Part of the Higher Education Commons

Recommended Citation

This newsletter is brought to you for free and open access by the Faculty Research Project on the AERA-SIG on Critical Issues & Cultural Studies (Jupp & Schubert) at Digital Commons@Georgia Southern. It has been accepted for inclusion in SIG Newsletters (1970-1995) by an authorized administrator of Digital Commons@Georgia Southern. For more information, please contact digitalcommons@georgiasouthern.edu.
I understand from "my eyes" in Los Angeles that I missed a great and successful meeting of AERA and more specifically this Special Interest Group. It seems our cooperative efforts with Division B have again paid off in big dividends as they did in Boston over a year ago. I'm sure we can expect another successful program in New York in 1982. This is further ensured by the addition of Elizabeth Vallance to our membership. Dr. Vallance is the 1981 Division B program chair.

Please note the renewal form at the end of this newsletter. Dues are still only $3. Please submit your payment promptly to George Willis at The University of Rhode Island.

A bibliography entitled "A Sampling of SIG Related Studies, 1980-81" is attached to this newsletter as a bonus.

OFFICERS - 1981

1. Officers were elected at the business meeting in Los Angeles as follows:

   Secretary/Treasurer - George Willis, Department of Education, University of Rhode Island, 705 Chafee Building, Kingston, Rhode Island 02881.

   Newsletter Editor - Michael P. Roetter, Office of Institutional Research and Curriculum Planning, Owens Technical College, Caller Number 10,000, Toledo, Ohio 43605.

1982 AERA ANNUAL MEETING

For the 1982 AERA annual meeting in New York, Ann and William Schubert will serve as co-chairs for the SIG portion of the program. Papers, symposium, dialogue, poster, and innovative proposals are welcome. The Schuberts can be reached at the following address until August 24 after which they will return to Chicago.

c/o Dr. Antoinette A. Oberg

Not an official AERA Publication
NOTE: Program time at the annual meeting is based upon membership. It is, therefore, paramount that membership be renewed immediately. Last year, the SIG enjoyed five session slots some of which were used as half slots to co-sponsor sessions with Division B. Round Tables and poster sessions are additional. Please call or write Ann or Bill Schubert to suggest ideas. Proposals will be submitted for review.

COMMITTEE OF THE HANDICAPPED

SIG member Neal J. Gordon will be our representative to the AERA Committee on the Handicapped. Dr. Gordon, a psychologist interested in bridging studies of curriculum and developmental psychology, served on this committee last year. Suggestions on ways that AERA can provide for the handicapped should be sent to him. The address is:

College of Education
Box 4348
University of Illinois
Chicago Circle
Chicago, IL 60680

MEMBERSHIP:

As of March 30, 1981, the SIG had 100 paid-up members for 1980-81. Of these, 83 were members of AERA. Figures of 97 and 80 respectively were reported to the AERA central office on February 16; updated figures will be reported later. Since AERA has recently adopted rules allocating one 1 1/2 or 2 hour session (exclusive of "off hours," small round table, and poster sessions) at the 1982 Annual Meeting for each AERA member in a SIG, we should be assured of at least four such sessions in 1982.

An updated list of members will be included in newsletter No. 21 which should appear in October or November. For members, though, who wish to mail papers or materials to other members, sets of address labels can be obtained from George Willis at the University of Rhode Island.

SIG ON RESEARCH UTILIZATION

During the SIG business meeting in Los Angeles, Diane Cassman, Chairperson of the SIG on Research Utilization has expressed an interest in cooperative ventures with interested members of our SIG. Members wishing to explore this relationship further are encouraged to contact Dr. Cassman. She can be reached at the following address: Peik Hall, University of Minnesota, Minneapolis, MN 55455.

At the same meeting, Ron Brandt, editor of Educational Leadership, Bob Dominic of Ohio State University, and others expressed a desire to explore issues about relationship between curriculum and technologized forms of knowledge creation and utilization.

Conceptions of Curriculum History

An Elusive Quarry: On the Trail of Curriculum History

Research into the Curriculum, 1918-1938: Highlights of the Work of the First Generation

Richmond and Berkeley: Paradigms for Curriculum Innovation at the Turn of the Century

CURRICULUM THEORY CONFERENCE

The annual curriculum theory conference, sponsored by the Journal of Curriculum Theorizing, will be held at Airlie, Virginia (near Washington, D.C.), September 30 through October 3, 1981. Information may be obtained by writing to: Dr. William F. Pinar, Graduate School of Education and Human Development, Center for the Study of Curriculum and Teaching, University of Rochester, Rochester, NY 14627.

MONOGRAPH TO SIG RELATED WRITINGS

Edmund Short led discussion in Los Angeles of the idea of a monograph to SIG related writings. He suggested that it could be done at Pennsylvania State University in the same attractive manner as the Proceedings of the Society for the Study of Curriculum History. Some of the participants in SIG related sessions have been contacted about submitting their papers for this project. Members who wish to submit manuscripts should send them to: Dr. Edmund C. Short, Pennsylvania State University, College of Education, Division of Curriculum and Instruction, 141 Chambers Building, University Park, PA 16802. Manuscripts submitted will undergo a peer review process. If there is sufficient interest, such a monograph may be offered on a regular basis. It may even generate the whole withal for wider distribution. It could also become an excellent means of communication among curriculum scholars, and could be used in advanced curriculum courses.

ASCD CURRICULUM COMMITTEE

It may be of interest that the Association for Supervision and Curriculum Development (ASCD) has established a Curriculum Committee, composed of more than 100 members to study the relationship between curriculum theory and practice. The committee is composed of representatives from universities, schools, and governmental and private agencies. The representatives, selected from a large pool of applicants, met at the 1981 ASCD meeting in St. Louis. They heard perspectives from Ralph Tyler, William Pinar and Madeleine Grumet, and Decker Walker after which plans were developed. The committee will meet at ASCD conferences in 1982 and 1983.
CURRICULUM THEORY CONFERENCE

The annual curriculum theory conference, sponsored by the Journal of Curriculum Theorizing, will be held at Airlie, Virginia (near Washington, D.C.), September 30 through October 3, 1981. Information may be obtained by writing to: Dr. William F. Pinar, Graduate School of Education and Human Development, Center for the Study of Curriculum and Teaching, University of Rochester, Rochester, NY 14627.

They heard perspectives from Ralph Tyler, William Pinar and Madeleine Grumet and Decker Walker after which plans were developed. The committee will meet at ASCD conferences in 1982 and 1983.
SOCIETY FOR THE STUDY OF CURRICULUM HISTORY

The Society for the Study of Curriculum History, to which some SIG members belong, was founded in 1977, under the leadership of Laurel Tanner. The Proceedings of the 1978 and 1979 meetings are now available for $4.00 (Society members) and $4.50 (non-members) from:

Dr. Murray Nelson
President, Society for the Study of Curriculum History
Pennsylvania State University
College of Education
Division of Curriculum and Instruction
Chambers Building
University Park, PA 16802

The Table of Contents follows below for information purposes.

Questions about the Society may be addressed to Dr. Nelson, or to William Schubert, Secretary-Treasurer.

This year's meeting of the Society was devoted largely to the work of Ralph W. Tyler. Information on publication of the Proceedings is forthcoming. Dr. Kate Strickland of the University of Texas at San Antonio, 1980-81 president of the Society, did a fine job of organizing the meeting.

NOTE FROM DIVISION B PROGRAM CHAIR

Bill Schubert was pleased to receive a thank you letter from Elizabeth Vallance, Program Chair for Division B. Dr. Vallance's sentiments are best expressed in her own words. The following is an excerpt from her letter to Bill.

...If it seems appropriate to you, I'd like to extend some kind of formal thanks to the SIG (and specifically to you) on behalf of Division B, since your considerable help with session-sharing was absolutely critical to Division B's program. I tried to indirectly thank the SIGs through the acknowledgment footnotes in my "program summary" which went to all readers and presenters in Division B, but the CSU SIG was most critical--our four shared sessions gave me two extra spaces, and that mattered a lot. If you feel it fits your publication standards or whatever, please feel free to add something like the following to the next SIG newsletter: "The Program Chair for AERA's Division B, Elizabeth Vallance, extends a special thanks to the SIG on Creation and Utilization of Curriculum Knowledge--especially to Bill Schubert, who made all those decisions--for its substantial help in sharing program time. The four sessions co-sponsored by the two groups were well chosen, and they provided an additional two program listings which the Division would have lost otherwise. Bill was heroic in coming to the rescue, and all of us benefited by the sessions he chose to co-sponsor." But you were great...

A LANDMARK BOOK

Seldom does a book appear that parallels the interest of members of this SIG, but here is one that clearly does. It is Knowledge Application: The Knowledge System in Society by Burkart Holzer and John H. Marx of the University of Pittsburgh (Allyn & Bacon, 1979). Among the topics covered by the authors are Knowledge Production; Organization, Distribution, and Storage of Knowledge; and Knowledge Application. They are treated generically with references and illustrations to these processes in various disciplines and professional fields such as mental health, medicine, education, etc. The book stresses the social structure of the knowledge system in the United States as they cut across these three domains and interface with one another. The detail and complexity of the descriptions provided are by far the most telling available on this subject to date. The work is embedding in a broad context of ideas about the sociology of knowledge structures and about the larger issues of sociocultural change. Everyone seriously interested in understanding the social structures of the knowledge system will find this book required reading. Implications for our own specialty of curriculum are sure to thrust themselves upon the careful reader of this book. (Edmund Short)

SOCIETY FOR THE STUDY OF CURRICULUM HISTORY

Call for Proposals for the Annual Meeting

The Society for the Study of Curriculum History will hold its annual meeting March 19 in New York City immediately prior to the American Education Research Association meeting.

Because of its rich history in curriculum and because of the New York City meeting site, papers focusing on the role of Teachers College and curriculum will be given a degree of preference, however, paper proposals on all aspects of curriculum history are encouraged.

All proposals must be submitted with a 300-500 word abstract and a self-addressed stamped envelope. Proposal deadline is November 15, 1981. Proposals should be sent to:

Professor Murry R. Nelson
The Pennsylvania State University
154 Chambers Building
University Park, PA 16802

Dues for the 1981-82 year remain the same: $3.00. SIG funds are used for the following:

- several issues of the SIG Newsletter
- payment of membership dues to AERA and securl of Annual Meeting
- program sessions
- mailing of occasional papers to all members

Membership for 1981-82 will be valid upon payment of $3.00 to SIG Secretary-Treasurer:

George Willis
Department of Education
705 Chafee Building
University of Rhode Island
Kingston, RI 02881

Enclosed is $3.00
