Marshall Ransom receives the 2013 John Neff Award

November 1, 2013

At the Georgia Mathematics Conference last week, Marshall Ransom received the 2013 John Neff Award from the Georgia Association of AP teachers. This recognizes Marshall's long-time, invaluable, contributions to the AP Calculus program in Georgia and the nation. In fact, the award was presented between Marshall's two talks to the group — he is not slowing down.

(This award honors and remembers John Neff of Georgia Tech, who was very interested, and involved, in K-12 mathematics education in Georgia and in the AP program.)

A related note. One of Marshall's collaborators has been Dr. Chuck Garner of the Rockdale Magnet School in Conyers, Georgia. Chuck has built a very strong AP program and a very successful Math Team. Chuck was recently elected to the MAA Board of Governors, representing high school teachers across the country.
