I. Policy Statement

All faculty employed one-half time or more on a regular basis at the University are required as a condition of their employment to participate in the Teachers Retirement System of Georgia or the Regents Retirement Plan. A faculty member has 60 days from the date of hire to choose a retirement plan, or the faculty member will default into the Teachers Retirement System of Georgia plan.

Board of Regents policy, *Section 8.2.8.2*, identifies the criteria that a faculty member must meet to retire from the University System of Georgia. The following language outlines the definition and eligibility for retirement.

Effective November 1, 2002, to be eligible for retirement with benefits from the USG, an employee must meet one of the following four conditions at the time of his or her separation from employment, regardless of the retirement plan elected by the employee:

1. An employee must have been employed by the USG for the last ten years in a regular, benefited position and have attained age 60;
2. An employee must have at least 25 total years of benefited service established with a State of Georgia sponsored retirement plan, of which the last five years of employment must have been continuous and with the USG. An early pension benefit penalty will apply to an individual who elects to participate in TRS or ERS if he or she decides to retire with between 25 and 30 years of benefited service, prior to attaining age 60;
3. An employee must have at least 30 years of benefited service established with a State of Georgia sponsored retirement plan, of which the last five years must have been continuous and with the USG; or,
4. An employee must be deemed to be totally and permanently disabled, as documented through the receipt of disability benefits from Social Security or from TRS following ten years of continuous service to the USG in a regular, benefited position.

After completing their academic contract in the year that represents completion of their 10th or 25th year of employment, a faculty member will be considered service eligible for retirement if they meet the other requirements for health and retirement plan participation.

Upon meeting one of the above conditions, an employee will be eligible for University System of Georgia retiree benefits upon retirement. An employee must be enrolled in the benefits coverage at the time of retirement or disability to be eligible to continue coverage in retirement. For employees hired on or after January 1, 2013, the employer contribution for healthcare will be based on years of service with the University System of Georgia.

An individual who has retired from another state of Georgia sponsored retirement plan may not count such retirement service toward meeting the eligibility criteria for retirement from the University System of Georgia (Board of Regents Minutes, August 2015).

The University System does not guarantee a retirement allowance to any retiring faculty member with fewer than 10 years of service, but credit for military service and service in other systems can be purchased under specific conditions. A complete description of this program is available in the Human Resources Department.

Regular, limited-term faculty (visiting or temporary) and/or part-time employees who are not eligible for Teachers Retirement System of Georgia or the Regents Retirement Plan must participate in the Georgia Defined Contribution Plan (GDGP). This contribution is refundable to the member in a lump sum upon termination of employment.
