enterprise in a management training or special projects capacity. Management level responsibilities and duties are expected of the student. Prerequisites: Senior standing. For students with an emphasis, the required course(s) of the emphasis must be completed.

ECON 4831-Special Problems in Economics
A customized course that is under the direction of a faculty sponsor. Designed to offer students an opportunity to pursue studies at a level or on topics not covered in scheduled courses. The scope and nature of the material covered is determined in consultation with the faculty sponsor. Prerequisites: Junior standing.

ECON 6230-Foundations of Economics
A study of the fundamental concepts and theories of microeconomics and macroeconomics. Prerequisite: Graduate standing.

Educational Leadership (COE)
EDLD 7090-Selected Topics in Educational Leadership
Participants examine selected topics in the areas of P-12 and postsecondary administration and supervision. Focuses on the specialized needs of administrators, supervisors, and teachers. Repeatable up to 6 credit hours.

EDLD 7130-Educational Supervision
Participants explore the difference and the relationship between supervision and administration, both at the building and district levels. Attention is specifically directed to curriculum, instructional practice, staff development, and staff evaluation.
EDLD 7131-Educational Personnel Management
Participants will examine the primary functions and processes of personnel administration in public school systems. Skills will be developed in recruiting, selecting, orienting, assigning, developing and evaluating school personnel. Legal constraints, including affirmative action, and employee rights will be included.

EDLD 7135-Organizational Leadership
Participants are introduced to social and behavioral science theories and their applications in understanding school leadership precepts, governance issues and organizational/structural requirements. For majors, this course must be taken in the first 12 hours of the program.

EDLD 7137-Supervising Skills for Teacher Support Specialists
Participants develop supervisory skills and understandings that support the instructional mentoring process. Emphasis is on the supervision of five categories of teachers: pre-service teachers, student teachers, teachers new to the profession, teachers new to the school, and teachers with identified needs. This is the first of the two-course sequence leading to TSS endorsement by the Georgia Professional Standards Commission.

EDLD 7230-Site Administrator
Class activities prepare participants for the day-to-day operation of a school. Participants receive direction in developing the knowledge, skills and attitudes that foster instructional leadership within the school. The concepts of instructional leadership, management, human relations, and personnel development are detailed.

EDLD 7232-Team Building for Leaders
Designed to help prospective and practicing school administrators improve their ability to establish and maintain positive interpersonal relations. Course activities will strengthen participant group process and conflict resolution skills.

EDLD 7330-Fiscal/Facilities Management
Participants will develop an understanding of school budgeting, accounting, and reporting procedures, as well as, records and time management skills. Expands the participant’s understanding of physical facilities management, including maintenance, operation and planning.

EDLD 7333-School Law
Participants will examine legal principles impacting on public schools, federal and state relationships to public education, authority and liability of school boards, administrators and teachers, negligence and discipline.

EDLD 7737-Supervised Field Experience
Participants will complete a 100-hour practicum in building level administration under the direction of a practicing administrator mentor and supervising faculty member. Prerequisites: Completion of 21 semester hours of course work in Educational Administration.

EDLD 8130-Educational Evaluation
Participants will consider educational evaluation from a theoretical and practical perspective. Emphasis is placed upon the application of evaluation theories, designs, models and techniques for use at the classroom, school center, and school district levels.

EDLD 8230-The Curriculum Leader
Participants will acquire the knowledge and skills necessary to make appropriate decisions regarding the development of curriculum at the school and district levels. They will also consider ways in which the school’s curriculum is shaped by, and in some cases influences, current social issues.

EDLD 8330-Clinical Supervision
Participants will learn and practice supervisory techniques that support the conduct of a complete clinical-supervision cycle. In particular, they will develop skills in the observation and analysis of teacher performance and in conducting planning and feedback conferences with teachers. Each student will also select one of three areas for advanced study: the principal’s supervisory leadership, staff development or program evaluation.

EDLD 8430-School Finance
Participants examine major principles of educational finance, particularly as they relate to the funding of American public education. State and national models of educational finance are introduced and discussed. An effort is made to develop skill as an interpreter of fiscal policy. Participants will study tax structures in Georgia and elsewhere. Alternative sources of school funding are also reviewed.

EDLD 8431-Higher Education Law
Participants explore basic legal precepts and their application to postsecondary institutions, primarily using the case study method and discussion. Covers such topics as constitutional mandates of due process and equal protection, non-discrimination in employment and educational programs, privacy and openness, contractual relationships with students, tenure and academic freedom and faculty governance.

EDLD 8432-Postsecondary Education Finance
Financial management and budgeting practices applicable to postsecondary education institutions are the focus of this course. It is intended for persons seeking a working knowledge of budget development, financial management, and fiduciary control in vocational/technical schools, two- and four-year colleges, and universities. Prerequisite: Admission to Tier I doctoral study in Educational Administration.

EDLD 8433-Postsecondary Education Governance
Participants examine the organizational dynamics of postsecondary institutions, as well as, traditional and emerging managerial patterns. The use of organizational models and paradigms enables participants to analyze a variety of contemporary issues and situations in postsecondary institutions. Prerequisite: Admission to Tier I doctoral study in Educational Administration.

EDLD 8434-The Community College
Examines the educational mission of the two-year postsecondary institution (vocational/technical institutes and community college). Particular emphasis is given to the philosophical, pedagogical and organizational underpinnings of two-year institutions with concentration on their historical development, student clientele, and educational mission. Prerequisite: Admission to Tier I doctoral study in Educational Administration.
EDLD 8435-Postsecondary Education Policy
Participants examine policy making processes in postsecondary institutions. The skills of policy analysis and policy development, the identification of policy issues appropriate for study at these institutions and the relationship of policy to all other areas of administration are considered. Prerequisite: Admission to Tier I doctoral study in Educational Administration.

EDLD 8530-Advanced School Law
Participants will engage in an in-depth examination of state/federal regulatory law and recent court decisions that bear on the P-12 educative process. Use of the case method will develop a deeper understanding of the body of law that impacts on decision making in public schools.

EDLD 8531-School Public Relations
Participants will learn how to conduct good school public relations with both internal and external publics. Topics include school publications and press releases, working with the media, speaking and listening skills, the community school and volunteers and key communicators. The practitioner oriented course emphasizes hands on activities, simulations, etc. and should be beneficial to all school personnel, especially those in teacher leadership, administrative, or supervisory roles.

EDLD 8532-Policy Studies in Schools
Participants will examine policy development, implementation and evaluation at the federal, state and school district levels. Includes the skills of policy analysis and policy development, the identification of issues appropriate for policy review at the school-site and school-district levels. Considers the policy-related roles of the school administrator.

EDLD 8533-Politics of Education
The myth that politics and education exist in separate worlds is examined in this course. Participants will review the recent waves of educational reform in terms of their political implications for educational decision makers. Manifestations of overt political behavior and the “press” of politics at the federal, state and local levels will also be reported.

EDLD 8534-The Superintendency
Participants will acquire an understanding of the knowledge and skills required to function in today’s highly complex and dynamic superintendency. Major consideration will be given in the areas of leadership, visioning, planning, goal setting, operations management, risk management and interpersonal relationships.

EDLD 8735-Postsecondary Education Field Experience
Permits postsecondary education students to complete a supervised field experience under the direction of a practicing postsecondary administrator or supervisor. Prerequisite: Admission to Tier I doctoral study in Educational Administration.

EDLD 8739-Advanced Field Experience
Participants will complete a supervised field experience in building or central office administration under the direction of a practicing school administrator. Prerequisite: Admission to Ed.S. study in Educational Leadership.

EDLD 8830-Directed Study in Educational Leadership
Participants complete a fully-formulated study in the area of educational administration or supervision, and orally defend a written report descriptive of that study. Prerequisites: EDUR 8131 and EDUR 8434.

EDLD 8839-Directed Research in Educational Leadership
Participants complete a fully formulated study in the area of educational administration or supervision, and orally defend a written report descriptive of that study. Prerequisites: EDUR 8131 and EDUR 8434.

EDLD 9231-Administrative Theory
Examines the nature of social science theory and its relation to the study of administrative practice in educational organizations. Theories are applied discretely and in combination, complex bodies of theoretical knowledge are assimilated and appropriate applications of theory in field research are considered. Participants directly apply theories in the conduct of research reviews of problem areas that integrate theoretic and practical knowledge in applicable ways. Prerequisite: Admission to Tier II doctoral study in Educational Administration.

EDLD 9232-Decision Making/Problem Solving
Participants will be introduced to the dominant philosophical, organizational and managerial themes that support advanced study in the analysis of problems and theory concerning decision making, as well as, practical applications. The focus of this course is on a theoretical and research-based approach to the examination of decision making and problem solving in complex educational organizations. Prerequisite: Admission to Tier II doctoral study in Educational Administration.

EDLD 9233-Leadership Theory
The integration of knowledge from previous seminars is the primary focus of this course. Students will apply multiple strategies and frames for understanding and interpreting individual and organizational behaviors of leaders. Connections between administrative theory, problem solving and decision making will be analyzed to explain leadership styles, traits and behaviors. Strategies and processes educational leaders use in developing and maintaining a current awareness of the status of their respective organizations are carefully considered. Prerequisites: Admission to Tier II doctoral study in Educational Administration and successful completion of EDLD 9231 and EDLD 9232.

EDLD 9631-Research Seminar I
Assists the doctoral student in identifying the major topic leading to the doctoral dissertation. This identification includes the approval of a dissertation topic and a conceptualization of the research design to be utilized in completing the dissertation. Prerequisite: Admission to Tier I doctoral study in Educational Administration.

EDLD 9632-Research Seminar II
Assists the doctoral student in developing the major topic leading to the doctoral dissertation. Guidance is provided in developing and writing plan for the dissertation. Prerequisites: Admission to Tier II doctoral study in Educational Administration and successful completion of other core classes.

EDLD 9999-Dissertation
Students are provided support and direction in completing the doctoral dissertation. The course provides guidance from both the dissertation supervising chair and the dissertation committee. Repeatable up to 12 credit hours. Prerequisite: Admission to Tier III doctoral degree candidacy.
Curriculum (COE)
EDUC 7130-Curriculum, Theories and Design
A comprehensive overview of the field of curriculum designed to develop the theoretical knowledge competencies and strategies needed by teachers and other curriculum developers at all levels of education to participate in the curriculum change process.

EDUC 8130-Curriculum for Effective Schooling
Explores the relationship between policy and curriculum with particular attention to how school reform and restructuring efforts affect the curriculum. Special emphasis is given to an analysis of the impact of recent effective schools research, school restructuring and/or the national standards movement upon the formulation and delivery of public school curriculum in the United States. Repeatable up to 9 hours. Prerequisite: EDUC 7130.

EDUC 9130-Contemporary Curriculum Theorists
An advanced course in contemporary curriculum theorists in which students will explore the histories and the works of contemporary leaders in the field of curriculum studies. Students will be introduced to the leading edge of curriculum scholarship. Repeatable up to 9 hours. Prerequisite: Instructor permission required.

EDUC 9132-Critical Reading in Curriculum
An advanced seminar for doctoral students offering an in-depth study of a specific topic in Curriculum Studies. Repeatable up to 9 hours. Prerequisites: Admission into the Ed.D. program in Curriculum Studies and permission of advisor and instructor.

EDUC 9133-Curriculum Design and Evaluation
Examines multiple theoretical bases and practical processes by which curriculum planning, design and evaluation decisions can be made. Students will have an opportunity to devise and critique their own plans for developing curriculum projects using one or more of these planning perspectives and processes. Repeatable up to 9 hours. Prerequisites: Ed.D. admission or permission of advisor and instructor.

EDUC 9230-Power and Schooling
Explores competing analyses of power and the relationships of these analyses to schooling. Topics include structural, poststructural, Marxist, neo-Weberian, feminist, conflict, and/or critical analyses of power and the process of schooling. Students will read both original writings and interpretive works addressing three or four major theoretical positions of the topic of power. Prerequisite: Ed.D. admission.

EDUC 9232-Forms of Curriculum Inquiry
An examination of major research within the field of curriculum studies, along with an analysis of the varied forms of inquiry used in this research, including philosophical, practical, historical, empirical, theoretical, critical, deliberative and action inquiry, among others. Prerequisites: EDUC 9631 and EDUC 9133.

EDUC 9631-Advanced Seminar in Curriculum Theory
Examination of major curriculum theories, their adequacy and merit. These theories will be studied in their originator’s own words from the writings of the theorists themselves. Prerequisite: EDUC 9133 or equivalent.

EDUC 9999-Dissertation
Readings and research under the direction of a member of the educational research faculty whose interests coincide with those of the student. Repeatable up to 12 credit hours. Prerequisite: Admission to Ed.D. Candidacy.

Educational Foundations (COE)
EDUF 2090-Special Topics in Educational Foundations
Designed to provide specialized coursework to meet the needs of students. Attention will be directed toward a wide range of topics as they relate to education. Repeatable up to 6 credit hours.

EDUF 2131-Foundations of Education
Provides opportunities for the future educator to examine both public schooling in the United States and the teaching profession from multiple perspectives including philosophy, history and sociology. This course is one component of the Pre-professional Block that includes a field component. Prerequisite: Sophomore standing.

EDUF 2132-Teaching for Diversity
Examines the current practices and theoretical foundations of multicultural education and the implications of diversity for curriculum and teaching. Emphasis will be placed on developing strategies and resources which will prepare prospective teachers for culturally diverse classrooms. Prerequisite: Sophomore standing.

EDUF 2230-Human Growth and Development
Provides an introduction to the study of growth and development of the person from conception through adolescence. Particular aspects of development, such as physical, social/personality, emotional, intellectual and moral development and the relationship of these aspects of development to learning and achievement in school classrooms will be examined. Emphasis will be placed on the teaching process as it evolves from the study of human growth and development, learning and instruction. This course is one component of the Pre-professional Block that includes a field component. Prerequisite: Sophomore standing.

EDUF 3231-Educational Psychology: Early Childhood Education
Students will examine psychological principles of learning, cognition, motivation, behavior and the practical implications of these principles for teaching, learning and assessment. The development of skills to interpret behavior and classroom interaction within a framework of psychological theory will be a major feature of this course. Special emphasis will be placed on examining psychological principles which are appropriate for the teaching of children ages 4-11. Prerequisites: Junior standing, admission to Teacher Education program.

EDUF 3232-Educational Psychology: General
Students will examine psychological principles of learning, cognition, motivation, behavior and the practical implications of these principles for teaching, learning, and assessment. The development of skills to interpret behavior and classroom interaction within a framework of psychological theory will be a major feature of the course. Prerequisites: Junior standing, admission to Teacher Education program.

EDUF 3233-Educational Psychology: Middle Grades
In this upper division course, students will examine psychological principles of learning, cognition, motivation, behavior and the practical implications of these principles for teaching, learning and assessment. The development of skills to interpret behavior and classroom interaction within a framework of psychological theory will be a major feature of the course. Special emphasis will be placed on examining psychological principles which are appropriate for the teaching of transients. Prerequisites: Junior standing, admission to Teacher Education program.
EDUF 7090-Selected Topics in Educational Foundations
Readings and research under the direction of a member of the educational research faculty whose interests coincide with those of the student. Repeatable up to 9 credit hours. Prerequisite: Permission of the instructor.

EDUF 7130-Learning Theories and Applications
Examines the principles and theories of learning that serve as the basis for educational models and practices. Special emphasis is given to recent empirical findings and to practical applications and theory to educational settings.

EDUF 7231-Comparative Educational Thought
Focuses on the analysis of theories and practices in world education that will enrich students' international expertise and equip perspective teachers with professional skills to deal with issues which arise in the USA and around the globe in the post-Cold-War era.

EDUF 7232-Philosophies of Education
Studies the major philosophical schools of thought which inform all educational activities. Particular attention is given both to current and historical writings, and the relationship of philosophical assumptions to current practices in the process of schooling.

EDUF 7233-School and Society
Examines the contributions of the social sciences to debates about the interrelated nature of school and society. Focuses particularly on a theoretical examination of the purposes of education and schooling in a democratic society.

EDUF 7234-History of American Education
Focuses on the social, political, economic and ideological forces that have shaped the growth and development of the American public school system from colonial times to the present. A special emphasis will be an analysis and critique of the purpose, structure, function and results of the various school reform movements in American history.

EDUF 7235-Multicultural Education
Using an interdisciplinary approach, this seminar investigates underlying theoretical concepts and social assumptions that both inform and impede efforts in multicultural education.

EDUF 8131-Theories of Adolescence
The rapidly changing world of today's adolescents and the ever-changing nature of the field of adolescence will be examined from three perspectives: theory, research and contemporary social forces. This course will be eclectic in its orientation. Rather than adopting one theoretical position, various views will be discussed. Similarities and differences among theories will be examined, in addition to an analysis of strengths, weaknesses, and contributions of each, as well as, the implications for educating, guiding and working with adolescents.

EDUF 8133-Interaction and Learning
Examine views of learning which emphasize the importance of interaction, authenticity and the social construction of knowledge. Students will also explore instructional practices and assessment issues consistent with these perspective. Relevant theories, research, and practical implications will be examined for each perspective addressed. Perspectives and practices which will be explored may include, but are not limited to, constructivism, situated cognition, the social formation of mind, cooperative learning, and authentic assessment. Repeatable up to 9 hours.

EDUF 8134-Models of Motivation
Critically examines how contemporary models of motivation are utilized to improve the delivery of instruction. Special emphasis is placed on the theoretical principles, empirical research and educational strategies involved in the design and implementation of motivational models. Repeatable up to 9 hours.

EDUF 8135-Thinking and Problem Solving
Examines current conceptions and models of critical thinking and creative problem solving as they relate to learning and instruction. Emphasis will be given to how instructional practices can positively affect students' thinking skills and dispositions for learning and to method designed to increase students' awareness and control of their thinking processes. In addition, evaluate the effectiveness of current programs designed to teach critical thinking and problem solving strategies across the curriculum and within specific content areas. Prerequisite: EDUF 7130.

EDUF 8136-Theories of Human Development
Examines theories of human development, with a focus on infancy to adolescence. Major theoretical perspectives pertaining to several aspects of development, such as cognitive, social, moral, emotional and personality development, will be considered. In addition, students will gain an understanding of the value of theories in general, as well as, the particular characteristics of a good theory, in order to critically evaluate these theories in light of empirical research evidence.

EDUF 8890-Directed Individual Study in Educational Foundations
Readings and research under the direction of a member of the educational research faculty whose interests coincide with those of the student. Repeatable up to 9 credit hours. Prerequisites: EDUF 7232, permission of the instructor.

EDUF 9131-Ethical Dimensions of Education
Develops an understanding of ethical obligations and considerations within the field of education through case studies immediately applicable to their professional lives. Students will explore traditional ethical systems, such as Consequentialism and Situationalism, as well as, more contemporary perspectives including those of equity and technology. Prerequisite: EDUF 7232.

EDUF 9132-History of American Curriculum
An advanced course in curriculum studies designed to provide an in-depth analysis of the major historical curriculum documents, trends and reform movements that have given form and shape to the American public school curriculum. Special emphasis will be given to the interpretation and critique of the competing curriculum discourses, especially as they appear in primary source historical curriculum documents, state/local curriculum guidelines and textbooks. Prerequisite: Ed.D. admission.

EDUF 9133-Theories of Educational Inquiry
An advanced seminar in the field of curriculum investigating the major paradigms within which the competing methodologies of empirical educational inquiry are grounded and the epistemological and ethical issues involved in conducting research within each paradigm. Prerequisite: Ed.D. admission.

EDUF 9631-Seminar in Cultural Studies
This advanced seminar investigates contemporary questions and movements in the field of cultural studies. Prerequisite: EDUF 7235.
EDUF 9632-Regional Issues In Multicultural Education
This field-based course will involve doctoral students in researching the local multicultural educational needs, issues and problems and developing strategies for constructing a pluralistic and culture-tolerant environment in the schools and/or communities of the region. Prerequisite: EDUF 9631.

Educational Research (COE)  
EDUR 7090-Selected Topics in Educational Research
Readings and research under the direction of a member of the educational research faculty whose interests coincide with those of the student. Repeatable up to 9 credit hours. Prerequisite: Permission of the instructor.

EDUR 7130-Educational Research
A comprehensive overview of topics related to research as it is applied to educational settings. Emphasis is placed upon methods of quantitative and qualitative research, especially in regard to applied and basic research in education.

EDUR 8131-Educational Statistics I
Topics covered in this course include central tendency, variability, distributions, correlation, significance testing, t-tests, linear regression and chi-square analysis. Emphasis is placed on application of statistics in educational research situations. Prerequisite: EDUR 7130 or equivalent or permission of instructor.

EDUR 8132-Educational Statistics II
This is an advanced statistics in education course that extends knowledge of educational research situations and statistical procedures beyond EDUR 8131. Emphasis is placed on more complex analysis of variance procedures (e.g., repeated measures, analysis of covariance), multiple regression analysis and multiple dependent variable techniques (e.g., canonical correlation) as applicable to current educational research problems. Repeatable up to 9 credit hours. Prerequisite: EDUR 8131 or equivalent.

EDUR 8230-Classroom Measurement
Provides detailed coverage of concepts and skills necessary for proper construction of valid classroom tests. Emphasized are procedures for developing and evaluating various types of test items (e.g., multiple-choice, brief-response essays, true-false, etc.). Also covered are portfolio development and assessment, performance assessments, standardized score interpretation and methods for establishing validity and reliability.

EDUR 8330-Experimental Design in Education
Provides coverage of true and quasi experimental designs that are typically used in educational settings. Also presented are factors that affect the internal and external validity of such designs with special attention directed to those threats that are common to educational research. Statistical methods for analysis of data drawn from educational experiments (such as factorial ANOVA, ANCOVA, repeated measures ANOVA, group comparison procedures, and effect sizes) are emphasized. Prerequisite: EDUR 8132.

EDUR 8434-Field-Based Educational Research
Designed primarily to assist Ed. S. level students in developing a sound research proposal for the conduct of an independent research project required as part of their Ed.S. program. Repeatable up to 9 credit hours. Prerequisite: EDUR 8131 or equivalent.

EDUR 8890-Directed Individual Study
Readings and research under the direction of a member of the educational research faculty whose interests coincide with those of the student. Repeatable up to 9 credit hours. Prerequisite: Permission of the instructor.

EDUR 9131-Doctoral Research Methods
The purpose of this course is for doctoral-level students to gain a firm foundation in educational research prior to enrollment in the more specialized courses in quantitative methods. Students engage in an applied research project that updates their understanding of research procedures (hypothesis generation, sampling theory, instrument construction, measurement concepts and descriptive and inferential statistics). Emphasis is on the “hands-on” application of advanced inquiry skills. Repeatable up to 9 credit hours. Prerequisites: EDUR 7130 and EDUR 8131 or equivalent courses.

EDUR 9231-Qualitative Research in Education
Examines a broad survey if major styles of qualitative/descriptive research, as well as, attention to the major field work techniques and problems associated with conducting qualitative research. Prerequisite: EDUR 7130.

English (CLASS)  
ENGL 0099-Communication Skills
Designed to help students develop language skills necessary for entering regular college courses. Emphasizes grammar and punctuation, essays and other forms of written expression, oral participation, and reading proficiency. Because the course is developmental, a student may exit at the end of any semester by passing the course and achieving a satisfactory score on the exit examination. Audit or institutional credit only.

• ENGL 1101-Composition I
Concentrates on developing students’ skills in thinking and writing. Emphasizes reading and understanding prose selections to help students write clear, logical, well-structured essays. Students must demonstrate competence in academic English. NOTE: ENGL 1101 must be completed with a minimum grade of “C” before the student may enroll in ENGL 1102.

• ENGL 1102-Composition II
Concentrates on refining students’ skills in composition through critical reading and instruction in written and oral communication. Requires a large number of completed essays, a documented library paper, and preparation for Regents’ Test Essay. Students must demonstrate a competence in academic English. NOTE: ENGL 1102 must be completed with a minimum grade of “C” before the student may enroll in ENGL 2111 or ENGL 2212.

• ENGL 2111-World Literature I
A survey of great works of world literature from ancient times to the end of the seventeenth century. Beginning with the oral tradition, the course studies classical works and their impact on later literature, the spread of ideas beyond national and ethnic boundaries, and the influence of philosophy and religion on literature. Emphasis on critical reading and writing skills. Prerequisite: ENGL 1102.

• ENGL 2212-World Literature II
A survey of great works of literature from the 1700’s to the present. The course studies literary representation and reaction to the rise of science, industrialism, internationalism, and other forces shaping the modern and postmodern world. Emphasis on critical reading and writing skills. Prerequisite: ENGL 1102.
ENGL 2221-Introduction to Readings in Literature
A study of four or more works in an area or author chosen by the instructor. Introduces students to the ways major literature communicates an awareness of human behavior and possibilities.

ENGL/WGST 2335-Women and Literature
A study of the literature by and about women, which reflects some of the myths, legends, and social forces molding the female character. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/FILM 2422-Movies: The Language of Film
A study of the ways that films communicate meaning. Explores the correspondences between the literary and scenic dimensions of prose fiction and film with respect to such concerns as point of view, character revelation and development, plot, and meaning. Prerequisite: ENGL 1102.

ENGL/AMST 2430-Native American Literature
Serves as an introduction to the literature of Native Peoples on the American continent. Emphasis on critical reading, writing, and thinking skills. Prerequisite: ENGL 1102.

ENGL 2431-Asian-American Literature
Offers students an opportunity to study and develop an understanding and awareness of Asian-American culture, heritage, attitudes, and values. Emphasis on critical reading, writing, and thinking skills. Prerequisite: ENGL 1102.

ENGL/AAST 2432-Civil Rights Movement in Literature
Focuses on literature and film constructed around the Southern Civil Rights Movement. Emphasis on critical reading, writing, and thinking skills. Prerequisite: ENGL 1102.

ENGL 2433-Health and Literature
Understanding health through literature provides a framework for understanding health from differing perspectives and focuses on literary representations of wellness, illness, and death as protagonists. Emphasis on critical reading and writing skills. Prerequisite: ENGL 1102.

ENGL 3030-Selected Topics in English
Selected topics in English.

ENGL 3121-British Literature I
A study of British literature and literature history from the Old English Period through the early eighteenth century, focusing on literary types, themes, and responses to historical, political, and cultural circumstances. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 3122-British Literature II
A study of the major British literature from the Romantic Period (1780) to the present, focusing on major movements, authors, and themes. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/AMST 3131-American Literature I
A survey of American Literature from the period of exploration and colonization through the Enlightenment and American Romanticism, concluding with the end of the Civil War. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/AMST 3132-American Literature II
A survey of American literature from 1865 to the present, focusing on major movements, authors, and themes. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/AAST/AMST 3231-Survey of African-American Literature
A survey of African-American literature from its beginnings to the present, focusing on important movements, genres, and themes. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/AMST 3238-The American Dream
A survey of the development of the ideal vision of the American Dream of freedom, opportunity, and success as depicted in the writings of the earliest European explorers to those of contemporary American authors. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 3338-Irish Cultural Identities
A study of Irish cultural identities through literary perspectives on famine in Ireland, in the writings of Edmund Spenser and Jonathan Swift (among others); and in the writings of later authors who have responded to the Great Irish Famine of 1845-50, including James Clarence Mangan, Liam O’Flaherty, and Seamus Heaney. Prerequisites: ENGL 1101, ENGL 1102; and one of the following: ENGL 2111, ENGL 2212.

ENGL 3534-Introduction To Literary Studies
An examination of the fundamental principles of literary study, with special attention to critical approaches to language and literature, bibliography and research, and writing in the discipline. Required of all majors. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/FILM 3535-Patterns in Film and Literature
A comparative interpretation of themes, ideas, and patterns in selected works of narrative literature, and cinema. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/WRIT 3537-Special Topics in English
Readings on particular authors, genres, literary histories and movements or on topics not covered by regular courses. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 4133-The British Novel
A study of the development of the novel in English through the reading of a selective list of novels which best illustrate the main tendencies in the English fiction of the eighteenth and nineteenth centuries. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 4135-Chaucer
A study of The Canterbury Tales and other selected works. May be used to fulfill the single author requirement. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/AMST 4237-The American Novel
A survey of the development of the novel in America, eighteenth through twentieth centuries, with special study of a list of works selected to illustrate the major movements in American fiction. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 4335-Shakespeare: The Major Comedies and Histories
The close reading of Shakespeare’s major comedies, histories, and selected romances. Fulfills single author requirement. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 4336-Shakespeare: The Tragedies
The close reading of Shakespeare’s dramatic tragedies and the sonnets offering students an overview of a major Western Literary Icon. May be used to fulfill single author requirement. Prerequisite: ENGL 2111 or ENGL 2212.
ENGL 4435-Single Author
Devoted to the study of a single author whose work has occasioned a significant body of criticism. Students will focus on the body of the author’s work and consider both historical context and critical response. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/COML 4538-Literary Criticism
A study of literary criticism from Plato to Derrida with concluding emphasis on the theory, approaches, and techniques of current literary study. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 4630-Senior Seminar
A capstone course in which students apply knowledge gained in major courses through discussion of selected literary texts, a major research paper, and an oral presentation. Required of all English majors. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5030-Selected Topics
Selected topics in English.

ENGL 5130-20th Century Irish Literature
A study of representative fiction, poetry, and drama by twentieth century Irish authors. Readings will emphasize the way Irish writers have explored the diversity of the Irish experience as it has been influenced by history, culture, politics, and religion. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5131-British Romantics
A study of English Romantic poetry and prose, including major works of Blake, Wordsworth, Coleridge, Byron, the Shelleys, Keats, and many recently rediscovered authors of the period. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5134-British Neoclassical Literature
A study of verse and prose from the Restoration to the Romantic period. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5136-English Medieval Literature, Excluding Chaucer
A study of Old and Middle English literature emphasizing the major genres of prose and poetry unique to this period. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5137-Modern British Fiction
A study of the major developments in fiction, especially that of modernism, from the late nineteenth century to the present. The course will treat important criticism in relation to the authors and works. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5138-Poetry and Prose of the English Renaissance
A study centering on the analysis and interpretation of Renaissance poetry with some involvement in its larger historical context, especially in its relationship with controversy. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5139-Victorian Prose and Poetry
A study of the Victorian Period in England with emphasis on the prose and poetry of major authors. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/AMST 5230-Colonial American Literature
A detailed study of the poetry and prose from 1492-1800 by writers, both in America and Europe, who describe and define a distinct American identity by means of an emerging literature and diverse cultural experience. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/AAST 5232-Studies in African American Literature
A study of images, issues, and themes in African American literature through an examination of works by such writers as Douglass, Washington, Chesnutt, Hughes, Wright, Baldwin, and Morrison. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/AMST 5234-Southern Literature
A survey of the literary achievements of the South from the Colonial period to the present. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/COML 5330-Drama to Romanticism
A study of representative works of dramatic literature, primarily of the western world, from Aeschylus through Beaumarchais, excluding English drama. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5331-British Drama to 1642, Excluding Shakespeare
A study of selected Medieval, Elizabethan, Jacobean and Caroline plays, particularly Marlowe, Jonson, Webster, and Ford. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5332-British Drama Since 1660-Restoration to Shaw
A study of British drama from 1660 into the modern period, including Restoration, Neoclassic, Romantic, Victorian, and early modern plays in their historical and critical contexts. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/COML 5334-Modern Drama
A study of the major drama from Romanticism to the present, including, but not limited to, Anglo-American and European dramatists. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5430-Contemporary Poetry
A study of English language poetry written since World War II with an emphasis on major figures and literary movements. Significant attention will be paid to the diversity and multinational character of contemporary English language verse. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5434-Donne and Milton
A study of two major poets that focuses on close study and interpretation of their greatest works, creating involvement in religious and historical circumstances of the time in which they were written. Among the poetry are the best loved poems of all time. May be used to fulfill the single author requirement. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5436-Spirit of Place in British Literature
A study of British literary figures important for their evocation of place, against the background of the regions they wrote about. A ten-to-fourteen-day tour of the English countryside is part of the course. Offered summers only. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5438-Modern Poetry to 1945
A study of British, Irish, and American poets and poetry since 1900, emphasis being placed on the more influential, such as Yeats, Pound, Frost, Eliot, and Stevens. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/COML/RELS 5530-The Bible as Literature
A study of the literary dimension of the English Bible. Major emphasis is upon the literary themes, types, personalities, and incidents of the Old and New Testaments. Prerequisite: ENGL 2111 or ENGL 2212.
ENGL 5534—Literature for Adolescents
A study of literature, primarily (but not exclusively) narrative, on the subject of adolescence, with emphasis on analyzing and evaluating contemporary literature written especially for or about adolescents. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5535—Children’s Literature
A study of literature written for or read by children with a focus on British and American classics. Students will read and write critical analyses of these works with special attention to the history of childhood. Authors studied may include the Brothers Grimm, Lewis Carroll, Louisa May Alcott, Mark Twain, Kenneth Grahame, Frances Hodgson Burnett, and others. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 5536—Post-Colonial Literature
Examines and evaluates the diverse “common-wealth” of post-colonial Anglophone literature written by authors from countries that were formerly part of the British Empire: Africa, Australia, Canada, the Indian sub-continent, Ireland, New Zealand, Southeast Asia, and the West Indies. Highlights the use of a variety of reading and critical strategies to analyze the formal and linguistic complexities and innovations of this literature. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/COML 5537—Contemporary World Fiction
A study of significant long and short fiction from around the world written in the last thirty years. The course seeks to illuminate the cultural and literary genius of various peoples as revealed in their great writers. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL/WGST/AAST 5539—Literature by Women
A study of classic, contemporary, and experimental writing by women in all genres, with special emphasis on the polemical and theoretical bases of and critical approaches to such texts. Prerequisite: ENGL 2111 or ENGL 2212.

ENGL 6630—Seminar in Medieval Literature
A study of the major authors, genres and literary influences of the English Middle Ages with an emphasis on Chaucer and the fourteenth century.

ENGL 6631—Shakespeare Seminar
A close examination of several of Shakespeare’s “problem” plays.

ENGL 6632—Seminar in Literature of the English Renaissance
A study in the major writers of the English Renaissance, including such figures as Sidney, Spenser, Herbert, Donne, and Browne. Lesser authors may be incorporated for their historical significance in the development of modern English prose and poetry.

ENGL 6633—Seminar in Restoration and Eighteenth Century British Literature
An in-depth study of major works and documents from the period. Specific topics and texts may vary.

ENGL 6634—Seminar in Major Authors
An intensive study of the life (lives) and works of one to three major authors.

ENGL/WGST 6635—Women’s and Gender Issues
A study of women’s and gender issues and concerns in the context of important works of literature.

ENGL 6637—Criticism and Theory
A study of the great tradition of literary critics, from Plato to the present, and the contemporary critical approaches and theory they shape today.

ENGL 7111—Seminar in College English
A study of strategies and techniques for developing rhetorical skills in College English. Required of graduate assistants in English and open to other graduate students in English.

ENGL 7121—Methods of Research
The seminar provides an in-depth understanding of the bibliographic, research, and critical skills required to do advanced scholarship in literary studies.

ENGL 7630—Seminar in World and Comparative Literature
Research and discussion of a topic in a specific period of world literature or comparative literature.

ENGL 7631—Seminar in the British Novel
A study of important developments or themes of the British Novel.

ENGL 7632—Seminar in the American Novel
A survey of the novel in America from the eighteenth to the twentieth centuries.

ENGL 7633—Seminar in Nineteenth Century British Literature
A study of prose and poetry of the nineteenth century, focusing on either Victorian or Romantic authors. May be repeated for credit.

ENGL 7635—Seminar in Nineteenth Century American Literature
A study of major authors and documents of the nineteenth century, focusing on either Romantic or Realist authors.

ENGL 7637—Seminar in Twentieth Century American Literature
A study of American prose, poetry or drama of the twentieth century, with emphasis chosen by the instructor.

ENGL 7638—Seminar in Twentieth Century Poetry
A study of British and American poets of the twentieth century, with emphasis on major authors of either the Modern or Contemporary periods.

ENGL 7999—Thesis

Engineering (COST)

ENGR 1111—Introduction to Engineering
An introductory course required of all engineering students. Topics include: Historical development of engineering, modern engineering challenges, engineering study skills, engineering communications, engineering career opportunities, the engineering curriculum, the engineering team, ethics and other professional responsibilities of engineering, and the engineering design process.

ENGR 1132—Computing for Engineers
Introduction to the foundations of computing with an emphasis on the design, construction, and analysis of algorithms. Laboratory-based introduction to computers and software tools commonly used by engineers, with applications directed toward the solution of typical engineering problems. The course will include team-based design project utilizing the computer skills developed during the course.
ENGR 1133-Engineering Graphics
Introduction to engineering graphics and visualization including sketching, line drawing, simple wire-frame and solid modeling. Development and interpretation of drawings and specifications for product realization.

ENGR 2231-Engineering Mechanics I
Fundamental concepts of mechanics. Statics of particles. Moments and equivalent systems of forces on rigid bodies; equilibrium of rigid bodies. Distributed forces-continous and centers of gravity. Analysis of trusses, frames and machines. Internal normal and shearing forces, bending moments, and torque. Shear and bending moment diagrams, relations between distributed load, shear, and bending moment. Friction. Distributed forces - area moments of inertia. Prerequisites: MATH 2242 and PHYS 2211.

ENGR 2232-Engineering Mechanics II

ENGR 2323-Digital Design Lab
Design and implementation of digital systems, including a team design project. CAD tools, project design methodologies, logic systems, and assembly language programming. Prerequisite: ENGR 2332.

ENGR 2332-Introduction to Computer Engineering
Computer systems and digital design principles. Architectural concepts, software, Boolean algebra, number systems, combina-
tional datapath elements, sequential logic and storage elements. Design of DRAM control and I/O bus. Prerequisite: ENGR 1132.

ENGR 2334-Circuit Analysis
Introduces students to the basic concepts of DC and AC circuit theory and analysis. Prerequisites: ENGR 2341 and PHYS 2212. Corequisite: MATH 3230.

ENGR 2341-Introduction to Signal Processing

ENGR 3233-Mechanics of Materials
Definition and analysis of stress and strain, mechanical properties of materials, axially loaded members, torsion of circular sections, bending of beams, transformation of stress and strain, design of beams, and buckling of columns. Prerequisite: ENGR 2231.

ENGR 3431-Thermodynamics I
Thermodynamic properties, state postulate, work interactions, steady-state and transient energy and mass conservation, entropy and the second law. First and Second Law Analysis of thermodynamic systems. Gas cycles and vapor cycles. Prerequisite: PHYS 2211.

Enrichment Program (VPAA)
ENPR 1220 - Enrichment Program
A combined activity/seminar course designed to engage students in a broad range of extra classroom intellectual, cultural, and aesthetic events as a regular part of their educational experience. Students may take the course repeatedly, but a maximum of two credit hours may be applied to the 126 minimum for graduation.

Early Childhood-Secondary Education (COE)
ESED 3131-Analysys of Effective Teaching and Curriculum in Foreign Language
A study of effective teaching practices appropriate for foreign language teachers. Students will examine a variety of teaching techniques, classroom management strategies, and assessment procedures appropriate in the elementary, middle and secondary schools. A field-based component is included. Prerequisite: Admission to Teacher Education program.

ESED 3231-Analysys of Effective Teaching and Curriculum in Health and Physical Education
Introduces students to the analysis of effective teaching techniques and their relationship to learning. It is the first of four courses designed to provide a developmental sequence for preservice teachers in health and physical education. Provides the student with opportunities to practice effective teaching strategies and skills. Prerequisites: Admission to Teacher Education program and KINS 3110, KINS 3400, HLTH 3010 or 3020, or one of the following: KINS 3440, KINS 3450, KINS 3460, two of the following: KINS 3410, KINS 3420, KINS 3430 and prerequisite or corequisite: KINS 3200.

ESED 3331-Analysys of Effective Teaching and Curriculum in Music
A study of effective teaching practices appropriate for music teachers. Students will examine a variety of teaching techniques, classroom management strategies and assessment procedures appropriate in the elementary, middle and secondary schools. A field based component is included. Prerequisite: Admission to Teacher Education program.

ESED 4090-P-12 Education Special Topics
Promotes specialized training appropriate to the needs of pre-service teachers. Attention will be given to a range of specific problems as they relate to the P-12 teaching fields. Prerequisites: Approval of the advisor, instructor, and department chair.

ESED 4738-Art Practicum
Prepares students to plan, implement and evaluate instructional programs in visual art education in grades P-12. Students will examine current trends and issues in art education theory, including the areas of studio, art history, art criticism, aesthetics and perceptual awareness. A major feature of this course is the on-site observation and actual teaching experience in grade levels (P-12). Prerequisites: ART 3135, ART 3136, completion of Studio and Art History coursework and admission to Teacher Education Program.

ESED 4799-Student Teaching: P-12 Education
Student Teaching is a period of guided teaching during which the student, under the direction of a cooperating teacher, takes increasing responsibility for leading the school experiences of a given group of learners over a period of consecutive weeks and engages more or less directly in many of the activities which constitute the wide range of a teacher’s assigned responsibilities. Prerequisites: Completion of teaching field courses and professional education sequence and must meet requirements for Admission to Student Teaching Program including passing score on Praxis II certification exam.
ESED 6131-Curriculum for P-12 Programs
A study of the linear curriculum design model for use in designing curriculum for P-12 programs. Focuses on trends in curriculum, selection of appropriate learning objectives related to specific knowledge and skills, selection of interactive learning activities and appropriate assessment of student progress. Consideration is given to research based effective teaching behavior. Prerequisite: Admission to Teacher Education program.

ESED 6132-Methods for P-12 Programs
A study of characteristics of a positive learning environment with emphasis on the development of student centered interactive learning experiences. A variety of teaching methods which address the needs of students with differing learning styles will be addressed along with an analysis of classroom management models resulting in the development of a personal classroom management plan. Prerequisites: ESED 6131 and Admission to Teacher Education program.

ESED 6799-Internship: P-12 Programs
A supervised teaching experience in a P-12 teaching field. Emphasis is placed on instructional planning, methodology, classroom management and student evaluation. Repeatable up to 12 credit hours. Prerequisites: Admission to Teacher Education program and a Provisional Teaching Certificate.

ESED 7090-Selected Topics in P-12 Programs
Promotes specialized training appropriate to the needs of in-service teachers. Attention will be given to a range of specific problems as they relate to the P-12 teaching fields. Repeatable up to 6 credit hours. Prerequisites: Approval of the advisor, instructor, and department chair.

ESED 7138-Supervision of Teachers
Enables the supervising mentor teacher to demonstrate, in a classroom setting, a mastery of skill performance related to effective observation, conferencing and communication skills. To receive credit, the course participant must have a student teacher or intern, or be serving as a mentor teacher while enrolled in this course. Prerequisites: EDLD 7137.

ESED 7231-Foreign Language Curriculum
A study of the various trends and issues in foreign language curriculum development. Emphasis will be placed on the goals and philosophies of foreign language education, the implementation of these goals through the use of appropriate materials and activities and the evaluation of student progress toward these goals using a variety of evaluative instruments. Prerequisites: Admission to Teacher Education program or hold a valid teaching certificate.

ESED 7232-Foreign Language Methods
A study of the historical, theoretical and practical dimensions of materials and methodology in second language education. The overall objective of this course is to help each student develop a repertoire of effective teaching techniques and materials as well as acquire the necessary theoretical foundation on which to expand that repertoire. A field-based component is included. Prerequisite: Admission to Teacher Education program or hold a valid teaching certificate.

ESED 7233-Applied Linguistics: ESOL
An in-depth study of the major theories of first and second language acquisition and their implications for instruction.

ESED 7234-Cultural Issues: ESOL
The principles of culture and its link to second language learning, as well as, problems of teaching in a multicultural classroom.

ESED 7430-Character Education
Examines the philosophical basis for values education, the societal needs for values education as reflected in existing social problems, the values education curriculum and student-centered teaching strategies necessary for delivering the curriculum. Emphasis is placed on teacher behavior which promotes the internalization of values in students’ behavior.

ESED 8537-Trends: Math/Science/Computer Education
Current trends and issues in teaching mathematics, science, and computing technology in the schools. Emphasis is placed on research findings, recommendations of professional organizations and effective practices that connect the teaching of mathematics and science, supported by computing technology. Prerequisite: Admission to an Ed.S. or Ed.D. program.

ESED 8538-Applications: Math/Science Education
Addresses the integration of mathematics and science in the classroom and serves to correlate knowledge from science and mathematics courses with practical applications in local industries. Topics focus on applications of mathematics in science contexts, while emphasizing the relevance of mathematics and science to every day life. Prerequisite: Admission to an Ed.S. or Ed.D. program.

ESED 8539-Computer Technology in Math/Science Education
Applications of computing technologies such as graphics calculators, computers and the Internet in the classroom. Emphasis is placed on integrating these technologies into the teaching of school mathematics and science. Prerequisites: Admission to an Ed.S. or Ed.D. program, at least one course in calculus, and at least one course in each of two sciences.

ESED 8839-Seminar and Field Study
The primary objective of the course is to initiate, complete and submit an acceptable field based research study. Focuses on issues, trends and research in one of the P-12 programs. Prerequisites: EDUR 8131 and EDUR 8434.

ESED 8890-Directed Individual Study
The primary objective of the course is to initiate, complete and submit an acceptable field based research study. The course will focus on issues, trends and research in one of the P-12 programs. Prerequisites: Approval of advisor, instructor and department chair.

Education Psychology (COE)
ESPY 7130-Professional School Psychology
A study will be made of the development of school psychology and its’ present status and trends. The professional responsibilities of the school psychologist will be explored in the context of social, legal and ethical issues that affect practice. Prerequisite: Admission to M.Ed. in School Psychology or permission of instructor.

ESPY 7131-Behavioral Interventions
Prepares school psychologists, counselors and classroom consultants to manage children with moderate to severe conduct problems so that they can profit from classroom instruction. Includes symptoms, diagnosis, treatment and management of children with conduct disorders that hamper learning. Prerequisite: Admission to M.Ed. in School Psychology or permission of instructor.
ESPY 7132-Interpretation of Psychoeducational Tests
Designed to foster accurate interpretation of individual educational and psychological test results to produce appropriate instructional approaches for children with learning or behavioral problems. Training in multi-factored assessment skills, particularly as they relate to the interpretation of psychoeducational evaluations, is emphasized. Prerequisite: Admission to M.Ed. in School Psychology or permission of instructor.

ESPY 8131-Individual Intellectual Assessment
Designed for students majoring in School Psychology. It provides intensive experience in the administration, scoring and interpretation of individual psychological tests for educational purposes. Includes report writing, case history techniques and interview techniques. Prerequisites: ESPY 7132, EDUR 7130 or equivalent and admission to the M.Ed. or Ed.S. in School Psychology.

ESPY 8132-Advanced Individual Assessment
Provides knowledge and skill with procedures and instruments that assess the intellectual, personal and social functioning of children in school settings. Intended for students majoring in School Psychology. Prerequisites: ESPY 8131, admission to M.Ed. or Ed.S. in School Psychology or permission of instructor.

ESPY 8230-Consulting in Educational Settings
Presents theories and develops skills needed to assist adults working with children at risk and with special needs in both rural and urban educational settings. Intervention during crises affecting children in schools will be presented. Prerequisite: Admission to Ed.S. in School Psychology program or permission of instructor.

ESPY 8631-Seminar in School Psychology
Provides a review of professional competency issues, legal/ethical issues, practice guidelines and practice applications for students entering the School Psychology Internship. Repeatable for credit up to 6 hours. Prerequisite: Permission of instructor.

ESPY 8737-Practicum in School Psychology
Experience with school children having learning problems will be provided. Complete child studies will be made and students will develop competence in working with children, teachers, educational specialists and parents under supervision. Prerequisites: ESPY 8132 or concurrent enrollment, permission of instructor and proof of professional liability insurance.

ESPY 8738-School Psychology Internship I
Supervised field experience to provide the comprehensive range of experiences in the professional role of school psychologists. Experiences will be individually planned to include assessment, direct interventions, indirect interventions and evaluation/research. Prerequisites: ESPY 8737, admission to Ed.S. in School Psychology and proof of professional liability insurance.

ESPY 8739-School Psychology Internship II
Supervised field experience to provide the comprehensive range of experiences in the professional role of school psychologists. Experiences will be individually planned to include assessment, direct interventions, indirect interventions and evaluation/research. Prerequisites: ESPY 8738, admission to Ed.S. in School Psychology and proof of professional liability insurance.

ESPY 8839-Action Research in School Psychology
Students will apply their knowledge of research skills by preparing and completing a research project related to a practical problem in school psychology or student services. Ethical and legal guidelines as appropriate for the project are to be followed. Format decisions will be made in consultation with appropriate faculty member. Repeatable up to 9 hours. Prerequisite: EDUR 8434.

Family and Consumer Sciences (CHPS)
FACS 2024-Introduction to Family and Consumer Sciences
A study of the field of family and consumer sciences, its integrative nature and diverse career opportunities. In a seminar format, students study leadership issues, career planning, and opportunities for professional development during the college years.

FACS 2220-Social Survival Skills
A study of etiquette and social interaction as they relate to social gatherings, the work environment and daily living. Students will be encouraged to incorporate the principles of professional and personal courtesies into their lifestyles. Appropriate for all majors. Class will meet one evening session during the semester.

FACS 3035-Teaching Family and Consumer Sciences
An introduction to educational strategies and materials used in teaching Family and Consumer Sciences in secondary schools. Prerequisite: Admission to Teacher Education.

FACS 4010-Professional Development
Seminar in which students complete professional teaching portfolio, explore the job application process, and study public policy concerning school programs in Family and Consumer Sciences. Prerequisite: FACS 2024.

FACS 4038-Issues in Family and Consumer Sciences
A study of contemporary issues and research in the area of Family and Consumer Sciences.

FACS 4090-Selected Topics in Family and Consumer Sciences
Scheduled on an infrequent basis to explore new research and emerging knowledge in Family and Consumer Sciences and related fields. This course will carry a subtitle.

FACS 4610-Senior Seminar
To prepare senior level students to acquire employment and/or internship in their chosen professional field. Prerequisites: Senior status any major.

Film (CLASS)
FILM 2331-Introduction to Film
Introduces the creative elements of cinema including screen writing, performance, cinematography, editing, sound, and directing. Selected films will be screened and analyzed.

FILM 3030-Selected Topics in Film
Offers various courses in specialty areas of film studies. Prerequisite: Permission of instructor.

FILM/AMST 3331-History of American Film
Surveys the history of American film recognizing the influence of international cinema upon American film. Selected films of historical significance will be screened and analyzed.

FILM 3332-Documentary Film
Explores the documentary film genre as an art form and as a medium of communication. Landmark documentary films will be screened and analyzed.
FILM 3333-Art of Film
Provides detailed analysis of selected masterpiece films emphasizing aesthetics.

FILM/POLS 3334-Film and Politics
See POLS 3334 for course description. Prerequisite: POLS 1101 or permission of instructor.

FILM/ENGL 3535-Patterns in Film and Literature
A comparative interpretation of themes, ideas, and patterns in selected works of narrative literature and cinema. Prerequisites: ENGL 2111 or ENGL 2112.

Finance (COBA)
FINC 3131-Principles of Corporate Finance
A study of fundamental concepts, theories, tools of analysis and problems of managerial finance in business. Prerequisites: ACCT 2101, ACCT 2102, ECON 2105, ECON 2106.

FINC 3132-Intermediate Financial Management
A study of financial risk and return, capital budgeting, valuation, capital structure, working capital management and current topics in financial management. Prerequisites: FINC 3131 and BUSA 3131.

FINC 3133-International Finance
A survey of the financial markets and institutions which make international trade and capital flows possible. Its’ emphasis is on understanding exchange rates and hedging the risks inherent in cross-border transactions. Prerequisite: FINC 3131.

FINC 3231-Financial Markets and Investments
Introduces both domestic and international financial markets. Topics include the Federal Reserve system, money and capital markets, security valuation and trading, and derivative markets. Prerequisite: FINC 3131.

FINC 4231-Personal Financial Planning
A study of the fundamentals of personal financial planning to include: the financial planning process, asset management, liability management and risk management. Prerequisite: FINC 3131.

FINC 4232-Security Analysis and Portfolio Theory
Examines some of the key assumptions underlying the major areas of investments, i.e., portfolio theory, derivative asset pricing, and asset valuation. It provides a thorough examination of various topics found in the academic as well as financial press. Prerequisites: FINC 3231 and BUSA 3131.

FINC 4233-Estate Management
Planning for various financial contingencies, and asset management on a personal level. Creating an integrated financial plan using insurance, investments, taxes and trusts. Prerequisite: FINC 3231.

FINC 4331-Bank Management
Provides an introduction to the commercial bank industry, its’ organization, structure, and regulation. The lending and investment functions of banking are examined along with liability and capital management issues including de novo banking and merger/acquisition. Its’ purpose is to offer an overview of commercial banks and their delivery role in the financial services industry. Prerequisite: FINC 3231.

FINC 4431-Principles of Real Estate
Covers a real estate transaction in enough depth to guide the student through a transaction with minimal outside help (attorney, etc.). It also helps the student identify those economic factors that will add value to the property through time. In addition, the student will be introduced to several areas of real estate as a possible profession. Prerequisite: Junior standing.

FINC 4432-Advanced Real Estate
An introduction to analysis of investment property. This includes the projection and analysis of cash flows, a management survey and analysis of financing possibilities. Prerequisite: FINC 4431.

FINC 4433-Real Estate Appraisal I
The study of the valuation of real estate and of ownership rights in real estate. Concentration is primarily on residential real estate. Prerequisite: Junior standing.

FINC 4434-Real Estate Appraisal II
The study of the valuation of income producing real estate, advanced appraisal techniques and commercial property valuation. Prerequisite: FINC 4433.

FINC 4531-Property/Liability Risk Management
A study of the alternative methods of controlling and financing property and liability exposures, including both household and business exposures. Financial analysis of alternative methods of management is covered, along with the impact of corporate philosophy on these decisions. Prerequisite: FINC 3131.

FINC 4532-Personal/Personnel Risk Management
A study of the alternative methods of controlling personal financial and personnel loss exposures. Emphasis is given to health care, workers’ compensation, life insurance and retirement plans, although additional discussions of disability and key employee topics are included. Personal or individual risk financing issues are discussed, with a focus on planning for premature loss of life and retirement. Financial analysis of alternative methods of personnel management is covered, with a focus on health care and workers’ compensation. Prerequisite: FINC 3131.

FINC 4533-Risk Analysis
A study of loss exposure identification and analysis methods, with emphasis placed on the crucial nature of these functions to the appropriate selection and implementation of risk control and financing measures. Analysis of prior loss information is covered extensively, including the development of loss frequency and severity forecasts and loss payout profiles. Discussion is also given to the difficulty of quantitative analysis within small businesses and within especially dynamic, unpredictable areas of loss exposure. Prerequisites: FINC 3131 and BUSA 3131.

FINC 4790-Internship in Finance
The student is to work with/for a manager of the enterprise in a management training or special projects capacity. Management level responsibilities and duties are expected of the student. Prerequisite: Senior standing. For students with an emphasis, the required course(s) of the emphasis must be completed.

FINC 4831-Special Problems in Finance
A customized course that is under the direction of a faculty sponsor. The course is designed to offer students an opportunity to
pursue studies at a level or on topics not covered in scheduled courses. The scope and nature of the material covered is determined in consultation with the faculty sponsor. Prerequisite: Junior standing.

FINC 6220-Fundamentals of Corporate Finance
A study of the fundamental concepts, theories, tools of analysis and current problems of managerial finance in business. Prerequisites: ACCT 6130, ECON 6230, MGMT 6330.

FINC 7231-Financial Problems
A study of financial risk and return, capital budgeting, valuation, capital structure, working capital management and current topics in financial management. Prerequisites: Graduate standing and FINC 6220.

FINC 7232-Global Finance
A study of the financial markets and institutions that make international trade and capital flows possible. The course provides a framework within which the key financial decisions of the multinational firm can be analyzed. Prerequisites: Graduate standing and the completion of the MBA prerequisites and FINC 7231.

FINC 7233-Investment Management
A survey of domestic financial markets. Topics covered include interest rates, stocks, bond, derivative securities, retirement issues, and mutual funds. Prerequisites: Graduate standing and the completion of the MBA prerequisites and FINC 7231 or permission of instructor.

Fashion Merchandising/Apparel Design (CHPS)

FMAD 1234-Apparel I
A study of selection, fit and care of wearing apparel with the primary focus on custom garments. Experiences include traditional and contemporary methods of apparel construction.

FMAD 2230-Social and Psychological Aspects of Clothing
The cultural, social, psychological, and economic aspects of clothing which affect the selection and usage of clothing by the consumer.

FMAD 3030-Selected Topics
Scheduled on an infrequent basis to explore special areas in Fashion and Apparel and will carry a subtitle.

FMAD 3220-Understanding Aesthetics
An in-depth investigation of aesthetics and how aesthetics applies to the roles of the fashion/apparel industry professional. Prerequisite: FMAD 1234 or permission of instructor.

FMAD 3231-Fashion Fundamentals
A survey course of the fashion industry. Fashion terminology, influential designers of the nineteenth and twentieth centuries, influences on fashion, leading fashion centers, auxiliary fashion enterprises, career opportunities and current trends in merchandising are discussed.

FMAD 3232-Principles of Merchandising
A study of the processes required to bring consumer goods to the marketplace. The retail buyer's role is explored in the selection process at the wholesale market, resource development, assessment of quality of goods and classification merchandising. Prerequisite: FMAD 3231.

FMAD 3233-Visual Merchandising
Principles and applications of the visual presentation of merchandise including display, design and materials appropriate to a store's image. Prerequisite: FMAD 3232.

FMAD 3234-Textiles
Emphasizes the fiber characteristics, fabric properties, and manufacturing processes that affect the selection, use, and care of textile goods.

FMAD 3235-History of Costume
Chronological survey of the development and characteristics of historic costume from the ancient Egyptian culture to the present. Prerequisites: HIST 1111, HIST 2110.

FMAD 3236-Apparel II
Investigates the art principles as they relate to apparel selection and the importance of quality and price in wardrobe selection. The student gains experience in advanced construction skills necessary to manipulate current fashion fabrics into a garment. Prerequisite: Grade of "C" or better in FMAD 1234.

FMAD 3237-Apparel Analysis
An in-depth investigation of the development, production, and comparison of wearing apparel. Focus on the structural, functional and decorative aspects of apparel. Emphasis on sourcing of companies and materials, costing of product line, and comparing design and manufacturing techniques that affect price, quality, and size of apparel. Prerequisite: FMAD 1234.

FMAD 3238-Textiles for Interiors
Investigates the production, specifications and regulations, and serviceability of textiles for residential and commercial interiors. Emphasis on soft floor coverings, upholstered furniture, window and wall coverings, and other current developments in the textile field. Prerequisite: IND 230.

FMAD 4231-Apparel Design Analysis I
Application of principles involved in designing apparel using flat pattern techniques. Prerequisite: FMAD 1234.

FMAD 4232-Apparel Design Analysis II
Application of principles involved in designing apparel using draping techniques. Prerequisite: FMAD 4231 or permission of instructor.

FMAD 4234-Fashion Presentation and Promotion
Principles and practice of merchandise presentation and promotion at the wholesale and retail levels. Experience in planning, executing, and evaluating fashion promotions. Prerequisite: FMAD 3232 or permission of instructor.

FMAD 4235-Computer-Aided Design
An investigation of the diverse applications of computer technology in apparel design and manufacturing. Field trips and computer laboratory experience. Prerequisite: FMAD 1234.

FMAD 4236-Fashion Study Tour
Supervised field study which includes an integrative study of the fashion industry. Visits include historic costume collections, wholesale showrooms, auxiliary fashion enterprises and noted retail stores.
Seminars on campus and at pre-arranged appointments during tour dates. While planned specifically for Fashion Merchandising and Apparel Design majors, other interested persons who qualify for admission may participate. Prerequisite: FMAD 3231 or permission of instructor.

**FMAD 4790-Internship in FMAD**
Supervised work-study program in fashion and apparel industry selected by the student and preapproved by the student’s advisor. Students enrolled in the program will work forty hours per week and must agree to abide by regulations governing all employees of the sponsor. Prerequisites: 2.0 GPA and approval of instructor.

**Foreign Languages (CLASS)**

**FORL 3030-Selected Topics in Foreign Languages**
Study of a topic in Foreign Languages literature, culture, society, thought or language not included in the regular offering. Continued development of all five language competencies (listening, speaking, reading, writing, and culture). May be repeated for credit provided a new topic is studied. Prerequisites: FORL 2002.

**FORL/LING 3131-Greek and Latin Vocabulary**
Greek and Latin Vocabulary in English is a course designed to improve the student’s use and understanding of the vocabulary of English through a study of the Latin and Greek elements (word roots) in English. Emphasis on words in current scientific and literary use. No knowledge of Greek or Latin required.

**FORL 3431-Foreign Languages Methods P-5**
Includes the study of the historical, theoretical, and practical dimensions of materials and methodology in foreign language education. Through lectures, discussions, and class activities, students will become familiar with the theory and practice of teaching foreign languages at the P-5 level. These activities include reading and discussion of text materials, development of lesson plans, evaluation of materials, in-class demonstrations of teaching techniques, and appropriate field experiences. Prerequisites: Successful completion of Pre-Professional Education Block and admission to Teacher Education.

**FORL 3432-Foreign Languages Methods 6-12**
Includes the study of the historical, theoretical, and practical dimensions of materials and methodology in foreign language education. Through lectures, discussions and class activities, students will become familiar with the theory and practice of teaching foreign languages at the 6-12 level. These activities include reading and discussion of text materials, development of lesson plans, evaluation of materials, in-class demonstrations of teaching techniques, and appropriate field experiences. Prerequisites: Successful completion of Pre-Professional Education Block and admission to Teacher Education.

**FORL 3510-Futures in Foreign Languages**
Guided discussion and investigation of the field of foreign languages with attention to opportunities for foreign language learners, challenges of a global society, and projections of future needs and uses for foreign languages. Prerequisite: 2001 or equivalent in any foreign language. Required of foreign language majors.

**FORL/LING/ANTH 3533-Introduction to Language**
See ANTH 3533 for course description.

**FORL 4030-Selected Topics in Foreign Languages**
Study of a topic in Foreign Languages literature, culture, society, thought or language not included in the regular offering. Continued development of all five language competencies (listening, speaking, reading, writing, and culture). May be repeated for credit provided a new topic is studied. Prerequisites: FORL 2002.

**FORL 4890-Directed Study in Foreign Languages**
Concentrated study of a topic in literature, culture, society, thought or language. May be repeated for credit provided a new topic is studied. Prerequisites: Two Foreign Language courses at the 3000 level.

**French (CLASS)**

**FREN 1001-Elementary French I**
Introduction to listening, speaking, reading, and writing in French and to the culture of French-speaking regions.

**FREN 1002-Elementary French II**
Continued listening, speaking, reading and writing in French with further study of the culture of French-speaking regions. Prerequisite: FREN 1001 or equivalent.

**FREN 1050-Accelerated Elementary French**
For students who have some previous exposure to French. Focus on communication skills, (understanding, speaking, reading, and writing French), cultural understanding, and some review of language structures. Includes laboratory program. Prerequisite: Pre-college Foreign Language Admissions Requirement in French or equivalent.

**FREN 2001-Intermediate French I**
Building upon communication skills (understanding, speaking, reading, and writing French) and cultural understanding, developed at the elementary level. Prerequisite: FREN 1001 and FREN 1002 or FREN 1050.

**FREN 2002-Intermediate French II**
Continued focus on communication skills and cultural understanding. Prerequisite: FREN 2001 or concurrent enrollment in FREN 2001 or equivalent.

**FREN 2295-Intermediate French in France**
Continued development of all five language competencies: listening, speaking, reading, writing, and culture. May be substituted for FREN 2002. Prerequisite: FREN 2001 or equivalent and admission to the France Study Abroad program.

**FREN 3030-Selected Topics in French**
Study of a topic in French literature, culture, society, thought or language not included in the regular offering. Continued development of all five language competencies (listening, speaking, reading, writing, and culture). May be repeated for credit provided a new topic is studied. Prerequisite: FREN 2002.

**FREN 3130-Conversational French**
Continued development of all five language competencies (listening, speaking, reading, writing, and culture) with a strong emphasis on conversational skills. Practice in the use of everyday French for functional vocabulary build-up and increased oral proficiency. Course work includes the study of authentic oral materials (such as excerpts from films, radio and TV programs, recordings of songs, skits, etc.), as well as situational communicative exercises. Prerequisite: FREN 2002 or equivalent.
FREN 3132-French Through Reading
Continued development of all five language competencies (listening, speaking, reading, writing, and culture) with strong emphasis on reading authentic short French texts. Prerequisite: FREN 2002 or equivalent.

FREN 3134-French Through Writing
Continued development of all five language competencies (listening, speaking, reading, writing, and culture) with strong emphasis on writing, such as: personal narratives, movie reviews and short research topics. Prerequisite: FREN 2002 or equivalent.

FREN 3195-French in France
Continued development of all five language competencies (listening, speaking, reading, writing, and culture) with strong emphasis on everyday functions essential to living in France. Prerequisites: FREN 2002 or equivalent and admission to the France Study Abroad program.

FREN 3230-Introduction to Literature
An introduction to the study and analysis of literary texts, with continued development of all five language competencies (listening, speaking, reading, writing, and culture). Course texts include representative samples of four literary genres: short story, poetry, theatre, and novel. Required for students who intend to study literature at the 4000 level. Prerequisite: FREN 2002 or equivalent.

FREN 3330-French Civilization
Introduction to the history and civilization of France, based on authentic documents and media, with continued development of all five language competencies (listening, speaking, reading, writing, and culture). Prerequisite: FREN 2002 or equivalent.

FREN 3336-Francophone Cultures of Africa and the Caribbean
Study of Francophone cultures of Sub-Saharan Africa and the Caribbean, with continued development of all five language competencies (listening, speaking, reading, writing, and culture) and a strong emphasis on authentic materials. Course texts include representative samples of fables/stories, longer prose works, and poems. Prerequisite: FREN 2002 or equivalent.

FREN 3395-French Regional Culture
Introduction to the culture of a geographic region in France based on residential study in that region. Continued development of all five language competencies (listening, speaking, reading, writing, and culture) with special emphasis on life in the region of residence. Prerequisites: FREN 2002 or equivalent and admission to the France Study Abroad program.

FREN 3530-French for Professions
Continued development of all five language competencies (listening, speaking, reading, writing, and culture) with a strong emphasis on the vocabulary and functions necessary for professional activity in business and other professions, such as: law, health, and tourism. Prerequisite: FREN 2002 or equivalent.

FREN 3595-Business in France
Continued development of all five language competencies (listening, speaking, reading, writing, and culture) with special emphasis on the conduct of business in France. Prerequisites: FREN 2002 or equivalent and admission to the France Study Abroad program.

FREN 4790-Internship in French
Internship in one or more French-speaking countries. Prerequisites: Permission of instructor and Department Chair.

FREN 4890-Directed Study in French
Concentrated study of a topic in French literature, culture, society, thought or language. May be repeated for credit provided a new topic is studied. Prerequisites: Two French courses at the 3000 level.

FREN 5030-Selected Topics in French
Selected topics in French. May be repeated for credit provided a new topic is studied.

FREN 5130-Advanced Grammar
Intensive review and in-depth study of the major grammatical structures of the French language with a special emphasis on their nuances. Extensive oral and written practice, translation from French into English and English into French, and compositions. Prerequisites: Three courses at the 3000 level.

FREN 5131-French Phonetics
Contrastive analysis of the French and English sound systems and extensive practice to help students refine their pronunciation; familiarization with various French accents. Prerequisites: Three courses at the 3000 level.

FREN 5230-Survey of French Literature
Introduction to masterpieces of French literature from the Middle Ages to the present. Continued development of all five language competencies (listening, speaking, reading, writing, and culture), with special emphasis on French literary texts and their context. Prerequisites: FREN 3230 and two other French courses at the 3000-level or equivalent.

FREN 5231-Development of Theatre
A study of French theatre from the late Middle Ages to the present. Course texts include plays representing various periods and movements. Prerequisites: FREN 3230 and two other 3000-level courses.

FREN 5232-Development of the Novel
A study of French novel from the late Middle Ages to the present. Course texts include novels representing various periods and movements. Prerequisites: FREN 3230 and two other 3000-level courses.

FREN 5233-French Poetry
A study of French poetry by major movements, from the late Middle Ages to the present, with an emphasis on reading strategies and poetic techniques and interpretation. Oral reports and discussions. Written analyses (explication de texte). Prerequisites: FREN 3230 and two other courses at the 3000 level.

FREN 5234-Short Prose Fiction
An in-depth study of the genre of the short story focusing on its roots in the oral tradition, its rise in nineteenth-century France, and its contemporary practice in France and francophone countries. Prerequisites: FREN 3230 and two other French courses at the 3000-level.

FREN 5330-Contemporary France
An in-depth study of present-day France, including its institutions, daily life, current events, and its place in Europe and on the international scene. Extensive use of authentic materials (newspapers, magazines, TV and radio materials, and the Internet). Prerequisites: Three courses at the 3000 level.
FREN 5530—French for Business
Preparation for the use of French in business including detailed units on banking, advertising, marketing and economics. Course reflects the requirements for the Paris Chamber of Commerce and Industry Certificate in Business French. Prerequisites: FREN 3530 and two other French courses at the 3000-level.

FREN 5890—Directed Study in French
Independent study under faculty supervision. Prerequisite: Permission of the instructor.

FREN 7090—Selected Topics in French

FREN 7091—Seminar in French
Topics to be selected by the instructor.

FREN 7130—Second Language Acquisition in French
Studies the problems of second language acquisition in French from the standpoint of a program centered on the teaching of communicative skills for use in authentic contexts. Theoretical and historical background as well as hands-on activities. Taught in French.

FREN 7890—Directed Study in French
Independent study under faculty supervision.

Fulani (CLASS)
FULA 1001—Elementary Fulani I
Introduction to listening, speaking, reading, and writing in Fulani and the culture of Fulani-speaking regions.

FULA 1002—Elementary Fulani II
Continued listening, speaking, reading and writing in Fulani with further study of the culture of Fulani-speaking regions. Prerequisite: FULA 1001 or equivalent.

Geography (COST)
GEOG 1101—Introduction to Human Geography
Basic concepts of cultural geography including characteristics and spatial patterns of population, religions, settlements, economies, languages, nutrition, health, migration, economic development, art, music and other cultural phenomena.

• GEOG 1111—Physical Geography
The earth’s surface in its areal differentiation. Focuses on the various elements of physical geography that act as a foundation to the discipline, including location and interaction of physical surficial phenomena.

• GEOG 1130—World Regional Geography
Study of geographic regions of the world emphasizing physical landscapes, resources, economies, culture and politics. Selected problems or situations of contemporary interest will be incorporated.

GEOG 3130—Conservation
Examination of environmental factors in the setting of human activities. Emphasis is on modern efforts in conservation and resource management concerning wildlife, forests, fisheries, agriculture, rangeland, water, soils and oceans.

GEOG/IRSH 3131—Historical Geography of Ireland
An evaluation of the cultural landscape and the study of geographical change through time. Examines the ordinary and symbolic landscapes in Ireland from the time of the Plantations (~1550) to the present.

GEOG/IRSH 3132—Cultural Geography of Ireland
A study of people, landscapes, and cultural development in Ireland from prehistoric times to the present, focusing on the cultural landscapes manifested in the built environment and folk tradition.

GEOG/IRSH 3133—Physical and Biogeography of Ireland
A study of the spatial distributions of climate, soils and vegetation and their relationship to human activity in Ireland and her offshore islands. Prerequisite: Permission of instructor.

GEOG 3140—Introduction to Geographic Analysis
Study of techniques used by geographers in analyzing spatial data. Students will be instructed during the course in the use of computer driven statistical software packages.

GEOG 3230—Economic Geography
Study of the distribution, production and utilization of the world’s basic commodities.

GEOG 3231—Survey of Travel and Tourism
Introduces the student to travel and tourism services as an area of study and as a professional opportunity.

GEOG 3330—Weather and Climate
Elements and controls of weather and climate and the distribution and characteristics of climate regions.

GEOG 3331—Humid Tropical Environments
The humid tropics contain some of the world’s richest, most diverse, important and threatened environments. This class draws on recent work by geographers, biologists, ecologists, geologists and climatologists to present an integrated appraisal of the natural environment of all the humid tropical regions of the world.

GEOG 3332—Physical Climatology
The study of how the earth’s surface and the lower layer of the atmosphere interact to govern ambient temperature and moisture conditions in the local environment. This course focuses on the exchanges of momentum energy, and moisture in mountainous environments. Investigation of topoclimatology is a useful focus in Physical Climatology because flows of energy and moisture are more complex in rugged terrain.

GEOG 3430—Introduction to GIS
A survey of the types of systems and equipment/software that are available, including practical application of GIS to particular problems.

GEOG 3530—Advanced Cultural Geography
An examination of the world’s diverse cultural landscapes. Emphasis on the connections between social, political, religious and agricultural patterns and the impact of societies on the natural environment. Prerequisite: GEOG 1101.

GEOG 4130—Biogeography
Introduces students to biogeography: the study of the distribution of plants and animals. Both historical taxonomic and ecosystems biogeography are covered. The analysis and explanation of spatial patterns of plant and animal distribution, while addressing change in species distribution and evolution in response to climate change and the process of continental drift that have taken place in the past and are taking place today, will be emphasized.
GEOG 4131-Geography of the American South
Systematic regional treatment of the South including the physical, cultural and economic aspects of its various regions.

GEOG 4140-Computer Cartography
Introduction to the computer as a tool in cartographic design and production, and as a tool to assist data analysis in geographic research and geographic problem solving.

GEOG/AMST 4230-Geography of North America
Analysis of the physical, political, economic, and cultural geography of the United States and Canada.

GEOG 4231-Geography of the Third World
The Third World covers half the land surface and three quarters of the population of the planet. The problems and potential of this region and its people are attracting increasing concern and interest. This class will address such issues as the widening gap in economic performance between countries in the Third World, the assertion of national cultures in the face of globalization, the environmental impact of development and gender empowerment, or lack of, in the Third World.

GEOG 4232-Geography of Latin America
Study of the physical, cultural and economic geography of Latin America, including Mexico.

GEOG 4233-Geography of East Asia
A survey of the physical, cultural, political and economic geography of the countries of East Asia. Selected problems or situations of contemporary interest will be incorporated.

GEOG 4330-Geography of Africa South of the Sahara
A survey of the physical, cultural, political and economic geography of Africa south of the Sahara Desert. Selected problems or situations of contemporary interest will be incorporated.

GEOG 4430-Geography of Europe
Survey of the physical, cultural, political and economic geography of Europe. Situations of contemporary interest will be included.

GEOG 4530-Fluvial Hydrology
Systematic overview of the forms and processes associated with rivers and drainage basins. Topics include basin hydrology, drainage networks, river hydraulics, sediment transport, stream channel morphology, channel change, fluvial hazards and human impacts on fluvial systems. Examines these topics primarily from a natural science perspective, but includes discussion of engineering approaches.

GEOG 5030-Selected Topics-Regional Geography
Offered on an experimental basis. Graduate students will complete an individual term project or special report.

GEOG 5031-Selected Topics-Human Geography
Offered on an experimental basis. Graduate students will complete an individual term project or special report.

GEOG 5090-Selected Topics-Physical Geography
Offered with or without a lab on an experimental basis. Graduate students will complete an individual term project or special report.

GEOG 5130-Historical Geography of North America
Relationships of exploration, settlement and changing patterns of human occupancy in North America since 1600. Graduate students will complete an individual term project or special report.

GEOG 5230-Urban Geography
An analysis of site, situation, base, principal functions, distribution, supporting areas and internal structure of urban settlements. Graduate students will complete an individual term project or special report.

GEOG 5590-Field Studies in Geography
An intensive course on a specific region of the world conducted in that region combining lecture, observation and travel. Students usually will bear tuition, travel and living expenses during the course. May be repeated for credit in different regions. Graduate students will complete an individual term project or special report.

GEOG 5620-Research Seminar in Geography
Research methods in human and physical geography are discussed and critiqued. A proposal for a research project will be selected or assigned, a proposal written and an oral presentation of the proposed research will be made. Prerequisites: Junior standing or higher and permission of instructor.

GEOG 5890-Special Problems in Geography
Independent study for advanced students. Prerequisite: Approval of department chair.

GEOG 6630-Seminar in Regional Geography
Identifies principles and content of regional geography. The regional method will be illustrated through study of selected regions. Prerequisite: Graduate standing.

GEOG 6631-Seminar in Systematic Geography
Provides students with a systematic approach to geography. It will offer basic training in principles and concepts and student insight into the nature and methods of systematic geography. Prerequisite: Graduate standing.

Geology (COST)

• GEOL 1121-General Physical Geology
An introductory study of the origin and structure of earth materials and processes which modify Earth’s interior and exterior.

• GEOL 1122-General Historical Geology
Discusses the origin and geological history of Earth. Methods of interpretation, fossils, geologic time measurements, time scales, physical and organic development of Earth are taught. Prerequisite: GEOL 1121, with lab, or permission of instructor.

• GEOL 1310-Environmental Geology Lab
Consists of data collection, analysis, and problem solving of geologic and environmental problems. These problems will deal with earth materials, geologic hazards, economic and energy resources and water quality.

• GEOL 1330-Environmental Geology
An introduction to geologic processes, including flooding, coastal erosion, volcanoes, and earthquakes, and their effect on our environment. The origin of global distribution, use, and reserves of the earth’s basic resources, including soils, water, minerals, rock deposits and energy resources are investigated. The role of these components and their effects on our daily lives are discussed.
GEOL 1430-History of Life
A general survey of the three and half billion year long history of life on earth as revealed by the fossil record. Topics will include the process of fossilization, origins of major biologic groups, dinosaurs, mass extinctions, the interactions between organisms, global climate, and environments.

GEOL 1530-Principles of Oceanography
A survey course dealing with the physical and biological processes of the oceans addressing the interrelationship of the processes.

GEOL 2330-Photogeology
An introduction to the interpretation of geologic features from aerial images. By viewing actual images, students will learn how to interpret geologic structures and rock types, as well as, geomorphic features from an aerial perspective. How various types of images are collected and an overview of photogrammetric principles and digital image processing will be incorporated. Interpretation skills will be practiced in lab. Prerequisite: GEOL 1121.

GEOL 3120-Basic Scientific Photography
Covers basic history, theory and techniques of communicating concepts of science through photography. Techniques of black and white photography will be applied to recording field data and the preparation of illustrations for publication. Techniques of color photography will be applied to recording field and laboratory data for presentation in technical talks.

GEOL 3540-Field Methods
Instruction in the use of the basic tools and techniques used in compiling geologic maps and cross sections. Geologic surveying by means of pace and compass, planetable and alidade, aerial photographs, basic geophysical equipment and other commonly used instruments will be emphasized. Prerequisites: GEOL 1122 and MATH 1113.

GEOL 3541-Mineralogy
An introduction to morphological crystallography, physical properties and the optical characteristics of the common minerals. Examines the genesis, occurrence, and uses of minerals. Laboratory work consists of study of common crystal forms, hand specimen identification and optical study via the petrographic microscope. Prerequisites: CHEM 1145, CHEM 1146 and GEOL 1121.

GEOL 3542-Petrology and Petrography
An introduction to the origin, occurrence, and classification of common igneous and metamorphic rocks. Laboratory work consists of combined mesoscopic study of rocks. A three day field trip across the southern Appalachians provides a field study component. Prerequisite: GEOL 3541.

GEOL 3790-Teaching Internship in Geology
Student internship in GEOL 1310 (Environmental Geology Lab) under the mentorship of a faculty member. Student will participate in an introductory workshop immediately prior to the start of the semester, will intern in GEOL 1310, and meet with the faculty mentor one hour each week. One credit hour per laboratory section of GEOL 1310 in which the student interns, repeatable for credit, for a maximum of 3 credit hours. Prerequisite: A grade of “B” or above in GEOL 1121, GEOL 1330 and MATH 1147 or permission of instructor.

GEOL 4110-Introduction to Research
The process of geological research will be studied from the scientific method through the process of writing a scientific proposal. Construction of a technical paper and the technical oral presentation will be examined and practiced. Usages of geologic terms will be explained and learned. A proposal for a research project will be selected or assigned, a proposal written and an oral presentation of the proposed research will be made. Prerequisite: Junior standing or permission of instructor.

GEOL 4530-Tectonics
Processes, structures, and land forms associated with the deformation of the earth’s crust are studied including the changes that take place on structures and landforms over time. Scales ranging from local, to regional, to global are incorporated. Prerequisites: GEOL 1121 and GEOL 1122.

GEOL 4610-Senior Seminar
The process of scientific communication will be investigated and practiced. A final paper on the student’s senior research topic will be written and an oral presentation made in a formal “Technical Session” format. The student will learn to prepare visual aids to illustrate his/her paper and talk. The “Technical Session” will be organized and run by students. Prerequisite: GEOL 4820.

GEOL 4820-Senior Thesis Research
Provides a means by which geology majors can conduct research intended for completion of the senior thesis. Prerequisite: GEOL 4110.

GEOL 5090-Selected Topics
Provides a means by which new courses can be offered for experimental purposes. Graduate students will complete an individual term project or special report. Prerequisite: Permission of instructor.

GEOL 5130-Geochemistry
The application of chemical concepts to geological problems. Graduate students will complete an individual term project or special report. Prerequisites: GEOL 1121, GEOL 1122, GEOL 3541, GEOL 3542, two terms of introductory chemistry or permission of instructor.

GEOL 5131-Economic Mineralogy
An introduction to the origins of industrial and metallic mineral resources and will provide information pertaining to the exploration, discovery and use of such resources. Laboratory work includes identification and evaluation of mineral resources and visits to mines. Graduate students must complete a paper on an assigned topic. Prerequisites: GEOL 1121, GEOL 1122 and GEOL 3541 or permission of instructor.

GEOL 5132-Regional Field Geology
A field expedition involving geological investigation of a major geologic region of North America. Students will be expected to make geological observations through such techniques as mapping, measuring sections, collecting scientific samples, or other standard techniques, then to analyze and interpret their observations or measurements. A scientific journal or notebook will be used by each student to record data and observations. A final report will be required. Students usually will bear tuition, travel, and living expenses in the field. Graduate students will complete an individual term project or special report. Prerequisite: GEOL 1121 or permission of instructor.
GEOL 5140-Vertebrate Paleontology
A study of the morphology, classification and geologic significance of vertebrate fossils. Graduate students will complete an individual term project or special report. Prerequisite: GEOL 1121 and GEOL 1122 or introductory biology or permission of instructor.

GEOL 5141-Invertebrate Paleontology
The morphology, classification and geologic significance of invertebrate fossils. Graduate students will complete an individual term project or special report. Prerequisite: GEOL 1121 and GEOL 1122, introductory biology or approval of instructor.

GEOL 5142-Stratigraphy and Sedimentation
Introduction to the principles and application of stratigraphy and biostratigraphy, and principles of sedimentation. Emphasis is placed on concepts of time, time-rock, rock units, sedimentary facies, guide fossils and fossil range and description of rocks in time and space, their correlation and interpretation. Petrologic interpretation and basic laboratory techniques are also demonstrated. The origin and distribution of sedimentary rocks is examined from initial weathering through erosion and transportation, to environments and mechanisms of deposition. Graduate students will complete an individual term project or special report. Prerequisite: GEOL 1122.

GEOL 5143-Introduction to Micropaleontology
Principles, techniques of preparation and classification of microfossils with emphasis on foraminifera, ostracodes and other animal groups smaller than 200 microns as well as spores and pollen. Graduate students will complete an individual term project or special report. Prerequisites: GEOL 1121 and GEOL 1122, GEOL 5141 or permission of instructor.

GEOL 5221-Geophysics: Resistivity and Refraction
An introduction to electrical resistivity and seismic refraction methods in geophysics. Field collected data will be reduced and interpreted in conjunction with the known geology. Graduate students will complete an individual term project or special report. Prerequisites: MATH 1113 and permission of instructor.

GEOL 5222- Geophysics: Gravity and Magnetics
An introduction to gravity and magnetic methods in geophysics. Magnetic data will be collected in the field. Gravity and magnetic data will be reduced and interpreted in conjunction with the known geology. Graduate students will complete an individual term project or special report. Prerequisites: MATH 1113 and permission of instructor.

GEOL 5223-Geophysics: Reflection
An introduction to seismic reflection methods in geophysics. Field collected data will be reduced and interpreted in conjunction with the known geology. At least one other geophysical method will be utilized to support the reflection data. Graduate students will complete an individual term project or special report. Prerequisites: MATH 1113 and permission of instructor.

GEOL 5230-Earth Science
A systematic study of the earth as a planet, including aspects of its atmosphere, oceans, lithosphere, soils and physiography. Laboratory will emphasize the location and utilization of local, as well as, regional materials for earth science teaching and learning. Graduate students will complete an individual term project or special report. Prerequisite: Permission of instructor.

GEOL 5330-Natural History and Management Issues
This team-taught distance learning course will integrate the geology, biology, and oceanography of the Georgia Coastal Zone, summarizing its evolutionary development, active processes, and current states of human interaction with this dynamic and economically important environment. Graduate students will complete an individual term project or special report. Prerequisite: Permission of instructor.

GEOL 5430-Geological Evolution of the Coastal Plain
A study of the agents of weathering, transportation and deposition of sediments and the development of coastal plain landforms. Includes a study of Mesozoic and Cenozoic stratigraphy and paleontology with special emphasis on the Gulf and Atlantic Coastal Plains. Graduate students will complete an individual term project or special report. Prerequisites: GEOL 1121 and 1122. GEOL 5530 recommended.

GEOL 5440-Structural Geology
A study of geologic structures resulting from rock formation and deformation. Attention will be given to recognition and solution of structural problems. Graduate students will complete an individual term project or special report. Prerequisites: GEOL 1121 and MATH 1113.

GEOL 5530-Geomorphology
A systematic study of landforms and the processes which create and modify them. Graduate students will complete an individual term project or special report. Prerequisite: GEOL 1121 or GEOG 1111.

GEOL 5540-General Oceanography
An integrated approach to the study of oceans with special emphasis on biology, chemistry and geology of ocean basins. Studies will include the ecological, physical, and geological features of ocean basins, as well as, chemical composition of ocean water and oceanic circulation processes. Graduate students must complete an additional term project. Prerequisites: At least one term of introductory biology and two terms of chemistry or permission of instructor.

GEOL 5541-Hydrogeology
A survey of hydrogeology that includes the occurrence, distribution, movement and chemistry of subsurface waters. Emphasizes subsurface hydrology (hydrogeology), but will also include related aspects of surface systems. Major topics covered will include: 1) relationships between precipitation, runoff, and infiltration; 2) porosity and permeability of various earth materials; 3) subsurface movement of water through earth materials; 4) basic chemical characteristics of natural waters; and 5) current water resource issues such as supply, quality, contamination, and remediation. Prerequisite: GEOL 1121 or permission of instructor.

GEOL 5542-Hydrogeochemistry
A survey of the inorganic chemistry and evolution of natural subsurface waters. Covers the basic chemistry of natural waters, as well as, the field and laboratory techniques used for chemical analysis. Analytical and field techniques will be used in hands-on work in the lab and through field sampling projects. Prerequisite: GEOL 5541.

GEOL 5543-Analysis of Aquifer Systems
A survey of quantitative methods in hydrogeology that includes aquifer pumping tests and numerical groundwater modeling. Various quantitative methods used to determine aquifer parameters from
well tests will be examined. Numerical models will be used to
study how aquifer systems respond to changes in hydraulic param-
eters and also to see how contaminants migrate through these sys-
tems. Prerequisite: GEOL 5541.

GEOL 5730-Sea Turtle Internship
This field course will allow students to earn 3 hours credit for re-
search monitoring sea turtle nesting on St. Catherines Island, GA
upon completion of the internship and a follow up course. Stu-
dents will attend 3 distance learning training sessions, reside on
the island for 7 days to observe sea turtle nesting evidence, study
barrier island natural history with field lectures by leading scient-
ists, collect natural history specimens for their classrooms, and
attend a face to face follow up meeting. Graduate students will
complete an individual term project or special report. Prerequi-
site: Permission of instructor.

GEOL 5821-Museum Methods
Practical experience in curation of geological museum specimens.
Techniques include cataloging, preparation, reproduction, exhib-
itng and interpreting of geologic materials. Graduate students will
complete an individual term project or special report. Prerequi-
site: Permission of instructor.

GEOL 5890-Directed Study
Well prepared geology majors may be permitted to carry on inde-
pendent study upon the recommendation of one of the geology/ 
geo\graphy faculty. Prerequisite: Permission of instructor.

GEOL 6140-Geology of Georgia
Designed for teachers of science. Topics included are: origin and
varieties of rocks and minerals, geological subdivisions of Geo-
reria, structural geology of Georgia, weathering and geologic agents
active in this region, geologic history and physiography of Geor-
reria. A field trip across the state to northwest Georgia will be an
integral part of the course. Prerequisite: Graduate standing.

GEOL 6240-Rocks and Minerals
An introduction to the origin, occurrence, classification and use of
the more common minerals and rocks. Crystallography and struc-
tural geochemistry are briefly introduced. Laboratory work con-
ists of the use of practical methods of mineral and rock
identification. One full day field trip. Prerequisites: Four hours of
chemistry and graduate standing.

GEOL 6340-Principles of Geology
Basic principles of physical and historical geology including earth
materials, processes involved in forming and modifying the earth’s
interior, surface, and the origin and development of the earth and
its diverse life forms. Prerequisite: Graduate standing.

GEOL 6440-Environmental Geology
The relationship between man and the geologic environment, in-
cluding flood, landslide, subsidence, earthquake, volcano and
coastal erosion hazards, minerals, water and energy resources,
environmental health, land use planning and environmental impact.
Prerequisite: Graduate standing.

GEOL 6540-Paleontology and Evolution
A systematic discussion of biologic relationships, paleontology
and the complex nature of succeeding generations. Attention will
be given to the subject of ancient life and its development on
earth. Prerequisites: GEOL 1121 and GEOL 1122, or introduc-
tory biology.

German (CLASS)
GRMN 1001-Elementary German I
An introduction to the German language and the culture of the
German-speaking world. Beginning of a survey of basic German
grammar and the development of the four language skills of listen-
ing, speaking, reading and writing German. Some aspects of ev-
everyday life in the German-speaking world will also be introduced.

GRMN 1002-Elementary German II
The second part of an introduction to the German language and the
culture of the German-speaking world. Completion of the survey
of basic German grammar and further development of the four lan-
guage skills of listening, speaking, reading, and writing German.
Aspects of everyday life in the German-speaking world will also
be introduced. Prerequisite: GRMN 1001 or equivalent.

GRMN 2001-Intermediate German I
Building upon communication skills (understanding, speaking,
reading, and writing German) and cultural understanding, devel-
oped at the elementary level. Prerequisites: GRMN 1001 and
GRMN 1002 or equivalent.

GRMN 2002-Intermediate German II
Continued focus on communication skills and cultural understand-
ing. Prerequisite: GRMN 2001 or concurrent enrollment in GRMN
2001 or equivalent.

GRMN 2110-Intermediate Discussion Topics
Guided conversation in German. The emphasis is on developing
conversational skills using vocabulary and grammar structures at
an advanced level. Prerequisites: One course at the 2000 level or
equivalent or permission of instructor.

GRMN 2195-Begin German Conversation in Germany
Learning the basics of German conversation, with simulated and
live situations for practice in the real-life setting of Germany in the
study abroad program. Prerequisites: GRMN 1002 or equivalent
or permission of the instructor and admission to the German Study
Abroad program.

GRMN 2196-Intermediate Grammar and Writing in Germany
GRMN 3090-Selected Topics in German
Study of a topic in German literature, culture, society, thought or
language not included in the regular offering. Continued develop-
ment of all five language competencies (listening, speaking, read-
ing, writing, and culture). May be repeated for credit provided a
new topic is studied. Prerequisite: GRMN 2002.

GRMN 3110-Advanced Discussion Topic
Guided conversation in German. The emphasis is on developing
conversational skills using vocabulary and grammar structures at
an advanced level. Prerequisite: One course at the 2000 level or
equivalent or permission of instructor.

GRMN 3120-German Phonetics
Contrastive analysis of the German and English sound systems
and extensive practice. Prerequisite: GRMN 2001 or equivalent
or permission of the instructor.

GRMN 3130-German Conversation
Vocabulary building and extensive practice of conversational skills
in German through conversational settings. Prerequi-
site: GRMN 2001 or equivalent or permission of instructor.
GRMN 3132-German Grammar Review
Intensive review of grammar with extensive practice in the application of the grammar in communicative situations. Prerequisite: GRMN 2001 or equivalent or permission of instructor.

GRMN 3134-Writing in German
Grammar review, basic instruction in stylistics, and extensive practice in writing both short compositions and longer items. Prerequisite: One course at the 2000 level or equivalent permission of instructor.

GRMN 3195-Intermediate German Conversation in Germany
Extensive practice of the basics of German conversation. Emphasis on intermediate-level skills and some work on advanced situations, with simulated and live situations for practice in the real-life setting of Germany on the study abroad program. Prerequisites: GRMN 2002 or equivalent or permission of instructor and admission to the German Study Abroad program.

GRMN 3210-German Songs
Presentation and discussion of German songs (traditional and popular). Prerequisite: GRMN 2001 or equivalent or permission of instructor.

GRMN 3220-German Poetry
Presentation and discussion of German poetry. Prerequisite: GRMN 2001 or equivalent or permission of instructor.

GRMN 3230-Introduction to Literature
Introduction to the terminology, methods, and goals of literary analysis. Reading of literary texts. Prerequisite: GRMN 2001 or equivalent or permission of instructor.

GRMN 3231-Texts and Media in German
Discussion of a variety of texts presented on different media such as cassettes (songs and radio-broadcasts or radio plays) and video (movies). Prerequisite: GRMN 2001 or equivalent or permission of instructor.

GRMN 3330-Germany Today
A study of the geographic setting and the institutions in the contemporary German-speaking countries. Prerequisite: GRMN 2001 or equivalent or permission of instructor.

GRMN 3395-Contemporary Germany in Germany
A study of the geography, people, and institutions (such as the political system, the schools, religion, etc.) in contemporary Germany. Prerequisites: One German course at the 3000 level or permission of the instructor and admission to the German Study Abroad program.

GRMN 3530-Business German
A career-oriented course designed to introduce the student to the language of business, commerce, and economics. Prerequisite: GRMN 2001 or equivalent or permission of instructor.

GRMN 3535-German Literature in Translation
A study of certain major German authors and some of their best works read in translation. Also includes a study of the authors of these works and the literary periods in which they were written. Prerequisites: GRMN 1001 and GRMN 1002 or permission of the instructor.

GRMN 4330-The German Heritage
A study of various aspects of the German cultural heritage, including German music, art, architecture, literature, and language. Prerequisites: Two German courses at the 3000 level or equivalent or permission of the instructor.

GRMN 4790-Internship in German
Internship in one or more German-speaking countries. Prerequisites: Permission of instructor and department chair.

GRMN 4890-Directed Study in German
Independent study under faculty supervision. Prerequisites: Two German courses at the 3000 level or equivalent or permission of the instructor.

GRMN 5030-Great Authors
A close study of German authors from all periods and their works. Can be repeated with different authors. Prerequisite: Permission of instructor.

GRMN 5090-Selected Topics in German
Study of a topic in German literature, culture, society, thought or language not included in the regular offering. Continued development of all five language competencies (listening, speaking, reading, writing and culture). May be repeated for credit provided a new topic is studied. Prerequisite: GRMN 2002.

GRMN 5195-Advanced German Conversation in Germany
Extensive practice in German conversation for more advanced students with simulated and live situations for practice in the real-life setting of Germany on the study abroad program. Prerequisites: One German course at the 3000 level or equivalent or permission of the instructor and admission to the German Study Abroad program.

GRMN 5196-Advanced German Language Studies in Germany
Advanced study of various aspects of the German language, including grammatical studies, German stylistics, the proper use of the contemporary language, the development of modern German, etc. Prerequisites: Two German courses at the 3000 level or permission of the instructor and admission to the German Study Abroad program.

GRMN 5230-Survey of German Literature I
A survey of the literary movements and the major authors of the German-speaking world from the beginning to the Enlightenment. Prerequisites: Two courses at the 3000 level or permission of instructor.

GRMN 5231-Survey of German Literature II
A survey of the literary movements and the major authors of the German-speaking world from the Enlightenment (ca 1760) to the present. Prerequisites: Two German courses at the 3000-level or equivalent or permission of the instructor.

GRMN 5232-German Prose Works
Reading and discussion of prose texts such as short stories, novels, and novellas. Prerequisite: GRMN 3230 or GRMN 3231 or equivalent or permission of instructor.

GRMN 5233-The German Drama
Selected plays of major German dramatists of the eighteenth, nineteenth, and twentieth centuries with an outline of the development of the German drama. Prerequisites: Two courses at the 3000 level or permission of the instructor.
GRMN 5395-Advanced German Landeskunde in Germany
Study of the geography, people, institutions (such as the political system, schools, religion, society, etc.) at the advanced level in the real-life setting of Germany on the study abroad program. Prerequisites: Two courses at the 3000 level or equivalent or permission of the instructor and admission to the German Study Abroad program.

GRMN 5530-German for the Professions
A career-oriented course designed to familiarize the student with the language of business, commerce, and economics, as well as, additional components on specific professions. Prerequisite: GRMN 3230 or GRMN 3231 or equivalent or permission of instructor.

GRMN 5890-Directed Study in German
Independent study under faculty supervision. Prerequisite: Permission of the instructor.

GRMN 7090-Selected Topics in German

GRMN 7091-Seminar in German
Topics to be selected by the instructor.

GRMN 7130-Problems of Second Language Acquisition in German
An intensive study of the problems German as a second language and effective methods for teaching the language and culture.

GRMN 7131-Advanced Grammar and Composition
Advanced study of German grammar and syntax with emphasis on the active use of the language in both speaking and writing.

GRMN 7330-Contemporary German
An in-depth study of contemporary Germany, including aspects such as the historical background, the political system, the education system, family institutions, etc.

GRMN 7890-Directed Independent Study in German
Independent study under faculty supervision.

Georgia Southern University
GSU 1120-Methods of Learning
Designed to promote academic success, Methods of Learning emphasizes opportunities for students to learn and apply strategies that lead to success in their academic courses, including interpreting, organizing, and synthesizing academic information in texts and lectures; identifying and assessing individual learning styles; setting and achieving academic goals; managing time effectively; taking comprehensive notes; and preparing for tests.

• GSU 1210-University Orientation I
Designed to help first year students understand the purpose of a college education, to learn about college resources and requirements, to explore values and interests, to learn to make decisions and realistic choices, to explore career objectives and programs of study, and to establish supportive relationships with faculty and staff. Required of all new students during their first semester at Georgia Southern.

• GSU 1211-University Orientation II
This course will encompass principles of leadership, characteristics of leaders, and applications of leadership principles. The course will also provide opportunities to examine and develop skills that are essential for leadership effectiveness. Required of all students.

• GSU 2210-Turning Points and Connections
A one-hour course focusing on the connections between major turning points in history and their effects on life, as seen in art, music, philosophy, literature, politics, economics, science, or cultural outlook. Prerequisites: HIST 1112. Required of all students.

GSUH 2121-Career Exploration
This course is designed to provide the student with the opportunity for in-depth career exploration. Within a decision making model, the student will explore self and the world of work and how the two interact. From this framework, students will narrow down career/major choice options using a variety of exercises and resources. Prerequisite: Completion of 30 hours of course work.

Higher Education (COE)
HIED 7131-Student Services in Higher Education
Covers the student services associated with divisions of student affairs in higher education settings. It is designed to trace the development of student services, to understand the philosophy and to explore the issues that face student affairs professionals in higher education settings.

HIED 7132-Contemporary College Student
Examines trends and changes in the characteristics of college students and institutions they attend (cohort changes), research issues related to college impact research (student change) and emerging theories and methodologies that address the consequences of attending college. It is intended to provide a broad introduction to research on students in a broad range of developmental and sociological areas.

HIED 7133-Administration and Leadership in Higher Education Student Services
Introduces student to the administrative aspects of student affairs. It will include an overview of organizational structures, organizational change, personnel issues, leadership, program planning and evaluation, selected legal and ethical issues and basic budget information. It also includes strategies related to professional development.

HIED 7134-Ethical and Professional Issues in Student Services
Designed to inform students in some depth of ethical standards, laws, ordinances and statutes that govern professional behavior. Specific topics and cases explored will include professional practice and ethics involving professional responsibilities, confidentiality and violations. Also addressed will be licensure laws, as well as, parameters of related practice procedures. Prerequisite: HIED 7131.

HIED 7798-Internship I in Higher Education
Provides 300 hours of supervised field experience for students in higher education student services program. The scope and objectives will be determined on an individual basis by the professor, the student and the field supervisor. HIED 7798 will be completed at the first site. Repeatable up to 6 credit hours. Prerequisite: 27 semester hours of course work in the program.

HIED 7799-Internship II in Higher Education
Provides 300 hours of supervised field experience for students in higher education student services program. The scope and objectives will be determined on an individual basis by the professor, the student, and the field supervisor. HIED 7799 will be completed at the second site. Repeatable up to 6 credit hours. Prerequisite: HIED 7798.
HIED 7838-Action Research in Higher Education
Students will apply their knowledge of research skills by preparing and completing a research project related to a practical problem in higher education student services. Ethical and legal guidelines as appropriate for the project are to be followed. Format decisions will be made in consultation with appropriate faculty member. Repeatable up to 6 semester hours. Prerequisites: EDUR 7130, EDUR 8131 and 33 credit hours in the program.

HIED 7890-Directed Individual Study
Permits specialization beyond regular course content through in-depth study of individually selected topics of interest and importance in higher education student services. The study will be directed by the instructor. Repeatable up to 6 credit semester hours. Prerequisites: 12 semester hours of course work in the program.

HIED 7999-Thesis
Empirical and theoretical research conducted on a topic related to Higher Education Student Services directed by the candidate’s thesis advisor. Normally two semesters are required for completion of a thesis in Higher Education Student Services. Repeatable up to 6 credit hours. Prerequisites: EDUR 7130, EDUR 8131, 30 hours course work, and permission of advisor.

History (CLASS)

HIST 1111-World History I: Development of World Civilization
A survey of the major developments in world history from the beginnings of civilization to 1450, establishing the historical context for contemporary global society.

• HIST 1112-World History II: Emergence of Modern Global Community
Addresses the historical context of contemporary global society by tracing developments from the fifteenth century to the present.

• HIST 2110-U.S. A Comprehensive Survey
Surveys the United States from precolonial times to the present with special attention to Georgia. Satisfies the Georgia History and U.S. History requirements.

HIST 2630-Historical Methods
An examination of the methodologies and techniques of historical research and writing. This course is required for history majors and for the social studies section of the Bachelor of Science in Education.

HIST 3030-Selected Topics in History
Topics vary with individual professor.

HIST/AAST/AMST 3130-African American History to 1877
African American history from African beginnings to Reconstruction. This is a study of the thought and actions of people of African ancestry from their origins in precolonial Africa to the conclusion of the Civil War and its aftermath.

HIST/AAST/AMST 3131-African American History Since 1877
African American history from Reconstruction to the present.

HIST 3132-Young Republic, 1788-1848
A survey of U.S. history from the Ratification of the Constitution through the end of the war with Mexico. This course will cover major aspects of American politics, economy, and culture as the country expanded to the Pacific.

HIST/AMST 3133-United States Constitutional History
A survey of United States Constitutional history from its origins to the present including an exploration of the adaptation of the federal system to changing social, economic, and political demands.

HIST/AMST 3134-American Economic History
The changing character of American economic life from colonial times to the modern consumer culture including religious beliefs, economic thought, industrialization, business organization, government-business relations, and social transformation.

HIST 3135-Rise of US to World Power
Studies the history of U.S. foreign relations from the initial breach with Britain in the 1770s to the aftermath of the Spanish-American War at the end of the nineteenth century.

HIST/INTS 3136-US as a Global Power
Studies the history of U.S. foreign relations from the turn of the twentieth century to the present.

HIST/AMST/WGST 3137-History of Women in the United States
Examines the experiences of women in the United States from colonial times to the present within the overall framework of American history. Explores the impact of major historical events on women: the contributions of women to the social, political, cultural and economic development of the US; and the changing roles of women within the family and the workplace.

HIST/AMST 3138-American Society and Ideas
Examines fads, manners and morals, institutional life, the impact of a sense of mission, slavery, Darwinism and Freud on the American mind and character.

HIST/RELS 3139-History of Religion in the US
A survey and analysis of the major religious patterns in the United States with special attention given to belief systems, institutional forms, social composition, and historical development.

HIST/AMST 3230-American Military History
Studies military strategy, tactics, technology, and main features of American conflicts from colonial times to this century.

HIST 3330-History of Greece
A survey of ancient Greek history from the Minoan and Mycenaean civilizations to Alexander the Great.

HIST 3331-History of Rome
A survey of Roman history and society from the beginnings to the emperor Constantine.

HIST 3332-Late Antiquity
A survey of the Mediterranean world from the later Roman empire to the new civilizations of Europe, Byzantium, and Islam.

HIST 3333-The Middle Ages
A survey of the development of European civilization and relations between Christendom and Islam from the decline of the Roman Empire to the Renaissance.

HIST 3336-19th Century Europe
Examines the main political, economic, social, and cultural developments of the nineteenth century, including industrialization, imperialism, mass politics, revolution, and nationalism.
HIST 3337-Europe, 1914-1945
A study of the role of the two world wars and the interwar period in shaping Europe and the modern international environment.

HIST 3338-Contemporary Europe
An examination of the European experience since the end of World War II. Emphasizes the political, economic, social, cultural, and intellectual change and continuity in the years 1945 to the present.

HIST 3430-History of England to 1603
A survey of English history from the Roman occupation to the death of Elizabeth I.

HIST 3431-England since 1603
A survey of English history from the accession of King James I to the present.

HIST 3432-Germany: 1648-Present
A survey of modern German history, outlining the origins of Prussia, Bismarck’s statecraft, the rise and fall of Hitler’s Third Reich, and post-World War II Germany.

HIST/WGST 3433-Women in Modern Europe
A comparative overview of women’s experience in Europe from the French Revolution to the present, including legal and political rights, participation in social movements, work, and family.

HIST 3434-Modern European Thought
An examination of significant figures and developments in modern European intellectual history from the eighteenth century Enlightenment to Post-Structuralism.

HIST 3435-The Scientific Revolution
A study of scientific change from Copernicus to Newton.

HIST/INTS/AAST 3530-History of Africa to 1800
Traces the development of significant social, economic and political institutions within precolonial Africa.

HIST/INTS/AAST 3531-History of Africa since 1800
Traces significant developments in precolonial, colonial and post colonial African history. These include trade and the origins of the colonial state as well as African encounters with colonialism.

HIST/INTS 3532-The Modern Middle East
A survey of the major developments in the Middle East since World War I.

HIST/INTS 3533-Modern South Asia
A survey of the major developments in India, Pakistan, and Bangladesh since the nineteenth century.

HIST/INTS 3534-Modern Southeast Asia
Common themes of the region from 1600, including the impact of the West, the nationalist response, and the post-WW II rise of a modern community of nations.

HIST/INTS 3535-Islamic Civilization
A survey of the diffusion of Islam across the world with special attention paid to the ideological factors which promote similarities among Muslims in different cultures and to the cultural features which promote differences among them.

HIST 3536-Russia to 1917
A survey of the history of Russia from its Kievian origins to the Revolution of 1917.

HIST/INTS/LAST 3537-Colonial Latin America
A political, social, and economic survey of Latin America from its pre-Columbia era to its struggles for independence.

HIST/INTS/LAST 3538-Modern Latin America
A political, social, and economic survey of Latin America from independence to the present.

HIST 4130-Georgia History
Examines the life stories of representative individuals in American history including examination of different types of biographical writing.

HIST 4132-Recent America: US Since 1945
Surveys the history of the United States from World War II to the present, including social, political, and economic developments.

HIST/INTS 4133-US Diplomacy: The Cold War
Examines the history of U.S. foreign relations from the aftermath of World War II to the collapse of the Soviet Union.

HIST/RELS 4330-The Early Church
A survey of the history of Christianity from its beginnings to the fifth century.

HIST/RELS 4331-Heresy and Dissent in Western Religious History
A careful study of religious minorities and heretics in western history with special emphasis on belief systems, historical continuity, intolerance and persecution and the unique contributions of minorities to the context in which they exist.

HIST 4332-“Woman Question” in Europe
An intellectual history course focusing on the debate over women’s nature, women’s roles, and the notion of “woman.” Although the “woman question” has a history spanning the entire modern period, this course will examine the period 1848-1950 when many of the classic texts appeared.

HIST 4333-Colonial Experience I: Europe
Examines the causes, course and consequences of the “New Imperialism” of Europe in the years 1875 to 1945 and the subsequent process of decolonization following the end of World War II. Emphasis will be placed on the historiographical treatment of the causes of European imperialism, the debate over its consequences, and the relationship between Europe and its former dependencies.

HIST 4334-The Colonial Experience: Responses
The responses of colonized peoples to European Imperialism, especially ideas, organizations, and struggles that still influence their new nations.

HIST/RELS 4336-Science and Religion
Examines the interactions between science and religion from ancient times to the present.
HIST 4530-Revelation and Revolution
Explores issues of gender, spirituality, and power within the context of African history.

HIST 4531-World War I
An examination of the background, origins, diplomacy, strategy, critical turning points, conclusion, and meaning of World War I.

HIST 4532-Destruction of Slavery
Focuses on the end of plantation slavery in the nineteenth century Atlantic World. The geographic concentration and topics covered will vary according to the focus of the instructor.

HIST 4533-The History of Flight
A study of the development of aeronautics from the earliest ideas through the space age.

HIST 4534-Dinosaurs and Extinctions
The history of (1) the meaning of fossils, meteorites, comets, and asteroids; (2) the discovery of dinosaurs and other extinct animals; and (3) the various extinction theories.

HIST 4630-Capstone Seminar in History
A senior seminar for secondary education majors designed to provide a comprehensive study of U.S. history within a global context from the fifteenth century to the present. Prerequisites: Senior status or permission of instructor.

HIST 4690-Senior Thesis
Readings in the literature and philosophy of history under the direction of a faculty member with the goal of completing a senior thesis. Admission only by permission of the department.

HIST 5130-American Indian History
A survey of the history of American Indians from pre-contact to the present, supplemented by case studies from a number of regions.

HIST 5131-American Frontier
A comparison of American frontier experiences including fur trading, mining, cattle ranching, and agriculture.

HIST/AMST 5132-Colonial America
An intensive study of themes in Colonial American history (to 1763), including the origins of English colonization, the development of slavery, race and gender relations, and spirituality.

HIST/AMST 5133-Revolutionary America
An intensive study of themes in Revolutionary American history (from 1763 to approximately 1790), including the growing rift between Britain and its colonies, the roles of women and African-Americans, and the origins of American identity.

HIST/AMST 5134-Civil War and Reconstruction
An examination of the sectional polarization of the 1850’s, the impact of war on the southern and northern home fronts, and the trauma of reconstructing the Union.

HIST/AMST 5135-Emergence of Modern America
An examination of the enormous changes in technology, society, government, and foreign policy America experienced during the decades immediately preceding and following the turn of the century.

HIST/AMST 5137-The Antebellum South
The social, intellectual, cultural, economic, and political history of the American South to 1861 with an emphasis on Georgia’s role.

HIST/AMST 5138-The New South
The social, intellectual, cultural, economic, and political history of the post-Civil War South with an emphasis on Georgia’s role.

HIST 5230-Advertising and Culture
Surveys the business of selling consumer goods from the nineteenth century to the present with analysis of how advertising became a cornerstone of the consumer culture and how ads historically have communicated images of the American dream.

HIST 5231-Legal History of US
Examines United States legal history from colonization to modern times, looking at such issues as the role of the law in the economy, society, and growth of the modern legal order.

HIST 5232-Work, Family and Community
An examination of the history of American labor and its relationship to the institutions of family and community since industrialization.

HIST/AAST 5233-The American City
An examination of American urban development from the colonial period to the present with particular attention paid to migration, architecture, technology, politics, transportation, and urban culture in the late nineteenth and twentieth centuries.

HIST/INTS/LAST 5330-Modern Spain and Portugal
A political, social, and economic survey of Spain and Portugal from 1700 to the present.

HIST 5331-The Age of Chivalry
Examines the society and culture of Europe during the High Middle Ages.

HIST/RELS 5332-Age of the Reformation
The study of the history of Europe in the sixteenth and early seventeenth centuries with special emphasis on the diversity of the great religious upheaval and its interrelationship with other aspects of history.

HIST 5333-War and Society
An analysis of how warfare molds society and is in turn molded by it—from the days of the matchlock to the age of the guided missile.

HIST/RELS 5334-Major Themes in Western Religious History
A thematic approach to the history of religion in the West. Such themes as church-state relations, the quest for authority, the development of institutions, the presence of fragmentation, and the attempts at unity will be emphasized.

HIST 5335-World War II
The Second World War from its origins to its consequences. The military campaigns are covered, but there is also emphasis on the personalities, the technology, the national policies, and the effect of the war on the home fronts.

HIST 5336-Revolutionary France
An examination of the causes, course, and consequences of the French Revolutionary and Napoleonic Eras.

HIST 5337-France: Empire to Republic
An investigation of continuity and change in the political, social, economic, cultural and intellectual currents of nineteenth-century France.
HIST 5338—Twentieth-Century France
An examination of the political, social, economic, cultural, and intellectual changes which have shaped the French experience in the twentieth century.

HIST 5339—Modern Britain
A detailed study of British history from the Reform Act of 1867 to the present.

HIST 5530—20th Century Russia
A survey of the history of Russia in the twentieth century.

HIST/INTS 5531—Modern Japan
Japan through the Tokugawa period to its nineteenth century emergence from isolation and its growth as a world power with emphasis on traditional culture, industrialization, and post-WWII society.

HIST/INTS 5532—Modern China
Cultural change and continuities of China from 1600 to its response to the West, the rise of the Peoples’ Republic, and the Post-Mao present.

HIST/INTS 5533—Economic Rivals: US-EC-Japan
Contrasts the historical development of business in the U.S., European Community, and Japan from preindustrial times to the present, emphasizing how culture, economics, and politics have shaped business growth and international trade, creating rival capitalists.

HIST 7630—The Historian’s Craft
This seminar introduces graduate students to professional aspects of teaching and pursuing research in history, including historiography, preparing a curriculum vitae, fundamentals of classroom teaching, and tutoring.

HIST 7631—Readings in American History
A reading colloquium in which topics will vary with individual professor.

HIST 7632—Seminar in American History
Topics vary with individual professor.

HIST 7633—Readings in European History
A reading colloquium in which topics will vary with individual professor.

HIST 7635—Readings in Non-Western History
A reading colloquium in which topics will vary with individual professor.

HIST 7636—Seminar in Non-Western History
Topics vary with individual professor.

HIST 7639—Studies in Georgia History
Engages a variety of selected topics in Georgia History.

HIST 7830—Historical Writing
Techniques of writing and editing manuscripts based on original historical research.

HIST 7831—Independent Study in History
Topics vary with professor.

HIST 7999—Thesis
Planned research and writing directed by student’s thesis advisor.

Health (CHPS)

• HLTH 1520—Healthful Living
Introduces students to fundamental concepts associated with healthful living throughout the life span in modern society. Course content focuses upon the promotion of health and wellness within individuals, families and communities through an understanding of healthful living, development of healthy lifestyles and avoiding or overcoming harmful habits.

• HLTH 2120—Safety Principles and First Aid Techniques
Enables students to learn to function more effectively in personal, social and vocational roles by developing expertise that will enable them to reduce to a minimum the risk of accident involvement. Special emphasis is placed on the concepts of accident causation, counter measures and how to respond to a wide variety of injury and sudden illness emergencies. Students satisfying American Red Cross standards will receive certification in Community First Aid and Safety/Community CPR.

• HLTH 2130—Foundations of Health Education
Introduces students to the field of health education. The historical origins of health education, selected learning theories, emerging issues and trends in the field and professional responsibilities of health educators in various practice settings will be examined.

• HLTH 2510—Medical Terminology
Equips the student with the basic skills needed to read, understand and interpret medical terms common to health related issues and tasks.

• HLTH 2520—Peer Health Education Training
Develops the skills necessary to become an effective peer health educator. Content will include a review of basic health knowledge, development of program planning and presentation skills. At the completion of the course, the students will be able to develop, coordinate, and implement health education workshops, promote health related activities and execute effective media and public relations strategies for health education.

• HLTH 3130—Substance Use and Abuse
Explores legal and illegal drug use in modern society. Issues related to the social, cultural, political and economic impact of drug use will be discussed. The emphasis in the course will be on prevention, treatment and effective education techniques for various practice settings and target populations.

• HLTH 3131—Health and Disease
Includes a discussion of special topics covering the basic principles of the disease process and pathophysiological functioning in human organisms. Included will be the study of etiology, signs and symptoms, diagnosis, treatment and prevention of diseases and conditions of the following systems: cardiovascular, urinary, reproductive, digestive, circulatory, nervous and endocrine.

• HLTH 3132—Health Care Systems
Covers the background and development of administrative settings for health care delivery in the United States. Explores the dynamics, trends and issues evolving from current health and medical care programs and practices with an emphasis on the ramifications of these various settings and trends with regard to health promotion and community health. Prerequisite: HLTH 2130 or permission of instructor.
HLTH 3133-Health Promotion Program Planning
Provides the student with the theory and practical applications of planning, developing, implementing and evaluating health promotion programs in a variety of settings. The focus will be on a global approach to planning with emphasis on the worksite, hospital and the community as settings for health promotion programming. Prerequisite: HLTH 2130 or permission of instructor.

HLTH 3134-Research Methods and Evaluation
Introduces the student to research methods used in health education and promotion. Examines the rationale and procedure to evaluate health education/promotion programs. Focuses on several topics including: research design, methods of program evaluation, planning research and evaluation, the politics and ethics of evaluation, measurement, sampling logistics, data analysis and the development of a student project. Prerequisites: HLTH 2130 and HLTH 3133.

HLTH 3230-Community Health
Exposes the student to concepts, theories, terms, models, resources, people and experiences which are related to community health issues and programs with a focus on the role of health educators in various community health settings. An examination of affiliations, functions, responsibilities, skills and networks used by community health educators will be included. Prerequisite: HLTH 2130, HLTH 3131 or permission of instructor.

HLTH 3231-Epidemiology and Vital Statistics
Introduces the student to the principles and practice of epidemiology and vital statistics. Students will be exposed to the historical development of epidemiology, concepts of causality, definitions of health and disease and sources of community health data. Current principles and practices in the cause, prevention and control of diseases in various community settings will be emphasized. Prerequisite: HLTH 2130, HLTH 3131 or permission of instructor.

HLTH 3330-Theories of Health Behavior Change
Introduces the student to the learning and behavioral science theories that provide a framework for the practice of health education/promotion. An application of behavioral science theories for planning and implementing health promotion/education programs for individuals, groups, families and communities will be included. Prerequisite: HLTH 2130, HLTH 3133 or permission of instructor.

HLTH 3331-Stress Theory and Management in Health Promotion
Explores issues related to the etiology of stress and stressors with emphasis on environmental, organizational, interpersonal and individual patterns of stress in various health promotion settings. Competency in the active management of stress and mobilizing support in health settings will be evaluated. Prerequisite: HLTH 2130 or permission of instructor.

HLTH 3430-Sexuality Education
Explores contemporary issues in human sexuality and prepares future health professionals to conduct sexuality education with diverse populations in a variety of settings (i.e., school, community, or worksite). Content is intended to help students increase their knowledge of sexuality, improve their ability to educate about and promote sexual health and develop skills to increase their comfort level in discussing human sexuality.

HLTH 3431-Health Promotion Concepts and Applications
Examines the physical aspect of wellness including fundamental fitness, nutrition concepts and selected disease topics. Emphasis will be on the benefits of exercise, fitness assessment and proper nutrition as they relate to the school health and physical education. Prerequisite: HLTH 1520, KINS 3131 or permission of instructor.

HLTH 3530-Health and Physical Education for the Early Childhood Teacher
Develops the elementary classroom teacher's ability to organize and implement a developmentally appropriate health and physical education program for students. Emphasis will be placed upon teaching strategies and methodologies. Prerequisite: Admission to Teacher Education program.

HLTH 3531-Consumer Health
Prepares individuals to make intelligent decisions regarding the purchasing and use of health products and services that will have a direct affect on their health. Allows students to explore the relationships among consumerism, health and education. Students will investigate consumerism, marketing and advertising as foundational aspects of consumer health. In addition, students will survey a variety of health related products and services to determine the implications and consequences of their use.

HLTH 4099-Selected Topics in Health Science
Provides the student with in-depth study of selected topics in health science. Prerequisite: Permission of instructor.

HLTH 4230-Maternal and Child Health
Reviews the historical and contemporary maternal and child health trends and issues. The application of health behavior and education theories to understanding the health status of women and their children will be central to the course. Particular emphasis will be placed on promotion and education efforts designed to improve the health, well-being and quality of life for women and children in the United States. Prerequisite: HLTH 3230 or permission of instructor.

HLTH 4231-Health Aspects of Aging
Examines the aging process from a health education perspective. Students will become acquainted with the process of and problems associated with aging in order to effectively manage this important public health issue. Knowledge and understanding of biological, psychological and sociological aspects of aging as related to health and wellness also will be addressed. Prerequisite: HLTH 3230 or permission of instructor.

HLTH 4330-Promotional Strategies for Health Programs
Explores the application of social marketing and communication theory to the development of strategies to enhance health education and promotion programs. Prerequisites: HLTH 2130 and HLTH 3133.

HLTH 4331-Individual and Group Strategies for Health Behavior Change
Explores techniques and practices for improving personal communication effectiveness with both individuals and groups. An overview of the literature on group dynamics and self-directed health behavior change will be provided, focusing on skills for working with individuals and for leading and facilitating groups. Prerequisites: HLTH 2130 and HLTH 3330.
HLTH 4618-Senior Seminar in Community Health
Provides senior level community health majors with a colloquium in which to discuss current issues and topics, with a focus on professional ethics, professional employment opportunities, internships, development and growth and current research themes within the profession. Should be taken 1-2 semesters prior to HLTH 4798. Prerequisite: Senior level Community Health major status.

HLTH 4619-Senior Seminar in Health Behavior
Provides senior level Health Behavior major students with a colloquium in which to discuss current issues and topics, with a focus on professional ethics, professional employment opportunities, internships, development and growth and current research themes within the profession. Should be taken 1-2 semesters prior to HLTH 4799. Includes preparation for the internship experience. Prerequisite: Senior level Health Behavior major status.

HLTH 4798-Internship in Community Health
Provides the senior level Community Health major with a practical experience in an appropriate health setting. Students must complete all course work in the Community Health major prior to the internship. Prerequisite: HLTH 4618.

HLTH 4799-Internship in Health Behavior
Provides the senior level Health Behavior major student with a practical experience in an appropriate health setting. Students must complete all course work in the Health Behavior major prior to the internship. Prerequisite: HLTH 4619.

HLTH 4899-Directed Individual Study
Provides the student with the opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

HLTH 6130-Research Methods in Health Science
Introduces students to research methods in health science. Development and presentation of practicum and research proposals will be the focus of the course. Additional emphasis will be placed on writing skills in research and grant applications. Prerequisite: Undergraduate course in research methods or permission of instructor.

HLTH 6131-Biostatistics
Examines statistics in public health and related health sciences, including sampling, hypotheses testing, confidence intervals, categorical data analysis, regression and correlation. Emphasis will be on health data analysis applications with computer software. Prerequisite: Undergraduate course in statistics or permission of instructor.

HLTH 7099-Selected Topics in Health Science
Provides the student with the opportunity to conduct an in-depth study of selected topics in health science. Particular attention will be given to the critical evaluation and presentation of research. Prerequisite: Permission of instructor.

HLTH 7230-Health Behavior Theory
Selected social, psychological, and behavioral theories and their application to health promotion, disease prevention, adult learning, decision-making and other areas which directly influence positive health behaviors across individual, group and community levels. Special focus will be placed on the application of theories and models to practice. Prerequisite: Undergraduate course in introductory public health concepts and theory or permission of instructor.

HLTH 7231-Epidemiology
Diseases of the human body, as well as, terms, concepts and principles of epidemiology are examined in order to explain the occurrence, distribution and causative factors of diseases in human populations. Prerequisite: Undergraduate course in quantitative methods or statistics or permission of instructor.

HLTH 7232-Health Promotion Planning and Evaluation
Introduces the student to the theory and application of planning and evaluation principles. Planning and evaluation skills will be developed that can be utilized in a variety of health-related settings. Prerequisite: Undergraduate course in health promotion planning and evaluation or permission of instructor.

HLTH 7233-Environmental Health
Survey of specific environmental conditions and factors that contribute to the development of health problems in communities. Health effects, intervention strategies and control programs for community environmental health protection are discussed.

HLTH 7234-Community Health Analysis
Advanced concepts in the purpose and methods of community health organization, social action, organizational development, policy influence, capacity building, community diagnosis (needs assessment), social networking and coalition formation to bring about health behavior change and improved quality of life. Special focus on the application of methods presented to develop and enhance community health education intervention efforts. Prerequisites: Undergraduate course in health promotion planning and evaluation, community health or permission of instructor.

HLTH 7235-Community Health Education Methods
Advanced concepts in community health education for health improvement across multiple organizational levels in communities. Theory driven educational program development with special focus on reaching multi-cultural target groups. Prerequisite: Undergraduate courses in health planning and evaluation, community health, health behavior theory or permission of instructor.

HLTH 7236-Social Marketing and Health Communications
Provides the student with an in-depth study of theory driven approaches to the application of social marketing and health communication to the development of health education and promotion programs. Prerequisite: Undergraduate course in marketing or permission of instructor.

HLTH 7237-Rural Community Health Issues
A study of social, economic, political and cultural influences that impact the health of individuals and families in rural communities. Designed for health professionals, this course focuses on improving health status and developing culturally appropriate and effective interventions and service in rural settings.

HLTH 7330-Health Services Administration
Examines the structure and functioning of the health care delivery system. Health care organizational components focused upon: hospitals, long-term care, ambulatory care, managed care, private and public insurance, public health, integrated delivery systems and other health care providers. Reviews principles of strategic management applied to health care organizations.
HLTH 7331-Health Care Financing
Provides the student with an understanding of payment systems for hospitals, long-term care organizations, integrated delivery systems, ambulatory care and other health care providers. Specific health care financing topics include: third party payment reimbursement system for private and public insurers, capitation, legislated cost containment strategies (DRGs and PPSs), medical payment incentives, risk assessment and health reform initiatives. Prerequisite: Undergraduate course in finance or permission of instructor.

HLTH 7332-Health Policy, Issues and Ethics
Prepares students to make critical decisions in regards to health care policy and biomedical ethics. Includes exploration of basic economic, political and social determinants of health policy. Substantial legal topics covered include the balance between individual rights and public health initiatives, confidentiality, medical malpractice and informed consent, medical directives and living wills, legal rights of access to health care and health care reform. Methods of implementing change through policy making and the legislative process will be presented.

HLTH 7333-Strategies for Managed Care
Prepares students to function and make sound managerial decisions in a health care system that is shaped by managed care. The role of health care administrators in the application of economic principles in implementation of competitive managed health care programs is discussed. Critical issues pertinent to managed care that will be covered include: monitoring and analyzing medical practice patterns, installation of rigorous utilization management components, designation of Primary Care Physicians (PCPs), catastrophic case managers, establishment of quality assurance programs and patient channeling. Managed care case studies are examined in light of benchmarks for corporate policy, assessments of program options, strategies for communication and guidelines for evaluation. Prerequisite: Graduate level course in Economics.

HLTH 7334-Long Term Care Administration
Prepares students in the fundamentals of long term care administration. Organization and administration of long term delivery system with emphasis on nursing home administration, home health programs and hospice management will be discussed. Other topics to be covered include organization and management of interagency organizations, personnel and residential care facilities and institutions for other populations needing long term specialty treatment. Emphasis is placed upon personal and professional skills necessary to provide a range of services and quality care in these environments.

HLTH 7760-Practicum in Community Health Education
Permits the student to receive practical experience in a selected health related setting. Prerequisite: Permission of Graduate Program Director.

HLTH 7769-Managerial Residency in Health Services Administration
Permits the student to receive practical experience in selected health related settings. Prerequisite: Permission of the Graduate Program Director.

HLTH 7899-Directed Individual Study
Provides the student with an opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

HLTH 7999-Thesis
Requires the completion of an independent research project in the preferred field requiring the defense of the design, methods, analysis and interpretation of the data. Prerequisite: Permission of Graduate Program Director.

HLTH 8430-Educational Strategies for Chemical Dependency
Emphasizes educational strategies and techniques of teaching material related to chemical dependency. Techniques of presenting instruction will be related to precursors of abuse, physiological and psychological effects and rehabilitation methods and costs to society. Prerequisite: Undergraduate course in drug use and abuse or permission of instructor.

HLTH 8431-Health and Human Sexuality for Educators
Prepares current and future sexuality educators for implementing sexuality education programs in various settings, including schools, colleges and universities and community programs. Prerequisite: Undergraduate course in sexuality or permission of instructor.

Hotel and Restaurant Management (CHPS)

HNRM 2324-Introduction to the Hotel and Restaurant Industry
An introduction to the history of services management, the organizational forms and professional opportunities in the hospitality industry.

HNRM 2334-Hospitality Accounting and Finance
The practice of managerial accounting and financial management in hotels, restaurants and resorts. Prerequisites: ACCT 2030, CISM 2130, HNRM 2324 or permission of instructor.

HNRM 3324-Foodservice Theory
Food service and menu planning in commercial settings are studied. Emphasis is placed on forecasting, procuring, storing, producing, serving food, standardized recipes, writing specifications and utilizing computers for food service. Corequisite: HNRM 3335. Prerequisite: HNRM 2334, NTFS 2534 or permission of instructor.

HNRM 3334-Hospitality Layout and Design
Provides an introduction to all the phases in the planning and execution of a hotel or restaurant design. Emphasis is placed on pre-planning stage of design development, blueprint information, installation factors, fire code regulations, environmental controls, and facility systems and maintenance. Prerequisite: HNRM 3336 or permission of instructor.

HNRM 3335-Quantity Food Production
Food science theories and principles are applied in a functioning commercial food production laboratory. Foodservice production skills and techniques are developed in this course. Application of sanitation regulations are emphasized. Prerequisite: HNRM 2334, NTFS 2534 or permission of instructor. Corequisite: HNRM 3324.

HNRM 3336-Hotel Operations
Focuses on four major lodging management components: service management, operations management, developing leadership potential and employee productivity. Prerequisites: ACCT 2030 and HNRM 2324 or permission of instructor.

HNRM 3337-The Marketing of Hospitality Services
The application of marketing concepts, principles and practices in the hospitality industry. Prerequisite: MKTG 3131, CISM 2130, STAT 2231; or permission of the instructor.
HNRM 3338-Human Resources for the Hospitality Industry
Examines employment laws, planning and staffing in the hospitality industry. Prerequisite: HNRM 3336 or permission of instructor.

HNRM 3339-Catering and Beverage Operations
The application of small business management principles to quantity food preparation for special events. Principles of planning, production, service, presentation and evaluation of catering activities are emphasized. Prerequisite: HNRM 3234, HTFS 2534 or permission of instructor.

HNRM 4324-Food and Beverage Operations
Emphasis is placed on strategic planning, the budgetary process, productivity, purchasing and the use of technological advances affecting profitability and customer satisfaction in a foodservice facility. Prerequisite: HNRM 3234, HNRM 3335, HNRM 3337 or permission of instructor. Corequisite: HNRM 4324.

HNRM 4335-Restaurant Management
Actively managing a restaurant is the focus of this course. Activities include employee supervision, food procurement, service, reservations and inventory control. Prerequisite: HNRM 3324, HNRM 3335, HNRM 3337 or permission of instructor. Corequisite: HNRM 4334.

HNRM 4336-Hospitality Issues and Perspectives
The study of organizations, strategic planning and implementation, leadership and decision processes in the hospitality industry. Prerequisite: HNRM 3324, HNRM 3336, HNRM 3337 or permission of instructor.

HNRM 4790-HNRM Internship
Supervised work-study program in a hotel, restaurant or resort. Students are expected to interview for position in facilities which are approved by the internships director. Forty hours weekly. Prerequisites: Attendance at pre-internship meeting with the Internship Director, permission of Internship Director and Internship Site Supervisor.

Humanities (CLASS)

• HUMN 2321-Humanities I
A historically-organized interdisciplinary approach to the fine and performing arts from antiquity to ca. 1600. Team taught large group lectures and small group discussions. Students are expected to enroll in both HUMN 2321 and HUMN 2322 to fulfill Area C requirement of the Core. Prerequisite: Completion of or concurrent enrollment in ENGL 1101.

• HUMN 2322-Humanities II
A historically-organized interdisciplinary approach to the fine and performing arts from ca. 1600 to the present. Team taught large group lectures and small group discussions. Students are expected to enroll in both HUMN 2321 and HUMN 2322 to fulfill Area C requirement of the Core. Prerequisite: Completion of or concurrent enrollment in ENGL 1101.

• HUMN 2433-Classicism
Explores classicism as both a philosophical approach and an aesthetic style in art, rhetoric, literature, architecture, and music.

• HUMN 2434-Myth in Arts and Humanities
Explores selected myths and their treatments in art, rhetoric, literature, theater, and music.

Interior Design (CHPS)

INDS 2430-Design Appreciation
A general introduction to the principles and elements of design as they relate to the built environment. Discussion and analysis of design theory, design styles, components and materials, and spatial relationships are included.

INDS 2434-Interior Design Graphics
An introduction to the basic concepts, skills, and graphics used to represent interior design applications. Design projects will include floor and building plans, sketching, blueprint reading, perspectives and other techniques.

INDS 2435-Design Studio I
Introductory space planning and programming. Fundamental executions of micro-space (800-1,200sf.) design problems with refinement of skills in presentation, including measured and freehand perspectives, and renderings. Prerequisites: ART 1131, ART 1231, INDS 2430 and a grade of C or better in INDS 2434 required.

INDS 2436-Interior Materials and Systems
Selection and application of materials and finishes in the design of components of the built environment. Introduction of cost estimations and specifications. Introduction to building technology with an emphasis on developing an awareness of buildings and their systems. Research of resources and communication with labor sources will be incorporated. Prerequisites: INDS 2430 and INDS 2434.

INDS 3424-Decorative Accessories
Study of historic through contemporary accessories in both a residential and non-residential context. Application of design principles and elements in selection and arrangement of accessories within the built environment. Prerequisite: INDS 2435, FMAD 3238 or by permission of instructor.

INDS 3431-History of Interiors I
Survey of historic development of architectural styles, interiors, and their furnishings related to major cultures from the prehistoric period through the nineteenth century. Prerequisite: ART 2531, ART 2532 or permission of instructor.

INDS 3432-History of Interiors II
Survey of the significant developments in the design of interiors and furniture of Europe and America in the twentieth century. Emphasis on interior architecture, furniture styles, interior designers, industrial designers, architects, and accessories of the contemporary movement. Prerequisites: ART 2531, ART 2532 and INDS 3431.

INDS 3434-Lighting
The principles of lighting design and the impact on interior space are explored through an analysis of environmental constraints, calculations, economics, design theory, technical and aesthetic components. Prerequisite: INDS 3435.

INDS 3435-Design Studio II
The design planning process as it applies to the moderate scale (1,200-5,000 sq. ft.) interior environment. Intermediate projects utilizing design philosophy and concept development, space planning and design development to include furniture, finish and interior architectural materials, building codes, and diverse populations. Area of emphasis is residential. Prerequisites: INDS 2436, ART 1232, and a grade of C or better in INDS 2435.
INDS 3436-Design Studio III
The design planning process as it applies to the complex large scale (5,000-10,000 s. f.) interior environment. Complex projects utilizing design philosophy and concept development, space planning and design development to include furniture, finish and interior architectural materials, building codes, and diverse populations. Areas of emphasis include hospitality, multi-residential, healthcare, and commercial. Prerequisites: FMAD 3238, TCGT 1531, TBCC 3121 and a grade of C or better in INDS 3435.

INDS 3438-Professional Practices I
A study of the professional practice of interior design. Basic business principles, professional organizations, client relationships, communication techniques, specification writing, estimating, internship preparation and portfolio development will be addressed. Prerequisites: INDS 2436 and INDS 3435.

INDS 4434-Professional Practices II
Project management, contract administration, specification writing and professional ethics will be the focus of this advanced level of business procedures and practices. Design issues of the global marketplace and international protocol will be explored. Prerequisites: INDS 3436 and INDS 4790.

INDS 4435-Design Studio IV
The design planning process as it applies to the complex large scale (15,000+ s. f.) interior environment. Complex projects utilizing design philosophy and concept development, space planning and design development to include furniture, finish and interior architectural materials, building codes, and diverse populations. Areas of emphasis include commercial offices including systems, hospitality, healthcare, and adaptive reuse. Prerequisites: INDS 3432, INDS 3434, INDS 3438, INDS 4790 and a grade of C or better in INDS 3436 required.

INDS 4436-Design Studio V
A capstone course for the interior design student that will provide an advanced integrative design/research experience. Projects are complex, specific design situations that will be based on individual student areas of interest. Prerequisite: INDS 4435. Corequisite: INDS 4616.

INDS 4616-Interior Design Seminar
A senior level seminar course for the interior design student which explores common design issues and components relative to the execution of a complex design project. Prerequisite: INDS 4435. Corequisite: INDS 4436.

INDS 4790-Interior Design Practicum
Supervised work-study program with selected organizations which perform professional services related to the field of interior design. Practicum will serve as an educational bridge between the junior level and the senior level of design studies. Prerequisites: INDS 3436 and INDS 3438.

International Studies (Interdisciplinary)

INTS 2130-Introduction to International Studies
Introductory course intended to provide students with a set of intellectual tools to identify and address the most pressing contemporary global events which are making headlines throughout the world today. In doing so, this course will introduce the concepts of “global” issues, the study of conflict from a regional/cultural perspective, and the study of contemporary events using a “level of analysis” perspective.

INTS/POLS 2132-Politics of Ethnicity
See POLS 2132 for course description.

INTS 3130-Contemporary World Cultures
Survey and analysis of contemporary world cultures, in which selected cultural features, such as religion, political institutions, and interpersonal communications are examined across applicable cultures. Prerequisite: INTS 2130 is recommended.

INTS/POLS 3132-Asian Politics
See POLS 3132 for course description.

INTS/POLS 3134-Middle Eastern Politics
See POLS 3134 for course description.

INTS/HIST 3136-US as a Global Power
See HIST 3136 for course description.

INTS 3230-Global Issues
Study of selected global issues and problems facing all nations, states and peoples.

INTS 3232-Psychology of Gender
Examines biological and environmental determinants of gender, as well as, the role of gender in cognitive functioning, personality, physical and mental health, interpersonal relationships, and work life. Prerequisites: PSYC 1101.

INTS/POLS 3236-International Relations
See POLS 3235 for course description.

INTS/POLS 3239-Human Rights in International Relations
See POLS 3239 for course description.

INTS/PRCA 3333-International Public Relations
See PRCA 3333 for course description.

INTS/BRCT 3336-International Media Systems
See BRCT 3336 for course description.

INTS/AAST/HIST 3530-History of Africa to 1800
See HIST 3530 for course description.

INTS/AAST/HIST 3531-History of Africa since 1800
See HIST 3531 for course description.

INTS/HIST 3532-The Modern Middle East
See HIST 3532 for course description.

INTS/HIST 3533-Modern South Asia
See HIST 3533 for course description.

INTS/HIST 3534-Modern Southeast Asia
See HIST 3534 for course description.

INTS/HIST 3535-Islamic Civilization
See HIST 3535 for course description.

INTS/HIST/LAST 3537-Colonial Latin America
See HIST 3537 for course description.

INTS/HIST/LAST 3538-Modern Latin America
See HIST 3538 for course description.
INTS/POLS 4132-U.S. Foreign Policy
See POLS 4132 for course description.

INTS/HIST 4133-US Diplomacy: The Cold War
See HIST 4133 for course description.

INTS/POLS 4135-International Organizations
See POLS 4135 for course description.

INTS/POLS 4136-Industrialized Nations
See POLS 4136 for course description.

INTS/POLS 4137-Industrializing Nations
See POLS 4137 for course description.

INTS/POLS 4138-International Terrorism
See POLS 4138 for course description.

INTS/POLS 4364-Seminar in Comparative Politics
See POLS 4364 for course description.

INT 4630-Seminar in International Studies
Advanced course focusing on major themes and issues in international relations.

INTS/POLS 4633-Seminar in International Politics
See POLS 4633 for course description.

INTS/POLS 4635-Seminar in International Organizations
See POLS 4635 for course description.

INTS/HIST/LAST 5330-Modern Spain and Portugal
See HIST 5330 for course description.

INTS/HIST 5531-Modern Japan
See HIST 5531 for course description.

INTS/HIST 5532-Modern China
See HIST 5532 for course description.

INTS/HIST 5533-Economic Rivals: US-EC-Japan
See HIST 5533 for course description.

Irish Studies (Interdisciplinary)
IRSH/GEOG 3131-Historical Geography of Ireland
See GEOG/IRSH 3131 for course description.

IRSH/GEOG 3132-Cultural Geography of Ireland
See GEOG/IRSH 3132 for course description.

IRSH/GEOG 3133-Physical and Biogeography of Ireland
See GEOG/IRSH 3133 for course description.

Instructional Technology (COE)
ITEC 4130-Instructional Technology for Early Childhood Education
Provides the learner with an introduction to instructional applications of various formats of technology. Students in the course will select and operate instructional technologies, produce instructional materials and utilize instructional technology for specific instructional intents. Prerequisites: Admission to Teacher Education program and Early Childhood Education major.

ITEC 4530-Instructional Technology for Special Education
An introduction to the effective uses of instructional technology for Special Education majors. A systematic approach to selecting, producing and utilizing various instructional technologies will be covered with an emphasis on the instructional uses of the computer. Correlates with the Special Education pre-service experience. Prerequisites: Admission to Teacher Education program and Special Education major.

ITEC 7090-Selected Topics in Instructional Technology
Promotes specialized training in new and/or emerging instructional technologies/methodologies or topics appropriate to the needs of in-service personnel. Attention will be given to a range of specific needs as they reach special significance in local school systems. Repeatable up to 9 credit hours. Prerequisite: Permission of instructor.

ITEC 7132-Administration of the Instructional Media Program
An introduction to the functions of the instructional media center and the various roles of the instructional media specialists. Topics include program planning and development, budgeting, facility design and public relations. The students in this class will develop skills that will enable them to direct an instructional resource center, manage personnel, manage a budget and select resources. Prerequisites: ITEC 7530 or permission of instructor.

ITEC 7134-Collection Development and Organization
An overview of the processes and procedures associated with developing, organizing, maintaining and evaluating the school media collection. Emphasis is placed on utilizing resources to select print and non-print materials and then applying standard methods of cataloging to organize the resulting collection. Prerequisite: ITEC 7530 or permission of instructor.

ITEC 7136-Reference and Information Sources
Provides a working knowledge of standard reference works and associated information technology. Prerequisite: ITEC 7530 or permission of instructor.

ITEC 7230-Selection and Development of Instructional Technologies
Provides competence in the selection, production, utilization and evaluation of various formats of instructional technologies. Basic techniques are provided through direct laboratory experiences in the design and production of instructional technologies. Prerequisite: ITEC 7530 or permission of instructor.

ITEC 7430-Instructional Design
An introduction to systems theory as applied to the design of instructor. Examines principles of systems theory in the context of the design, development, selection and utilization of curriculum, instruction and instructional materials. Prerequisite: ITEC 7530 or permission of instructor.

ITEC 7530-Instructional Technology for Educators
An introduction to the use of the computer in the instructional process. Focuses on the uses of the computer as a medium of instruction.

ITEC 7535-Instructional Technology Planning and Development
Covers project planning, design, development and utilization as it relates to new and emerging technology resources, delivery systems and information. Project areas include facilities, hardware and software. Prerequisite: ITEC 7530 or permission of instructor.
ITEC 7737-Practicum in Instructional Technology
A culminating activity in the Instructional Technology program. Students are assigned specific experiences that implement content from the instructional technology program. Prerequisite: Permission of advisor.

ITEC 7738-Field Experience in Instructional Technology
Allows the student to (1) observe use of technology to support instruction, management of technology resources and evaluate the effectiveness of technology resources for learning; and (2) apply technology resources to support instruction. Prerequisite: Permission of advisor.

ITEC 8130-Advanced Media Management and Supervision
Management and supervisory techniques and their application to the instructional media program. Includes management by objectives, staff development and processes for change through the supervisory role of the media specialist. Prerequisite: ITEC 7132 or permission of instructor.

ITEC 8230-Visual Communication in Instruction
Explores the design, production, and interpretation of visual images in instruction. Students in this class will utilize darkroom procedures, advanced production and post production skills and will explore research on visual literacy. Prerequisite: ITEC 7230 or permission of instructor.

ITEC 8430-Program Development and Evaluation
Covers the theory and practice of systematic investigation into instructional needs and evaluation. Examines the “front-end” and “back-end” analysis of instructional plans and programs. Prerequisite: ITEC 7430 or permission of instructor.

ITEC 8530-Applications of Instructional Technology
A continuation of and the elaboration of “Introduction to Instructional Technology.” Focuses on the effective utilization of technology in the instructional process. Prerequisite: ITEC 7530 or permission of instructor.

ITEC 8532-Multimedia Tools and Applications
Covers issues in the design and development of interactive multimedia instructional lessons. Covers the tools required for the creation of interactive multimedia and is organized around individual student projects. Prerequisite: ITEC 7230 or permission of instructor.

ITEC 8534-Instructional Technology For School Leaders
An overview of the role of computers in education for school leaders. An examination of computer applications as they relate to specific teaching/learning operations and educational functions. Prerequisite: ITEC 7530 or permission of instructor.

ITEC 8690-Seminar in Instructional Technology
Provides students an opportunity to identify problems, share information and compare approaches to effect solutions. Repeatable up to 9 credit hours. Prerequisite: Permission of instructor.

ITEC 8839-Field-Based Research in Instructional Technology
In this course the student will carry out a formal research study in Instructional Technology and prepare a written and oral report. Prerequisite: EDUR 8434.

ITEC 8890-Directed Individual Study
The student will propose and carry out an applied or theoretical project in instructional technology. Repeatable up to 9 credit hours. Prerequisite: Permission of advisor.

Japanese (CLASS)
JAPN 1001-Elementary Japanese I
Introduction to listening, speaking, reading, and writing in Japanese and to the culture of Japanese-speaking regions.

JAPN 1002-Elementary Japanese II
Continued listening, speaking, reading and writing in Japanese with further study of the culture of Japanese-speaking regions. Prerequisite: JAPN 1001 or equivalent.

JAPN 2001-Intermediate Japanese I
Building upon communication skills (understanding, speaking, reading and writing Japanese) and cultural understanding, developed at the elementary level. Prerequisites: JAPN 1001 and JAPN 1002 or equivalent.

JAPN 2002-Intermediate Japanese II
Continued focus on communication skills and cultural understanding. Prerequisite: JAPN 2001 or concurrent enrollment in JAPN 2001 or equivalent.

JAPN 3090-Selected Topics in Japanese
Study of a topic in Japanese literature, culture, society, thought, or language not included in the regular offering. Continued development of all five language competencies (listening, speaking, reading, writing, and culture). May be repeated for credit provided a new topic is studied. Prerequisite: JAPN 2002.

JAPN 3130-Japanese Conversation
Continued development of all five competencies: listening, speaking, reading, writing and culture, with special emphasis on conversational skill. Prerequisite: JAPN 2002.

JAPN 3131-Reading Japanese
Introduction to the Japanese language with an emphasis on reading skills. Continued development of all five skills: listening, speaking, reading, writing and culture. Prerequisite: JAPN 2002 or equivalent.

JAPN 3330-Japanese Cultural Patterns
Development of the Japanese language with a special emphasis on its culture. Development of all five language skills: listening, speaking, reading, writing and culture. Prerequisite: JAPN 2002 or equivalent.

JAPN 3331-Japanese Culture for Americans
Introduction to the Japanese culture, values, society, customs, and the language for American students.

JAPN 3530-Business Japanese
Introduction to the language and practice of business conventions in Japan. Development of all five language skills: listening, speaking, reading, writing and culture. Prerequisite: JAPN 2002 or equivalent.

JAPN 4790-Internship in Japan
Internship in Japan. Prerequisites: Permission of instructor and Department Chair.

Journalism (CLASS)
JOUR 2331-Introduction to Journalism
An introductory study of the role of journalism, with fundamental instruction and practice in writing for the mass media. Prerequisite: ENGL 1101.
JOUR 3030-Selected Topics in Journalism
Offers various courses in specialty areas of journalism. Prerequisite: Permission of instructor.

JOUR 3331-News Reporting and Writing
Provides theory, instruction, and practice in a variety of news gathering and writing forms and independent assignments. Prerequisite: JOUR 2331.

JOUR 3332-Feature Writing
Surveys the gathering and writing of various forms of feature stories and in-depth news stories for newspapers and magazines, emphasizing research, investigation, and interview techniques. Prerequisite: JOUR 2331.

JOUR 3333-Photojournalism
Offers theory, instruction, and practice in the process of conducting photo assignments for the print media, with special emphasis on gathering and editing pictorial material for newspapers and magazines. Prerequisite: JOUR 2331 or permission of instructor.

JOUR/BRCT 3334-Broadcast News
Provides students with techniques and experiences in facets of gathering and presentation of news and interviews for radio and television newscast presentation. Prerequisite: JOUR 2331.

JOUR 3335-Copy Editing
Provides instruction and practice in the fundamentals of news editing, including copy editing, grammar, journalistic style, headline writing, photo editing, and basic typography, with emphasis on editing the weekly and daily newspaper. Prerequisite: JOUR 2331.

JOUR 3336-International Media Systems
Studies, comparatively, mass media systems around the world. Analyzes media systems in terms of relevant political, social, economic, and cultural factors. Diversity and change in global communication is a main theme, and the influence of rapidly advancing technology is analyzed for its dynamic impact around the world, especially in developing nations.

JOUR/BRCT 3337-Law and Ethics of Mass Communication
Surveys freedom of speech and press and its limitations by laws governing libel, privacy, copyright, contempt, free press, broadcast regulation, fair trial, and reporter’s shield. Broadcast industry self-regulation and ethical concerns of mass communications will be discussed.

JOUR 3711-Journalism Practicum
Provides limited overview and supervised practical experience in print journalism through the Office of Student Publications. A maximum of three hours will be applied towards the Journalism major. Prerequisites: ENGL 1101 and permission of instructor.

JOUR 4331-History of American Journalism
Surveys the history of journalism in America, with emphasis upon its correlation with political, social, and economic trends.

JOUR 4332-Contemporary American Newspapers
Surveys the American newspaper industry, emphasizing a study of the more important daily newspapers and trends in the business.

JOUR 4333-Subjective Journalism
Analyzes the principles and roles of the various forms of opinion in journalism, including editorials, columns, and cartoons; and offers practice in the research and writing of opinion. Prerequisite: JOUR 2331 or permission of instructor.

JOUR 4334-Magazine Writing and Editing
Provides instruction in magazine journalism, from editing to production techniques, circulation, art, advertising and audience analysis. Prerequisite: JOUR 3332.

JOUR 4335-Advanced Reporting
Serves as a capstone reporting course in providing instruction and practice in public affairs journalism, with emphasis on beat reporting, social science reporting, and investigative reporting. Prerequisite: JOUR 3331.

JOUR 4711-Journalism Practicum
Provides limited overview and supervised practical experience in print journalism through the Office of Student Publications. A maximum of three hours will be applied towards the Journalism major. Prerequisites: ENGL 1101 and permission of instructor.

JOUR 4791-Journalism Internship
Provides journalism majors with supervised practical experience on a full-time basis at an approved media site. Students must have permission of instructor. Prerequisites: JOUR 3332, JOUR 3335, JOUR 4335 and permission of instructor.

JOUR 4831-Directed Study in Journalism
Permits students to conduct in-depth studies of issues associated with Journalism but may not replace an existing course in the catalog. Prerequisites: Permission of instructor and department chair.

Kinesiology (CHPS)

PHYSICAL ACTIVITY PROGRAM
All students are required to take two, one-hour, physical activity courses. The goal of the Physical Activity Program is to help each student attain and maintain a degree of physical fitness and motor skill, as well as, develop an interest in lifetime physical activity. This goal is accomplished through imparting knowledge, movement techniques, strategies and rules of exercise, sport and physical activities.

All courses are one credit hour. All students are required to read and sign the Departmental Agreement to Participate Form prior to the first day of activity. All activities are taught at the beginning level unless described otherwise. The following courses require additional fees: KINS 1115, 2115, 1216, 2216, 1310, 2310, 1318, 2318. Please contact the Healthful Living and Physical Activity Programs Office (Hollis 1104) for detailed descriptions of all physical activity courses and for specifics regarding courses that require additional fees.

Proficiency testing may be used to substitute for selected courses. Proficiency testing is offered during the 10th week of Fall and Spring Semesters. Students wishing to satisfy the physical activity requirement through proficiency testing must contact the Healthful Living and Physical Activity Programs Office (Hollis 1104) prior to the test date.

Courses may not be repeated for credit.
KINS 1110 Aerobics
KINS 2110 Aerobics: Intermediate
KINS 1111 Aerobic Cross Training
KINS 1112 Badminton
KINS 2112 Badminton: Intermediate
KINS 1113 Basketball
KINS 2113 Basketball: Intermediate
KINS 1114 Body Conditioning
KINS 1115 Bowling
KINS 2115 Bowling: Intermediate
KINS 1116 Canoeing
KINS 1117 Dance: Ballet
KINS 2117 Dance: Ballet Intermediate
KINS 1118 Dance: Clogging
KINS 1119 Dance: Country Western
KINS 1210 Dance: Folk
KINS 1211 Dance: Line
KINS 1212 Dance: Modern
KINS 1213 Dance: Social
KINS 2213 Dance: Social Intermediate
KINS 1214 Dance: Square
KINS 1215 Dance: Tap
KINS 1216 Equestrian
KINS 2216 Equestrian: Intermediate
KINS 1217 Fencing
KINS 2217 Fencing: Intermediate
KINS 1218 Fitness Walking
KINS 1219 Football: Flag
KINS 2219 Football: Flag Intermediate
KINS 1310 Golf
KINS 2310 Golf: Intermediate
KINS 1311 Jogging
KINS 1312 Outdoor Education Activities
KINS 1313 PA for People with Disabilities I
KINS 1314 PA for People with Disabilities II
KINS 1315 PA for People with Disabilities III
KINS 1316 PA for People with Disabilities IV
KINS 1317 Racquetball
KINS 2317 Racquetball: Intermediate
KINS 1318 Scuba
KINS 2318 Scuba: Intermediate
KINS 1319 Self Defense
KINS 2319 Self Defense: Intermediate
KINS 1410 Soccer
KINS 2410 Soccer: Intermediate
KINS 1411 Softball
KINS 2411 Softball: Intermediate
KINS 1412 Swimming
KINS 2412 Swimming: Intermediate
KINS 1413 Swimming: Aquatic Aerobics
KINS 1414 Swimming: Fitness
KINS 1415 Tennis
KINS 2415 Tennis: Intermediate
KINS 1416 Tumbling
KINS 1417 Volleyball
KINS 2417 Volleyball: Intermediate
KINS 1418 Weight Training
KINS 2418 Weight Training: Intermediate

KINS 2322-Clinical Skills in Sports Medicine II
Develops clinical psychomotor skills in the use of therapeutic modalities, therapeutic rehabilitation techniques and reconditioning techniques. Prerequisites: Grade of C or higher in KINS 2321 and Sports Medicine major status.

KINS 2414-Introduction to Health and Physical Education
Introduces the student to the health and physical education profession. The focus will be on definitions and descriptions of the field, disciplinary and professional issues, information regarding career selection and preparation and current issues in school health and physical education.

KINS 2511-Human Anatomy and Physiology I Laboratory
The laboratory component of the first course in a two semester sequence in which human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. The laboratory course is intended to provide students with hands on experiences that will enhance and reinforce the content of KINS 2531. The experiences will be structured to encourage critical thinking, understanding of scientific methodology, and the application of scientific principles. Prerequisites: Completion of Area D1 Laboratory Science course, preferably Chemistry and/or Biology. Corequisite: KINS 2531.

KINS 2512-Human Anatomy and Physiology II Laboratory
The laboratory component of the second course in a two semester sequence in which human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. The laboratory course is intended to provide students with hands on experiences that will enhance and reinforce the content of KINS 2532. The experiences will be structured to encourage critical thinking, understanding of scientific methodology, and the application of scientific principles. Prerequisites: Grade of C or higher in KINS 2511 and KINS 2531. Corequisite: KINS 2532.

KINS 2531-Human Anatomy and Physiology I
A two semester course in which human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. Course content includes: basic anatomical and directional terminology; fundamental concepts and principles of cell biology; histology; the integumentary, skeletal, muscular, and nervous systems; special senses; and the endocrine system. Prerequisites: Completion of Area D1 Laboratory Science course, preferably Chemistry and/or Biology. Corequisite: KINS 2511.

KINS 2532-Human Anatomy and Physiology II
A two semester course in which human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. This course is a continuation of KINS 2531 and includes the cardiovascular system, the lymphatic system and immunity, the respiratory system, the digestive system and metabolism, the urinary system, fluid/electrolyte and acid/base balance and the reproductive systems. Prerequisites: Grade of C or higher in KINS 2511 and KINS 2531. Corequisite: KINS 2512.

KINS 2321-Clinical Skills in Sports Medicine I
Develops clinical psychomotor skills in the prevention, acute care and evaluation of athletic injuries. Prerequisites: Sports Medicine major status.
KINS 3130-Research Methods in Kinesiology
Introduces the student to fundamental principles underlying research methods in kinesiology. Included will be basic procedures for conducting experimental, descriptive, historical, qualitative research, computer applications, basic measurement concepts, statistical methods, critical thinking and scholarly writing.

KINS 3131-Biophysical Foundations of Human Movement
Surveys biological systems and physical principles as applied to human movement and the relationship of these systems and principles to the development of the study of human movement. Prerequisites: Grade of C or higher in KINS 2531/2511 and KINS 2532/2512.

KINS 3132-Foundations of Exercise and Sport Psychology
Introduces the student to how individuals behave in physical activity settings. Psychological antecedents and consequences of primary and secondary involvement in exercise and sport will be explored. Prerequisites: PSYC 1101.

KINS 3133-Physiological Aspects of Exercise
Provides an in-depth perspective of physiological and biochemical responses of the human body when subjected to exercise. Prerequisites: Grade of C or higher in KINS 3131.

KINS 3134-Biomechanical Analysis of Movement
Focuses on the study of human motion through an examination of forces acting on the body and the effects produced by these forces. Prerequisites: Grade of C or higher in KINS 3131 and in PHYS 2211.

KINS 3230-Motor Control, Coordination, and Skill
Focuses on the nature of motor skill performance, motor skill learning, and the factors influencing motor skill acquisition. Prerequisites: PSYC 1101, KINS 3131 or permission of instructor.

KINS 3321-Clinical Applications in Sports Medicine I
Provides the student with direct supervised clinical experiences in sports medicine. Prerequisites: Grade of C or higher in KINS 2321 and Sports Medicine major status.

KINS 3322-Clinical Applications in Sports Medicine II
Provides the student with direct supervised clinical experiences in sports medicine. Prerequisites: Grade of C or higher in KINS 3321 and Sports Medicine major status.

KINS 3330-Prevention of Injury and Illness in Sports Medicine
Acquaints the student with the latest techniques to identify injury/illness risk factors associated with the participation of rigorous physical activity. Successful completion of the course should allow the student to develop a comprehensive plan for the implementation of injury/illness prevention protocols for competitive and recreational athletes. Information will cover the use of pre-participation screening techniques, prophylactic strength and conditioning techniques, evaluation and fitting of protective equipment used in sport, nutritional and ergogenic aids and other therapeutic means to aid in the reduction of injury and illness associated with participation in sport. Prerequisites: HLTH 2120, Grade of C or higher in KINS 2531/2511 and KINS 2532/2512.

KINS 3331-Pathology and Care of Sport Injury and Illness
Acquaints the student with the underlying pathologies and subsequent care of injury and illness associated with the participation in competitive and recreational sport. Upon the successful completion of the course the student should be able to recognize and appropriately manage and treat and/or refer the various injuries and illnesses associated with participation in rigorous physical activities. Prerequisite: KINS 3330.

KINS 3420-Educational Games
Develops quality movement experiences for beginning learners. This course, along with KINS 3421 and KINS 3422, is designed to further knowledge and understanding of movement and learning. Unlike sport and traditional “lead-up” games which are characterized by large groups with lack of individual participation, elimination and stress on winning, educational games and the content of this course will provide opportunities for students to create game situations according to the learners readiness (i.e., maturation, motivation, interest and experience). Provides a developmentally appropriate approach to teaching the foundations of movement skills which enables learners to participate successfully in a broad variety of games and sports. Prerequisites: KINS 2414, prerequisite or corequisite KINS 3131, completion of at least 45 hours of course work, credit for two KINS physical activity courses and content knowledge and skill proficiency (intermediate level or higher) in two sports.

KINS 3421-Educational Dance
Develops quality movement experiences for beginning learners. Along with KINS 3422 and KINS 3420, is designed to further knowledge and understanding of movement and learning. Educational dance encourages students to rediscover their expressive abilities through movement. Furthermore, there will be an emphasis on understanding how to help learners avoid a mind-body dichotomy and increase awareness of their bodies as instruments for expressing feelings and ideas. Prerequisites: KINS 2414, prerequisite or corequisite KINS 3131, completion of at least 45 hours of course work, credit for two KINS physical activity courses and content knowledge and skill proficiency (intermediate level or higher) in two sports.

KINS 3422-Educational Gymnastics
Develops quality movement experiences for beginning learners. Along with KINS 3420 and KINS 3421, is designed to further knowledge and understanding of movement and learning. Unlike traditional Olympic gymnastics, educational gymnastics encourages learners to resolve movement problems in unique ways that correspond to their ability levels. Prerequisites: KINS 2414, prerequisite or corequisite KINS 3131, completion of at least 45 hours of course work, credit for two KINS physical activity courses and content knowledge and skill proficiency (intermediate level or higher) in two sports.

KINS 3423-Performance and Technique in Physical Activity I
Develops knowledge, skill and appreciation of sports and games relevant to teaching middle and high school physical education. Develops a working knowledge in flag football, softball, pedagogical content knowledge in soccer and related games and activities. Prerequisites: KINS 2414, prerequisite or corequisite KINS 3131, completion of at least 60 hours of course work, credit for two KINS physical activity courses and content knowledge and skill proficiency (intermediate level or higher) in two sports.

KINS 3424-Performance and Technique in Physical Activity II
Develops knowledge, skill and appreciation of sports and games relevant to teaching middle and high school physical education. Develops a working knowledge in basketball, team handball, peda-
KINS 3430-Administrative Principles in Kinesiology
Focuses on the study of the processes of planning, organizing, directing and controlling the functioning of movement based professions (exercise science, sports medicine).

KINS 4231-Fitness Evaluation and Exercise Prescription
Provides the student with an in-depth study of fitness appraisal and exercise prescription and the development, interpretation, implementation and management of fitness programs. Prerequisite: KINS 3133, HLTH 1520 or permission of instructor.

KINS 4330-Evaluation of Lower Extremity Injuries
Presents advanced principles and techniques in the clinical evaluation of athletic injuries and illnesses involving the lower extremities. Prerequisite: Grade of C or higher in KINS 3330.

KINS 4331-Evaluation of Upper Extremity Injuries
Presents advanced principles and techniques in the clinical evaluation of athletic injuries and illnesses involving the upper extremities. Prerequisite: Grade of C or higher in KINS 3330.

KINS 4332-Therapeutic Modalities in Sports Medicine
Introduces the student to the physiological effects associated with therapeutic modalities used in the treatment and rehabilitation of athletic injuries. Prerequisites: Grade of C or higher in KINS 3330 and grade of C or higher in PHYS 2211 and PHYS 2212.

KINS 4333-Therapeutic Exercise and Rehabilitation
Imparts knowledge pertaining to the physiological effects, indications, contraindications and applications of therapeutic exercise in the rehabilitation of athletic injuries and illnesses. Prerequisites: Grade of C or higher in KINS 4330 and KINS 4331.

KINS 4334-Pharmacological Issues in Sports Medicine
Acquaints the student with the foundations of chemical substances and pharmacology of injury and illness in athletes. Prerequisites: Grade of C or higher in KINS 3330 and grade of C or higher in CHEM 1145 and CHEM 1146.

KINS 4420-Sport Conditioning Laboratory
Prepares students to undertake responsibilities in the areas of coaching, fitness programming and or related areas.

KINS 4421-Principles of Officiating
Provides the prospective coach with the knowledge and understanding of principles and basic techniques of officiating selective sports.

KINS 4425-Health and Physical Education Curriculum Development
Provides the student with the knowledge, skills and resources to develop a philosophical position and curricular materials consistent with that position and with state and national guidelines. Prerequisites: KINS 4430, prerequisite or corequisite KINS 4431.

KINS 4430-Instructional Design in Physical Education for Elementary Students
Develops skills and knowledge related to teaching physical education to young or beginning learners. Specifically the course will be oriented toward developing an understanding of the characteristics and needs of children, appropriate curriculum content in elementary school physical education and effective teaching skills for elementary school physical education. To the extent possible,
KINS 4431-Instructional Design in Health and Physical Education for Middle and High School Students
Develops instructional skills in planning, teaching and evaluating psychomotor, cognitive and affective learning in large group settings. The emphasis will be on intermediate level learning about current health issues and health-related fitness at the high school level, and game/sport, dance, and fitness activities at the middle and high school levels. Specifically the course will be oriented toward developing an understanding of the characteristics of youths in both middle school and high school, appropriate curriculum content in middle school physical education, appropriate curriculum content in high school health education, and effective teaching skills for middle school physical education and high school health education. Prerequisites: HLTH 3430, HLTH 3130, HLTH 3431, KINS 4430, prerequisite or corequisites: KINS 3423, KINS 3424, KINS 3425 and GPA of 2.5 in major courses.

KINS 4617-Senior Seminar in Health and Physical Education
Provides senior level health and physical education majors with a colloquium in which to discuss job search strategies, trends and current issues in the profession, certification issues in education, student teaching responsibilities and advocacy strategies for promoting the profession. Prerequisites: KINS 4430, prerequisite or corequisite KINS 4431 and senior level Health and Physical Education major status.

KINS 4618-Senior Seminar in Sports Medicine
Provides senior level sports medicine majors with a colloquium in which to discuss current issues and topics, with a focus on professional ethics, professional employment opportunities, development and growth and current research themes within the profession. Prerequisite: Senior level Sports Medicine major status.

KINS 4619-Senior Seminar in Exercise Science
Provides senior level exercise science majors with a colloquium in which to discuss current issues and topics, with a focus on professional ethics, professional employment opportunities, internships, development and growth and current research themes within the profession. The course also includes preparation for the internship experience. Prerequisite: Senior level Exercise Science major status.

KINS 4721-Clinical Practicum in Sports Medicine I
Offers the student advanced clinical practice in sports medicine. Prerequisites: Grade of C or higher in KINS 3321 and Sports Medicine major status.

KINS 4722-Clinical Practicum in Sports Medicine II
Offers the student advanced clinical practice in sports medicine. Prerequisites: Grade of C or higher in KINS 4721 and Sports Medicine major status.

KINS 4730-Coaching Practicum
Provides the student with supervised coaching experience in a sport. Prerequisite: Beginning coaching course in the sport or permission of instructor.

KINS 4735-Practicum in Exercise Science
Offers the student the opportunity to participate in appropriate laboratory techniques and practices within the biophysical and behavioral domains of exercise science. Prerequisite: Permission of Exercise Science Program Coordinator.

KINS 4799-Internship in Exercise Science
Provides the senior level Exercise Science major student with a practical experience in an appropriate exercise setting. Prerequisite: KINS 4619.

KINS 4899-Directed Individual Study
Provides the student with the opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

KINS 4999-Senior Thesis
Provides the student with a capstone experience focusing on designing and conducting an original research project or assisting a faculty mentor in ongoing research. Prerequisites: 3.0 GPA and permission of Exercise Science Program Coordinator.

KINS 6130-Research Design in Kinesiology
Provides the student with an opportunity to design, analyze and conduct original research projects in the field of human movement. Prerequisite: Undergraduate course in research methods or permission of instructor.

KINS 6131-Data Analysis in Kinesiology
Provides the student with an advanced understanding of data analysis in kinesiology. The goal of the course is for the student to obtain advanced knowledge and skills to analyze and understand research data within the field of human movement. Prerequisite: Undergraduate course in statistics, KINS 6130 or permission of instructor.

KINS 7099-Selected Topics in Kinesiology
Provides the student with an opportunity for in-depth study of selected topics in kinesiology. Prerequisite: Permission of instructor.

KINS 7230-Exercise Physiology
Focuses on the study of the effects of exercise on the physiological functions of the human organism with emphasis on theoretical orientations. Prerequisite: Undergraduate course in exercise physiology.

KINS 7231-Laboratory Techniques in Exercise Physiology
Acquaints the student with the use of typical laboratory equipment used in exercise physiology. Prerequisite: KINS 7230 or permission of instructor.

KINS 7232-Health Appraisal and Fitness Testing
Examines advanced fitness assessments and exercise prescription. Students will learn assessment techniques for a wide variety of client categories and will be responsible for demonstrating application of measurement skill in a format similar to national certification exams. Prerequisite: KINS 7230 or permission of instructor.

KINS 7233-Fitness Program Administration
Focuses on the administrative aspects involved in conducting safe and effective fitness programs. Students will learn exercise leadership, patient counseling, emergency procedures, and administrative principles as they apply to clinical exercise settings.
KINS 7234-Clinical Applications of Biomechanics
Provides the student with the biomechanical knowledge essential to conduct systematic qualitative and quantitative analysis of human movement in clinical settings. Prerequisite: Undergraduate courses in biomechanics, physics and functional anatomy or permission of instructor.

KINS 7236-Cardiac Pathophysiology and ECG Interpretation
Focuses on the study of the pathophysiology, epidemiology and rehabilitation from the effects of cardiovascular disease. Students will learn electrocardiograph interpretation and become familiar with exercise prescriptions for populations with cardiovascular disease. Prerequisite: KINS 7230, KINS 7232 or permission of instructor.

KINS 7237-Exercise and Aging
Examines the aging process and the relationship between aging and the various physiological systems, the changes associated with the aging process and their impact on health and fitness. Prerequisite: KINS 7230 or permission of instructor.

KINS 7238-Human Performance and Nutrition
Examines the interaction between nutrition and physical activity, including exercise and athletic performance. Topics will include the latest research on nutrients and ergogenic aids. Prerequisite: Undergraduate course in exercise physiology or permission of instructor.

KINS 7330-Clinical Teaching Skills in Sports Medicine
Exposes the student to knowledge and skills of teaching clinical education programs in sports medicine or allied health care clinical education programs. Students will be exposed to the teaching theories and schema as they relate to clinical education in sports medicine and allied health care. Prerequisite: Permission of instructor.

KINS 7331-Clinical Evaluation Skills in Sports Medicine
Exposes the student to knowledge and skills of evaluating clinical skills in sports medicine or allied health care clinical education programs. Students will be exposed to the evaluation theories and schema as they relate to clinical education in sports medicine and allied health care. Prerequisite: Permission of instructor.

KINS 7332-Clinical Management Skills in Sports Medicine
Focuses on the knowledge and skills in the administration and management of a clinical teaching environment in sports medicine or allied health care programs, with a focus on structures of organizational theory and schema. Prerequisite: Permission of instructor.

KINS 7430-Administrative Issues in Coaching
Provides the student with the opportunity to study philosophy, principles and procedures in administering an athletic team or program.

KINS 7431-Applied Sport Physiology
Focuses on the study of exercise physiology principles applied to developing training and conditioning programs for enhancing health-related fitness and performance. Prerequisite: Undergraduate course in exercise physiology or permission of instructor.

KINS 7432-Applied Sport Biomechanics
Provides the student with an in-depth study of the internal and external forces acting on the human body and the effects produced by these forces. Prerequisites: Undergraduate courses in biomechanics, algebra and trigonometry or permission of instructor.

KINS 7433-Prevention, Recognition and Care of Athletic Injuries
Focuses on the study of advanced knowledge in the concepts, practices, and procedures in the prevention, recognition and care of athletic injury and illness. Prerequisites: Undergraduate courses in anatomy, physiology and exercise physiology or permission of instructor.

KINS 7434-Current Issues in Coaching
Provides the student with an overview of the skills, techniques and knowledge involved in becoming a coach, focusing on current issues affecting the coaching profession.

KINS 7437-Analysis of Teaching Physical Education
Examines practices of effective teaching techniques and their relationship to learning. Provides the student with an understanding of opportunities to practice effective teaching strategies and skills.

KINS 7438-Motor Behavior
Presents the major theoretical frameworks for acquisition of motor skill. Emphasis is given to the understanding of concepts of motor development, motor control, motor learning and the implications for pedagogy. Prerequisite: Undergraduate course in motor behavior or permission of instructor.

KINS 7530-Psychology of Peak Performance
Examines the psychological factors that may lead to peak performances in exercise and sport. Students will be introduced to the physical, mental and emotional variables related to the readiness states of this ideal performance condition. Research and interventions associated with the common qualities of peak performance will be discussed. Prerequisite: Undergraduate course in sport psychology or permission of instructor.

KINS 7531-Team Dynamics
Provides the student with an understanding of the influence of teams/groups within exercise and sport upon the individual performer, as well as, the influence of individuals upon teams/groups. Based upon the science/practice model, thus theory, research and application within team/group dynamics. The assignments are structured to give students experience with working in teams/groups. Prerequisite: Undergraduate course in sport psychology or permission of instructor.

KINS 7532-Psychology of Youth Sports
Examines psychological theories, principles and concepts relative to the study of children’s involvement in exercise and sport. The primary focus will be on psychological antecedents and consequences of involvement in exercise and sport. Social, maturational and developmental issues related to participation readiness will be presented. Prerequisite: Undergraduate course in sport psychology or permission of instructor.

KINS 7533-Sport Psychology Interventions
Provides an introduction to the application of exercise and sport psychology intervention strategies to enhance performance. Students will participate in various individual-focused performance enhancement training procedures and produce a personalized performance enhancement manual. Prerequisite: KINS 7530 or permission of the instructor.

KINS 7630-Seminar in Kinesiology
Provides the student with an in-depth literature review and discussion of contemporary topics in kinesiology. Prerequisite: KINS 6130, KINS 6131 or permission of instructor.
KINS 7730-Practicum in Coaching
Provides the student with coaching experiences in planning, teaching skills, conducting practice sessions, organizing game situations and analysis, scouting and structuring off-season programming. Prerequisite: Permission of instructor.

KINS 7731-Clinical Practicum for Teaching Sports Medicine Skills
 Provides the student with an opportunity to practice knowledge and skills of teaching clinical skills in sports medicine or allied health care settings. Students will be placed in clinical environments and will assist in the teaching of clinical sports medicine skills. Prerequisite: KINS 7330 or permission of instructor.

KINS 7732-Clinical Practicum for Evaluating Sports Medicine Skills
 Allows the student to practice knowledge and skills of evaluating clinical skills in sports medicine or allied health care settings. Students will be placed in clinical environments and will assist with the supervision and evaluation of the application of sports medicine skills. Prerequisite: KINS 7333, KINS 7731 or permission of instructor.

KINS 7733-Practicum in Sport Psychology
 Provides the student with the opportunity to practice knowledge and skills of sport psychology interventions. Students will be involved in supervised, applied environments that allow them to work with a team or individual. Prerequisite: KINS 7531, KINS 7533, or permission of the instructor.

KINS 7799-Internship in Kinesiology
 Provides the student with an opportunity to receive practical experiences in a selected movement related setting. Prerequisite: Permission of Graduate Program Director.

KINS 7899-Directed Individual Study
 Provides the student with an opportunity to investigate an area of interest under the direction of a faculty mentor. Prerequisite: Permission of instructor.

KINS 7999-Thesis
 Provides the student with an opportunity to complete an independent research project. A written and oral defense of the project is required. Prerequisite: Permission of Graduate Program Director.

KINS 8430-Supervision of Instruction in Physical Education
 Assists the professional educator with acquiring the knowledge and skills essential to improving instruction and instructional programs in physical education. Supervision of novice and experienced physical education teachers will be discussed. Prerequisite: EDLD 7137.

KINS 8431-Curriculum Issues and Trends in Physical Education
 Identifies theoretical frameworks of curriculum development in relationship to current issues and trends.

Korean (CLASS)
KORN 1001-Elementary Korean I
Introduction to listening, speaking, reading and writing in Korean and to the culture of Korean speaking regions.

KORN 1002-Elementary Korean II
Continued listening, speaking, reading and writing in Korean with further study of the culture of Korean speaking regions. Prerequisite: KORN 1001 or equivalent.

Latin American Studies (Interdisciplinary)
LAST 3090-Selected Topics in Latin America
Designed to provide intensive study of an area relating to the geography, history, culture and/or civilization of Latin America.

LAST/POLS 3133-Latin American Politics
See POLS 3133 for course description.

LAST/SPAN 3331-Latin American Civilization
See SPAN 3331 for course description.

LAST/SPAN 4231-Introduction to Spanish-American Literature
See SPAN 4231 for course description.

LAST/GEOG 4232-Geography of Latin America
See GEOG 4232 for course description.

LAST/HIST/INTS 3537-Colonial Latin America
See HIST 3537 for course description.

LAST/HIST/INTS 3538-Modern Latin America
See HIST 3538 for course description.

LAST 4890-Seminar in Latin American Studies
The Seminar in Latin American Studies, which must be taken as the final 3-hour course in the 15-hour block required for the minor in Latin American Studies, is designed to permit interdisciplinary engagement and individualized specialization so that the student can intensify his or her studies of Latin American topics. Prerequisite: Contemporary World Cultures plus three upper division courses with significant Latin American dimension in at least two disciplines other than the major.

LAST/SPAN 5232-Literature of Hispanic Minorities
See SPAN 5232 for course description.

LAST/HIST/INTS 5330-Modern Spain and Portugal
See HIST 5330 for course description.

Latin (CLASS)
LATN 1001-Extended Elementary Latin I
Introduction to the Latin language: pronunciation, fundamentals of grammar, reading, and translation.

LATN 1002-Elementary Latin II
Continued study of Latin grammar and syntax begun in Latin 1001, with further reading and translation. Prerequisite: LATN 1001 or equivalent.

LATN 1010-Extended Elementary Latin I
For students who have never studied Latin and desire additional time and practice to master concepts. Focus on basic elements of Latin grammar with attention to variance in student learning styles, overcoming foreign language anxiety, and mastery of necessary study skills to succeed. Prerequisite: Permission of instructor.

LATN 2001-Intermediate Latin I
Beginning series of reading in Roman authors with emphasis on prose. Elements of grammar will also be reviewed. Discussion of Roman history and culture. Prerequisites: LATN 1001 and LATN 1002 or equivalent.
LATN 2002-Intermediate Latin II
Continued reading of Roman authors with emphasis on poetry. Prerequisite: LATN 2001 or concurrent enrollment in LATN 2001 or equivalent.

LATN 3030-Selected Topics in Latin
Study of a topic in Latin literature, culture, society, thought or language not included in the regular offering. May be repeated for credit provided a new topic is studied. Prerequisite: LATN 2002.

LATN 3131-Latin Authors
Concentrated study of the works of one or more Latin authors. Themes in the literature will be studied with emphasis placed on the cultural and historical significance of the written work and its author. May be repeated for credit provided a new topic is studied. Prerequisites: Two Latin courses at the 2000 level.

LATN/WGST 3330-Roman Women
Study of the role of women in the ancient Roman world. Emphasis on their influence within the political, economic, social, religious, and intellectual life of Rome. Examination of the Roman world through the eyes of ancient Roman women from different historical periods and social status.

LATN 4890-Directed Study in Latin
Concentrated study of a topic in Latin literature, culture, society, thought or language. May be repeated for credit provided a new topic is studied. Prerequisites: Two Latin courses at the 3000 level.

Linguistics (Interdisciplinary)
LING/COMM 2333-Voice and Phonetics
See COMM 2333 for course description.

LING/FORL 3131-Greek and Latin Vocabulary
See FORL 3131 for course description.

LING/ANTH/FORL 3533-Introduction to Language
See ANTH 3533 for course description.

LING 4330-History of English Language
A study of the English language from linguistic, social, and historical perspectives.

LING/SPCM 4333-Semantics
See SPCM 4333 for course description.

LING/SPCM 4335-Linguistic Analysis
See SPCM 4335 for course description.

LING/WRIT 5330-History of English Language
See WRIT 5330 for course description.

LING/ANTH/WRIT 5530-Sociolinguistics
See ANTH 5530 for course description.

Logistics (COBA)
LOGT 3231-Principles of Transportation
An introduction to the principles of transportation with emphasis on transportation modal operations (rail, highway, air, pipeline, water transportation) and transportation management. Consideration is given to the economical, social and political aspects of the transportation industry and strategic issues in transportation management. Field trips may be required. Prerequisite: MKTG 3131.

LOGT 3232-Business Logistics
An introduction to and study of the fundamentals of logistics. The primary areas of examination will cover the flow of raw materials, work-in-process, and finished goods through the supply channel. The course will emphasize the effects of the business, legal and social environments upon the management of inventory, transportation alternatives, information processing, facility location, and packaging. Field trips may be required. Prerequisite: MKTG 3131.

LOGT 4231-Logistics and Intermodal Transportation Operations
An examination of the planning and management of supply chain operations. Emphasis will be placed on the areas of traffic management, carrier operations, and warehousing. Each area will be analyzed in terms of its key goals, operation processes, technology applications, and performance control mechanisms. Field trips may be required. Prerequisites: LOGT 3231 and LOGT 3232.

LOGT 4232-International Logistics
An examination of the global market for international logistics and transportation services. This includes the role of shipping and air transportation in international business logistics and their impact on world trade. Also covered are issues in the management of ocean shipping, the import/export process, the roles of international agents, and international sourcing decisions. Field trips may be required. Prerequisite: LOGT 3231.

LOGT 4263-Seminar in Intermodal Distribution
Senior seminar in the Logistics and Intermodal Transportation major. This course is designed to be the capstone for the major and requires knowledge of a wide range of logistic terms and concepts. Students are required to read extensively from the current literature in the field and to conduct research into organizations and/or topics related to intermodal distribution. Prerequisites: LOGT 3231 and LOGT 3232.

LOGT 5204-Special Topics in Logistics
A three-hour senior level course that allows LOGT majors to pursue an intensive study of a specific topic or emerging area of transportation and logistics to be developed by the instructor. Prerequisites: LOGT 3231 and LOGT 3232 or permission of instructor.

LOGT 5835-Logistics and Intermodal Transportation Independent Study
Independent study and research in selected areas of Logistics and Intermodal Transportation under supervision of a member of the LOGT faculty. Prerequisite: Approval of the instructor and Department Chairperson.

LOGT 7432-Logistics Fundamentals and Strategy
Develops an understanding of logistics systems. The class will apply a managerial focus approach to integrating the numerous logistical activities in the supply chain including materials management, physical distribution, third party logistics, transportation, and other topics. The class will stress practical applications through a case approach and a logistics simulation. Prerequisites: Graduate standing and the completion of the MBA prerequisites or permission of instructor.

Legal Studies (COBA)
LSTD 3130-International Trade Regulation
This course presents fundamentals of international trade operations, providing students with the experience of regulatory compliance while conducting the business of exporting. Prerequisites: Permission of Instructor.
LSTD 3230-Building Construction Law
A study of the legal concepts, statutes and regulations governing the building and construction industry, including the legal framework of contract law, construction financing, property rights zoning, lien, bonding, liability, competitive bidding, dispute resolution theories and relevant/current development of government regulation of the building construction industry. Prerequisites: 30 credit hours of Building Construction and Contracting courses or permission of instructor.

LSTD 6120- Legal and Ethical Issues in Business
Business operates in a domestic and global environment shaped by social and economic forces, made to operate on managers through government regulation and incentives. This course presents an introduction to those factors in the environment of business that shape and affirm American capitalism. Prerequisite: Graduate standing.

LSTD 7130-Legal Environment of Business
A survey of the legal and ethical rules which govern the managerial decision making process, particularly focusing on constitutional “Commerce Clause” interpretation, contract and agency principles, administrative agency regulations, and evolving ethical issues which influence the application of the law. The course is set in domestic law, but includes operational legal aspects of the international market place. Prerequisites: Graduate standing and the completion of the MBA prerequisites or permission of instructor.

LSTD 7230-Law and Ethics for Accountants
An introduction to legal and ethical issues involving the Uniform Commercial Code and administrative agency regulations. Emphasis is on recognition of these issues to enhance professionalism for business administration. Prerequisite: BUSA 2106.

Mathematics (COST)
MATH 0091-Algebra Lab
Provides additional instruction on selected topics from MATH 1111 and is open to all students. MATH 0091 is a required course for any student who makes below a C in MATH 1111. Students required to take MATH 0091 must take it concurrently with MATH 1111 until they make at least a C in MATH 1111. Topics covered include a study of functions, equations, graphing, and operations with polynomial, rational and radical expressions. Also included are appropriate study skills and the use of technology. (Corequisite: MATH 1111) Audit or institutional credit only.

MATH 0097-Beginning Algebra
The first of two courses designed for students who are not prepared to enter a college core curriculum mathematics course: MATH 0097 consists of a study of the structure of the real number system, properties of real numbers, first degree equations and inequalities, applications, exponents, polynomials, functions and graphs. Students will be placed in MATH 0097 based on their score on a placement exam. Students will be allowed a maximum of 2 semesters to meet exit requirements for MATH 0097. Audit or institutional credit only.

MATH 0099-Intermediate Algebra
The second of two courses designed for students who are not prepared to enter a college core curriculum mathematics course: MATH 0099 consists of a study of exponents, polynomials, rational expressions, equations, inequalities, radicals, graphing and functions. A student must demonstrate mastery of material taught in MATH 0097 prior to enrolling in MATH 0099. A student may exit at the end of any semester by passing the course with a C or better and meeting any system requirements. Audit and institutional credit only.

• MATH 1111-College Algebra
A functional approach to algebra that incorporates mathematical modeling of real data, business applications and use of appropriate technology. Emphasis will be placed on the study of linear, quadratic, piece-wise defined, rational, polynomial, exponential and logarithmic functions. Prerequisite: Two years of high school algebra or equivalent. A minimum grade of C is required.

• MATH 1113-Pre-Calculus
Emphasizes trigonometric functions and concepts and will include a review of selected topics from algebra including systems of equations and matrix algebra. The graphing calculator will be incorporated throughout the course. Prerequisite: A minimum grade of C in MATH 1111 or equivalent.

MATH 1232-Survey of Calculus
Covers differential calculus of algebraic functions, systems of linear equations, the definition and operations of matrices and a basic discussion of probability. Oriented towards applications in business and economics. Appropriate technology will be incorporated throughout the course. Prerequisite: A minimum grade of C in MATH 1111 or equivalent.

• MATH 1234-Technical Calculus
An introduction to the fundamental elements of calculus with applications of technology. Topics include a brief review of algebraic principles, and a study of function, graphs, limits, derivatives and integrals. Designed primarily for Industrial Technology majors. Credit may not be received for both MATH 1232 and MATH 1234. Prerequisite: MATH 1113.

• MATH 1441-Calculus I
This is the first of a sequence of courses which present a unified treatment of the differential and integral calculus. Topics include: limits, continuity, differentiation and integration, applications of the derivative and the integral. Prerequisite: A minimum grade of C in MATH 1113 or equivalent.

MATH 2131-Math for Elementary School Teachers I
An in-depth study of mathematics in the areas of problem solving, sets, whole numbers, number theory, fractions, decimals, percent, ratio and proportion, integers. Intended primarily for prospective elementary teachers. Prerequisite: A minimum grade of C in MATH 1111 or equivalent.

MATH 2132-Math for Elementary School Teachers II
An in-depth study of rational numbers, probability, statistics and geometry topics that are included in the elementary school curriculum: Operations with rational numbers, simple probabilities, descriptive statistics, geometric shapes in two and three dimensions, measurement, triangle congruence and similarity, coordinate geometry and geometric transformations. Prerequisite: A minimum grade of C in MATH 2131 or equivalent.

• MATH 2242-Calculus II
Includes an introduction to transcendental functions, techniques of integration, improper integrals, infinite series and conics. Prerequisite: A minimum grade of C in MATH 1441 or equivalent.
• MATH 2243-Calculus III
Topics in real valued functions of several variables. Topics include polar coordinates, parametric equations, vectors in two and three dimensions, quadric surfaces, partial derivatives and applications, multiple integrals and applications, line integrals and Stoke’s and Green’s theorem. Prerequisite: A minimum grade of C in MATH 2242 or equivalent.

MATH 2320-Introduction to Linear Algebra
Solving systems of linear equations using matrix operations. Vector spaces, subspaces and linear independence. Prerequisite: A minimum grade of C in MATH 2242 or equivalent.

MATH 2330-Applied Linear Algebra
An applied approach to the study of systems of equations, matrices and low-dimensional linear algebra. Prerequisite: MATH 2242.

MATH 2332-Mathematical Structures
Propositional logic, predicate logic, induction, recursion, set theory, set operations, relations, functions, Boolean algebra and computer logic. Prerequisite: A minimum grade of C in MATH 2242 or equivalent.

MATH 3130-College Geometry
A study of Euclidean geometry. Prerequisite: MATH 2332.

MATH 3230-Differential Equations
Solution of first and higher order ordinary differential equations, applications and solutions of systems of linear differential equations. Prerequisites: MATH 2242 and MATH 2320.

MATH 3331-Analysis I
Introduction to the fundamental concept in real analysis such as limits, continuity, differentiability, convergence, sequences, series and integrability. Prerequisites: MATH 2243 and MATH 2332.

MATH 3333-Modern Algebra I
The fundamental algebraic structures: Groups, rings and fields. Prerequisite: MATH 2332.

MATH 3335-Linear Algebra
Linear transformations, inner product spaces, least-squares problems, orthogonality, eigenvalues and eigenvectors, applications of eigenvalues, generalized inverses and ill conditioned systems. Prerequisite: MATH 2320.

MATH 3337-Probability
An introduction to probability, random variables and discrete and continuous probability distributions for students in mathematics, engineering and the sciences including the social sciences and management science. Prerequisite: A minimum grade of C in MATH 2242 or equivalent.

MATH 4890-Directed Study in Mathematics
Directed study under faculty supervision. Well prepared math majors may be permitted to enroll in an independent study upon the recommendation of a Mathematics faculty member. Prerequisite: Permission of instructor and department chair.

MATH 5090-Selected Topics in Mathematics
Specialized study in a selected area of Mathematics. Prerequisite: Permission of instructor.

MATH 5131-Basic Ideas of Arithmetic
An in-depth study of mathematics in the areas of sets, whole numbers, number theory, fractions, decimals, percent, ratio and proportion and integers. Intended for middle grade majors. Prerequisite: A minimum grade of C in MATH 1111 or equivalent.

MATH 5132-Basic Ideas of Geometry
An in-depth study of geometry topics that are included in the middle school curriculum: Geometric shapes in two and three dimensions, measurement, triangle congruence and similarity and geometric transformations. Prerequisite: MATH 5131.

MATH 5133-Basic Ideas/Problem Solving
Problem solving strategies applied to a variety of contexts in arithmetic, geometry and algebra. The use of these strategies by teachers of middle grades mathematics will be emphasized. Prerequisite: MATH 5132 or permission of instructor.

MATH 5230-Advanced Geometry
Selected topics from Euclidean and Non-Euclidean Geometry. Prerequisite: MATH 3130 or one year of teaching high school mathematics.

MATH 5232-Mathematical Applications Using Technology
Selected mathematical topics used in research, problem solving, and demonstrations will be investigated with the use of current technologies. Intended for mathematics education majors. Prerequisite: MATH 2243 and 3 hours of mathematics at the junior level or above.

MATH 5234-Number Theory
Introduction to the principal ideas of elementary number theory: Divisibility, congruencies, linear Diophantine Equations, Fermat’s Theorem, Euler’s Theorem, Pythagorean triples and the distribution of primes. Prerequisite: MATH 2332.

MATH 5236-Patterns of Problem Solving
A study of patterns involved in solving problems. Particular attention is paid to Polya’s heuristics and his characterization of the problem solving process. The student will also solve many problems. The application of these techniques by mathematics teachers will be stressed. Prerequisite: MATH 1441 or permission of instructor.

MATH 5238-Special Problems in Mathematics
Topics of special need and interest to mathematics teachers will be studied. Prerequisite: Permission of instructor.

MATH 5330-Operations Research
Introduction to the analytical formulation and solution of decision problems. Mathematical methods of optimization of classical operations research models. Prerequisite: MATH 3337.

MATH 5332-Analysis II
Continuation of the study of the fundamental concepts of calculus, such as continuity, differentiation and integrability in Euclidean n-space. Metric spaces. Function spaces. Prerequisite: MATH 3331.

MATH 5334-Modern Algebra II
A continuation of MATH 3333. Applications and deeper properties of the fundamental algebraic structures, isomorphisms of groups, rings and fields, quotient structures, vector spaces and Euclidean constructions. Prerequisite: MATH 3333.
MATH 5336- Applied Numerical Methods
Introduction to scientific computation on digital computers. Solution of nonlinear equations and systems of linear and nonlinear equations, polynomial interpolation, numerical differentiation and integration, data fitting and other numerical methods. Prerequisites: MATH 3335 and either CSCI 1232 or both CSCI 1301 and a knowledge of FORTRAN.

MATH 5338- Applied Mathematics
Theory and applications of mathematical methods such as power series solutions, Laplace Transforms, vector calculus, Fourier series, integrals and partial differential equations. Prerequisite: MATH 3230.

MATH 5430- Math Models in Population Ecology I
An introduction to discrete time models that arise from the study of ecological populations. Difference equation and matrix equation models for population will be formulated and analyzed both analytically and numerically. Prerequisite: MATH 1441 or permission of the instructor.

MATH 5432- Math Models in Population Ecology II
An introduction to continuous time models that arise from the study of ecological populations. Ordinary and partial differential equation models for populations will be formulated and analyzed both analytically and numerically. Prerequisite: MATH 3230 or permission of the instructor.

MATH 5434- Functions of a Complex Variable
Topics in complex variables including functions, limits, derivatives, integrals, the Cauchy-Riemann conditions, series representation of functions and the Cauchy Integral formula. Prerequisite: MATH 2332.

MATH 5436- Introduction to Fractals
Fractals as nonlinear systems involving feedback and iteration. Classical fractals, limits and self-similarity. Fractal dimensions. Encoding of fractals. Iterated function systems. Prerequisites: MATH 2243, MATH 2332 and MATH 3335.

MATH 5438- Linear Programming
Theory and methods for solving linear programming problems are studied. Applications of various problems are considered. Prerequisite: MATH 3335 or permission of instructor.

MATH 5530- Math for Scientists and Engineers
A survey of topics useful in the study of areas of applied mathematics such as physics, engineering and computer science. Topics include vector calculus, linear algebra, complex variables, numerical methods, Fourier series and partial differential equations. Prerequisites: MATH 2243 and MATH 3230.

MATH 5539- Mathematical Models
A study of model construction and types of models. Prerequisites: MATH 3230, CSCI 1301, and 15 additional hours of upper-level mathematics.

MATH 6030- Special Topics for Mathematics Education
Topics of special need and interest to mathematics teachers will be studied. Prerequisite: Permission of instructor.

MATH 6130- Fundamental Concepts of Arithmetic and Geometry
Emphasizes the mathematical content indicated, but time is also spent in exploring the learning theories of Piaget, Dienes, Davis and others. Intended for Middle Grades majors. Prerequisite: MATH 5132 or permission of instructor.

MATH 6230- Fundamental Ideas of Calculus
A review of the principal ideas of calculus, with emphasis on concepts. Intended for Mathematics Education majors. Prerequisites: MATH 1441 and permission of instructor.

MATH 6232- Fundamental Ideas of Set Theory and Topology
The elementary theory of sets and operations on sets, as well as an introduction to point set topology. Intended for Mathematics Education majors. Prerequisite: Permission of instructor.

MATH 6330- Fundamental Ideas of Probability
Fundamental ideas of probability with emphasis on topics, examples, and applications for secondary mathematics teachers. Intended for Mathematics Education majors. Prerequisite: MATH 2242 or permission of instructor.

MATH 6332- History of Mathematics
A survey of the historical development of mathematics. The emphasis will be on mathematical concepts, problem solving, and pedagogy from a historical perspective. Intended for Mathematics Education majors. Prerequisite: MATH 2242 or permission of instructor.

MATH 6430- Fundamental Ideas of Algebra
The elementary theory of groups, rings and linear algebra. Intended for Mathematics Education majors. Prerequisite: Three hours of mathematics above the sophomore level or one year of teaching high school mathematics.

MATH 6432- Fundamental Ideas of Statistics
Topics will include descriptive statistics, point and interval estimation, hypothesis testing, correlation and nonparametric statistics. In addition, students will work on projects which will be appropriate for teachers to use to illustrate the topics of secondary school students. Intended for Mathematics Education majors. Prerequisite: Three hours of mathematics above the sophomore level.

MATH 7090- Selected Topics in Applied Mathematics
Specialized study in a selected area of Applied Mathematics. Prerequisite: Permission of instructor.

MATH 7130- Mathematical Optimization Theory
Necessity and sufficiency conditions for constrained optimization problems are derived. The derived conditions are used to help answer questions concerning whether a given optimization problem has a solution, whether a solution is unique and how a solution can be found. Prerequisite: MATH 3331.

MATH 7132- Methods of Optimization
Selected methods for unconstrained and constrained optimization problems with applications. Prerequisite: MATH 5330, MATH 5438 or permission of the instructor.

MATH 7231- Advanced Numerical Analysis I
An in-depth study of computer arithmetic, the solution of nonlinear equations, the solution of systems of linear equations, eigenvalue problems and interpolation. Algorithms and methods are developed and then implemented on a computer. Prerequisite: MATH 5336.
MATH 7232- Advanced Numerical Analysis II
An in-depth study of orthogonal polynomials, numerical integration, and numerical solutions of ordinary and partial differential equations. Development and computer implementation of algorithms and methods. Prerequisite: MATH 7231.

MATH 7234- Advanced Applied Linear Algebra
A study of advanced topics in linear algebra including various applied problems whose solutions rely on techniques and results from the theory of linear spaces and matrices. Prerequisites: MATH 3230 and MATH 3335.

MATH 7236- Advanced Ordinary Differential Equations
Linear and nonlinear ordinary differential equations and their applications to physics and engineering. Topics include solution and stability of systems of equations, approximate solutions, and phase plane analysis. Prerequisite: MATH 3230.

MATH 7330- Advanced Applied Analysis
Applications of duality, linear operators, compact and Fredholm operators, Banach algebras, and Hilbert spaces. Prerequisites: MATH 3230, MATH 3331, MATH 3335 and MATH 5332.

MATH 7332- Advanced Partial Differential Equations
Theory of partial differential equations. Topics include Fourier series, boundary value problems of partial differential equations, applications of special functions, method of characteristics, and classification of second order equations. Prerequisite: MATH 5338.

MATH 7890- Directed Study in Applied Mathematics
Directed study under faculty supervision. Prerequisite: Permission of instructor and department chair.

MATH 7899- Research Project in Applied Mathematics
Research project addressed toward a real world problem. Prerequisite: Permission of project advisor and permission of department chair.

Middle Grades Education (COE)
MGED 3131-The Middle School
Examines the curriculum, instruction and organization of middle grades schools. Provides a substantial knowledge base in the nature and needs of early adolescents, as well as, in middle school curriculum and instruction. Also includes a full, one school day field component in the form of a shadow study. Prerequisites: Admission to Teacher Education program.

MGED 3232-Methods of Teaching Science in the Middle Grades
Provides an overview of the basic program of science instruction in the middle grades. Research in science education, teaching techniques and methods applicable for this age level, and organization of lessons are studied. Emphasis will be placed on science concepts and principles, an application of concepts to real life situations, science and technology and the development and implementation of hands-on activities. Includes a field based component which requires planning and teaching a science unit in a middle school classroom. Prerequisites: MGED 3131 and admission to Teacher Education program. Corequisites: MGED 3332, MGED 3432, and MGED 3532.

MGED 3332-Methods of Teaching Language Arts/Reading in the Middle Grades
Designed to study current trends for integrating language arts across the curriculum in the middle school setting. Emphasis is placed on the natural connections between writing, reading and oral expression. Instructional strategies that link writing, reading, literature and language across the curriculum will be explored. Appropriate language arts curriculum, including content and pedagogy, for early adolescents will be addressed. Prerequisite: Admission to Teacher Education program and MGED 3131. Corequisites: MGED 3432, MGED 3332, and MGED 3532.

MGED 3432-Methods of Teaching Social Studies in the Middle Grades
A study of the role of social studies in the education of early adolescents, with emphasis on understanding the historical and philosophical foundations of social studies, curriculum organization, planning and evaluation of instruction, social studies techniques and materials appropriate for early adolescent learners and current trends in social studies. Students will plan and teach as an interdisciplinary team an interdisciplinary thematic unit in a middle school classroom. Prerequisite: MGED 3131 and admission to Teacher Education program. Corequisites: MGED 3232, MGED 3332, and MGED 3532.

MGED 3532-Methods of Teaching Mathematics in the Middle Grades
Content, teaching methods, materials, and trends in middle grades mathematics. Content areas in mathematics include: Addition, subtraction, multiplication, and division algorithms, geometry, fractions, decimals, and percent, measurement and data analysis. Special topics such as calculators, computers and problem solving. A field based component will be arranged. Prerequisites: MGED 3131 and admission to Teacher Education program. Corequisites: MGED 3232, MGED 3332, and MGED 3432.

MGED 4090-Middle Grades Special Topics
Promotes specialized training appropriate to the needs of pre-service teachers. Attention will be given to a range of specific problems as they relate to the middle grades. Prerequisites: Approval of the advisor, instructor, and department chair.

MGED 4333-Literature and Writing for the Middle Grades
An in-depth study of appropriate literature and language concepts for the middle grades. Emphasis will be placed on the connections between composition, language and literature in middle grades. Prerequisites: MGED 3131, 3332, and admission to Teacher Education program.

MGED 4638-Middle School Seminar
A pre-student teaching seminar in middle school education. Focuses on current issues in middle level education. Special emphasis will be given to classroom management, parent-teacher interactions, varied learning styles, multiple assessment strategies and diverse populations of students. Prerequisites: Completion of subject specific methods courses and admission to Teacher Education program. Corequisites: MGED 4738 and EDUF 3233.

MGED 4738-Middle School Practicum
This field based course is designed to assist students in planning and implementing appropriate methods for the development and learning of the early adolescent. Students will plan and teach a 10-day unit in a selected concentration area in a middle school. Spe-
cial attention is given to classroom management, student/teacher relationships, transition from college to the work environment and professional behavior. Prerequisites: Completion of subject specific methods courses and admission to Teacher Education program. Corequisites: MGED 4638 and EDUF 3233.

MGED 4799-Student Teaching in Middle Grades  
A period of guided teaching during which the student, under the direction of a cooperating teacher, takes increasing responsibility for leading the school experiences of a given group of learners over a period of consecutive weeks and engages more or less directly in many of the activities which constitute the wide range of a teacher’s assigned responsibilities. Prerequisites: Completion of teaching field courses, professional education sequence and must meet requirements for admission to Student Teaching program including passing score on Praxis II certification exam.

MGED 6131-Middle Grades Curriculum  
An introduction to the middle school concept that emphasizes the developmental need of early adolescents in the context of patterns of school organization, curriculum and instruction that are responsive to the intellectual, social, emotional and physical needs of adolescents. Topics will include historical development, school organization, instruction and special programs for early adolescent learners. A shadow study will be conducted in a middle school. Prerequisite: Admission to Teacher Education program.

MGED 6132-Middle Grades Instruction  
Examines a variety of instructional methods and materials to enhance learning in the middle grades. Emphasis will be placed on planning subject area and interdisciplinary lessons and units based on the characteristics of the early adolescents. Activities are oriented to classroom practices and instruction associated with teaching in the middle grades. A field based project will be included. Prerequisites: MGED 6131 or corequisite and admission to Teacher Education program.

MGED 6799-Internship: Middle Grades  
A supervised teaching experience in a middle grades classroom. Emphasis is placed on instructional planning, methodology, classroom management and student evaluation. Repeatable up to (12) credit hours. Prerequisite: Admission to Teacher Program and a Provisional Teaching Certificate.

MGED 7090-Selected Topics in Middle Grades  
Designed to promote specialized training appropriate to the needs of in-service teachers. Attention will be given to a range of specific problems as they relate to the middle grades classroom. Repeatable up to (6) credit hours. Prerequisites: Approval of the advisor, instructor, and department chair.

MGED 7138-Supervision of Teachers  
Designed to enable the supervising mentor teacher to demonstrate, in a classroom setting, a mastery of skill performance related to effective observation, conferencing and communication skills. To receive credit, the course participant must have a student teacher or intern, or be serving as a mentor teacher while enrolled in this course. Prerequisite: EDLD 7137.

MGED 7231-Hands-On Science for the Middle Grades  
Introduces and promotes the use of curricula, resources and activities which emphasize the use of hands-on/inquiry science in middle schools. Focuses on: the development of hands-on and interdisciplinary science curricula, research relative to use of inquiry-based science, classroom implementation of science programs and the development of process and inquiry skills. Emphasis will be placed on addressing local needs and resources in the area of science instruction.

MGED 7232-Teaching Science in the Middle Grades  
Designed to provide a study of current issues, reforms and trends as they relate to middle school science instruction and curriculum. Focus is on the nature of the learner at this level and effective teaching strategies which address these needs.

MGED 7331-Early Adolescent Literature  
An in-depth study of early adolescent literature together with techniques for helping pupils develop both oral and written personal responses.

MGED 7332-Integrated Language Arts  
A study of instructional strategies that integrate writing, reading, literature and language in the middle grades. A field-based project will be included.

MGED 7333-Writing Instruction for the Middle Grades  
A study of the writing process for the middle grades. Emphasis is placed on integrating writing instruction across the curriculum.

MGED 7431-Teaching Social Studies in the Middle Grades  
A study of the place of social science education in middle grades education. In a seminar setting, students will analyze problems challenging middle school social studies educators including the knowledge base of social science education, teaching for active and responsible citizenship, making curricular choices, selecting appropriate instructional techniques and assessing current trends in middle school social studies education. A field-based project will be included.

MGED 8131-Integrated Curriculum for the Middle Grades  
A study of middle level curriculum issues and trends that focus on a variety of strategies that integrate the curriculum. Emphasis will be placed on various models for integrating the curriculum in order to be responsive to the transitional needs of the early adolescent.

MGED 8132-Effective Middle Schools  
A study of components of an effective middle school including cooperative team organization and planning, teacher based guidance programs, and appropriate exploratory offerings. Emphases is placed on organization, curriculum, instruction, student grouping and scheduling options. A field-based project is included.

MGED 8231-Trends in Middle Grades Science  
Designed to provide an in-depth study of current issues, reforms and trends as they relate to middle school instruction and curriculum. Students will research topics on a specific issue in middle grades science and analyze methods and techniques for addressing this concern. Prerequisite: MGED 7232.

MGED 8331-Trends in Middle Grades Language Arts  
Examines current research and professional literature in middle grades language arts including the areas of writing, reading and writing across the curriculum, language development and literature. Emphasis is placed on examining problematic issues such as student diversity, popular culture, assessment and evaluation, use of technology and instructional strategies for teaching language arts.
MGED 8333-Research in Middle Grades Language Arts
This course is limited to Ed.S and Ed.D. students. Explores current research in middle grades language arts. Particular attention is placed on examining the theoretical and philosophical frameworks of language arts curriculum and instruction. A field-based project is included. Prerequisite: Admission to the Ed.S. or Ed.D. program.

MGED 8431-Trends in Middle Grades Social Studies
A study of the historical philosophical antecedents of social studies education and their impact on early adolescent education. In a seminar setting students will analyze problems challenging middle grades social studies educators, including the knowledge base of social studies, teaching for active and responsible citizenship, making curriculum choices, selecting appropriate instructional techniques and assessing current trends in the field. The course contains a research component. Prerequisite: MGED 7431.

MGED 8531-Teaching Mathematics in the Middle Grades
Contemporary issues, problems, and trends in teaching middle grades mathematics. Emphasis is placed on teaching mathematical problem solving, mathematical connections, mathematics as reasoning and mathematics as communication at the middle school level.

MGED 8633-Seminar in Middle Grades Education
A capstone course for the M.Ed. Middle Grades program. Examines the current status and future directions in middle level education. Current research in young adolescent development, curriculum, school organization and pedagogy will serve as the focus of the course. Contains a major reading writing experience that emphasizes the relationship between theory and practice. Attention will also be given to teacher leadership roles. A field based project is included.

MGED 8839- Seminar and Field Study
The primary objective of the course is to initiate, complete and submit an acceptable field based research study. The course will focus on issues, trends and research in middle level education. Prerequisites: EDUR 8131 and EDUR 8434.

MGED 8890- Directed Individual Study
The student, under the direction of the instructor, will identify and study a topic applicable to the middle grades. Repeatable up to 6 credit hours. Prerequisites: Approval of the advisor, instructor, and department chair.

Management (COBA)

MGNT 3130-Management and Organizational Behavior
Examines the various perspectives on managing organizations and the basic management functions of planning, organizing, leading, and controlling. Emphasis is placed on the functions of organizing and leading. Designed to complement the planning and controlling skills taught in MGNT 3430. Organizational behavior topics such as motivation, communication, and decision-making are also covered. Prerequisites: Completion of 54 semester hours of course work and BUSA 1105 or permission of instructor.

MGNT 3134-Behavior in Organizations
An advanced course which integrates existing Organizational Behavior and Human Resources Management knowledge and provides opportunities for its application to realistic managerial challenges in domestic and international settings. Prerequisites: MGNT 3130, BUSA 3131.

MGNT 3234-Entrepreneurship/Small Business
A study of the business formation process focusing on the behaviors of entrepreneurs and the creation of new businesses in dynamic environments. Prerequisite: FINC 3131, MKTG 3131, MGNT 3130 or permission of instructor.

MGNT 3430-Operations Management
Application of the principles of management to the planning, control, design, operation, and updating of operational systems both in the manufacturing and service sectors. Prerequisite: MGNT 3130, BUSA 3131, or permission of instructor.

MGNT 4130-Management Information Systems
An overview of the utilization of information technology in business organizations to support managerial decision making and to provide competitive advantage. This course will address the evolution of information and information technology as corporate assets, how information technology is reshaping organization structures and work processes, how it is changing business relationships among organizations, and emerging information technologies expected to significantly impact business operations in the years ahead. Prerequisites: CISM 2130 and MGNT 3130.

MGNT 4230-International Management
Provides an appreciation for and an understanding of the operations of multinational firms. Prevailing management practices of selected international companies are studied in-depth. A semester long project with a cultural focus is required. Prerequisite: MGNT 3130.

MGNT 4234-Small Business Management
Provides a complete coverage of small business operations with proper balance between business functions and the management function. Prerequisite: FINC 3131, MKTG 3131, MGNT 3130 or permission of instructor.

MGNT 4235-Applied Small Business Management
An applied study of small businesses involves developing a major case project tailored to the needs of an actual business. Prerequisite: FINC 3131, MKTG 3131, MGNT 3130 or permission of instructor.

MGNT 4334-Current Issues in the Work Environment
An overview of the current issues in the work environment related to the job selection process, equal employment opportunity, and the rights of workers on the market. Prerequisite: MGNT 3130 or permission of the department chair.

MGNT 4335-Labor Relations
A study of the history and the functions of labor organizations with reference to such areas as trade unions and public policy; the structure, government, and objectives of trade unions; the collective bargaining process; and the labor market. Prerequisite: MGNT 3130.

MGNT 4336-Compensation Management
A study of the fundamental wages and salaries in business organizations, the historical and legal trends in wage administration, the role of job analysis and performance appraisal in establishing a sound wage and salary program, and the basic ingredients of an effective compensation program. Prerequisite: MGNT 3130.
MGNT 4337-Employee Benefits
Employee benefit programs will be examined as part of an overall compensation program. The planning, executing, and evaluating of these programs will be studied as well as program cost estimations. Special attention will be given to relationships of benefits programs on employee attrition and productivity. Legal requirements will be integrated into all topics. Prerequisite: MGNT 3130 or permission of instructor.

MGNT 4338-Staffing, Training, and Development
A study of human resources planning, recruiting, and selection followed by a detailed investigation of training programs, evaluation of training, and personnel development. Prerequisites: MGNT 3130 and BUSA 3131.

MGNT 4434-Operations Strategy
Provides an understanding of how the operations function can be used to provide a competitive advantage for a business. The development of both domestic and global operations strategies will be examined, as will methods for continuous improvement of operations and supply chain performance in the expanded marketplace. This course stresses problem-solving and written and oral communication skills. Prerequisite: MGNT 3430 or permission of instructor.

MGNT 4435-Management of Quality
Focuses on the managerial issues that are important in understanding and implementing a corporate-wide “Total Quality Management” process, to include: corporate-level strategic quality decisions, plus tactical-type decisions, related to quality, across all functional areas of an organization. It stresses that an organization’s management system is concerned with planning to meet customers’ needs, organizing resources, managing for continuous improvement, and facilitating employee involvement. Prerequisite: Upper division business core.

MGNT 4436-Planning and Control Operations Management
Designed to further the understanding of Production/Operations Management. Students will learn advanced concepts and techniques in planning and controlling production and how these concepts/techniques are applied. Prerequisite: MGNT 3430

MGNT 4437-Service Operations Management
Designed to further the understanding of the Operations Function as it applies to services. Students will become familiar with the various Operations Management decisions required in managing a service business. Analytical models which support these decisions will be presented and discussed. Students will also become familiar with application of these principles and models through analysis of actual firms and service firm cases. Prerequisite: MGNT 3430.

MGNT 4790-Internship in Management
A supervised work-study program in selected business firms throughout the southeast. Any student enrolled in the internship program will be required to work for one full semester. Prerequisites: Adjusted GPA of 2.5 or better, permission of advisor and department chair.

MGNT 4890-Special Problems in Management
A customized course that is under the direction of a faculty sponsor. This course is designed to offer students an opportunity to pursue studies at a level or on topics not covered in scheduled courses. The scope and nature of the material covered is determined in consultation with the faculty sponsor. Prerequisite: Senior standing.

MGNT 6321-Production/Operations Management
Designed to provide an understanding of the production/operations function within an organization. It will focus on the types of decisions to be made at various organizational levels and, where appropriate, on particular models and quantitative techniques that can be useful in making those decisions. Emphasis will be placed on how those decisions are interrelated and how the operations function fits in with other functional areas of the firm. Prerequisites: Graduate standing and MGNT 6330.

MGNT 6330-Quantitative Methods for Business
An introduction to statistical and management science techniques commonly applied by managers. Provides the foundation for understanding the concepts and applications that will be studied in MGNT 7331. The MBA course will extend the depth and breadth of coverage, introduce the participants to advanced concepts and state-of-the-art techniques and applications, and expect the class to be able to integrate concepts from other fields in addressing business decisions. Prerequisite: Graduate standing.

MGNT 7322-Management of Operations for Competitive Advantage
Provides an understanding of the production/operations function within and organization. It will focus on the types of decisions to be made at various organizational levels and, where appropriate, on particular models and quantitative techniques that can be useful in making those decisions. Emphasis will be placed on how those decisions are interrelated and on their strategic implications for the firm. Finally, it will consider how the operations function fits in with the other functional areas of the firm. Prerequisite: Completion of prerequisites.

MGNT 7323-Leadership and Motivation
A study of leadership and motivation. This course provides an overview of existing theories and models of leadership and motivation. Using readings, cases, discussion, and guest speakers, the course explains the importance of leadership, motivation, power and influence in organizational life. Special emphasis is placed on leadership for change. Prerequisite: Completion of the MBA prerequisites.

MGNT 7331-Problem Solving with Quantitative Methods
Exposes students to the types of decision making situations they will face as managers. It will introduce students to advanced quantitative concepts and state-of-the-art techniques. By the end of the
course students will be expected to be able to analyze a problem statement, develop alternative solution procedures and select the one they believe is most appropriate, apply the process and interpret the results. Students will discover that most successful solutions to business problems require the ability to integrate concepts from nonquantitative fields with the quantitative results. Prerequisite: MGNT 6330.

MGNT 7332-Management for Non-profit Organizations
A study of the unique aspects of managing nonprofit organizations. The role in society is considered. Special emphasis is placed on HRM functions of the nonprofit, as well as, analysis of planning, organizing, directing, and controlling. Boundary spanning activities with governments and private sector will be studied. Prerequisites: Graduate standing and the completion of the MBA prerequisites and MGNT 7323 or permission of instructor.

MGNT 7333-Social Issues in Business
Overview of the impact of social issues on managerial decision making. Examines the role of the businessperson in modern society. Considers business and society responsibility, pollution, employment discrimination, affirmative action, sexual harassment, consumerism, business and professional ethics, and the social responsibilities of multinational corporations. Prerequisites: Graduate standing and the completion of the MBA prerequisites or permission of instructor.

MGNT 7334-Global Management
Provides the student with an understanding of the global manager’s role in the global organization. Provide graduate level skills in the management functions of global planning, international organizing, leading expatriates and diverse cultures, and controlling the global organization. Prerequisites: Graduate standing and the completion of the MBA prerequisites or permission of instructor.

MGNT 7335-Entrepreneurship
A study of the business formation process that focuses on the creativity, risk-taking, and planning associated with new ventures. Provides information on the entrepreneurial process starting with idea generation, idea development, feasibility analysis, resource identification, and concludes with the development of a coherent business plan. Prerequisites: Graduate standing and the completion of the MBA prerequisites and ACCT 7230 and MGNT 7331 or permission of instructor.

MGNT 7336-Readings in Total Quality Management
Managerial issues that are important in understanding and implementing an organization-wide “Total Quality Management” process, to include organizational-level strategic quality decisions plus tactical-type decisions related to the total quality management of the organization. Prerequisites: Graduate standing and the completion of the MBA prerequisites or permission of instructor.

MGNT 7337-Managing Organizational Change and Development
Provides an overview of the field of organization development (OD) and the management of change in today’s organizations. Prerequisites: Graduate standing and the completion of the MBA prerequisites and MGNT 7323.

MGNT 7338-The Human Resource Process
Provides a comprehensive in-depth study of the field of Human Resource Management and the interplay with other business functions and the environment. Prerequisites: Graduate standing and the completion of the MBA prerequisites and MGNT 7331.

Marketing (COBA)

MKTG 3131-Principles of Marketing
A basic survey of the field of marketing with emphasis upon the problems of policy determination and marketing management. Consideration is given to the international and ethical aspects of marketing decisions. Prerequisite: Completion of 60 hours of course work.

MKTG 3132-Principles of Advertising
Stimulation of market demand through advertising media, including budgeting, research, developing the advertising appeal, selecting the media, placing copy and measuring results, as well as legal, ethical, economic, social and global aspects of advertising. Prerequisite: MKTG 3131 or permission of instructor.

MKTG 3133-Professional Selling
A study of methods of selling. Topics covered include analysis of prospects, knowledge of merchandise and its uses, preparation of sales presentations, methods of handling objections and closing sales, with emphasis of relationship selling. Videotaped role playing required. Prerequisite: MKTG 3131 or permission of instructor.

MKTG 3135-Principles of Retailing
Examines all aspects of retail store operations including store development, merchandising, human resources, promotion, and security. Prerequisite: MKTG 3131.

MKTG 4131-Marketing Research
An activity of information gathering, analysis and interpretation for input into management decision making. Application of current practices and techniques in the marketing research industry. Requires the use of statistical software. Prerequisites: MKTG 3131 and BUSA 3131.

MKTG 4132-Retail Store Management
A comprehensive problems analysis course that involves both qualitative and quantitative aspects of retail operations. Merchandise budgets, pricing, operations control, and environmental issues are among the topics examined in the course. Prerequisites: MKTG 3131 and MKTG 3135 or permission of instructor.

MKTG 4133-Sales Management
Management of sales force activities. Emphasis on organization, territory design, leadership skills, motivation, and cost analysis. Prerequisites: MKTG 3131 and MKTG 3133.

MKTG 4134-Services Marketing
An analysis of the marketing aspects of the largest and most rapidly growing sector of the global economy. The principles and concepts of marketing are applied within the context of both consumer services and business services, in both domestic and international settings. Emphasis is placed upon the unique problems and opportunities associated with the marketing of services and the design and implementation of marketing strategies for service organizations. Prerequisite: MKTG 3131.

MKTG 3134-Business Marketing
A study of business to business marketing as a subset of the overall discipline of marketing. Prerequisite: MKTG 3131.

MKTG 4135-Buyer Behavior
Application of the behavioral science approach to analysis of buyer behavior, both final consumer and industrial. Individual, social, sociocultural, and psychological factors are studied. Prerequisite: MKTG 3131.
MKTG 4136-International Marketing
An examination of the mechanics of international marketing with particular focus on the influence of culture on the development of marketing strategy. Coverage of marketing topics is comprehensive with a particular focus on current events and their relationship to trade. Discussion of ethics and global responsibility are infused throughout the course. Prerequisite: MKTG 3131 or permission of instructor.

MKTG 4137-Marketing Management
An integrative course designed to demonstrate the complexity and multi-dimensional nature of marketing decisions. Marketing policies and strategy form the marketing manager’s viewpoint. Prerequisites: MKTG 3131 and last two semesters prior to graduation.

MKTG 4790-Internship In Marketing
A supervised work-study program in selected business firms throughout the Southeast and nationally. Students will be permitted to undertake internships only after review of academic qualifications and with firms pre-approved by the Marketing faculty. Prerequisites: Senior standing. Substantive course work completed within major area of study. Approval of both the supervising faculty member and the Department Chairperson is required.

MKTG 5030-Special Topics in Marketing
An intensive study of some phase or emerging phase of marketing to be developed by the instructor. Prerequisite: MKTG 3131 or permission of instructor.

MKTG 5830-Marketing Independent Study
Independent study and research in selected areas of Marketing under supervision of a member of the Marketing faculty. Prerequisite: Approval of the instructor and department chairperson.

MKTG 6420-Marketing Environment
Provides a firm foundation for an understanding of the challenges that face contemporary marketing. Addresses specific ways that marketers can meet these demands with marketing strategies. Includes emphasis on global issues, the marketing environment, ethics and other current developments in marketing. Prerequisite: Graduate standing.

MKTG 7431-Strategic Marketing Management
A strategy planning approach to marketing management from conception and application perspectives. Focus is on the strategic decision-making process supported by self-analysis and external analysis. Legal, ethical, and international aspects are also considered. Prerequisites: Graduate standing and the completion of the MBA prerequisites.

MKTG 7433-Advanced Buyer Behavior
Advanced analysis of the social and psychological issues that pertain to modern consumer behavior. Consumer behavior is the study of the explicit and implicit motives for why consumers and industrial buyers make specific purchases. Consideration is given to the cross cultural, ethical, and legal aspects of consumer behavior. Prerequisites: Graduate standing and the completion of the MBA prerequisites and MKTG 7431 or permission of instructor.

MKTG 7434-Advanced Sales Management
Combines both personal selling and sales management so students develop an understanding of how the sales function is integrated with marketing management. Emphasis is on relationship selling which seeks to establish long term partnerships with customers based on trust, quality, service and mutual respect. Prerequisites: Graduate standing and the completion of the MBA prerequisites and MKTG 7431.

MKTG 7435-Global Marketing
Provides the student with a thorough examination of the mechanics of international marketing with particular focus on the influence of culture on the development of marketing strategy. Coverage of marketing topics is comprehensive with a particular focus on current events and their relationship to trade. Discussion of ethics and global responsibility are infused throughout the course. Prerequisites: Graduate standing and the completion of the MBA prerequisites or permission of instructor.

Military Science (COST)
MSCI 1121-Introduction to Military Science and Skills Development
Instruction provides a basic understanding of the U.S. Army and its role in National Defense. Includes the following subjects: the role of the U.S. Army in national defense, organization and branches of the U.S. Army, ROTC, and its role, customs and traditions of the service, military writing, implementing a personal physical fitness program, role of the ARNG and USAR, and roles of the commissioned and non-commissioned officer. Skills development includes instruction and practical exercises in basic mountaineering skills including knot tying, climbing, belaying and rappelling.

MSCI 1122-Basic Military Leadership
Continues the development of critical military skills, leadership, and management techniques. Provides basic leadership techniques and principles, professional ethics and senior subordinate relationships. Skills development includes instruction in basic marksman- ship techniques including safety procedures and firing Army small arms weaponry. One weekend field trip is required.

MSCI 2121-Basic Military Skills
Instruction and practical exercises covering basic skills necessary as a future leader in the U.S. Army. Includes the following subjects: land navigation and map reading, basic first aid, survival and communications.

MSCI 2122-Basic Military Tactics
Introduces students to the fundamentals of Army leadership and management techniques. Focus is placed on the mission, organization, and composition of small unit teams, principles of offensive operations stressing firepower, movement, communications techniques and introduction to troop leading procedures.

MSCI 2731-Basic Military Skills Practicum (Basic Camp)
An intense summer program conducted at an active Army installation for six weeks. Designed as an alternative methods to meet the prerequisites of the advanced course for students who have had no basic military science instruction.
MSCI 3131-Advanced Tactics and Applied Leadership I
Instruction on the principles of leadership and the leader’s role in directing small units in a variety of tactical scenarios. Emphasis is placed on developing and executing orders, troop leading procedures and squad tactical reaction procedures. Land navigation and communication subjects are also included in the course.

MSCI 3132-Advanced Tactics and Applied Leadership II
Continued instruction on the principles of leadership and the leaders’ role in directing small units in a tactical environment. Emphasis is placed on offensive and defensive tactics, patrolling techniques, and conducting after action reviews. Instruction on management and leadership techniques emphasizes Green Tab Leadership and leadership assessment.

MSCI 3731-Advanced Military Skills Practicum  
(Advanced Camp)
The study and practical application of military skills and leadership ability during a six week encampment experience. Encampment and training is conducted at an active Army installation. Instruction and evaluation done by U.S. Army personnel assigned to the U.S. Army ROTC Cadet Command.

MSCI 3732-Advanced Military Nursing Skills Practicum  
(Advanced Camp Clinical)
The study and practical application of nursing skills and leadership ability during a three week (120 clinical hour) encampment experience. Encampment and training is conducted at the Army Medical Department Facility of the students choice in a nursing area of interest to the student. Instructor to student ratio is one to one. Instruction and evaluation is done by a BSN prepared registered nurse.

MSCI 4131-Military Leadership and Management Seminar
Instruction covers U.S. Army Command and Staff functions. Military and professional knowledge topics include writing in the Army style, oral communications, conducting briefings, preparing to conduct training and evaluating training. Topics in Military Justice system will be introduced to include the Law of Land Warfare and Code of Conduct.

MSCI 4132-Transition to Lieutenant
Instruction prepares MS IV cadets in their transition from Cadet/student to commissioned officer. Instruction covers leadership ethics and case studies, personnel, logistics, intelligence systems, and additional basic knowledge an individual needs to become a professional officer. Covers Army Officer personal affairs, education, evaluation systems, counseling techniques and Officer-NCO relations.

Applied Music (CLASS)
MUSA-Applied Music
Admission to an applied studio is by approval of the Music faculty. Instruction in various instruments and voice is offered. Undergraduate instruction is offered at preparatory, first, second, and third and fourth year levels. Graduate instruction is also offered. Credit hours available vary from 1-3 hours.

Music (CLASS)
• MUSC 1100-Music Appreciation
  An introduction to the development of listening skills, the fundamental elements of music, a historical survey of major periods and styles in Western music, and music in selected non-Western cultures.

MUSC 1213-Percussion Class
Emphasis on acquiring a theoretical and practical knowledge of percussion instruments. Includes instructional application through playing and the study of methods and materials.

MUSC 1215-String Class
Emphasis on acquiring a theoretical and practical knowledge of string instruments. Includes instructional application through playing and the study of methods and materials.

MUSC 1216-Voice Class
Designed to teach the elements of healthy voice production to instrumental majors in the music education program. Course includes study of breathing for singing, elements of balanced tone production, an introduction to the International Phonetic Alphabet, and instructional application through singing and study of methods and materials.

MUSC 1217-Woodwind Class
Emphasis on acquiring a theoretical and practical knowledge of woodwind instruments. Includes instructional application through playing and the study of methods and materials.

MUSC 1218-Brass Class
Emphasis on acquiring a theoretical and practical knowledge of brass instruments. Includes instructional application through playing and the study of methods and materials.

MUSC 1311-Composition Class
An introductory course to begin the development of skills in melodic/harmonic music composition. Prerequisites: MUSC 1311/1513 or MUSC 1333.

MUSC 1331-Music Theory I
Development of a command of the fundamental elements in music notation and structure, paralleling the work in MUSC 1513. Emphasizes notation, scales, tonality, intervals, harmony, cadences, nonharmonic tones, texture, and melodic organization. Corequisite: MUSC 1513.

MUSC 1332-Music Theory II
Continuation of the manipulation of elements in music notation and structure, paralleling the work in MUSC 1514. Emphasizes voice-leading in two and four voices, harmonic progression and rhythm, the dominant seventh chord, leading-tone seventh chords, and nondominant seventh chords. Prerequisites: MUSC 1331, MUSC 1513. Corequisite: MUSC 1514.

MUSC 1333-Music Theory Non-Major
Basic music theory with emphasis on note reading, understanding scales and rhythms, simple chord formations and their applications, basic relationships between melody and harmony and reading melodies at sight.

MUSC 1421-Group Piano: Piano Major A
Development of basic pianistic skills: scales, arpeggios, etc.

MUSC 1422-Group Piano: Piano Major B
Continuation of MUSC 1421, plus development of sight-reading, accompanying and keyboard harmony skills. Prerequisite: MUSC 1421.
MUSC 1511-Group Piano I
The study of keyboard theory and development of functional piano skills at the elementary level, with emphasis on harmonization, sight-reading, transposition, improvisation, and scales and chords.

MUSC 1512-Group Piano II
Continuation of skills begun in MUSC 1511. Prerequisite: MUSC 1511 or permission of instructor.

MUSC 1513-Sight-Singing/Ear Training I
Development in aural perception and sight-singing skills to parallel the work in MUSC 1331. Emphasizes melodic and harmonic dictation and sight-singing. Lab work will utilize the Music CAI Lab. Corequisite: MUSC 1331.

MUSC 1514-Sight-Singing/Ear Training II
Development in aural perception and sight-singing skills to parallel the work in MUSC 1332. Emphasizes melodic and harmonic dictation and sight-singing. Lab work will utilize the Music CAI Lab. Prerequisites: MUSC 1331, MUSC 1513. Corequisite: MUSC 1332.

MUSC 1515-Technology in Music
Introduction to the uses of technology in music, including acoustics, hardware/software, digital keyboards and MIDI sequence recording and editing. Supervised lab work with digital synthesizers and computers.

MUSC 2211-Instrumental Methods I
Designed for the choral music education student. Provides the student an overview of theoretical and practical knowledge of the woodwind and string families.

MUSC 2212-Instrumental Methods II
Designed for the choral music education student. Provides the student an overview of theoretical and practical knowledge of the brass and percussion families.

MUSC 2311-Jazz Improvisation I
Theory and techniques of jazz improvisation with emphasis on functional harmony, melodic form, and development of style. Prerequisites: MUSC 1331, MUSC 1332, MUSC 1513 and MUSC 1514.

MUSC 2312-Jazz Improvisation II
Theory and techniques of jazz improvisation with emphasis on functional harmony, melodic form, and development of style. Prerequisite: MUSC 2311.

MUSC 2321-Composition I
Creative writing for small ensembles with emphasis on notation, form, and individual stylistic development. Performance of works encouraged. Prerequisites: MUSC 1332 and MUSC 1514.

MUSC 2322-Composition II
Creative writing for small ensembles with emphasis on notation, form, and individual stylistic development. Performance of works encouraged. Prerequisite: MUSC 2321.

MUSC 2331-Advanced Music Theory Non-Major
Further study in melodic and harmonic relationships with emphasis on chords, chord symbols, and chord progressions through the study and analysis of musical compositions. Prerequisite: MUSC 1333 or permission of instructor.

MUSC 2333-Music Theory III
A study of traditional, chromatic and twentieth century forms and melodic/harmonic practices. Exercises in composition are included. Prerequisites: MUSC 1332 and MUSC 1514. Corequisite: MUSC 2513.

MUSC 2334-Music Theory IV
A study of traditional, chromatic and twentieth century forms and melodic/harmonic practices. Exercises in composition are included. Prerequisites: MUSC 2333 and MUSC 2513. Corequisite: MUSC 2514.

MUSC 2411-Diction for Singers I
Focuses on the study of the International Phonetic Alphabet and its application to the Italian, English and Latin languages within the standard vocal literature.

MUSC 2412-Diction for Singers II
Focuses on the study of the International Phonetic Alphabet and its application to the German, French and Spanish languages within the standard vocal literature.

MUSC 2421-Piano Literature I
The study of solo piano music from the late Baroque Period through the compositions of Beethoven, with special attention given to representative genres and composers. Prerequisite: Permission of instructor.

MUSC 2431-Piano Pedagogy I
An introduction to the teaching of piano at the elementary level through an examination of beginning methods and materials, teaching techniques, and studio management.

MUSC 2511-Group Piano III
Continuation of skills developed in MUSC 1512 at the intermediate level, with additional work in score reading and accompanying. Prerequisite: MUSC 1512 or permission of instructor.

MUSC 2512-Group Piano IV
Continuation of skills developed in Group Piano III. Final Exam serves as the Piano Exit Exam. Prerequisite: MUSC 2511 or permission of instructor.

MUSC 2513-Sight-Singing/Ear Training III
Development of aural perception and sight-singing. Emphasis on melodic and harmonic dictation and error detection. Corequisite: MUSC 2333. Supervised lab sessions for ear training practice. Prerequisites: MUSC 1332 and MUSC 1514.

MUSC 2514-Sight-Singing/Ear Training IV
Development of aural perception and sight-singing. Emphasis on melodic and harmonic dictation and error detection. Corequisite: MUSC 2334. Supervised lab sessions for rear training practice. Prerequisites: MUSC 2333 and MUSC 2513.

MUSC 3031-Selected Topics in Music
Topics vary with individual professor.

MUSC 3131-History of Music I
A chronological survey of music from antiquity to the end of the Baroque period, emphasizing issues of style, performance practice, musical aesthetics, and cultural context.
MUSC 3132-History of Music II
A chronological survey of music from the classic period to the present, emphasizing issues of style, performance practice, musical aesthetics, and cultural context.

MUSC 3231-Music For Teachers (K-5)
A course for education majors which provides experience in singing, movement, playing rhythm and accompanying instruments, and music skills for teachers. The emphasized music education materials are for kindergarten through grade five.

MUSC 3232-Elementary Methods and Materials in Music
Designed for the music specialist in the elementary school, with an emphasis on materials and methodology used in preschool through grade eight. Opportunities will be provided for observing, planning, and teaching in the elementary school classroom. Restricted to music majors. Prerequisite: Admission to Teacher Education required.

MUSC 3311-Jazz Improvisation III
Theory and techniques of Jazz improvisation with emphasis on functional harmony, melodic form, and development of style. Prerequisite: MUSC 2312.

MUSC 3312-Jazz Improvisation IV
Theory and techniques of jazz improvisation with emphasis on functional harmony, melodic form, and development of style. Prerequisite: MUSC 3311

MUSC 3321-Intermediate Composition I
Creative writing using techniques of various historical periods. Emphasis on medium forms and combinations of instruments in small ensembles. Performance of works encouraged. Prerequisite: MUSC 2322.

MUSC 3322-Intermediate Composition II
Creative writing using techniques of various historical periods. Emphasis on medium forms and combinations of instruments in small ensembles. Performance of works encouraged. Prerequisite: MUSC 3321.

MUSC 3331-Instrumentation
The study of traditional instrumental and vocal notation, ranges, technical capabilities, basic scoring techniques. Prerequisites: MUSC 2334, MUSC 2514.

MUSC 3411-Brass Pedagogy
Survey of teaching techniques (studio teaching of instruments).

MUSC 3412-Percussion Pedagogy
Survey of teaching techniques (studio teaching of instruments).

MUSC 3413-String Pedagogy
Survey of teaching techniques (studio teaching of instruments).

MUSC 3414-Woodwind Pedagogy
Survey of teaching techniques (studio teaching of instruments).

MUSC 3421-Piano Literature II
Covers the principle genres of solo piano music from the early Romantic Period through the Impressionistic Period, with formal and stylistic analysis of specific representative works by the principal composers. Prerequisite: Permission of instructor.

MUSC 3422-Piano Literature III
Comprises the stylistic and formal analysis of representative solo piano music of the twentieth century. Prerequisite: Permission of instructor.

MUSC 3423-Vocal Literature I
Study of the historical development of the Italian, French, and Spanish song literature, focusing on selected works of representative composers in each stylistic period. Prerequisites: MUSC 2411 and MUSC 2412 or permission of instructor.

MUSC 3424-Vocal Literature II
Study of the historical development of the German, English, and Latin song literature, focusing on selected works of representative composers in each stylistic period. Prerequisites: MUSC 2411 and MUSC 2412, MUSC 3423 or permission of instructor.

MUSC 3432-Piano Pedagogy II
An introduction to the teaching of piano at the pre-school, adult and intermediate levels.

MUSC 3531-Electronic/Digital Music I
A study and application of techniques of digital audio synthesis and production. Individual projects. Prerequisite: MUSC 1515.

MUSC 4221-Marching Band Techniques
Theoretical and practical approach to the instruction and direction of marching bands.

MUSC 4222-Vocal Methods
Designed to teach the elements of healthy vocal production through the study of the scientific elements of singing, as well as, through the preparation and performance of song literature. The course includes the study of diction for singers and basic vocal anatomy. Prerequisite: One semester of private voice.

MUSC 4321-Advanced Composition I
Creative writing for large ensembles, using twentieth century techniques, including electronic/digital music. Performance of works emphasized. Prerequisite: MUSC 3322.

MUSC 4322-Advanced Composition II
Creative writing for large ensembles, using twentieth century techniques, including electronic/digital music. Performance of works emphasized. Prerequisite: MUSC 4321.

MUSC 4331-Analytical Techniques
Techniques for analyzing form and other stylistic elements of music, emphasizing works from the common practice period; preparation of time lines and other graphic representations; score reading of orchestral scores with transposing instruments. Prerequisite: Completion of sophomore-level music theory sequence.

MUSC 4332-Counterpoint
Practical music writing experience in sixteenth, eighteenth, and twentieth century contrapuntal styles. Prerequisites: MUSC 2334 and MUSC 2514.

MUSC 4411-Basic Conducting
A practical course directed toward the cultivation and development of the skills required for students who plan to conduct music ensembles.
MUSC 4421-Vocal Pedagogy
The development of the teaching of singing through the study of its history and the investigation and application of research in vocal production and pedagogy. Supervised teaching of applied lessons and a survey of teaching materials. Prerequisites: MUSC 2411 and MUSC 2412, MUSC 3423 and MUSC 3424 or permission of instructor.

MUSC 4422-Introduction to Conducting
Designed to give the student basic skills in conducting. The student will become familiar with standard gesture patterns and techniques while acquiring knowledge of various types of conducted ensembles.

MUSC 4431-Choral Conducting and Literature
Designed to provide students with in-depth knowledge of choral conducting techniques and literature. Students will study appropriate conducting gestures specific to choral ensembles while acquiring knowledge of the great monuments of choral literature. Prerequisite: MUSC 4422.

MUSC 4432-Instrumental Conducting and Literature
Development of conducting skills through the study of literature appropriate for all levels of instrumental ensembles.

MUSC 4531-Secondary Choral Methods and Materials
Designed to provide the future choral music educator with rehearsal and teaching skills necessary to function in the choral music classroom. Students will learn rehearsal and teaching techniques, management and administration strategies, and develop specific skills related to becoming an effective teacher. Prerequisites: MUSC 2512, MUSC 4431. Admission to Teacher Education required.

MUSC 4532-Secondary Instrumental Methods and Materials
A study of various curriculum trends and methods for teaching music at the secondary level. Opportunities will be provided for observing, planning, and teaching in the secondary school classrooms. Prerequisites: EDUF 2131, EDUF 2230, Education Psychology, and Admission to Teacher Education.

MUSC 4533-Electronic/Digital Music II
A study and application of techniques of digital audio sequencing, sample recording/editing, multi-media production and advanced communication techniques. Individual projects. Prerequisite: MUSC 3531.

MUSC 4631-Senior Seminar in Music Education
Takes place during the student teaching semester and serves as an opportunity for music students to assemble on a weekly basis to discuss experiences and insights related to student teaching.

MUSC 4891-Special Problems in Music
Topics vary with individual professor.

MUSC 5031-Selected Topics in Music
Topics vary with individual professor.

MUSC 5131-History of Opera
A survey of major historical trends, aesthetic and stylistic developments, significant figures, and selected repertory in opera history. Prerequisites: MUSC 3131 and MUSC 3132 or permission of instructor.

MUSC/AAST 5132-Jazz History
Emphasizes the historical, musical, and chronological development of jazz music. Prerequisites: MUSC 1331 and MUSC 1332.

MUSC 5133-Music Baroque Period
A survey of major historical trends, aesthetic and stylistic developments, significant figures, and selected repertory from the Baroque period. Prerequisite: MUSC 3132.

MUSC 5134-Music Classic Period
A survey of major historical trends, aesthetic and stylistic developments, significant figures, and selected repertory from the Classic period. Prerequisite: MUSC 3132.

MUSC 5135-Music Romantic Period
A survey of major historical trends, aesthetic and stylistic developments, significant figures, and selected repertory from the Romantic period. Prerequisite: MUSC 3132.

MUSC/AMST 5136-Music Contemporary Period
A survey for major historical trends, aesthetic and stylistic developments, significant figures, and selected repertory from the contemporary period. Prerequisite: MUSC 3132.

MUSC 5137-Music in the U.S.
A survey of major historical trends, aesthetic and stylistic developments, significant figures, and selected repertory in American music.

MUSC 5138-Symphonic Literature
A survey of major historical trends, aesthetic and stylistic developments, significant figures, and selected repertory in symphonic literature. Prerequisite: MUSC 3132 or permission of instructor.

MUSC/AAST/AMST 5236-Jazz History
MUSC 5332-Jazz Styles and Analysis
The study of most of the major jazz styles which have been documented in recordings. Emphasis in post - 1940's styles of big bands and combos, and in the musical analysis of those jazz styles. Prerequisites: MUSC 3132 and MUSC 5132.

MUSC 5411-Jazz Pedagogy
Emphasizes the materials and methods available for the teaching of jazz music at all levels from middle school through university.

MUSC 6131-Music Reference Tools and Resources
A survey of basic and advanced reference sources and tools relating to music, both printed and on-line; methods for locating, evaluating, and citing manuscript and printed musical sources, including critical editions; resources for finding music-related materials on the Internet; and tools for dealing with music reference materials in foreign languages.

MUSC 6531-Technology in Music
Introduction to the uses of technology in music, including acoustics, hardware/software, digital keyboards and MIDI sequence recording and editing. Supervised lab work with digital synthesizers and computers.

MUSC 7091-Selected Topics Music Literature
Supervised independent study of topics dealing with literature pertinent to a student’s applied area. Prerequisite: Permission of the supervising instructor and the department’s graduate coordinator.
MUSC 7092-Selected Topics in Music
Topics vary with individual professor.

MUSC 7231-History and Philosophy of Music Education
A study of historical and philosophical currents which have shaped current music education practices.

MUSC 7232-Research Methodologies in Music Education
Survey of qualitative methodologies commonly used in music education research, including procedures, criteria for evaluation of research, and the communication of research findings.

MUSC 7233-Methods and Materials in General Music
Designed for music teachers who conduct classes for non-performers. Emphasis is given to understanding the function and structure of music in relevant form for the general student.

MUSC 7234-Twentieth Century Music Education Methodologies
A study of current and traditional methodologies in twentieth century music education, with specific emphasis on Kodaly, Offir, Dalcroze, MMCP, and Comprehensive Musicianship. Designed for music educators who wish to increase their knowledge and skills in providing musical experiences for primary and intermediate classrooms.

MUSC 7331-Advanced Analytical Techniques
Techniques for analyzing form and other stylistic elements of music, emphasizing larger and more complex works; overview of major analytical methodologies; issues in interpreting published analytical research; combining analytical and historical research.

MUSC 7332-Twentieth Century Harmony
A study of harmonic concepts and practices in twentieth century music. Emphasis on analysis and on writing exercises.

MUSC 7333-Contrapuntal Techniques
A study of sixteenth, eighteenth, and twentieth century techniques of counterpoint, with emphasis on writing exercises in typical styles, using typical devices and forms.

MUSC 7334-Advanced Choral Arranging
Practical experience in arranging for various vocal combinations, score analysis, score reading, and manuscript preparation for publishers.

MUSC 7391-Composition
Development of skills in advanced composition. Prerequisite: Instructor’s permission.

MUSC 7431-Advanced Choral Techniques and Materials
Designed to provide the student with advanced rehearsal and teaching techniques for the choral music classroom. Emphasis placed on the improvement and efficiency of the conducting gesture, analysis and interpretation of scores, and performance practice.

MUSC 7432-Choral Literature
Designed to provide students with in-depth knowledge of choral literature. Students will study the major genres from the Pre-Renaissance to the present with emphasis on the mass, motet, requiem, and oratorio.

MUSC 7433-Advanced Instrumental Techniques and Materials
Provides instruction in the techniques of instrumental ensemble rehearsal, including both conductor preparation and execution, and allowing for analytical experiences with respect to selected instrumental ensemble performances.

MUSC 7434-Band Literature
Provides a survey of the historical development of wind band literature and ensembles from the Renaissance to the present, with respect to composers, composition, performers, instrumentation, and events.

MUSC 7435-Advanced Marching Band Techniques
A theoretical and practical approach to the instruction and direction of marching bands.

MUSC 7531-Advanced Electronic/Digital Music
For the experienced electronic/digital musician; presents and develops current uses of technology, including sequence recording/editing, sample recording/editing and multi-media production. Prerequisite: MUSC 6531 or equivalent.

MUSC 7631-Seminar in Music Theory
A capstone course to review concepts of music theory and examine current systems and materials used in teaching music theory.

MUSC 7891-Special Problems in Music
Topics vary with individual professor.

MUSC 7991-Music Education Final Project
Planned project, written or practical, directed by the student’s project advisor. Prerequisites: Permission of the student’s project advisor and the graduate coordinator.

MUSC 7999-Thesis
Planned research and writing directed by the student’s thesis advisor. Prerequisites: Permission of the student’s thesis advisor and the graduate coordinator.

MUSC 8231-Music Administration
An introduction to the various issues in music administration including, but not necessarily limited to, those relating to academic leadership, the decision-making process, personnel matters, problem solving, new technologies in music, resource planning, development and assessment.

Music Ensemble (CLASS)
MUSE-Ensembles
Ensembles of various types are available to all students (some through audition), at both undergraduate and graduate levels. Ensembles carry 1 hour credit.

Nutrition and Food Science (CHPS)
NTFS 2530-Nutrition and Health
The basic principles of nutrition and their application to health and wellness. The interrelationship between personal nutrition and health maintenance throughout the life cycle is included.

NTFS 2534-Introductory Food Science
Develops basic understanding of the principles of food preparation. Applies principles to food preparation for individuals, families and commercial food services.

NTFS 2535-Nutrition and Diet Therapy
Provides a basic understanding of the importance of nutrition in health maintenance and disease. The role of the nurse/health care provider in the nutritional assessment and the delivery of nutrition support services for individuals with illness and physical stress are emphasized. Prerequisite: 8-hour laboratory science or permission of instructor.
NTFS 3534-Human Nutrition
The fundamental principles of human nutrition and their application to food selection are discussed. Emphasis is placed upon the recommended dietary allowances and other dietary guidelines which promote health maintenance and disease prevention. Prerequisite: CHEM 1140 or permission of instructor.

NTFS 3535-Life Cycle Nutrition
Investigates the role of nutrition and dietary factors on the growth, development and maintenance of health in individuals from birth through aging. Prerequisite: NTFS 2530 or NTFS 2535 or NTFS 3534 or permission of instructor.

NTFS 3536-Meal Management
Principles of nutrition and food science are integrated with the management process in planning and quality meal service. Prerequisites: NTFS 2530 or NTFS 2535 or NTFS 3534 and NTFS 2534.

NTFS 3537-Advanced Food Science
Considers the chemical, physical, and biological properties of food ingredients. Emphasis is placed on investigating the relationship between preparation methods, proportions of ingredients and final product quality. Prerequisite: NTFS 2534, NTFS 3534, CHEM 1140 or permission of instructor.

NTFS 3730-Quantity Food Practicum
Food Science theories and principles are applied in an institutional food service facility. Foodservice production skills and techniques are developed in this course as are skills in the application of sanitation regulations. To be taken in conjunction with HNRM 3324. Prerequisite: HNRM 2334, NTFS 2534, BIOL 2240 or permission of instructor.

NTFS 4524-Professional Practice Strategies
Explores careers in nutrition and food science and examines principles of education, team building, leadership, marketing professional skills, professional ethics and the concept of service within the field. Prerequisite: Senior status or permission of instructor.

NTFS 4535-Community Nutrition
Explores the role of nutritionists in the delivery of nutrition services through community agencies and health and wellness programs. Planning, implementation, monitoring and evaluation of community-based programs are emphasized. The role of government and the impact of the legislative process on the provision of services is examined. Prerequisites: NTFS 2530 or NTFS 2535 or NTFS 3534 and NTFS 3535 or permission of instructor.

NTFS 4536-Advanced Nutrition
Considers the principles of nutrition science with special emphasis on integration of macro and micronutrient metabolism and function in humans. Prerequisite: BIOL 2211, BIOL 2212, BIOL 2231, BIOL 2232, CHEM 2542, NTFS 3534 or permission of instructor.

NTFS 4537-Experimental Food Science
Considers the effects of composition, handling, and preparation techniques on food product quality. Emphasis is placed on basic concepts of research methodology, statistical analysis, and preparation of detailed technical reports. Prerequisite: NTFS 3537, STAT 2231 or permission of instructor.

NTFS 4538-Medical Nutrition Therapy
Investigates the role and benefits of nutritional support and therapy in the metabolic and pathophysiologival changes associated with disease in humans. Teaches the application and documentation of the nutritional care process to the needs of patients. Prerequisite: NTFS 4536 or permission of instructor.

NTFS 4539-Issues and Trends in Food Science
A study of current trends and issues in the field of food science and technology. Issues related to product development, marketing and regulations and standards will be addressed. Prerequisites: NTFS 3537 or permission of instructor.

Nursing (CHPS)

NURS 3130-Critical Inquiry: Nursing Research
Focuses upon the research process and enhancement of critical thinking skills. Students learn to critique, analyze, and apply research findings to health promotion of persons, families, groups, and communities. The relationship of nursing research to nursing theory and practice is explored. Prerequisites: NURS 3139 and STAT 2231.

NURS 3131-Therapeutic Nursing Interventions: Health Promotion I
Builds a foundation for professional nursing practice including fundamental concepts and principles related to basic nursing care for a culturally diverse rural population. Emphasis is on the acquisition of basic nursing skills and utilization of enabling factors in the performance of safe and appropriate therapeutic nursing interventions. The course incorporates knowledge gained from the arts and sciences into the practice of nursing. Prerequisite: Admission to B.S.N. program. Corequisites: NURS 3331, NURS 3231, NURS 3139.

NURS 3133-Mental Health Nursing: Health Promotion III
Introduces major theoretical concepts in mental health which relate to the nursing care of persons, families, groups, and communities. Utilizing the Health Promotion framework, students conceptualize how the enabling factors are incorporated into the assessment of needs and the planning of care of persons with mental health problems. Emphasis is placed on the examination of mental health alterations and the various roles and functions of the professional mental health nurse. Prerequisites: NURS 3131, NURS 3331, NURS 3230, NURS 3231. Corequisite: NURS 3323.

NURS 3139-Conceptual Basis of Nursing: Health Promotion Throughout Life
Provides an introduction to the B.S.N. Program’s framework of Health Promotion Throughout Life. The concepts of person, nursing, health, environment, health promotion, human caring, communication, ethical principles, critical thinking, empowerment, research, cultural sensitivity, and healthcare technology are explored and applied to specific case situations. The student is exposed to the historical aspects of nursing and healthcare, with emphasis on the rural environment, as well as healthcare policy and financial implications in the current healthcare arena. Healthcare delivery systems, barriers to healthcare, and legal aspects of nursing are discussed. The ANA Standards of Nursing Practice are introduced in this course with specific emphasis on caring and ethics.
NURS 3142-Nursing Care of Adults: Health Promotion II
Focuses on Health Promotion Throughout Life incorporating primary, secondary, and tertiary prevention as they apply to illness affecting adults. Application of the nursing process through nurse-person partnerships regarding promotion, maintenance, or restoration of health is emphasized through the use of case studies. Prerequisites: NURS 3139, NURS 3131, NURS 3331, NURS 3230, NURS 3231. Corequisite: NURS 3342.

NURS 3230-Health Assessment Across The Lifespan
The theoretical and laboratory course focuses on the physical, psychosocial, socioeconomic, nutritional, cultural, and spiritual parameters of persons across the lifespan. Facilitates the development of health assessment skills within the Health Promotion framework. Prerequisites: Admission to B.S.N. program or permission of the instructor. Corequisite: NURS 3139.

NURS 3231-Pharmacology and Other Therapeutic Modalities
Introduces pharmacologic and other therapeutic modalities appropriate to culturally diverse populations across the lifespan. Ethical, legal, and teaching responsibilities are delineated. Emphasis is placed on roles and responsibilities of the nurse in collaboration with the multidisciplinary team to facilitate health promotion. Prerequisite: Admission to B.S.N. program. Corequisite: NURS 3139.

NURS 3323-Mental Health Promotion: Practicum III
This practicum allows students to synthesize and apply the major mental health concepts in providing nursing care to persons, families, groups, and communities. Utilizing the Mental Health Promotion framework, students integrate the enabling factors in assessing, diagnosing, identifying outcomes, planning, implementing, and evaluating mental health nursing care. Emphasis is placed on the application of various treatment modalities on the roles and functions of the professional mental health nurse. Prerequisites: NURS 3139, NURS 3131, NURS 3331, NURS 3230, NURS 3231. Corequisite: NURS 3313.

NURS 3331-Therapeutic Nursing Interventions: Practicum I
Focusses on the acquisition of basic nursing skills and utilization of enabling factors needed to provide safe and appropriate therapeutic nursing interventions. Knowledge acquired in NURS 3131 will be utilized in the performance of basic therapeutic nursing skills. 9 clinical hrs/wk. Prerequisite: Admission to B.S.N. program. Corequisites: NURS 3139, NURS 3131, NURS 3230, NURS 3231.

NURS 3342-Adult Health Promotion: Practicum II
Provides clinical experiences regarding health promotion in rural/urban primary, secondary, and tertiary health care settings. Students use the nursing process and other analytical tools to provide care to persons experiencing illnesses. Students build on skills previously mastered while acquiring new skills needed to administer safe and effective care. The practicum gives students the opportunity to integrate theory with clinical practice thereby fostering critical thinking in the solution of problems. Prerequisites: NURS 3139, NURS 3131, NURS 3331, NURS 3230, NURS 3231. Corequisite: NURS 3142.

NURS 4090-Selected Topics in Nursing
Allows independent field and laboratory investigation under faculty supervision. Faculty and students collaborate to formulate the objectives and requirements. Prerequisite: Permission of the instructor.

NURS 4132-Complementary Therapeutic Modalities
Introduces culturally specific therapeutic modalities that are complementary to western health care. These health care modalities are examined relative to their combination with scientific therapies and professional and lay healers. Ethical, legal, and teaching responsibilities are elaborated. Emphasis is placed on the roles and responsibilities of the nurse in collaboration with the client and the multidisciplinary team to facilitate health promotion.

NURS 4134-Nursing Care of Developing Families: Health Promotion IV
Focuses on health promotion of developing families throughout the prenatal experience. Enabling factors which facilitate the performance of therapeutic nursing interventions are explored. Content focuses on theories of developing families, the four trimesters of pregnancy, family developmental tasks, and health education. Prerequisites: NURS 3142, NURS 3342, NURS 3133, NURS 3332. Corequisite: NURS 4324.

NURS 4135-Nursing Care of Children: Health Promotion V
Focuses on the role of the nurse in partnership with families for the purpose of promoting the health and development of children. Family health is viewed as integral to children’s health. Theory and research serve as the basis for the effective utilization of enabling factors in the nursing care of children and their families. Content focuses on the health promotion needs of infants, toddlers, preschoolers, schoolagers, and adolescents. Prerequisites: NURS 3142, NURS 3342, NURS 3133, NURS 3323. Corequisite: NURS 4325.

NURS 4137-Community Health Nursing: Health Promotion VII
Focuses on health promotion of diverse cultures in the rural community. Students synthesize and apply previously introduced health promotion concepts. Concepts of community health nursing, including principles and application of epidemiology and community assessment, are introduced. Students analyze variables that place populations at risk and design appropriate interventions. The importance of critical thinking and caring are stressed in the provision of therapeutic nursing interventions to culturally diverse persons, families, groups, and communities. Prerequisites: NURS 4134, NURS 4324, NURS 4135, NURS 4325, NURS 4236. Corequisite: NURS 4327.

NURS 4138-Nursing Leadership and Management: HP VIII
Focuses on health promotion in nursing through leadership and management in multidisciplinary environments. The importance of critical thinking to effective nursing leadership within a culturally diverse and changing health care system is emphasized. Course content includes management and leadership theories and skills, management techniques, change strategies, healthcare technology, and role transition strategies to assist the new professional nurse. Prerequisites: NURS 4134, NURS 4324, NURS 4135, NURS 4325, NURS 4236. Corequisites: NURS 4738.

NURS 4229-HP: A Critical Analysis of Nursing Concepts
Facilitates the synthesis and application of major concepts of the Health Promotion framework in the nursing care of persons, families, groups, and communities. Students utilize the enabling factors in leading seminar discussions and engaging in critical discourse and case analysis. Successful completion of a comprehensive summative examination is required to pass the course. Prerequisites: NURS 4134, NURS 4324, NURS 4135, NURS 4325, NURS 4236.
NURS 4236-Complex Health Problems: Health Promotion VI
Focuses on health promotion incorporating primary, secondary, and tertiary prevention as related to illness affecting persons with oncological, critical, and/or terminal conditions. Application of the nursing process with a focus on promotion, maintenance, and restoration of health is emphasized. Current trends in care and the use of health care technology to maximize therapeutic care outcomes are discussed. Prerequisites: NURS 3133, NURS 3142, NURS 3342, NURS 3323.

NURS 4324-Developing Families Health Promotion: Practicum IV
Focuses on health promotion of families throughout the prenatal experience. Knowledge acquired in NURS 4134 is utilized in planning and implementing therapeutic nursing interventions which are empowering in promoting, maintaining, and restoring health. Students utilize the nursing process in the provision of nursing care for selected persons and families. The enabling factors of human caring, communication, ethical principles, critical thinking, empowerment, research, cultural sensitivity, and health care technology are used in providing nursing care. Prerequisites: NURS 3142, NURS 3342, NURS 3133, NURS 3323. Proposed Corequisite: NURS 4134.

NURS 4325-Child Health Promotion: Practicum V
Focuses on health promotion of children and their families. Knowledge acquired in NURS 4135 is utilized in assessing, analyzing, planning, implementing and evaluating nursing care to promote, maintain, and restore health of children. Clinical experiences are provided in rural/urban hospitals and community settings. Prerequisites: NURS 3142, NURS 3342, NURS 3133, NURS 3323. Corequisite: NURS 4135.

NURS 4327-Community Nursing Health Promotion: Practicum VII
Focuses on the provision of nursing within community settings. Students assess and identify health problems of persons, families, groups, and communities. Focus of activities is on health promotion in partnership with selected persons, families, groups, and communities. Prerequisites: NURS 4134, NURS 4324, NURS 4135, NURS 4325, NURS 4236. Corequisite: NURS 4137.

NURS 4738-Nursing Leadership and Management: Practicum VIII
Provides opportunities for the student to function as a manager in a collaborative role within a multidisciplinary healthcare team. Varied leadership roles, including the management of groups and the art of delegation are the focus of clinical practice. Prerequisites: NURS 4134, NURS 4324, NURS 4135, NURS 4325, NURS 4236. Corequisite: NURS 4138.

NURS 4890-Independent Study
Allows the individual student to study or investigate an area of interest under the direction of a faculty member. Prerequisite: Permission of instructor.

NURS 5240-Advanced Physical Assessment Across the Lifespan
Builds on a basic assessment skills: principles and techniques necessary to complete a total health history, developmental assessment, physical examination and documentation of the findings to form a data base are learned. Recognition of pathological signs and symptoms associated with illness and the assessment of health promotion activities is emphasized. Assessment of the woman who is pregnant and her infant and selected diagnostic procedures are included, 60 clinical hours required. Prerequisite: Undergraduate basic physical assessment course preferred.

NURS 6121-Theory for Advanced Practice Nursing
Explores definitions, purposes, and elements of theory as related to theory development and evaluation, research, and practice. Selected theoretical and conceptual frameworks will be analyzed and critiqued for use in advanced practice nursing. A major focus of this course is the development of critical thinking skills using both inductive and deductive forms of logic.

NURS 6131-Professional Roles and Issues
Explores concepts that prescribe the framework of advanced practice nursing with application to APN roles. Professional, ethical, and cultural issues that impact health care will be discussed. The graduate nursing student will begin to build and shape strategies for dealing with role assimilation, positive and negative role influences, and important health care issues.

NURS 6132-Principles and Methods of Nursing Research
Explores design, methodology and data analysis in the context of theory and nursing practice. Both quantitative and qualitative methods are evaluated. Students will critique research studies applicable to advanced practice nursing. Emphasis is placed on the development of a research proposal. Prerequisite: Undergraduate statistics and NURS 6121.

NURS 6133-Health Care Organizations and Informatics for Advanced Practice Nursing
Characteristics of health care organizations from rural and urban perspectives important to advanced practice nursing are examined. The American health care system, financing, health policy, national, state, and local legislative issues which impact the delivery of health care by advanced practice nurses are emphasized. Students analyze information systems and use information technologies to investigate current legislative and advanced practice nursing issues.

NURS 6134-Differential Diagnosis and Pathophysiology
Explores advanced concepts of pathophysiology that alter and/or disrupt body system functioning in adults and children. Knowledge of pathophysiology concepts provide the foundation for determining differential diagnosis(es) related to presenting patient problems.

NURS 6135-Pharmacotherapeutics for Advanced Practice Nursing
Builds upon the pharmacological knowledge base of the student in an advanced practice nursing major. Pharmacology and pharmacotherapeutics for selected drug classifications and prototype drugs used in primary care settings are explored. Selected primary care disorders are discussed related to appropriate pharmacological management.

NURS 6136-Family Health Promotion for Advanced Practice Nursing
Family theoretical frameworks are used to explore the influence of psychological, cultural, and social aspects of rural/urban life on health. Health care problems and issues of concern to advanced practice nursing providing care to rural and urban families will be compared and contrasted. Techniques for screening at-risk families to facilitate early case finding and strategies for health maintenance and health promotion are included.
NURS 6811-Research Practicum 1
Provides an opportunity for graduate nursing students to begin investigation of an area of interest applicable to advanced nursing practice. The student will develop a specific problem and purpose statement, complete a literature review, develop a method of investigation, explore ethical issues related to the project/research, and begin to implement the design of the project/research. Completion of the project/research will occur in NURS 6812. Students may elect to participate in individual faculty research projects. Course format will be determined by the faculty mentor and committee. Prerequisite: NURS 6132.

NURS 6812-Research Practicum 2
Provides an opportunity for graduate nursing students under the committee process to complete the investigation of an area of interest. The student will complete an analysis of data, determine conclusions, interpret data in relation to previous research and theory, and identify implications for nursing practice and further research. Prerequisite: NURS 6811.

NURS 7090-Selected Topics Nursing
Provides a mechanism for offering courses on selected topics in nursing.

NURS 7221-Primary Care Clinical 1
Requires 120 hours of clinical experience in a primary care or obstetrical/gynecological setting. Care is provided to men and women experiencing reproductive or lifestyle concern and to women experiencing pregnancy or gynecological conditions. Provision of care to healthy newborns and infants experiencing common disorders is expected. Group discussions provide an opportunity for learning synthesis incorporating patients with diverse cultural backgrounds. Prerequisites: NURS 5240; NURS 6134. Corequisite: NURS 6135, NURS 7231.

NURS 7222-Primary Care Clinical 2: Family Nurse Practitioner
Provides 120 hours of clinical experience in a primary care, urgent care or specialty setting which provides care to persons across the lifespan presenting with a health care problem requiring moderate lifestyle changes. Emphasis is placed on patients experiencing disorders with the EENT, respiratory, dermatological, musculoskeletal, and genitourinary systems; emergency situations and communicable diseases. Fifteen hours of group discussion will provide an opportunity for learning synthesis. Prerequisites: NURS 5240, NURS 6134, NURS 6135. Corequisite: NURS 7232.

NURS 7231-Primary Care 1
Explores the ambulatory care of women experiencing uncomplicated pregnancy, menstrual disorders and menopause. Fertility and fertility control, reproductive problems, and sexuality concerns, anxiety, mood disorders, eating disorders, and abuse of men and women are addressed. Newborn assessment, nutrition, breast feeding strategies, and infant care are studied. Health promotion strategies for the childbearing family are emphasized. Prerequisites: NURS 5240, NURS 6134. Corequisite: NURS 6135, NURS 7221.

NURS 7232-Primary Care 2: Family Nurse Practitioner
Episodic primary health care problems of persons across the life span. Emphasis is placed on patients experiencing disorders with the EENT, respiratory, dermatological, musculoskeletal, and genitourinary systems; emergency situations and communicable diseases. Therapeutic nursing interventions for the management of problems will emphasize health promotion strategies to prevent episodic health problems. Prerequisites: NURS 5240, NURS 6134, NURS 6135. Corequisite: NURS 7222.

NURS 7241-Primary Care 3: Family Nurse Practitioner
Chronic primary care health problems of persons across the life span. Emphasis is placed on persons experiencing disorders with a cardiovascular, gastrointestinal, neurologic, endocrine and immunologic system etiology. Patients experiencing chemical dependency problems will be studied. The therapeutic nursing intervention management of the problems will emphasize health promotion strategies to prevent, monitor, and stabilize chronic health problems. Prerequisites: NURS 5240, NURS 6134, NURS 7242.

NURS 7242-Primary Care Clinical 3: Family Nurse Practitioner
Provides 240 hours of clinical experience in a primary care of specialty setting. Emphasis is placed on the assessment of individuals across the life span experiencing a chronic illness. Fifteen hours of group discussion will provide an opportunity for learning synthesis. 16 hours clinical. Prerequisites: NURS 5240, NURS 6134, NURS 6135 (or corequisite). Corequisite: NURS 7241.

NURS 7331-Women’s Health Nurse Practitioner 2: Problem Pregnancy
Focuses on women who are pregnant or who desire to become pregnant. Pharmacological strategies appropriate to pregnancy will be covered. Therapeutic nursing interventions related to preconceptual counseling issues, complicated pregnancy and postpartum conditions, pregnancy termination, infertility and fetal assessment will be discussed. Health promotion strategies for the woman with problems complicating a pregnancy will be addressed. Prerequisites: NURS 5240, NURS 6134, NURS 6135, NURS 7221 and NURS 7231. Corequisite: NURS 7332.

NURS 7332-Women’s Health Nurse Practitioner Clinical 2
Provides 180 hours of clinical practice in a health care setting which provides care to pregnant women. Students will provide assessment, physical examination, diagnosis, therapeutic nursing interventions, medical and nursing care for women experiencing problems complicating a pregnancy and/or puerperium. Fifteen hours of group discussion will provide for learning synthesis. Prerequisites: NURS 5240, NURS 6134, NURS 6135, NURS 7221 and NURS 7231. Corequisite: NURS 7331.

NURS 7341-Women’s Health Nurse Practitioner 3: Complicated Gynecological and Primary Care of Women
Focuses on complex gynecological and selected primary care health problems of women. Therapeutic nursing interventions and medical management related to breast disease, reproductive infections, reproductive cancer, and technological diagnostic measures will be covered. Selected psychological, physical and non-gynecological primary care problems frequently seen by the Woman’s Health Nurse Practitioner will be addressed. Health promotion strategies to improve the quality of life of the women will be emphasized. Prerequisites: NURS 5240, NURS 6134, NURS 6135, NURS 7221 and NURS 7231. Corequisite: NURS 7351.

NURS 7351-Women’s Health Nurse Practitioner Clinical 3
Provides 300 hours of clinical practice in a setting which provides care to women. Students will provide the assessment, physical examination, diagnosis, therapeutic nursing interventions, and medical care for women with complex gynecological or selected primary care problems. Fifteen hours of group discussion will provide for learning synthesis. Prerequisites: NURS 5240, NURS 6134, NURS 6135, NURS 7221 and NURS 7231. Corequisite: NURS 7341.
NURS 7431-Leadership in the Context of Community for Advanced Practice Nursing
Develops the advanced practice nursing leadership skills necessary for the provision of health care within an organizational unit in a community setting. Organizational theories, interpersonal communication, negotiation skills, collaboration, and conflict resolution strategies utilized by advanced practice nurses are explored.

NURS 7433-Costing Out Health Care Services for Advanced Practice Nursing
Covers the application of the basic principles of costing-out health care services for advanced practice nursing. Issues related to caring for rural populations, poorly insured, noninsured, and Medicaid and Medicare populations are explored. Emphasis is placed on assisting the advanced practice nurse to evaluate health care activities and to provide appropriate health care within a fiscally sound budget.

NURS 7434-Health Program Planning and Evaluation Issues for Advanced Practice Nursing
Explores grant development, goal articulation, decision making, implementation planning, outcomes evaluation, and feedback used in program development for health care delivery by advanced practice nursing. The process skills related to developing, maintaining, and strengthening programs and grant writing skills by advanced practice nurses in order to meet community and individual health care needs in a culturally appropriate and caring manner are emphasized.

NURS 7435-Care of Vulnerable Populations 1
Explores creative approaches to meet the needs of high risk populations and aggregates experiencing chronic illness. Emphasis is placed on the development of skills to interact with an interdisciplinary health care team to access health care resources and to design management approaches which meet the needs of vulnerable rural populations. 60 hours of clinical will provide the student hands-on experience in a community setting.

NURS 7441-Care of Vulnerable Populations 2
Explores creative approaches to meet the needs of aggregate populations. The development of management plans which are culturally sensitive and fiscally responsible is emphasized. The legal and ethical issues and cultural constraints placed on the nurse delivering care in a rural area is covered. 60 hours of clinical will provide the student hands-on experience in a community setting. Prerequisite: NURS 7435 or permission of instructor.

NURS 7740-Primary Care Practicum: Family Nurse Practitioner
180 hours of clinical experience in a primary care, urgent care or specialty setting. Emphasis is placed on the evaluation of persons across the life span to include the promotion of positive health behaviors. Broad based comprehensive experience across the life span is expected. Fifteen hours of group discussion will provide an opportunity for learning synthesis. Prerequisites: All courses must be completed with the exception of an elected Thesis.

NURS 7741-Rural Community Health Nurse Specialist Practicum
240 clinical hours of care to an aggregate group of high risk individuals in a community health setting are required. Course allows for synthesis and application of theoretical and clinical knowledge gained in required courses. Advanced nursing skills of assessment, planning, intervention, implementation, coordination, monitoring and evaluation are employed. Fifteen hours of group discussion will provide an opportunity for learning synthesis. Prerequisites: All major courses except corequisites NURS 6812 and NURS 7433.

NURS 7761-Family Nurse Practitioner Beginning Preceptorship and Project I
Beginning family nurse practitioner preceptorship rotation with 180 hours of clinical. It is the vehicle for implementing FNP competencies learned in the didactic and clinical portions of the program. The controlled clinical experience is carried out within a rural health care setting using clinical preceptors with site visits by faculty. Client assessment, diagnosis of patient problems, and the development of nursing and medical strategies of management related to the identified problems will be emphasized. The student will begin the development of a practice-based project that will culminate in NURS 7762. Prerequisites: All FNP semester program course work and permission of instructor.

NURS 7762-Family Nurse Practitioner Advanced Preceptorship and Project II
240 clinical hours in rural health care settings. Students assume increasing responsibility for the health care of clients as competence is validated by clinical preceptors and faculty site visits. The student will complete the practice-based project under faculty direction. Prerequisites: All FNP semester program course work, NURS 7761 and permission of instructor.

NURS 7890-Independent Study Nursing
Allows the graduate student the opportunity to investigate an area of interest under the direction of a faculty member. Prerequisites: Permission of instructor.

NURS 7999-Thesis Nursing
Thesis hours are elective to the graduate nursing program of study. A thesis provides the opportunity to pursue research in an area of interest within the major under faculty direction. The student is required to demonstrate evidence of critical thinking in the development of the research design and analysis of the findings. The thesis requires a defense of design, conduct, analysis and interpretation of the findings. The thesis is completed utilizing a standard format prescribed by the College of Graduate Studies. Prerequisites: NURS 6132; NURS 6811 and NURS 6812; and permission of instructor.

Public Administration (CLASS)
PBAD 7020-Selected Skills in Public Management
Intensive development of specific skills needed by public managers not covered by other courses. May be repeated once as skill areas change.

PBAD 7030-Selected Topics in Public Management
Intensive studies of specific topics in public management not covered by other courses. May be repeated once as topics change.

PBAD 7120-Written Communication for Public Managers
Teaches students the formats, styles and techniques for effective writing in a public sector organization. Attention will be given to memoranda, speech writing, reports, press releases, evaluations and recommendations, form letters, and individualized letters of response to citizen requests and complaints.

PBAD 7121-Presentations for Public Managers
Focuses on skills needed to make effective oral presentations in public settings, to conduct effective meetings, and to prepare effective supplementary materials that enhance the quality of presentations. Skills in using technology in making presentations will be covered.
PBAD 7122-Grant Writing for Public Managers
Teaches students how to locate grant opportunities and how to structure effective grant proposals that will win funding for government and nonprofit organization projects. Also examines the importance of effective grant administration.

PBAD 7130-Ethics in Government
Focuses on experiences, approaches, and strategies for confronting and solving problems. An emphasis is placed on accountability and responsibility of public officials for appropriate behavior and ethical decision-making.

PBAD/POLS 7131-Constitutional Law
Examines the political and social context in which Constitutional Law is made and interpreted, the legal reasoning that undergirds Constitutional lawmaking, and the impact on public administration in the U.S.

PBAD/POLS 7132-Administrative Law
Development, present status, and trends in American Administrative Law. Explores administrative actions by focusing on the legal authority and responsibilities of private parties relative to such agencies.

PBAD 7220-Computer Applications for Public Managers
Emphasis is on selection of computer hardware and software, as well as, practical experience with common tools such as spreadsheets, word processors, database management systems, presentation programs, etc.

PBAD 7221-Geographical Information Systems for Public Managers
Study and demonstration of the uses of Geographic Information Systems to address public administration issues and problems.

PBAD 7230-Budgeting for State and Local Government
How state and local governments raise and spend money is examined from the viewpoint of the administrator in a rapidly changing environment.

PBAD 7231-Budgeting for Federal Government
Examines the theory and practice of budgeting in the federal sector and selected elements of fiscal management. This course focuses on administrative and political aspects of budgeting approaches and techniques in revenue forecasting, program planning, and performance measurement.

PBAD 7232-Public Sector Financial Management
An exploration of the management of revenue-raising and expenditure activities. Topics include understanding grants and contracts, recording of outlays, expenditures monitoring, procurement and purchasing, and financial audits of public agencies.

PBAD 7320-Community Organization and Development
Examines the history and theory behind the practice of community organizing and the concept of community development in the United States. Additional focus on specific problems faced in the students’ local communities will be included as well consideration of specific organizing and development strategies and techniques that might address those problems.

PBAD 7321-Diversity Issues in Public Management
Examines the ways in which human differences affect the work of public managers with respect to their employees, their colleagues, their supervisors, and the public which they serve.

PBAD/POLS 7330-Intergovernmental Relations
Examines the interaction between the federal, state, and local levels of government in the United States. Special attention is given to the constitutional and fiscal relationships between these levels of government and the historical evolution of the nature of the relationships.

PBAD/POLS 7331-Managing Small Cities
A systematic study of the political and administrative processes of cities, counties, and other units of local government in the United States. Special attention is given to the role of effective governance exercised by elected officials and the professional responsibilities of the city manager who often executes decisions of elected bodies.

PBAD/POLS 7332-State Government
A systematic study of the growing role of the states in the development and administration of domestic social policy in the United States. Special attention is given to the capacity building in state government and the devolution of power to the states. Specific policy areas in state government including education, crime control, and economic development are examined in-depth.

PBAD 7334-Rural Development Management
Examines the administrative problems and salient public policy issues which persist in rural settings. Rural development theories and practices will be analyzed to enhance the student’s understanding of rural development problems, types of rural communities, and the role of administrators in formulating, implementing, and evaluating policy in rural settings.

PBAD 7335-Urban Management
An examination of the problems confronting public managers in large cities and of the structure and responsibilities of urban governments in the United States. Specific policy areas such as transportation, housing, social welfare, public health, and public safety will be studied in an urban context with a focus on approaches managers have taken in addressing these issues.

PBAD/POLS 7336-Comparative Public Management
Examines public administrative structures and processes in different parts of the world cognizant of cultural and contextual variables and how they affect the administrative process.

PBAD/POLS 7337-Environmental Management and Policy
An overview of environmental and natural resource management in the United States. Particular attention will be paid to issues of regional importance, including water quality and availability, regulation and monitoring compliance, sustainable growth, and management within overlapping jurisdictions.

PBAD 7338-Managing Economic Development
Examines the strategies, tools, and techniques used by local, state, and national governments to generate economic growth and revitalization of economically depressed areas. The role played by public managers in effectively managing public/private partnerships aimed at improving the economic well-being of neighborhoods and individuals will be a particular focus.

PBAD 7430-Public Personnel Management
The functions of public personnel management and the challenges it faces in the American society and government.
PBAD 7431-Organization Behavior in the Public Sector
A study of human behavior in organizations with special attention to the unique characteristics of the interface between behavior and organizational structures in the public sector.

PBAD/POLS 7530-Research Methods For Government
An examination of quantitative techniques for public administration. Emphasis will be placed on understanding and using techniques appropriate to categorical analysis and the simple linear model. Students will also be exposed to research design, measurement, and the use of computer program packages appropriate to the public sector. Prerequisite: A placement examination or completion of a program-approved statistics course with a C or better.

PBAD/POLS 7531-Public Program Evaluation
A thorough study of the design and implementation of policy and program evaluation in public and non-profit agencies. Special attention is given to monitoring agency operations through performance measurement. The mechanics of cost benefit analysis and qualitative assessment techniques are examined. Prerequisite: Graduate research methods or permission of the instructor.

PBAD/POLS 7532-Public Policy
A systematic study of how public policy is developed, implemented, and evaluated. Attention is given to the skills of policy analysis, as well as, the social problems and cultural interpretations that lead to public policy. Illustrations from domestic policy in the United States are supplemented with insights from other nations. Prerequisite: Graduate research methods or permission of the instructor.

PBAD 7533-Public Sector Planning
Examines the scope, theories, resources, and politics of urban, regional, state, and national planning.

PBAD 7620-Capstone Seminar in Public Management
Students will meet weekly to discuss various issues related to challenges and problems they are encountering in their work sites and internship assignments in terms of the concepts and theories of public management that they have learned.

PBAD/POLS 7630-Seminar in American Government
A graduate introduction to the basic structures, processes, and patterns of behavior of American national government, emphasizing the interfacing of politics, economics, and public policy.

PBAD 7631-Public Sector Management
Provides an overview of the tasks confronted by public managers in the American system of government at all levels: national, state, and local. The political and legal constraints on managers and the differences between problems faced by public managers when compared to private sector managers are emphasized.

PBAD 7632-Public Safety Management
Provides the basic principles for important systems in the field of public safety management: Law enforcement, jail administration, fire safety, emergency services, and hazard and disaster response.

PBAD 7633-Correctional Management
Examines the correctional system, the correctional process, and the management of penal institutions. Provides an in-depth examination of prison management and the interface of the institutions with the court and the community. Studies management of community programs and special challenges.

PBAD 7634-Juvenile Justice Management
Examines the context of the administration of a Juvenile Justice system through history, philosophy, and law. Encompasses the systematic process from diversion programs to incarceration.

PBAD 7635-Police Organization and Management
Examines the managerial and leadership tasks of the police agency’s chief executive officers. Particular emphasis will be on assessment and creation of policies, procedures, and budgets. Other topics will include organizational structure and design, planning, decision making, communication, and change.

PBAD 7636-Administration of Justice
Examines the legal structure which supports the criminal system. Current and future problems of law enforcement will be discussed including judicial process, community relations, and civil liberties.

PBAD/POLS 7637-Social Welfare Management
Examines the issues involved in administering social welfare programs at the local, state, and federal levels of government. Particular attention is paid to problems faced by social welfare service delivery organizations and the question of welfare reform strategy in the United States.

PBAD 7740-Internship in Public Management
Students will work 30-40 hours per week in a professional capacity with either a governmental organization, a nonprofit organization, or possibly a private sector organization which has been contracted to perform a government function. The internship will apply skills being learned in various public administration course work.

PBAD 7890-Directed Reading
A structured set of readings and assignments mutually designed by the student and the instructor on a specific area of public management.

Philosophy (CLASS)
• PHIL 2130-Living Issues in Philosophy
An introductory course which surveys the ideas of some of the great philosophers of the Western world, focusing on issues about religion, ethics, reality, and ways of knowing.

PHIL 2231-Introduction to Logic
An introduction to both traditional and modern logic, placing emphasis on developing the capacity to reason and think clearly. Topics include logical validity, formal and informal fallacies in reasoning, the syllogism, and a brief introduction to propositional calculus.

PHIL 3030-Selected Topics in Philosophy

PHIL/RELS 3131-World Religions
The teachings concerning people and their relations to God and the world found in the major world religions. Judaism, Christianity, Islam, Hinduism, Confucianism, Jainism, and Buddhism are among the religions studied.

PHIL/POLS 3230-Modern Political Thought
See POLS 3230 for course description.
PHIL 3330-Aesthetics
A survey of two main problem areas: the Philosophy of the Arts and the Philosophy of Taste. Topics include the possibility of knowing what art is, the role of emotion in artistic creation and experience, and the possibility of proving judgments of aesthetic and artistic value.

PHIL/RELS 3331-Great Moral Philosophers
An introduction to some of the moral points of view of the main ethical philosophers from antiquity to modern times. Readings will include selections from Plato, Aristotle, Hobbes, Hume, Kant, and Mill, as well as selections from the most influential contemporary philosophers.

PHIL 3332-Contemporary Moral Problems
A course in applied ethics which provides a philosophic discussion of the most salient ethical problems of the day. Typically the course will cover such topics as abortion, animal rights, euthanasia, capital punishment, and suicide.

PHIL/AMST 3430-American Philosophy
A survey of the work of the most important American philosophers, including C.S. Peirce, William James, and John Dewey.

PHIL 3431-Great Thinkers I: Socrates through St. Augustine
The main ideas of Socrates, Plato, Aristotle, the Stoics, the Epicureans, Plotinus, and St. Augustine and a consideration of how those ideas apply to our lives. Prerequisite: ENGL 1102 or sophomore standing recommended.

PHIL 3432-Great Thinkers II: Descartes through Kant
The main ideas held by philosophers in the seventeenth and eighteenth centuries, tracing many of the positions that lead us to think as we do today. Thinkers included are Bacon, Hobbes, Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, Kant, Galileo, Kepler, and Newton. Prerequisite: ENGL 1102 or sophomore standing recommended.

PHIL 3433-Philosophy of the 19th Century
A survey of the main philosopher of the nineteenth century, emphasizing their specific contributions to the history of ideas, including Hegel, Marx, Schopenhauer, Kierkegaard, and Nietzsche. Prerequisites: ENGL 1102 or sophomore standing recommended.

PHIL 3434-Contemporary Philosophy
A survey of the main philosophical movements of the twentieth century, primarily in the English-speaking world. The course will stress the importance of language in thinking about some of the traditional problems of philosophy, such as what can be known and what exists. Readings will include selections from Russell, Wittgenstein, Moore, and others. Prerequisite: ENGL 1102 or sophomore standing recommended.

PHIL 3531-Theory of Knowledge
An introduction to the main topics involved in the theory of knowledge and the justification of belief. The course asks what knowledge is, how it is acquired, and in what ways it can be validated. It addresses the problems of skepticism, and the roles of sensory perception, memory, and belief in knowing.

PHIL 3532-Metaphysics
A study of the major positions and problems of metaphysics, including space, time, matter, infinity, self, freedom, being, and divinity. Readings from throughout the history of philosophy.

PHIL 3635-Existentialism
A study of the existentialist movement in philosophy from its origins to the present, showing how and why the movement began, what its authors advocate, and how it has been assessed by contemporary critics. Readings will include selections from Kierkegaard, Jaspers, Heidegger, Sartre, and others.

PHIL/WGST 4130-Feminist Philosophy
An introduction to the main topics in Feminist Philosophy to include the adversary method and the ‘maleness’ of philosophy; dualities of mind and body, male and female, self and other; women’s ways of knowing; caring and maternal thinking; and ecofeminism. Feminist philosophy addresses these ideals and assumptions in the western philosophic traditions that have oppressed women and other subordinate groups.

PHIL 4232-Deductive Logic
A first course in deductive logic, what Aristotle described as the science (episteme) of establishing conclusions (apodeixis). Syllogistic logic, propositional logic, and predicated logic (including both monadic and multivariable predicates) will be studied.

PHIL 4333-20th Century Ethical Theory
Main trends in twentieth century normative ethical theory in the Western world, to include Intuitionism, Emotivism, Prescriptivism, Act and Rule Utilitarianism, and Contractarianism.

PHIL 4533-Philosophy of Mind
An introduction to the most important questions in the philosophy of mind. The course will ask what minds are, whether statements about mind can be replaced by or reduced to statements about brains, what consciousness is, and whether there can be artificial intelligence.

PHIL/RELS 4632-Philosophy of Religion
An in-depth examination of religious teachings and basic philosophical problems associated with them. Topics considered will include creation, salvation, life after death, the origin of evil, religious experience, and God.

PHIL 5030-Selected Topics in Philosophy

Physics (COST)
• PHYS 1111-Introduction to Physics I
This is the first of a sequence of courses which provide a working knowledge of the basic principles of physics. Topics include mechanics, oscillations and wave motion. The student should have had pre-calculus, or have an equivalent knowledge of algebra and trigonometry. Prerequisite: MATH 1113 or an equivalent knowledge of algebra and trigonometry. Corequisite: PHYS 1113.

• PHYS 1112-Introduction to Physics II
This is the second in a sequence of two courses which provide a knowledge of the basic principles of physics using application that require a knowledge of trigonometry and elementary algebra. Topics include electricity and magnetism, optics and modern physics. Prerequisite: PHYS 1111. Corequisite: PHYS 1114.

• PHYS 1113-Physics Lab I
This is the first of two laboratory courses that provide the laboratory part of PHYS 1111, PHYS 1112, PHYS 2211 and PHYS 2212. Provides laboratory work on mechanics, wave motion and thermodynamics. Prerequisites: Requires prior or concurrent enrollment in either PHYS 1111 or PHYS 2211. In the event the student drops the lecture portion of the course, the lab should also be dropped.
PHYS 1114-Physics Lab II
This is a set of experimental studies on electricity and magnetism, optics and modern physics. Serves as the laboratory portion of PHYS 2212 and PHYS 1112. In the event a student drops PHYS 2212 or PHYS 1112, this course may not be continued unless the student has already completed either PHYS 2212 or PHYS 1112. Prerequisites: Concurrent or prior completion of PHYS 2212 or PHYS 1112.

PHYS 1135-How Things Work
This is a non-mathematical course designed for liberal arts students. Fifty-one objects in our everyday world are examined to answer the question “How do they work”. As a result concepts of physics that everyone uses daily are revealed in an interesting and understandable manner.

PHYS 1149-Environmental Physics
A general course on the physical basis of environmental science. Emphasis is placed on the identification and effective amelioration of both natural and man made hazards to the earth’s biosphere. Topics include greenhouse effects, ozone, acid rain, energy production and water disposal, radiation hazards, noise pollution and disruptive natural phenomena.

PHYS 2211-Principles of Physics I
This is the first of a sequence of two courses that provide a working knowledge of the basic principles of physics using applications requiring a knowledge of calculus. Topics include mechanics, wave motion and thermodynamics. Prerequisite: MATH 1441. Corequisite: PHYS 1113.

PHYS 2212-Principles of Physics II
This is the second of a sequence of courses which provide a working knowledge of the basic principles of physics using applications requiring a knowledge of calculus. Topics include electricity, magnetism, optics and modern physics. Prerequisite: PHYS 2211. Corequisite: PHYS 1114.

PHYS 3131-Optics
Geometric and physical optics in which the general principles of wave optics and several optical devices are studied. Prerequisites: PHYS 2211 and PHYS 2212.

PHYS 3149-Methods of Theory Physics
Presents a discussion of methods for solving the equations that arise in all of the major areas of physics. Prerequisites: PHYS 2211, PHYS 2212 and PHYS 2213.

PHYS 3420-Advanced Physics Lab
A laboratory course where the student will learn classical laboratory techniques, computer data acquisition, statistical analysis of data and proper reporting of results. This lab can be repeated up to four times with two repetitions required for all Physics majors. Prerequisite: Permission of instructor.

PHYS 3536-Modern Physics I
Historical development of modern physics including topics on special theory of relativity, early models of the atom, atomic radiations and interaction of electrons with matter. Prerequisites: PHYS 2211 and PHYS 2212.

PHYS 3537-Modern Physics II
A continuation of modern physics topics including atomic and molecular physics and nuclear physics. Prerequisite: PHYS 3536.

PHYS 3539-Introduction to Biophysics
The physics of living organisms with emphasis on physical support, movement, sensory perception and the physical properties of plant and animal processors at the molecular and organismic levels of organization. Prerequisites: Permission of instructor.

PHYS 3542-Analog Electronics
A course in intermediate electronics with emphasis on topics of interest to students in physics. Discusses electronic instruments, transducers, diodes and power supplies. Amplifier behavior, the operational amplifier and wave shaping circuits are covered in detail. Discrete electronic devices are also discussed. Prerequisites: PHYS 2211 and PHYS 2212.

PHYS 3543-Digital Electronics
Presents the concepts and application of digital electronics. Digital logic concepts and techniques are presented. Flip-flops and counting circuits are studied extensively resulting in a discussion of digital instrument development. The principles of operation, general architecture and some applications of the microprocessor (the Intel 8085) are discussed. Prerequisite: PHYS 3542.

PHYS 3790-Teaching Internship in Physics
PHYS 3790 (student internship in the laboratory component of PHYS 1149 environment physics) will be under the mentorship of a faculty member. The student will participate in an introductory workshop immediately prior to the start of the semester, intern in the PHYS 1149 laboratory, and meet with the faculty mentor one hour each week. 1 credit hour per laboratory section of PHYS 1149 in which the student interns for a maximum of 3 credit hours interned multi-section.

PHYS 5130-Sound Waves and Acoustics
A study of the production, transformation, reflection, absorption and general effects of vibration and sound. Prerequisites: PHYS 2211 and PHYS 2212.

PHYS 5134-Principles of Lasers
An introduction to the basic principles of laser oscillation, construction and operation of the most common laser systems, based on the rate equation and laser cavity theory. Provides practical experience in the use of many laser systems and in laser radiation safety. Prerequisites: PHYS 2211 and PHYS 2212.

PHYS 5151-Classical Mechanics
Provides physics majors and student of applied mathematics and engineering with the fundamentals of analytical mechanics. Prerequisites: PHYS 2211, PHYS 2212 and MATH 3230.

PHYS 5152-Classical E & M Theory
Provides physics majors and students of applied mathematics and engineering with the fundamentals of electromagnetic field theory. Prerequisite: PHYS 5151.

PHYS 5230-Quantum Optics
Involves theories related to laser spectroscopy, nonlinear optics, laser pulse propagation, laser cooling and various effects in laser spectroscopy related to quantum interference. Prerequisite: PHYS 5557.

PHYS 5234-Applications of Lasers
A detailed study of the research and the development of laser applications, including applications of lasers in optical communication, industry, scientific and military research and in bio-medicine. Prerequisite: PHYS 5134.
PHYS 5235-Laser Technology
An intensive study of the most useful technologies, such as modulation and amplification of laser beam, Q-switching, mode-locking, laser frequency tuning and wavelength conversion by nonlinear optics. Emphasis is given to laser technologies in the generation of high power, short pulsed (nanosecond, picosecond, and femtosecond) and tunable laser pulses. Prerequisite: PHYS 5134.

PHYS 5439-Properties of Materials
Introduction to the properties of semiconductors, magnetic materials and superconductors. Particular emphasis will be placed on semiconductors with regard to developing an understanding of light emitting diodes, diode lasers and quantum well devices. Prerequisites: PHYS 2211 and PHYS 2212.

PHYS 5490-Directed Independent Study
Selected Topics in Physics. Students may be allowed to do special projects in Physics or Astronomy upon the recommendation of the Physics faculty member. Prerequisite: Permission of instructor.

PHYS 5530-Thermal Physics
A course in classical thermodynamics and kinetic theory. Prerequisites: PHYS 2211, PHYS 2212 and MATH 2243.

PHYS 5536-Studies in Physics for Secondary Teachers
Designed to acquaint the student with some of the problems encountered in high school physics presentations. Prerequisites: MATH 1113.

PHYS 5557-Quantum Mechanics
A study of the basic postulates of quantum mechanics with solutions to Schrodinger’s wave equation for simple applications: the techniques of calculating position, energy and momentum with operators and the elements of perturbation theory with application to atomic spectra. Prerequisites: PHYS 3536, PHYS 3537 and MATH 3230.

PHYS 5715-Laser Lab Techniques and Laser Technology
Provides intensive laboratory hands on training in the most important and useful laser techniques including the following areas: alignment and operation of laser systems, laser detection and parameter measurement, laser beam manipulation, laser cavity and laser mode, nonlinear optical frequency conversion, frequency tuning, Q-switching and mode-locking. Prerequisite: Permission of instructor.

Political Science (CLASS)

• POLS 1101-Introduction to American Government
Surveys government and politics, with additional attention to the government and the Constitution of Georgia. Topics include the constitutional structure of American government, the role of non-governmental institutions such as interest groups and mass media, the role of governmental institutions such as Congress and the Presidency, the operation of major political process such as elections and policy making, and the interaction between institutions and processes. Satisfies the Georgia Constitution and U.S. Constitution requirements.

POLS 2101-Introduction to Political Science
Introduction to the history, scope, and methods of the discipline of political science. Required of all majors and minors in political science. Prerequisite: POLS 1101. Satisfies the Georgia Constitution requirement.

POLS 2130-Scope and Methods in Political Science
An introduction to the major theoretical models currently used in political science and to the major research techniques and methodologies. Students will have direct experience with data gathering, statistical analysis, data processing, and research reporting. Prerequisite: POLS 1101.

POLS 2131-Classical Political Thought
Examines political themes and thinkers from the Ancient Greeks to the Renaissance. Prerequisites: POLS 1101 and POLS 2101.

POLS 2132-Politics of Ethnicity
Examines the resurgence of ethnic conflict as nations fragment in the midst of regional reconfiguration among states. The course will assess and analyze the major factors which contribute towards ethnic makeup, economic conditions, the modernization process and technology. What are the relevant indicators of ethnicity for groups and how do they change over time? What kinds of issues does a given conflict seek to resolve? How successful are different strategies in ethnic conflict resolution? Prerequisites: POLS 1101 and POLS 2101.

POLS 2134-Political Parties
A comprehensive overview of the institutions and processes that connect the public to government institutions. Emphasis is given to the history and structure of the political parties in the United States and the electoral process and voting at and below the presidential level. Prerequisites: Must have prior approval of the individual professor who will supervise the project, POLS 1101 and POLS 2101.

POLS 2201-State and Local Government
Examines the forms of organizations, the functions, and the operations of the 50 state governments. Special attention will be given to the growing problems in the urban areas such as the interplay of politics, pressure groups, and community power structures. Prerequisites: POLS 1101 and POLS 2101.

POLS 2601-Introduction to Public Administration
A study of the administrative process in American government with special attention focused upon the points between political branches and administrative agencies. Prerequisites: POLS 1101 and POLS 2101.

POLS 3130-Qualitative Research Methods
An introduction to the major theoretical models currently used in political science and to qualitative research techniques and methodologies. Students will have direct experience in data collection, analysis, and research reporting. Prerequisites: POLS 1101 and POLS 2101.

POLS/AAST 3131-African Politics
Examines salient themes and background on contemporary African political systems. The emphasis will be on government and politics of modern Africa bearing on the emergence of post-colonial states and regional and global ramifications. Prerequisites: POLS 1101 and POLS 2101.

POLS/INTS 3132-Asian Politics
A study of government and politics in the larger countries in Asia. The historical, cultural, religious, and economic factors influencing the political systems of these countries are also studied in this course. Prerequisites: POLS 1101 and POLS 2101.
POLS/LAST 3133-Latin American Politics
An examination of the major domestic and international factors in comparative Latin American political systems. Special attention and detail is given to the challenges of development and democratization. Prerequisites: POLS 1101 and POLS 2101.

POLS/INTS 3134-Middle Eastern Politics
A comparative study within the region, including the foreign policies of the Middle Eastern states and the political and economic concerns that shape the policies of nations outside the region. Prerequisites: POLS 1101 and POLS 2101.

POLS 3135-Congressional Behavior
Examines the policy making process through the focus on congressional behavior. This includes aspects of decision making, agenda setting, congressional elections, and institutional arrangements. Students will become familiar with the three contemporary approaches to the study of Congress, behavioral, historical, and formal. The student is strongly urged to be familiar with either statistical analysis or formal theory before taking this course. Prerequisites: POLS 1101 and POLS 2101.

POLS 3136-The Presidency
An analysis of the political, constitutional, behavioral, symbolic and policy roles of the President. Attention is also paid to the linkages between the Presidency and the other government and political institutions. Prerequisites: POLS 1101 and POLS 2101.

POLS 3137-Judicial Process
Introduces students to the judicial process through analysis and evaluation of the main institutions and actions affecting the administration of justice under law. Prerequisites: POLS 1101 and POLS 2101.

POLS 3138-Constutional Law I
A study of the constitutional development of the national government through landmark Supreme Court decisions. Topics include: judicial power, separation of power, federalism, and interstate commerce. Prerequisites: POLS 1101 and POLS 2101.

POLS 3139-Constutional Law II
The study of the Bill of Rights through landmark Supreme Court decisions. Topics include freedom of speech, press, and religion, the right to privacy, rights of the accused, search and seizure law, and equal protection of the law. Prerequisites: POLS 1101 and POLS 2101.

POLS/PHIL 3230-Modern Political Thought
Examines political themes and thinkers from the Renaissance to the nineteenth century. Prerequisites: POLS 1101 and POLS 2101.

POLS 3231-Environmental Politics
Examines important topics in United States environmental protection policy-making. It does so within the institutional context of American politics, including the congressional, presidential, administrative, judicial, intergovernmental, and constituency components of decisions relating to environmental protection. These decisions will be examined using the focus of the regionally important aspects of environmental quality such as water, air, and land resources. Prerequisites: POLS 1101 and POLS 2101.

POLS 3232-Public Opinion and Political Behavior
The study of why people engage in certain political acts. Much of what we know about political behavior we learn from the public statements people make about their political views and the study of public opinion. This course will include a discussion of political culture, political socialization, public opinion polling, political ideology, voting behavior, mass communications, and the links between behavior, opinions, and public policy. Prerequisites: POLS 1101, POLS 2101 and POLS 2130.

POLS 3233-Politics and The Media
A comprehensive overview of the institutions and processes of the mass media in American politics. Emphasis is given to the history and role of the mass media in the United States and to the use of the media in covering news events as well as in political campaigns. Prerequisites: POLS 1101 and POLS 2101.

POLS/WGST 3235-Gender and Politics
A study of the relationship of women to political life and to political theory-building. Focuses on political socialization, behavior, and institutional impact based on gender, using a comparative cross-national approach. Prerequisites: POLS 1101 and POLS 2101.

POLS/INTS 3236-International Relations
Designed to introduce students to the basic concepts of international relations, including those of war and peace, power, foreign policy, international organization, markets, demography, and ecology. Students will be provided with the necessary conceptual tools to gain a better understanding of the nature and problems of international relations. Prerequisites: POLS 1101 and POLS 2101.

POLS/AAST/AMST 3237-African American Politics
A basic appreciation of the nature, processes, structures, and functions of African American politics in the domestic and international arena and how they differ from dominant assumptions, theories, approaches, and models of American politics. Focus is on how to seek and maintain empowerment. Prerequisites: POLS 1101 and POLS 2101.

POLS 3238-Southern Politics
Examines the changing political conditions and trends within the eleven states of the American south since WWII. Students will examine the events which led to the unique political environment one encounters in the south. The primary focus will be on the political environment, but also on social, cultural, and economic variables as they relate to the political system. Prerequisites: POLS 1101 and POLS 2101.

POLS/INST 3239-Human Rights International Relations
POLS/FILM 3334-Film and Politics
Considers how the art of film has contributed to an understanding of major twentieth-century political events and thoughts. Topics include war, nationalism, authoritarianism, the Cold War, presidential politics and campaigning, populism and the ethos of democracy in classic and contemporary film. Prerequisites: POLS 1101 and POLS 2101.

POLS 3711-Career Development in Political Science
Helps political science students plan for their own career development. They learn to look at education within an overall personal career plan including work skills, work habits, professional expectations, accreditation and licensure, and life-long learning. Typical career paths are explored, and the students are supported in exploring very specific interests and aptitudes. Prerequisites: POLS 1101 and POLS 2101.
POL 3712-Community Development
Covers the various meanings of and approaches to community development. Students will be required to work with nonprofit community development organizations outside of class for either 4 hours per week (one credit) or 10 hours per week (two credits) in addition to classroom meetings. Prerequisite: POLS 1101.

POL 3713-Current Issues
Explores contemporary dynamics of political institutions and behaviors. Prerequisite: POLS 1101.

POL 3714-Getting Involved Politically
Provides information to students who are interested in learning about the opportunities for involvement in politics and government. Prerequisite: POLS 1101.

POL 3715-Political Science Guide to the Internet
Provides students with information for finding political and governmental data and information on the world wide web. Prerequisite: POLS 1101.

POL 3716-Legal Research and Writing
An introduction to legal resources for law-related courses and problems in the undergraduate curriculum. The course deals with the effective utilization of legal research and reference tools in a manner designed to meet the needs of the student in a non-law or pre-law field. Prerequisite: POLS 1101.

POL 3831-Reading For Honors
Prerequisites: Permission of the department chair and instructor.

POL 4031-Selected Topics in Political Science

POL/AMST 4130-American Political Thought
Examines political themes and thinkers from the Colonial to the Contemporary period. Prerequisites: POLS 1101 and POLS 2101.

POL 4131-Public Policy
A study of the process in the American political system, focusing on the analysis, formulation, implementation, and evaluation of public policies. Specific public policy areas such as welfare, education, health, and foreign policy are emphasized. Prerequisites: POLS 1101 and POLS 2101.

POL/INTS 4132-U.S. Foreign Policy
Provides basic information and understanding of the key elements and actions involved in the formulation and execution of U.S. foreign policy. Special attention is given to the impact of U.S. foreign policy on the international system. Prerequisites: POLS 1101 and POLS 2101.

POL 4133-International Political Economy
Examines the interplay between international politics and international economics or business or the process of international wealth acquisition and transfer. Emphasis will be on the dynamics that give rise to asymmetric distributions: who gets what, when and how among different players in the global economy. Prerequisites: POLS 1101 and POLS 2101.

POL 4134-International Law and Diplomacy
Examines the body of literature, concepts, and historical perspectives of international law and diplomacy as related to the critical problems of the Post-Cold War era. Focuses on the legal, oral, and strategic dimensions of several past, present, and proposed means of conflict resolution. Prerequisites: POLS 1101 and POLS 2101.

POL/INTS 4135-International Organizations
An analytical study of the organization, powers, and problems of global and regional international agencies with particular emphasis upon the European Union. Prerequisites: POLS 1101 and POLS 2101.

POL/INTS 4136-Industrialized Nations
A systematic review of the empirical and theoretical literature concerning the structure, function, and problems of contemporary governments in developed countries. Prerequisites: POLS 1101 and POLS 2101.

POL/INTS 4137-Industrializing Nations
A study of government and politics in the major developing countries of Latin America, Africa, and Asia. Historical, cultural, religious, and economic factors influencing the political systems of these countries are also studied. Prerequisites: POLS 1101 and POLS 2101.

POL/INTS 4138-International Terrorism
Designed to explore the political, religious, economic, and social issues which pervade the global environment. Key issues to be addressed include different forms of terrorism, conflict resolution, and at the state level reunification issues. Emphasizes the critical, and perhaps, decisive and controlling impact which terrorist groups level on policy changes. Prerequisites: POLS 1101 and POLS 2101.

POL 4139-Contemporary Political Thought
Examines selected political themes and thinkers from the twentieth century. Prerequisites: POLS 1101 and POLS 2101.

POL/INTS 4364-Seminar in Comparative Politics

POL 4791-Field Internship in Political Science
Designed to give practical experience in a government qualified agency. Internship credit must be earned in addition to the 24 hours required for the major in political science. No more than 3 semester field internship hours can be used towards a minor in political science. Maximum of 3 semester hours credit possible. Prerequisites: POLS 1101, POLS 2101 and permission of the department chair.

POL 4890-Independent Study in Political Science

POL 5630-Seminar in American Politics
A systematic focus on major themes and issues in American public policy and their roots in American politics. Prerequisite: Undergraduate course work in American politics or permission of the instructor.

POL 5631-Seminar in Political Theory
A seminar focusing on selected theoretical topics. Emphasis will be placed on normative theory and the history of political thought. Prerequisite: Undergraduate coursework in Political Theory or permission of the instructor.

POL 5632-Seminar in Urban Politics
Focuses on the political development of urban areas in the United States from colonial to modern times, including the growth of cities, urban political machines, post-war suburbanization, the structure of urban governments, and the challenges of urban development today.
POLS 5633-Seminar in International Politics
Designed to familiarize students with the theories which guide the conduct and analysis of international relations. These theories are examined in both their classical and contemporary context and used to evaluate and assess international relations phenomena. Prerequisites: POLS 1101, POLS 2101 and undergraduate coursework in International Politics or permission of the instructor.

POLS 5634-Seminar in Comparative Politics
Provides a systematic review of the empirical and theoretical literature concerning the structure, function, and problems of contemporary governments in industrializing and industrialized countries. Prerequisites: POLS 1101, POLS 2101 and undergraduate coursework in Comparative Politics or permission of the instructor.

POLS 5635-Seminar in International Organizations
An analytical study of the organization, powers, and problems of global and regional international agencies with particular emphasis upon the European Union. Prerequisites: POLS 1101, POLS 2101 and undergraduate coursework in International Relations or permission of the instructor.

POLS 7030-Selected Topics in Political Science
An opportunity for instructors to teach special topics within the discipline.

POLS 7130-Ethics in Government
Focuses on experiences, approaches, and strategies for confronting and solving problems, accountability and responsibility of public officials for appropriate behavior, and ethical decision-making.

POLS 7131-Constitutional Law
Examines the political and social context in which Constitutional Law is made and interpreted, the legal reasoning that undergirds Constitutional lawmaking, and the impact on public administration in the U.S.

POLS/PBAD 7132-Administrative Law
See PBAD 7132 for course description.

POLS 7231-U.S. Foreign Policy
Designed to familiarize students with the principles underlying and the process undertaken in the formulation and execution of United States foreign policy. Special attention is given to the role of the United States in the post-World War II period.

POLS 7232-Comparative Foreign Policy
An in-depth comparative study of the foreign policy of the United States, the European Union, Russia, the People’s Republic of China, Japan, and other significant actors in global politics, emphasizing comparative methodology and theoretical framework.

POLS 7234-International Political Economy
Examines the politics of international economic relations. Systemic and domestic explanations of international economic policy will be applied in various issue areas such as international wealth acquisition and transfer, strategies and the politics of development, trade, investment, exchange rates, debt, aid and relief assistance. The dynamics that give rise to asymmetric wealth distributions and hegemonic transmutations will be given emphasis.

POLS/PBAD 7330-Intergovernmental Relations
See PBAD 7330 for course description.

POLS/PBAD 7331-Local Government
See PBAD 7331 for course description.

POLS/PBAD 7332-State Government
See PBAD 7332 for course description.

POLS/PBAD 7336-Comparative Public Management
See PBAD 7336 for course description.

POLS/PBAD 7337-Environmental Management and Policy
See PBAD 7337 for course description.

POLS/PBAD 7530-Research Methods for Government
See PBAD 7530 for course description.

POLS/PBAD 7531-Public Program Evaluation
See PBAD 7531 for course description.

POLS/PBAD 7532-Public Policy
See PBAD 7532 for course description.

POLS 7533-Qualitative Research Methods
Explores the techniques useful in political science research involving case studies, ethnographic data, content analysis, elite surveys, and problems encountered when crossing disciplinary boundaries. Issues of research design, execution, the role of theory, sampling, measurement, instrumentation, data collection, and ethical quandaries will be addressed in the course.

POLS/PBAD 7630-Seminar in American Government
See PBAD 7630 for course description.

POLS 7631-Empirical Political Theory
A survey of the prominent theoretical approaches used in empirical political inquiry. The philosophies of the social sciences and the construction of political explanation provide the foundation for embarking on original research necessary for the thesis stages of the program.

POLS 7632-Comparative Politics
A systematic review of the empirical and theoretical literature concerning the structure, function, and problems of contemporary governments in developed and developing countries. Prerequisite: POLS 1101 or lower Comparative Politics course recommended.

POLS 7633-International Politics
Provides graduate students with in-depth coverage of particular themes in international relations. Topics may include issues pertaining to international politics and theory, including international political economy, security studies, foreign policy decision making, international law and organization, international environmental issues, and a wide variety of regional issues.

POLS 7636-Seminar in International Law and Diplomacy
Examines the body of literature, concepts, and historical perspectives of international law and diplomacy as related to the critical problems of the Post-Cold War era. The focus of the course will be on the legal, moral, and strategic dimensions of several past, present, and proposed means of conflict resolution.

POLS/PBAD 7637-Social Welfare Management
See PBAD 7637 for course description.
POLS 7890-Directed Reading
A structured, individualized research focus to be mutually designed by instructor and student.

POLS 7999-Thesis
A major research project structured jointly by the student and instructor.

Public Relations (CLASS)

PRCA 2330-Introduction to Public Relations
Introduces the history, theories, and principles of public relations, and the role and practice of public relations in various organizational contexts. Prerequisite: COMM 2332.

PRCA 3030-Selected Topics in Public Relations
Offers varied courses in specialized areas of the field of Public Relations. Prerequisite: PRCA 2330 or permission of instructor.

PRCA 3330-Public Relations Writing
Examines writing techniques employed in media management programs including the strategic design and development of messages for mass and personal media, message dissemination, and evaluation of result. Prerequisites: JOUR 2331 and PRCA 2330.

PRCA 3331-Corporate Public Relations
Examines the role of public relations within a corporation and its responsibilities in developing and maintaining external and internal relations. Prerequisite: PRCA 2330 or permission of instructor.

PRCA 3332-Public Relations Event Management
Provides students with the opportunity to learn and implement planning techniques and strategies unique to events. Special emphasis will be placed on non-profit creation of an event to meet organizational goals. Prerequisite: PRCA 2330 or permission of instructor.

PRCA/INTS 3333-International Public Relations
Introduces the performance of public relations in international contexts. Consideration will be given to the political, economic, social, and historical contexts affecting public relations practices. Special emphasis will be placed on the interaction between government and public relations. Prerequisite: PRCA 2330 or permission of instructor.

PRCA 3339-Public Relations Publications
Provides students the opportunity to learn about and create specialized organizational publications such as brochures, annual reports, and magazines. Prerequisites: PRCA 2330 and PRCA 3330.

PRCA 3711-Public Relations Practicum
Provides limited practical experience in public relations projects in either an academic or a professional setting. A maximum of four hours may be applied toward a degree. Prerequisite: PRCA 3330.

PRCA 4330-Public Relations Research
Explores the role of public opinion in public relations. Students will gather, analyze and use qualitative and quantitative audience research as part of a public relations program. Prerequisite: PRCA 2330.

PRCA 4331-Public Relations Firms
Reviews the evolution and management of public relations firms, and principles involved in counseling clients. Prerequisite: PRCA 3330 or permission of instructor.

PRCA 4332-Public Relations Crisis Communication
Provides understanding of how crises affect an organization’s public relations efforts. Students will learn strategies for anticipating crises and developing communications responses. Prerequisite: PRCA 3330 or permission of instructor.

PRCA 4335-Senior Seminar in Public Relations
Examines ethical issues and current topics in the practice of public relations. Prerequisite: PRCA 2330, PRCA 3330, PRCA 4330 or permission of instructor.

PRCA 4339-Public Relations Campaign Strategies
An advanced course in which students analyze cases and apply principles, processes, and theories of public relations to the execution of campaigns. Prerequisite: PRCA 2330, PRCA 3330 or PRCA 4330.

PRCA 4711-Public Relations Practicum
Provides limited practical experience in public relations projects in either an academic or a professional setting. A maximum of four hours may be applied toward a degree. Prerequisite: PRCA 3330.

PRCA 4791-Public Relations Internship
Provides practical experience in a professional public relations setting with public relations practitioner supervision. May be taken only by public relations majors. A maximum of six hours may be applied to the major. Prerequisites: PRCA 2330 and PRCA 3330.

PRCA 4831-Directed Study in Public Relations
Offers students opportunities to design and conduct independent research and/or projects in specialized public relations areas. May be taken only once. Prerequisite: PRCA 2330 or permission of instructor.

Psychology (CLASS)

• PSYC 1101-Introduction to Psychology
A survey of the major concepts and findings in the fundamental subfields of psychology encouraging their application to the understanding of human behavior in everyday life. Prerequisite for all upper-division psychology courses.

PSYC 2210-Careers in Psychology
Reviews research and theories of college student development, familiarizes students with career options in psychology, helps students clarify personal interests and career goals, and prepares them for job searching or admission to graduate school. Required of all psychology majors. Prerequisites: PSYC 1101, declaration of Psychology as major.

PSYC 3090-Selected Topics in Psychology
Scheduled on an irregular basis to explore special areas in psychology not offered in the regular curriculum and will carry a subtitle. Prerequisite: PSYC 1101.

PSYC 3130-Psychological Tests and Measurements
Provides an overview of psychological assessment with emphasis on the construction of psychological tests. Prerequisite: PSYC 1101.

PSYC 3140-Statistics for Psychology
Students learn descriptive and inferential statistics, including analyzing data using microcomputers. Prerequisite: PSYC 1101.
PSYC 3141-Research Methods in Psychology
A laboratory course required of all majors that provides students with an understanding of fundamental principles of research in psychology. Focus placed on experimental, quasi-experimental and correlational procedures. Students conduct class and individual research projects. Prerequisite: PSYC 1101.

PSYC 3230-Psychology of Adjustment
Studies the factors that promote psychological adjustment with emphasis on self-help techniques. Prerequisite: PSYC 1101.

PSYC/RELS 3231-Psychology of Religion
An introduction to the literature of the psychology of religion, including the functions of religiousness, types of religious experiences, religious motivation, and the relationship between religion and mental health. Prerequisite: PSYC 1101.

PSYC/WGST 3232-Psychology of Gender
Examines biological and environmental determinants of gender, as well as, the role of gender in cognitive functioning, personality, physical and mental health, interpersonal relationships, and work life. Prerequisite: PSYC 1101.

PSYC 3234-Industrial/Organizational Psychology
Introduction to psychological study of behavior in the workplace, including application of psychology to such areas as personnel testing, job performance and employee morale. Prerequisite: PSYC 1101.

PSYC 3235-Behavior Modification
An introductory survey of the application of learning principles and procedures used in the establishment, maintenance, and modification of complex human behavior in clinical situations, as well as, the natural environment with particular attention given to ethical issues associated with the use of behavior change techniques. Prerequisite: PSYC 1101.

PSYC 3236-Psychology of Substance Abuse
An intensive and critical analysis of the normative and deviant use of various substances with emphasis placed on substance use, misuse, and abuse within a framework integrating the psychological, social, and biological aspects of substance use throughout history, including stimulant, depressant, hallucinogenic, and psychotherapeutic drugs. Prerequisite: PSYC 1101.

PSYC 3237-Psychology of Human Sexuality
Focuses on sexual motivation, attraction and love, sexual orientation, sexual techniques, sexual morals and politics, paraphilias, erotica, sexual dysfunctions and therapy, and the place of sexuality in the experience of being human, with secondary attention given to sexual anatomy and physiology, and contraception. Prerequisite: PSYC 1101.

PSYC 3330-Abnormal Psychology
Designed to provide an introduction to the concepts of “normal” and “abnormal” behavior, the traditional categories of psychological disorders, and the etiology of these disorders. Prerequisite: PSYC 1101.

PSYC 3331-Child Psychology
Studies psychological theories, research and application of psychology as these relate to the social and cognitive development of the child from conception through adolescence. Prerequisite: PSYC 1101.

PSYC 3332-Psychology of Adolescence
Examines theories and research on physical, cognitive, personality, and social development in adolescence, emphasizing normal development. This course will not satisfy the requirements in adolescent psychology or educational psychology for teacher certification. Prerequisite: PSYC 1101.

PSYC 3333-Lifespan Developmental Psychology
Provides a comprehensive overview of normal human development from conception through old age. Prerequisite: PSYC 1101.

PSYC 3334-Social Psychology
Studies the social determinants of human behavior and surveys current theories and findings in such major content areas as social cognition, attitudes, prejudice, gender roles, conformity, obedience, interpersonal attraction, prosocial behavior, aggression, and group influence. Prerequisite: PSYC 1101.

PSYC 3335-Personality Psychology
Surveys research findings on selected aspects of personality, as well as, determinants and development of personality, research methods, and personality assessments. Prerequisite: PSYC 1101.

PSYC 3890-Research Experience
Students work with a faculty member on his/her research to gain experience on a research project. Prerequisite: PSYC 1101.

PSYC 4335-Theories of Personality
An in-depth exploration of major theories of personality. Prerequisite: PSYC 1101.

PSYC 4340-Cognitive Psychology
Explores the nature of human intellectual functioning and the research methods for doing so. Prerequisite: PSYC 1101.

PSYC 4341-Motivation and Emotion
Examines theories and research in the areas of motivation and emotion, with emphasis on humans. Prerequisite: PSYC 1101.

PSYC 4342-Sensation and Perception
Presents some fundamental concepts, methodologies, and research findings in the study of human sensory and perceptual functioning. Prerequisite: PSYC 1101.

PSYC 4333-Principles of Animal Learning
Introduces the basic principles of animal learning and the scientific study of learning in nonhumans. Prerequisite: PSYC 1101.

PSYC 4344-Animal Behavior
A survey of methods, theories, and research in animal behavior, with attention also being given to evolutionary theories of human behavior. Prerequisite: PSYC 1101.

PSYC 4436-Theories of Psychotherapy
Provides students with a comprehensive review of the major theoretical orientations used in the practice of psychotherapy, including issues related to psychotherapy research and the applicability of these theories to a range of clients. Prerequisite: PSYC 1101.

PSYC 4443-Experimental Cognitive Psychology
Explores the methods used in cognitive psychological research and provides a detailed focus on one specialized content area (e.g., memory). Prerequisite: PSYC 1101.
PSYC 4444-Experimental Animal Learning
An advanced study of the principles of learning and cognition in nonhumans and the methodology involved in the scientific investigation of this area, including a laboratory component that provides experience with the application and investigation of these principles and methods. Prerequisite: PSYC 1101.

PSYC 4830-Field Experience
An opportunity to gain practical experience through volunteer field work in a setting related to psychology. Prerequisites: PSYC 1101 and permission of instructor.

PSYC 4831-Directed Research
Under the supervision of faculty member, the student completes all phases of a research project in an area of the student’s interest. Prerequisites: PSYC 1101 and permission of instructor.

PSYC 4832-Directed Study
Consists of in-depth investigation of an area within psychology not normally covered in the curriculum. Prerequisites: PSYC 1101 and permission of instructor.

PSYC 5030-Selected Topics
Scheduled on an irregular basis to explore special areas in psychology not offered in the regular curriculum and will carry a subtitle. Prerequisite: PSYC 1101.

PSYC 5230-Health Psychology
Surveys the application of psychological principles in the treatment and prevention of health related problems. Prerequisite: PSYC 1101.

PSYC 5330-Psychology of Aging
Examines developmental psychological processes in later adulthood, including changes with age in perception, intelligence, learning, memory, personality, and social behaviors. Prerequisite: PSYC 1101.

PSYC 5341-Experimental Developmental Psychology
Provides the advanced psychology student with an in-depth examination of methodological and ethical issues underlying research in developmental psychology, provides exposure to important research areas within the field and fosters skills for critically evaluating research. Prerequisite: PSYC 1101.

PSYC 5342-Experimental Social Psychology
Provides the advanced psychology student with an in-depth examination of selected content areas and research methodology in social psychology. Prerequisite: PSYC 1101.

PSYC 5430-Physiological Psychology
A broad survey of the nervous system with emphasis on functional relationships between the nervous system and behavior and on the techniques and methods used to examine the physiological bases for human and nonhuman animal behavior. Prerequisite: PSYC 1101.

PSYC 5443-Experimental Physiological Psychology
Students build on their knowledge of physiological psychology and research, conduct and analyze their own experiments. Prerequisite: PSYC 1101.

PSYC 5530-History and Systems
Examines the development of experimental and clinical psychology, with emphasis on relating the development to current issues in psychology. Prerequisite: PSYC 1101.

PSYC 7030-Selected Topics
Scheduled on an irregular basis to explore several areas in psychology not offered in the regular curriculum and will carry a subtitle.

PSYC 7130-Statistics for Psychology
Covers the logic of statistical inference, fundamental principles of variance, complex analysis of variance design, selected non-parametric procedures and a brief introduction to multi-variate procedures with emphasis upon the application of these methods in psychological research. Prerequisite: STAT 2231.

PSYC 7131-Research Design
An examination of research techniques for dealing with specific problems in psychology. Prerequisite: PSYC 3140.

PSYC 7132-Advanced Animal Learning
A study of the principles of learning and cognition in nonhumans including the theoretical bases, experimental techniques, analysis and generalizations of scientific investigations.

PSYC 7133-Advanced Cognitive Psychology
Provides an overview of contemporary cognitive psychology research and theory. Classic and recent theoretical approaches will be covered.

PSYC 7230-Research for Applied Psychology
Exposes students to the terminology, methodology, and ethical considerations of quantitative and qualitative research with an emphasis on developing the skills necessary to critically read and evaluate research.

PSYC 7231-Intellectual Assessment
Focuses on developing skill in the standardized administration and scoring, and interpretation of tests of intellectual functioning. Emphasis is placed on report writing and providing feedback to clients. Issues related to understanding, respecting, and accounting for client diversity are addressed. Topics of ethical conduct, test construction, reliability, and validity are also covered. Prerequisite: Admission to graduate program in psychology.

PSYC 7232-Foundations of Psychotherapy
An advanced survey of major theories and efficacy research in psychotherapy and counseling. The concept of the “person of the therapist” as a central factor is introduced and foundational skills are taught. Prerequisite: Permission of instructor.

PSYC 7233-Ethics and Professional Issues
Designed to provide the clinician in training with a clear understanding of the legal and ethical responsibilities incurred when working with clients in a clinical capacity. Lectures and class discussions will cover specific legal and ethical principles and the application of those principles in clinical settings. Topics related to professionalism will also be covered.

PSYC 7234-Personality Assessment
Focuses on the administration, scoring, and interpretation of selected objective and projective tests. Projective theory and its relationship to perception, phenomenology and symbology are covered. Test construction strategies, diversity, and issues of reliability and validity are considered. Prerequisite: PSYC 7231.
PSYC 7235-Group Psychotherapy
Provides the clinician in training with an overview of the concepts and various theories of group psychotherapy. Emphasis is placed on integrating theoretical knowledge and the practical skills necessary to facilitate therapy groups successfully. The ethical considerations unique to working with groups are also highlighted. The course has both didactic and experiential components. Prerequisites: PSYC 7232 and PSYC 7237.

PSYC 7236-Neuropsychology
Designed to provide basic comprehension of the mechanics of the brain and the human nervous system and to integrate this knowledge within a behavioral framework.

PSYC 7237-Psychotherapy Skills
Lecture and laboratory training in psychotherapy skills, including recognition of appropriateness of specific techniques for certain diagnostic categories. Prerequisite: PSYC 7232 or permission of instructor.

PSYC 7238-Child and Family Psychotherapy
Offers clinicians in training an overview of theories and concepts of child and family psychotherapy. Matters related to clinical practice with children and family systems are addressed. Prerequisites: PSYC 7232 and PSYC 7237.

PSYC 7239-Psychoopathology
Focuses on descriptions, hypothesized etiologies, and treatment modalities of major classes of mental disorders as classified by the Diagnostic and Statistical Manual of the American Psychiatric Association. Prerequisite: Admission to graduate program in psychology.

PSYC 7331-Advanced Developmental Psychology
An examination of the major themes, theories, and research in developmental psychology.

PSYC 7332-Advanced Social Psychology
Examines theory and research on selected topics in social psychology.

PSYC 7390-Development of Original Research
Provides students with opportunity to develop an original research idea and implement it.

PSYC 7490-Advanced Directed Study
A directed study at the graduate level providing an examination and analysis of current literature pertaining to selected content areas in psychology.

PSYC 7610-Research Seminar
An overview of ongoing research in the Department of Psychology designed to prepare students for the research requirements of the MS degree program.

PSYC 7630-Clinical Seminar
Seminar provides the opportunity to research a clinical topic of current interest to the class and to present scholarly work before peers. Emphasis is on the development of skills in researching the literature, development of ideas through critical thinking, and oral and written presentation. May be repeated with different topics. Prerequisite: Permission of instructor.

PSYC 7730-Assessment Practicum
Provides supervised experience in the administration, scoring and interpretation of psychological tests. Prerequisites: PSYC 7231, PSYC 7233, PSYC 7234 and permission of instructor.

PSYC 7731-Psychotherapy Practicum
Provides supervised experience in psychotherapy and counseling. Prerequisites: PSYC 7232, PSYC 7233, PSYC 7235, PSYC 7237, PSYC 7238 and permission of instructor.

PSYC 7810-Research Experience
Student works with a faculty member on a research project in progress, obtaining experience and skills to enhance the student’s understanding of the research process.

PSYC 7999-Thesis

Reading (Learning Support)

READ 0099-Academic Reading
Designed to prepare students to process academic information effectively and efficiently in university reading-intensive courses through the use of reading, reactive writing, and learning strategies. Emphasizes advanced reading comprehension techniques that facilitate the interpretation of printed academic materials. Students are encouraged to pursue reading as an ongoing, interactive, critical thinking process. Audit or institutional credit only.

Reading (COE)

READ 3330-Content Literacy
Addresses the development of reading and writing skills needed by students in grades 4-12. Instructional strategies focus on application of literacy skills in content subjects. Prerequisite: Admission to Teacher Education.

READ 4131-Teaching Reading for Special Education
Provides an overview of the basic program of reading instruction for the developmentally average child with special emphasis on adjustments and adaptations for students with special needs. Considers the stages of a child’s reading development, as well as teaching and assessment techniques. Includes activities that foster the development of reading strategies, integration of the use of the computer in literacy instruction, familiarity with current reading resources, and familiarity with approaches and models of instruction. Corequisite: ECED 2230 and ITEC 4530.

READ 7131-Approaches to Reading Instruction
Provides an overview of the basic program of reading instruction. Includes activities that foster the development of “strategic” readers, familiarity with current reading resources, integration of technology into literacy education, and familiarity with approaches to and models of instruction. Considers the stages of an individual’s reading development, as well as effective teaching strategies, assessment techniques, and organization for instruction.

READ 7132-Diagnosis and Correction of Reading Difficulties
A study of the diagnosis and remediation of reading difficulties in P-16 contexts. Provides experiences in the use of diagnostic techniques and remedial procedures involving pupils with reading difficulties. Prerequisite: READ 7131.
READ 7230-Issues and Trends in Reading
Designed to investigate the current issues and trends in reading instruction across levels P-16. Emphasis will be on the critical analysis of research literature that is related to the current practices and trends in the teaching of reading. Prerequisite: READ 7131.

READ 7330-Reading in Content Areas
Addresses the development of reading skills needed by students in grades 4-16. Instructional strategies are presented and designed to help students transfer literacy skills into content areas. Prerequisite: READ 7131.

READ 7430-Literacy and Technology
Acquaints students with issues and applications related to the use of technology in general, and microcomputers in particular, in literacy instruction. A range of levels P-16 will be emphasized. Prerequisite: READ 7131.

READ 7733-Advanced Practicum
Emphasizes diagnostic, remedial, and evaluative processes and promotes implementation within a supervised instructional setting. This class meets every other week. Prerequisite: READ 7132.

READ 8130-Advanced Diagnosis and Correction of Reading Difficulties
Involves a continued in-depth study of the administration and interpretation of reading and reading related diagnostic strategies and of corrective and remedial strategies appropriate to the needs determined through diagnosis. Focus is on individuals experiencing substantial reading difficulties in P-16 settings. Prerequisite: READ 7132.

READ 8230-Organization and Supervision of Reading Programs
A study is made of a balanced reading program and the relationship of the reading program to the total curriculum. Prerequisite: READ 7131.

READ 8330-Psychology of Reading
Designed to investigate the underlying psychological processes inherent in the reading process. Prerequisite: READ 7131.

READ 8839-Field Project in Reading
Designed to enable students to research design, organize, and report an instructional improvement project implemented in reading. Repeatable up to 6 credit hours. Prerequisite: EDUR 8434.

Recreation (CHPS)
RECR 1530-Foundations of Recreation and Leisure
Historical examination of the leisure services profession; sociological, economic, psychological, political, and technological considerations for the delivery of leisure and recreation services in contemporary society.

RECR 2130-Leisure Concepts Across the Life Span
Examination of the concepts of leisure, recreation, and play as they relate to human development across the life span and to the provision of leisure services to persons with disabilities.

RECR 2330-Computer Applications in Recreation and Sport Management
Fundamentals of personal computer use, including exposure to word processing, spreadsheet manipulation, statistics, desktop publishing, presentation software, the internet, and software specific to the fields of recreation and sport.

RECR 2530-Leadership and Programming in Leisure Service
Provides a basic understanding of the practice and theory of recreation program development and leadership in various service settings. Covers the process of recreation programming, principles of leadership, meeting the needs of a diversity of participants, and the implementation of programs and activities.

RECR 3130-Theoretical Foundations of Therapeutic Recreation
An overview of the models of therapeutic recreation practice. Students will demonstrate an understanding of the underlying philosophical and historical underpinnings for the therapeutic recreation profession. Students will demonstrate knowledge of the rationale for the inclusion of therapeutic recreation in the health care delivery system. Students will demonstrate an understanding of the etiology of disease with the specific implications for the provision of therapeutic recreation service delivery. Prerequisites: Completion of Area F requirements; and PSYC 3330 and EDUF 2230.

RECR 3135-Therapeutic Recreation Practice Concepts
Concepts related to the practice of therapeutic recreation. Students will demonstrate an understanding of the professional organizations and their associated standards of practice; legislation impacting on the provision of TR services; reimbursement issues; and the management of therapeutic recreation services. Prerequisites: Completion of Area F requirements; and PSYC 3330 and EDUF 2230.

RECR 3230-Adventure Education
Foundation of adventure education, philosophy, ethics, benefits, theoretical underpinnings, research, model programs, and use of adventure education programs for the delivery of services to an expanding clientele base. Prerequisite: Completion of Area F requirements.

RECR 3235-Introduction to Natural and Cultural Resource Management
The history, philosophy, policies, and laws associated with natural and cultural resource management, and to ecological and heritage preservation concepts as they apply to resource management. Prerequisite: Completion of Area F requirements.

RECR 3236-Planning Recreation Areas and Facilities
Basic understanding of the principles and procedures for planning, designing, and operating recreation and park areas and facilities. Prerequisite: Completion of Area F requirements.

RECR 3330-Commercial Recreation
Introduces the student to the area of commercial recreation. The course includes information on entrepreneurship in commercial recreation, the delivery of commercial recreation services, and an in-depth look at various commercial recreation settings. Prerequisite: Completion of Area F requirements.

RECR 3335-Dynamics of Tourism
Fundamental understanding of the dynamics and components to tourism and the tourism industry from the historical and applied perspectives. Prerequisite: Completion of Area F requirements.

RECR 3336-Heritage Tourism
Examines the managerial issues and promotional techniques required for the effective operation of heritage-based tourism and leisure service entities. Prerequisite: Completion of Area F requirements.
RECR 3337-International Tourism
Introduces the student to the field of international tourism from the social, scientific and applied perspectives, including such concepts as: tourist motivation, foreign exchange, migration, deviant practices associated with international tourism, and the phenomena of tourist-host relations. Prerequisite: Completion of Area F requirements.

RECR 3338-Resort Operations
Acquaints the student with the area of resort operations. The course includes information on basic resort operations, guest services, and resort recreation functions. Prerequisite: Completion of Area F requirements.

RECR 3430-Conference and Event Planning
An overview of principles and practices specific to meetings and events, such as conferences, conventions, festivals, and workshops. Principles and practices related to site selection, transportation, food and beverage, exhibits, special program features, social functions, and evaluations will be addressed. Prerequisite: Completion of Area F requirements.

RECR 3530-Attraction and Tourism Management Consortium
Utilizes an intensive one-week field school methodology and provides students with an exposure to, and understanding of, the various attractions and infrastructure that comprise a working tourism system. Students will explore and understand a variety of managerial issues pertinent to the operation of specific attractions within the tourism system. Prerequisite: Completion of Area F requirements.

RECR 4130-Assessment and Documentation in Therapeutic Recreation
Provides students with knowledge related to the systems approach to the clinical concepts of therapeutic recreation. Students will demonstrate an ability to conduct assessments, document on outcomes, and participate in comprehensive program planning. Prerequisites: Completion of Area F requirements; and PSYC 3330 and EDUF 2230.

RECR 4135-Therapeutic Recreation Intervention Techniques
Provides students with the ability to utilize various intervention techniques. Students will demonstrate the ability to conduct activity and task analysis. Students will demonstrate an understanding of adaptive equipment and leisure education. Students will demonstrate an understanding of advocacy. Prerequisites: Completion of Area F requirements; and PSYC 3330 and EDUF 2230.

RECR 4230-Resource Management and Interpretation
An overview of principles and practices associated with effective management of recreation users in natural and cultural resource settings; and with the concepts and techniques of interpretation. Prerequisite: Completion of Area F requirements.

RECR 4430-Financial and Legal Dimensions of Recreation
A basic understanding of techniques of financing and budgeting, and a knowledge of legal, legislative, and risk management concepts as they relate to recreation service delivery. Prerequisite: Completion of Area F requirements.

RECR 4435-Managing Recreation Organizations
An understanding of organizational behavior, human resources management, ethical principles, and professional issues as they impact the delivery of recreation services. Prerequisite: Completion of Area F requirements.

RECR 4530-Marketing Recreation Services
An understanding of marketing techniques and strategies as they apply to the delivery of recreation services, including knowledge of public relations and promotion strategies. Prerequisite: Completion of Area F requirements.

RECR 4536-Evaluation and Research
A basic understanding of research and evaluation methods, design, analysis, interpretation, and report writing; and the ability to conduct, present, evaluate, and utilize research on recreation. Prerequisite: Completion of Area F requirements.

RECR 4790-Internship
A sixteen-week supervised work experience related to their area of emphasis, and the opportunity to apply classroom knowledge and theory to practice. Prerequisites: Completion of major core requirements, area of emphasis, non-recreation courses, and permission of advisor.

RECR 4830-Selected Topics in Recreation
Provides the student with the opportunity to study contemporary topics and issues relevant to the recreation and leisure profession in an individual setting. The student will be able to work with faculty in a rigorous, closely directed, research or exploratory environment.

RECR 6030-Selected Topics in Recreation and Sport
Provides the student with the opportunity to study contemporary topics and issues relevant to recreation and sport administration.

RECR 6230-Computer Applications in Recreation and Sport Management
Provides students with the ability and opportunity to apply intermediate and advanced computer skills using contemporary software applications.

RECR 7230-Research Methods and Statistical Applications in Recreation and Sport Management
An operational understanding of research, evaluation methods, and statistical applications. The goal of this course is to produce intelligent consumers of research based information and to give students the opportunity to prepare for advanced graduate study.

RECR 7235-Issues and Trends in Recreation
A critical understanding of the current and anticipated problems and trends in the field of recreation with particular emphasis on solutions, established and predicted, to address these problems and trends.

RECR 7236-Philosophy of Recreation
A critical inquiry into the philosophies of recreation focusing on a review of these philosophies as they relate to leisure in modern society.

RECR 7237-Recreation Management
An overview of recreation management with a focus on organizational behavior, personnel management, public relations, marketing, public finance, and politics and power structures in recreation and leisure service settings.

RECR 7830-Directed Individual Study
Students have an opportunity to pursue an independent recreation research project or to work with a faculty member as part of a research team.
RECR 7999-Thesis
Opportunity to conduct an independent research project in the preferred field of recreation, requiring the development of a thesis proposal, the execution of appropriate research, the analysis of results, and the development of a written product.

Religious Studies (Interdisciplinary)
• RELS 2130-Introduction to Religion
Introduction to definitions, perspectives, and methods used in religious studies, as well as to the varieties of religious issues and expressions.

RELS/PHIL 3131-World Religions
See PHIL 3131 for course description.

RELS/HIST 3139-History of Religion in the US
See HIST 3139 for course description.

RELS/PSYC 3231-Psychology of Religion
An introduction to the literature of the psychology of religion, including the functions of religiousness, types of religious experiences, religious motivation, and the relationship between religion and mental health. Prerequisite: PSYC 1101.

RELS/PHIL 3331-Great Moral Philosophers
See PHIL 3331 for course description.

RELS/HIST 4330-The Early Church
See HIST 4330 for course description.

RELS/HIST 4331-Heresy and Dissent Western Religious History
See HIST 4331 for course description.

RELS/HIST 4336-Science and Religion
See HIST 4336 for course description.

RELS/PHIL 4632-Philosophy of Religion
See PHIL 4632 for course description.

RELS 4890-Seminar in Religious Studies

RELS/SOCI 5133-Sociology of Religion
Focuses on the human (especially social) aspects of religious belief and practice. Various religious groups will be examined to identify how they organize their collective religious expressions. Prerequisite: SOCI 1101.

RELS/HIST 5332-Age of the Reformation
See HIST 5332 for course description.

RELS/HIST 5334-Major Themes in Western Religious History
See HIST 5334 for course description.

RELS/ENGL 5530-The Bible as Literature
A study of the literary dimension of the English Bible. Major emphasis is upon the literary themes, types, personalities, and incidents of the Old and New Testaments. Prerequisite: ENGL 2111 or ENGL 2212.

Regents’ Review Courses

RGTE 0199-Regent’s Intensive Writing Review
Intensive writing review for the Regent’s Test essay with emphasis on frequent essay writing, individual conferences, analysis of essays, editing skills, and grammar study. Required of all students who have accumulated 45 or more hours without passing the Regent’s Test essay. 2 hours institutional credit. Not open to ESL students or students with fewer than 45 hours.

RGTR 0198-Regents’ Exam—Reading
Designed to help students achieve a passing score on the Regents’ Reading Exam, RGTR 0198 emphasizes academic reading skills including vocabulary, literal and inferential comprehension, analysis, and differentiation between main ideas and details. Audit or institutional credit only.

Russian (CLASS)

RUSS 1001-Elementary Russian I
Introduction to listening, speaking, reading, and writing in Russian and to the culture of Russian speaking regions.

RUSS 1002-Elementary Russian II
Continued listening, speaking, reading and writing in Russian with further study of the culture of Russian speaking regions. Prerequisite: RUSS 1001 or equivalent.

RUSS 2001-Intermediate Russian I
Building upon communication skills (understanding, speaking, reading and writing Russian) and cultural understanding, developed at the elementary level. Prerequisites: RUSS 1001 and RUSS 1002 or equivalent.

RUSS 2002-Intermediate Russian II
Continued focus on communication skills and cultural understanding. Prerequisites: RUSS 2001 or concurrent enrollment in RUSS 2001 or equivalent.

Secondary Education (COE)

SCED 3237-Methods of Teaching Science in the Secondary School
Designed to assist students in understanding the purpose of science in the secondary school curriculum and becoming familiar with trends in science instruction. Skills are developed in using classroom laboratory and field trip experiences in planning and evaluating science instruction. Major emphasis is placed on planning and presentation of skills and on developing strategies to facilitate working with the diverse student populations present in public schools. Prerequisite: Admission to Teacher Education program. Corequisites: SCED 4138 and EDUF 3232.

SCED 3337-Methods of Teaching Language Arts in the Secondary School
A study of methods and materials appropriate in teaching composition, literature, and oral expression in the secondary school English program. Emphasis will be placed on the writing process, teaching grammar through writing, and literature for grades 7-12. Includes a field-based component which requires teaching language arts in a secondary school classroom. Prerequisite: Admission to Teacher Education program. Corequisites: SCED 4138 and EDUF 3232.
SCED 3437-Methods of Teaching Social Science in the Secondary School
A study of the social sciences in the secondary schools with emphasis on curriculum issues, planning social science instruction, methods and materials appropriate for older adolescents and topical issues in teaching social sciences. Includes a field-based component which requires teaching social science in a social science in a secondary school classroom. Prerequisite: Admission to Teacher Education program. Corequisites: SCED 4138 and EDUF 3232.

SCED 3537-Methods of Teaching Mathematics in Secondary School
A study of teaching methods and materials, curriculum content, and trends in secondary school mathematics. Prerequisite: Admission to Teacher Education program. Corequisites: SCED 4138 and EDUF 3232.

SCED 4090-Secondary Education Special Topics
Designed to promote specialized training appropriate to the needs of pre-service teachers. Attention will be given to a range of specific problems as they relate to the secondary school classroom. Repeatable up to 6 credit hours. Prerequisites: Approval of the advisor, instructor, and department chair.

SCED 4138-Secondary Curriculum
Addresses the linear curriculum design model for use in designing secondary school curriculum. Emphasis is placed on designing an instructional unit focusing on the selection of appropriate learning objectives related to specific knowledge and skills, selection of interactive learning activities and appropriate assessment of student progress. Consideration is given to research based effective teaching behavior. Includes a field-based component which requires planning and teaching an instructional unit in a secondary school classroom in the student’s teaching field. Prerequisite: Admission to Teacher Education program. Corequisite: EDUF 3232.

SCED 4799-Student Teaching in Secondary Education
A period of guided teaching during which the student, under the direction of a cooperating teacher, takes increasing responsibility for leading the school experiences of a given group of learners over a period of consecutive weeks and engages more or less directly in many of the activities which constitute the wide range of a teacher’s assigned responsibilities. Prerequisites: Completion of teaching field courses and professional education sequence; must meet requirements for admission to Student Teaching program including passing score on Praxis II certification exam.

SCED 6131-Secondary School Curriculum
A study of the linear curriculum design model for use in designing secondary school curriculum. Emphasis is placed on current trends in secondary school curriculum, selection of appropriate knowledge and skills, selection of interactive learning activities, and appropriate assessment students progress. Consideration is given to research in effective teaching behaviors of secondary teachers. Prerequisite: Admission to Teacher Education program.

SCED 6132-Methods for the Secondary School
Examines a variety of instructional methods and materials to enhance learning at secondary grade levels. Emphasis is placed on planning subject area lessons based on the characteristics of an identified grade level. Activities are oriented to classroom practices and instruction associated with interactive learning experiences. A field-based component is included. Prerequisites: SCED 6131 (or corequisite) and Admission to Teacher Education program.

SCED 6799-Internship: Secondary
A supervised teaching experience in one of the secondary subject fields. Emphasis is placed on instructional planning, methodology, classroom management, and student evaluation. Prerequisites: Admission to Teacher Education program and a Provisional Teaching Certificate.

SCED 7090-Selected Topics in Secondary Education
Designed to promote specialized training appropriate to the needs of in-service teachers. Attention will be given to a range of specific problems as they relate to the secondary school classroom. Prerequisites: Approval of the advisor, instructor, and department chair.

SCED 7138-Supervision of Teachers
Designed to enable the supervising-mentor teacher to demonstrate, in a classroom setting, a mastery of skill performance related to effective observation, conferencing, and communication skills. To receive credit, the course participant must have a student teacher or intern, or be serving as a mentor teacher while enrolled in this course. Prerequisite: EDLD 7137.

SCED 7231-Science in the High School
Provides experiences with material patterns for excellence in science teaching and learning. Emphasis is placed on preparing scientifically literate high school graduates using the National Science Education Standards and Benchmarks for Science as a basis for developing teaching strategies and student experiences. Issues of scope, sequence, and integration of science curriculum are also considered. A field-based project is required.

SCED 7232-Teaching Science in the Secondary School
Designed to promote the specialized teaching appropriate to the needs of in-service teachers of science. Attention will be given to specific methods for organizing and teaching secondary school science. A field-based project is required. Prerequisite: SCED 7231.

SCED 7331-Young Adult Literature
An in-depth study of young adult literature together with techniques for helping students respond orally and in writing. A field-based component will be included.

SCED 7332-Integrated Language Arts for the Secondary School
A study of instructional strategies that integrate writing, reading, literature, and language in the secondary school classroom. A field-based project will be included.

SCED 7431-Teaching Social Studies in the Secondary School
A study of the place of social education in secondary education. In a seminar setting, students will analyze problems challenging secondary school social studies educators including the knowledge base of social science education, teaching for active and responsible citizenship, making curricular choices, selecting appropriate instructional techniques, and assessing current trends in secondary school social studies education. A field-based project will be included.

SCED 7531-Teaching Mathematics in the Secondary School
An in-study of current methods, trends, and issues in teaching secondary school mathematics.

SCED 8333-Seminar in English Education
A study of a major theoretical positions in the teaching of English including transactional theories of literary response, instructional scaffolding, sociocultural perspectives of learning, and language as process. Prerequisites: SCED 7331 and SCED 7332.
SCED 8633-Seminar in Secondary Education
A capstone course for the M.Ed. in each of the secondary education programs. Emphasis is placed on a study of the historical and contemporary research, instruction, and recommended practices for effective secondary schools. Current trends and issues in secondary education will be examined. A field-based study is included in the course.

SCED 8639-Seminar and Field Study
The primary objective of the course is to initiate, complete and submit an acceptable field-based research study. Focuses on issues, trends and research in one of the secondary education teaching fields. Prerequisites: EDUR 8131 and EDUR 8434.

SCED 8890-Directed Individual Study
The student, under the direction of the instructor, will identify and study a topic applicable to one of the secondary subject fields. Repeatable up to 6 credit hours. Prerequisites: Approval of the advisor, instructor, and department chair.

Sport Management (CHPS)

SMGT 2130-Introduction to Sport Management
Introduces students to the meaning of sport management in terms of its scope, foundations, issues and future trends. Examines the job responsibilities and competencies required of sport managers in a variety of sports, or sport-related organizations. Also provides the student with an overview of the different facets and career opportunities available in the field of sport management.

SMGT 2230-Social Issues of Sport
Helps the student understand the social aspect of sport. Specifically, examines such topics as how social phenomena affect sport participation and behavior, and how the dynamic nature and diverse parameters of society affect the sport industry.

SMGT 3230-Economics of Sport
Examines major economic issues in the sport industry and introduces the methodology of economics that can be used to analyze these issues. Prerequisites: SMGT 2130 and ECON 2105.

SMGT 3236-Financial Management of Sport
Examines the fundamental concepts and theories of finance applicable to the field of sport management. Prerequisites: SMGT 2130 and FINC 3131.

SMGT 3238-Management of Sport Organizations
Introduces the student to the operation of actual sport enterprises. Prerequisites: SMGT 2130 and MGNT 3130.

SMGT 3330-Sport Promotion and Marketing
Focuses on the application of marketing principles and practices to the sport industry. Prerequisites: SMGT 2130 and MKTG 3131.

SMGT 4330-Facility and Event Management
Addresses the principles and procedures involved in sports facility and event management. Special emphasis will be given to sports event planning, production, and evaluation. Prerequisite: SMGT 2130.

SMGT 4336-Sport Business Operations
Teaches the student to use modern computerized programs used in the operations of the sport industry and the policies and procedures that govern their use. Prerequisite: SMGT 2130.

SMGT 4337-Legal Aspects of Sport
Helps the student understand the legal aspects of negligence, intentional torts, the essentials of contracts, and elements of constitutional law as they apply to the sport industry. Helps the student understand risk management in the sport industry. Prerequisite: SMGT 2130.

SMGT 4338-Sport Policy Development
Helps the student understand the modern administrative issues in the administration of sport related businesses. The course will focus on many of the most demanding legal concerns of running sport businesses. Prerequisite: SMGT 2130.

SMGT 4735-Sport Management Internship
The student is involved in a full-time (40 hours per week) external working experience with a host sport organization. The internship allows the senior student an opportunity to receive practical experience in a selected sport management-related setting. Prerequisites: Completion of main core requirements and permission of advisor.

SMGT 6330-Social and Ethical Issues in Sport
Introduces the student to a variety of sociological principles and implications that relate to human organization and human interaction within the realm of leisure and sport. Leisure and sport are pervasive influences in American culture and in much of the developed world. It is important to understand the evolution of the leisure ethic in our society, how sport has become so important and how an individual is socialized through the forum of sport. The class will investigate the interrelationships between society, sport, popular culture and the value systems attributed to the involvement in these areas.

SMGT 6335-Sport Administration
Designed to develop a futuristic understanding of the management of sport related businesses. The exponential change in the world of sport requires an understanding of successful past and present practices and the foreseeability of change. Emphasis in this class will be on strategic planning for change, NCAA change in organization and mandates, the current and future legal environment in sport including changes in "standards of care", and the managerial implications for keeping up with the changing nature of sport participants and the associated coaching changes needed to be effective.

SMGT 6337-Sport Facility and Event Management
Helps the student understand contemporary sport facilities and event management. Important aspects of the class include event risk management, event planning and operations, facilities management, facility planning and development, and negotiating with promoters, independent contractors and those involved in privatization.

SMGT 7330-Research Methods and Statistical Applications in Recreation and Sport Management
Offers an operational understanding of research, evaluation methods, and statistical applications. The goal of this course is to produce intelligent consumers of research based information and to give students the opportunity to prepare for advanced graduate study.

SMGT 7335-Sport Law and Risk Management
Provides an advanced understanding of legal proceedings, legal research, negligence, and risk management. Through actual experiences of advanced legal research, moot courts, and the development of a risk management plan for an actual sport business students will develop a deeper understanding of the current status of negligence as it applies to the sport industry and the development of a risk plan to reduce operational risks.
SMGT 7337-Sport Marketing
Examines the unique nature of marketing sport both as a participatory and spectator event. Emphasis is upon understanding the synergy of marketing, sport and society. Consideration is given to marketing collegiate and professional sport.

SMGT 7339-Strategies for Sport Finance
Traditional and innovative revenue acquisition methods available to sport organizations will be examined. Particularly, such issues as the current financial challenges confronted by sport managers, the innovative concepts and strategies used in financing sport, and other critical aspects of sport business practices will also be addressed.

SMGT 7790-Sport Management Internship
Allows the student to apply the skills and knowledge acquired in class and to receive practical experience in selected sport industry settings.

SMGT 7830-Directed Individual Study
Provides students with an opportunity to pursue an independent sport management research project or to work with a faculty member as part of a research team.

SMGT 7999-Thesis
Opportunity to conduct an independent research project in the preferred field of sport management, requiring the development of a thesis proposal, the execution of appropriate research, the analysis of results, and the development of a written product.

Sociology (CLASS)

• SOCI 1101-Introduction to Sociology
The discipline of sociology and the sociological perspective as a tool for understanding society and culture, including the interpersonal, intergroup, and international dimensions of social life.

SOCI 2231-Introduction to Social Welfare
The history of the values, ideas, events, and movements that led to the current welfare arrangements in western society and the United States.

SOCI 2232-Introduction to Social Work
A comprehensive introduction to the field of social work, including a brief history of the profession; its knowledge, skill, and value base; and its field of practice.

SOCI 3094-Selected Topics in Sociology
Various topics.

SOCI 3231-Practice Skills
An examination of the knowledge, skill and value base for working in the social services. The emphasis is on preparation for practice in social services settings. Prerequisite: SOCI 1101 or permission of the instructor.

SOCI 3331-Criminology
The study of crime as a social phenomenon. Topics include the sociology of law, theories of crime causation, the statistics of crime, and discussion of selected types of criminal behavior. Prerequisite: SOCI 1101.

SOCI 3332-Death and Dying
Examines sociocultural dimensions of death, dying, bereavement, grief and mourning, including cross-cultural comparisons and social patterns in historical perspective. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 3333-Deviant Behavior
A study of deviant behavior as a social phenomenon. Includes the issues of definition of deviance, theoretical approaches to deviance causation, and substantive examination of forms of deviant behavior with special attention to corporate and governmental deviance. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 3334-Juvenile Delinquency
A survey of the history of childhood and delinquency and major theories of causation. The student will also become familiar with the Juvenile Proceedings code of Georgia. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 3335-Social Change
Discussion of theories and causes of social change in contemporary or historical perspective. Prerequisite: SOCI 1101.

SOCI/AMST 3336-Social Problems
A general introduction to the study of social problems in areas such as deviance, social inequality, social change and American institutions. Prerequisite: SOCI 1101.

SOCI/AMST 3337-Urban Sociology
Study of the origin of cities and the impact of modern urban life on the social, psychological, ecological, and economic components of human societies. Prerequisite: SOCI 1101.

SOCI/CRJU 3432-Gangs, Drugs and Criminal Justice
See CRJU 3432 for course description.

SOCI 3434-Methods of Social Research
A review of social research methods with emphasis on design, data collection, measurement, survey and analysis. Required of all Sociology majors. Prerequisites: SOCI 1101 and STAT 2231.

SOCI 4231-Child Welfare and Family Services
Comprehensive study of current philosophy and practice in the various fields of child welfare, including family income maintenance programs, child protective service, adoption, foster care, institutional placement of children, home based services, family preservation, early childbearing, guardianship and custody, the family and the courts, and child advocacy. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 4232-Social Welfare Policy and Services
An analysis of American social welfare policy. Covers programs and policies under public, voluntary, and proprietary auspices in the areas of income maintenance, mental health and substance abuse, health care, child welfare, nutrition, housing, and employment. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 4233-Social Service and Health Care
A comprehensive introduction to social services in the area of health care with exploration of the knowledge base and skills used. Covers various physical and mental health care settings and social populations of ill persons. Prerequisite: SOCI 1101 or permission of instructor.
SOC 4234-Social Services and Aging
Introduces the student to the wide range of public, voluntary, and proprietary social services available to the aged population in the United States, and the methods used by human services professionals in working with this population. Prerequisite: SOCI 1101 or permission of instructor.

SOCI/WGST 4332-Sociology of Gender
Explores gender identity, gender roles, and gendered social structures using the sociological perspective. Prerequisite: SOCI 1101.

SOCI/AAST/AMST 4333-Race and Ethnicity
A survey of the major concepts and theories in the study of racial and ethnic relations in the United States. The situations and experiences of various racial and ethnic groups are considered. Prerequisite: SOCI 1101.

SOCI 4334-Organizations
Explores what it means to live in an organizational society and world. Theory, metaphor, and research findings provide insight and tools for understanding and, possibly, affecting our organizational world. Organizational and leadership effectiveness will be ongoing themes. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 4335-Self and Society
Explores the relationship between the self and society (the individual and the social milieu) using social psychological and/or symbolic interactionist perspectives. Content includes origins of the self and how it is shaped by society, formation of norms, identity management, socialization, interpersonal influence and role behavior. Prerequisite: SOCI 1101.

SOCI/AAST 4431-Inequality
Examines the sociological approaches and theories of stratification and structured inequality, and analyzes the causes and consequences of economic, political, and social inequality. Prerequisite: SOCI 1101.

SOCI 4630-Senior Seminar
A capstone course which will enhance students’ knowledge, understanding, and appreciation of the discipline. Key theoretical, methodological, and substantive issues in the discipline will be discussed. Required of all senior majors. Prerequisites: SOCI 3432, SOCI 5431 and senior standing.

SOCI 4790-Field Instruction
Designed as an educational placement to give practical experience in a sociologically and vocationally appropriate setting to students in the B.S. program in Sociology. Prerequisite: Permission of the major advisor from the Department of Sociology and Anthropology.

SOCI 4892-Directed Individual Research
Directed individual research.

SOCI 5094-Selected Topics in Sociology
Various topics. One to three hours credit.

SOCI 5131-Population
Examines sociological approaches to understanding demographic processes, including the historical transformation of the world’s population and its current status. Covers three basic population processes—fertility, mortality, and migration. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 5132-Sociology of Community
Focuses on community life in the United States. Community is viewed as a social entity and an arena of social interaction. Urban, rural, and alternative communities in the U.S. are investigated to uncover their patterns of interaction and organization. Prerequisite: SOCI 1101 or permission of instructor.

SOCI/RELS 5133-Sociology of Religion
A sociological study of religion focusing on the human (especially social) aspects of religious belief and practice. Various religious groups will be examined to identify how they organize their collective religious expressions. Theories and research methods used by sociologists to study religious beliefs and practices and religious institutions will be reviewed. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 5135-Aging
Examines the impact of an aging population upon society and the effects of the socially defined experience of aging upon the individual. Special attention is given to economic factors, retirement, life-style options, health, death, and widowhood. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 5136-Sociology of Education
Studies the social conditions that influence the organization and process of education, the course focuses on the effects of social class, race, and gender inside and outside the classroom. Major theoretical and methodological approaches to the sociology of education are reviewed. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 5137-Collective Behavior
A sociological study of social movements and such forms of collective behavior as mobs, crowds, rumors, riots, and mass hysteria. Key theories and research methods used by sociologists and other social scientists to study collective behavior will be reviewed. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 5138-Sociology of the Family
A sociological study of the social forces that impinge on families, affecting the behaviors of family members and the forms that family units take. Key theories and research methods used by sociologists and other social scientists to study families will be reviewed. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 5139-Sociology of Health Care
Analyzes health and illness from a sociological perspective. Attention will be given to health care institutions, roles, beliefs, and practices, as well as newly emerging roles. Prerequisite: SOCI 1101.

SOCI 5431-Sociological Theory
An overview of the major classical sociological theorists, linking their contributions to contemporary issues and concerns. Covers key theorists and basic tenets of structural functionalism, conflict theory, and symbolic interactionism and introduces the process of theory construction. Prerequisite: Undergraduate sociological theory or permission of instructor.

SOCI 5433-Program Evaluation
Explores what it means to live in a society in which accountability is a thematic issue and policy and programs benefits which accrue from well-designed evaluations and proposals. Evaluation research and grant development issues, including basic design and use considerations, are discussed. Prerequisite: SOCI 1101 or permission of instructor.
SOCI/ANTH/AAST/AMST 5435-The Rural South
The lifeways and social organization of rural society with emphasis on the South. Examines social institutions, community dynamics, social change and the cultural distinctions of the region. Prerequisite: ANTH 1102 or SOCI 1101 or permission of instructor.

SOCI 6091-Selected Topics in Theory
In-depth examination of selected theories or schools of sociological thought. Course may be repeated as topics change. Prerequisite: Undergraduate course in sociological theory or permission of instructor.

SOCI 6092-Selected Topics in Methodology
In-depth examination of selected methodologies for sociological research. May be repeated as topics change. Prerequisite: Undergraduate course in methods of social research or permission of instructor.

SOCI 6093-Selected Topics in Data Analysis
In-depth examination of selected data analysis techniques for sociological research. May be repeated as topics change. Prerequisite: Graduate preparation in data analysis or permission of instructor.

SOCI 6431-Contemporary Theory
Examination of modern sociological theory, its place in the scientific endeavor, and major theorists, and theory systems. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 6434-Research Design and Methodology
Study of the role of theory, research design, sampling, measurement and instrumentation, data collection, and ethical issues related to sociological research. Prerequisite: Undergraduate course in social research or permission of instructor.

SOCI 6435-Sociological Quantitative Analysis
Study of the techniques and statistics necessary to design and interpret quantitative sociological research. Required for the M.A. Degree in Sociology. Prerequisite: Undergraduate preparation in statistics and research methods or permission of instructor.

SOCI 6436-Qualitative Research Methods
Analysis and practice of qualitative methodology in sociology. Includes participant observation, interviews, case studies, content analysis and other innovative techniques. Prerequisite: Undergraduate courses in theory and research methodology.

SOCI 6631-Seminar in Self and Society
Examination of social psychological theory and research with emphasis upon the sociological perspective. Both structural and symbolic interactionist theories are explored. Prerequisite: SOCI 1101 or permission of instructor.

SOCI 6632-Seminar in Social Change
Examines sociological approaches to and theories of change and analyzes causes and consequences of long-term structural transformations. Prerequisite: Undergraduate courses in theory and research methodology.

SOCI 6633-Seminar in Social Stratification
Examines several different approaches, methods, and data sources from the research specialty area of inequality. Introduces students to themes that are used to organize and differentiate theories of social stratification. Some familiarity with quantitative methods and empirical research will be prerequisites to successful performance in the course. Prerequisite: Undergraduate courses in theory and research methodology.

SOCI 6634-Seminar in Social Organization
Examination of theories of social organization and their application at both the micro and macro levels of analysis in groups, organizations, and societies. Prerequisite: Undergraduate courses in theory and research methodology.

SOCI 6635-Sociology of Gender
Examines the cultural construction of genders, as well as, the structural hierarchies of wealth, power and prestige linked to gender.

SOCI 7790-Applied Monograph
A document of thesis quality and rigor which presents research and systematic observations from a practicum or field internship experience of no less than one semester. As a substitute for the traditional thesis, this option must be approved by the sociology graduate faculty of the Department of Sociology and Anthropology. Prerequisite: Permission of graduate faculty in sociology.

SOCI 7791-Thesis
Research thesis. Prerequisite: Permission of major professor.

SOCI 7891-Independent Study in Sociology
Independent examination of graduate course topics offered in the sociology curriculum of the Department of Sociology and Anthropology following guidelines of the College of Graduate Studies. Prerequisite: Permission of instructor.

SOCI 7892-Directed Research in Sociology
Participation in an independent or group research project. More than three hours of credit for directed research may be earned, but only three hours may be applied to the completion of minimum hours required for the M.A. Degree in Sociology. Prerequisite: Permission of instructor.

SOCI 8891-Independent Study in Sociology
Independent examination of graduate course topic offered in the sociology curriculum of the Department of Sociology and Anthropology following guidelines of the College of Graduate Studies. Designed for graduate students beyond the masters level. Prerequisite: Permission of instructor.

SOCI 8892-Directed Research in Sociology
Participation in an independent or group research project. Designed for students participating in programs of study beyond the masters level. Prerequisite: Permission of instructor.

Spanish (CLASS)
SPAN 1001-Elementary Spanish I
Introduction to listening, speaking, reading, and writing in Spanish and to the culture of Spanish-speaking regions.

SPAN 1002-Elementary Spanish II
Continued listening, speaking, reading and writing, in Spanish with further study of the culture of Spanish-speaking regions. Prerequisite: SPAN 1001 or equivalent.
SPAN 1050-Accelerated Elementary Spanish
For students who have some previous exposure to Spanish. Focus on communication skills (understanding, speaking, reading, and writing Spanish) and cultural understanding, and some review of language structures. Includes laboratory program. Prerequisite: Pre-college Foreign Language Admissions Requirement in Spanish or equivalent.

SPAN 2001-Intermediate Spanish I
Building upon communication skills (understanding, speaking, reading, and writing Spanish) and cultural understanding, developed at the elementary level. Prerequisite: SPAN 1001 and SPAN 1002 or College Spanish or equivalent.

SPAN 2002-Intermediate Spanish II
Development of writing skills and closer examination of grammatical structures of the Spanish language. Writing assignments based on both oral and written authentic sources. May be exempted through Department of Foreign Languages testing program. Prerequisite: SPAN 2001 or concurrent enrollment in SPAN 2001 or equivalent.

SPAN 2003-Intermediate Spanish II: Conversation/Comprehension
Development of oral and comprehension skills in Spanish using authentic materials, situational role plays, and group and pair activities as well as other communicative techniques. May be exempted through Department of Foreign Languages testing program. Prerequisite: SPAN 2001 or concurrent enrollment in SPAN 2001 or equivalent.

SPAN 2004-Intermediate Spanish II: Hispanic Texts
Development of reading skills as applied to authentic texts from the Hispanic world. Students will read examples of literature, periodicals, and other texts; learn to read for both general understanding and significant details; and expand their general vocabulary in Spanish. May be exempted through Department of Foreign Languages testing program. Prerequisite: SPAN 2001 or concurrent enrollment in SPAN 2001 or equivalent.

SPAN 3030-Selected Topics in Spanish
Selected topics in Spanish. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3130-Spanish Conversation and Applied Phonetics
Provides oral practice in Spanish using authentic communicative activities and a supplemental study of features of the Spanish language which create pronunciation problems for the non-native speaker. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3131-Spanish Grammar and Composition
A treatment of fine points of grammar and idioms, with special attention to the verbal and pronominal systems. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3195-Studies Abroad: Language
A course in oral and written communications in Spanish using materials and resources available in the foreign country. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3230-Approach to Hispanic Literature
Introduction to reading literary texts in Spanish. Selected literary works by genre of poetry, narrative prose, drama, and essay will be studied with attention to the study of their forms of literary expression in Spanish and introduction of terms related to the discussion of literature in Spanish. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3295-Studies Abroad: Literature
The study of selected works of literature in Spanish which are appropriate for building on language skills or which are related thematically to the country or culture visited. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3330-Peninsular Civilization
A study of the culture and civilization of Spain from the pre-historic period through the present. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN/LAST 3331-Latin American Civilization
A study of the culture and civilization of Latin America from the time of the pre-Colombian Indian societies through the present. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3395-Studies Abroad: Culture
Students become familiar with the culture of the country in which they are staying by examining selected historical, geographical, and artistic features and discussing aspects of the lifestyle of the country. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3510-Spanish for Law Enforcement
Provides oral and written practice using situations specifically related to law enforcement. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3511-Spanish for Science and Technology
Provides oral and written practice using situations specifically related to scientific, manufacturing, and technological fields. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3512-Spanish for Social Work
Provides oral and written practice using situations specifically related to social work and other helping professions. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3513-Spanish for Education
Provides oral and written practice using situations specifically related both to teaching Spanish to American students and using Spanish with Hispanic students in the classroom. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3514-Spanish for The Health Professions
Provides oral and written practice using situations specifically related to the health professions. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 3515-Spanish for Hotel and Restaurant Management
Provides oral and written practices using situations specifically related to the field of hotel and restaurant management and the travel and tourism industry. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.
SPAN 3530-Introduction to Spanish for Business
Provides a basic foundation in vocabulary and discourse related to functional business areas, practice in carrying out typical business transactions in Spanish, and practice in writing commercial documents in Spanish, including translating and interpreting activities. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN 4130-Advanced and Applied Conversation
Builds on oral skills with activities designed to be applied to more complex communicative tasks, including negotiating, supporting opinions, and solving problems. Prerequisites: Three courses at the 3000 level of permission of instructor.

SPAN 4131-Spanish Stylistics
Students will study models of effective and elegant writing in Spanish for improvement of their own writing. Additional study of more sophisticated levels of expression and vocabulary. Prerequisites: Three courses at the 3000 level of permission of the instructor.

SPAN 4195-Studies Abroad: Advanced Language
The practice of the Spanish language and study of the supporting grammatical structures using materials and resources available in the foreign country. Prerequisites: Three Spanish courses at the 3000 level or permission of the instructor.

SPAN 4230-Introduction to Peninsular Literature
The study of selections from major Spanish writers with emphasis on chronology and literary movements and trends. Practice in spoken and written language. Prerequisites: SPAN 3230 and two other courses at the 3000 level in Spanish or permission of the instructor.

SPAN/LAST 4231-Introduction to Spanish-American Literature
The study of selections from major Spanish-American writers from the colonial period to 1925. Emphasis on literary movements and trends and their relation to history and culture. Prerequisites: SPAN 3230 and two other courses at the 3000 level Spanish or permission of the instructor.

SPAN 4295-Studies Abroad: Advanced Literature
An intensive study of literary works thematically related to the country or culture visited by the student. Prerequisite: Three Spanish courses at the 3000 level or permission of the instructor.

SPAN 4330-Contemporary Spanish Culture
A study of Spanish society and cultural achievements from 1898 to the present. Prerequisite: Three Spanish courses at the 3000 level or permission of the instructor.

SPAN 4331-Contemporary Hispano-American Culture
A study and analysis of twentieth-century Hispano-American history, politics, and social issues through contemporary Spanish language texts and media. Prerequisite: Three Spanish courses at the 3000 level or permission of the instructor.

SPAN 4395-Studies Abroad: Advanced Civilization
A study at the advanced level of the land, culture, civilization, monuments, and artistic achievements of the country in which the student is studying. Prerequisite: Three Spanish courses at the 3000 level or permission of the instructor.

SPAN 4430-Literature of Honor and Faith
A study of works of literature which illustrate the individual’s place in society and the search for the individual’s purpose on earth. Emphasis on drama and poetry of the Golden Age. Prerequisite: SPAN 4230 or permission of the instructor.

SPAN 4431-Literature of Transition and Decay
A study of literary works which focus on recurrent themes of transition from Spain’s status as a world power and the decay of traditional social values during the nineteenth century in Spain. Prerequisite: SPAN 4230 or permission of the instructor.

SPAN 4432-Twentieth Century Spanish Literature
A study of literary works and trends in twentieth century Spain. Prerequisite: SPAN 4230 or permission of the instructor.

SPAN 4436-Twentieth Century Spanish-American Literature
A study of literary works in Spanish American from 1925 to the present. Emphasis on literary tendencies with respect to cultural, social, and economic factors of this period. Prerequisite: SPAN 4231 or permission of the instructor.

SPAN 4530-Advanced Spanish for Business
An advanced level of commercial Spanish vocabulary and discourse related to functional business areas and situational practice for success in the Spanish speaking business world. Prerequisite: SPAN 3530 and two courses at the 3000 level or permission of the instructor.

SPAN 4790-Internship In Spain
Internship in one or more Spanish speaking countries. Prerequisites: Permission of instructor and department chair.

SPAN 4890-Directed Study in Spanish
Concentrated study of a topic in Spanish literature, culture, society, thought or language. May be repeated for credit provided a new topic is studied. Prerequisites: Two Spanish courses at the 3000 level.

SPAN 5090-Selected Topics in Spanish
Selected topics in Spanish. Prerequisites: Two Spanish courses at the Intermediate II level or equivalent.

SPAN/LAST 5232-Literature of Hispanic Minorities
Acquaints students with the representation of various minority groups in Hispanic society as represented in literature. Emphasis on ethnicity, cultural traditions and their relation to historical and political events. Representative narrative works and poetry. Prerequisite: SPAN 3230 and two other courses at the 3000 level in Spanish or permission of the instructor.

SPAN/WGST 5235-Contemporary Hispanic Women Writers
A study of post-World War II literary works by Hispanic women of both Spain and Spanish America. Issues affecting the changing role of women in Hispanic society will be examined as will each author’s personal style and point of view. Prerequisites: SPAN 3230 and two other courses at the 3000 level or permission of the instructor.

SPAN/AAST 5330-African-Hispanic Culture
An introduction to African-Hispanic culture through the reading and discussion of poetry, short stories, historical documents and movies in which Afro-Hispanics play a central role. Prerequisite: Three courses at the 3000 level in Spanish or permission of the instructor.
SPAN 5890-Directed Study in Spanish
Independent study under faculty supervision. Prerequisite: Consent of the instructor.

SPAN 7090-Selected Topics in Spanish

SPAN 7091-Seminar in Spanish

SPAN 7130-Second Language Acquisition in Spanish
Second Language Acquisition in Spanish is a study of the problems of second language acquisition in Spanish related to programs which emphasize the teaching of communicative skills for use in authentic contexts. Theoretical and historical background as well as hands-on activities.

SPAN 7131-Stylistics in Spanish
Studies the features of the Spanish language which are necessary for precision and elegance in writing. Includes study of illustrative texts, review of advanced grammatical features, lexical groupings, and written compositions.

SPAN 7195-Studies Abroad: Language
Studies oral and written features of the Spanish within a Spanish-speaking country, using native materials and resources.

SPAN 7230-Epics and Ballads
An introduction to the rich tradition in Spanish literature of narrative verse. Begins with the oral traditions of medieval epics and ballads and continues through the contemporary written ballad tradition of Garcia Lorca and the mixed tradition of the Mexican-American corridos.

SPAN 7231-Literature of the Antihero
Studies the theme of the Spanish anti-hero, the “picaro” and the development of the picaresque genre from a historic point of view. Additional contrastive study of works of the Golden Age to set the picaresque apart as a unique type in Spanish literature.

SPAN 7232-The Epoch of Cervantes
Studies the flowering of Spanish literature during the Golden Age, with Miguel de Cervantes and his works as the centerpiece of the age. Study of selected prose, drama, poetic works of the period.

SPAN 7233-Romanticism
Studies the Nineteenth century romantic movement in Spain as an outgrowth of cultural change and transition.

SPAN 7234-Literature of Post-War Social Criticism
Studies the literature of social criticism in Post-war Francoist Spain as one result of the upheaval of the Civil war and the onset of dictatorship.

SPAN 7236-Contemporary Spanish-American Literature
Studies selected works of the most representative Spanish-American authors from the “Boom” (1960-1975) to the present. Emphasis on the avant-garde movement and its impact on Spanish American poetry and on regional and psychological fiction and drama.

SPAN 7237-Modernism
Studies the renovation of Spanish-American literature from 1880 to 1920, focusing on the plurality of its literary sources and the cultural and social factors of Spanish-America of that period. Examination of the significance of modernism on all Spanish-American literature.

SPAN 7395-Studies Abroad: Culture
Studies literature, culture, and/or civilization within a Spanish-speaking country, using native materials and resources.

SPAN 7890-Directed Study in Spanish
Independent Study under faculty supervision.

Speech Communication (CLASS)

SPCM 1711-Speech Practicum
Practical experience in speaking and performance events. A maximum of three credit hours may be applied toward the degree.

• SPCM 2331-Principles of Public Speaking
The critical study and practice of public speaking emphasizing the art of rhetoric from a humanistic perspective. Areas of study include research and preparation, ethics, audience analysis, and presentation of speeches. Prerequisite: ENGL 1101.

SPCM 2711-Speech Practicum
Practical experience in speaking and performance events. A maximum of three credits hours may be applied toward the degree.

SPCM 3030-Selected Topics in Speech Communication
Offers varied courses in specialized areas of the field of speech communication. Prerequisite: Permission of instructor.

SPCM 3331-Argumentation
Examines the function and structure of argumentation by focusing on the critical analysis of argument around important issues in public policy, science, law, religion and politics.

SPCM 3332-Discussion
Considers the philosophy and techniques involved in democratic oral decision making with emphasis on the reflective pattern. Designed to produce effective discussion leaders and participants. Prerequisite: COMM 1100 or COMM 1110.

SPCM/WGST 3333-Communication and Gender
Introduces students to the literature of gender and communication. Considers how men’s and women’s self-perceptions and resulting communication patterns evolve as a function of cultural influences.

SPCM 3334-Communicating in the Workplace
Considers the theoretical and practical challenges existing in a variety of workplace communication scenarios ranging from interviews and group interaction and structure through oral presentations supplemented by a variety of modern media.

SPCM 3335-Interpersonal Communication
Considers current interpersonal research emphasizing practical analysis for how we communicate and form interpersonal relationships. Prerequisite: COMM 1100.

SPCM 3336-Introduction to Performance Study
Examines the performance process in relation to the cultural values communicated in social and artistic forms. An introduction to folklore, storytelling, and solo performance.

SPCM 3337-Persuasion
Considers the ethics, philosophies, theories, and techniques of persuasion from the points of view of both senders and receivers of persuasive messages. Prerequisite: COMM 1110.
SPCM 3338-Rhetorical Criticism
Introduces students to the major perspectives and approaches used in the practice of rhetorical criticism through the analysis of various rhetorical forms, including public speeches, drama and entertainment, tradition and ideology.

SPCM 3711-Speech Practicum
Practical experience in speaking and performance events. A maximum of three credits hours may be applied toward the degree.

SPCM 4234-Small Group Communication Theories
Emphasizes the major theoretical approaches to the study of small group communication with a focus on rules theory, field theory and systems theory. Prerequisite: SPCM 3332.

SPCM 4331-Communication and Conflict
Introduces students to the theory and practice of conflict management in personal and professional relationships.

SPCM 4332-Political Communication
Emphasizes the role and function of communication in the political setting. Examines theories of political communication and their application to political campaigns, debates, and speech writing.

SPCM/LING 4333-Semantics
Studies the relationship between symbols and meaning. Focuses on language analysis applied to practical problems of communication in contemporary society.

SPCM 4334-Communication Theory
Introduces students to major approaches in the development of communication theory, with emphasis on various communication contexts, e.g., interpersonal, group, organization, mass media, intercultural.

SPCM/LING 4335-Linguistic Analysis
Focusses on the fundamental concepts and principles of linguistic theory. Includes phonology and morphology as applied to certain languages.

SPCM/AAST/AMST 4337-Rhetoric of Social Movements
Introduces students to the rhetorical significance of selected social movements, including labor reform, civil rights and environment protection, emphasizing the analysis of persuasive social movement discourse.

SPCM 4338-Organizational Communication
Explains the role and effects of communication in everyday organizational life. Includes interpersonal communication in the workplace, leadership, organizational communication and climate, motivation and flow of information in organizations.

SPCM 4339-Philosophy of Communication
Introduces students to the contributions of philosophical debate, from logical positivism through hermeneutics, to the discipline of human communication studies.

SPCM 4711-Speech Practicum
Practical experience in speaking and performance events. A maximum of three credits hours may be applied toward the degree.

SPCM 4791-Speech Internship
Provides practical experience in a professional setting appropriate for a student trained in speech communication. Will be under the supervision of a skilled practitioner in the particular area of communication. May be taken only by Speech Communication majors. A maximum of six hours may be applied to the major. Prerequisites: COMM 1110 and at least twenty seminar credits in upper division Speech Communication classes.

SPCM 4831-Directed Study in Speech
Offers students opportunities to design and conduct directed research and/or projects in specialized speech communication areas. Must be approved in advance by instructor and department chair. This course may not be used to replace an existing course in the catalog. Prerequisites: Permission of instructor and department head.

Special Education (COE)
SPED 2130-Identification and Instruction of Exceptional Learners
This pre-professional block course is designed to examine the etiology, incidence, diagnosis, characteristics, philosophical and educational implications of the full range of students who demonstrate a need for additional educational services in order to achieve full potential. Includes three semester hours of lecture/field-based experience, and meets the educational requirements mandated by H.B.671. Prerequisite: Sophomore standing.

SPED 3130-Characteristics of Mild Disabilities
Designed to provide a review of the characteristics of students with Mild Disabilities with implications for their education and training. Specific emphasis will be placed on the legal and social issues related to Mild Disabilities. Prerequisite: Admission to Teacher Education program.

SPED 3230-Characteristics of Mental Retardation
Designed to provide a review of syndromes, characteristics, causes, and behaviors associated with all levels of mental retardation with implications for education and training. Additional emphasis will be placed on the legal and social issues related to mental retardation. Prerequisite: Admission into Teacher Education program.

SPED 3330-Assessment in Special Education
Designed to provide a review of a variety of assessment techniques, including observations, teacher-made tests, criterion referenced assessments, and standardized evaluation tools for use in identifying and developing programs for individuals with special learning needs. Special emphasis will be placed on interpreting assessment results for instructional planning. Prerequisite or corequisite: SPED 3130 or SPED 3230. Corequisites: SPED 3430 and SPED 3711.

SPED 3430-Special Education Procedures
Designed to provide knowledge about legislative requirements and the procedures associated with assessment, placement, and instruction of children with special needs. The development of individual education plans, eligibility reports, transition and termination plans, behavioral objectives, and lesson plans is introduced. Prerequisite or corequisite: SPED 3230 or SPED 3130. Corequisites: SPED 3330 and SPED 3711.

SPED 3530-Classroom Management
Designed to initiate the preservice teacher in the basic procedures for instructional and behavior management of students with disabilities. Emphasis is placed on the understanding and development of skills in the following areas: data-based behavioral management, including several theoretical paradigms; research based effective instructional management; and applied behavior analysis techniques. Prerequisites: SPED 3330 or SPED 3430 and SPED 3711. Corequisite: SPED 3712.
SPED 3711-Special Education Practicum I
Designed to provide an opportunity for students to work within the classroom to practice skills taught in those courses. Prerequisite or corequisite: SPED 3230 or SPED 3130. Corequisites: SPED 3330 and SPED 3430.

SPED 3712-Special Education Practicum II
Designed to provide an opportunity for students to work within the classroom to practice instructional and behavior management skills. Prerequisites: SPED 3330, SPED 3430 and SPED 3711. Corequisite: SPED 3530.

SPED 4090-Special Education Special Topics
Designed to provide additional specialized field-based experience or remedial coursework as needed to meet the needs of preservice teachers. Attention will be focused on providing opportunities for strengthening skills necessary to special education teachers. Repeatable up to 6 credit hours. Prerequisites: Approval of advisor, instructor, and department chair.

SPED 4130-Collaborative Practices
Designed to provide students with knowledge of effective communication skills and to present models of consultation and collaboration in education. Emphasis is placed on the use of the knowledge base in working with parents. Models are also applied to working with teachers and other professionals involved in the provision of services to students with disabilities. It is part of a 5-hour block which includes a practicum experience in one or more general education classrooms. Prerequisites: All required coursework outside Special Education curriculum, SPED 3530 and SPED 3712.

SPED 4160-Methods of Instruction in Mild Disabilities
Designed to provide students with the practical techniques of structuring group and individualized instruction in all curriculum areas for individuals with mild disabilities. It includes review, demonstration and preparation of programs, methods, and materials for such instruction. It is part of an eight-hour block that includes practice in both regular and special education classrooms. Prerequisites: All required coursework outside Special Education curriculum, SPED 3530 and SPED 3712.

SPED 4260-Methods of Instruction in Mental Retardation
Designed to provide students with the practical techniques of structuring group and individualized instruction in all curriculum areas for individuals at all levels of mental retardation. It includes review, demonstration and preparation of programs, methods, and materials for such instruction. It is part of an eight-hour block that includes practice in one or more special education classrooms. Prerequisites: All required coursework outside Special Education curriculum, and SPED 3530 and SPED 3712.

SPED 4721-Special Education Practicum III
Designed to provide an opportunity for students to work within the special education classroom to practice instructional and classroom management skills. It is part of an eight-hour block which includes either SPED 4260 or SPED 4160. Prerequisites: All required coursework outside Special Education curriculum, SPED 3530 and SPED 3712.

SPED 4722-Special Education Practicum IV
Designed to provide an opportunity for students to work with parents, general education teachers and other professionals to practice collaborative and consultative skills. It is part of a five-hour block which includes SPED 4130. Prerequisites: All required coursework outside Special Education curriculum, SPED 3530 and SPED 3712.

SPED 4799-Student Teaching in Special Education
Student teaching is a period of guided teaching practice. Under the direction of a supervising teacher, students gradually assume increasing responsibility for classroom instruction and management. During this experience, students are expected to engage directly in many of the activities which constitute the wide range of a teacher’s responsibility. Prerequisites: Completion of teaching field courses and professional education sequence and must meet requirements for admission to Student Teaching program including passing score on Praxis II certification exam.

SPED 6130-Introduction to Special Education
Designed to examine the etiology, incidence, diagnosis, characteristics and philosophical and educational implications of the full range of students who demonstrate a need for additional educational services in order to achieve full potential. It is a prerequisite to Master’s level coursework in Special Education and meets the educational requirements mandated by H.B. 671.

SPED 6230-Assessment in Special Education
Designed to provide a review of a variety of assessment techniques, including observations, teacher-made tests, criterion referenced assessments, curriculum-based assessment, and standardized evaluation tools for program planning purposes for individuals with special learning needs. Prerequisite: SPED 6130.

SPED 6330-Classroom Management
Designed to present basic procedures for instructional and behavioral management of students with disabilities. Emphasis is placed on the understanding and development of skills in the following areas: data-based behavior management, and several theoretical paradigms, research-based effective instructional management, and behavior analysis techniques. Prerequisite: SPED 6130.

SPED 6430-Special Education Procedures
Designed to provide knowledge about legislative requirements and the procedures associated with assessment, placement, and instruction of children with special needs. The development of individual education plans, eligibility reports, transition plans, behavioral objectives, and lesson plans is introduced. Prerequisite: SPED 6130.

SPED 7090-Selected Topics in Special Education
Designed to promote specialized training in new and/or emerging topics related to the preparation of practitioners in the field of special education. Attention will be given to a range of special needs as they reach special significance in local systems. Prerequisite: Permission of instructor.

SPED 7131-Characteristics of Behavior Disorders
Provides an in-depth examination of the types of behaviors characteristics of children and youth with behavior disorders. Emphasis is placed on theories and practices related to appropriate assessment, identification, placement, and programming procedures. Prerequisites: SPED 6130, SPED 6230, SPED 6330, SPED 6430, READ 4131, ECED 4333, and a course in Abnormal Psychology.

SPED 7132-Methods of Instruction in Behavioral Disorders
Focuses on identification and implementation of individualized and group methods of teaching and managing students with emotional/behavioral disorders. A developmental approach to behavioral and educational needs is emphasized. Prerequisite: SPED 7131.
SPED 7136-Language Development
Provides a review of the types and causes of language problems found in exceptional child populations. Provides instruction and demonstration in diagnostic and developmental/remedial techniques in the area of speech/language.

SPED 7137-Life Span Issues in Special Education
Provides an in-depth examination of the issues confronted by individuals with disabilities and their families across the life span and focuses on service provisions mandated by legislation. Emphasis is placed on transitioning and preparation for postsecondary community involvement.

SPED 7138-Physical Management of Individuals with Special Needs
Designed to provide classroom teachers with the skills necessary to give physical support and assistance to Special Education students in a variety of situations. Legal issues related to such support will be emphasized and hands-on experience will be provided.

SPED 7139-Consultation and Collaboration of Special Education
Designed to provide teachers and other school personnel consultative and collaborative skills for communicating with students, parents, student services personnel, and community agencies to plan, develop and implement programs for students with disabilities.

SPED 7231-Characteristics of Learning Disabilities
Provides an in-depth examination of characteristics of individuals with learning disabilities and the theories and systems related to appropriate assessment, identification and skill acquisition throughout the life span. Prerequisites: SPED 6130, SPED 6230, SPED 6330, SPED 6430, READ 4131 and ECED 4333.

SPED 7232-Methods of Instruction in Learning Disabilities
Designed to provide practical techniques of structuring group and individualized instruction in all curriculum areas for individuals with learning disabilities. Emphasis is placed on analysis of individual strengths and weaknesses and selection of appropriate methods and materials to promote gains in cognitive, language, academic, and social skills. Prerequisite: SPED 7231.

SPED 7331-Advanced Characteristics of Mental Retardation
Designed to provide an in-depth review of syndromes, characteristics, causes, behavior and special problems associated with all levels of mental retardation with implications for education and training. Prerequisites: SPED 6130, SPED 6230, SPED 6330, SPED 6430, READ 4131 and ECED 4333.

SPED 7332-Advanced Methods of Instruction in Mental Retardation
Designed to provide students with the practical techniques of structuring group and individualized instruction in all curriculum areas for individuals with mental retardation. It includes review, demonstration and preparation of programs, methods, and materials for such instruction, with special emphasis on application of the diagnostic prescriptive process. Prerequisite: SPED 7331.

SPED 7431-Characteristics of Preschoolers in Special Education
Provides student with knowledge of theories of typical and atypical child development from birth through age five with emphasis on stages and sequences of skill acquisition and the impact of disabilities and biomedical risk factors on learning. It is the first of three courses leading to endorsement in Preschool Handicapped. Prerequisites: SPED 6130, SPED 6230, SPED 6330, SPED 6430, and READ 4131.

SPED 7432-Preschool Assessment
Provides an in-depth examination of assessment instruments used for the evaluation of young children. Instruction focuses on the selection, use, and creation of these instruments along with the development of detailed case studies with specific recommendations. It is one in a series of three required for endorsement in Preschool Handicapped. Prerequisite: SPED 7431.

SPED 7433-Methods of Instruction in Preschool Handicapped
Designed to provide students with the practical skills and techniques for working with young children with disabilities and their parents in a variety of settings. It is the second in a series of courses required for endorsement in Preschool Handicapped. Prerequisite: SPED 7432.

SPED 7531-Characteristics of the Gifted
Provides an in-depth examination of characteristics of individuals identified as gifted and the theories and systems related to appropriate assessment, identification and instructional management. It is the first in a series designed to develop competencies necessary for teachers of individuals identified as Gifted. Prerequisites: SPED 6130, READ 4131 and ECED 4333.

SPED 7532-Curriculum in Gifted Education
Provides an overview of curriculum and program development for students identified as gifted. Principles of curriculum differentiation and application of current curriculum models and learning theory models in the context of education for students identified as gifted will be examined. It is the second in a series of three courses required for endorsement in gifted education. Prerequisite: SPED 7531.

SPED 7533-Methods of Instruction in Gifted Education
Designed to provide information about instructional techniques used with students who are gifted. Current research on best practices is applied. It is the third course in a series of three leading to endorsement in gifted education. Prerequisite: SPED 7532.

SPED 7630-Seminar in Special Education
Requires students to address a series of topics central to current research and practice in Special education as they relate to a specific area of disability. Students will be required to prepare for and lead class discussion on a topic of their choice. Prerequisite: Completion of 30 hours in M.Ed. Program.

SPED 7731-Internship in Teaching Students with Behavior Disorders
Involves the implementation of prescriptive methods for teaching students with emotional/behavioral disorders. Interns must complete 150 contact hours of field experience in a classroom serving students identified as having emotional/behavioral disorders. Prerequisite: SPED 7132.

SPED 7732-Internship in Teaching Students with Learning Disabilities
Involves the implementation of prescriptive methods of teaching students with learning disabilities. Interns must complete 150 contact hours of field experience in a classroom serving students identified as having learning disabilities. Prerequisite: SPED 7232.
**STAT 2231-Introduction to Statistics I**
An introductory statistics course which covers descriptive statistics, random variables and selected probability distributions, statistical inference including confidence intervals and hypothesis tests.

An interactive statistical package will be used for simulation and to solve statistical problems. Neither a background in calculus nor experience with computers is required. Prerequisite: A minimum grade of C in MATH 1111 or equivalent.

**STAT 2232-Introduction to Statistics II**
A continuation of STAT 2231. The focus is on inferential procedures to compare the same characteristic between two or more populations and inferential procedures to investigate the relationship between two or more variables from the same population. Topics include tests of association, regression, correlation, and analysis of variance. The statistical software package SPSS is used. Prerequisite: A minimum grade of C in STAT 2231.

**STAT 3130-Applied Statistics**
An introductory course in applied statistics for students in the natural sciences, social sciences, health and professional studies, technology, and business. The material covered will provide an introduction to statistical concepts and terminology while focusing on descriptive and inferential methods of data analysis. Both parametric and nonparametric methods are presented for the analysis of central tendency, variability, proportions, and categorical data. Topics covered also include regression and correlation. Prerequisite: MATH 1111 or equivalent.

**STAT 4090-Selected Topics in Statistics**
Specialized study in a selected area of Statistics. Prerequisite: Permission of the instructor.

**STAT 4890-Directed Study in Statistics**
Directed study under faculty supervision. Well-prepared statistics students may be permitted to enroll in an independent study upon the recommendation of a Statistics faculty member. Prerequisites: Permission of instructor and department chair.

**STAT 5130-Sampling and Survey Methods**
An introduction to the design and analysis of sample surveys suitable for students in business, social sciences, and biological sciences in addition to the mathematical sciences. Comparison of simple random sampling, stratified, systemic, cluster and multi-stage sampling. Emphasis on appropriate sample type and estimation of parameters. Prerequisite: A minimum grade of C in STAT 2231 or, with permission of the instructor, any course in introduction to statistics.

**STAT 5330-Introduction to Mathematical Statistics**
An introductory course intended to present a solid foundation in statistical theory, and, at the same time, to provide an indication of the relevance and importance of the theory in solving practical problems in the real world. Topics include, moments and moment-generating functions, point and interval estimation, test of statistical hypothesis, contingency tables and goodness-of-fit, nonparametric methods, and introduction to linear models. This course covers part of the material outlined in the Society of Actuaries’ course 110. Prerequisite: A minimum grade of C in MATH 3337.

**STAT 5531-Statistical Methods I**
This is the first of a two course sequence in applied statistics. The material covered will provide an introduction to statistical concepts and terminology while focusing on descriptive and inferential methods of data analysis. Topics include descriptive statistics, parameter estimation, tests of significance, confidence intervals,
analysis of variance, simple linear regression and correlation. Both parametric and nonparametric methods are presented for the analysis of central tendency, variability, proportions and categorical data. Prerequisite: A minimum grade of C in MATH 3337.

STAT 5532-Statistical Methods II
This is the second of a two course sequence in applied statistics. The material covered will provide an introduction to the ideas of linear models and experimental design while focusing on methods of data analysis using regression and analysis of variance. Topics include multiple regression analysis, analysis of variance with multiple classification, analysis of covariance, repeated measures analysis of variance, multiple comparison techniques, and diagnostic procedures and transformations. Suitable for students in business administration, economics, and the social, health and biological sciences. Prerequisite: A minimum grade of C in STAT 5531 or, with permission of the instructor, a one semester introduction to applied statistics at the junior level or above.

STAT 6130-Statistics for Researchers
An introductory course in statistical methods for students in the natural sciences, social sciences, health and professional studies, technology, and business. Sampling techniques for the various disciplines, data summary techniques, analysis and reporting will be studied. Topics include descriptive statistics, point and interval estimation, hypothesis testing, categorical data analysis, contingency tables, regression and correlation analysis. Prerequisite: MATH 1111 or equivalent.

STAT 7090-Selected Topics in Statistics
Selected study in a selected area of Statistics. Prerequisite: STAT 5531 and permission of instructor.

STAT 7130-Applied Multivariate Statistical Analysis
Estimating and inference from the multivariate normal distribution, Hotelling’s T2, multivariate analysis of variance, multivariate regression, multivariate experimental design, principle component analysis, factor analysis, discriminant analysis and cluster analysis. Prerequisite: STAT 5531.

STAT 7132-Applied Nonparametric Statistics
Review of probability and statistical inference; binomial, quantile and sign tests; contingency tables; methods based on ranks. Prerequisite: STAT 5531.

STAT 7134-Applied Regression Analysis
Simple and multiple linear regression, model selection, residual analysis, influence diagnostics, transformation of data to fit assumptions, multicollinearity and an introduction to nonlinear regression. Prerequisite: STAT 5531.

STAT 7231-Design of Experiments I
Various statistically designed experiments are introduced including randomized blocks designs, Latin squares, incomplete block designs, factorial and fractional factorial designs with and without confounding and nested designs. Prerequisite: STAT 5531 or equivalent.

STAT 7232-Design of Experiments II
Response surface methodology is introduced. First- and second-order models and designs are studied which includes determining optimum conditions and methods of estimating response surfaces. Multireponse experiments, nonlinear response surface models, and mixture designs are also studied. Prerequisite: STAT 7231.

STAT 7234-Statistical Process Control
Philosophy of statistical process control is studied along with SPC techniques of control charts, process-capability, designed experiments and acceptance sampling. Prerequisite: STAT 5531.

STAT 7331-Mathematical Statistics I
Random variables, density functions, mathematical expectation, discrete and continuous distributions, moments and moment-generating functions and limiting distributions. Prerequisites: MATH 2242 and MATH 3337.

STAT 7332-Mathematical Statistics II
Rigorous introduction/development of interval estimation, test of significance, comparison of k means, randomized block design, multiple comparison procedures, nonparametric test and linear regression. The general linear model will be introduced. Prerequisite: STAT 7331.

STAT 7430-Actuarial Mathematics
Survival distributions and life tables, life insurance, life annuities, net premiums, multiple life functions, multiple decrement models, valuation theory for pension plans, collective risk models, population theory and theory of pension funding. Prerequisite: STAT 7331.

STAT 7432-Applied Stochastic Processes
Poisson process, renewal theory, Markov chains, Brownian motion, random walks and Martingales and stochastic order relations. Prerequisite: STAT 7331.

STAT 7434-Applied Time Series Analysis
Basic ideas of stochastic model building techniques with applications are discussed. Properties of the autocorrelation function and the spectrum of stationary processes are investigated. Models studied include the linear stationary ARMA and linear nonstationary ARIMA models along with forecasting models. Prerequisite: STAT 7331.

STAT 7436-Reliability Analysis
Probabilistic models for the reliability of coherent systems, statistical models for lifetimes of components and repairable systems, including the nonhomogeneous Poisson process, reliability estimation and prediction, MIL standards and accelerated life testing. Prerequisite: STAT 7331.

STAT 7530-Statistical Computing I
Basic computer organization and computer arithmetic are investigated. Programming languages and statistical software/packages are explored. Methods for approximating cumulative distribution function and percentage points of a probability distribution are studied including nonparametric procedures. Multiple comparison procedures are also examined. Random number generation and statistical tests for testing random number generators are explored. Prerequisite: STAT 7331.

STAT 7532-Statistical Computing II
Various computational methods in linear algebra as applied to such statistical methods as multiple linear regression, designed experiments, multivariate analysis and the general linear model. Further topics include computational methods for unconstrained optimization, nonlinear regression and model fitting based on criteria other than least squares. Prerequisites: STAT 5532 and STAT 7331.

STAT 7890-Directed Study in Statistics
Directed study under faculty supervision. Prerequisites: Permission of instructor and department chair.
STAT 7899-Research Project in Statistics
Research project addressed toward a real world problem. Prerequisites: Consent of project advisor and permission of department chair.

Building Construction Technology (COST)

TBCC 2230-Architectural Graphics and Print Reading
A study of construction working drawings. Topics include sketching and drafting techniques for the presentation of floor plans, elevations, sections, and building components.

TBCC 2231-Construction Surveying
An introduction to the equipment and techniques used for construction surveying. Topics include measurement of distances, horizontal and vertical angles, and differences in elevation. Emphasis is placed on accuracy of measurements, precise operation of instruments, completeness in laboratory exercises, and keeping accurate field notes. Prerequisites: MATH 1113 and TBCC 2230.

TBCC 2240-Introduction to Structures
The theory of structures and its applications to building construction. Topics include analysis of coplanar force systems, analysis of trusses and frames, friction, centroids and moment of inertia, stresses and strains, properties of materials, bending, shear, deflections in beams, combined stresses and analysis of columns. Prerequisite: PHYS 1111 and PHYS 1113.

TBCC 3120-History of Architecture and Construction
A study of the history of architecture and construction with emphasis on nineteenth and twentieth century America. Topics include architectural styles, historically significant buildings and construction methods, notable events, architects and builders.

TBCC 3121-Building Codes
A study of codes applicable to the building construction industry with emphasis on the Standard Building Code. An introduction to construction related federal regulations with an emphasis on labor related issues; construction labor unions and the collective bargaining process. Prerequisite: TBCC 3130.

TBCC 3122-Construction Equipment Management
The various aspects of heavy equipment management and ownership. Topics include equipment acquisition and disposal options, production costs and productivity, cost analysis and control, management staffing and responsibilities, selected topics in maintenance, depreciation and economic life. Prerequisites: TBCC 3131 and TBCC 3231.

TBCC 3130-Building Materials and Systems
The materials, systems and methods of construction. Topics include material properties, selection and application criteria and construction processes. Covers divisions 7-14 of the CSI Master format, but with an emphasis on divisions 7-9.

TBCC 3131-Construction Finance
A study of financial management for contractors with special emphasis on project level financial controls, cost accounting and variance analysis, the time value of money, cash flow management, overhead and break-even analysis, banking and bonding, financial statements and ratios. Prerequisites: ECON 2105, ACCT 2030, CISM 2130.

TBCC 3230-Quantity Estimating
Construction estimating with emphasis on quantity take-off and specifications, including techniques of interpreting a visualizing construction drawings. Prerequisite: TBCC 2230.

TBCC 3231-Site Construction
The site development construction process with an emphasis on soils as a construction material. Topics include soils investigation, testing, classification, engineering properties and modification techniques, excavation equipment, construction dewatering, slope stability and support, layout and grade staking, sediment and erosion control, foundation, underground utilities and pavements. Prerequisite: TBCC 2231.

TBCC 3240-Mechanical and Electrical Equipment and Systems
Studies mechanical and electrical equipment and systems as related to the building construction industry. The course is composed of three basic parts. Part one addresses available energy courses, thermoflow and ventilation characteristics, air handling systems, and mechanical codes. Part two addresses domestic water and waste systems, fire sprinkler and stand pipe systems and plumbing codes. Part three addresses electrical power, lighting and communication systems and electronic codes. Prerequisite: TBCC 2230 and PHYS 1111.

TBCC 3610-Junior Seminar
A seminar on subjects of special need and interest to upper division BCC students. Faculty and construction related professionals present selected topics intended to assist students in their transition to the construction industry. Prerequisite: Successful completion of 35 hours of BCC coursework.

TBCC 3890-Special Problems in Building Construction
Individualized study in the area of building construction and contracting not otherwise available in the student’s program. Credit varies from one to three semester hours depending on the magnitude of the study. Prerequisite: Permission of instructor six weeks prior to beginning of semester in which study is to take place.

TBCC 4090-Selected Topics in Construction
Scheduled on an infrequent basis to allow the exploration of undergraduate topics within building construction and contracting. Course shall carry a subtitle for topic identification. Prerequisite: Permission of instructor.

TBCC 4130-Construction Safety
Safe building construction management techniques. Topics include workers’ compensation insurance, OSHA regulations, construction disasters, safe construction training and planning, and the hidden costs of accidents. Prerequisite: Successful completion of 25 hours of BCC course work.

TBCC 4131-Construction Cost Estimating
Methods and procedures in estimating costs of construction projects. Topics include types and purposes of estimates, direct and indirect costs, labor and equipment cost analysis, the CSI Masterformat, approximate estimates, and computerized estimating. Prerequisites: TBCC 3131 and TBCC 3230.

TBCC 4132-Construction Administration
Terms, documents and operations inherent in building construction management. Topics include business ownership, company organization, project bidding/negotiating methods, construction contracts, bonds, insurance and accounting. Prerequisites: 40 hours of BCC course work.
TBCC 4230-Wood Structures
Wood construction materials, methods and systems and the application of structural theory for analyzing framing in building construction. Topic include properties and characteristics of wood, strength analysis of wood and wood fasteners, introduction to wood framed systems, an analysis of the methods used in the design, production and erection of wood construction. Prerequisite: TBCC 2240.

TBCC 4231-Steel Structures
Steel materials, systems, construction methods and strength analysis as applied to building construction. Topics include fundamental properties and characteristics of steel, strength of steel framed systems and an analogy of the methods used in the design, production and erection of structural steel. Prerequisite: TBCC 2240.

TBCC 4232-Concrete and Masonry Structures
Concrete, concrete formwork and masonry construction. Topics include concrete formwork design and construction, concrete reinforcing and accessories, fundamental properties of concrete, concrete handling, field testing, finishing and curing, masonry and mortar materials and accessories and masonry construction. Prerequisite: TBCC 4230.

TBCC 4233-Project Planning and Scheduling
Fundamentals and techniques of planning and scheduling for construction projects. Topics include bar charts, Critical Path Method using both arrow and node networks, precedence networks, cost-time trade-offs, PERT, resource leveling, updating schedules during construction, introduction to project control, and computerized scheduling. Prerequisite: TBCC 3230 and CISM 2130.

TBCC 4240-Senior Project
An exercise in estimating and scheduling from construction documents of an actual building project utilizing major elements of the BCC program. Project includes developing a fictitious construction company organization, production of a project estimate and schedule and preparing a construction bid and construction documentation. Prerequisite: Consent of instructor.

TBCC 4740- Internship
Designed for students to receive practical work experience with an approved construction firm. A total of 560 contact hours with the construction firm is required. Prerequisite: Senior standing and permission of internship coordinator.

Educational Technology (COE)

TCED 2131-Introduction to Technology Education
Introduces the prospective teacher to the field of Technology Education. Highlights origins, movements and leaders that have shaped this program. Goals, objectives, content and competencies will be explored through didactic and practical methods.

TCED 2132-Lab Design
Includes the essentials of designing an appropriate Technology Education facility and managing such a facility in a public school setting. Program development and equipment procurement are included. Also includes the essentials of maintaining tools, equipment and the facility. In addition, the operation of programs in a public school situation and the necessary safety precautions are included. Prerequisites: Admission to Teacher Education program and TCED 2131.

TCED 4130-General Technology for Teachers
A study of the educational aspect of the areas of production, transportation, construction and communication. An emphasis is placed on utilizing common materials discovered in the nature and the refinement of these materials in a laboratory environment through the design and development of prototypes. Prerequisites: Admission to Teacher Education program, TCED 2131, TCED 5256, and TCED 5238. Corequisites: TCED 5237 and EDUF 3232.

TCED 5236-Technology Education Curriculum
Focuses on problems, techniques and procedures in the preparation, selection and organization of curriculum materials for instructional purposes. Emphasis is placed on methods, techniques and theories of learning, preparation of materials, sequencing, laboratory safety, evaluation and teacher liability in the technology setting. Prerequisites: Admission to Teacher Education program and TCED 2131.

TCED 5237-Methods of Teaching Technology Education
The Technology Education major will be exposed to effective methods and techniques of teaching Technology Education subjects. Emphasis will be placed on class organization, course management, preparation of lesson plans and audio-visual instructional aids. Prerequisite: Admission to Teacher Education program and TCED 2131, TCED 2132, TCED 5236, and TCED 5238. Corequisites: TCED 4130 and EDUF 3232.

TCED 5238-Materials and Methods of Construction
An introduction to and fundamental exploration of the commonly used building materials and methods of construction. Prerequisites: Admission to Teacher Education program and TCED 2131.

TCED 7131- Organizing and Implementing Programs of Technology Education
An analysis of existing, emerging and proposed Technology Education programs. Content provides a foundation for the planning and implementation of quality programs of instruction at different levels.

TCED 7132- Designs for Technology Education Teachers
Explores new development in the field of drafting and design emphasizing the relationship of material and form in the selection and design of projects. Participants obtain hands on experience through actual design problems and their solutions. Prerequisite: Beginning course in drafting or equivalent.

TCED 7630- Seminar in Technology Education
An advanced study of Technology Education for experienced teachers, administrators and supervisors. Emphasis is placed on the development of sound principles and practices for initiating, conducting and evaluating programs. Participants will gain practical experiences and conduct intensive research on individual and group problems. Prerequisite: TCED 7131.

TCED 8131- Philosophy of Technology Education
A survey of past and present philosophies that have influenced the development of Technology Education. Inclusion of movements, leaders and events will be interjected as appropriate. Emphasis will be placed on the development and/or strengthening of a personal philosophy.

TCED 8132- Administration and Supervision of Technology Education
A comprehensive study of organizational structures functioning as a continuum in the public schools. Explores appropriate school
facilities in light of their recognized organizational structures. Emphasis will also be placed on the development of guidelines for administration and supervision. Prerequisite: TCED 7131.

Civil Engineering Technology (COST)
TCET 2512-Surveying Laboratory
Use of level, theodolite, EDM, total station, traverse closure, level net closure, topographic mapping, determination of true azimuth by astronomical observation, use of a computer program to close a traverse and perform coordinate geometry calculation. Prerequisite: TENS 2121. Corequisite: TCET 2531.

TCET 2531-Surveying
The principle of the level, theodolite, EDM and total station, tapping, note keeping, data recorder and computations, coordinate geometry, control surveys, triangulation, trilateration, state plane coordinate systems, astronomical observations for azimuth and topographic mapping. Prerequisite: MATH 1113. Corequisite: TCET 2512.

TCET 3212-Construction Materials Laboratory
The performance of standard laboratory tests on aggregates, portland cement concrete and asphalt concrete. Concurrent enrollment in TCET 3231 or prior successful completion.

TCET 3216-Soil Mechanics and Foundation Laboratory
The performance of standard laboratory tests on soils. Concurrent enrollment in TCET 3235 or prior successful completion.

TCET 3231-Construction Materials
An introduction to common heavy construction materials, soils, aggregates, portland cement concrete and asphalt cement concretes. Analysis and design of pavement structures. Prerequisite: TENS 2133.

TCET 3235-Soil Mechanics and Foundations
A practical introduction to soil mechanics and foundations, physical properties of soils, soil exploration, stress distribution in soils, consolidation and settlement, shear strength, bearing capacity, spread footing and pile foundations. Prerequisites: TENS 2121 and TENS 2133.

TCET 3312-Environmental Control Laboratory
Standard laboratory tests using standard methods and equipment approved by EPA to evaluate environmental parameters. Prerequisites: CHEM 1145 and TENS 2121. Corequisite: TCET 3331.

TCET 3331-Introduction to Environmental Control
Pertinent legislation and agencies addressing environmental protection, chemical and bacteriological principles as applied to environmental control, stream sanitation and DO sag, principles of solid waste systems and hazardous waste control. Prerequisites: CHEM 1145 and TENS 2121. Corequisite: TCET 3312.

TCET 3412-Structural Analysis Laboratory
Computational laboratory activities in support of instruction in TCET 3431. Prerequisites: TENS 2121 and TENS 2133.

TCET 3431-Structural Analysis
Review of analysis of statically determinate structures. Introduction to statically indeterminate plane structures, classical slope-deflection and moment distribution methods. Introduction to matrix method and computer analysis of plane frames. Prerequisites: TENS 2121 and TENS 2133.

TCET 3514-Route Surveying Laboratory
Field stakeout of horizontal curves, cross-sectioning and slopestaking. Concurrent enrollment in TCET 3533 or prior successful completion.

TCET 3516-Transportation System Design Laboratory
Field investigation of highway, railroad, and airport facilities. Highway design and railway design. Concurrent enrollment in TCET 3535 or prior successful completion.

TCET 3533-Route Surveying
Application of techniques of route location, horizontal curves, including spirals, vertical curves, earthwork computation techniques and mass diagrams. Prerequisite: TCET 2531.

TCET 3535-Transportation System Design
A treatment of the fundamental principles of the planning, design and analysis of highway systems, railway systems, and airports. Prerequisite: Junior standing in CET.

TCET 4312-Pipe Design Laboratory
Design of wastewater and storm water collection systems. Use of computer program for collection system design, rainfall and runoff computations, Hardy-Cross method for distribution system analysis, computer program for pipe network analysis, pump curves and operation points and computer spreadsheet use in sizing storage tanks and wetwells. Prerequisite: TENS 2121. Corequisite: TCET 4331.

TCET 4314-Treatment Plant Laboratory
Standard laboratory test used to control the operation of water and wastewater treatment plants. Standard reporting forms required by state agencies. On lot disposal systems. Field trips to water and wastewater treatment plants. Corequisite: TCET 4333.

TCET 4331-Collection and Distribution System Design
Parameters, equations and procedures for the design of wastewater and storm water collection systems, parameters, equations and procedures for the design of water distribution systems, pumps, pump curves, pumping stations, sizing storage tanks and wetwells. Prerequisite: TENS 2134. Corequisite: TCET 4312.

TCET 4333-Treatment Plant Design
Sources and characteristics of water and wastewater. Principles of design for units and processes in water and wastewater treatment plants, EPA and state requirements. Prerequisites: TCET 3331 and TENS 2134. Corequisite: TCET 4314.

TCET 4414-Structural Steel Design Laboratory
Computational laboratory activities in support of instruction in TCET 4433. Prerequisite: TCET 4431.

TCET 4416-Reinforced Concrete Design Computational Laboratory
Computational laboratory activities in support of instruction in TCET 4435. Prerequisite: TENS 2121 and TENS 2133.

TCET 4433-Structural Steel Design
Characteristics of structural steels, introduction to AISC Load and Resistance Factor Design (LRFD) specifications. Design of tension members, columns, beams, beam-columns and connections. Prerequisite: TCET 3431.
TCET 4435-Reinforced Concrete Design
Characteristics of concrete materials, introduction to ACI building code requirements for reinforced concrete, strength design of slabs, beams, columns and footings. Prerequisites: TENS 2121 and TENS 2133.

General Technology (COST)
TCGT 1111-Computer Design Application
A review of recently released desktop computer based design and presentation packages.

TCGT 1521-CAD Drafting
A basic computer aided drafting course. One lecture and one triple-lab period. Prerequisites: Technical Drawing, equivalent or permission of instructor.

• TCGT 1530-Technology, Science and Environment
A systematic investigation of the constructs of technology in terms of its bases in scientific principles and its impact on the global environment.

TCGT 1531-Architectural Design Graphics
Graphics used to represent architectural applications including sketching, drafting building plans, blueprint reading, perspective drawing and other techniques.

TCGT 1535-GIS Technology
Technical foundations of The Geographic Information System (GIS).

TCGT 3532-2D Computer Drafting
A computer-aided drafting course for architectural applications. Begins with Basic Computer Aided Design Drafting (CADD) theory and construction. Followed by instruction in architectural CADD practice and technology. Prerequisites: TCGT 1531, Architectural Graphics and Print Reading, equivalent or permission of the instructor.

TCGT 4090-Selected Topics in Technology
Scheduled on an infrequent basis to explore special areas in technology and will carry a subtitle. Keeps with established policies for offering a structured course on an infrequent basis. It will allow faculty to offer a course on a trial basis for possible approval at a later date.

Printing Management (COST)
TCPM 1131-Introduction to Printing Technology
An introduction to the pre-press, press, and post-press printing processes covering such industry areas as offset, flexography, screen and gravure printing.

TCPM 1321-Desktop Publishing
Fundamentals of desktop publishing will be covered as well as technologies that have evolved from desktop publishing. Fundamental topics include word processing, graphics and page assembly. Other topics include fundamental of digital photography, video imaging and related applications. Corequisite: TCPM 1411.

TCPM 1411-Desktop Publishing Laboratory
Provides hands on experiences that coincide with TCPM 1321. Hands on activities include fundamental word processing, graphics and page assembly. Other topics include fundamentals of digital photography, video imaging and related applications. Corequisite: TCPM 1321.

TCPM 2132-Image Preparation I
An exploration of the tools, processes and planning procedures used in the initial capture and production of an image and its editing. The layout and design process from a printing perspective is discussed and evaluated. Prerequisites: TCPPM 1131 or TCPPM 1321 and TCPPM 1411. Corequisite: TCPPM 2212.

TCPM 2212-Image Preparation I Laboratory
Provides hands on experiences that coincide with the TCPPM 2132. The laboratory experiences include using the tools and processes used in the initial capture and production of an image and its editing. Prerequisites: TCPPM 1131 or TCPPM 1321 and TCPPM 1411. Corequisite: TCPPM 2132.

TCPM 2333-Image Preparation II Laboratory
An in-depth study of the materials, process, techniques and planning procedures used in the final stages of image production. Topics will include: conventional and electronic image assembly methods, imposition, trapping, pre-flying, output options and requirements and the various proofing options available. Prerequisites: TCPPM 2132 and TCPPM 2212. Corequisite: TCPPM 2413.

TCPM 2413-Image Preparation II Laboratory
A hands on laboratory course. The laboratory activities include the following: conventional and electronic image assembly methods, imposition, trapping, pre-flying, output options and proofing. Some of the software packages used for this course include QuarkXpress, Inposition, and Flight Check. Prerequisites: TCPPM 2132 and TCPPM 2212. Corequisite: TCPPM 2333.

TCPM 3110-Instructional Assistance
A supervised experience in the instructional process on the university level through direct participation in a laboratory situation. Grading will be on a satisfactory/unsatisfactory basis only. May be repeated for a total of three semester hours. Prerequisite: Student must have junior or senior standing and must have earned a minimum of a B in the class in which the student will assist.

TCPM 3132-Inks and Substrates
An introduction to the dynamic relationship between inks and the materials on which they are printed. Areas of concern include the manufacturing processes, characteristics of inks and papers and testing procedures used with inks and substrates. Prerequisite: TCPPM 1131.

TCPM 3332-Bindery, Finishing and Distribution Practices
Designed to orient the student to the various bindery, finishing and distribution processes and practices common to the printing industry. Plant visits to bindery, finishing and distribution firms. Prerequisites: TCPPM 1131. Corequisite: TCPPM 2412.

TCPM 3412-Bindery, Finishing and Distribution Laboratory
Designed to engage students with the processes and real world problems of bindery, finishing and distribution processes and practices common to the printing industry. Plant visits to bindery, finishing and distribution firms. Prerequisites: TCPPM 1131. Corequisite: TCPPM 3332.

TCPM 4132-Screen Printing
An introduction to screen printing. Screen preparation, emulsion preparation, single and multi-color printing and screen recovery will be experienced. Prerequisites: TCPPM 1131.
TCPM 4331-Flexographic Technology I
Designed to introduce the student to the flexographic printing industry. Discussions will include the design, techniques, processes and manufacture of flexographic printed products. Activities will include the set up and operation of a flexographic press. Prerequisites: TCPM 5234 and TCM 5314.

TCPM 4232-Photo Preparation for Reproduction
A combination of traditional and digital photography techniques will be used to enhance the quality of the original photograph. The focus of the class will be on creating images which maximize resolution while reducing editing requirements. Students will choose and use various lighting arrangements and output techniques to improve final image quality. Prerequisites: TCPM 1131, ART 1334, JOUR 3333, or permission of instructor.

TCPM 4745-Internship I
Designed for students to receive practical work experience with an approved printing firm. A total of 600 contact hours with the printer is required. Printing Management majors only. Prerequisite: TCPM 5125.

TCPM 4746-Internship II
A continuation of TCPM 4745. Designed for students to receive practical work experience with an approved printing firm. A total of 600 contact hours with the printer is required. Printing Management majors only. Prerequisite: TCPM 4745.

TCPM 4899-Independent Study
Available for the student to undertake individualized experimentation, research, or study related to the printing industry. The specific topic will be determined and approved by the faculty and the student prior to the semester in which the course is taken. Academic credit is assigned to the independent study commensurate with the magnitude of the study. Prerequisite: Permission of the instructor.

TCPM 5090-Selected Topics in Technology
Scheduled on an infrequent basis to explore special areas in technology and will carry a subtitle. Allows faculty to offer a course on a trial basis for possible approval at a later date.

TCPM 5125-Industrial Practicum
Designed for direct observation and work experience with the local printing industry. The student is exposed to problems, practices, management structures and work ethics. Printing Management majors only. Prerequisites: TCPM 2333 and TCPM 2413. Corequisite: TCPM 5225.

TCPM 5225-Industrial Practicum Laboratory
Designed for direct observation and work experience with the local printing industry. The student is exposed to problems, practices, management structures and work ethics. Printing Management majors only. Prerequisites: TCPM 2333 and TCPM 2413. Corequisite: TCPM 5125.

TCPM 5234-Color Reproduction
An exploration of professional color reproduction concepts and procedures related to the graphic communications industry. Topics include color theory, copy evaluation, color separation methods, color reproduction variables, color separation hardware and software and color management systems. Prerequisites: TCPM 2333 and TCPM 2413. Corequisite: TCPM 5314.

TCPM 5314-Color Reproduction Laboratory
A hands on laboratory course. The laboratory activities include the following: test for abnormal color vision, color measurement and evaluation, color standards, color proofing, color scanning, color reproduction methods, color management systems, color reproduction techniques using Photoshop and other software. Prerequisites: TCPM 2333 and TCPM 2413. Corequisite: TCPM 5434.

TCPM 5332-Multimedia Presentations
Digital imaging applications for presentations. Covers the creation of digital components for multimedia presentations, including sound, graphics, animation and video techniques, and their use in multimedia presentations for video, CD-ROM and the Internet. Prerequisite: Successful completion of a college level computer course.

TCPM 5334-Imaging Systems
An in-depth course of how to effectively use, organize, and link imaging workstations, peripherals, systems and files for the graphic communications industry. Current trends and issues of the industry will also be covered. Prerequisites: TCPM 2333 and TCPM 2413.

TCPM 5335-Printing Industry Management Topics
Course topics will focus specifically on managerial decisions as they uniquely apply to the printing industry, such as: facilities planning and production flow, trade customs, contracts and quality control and testing. Prerequisites: TCPM 5434 and 5514.

TCPM 5434-Lithographic Reproductions
Designed to introduce the student to various types of lithographic reproduction technologies. Topics include impositions layouts, film assembly, platemaking, proofing systems, and press operation. Prerequisites: TCPM 2333, TCPM 2413 and TCPM 3132. Corequisite: TCPM 5514.

TCPM 5514-Lithographic Reproductions Laboratory
Introduces the student to film assembly presswork techniques. Prerequisites: TCPM 2333, TCPM 2413 and TCPM 3132. Corequisite: TCPM 5434.

TCPM 5534-Digital Output Applications
Covers the utilization of electronic imaging technologies for output applications for the graphic communications industry. Specific topics include internet development and management and print on demand development and management. Prerequisites: TCPM 2333 and TCPM 2413.

TCPM 5535-Printing Estimating
Acquaints the student with various types of estimating practices found in the printing industry. Students will learn how to measure cost centers, calculate material use, and conceptualize the production process. Prerequisites: TCM 5234 and TCPM 5314.

Electrical Engineering Technology (COST)
TEET 2114-Circuit Analysis Laboratory I
Laboratory activities in support of instruction in TEET 2133. Prerequisite: TENS 2136. Corequisite: TEET 2133.

TEET 2133-Circuit Analysis I
An introduction to basic circuit analysis including DC and AC circuits, network theorems and Kirchoff’s laws. Prerequisites: MATH 2242 and TENS 2136.
TEET 2412-Digital Circuits Laboratory
Laboratory activities in support of instruction in TEET 2431. Prerequisite: TENS 2136.

TEET 2431-Digital Circuits
A study of basic asynchronous and synchronous logic circuits. Topics include logic functions, Boolean operations, logic families, combinational logic, flip-flops, counters, registers, and memory systems. Prerequisite: TENS 2136 or permission of the instructor.

TEET 2433-Microcontrollers
Study and applications of the 8051 Microcontroller. Course topics include microcontroller architecture, memory, peripheral devices, interfacing, and programming. Prerequisite: TEET 2431 or permission of the instructor.

TEET 3116-Circuit Analysis Laboratory II
Laboratory activities in support of instruction in TEET 3135. Prerequisite: TEET 2114. Corequisite: TEET 3135.

TEET 3135-Circuit Analysis II
A continuation of TEET 2133. Topics include AC Power, Polyphase Circuits, Transformers, Resonant Circuits, LaPlace Transforms in Circuit Analysis, Transfer Functions, Fourier Analysis. Prerequisites: TEET 2133 and MATH 2242.

TEET 3212-Electronics Laboratory I
Laboratory activities in support of instruction in TEET 3231. Prerequisite: TEET 2133. Corequisite: TEET 3231.

TEET 3214-Electronics Laboratory II
Laboratory activities in support of instruction in TEET 3233. Prerequisite: TEET 3212. Corequisite: TEET 3233.

TEET 3215-RF Amplifier Design Laboratory
Laboratory activities in support of instruction in TEET 3236. Prerequisite: TEET 3212. Corequisite: TEET 3236.

TEET 3231-Electronics I
An introduction to basic solid state devices, including diodes, BJTs and FETs; their applications in rectifiers, amplifiers, and power supplies. Prerequisite: TEET 2133.

TEET 3233-Electronics II
A continuation of TEET 3231. Topics include FET and BJT small signal amplifiers, power amplifiers, tuned amplifiers, multistage amplifiers, feedback amplifiers, oscillators and regulated power supplies. Prerequisite: TEET 3231.

TEET 3236-RF Amplifier Design
An introduction to modern techniques for RF design. The course concentrates on lumped element circuits in the frequency range 1-1000 MHz, RF amplifiers, oscillators, mixers and RF receivers. Prerequisite: TEET 3231.

TEET 3312-Rotating Machines Laboratory
Laboratory activities in support of instruction in TEET 3331. Prerequisite: TEET 3116. Corequisite: TEET 3331.

TEET 3314-Electrical Distribution Systems Laboratory
Laboratory activities in support of instruction in TEET 3333. Prerequisite: TEET 3312. Corequisite: TEET 3333.

TEET 3331-Rotating Machines
DC and AC (single and polyphase) motors and generators, energy converters and transformers. Prerequisite: TEET 3135.

TEET 3333-Electrical Distribution Systems
A study of electrical power distribution, primarily the National Electrical Code—residential and industrial, with emphasis on services, feeders, branch circuits, metering, voltage drops, sizing of conductors, demand limiting, etc. Prerequisite: TEET 3331.

TEET 3512-Programmable Controllers Laboratory
Laboratory activities in support of instruction in TEET 3531. Prerequisite: TENS 2136. Corequisite: TEET 3531.

TEET 3531-Programmable Controllers
A study of sequential programmable logic controllers (PLCs) as applied to industrial processes with emphasis on ladder diagrams, input / output devices, application programming design of beginning through advanced functions, systems and networking. Prerequisite: TENS 2136.

TEET 3890-Directed Independent Study
An individualized study involving research and applications pertaining to Electrical Engineering Technology. Prerequisites: Senior standing, identification and definition of a problem or study area and approval of the instructor.

TEET 4090-Selected Topics in Electrical Engineering Technology
Designed to provide for study of Electrical Engineering Technology course topics not generally offered by the program.

TEET 4212-Operational Amplifiers Laboratory
Laboratory activities in support of instruction in TEET 4231. Prerequisite: TEET 3214. Corequisite: TEET 4231.

TEET 4216-Communications Electronics Laboratory
Laboratory activities in support of instruction in TEET 4235. Prerequisite: TEET 3214. Corequisite: TEET 4235.

TEET 4219-Industrial Electronics Laboratory
Laboratory activities in support of instruction in TEET 4238. Prerequisites: TEET 3116 and TEET 3212. Corequisite: TEET 3238.

TEET 4231-Operational Amplifiers
An introduction to operational amplifiers, basic feedback structures, op-amp characteristics, regulators, filters, and non-linear circuits. Prerequisite: TEET 3231.

TEET 4235-Communications Electronics
Devices and circuits within modern electronic communication systems. Topics include spectral analysis, electrical filters, amplitude, angle modulation and detection, pulse and digital modulations. Prerequisite: TEET 3233.

TEET 4237-Fiber Optic Communications
Fiber optic technology as applied to communication system. Study of various types of optical fibers, LASER and LED, photo diodes, optical connectors, and optical systems. Prerequisite: TEET 3233 and TEET 4235 or permission of instructor.
TEET 4238-Industrial Electronics
Industrial applications of electronic devices including SCR’s, triacs switching circuits, timers, motor controls, and optical devices. Three semester hours credit. Prerequisite: TEET 3135 and TEET 3231.

TEET 4530-Classical Controls
An introduction to control feedback theory including block diagrams transfer functions, stability properties of feedback, and classical design methods. Prerequisite: TEET 3135.

TEET 4630-EET Senior Project
Individual applied “Product Design & Build” project that includes specifications, scheduling, computer-aided engineering and design (CAE/CAD), printed circuit board fabrication and performance testing. Other requirements are weekly progress reporting, oral presentations, and a comprehensive written report. Prerequisite: Senior standing in EET.

TEET 4890-Special Problems in EET
Individual and specialized study in areas of electrical engineering technology not otherwise covered in the student’s program. Prerequisite: Senior standing, identification and definition of a problem or study area and approval of the instructor.

Engineering Science (COST)
TENS 2111-Statics Laboratory

TENS 2112-Dynamics Lab
Problem solving sessions in support of the study of kinematics and kinetics of particles and rigid bodies; work and energy; impulse and momentum as applied to particles. Prerequisites: MATH 2242 and TENS 2131. Corequisite: TENS 2132.

TENS 2113-Strength of Materials Lab
Laboratory activities in materials testing to support instruction in Strength of Materials. Prerequisites: MATH 2242 and TENS 2131.

TENS 2114-Fluid Mechanics Lab
Methods, procedures and the use of equipment and meters commonly used to measure standard fluid properties and phenomena. Prerequisite: CSCI 1230. Corequisite: TENS 2134.

TENS 2116-Introduction to EET Lab
Laboratory activities in support of Introduction to Electrical Engineering Technology. Prerequisite: MATH 1441. Corequisite: TENS 2136.

TENS 2121-Digital Computation
An introduction to problem solving using the computer. Interactive hands on use of a programming language, spreadsheet, and other computer based tools to solve a variety of engineering technology problems. Exploration of a range of problems that are suitable for computer solution and the software tools which provide the best fit for the problems to be solved. Prerequisite: Experience with personal computer applications.

TENS 2131-Statics
The study of force systems and equilibrium of bodies at rest. Forces in plane trusses machines and frames, centroids and moments of inertia, and friction. Prerequisites: MATH 1113 and TMFG 1121.

TENS 2132-Dynamics
The study of kinematics and kinetics of particles and rigid bodies; work and energy and impulse and momentum as applied to particles. Prerequisites: MATH 2242 and TENS 2131. Corequisite: TENS 2112.

TENS 2133-Strength of Materials
Introduction to concepts of stress and elastic deformation under axial, torsional, flexural and combined loadings and beam loading. Prerequisites: MATH 2242 and TENS 2131.

TENS 2134-Fluid Mechanics
Fundamentals of fluid statics and fluid dynamics for incompressible fluids, fluid properties, static and dynamic forces, Bernoulli’s equation, pipe flow and losses, open channel flow and flow measurement. Prerequisites: MATH 2242 and TENS 2131. Corequisite: TENS 2114.

TENS 2135-Thermodynamics
An introduction to thermodynamics. First and second law analysis of thermal systems. Use of property charts, tables and equations of state in analyzing common thermal processes of technological importance. Prerequisite: MATH 1441.

TENS 2136-Introduction to EET
An introduction to basic electrical devices and elementary systems. For EET and non-EET majors. Analog and digital systems will be covered, along with elements of electromechanical equipment. Mathematics review with applications to electrical devices and systems. Computer simulation of electrical devices and circuits. Prerequisite: MATH 1441.

TENS 2137-Engineering Economy
Introduction to the time value of money and its effect on economic decisions. The principles and techniques needed to make decisions about the acquisition and retirement of capital goods, the output and life of equipment, operating costs, depreciation rates and economic selection. Prerequisites: MATH 1111.

Theatre (CLASS)
• THEA 1100-Theatre Appreciation
An introductory study of dramatic literature and its relationship to the theatrical arts including set, costume, lighting design, acting, and directing.

• THEA 1311-Stage Make-up
Offers students an introduction to basic make-up materials and techniques of application.

THEA 1711-Theatre Practicum
Provides students with opportunities to take an active part in a theatrical production. A maximum of three hours may apply toward a degree. Forty clock hours of work will equal one hour of credit.

THEA 1712-Puppetry Practicum
Provides students with opportunities to take an active part in puppetry production. A maximum of 3 hours may apply toward a degree. Forty clock hours of work will equal one hour of credit.

• THEA 2331-Introduction to Theatre
An introductory study of dramatic literature and its relationship to the theatrical arts including set, costume, lighting design, acting, and directing.
THEA 2332-Stagecraft
Provides students with basic instruction in principles of scenic construction, design, drafting and painting. Designed as preparatory course to production and performance.

THEA 2333-Fundamentals of Acting
Includes history of actor training, the influence of Stanislavsky, the playing of objectives, character development, and rehearsal discipline.

THEA 2712-Puppetry Practicum
Provides students with opportunities to take an active part in puppetry production. A maximum of three hours may apply toward a degree. A minimum of forty clock hours of activity required to receive credit.

THEA 3030-Selected Topics in Theatre
Offers varied courses in specialized areas in the field of Theatre.

THEA 3230-Voice for the Stage
Students learn how to use their voices in a variety of performance situations. Prerequisites: COMM 2333.

THEA 3330-Acting: Scene Study
Broadens the students’ understanding of the craft of acting. Special emphasis will be placed on character study through the extensive use of scene work from twentieth century drama.

THEA 3331-Advanced Stagecraft
Examines construction principles and techniques applied to stage scenery and design. Also, focuses on maintenance of stage facility and shop equipment.

THEA/AAST/AMST 3332-African American Theatre
Investigates the contributions of black playwrights, actors, and directors to American theatre.

THEA 3333-Irish Theatre
Studies the theatre of Ireland from the Abbey Theatre through the present. Covers Irish theatre movement and plays by significant playwrights from W.B. Yeats to Brian Friel. Prerequisite: Permission of instructor.

THEA 3334-Sound Design for the Theatre
Teaches the process of sound design for theatrical production with basic instruction in the use of equipment. Teaches techniques necessary to reproduce sound effects and music for the stage.

THEA 3335-Scene Painting
History and techniques of scene painting including back drops, three dimensional textures, and trompe l’oeil effects. Will cover variety of paint media including transparent dye and application of gold leaf.

THEA 3336-Theatre Management
Provides students with an introductory study of the principles and practices of theatrical management. Provides a systematic examination of the role of the theatre stage manager.

THEA 3337-Play Directing
Includes conceptualization, communication with actors and designers, and casting and rehearsal techniques necessary to stage a play for the theatre. Prerequisite: Permission of instructor.

THEA 3338-Rehearsal and Performance
Permits students to receive credit for supervised participation in theatrical events. Repeatable.

THEA 3711-Theatre Practicum
Provides students with opportunities to take an active part in theatrical production. A maximum of three hours may apply toward a degree. Forty clock hours of work will equal one hour of credit.

THEA 3712-Puppetry Practicum
Provides students with opportunities to take an active part in puppetry production. A maximum of 3 hours may apply toward a degree. Forty clock hours of work will equal one hour of credit.

THEA 4330-Theatre History: To the Elizabethans
Surveys the physical structure, production method, and acting and stage design of the theatre up to the Elizabethan period. Includes the study of ritual and oriental theatre as well as Western European drama. Prerequisite: Permission of instructor.

THEA 4331-Theatre History: Elizabethan to Modern
Surveys the physical structure, production methods, and acting and stage design of Western theatre from the Elizabethan through the modern period. Prerequisite: Permission of instructor.

THEA 4332-Children’s Theatre and Storytelling
Examines play theory, storytelling, and creative drama techniques for the staging of plays with and for children.

THEA 4333-Acting Styles
Specialized study of the techniques needed to perform in a particular style of theatre or in the work of a particular playwright. Topics include: Shakespeare and verse drama, Brecht and Epic theatre, improvisational comedy, Greek and Roman tragedy. May be repeated once for credit.

THEA 4334-Drama in Performance
Examines the relationship between the play in performance and the dramatic text with special attention to historical theories of acting that influence the literary works.

THEA 4335-Scene Design
Emphasizes interpretation of plays through visual images and the creation of physical spaces for performances. Includes traditional drafting and computer assisted design technologies, scale model making, perspective drawing and painted or air brushed rendering of the set. Prerequisite: THEA 2332 or permission of instructor.

THEA 4336-Lighting Design
Theory and practice of lighting for a variety of stages including proscenium, thrust and arena stage production. A practical study of equipment and the aesthetics of lighting for the theatre. Prerequisite: THEA 2332 or permission of instructor.

THEA 4337-Costume Design
The history and applied theory of theatrical costume design. An exposure to costume materials and concepts, executed and demonstrated through watercolor and charcoal rendering. Prerequisite: THEA 2332 or permission of instructor.

THEA 4711-Theatre Practicum
Provides students with opportunities to take an active part in a theatrical production. A maximum of three hours may apply toward a degree. Forty clock hours of work will equal one hour of credit.
THEA 4712-Puppetry Practicum
Provides students with opportunities to take an active part in puppetry production. A maximum of three hours may apply toward a degree. A minimum of forty clock hours of activity required to receive credit.

THEA 4831-Directed Study in Theatre
Permits students to conduct in-depth study of issues associated with theatre. This course cannot be used to replace existing courses in the catalog. Must be approved by the department chair and the instructor.

THEA 5530-Playwriting
The study, analysis and practice in the art and craft of writing plays for the stage or for dramatic television and film. Undergraduates complete one play while graduate students complete a first draft for a full length play.

THEA 5531-Puppetry
Acquaints the student with puppetry as an art and an educational medium. Emphasizes effective use of puppetry in the development of individual and group resources, creativity, self expression and emotional adjustment.

Industrial Engineering Technology (COST)

TIE 1610-Introduction to IET
An overview of the field of industrial technology, including its historical development and an introduction to the Industrial Engineering Technology program as offered at Georgia Southern University. The course provides information pertaining to employment opportunities (co-op, intern, summer, and permanent work). Advisement and scheduling, laboratory facilities, course-work, and the IET faculty. The course is meant as a road map and survival guide for the student pursuing a degree in IET.

TIE 3130-Applied Industrial Statistics
A lab based approach to introduce statistical concepts and their applications in various industrial processes. Includes data descriptions and analysis, probability distributions, statistical inference, hypothesis testing, and design of industrial experiments. A commercial software tool widely used in industrial situations will be utilized to perform laboratory analysis and to reinforce lecture material. Prerequisite: MATH 1441.

TIE 3230-Productivity Measurement and Improvement
A study of various methods and tools used in industry and business to measure work productivity and the methods and tools used to improve work procedures. Content areas include: methods study, motion study, time study, predetermined time standards systems, work factors, work sampling, incentive systems, ergonomics, safety, and other special topics for methods improvement and work measurement. Prerequisites: TIE 3130 or equivalent course by permission.

TIE 4090-Selected Topics in IET
Provides for the study of industrial engineering technology course topics not generally offered by the department or for course being evaluated for inclusion in the program. May not be taken for more than twelve hours of repeated credit. Prerequisite: Specified at time of offering.

TIE 4130-Applied Quality Assurance
A comprehensive approach to the improvement of quality for industry. Focuses on measurement tools to analyze and improve industrial processes, and includes quality improvement case studies. The objective is to provide students with a sound understanding of the principles and basis of their application to a wide variety of product and non-product environments. Hands on lab exercises introduce measurement tools and the analysis of data. Prerequisite: TIE 3130.

TIE 4320-Project Planning and Control
Project scheduling and management, including Program Evaluation and Review Technique (PERT), Critical Path Methods (CPM), line balancing, job scheduling, and related problems.

TIE 4330-Cost Engineering
Cost engineering is concerned with the cost determination and evaluation of engineering design, including the various types of cost estimates, cost information, and cost assurance.

TIE 4431-Computer Methods in Engineering Technology
Application of computer methods to problems in engineering technology, uses of programming languages on microcomputers for technical problem solutions, understanding of fundamental operating systems, applications and uses of word processors, spreadsheets, computer graphics, network applications and the Internet. Prerequisite: TENS 2121.

TIE 4432-Industrial Systems Simulation
The modeling and analysis of industrial systems by discrete and/or continuous simulation methods. Commercial simulation software packages will be used as the modeling tools. Prerequisites: TIE 3130 and computer programming experience.

TIE 4531-Plant Layout
The fundamental theories, practices, and methods for the design of manufacturing and service facilities to enable productive flow of goods and services. Software will be used in the lab in support of a layout project that will grow throughout the semester. Prerequisite: TIE 3230.

TIE 4532-Materials Handling
An introduction into the principles and practices of materials handling. The basic concepts of materials handling, the economic factors essential to the evaluation of design alternatives, the fundamentals of equipment selection and justification, and the effects of automation on the field of materials handling. Prerequisite: TIE 3230.

TIE 4533-Production Planning
The methods used to plan and control the efficient and effective use of equipment, tooling, people, materials, and other resources to manufacture products. Prerequisites: TIE 4531.

TIE 4536-Integrated Manufacturing
An introduction to automation applications in industry. Lab experiments provide hands on experience with programmable automation and the integration of CIM technologies in manufacturing systems. Prerequisites: MATH 1113 and computer programming experience.
TIET 4610-Graduating IET Seminar
Discussions of the technical and professional issues that affect industrial engineering technology graduates as they begin their careers. This course is for a senior IET major with less than one year remaining before graduation. An overview of current trends in the field of industrial engineering technology and investigation of topics not currently offered in the curriculum. Provides information pertaining to lifelong career development and learning and is offered as a road map and survival guide for the student pursuing a career in IET. Prerequisite: Senior standing.

TIET 4730-Senior Project
A senior project is the culmination of an industrial engineering technology student’s degree work. It requires students to apply knowledge gained from IET courses to solve an industrial engineering problem under the supervision of a faculty member. It shall normally be conducted in an industrial setting or may be an individual research project on an approved subject. A project proposal, a number of interim progress reports, a final written report, and a final oral presentation are required. Prerequisite: Senior standing in IET.

TIET 4890-Special Projects in IET
An individualized study involving applied project work pertaining to Industrial Engineering Technology. May not be taken for more than six hours of repeated credit. Prerequisites: Senior standing and definition of project prior to enrollment.

TIET 4899-Directed Independent Study
An individualized study involving research and applications pertaining to Industrial Engineering Technology. May not be taken for more than six hours of repeated credit. Prerequisites: Senior standing and definition of project prior to enrollment.

Mechanical Engineering Technology (COST)

TMET 3130-Mechanics Design
Kinematic analysis and design of the basic machine components and an introduction to mechanism synthesis. Extensive use of Working Model software.

TMET 3135-Machine Design
Principles of mechanical design, the design of machine elements with consideration given to strength requirements, fatigue, material properties and modes of failure. Computer applications are stressed. Prerequisite: TENS 2133.

TMET 3136-Machine Component Design
The detailed design of components such as springs, belts, clutches, brakes, chains, bearings, gears, lubrication, and welded and riveted connections. Prerequisite: TMET 3135.

TMET 3232-Applications of Thermal Science I
Technological applications of thermodynamics including production of power, refrigeration, air conditioning, and combustion. Prerequisites: TENS 2134 and TENS 2135.

TMET 3233-Heat Transfer
An introduction to basic energy transport by conduction, convection and radiation. Applications to extended surfaces, heat exchanger, etc. Prerequisite: MATH 2242.

TMET 3312-Materials Science Lab
Laboratory activities in support of instruction in TMET 3331. Laboratory exercises include: fatigue experiment, sharp impact test, solidification of lead and tin and their phase diagram, metallography of two phase alloy and carburization process of steel. Corequisite: TMET 3331.

TMET 3331-Materials Science
Study of engineering materials such as metals and alloys. Atomic structure and arrangement; control of the microstructure and mechanical properties of materials, mechanical testing, metallography, cooling curves, and phase diagrams. Prerequisite: CHEM 1145. Corequisite: TMET 3312.

TMET 3333-Materials Processing
Traditional as well as modern processing techniques. Limitation on the use of different materials and their processing, metal-casting processes end equipment, forming and shaping processes and equipment, material-removal processes and machines, joining processes and equipment. Prerequisite: TMET 3331.

TMET 4090-Selected Topics in Mechanical Engineering Technology
Provides for study of Mechanical Engineering Technology course topics not generally offered by the program.

TMET 4114-Vibration Laboratory
Laboratory exercise in support of TMET 4133. Prerequisites: MATH 2242, TENS 2132, and TMET 3130. Corequisite: TMET 4133.

TMET 4118-Mechanical System Design Lab
Laboratory experience including manufacturing of the components the students design in TMET 4137. Prerequisite: Senior standing. Corequisite: TMET 4137.

TMET 4133-Vibration
Free and forced vibration of one, two and multi-degree-of-freedom systems. Theory is developed and applied to practical cases. Prerequisite: TENS 2132, TMET 3130 and MATH 2242. Corequisite: TMET 4114.

TMET 4137-Mechanical System Design
A senior design course requiring that the student call upon all of his academic preparation in the solution of mechanical systems problems. Prerequisite: Senior standing. Corequisite: TMET 4118.

TMET 4225-Thermal Science Lab
Laboratory activities in support of instruction in thermodynamics, heat transfer, and HVAC. Prerequisite: TMET 3232.

TMET 4234-Applications of Thermal Science II
A continuation of TMET 3232. Air conditioning, refrigeration, and heating pump cycles. Calculations of heating and cooling loads in accordance with ASHRAE practices. Design projects are included. Prerequisite: TMET 3232.

TMET 4412-Automation and CIM Lab
Laboratory activities in support of instruction in TMET 4431. Prerequisites: TMFG 1121, TMFG 1122, and TENS 2121. Corequisite: TMET 4431.
TMET 4431-Automation and CIMS
Fundamental concepts in manufacturing, automation, and various topics in production and related control systems. These include numerical control, industrial robots, computer integrated manufacturing systems and flexible manufacturing systems. Prerequisites: TMFG 1121, TMFG 1122, and TENS 2121. Corequisite: TMET 4412.

TMET 4512-Engineering Measurements Laboratory
Laboratory activities in support of instruction in TMET 4531. Prerequisite: TMET 3135. Corequisite: TMET 4531.

TMET 4531-Engineering Measurements

TMET 4890-Special Problems in Mechanical Engineering Technology
Individual and specialized study in areas of mechanical engineering technology not otherwise covered in the student’s program. Prerequisites: Senior standing, identification and definition of a problem or study area and approval of the instructor.

TMET 4899-Directed Independent Study
An individualized study involving research and applications pertaining to Mechanical Engineering Technology. Prerequisite: Senior standing, identification and definition of a problem or study area and approval of the instructor.

Manufacturing Technology (COST)

TMFG 1111- Manufacturing Seminar
A seminar aimed to allow the student seeking a degree in the Manufacturing program to gain an understanding of the Manufacturing Degree program (courses, sequencing, purpose) and the Industrial Management major and how it integrates with other related sciences such as engineering. One single lecture period.

TMFG 1121-Technical Drafting
A basic drafting course with emphasis on manual drafting skills and projection theory and practice.

TMFG 1122-Computer Drafting
A basic computer aided drafting course.

TMFG 1131-The Manufacturing Enterprise
A study of the activities common to manufacturing companies in the free enterprise system. Students are engaged in academic study paralleled with organizing, owning and operating a simulated company which develops, produces, and markets a competitive product for profit.

TMFG 2133-3D Computer Drafting
A computer-aided drafting course for mechanical applications. Begins with Basic Computer Aided Design Drafting (CADD) theory and construction. Followed by instruction in mechanical CADD practice and technology. Prerequisite: TMFG 1121, equivalent or permission of the instructor.

TMFG 3131-Industrial Processes and Materials
Industrial processes used to shape, form, fasten, and finish materials into products. Emphasis is placed on the study of the characteristics and properties of common industrial materials and the ability to adapt them to a variety of manufacturing applications.

TMFG 3132-Materials Machining Technology
An experience centered course dealing with the operation of machine tools. Emphasis is placed on machining technologies used to process a variety of manufacturing materials. Both traditional and computer control machining processes are explored. Prerequisites: TMFG 1121, TMFG 1122.

TMFG 3133- Forming and Fabrication
A study of forming and fabrication techniques including material properties, product design, layout/development, tooling, bending and forming processes, casting processes, and assembly processes. Emphasis on increased depth of knowledge of processes, process variables, and associated industrial equipment. Laboratory activities include hands on experimentation with selected materials and processing equipment. Prerequisite: TMFG 3131.

TMFG 3134-Electrical Technology
Assumes that the student has had no prior knowledge of electricity and electrical/electronic concepts in that it is an introductory course designed to acquaint the student with the basic concepts governing electrical energy. Basic electrical/electronic principals and concepts are covered including DC circuits, AC circuits, elementary electronics and Programmable Logic Controllers (PLCs). Prerequisite: MATH 1111.

TMFG 3231-Introduction to Industrial Management
The development, organization and operation of manufacturing industries. Topics include: organization, engineering considerations, the manufacturing system, manufacturing cost control, materials flow control, quality assurance, and human resources.

TMFG 3232-Applied Industrial Statistics and Quality Assurance
Statistical process control in manufacturing. Topics include evaluation of the process control system, defining problems and setting priorities, analyzing the process, describing data, process capability and precontrol charts, control charts, and determining cause. Prerequisite: One basic math course.

TMFG 3432-Basic Stitchology
A study of seam types, stitch formations, and their application to various garment construction features.

TMFG 4121-Machining, Forming and Fabrication Practicum
A general study and practicum of machining, forming and fabrication techniques utilized in industry including conventional machining, CNC machining, layout development, beginning and forming press work, foundry mechanical assembly and welding. Prerequisites: TMFG 1121, and TMFG 1122.

TMFG 4130-Plastics Materials and Processes
A study of plastics and organic composites material, their properties, uses, and the manufacturing processes used to produce products for them. Reinforces and expands upon concepts and technical knowledge introduced in the prerequisite overview course. Familiarity with common processing properties, tools and equipment will be provided through laboratory work. Prerequisite: Three hours of introductory level industrial materials and processes.
TMFG 4132-Energy Power Systems
The conversion, transmission, storage and control of energy in modern means of transportation. Prerequisite: MATH 1111.

TMFG 4134 World Class Manufacturing
A comprehensive study of world class manufacturing concepts of Just-In-Time production, Total Quality Control, Total Productive Maintenance and Total Employee Involvement. Manufacturing systems are developed, and trial runs are conducted and evaluated. Prerequisite: TMFG 1131.

TMFG 4293-Co-op

TMFG 4299-Manufacturing Internship
Provides practical application and experience in cooperating industry and business. Designed to permit attendance at an approved industry-sponsored work experience for the purpose of providing the student with advanced related occupational or technical training. Prerequisite: Senior standing.

TMFG 4434-Special Problems in Apparel Manufacturing
Individual research in the technology associated with apparel manufacturing. Prerequisites: Definition of the problem and permission of the instructor prior to the beginning of the semester.

TMFG 5133-Automated Manufacturing Systems
Computer integrated manufacturing concentrating on advanced computer numerical control machining and the interface of robotics systems in manufacturing. Experiences utilizing a variety of programming techniques, machining methods, and robotic applications in computer integrated manufacturing are emphasized. Prerequisites: TMFG 3132, TMFG 1121, and TMFG 1122.

TMFG 5230-International Manufacturing
Opportunities and problems in manufacturing products for import and export. Topics include: transportation, customs, structures for facilitating international trade, trade policies, global patterns, and cultural concerns.

TMFG 5233-Manufacturing Management Issues and Methods
A senior level seminar covering essential issues related to technical management of manufacturing production systems. Emphasis on tactical planning concepts, problem/opportunity identification, practical problem solving techniques, non-quantitative aspects of technical project justification, and project management in support of operations goals in the manufacturing environment. Prerequisites: Senior standing and five hours of statistics or quality, five hours of technical processes, TMFG 3131, TMFG 3231 or instructor permission.

TMFG 5234-Industrial Supervision
The practical problems of front line supervisors and the application of manufacturing management and leadership principles to individuals and groups. Topic include: manufacturing team leadership and motivation, planning and control, staffing and training, communication, counseling and production improvement.

TMFG 5431-Apparel Manufacturing Production
Garment manufacturing. Topics include costing, cutting processes, sewing processes, finishing processes, theory of constraints, modular manufacturing, and work measurement.

TMFG 5433-Quality Control and Testing
Apparel manufacturing quality control systems. Topics include physical textile testing, statistical process control, and quality auditing techniques. Field trips to local industries.

Safety and Environmental Technology (COST)

TSEC 5331-Human Resource Protection
Technical aspects of developing and implementing occupational safety programs in manufacturing industries. Emphasis is placed on hazard identification and control. Topics include OSHA compliance, accident investigation, fire protection, machine guarding, noise abatement, and electrical safety.

TSEC 5332-Ergonomics
The human machine interface in manufacturing industries as it relates to the well-being of workers and efficiency of production systems. The application of human factors from both physiological and psychological perspectives are examined. Emphasis is placed on regulatory compliance.

TSEC 5333-Industrial Hygiene
Occupational health approaches for anticipating, assessing and controlling the various hazards and harmful situations in an industrial environment, which may have an adverse effect on the employees health, comfort and performance. Regulatory agencies, compliance, and program management issues are discussed. Prerequisite: One chemistry course or permission of instructor.

TSEC 5334-Hazardous Waste Management
A study of hazardous waste substances as they are created by various industries and their proper management by combining planning, organizing, and controlling techniques with a knowledge of generating, storing, transporting, treasuring, recycling and disposing of hazardous materials. Issues of environmental impact, regulatory compliance, ethics, and program management are discussed from a technical management perspective. Prerequisite: One chemistry course or permission of instructor.

TSEC 5335-Systems Safety in Manufacturing
A study of the application of systems safety concepts to manufacturing and production systems. Emphasis is placed on the critical analysis of systems through modeling and the development of control strategies to reduce the frequency and severity of industrial accidents.

Workforce Education (COE)

WFED 2130-History, Philosophy and Policies of Workforce Education
The history of vocational education with emphasis on philosophies and policies related to the establishment and implementation of various vocational education programs in the United States. In addition, the course explores the impact of related federal and state legislation on the direction and development of vocational education and identifies major events in American history outside the field of education that provide context for the growth of vocational education. Various instructional and research technologies will be demonstrated and utilized.

WFED 2131-Introduction to Workforce Education
Introduces the new teacher to the principles and practices of teaching manipulative skills, identifying program content areas, planning lessons, developing curriculum and organizing instructional materials. This is the first education course taken by new teachers.
who move directly from industry to education. Various instructional and research technologies will be utilized and demonstrated. Corequisite: WFED 2132.

WFED 2132-Instructional Strategies in Workforce Education
Introduces the new teacher to the principles and practices of program/laboratory management, laboratory organization, safety, development and implementation of instructional “set-ups” and the effective inclusion of “live work” in the instructional lab program. Various instructional and research technologies will be demonstrated and utilized. Corequisite: WFED 2131.

WFED 5130-Supervised Work Experience
Provides documentation of student knowledge of theory and procedures to determine competence. Credit recommendations are made and utilized. Prerequisite: WFED 2132 or WFED 6131 and WFED 2132 or WFED 6132.

WFED 5131-Curriculum and Evaluation in Workforce Education
Provides knowledge and application skill for the new teacher in workforce education in the development/ construction of program curriculum and student evaluation and the utilization of related instructional and management technologies. The direct relationship of content and evaluation is emphasized throughout the course. Various instructional and research technologies will be demonstrated and utilized. Corequisites: WFED 2131 or WFED 6131 and WFED 2132 or WFED 6132.

WFED 5132-Cooperative Workforce Education Programs
Emphasizes the philosophy underlying cooperative workforce (vocational) education and the development of knowledge and skills concerning the procedures to be followed in organizing and operating programs. Various instructional and research technologies will be demonstrated and utilized.

WFED 5191-Technical Field Skills
Provides documentation of student performance skills regarding specific occupational fields. Students are administered performance exams through approved educational or professional testing centers to determine competence. Credit recommendations are made based on comparing scores with national norms. Corequisite: WFED 5192.

WFED 5192-Technical Field Theory
Provides documentation of student knowledge of theory and processes related to specific occupational fields. Students are administered written exams through approved educational or professional testing centers to determine competence. Credit recommendations are made based on comparing scores with national norms. Corequisite: WFED 5191.

WFED 5799-Internship for New Teachers
An internship that will serve as the vehicle for implementing objectives learned in indentified prerequisite vocational program-related courses. Various instructional and in field technologies will be demonstrated and utilized. A minimum of two semesters is required. Prerequisites: WFED 2131 or WFED 6131 and WFED 2132 or WFED 6132.

WFED 6130- History, Philosophy and Policies of Workforce Education
The history of vocational education with emphasis on philosophies and policies related to the establishment and implementation of various vocational education programs in the United States. In addition, the course explores the impact of related federal and state legislation on the direction and development of vocational education and identifies major events in American history outside the field of education that provide context for the growth of vocational education. Various instructional and research technologies will be demonstrated and utilized.

WFED 6131- Introduction to Workforce Education
Introduces the new teacher to the principles and practices of teaching manipulative skills, identifying program content areas, planning lessons, developing curriculum and organizing instructional materials. This is the first education course taken by new teachers who move directly from industry to education. Various instructional and research technologies will be utilized and demonstrated. Prerequisite: WFED 6132.

WFED 6132- Instructional Strategies
Introduces the new teacher to the principles and practices of program/laboratory management, laboratory organization, safety, development and implementation of instructional “set-ups,” and the effective inclusion of “live work” in the instructional lab program. Various instructional and research technologies will be demonstrated and utilized. Prerequisite: WFED 6131.

WFED 6231- Procedures in Teaching Workforce Education
The procedures and methods used to teach workforce education programs in the secondary school setting. Methods of lab, curriculum, and instructional organization are discussed. Recently introduced innovative programs are also presented. Various instructional and research technologies will be demonstrated and utilized.

WFED 6232- Foundations of Vocational and Career Education
The development of vocational and career education in the United States from the industrial revolution to the present. Theories and philosophies affecting the purpose and development of these two areas will be addressed. Major federal and state legislation impacting vocational and career education will be identified and discussed. Current initiatives relating to the change and/or redirection or either area will be researched and presented. Various instructional and research technologies will be demonstrated and utilized.

WFED 6233- Planning and Establishing a Coordinated Vocational Academic Instruction (CVAE) Program
The processes required in planning and establishing an at risk intervention program in grades 7-12 or grades 9-12. Discussion will include at risk potential dropouts, vocational programs, skill development, program models and program development. Various instructional and research technologies will be demonstrated and utilized. Prerequisites: WFED 6235 and WFED 6236.

WFED 6234- Curriculum Development and Career Planning for the Coordinated Vocational Academic Education (CVAE) Program
The processes and proven techniques used to deliver career planning and related curriculum to secondary CVAE students. Discussion will include career exploration and development, guidance procedures, secondary and post secondary offerings, vocational curriculum planning, programs of study (4+2 plans), dropout prevention skills and youth organizations. Various instructional and research technologies will be demonstrated and utilized.
WFED 6235- Curriculum Development and Career Planning for the Related Vocational Instruction (RVI) Programs
The processes and proven techniques used to deliver career planning and related curriculum to secondary RVI students. Discussion will include IEPs, curriculum modification and application, guidance procedures, secondary and post-secondary offerings, programs of study (4+2 Plans), cooperative education and youth organizations. Various instructional and research technologies will be demonstrated and utilized.

WFED 6236- Planning and Establishing a Related Vocational Instruction (RVI) Program
The planning an development of the Related Vocational Instruction (RVI) Program designed to serve students in grades 9-12. Emphasis will be placed on appropriate development of individual education plans and organization of program management systems. Sources of external program support will also be discussed. Various instructional and research technologies will be demonstrated and utilized.

WFED 6731- Internship for Coordinators of Cooperative Workforce Education Programs
An internship that will serve as the vehicle for implementing objectives learned in identified prerequisite cooperative program related courses. Various instructional and in field technologies will be demonstrated and utilized. Prerequisites: WFED 5132 and WFED 6231.

WFED 6732- Internship for Coordinators of Coordinated Vocational Academic Education Programs
An internship that will serve as the vehicle for implementing objectives learned in identified prerequisite Coordinated Vocational Academic Education (CVAE) program related courses. Various instructional and in field technologies will be demonstrated and utilized. Prerequisites: WFED 6232 and WFED 6234.

WFED 6733- Internship for Coordinators of Related Vocational Instructor’s Programs
An internship that will serve as the vehicle for implementing objectives learned in identified prerequisite Related Vocational Instruction (RVI) program related courses. Various instructional and in field technologies will be demonstrated and utilized. Repeatable up to 6 credit hours. Prerequisites: WFED 6235 and WFED 6236.

WFED 7231- Developing Vocational Education Curriculum
The process of curriculum planning and the application of concepts, processes and principles of curriculum development to vocational education. Multiple models used to develop vocational education curriculum are discussed and compared. Various instructional and research technologies will be demonstrated and utilized.

WFED 7232- Management of Programs in Vocational and Technical Education
A study of current methods of management and management personnel used to address various program needs in vocational and technical education. Possible future systems, methods and issues will also be addressed. Various instructional and research technologies will be demonstrated and utilized.

Women's and Gender Studies (Interdisciplinary)
WGST 3090-Selected Topics in Women's and Gender Studies
WGST/HIST/AMST 3137-History of Women in the US
See HIST 3137 for course description.

WGST/PSYC 3232-Psychology of Gender
See PSYC 3232 for course description.

WGST/POLS 3235-Gender and Politics
See POLS 3235 for course description.

WGST/LATN 3330-Roman Women
See LATN 3330 for course description.

WGST/SPCM 3333-Communication and Gender
See SPCM 3333 for course description.

WGST/HIST 3433-Women in Modern Europe
See HIST 3433 for course description.

WGST/PHIL 4130-Feminist Philosophy
See PHIL 4130 for course description.

WGST/COMM 4331-Women and Media
See COMM 4331 for course description.

WGST/SOCI 4332-Sociology of Gender
See SOCI 4332 for course description.

WGST/ENGL 4539-Literature by Women
See ENGL 4539 for course description.

WGST/SPAN 5235-Contemporary Hispanic Women Writers
See SPAN 5235 for course description.

WGST/ANTH 5331-Gender and Anthropology
See ANTH 5331 for course description.

WGST/ENGL/AAST 5539-Literature by Women
See ENGL 5539 for course description.

WGST/ENGL 6635-Women’s and Gender Issues
See ENGL 6635 for course description.

Writing (CLASS)
WRIT 0093-English as a Second Language I
An intensive course designed for students whose native language is not English. Includes listening and speaking skills, reading comprehension, with an emphasis on vocabulary development, basic grammar review, and writing clear, logical, well-structured essays. Students may be required to pass this course before they are recommended to enter WRIT 0095 or ENGL 1101, depending on their proficiency. Prerequisites: Placement dependent upon successful score on Michigan Test of English Language Proficiency and a writing sample.
WRIT 0095-English as a Second Language II
Designed for students whose native language is not English. Includes group discussion skills, interpretation of short readings, advanced grammar review, and writing clear, logical, well-structured essays. Students may be required to pass this course before they can enter ENGL 1101. Prerequisites: Placement dependent upon successful score on Michigan Test of English Language Proficiency and a writing sample.

WRIT 1101-English Composition for Non-native Speakers
For students whose native language is not English. Concentrates on developing the student’s skills in thinking, reading and writing. Emphasis is placed on the reading and understanding of prose selections and on the writing of clear, logical, well-constructed essays that are relatively free from serious grammatical faults. Includes a research paper. Credit for this course will be accepted in lieu of credit for ENGL 1102. Upon completion of this course, the student will enroll in ENGL 1102. Prerequisite: This course must be completed with a minimum grade of “C” before the student may enroll in ENGL 1102.

WRIT 1120-Grammar and Punctuation Review
Offers a review and reinforcement of the basic rules of grammar and punctuation of academic English. Emphasizes sentence and paragraph level writing with skills practice, work sheets and quizzes and will benefit any student at any level of course work.

WRIT 3130-Creative Writing
The writing of poetry and fiction through close analysis of poetic and narrative forms with the purpose of encouraging students to develop their creative writing abilities and their awareness of creative writing techniques and strategies. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT 3131-Teaching Writing
An introduction to the theory and practice of teaching writing, including making the writing assignment, pre-writing, revising writing, and evaluating student writing. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT 3230-Writing in the Workplace
Prepares students from all disciplines to be effective communicators in their chosen professions. Students learn to write and prepare a variety of documents, including memos, letters, reports, proposals, critical studies, and recommendations. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT 3330-Technical Communication
Teaches students to improve written, oral and visual communication by requiring assignments relevant to their proposed professions. The focus is on the type of communication required by the scientific and engineering discourse communities. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT/ENGL 3537-Special Topics in English
See ENGL 3537 for course description.

WRIT 4130-Advanced Composition
Provides a workshop environment for writing a wide variety of expository material generally not covered in freshman English. Students are encouraged to try forms, topics and voices which broaden their writing experience. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT/LING 5130-Modern English Grammar
A study of the system of rules of word formation and sentence construction that we unconsciously employ in our daily use of the English language. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT 5230-Theory of Composition
A survey of the theories behind the most important issues and components of the teaching of writing, such as composing processes, grammar, modes, grading, basic writing, invention, style, and more. Students are asked to test some of these theories by direct application to their own or other authors’ written texts. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT/LING 5330-History of English Language
A study of the English language from linguistic, social and historical perspectives. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT 5430-Poetry Writing
A workshop format course which focuses primarily on the students’ own poems, the course emphasizes traditional and contemporary use of forms and meters. Students learn metrical and formal conventions and write poems in both formal and free verse. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT/ANTH/LING 5530-Sociolinguistics
See ANTH 5530 for course description.

WRIT 5540-Fiction Writing
A workshop format course which focuses primarily on the students’ own fiction. The course emphasizes traditional, contemporary and experimental approaches to plot, characterization, point-of-view and other elements of form and content. Students formally evaluate the work of their peers and of established writers. Prerequisite: ENGL 2111 or ENGL 2212.

WRIT 7130-Advanced Composition
A study of the forms and techniques of the essay, with varied reading and writing assignments to develop the student’s own writing skills.

Yoruba (CLASS)
YORU 1001-Elementary Yoruba I
Introduction to listening, speaking, reading, and writing in Yoruba and to the culture of Yoruba speaking regions.

YORU 1002-Elementary Yoruba II
Continued listening, speaking, reading, and writing in Yoruba with further study of the culture of Yoruba speaking regions. Prerequisite: YORU 1001 or equivalent.

YORU 2001-Intermediate Yoruba I
Building upon communication skills (understanding, speaking, reading, and writing Yoruba) and cultural understanding, developed at the elementary level. Prerequisites: YORU 1001 and YORU 1002 or equivalent.

YORU/AAST 3030-Selected Topics in Yoruba
Study of a topic in Yoruba literature, culture, society, thought or language not included in the regular offering. Continued development of all five language competencies (listening, speaking, reading, writing, and culture). May be repeated for credit provided a new topic is studied. Prerequisite: YORU 2002.
YORU/AAST 3130 - Yoruba Conversation
Continued development of all five language competencies: listening, speaking, reading, writing, and culture, with special emphasis on Yoruba conversation. Prerequisite: YORU 2001 or equivalent.

YORU/AAST 3330 - Yoruba Culture and Civilization
Introduction to Yoruba culture in Nigeria and other west African societies as well as the Dispora.

YORU/AAST 4890 - Directed Study in Yoruba
Concentrated study of a topic in Yoruba literature, culture, society, thought or language. May be repeated for credit provided a new topic is studied. Prerequisite: Two Yoruba courses at the 3000 level.
Admissions

The University accepts applications from qualified applicants from all cultural, racial, religious and ethnic groups. Admissions standards are designed to identify students whose academic backgrounds indicate they are capable of successfully completing work at Georgia Southern University. (See Equal Opportunity Policy statement inside the front cover.)

Applications for admission may be obtained from the office a high school or junior college counselors or by writing to the Office of Admissions, PO Box 8024, Georgia Southern University, Statesboro, Georgia, 30460-8024, 912-681-5532 and must be submitted prior to the application deadline. Students may also apply online via the World Wide web at http://www.gasou.edu/admininfo/

Normally all applicants who have applied or updated their applications prior to the application deadline for a specific term will be considered for admission. However, the University reserves the right to stop accepting applications at any time. Therefore, students are encouraged to apply or update well in advance of the application deadline.

The University reserves the right to examine any applicant by the use of psychological, achievement and aptitude tests. Each applicant must give evidence of good moral character, promise for growth and development, seriousness of purpose, and a sense of social responsibility.

The University reserves the right to require additional biographical data and/or an interview before the applicant is accepted or denied admission. If an interview is required, the applicant will be notified.

The Director of Admissions may refer any applicant to the Admissions Committee of the University for study and advice. The final decision of acceptance or denial will be made by the director of admissions subject to the applicant’s right to appeal as provided in the policies of the Board of Regents of the University System of Georgia.

An applicant who chooses not to enroll for the semester accepted must notify the Admissions Office to update term of application. Acceptance may be deferred until additional information is received.

Immunization Requirements

The Board of Regents of the University System of Georgia requires proof of immunization against measles, mumps, and rubella before students are allowed to register and attend classes at Georgia Southern University. The Department of Health Services administers this policy and will help students with appropriate forms and information.

Adequate immunization requires at least one (1) mumps shot, one (1) rubella shot, and two (2) measles shots administered after the student’s first birthday. For applicants born before January 1, 1957, proof of immunization against rubella is the only requirement.

The following three (3) groups of students may be exempt from the immunization policy: (1) those who were previously enrolled at Georgia Southern University, (2) those with religious objections, and (3) those with bona fide medical reasons certified by a physician. The latter two groups would be restricted from all campus premises in case of an outbreak of measles, mumps, or rubella at Georgia Southern University.

Forms and additional information may be obtained at Health Services, GSU Office of Admissions, and GSU College of Graduate Studies.

Beginning Freshmen

*An applicant will be eligible for admission upon compliance with the following requirements and conditions:

1. Graduation from an approved secondary school or possession of a Department of Education certificate awarded on the basis of the General Education Development (GED) Tests.**

2. Satisfactory completion of college preparatory subjects in high school which should include the following units:
   4 English
   3 Social Studies
   3 Mathematics (courses should include Algebra I, Algebra II, Geometry or Trigonometry).
   2 Foreign Language (must be the same language)
   3 Science/w Lab
   2 Additional Academic Courses

3. Submission of satisfactory scores on the College Entrance Examination Board Scholastic Aptitude Test (SAT) or American College Test (ACT).

4. U.S. Citizens or Resident Aliens for whom English is not the native language may be required to take the Michigan test upon arrival.

5. Submission of an official high school transcript directly from the high school to the University. A record of good conduct. Major or continued difficulty with the school or civil authorities may make an applicant ineligible regardless of academic qualifications.

6. Submission of a Medical History form (provided with an acceptance for admission). Applicants are usually admitted prior to high school graduation, once they have completed their junior year of high school and have submitted an official high school transcript. The transcript should include a satisfactory grade point average and satisfactory SAT or ACT scores.

An individual seeking admission as a special student, not pursuing a degree program must submit a statement as to the type of studies to be pursued and the reason for selecting a special program. The individual must also submit documents and satisfactory scores on such ability or achievement tests as may be prescribed by the Director of Admissions.

*Requirements are subject to change. Please contact the Admissions Office for current admission requirements.

**GED recipients are not eligible for admission before their high school class has graduated. Please note: Students applying to the GSU nursing program must meet general admissions requirements and also meet specific nursing program requirements. An additional application to the nursing program is required. Admission to GSU does not guarantee acceptance into the nursing program.
College Preparatory Curriculum (CPC)
The following courses are required of students who graduated from high school in the Spring of 1988 or later and plan to enroll in regular college programs leading to the baccalaureate degree in institutions of the University System of Georgia: four units of English (including grammar and usage, American and world literature, and advanced composition skills), three units of science (including physical science, at least two laboratory courses from biology, chemistry, or physics), three units of mathematics, three units of social science (including American history, world history, economics and government), and two units of the same foreign language (skills-building courses emphasizing speaking, listening, reading, and writing). The courses required for regular admission to institutions of the University System represent the minimum standards set forth by the Board of Regents.

Additional courses selected from the following areas are also strongly recommended: trigonometry, an additional laboratory course in science, a third course in foreign language or study of a second foreign language, fine arts (art, dance, drama, music), computer technology, health and physical education and typing.

Students who have completed the required courses of the college preparatory curriculum and who meet all other admission requirements will be admitted to Georgia Southern University as regular students. Students graduating with fewer than the required units in the college preparatory curriculum and who meet other standards for admission may be granted provisional status while they complete courses in the areas in which they are deficient. These are outlined below.

English
Students graduating with fewer than the four required units of English will be required to take the Collegiate Placement Exam (CPE) in English and reading. Based upon the score, the student would (1) exempt Learning Support English and/or Reading or (2) be placed in Learning Support English and/or Reading.

Mathematics
Students graduating with fewer than the three required units of mathematics will be required to take the Collegiate Placement Examination (CPE) in mathematics. Based upon the score, the student would (1) exempt Learning Support mathematics or (2) be placed in Learning Support mathematics at the appropriate level.

The following provisions apply to the science, social science, and foreign language requirements. They represent course-work beyond the requirements for the program in which the student is enrolled. The student receives credit for the courses, but the credit does not count toward a degree.

(1) The student must earn a “C” or better in each of these courses.

(2) Entering freshmen must enroll in courses to satisfy these deficiencies as soon as Georgia Southern University becomes aware of the deficiencies.

(3) Transfer students must take these courses immediately upon entering Georgia Southern University. The course(s) should be taken with the objective or goal of expanding the student’s previous exposure to the disciplines.

Science
Students graduating with fewer than three units of science will be required to take an additional four semester hour course in a laboratory science chosen from the approved laboratory science courses in Area D of the Core Curriculum.

Social Science
Students graduating with fewer than three units of social science will be required to complete one additional three semester hour course chosen from the approved social science courses in Area E of the Core Curriculum.

Foreign Language
Students graduating with fewer than two units of the same foreign language will be required to complete the first course (Elementary I) of a foreign language at Georgia Southern University. Course requirements will be based on the results of a placement exam. Most students with no foreign language study in high school will be required to take the first and second course of a foreign language.

Courses That Satisfy CPC
Social Science - One of the following college courses will satisfy the CPC deficiency:
ANTH 1102 - Introduction to Anthropology
GEOG 1130 - World Regional Geography
PSYC 1101 - Introduction to Psychology
SOCL 1101 - Introduction to Sociology

Science - One of the following courses will satisfy the CPC deficiency:
ASTR 1010/1211 - Astronomy of the Solar System/Lab
ASTR 1020/1221 - Stellar & Galactic Astronomy/Lab
Biol 1130/1110 - General Biology/Lab
Biol 1230/1210 - Environmental Biology/Lab
CHEM 1040 - Chemistry & the Environment with Lab
CHEM 1140 - Introduction to General & Organic Chemistry with Lab
CHEM 1145 - General Chemistry I with Lab
CHEM 1146 - General Chemistry II with Lab
GEOG 1111 - Physical Geography with Lab
GEOG 1121 - General Physical Geology with Lab
GEOG 1122 - General Historical Geology with Lab
GEOG 1330/1310 - Environmental Geology/Lab
PHYS 1111/1113 - General Physics I/Lab
(Requires Trigonometry)
PHYS 2211/1113 - Principles of Physics I/Lab
(Requires 2nd course in Calculus)
PHYS 1149 - Environmental Physics with Lab

Foreign Language. The first course in the Elementary Foreign Language sequence satisfies the CPC deficiency:
ARAB 1001 - Elementary Arabic I
CHIN 1001 - Elementary Chinese I
FREN 1001 - Elementary French I
FULA 1001 - Elementary Fulani I
GERM 1001 - Elementary German I
JAPN 1001 - Elementary Japanese I
KORN 1001 - Elementary Korean I
LATN 1001 - Elementary Latin I
RUSS 1001 - Elementary Russian I
SPAN 1001 - Elementary Spanish I
YORU 1001 - Elementary Yoruba I
Provisionally Accepted Freshmen

Freshmen accepted conditionally must have met SAT/ACT or grade-point average requirements. Students admitted under this provision must also take the Collegiate Placement Examination for placement purposes. See Learning Support in University Programs and Courses.

Students who are provisionally accepted to Georgia Southern University and/or must take the Collegiate Placement Exam will jeopardize their admission by enrolling at another institution prior to entering Georgia Southern University. They must exit Learning Support at that institution and complete 30 hours beyond Learning Support with a 2.0 grade-point average.

Post-Secondary Options Program

A student classified as a high school junior or senior may apply to enroll for college credit while attending high school. To be admitted, the student must satisfy the following:

A. Have earned an academic grade-point average of at least a 3.0; (80 on numeric scale);
B. Submit SAT scores of at least 1010 (recentered) or 900 (original scale);
C. Submit recommendation from the student’s counselor or principal;
D. Excel in the field in which the student is seeking to enroll;
E. Have written consent of parent or guardian (if the student is a minor);
F. Must be on track to complete College Preparatory Curriculum requirements. Dual credit (for high school and GSU) for CPC is allowed only in the final unit of English and social science if student has a minimum 530 verbal recentered SAT (450 verbal original scale SAT score) score or equivalent ACT score;
G. Meet all other regular admissions requirements.

Under the Post-Secondary Options Program, public high school students in the state of Georgia will be eligible for tuition waiver as long as the student plans to complete graduation requirements for the high school. Questions regarding this program should be directed to the student’s high school counselor or Guidance Office.

Students should confer with their high school counselor to determine which courses are necessary for satisfying high school graduation requirements. Placement in these courses cannot be guaranteed.

Private high school students may be joint-enrolled with GSU by meeting the same admissions requirements noted above. These students are not eligible for the tuition assistance available with the Post-Secondary Options Program.

Georgia public high school students planning to graduate from high school may be eligible for tuition grants from the State of Georgia.

Transfer Admission

* Applicants who have attended any college or university should satisfy the following:

1. Request the Registrar at each institution attended, regardless of length of attendance or amount of credit earned, to send an official transcript to the Director of Admissions.

2. Present a satisfactory academic record from each institution attended. Admission will be evaluated in accordance with one of the following categories, as appropriate:
   a. Generally, students completing an A.A. or A.S. degree with a 2.0 adjusted GPA (4.0 scale) in a college or university parallel curriculum will be offered admission.
   b. Students who have attempted 20 or more semester credit hours of collegiate work: admission will be granted only if the student has an adjusted grade point average of at least 2.0 on all collegiate work attempted or on the most recently attempted twenty semester credit hours.
   c. Students who have attempted fewer than 20 semester credit hours of collegiate work: admission will be granted only if the student meets all current requirements for regular freshman admission to Georgia Southern University and be eligible to return to their previous institution. GED transfer students are required to complete 20 semester hours.

*Applicants will not be eligible for admission if they are under current dismissal from any other institution. If you have attempted under 20 semester hours of college parallel credit at another institution and have not met Georgia Southern University’s freshman admissions requirements and/or enrolled in remedial/learning support courses at another college, you will not be eligible for admission until you have successfully completed the remedial learning support courses and have earned 20 semester hours of regular degree credit with a cumulative 2.0 grade-point average.

The Director of Admissions will ordinarily determine the applicant’s eligibility on the basis of the above requirements but may also require the applicant to meet any or all of the following:

1. Present transcripts of high school work and meet freshman admission requirements.
2. A personal interview.
3. Present results for any psychological, achievement or aptitude test that the college may prescribe.

Transfer students who graduated from high school in Spring of 1988 or later and have not completed at least 30 semester hours of accepted transfer Core Curriculum credits in Areas A, B, C, D, or E with a minimum of a 2.0 grade-point average must complete the College Preparatory Curriculum requirements of the University System of Georgia.

Transfer students from University System schools are required to complete CPC requirements regardless of hours accepted in transfer.

The applicant has the right to appeal the decision of the Director of Admissions to the University Admissions Committee. Students applying to the Nursing program must submit an additional application to the Nursing program and must meet additional admissions requirements.

*Students who are dually enrolled during high school with a college or university other than Georgia Southern University must meet the University System of Georgia’s joint enrollment requirements before credit will be awarded.
Transfer Credit/Military Credit
Accepted applicants who have attended any college or university may be granted advanced standing according to the following policies:
1. Transfer credit may be accepted from degree granting institutions that are fully accredited at the collegiate level by their appropriate regional accrediting agency. The regional accrediting agencies are: Middle States Association of Colleges and Schools, North Central Association of Colleges and Schools, New England Association of Colleges and Schools, Northwest Association of Colleges and Schools, Southern Association of Colleges and Schools, and Western Association of Colleges and Schools. Provisions may be considered when an institution appeals the policy. However, should the quality of the educational program of the institution attended appear to be mediocre or unsatisfactory, the Director of Admissions has the prerogative not to accept all or any part of previously earned credits.
2. The amount of academic credit accepted in transfer may not exceed the normal amount of credit that could have been earned at Georgia Southern University during that time.
3. Credit will be allowed for college courses completed which are parallel in nature. Below college level (remedial or refresher) courses cannot be accepted in transfer.
4. The Director of Admissions and the Registrar reserve the right to make judgments concerning satisfying requirements for areas A - E of the core curriculum.
5. Credits accepted in transfer by Georgia Southern University may not necessarily apply as hours toward graduation. Final determination, with exception of areas A - E of the core curriculum, will be made by the appropriate academic advisor and are subject to the regulations of the school and department granting the degree and major.
6. A maximum of 68 semester hours of work (including physical education courses) completed at a two year institution may be accepted.
7. A maximum of 30 semester hours of correspondence and military credit may be accepted for transfer within the following guidelines:
   a. Grade of "C" or higher required for courses completed by extension or correspondence.
   b. Ten semester hours credit for military service experience including Dantes and correspondence courses as recommended by the American Council on Education.
   c. Four semester hours of credit for physical education activity courses based on a minimum of one year’s active duty. The student should furnish a copy of the DD-214 to the Registrar’s Office.

Credit By Examination
Advanced Placement and CLEP
Georgia Southern University is a participant in the Advanced Placement Program and the College Level Examination Program (CLEP) of the College Entrance Examination Board. Under the Advanced Placement Program, a student offers a nationally graded examination as evidence of completion of a college level course taken in high school. Depending on the results of the examination, the student may receive credit for courses covering similar material. Under the College Level Examination Program, the University grants up to 30 semester hours of general education credit to those students who obtain the minimum scores defined by university policy. (Credit will not be awarded if the student has previously registered for a similar course or a more advanced course in the same field, or if six months have not elapsed since last taking the test.) For further information contact the Director of Admissions.

Proficiency Exams
Georgia Southern University also offers the student an opportunity to obtain credit by local proficiency examination. The procedure is as follows:
1. Student eligibility must be determined by the Registrar.
2. Student petitions department head of the subject area for an examination covering a particular course listed in the catalog.
3. The student and the examiner will decide the date and time of the examination.
4. If the petition is approved, the student must pay a test fee of $15 per test to the Cashier's Office. A receipt will be issued which will allow the student to take the class or test.
5. Credit obtained by proficiency examination will be considered resident credit.
6. The proficiency exam score must be at least a "C" to award credit by exam. The Registrar will enter a grade of "K" on student's academic record showing credit was earned by proficiency examination.

Transient Admission
Subject to the availability of faculty, space, and facilities, a regular undergraduate student in good standing at another accredited institution may be permitted to enroll one semester at Georgia Southern University in order to complete work to be transferred back to the parent institution. The transient applicant should:
1. Present a statement from the dean or registrar of the parent institution to the effect that he or she is in good standing and eligible to return to that institution. Must also furnish an official transcript from the last institution attended.
2. Comply with all regulations regarding the admission of transfer students, if, in the opinion of the Director of Admissions, there is doubt about the qualifications of the transient applicant.

Transient students applying for admission for Summer Term may be permitted to enroll with submission of the “letter of good standing” alone.

Admission as a Post-Baccalaureate Student
Applicants for admission with a bachelor’s degree from an accredited institution but who are not seeking graduate-level credit are expected to meet general admission requirements established for enrollment in undergraduate programs.

In addition to the general application for admission form, applicants are required to submit an official transcript to the director of admissions, from the institution in which they received their undergraduate degree. If the applicant is seeking an additional degree, official transcripts from all previous institutions will be required.

Individuals enrolled as post-baccalaureate students are eligible to take undergraduate level courses only.

Admission as an International Student
Georgia Southern University subscribes to the principles of international education and to the concept that education and understanding can promote respect, appreciation, and tolerance of others.
In addition to meeting the general admission requirements, a prospective international student must:

1. Present evidence of better than average grades in previous academic work. Georgia Southern University does not require the Scholastic Aptitude Test (SAT) from students whose first language is not English. Admission decisions are made on the basis of previous academic work. It is necessary that students present academic records which are above average.

2. Since Georgia Southern University offers both a non-credit Intensive English Program and a full range of English as a Second Language (ESL) instruction, the Test of English as a Foreign Language (TOEFL) is not required for admission. All students whose first language is not English, regardless of previous language instruction, are tested when they first arrive on campus. If proficiency does not meet Georgia Southern University standards, they are placed in either the Intensive English Program or an appropriate level ESL course. If placed in the Intensive English Program, the student may not take any additional coursework until English proficiency requirements are met. If placed in an ESL course, the student may take additional concurrent academic courses. ESL must be taken the first semester of enrollment and every semester thereafter until adequate proficiency is attained.

**Students who do not complete the English courses and attain proficiency in a reasonable period of time will be ineligible to continue enrollment at the University.**

3. Submit original or official copies of certificates, degrees or diplomas awarded, including grade reports. Originals may be copied for Georgia Southern University’s file and the original returned if the student so desires.

4. Provide evidence of ability to meet financial requirements during the term of enrollment.

5. If the student is in the United States or has a U.S. visa, a copy of the visa, the I-94 and passport information must be submitted at the time of application.

International student applicants who completed all or part of their education abroad are required to have their foreign credentials evaluated by an independent evaluation service. Contact the Office of Admissions for recommended agencies.

The Director of Admissions reserves the right to request other information necessary to evaluate the application. This institution also reserves the right to admit only those students who are academically qualified and who have proven their ability to meet the financial requirements while in attendance.

All international students are required to purchase an International Health Insurance Plan made available through the University. This health plan is administered by the Office of International Student Programs, and the current cost is $38.00 per month. **Substitutions are permitted rarely, and only when the student can provide written documentation from their insurance company, (in English) of an equally comparable plan which covers them during their stay in the U.S.** Substitution plans must be presented to the coordinator of the ISP Office for approval. Only after this approval, may the required health fees be waived for a student. Otherwise, the student is expected and required to pay the health fee in addition to their regular fees at GSU. Insurance is also available for dependents through this same health plan. Additional information and brochures on the International Health Insurance Plan can be obtained at the Office of International Student Programs located in the Rosenwald building.

Applicants needing a student visa may be required to submit a deposit before a Certificate of Eligibility will be issued. Continuation of the visa after the first calendar year requires additional proof and certification of the student’s financial ability.

International students with student visas are required to carry a full course of study in every term. A full course of study at Georgia Southern University is 8 semester hours for undergraduate students and 7 semester hours for graduate students.

**Special Admission for Students Age 62 and Older**

Georgia citizens who are 62 years of age or older have the option, as granted by Amendment 23 of the Georgia Constitution, of enrolling in the University without the payment of fees subject to the following conditions:

1. Must be a legal resident of Georgia.
2. Must be 62 years of age or older and present proof of age at the time of registration.
3. Must enroll as a regular student to audit or take courses offered for resident credit.
4. Must pay for supplies, laboratory or fees.

Individuals who do not qualify as mature students (see below) must also satisfy the following:

5. Must meet all Georgia Southern University and University System of Georgia admission requirements including high school graduation, SAT or ACT scores, and participation in Learning Support if required.
6. If the applicant has previously attended another college or university, he or she must satisfy transfer admission requirements.
7. If a course of study is pursued to degree, all institutional, system, and state-legislated degree requirements must be met. (See REQUIREMENTS FOR GRADUATION.)

**Special Admission for Mature Students**

Applicants applying for admission as a mature student summer semester and subsequent semesters must meet following requirements:

1. Students who have not attended high school or college within the previous five years and have earned fewer than 20 transferable semester hours of college credit are not required to take the SAT or ACT. These students, however, shall take the University System of Georgia Collegiate Placement Examination (CPE) and complete Learning Support requirements.
2. Applicants must submit a high school transcript or GED diploma.

**Readmission Policy**

The following students must fill out a former student readmission application:

1. Students who do not attend the University for one calendar year.
2. Students whose most recent academic standing was learning support dismissal must file an application for readmission by the published deadlines in the University Calendar. Students who are not required to file an application for readmission who have attended another institution while away from Georgia Southern University should contact that school and have an official transcript sent to Georgia Southern University. The transcript must indicate that the student is in good academic standing at the last school attended. Failure to submit this transcript by the midpoint of the first term after returning to Georgia Southern University could result in the administrative withdrawal of the student.
3. Students whose most recent academic standing was exclusion.
4. Students that have earned a baccalaureate degree from Georgia Southern University that wish to enroll in additional undergraduate courses.
5. Students that wish to return as a transient student to Georgia Southern University. Students that are not required to fill out a former student readmission application should contact the Office of the Registrar three days prior to the scheduled registration date. See University Calendar for registration dates.

Residency
Regents' Policies Governing Classification of Students for Tuition Purposes: Under the Constitution and the laws of Georgia, the Board of Regents of the University System of Georgia was created to govern, control and manage a system of public institutions providing quality higher education for the Georgia citizens. The State, in turn, receives substantial benefit from individuals who are attending or who have attended these institutions through their contributions to the civic, political, economic and social advancement of the citizens of Georgia. Because of the overwhelming amount of financial support supplied by the citizens of Georgia, the determination of whether a student is a resident or a non-resident of Georgia is a significant matter. The tuition paid by in-state students covers about one-fourth of the total cost of their education in Georgia. Georgia taxpayers are therefore contributing 75 percent of the funds for quality education in the state. State colleges and universities often assign out-of-state students a higher tuition rate in an attempt to achieve parity between those who have and those who have not contributed to the state's economy recently. The courts consider the duration residency requirement (usually 12 months) imposed by most states to be a reasonable period during which the new resident can make tangible or intangible contributions to the state before attending state colleges as an in-state student. The term "resident" is confusing because it can refer to voter registration, driver's license, automobile registration, income taxes and other matters. A student may be a resident of Georgia for some purposes, but not entitled to in-state tuition fees. Courts have consistently upheld the right of these institutions to charge out-of-state students higher rates. The courts have also upheld the institutions’ right to adopt reasonable criteria for determining in-state status. Through the resident and non-resident fees, the taxpayers of Georgia are assured that they are not assuming the financial burden of educating non-permanent residents.

If a person has moved to the state of Georgia for the purpose of attending a Georgia educational institution, it is difficult for that person to prove his/her intent to become a legal resident of the state.

(The American Heritage Dictionary of the English Language defines intent in the following manner:

n. 1. That which is intended; aim; purpose.)

Due to the requirement that a person prove his/her intent to have become a legal resident of the state of Georgia, his/her petition may not be approved. The burden of proof is always on the student, and documentation is absolutely necessary to prove any claims. If his/her petition for legal residency for tuition purpose is denied, the student may appeal the decision at the next level.

Student Responsibilities
A. Student Responsibility to Register Under Proper Classification-The responsibility of registering under the proper tuition classification belongs to the student. If there is any question of his/her right to in-state tuition status, it is his/her obligation, within 60 calendar days of his/her registration, to raise the question with the administrative officials of the institution in which he/she is registering and have it officially determined. The burden always rests with the student to submit information and documents necessary to support his/her contention that he/she qualifies for a particular tuition classification under Regents' regulations.

B. Notification of Change in Circumstances-A student who is classified as an in-state student must notify the proper administrative officials of the institution immediately of any change in his/her residency status, or of any other change which may affect tuition classification.

C. Official Change of Tuition Status-Every student classified as a nonresident shall retain that status until such time as he/she shall have petitioned for reclassification in the form prescribed by the institution and shall have been officially reclassified in writing as an in-state student by the proper administrative officer. No more than one application may be filed for a given semester.

D. Reclassification-Every student who has been granted in-state tuition as a legal resident of Georgia shall be reclassified as an out-of-state student whenever he/she reports, or there have been found to exist, circumstances indicating a change in legal residence to another state.

Regents' Policies Governing the Classification of Students for Tuition Purposes
1. (a) If a person is 18 years of age or older, he or she may register as an in-state student only upon a showing that he or she has domiciled in Georgia for a period of at least 12 months immediately preceding the date of registration. During this twelve month period, the student must show that he or she has been self-supporting and has taken the necessary steps to become a legal resident normally taken when moving into a new state.

(b) No emancipated minor or other person 18 years of age or older shall be deemed to have gained or acquired in-state status for tuition purposes while attending any educational institution in this state, in the absence of a clear demonstration that he or she has in fact established legal residence in this state.

2. If a person is under 18 years of age, he or she may register as an in-state student only upon a showing that his or her supporting parent or guardian has been a legal resident of Georgia for a period of at least twelve months immediately preceding that date of registration.

3. If a parent or legal guardian of a minor changes his or her legal residence to another state following his or her legal residence in Georgia, the minor may continue to take courses for a period of 12 consecutive months on the payment of in-state tuition. After the expiration of the 12-month period, the student may continue his or her registration only upon the payment of fees at the out-of-state rate.

4. In the event that a legal resident of Georgia is appointed as guardian of a nonresident minor, such minor will not be permitted to register as an in-state student until the expiration of one year from the date of court appointment, and only upon a proper showing that such appointment was not made to avoid payment of the out-of-state fees.
5. Aliens shall be classified as nonresident students. However, an alien who is living in this country under an immigration document permitting indefinite or permanent residence shall qualify for in-state tuition.

Waivers
An institution may waive out-of-state tuition for:
(a) Nonresident students who are financially dependent upon a parent(s) or a spouse who has been a legal resident of Georgia for at least 12 consecutive months immediately preceding the date of registration provided that such financial dependence shall have existed for at least 12 consecutive months immediately preceding the date of registration.
(b) International students, selected by the institutional president or authorized representative, provided that the number of such waivers in effect does not exceed one percent of the equivalent full-time students enrolled at the institution in the fall semester immediately preceding the semester for which the out-of-state tuition is to be waived.
(c) Full-time employees of the University System, their spouses and their dependent children.
(d) Medical and dental residents and interns at the Medical College of Georgia.
(e) Full-time teachers in the public schools of Georgia or in the programs of the State Board of Technical and Adult Education and their dependent children. Teachers employed full-time on military bases in Georgia shall also qualify for this waiver.
(f) Career consular officers and their dependents who are citizens of the foreign nation which their consular office represents, and who are stationed and living in Georgia under orders of their respective governments. This waiver shall apply only to those consular officers whose nations operated on the principle of educational reciprocity with the United States.
(g) Military personnel and their dependents stationed in Georgia and on active duty unless such military personnel are assigned as students to System institutions for educational purposes.
(h) Selected graduate students at university-level institutions.
(i) Students who are legal residents of out-of-state counties bordering on Georgia counties in which an institution of the University system is located and who are enrolled in said institution.

Procedures for Obtaining Georgia In-State Classification
Students who are classified by Georgia Southern University as out-of-state, but who later claim to qualify as in-state students must file a "Petition for Classification as a Legal Resident of Georgia" form with the Registrar's Office. A student's tuition status isn't changed automatically, and the responsibility for proving in-state status is the student's. Out-of-state students or applicants who believe that they are eligible for in-state benefits must apply for this status.

A person's legal residence is defined as the place where a person intends to remain indefinitely. There must be a concurrence of actual residence and the intent to remain at that legal residence.

Auditing Courses
Applicants wishing to audit a course may be exempt from the necessity of taking the SAT. All other admission requirements must be met and regular fees paid. Audit acceptances will be awarded on an individual basis and at the discretion of the Director of Admissions. Georgia Southern University also reserves the right to require the college placement exam. Academic credit is not awarded for auditing a class. Students may not transfer from audit to credit status, nor from credit to audit status after the last day of registration. Students who enroll only to audit courses are approved for one semester at a time and must be approved each semester. After registering to audit a course, students who do not attend 75 percent of the classes will receive a "W" (administrative withdrawal). A grade of "V" (audit) is entered on the record for satisfactory class attendance.

Special Students
Special students and all other students of classifications not covered in these policies shall be required to meet all requirements for admission to undergraduate or graduate programs of work and to meet any additional requirements that may be prescribed by Georgia Southern University.
Financial Aid

Georgia Southern University offers a comprehensive program of financial aid for students who, without such aid, would be unable to continue their education. Through this program, an eligible student may receive one or more types of financial aid: assistantships, employment, fellowships, grants, loans, and scholarships. Most financial aid at Georgia Southern University is awarded on the basis of a student’s academic progress and proven “financial need,” defined as the difference between a family’s estimated resources and the total estimated expense of attending the University. Georgia Southern University uses the Free Application for Federal Student Aid (FAFSA) form provided by the U.S. Department of Education to measure a student’s financial need eligibility. Students may receive financial aid for up to 45 credit hours of Learning Support Program course work. Contact the Department of Financial Aid at (912) 681-5413 for help with questions and problems. The Financial Aid Department, part of the Division of Student Affairs is located on the ground floor of Anderson Hall. The fax number is (912) 681-0573.

Mailing address:
Department of Financial Aid
Post Office Box 8065
Georgia Southern University
Statesboro, Georgia 30460-8065

Five forms of financial aid are available:

1. **Assistantships**—The Graduate School has numerous positions within the various departments on campus. Students usually work 15 hours a week and are compensated with monthly stipends and tuition supplements.

2. **The Federal Work-Study Program (FWS)** provides jobs to students who qualify for financial aid. Students normally work two hours per day for various wages.

3. **Grants**—Federal, state and privately funded grant programs are available to students enrolled at Georgia Southern University.

4. **Loans**—Several loan programs are available from state and federal agencies, private and public foundations. Each incorporates its own eligibility and repayment requirements.

5. **Scholarships**—Georgia Southern University offers a limited number of academic scholarships to its students. These awards may be divided into two categories: “General Scholarships” and “Departmental Scholarships.” A scholarship pamphlet details the requirements for General Academic Scholarships and identifies departments that offer academic scholarships. For information regarding Athletic Scholarship programs, contact the Athletic Administration Division at (912) 681-5047.

**Application Procedures**

To apply for any Federal Title IV aid:

1. Complete and submit an Application for Admission to attend Georgia Southern University.

2. Complete and submit a Free Application for Federal Student Aid by March 15 of the year you plan to enroll. You must list Georgia Southern University as one of the schools you plan to attend in Section G, questions 90-101.

3. A number of programs require separate applications. Please note these and request those applications for the program in which you feel you can establish eligibility.

4. Enrolled students should re-apply for aid by March 15 of each year.

5. All students must have completed the Board of Regents’ Immunization policy.

March 15 is a preferred filing date for financial aid. Applicants not filing by this date will be considered if funds are available.

More detailed information about financial programs can be secured by writing to the Department of Financial Aid.

**Assistantship Programs**

**Graduate Assistantships**—Qualified graduate level students may be given financial aid in the form of Assistantships. Persons holding Assistantships are expected to render certain service to the University. The head of the school, division, or department to which the graduate student is assigned will outline the required duties. Students are generally expected to work 15 hours per week. To be eligible for appointment as a graduate assistant, the applicant must be regularly admitted to the College of Graduate Studies. Schedules of stipends for graduate assistants may be obtained through the College of Graduate Studies, PO Box 8113, Georgia Southern University, Statesboro, GA 30460-8113, (912) 681-0578.

**Employment Programs**

The University offers two student employment programs. For more information on these programs, students should contact the Department of Financial Aid, PO Box 8065, (912) 681-5413.

**Federal Work-Study Program**—The Federal Work-Study Program (FWS) provides jobs for students who need financial aid and who must earn part of their educational expenses. Students must file the Free Application for Federal Student Aid and establish financial need to be awarded FWS. Applicants must be enrolled at least half-time in a vocational, undergraduate, or graduate program. The amount of the award depends upon demonstrated financial need and the amount of funds available. The standard award allows the student to work two hours a day during the 15-week semester.

**Institutional Work Program**—The Institutional Work Program helps students find part-time jobs in the various departments on campus. All currently enrolled students may participate, and no financial eligibility requirements apply. Interested students should stop by the Department of Financial Aid in order to review the various on-campus job openings. The Financial Aid office, located in Anderson Hall, also provides information about part-time job opportunities available in the Statesboro area. All currently enrolled students may participate in the program as there are no financial eligibility requirements.

**Grant Programs**

**Law Enforcement Personnel Dependents Grant**

The Law Enforcement Personnel Dependents Grant is an award for children of Georgia law enforcement officers, firemen, and prison guards who have been permanently disabled or killed in the line of duty. Applicants must meet the five basic eligibility requirements for state grant programs. The grant is $2,000 per academic year, not to exceed $8,000 during an entire program of study. Applications should be filed by August, or at least 30 days prior to the beginning of any subsequent school term. For information contact the Georgia Student Finance Authority, 2082 East Exchange Place, Suite 200, Tucker, GA 30084, (770) 414-3084.
Federal Pell Grant

The Federal Pell Grant is the primary federal student aid program administered by the U.S. Department of Education. It is intended to be the first and basic component of an undergraduate student’s financial aid package. To be eligible:

- You must show financial need.
- You must be enrolled in an approved undergraduate course of study and must not have a bachelor’s degree.
- You must be a U.S. citizen or an eligible non-citizen as defined in the instructions of approved Federal Pell Grant application forms.

You may receive a grant each academic year until you receive your bachelor’s degree. Federal Pell Grants range from $400 to $3000 per year (but may vary pending Federal enactment). Follow the instructions on the need analysis form to apply for the Federal Pell Grant. Apply for the Pell Grant as early as January, but no later than May 1.

Drug Policy - Anti-Drug Abuse Act of 1988

It is the policy of Georgia Southern University and the Office of Student Financial Aid that when the University or the Financial Aid Department is officially notified that a student, who is a recipient of a Federal Pell Grant, is convicted via a court of law of a drug offense during the period of enrollment covered by the Federal Pell Grant, and for which the student had previously certified he or she would be drug free, that individual’s violation of the certification statement must be reported to the United States Department of Education Office of Inspector General, in accordance with section 668.14 (g) of the Title IV Higher Education Act of 1965 and its amendments. Upon the final determination by the Office of the Inspector General, and the notification to Georgia Southern University, the Financial Aid Department will implement the recommendations set forth in their findings, which may include the withholding of all further Title IV and institutional payments to the student. Until a final determination is made regarding fraud on the part of the student, the student will remain eligible for financial aid.

Regents Opportunity Grant for Graduate and Professional Students

The Regents Opportunity Grant for graduate and professional students is a state program for economically disadvantaged students who are enrolled full-time in approved graduate programs at Georgia System of Georgia schools. Awards are made by August 1 each year. Contact the College of Graduate Studies, PO Box 8008, (912) 681-5384.

Student Incentive Grant

The Student Incentive Grant (SIG) is a federal and state grant program for Georgia citizens enrolled in approved colleges, vocational-technical schools, and hospital schools within the state. Applicants must meet all eligibility requirements listed below:

- You must not have a four-year or a five-year college degree.
- You must not owe a refund on a previous Federal Student Grant nor be in default on any Federal Student Loan.
- You must show substantial financial need.
- You must be maintaining satisfactory progress in the course of study you are pursuing according to the standards and practices of the school you are attending.
- You must be enrolled in good standing or accepted for admission at Georgia Southern University.

- You must be a legal resident of Georgia for a minimum of 12 consecutive months immediately preceding the date of registration for the school term for which a state educational grant is being sought.
- You must be a U.S. citizen or classified as a permanent resident alien.
- You must not be receiving a scholarship or grant from any state agency outside Georgia during the school year.
- You must be enrolled as a full-time undergraduate student each school term.

The standard SIG awarded at Georgia Southern University is $600 per academic year. Awards are not made for summer term. The total number of awards will depend on the amount of funds approved by the Georgia General Assembly for this program.

To apply:

- Complete the FAFSA Application.
- Applications are evaluated on a first-completed, first-served basis as long as funds remain available.

Federal Supplemental Education Opportunity (FSEOG)

The Federal Supplemental Education Opportunity Grant (FSEOG) is a federal program administered by the Federal Aid Department to assist undergraduate students with financial need. To be eligible:

- You must show substantial financial need by using the FAFSA form.
- You must be eligible for Federal Pell Grant.
- You must be enrolled in an undergraduate course of study and you must not have a bachelor’s degree.

The standard grant amount awarded is $400 per academic year. The federal funding for this program is usually limited; therefore, many schools deplete this fund rapidly.

- Complete FAFSA application

Loan Programs

Federal and State Loan Programs

Federal Perkins Loan Program

The Federal Perkins Loan Program is a low-interest (5 percent) government loan for undergraduate students with exceptional financial need. This program is administered by the Department of Financial Aid at Georgia Southern University. Student eligibility is based upon a predetermined awarding formula using available funds.

Maximum Loan Amounts

You may be awarded up to $3,000 for each year of undergraduate study. The total amount you can borrow as an undergraduate is $15,000. However, the standard Perkins Loan awarded at Georgia Southern University is $900 per academic year.

Repayment Obligation

Repayment begins nine months after you graduate or leave school. You may be allowed up to 10 years to repay the loan. During the repayment period, you will be charged five percent simple interest on the unpaid balance of the loan principal. The minimum monthly payment is $40.

Application Procedure
- Complete the FAFSA.
Statement of Rights and Responsibilities Under the Federal Perkins Loan Program: A Federal Perkins Loan is a serious legal obligation. Therefore, it is extremely important that you understand your rights and responsibilities.

1. You must, without exception, report any of the following changes to the Federal Perkins Loan Collections Office, Georgia Southern University, PO Box 8119, Statesboro, GA 30460, (912) 681-5974;
   - (a) If you withdraw from school
   - (b) If you transfer to another school
   - (c) If you drop below half-time enrollment status
   - (d) If your name should change (because of marriage, for example)
   - (e) If your address or your parents’ address changes
   - (f) If you join military service, Peace Corps, or VISTA

2. When you graduate or withdraw from Georgia Southern University you MUST arrange for an exit interview by calling (912) 681-5974.

3. Your first monthly payment will be due 9 months from the time you cease to be at least a half-time student.

4. Your minimum monthly payment will be at least $40

5. The annual percentage rate of 5 percent will be the FINANCE CHARGE based on the unpaid balance and will begin to accrue six months after you cease to be enrolled as at least a half-time student.

6. Cancellation will be granted for certain types of elementary or secondary school teaching; for military service in areas of hostilities; for full-time staff members in Head Start; and for permanent disability. You also accept the responsibility to inform the school of such status. In the event of death, family members should contact the school.

7. If you enter the military service, Peace Corps, VISTA, or comparable tax-exempt organization, full-time active duty in the Commissioned Corps of the U.S. Public Health Service, while temporarily totally disabled, or return to at least half-time study at an institution of higher education, you may request that the payments on your National Direct Student Loan be deferred.

8. If you fail to repay any loan as agreed, the total loan may become due and payable immediately and legal action could be taken against you.

9. You must promptly answer any communication from Georgia Southern University regarding the loan.

10. You may repay at anytime. Future interest payments will be reduced by making such payments. If you cannot make a payment on time, you must contact Georgia Southern University Federal Perkins Loan Office at (912) 681-5974.

12. Your loan history will be reported to a credit bureau at the time of disbursement.

13. When you sign the loan agreement, you authorize Georgia Southern University to contact any school which you may attend to obtain information concerning your student status, year of study, dates of attendance, graduation, withdrawal, transfer to another school or current address.

Federal Direct Stafford Loan

The Federal Direct Student Loan Program provides low-interest, long-term loans through the University. Funding for these loans comes from the Department of Education. These loans can be subsidized or unsubsidized. Eligible students must be admitted and enrolled in good standing at least half-time in a program leading to a degree or certificate. If you drop below half-time status during a semester, the remainder of your loan may be canceled.

Before a Federal Direct Student Loan is disbursed, students are asked to attend an entrance loan counseling session. Sessions are scheduled at the beginning of each term.

The amount you may borrow is determined by federal guidelines. The federal maximum that you are allowed to borrow follows:

- For those who have not completed their first year - $2,625 yearly.
- Once sophomore classification is obtained, the student may borrow $3,500 yearly.
- Students who are classified as juniors or seniors may borrow $5,500 yearly.
- Graduate and professional school - $8,500 yearly.

Repayment normally begins six months following graduation or when you cease to be at least a half-time student. Payments and the length of the repayment period depend on the size of your debt, but must be a minimum of $600 per year. Under special circumstances, repayment of a Federal Direct Stafford Loan that is not in default may be deferred or canceled. Repayment, deferment, and cancellation are handled by a federal loan servicer. If you are eligible for a Federal Direct Stafford Loan, you will be awarded one (either subsidized or unsubsidized or a combination of both) as part of your financial aid package. Please read the following paragraphs to learn the differences between the subsidized and unsubsidized Federal Direct Stafford Loans. If you decide to borrow a Federal Direct Stafford Loan, you are required to sign a promissory note which the university will forward to a federal loan servicer.

Subsidized Federal Stafford Loan

The amount of subsidized Federal Direct Stafford Loan you may borrow is the difference between the cost of education (your budget) and your resources (family contribution, financial aid such as Federal Perkins Loan, College Work Study, and any other assistance you receive from the school, and outside resources including scholarships). However, you cannot borrow more than the federal maximum for your grade level.

If you are eligible for a subsidized Federal Direct Stafford Loan, the government will pay the interest for you until repayment begins. You will be assessed a 4 percent loan origination fee. These amounts are deducted from the loan proceeds but will not reduce the principal balance you are required to repay.

Unsubsidized Federal Stafford Loan

The unsubsidized Federal Direct Stafford Loan can replace all or part of the family contribution. However, the amount of the loan cannot be more than the difference between the cost of education and any financial assistance you will receive from the school and any outside source (including the subsidized Federal Direct Stafford Loan). If you are a dependent student, your total Federal Direct Stafford Loan (subsidized, unsubsidized, or a combination of both) cannot exceed the federal maximum according to your classification.

Federal Direct Lending Program

Georgia Southern University participates in the Federal Direct Lending Program. We will lend funds from the Department of Education “directly” to students through the Federal Direct Stafford Loan Program and to the parents through the Federal Direct PLUS (Parent Loan for Undergraduate Students) Program.

The University is responsible for providing, collecting, and forwarding a signed promissory note to a contracted loan servicer. When loans are due, borrowers will repay them directly to the federal government through the loan servicer.
Interest accrues on the unsubsidized Federal Direct Stafford Loan while you are in school and during the six-month grace period before repayment begins. You have the option of paying the interest monthly, quarterly, or having the interest added to the principal. A 4 percent origination fee is deducted from each disbursement of an unsubsidized loan. These charges do not reduce the amount you are required to pay.

**Additional Unsubsidized Federal Direct Stafford Loan**

If you are an independent undergraduate student or a dependent student whose parents are unable to get a PLUS Loan, you may borrow an additional unsubsidized Stafford loan as follows: students in their first and second undergraduate year may borrow a maximum of $4,000 per academic year; students in their third, fourth, or fifth undergraduate years may borrow a maximum of $5,000 per academic year; and graduate students may borrow $10,000 per academic year in addition to the loan limits mentioned previously.

**Federal Direct Parent Loan for Undergraduate Students**

If you are a dependent student, you may be eligible for Federal Direct Parent Loan for Undergraduate Students (PLUS) to meet your education expenses. This loan is available through the University and is funded by the Department of Education. The amount a parent may borrow each year is the difference between the student’s cost of education and any financial assistance the student will receive from the school and outside sources (including any subsidized and unsubsidized Federal Direct Stafford Loan the student is eligible to receive).

The interest rate on the Federal Direct PLUS is variable but cannot exceed 9 percent a year. Repayment begins within 60 days of disbursement. The borrower is charged a 3 percent origination fee and a 1 percent insurance fee.

Applications are available in the Department of Financial Aid. The University is responsible for forwarding a completed application/promissory note to the loan servicer. Parent borrowers who are not eligible for PLUS loan disbursements should ask the student to contact the Financial Aid Office for assistance through other programs.

**State Direct Student Loan**

The State Direct Student Loan program provides service-cancelable loan assistance to Georgia students enrolled in approved fields of study in which personnel shortages exist in the state. (Fields of study and eligibility requirements are subject to change.) The Georgia Student Finance Authority (GSFA) administers the program as an eligible lender under the Georgia Stafford Loan program. GSFA makes loans to students that are subject to the same eligibility, interest, and repayment requirements as other loans made to students by commercial lenders and guaranteed by Georgia Higher Education Assistance Corporation.

**Eligibility**

- You must be a legal resident of Georgia as defined by the Georgia Student Finance Authority.
- You must meet at least one or more of the following criteria. There may be additional requirements depending on the field of study:
  - Be seeking a cash repayable loan; and
  - Be accepted for admission or enrolled in an approved field of study as listed below:

**Undergraduate/Vocational/Hospital Nursing (BS)**

**Graduate and Specialized Nursing (master’s degree)**

**Maximum Amounts for Service-Cancelable Loans**

Service-Cancelable loan amounts are limited due to the large number of loan requests and a limited appropriation of funds for this program. The average cancelable undergraduate/graduate loan is $2,000 per academic year.

**Repayment Obligation**

The repayment obligation for the SDSL is the same as for the Stafford Loan program with the following exception. A student who has received one or more service-cancelable loans may choose to cancel the loan obligation by practicing in an approved Georgia location 12 months for each academic year of assistance.

**Application Procedure**

- Complete the appropriate need analysis form and designate the school that is to receive a copy of the results.
- Complete the Georgia Application and Promissory Note for a Guaranteed Student Loan (now the Stafford Loan).
- Complete the GSFA State Programs Loan “Transmittal Letter.”
- Have the school’s financial aid officer certify your enrollment or acceptance for admission in an approved field of study.
- For priority consideration, submit applications no later than June 1 for any period of study beginning with the fall term and no later than 30 days prior to the beginning of any subsequent period of study.

Application forms may be obtained from the financial aid office of GSFA-approved schools and from the GSFA office. The application process for this program is currently under review by the Georgia Student Finance Authority and is therefore subject to change.

**Pickett and Hatcher Loan Fund**

Available to students pursuing their first baccalaureate degree in any area excluding law, medicine and the ministry. Applicants must be citizens of the United States, a legal resident of Georgia, and be or plan to be, enrolled in a college or university located in one of nine Southeastern states. Full-time enrollment and maintenance of a “C” average or better are required. The maximum loan amount is $3,000 for an academic year or $4,000 for a calendar year. Interest accrues at a rate of two percent (2%) per annum while in school and increases to six percent (6%) per annum upon graduation, cessation of full-time enrollment, or entrance into one of the excluded areas of study. Applicants who have, or will have, unpaid personal educational loans from other sources should not submit an application to this fund. Applications may be requested after October 1 preceding the academic year for which the loan is requested and must be received no later than May 15. For an application, information regarding repayment and/or additional information contact: The Pickett & Hatcher Educational Fund, Inc., P.O. Box 8169, Columbus, GA 31908, (706)327-6586.

**Hope Scholarships**

The Hope Scholarship—Helping Outstanding Pupils Educationally—is Georgia’s unique new program that rewards hard working Georgia high school students with matriculation scholarships in degree programs at any Georgia public college, university, technical institute, or eligible private institution.
If you graduated from high school in 1993 or later, you can qualify as an incoming freshman for a college scholarship with a High School GPA of at least 3.0 for a college prep curriculum, or a 3.2 for any other curriculum. You must also be a legal resident of Georgia or be considered a Georgia resident for purposes of in-state tuition when first admitted to GSU. HOPE awards may only be applied to any matriculation amounts not covered by PELL or other Federal grants. A Free Application for Federal Student Aid (FAFSA) must be completed.

The Standard Scholarship amount awarded is equal to the cost of tuition and fees per semester, plus a book allowance of $150 per semester.

HOPE eligibility is reviewed at the end of the semester in which you obtain 30, 60, and 90 attempted hours. “Attempted hours” refers to all hours attempted at Georgia Southern University including classes which you may have dropped as well as hours transferred from another institution.

Contact the HOPE coordinator for other requirements and further information, (912) 681-5413. Additional restrictions may apply. The above is based on the most recent information from the Georgia Student Finance Authority and is subject to change.

Hope Promise—Students planning to enter a teaching field with at least a 3.6 GPA at the beginning of their junior year may receive $3,000 per year from the HOPE Promise Program. Contact the College of Education for an application.

Hope Teacher Scholarship
The HOPE Teacher Scholarship is funded by the Georgia Lottery for Education and is a component of the HOPE Scholarship Program, a division of the Georgia Student Finance Authority. The scholarship provides financial assistance to teachers, counselors, and individuals who are seeking advanced degrees in critical fields of study. Scholarship recipients agree to teach in a Georgia public school at the preschool, elementary, or secondary level after graduation. If a recipient fails to meet this obligation, the scholarship becomes a loan, which must be repaid in cash, with interest.

One thousand scholarships are available for the 1998-99 academic year and will be awarded on a first-come, first-serve basis. Award amounts are based on the number of courses required to complete the degree program. Awards can be used to attend any term during the year and will be based on the student’s cost of attendance, any other scholarship and grants the student is receiving, and the number of semester hours the student is enrolled each term.

The maximum awards for each term depend on the number of credit hours for which the student is enrolled.

Eligibility Requirements for Hope teacher Scholarships:
In order to apply and be selected, you must:
1. Be a legal resident of Georgia;
2. Be a United States Citizen or Permanent Resident Alien who meets the definition of an eligible non-citizen under Federal Title IV requirements;
3. Be admitted into graduate school and into an advanced degree teacher education program in a critical field of study (listed in Part A, Item 19 of the application);
4. Be certified by the Department of Education teacher certification official at the eligible institution to be admitted into an advanced degree teacher education program in a critical field of study leading to certification;
5. Agree to teach in a Georgia public school at the preschool, elementary, middle, or secondary level after graduation;
6. Not owe a refund on a grant or scholarship previously received under any State of Georgia or Federal program for attendance at any post-secondary educational institution; and,
7. Not be in default on a loan previously obtained under any State of Georgia or Federal program for attendance at any post secondary educational institution.

Satisfactory Academic Progress Policy
Requirement and Definition
Students receiving financial aid must be making satisfactory academic progress in accordance with the policies outlined below. Satisfactory progress means that a student is advancing toward his/her degree objective in a manner consistent with prescribed policies of the college.

The Department of Financial Aid is responsible for evaluating satisfactory academic progress of students receiving financial assistance from the following programs: Federal Perkins Loan, Federal Pell Grant, Federal Subsidized and Unsubsidized Stafford Loan, Federal College Work Study, Federal Supplemental Educational Opportunity Grant, Georgia Student Incentive Grant and Federal PLUS Loan and HOPE Scholarship.

Georgia Southern University’s SAP policy requires maintaining academic standards based on the following three criteria:

1) Grade Point Average (GPA Requirements)
Undergraduates and post baccalaureate students must maintain a 2.0 minimum adjusted cumulative GPA to remain in good standing for financial aid and academic purposes. Graduate students must maintain a 3.0 minimum adjusted cumulative GPA to remain in good academic standing for financial aid and academic purposes. Failure to maintain the required minimum adjusted cumulative GPA standards will result in academic and financial aid probation. When a student’s unsatisfactory academic standing results in exclusion from school by the Registrar’s Office, the student is also excluded from receiving financial aid. Student’s GPA requirements are evaluated at the end of each term.

2) Credit Hour Completion (SAP Incremental Progress Required)
Students are required to earn a minimum number of hours each academic year depending on their enrollment status. Undergraduate, post baccalaureate and graduate students who enroll for full-time, three-quarter time or part-time course work throughout each academic year should complete 66% of all attempted hours registered for during each academic year. Note that these are minimum requirement standards and that most students will complete the required course work at a faster rate. Students’ incremental progress is evaluated biannually at the end of the Spring term and at the end of the Summer term for students taking summer course work.
3) Maximum Time Frame
   Undergraduate: Students in a 4-year program, who have attempted more than 150% of the published length of a degree program will have their aid terminated. All terms of enrollment will count toward the maximum time limit. Terms in which no aid is received will count if the student is enrolled after the first week of classes. For example, the published degree program length is 135 credit hours, the maximum time frame would be 203 credit hours (135 X 150%). A student must have at least a 2.0 adjusted cumulative grade point average and be projected to receive his/her degree the term immediately after earning the maximum hours (i.e. 203 credit as stated in the above example) to be considered to be making satisfactory academic progress.

   Graduate: Students in a Masters program who have attempted more than 150% of the published length of a degree program will have their aid terminated. A student must have at least a 3.0 cumulative grade point average and be projected to receive his/her degree the term immediately after earning the maximum hours will be considered making satisfactory progress. Students’ maximum time frame progress is evaluated biannually at the end of spring term and at the end of summer term for students taking summer course work.

Learning Support Classes
   Learning support students will have their first 45 credit hours of learning support course work excluded from the maximum time frame calculation defined above. Learning support credit hours in excess of 45 will be included in the maximum time frame and the required percentage of credit hour completion. Upon a student successfully exiting the Learning Support program, the grades earned through learning support course work will be included in the calculation of the adjusted cumulative GPA.

Dropped and Repeated Courses
   All credit hours attempted during each term in which a student is enrolled and receives aid will count toward the maximum time frame and minimum credit hours completion. A student is considered enrolled based on the number of credit hours registered after the second day of academic term. Students who drop courses or completely withdraw from the University during the 100% refund period, will not have those hours considered in determining total hours registered. Students who drop courses or completely withdraw from the University after the 100% refund period, will have those hours considered in determining total hours registered, which will count toward the maximum time frame calculation.

   Repeated courses will count in the calculation of attempted hours. The grade earned when the last grade is received for a course is the only grade that counts toward satisfactory academic progress.

   Grades of A, B, C, D, or S represent satisfactory completion of a course. Grades of F, I, W, WF, U or Audit represent unsatisfactory completion of a course. Grades of IP or V will not be included in the number hours earned toward the completion of a degree.

Withdrawal from School
   Financial aid recipients who withdraw from school during the 100% refund period of any term will not have their registered hours included in the maximum time frame calculation nor be required to meet the minimum credit hour completion percentage. However, aid recipients withdrawing from school after the 100% refund period will have their registered hours included in the maximum time frame calculation and be required to meet the minimum credit hour completion percentage.

Transfer Credits
   Credits transferred from other institutions will not count toward maximum time frame, credit hour completion percentage, and adjusted cumulative GPA.

Consortium Agreements
   Credit hours earned through consortium agreements (contracts with other higher education institutions) will count toward maximum time frame, credit hour completion percentage and adjusted cumulative GPA.

Reinstatement of Financial Aid Eligibility
   A student seeking to have financial aid eligibility reinstated may do so by:
   1. Achieving the required minimum adjusted cumulative GPA, or
   2. Acquiring a successful appeal through the appeal process.

Appeal Process

Financial Aid Excluded Due to Failure to Meet Academic GPA Requirements
   Students requesting an appeal to remain in school through the Academic Appeal Committee may use the same process to request appeal for receiving financial aid. Should the academic appeal process determine that a student may remain enrolled in school, they will also be allowed to continue to receive financial aid.

Financial Aid Excluded Due to Failure to Progress Toward Academic Degree Completion
   Students requesting an appeal for continuance of financial assistance must do so by contacting their financial aid counselor and completing a Financial Aid Appeal application.

   This appeal should explain the reason(s) for not meeting the Satisfactory Academic Progress standards and outline the steps that the student is taking to meet the requirements in the future. All appeals must be in writing and should be directed to the Financial Aid Appeals Committee. The Financial Aid Appeals Committee will review all appeals and may request additional documentation from the student. Students will be notified in writing of the appeal decision. While completing the appeal process students are required to pay current term fees by the published fee payment deadline.

Other Financial Assistance

   The academic progress of students receiving Federal financial assistance from the programs listed earlier in this narrative must be evaluated by the criteria outlined in this policy. These and other students receiving other types of financial assistance are evaluated based on requirements of the applicable financial assistance program.

Athletes
   Student athletes must meet NCAA requirements to maintain eligibility for institutional aid. Student athletes must earn 12 credit hours per term to maintain institutional aid.

HOPE Scholars
   Students who have the HOPE Scholarship must have a cumulative grade point average of 3.0 at the end of 30, 60 and 90 semester hours or 45, 90 and 135 quarter hours of attendance to continue receiving the scholarship. All transfer academic transcript information (hours of enrollment and grades earned) will be used in the calculation of the HOPE grade point average.
**CO-OP Program**

Georgia Southern University offers its students the opportunity to gain work experience related to their academic majors, begin the career decision-making process and earn money for educational expenses. This is accomplished through the Cooperative Education program that is provided on an optional basis in most majors and minors in the Colleges of Liberal Arts and Sciences, Business Administration, Health and Professional Studies, and Science and Technology. The Co-op Program is coordinated administratively by the Office of Career Services.

The co-op plan may be student, college, or industry initiated. Normally, students must have earned 30 semester hours of credit toward their major, have a GPA of 2.5 or better, and be willing to participate in no less than three alternating co-op work assignments. Salaries and benefits are determined by the employer and normally increase as the program proceeds. Board and lodging are the responsibility of the student, but in some cases the employers provide assistance in locating suitable accommodations. Dormitory rooms and meal plans are available to students working near the campus.

Co-op students register for a designated Special Problems/Co-op course each semester that they are on a work assignment. Co-op students within designated majors may receive one semester hour credit each semester they are on a work assignment; an S/U grade is assigned for each work semester on the basis of the employer’s evaluation only.

**Veterans' Assistance Programs**

The U.S. Department of Veterans Affairs (VA) provides educational benefits under several programs. Eligibility is determined by the VA. Veterans or dependents of certain veterans who wish to attend Georgia Southern University under any of the veterans’ benefits programs should contact the Veterans Coordinator located in the Registrar’s Office for assistance. The Veterans Coordinator is responsible for assisting veteran students with the processing of VA forms for educational benefits. Students will be advised of procedural requirements and certification of enrollment will be verified to the VA.

Veterans who have service-connected disabilities and are eligible for disability compensation may qualify for Vocational Rehabilitation. Disabled veterans who think they qualify for this assistance are encouraged to contact the Veterans Administration for further information.

Georgia Southern University encourages all veterans to take advantage of college credit that may be granted for military training, as well as the credit by examination programs. Veterans requesting college credit for military training must provide the Registrar’s Office with an official military transcript for evaluation.

Four semester hours of credit for physical education activity courses will be awarded when a student provides evidence (DD-214) that he/she has had a minimum of one year’s active military duty. The DD-214 should be furnished to the Registrar’s Office for evaluation.

**Vocational Rehabilitation**

The State of Georgia provides financial assistance (equal to tuition and other regular fees in the University) for residents of Georgia who are physically handicapped. For further information, write directly to the division of Rehabilitation Services, Department of Human Resources, 878 Peachtree Street, Atlanta, Georgia 30309.

**U.S. Marine Corps Platoon Leaders Class**

For freshmen, sophomores, and juniors, the Marine Corps offers the Platoon Leaders Class Program (PLCP). Freshmen and sophomores attend two six-week training sessions, and juniors attend one 10-week session at Quantico, VA.

To be eligible for the program, the student must be a U.S. citizen (either native-born or naturalized), with full-time enrollment in a minimum of 12 academic credits per semester, and must be working toward an accredited/recognized baccalaureate degree.

The PLCP offers two entry-level paths that lead to commissioning as a second lieutenant in the U.S. Marine Corps. The first is the Ground Officer Program, which encompasses all Military Occupational Specialties (MOS's) not directly related to piloting aircraft. Applicants must have a qualifying score from either the SAT or ACT tests. The second program is the Guaranteed Aviation Program. Applicants must have a qualifying SAT or ACT score and must take the ASTB. Those who have at least the minimum score of 4/6/4 on the ASTB, pass a Class-I aviation medical examination performed at a military medical facility, pass a Marine Corps physical fitness test (PFT), and are accepted into the program by Headquarters Marine Corps, could be eligible to receive a contract guarantee. Under the contract guarantee, the student attends flight school for the Marine Corps after graduation from college and acceptance of the commission as a second lieutenant.

A stipend of $150 a month for the nine months of the school year is available to all who meet the requirements and successfully complete summer training at Officer’s Candidate School.

These programs are subject to the control of, and are administered by and under the rules and regulations of, the U.S. Marine Corps and are subject to change from time to time.
Fees

Business Regulations
The academic year is divided into two semesters of approximately 15 weeks each and a summer semester of approximately 12 weeks. Fees are charged and payable by the semester since each semester constitutes a separate unit of operation. A student may enroll at the beginning of any semester.

To insure financial operation in conformity with Board of Regents policies, fee payment regulations must be observed. All fees and charges are due and payable by the due date designated on the student account invoice. Student account invoices are mailed to home and campus addresses prior to early registration fee payment deadline. Invoices are mailed to campus addresses after the semester begins. Fees and charges may be paid in cash, check, or by Visa or Mastercard in the exact amount of the student’s invoice. Nonpayment of all fees and charges by the designated due date will result in cancellation of all classes, meal plan, and campus housing assignment. If a student’s financial aid is not available to pay all fees by the designated due date, he/she must be prepared to pay fees and be reimbursed when his/her financial aid is available. Should a student decide to not attend Georgia Southern University or cease to attend during the semester, he/she will continue to be fee liable until officially withdrawing from the University. (See refunds and withdrawals for more information)

The University reserves the right to make changes in its fees, which are regulated by the Georgia Board of Regents, at the beginning of any semester and without previous notice.

Students personal checks made out to CASH-GSU, with proper student identification, may be cashed at the Cashier’s Office in Deal Hall or at the University Store in an amount not to exceed $50.00.

Returned Check Procedure
If a check is returned unpaid by the bank on which it was drawn, a service charge of 5 percent of the face amount of the check or $25, whichever is greater, will be charged. Checks returned unpaid for registration fees before classes begin or during the first weeks of school will result in a registration cancellation on the next scheduled cancellation date. Fee checks returned unpaid after the last cancellation of the semester must be cleared within ten days of written notice or the student will be administratively withdrawn from classes and charged for the time enrolled according to the University catalog. Fee checks returned prior to mid-semester are sent to the bank twice for collection; after mid-semester they are presented only once. Other checks are presented to the bank for collection once and must be cleared within ten days of receipt of written notice.

When three checks have been returned by any student’s bank without payment, check cashing privileges for that student will be suspended.

Matriculation Fee
A matriculation fee is charged to all students based on the number of credit semester hours for which the student is registered. Undergraduate students registering for 12 or more hours will be charged $865 matriculation fee per semester. Undergraduate students registering for fewer than 12 hours will be charged a matriculation fee of $72 per semester hour.

Graduate students registering for 12 or more hours will be charged $1,000 matriculation fee per semester. Graduate students registering for fewer than 12 hours will be charged a matriculation fee of $83 per semester hour.

Out-Of-State Tuition Fee
Non-residents of Georgia are required to pay an out-of-state tuition fee. Undergraduate students who are non-residents of Georgia and are registering for 12 or more semester hours must pay a fee of $2,610 per semester in addition to matriculation fees and all other regular fees. Undergraduate students who are non-residents of Georgia and are registering for fewer than 12 hours will be charged a non-resident fee at the rate of $218 per semester hour.

Graduate students who are non-residents of Georgia and are registering for 12 or more semester hours must pay a fee of $3,000 per semester in addition to matriculation fees and all other regular fees. Graduate students who are non-residents of Georgia and are registering for fewer than 12 hours will be charged a non-resident fee at the rate of $250 per semester hour.

University Fee
Cultural, social, and athletic activities as well as good health care are important parts of the university’s program and a student’s educational environment. In order to provide these activities and services, a per semester University Fee of $272 is charged. All students must pay this fee unless they are registered for fewer than four credit semester hours or enroll in all off campus courses.

Technology Fee
A $37.50 per semester Technology Fee is charged to all Georgia Southern University students. This fee is used to develop and maintain student computer laboratories. A Technology Fee Advisory Board, with student representation, makes decisions regarding the use of this fee.

Late Registration Fee
Students who complete registration after the published registration day at the beginning of each semester will be charged a non-refundable late registration fee of $50.

Parking Permits
All vehicles parking on campus are required to have a parking permit which is available from the Parking and Transportation Office located on Sweetheart Circle. The permit is $45 per year. If registering a vehicle for the first time, a copy of your vehicle registration or tag receipt is required. Residents of some apartment complexes in close proximity to Campus do not qualify for parking permits. For details, please call Parking at 681-0702.

Visitors parking on campus are asked to obtain a complimentary visitor’s pass from the “Welcome Center” on Sweetheart Circle.

Graduation Fee
A graduation fee of $50 for graduate and undergraduate students must be paid at the beginning of the semester in which the student completes requirements. Any outstanding financial obligations to the University must be paid before a student may graduate.
Private Music Instruction Fee
Private lessons in various instruments and voice are offered. The fee for receiving one-hour credit (twenty-five minute lesson per week) is $18.75 per semester; the fee for receiving two hours credit (fifty-minute lesson per week) is $37.50; the fee for receiving three hours credit (seventy-five minute lesson per week) is $56.25.

Books and Supplies
The University maintains a bookstore where students may purchase text books, school supplies, sportswear, novelties, snacks, greeting cards, and other items. The University Store accepts cash, checks, Master Card, Visa, and EAGLEEXPRESS for payment. Textbooks cost approximately $225 per semester depending on the courses taken and whether the books are new or used.

Refunds
Regulations of the Board of Regents of the University System of Georgia provide for matriculation fee, non-resident fee, and mandatory fee refunds when formal withdrawal is approved within a designated period, following scheduled registration.

Before or on the first day of class ............................................. 100%
After first day of class and during the first 10% of the class enrollment time ................................................................. 50%
After the first 10% of the class enrollment time and during the first 25% of the class enrollment time .................................. 25%
After the first 50% of the class enrollment time ............ No Refund

Refunds from formal withdrawal from school are made after midpoint in the semester.

Refunds are not made for classes dropped after the schedule adjustment period. Additional fees due for private music lessons or certain PE classes (i.e.; scuba diving, bowling) are not refundable after schedule adjustment. A refund of all semester matriculation, non-resident fees, and other mandatory fees is made in the event of death of a student any time during an academic semester.

Pre-paid housing deposits are applied to spring semester charges prior to fee payment deadlines in accordance with the Georgia Southern University Housing Office policies.

Refund for Students Receiving Federal Financial Assistance
Students receiving Federal financial assistance who formally or informally withdraw from school are subject to Federal refund regulations. The percentage used to compute the refund is based on the schedule provided by the Georgia Board of Regents listed above. The refund is returned to the applicable Federal program using the following computation.

Example: Student receiving $811.25 Stafford Loan withdrew during the second week of a semester indicating a 50% refund. Of this loan, $602.50 was used to pay tuition and fees and must be considered for refund.

Refund Procedure:
Fees Paid $602.50
Refund Percentage 50%
Refund $301.25

Federal financial assistance must be returned in the following order: Federal Family Education Loans (Direct Stafford Unsubsidized, Direct Stafford Subsidized and Direct PLUS loans, respectively), Federal Perkins Loans, Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, State Incentive Grant and other Federal Title IV assistance.

Students attending Georgia Southern University for the first time and receiving Federal financial assistance are subject to prorata refund regulations if they formally or informally withdraw from school. Refunds for these students are computed using the computation above except that the amount of refund is based on the percentage of time attended to total period of enrollment, up to 60% of the enrollment period.

Receipt of Federal financial assistance for cost of living in excess of the cost of attendance may be subject to repayment by the student if the student has withdrawn from school. The Office of Student Fees notifies the student if a repayment is due.

Copies of the complete refund policy for Federal financial assistance are available from the Office of Student Fees located on the first floor of Deal Hall.

Meal Plans
Five types of meal plans are available. The contract meal plans may be purchased through the normal registration process or at the Food Service Office in the Lakeside Cafe. Meal plans are accepted at all food establishments except Chick-Fil-A.

Contract Meal Plans
(1) 3 meals a day, 7 days a week $1089/semester
(2) 2 meals a day, 7 days a week $847/semester
(3) 2 meals a day, 5 days a week $679/semester
(4) 1 meal a day, 5 days a week $339.50/semester

Declining Balance Plan
(5) The EAGLEEXPRESS account is a prepaid declining balance program which may be used in all Food Service units. Accounts can be opened or added to at the Food Service Office in the Lakeside Cafe or the Pickle Barrel.

Entering freshmen who live in residence halls must purchase a 5/2 or greater contract meal plan. Freshmen housed on campus are not eligible for the one-meal-a-day commuter plan. Please note that the housing contract contains a freshmen meal plan requirement clause. Please read and understand this requirement before signing the contract. Once this requirement has been satisfied, an EAGLEEXPRESS account may then be opened. All other students may purchase any of the five meal plans desired or a combination of EAGLEEXPRESS and one of the contract plans.

EAGLEEXPRESS
EAGLEEXPRESS is a declining balance plan which means that a student deposits funds into an account prior to making purchases, and then uses a GSU I.D. Card to make purchases. When a purchase is made, the amount of the transaction is automatically deducted from the account balance. EAGLEEXPRESS can be used to purchase goods and services at all Auxiliary Services units including all campus restaurants, retail outlets, laundries, snack bars, parking, health and printing services, and select housing fees.

Rates

Housing rates vary based on the type of facility and number of occupants. For the 1998-99 academic year, proposed rates range from a low of $980.00 a semester for double occupancy in a building with community baths to a high of $1,200.00 a semester for double occupancy in a one-bedroom apartment in the newest residence hall. Once the rates have been approved by the Board of Regents, a rate sheet will be provided with the housing application.

Occupancy Periods

Students may occupy their assigned space from the date designated as the official opening of campus housing to the date designated as the end of the term. Campus housing is closed between academic sessions with the exception of specifically designated units.

Questions pertaining to student housing should be directed to:

Department of Housing
Post Office Box 8102
Georgia Southern University
Statesboro, Georgia 30460-8102
(912) 681-5406
Fax (912) 871-1148
Housing@gasou.edu

Facilities

Georgia Southern University operates 12 housing units providing space for approximately 2750 students and offering students a variety of facilities, services, and programs. In addition to providing reasonably priced housing alternative, Georgia Southern University also strives to provide a positive environment conducive to the development of its residents. Each housing unit has staff to supervise activities, offer educational, social and recreational programs and assist students with personal and academic concerns.

Residency Requirements/Eligibility

Georgia Southern University currently does not have a residency requirement. Any student, regardless of classification, has the option to live off campus. To be eligible to live in college operated housing, one must be enrolled at Georgia Southern University and maintain a minimum of three hours per semester.

Applying for Campus Housing

Only students officially accepted for admissions to Georgia Southern University may apply for campus housing. Housing information will be mailed to students after notification of admission acceptance.
Counselors are also available to assist faculty who encounter students in crisis. The number to call during regular business hours M-F, 8 to 5, is 681-5541, or after hours, 681-5234.

**Health Services**

Georgia Southern University Health Services is available for consultation, examination, diagnosis, and treatment of minor illnesses and injuries. Students enrolled in four (4) or more semester hours are assessed the health fee and are entitled to unlimited office visits during the semester. Students enrolled in less than four (4) semester hours may choose to pay the health fee to receive the same benefits.

Health Services employs a physician, nurse practitioners, nurses, a radiologic technologist, a laboratory technologist, as well as clerical, health education, and pharmacy staffs to provide quality medical care at affordable rates. Although unlimited office visits are covered by the health fee, additional services are offered by Health Services at nominal costs that are payable at the time of visit. These include x-ray, laboratory tests, pharmacy, immunizations, and women’s health services. Students are urged to bring cash, check, VISA, or Mastercard with them on each visit to the Health Center.

The Health Center is open 8:00 a.m. - 5:00 p.m., Monday - Friday during the semester. Limited services and hours are provided between semesters. Expenses related to illnesses or injuries requiring the services of another healthcare provider are the sole responsibility of the student.

Health Services also provides information on student health insurance. Additional information may be obtained by contacting:

**Career Services**

Career Advising assists students in choosing a major and career field that effectively reflect personal values, interests, and abilities. A comprehensive collection of books, periodicals, videotapes, major binders, Internet sites, and employer literature are available for students to research not just career fields and jobs, but employing organizations as well. In addition, students can utilize three computerized career guidance and information programs which help facilitate the career decision-making process.

Cooperative Education enables students to gain relevant professional work experience on a work-study rotational basis. As a result of this balanced educational program, co-op students get the best of all worlds. They are able to put into practice the theories they learn in the classroom, earn money to finance their education while in school, and at the same time position themselves better for a permanent career search.

Professional Employment helps prepare graduating seniors to mount an effective job search campaign, including resume preparation, interviewing techniques, and proven job search strategies. Professional staff are available to critique resumes and conduct mock video interviews with students. The department attracts a wide variety of employing organizations to recruit Georgia South-
ern University seniors, including both on-campus interviewing and resume referral to employers. Various career fairs are held throughout the year where students can interact with employers from business, industry, education, government, and health and human services.

Financial Aid
Georgia Southern University offers a comprehensive program of financial aid. For more information, please see Financial Aid Section in this catalog.

Office of Multicultural Programs
The Office of Multicultural Programs works collaboratively with faculty, staff, and students to educate the Georgia Southern University campus about diversity issues. Staff present programs in classes and coordinate a variety of campus celebrations, among these are Asian Awareness Day, Diversity Awareness Week, Black Awareness Month, Religious Diversity Week and Women’s Awareness Week. For more information, stop by Rosenwald Building Room 2034 or call 681-5409.

Minority Advisement Program
Cited as the Best Learning Program in Georgia by the Georgia College Personnel Association, the Minority Advisement Program (MAP) is a peer mentor program designed to assist minority freshmen with the transition from high school to college and to facilitate a successful adjustment to Georgia Southern University. For more information call 681-5409 or visit the Web page at www2.gasou.edu/sta/multiproj/home.html.

Office of Judicial Affairs
The judicial process at Georgia Southern University is an integral part of the educational mission of the University. The philosophy is educational as opposed to punitive and is designed to be proactive in nature. A developmental approach toward discipline is emphasized, allowing for maximum student growth. The use of developmental sanctions, (community service hours, academic papers, substance abuse seminars, etc.) as a part of a penalty are encouraged. In addition to adjudicating violations of the Student Conduct Code, the Office of Judicial Affairs facilitates alcohol education programs. For more information call 681-5409.

New Student and Parent Programs
New students attending Georgia Southern University for the first time usually have many questions about our institution. These concerns are addressed by the Office of New Student and Parent Programs during SOAR (Southern’s Orientation, Advisement and Registration), which occurs just before classes begin for each semester, and in The Eagle Eye Student Handbook. In addition to programs for new students Parent Programs provides an orientation for parents of new students, Parents Weekend, the Parents Handbook, and ApParent Issues, a publication for parents. For more information, call 871-1987 or E-mail orientation @gasou.edu.

Out Reach Programs
Out Reach Programs located in Rosenwald Room 2034, includes Off-Campus Housing and Volunteers Services.

Off-Campus Housing provides information and support for students who do not live in university owned residence halls. By serving as a referral service for local realtors and property managers, this program maintains listings of vacant property and students looking for roommates. In addition to the listings, Off Campus Programs coordinates the Community Advisor Program, through which cooperating apartment complexes employ Georgia Southern University students to assist off-campus students with community and personal development. For more information, call 681-5409.

The Office of Volunteer Services offers students excellent opportunities for career exploration through hands-on professional level experience while addressing existing social issues and community needs. Interaction with campus and community programs allows students to focus awareness on the benefits of volunteer ing. Students registered with the office who provide proof of approved service are eligible for service transcripts at graduation upon completion of required hours. For more information, call 681-5409.

Testing
The Testing Office provides services to students as well as segments of the surrounding community. Such examinations as the Scholastic Aptitude Test (SAT), Graduate Record Examination (GRE), PRAXIS, Regents’ Test, Institutional SAT (ISAT), Miller Analogies Test (MAT), Nursing Tests, National College Level Examination Program (NCLEP), ACT, Law School Admission Test (LSAT) and Pharmacy Test are administered through this office. The Testing Office also assists students by providing a center for Independent Testing for Correspondence Courses taken at other institutions. There is a $10 charge per test for arranging Independent Study Exams.

Persons interested in further information concerning dates, times, cost, eligibility and sign-up procedures should contact the Testing Office at 681-5415.

Educational Opportunity Programs
The primary goals of the Educational Opportunity Programs (EOP) are to identify disadvantaged young people with the potential to succeed in post secondary education, to encourage them to continue and to graduate from secondary school, to enroll in post secondary education, and to encourage high school and college dropouts to return to school. Two TRIO Federal programs, Upward Bound and Educational Talent Search make up the Office of Educational Opportunity Programs. Upward Bound (1980) and Educational Talent Search (1991) have been responsible for placing more than 90% of their graduates in post secondary education programs. By the Fall of 1996, more than 35% of the former participants had graduated from college and more than 42% were currently enrolled in a post secondary education program.

Educational Talent Search provides 800 middle school, high school and out-of-school youth with the support and assistance needed to complete high school and enter a program of post secondary education. Eligible participants must be residents of Bulloch, Burke, Emanuel, or Jenkins Counties, be enrolled in the 6th through 12th grades or be a high school/post secondary school dropout; be a potential first generation college student or meet the economic guidelines for low income families; possess the potential to be successful at the post secondary educational level, or be at least 11 years of age, or be a veteran, regardless of age.

Upward Bound provides 85 high school students with the motivation and assistance needed to successfully enroll in and complete higher education programs. Eligible participants must be enrolled in the 10th or 11th grades in Bulloch, Candler, Emanuel, Evans or Screven County high schools and possess the academic potential necessary for higher education.

These projects are sponsored by a grant provided by the U.S. Department of Education and are administered by the Georgia Southern University Division of Student Affairs.
Services:
• Academic, Personal And Career Counseling
• Basic Skill Classes, Tutoring
• Cultural Enrichment And Educational Travel
• Assistance With College Selection And Financial Aid
• A Six Week Residential Summer Program
• SAT and ACT Preparation and Fee Waivers
• Motivational And Self-Esteem Activities
• College Courses For Graduating Seniors
• Workshops On Financial Aid, Study Skills And Personal Growth
• Literature On Postsecondary Programs
• Parental Involvement Activities
• Referrals To Regional Math & Science Programs

For further information, visit Educational Opportunity Programs in Room 1026 of the Williams Center or call (912) 681-5458. Address: P. O. Box 8071 or E-Mail: edoppgrg@gsvm2.cc.gasou.edu.

Campus Life and Activity Programs

Residence Life

The Residence Life program at Georgia Southern University offers a living-learning environment for the 3,000 students living on campus in 12 residential facilities. Residence hall living provides social interaction and programming that heighten a student’s sense of belonging, self esteem and self actualization. Services, activities and other learning experiences include rules, regulations, roommate contracting, floor gatherings, meetings, hall government, leadership training and numerous programming opportunities. These experiences provide students with an opportunity to grow, achieve, find autonomy and practice decision making.

Highly trained staff members coordinate these experiences and programs, planning programs and activities for students and assisting students to ensure that they are happy, safe and making a smooth transition to college life. Professional staff members (area directors—full time professionals who have a master’s degree in student development, counseling, or a related field) live and work in the residence halls; 12 resident directors (graduate students) live in the residence halls and are available practically 24 hours a day to respond to any type of situation; and 70 resident assistants (upper-class students) live on the floors of the residence halls. Through effective management and programming, the Residence Life staff members create a community environment that is conducive to the academic success and personal growth of each resident and consistent with the goals and objectives of Georgia Southern University.

Students have the opportunity to become actively involved in residence hall living by becoming a member of the Residence Hall Association or the Residence Hall Judicial Board.

The Residence Life Office is located on the first floor of the Rosenwald Building. The area directors and resident directors have offices in the residence halls. For more information please call 912-681-0429.

International Student Programs

Over 400 international students enhance life at Georgia Southern University. International Student Programs offers basic support to students from other countries and provides programming which allows all students to learn more about other cultures. Major programs include the International Week, Friendship Family Program, Student Mentor Program and the activities of the International Club. For details, call 681-5409. (Please see Intensive English Program)

Russell Union

The Russell Union serves as the official center of student, faculty and staff life. It provides the services, conveniences and amenities the members of the university family need in their daily lives on campus. Cultural, social, and recreational programs enhance out-of-class experiences and enable participants to develop leadership skills.

Included in the 110,000 square foot Russell Union facility is a 900 seat ballroom, a 576 seat movie theatre/auditorium, student office spaces, 16 meeting rooms, a gameroom, study lounges, TV lounge, snack bar, retail shops, mini book store, two restaurants, an information center, a catering kitchen and several open lounges. These facilities support programs such as Union Productions (UP), Student Government, student clubs and organizations, leadership training and homecoming.

Union Productions

Union Productions is the programming arm of the Russell Union which provides campus-wide social, educational, cultural, and entertainment events throughout the year. Union Productions (UP) is a student-run organization built on a structure of several programming committees, providing the Georgia Southern University community with a variety of movies, comedians, musical events, shows, and colorful cultural expositions. UP also plays a major role in university-wide events such as Homecoming, Welcome Week, and Alcohol Awareness Week. All students are encouraged to become a volunteer member of Union Productions. Active committee members participate in the selection, planning, promotion, and production of events. Involvement in UP opens doors for meeting new people and getting “behind the scenes” experience in programming.

For additional information, contact Union Productions in Room 2007 of the Russell Union or call 681-5442.

Campus Recreation and Intramurals

The Department of Campus Recreation and Intramurals (CRI) provides growth opportunities and educational experiences, which will enrich the life-long process and positively affect an individual’s mental and physical well-being. Through programs and facilities that are recreational, educational, and sporting in nature, CRI strives to promote and develop healthy life-style choices. With a GSU identification card, it is easy to get involved and reap the benefits of participation which include the application of leadership, decision making, problem solving, conflict management, communication, and social skills. No experience is necessary to participate, and CRI employees are available to help participants gain maximum benefits from recreational activities.

Each semester CRI produces a pocket calendar that provides participants with program information, such as, facility hours, scheduled activities, proposed trips, intramural sports and tournaments, and special events. Pocket calendars are available at the CRI office in the Recreation Activity Center (RAC), CRI facilities and other locations on or near campus. CRI provides safe, clean, quality, dependable, and enjoyable programs and services. They are as follows:

Aquatics is a program for those participants who enjoy swimming, diving or simply relaxing in a pool. It is a program that is unstructured and therefore, allows the participant to be active at their level of commitment and interest. CRI currently utilizes two outdoor pools and one indoor pool.
Club Sports is an area that encourages, develops, and enhances leadership skills. Although they are CRI sponsored, clubs under this program area are student run and were created due to participant interest. The club officers and members plan, organize, and carry out club responsibilities, functions, and events. The Club Sports’ family currently consists of 15 active clubs ranging from volleyball to horseback riding and rugby to dancing. If there is a group of participants that have a common interest and it is not available, a club can be created and established for that area of interest.

Fitness Programs promote and educate participants in the pursuit of a healthier lifestyle through a variety of opportunities. Through the use of free weights and circuit training equipment, participants are given the opportunity to tone, enhance, and build lean muscle mass. A variety of cardiovascular equipment and aerobic classes allow participants to burn fat and increase their cardiorespiratory fitness, and the nutrition workshops educate participants on eating healthy foods and maintaining a well-balanced diet. To bring it all together, participants may have their fitness levels evaluated during Fitness Assessments which measure participants’ cardiorespiratory endurance, muscular strength and endurance, body composition, and flexibility.

Informal Recreation is a program that allows participants to engage in a variety of recreational activities, such as, basketball, walking, jogging, volleyball, racquetball, etc. There are several locations on and near campus that provide opportunities for participants to recreate on a drop in basis. This program is very unstructured and gives participants unlimited availability to get involved.

Intramural Sports provide participants of all levels with competitive and recreational experiences. These experiences are designed to promote team, dual, and individual experiences through activities which are sporting in nature. These activities allow participants to compete in men’s, women’s and co-rec league settings. A variety of sports are offered throughout the year which include flag football, basketball, indoor/outdoor soccer, ultimate frisbee, bowling, tennis, volleyball, golf, and some sports are offered year round, such as, softball. In addition to regular season sports, weekend tournaments and special events are offered periodically throughout the year.

Outdoor Recreation encourages participants to discover the great outdoors. The Outdoor Recreation Center (ORC), located in Marvin Pittman Gymnasium, provides outdoor rental equipment such as tents, backpacks, lanterns, stoves and sleeping bags for a nominal fee. The ORC is a resource center for information regarding state and national parks as well as other recreational areas. The staff is available to assist with planning trips and offers instructional workshops to better prepare for an outdoor experience. Weekend adventure trips, such as, white water rafting, backpacking, sea kayaking, and canoeing are planned each year. Organized trips offer an opportunity to meet new friends and experience the natural environment under the supervision of trained leaders. The challenge course is another opportunity provided by the outdoor recreation program. The challenge course is designed to provide exciting, experiential opportunities that focus on leadership, communication, problem-solving and intra-personal skills. The climbing wall, located in the Recreation Activity Center, is a unique avenue for participants to engage in a different type of exercise. Instructional clinics are offered throughout the year that focus on basic climbing skills. In these clinics, the participants will learn belaying techniques, rope and equipment care and maintenance, knot tying, and basic climbing maneuvers. The climbing wall is provided for beginners as well as the advanced climbers.

Satellite Facilities provide participants with recreational opportunities in a variety of locations throughout the campus.

- **Club Sports Fields**: multi-purpose fields (primarily rugby, lacrosse, soccer & flag football)
- **Dorman Hall**: outdoor basketball court
- **Fitness Extension**: aerobics, cardiovascular equipment, circuit training equipment
- **Hanner Fieldhouse**: aerobics, indoor pool, weight rooms, basketball courts, lighted tennis courts and racquetball courts
- **In the Pines**: sand volleyball courts, outdoor basketball, outdoor pool
- **Marvin Pittman Gymnasium**: indoor/outdoor basketball courts, sand volleyball courts, lighted tennis courts
- **Multiplex Fields**: multi-purpose fields (softball, flag football, soccer, ultimate frisbee and fitness/walking trail)
- **Oxford Fields**: sand volleyball courts, outdoor basketball court, multi-purpose field
- **Recreation Activity Center**: basketball, indoor racquetball, free weights, circuit training equipment, cardiovascular equipment, aerobics, badminton, volleyball, climbing wall, multi-purpose area (golf, dance, martial arts, fencing, wrestling practices, etc), elevated walking/jogging track, auxiliary gym area (indoor soccer, floor hockey, basketball, badminton, volleyball, etc), and administrative offices
- **Southern Splash**: outdoor pool (located behind Weight Extension)
- **Sports Complex**: softball/baseball fields, flag football fields
- **Weight Extension**: free weights, circuit training equipment

Student Organizations

More than 150 student organizations contribute to each student’s education by providing for the development of individual talents outside the classroom through participation in one or more of a variety of organizations and activities on campus. The Russell Union provides services to all recognized student organizations and is responsible for registering and maintaining informational files on student organizations. The program area of the Russell Union provides leadership retreats, receptions, seminars, and workshops for student organizations. Organizations range from honor and recognition societies, special interest groups, professional and departmental organizations, and religious organizations to the Student Government Association. Activities include those that are academic, literary, athletic and leadership in nature. Information about student organizations can be obtained by contacting the Russell Union at 681-0399.

The Student Government Association is the central student organization on campus. Its five executive officers - president, executive vice president, vice president for academic affairs, vice president for finance, and vice president for auxiliary affairs - are elected each Spring Semester by the student body. Student Government represents the student body in all phases of student life at Georgia Southern University and facilitates communication between the administration, the faculty and the student body. Individuals or organizations desiring input into the total life of the campus should enlist the services of these officers and senators.

Greek Life is an active part of student life on campus. Approximately 14 percent of full time undergraduate students are members of 17 fraternities and 11 sororities. These organizations provide opportunities for members to develop and refine personal leadership skills, make new friends, participate in campus activities and athletics, contribute to local and national philanthropies, and improve their scholarship aptitude. For additional information, call the Office of Greek Life 681-5185.
The University System of Georgia

The University System of Georgia includes 34 state-operated institutions of higher education located throughout the state. A 16-member constitutional Board of Regents governs the University System, which has been in operation since 1932. Appointments of Board members, five from the state-at-large and one from each of the state's 11 Congressional Districts, are made by the Governor, subject to confirmation by the State Senate. The regular term of Board members is seven years.

The Chair, the Vice Chair, and other officers of the Board are elected by the members of the Board. The Chancellor, who is not a member of the Board, is the chief executive officer of the Board and the chief administrative officer of the University System. The system's programs and services are offered through three major components: Instruction, Public Service/Continuing Education, and Research.

INSTRUCTION consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates. Instruction is conducted by all institutions. Requirements for admission of students to instructional programs at each institution are determined, pursuant to policies of the Board of Regents, by the institution. The Board establishes minimum academic standards and leaves to each institution the prerogative to establish higher standards. Applications for admission should be addressed in all cases to the institutions.

A core curriculum, consisting of freshman and sophomore years of study for students whose educational goal is a degree beyond the associate level, is in effect at the universities, senior colleges, and two-year colleges. This curriculum requires 90 quarter credit hours, including 60 in general education--humanities and fine arts, mathematics and natural sciences, and social sciences--and 30 in the student's chosen major area of study. It facilitates the transfer of freshman and sophomore degree credits within the University System.

PUBLIC SERVICE/CONTINUING EDUCATION consists primarily of non-degree activities and special types of college-degree-credit courses. Non-degree activities may include short courses, seminars, conferences, lectures, consultative, and advisory services in many areas of interest. Non-degree public service/continuing education is conducted by all institutions. Typical college-degree-credit public service/continuing education courses are those offered through extension center programs and teacher education consortia.

RESEARCH encompasses investigations conducted primarily for discovery and application of knowledge. These investigations include clearly defined projects in some cases, non-programmatic activities in other cases. Research is conducted both on and off campus and explores a variety of matters related to the educational objectives of the institutions and to general societal needs.

The policies of the Board of Regents for the government, management, and control of the University System and the administrative actions of the Chancellor provide autonomy for each institution. The executive head of each institution is the President, whose election is recommended by the Chancellor and approved by the Board.

The University System Advisory Council, with 34 committees, engenders continual System-wide dialogue on major academic and administrative matters of all types. It also makes recommendations to the Chancellor for transmittal to the Board of Regents regarding academic and administrative aspects of operation of the System.

The Advisory Council consists of the Chancellor, the Vice Chancellor, and all presidents as voting members; it includes other officials and staff members of the institutions as nonvoting members. The Advisory Council's 21 academic committees and 13 administrative committees are made up of representatives from the institutions.

Committees dealing with matters of University System-wide application include, typically, at least one member from each institution. State appropriations for the University System are requested by, and are made to, the Board of Regents, and allocations are made by the Board. The largest share of the state appropriations, approximately 52 percent, is allocated by the Board for instruction.

KETTLEWELL, Assistant Vice Chancellor- Academic Affairs
DAVID M. MORGAN, Assistant Vice Chancellor- Academic Affairs

*Officers of the Board
University System of Georgia Independent Study

Information
University System of Georgia Independent Study
Georgia Center for Continuing Education
1197 S. Lumpkin Street, Suite 193
Athens, Georgia 30602-3603
Phone: (706) 542-3243
Toll Free USA: 1-800-877-3243
FAX: (706) 542-6635
E-Mail: usgis@arches.uga.edu
Web Site: www.gactr.uga.edu/usgis/

Mission: The mission of University System of Georgia Independent Study (USGIS) is to offer University System academic credit courses to University System students and individuals who are interested in earning academic credit through distance learning methods and technologies. This distance learning program provides freedom from the classroom structure and, as a result, places the responsibility for learning directly on the student. It allows flexibility of registration, permitting students to register at anytime and take several courses simultaneously with up to a year to complete each course.

Independent Study courses are offered by academic departments located at senior institutions of higher education within the University System of Georgia. Faculty of the academic departments prepare the courses offered and grade lessons submitted by students to satisfy requirements of the course. Academic credits earned through Independent Study are recorded on the student’s transcript in the University of Georgia Registrar’s Office and may be used for degree requirements according to the regulations of the college or university from which the student plans to graduate. The total number of hours earned through Independent Study that may be applied toward a baccalaureate degree program within the University System of Georgia may not exceed one-fourth of the hours required for graduation.

Tuition Fees: Semester system tuition rates were not available at the time of printing. USGIS fees are consistent with the hourly tuition fee set by the University of Georgia. All fees are subject to change at the end of any academic term. Contact Independent Study for tuition information.

USGIS Academic Calendar

Fall Semester: August 1, 1998 - September 30, 1998
Spring Semester: October 1, 1998 - February 28, 1999
Summer Semester: March 1, 1999 - July 31, 1999

The Independent Study academic calendar registration date will be utilized to assign a student registration to a particular academic term for purposes of enrollment certification, financial aid, and enrollment reporting. The grade earned in an Independent Study course will be posted to the term of registration.

Registration: Students may register online, with credit card payment, from the USGIS Web site (www.gactr.uga.edu/usgis/) or by obtaining a registration form from the Independent Study office, catalog, or from the Web site and online catalog (printable form).

The registration form with the fees payment (follow instructions on form) should be mailed to the following address:

University System of Georgia Independent Study
Georgia Center for Continuing Education
University of Georgia
Athens, Georgia 30602-3603

Independent Study registration is continuous Monday through Friday from 8:00 a.m. to 4:30 p.m. throughout the year (the office is closed during University of Georgia holidays). Office hours are from 8:00 a.m. to 5:00 p.m.

Advisement: To ensure appropriate course selection, particularly in the major field of study, students should seek approval from the designated advisors of their degree programs. Independent Study is not responsible for misadvisement, changes in programs of study, or other actions resulting in improper choice of courses.

Prerequisites/Recommendations
Students should consult with their academic advisors regarding prerequisites and recommendations listed in the course descriptions.

Technology Options
Several Web Courses are available for registration. Additional courses allow students the option of lesson submission via electronic mail (e-mail).

WEB: Web Courses
Web Courses are taken completely online, with the exception of the course midterm and/or final examinations. (All USGIS examinations must be taken at an official test site.) Web Courses offer a variety of features online, such as course guides, lesson submission, World Wide Web resources, and e-mail links to Independent Study. Selected courses may offer self-assessments with immediate feedback, bulletin boards, chat areas, and interaction with faculty and other students.

E-Mail Lesson Submission Courses
An E-Mail Lesson Submission Course is taken just like our traditional print-based course offerings, with one exception: lessons are delivered to Independent Study via e-mail rather than through the postal service. Students receive print-based course guides or e-guides on diskettes containing lessons, and discussions of course content. All e-mail lessons are submitted to Independent Study for forwarding to the instructor for grading. Once graded, lessons will be returned to students with instructor feedback on the student’s performance.

A list of those courses offering technology options follows the Independent Study Academic Credit Course listing. Most courses allow lesson submission via FAX. Refer to the catalog for more information on technology options or call Independent Study.

Note: All USGIS courses are available in the traditional print version course guide allowing submission of lessons via postal service.

Academic Credit Course Listing
University System of Georgia Independent Study courses are offered for nonresident credit. Course credit is three semester hours, unless indicated otherwise below. Courses are subject to revision due to instructor and textbook changes and may be temporarily closed for registration.

University System of Georgia universities offering courses through University System of Georgia Independent Study are designated by the following abbreviations:

GCSU Georgia College and State University
GSU Georgia Southern University
NGCSU North Georgia College and State University
UGA The University of Georgia
VSU Valdosta State University

Courses designated by a “U” following the course prefix and number are courses offered by universities other than the University of Georgia. Contact Independent Study for course availability.
Georgia Southern Faculty 1997-98

This list includes full time Faculty 1997-98. The date enclosed in parentheses indicates the year the faculty member joined the staff of Georgia Southern University. The asterisk denotes Graduate college faculty (full and associate members)

SHERRIE N. ABBOTT, Assistant Professor of Nursing
B.S.N., Emory University, 1974;
M.S.N., Medical College of Georgia, 1979. (1986)

*MARTHA L. ABELL, Associate Professor of Mathematics
B.S., Mercer University, 1984;
M.S., Georgia Institute of Technology, 1987;
Ph.D., Georgia Institute of Technology, 1989. (1989)

STERLING CAMERON ADAMS, Professor Emeritus of Music
B.M., Cincinnati Conservatory of Music, 1949;
M.M., Cincinnati Conservatory of Music, 1951;
Ph.D., Indiana University, 1962. (1965)

*DAVID W. ADDINGTON, Professor of Communication Arts
B.A., Palos Verdes College, 1954;
M.A., University of California at Los Angeles, 1960;
Ph.D., University of Iowa, 1963. (1987)

*ELEANOR F. AGNEW, Associate Professor of Writing and Linguistics
B.A., University of Vermont, 1970;
M.A., University of Maine, 1981;

*JUNE E. ALBERTO, Associate Professor of Nursing

KATHY S. ALBERTSON, Assistant Professor of Writing and Linguistics
B.A., Armstrong State College, 1988;

CLARK R. ALEXANDER, JR, Adjunct Assistant Professor of Geology
B.S., Humboldt State University, 1983;
B.A., Humboldt State University, 1983;
M.S., North Carolina State University-Raleigh, 1985;

*NATHANIEL C. ALEXANDER, Associate Professor of Middle Grades and Secondary Education
B.S., Clemson University, 1966;
M.Ed., North Carolina State University, 1970;

*MICHAEL G. ALLEN, Professor of Middle Grades and Secondary Education
B.S.Ed., Castleton State College, 1966;
M.A.T., Saint Michael’s College, 1971;

*DAVID C. ALLEY, Associate Professor of Spanish
B.A., Macalester College, 1975;
M.Ed., University of Georgia, 1981;

EARL RAYMOND ANDREWS, Associate Professor Emeritus of Technology
B.S., University of Minnesota, 1952;
M.A., University of Minnesota, 1962;
Ed.D., University of Missouri, 1968. (1967)

ASHA K. ANUMOLU, Temporary Instructor of Nursing
B.S., Columbia Union College, 1986;
M.S.N., Georgia Southern University, 1992. (1994)

JULIUS FELLOWS ARIAL, University Librarian and Associate Professor
B.A., Emory University, 1967;
M.S., Florida State University, 1976;

*HARRY JOSEPH ARLING, Professor of Music
B.M.Ed., Southern Illinois University, 1963;
M.M., Southern Illinois University, 1965;

*DANIEL J. ARMEIL, Associate Professor of Industrial Technology
B.S., Indiana State University, 1977;
B.S., Indiana State University, 1978;
M.S., Indiana State University, 1980;

GORDON M. ARMSTRONG, Temporary Assistant Professor of Political Science
B.A., Columbia College, 1975;

MARINEULL H. ARMSTRONG, Coordinator of the Academic Advisement Center and Instructor
B.S.Ed., Georgia Southern College, 1963;

LINDA L. ARTHUR, Associate Professor of Reading and English
B.A., Oglethorpe University, 1972;
M.Sc., University of Bombay, 1986;
Ph.D., University of Georgia, 1979. (1989)

PRANOTI M. ASHER, Temporary Assistant Professor of Geology
B.Sc., University of Bombay, 1984;
M.Sc., University of Bombay, 1986;

SIMON P. ATTLE, Assistant Professor of Recreation and Sport Management
B.S., University of Connecticut, 1987;
M.A., University of Connecticut, 1991;

*C. MARK AULICK, Associate Professor of Mathematics and Computer Science
B.S., Stetson University, 1975;
M.S., Florida State University, 1977;
Ph.D., Duke University, 1981. (1986)

*JOHN E. AVERETT, Professor and Chair, Department of Biology
B.S., Sul Ross State University, 1966;
M.A., Sul Ross State University, 1967;
Ph.D., University of Texas-Austin, 1970. (1994)

JACK NELSON AVERITT, Dean Emeritus of Graduate School and Professor Emeritus of History
B.S., Georgia Southern College, 1944;
M.A., University of Georgia, 1945;
Ph.D., University of North Carolina, 1957. (1945)

LILLIETH L. BAILEY, Instructor of Writing and Linguistics
B.A., Georgia State University, 1983;
M.S., Southern College of Technology, 1993;

BARRY BALLECK, Temporary Assistant Professor of Political Science
B.A., Brigham Young University, 1987;
M.A., Brigham Young University, 1989;

WILLIAM P. BANKS, Temporary Instructor of Writing and Linguistics
B.A., Georgia Southern University, 1994;

*AHMED E. BARBOUR, Professor of Computer Science
B.S.E.E., Cairo University, 1965;
M.S.E.E., Cairo University, 1972;

REBA BARNES, Assistant Professor Emerita of Sport Science and Physical Education
B.S., Georgia Southern College, 1961;

NANCY C. BARRETT, Assistant Professor Emerita of Spanish
B.A., University of North Carolina, 1956;

ROBERT M. BARROW, Associate Professor Emeritus of History
A.B., University of North Carolina, 1959;
A.M., College of William and Mary, 1960;
Ph.D., University of Virginia, 1967. (1967)
SHARON M. BARRS, Instructor of Mathematics  
B.S., University of South Carolina, 1990;  
M.S., University of South Carolina, 1992. (1992)  
  
*DOROTHY A. BATTLE, Associate Professor of Curriculum, Foundations,  
and Research  
B.S.Ed., Winston Salem State University, 1970;  
M.Ed., University of Georgia, 1983;  
  
*DENISE A. BATTLES, Associate Professor of Geology and Assistant Dean,  
Allen E. Paulson College of Science and Technology  
B.A., Colgate University, 1984;  
Ph.D., University of California, Los Angeles, 1990. (1990)  
  
EDWARD J. BAYENS, Assistant Director of Special Programs and Adjunct  
Instructor  
B.A., Western Kentucky University, 1971;  
M.A., Western Kentucky University, 1975;  
  
B. STEPHEN BAYLESS, Professor Emeritus of Art  
B.S., Eastern Oregon College, 1950;  
M.S., Southern Oregon College, 1957;  
  
CAROLINE H. BEARD, Assistant Professor of Industrial Technology  
B.E.T., Georgia Southern College, 1978;  
M.T., Georgia Southern University, 1991. (1991)  
  
*JOHN J. BEASLEY, Professor of Family and Consumer Sciences  
B.A., East Carolina University, 1969;  
M.S., Virginia Polytechnic Institute and State University, 1972;  
  
*WILLIAM A. BECKER, Associate Professor of Recreation and Sport Management  
B.S.Ed., University of Georgia, 1974;  
M.S., Indiana University, 1975;  
  
JACQUELINE A. BEDELL, Instructional Resources Coordinator and  
Adjunct Instructor  
A.A.S., State University of New York, 1961;  
B.S., State University of New York, 1976;  
M.Ed., Georgia Southern University, 1993.  
  
THERESA C. BEEBE, Activities Coordinator and Adjunct Instructor  
B.S., Johnson and Wales College, 1993;  
  
JACK BENNETT, Professor Emeritus of Instructional Media  
B.S.Ed., Ball State University, 1966;  
M.A.Ed., Ball State University, 1969;  
  
MARY MALLARD BENNETT, Temporary Instructor of Middle Grades  
and Secondary Education  
B.S., Georgia Southern University, 1979;  
M.Ed., Georgia Southern University, 1985;  
  
*SARA NEVILLE BENNETT, Professor of Biology, Member Institute of  
Arthropleaology and Parasitology  
B.S., Georgia Southern College, 1964;  
B.S.Ed., Georgia Southern College, 1964;  
M.S., Georgia Southern College, 1967;  
Ph.D., University of Georgia, 1975. (1966)  
  
*JAMES J. BERGIN, Professor of Leadership, Technology, and Human  
Development  
B.A., University of Saint Mary of the Lake, 1967;  
M.Ed., Loyola University, 1971;  
Ed.D., College of William and Mary, 1974.(1992)  
  
PATRICIA A. BERGMANN, Career Counseling Coordinator and Adjunct  
Instructor  
B.S., Lock Haven State College, 1987;  
M.S., University of Tennessee-Knoxville, 1989. (1992)  
  
RUTH E. BERRY, Visiting Instructor of Music  
B.M., Boston University, 1982;  
  
GEORGENE BESS, Instructor of Writing and Linguistics  
B.A., Georgia Southern College, 1985;  
  
EM OLIVIA BEVIS, Adjunct Professor of Nursing  
B.S.N., Emory University, 1955;  
  
*JAMES D. BIGLEY, JR., Associate Professor of Recreation and Sport  
Management  
B.S., Slippery Rock University of Pennsylvania, 1980;  
M.S., Slippery Rock University of Pennsylvania, 1982;  
  
*GALE A. BISHOP, Professor of Geology, Member Institute of  
Arthropleaology and Parasitology  
B.S., South Dakota School of Mines, 1965;  
M.S., South Dakota School of Mines, 1967;  
Ph.D., University of Texas, 1971. (1971)  
  
*T. PARKER BISHOP, Professor of Middle Grades and Secondary  
Education  
B.S., Carson-Newman College, 1959;  
M.S., Emory University, 1963;  
Ph.D., Clemson University, 1968. (1967)  
  
BARBARA WHIPPLE BITTER, Associate Professor Emerita of English,  
Head Emerita, Department of Developmental Studies  
B.A., University of North Carolina, 1951;  
M.A., University of Tennessee, 1953. (1965)  
  
*CHARLENE R. BLACK, Associate Vice President for Academic Affairs,  
Dean of Undergraduate Studies, and Professor of Sociology  
A.B., University of Georgia, 1964;  
M.A., University of Georgia, 1966;  
Ph.D., Vanderbilt University, 1969. (1971)  
  
MARY KETTLER BLACK, Assistant Professor of Family and Consumer  
Sciences (Fashion Merchandising)  
B.S., Louisiana Tech University, 1973;  
M.S., Louisiana Tech University, 1974. (1974)  
  
TINA BLAKE-STEELLE, Assistant Professor of Sociology  
B.A., Purdue University, 1969;  
M.S.W., Smith College School for Social Work, 1971;  
D.S.W., City University of New York, 1992. (1996)  
  
*HARLEY JOE BLANKENBAKER, Professor of Health and Kinesiology  
B.S., Ball State University, 1965;  
M.A., Appalachian State University, 1970;  
Ph.D., University of Maryland, 1973. (1973)  
  
LINDA BLANKENBAKER, Assistant Professor of Recreation and Sport  
Management  
B.S., Georgia Southern College, 1970;  
M.R.A., Georgia Southern College, 1971;  
Ed.S., Georgia Southern College, 1982. (1977)  
  
*LINDA M. BLEICHEN, Associate Professor of Management and Associate  
Dean, College of Business Administration  
B.B.A., Georgia State University, 1984;  
M.S., Georgia State University, 1990;  
Ph.D., Georgia State University, 1990. (1990)  
  
ROSE MAE BOGAN, Assistant Professor of Mathematics  
B.A., University of Arkansas, 1959;  
M.Ed., University of Arkansas, 1962;  
B.F.A., Georgia Southern College, 1987;  
Ed.S., Georgia Southern University, 1993. (1985)  
  
ROBERT H. BOHLER, Assistant Professor of Communication Arts  
B.A., Valdosta State College, 1979;  
  
*WILLIAM HAROLD BOLEN, Business Alumni Professor of Marketing  
B.S., Georgia Southern College, 1964;  
M.B.A., University of Alabama, 1966;  
Ph.D., University of Arkansas, 1972. (1966)  
  
ELVENA BOLIEK, Assistant Professor of Writing and Linguistics  
B.A., Catawba College, 1958;  
CHARLES WESLEY BONDS, Professor Emeritus of Reading
B.S., Alabama State University, 1966;
M.Ed., Georgia Southern College, 1972;
Ed.S., Georgia Southern College, 1974;

STEVEN G. BONHAM, Assistant Professor of Educational Technology
B.S., Louisiana State University, 1976;

JOHN ALLEN BOOLE, JR., Professor Emeritus of Biology and Chairman Emeritus of the Division of Science
B.A., University of Virginia, 1949;
M.S., Virginia Polytechnic Institute, 1951;
Ph.D., University of North Carolina, 1955. (1955)

MARY JANE BOROWSKY, Assistant Professor Emerita of Modern Languages
B.A., North Georgia College, 1959;
M.A., Emory University, 1961. (1960)

WILLIAM J. BOSTWICK, Associate Professor of Accounting
B.B.E., Auburn University, 1969;
M.B.A., Georgia State University, 1972;
Ph.D., Georgia State University, 1980,

LOWELL BOUMA, Professor Emeritus and Head Emeritus, Department of Foreign Languages
B.A., Calvin College, 1957;
M.A., University of Wisconsin, 1964;
Ph.D., University of Wisconsin, 1968. (1975)

PAMELA G. BOURLAND-DAVIS, Assistant Professor of Communication Arts
B.S., Georgia Southern College, 1980;
M.S., Arkansas State University, 1981;
Ph.D., University of Georgia, 1996. (1986)

ROBERT BOXER, Professor of Chemistry
B.S., Brooklyn College, 1956;
Ph.D., Rutgers University, 1961. (1964)

JOHN R. BOZEMAN, Adjunct Professor of Geology
B.S., Georgia Southern College, 1961;
M.A., University of Georgia, 1965;

LYDIA S. BRAGG, Temporary Instructor of Mathematics
B.S., Georgia Southern University, 1990;

ROGER G. BRANCH, Professor of Sociology and Chair, Department of Sociology and Anthropology
A.B., University of Georgia, 1956;
B.D., Southeastern Baptist Theological Seminary, 1959;
Th.M., Southeastern Baptist Theological Seminary, 1961;
M.A., University of Georgia, 1969;
Ph.D., University of Georgia, 1970. (1970)

SUZANNE A. BRANNEN, Temporary Instructor of Writing and Linguistics
B.A., Emory University, 1964;

JAMES P. BRASELTON, II, Assistant Professor of Mathematics
B.S., Ohio University, 1987;
M.S., Ohio State University, 1990. (1990)

LORRAINE M. BRASELTON, Instructor of Mathematics
B.A., University of Northern Iowa, 1984;

MICHAEL LEE BRAZ, Professor of Music
B.M., University of Miami, 1971;
M.M., University of Miami, 1972;
Ph.D., Florida State University, 1984. (1987)

CHERRY C. BREWTON, Assistant Professor of Early Childhood Education
B.S., Savannah State College, 1969;
M.Ed., Georgia Southern College, 1977;

CHARLES F. BRIGGS, Assistant Professor of History
B.A., Grinnell College, 1983;
M.Litt., University of Edinburgh, 1989;

JAMES M. BRITT, Vice President for Development and University Relations
B.S., University of Alabama, 1963;
M.A., University of Alabama, 1969;

FREDERICK W. BROGDON, Assistant Professor of History
B.S.Ed., Georgia Southern College, 1963;
M.A., Georgia Southern College, 1968. (1965)

JOAN ELLEN BROOM, Temporary Information Services Librarian & Temporary Instructor
B.A., Bear Cliff College, 1967;
M.A., University of Dayton, 1978;

KATHY D. BROWDER, Assistant Professor of Health and Kinesiology
B.A., Furman University, 1985;
M.S., University of Tennessee-Knoxville, 1986;
Ph.D., Texas Woman’s University, 1992. (1996)

DON K. BROWN, Assistant Professor of Mathematics
B.S.Ed., Georgia Southern College, 1985;
M.Ed., Georgia Southern College, 1987;

EDNA EARLE BROWN, Associate Director Emerita of Libraries and Professor Emerita
A.B., Peabody College, 1945;

ELFRIEDA FUQUA BROWN (CRD), Assistant Professor of Family and Consumer Sciences (Food, Nutrition, and Dietetics)
B.S., University of Tennessee, 1970;
M.S., University of Tennessee, 1971. (1971)

JOHN H. BROWN, Assistant Professor of Finance and Economics
B.A., University of Akron, 1977;
M.A., University of Akron, 1982;
Ph.D., Michigan State University, 1989. (1994)

PAUL A. BROWN, Assistant Professor of Philosophy
B.A., Florida State University, 1962;
M.A., Florida State University, 1964;
Ph.D., University of Wisconsin, 1975. (1970)

V. EDWARD BROWN, Associate Professor Emeritus of Adult and Vocational Education
B.S.Ed., Georgia Southern College, 1959;
M.Ed., Georgia Southern College, 1966;
Ed.D., University of Mississippi, 1971. (1964)

WALTER L. BROWN, Associate Professor Emeritus of Secondary Education
B.S., West Virginia Wesleyan, 1941;
M.S., Indiana University, 1953;
Ed.D., Indiana University, 1956;
Postdoctoral, Buffalo University, 1967;
Postdoctoral, University of South Carolina, 1969. (1971)

CAROLYN J. BRYAN, Assistant Professor of Music
B.M.E., Baldwin-Wallace College, 1985;
M.M., Indiana University, 1987;

JONATHAN BRYANT, Assistant Professor of History
B.A., University of Virginia, 1979;
J.D., Mercer University, 1983;
M.A., University of Georgia, 1987;
Ph.D., University of Georgia, 1992. (1996)

LARRY D. BRYANT, Assistant Professor of Health and Kinesiology
A.A., Gulf Coast Community College, 1971;
B.S., Jacksonville University, 1973;
M.Ed., Georgia Southern College, 1976;

NAMOK BRYANT, Temporary Assistant Professor of Curriculum, Foundations, and Research
B.A., Sungshin Women’s University, 1983;
M.S., Oklahoma State University, 1993;
Ph.D., Oklahoma State University, 1997. (1997)

JOHN J. BUDACK, Assistant Professor of Finance
B.B.A., University of Minnesota, 1961;
JEFFREY L. BULLER, Professor of History and Associate Dean of Liberal Arts and Social Sciences
B.A.—University of Notre Dame, 1976;
M.A., University of Wisconsin, Madison, 1977;
Ph.D., University of Wisconsin, Madison, 1981. (1990)

JOSEPH C. BULLINGTON, Temporary Instructor of Management
B.S., Georgia Southern College, 1976;
M.A., Georgia Southern College, 1980;
Ph.D., University of California at Davis, 1987;

ELIZABETH A. BURKE, Temporary Instructor of Mathematics
B.S., Georgia Southern College, 1987;

*KEVIN L. BURKE, Assistant Professor of Health and Kinesiology
A.B., Belmond Abbey College, 1982;
M.A., East Carolina University, 1984;

PATRICIA L. BURKETT, Director of Housing and Adjunct Instructor
B.S., Georgia Southern College, 1972;

BECKY A. BURKHALTER, Temporary Assistant Professor of Writing and Linguistics
B.A., Georgia Southern College, 1978;
M.Ed., Georgia Southern College, 1979;
Ed.S., Georgia Southern College, 1982;

*O. MAX BURNS, Professor of Management
B.I.E., Georgia Institute of Technology, 1973;
M.B.I.S., Georgia State University, 1978;
Ph.D., Georgia State University, 1987. (1983)

LARRY BURTON, Associate Professor of Writing and Linguistics and Acting Chair, Department of Writing and Linguistics
B.A., University of Virginia, 1972;
M.Ed., University of Virginia, 1974;
M.A., University of Virginia, 1982;
Ph.D., University of Virginia, 1989. (1996)

ZISCA I. BURTON, Instructor of Writing and Linguistics
B.A., University of Wisconsin-Madison, 1992;

*BARTON P. BUXTON, Associate Professor of Health and Kinesiology
B.S., Tulane University, 1984;
M.Ed., University of Virginia, 1987;

*J. RALPH BYINGTON, Professor of Accounting and Chair, Department of Accounting
B.S.B.A., University of Southern Mississippi, 1977;
M.S., University of Southern Mississippi, 1978;

LEE CLARK CAIN, Professor Emeritus of Secondary Education
B.A., Samford University, 1949;
M.A., Peabody College, 1951;

MARTHA L. TOOTLE CAIN, Professor Emerita of Chemistry
B.S., Georgia Southern College, 1950;
M.A., University of Arizona, 1958;

RODNEY H. CALDWELL, Assistant Professor of Music
B.A., Luther College, 1985;
M.M., University of Arizona, 1992;

*CONSTANCE CAMPBELL, Assistant Professor of Management
B.A., Oklahoma Baptist University, 1981;
M.S., University of Kentucky, 1983;
Ph.D., Florida State University, 1992. (1992)

*RANDAL CARLSON, Assistant Professor of Leadership, Technology, and Human Development
B.S., United States Air Force Academy, 1966;
M.S., Purdue University, 1967;

LON MELSON CARNES, JR., Professor Emeritus of Finance
B.B.A., University of Georgia, 1954; M.B.A.,
Georgia State University, 1964; D.B.A.,
Georgia State University, 1972. (1967)

GEORGE PAUL CARR, JR., Assistant Professor Emeritus of Health Science Education
B.S., Georgia Southern College, 1956;

*E. RUTH CARROLL, Assistant Professor of Middle Grades and Secondary Education
B.S.Ed., University of Central Oklahoma, 1979;
M.Ed., University of Central Oklahoma, 1981;

BRENDA S. CARTER, Assistant Professor of Mathematics and Senior Women’s Athletic Administrator
B.S.Ed., University of Georgia, 1968;

GREG CARTER, Temporary Assistant Professor of Art
B.F.A., Atlanta College of Art, 1986;

*HARRISON S. CARTER, Professor of Management and Provost and Vice President for Academic Affairs B.S.,
Georgia Southern College, 1966; M.S.,
U.S. International University, 1976;
Ph.D., University of Georgia, 1974. (1975)

PATRICIA W. CARTER, Assistant Professor of Art
B.A., Rutgers University, 1987;

*JEAN-PAUL CARTON, Associate Professor of French Licence, Université de Tours, France, 1971;
Maîtrise, Université de Tours, France, 1972;
Ph.D., University of Utah, 1982. (1983)

*THOMAS L. CASE, Professor of Management
A.B., Davidson College, 1974;
M.S., University of Georgia, 1979;
Ph.D., University of Georgia, 1982. (1981)

EARL CASHON, Director, University Union, and Adjunct Instructor of Leadership, Technology, and Human Development
B.A., University of South Carolina-Columbia, 1973;

JANE CASON, Instructor of Mathematics
B.S.Ed., University of Georgia, 1969;

WILLIAM O. CASTER, Adjunct Professor of Biology
B.A., University of Wisconsin, 1942;
M.S., University of Wisconsin, 1944;
Ph.D., University of Minnesota, 1948. (1989)

HOLLIS LANIER CATE, Professor Emeritus of English
A.B., Presbyterian College, 1951;
M.Ed., University of Georgia, 1957;
Ph.D., University of Georgia, 1962. (1967)

MICHELLE CAWTHORN, Temporary Assistant Professor of Biology
B.S., Old Dominion University, 1981;
M.S., Old Dominion University, 1984;
Ph.D., Bowling Green State University, 1989. (1996)

PAUL F. CERPOVICZ, Assistant Professor of Chemistry
B.S., Westfield State College, 1986;

*CHARLES W. CHAMP, Professor of Mathematics
A.A., Southern Baptist College, 1968;
B.S., Arkansas State University, 1971;
M.S., Arkansas State University, 1973;
M.A., University of Missouri, 1982;
Ph.D., University of Southwestern Louisiana, 1986. (1992)

*TAK C. CHAN, Associate Professor of Leadership, Technology, and Human Development
B.A., University of Hong Kong, 1971;
M.Ed., Clemson University, 1976;
*CHARLES R. CHANDLER, JR., Assistant Professor of Biology
B.S., Old Dominion University, 1981; M.S., Old Dominion University, 1984; Ph.D., Bowling Green State University, 1989. (1995)

DEREK CHAPUT, Temporary Instructor of Health and Kinesiology
B.B.A., Georgia Southern University, 1994; M.S., Georgia Southern University, 1996. (1997)

*HARLEY ROBERT CHESHIRE, JR., Associate Professor Emeritus of Vocational Education
B.S., Virginia Polytechnic Institute, 1961; M.S., Virginia Polytechnic Institute, 1964; Ed.D., University of Georgia, 1971. (1972)

*ALEXANDER L. CHEW, Professor of Educational Psychology and Counseling

*JOANNE CHOPAK, Assistant Professor of Health and Kinesiology

ALICE GALLOWAY CHRISTMAS, Assistant Professor Emerita of Early Childhood Education

CHARLES L. CHRISTMAS, Associate Professor Emeritus of Mathematics
B.S., Oakland College, 1951; M.A., University of Georgia, 1962; Ph.D., University of Georgia, 1966. (1969)

LINDA A. CIONITTI, Associate Professor of Music

*JAMES B. CLAIBORNE, Professor of Biology
B.S., Florida State University, 1977; Ph.D., University of Miami, 1981; Postdoctoral training, Max Plank Institute for Experimental Medicine, Göttingen, West Germany, 1981-83. (1983)

GEORGE R. CLARK, Associate Professor of Electrical Engineering Technology
B.S.E.E., West Virginia Institute of Technology, 1972; M.S.E., West Virginia College of Graduate Studies, 1978; Professional Engineer. (1987)

JOANNE D. CLARK, Assistant Professor of Physics

*KENNETH F. CLARK, Associate Professor of Leadership, Technology, and Human Development

PATRICK R. COBB, Professor Emeritus of Sport Science and Physical Education

JEFFREY L. COCHRAN, Counseling Psychologist and Adjunct Instructor
B.S., Appalachian State University, 1986; M.A., Appalachian State University, 1991; Ph.D., Virginia Polytechnic Institute and State University, 1996. (1996)

JAMES THOMAS COE, Assistant Professor of Finance and Economics
B.S., Georgia State University, 1970; M.B.A., Memphis State University, 1985. (1993)

SHARYN COE, Assistant Professor of Communication Arts

VALERIE B. COLE, Instructor of Middle Grades and Secondary Education

DON COLEMAN, Registrar Emeritus and Director Emeritus of Admissions
B.S., Georgia Southern College, 1948; M.A., Peabody College, 1954. (1963)

MARTHA A. COLEMAN, Professor Emerita of Nursing

NATHAN C. COLEMAN, Assistant Director of Planning and Adjunct Assistant Professor of Management

MARY T. COLLER, Academic Resources Coordinator, Residence Life, and Adjunct Instructor
B.M.E., Ohio State University, 1986; M.Ed., Cleveland State University, 1989. (1994)

LINDA R. COLLINS, Instructor of Spanish

CLAIR IVAN COLVIN, Professor Emeritus of Chemistry and Head Emeritus, Department of Chemistry
B.S., Ohio University, 1949; M.S., University of Miami, 1961; Ph.D., University of Miami, 1963. (1964)

*DIANA M. CONE, Associate Professor of Family and Consumer Sciences
B.S., University of Southern Mississippi, 1979; M.S., University of Southern Mississippi, 1980; Ph.D., Florida State University, 1981. (1990)

KEVIN COOK, Temporary Instructor of Political Science

WILLIAM L. COOK, Vice President Emeritus for Business and Finance

ARNOLD COOPER, Dean, College of Education, and Professor of Curriculum, Foundations, and Research

*JONATHAN COPELAND, Professor of Biology, Member Institute of Anthropology and Archaeology

RONALD J. CORE, Vice President for Business and Finance
B.A., Bowling Green State University, 1974; M.A.E., Western Carolina University, 1982; Ed.D., University of Georgia, 1990. (1997)

*SARA J. CORWIN, Assistant Professor of Health and Kinesiology
B.A., University of Arizona, 1982; M.P.H., University of South Carolina-Columbia, 1993; Ph.D., University of South Carolina-Columbia, 1996. (1997)

ROBERT COSTOMIRIS, Assistant Professor of Literature

*ROBERT D. COSTON, Professor of Economics

DOYICE J. COTTEN, Professor Emeritus of Kinesiology
B.S., Florida State University, 1961; M.S., Florida State University, 1963; Ed.D., Florida State University, 1965. (1966)
SAMUEL L. COUCH, Assistant Professor of Geography

*GEORGE H. COX, JR., Professor of Political Science and Public Administration

*CHARLOTTE C. CRITTENDEN, Assistant Professor of Writing and Linguistics

*CHARLES P. CROUCH, Assistant Professor of History

*WENDY L. CUSTER, Associate Professor of Educational Foundations and Curriculum

*MARC D. CYR, Assistant Professor of Literature

VICTORINE E. DAIgre, Assistant Professor of Literature

*JOHN H. DAILY, Professor of Political Science and Public Administration and Acting Director, Center for Excellence in Teaching

PHYLLIS DALLAS, Assistant Professor of Writing and Linguistics

GAIL DANTZKER, Coordinator of Institutional Effectiveness
B.S., Indiana State University, 1969; M.S., Indiana State University, 1971; Ph.D., Loyola University Chicago, 1996. (1996)

*MARK L. DANTZKER, Associate Professor of Criminal Justice
B.S., Indiana State University, 1982; M.A., Indiana State University, 1983; Ph.D., University of Texas-Arlington, 1989. (1996)

JOY DARLEY, Temporary Instructor of Mathematics

*NATALIA DA ROZA, Professor of Music

JAMES H. DARRELL, Associate Professor of Geology
B.A., Ohio Wesleyan University, 1964; M.S., University of Tennessee, 1966; Ph.D., Louisiana State University, 1973. (1970)

SUSAN JONES DARRELL, Assistant Professor Emerita of Family and Consumer Sciences (Education)

GARY E. DARTT, Associate Professor of Communication Arts

NIRMAL K. DAS, Assistant Professor of Civil Engineering Technology
B.S., Jadavpur University, 1969; M.S., Texas Tech University, 1985; Ph.D., Texas Tech University, 1988; Professional Engineer. (1993)

*JOHN W. DAVENPORT, Professor of Mathematics and Computer Science
B.S., Union University, 1966; M.S., University of Mississippi, 1964; M.S., University of South Carolina, 1987; Ph.D., Texas Tech University, 1974. (1982)

AARON H. DAVIDSON, Adjunct Instructor of Nursing
B.S., University of Georgia, 1982; M.D., Medical College of Georgia, 1986. (1994)

LAURA B. DAVIDSON, Head Reference Librarian and Assistant Professor

DONALD M. DAVIS, Assistant Professor of Writing and Linguistics
B.A., Birmingham Southern College, 1955; M.A., Emory University, 1964. (1964)

*ELYNOR G. DAVIS, Professor of Economics

JAMES E. DAVIS, JR., Assistant Professor of Finance and Economics

JOHN MARK DAVIS, Director, Small Business Development Center, and Instructor

REBECCA M. DAVIS, Assistant Professor of Justice Studies

*RON G. DAVIDSON, Professor of Leadership, Technology, and Human Development and Chair, Department of Leadership, Technology and Human Development

MOHAMMAD S. DAVOUD, Associate Professor of Mechanical Engineering Technology
B.S.M.E., Oklahoma State University, 1981; M.S.M.E.P.E., Oklahoma State University, 1984. (1988)

DALE A. DEAL, Adjunct Instructor of Health and Kinesiology

*S. TODD DEAL, Associate Professor of Chemistry and Assistant Dean, Allen E. Paulson College of Science and Technology
B.S., Georgia Southern College, 1986; Ph.D., Ohio State University, 1990. (1992)

T. MICHAEL DEAL, Registrar and Adjunct Instructor

TONY J. DEAL, Assistant Radiation Safety Officer and Adjunct Instructor of Physics
B.S., Georgia Southern University, 1992; M.Ed., Georgia Southern University, 1993. (1993)

CLEON E. DEAN, Associate Professor of Physics
B.S., Texas A & M University, 1980; M.S., Texas A & M University, 1982; Ph.D., Washington State University, 1989. (1992)

*BRYAN DEEVER, Associate Professor of Curriculum, Foundations, and Research
A.B., Glenville State College, 1977; M.S., University of Tennessee-Knoxville, 1979; Ph.D., Miami University (Ohio), 1989. (1989)
MILAN EUGENE DEGYANSKY, Professor of Civil Engineering Technology
B.S.E.E., Pennsylvania State University, 1964;
M.S., Pennsylvania State University, 1968;
Professional Engineer. (1980)

LYNNE DELLENBARGER, Callaway Professor Emeritus of Banking and Finance
A.B., Duke University, 1953; M.B.A.,
University of Florida, 1956; Ph.D.,

ELEANOR B. DELOACH, Temporary Instructor of Reading
B.S.Ed., Georgia Southern College, 1954;

*LUDENG, Associate Professor of Physics
B.S., University of Science and Technology of China, 1982;
M.S., Baylor University, 1987;

*JOHN FRANCIS DENITTO, Professor Emeritus of Middle Grades and Secondary Education
B.S., Georgia Southern College, 1954;
M.Ed., Georgia Southern College, 1965;
Ed.S., Georgia Southern College, 1973;

*LUTHER TIREY DENTON III, Associate Professor of Marketing
B.A., Emory University, 1982;
M.B.A., Emory University, 1986;
Ph.D., University of Georgia, 1991. (1992)

NANCY DESOMMES, Assistant Professor of Writing and Linguistics
B.A., Georgia Southern College, 1975;

RUSSELL A. DEWEY, Assistant Professor of Psychology
B.A., University of Michigan, 1973;
Ph.D., University of Michigan, 1978. (1979)

*ROBERT DICK, Associate Professor Emeritus of Political Science and Public Administration
B.A., University of Michigan, 1950;
M.P.A., New York University, 1954;
Ph.D., New York University, 1973. (1973)

*JOHN R. DIEBOLT, Professor of Biology and Associate Dean of Graduate Studies
B.A., Emporia State University, 1963;
M.S., Emporia State University, 1965;
Ph.D., University of Oklahoma, 1974. (1992)

WILLIAM DIEHL, Adjunct Assistant Professor of Writing and Linguistics

JENNIE DILWORTH, Temporary Instructor of Family and Consumer Sciences
B.S., Brigham Young University, 1985;

GALAL WASFI DIMIETRY, Temporary Instructor of Arabic
B.A., Alexandria University, Egypt, 1965;
M.P.A., Institute of Public Administration, Alexandria, Egypt, 1969;

SHERI D. DIVERS, Instructor of Writing and Linguistics
B.A., Spelman College, 1989;

PAUL DIXON, Associate Professor Emeritus of Vocational Education and Adult Education
B.S., University of Tennessee, 1958;
M.S., University of Tennessee, 1971;

*GRIGORY DMITRIYEV, Associate Professor of Curriculum, Foundations, and Research

LLOYD NOLAN DOSIER, Professor of Management
B.B.A., Georgia State University, 1965;
M.B.A., Georgia State University, 1966. (1968)

*CORDELIA DOZENIS, Associate Professor of Curriculum, Foundations and Research
B.A., Millisaps College, 1983;
M.S., Memphis State University, 1985;

*ALAN C. DOWNS, Assistant Professor of History
B.A., North Carolina State University, 1978;
M.A., University of North Carolina-Chapel Hill, 1982;

*ELIZABETH DOWNS, Associate Professor of Leadership, Technology, and Human Development
B.S., Florida State University, 1975;
M.Ed., University of Florida, 1983;

*DONALD JOSEPH DRAPALIK, Associate Professor of Biology
B.A., Southern Illinois University, 1959;
M.A., Southern Illinois University, 1962;
Ph.D., University of North Carolina, 1970. (1968)

*DAVID L. DUDLEY, Associate Professor of Literature
B.A., Duke University, 1970; M.Div.,
Concordia Seminary, 1975; M.A.,
University of West Florida, 1984;

*LOIS L. DUKE-WHITAKER, Professor of Political Science and Chair, Department of Political Science
A.A., University of South Carolina, 1975;
A.B.L., University of South Carolina, 1978;
M.A., University of South Carolina, 1979;
Ph.D., University of South Carolina, 1986. (1996)

EDWARD A. DUNCAN, Head Cataloging Librarian and Assistant Professor
B.A., North Texas State University, 1950;
M.A., Florida State University, 1956;
M.L.S., Rutgers University, 1964. (1986)

GARY L. DUNCAN, Assistant Professor of Building Construction
A.E., Southern Technical Institute, 1966;
B.S., Georgia Southern College, 1975;
M.T., Georgia Southern University, 1990.
Registered Architect (1983)

IRIS B. DURDEN, Serials Librarian and Assistant Professor
B.S.Ed., Georgia Southern College, 1973;

*LANCE A. DURDEN, Assistant Curator, National Tick Collection, Member, Institute of Arthropodology and Parasitology, and Assistant Professor of Biology
B.Sc., Royal Holloway College, University of London, 1977;

JIMMIE L. EARLE, Instructor of Management
B.B.A., Northeast Louisiana University, 1981;

OLIVIA C. EDENFIELD, Assistant Professor of English
B.A., Georgia Southern College, 1982;
M.A., University of Iowa, 1986. (1986)

ANDREW S. EDWARDS, Associate Professor Emeritus of Educational Foundations and Curriculum
A.B., Mercer University, 1950;
M.Ed., Mercer University, 1957;
Ed.D., University of Georgia, 1965. (1963)

MARK A. EDWARDS, Associate Professor of Physics
B.S., Georgia Southern College, 1977;
M.A., Johns Hopkins University, 1979;
Ph.D., Johns Hopkins University, 1984. (1990)

*VERNON O. EGGER, Professor of History
B.A., Baylor University, 1970;
M.Div., Southern Baptist Theological Seminary, 1973;
M.A., University of Michigan, 1977;
Ph.D., University of Michigan, 1983. (1983)

WILLIAM EHLING, Coordinator, Campus Recreation and Intramurals, and Adjunct Instructor of Recreation and Sport Management
B.S., Appalachian State University, 1979;
M.S., Appalachian State University, 1981. (1989)
WILLIAM H. FRANCISCO, Assistant Professor of Accounting  
B.S., University of Southern Mississippi, 1969;  
M.S., University of Southern Mississippi, 1975;  

MARI L. FRANKLIN, Assistant Professor of Writing and Linguistics  
B.A., Georgia Southern College, 1985;  
M.Ed., Georgia Southern College, 1986;  

SANDRA TINDOL FRANKLIN, Assistant Professor Emeritus of Middle  
Grades and Secondary Education  
B.S., Georgia Southern College, 1959;  
M.S.T., Georgia Southern College, 1967;  

*SUSAN T. FRANKS, Associate Professor of Early Childhood Education  
B.A., Armstrong State College, 1976;  
M.A.Ed., Virginia Polytechnic Institute and State University, 1983;  

*WALTER J. FRASER, JR., Professor of History  
B.A., University of Virginia, 1958;  
M.A., East Carolina University, 1964;  

BETSY L. FREEMAN, Instructor of Writing and Linguistics  
A.B.J., University of Georgia, 1970;  

*FRANK E. FRENCH, Professor of Biology, Member Institute of  
Arthropodology and Parasitology  
B.S., Texas Technological College, 1957;  
M.S., Iowa State University, 1958;  
Ph.D., Iowa State University, 1962. (1969)

HAL W. FULMER, Associate Professor of Communication Arts and Acting  
Chair, Department of Communication Arts  
A.A., Albany Junior College, 1979;  
B.S., Georgia Southern College, 1981;  
M.A., University of Georgia, 1982;  
Ph.D., Louisiana State University, 1985. (1988)

*ERIC T. FUNASAKI, Assistant Professor of Mathematics  
B.S., Harvey Mudd College, 1990;  
M.S. University of Washington, 1992;  

HOWARD LESLIE FURR, Associate Professor of Family and Consumer  
Sciences  
B.A., Louisiana State University, 1974  
M.Ed., Springfield College, 1981;  

SONYA S. GAITHER, Assistant Government Documents Librarian and  
Assistant Professor  
B.S., LaGrange College, 1993;  

*SANDRA L. GALLEMORE, Professor of Health and Kinesiology  
B.S., Washington State University, 1964;  
M.S., Smith College, 1969;  

*DAVID G. GANTT, Associate Professor of Biology and Adjunct Associate  
Professor of Anthropology  
B.A., University of Washington, 1971;  
M.A., Washington University, 1976;  

ELIZABETH HARDIN GARRISON, Professor Emerita of Elementary  
Education  
A.B., University of Alabama, 1935;  
M.Ed., University of Florida, 1955;  
Ed.D., University of Florida, 1964. (1964)

X. L. GARRISON, Professor Emeritus of Administration and Supervision  
B.S., University of Kentucky, 1937;  
M.Ed., University of Miami, 1948;  

GEORGE W. GASTON, JR., Associate Professor Emeritus of Educational  
Foundations and Curriculum  
A.B., University of Georgia, 1957;  
M.Ed., University of Georgia, 1963;  
Ed.D., Indiana University, 1968. (1967)

GISELE GAUDET, Temporary Assistant Professor of Recreation and Sport  
Management  
B.A., University of Alberta, 1986;  
M.S., University of Oregon, 1990;  

ROSE MARY GEE, Instructor of Nursing  
A.S.N., Armstrong State College, 1980;  
B.S., Georgia Southern College, 1976;  
B.S.N., Medical College of Georgia, 1981;  

*SOPHIE B. GEORGE, Temporary Assistant Professor of Biology  
B.Sc., Fourah Bay College, 1981; M.Sc.,  
University of Paris VI, 1984; D.E.A.,  
University of Paris VI, 1987; Ph.D.,  

THOMAS L. GERMAN, Adjunct Instructor of Health and Kinesiology  
B.A., University of South Dakota, 1955;  
B.S., University of South Dakota, 1958;  
M.D., University of Texas-Austin, 1960. (1997)

FRIEDA GERNANT, Professor Emerita of Art  
A.B., Western Michigan University, 1936;  
M.A., University of Michigan, 1944;  
Ed.D., Columbia University, 1964. (1946)

CHRIS B. GYEYERMAN, Associate Professor of Communication Arts  
B.S., Utah State University, 1983;  
M.A., Eastern Illinois University, 1984;  

*BRIAN J. GIBSON, Assistant Professor of Marketing  
B.S.B.A., Central Michigan University, 1984;  
M.B.A., Wayne State University, 1991;  

DALE B. GIBSON, Instructor of Mathematics  
B.S.Ed., Georgia Southwestern College, 1975;  

TIMOTHY D. GILES, Assistant Professor of Writing and Linguistics  
B.A., East Carolina University, 1982;  

PATRICIA INGLE GILLIS, Professor Emerita of English  
A.B., Baylor University, 1951;  
M.A., Baylor University, 1952;  
Ph.D., University of Arkansas, 1965. (1971)

PEGGY S. GILMORE, Serials Acquisitions Librarian Emerita and Associate  
Professor Emerita  
A.B., Georgia State College for Women, 1953;  
M.L., Emory University, 1956. (1971)

*DAVINEL F. GLEASON, Assistant Professor of Biology  
B.S., Furman University, 1980;  
M.S., University of Houston, 1984;  
Ph.D., University of Houston, 1992. (1996)

STEPHEN J. GLEUCKERT, Visiting Instructor of Chemistry  
B.S., Rose-Hulman Institute of Technology, 1960;  

EDGAR C. GODFREY, Associate Professor Emeritus of Technology  
B.S.Ed., Ohio University, 1941;  
M.S., Ohio University, 1949. (1949)

*ABÍÓDUN GÔKÈ-PARIOLLÁ, Professor of Writing and Linguistics  
B.A., University of Ile, Nigeria, 1974;  

DOROTHY S. GOLDEN, Assistant Professor of Writing and Linguistics  
A.B., University of Georgia, 1970;  

CYNTHIA A. GONZALEZ, Instructor of Mathematics  
A.S.E.T., Trident Technical College, 1982;  
B.S., College of Charleston, 1988;  

*DAVIE B. GOOD, Professor of Geography, Member Institute of  
Arthropodology and Parasitology  
B.A., Emory and Henry College, 1965;  
M.S., University of Tennessee, 1967;  
*CARL W. GOODING, Dean of the College of Business Administration
and Professor of Management
B.S., University of North Carolina, 1965;
M.B.A., University of Georgia, 1972;
Ph.D., University of Georgia, 1976. (1986)

RUTH GOODING, Instructor of Reading
B.S., Frostburg State College, 1966;

MARVIN L. GOSSL, Cataloging Librarian and Assistant Professor
B.A., Georgia State University, 1974;
M.A., Georgia State University, 1980;
M.Ln., Emory University, 1982. (1983)

*CHARLES W. GOSSETT, Assistant Professor of Political Science and
Public Administration
B.A., Hope College, 1973;
M.A., Stanford University, 1975;
Ph.D., Stanford University, 1986. (1992)

BEVERLY L. GRAHAM, Assistant Professor of Communication Arts
B.S.Ed., Eastern Illinois University, 1972;
M.A., Eastern Illinois University, 1977;

JOHN P. GRAHAM, Professor Emeritus of Music
B.M., North Texas State University, 1941;
M.M., North Texas State University, 1947;
Ed.D., University of Oklahoma, 1953. (1962)

*DALE F. GRANT, Associate Professor of Leadership, Technology, and
Human Development
B.A., Indiana University, 1968;
M.S., Indiana University, 1972;
Ph.D., University of Toledo, 1985. (1987)

*DALE F. GRANT, Assistant Professor of Finance and Economics
B.S., Florida State University, 1984;

WILMER GRANT, JR., Associate Professor of Physics
B.A., Hampton Institute, 1962;
M.S., Indiana University, 1967;
Ph.D., Indiana University, 1974. (1982)

C. DOUGLAS GRAVES, Professor of Music
B.S.Ed., West Chester State University, 1960;
M.M.E., Indiana University, 1965;
Ph.D., Michigan State University, 1972. (1987)

RICHARD GRAYSON, Temporary Instructor of Mathematics and
Computer Science
B.S., University of the South, 1988;
M.Ed., Virginia Polytechnic Institute and State University, 1991;
M.S., Virginia Polytechnic Institute and State University, 1993. (1997)

EDWARD T. GREEN, Professor Emeritus of Educational Leadership
B.S., Ithaca College, 1942;
M.S., Syracuse University, 1947;
Ed.D., Syracuse University, 1965. (1977)

WILLIAM N. GREENE, Assistant Professor of Military Science
Captain, United States Army

ROBERT W. GREENFIELD, Professor Emeritus of Anthropology and
Sociology
B.A., Kent State University, 1949;
Ph.D., The Ohio State University, 1959. (1973)

JEAN T. GREENWAY, Assistant Professor Emerita of Early Childhood
Education
B.A., Birmingham Southern College, 1954;
M.A., George Peabody College for Teachers, 1954;

ZELIA GREGORIOU, Temporary Assistant Professor of Curriculum,
Foundations, and Research
B.S., University of Illinois-Urbana-Champaign, 1990;

*BRYAN W. GRIFFIN, Assistant Professor of Curriculum, Foundations,
and Research
B.A., North Carolina State University, 1986;
M.S., Florida State University, 1989;
Ph.D., Florida State University, 1993. (1992)

*MARLYNN M. GRIFFIN, Assistant Professor of Curriculum, Foundations,
and Research
B.S., Florida State University, 1984;
M.S., Florida State University, 1985;
M.S., Florida State University, 1989;
Ph.D., Florida State University, 1992. (1992)

PATSY GRIFFIN, Associate Professor of Literature
B.A., University of Arkansas, 1966;
M.A., University of Arkansas, 1967;
M.A., University of Rochester, 1982;

DENNIS M. GRUBER, Head Athletic Trainer and Adjunct Instructor of
Health and Kinesiology
B.S., Youngstown State University, 1989;

*WILLIE KENT GUION, Assistant Professor of Health and Kinesiology
B.S., North Carolina State University, 1987;
M.D., University of North Carolina-Chapel Hill, 1992;

RANDY GUNTER, Director of Educational Opportunity Programs and
Instructor
B.A., Central University, 1974;
M.S.W., University of Georgia, 1977. (1987)

JOHN E. GUTKNECHT, Associate Professor Emeritus of Management
B.S., Tulane University, 1954;
M.B.A., Louisiana State University, 1965. (1986)

GAETANO R. GUZZO, Temporary Instructor of Sociology
B.A., Kent State University, 1979;
A.A., City Colleges of Chicago, 1985;

WENDY D. HABEGGER, Temporary Instructor of Mathematics
B.S., Augusta College, 1994;

DONALD F. HACKETT, Professor Emeritus of Technology and Dean
Emeritus of the College of Technology
B.S., University of Illinois, 1940;
M.Ed., University of Missouri, 1947;
Ed.D., University of Missouri, 1953. (1948)

MARY HADLEY, Assistant Professor of Writing and Linguistics
B.A., Leeds University (England), 1970;
M.S., Southern Connecticut State University, 1987;

*DANIEL V. HAGAN, Professor of Biology, Member Institute of
Arthropodology and Parasitology
B.S.Ed., Georgia Southern College, 1968;
M.S.T., Georgia Southern College, 1972;
Ph.D., University of Georgia, 1979. (1980)

*IL. STEPHEN HALE, Associate Professor of Anthropology
B.A., University of Central Florida, 1974;
M.A., Florida Atlantic University, 1976;

PATRICIA L. HALE, Assistant Professor of Mathematics
B.S., University of Washington, 1990;
M.S., Oregon State University, 1992;
Ph.D., Oregon State University, 1996. (1996)

ERA HALL, Program Coordinator and Adjunct Instructor
B.S.Ed., Auburn University, 1981;

CURTIS HAMES, JR., Adjunct Associate Professor of Health and
Kinesiology
B.S., Georgia Southern College, 1968;
B.S., University of Georgia, 1972;

CURTIS HAMES, SR., Adjunct Professor of Health and Kinesiology
B.S., University of Georgia, 1941;
M.D., University of Georgia, 1944. (1987)
ANN H. HAMILTON, Associate University Librarian and Associate Professor
B.A., University of Montevallo, 1968;
M.A., Mississippi State University, 1970;
M.Ln., Emory University, 1971;

BERNITA K. HAMILTON, Assistant Professor of Nursing
B.S.N., University of Alabama-Birmingham, 1976;
M.S.N., University of Alabama-Birmingham, 1979;

DIANE B. HAMILTON, Assistant Professor of Health and Kinesiology
B.S.A.S., Youngstown State University, 1980;
M.S.Ed., Youngstown State University, 1983;

*LYNDA S. HAMILTON, Professor of Legal Studies
B.A., Wesleyan College, 1965;
M.A., Clemson University, 1967;
J.D., University of Georgia, 1981. (1982)

*DIANA J. HAMMITE, Assistant Professor of Leadership, Technology, and Human Development
B.S., University of Alabama, 1976;
M.A., University of Alabama, 1987;

KYLE HANCOCK, Assistant Professor of Music
B.M.E., Baldwin-Wallace College, 1975; M.M.,
Cleveland Institute of Music, 1979; A.Mus.D.,

ROBERT W. HANEY, JR., Assistant Professor of Spanish and Assistant Vice President for Academic Affairs
B.A., Mercer University, 1972;
M.A., University of Kentucky, 1974;
Ph.D., University of Kentucky, 1982. (1982)

*CATHERINE A. HANSMAN, Assistant Professor of Leadership, Technology, and Human Development
B.M., University of Cincinnati, 1979;
M.S.Ed., Indiana State University, 1990;

*CHARLENE M. HANSON, Professor of Nursing
B.S., State University of New York-Oneonta, 1972;
M.S., Syracuse University, 1979;

HIRAM STANLEY HANSON, Professor Emeritus of Geology and Head Emeritus, Department of Geography and Geology
B.A., Emory University, 1946;
M.S., Emory University, 1949;
M.A., Emory University, 1959;
Ph.D., University of Arizona, 1966. (1964)

ROGER BRIAN HANSON, Adjunct Associate Professor of Biology (Skidaway Institute of Oceanography)
B.A., University of California at Los Angeles, 1967;
M.S., California State University at Long Beach, 1970;
Ph.D., University of Hawaii, 1974. (1977)

*ROLAND HANSON, Associate Professor of Industrial Engineering Technology
B.S., Engr., Fairleigh Dickinson University, 1957;
M.B.A., Fairleigh Dickinson University, 1960;
Professional Engineer. (1981)

SANDRA J. HANSON, Assistant Professor of Finance and Economics
B.S., Bemidji State University, 1991;
M.A., Indiana University, 1993;

*ELAINE MARIE HAPSHE, Associate Professor of Nursing
B.S., Marymount Manhattan College, 1973;
M.S.N., Arizona State University, 1976;
Ph.D., Texas Woman’s University, 1994. (1995)

JAMES HARBOUR, Assistant Professor of Communication Arts

*CHARLES J. HARDY, Professor of Health and Kinesiology and Chair, Department of Health and Kinesiology
B.S., East Carolina University, 1978;
M.S., University of Tennessee-Knoxville, 1980;

SARA-ELIZABETH HARDY, Assistant Professor Emerita of Mathematics
B.A., Georgia College, 1956;
M.A., Florida State University, 1957. (1964)

*PEGGY G. HARGIS, Assistant Professor of Sociology
B.A., University of Alaska-Anchorage, 1978;
M.S., University of Alaska-Anchorage, 1979;

*HORACE W. HARRELL, Associate Professor of Accounting
B.B.A., Georgia Southern College, 1969;
M.B.A., University of Georgia, 1970;
Ph.D., University of Georgia, 1976;

JANET R. HARRIS, Adjunct Instructor of Nursing
B.S.N., University of Nebraska Medical Center, 1976;

*GALE AILEEN HARRISON, Associate Professor of Political Science
B.A., Agnes Scott College, 1967;
M.A., Vanderbilt University, 1970;

JAMES ORION HARRISON, JR., Reference Librarian Emeritus and Associate Professor Emeritus A.B.,
Georgia State University, 1969; M.Ln.,
Emory University, 1970. (1970)

*GREGORY W. HARWOOD, Associate Professor of Music
B.A., Brigham Young University, 1978;
M.A., Brigham Young University, 1980;

KATHY HARWOOD, Temporary Instructor of Reading
B.S., Brigham Young University, 1972;

NILOFER HASHMI, Instructor of Writing and Linguistics
B.A., University of Karachi, 1960;
M.A., University of Karachi, 1962;

*SHAFIK HASHMI, Professor of Political Science
B.A., Osmania University (India), 1951;
M.P.A., University of the Philippines, 1959;
Ph.D., University of Kansas, 1964. (1989)

*ZIA H. HASHMI, Professor of Political Science and Director of the Center for International Studies
B.Sc., Osmania University (India), 1953;
L.L.B., Aligarh University (India), 1957;
M.A., Aligarh University, 1958;
Ph.D., University of South Carolina, 1970. (1968)

VASSILIOS HASSAPIS, Associate Professor Emeritus of Physics
B.S., University of Athens, Greece, 1957;
M.S., Florida State University, 1965;
Ph.D., Florida State University, 1973. (1967)

*JOHN J. HATTEM, Associate Professor of Finance and Economics
B.S., Yale University, 1980;
Ph.D., Louisiana State University, 1990. (1990)

*RICHARD J. HATHAWAY, Professor of Mathematics
B.S., University of Georgia, 1979;
Ph.D., Rice University, 1983. (1986)

JAMES DONALD HAWK, Professor Emeritus of Educational Foundations and Curriculum and Chair Emeritus, Department of Educational Foundations and Curriculum
B.S., University of Georgia, 1955;
M.Ed., University of Georgia, 1956;
Ed.D., University of Georgia, 1959. (1962)

C. VICKIE HAWKINS, Director of Residence Life and Adjunct Instructor
B.S.T., Barber-Scotia College, 1977;

*AMY R. HEASTON, Associate Professor of Early Childhood Education and Reading
B.S., Bowling Green State University, 1982;
M.A.E., Ball State University, 1989;
DAVID F. HEATH, Instructor of Mathematics
B.A., King College, 1990;

*JEANETTE M. HECKER, Assistant Professor of French
B.A., University of Illinois-Urbana, 1983;
M.A., Northwestern University, 1991;
Ph.D., Northwestern University, 1995. (1994)

*SYNOVE J. HEGGOY, Associate Professor of Leadership, Technology, and Human Development and Director, Regents Center for Learning Disorders
B.A., Vanderbilt University, 1965;
M.Ed., University of Georgia, 1974;
Ed.S., University of Georgia, 1978;

*LANCE WARREN HEMBERGER, Assistant Professor of Educational Psychology
B.A., Westminster College, 1963;
M.S., University of Georgia, 1965;
Ph.D., University of Georgia, 1969. (1969)

ELLEN HUDGINS HENDRIX, Assistant Professor of Writing and Linguistics
B.S.Ed., Georgia Southern College, 1986;

*BARBARA A. HENDRY, Associate Professor of Anthropology
B.A., Florida State University, 1972;
M.A., Florida State University, 1983;

*JOHN W. HENRY, Associate Professor of Management
B.S., Valdosta State College, 1969;
B.B.A., Valdosta State College, 1985;
M.B.A., Valdosta State College, 1978;
Ph.D., Florida State University, 1992. (1985)

*NICHOLAS L. HENRY, Professor of Public Administration and President
B.A., Centre College, 1965;
M.A., Pennsylvania State University, 1967;
M.P.A., Indiana University, 1970;
Ph.D., Indiana University, 1971. (1987)

VERNON J. HENRY, JR., Part-time Professor of Geology
B.S., Lamar State College of Technology, 1953;
M.S., Texas A&M College, 1955;

*NANCY A. HERRING, Associate Professor of Accounting
B.A., Southern Illinois University, 1969;
M.A., Georgia Southern College, 1971;
Ph.D., Georgia State University, 1983;

*KAYE A. HERTH, Professor of Nursing and Chair, Department of Nursing
B.S., Northern Illinois University, 1968;
M.S., University of Minnesota, 1973;
Ph.D., Texas Woman’s University, 1987. (1993)

EDWIN THOMPSON HIBBS, Professor Emeritus of Biology
A.B., Ohio State University, 1941;
M.S., Ohio State University, 1943;
Ph.D., Ohio State University, 1950. (1970)

*GEORGINA HICKEY, Assistant Professor of History
B.A., Indiana University, 1989;
M.A., University of Michigan, 1991;

*KEITH FREDERICK HICKMAN, Professor Emeritus of Drafting and Design Technology and Chair Emeritus, Department of Industrial Technology
B.S., Colorado State University, 1955;
M.Ed., Colorado State University, 1959;

GLADYS A. HICKS, Assistant Professor Emerita of English
B.A., University of Maine, 1952;

LOLA HIDALGO, Assistant Professor of Spanish
B.A., University of Alabama-Tuscaloosa, 1988;
M.A., University of Alabama-Tuscaloosa, 1990;

*ELDONNA M. HILDE, Assistant Professor of Nursing
B.S., Union College, 1967;

RICHARD L. HILDE, Associate Professor of Marketing
B.S., Minot State College, 1965;
M.B.A., St. Mary’s University, 1969;
Ph.D., University of North Dakota, 1973. (1973)

DENNY E. HILL, Assistant Professor of Sociology
B.A., University of Florida, 1971;

*JESSICA HINES, Professor of Art
A.A., St. Louis Community College, 1980;
B.F.A., Washington University, 1982;

WILLIAM LAURENCE HITCHCOCK, Professor Emeritus of Educational Psychology and Counseling
B.S.A., University of Georgia, 1942;
M.Ed., University of Georgia, 1948;

ANGELA E. HODGE, Instructor of Writing and Linguistics
B.A., Augusta College, 1984;

PHILIP L. HODGE, Director of Facilities Planning and Space Utilization and Adjunct Associate Professor of Industrial Technology
B.Arch., University of Illinois, 1957;

J. FRANK HODGES, JR., Professor Emeritus of Finance and Insurance
B.S.I.M., Georgia Institute of Technology, 1954;
M.B.A., Georgia State University, 1962;

*DONNA A. HODNICKI, Associate Professor of Nursing
B.S.N., Medical College of Georgia, 1978;
M.N., University of South Carolina, 1980;
Ph.D., Medical College of Georgia, 1992. (1983)

CLAYTON HENRY HOFF, Assistant Professor Emeritus of English
B.A., McGill University, 1950;
M.A., Washington University, 1951. (1962)

*JAMES A. HOLMES, Professor of Printing Management
B.S., Appalachian State University, 1970;
M.Ed., Virginia State University, 1975;

JAMES M. HOOD, Assistant Professor Emeritus of Educational Psychology and Counseling
B.S.Ed., Georgia Southern College, 1959;
M.Ed., University of Georgia, 1964;
Ph.D., University of Alabama, 1972. (1968)

ADELE M. HOOLEY, Assistant Professor Emerita of English
B.S., Shippensburg State College, 1950;

DONNA ROSS HOOLEY, Assistant Professor of Writing and Linguistics
B.A., Georgia Southern College, 1975;

*BARBARA L. HORAN, Associate Professor of Philosophy
B.A., Oberlin College, 1978;
M.S., University of Minnesota-Minneapolis, 1984;

*ALICE ANN HOSTICKA, Associate Professor of Early Childhood Education
B.A., Antioch College, 1965;
M.Ed., University of Pittsburgh, 1969;

MARY MARGARET HOY, Instructor of Mathematics
B.S., Newberry College, 1990;
M.S., University of South Carolina, 1992. (1992)

*YINGKANG HU, Associate Professor of Mathematics and Computer Science
B.S., Beijing Institute of Chemical Technology, 1982;
Ph.D., University of South Carolina, 1989. (1989)
*JANE RHOADES HUDAK, Associate Professor of Art
B.F.A., Capital University, 1976;

E. DENISE HUDDLESTUN, Temporary Instructor of Early Childhood Education
B.S., Shorter College, 1978;

LAWRENCE HUFF, Professor Emeritus of English and Head Emeritus, Department of English and Philosophy
A.B., University of Georgia, 1941;
M.A., University of Georgia, 1948;
Ph.D., Vanderbilt University, 1958. (1958)

*RICHARD C. HULBERT, Associate Professor of Geology
B.S., University of Texas-Austin, 1976;
M.A., University of Texas-Austin, 1979;

JOHN ADLER HULSEY, JR., Associate Professor Emeritus of Secondary Education
A.B., Mercer University, 1955;
M.Ed., University of Georgia, 1963;

*JOHN B. HUMMA, Professor of Literature
B.A., George Washington University, 1963;
M.A., Southern Illinois University, 1965;

PATRICIA B. HUMPHREY, Assistant Professor of Mathematics
B.A., Fort Lewis College, 1977;
M.A., University of New Mexico; 1978;

*MICHAEL O. HURST, Associate Professor of Chemistry
B.S., University of Missouri-Kansas City, 1977;
Ph.D., Iowa State University, 1983. (1988)

HENRY ILER, Associate Professor of Art
B.F.A., University of Georgia, 1962;

*WILLIAM S. IRBY, Associate Professor of Biology, Member Institute of Arthropodology and Parasitology
B.A., University of Oregon, 1979;
M.S., North Carolina State University, 1983;

*MARY H. JACKSON, Assistant Professor of Leadership, Technology, and Human Development
B.A., University of Texas, 1964;
M.Ed., East Texas State University, 1986;

*SABA M. JALLOW, Associate Professor of Political Science
B.S., West Virginia University, 1980;
M.S., West Virginia University, 1981;
M.S., West Virginia University, 1983;
Ph.D., West Virginia University, 1992. (1989)

ELEANOR J. JAMES, Assistant Professor Emerita of English
B.S., Texas Tech University, 1969;
M.A., University of Nebraska at Omaha, 1974. (1975)

ORIGEN J. JAMES, Professor Emeritus of Accounting and Dean Emeritus, College of Business Administration
B.S., Texas A & M University, 1958;
M.B.A., Texas A & M University, 1959;

J. DAVID JENKINS, Assistant Professor of Chemistry
B.S., Virginia Polytechnic Institute and State University, 1986;
B.S., Virginia Polytechnic Institute and State University, 1987;

*STEPHEN JENKINS, Professor of Curriculum, Foundations, and Research
B.S., Ball State University, 1976;
M.S., Indiana University, 1979;
Ph.D., Indiana University, 1982. (1990)

CATHERINE T. JOHNSON, Assistant Professor of German
B.A., University of Michigan, 1986;
M.A., University of Michigan, 1990;

JANE G. JOHNSON, Head Acquisitions Librarian Emerita and Professor Emerita
A.B., Converse College, 1957;
M.S., Louisiana State University, 1968. (1977)

KENNETH A. JOHNSON, Adjunct Instructor of Health and Kinesiology
B.A., Dartmouth College, 1979;
M.D., Boston University Medical Center, 1983. (1997)

*KENNETH H. JOHNSON, Associate Professor of Accounting
B.A., Auburn University, 1962;
B.S., Auburn University, 1978;
M.B.A., Auburn University, 1981;
Ph.D., Georgia State University, 1989. (1991)

PAUL JOHNSON, Head Football Coach
B.S., Western Carolina University, 1979;
M.S., Appalachian State University, 1982. (1997)

RICHARD B. JOHNSON, Associate Professor of Communication Arts
B.A., Idaho State University, 1959;
M.F.A., Ohio University, 1962;

RYAN JOHNSON, Reference Librarian and Temporary Instructor
B.A., Georgia Southern College, 1989;

KEN P. JOHNSTON, Assistant Professor of Finance and Economics
B.Comm., Carleton University, 1983;
M.B.A., Florida State University, 1986;

*GEORGE HEWETT JOINER, JR., Professor of History
B.A., Emory University, 1963;
M.A., Northwestern University, 1966;
Ph.D., Northwestern University, 1971. (1968)

DEBRA JONES, Adjunct Instructor of Health and Kinesiology

DONNA N. JONES, Assistant Professor Emerita of English
B.M., Stetson University, 1953;

*GERALD A. JONES, Professor and Director of Engineering Studies
B.S., Mississippi State University, 1968;
M.S., Mississippi State University, 1971;
Ph.D., Mississippi State University, 1988. (1991)

*MARCIA NOREEN JONES, Professor of Economics
B.S., University of the West Indies, 1980;
M.S., University of Illinois, 1983;
Ph.D., University of Illinois, 1986. (1986)

WARREN F. JONES, JR., Dean Emeritus of the College of Arts and Sciences and Professor Emeritus of Psychology
B.A., Union University, 1950;
M.A., Peabody College, 1951;
Ph.D., Vanderbilt University, 1953. (1972)

WESLEY M. JONES, JR., Assistant Professor of Finance and Economics
B.A., Georgia Southern College, 1982;
M.B.A., Georgia Southern College, 1989;
Ph.D., Florida Atlantic University, 1997. (1990)

*A. BARRY JOYNER, Assistant Professor of Health and Kinesiology
B.S.Ed., Georgia Southern College, 1985;
M.Ed., Auburn University, 1986;
Ph.D., University of Georgia, 1992. (1992)

*HOWARD M. KAPLAN, Director of Research Services and Sponsored Programs and Associate Professor of Sociology
B.A., University of Pennsylvania, 1963;
M.A., University of Pennsylvania, 1967;

CONSTANTINE KARIOTIS, Associate Professor Emeritus of Mathematics
B.S., National and Capodistrian University, 1956;
M.S., DePaul University, 1962;

*JOHN B. KARRH, Professor of Civil Engineering Technology
B.S., University of Michigan, 1958;
M.S., Stanford University, 1959;
Ph.D., University of Alabama, 1970;
Registered Professional Engineer; Registered Land Surveyor. (1988)
MALCOLM KATZ, Professor Emeritus of Educational Leadership
B.S., Rutgers University, 1949;
M.A., Teachers College, Columbia University, 1950;

*JAMES E. KEIRANS, Curator of the National Tick Collection, Professor of Biology, and Member, Institute of Arthropodology and Parasitology
A.B., Boston University, 1960;
A.M., Boston University, 1963;
Ph.D., University of New Hampshire, 1966;

RICHARD ALLEN KEITHLEY, Assistant Professor of Writing and Linguistics
B.A., Vanderbilt University, 1965;

CRAIG K. KELLOGG, Associate Professor of Chemistry
B.S., Georgia Institute of Technology, 1959;
Ph.D., Georgia Institute of Technology, 1963. (1966)

*JANICE KENNEDY, Professor of Psychology
B.S., Georgia State University, 1973;
M.A., Georgia State University, 1977;
Ph.D., Georgia State University, 1980. (1984)

VERDERY B. KENNEDY, Assistant Professor of Reading
B.A., University of Georgia, 1965;

*STEPHANIE KENNEY, Assistant Professor of Leadership, Technology, and Human Development
B.S., Western Michigan University, 1983;
M.A., Western Michigan University, 1987;

*JUDITH F. KENT, Associate Professor of Early Childhood Education and Reading
B.S., University of South Alabama, 1982;
M.Ed., University of South Alabama, 1986;
Ph.D., Florida State University, 1991. (1990)

*RUSSELL L. KENT, Associate Professor of Management
A.A.S., Regis College, 1977;
B.S., Florida State University, 1979;
M.B.A., University of South Alabama, 1983;
Ph.D., Florida State University, 1991. (1990)

SOPHIA D. KENT, Instructor of Early Childhood Education and Reading
B.Ed., Georgia Southern College, 1980;
M.Ed., Georgia Southern College, 1982;

*J. BERNARD KEYS, Callaway Professor of Business
B.S., Tennessee Technical University, 1960;
M.S., University of Tennessee, 1964;

LOUISE MORTON KEYS, Instructor of Reading

RYAN KHO, Visiting Instructor of Music

NANCY KINGSBURY, Chair, Department of Family and Consumer Sciences, and Professor of Child Development and Family Relations
B.S.H.E., University of North Carolina-Greensboro, 1973;
M.Ed., University of North Carolina-Greensboro, 1976;

ELIZABETH J. KINGSLJEN, Temporary Instructor of Art
B.S., Oregon State University, 1974. (1997)

SUSAN K. KINSELLA, Temporary Assistant Professor of Sociology
B.S.W., Pennsylvania State University, 1976;
M.S.W., Marywood University, 1981;

*PAUL RUSSELL KLEINGINNA, Professor of Psychology and Member, Institute of Arthropodology and Parasitology
A.B., University of Miami, 1964;
M.S., University of Miami, 1967;

JOHN B. KLUTTZ, Temporary Instructor of Writing and Linguistics
B.A., Erskine College, 1992;

*ULYSSES S. KNotts, JR., Professor of Management
B.B.A., University of Georgia, 1948;
M.L., University of Pittsburgh, 1957;
Ph.D., University of Nebraska, 1971. (1977)

BRIAN K. KNOX, Adjunct Professor of Military Science
Lieutenant Colonel, United States Army
B.S.Ed., Northeast Missouri State University, 1978;

MICHAEL J. KOCUREK, Adjunct Professor of Engineering Technology
B.S., State University of New York College of Environmental Science and Forestry of Syracuse, 1964;
M.S., State University of New York College of Environmental Science and Forestry of Syracuse, 1968;
Ph.D., State University of New York College of Environmental Science and Forestry of Syracuse, 1970. (1988)

*KATHLEEN A. KOON, Associate Professor of Nursing
B.S.N., D'Youville College, 1965;
M.S.N., Vanderbilt University, 1971;

MARK STEPHEN KOSTIN, Assistant Professor of Middle Grades and Secondary Education
B.Sc., McGill University, 1988;
M.Ed., University of Vermont, 1993;

VENG S. KOUCH, Associate Professor of Electrical Engineering Technology
B.S.E.E., West Virginia University, 1967;
M.S.E.E., West Virginia University, 1969;

*WAYNE ALLAN KRISsINGER, Professor of Biology and Member, Institute of Arthropodology and Parasitology
B.S., Georgia Southern College, 1964;
M.S., Georgia Southern College, 1967;
Ph.D., Medical College of Georgia, 1975. (1965)

JERRI J. KROPp, Associate Professor of Family and Consumer Sciences and Director of the Family Life Center
A.B., West Georgia College, 1976;
M.S., University of Georgia, 1979;
Ph.D., University of Georgia, 1983. (1993)

*CLARA E. KrUG, Professor of French
B.A., Madison College, 1968;
M.A., Michigan State University, 1970;
Ph.D., Michigan State University, 1978. (1978)

*GAUTAM KUNDu, Assistant Professor of Literature
M.A., University of Calcutta, 1968;
M.Phil., Jadavpur University, 1978;
M.A., Simon Fraser University, 1981;

*HORST KURz, Assistant Professor of German
B.A., Universitat Aueburg, 1982;
M.A., The Ohio State University, 1986;
Ph.D., The Ohio State University, 1992. (1993)

PATRICIA ANN LACERVA, Associate Professor Emerita of English
B.A., Southeastern Louisiana College, 1960;
M.A., Auburn University, 1962;
Ph.D., Louisiana State University, 1971. (1970)

PAUL G. LAGRONE, Professor Emeritus of Accounting and Dean Emeritus of School of Business
B.S., Bowling Green College of Commerce, 1947;
M.B.A., University of Denver, 1948;
Ph.D., University of Alabama, 1958. (1962)

ANNETTE LAING, Assistant Professor of History
B.A., California State University-Sacramento, 1988;
M.A., University of California-Riverside, 1990;

JOHN LAIRD, Head Golf Coach, Athletic Department
B.S., University of Texas-Austin, 1987;

DIANNE M. LAMB, Assistant Professor of Communication Arts
B.A., Pennsylvania State University, 1963;
DENNIS M. LAMBERT, Assistant Professor of Engineering Studies
B.M.E., GMI Engineering and Management Institute, 1976;
M.S.M.E., Georgia Institute of Technology, 1988;

THOMAS D. LAMIE, Adjunct Instructor of Health and Kinesiology

*MARGARET J. LaMONTAGNE, Assistant Professor of Leadership, Technology, and Human Development
B.S.Ed., University of Georgia, 1976;
M.A.E., University of Alabama-Birmingham, 1980;

*RAYMOND M. LANDRY, Associate Professor of Accounting
B.S., Clemson University, 1975;

BETTY LANE, Professor Emeritus and Chairman Emerita, Division of Home Economics
B.S., Georgia College, 1949;
M.Ed., University of Georgia, 1956;
Ph.D., Florida State University, 1962. (1953)

TODD LANE, Head Cross Country Coach
B.A., Luther College, 1995;
M.S., Georgia Southern University, 1996. (1997)

DORIS N. LANIER, Associate Professor Emerita of English
B.A., Georgia Southern College, 1968;
M.A., Georgia Southern College, 1970;
Ed.S., Georgia Southern College, 1974. (1972)

NANCY J. LANIER, Associate Professor Emerita of Special Education
A.B., Brenau College, 1949;
M.Ed., Georgia Southern College, 1973;
Ed.S., Georgia Southern College, 1976;
Ed.D. University of South Carolina, 1983. (1973)

SUSIE M. LANIER, Instructor of Mathematics
B.S.Ed., Georgia Southern College, 1981;
M.S.T., Georgia Southern College, 1983. (1983)

SAUL J. LASKIN, Professor Emeritus of Mechanical Engineering Technology
B.M.E., City College of New York, 1956;
M.M.E., City College of New York, 1962;
M.S., University of Rochester, 1967;
Ph.D., University of Rochester, 1972;
Professional Engineer. (1979)

*DEWITT EARL LAVENDER, Associate Professor of Mathematics
B.S., University of Georgia, 1962;
M.A., University of Georgia, 1963;
Ph.D., University of Georgia, 1966. (1966)

H. DOUGLAS LEAVITT, Dean Emeritus of the College of Health, Physical Education, Recreation, and Nursing and Professor Emeritus of Recreation
B.S., Indiana University, 1948;
M.S., Indiana University, 1957;
H.S.D., Indiana University, 1964. (1962)

JOSHUA A. LEE, Adjunct Professor of Biology
B.A., San Diego State University, 1950;
Ph.D., University of California-Northern Division, 1958. (1991)

RICHARD F. LEE, Adjunct Professor of Biology
B.A., San Diego State University, 1964;
M.A., University of California-San Diego, 1966;

MARIA E. LEN-RIOS, Temporary Instructor of Communication Arts
B.A., Macalester College, 1993;

*GORAN LESAJA, Assistant Professor of Mathematics
B.S., University of Zagreb, 1980;
M.S., University of Zagreb, 1987;
M.S., University of Iowa, 1994;
Ph.D., University of Iowa, 1996. (1996)

EDNA LYNN LEVERNIER, Instructor of Management
B.B.A., Georgia Southern College, 1986;

*WILLIAM B. LEVERNIER, Associate Professor of Economics
B.B.A., Gonzaga University, 1978;
M.A., University of Tennessee, 1981;

MIRIAM LEVITT, Temporary Assistant Professor of Political Science
B.S., Northern Illinois University, 1990;
M.A., Northern Illinois University, 1992
Ph.D., Northern Illinois University. 1996. (1997)

MARGARET A. LEWIN, Adjunct Instructor of Nursing
B.S.N., Salem State College, 1979;
M.S., Boston University, 1986. (1990)

ROBERT FULTON LEWIS, Associate Professor Emeritus of Reading
B.S.Ed., Auburn University, 1952;
M.S., Auburn University, 1958;
M.Ed., Auburn University, 1960;
Ed.D., Auburn University, 1963. (1963)

*MING LI, Assistant Professor of Recreation and Sport Management
B.Ed., Guangzhou Institute of Physical Culture, 1983;
M.Ed., Hangzhou University, 1986;

*XIEZHANG LI, Associate Professor of Mathematics and Computer Science
B.S., Shanghai Teachers University, 1966;
M.S., Shanghai Teachers University, 1981;
Ph.D., Kent State University, 1990. (1990)

RALPH LIGHTSEY, Professor Emeritus of Educational Research
A.B., Mercer University, 1945;
B.D., Emory University, 1951;
Th.M., Columbia Seminary, 1955;
Ed.D., University of Georgia, 1965. (1965)

PATRICIA LINDAUER, Temporary Assistant Professor of Leadership, Technology, and Human Development
B.A., University of Evansville, 1971;
M.A., Western Kentucky University, 1974;

JOHN ROBERT LINDSEY, Professor Emeritus of Education
B.S., Clemson University, 1948; M.Ed.,
Mercer University, 1953; A.M.Ed.,
Florida State University, 1956;
Ed.D., Florida State University, 1966. (1958)

*DELORES D. LISTON, Assistant Professor of Curriculum, Foundations, and Research
B.A., University of Oklahoma, 1983;
M.A., Florida State University, 1986;

*BRUCE LITTLE, Associate Professor of Art
B.F.A., Auburn University, 1976;
M.F.A., Auburn University, 1979;

DON LIVINGSTON, Temporary Instructor of Early Childhood Education and Reading
B.S., Drexel University, 1977;

*JOHN THOMAS LLOYD, JR., Associate Professor of Literature
B.A., Dartmouth College, 1973;
B.A., Corpus Christi College, Cambridge University, 1976;
M.A., Corpus Christi College, Cambridge University, 1980;

*MARGARET A. LLOYD, Professor of Psychology
B.A., University of Denver, 1964;
M.S.Ed., Indiana University, 1966;
M.A., University of Arizona, 1972;

JAMES M. LoBUE, Assistant Professor of Chemistry
B.A., Carleton College, 1978;
Ph.D., Wesleyan University, 1986. (1993)

NAN STEVENS LoBUE, Temporary Instructor of Writing and Linguistics
B.A., Carleton College, 1978;

BILL P. LOVEJOY, Professor Emeritus of Biology
B.S., Muskingum College, 1951;
M.S., University of New Mexico, 1958;
Ph.D., Oregon State University, 1972. (1968)
DAVID A. LOWDER, Systems Librarian and Assistant Professor  
A.B., University of South Carolina, 1977;  

JAMES WALTER LYNCH, Assistant Professor Emeritus of Mathematics  
B.A., University of Georgia, 1952;  
M.A., University of Georgia, 1956. (1961)

MONIKA F. LYNCH, Assistant Professor Emerita of German  
B.A., Georgia Southern College, 1969;  
M.A., University of Georgia, 1972. (1972)

THOMAS A. LYNCH, Temporary Instructor of Family and Consumer Sciences  
B.P.S., Culinary Institute of America, 1996;  

LI MA, Temporary Assistant Professor of Physics  
B.E., Changchun Institute of Optics and Fine Mechanics, 1982;  
M.S., Chinese Academy of Sciences, 1985;  

NORRIS KEMP MABRY, Professor Emeritus of Educational Psychology and Counseling  
B.E.E., Georgia School of Technology, 1950;  
A.B., Mercer University, 1960;  
M.Ed., Georgia Southern College, 1963;  
Ph.D., Florida State University, 1966. (1966)

MARGARET H. MacGREGOR, Temporary Assistant Professor of Nursing  
B.S.N., University of Virginia, 1966;  
M.N., Emory University, 1968;  

GAIL S. MACKIN, Assistant Professor of Mathematics  
B.S., Keene State College, 1991;  
M.S., Virginia Polytechnic Institute and State University, 1993;  

CAROLYN MAMEDES, Assistant Professor of Education  
B.S., Georgia Southern College, 1956;  
M.Ed., Georgia Southern College, 1974;  

JUSTINE S. MANN, Professor Emerita of Political Science and Public Administration  
B.A., Newcomb College, 1940;  
M.A., University of Alabama, 1963;  
Ph.D., University of Alabama, 1966. (1968)

*JAMES E. MANNING, Professor of Engineering Studies  
B.S.E.E., University of Florida, 1963;  
M.E.E., University of Florida, 1966;  
Ph.D., University of Florida, 1970;  
Professional Engineer. (1977)

SCOTT MARCHBANKS, Temporary Instructor of Leadership, Technology, and Human Development  
B.A., Clemson University, 1992;  

CYNTHIA THOMAS MARTIN, Assistant Professor of Family and Consumer Sciences (Textiles and Clothing)  
B.S., Indiana State University, 1972;  
M.S., Purdue University, 1975. (1975)

JOHN STATE MARTIN, Professor Emeritus of Building Construction Technology  
B.S., Georgia Southern College, 1949;  
M.Ed., Georgia Southern College, 1960;  

*MARY JILL LOCKWOOD MARTIN, Professor of Accounting  
B.A., University of Florida, 1969;  
J.D., Emory University, 1974;  
L.L.M., Emory University, 1979;  

*ROBERT ALLAN MARTIN, Associate Professor of Educational Psychology  
B.S., and B.M., Ohio State University, 1960;  
M.A., Ohio State University, 1964;  
Ph.D., Ohio State University, 1971. (1972)

*DORALINA MARTINEZ-CONDE, Assistant Professor of Spanish  
B.A., Universidad Nacional Pedro Henríquez Ureta, 1972;  
M.A., Ohio State University, 1984;  

MARY R. MARWITZ, Assistant Professor of Writing and Linguistics  
B.S.Ed., Georgia Southern College, 1972;  

*DAVID WYLIE MATHEW, Professor of Music and Acting Chair, Department of Music  
B.A., Knox College, 1967;  
M.M., Northern Illinois University, 1971;  

*KISHWAR MIRZA MAUR, Associate Professor of Biology and Member, Institute of Arthropodology and Parasitology  
B.Sc., Women’s College, India, 1954;  
B.Ed., Osmania University, 1955;  
M.S., Ohio University, 1961;  

RONALD L. MCCALL, Temporary Instructor of Vocational and Adult Education  
B.S.Ed., Georgia Southern College, 1984;  

*LAURENCE M. McCARTHY, Assistant Professor of Recreation and Sport Management  
M.A., New York University, 1988;  
Ph.D., Ohio State University, 1993. (1991)

SANDRA C. MCCLAIN-BULLER, Associate Professor of Music  
B.A., Meredith College, 1972;  
M.M., Manhattan School of Music, 1975;  

MELANIE MCCLELLAN, Associate Vice President for Student Affairs and Adjunct Instructor of Higher Education Administration  
B.A., University of Alabama, 1979;  
M.Ed., Mississippi State University, 1983;  
Ph.D., Ohio State University, 1993. (1996)

*GARY McCLEURE, Professor of Psychology  
B.A., Wake Forest University, 1966;  
M.A., University of North Carolina, 1969;  
Ph.D., University of Vermont, 1971. (1977)

*TIMOTHY McCURB, Assistant Professor of Management  
B.S., Pennsylvania State University, 1983;  
M.B.A., University of Pittsburgh, 1987;  
Ph.D., Purdue University, 1993. (1993)

AMY L. McCRORY, Information Services Librarian and Assistant Professor  
A.B., Northwestern University, 1986;  

KAREN L. McCULLOUGH, Assistant Professor of Writing and Linguistics  
B.A., Pennsylvania State University, 1986;  
M.A., Youngstown State University, 1988;  

*KAREN M. McCURDY, Assistant Professor of Political Science  
B.A., University of Colorado-Boulder, 1979;  
M.A., University of Wisconsin-Madison, 1982;  

*J. MICHAEL McDOUGALD, Professor of Management  
B.S., Georgia Institute of Technology, 1971;  
M.Ed., University of Georgia, 1973;  
Ph.D., University of Georgia, 1976. (1987)

KEVIN C. McDOUGALD, Adjunct Instructor of Nursing  
B.S., Boston College, 1982;  
B.S., Boston College, 1982;  
D.P.M., California College of Podiatric Medicine, 1986. (1995)

JEANNE McDougald, Instructor of Reading  
B.S., Georgia Southern College, 1965;  

MARTHA WEBB McGOVERN, Assistant Professor of Early Childhood Education and Reading  
B.A., College of Wooster, 1966; M.Ed., Kent State University, 1972; Ed.S., University of Dayton, 1986;  

JULIE McGUIRE, Assistant Professor of Art  
B.A., Illinois College, 1983;  
*WILLIAM D. McINTOSHI, Associate Professor of Psychology
B.S., Fordham University, 1984;
M.A., Duquesne University, 1985;
Ph.D., University of Georgia, 1990. (1990)

STURGIS McKEEVER, Professor Emeritus of Biology, Member Institute of Arthropodology and Parasitology
B.S., North Carolina State College, 1948;
M.S., North Carolina State College, 1949;

BEVERLY ANN McKENNA, Instructor of Middle Grades and Secondary Education
B.S.Ed., University of Arkansas, 1976;

*MICHAEL McKENNA, Professor of Reading
B.S., University of Arkansas, 1970;
B.A., University of Arkansas, 1970;
M.A., University of Arkansas, 1972;
M.Ed., University of Missouri, 1975;

PAUL W. MCKINNIS, Professor Emeritus of Administration and Supervision
B.S., Southern Illinois University, 1946;
M.S., Southern Illinois University, 1952;

*DENSON K. McLAIN, Associate Professor of Biology, Member Institute of Arthropodology and Parasitology
B.S., Texas A & M University, 1976;
M.S., University of Florida, 1979;
Ph.D., Emory University, 1982;
Postdoctoral training, University of Notre Dame, 1983-86, Emory University, 1986-87. (1987)

JUDITH McLAUGHLIN, Associate Professor of Health and Kinesiology
B.A., Berea College, 1966;
M.S., Ohio State University, 1971;

MARGARET A. McLAUGHLIN, Associate Professor of Writing and Linguistics
B.A., DePauw University, 1955;
M.A., Western Illinois University, 1972;
M.S.Ed., Western Illinois University, 1976;

*THOMAS BRUCE McLEAN, Associate Professor of Mathematics and Computer Science
B.S.Ed., Ohio Northern University, 1963;
M.A., Bowling Green State University, 1965;

JEFFREY C. McLELLAN, Legal Advisor in Academic Affairs
B.S., University of Illinois, 1971;
M.Ed., University of Toledo, 1976;
Ph.D., University of Toledo, 1978;
J.D., University of Georgia, 1993. (1996)

HASSIE McELVEEN McLENDON, Librarian Emerita
B.S., Georgia Southern College, 1953;
B.L.S., Peabody College, 1940. (1937)

*JAMES L. McMILLAN, Associate Professor of Health and Kinesiology
B.S., Macon Junior College, 1979;
B.S.Ed., Georgia Southern College, 1981;
M.Ed., Auburn University, 1984;

E. THOMAS McMULLEN, Assistant Professor of History, Member Institute of Arthropodology and Parasitology
B.S., Washington State University, 1964;
M.S., Southern Methodist University, 1971;
M.A., Indiana University, 1986;

WALDO E. MEEKS, Professor of Industrial Technology
B.S., Industry, Georgia Southern College, 1972;
M.T., Georgia Southern College, 1976;

WILLIAM N. MEISEL, Temporary Instructor of Mathematics
B.A., Florida State University, 1989;
B.S., Florida State University, 1989;

DAVID W. MENZEL, Adjunct Professor of Biology (Skidaway Institute of Oceanography)
B.S., Elmhurst College, 1949;
M.S., University of Illinois, 1952;
Ph.D., University of Michigan, 1958. (1971)

*MORGAN P. MILES, Associate Professor of Marketing
B.S., Mississippi State University, 1978;
M.S., Virginia Polytechnic Institute and State University, 1981;

WILLIAM STARR MILLER, Professor Emeritus and Dean Emeritus of the College of Education
B.S.Ed., University of Georgia, 1947;
M.S., University of Georgia, 1947;

MICHAEL T. MILLS, Instructor of Writing and Linguistics
B.A., Georgia Southern College, 1988;

LAURA A. MILNER, Instructor of Writing and Linguistics
B.A., University of Alabama-Birmingham, 1981;

KAREN L. MILNOR, Temporary Instructor of Mathematics
B.S., University of Central Florida, 1990;

*WEIMIN MO, Assistant Professor of Early Childhood Education and Reading
B.A., Shanghai Institute of Foreign Languages, 1966;
M.Ed., Indiana University of Pennsylvania, 1990;

CLEON M. MOBLEY, JR., Associate Professor Emeritus of Physics
A.S., Southern Technical Institute, 1961;
B.S., Oglethorpe University, 1963;
M.S., University of Missouri-Rolla, 1966;
Ph.D., Union for Experimenting Colleges and Universities, 1988. (1967)

HARRIS W. MOBLEY, Professor Emeritus of Anthropology
A.B., Mercer University, 1955;
B.D., Southeastern Baptist Theological Seminary, 1959;
M.A., Hartford Seminary Foundation, 1965;

PAUL C. MOLLER, Instructor of Early Childhood Education and Reading
B.S.Ed., Georgia Southern College, 1974;

*J. LOWELL MOONEY, Associate Professor of Accounting
B.B.A., University of Georgia, 1978;
M.Acc., University of Georgia, 1979;
Ph.D., University of Georgia, 1989;

AUTREY A. MOORE, Temporary Instructor of Mathematics
B.S.Ed., Georgia Southern University, 1969;
M.Ed., Georgia Southern University, 1973;

DOROTHY LOUISE MOORE, Associate Professor Emerita of Early Childhood Education
B.S., Benedict State University, 1949;
M.A., University of North Colorado, 1953;
Ph.D., Florida State University, 1973. (1975)

MICHAEL E. MOORE, Director, Planning and Analysis, and Adjunct Assistant Professor of Educational Leadership, Technology and Research
B.S., Georgia State University, 1971;
M.Ed., Georgia State University, 1972;
Ph.D., Georgia State University, 1992. (1989)

*MICHAEL T. MOORE, Professor of Reading and Director of Advisement, Retention, and the First-Year Experience
B.Ed., Duquesne University, 1972;
M.Ed., University of Pittsburgh, 1976;
Rdg. Spec., University of Pittsburgh, 1978;

*SUE MULLINS MOORE, Professor of Anthropology
A.B., University of Florida, 1975;
M.A., University of Florida, 1977;
WILLIAM THOMAS MOORE, Temporary Instructor of Accounting  
B.S., University of Tampa, 1971;  

*ALISON I. MORRISON-SHETLAR, Assistant Professor of Biology  
B.S., Dundee College of Technology, 1979;  
B.Sc., Dundee College of Technology, 1980;  

HANS P. MORTENSEN, Associate Professor of Printing Management  
B.S., Rochester Institute of Technology, 1985;  

CLEMENT CHARLTON MOSELEY, Professor Emeritus of History  
B.S.Ed., Georgia Southern College, 1959;  
M.A., Georgia Southern College, 1965;  
Ph.D., University of Georgia, 1968. (1963)

HOWARD F. MOSELEY, Professor Emeritus of Administration and Supervision  
B.S., Livingston State University, 1939;  
M.A., University of Alabama, 1948;  
Ed.D., University of Alabama, 1955. (1965)

SULA BRANNEN MOXLEY, Assistant Professor Emerita of Marketing  
B.S., Stetson University, 1950;  
M.B.E., Georgia State University, 1967. (1971)

LINDA S. MUNILLA, Professor of Marketing  
B.S., West Virginia Institute of Technology, 1971;  
M.S., Virginia Polytechnic Institute and State University, 1976;  
Ed.D., Virginia Polytechnic Institute and State University, 1981. (1979)

*EUGENE C. MURKISON, Professor of Management  
B.S.A., University of Georgia, 1959;  
M.B.A., University of Rochester, 1970;  

RAY P. MURPHEY, Temporary Instructor of Writing and Linguistics  
B.A., Georgia Southern College, 1975;  

IRVING L. MURRAY, Adjunct Instructor of Military Science  
Master Sergeant, United States Army

*JOHN D. MURRAY, Assistant Professor of Psychology  
B.A., Purdue University, 1984;  

KENT D. MURRAY, Assistant Professor of Communication Arts  
A.A., Gulf Coast Jr. College, 1969;  
B.A., University of West Florida, 1974;  

HUZEIFA E. MUSAJI, Temporary Instructor of Management  
B.S., University of Texas-Austin, 1991;  

*LARRY R. MUTTER, Assistant Professor of Recreation and Sport Management  
B.S., University of Wisconsin-Stevens Point, 1982;  
M.S., Texas A&M University, 1985;  

SHAHRAM NAYAEE, Assistant Professor of Engineering Technology  
B.S., Louisiana State University, 1980;  
M.S., Louisiana State University, 1983;  
Ph.D., Clemson University, 1989. (1993)

*ERIC R. NELSON, Associate Professor of Writing and Linguistics  
B.A., Virginia Polytechnic Institute and State University, 1975;  

REX A. NELSON, Professor Emeritus of Industrial Technology  
B.S., Fort Hays State University, 1957;  
M.S., Fort Hays State University, 1958;  

ROBERT NORTON NELSON, Associate Professor of Chemistry  
Sc.B., Brown University, 1963;  
Ph.D., Massachusetts Institute of Technology, 1969. (1970)

CAROL M. NESSMITH, Assistant Professor of Mathematics  
B.S., University of Georgia, 1968;  
M.Ed., University of Georgia, 1969;  
Ed.S., Georgia Southern University, 1993. (1978)

RENATA M. NEWBILL-JALLOW, Program Coordinator and Adjunct Instructor  
B.S., West Virginia State College, 1981;  

ROOSEVELT NEWSON, Jr., Dean of the College of Liberal Arts and Social Sciences and Professor of Music  
B.M., Southern University, 1968;  
M.M., Peabody Conservatory of Music, 1971;  

BETSY H. NICHOLS, Associate Professor of Writing and Linguistics  
B.A., University of Montevallo, 1969;  
M.A., University of Arkansas, 1971;  

*JAMES R. NICHOLS, Professor of Literature  
B.A., Union College, 1961;  
M.A., University of North Carolina-Chapel Hill, 1966;  

*MICHAEL E. NIELSEN, Assistant Professor of Psychology  
B.A., Southern Utah State College, 1986;  
M.A., Northern Illinois University, 1990;  

MARTHA T. NOLEN, Assistant Professor of Reading  
B.A., Furman University, 1961;  

LISA NORTON, Temporary Instructor of Mathematics  
B.S., Georgia Southern University, 1994;  
M.S., Georgia Southern University, 1996. (1996)

SUSAN NORTON, Associate Director of Human Resources and Adjunct Instructor  
B.A., University of South Carolina-Columbia, 1984;  
M.S., Georgia Southern University, 1993. (1990)

THOMAS R. NORTON, Head Soccer Coach and Adjunct Instructor  
B.S., University of South Carolina-Columbia, 1984;  
M.S., Georgia Southern College, 1989. (1990)

PATRICK J. NOVOTNY, Assistant Professor of Political Science  
B.S., Illinois State University, 1985  
M.A., University of Wisconsin-Madison, 1990;  

JANET LATRELLE O’BRIEN, Assistant Professor of Mathematics  
A.S., South Georgia College, 1980;  B.S.Ed.,  
Georgia Southern College, 1982;  M.Ed.,  

ARTHUR L. OESTREICH, Instructor of Marketing  
B.S., University of West Florida, 1982;  

GODWIN O. OKAFOR, Assistant Professor of Political Science  
B.A., Georgia College, 1985;  
M.P.A., Georgia College, 1987;  

HERBERT A. O’KEEFE, JR., Professor Emeritus of Accounting  
B.B.A., University of Georgia, 1962;  
M.Acc., University of Georgia, 1967;  
Ph.D., Georgia State University, 1974;  

*JAMES H. OLIVER, JR., Fuller E. Callaway Professor of Biology, Director  
Institute of Arthropodology and Parasitology  
B.S., Georgia Southern College, 1952;  
M.S., Florida State University, 1954;  
Ph.D., University of Kansas, 1962;  
Postdoctoral training, University of Melbourne (Australia), 1962-63. (1969)

JOSEPH O. OLSON, JR., Professor Emeritus of Art  
M.Ed., Temple University, 1956;  
M.F.A., Temple University, 1965;  

LUKE J. OLSZEWSKI, Instructor of Mathematics  
B.S., University of South Carolina, 1991;  
M.S., University of South Carolina, 1993. (1993)

*ONYILE B. ONYILE, Associate Professor of Art  
B.F.A., Memphis Academy of Arts, 1980;  
JEFFERY A. ORVIS, Associate Professor of Chemistry  
B.S., Oakland University, 1986;  

JESSICA N. ORVIS, Assistant Professor of Chemistry  
B.S., Vanderbilt University, 1986;  
M.S., University of Tennessee, 1989. (1992)

DAI OSANAI, Instructor of Japanese  
B.A., Kanagawa University, 1982;  
A.A., Snow College, 1987;  

SARA OSWALT, Health Educator and Adjunct Instructor of Health and Kinesiology  
B.S., Pennsylvania State University, 1993;  

CRAIG W. OYEN, Temporary Assistant Professor of Geology  

PATRICIA PACE, Associate Professor of Communication Arts  
B.A., Sonoma State University, 1981;  
M.A., Sonoma State University, 1981;  

*CARL J. PACTNI, Assistant Professor of Accounting  
B.A., Le Moyne College, 1975;  
M.B.A., University of Notre Dame, 1979;  
J.D., University of Notre Dame, 1979;  

DONNA M. PADGETT, Temporary Assistant Professor of Writing and Linguistics  
B.S., East Carolina University, 1972;  
M.S., East Carolina University, 1980;  
Ph.D., University of South Carolina, 1992. (1997)

*FRED M. PAGE, JR., Professor of Middle Grades and Secondary Education and Associate Dean, College of Education  
B.S.Ed., Georgia Southern College, 1971;  
M.Ed., Georgia Southern College, 1973;  
Ed.S., Georgia Southern College, 1977;  
Ed.D., Mississippi State University, 1979. (1973)

*JANE ALTMAN PAGE, Professor of Curriculum, Foundations, and Research and Chair, Department of Curriculum, Foundations, and Research  
B.S.Ed., Georgia Southern College, 1971;  
M.Ed., Georgia Southern College, 1974;  
Ed.S., Georgia Southern College, 1979;  
Ed.D., Mississippi State University, 1979. (1979)

*LINDA R. PAIGE, Associate Professor of Literature  
B.A., University of Arkansas, 1971;  
M.Ed., University of Arkansas, 1972;  
M.A., University of Arkansas, 1983;  
Ph.D., University of Tennessee, 1989. (1989)

*ROGER NELSON PAJARI, Professor of Political Science  
B.S., University of Minnesota, 1964;  
M.A., University of Tennessee, 1968;  

JOHN L. PARCELS, JR., Assistant Professor of Philosophy and Acting Chair, Department of Literature and Philosophy  
B.A., Drew University, 1965;  
M.A., Emory University, 1972. (1972)

ABBIE GAIL PARHAM, Assistant Professor of Accounting  
A.S., Emmanuel County Junior College, 1978;  
B.B.A., Georgia Southern College, 1984;  

MARY H. PARKER, Instructor of Early Childhood Education and Reading  
B.S.Ed., Georgia College, 1972;  

*JOHN W. PARRISH, JR, Professor of Biology  
B.S., Denison University, 1963;  
M.A., Bowling Green State University, 1970;  
Ph.D., Bowling Green State University, 1974;  
Postdoctoral training, University of Texas at Austin, 1974-76. (1988)

*LEO G. PARRISH, JR, Professor of Management  
B.S.E.E., Georgia Institute of Technology, 1961;  
M.S.I.M., Georgia Institute of Technology, 1964;  
Ph.D., Georgia Institute of Technology, 1974. (1990)

CHARLOTTE E. PARRISH-WOODY, Assistant Professor of Industrial Technology  
B.S., Georgia Southern College, 1985;  
M.T., Georgia Southern University, 1993. (1994)

CRAIG STEVEN PASCOE, Temporary Instructor of History  
B.A., Mississippi College, 1977;  

MILDRED MOORE PATE, Assistant Professor of Writing and Linguistics  
B.A., Claflin College, 1974;  
M.S.T., Georgia Southern College, 1976. (1985)

TOM LEO PAUL, Professor Emeritus of Physical Education and Head Emeritus, Department of Sport Science and Physical Education  
B.S., University of Wisconsin at Oshkosh, 1951;  
M.S., University of Florida, 1961;  

*MARVIN G. PAYNE, Professor of Physics and Chair, Department of Physics  
B.A., Berea College, 1958;  

WALTER JAMES PEACH, Professor Emeritus of Special Education  
B.S., St. Louis University, 1963;  
Ed.M., St. Louis University, 1965;  
Ph.D., Florida State University, 1968. (1969)

*SANDRA PEACOCK, Assistant Professor of History  
B.A., Franklin and Marshall College, 1977;  
M.A., Sarah Lawrence College, 1979;  

DORIS PARSONS PEARCE, Associate Professor Emerita of Family and Consumer Sciences  
B.A., Berea College, 1950;  
M.S., Oklahoma State University, 1952;  
Ph.D., Florida State University, 1963. (1966)

THOMAS A. PEARSELL, Assistant Professor of Music  
B.M., University of Kentucky, 1982;  
M.M., Bowling Green State University, 1984;  

PAMELA D. PEASTER, Media Production Supervisor and Adjunct Instructor  
B.S.Ed., Georgia Southern University, 1981;  

*CHARLES H. PERRY, Associate Professor of Industrial Technology  
B.S., Georgia Institute of Technology, 1964;  
M.Ed., University of Georgia, 1986;  

*V. RICHARD PERSICO, JR., Professor of Anthropology  
B.A., Southwestern at Memphis, 1970;  
M.A., University of Georgia, 1974;  
Ph.D., University of Georgia, 1982. (1981)

*GARTH F. PETRIE, Professor of Leadership, Technology, and Human Development  
B.S., Murray State University, 1960;  
M.A.Ed., Murray State University, 1962;  

DIANE T. PHILLIPS, Assistant Professor of Family and Consumer Sciences  
B.S.H.E., University of Georgia, 1976;  

*JOHN R. PICKETT, Professor of Management  
B.A., University of Wyoming, 1968;  
M.S., Air Force Institute of Technology, 1970;  
Ph.D., University of Georgia, 1979. (1979)

*MARGARET ANNE PIERCE, Professor of Mathematics and Computer Science  
B.A., University of North Carolina-Chapel Hill, 1965;  
M.Ed., University of Florida, 1974;  
M.S., University of South Carolina, 1987;  

ROBERT C. PIRRO, Temporary Assistant Professor of Political Science  
A.B., Harvard University, 1986;  
M.A., University of California-Berkeley, 1989;  
*DANIEL PITTMAN, Professor of Music  
B.M.Ed., University of Southern Mississippi, 1970;  
M.M., University of Mississippi, 1974;  
D.M.A., Memphis State University, 1979. (1990)

MICHELLE E. PITTMAN, Continuing Education Program Specialist and  
Adjunct Instructor  
B.S., Berry College, 1990;  

*ELIZABETH JANE PLEAK, Associate Professor of Art  
B.S., Edinboro State College, 1971;  

LINDA H. PLEYVYAK, Assistant Professor of Early Childhood Education and Reading  
B.A., University of Cincinnati, 1986;  
M.Ed., University of Cincinnati, 1993;  
Ph.D., Ohio State University, 1997. (1997)

*LIVIA A. POHLMAN, Assistant Professor of Sociology  
B.A., University of California-Berkeley, 1981;  
M.A., University of Texas-Austin, 1992;  

BILL W. PONDER, Professor of Chemistry and Chair, Department of Chemistry  
B.S., Louisiana Tech University, 1956;  
M.S., Iowa State University, 1959;  
Ph.D., Iowa State University, 1961. (1991)

*HARIBSON POOL, Professor of Leadership, Technology, and Human Development  
B.A., Principia College, 1962;  
Ed.M., Harvard University, 1964;  
M.A., Teacher’s College-Columbia University, 1969;  
M.Ed., Teacher’s College-Columbia University, 1971;  

JOCELYN POOLE, Reference Librarian and Assistant Professor  
B.S., Virginia State University, 1979;  
B.S.M., Hampton University, 1985;  

*ANN E. PRATT, Associate Professor of Biology  
B.S., Clark University, 1975;  
M.S., University of Massachusetts, 1979;  
Ph.D., University of Florida, 1986;  

GEORGE W. PRATT, Assistant Professor of Sociology  
B.A., Georgia State University, 1967;  
M.S.W., University of Georgia, 1971. (1971)

*DELMA EUGENE PRESLEY, Professor of English and Director of Museum  
B.A., Mercer University, 1961;  
B.D., Southern Baptist Seminary, 1964;  
Ph.D., Emory University, 1969. (1969)

*BARBARA A. PRICE, Professor of Management and Chair, Department of Management  
B.S., Grove City College, 1969;  
M.S., Virginia Polytechnic Institute and State University, 1971;  

LARRY E. PRICE, Professor Emeritus of Finance and Head Emeritus, Department of Finance and Economics  
B.S.E.E., University of Arkansas, 1959;  
M.B.A., University of Arkansas, 1961;  
Ph.D., University of Arkansas, 1966. (1963)

PATRICIA T. PRICE, Assistant Professor of Writing and Linguistics  
B.S.Ed., University of Georgia, 1969;  

KITTY PRUITT, Temporary Instructor of Health and Kinesiology  
B.S., Georgia Southern College, 1979;  

*JAMES L. PUGH, Assistant Professor of Psychology  
B.A., Tulane University, 1969;  
M.A., West Georgia College, 1977;  
Ph.D., Georgia State University, 1984. (1995)

HUBERT C. PULLEY, Assistant Professor of Writing and Linguistics  
B.S., Tennessee State University, 1974;  

MARY K. PUNG, Adjunct Instructor of Health and Kinesiology  
B.A., Rutgers University, 1975;  

*OSCAR J. PUNG, Associate Professor of Biology, Member Institute of  
Arthropodology and Parasitology  
B.A., Oakland University, 1973;  
M.S., Seton Hall University, 1981;  

CARL PURDY, Visiting Instructor of Music  
B.M., New England Conservatory of Music, 1983;  

*TOMSYE DALE PURVIS, Associate Professor of Writing and Linguistics  
B.A., Oklahoma Baptist University, 1968;  
M.A., University of Tennessee, 1970;  

KEVIN J. QUARLES, Adjunct Assistant Professor of Military Science  
Captain, United States Army  

NICHOLAS W. QUICK, Emeritus Professor of Legal Studies  
A.B., University of Illinois, 1942;  
M.A., University of Illinois, 1947;  
Ph.D., University of Texas, 1954;  

*ROHAN QUINCE, Associate Professor of Literature  
B.A., University of South Africa, 1974;  
M.A., Southern Illinois University, 1982;  

SANDRA C. RABITSCH, Assistant Professor Emerita of English  
B.S., Georgia Southern College, 1962;  
M.S.T., Georgia Southern College, 1969. (1968)

FRANK RADOVICH, Associate Professor Emeritus of Health and Kinesiology  
B.S., Indiana University, 1960;  
M.Ed., Indiana University, 1964;  
H.S.D., Indiana University, 1980. (1962)

*JOHN A. RAFTER, Associate Professor of Mathematics  
B.S., University of Michigan, 1966;  
M.S., Michigan State University, 1968;  

ROSALIND DOROTHY RAGANS, Associate Professor Emerita of Art Education  
B.F.A., Hunter College of the City of New York, 1955;  
M.Ed., Georgia Southern College, 1967;  
Ed.D., University of Georgia, 1971. (1964)

*DONALD RAKESTRAW, Associate Professor of History  
B.A., Jacksonville State University, 1975;  
M.A., Jacksonville State University, 1980;  

*JENNIE RAKESTRAW, Associate Dean, College of Education, and  
Associate Professor of Early Childhood Education  
B.S.Ed., Jacksonville State University, 1977;  
M.S.Ed., Jacksonville State University, 1980;  

DELORES RAMSEY, Assistant Professor Emerita of Health and Kinesiology  
B.S.Ed., Georgia Southern College, 1961;  
M.Ed., Georgia Southern College, 1962;  

CINDY HOUSE RANDALL, Assistant Professor of Management  
B.B.A., Georgia Southern College, 1978;  

*E. JAMES RANDALL, Professor of Marketing  
A.A., Manatee Junior College, 1964;  
B.A., University of South Florida, 1968;  
M.B.A., University of South Florida, 1973;  

*SUDHA RATAK, Associate Professor of Political Science  
B.A., University of Madras, 1981;  
L.L.B., University of Madras, 1984;  
Ph.D., University of South Carolina, 1993. (1990)
*DAN W. REA, Associate Professor of Curriculum, Foundations, and Research
B.A., University of Missouri, 1969; 
M.A.T., Howard University, 1974; 

ROY E. REDDERSON, Associate Professor Emeritus of Electrical Engineering Technology
B.S.E.E., Auburn University, 1961; 

JAMES S. REICHARD, Assistant Professor of Geology
B.S., University of Toledo, 1981; 
M.S., University of Toledo, 1984; 
Ph.D., Purdue University, 1995. (1996)

ROXIE REMLEY, Professor Emerita of Art
A.B., Peabody College, 1949; M.A., 
Peabody College, 1949; M.F.A., Pratt Institute, 1962. (1950)

*JUDITH L. REPMAN, Associate Professor of Leadership, Technology, and Human Development
B.A., Louisiana State University, 1974; 
M.L.S., Louisiana State University, 1976; 
Ph.D., Louisiana State University, 1989. (1997)

WILLIAM MARTIN REYNOLDS, Professor of Curriculum, Foundations, and Research
B.A., Roberts Wesleyan College, 1975; 
M.S.Ed., State University of New York-Brockport, 1980; 

JEANETTE K. RICE, Assistant Professor of Chemistry
B.S., Canisius College, 1991; 

*FREDRICK J. RICH, Professor of Geology and Chair, Department of Geology and Geography
B.S., University of Wisconsin-Madison, 1973; 

*DONNIE D. RICHARDS, Associate Professor of Spanish
B.A., Texas Tech University, 1964; 
M.A., Texas Tech University, 1972; 

GROVER CHESTER RICHARDS, Professor Emeritus of Psychology
B.S.Ed., Central University of Arkansas, 1938; 
M.A., University of Mississippi, 1963; 
Ph.D., University of Mississippi, 1964. (1967)

M. VIRGINIA RICHARDS, Assistant Professor of Family and Consumer Sciences
B.S.H.E., Texas Tech University, 1967; 

MARK L. RICHARDSON, Assistant Professor of Writing and Linguistics
B.A., Colgate University, 1973; 
M.A., Emory University, 1977; 
Ph.D., Emory University, 1980. (1995)

*MICHAEL D. RICHARDSON, Professor of Leadership, Technology, and Human Development
B.S.Ed., Tennessee Tech University, 1971; 
M.A., Tennessee Tech University, 1972; 

TERRY L. RICHARDSON, Assistant Professor of Finance and Economics
B.B.A., University of Iowa, 1981; 

FRED A. RICHTER, Associate Professor of Literature
B.A., Florida State University, 1964; 
Ph.D., Auburn University, 1971. (1969)

CURTIS EUGENE RICKER, Associate Professor of Writing and Linguistics and Acting Associate Dean, College of Liberal Arts and Social Sciences
B.A., Brigham Young University, 1975; 
M.A., Brigham Young University, 1980; 

*KENT RITTSCHOF, Assistant Professor of Curriculum, Foundations, and Research
B.S., Arizona State University, 1988; 
M.A., Arizona State University, 1992; 

JOSEPH C. ROBBINS, Associate Professor Emeritus of Music
B.A., Hendrix College, 1957; 

*LILA F. ROBERTS, Associate Professor of Mathematics
B.S.Ed., North Carolina State University, 1977; 
M.S., Old Dominion University, 1986; 
Ph.D., Old Dominion University, 1988. (1989)

*DAVID W. ROBINSON, Associate Professor of Literature
B.A., University of Alabama, 1980; 
M.A., University of Washington, 1982; 

JACQUES ROBINSON, Adjunct Assistant Professor of Leadership, Technology and Human Development
B.S., State University of New York-Buffalo, 1956; 
M.S.E., State University of New York-Buffalo, 1962; 

*PAUL A. RODELL, Assistant Professor of History
B.A., Northern Illinois University, 1968; 
M.A., State University of New York-Buffalo, 1982; 

*CRAIG H. ROELL, Associate Professor of History
B.A., University of Houston, 1977; 
M.A., University of Texas, 1980; 
Ph.D., University of Texas, 1986. (1989)

CAMILLE F. ROGERS, Instructor of Management
B.B.A., Eastern New Mexico University, 1991; 

GEORGE ARTHUR ROGERS, Professor Emeritus of History and Member, Institute of Arthropodology and Parasitology
A.B., Illinois College, 1940; 
M.A., University of Illinois, 1947; 
Ph.D., University of Illinois, 1950. (1950)

GERALD ROGERS, Temporary Instructor of Mathematics
B.S.Ed., Georgia Southern University, 1995; 
M.S., Georgia Southern University, 1997. (1997)

JOHN THADDEUS ROGERS, Associate Professor Emeritus of Physics
B.S., United States Naval Academy, 1950; 
M.S., Virginia Polytechnic Institute, 1958; 
Ph.D., Virginia Polytechnic Institute, 1963. (1965)

*RICHARD LOUIS ROGERS, Professor of Psychology and Chair, Department of Psychology
B.A., University of Arkansas, 1966; 
M.A., University of Arkansas, 1968; 

RUTH ANN ROGERS, Executive Assistant to the President and Adjunct Instructor
B.A., University of Arkansas, 1968; 

JOELLE E. ROMANCHIK, Assistant Professor of Family and Consumer Sciences
B.A., Glassboro State College, 1991; 

*BARBARA COME ROMINE, Assistant Professor of Early Childhood Education and Reading
B.A., West Virginia Wesleyan College, 1969; 
M.Ed., Ohio University, 1978; 
Ph.D., Ohio University, 1989. (1992)

JOEL N. ROSEN, Temporary Instructor of Sociology
B.S.Ed., Ohio State University, 1983; 
M.A., University of Mississippi, 1993; 

*DAVID C. ROSTAL, Assistant Professor of Biology
B.S., Pacific University, 1980; 
M.S., Portland State University, 1986; 

H. KEITH ROUGHTON, Assistant Athletic Compliance Coordinator and Adjunct Instructor
B.S.H.S., Georgia Southern University, 1992; 
M.S., Georgia Southern University, 1995. (1996)
VIRGINIA C. ROWDEN, Assistant Professor of Communication Arts  
B.A., University of Colorado, 1974;  
M.A., University of Colorado, 1977;  

ALISON RUSHING, Assistant Professor of Nursing  
A.D.N., Armstrong State College, 1976;  
B.S.N., Medical College of Georgia, 1978;  

LINDA G. RUSHING, Temporary Instructor of Health and Kinesiology  
B.S.Ed., Georgia Southern University, 1979;  

*GREGORY R. RUSSELL, Associate Professor of Management  
B.S., University of Kentucky, 1982;  
M.B.A., University of Kentucky, 1984;  
Ph.D., University of South Carolina, 1994. (1992)

*STEPHEN M. RUTNER, Assistant Professor of Marketing  
B.A., Millersville University, 1987;  
M.B.A., University of Alabama, 1992;  

*DEBRA SABIA, Associate Professor of Political Science  
B.S., University of Southern Mississippi, 1981;  
M.A., University of South Carolina, 1984.  
Ph.D., University of South Carolina, 1994. (1990)

DIANA W. SANDERS, Educational Technologist and Temporary Instructor  
B.S., Georgia Southern University, 1989;  

*FREDERICK KIRKLAND SANDERS, Professor of Literature  
B.A., Wofford College, 1958;  
M.A., Emory University, 1963;  
Ph.D., University of Georgia, 1971. (1969)

STEVE SANDERS, Student Affairs Advisor and Adjunct Instructor  
B.S., Georgia Southern College, 1988;  
M.S., Georgia Southern University, 1992. (1996)

IRIS SANDKÜHLER, Temporary Assistant Professor of Art  
B.F.A., Ohio State University, 1984;  

R. FRANK SAUNDERS, JR., Professor Emeritus of History  
B.S.Ed., Georgia Southern College, 1957;  
M.Ed., Georgia Southern College, 1963;  
Ph.D., University of Georgia, 1970. (1969)

DONNA SAYE, Assistant Professor of Mathematics  
B.S., Berry College, 1974;  
M.Ed., Georgia Southern College, 1977;  

NEAL SAYE, Assistant Professor of Writing and Linguistics  
B.S., Berry College, 1974;  

DAVID R. SCHENCK, Temporary Instructor of Mathematics  
B.S.E.E., Virginia Polytechnic Institute and State University, 1990;  
M.S., Virginia Polytechnic Institute and State University, 1993. (1997)

*CANDY B. K. SCHILLE, Associate Professor of Literature  
B.A., Boise State University, 1973;  
M.A., University of Washington, 1981;  

GREGORY N. SCHLIERF, Assistant Director of Housing and Adjunct Instructor  
B.S.Ed., Slippery Rock University, 1988;  

WILLIAM SCHMID, Associate Professor of Music  
B.M., University of Dayton, 1979;  
M.M.E., North Texas State University, 1981;  

*NORMAN E. SCHMIDT, Associate Professor of Chemistry  
B.S., Bethel College, 1984;  
Ph.D., University of South Carolina-Columbia, 1989. (1990)

LORILEE A. SCHNEIDER, Assistant Professor of Finance and Economics  
B.S., University of Alabama, 1990;  
Ph.D., Georgia State University, 1995. (1994)

*JUDITH H. SCHOMBER, Professor of Spanish  
B.A., Florida State University, 1969;  
M.A., Florida State University, 1971;  
Ph.D., Florida State University, 1975. (1976)

*MARTHA L. SCRIVER, Associate Professor of Middle Grades and Secondary Education  
B.S.Ed., Bowling Green State University, 1970;  
M.Ed., University of Toledo, 1988;  
Ph.D., University of Toledo, 1992. (1992)

CHRISTOPHER SCHUBERTH, Adjunct Associate Professor of Geology  
B.S., City College-City University of New York, 1957;  

TAYLOR CARVER SCOTT, Associate Professor Emeritus of Sociology  
A.B., University of Florida, 1947;  
M.A., University of Florida, 1949;  
Ph.D., University of Maryland, 1967. (1967)

*ANNE L. SCOTT-STILES, Associate Professor of Nursing  
B.S.N., Ohio State University, 1971;  
M.S.N., Oral Roberts University, 1986;  
Ph.D., Texas Woman’s University, 1990. (1994)

*DAVID W. SEAMAN, Professor of Foreign Languages and Chair, Department of Foreign Languages  
B.A., College of Wooster, 1962;  
M.A., Stanford University, 1964;  
Ph.D., Stanford University, 1970. (1992)

LEWIS R. SELVIDGE, JR., Professor Emeritus of Technology  
B.S., Southern Illinois University, 1962;  
M.S., Southern Illinois University, 1964. (1968)

HOWARD G. SENGBUSCH, Adjunct Professor of Biology, Member Institute of Arthropodology and Parasitology  
B.S., Buffalo State College, 1939;  
Ed.M. University of Buffalo, 1947;  
M.S., New York University, 1951;  

*HESHAM E. SHAALAN, Assistant Professor of Electrical Engineering Technology  
B.S.E.E., University of Houston, 1986;  
M.E.E., University of Houston, 1987;  
Ph.D., Virginia Polytechnic Institute and State University, 1992. (1997)

PADMINI SHANKAR, Temporary Assistant Professor of Family and Consumer Sciences  
B.S., Women’s Christian College, 1984;  
M.S., Queen Mary’s College, 1988;  
M.S., University of Central Oklahoma, 1993;  

R. BARRY SHARPE, Assistant Professor of Political Science  
B.A., University of South Carolina, 1988;  
Ph.D., University of South Carolina, 1995. (1993)

*CHRISTINE M. SHEA, Associate Professor of Curriculum, Foundations, and Research  
B.A., Nazareth College, 1967;  
M.S.Ed., SUNY College-Geneseo, 1969;  
Ph.D., University of Illinois-Urbana, 1980;  

*RONNIE L. SHEPPARD, Professor of Middle Grades and Secondary Education and Chair, Department of Middle Grades and Secondary Education  
B.A., Baylor University, 1967;  
M.Ed., North Texas State University, 1970;  

NANCY E. SHERROD, Temporary Assistant Professor of Writing and Linguistics  
B.A., Valdosta State College, 1979;  
M.A., University of Georgia, 1989;  

*ELISABETH D. SHERWIN, Assistant Professor of Psychology  
B.A., Bar Ilan University, 1985;  
M.S., Virginia Commonwealth University, 1991;  

ROBERT E. SHETLAR, Temporary Assistant Professor of Biology  
B.S., Emporia State University, 1985;  
M.S., University of Richmond, 1987;  
*EDMUND SHORT, Professor of Curriculum, Foundations, and Research
B.S., Purdue University, 1953;
M.Ed., Texas Christian University, 1957;

GERALD R. SHOULTZ, JR., Instructor of Mathematics
B.S., University of Alabama, 1984;
M.S., Texas Tech University, 1987;
M.S., Florida State University, 1997. (1987)

CATHY B. SHRIVER, Assistant Professor of Nursing
A.D.N., Armstrong State College, 1977;
B.S.N., Armstrong State College, 1980;
M.H.S., Armstrong State College, 1984;

*GEORGE H. SHRIVER, Professor of History
A.B., Stetson University, 1953;
B.D., Southeastern Baptist Theological Seminary, 1956;
Ph.D., Duke University, 1961. (1973)

*NANCY SHUMAKER, Professor of Spanish
B.A., B.A., Swarthmore College, 1967;
M.A., University of Georgia, 1973;

DONALD WAYNE SIDA, Associate Professor Emeritus of Early Childhood Education
B.Ed., Chicago Teachers College, 1963;
M.A., Roosevelt University, 1966;
Ph.D., University of South Carolina, 1969. (1969)

CYNTHIA F. SIKES, Assistant Professor of Mathematics
B.A., Georgia College, 1971;
M.S., Clemson University, 1973. (1976)

MARY W. SIKES, Instructor of Mathematics
B.A., Coker College, 1965;
M.S., North Carolina State University, 1979. (1990)

*JACOB V. SIMONS, JR., Associate Professor of Management
B.S., U.S. Air Force Academy, 1977;
M.A., Ball State University, 1980;
M.S., Troy State University, 1982;
Ph.D., University of Houston, 1989. (1997)

*CAROL L. S. SIMONSON, Associate Professor of Nursing
B.S.N., Cornell University-New York Hospital School of Nursing. 1960;
M.Ed., University of Florida, 1963;
Ed.S., University of New Mexico, 1987;
Ph.D., University of New Mexico, 1990. (1992)

*ANASTASSIA SIMS, Associate Professor of History
B.A., University of Texas-Austin, 1974;
M.A., University of North Carolina-Chapel Hill, 1976;

*THOMAS ALEXANDER SINGLETARY, Professor Emeritus of Electronics Technology
B.S., Georgia Southern College, 1959;
M.S., Stout State University, 1960;
Ed.D., University of Missouri, 1968. (1960)

CHARLES A. SKEWIS, Head Acquisitions Librarian and Assistant Professor
A.A.S., Iowa Lakes Community College, 1975;
B.S., University of Wisconsin-Platteville, 1977;

CATHY SKIDMORE-HESS, Assistant Professor of History
B.A., Mount Holyoke College, 1986;
M.A., University of Wisconsin-Madison, 1988;

WILLIAM SLOBODA, Temporary Instructor of Health and Kinesiology
B.S., Cleveland State University, 1990;
M.S., Cleveland State University, 1993. (1998)

ELIZABETH SMALL, Temporary Assistant Professor of Foreign Languages
A.B., Cornell University, 1989;
M.A., Yale University, 1994;

*EDWARD L. SMITH, Professor of Psychology
B.A., Drake University, 1963;
M.S., University of Kentucky, 1966;
Ph.D., University of Kentucky, 1969. (1994)

FREDERICK SMITH, Head Circulation Librarian and Assistant Professor
A.B.J., University of Georgia, 1975;
M.S., Florida State University, 1976. (1986)

JULIA FRANCES SMITH, Professor Emerita of History
B.S., Florida State University, 1951;
M.S., Florida State University, 1954;
Ph.D., Florida State University, 1964. (1965)

*MARY F. SMITH, Professor of Marketing and Chair, Department of Marketing
B.S., Oklahoma State University, 1971; M.A.,
Oklahoma State University, 1973; M.B.A.,
University of Texas-Arlington, 1981;

REED W. SMITH, Associate Professor of Communication Arts
B.S., Ohio University, 1972;
M.A., Bowling Green State University, 1973;

ROBERT J. SMITH, JR., Adjunct Instructor of Military Science
Supply Sergeant, United States Army. (1994)

SUE L. SMITH, Assistant Professor of Family and Consumer Sciences
(Branch, Housing and Equipment)
B.S., Western Kentucky University, 1955;

SUSAN A. SMITH, Temporary Instructor of Writing and Linguistics
B.S., Georgia Southern College, 1976;

TOM D. SMITH, Assistant Professor Emeritus of Sport Science and Physical Education
B.S., Indiana State University, 1953;
M.S., Indiana State University, 1959;
M.S., Indiana University, 1971. (1971)

*WILLIAM L. SMITH, Associate Professor of Sociology
B.A., Loras College, 1978;
M.A., Marquette University, 1980;

WILLIAM ROBERT SMITH, Associate Professor Emeritus of Economics
B.S.Ed., Georgia Teachers College, 1949;

JIMMY L. SOLOMON, Professor of Mathematics and Dean, Allen E.
Paulson College of Science and Technology
B.S., University of Mississippi, 1964; M.S.,
Mississippi State University, 1966; Ph.D.,

*ROY SONNEMA, Associate Professor of Art
B.A., Calvin College, 1976;
M.A., California State University-Fullerton, 1980;

*ARTHUR G. SPARKS, Professor of Mathematics and Computer Science
and Chair, Department of Mathematics and Computer Science
B.S., Georgia Southern College, 1960;
M.Ed., University of Georgia, 1962;
M.A., University of Florida, 1964;
Ph.D., Clemson University, 1969. (1964)

ROBERT M. SPARKS, Temporary Instructor of Mathematics
B.S., Georgia Southern College, 1984;

VIRGINIA SPELL, Assistant Professor of Writing and Linguistics
B.A., Georgia Southern College, 1982;

JUNE A. SPENCER, Assistant Professor of Writing and Linguistics
B.A., Mount Holyoke College, 1965;
M.A., New Mexico State University, 1984. (1992)

*LEON E. SPENCER, Assistant Professor of Leadership, Technology, and
Human Development
B.A., Park College, 1976;
M.A., Ball State University, 1979;
Ed.S., Ball State University, 1982;
Ed.D., Ball State University, 1983. (1994)
MARIA L. G. SPRINGFIELD, Instructional Services Coordinator and
Adjunct Instructor of Music
B.M., Syracuse University, 1992;

PATRICK O. SPURGEON, Professor Emeritus of English
B.A., Emory and Henry College, 1952;
M.A., University of Tennessee; 1958;
Ph.D., University of Tennessee, 1963. (1966)

LAWRENCE STALCUP, Assistant Professor of Family and Consumer Sciences
B.S., Cornell University, 1977;
M.P.S., Cornell University, 1980;
Ph.D., Purdue University, 1997. (1997)

JACK STALLINGS, Associate Professor of Health and Kinesiology
B.S., Wake Forest University, 1955;

ROSE MARIE STALLWORTH-CLARK, Associate Professor of Reading
B.S., Huntingdon College, 1965;
M.Ed., Georgia Southern College, 1982;
Ph.D., University of Georgia, 1996. (1980)

DEBBYE STAPLETON, Assistant Professor of Mathematics
B.S.Ed., University of Georgia, 1973;
M.Ed., Georgia Southern College, 1978;
Ed.S., Georgia Southern College, 1980;

*RICHARD J. STAPLETON, Professor of Management
B.S., Texas Tech University, 1962; M.B.A.,
Texas Tech University, 1966; D.B.A., Texas
Tech University, 1969. (1970)

*THOMAS PATTON STEADMAN, Professor of Art
B.S., East Tennessee State University, 1971;

*JEROME O. STEFFEN, Professor of History and Chair, Department of History
B.S., University of Wisconsin-Madison, 1966;
M.A., Eastern Michigan University, 1968;
Ph.D., University of Missouri-Columbia, 1971. (1966)

*JOHN W. STEINBERG, Assistant Professor of History
B.A., University of Kansas, 1979;
M.A., University of Kansas, 1982;
Ph.D., Ohio State University, 1990. (1990)

*JANICE N. STEIN, Associate Professor of Psychology
B.A., West Virginia University, 1979;
M.S., University of Georgia, 1982;

*JAMES C. STEPHENS, Associate Professor of Middle Grades and Secondary Education
B.S.Ed., Georgia Southern College, 1968;
M.S.T., Georgia Southern College, 1972;
Ed.S., Georgia Southern College, 1973;

*ROBERT L. STEVENS, Associate Professor of Middle Grades and Secondary Education
B.A., Keene State College, 1967;
M.Ed., University of Massachusetts-Amherst, 1970;
Ed.D., University of Massachusetts-Amherst, 1974. (1994)

STUART A. STEVENS, Adjunct Professor of Biology
B.S., University of South Carolina, 1975;
M.S., University of Georgia, 1977;
Ph.D., University of Georgia, 1983. (1997)

BILLY F. STEWART, Assistant Professor Emeritus of Vocational Education and Adult Education
B.S.A., University of Georgia, 1954;

CHARLENE L. STEWART, Assistant Professor Emerita of Middle Grades and Secondary Education
B.S., Texas Tech University, 1966;

LEWIS M. STEWART, Assistant Professor of Finance
B.S., Harding College, 1957;

KEVIN STOKER, Assistant Professor of Communication Arts
B.A., Brigham Young University, 1981;

*DAVID R. STONE, Professor of Mathematics
B.S., Georgia Institute of Technology, 1964;
Ph.D., University of South Carolina, 1968. (1968)

RONALD L. STOTYN, Assistant Professor of Communication Arts

*BEVERLY D. STRATTON, Professor of Reading and Chair, Department of Early Childhood Education and Reading
B.S., Western Reserve University, 1958;
M.Ed., Kent State University, 1970;

JENNIFER D. STREET, Temporary Instructor of Mathematics
B.S., State University of New York-Fredonia, 1993;
M.S., University of South Carolina, 1995. (1997)

W. SCOTT STREET, IV, Assistant Professor of Mathematics
B.S., Hampden-Sydney College, 1990;
M.A., Wake Forest University, 1992;
Ph.D., University of South Carolina, 1997. (1997)

*JAMES F. STRICKLAND, Professor of Mathematics Education
B.S.Ed., University of Georgia, 1964;
M.Ed., University of Georgia, 1966;

*W. JAY STRICKLAND, Associate Professor of Sociology
B.A., Southeastern College, 1980;
M.A., Kent State University, 1987;

*JORGE W. SUAZO, Assistant Professor of Spanish
B.A., University of Chile, 1979;
M.A., Ohio University, 1986;
Ph.D., Ohio State University, 1996. (1993)

GARY B. SULLIVAN, Adjunct Assistant Professor of Nursing
B.S., Creighton University, 1977;
M.D., Rutgers University, 1983. (1989)

NAHILA M. SWEDAN, Temporary Assistant Professor of Writing and Linguistics
B.A., Minia University, 1983;
M.A., Minia University, 1990;
Ph.D., Minia University, 1995. (1997)

*CATHY OWENS SWIFT, Associate Professor of Marketing
B.S., Pennsylvania State University, 1969;
M.B.A., Indiana University, 1971;

RICHARD TAFFE, Counseling Psychologist and Adjunct Instructor of Leadership, Technology, and Human Development
B.S., University of Iowa, 1982;

BRENDA S. TALLEY, Temporary Assistant Professor of Nursing
A.D.N., Armstrong State College, 1978;
B.S.N., Armstrong State College, 1980;
M.S.N., Georgia Southern University, 1990. (1994)

JANNA C. TAULBEE, Instructor of Reading
B.S., Florida State University, 1968;
M.Ed., Georgia State University, 1980;

JOSEPH TAYLOR, Adjunct Instructor of Nursing
A.A.S., Pace University, 1968;
B.S.N., City University of New York Hunter College, 1971;

*LARRY TAYLOR, Assistant Professor of Political Science and Public Administration and Affirmative Action Officer
B.A., Morehouse College, 1964;
M.A., Wayne State University, 1968;

SANDRA C. TAYLOR, Assistant Professor of Management
A.B., University of Georgia, 1970; M.B.A.,
Georgia State University, 1976; M.S.,
Georgia State University, 1988; Ph.D.,
*SHARON E. TAYLOR, Assistant Professor of Mathematics
B.S.Ed., Southwest Texas State University, 1987;
M.A., Sam Houston State University, 1989;

*TIMOTHY M. TEETER, Assistant Professor of History
B.A., Columbia College-Columbia University, 1976;
M.A., Columbia University, 1980;
M.Phil., Columbia University, 1983;

*REBECCA M. TERRY, Assistant Professor of Psychology
B.A., Georgia State University, 1986;
M.A., Georgia State University, 1991;

*CHARLES S. THOMAS, Professor of History
B.A., University of Tennessee, 1972;
M.A., University of Tennessee, 1974;
Ph.D., Vanderbilt University, 1983. (1983)

*DEBORAH M. THOMAS, Assistant Professor of Middle Grades and Secondary Education
B.S., Florida State University, 1976;
M.S., Florida State University, 1979;

JOSEPH T. THOMAS, Temporary Instructor of Writing and Linguistics
B.A., Georgia Southern University, 1995;

*PAMELA SUE THOMASON, Professor of Recreation and Sport Management
B.A., Purdue University, 1968;
M.S., Purdue University, 1971;
Ph.D., Texas A&M University, 1980. (1973)

DONALD L. THOMPSON, Professor Emeritus of Marketing and Chair Emeritus, Department of Marketing
B.S., University of Pennsylvania Wharton School of Finance and Commerce, 1951;
M.S., San Francisco State University, 1958;

GEORGE BENJAMIN THOMPSON, IV, Assistant Professor of Legal Studies
B.S., Georgia Southern University, 1990;
J.D., University of South Carolina, 1994. (1994)

RUTH ANNE THOMPSON, Assistant Professor of History
B.A., Carson-Newman College, 1982;
M.A., Vanderbilt University, 1991;
J.D., University of Tennessee-Knoxville, 1985. (1994)

TERRY W. THOMPSON, Assistant Professor of Writing and Linguistics
B.A., West Georgia College, 1977;
M.A., West Georgia College, 1979;

*DOUGLAS H. THOMSON, Associate Professor of Literature
B.A., University of Rochester, 1975;
M.A., University of Rochester, 1976;

*RICHARD TICHIC, Professor of Art and Chair, Department of Art
B.S., Saint John's University (Minnesota), 1969;
M.A., University of Iowa, 1970;

LAURA TOMLIN, Visiting Instructor of Music
B.M., North Carolina School of the Arts, 1984;

MEREDITH A. TOMLINSON, Temporary Instructor of Mathematics
B.S., Furman University, 1995;

*CAREN TOWN, Associate Professor of Literature
B.A., University of Alabama, 1979;
M.A., University of Washington, 1983;

*SHARON K. TRACY, Associate Professor of Public Administration and Justice Studies
B.A., Southern Illinois University, 1965;
M.P.A., University of Nevada, 1978;

*SUSAN B. TRIMBLE, Assistant Professor of Middle Grades and Secondary Education
B.A., Lawrence University, 1967;
M.S., Nova University, 1990;
Ed.S., Florida State University, 1993;

KAVIN TSANG, Temporary Instructor of Health and Kinesiology
B.Ed., University of Hawaii-Manoa, 1993;
M.S., Georgia Southern University, 1997. (1997)

DURELLE L. TUGGLE, Instructor of Reading
B.S.Ed., Auburn University, 1962;

HAROLD LATHAM TYER, Professor Emeritus of School Service Personnel
A.B., Atlantic Christian College, 1935;
B.D., Vanderbilt University, 1937;
M.A., East Carolina University, 1959;

R. KELLY VANCE, Associate Professor of Geology
B.S., University of Kentucky, 1978;
M.S., University of Kentucky, 1985;
Ph.D., New Mexico Institute of Mining and Technology, 1989. (1988)

*JOHN PIETERSON VAN DEUSEN, Professor of Middle Grades and Secondary Education
B.A., Florida State University, 1952;
M.A., Florida State University, 1956;

DARIN H. VAN TASSELL, Assistant Professor of International Studies
B.A., Georgia Southern College, 1989;
M.A., University of South Carolina, 1992;
Ph.D., University of South Carolina, 1995. (1994)

*G. LANE VAN TASSELL, Associate Vice President for Academic Affairs, Dean of Graduate Studies, and Professor of Political Science
B.A., Brigham Young University, 1966;
Ph.D., Claremont Graduate School, 1971. (1970)

JAMES VARGO, Assistant Professor of Mathematics
B.A., Bellarmine College, 1982;
M.S., University of Tennessee, 1985. (1988)

*STEPHEN P. VIVES, Associate Professor of Biology
B.S., Oklahoma State University, 1980;
M.S., Oklahoma State University, 1982;
M.S., University of Wisconsin-Madison, 1986;

BRIAN L. VLECEK, Assistant Professor of Mechanical Engineering Technology
B.S., Rensselaer Polytechnic Institute, 1988;
M.S., Rensselaer Polytechnic Institute, 1989;

ARVARD O. VOGEL, Professor Emeritus of Graphic Arts Technology and Printing Management
A.B.S., Snow College, 1951;
B.A., University of Northern Colorado, 1957;
M.A., University of Northern Colorado, 1957. (1967)

LINDA SUE VON BERGEN, Instructor of Writing and Linguistics
B.S.Ed., Armstrong State College, 1975;
B.A., Georgia Southern University, 1989;
M.Ed., Georgia Southern University, 1997;

*DAVID B. WAGNER, Associate Professor of Recreation and Sport Management
B.S.Ed., Ohio University, 1961;
M.Ed., Ohio University, 1964;
Ph.D., Florida State University, 1972. (1981)

*PHILLIP S. WALDROP, Associate Professor of Industrial Technology and Director, School of Technology
B.S., Ball State University, 1969;
M.S.Ed., Purdue University, 1972;
Ph.D., Purdue University, 1979. (1995)

EDWARD D. WALKER, II, Assistant Professor of Management
B.S., Presbyterian College, 1986;
PATRICIA J. WALKER, Assistant Professor of Art  
B.F.A., Rhode Island School of Design, 1985;  

RANDAL L. WALKER, Adjunct Assistant Professor of Biology  
B.S., University of Georgia, 1977;  
M.S., Georgia Institute of Technology, 1984;  

JOHN S. WALLACE, Professor of Mechanical Engineering Technology,  
CRT Coordinator  
B.S.A.E., Georgia Institute of Technology, 1966;  
M.S.A.E., Georgia Institute of Technology, 1968;  
Professional Engineer. (1974)

BENJAMIN GRADY WALLER, Dean Emeritus of Students  
B.S., Georgia Southern College, 1943;  
M.Ed., University of Georgia, 1949;  
Sixth Year Certificate, Florida State University, 1963. (1965)

LYNN WALSHAK, Head Government Documents Librarian and Professor  
B.S.Ed., Southwest Texas State University, 1968;  

PATRICIA W. WALTON, Assistant Professor of Family and Consumer Sciences  
B.S.H.E., University of Georgia, 1973;  

*JIAO-JUN WANG, Assistant Professor of Physics  
B.S., Jilin University, 1982;  
M.S., Chinese Academy of Sciences, 1985;  
M.S., Florida Institute of Technology, 1987;  

ROZENA WARCHOL, Temporary Instructor of Reading  
B.A., III Liceum, Gdynia, Poland, 1972;  

*ROBERT A. WELLS, Professor of Management  
B.S.Ed., University of Georgia, 1956;  
M.Ed., Adam Mickiewicz University, 1969;  

*ROBERT W. WESS, Assistant Professor Emeritus of Mathematics  
B.A., Agnes Scott College, 1958;  
M.Ed., Georgia Southern College, 1969;  

MICHAEL E. WEST, Assistant Director, Russell Union, and Adjunct Instructor  
B.A., Armstrong State College, 1989;  

ROBERT K. WEST, Adjunct Assistant Professor of Military Science  
Major, United States Army  
B.S., Florida State University, 1982. (1997)

DONALD C. WHALEY, Associate Professor Emeritus of Industrial Management  
B.S., Georgia Southern College, 1956;  

*MARY J. WATKINS, Temporary Instructor of Health and Kinesiology  
B.S.Ed., Georgia Southern College, 1986;  

J. EUGENE WATERS, Associate Professor of Justice Studies  
B.B.A., Armstrong State College, 1972;  
M.A., University of Georgia, 1974;  
Ed.S., University of Georgia, 1976;  
Ph.D., Georgia State University, 1989. (1982)

MARY J. WATERS, Temporary Instructor of Health and Kinesiology  
B.S.Ed., Georgia Southern College, 1986;  

MYRA A. WATERS, Counseling Psychologist and Adjunct Instructor of Leadership, Technology, and Human Development  
B.A., University of Maryland-College Park, 1983;  
M.Ed., University of Maryland-College Park, 1992;  

JULIE S. WATKINS, Temporary Instructor of Nursing  
B.S.N., Medical College of Nursing, 1982;  
M.S.N., Georgia Southern University, 1992. (1994)

PAMELA C. WATKINS, Assistant Professor of Mathematics  
B.S.Ed., Georgia Southern College, 1975;  
M.S.T., Georgia Southern College, 1978. (1977)

RICHARD J. WAUGH, Associate Professor Emeritus of Justice Studies  
B.G.S., Rollins College, 1970;  
M.S., Eastern Kentucky University, 1972. (1972)

*H. JAROLD WEATHERFORD, Professor of German  
B.A., University of Utah, 1963;  
M.A., University of Utah, 1970;  
Ph.D., University of Utah, 1972. (1972)

*DAVID D. WEBSTER, Associate Professor of Psychology  
B.S., University of Wisconsin, 1976;  
M.S., University of Florida, 1979;  

DAVID E. WEISENBOURN, Professor Emeritus of Economics  
B.S., Ohio State University, 1963;  
M.S., University of Florida, 1965;  

STEVEN D. WEISS, Assistant Professor of Philosophy  
B.A., University of Illinois-Urbana, 1973;  
M.A., University of Wisconsin-Madison, 1982;  

MARK WELFORD, Assistant Professor of Geography  
B.Sc., Coventry Polytechnic, 1986;  
M.S., University of Idaho, 1988;  

THERESA M. WELFORD, Assistant Professor of Writing and Linguistics  
B.A., Armstrong State College, 1979;  

*HELEN M. WELLE-GRAF, Assistant Professor of Health and Kinesiology  
B.S., Southern Illinois University, 1982;  
M.S., Southern Illinois University, 1984;  

JAY NORMAN WELLS, Professor Emeritus of Mathematics  
B.E.E., Georgia Institute of Technology, 1957;  
M.S., Clemson University, 1962;  
Ph.D., Florida State University, 1968. (1962)

*ROBERT A. WELLS, Professor of Management  
B.S.Ed., University of Georgia, 1956;  
M.Ed., Adam Mickiewicz University, 1969;  

ROSALYN W. WELLS, Assistant Professor Emerita of Mathematics  
B.A., Agnes Scott College, 1958;  
M.Ed., Georgia Southern College, 1969;  

*TIMOTHY D. WHELAN, Assistant Professor of Literature  
B.A., Tennessee State University, 1977;  
M.A., University of Missouri, 1981;  
Ph.D., University of Maryland, 1989. (1989)

MICAL WHITAKER, Assistant Professor of Communication Arts  
Howard University (1958-61);  
American Academy of Dramatic Arts (1961-63);  

PATRICIA D. WHITAKER, Instructor of Reading  
B.A., Morehead State University, 1975;  
M.A.C.E., Morehead State University, 1983. (1989)

*WILLIAM M. WHITAKER, Professor of Finance and Chair, Department of Finance and Economics  
B.S., Morehead State University, 1964;  
M.B.A., University of Kentucky, 1965;  
Ph.D., University of Kentucky, 1968. (1989)

JANE F. WHITE, Professor Emerita of Business Communications  
B.S., Central College, 1940;  
M.B.A., University of Denver, 1950;  
Ph.D., University of North Dakota, 1974. (1962)
*JOHN B. WHITE, Associate Professor of Finance  
B.A., University of North Carolina, 1975;  
Ph.D., University of Virginia, 1985. (1989)  

SUSIE FRANCES WHITENER, Assistant Professor Emerita of Family and  
Consumer Sciences  
B.S., Appalachian State University, 1944;  
M.S., University of Tennessee, 1950. (1972)  

CHRISTINE R. WHITLOCK, Assistant Professor of Chemistry  
B.A., Huntington College, 1989;  

FREDERICK K. WHITT, Dean of the College of Health and Professional  
Studies and Professor of Health and Kinesiology  
B.S., Appalachian State University, 1975;  
M.A., Appalachian State University, 1976;  

AMBERYS R. WHITTLE, Professor Emeritus of English  
B.A., University of North Carolina, 1961;  
M.A., University of North Carolina, 1965;  

TINA F. WHITTLE, Temporary Instructor of Writing and Linguistics  
B.S.Ed., Georgia Southern College, 1989;  

DUANE A. WICKISER, Associate Professor Emeritus of Music  
B.S., Eastern Illinois University, 1960;  
M.M.E., Milken University, 1965. (1977)  

BOBBIE WILLIAMS, Instructor of Management  
B.B.A., Georgia Southern University, 1990;  

*DAVID A. WILLIAMS, Associate Professor of Industrial Technology  
B.S., Appalachian State University, 1976;  
M.A., Appalachian State University, 1978;  

KITY BURKE WILLIAMS, Assistant Professor of Accounting  
B.B.A., Georgia Southern College, 1971;  
M.B.A., Georgia Southern College, 1981;  

*SCOTT H. WILLIAMS, Professor of Printing Management  
A.S., Miami-Dade Junior College, 1969;  
B.S., Georgia Southern College, 1972;  
M.T., Georgia Southern College, 1974. (1987)  

*SUSAN REBSTOCK WILLIAMS, Assistant Professor of Management  
B.S., Southwest Missouri State University, 1975;  
M.B.A., Southwest Missouri State University, 1985;  
Ph.D., Oklahoma State University, 1995. (1994)  

FAITH M. WILLIS, Part-time Assistant Professor of Public Administration  
A.B., Chatham College, 1969;  
M.A., Emory University, 1961;  
Ph.D., Emory University, 1967. (1985)  

*JANIE H. WILSON, Assistant Professor of Psychology  
B.S., College of Charleston, 1980;  

*JERRY W. WILSON, Associate Professor of Marketing  
B.S., Arkansas State University, 1972; M.B.A.,  
Arkansas State University, 1973; D.B.A.,  
Memphis State University, 1989. (1988)  

MARYLAND W. WILSON, Professor Emerita of Communication Arts  
B.A., Winthrop College, 1936;  
M.A., University of Michigan, 1939;  
Ph.D., University of Michigan, 1952;  
Postdoctoral certificate, University of Birmingham (England) at Stratford-on-  

THOMAS W. WILSON, Adjunct Associate Professor of Nursing  
B.S., Bowling Green State University, 1972; M.A.,  
Bowling Green State University, 1981; M.P.H.,  
University of California-Los Angeles, 1992; Ph.D.,  
Bowling Green State University, 1987;  

HERBERT L. WINDOM, Adjunct Professor of Biology (Skidaway Institute  
of Oceanography)  
B.S., Florida State University, 1963;  
M.S., University of California Scripps Institute of Oceanography, 1965;  
Ph.D., University of California Scripps Institute of Oceanography, 1968. (1971)  

MARYANN WINTER, Adjunct Instructor of Middle Grades and Secondary  
Education  
B.S.Ed., Saint John’s University (New York), 1968;  

*SPENCE L. WISE, Associate Professor of Accounting  
B.B.A., Ohio University, 1963;  
M.B.A., Ohio University, 1966;  

BRENDA J. WOJCIECHOWSKI, Assistant Professor of Chemistry  
B.S., University of Massachusetts, Boston, 1984;  
Ph.D., University of Michigan, 1989. (1992)  

*LORNE M. WOLFE, Assistant Professor of Biology  
B.Sc., McGill University, 1981;  
M.Sc., University of Toronto, 1985;  
Ph.D., University of Illinois-Urbana-Champaign, 1990. (1994)  

LYNN WOLFE, Assistant Professor of Health and Kinesiology and Assistant  
Dean, College of Health and Professional Studies  
B.F.A., University of Georgia, 1969;  
M.P.H., University of California-Berkeley, 1974;  

DANETTE L. WOOD, Instructor of Nursing  
A.S.N., State University of New York-Albany, 1985;  
B.S.N., State University of New York-Albany, 1990;  

*ARTHUR WOODRUM, Professor Emeritus of Physics and Chair  
Emeritus, Department of Physics  
B.S., Georgia Institute of Technology, 1964;  
M.S., Georgia Institute of Technology, 1966;  
Ph.D., Georgia Institute of Technology, 1968. (1969)  

*JAMES M. WOODS, Associate Professor of History  
B.A., University of Dallas, 1976;  
M.A., Race University, 1979;  
Ph.D., Tulane University, 1983. (1988)  

MARY WOODS, Cafeteria Manager and Adjunct Instructor  
B.S., Tuskegee Institute, 1967;  

CURTIS WOODY, Instructor of Marketing  
B.S., Georgia Southern College, 1982;  

*HARRY R. WRIGHT, Assistant Professor of Legal Studies  
B.A., Mercer University, 1976;  
J.D., Mercer University, 1979. (1983)  

NANCY S. WRIGHT, Assistant Professor of English and Assistant Dean,  
College of Liberal Arts and Social Sciences  
B.A., Emory University, 1964;  

ERNEST TILLMAN WYATT, Associate Professor of Communication Arts  
A.B.J., University of Georgia, 1967;  
M.A., University of Georgia, 1975. (1975)  

*CHONG-WEI XU, Associate Professor of Computer Science  
B.S., Hefei Industrial Engineering University, 1963;  
M.S., University of Wisconsin-Madison, 1981;  
Ph.D., Michigan State University, 1986. (1993)  

LISA SCHAFER YOCO, Assistant Professor of Mathematics  
B.S., Augusta College, 1977;  

ALFRED YOUNG, Professor of History  
B.A., Louisiana State University, 1970;  
M.A., Syracuse University, 1972;  
Ph.D., Syracuse University, 1977. (1989)  

RONALD E. YOUNG, JR., Assistant Professor of History  
B.A., Kalamazoo College, 1990;  
M.A., University of California-Los Angeles, 1991;  
Marvin Pittman Lab School

JOHNNY W. TREMBLE, Principal and Adjunct Associate Professor of Educational Leadership, Technology, and Research
B.S., Savannah State College, 1968;
M.Ed., Georgia Southern College, 1976;

CAROLYN MANDES, Assistant Principal and Assistant Professor of Education
B.S., Georgia Southern College, 1956;
M.Ed., Georgia Southern College, 1974;

JULIAN AUBREY PAFFORD, Principal Emeritus
B.S., Georgia Southern College, 1935;
M.Ed., Duke University, 1941. (1952)

MARJORIE L. COLLINS, Demonstration School Teacher
A.A., Miami Dade Junior College, 1970;
B.S.Ed., Georgia Southern College, 1973;
M.Ed., Georgia Southern College, 1979;

HOWARD DEWEY, Demonstration School Teacher
B.S., Cortland State University, 1990. (1994)

KAREN DOTY, Demonstration School Teacher
B.A., University of Kentucky, 1983;
M.Ed., Georgia Southern College, 1987;

SHARON C. EDENFIELD, Demonstration School Teacher
A.B., Armstrong State College, 1968;
