# Department of Early Care and Learning names Dr. Hall to WKC Revision Work Group

*August 22, 2016*

Alice Hall, Ph.D., associate professor of child and family development in the School of Human Ecology was recently named to the Workforce Knowledge and Competencies (WKC) Work Group by the Department of Early Care and Learning (DECAL). The work group will be responsible for revising and/or rewriting the Workforce Knowledge Competencies that are used to articulate the knowledge and skills that early care and education professionals should possess. These competencies are used statewide to help guide the development of trainings and professional learning opportunities for early care and education professionals. Dr. Hall was a prime candidate for the work group due to her keen interest and investment in early care and education in Georgia.
