Editor's Note

I want to start off by thanking all the authors for their time, interest, and energy they channeled into this second volume of the Proceedings of the Interdisciplinary STEM Teaching and Learning Conference. This volume, without intention, emphasizes the role of mathematics within interdisciplinary STEM teaching and learning. This unexpected focus sings the praises of an important piece of the STEM puzzle that often is overlooked and underrepresented. The Proceedings of the Interdisciplinary STEM Teaching and Learning Conference second volume is proud to highlight mathematics.

My second thank you goes out to Lisa Stueve and Kania Greer, our wonderful reviewers, and the conference planning team at Georgia Southern University for their help along the way. This volume speaks to our growth for both the conference and the Proceedings.

Cheers to round two of the Proceedings of the Interdisciplinary STEM Teaching and Learning Conference!

Best,
Lisa Millsaps
Table of Contents

Editor’s Note... 2

Contributed Papers

Augmented Reality Chemistry: Transforming 2-D Molecular Representations into Interactive 3-D Structures... 5
Derek Behmke (Georgia Gwinnett College), David Kerven (Georgia Gwinnett College), Robert Lutz (Georgia Gwinnett College), Julia Paredes (Georgia Gwinnett College), Richard Pennington (Georgia Gwinnett College), Evelyn Brannock (Georgia Gwinnett College), Michael Deiters (Georgia Gwinnett College), John Rose (Georgia Gwinnett College), Kevin Stevens (Georgia Gwinnett College)

Selecting, Sequencing, and Connecting: Using Technology to Support Area Measurement through Tasks, Strategies, and Discussion... 12
Eryn Michelle Stehr (Georgia Southern University), Jia He (Augusta University), Ha Nguyen (Georgia Southern University)

The Effects of Integrating LEGO Robotics Into a Mathematics Curriculum to Promote the Development of Proportional Reasoning... 24
Shelli L. Casler-Failing (Georgia Southern University)

Integrating LEGO Robotics Into a 5th Grade Cross Curricular Unit to Promote the Development of Narrative Writing Skills... 36
Shelli L. Casler-Failing (Georgia Southern University)

Incorporating the Dragging Feature of Dynamic Geometry Environments in Teaching and Learning College Geometry... 43
Tuyin An (Georgia Southern University), Ha Nguyen (Georgia Southern University)

Using Active Learning Strategies in Calculus to Improve Student Learning and Influence Mathematics Department Cultural Change... 52
Melissa A. Dagley (University of Central Florida), Michele Gill (University of Central Florida), Erin Saitta (University of Central Florida), Brian Moore (University of Central Florida), Jacquelyn Chini (University of Central Florida), Xin Li (University of Central Florida)

Deepening Place Value Understanding in K-2 Through Explanation and Justification... 66
Andria Disney (Georgia Southern University), Heidi Eisenreich (Georgia Southern University)
Using Google Forms to Inform Teaching Practices... 74
Ha Nguyen (*Georgia Southern University*), Eryn Michelle Stehr (*Georgia Southern University*), Heidi Eisenreich (*Georgia Southern University*), Tuyin An (*Georgia Southern University*)

Graph It Out! Create Graphing Manipulatives to Explore Evolutionary Selection: A Lesson for High School Biology Students... 80
Cassie Lawrimore (*Fayette County High School*), Emily A. Surber (*Clayton State University*)

Using Cartoons to Make Connections and Enrich Mathematics... 86
Janet St. Clair (*Alabama State University*)
