Introduction
Institutional Repository at Georgia Southern began in 2009 with locally hosted Eagle Scholar.

- Dspace platform
- Part of 3 year grant with Georgia Tech
- Grant combined local institutional repositories into statewide GKR – GALILEO Knowledge Repository
- Grant was for 3 years, extended to 4
- Not sustainable after the grant
- Little faculty support other than ETD archiving
Why Move to Digital Commons?

What Faculty Wanted – Not offering a service with no market as feared but there existed a market for more, different, better services!

Technology – Attended “Cooperative Curation Symposium and Workshop” at Georgia Tech in August of 2012 and realized we could never offer services needed on our own.
What do Faculty Want

• Place for a personal professional website with links to download or access their articles

• Include all publications whether full text is open access or not

• Include grants, honors awards – the full CV!

• Faculty Showcase

“I want to put my entire CV into the Repository.”
A Suite of New Services

• Digital Commons – February 2013
• Digital Collections Specialist – June 1
• Plans
  – Digital Commons set up and move content during summer
  – Promotion to faculty in Fall
• First requests in June with request for both Journal and Conference hosting
• Both had content in Repository but were not hosted there
• Word of Mouth Advertising
