NEW PROGRESSIVE JAZZ DRUM OUTFIT
Here's the newest, most modern outfit for the progressive drummer playing with small groups. This great ensemble is exactly like the one played by famous Art Blakey and Max Roach. Modern sound bass drum is 20" x 14" (pioneered by Gretsch); 14" x 4" snare drum—crisp, snappy, with split-second response; and neat torn toms, 12" x 8" and 14" x 14".

PX4025—"Progressive Jazz" Outfit, choice of all Gretsch Pearl finishes and Chrome, special price complete outfit, without cymbals...........................................$474.00
PX4026—"Progressive Jazz" Outfit, choice of all Gretsch Pearl finishes and Chrome, special price complete outfit, with cymbals...........................................$625.00

WORLD BEATERS
THE GOLDMAN BAND PERCUSSION SECTION

The GOLDMAN BAND conducted by Richard Franko Goldman has earned international fame for its inspiring and rousing performances throughout the musical world. Whether outdoors at New York City's Central Park Mall or indoors in concert halls and on Decca and Capitol recordings, Mr. Goldman's percussionists must constantly maintain the highest standard of sound under widely varying conditions. Only the finest drums can answer such rigorous demands. That's why the Goldman drummers choose Gretsch. In cymbals too, the Goldman Band selects only the best - K. Zildjian, world leader in the finest cymbals.

Phil Grant  Paul Fein  Dick Horowitz
For more than three-quarters of a century, The Fred. Gretsch Mfg. Company has been dedicated to the sound of drums...making news with a host of important technical "firsts"...perfecting the "That Great Gretsch Sound" with the precise, quality construction famous drummers demand.

Why is "That Great Gretsch Sound" so outstanding? It is the superb tonal quality built into each Gretsch instrument. Response is quick and lively. And your Gretsch drum holds its tension, regardless of weather.

Step by step, Gretsch drums are meticulously constructed to last throughout your career, make a handsome appearance, and sound great.

Gretsch—first with the small bass drum, first with disappearing drum spurs, first with built-in adjustable bass drum, tone control and Micro-Sensitive Snare Strainer...first with self-seating, self-aligning, strip-proof tensioning throughout... and first with the unique molded 6-ply/shell construction, guaranteed for life, that assures perfect roundness, shell strength, and distortion-free sound. The gleaming chrome-plated hoops, too, have the exclusive plus of die-cast molding to give you superior sound and stick protection on your rim shots.

These are but a few of the reasons "That Great Gretsch Sound" has become a byword and a source of confidence to drummers throughout the world...on bandstands and marching grounds alike. Naturally, we're proud of our reputation. It comes from many years of technical and musical know-how, many years of keeping pace with progress and remaining alert to your needs. In the years ahead, you can depend on the same dedication, the same high standards to bring new heights of greatness to "That Great Gretsch Sound."

**GRETSCH SNARE DRUM STICKS**

Expect this from Gretsch sticks: uniformity of model, balance, and playing qualities. Such consistent high calibre of Gretsch sticks is the result of careful stock selection, perfect turning, and a glossy-smooth finish. Only the finest second-growth, straight-grained white hickory stock may be used . . . and this must be scientifically and thoroughly seasoned before turning to insure perfect flatness. Step by step, Gretsch's attention to details is your assurance that your favorite stick will always be the same. There's a model exactly suited to your needs.

GRETSCH BAND BELLS

An impressive addition to any concert orchestra or marching band. Gretsch bells are designed for playing convenience—styled for flashing prominence on stage or on the marching field...perfectly tuned for unmatched clarity and sweetness. The bars, tuned by latest scientific methods, are of a special aluminum alloy notable for brilliant accoustical qualities and lightweight strength.

GRETSCH "PATHFINDER" Band Bells

Light weight model with 25 aluminum alloy 1 1/4" x 3/4" bars (2 full chromatic octaves) mounted on new, improved tubular frame. Height of lyra, 28"; maximum width, 21"; weight, 115 lbs. Complete with white horse hair plumes, carrying belt, zipper-closing bag and mallet.

GRETSCH PEDAL TYPANMI

Made of solid stainless steel hand-buffed to a brilliant luster, these 26" and 25" deep parabolic kettles are richly resonant, finer in tone. Touch the sensitive pedal—get immediate action throughout the entire range. Tone changes are fast, easy, accurate. No awkward clutch or ratchets are needed, so there's nothing to stick or squeak. Its suspension struts give solid support. Roller wheels move in any direction, lock tympani in position. All metal parts are Chromed. Comes with sticks and fibre head protectors. A truly unique model—the most popular tympani in musical history.

4472—Gretsch Pedal Tuned Tympani, sizes 28" and 25", complete with Fibre Head Protectors, Roller Coasters and one Pair Tympani Sticks $625.00 B
