80 Engineering students pass CSWA exam

February 18, 2014

In Fall 2013, over 80 engineering students took — and passed — the CSWA Exam. The Certified SolidWorks Associate certification is proof of SolidWorks® expertise in cutting-edge skills that businesses seek out and reward. Those who pass the CSWA exam are registered in an international database accessible by employers. The exam is offered once a semester by the faculty instructing the SolidWorks 3D modeling course, and is open to students who have taken the course.
