- After

Interdisciplinary A - Z

Three Dimensional Approach to Critical Incident Management
Dealing with *Complexity*: The Disciplines Within The Criminal Justice Field

- Law
- Homeland Security
- Criminal Investigations
- Public Administration
- Corrections & Rehabilitation
- Forensic Psychology
- Critical Incident Management
- Incident Stress Management
- Forensics
- Emergency Management
Background: The DRNC as an Overarching Theme
Collaborative Course Design Process

- Course Instructor
- Instructional Design
- DRNC SME

The diagram illustrates a collaborative course design process involving a course instructor, instructional design, and a DRNC SME, indicating a cyclical flow of communication and collaboration.
The overarching theme for this course is the Democratic-Republican National Committee (DRNC) Convention. The rationale for choosing the DRNC Convention as the overarching theme for courses of the Criminal Justice program is that such large-scale special events provide an ideal setting whereby most, if not all, of the issues related to the criminal justice field can be played out. These large-scale special events are complex and involve virtually all the stakeholders and their issues associated with criminal justice. Planning and executing the DRNC Convention will lend a setting which will provide a realistic context that exposes students to a full range of criminal justice issues—in other words, “criminal justice A to Z.”

Warren defined the mission goals and rules of engagement, and then he let his field commanders make decisions on the spot when necessary. It was that kind of operational flexibility and trust in his mobile field force commanders that gave him confidence that all would turn out right in the end.

What REALLY Matters

• Connecting the simulation to prior learning within the course

• Facilitating student debriefing and reflection throughout the simulation

• Connecting to subsequent learning experiences
The Studies

ASSESSING THE EFFECTIVENESS OF REALITY-BASED FOCUSING EVENTS ACROSS THE CURRICULUM (2013)

EXAMINING THE CORRELATION BETWEEN SENSORY MODALITY AND REALITY-BASED SIMULATIONS (2014)
RQ₁: Will the overarching DRNC theme *increase learner interest* in the Criminal Justice curriculum?

**Percentages**

- More Interesting: 46%
- Equally Interesting: 46%
- Less Interesting: 8%

N=67
RQ2: Will the DRNC theme be perceived by learners (non-practitioners) and learner-practitioners to be relevant for careers in the criminal justice field?

Percentage of Non-Practitioners
- Very Relevant: 65%
- Somewhat Relevant: 28%
- Not Relevant: 7%
N=40

Percentage of Learner-Practitioners
- Very Relevant: 70%
- Somewhat Relevant: 20%
- Not Relevant: 10%
N=30
RQ3: Will the DRNC theme be perceived by learners (non-practitioners) and learner-practitioners as providing a realistic portrayal of what managers in the criminal justice field are faced with?

*Scenarios in their particular course were realistic.*

### Percentage of Non-Practitioners
- **Very Realistic**: 64.10%
- **Somewhat Realistic**: 25.60%
- **Not Realistic**: 10.30%

N=40

### Percentage of Learner Practitioners
- **Very Realistic**: 63.30%
- **Somewhat Realistic**: 30%
- **Not Realistic**: 6.70%

N=30
The Studies

ASSESSING THE EFFECTIVENESS OF REALITY-BASED FOCUSING EVENTS ACROSS THE CURRICULUM (2013)

EXAMINING THE CORRELATION BETWEEN SENSORY MODALITY AND REALITY-BASED SIMULATIONS (2014)
Theoretical Background

– Research has long shown that adults learn differently. *(Goldstein & Blackman, 1978; Anderson and Adams, 1986; Knowles, 1990)*

– One area of research hypothesizes that individuals have a personalized way of processing information. *(Anderson and Adams, 1986)*

– Research has identified student preference, specifically in terms of learning modality. *(Kolb & Smith, 1985)*
• The VARK learning preference is linked to sensory modality.
• It was created by New Zealand Educator, Neil Fleming in 1998.
• VARK is an acronym for:
  – Visual
  – Aural or Auditory
  – Read/Write
  – Kinesthetic
VISUAL LEARNERS

– prefer diagrams, flow charts and pictures.
– These learners also are categorized into another modality called Read/Write.
– These learners are often reliant on the written word and textbooks.
AURAL LEARNERS

– Gravitate to what is communicated to them.
– Tapes and conversation are beneficial to these learners.
– These learners remember what they hear.
KINESTHETIC LEARNERS

– thrive through hands on experience and tactile learning.
– These learners learn by doing.
– These learners prefer to see something done before doing it.

Research Methodology

Sampling Frame

• 2014 Spring Term graduate students

• Enrolled in Criminal Justice courses that have implemented the DRNC focusing event theme (CRJ-530 and CRJ-565)

232 Surveys Administered

40 Returned 17.2%
Research Methodology

The data collection instrument for this study was a 35 question survey administered directly to graduate-level students via SurveyMonkey.

DRNC Survey

1. Which statement most accurately describes your present position?
   - I am currently a ranking supervisor or manager in a criminal justice agency.
   - I am currently a non-supervisory employee in a criminal justice agency.
   - I am actively seeking employment in a criminal justice agency.
   - I am currently considering a career change to a criminal justice agency.
   - I currently have no intention of seeking employment in a criminal justice agency.

2. Which statement best describes the reason for seeking a masters’ degree in criminal justice?
   - To improve my post-retirement opportunities.
   - To gain higher rank or better position within my criminal justice agency.
   - To gain employment from a criminal justice agency.
   - To gain employment from a non-criminal justice agency.
   - To gain general knowledge about the criminal justice field.
Results – Descriptive Statistics

PERCENTAGE OF LEARNER-PRACTIONERS VS. NON-PRACTITIONERS

- Ranking Supervisors, 17.5%
- Non-Supervisors, 25.0%
- Non-Practitioners, 57.5%
Which statement best describes the reason for seeking a graduate degree in criminal justice?

- Post Retirement Opportunities, 30.0%
- Gain Employment in Criminal Justice Agency, 35.0%
- Gain Higher Rank or Better Position, 22.5%
- Improve General Knowledge, 12.5%
- Seeking Employment in Non-Criminal Justice Field, 0.0%
Breakdown by Criminal Justice Sub-Discipline

- Forensics: 13%
- Criminal Investigations: 18%
- Critical Incident Management: 10%
- Psychology: 8%
- Law: 8%
- Corrections & Rehabilitation: 5%
- Other: 5%
- Multiple Disciplines: 33%
- Homeland Security: 0%

Legend:
- Forensics
- Criminal Investigations
- Critical Incident Management
- Psychology
- Law
- Corrections & Rehabilitation
- Other
- Multiple Disciplines
Included the 30 question Brookhaven College Sensory Modality Preference Inventory

**Total:** 37
Learning Modalities

- See It, Hear It: 6%
- See It, Touch It: 51%
- Touch It, See It: 24%
- Touch It, Hear It: 11%
- Hear It, See It: 5%
- Hear It, Touch It: 3%

N=37
Research Questions

RQ₁

Will the DRNC theme be perceived by learners as providing a *realistic* portrayal of what managers in the criminal justice field are faced with?
In regard to the overall DRNC theme in the Criminal Justice curriculum, which of the below statements most accurately describes your feeling?

- Very Realistic: 42%
- Somewhat Realistic: 47%
- Not Very Realistic: 11%
- Totally Unrealistic: 0%

The theme provides a ________ realistic portrayal of what managers in the criminal justice field are faced with.
Research Questions

RQ₂

Will the DRNC theme be perceived by learners to be relevant for careers in the criminal justice field?
In regard to the overall DRNC theme in the Criminal Justice curriculum, which of the below statements most accurately describes your feeling?

- Very Relevant: 22%
- Somewhat Relevant: 50%
- Not Very Relevant: 22%
- Totally Irrelevant: 6%

The theme is __________ relevant to my career (or intended career) in criminal justice.
Research Questions

RQ₃

Is there a correlation between sensory modality preference and receptiveness to reality based learning?
Conclusions

• The overarching theme and scenarios throughout the graduate Criminal Justice curriculum were perceived as being a **realistic** portrayal of real life challenges in the criminal justice field.
Conclusions

- The overarching theme and scenarios were perceived by students as being relevant to their post-academic career advancement.
Lessons Learned & Practical Applications

• Future design of online courses needs to take into consideration the predominance of visual-kinesthetic learners.

• Incorporate more interactive simulations (games) into the online platform.
