New IT Program Options for Undergraduates

January 22, 2018

On December 12, the University System of Georgia Board of Regents approved resolutions making the consolidation of Armstrong State University and Georgia Southern University official as of January 1, 2018. As an academic unit of the consolidated Georgia Southern University, our college name has changed. We are the new Allen E. Paulson College of Engineering and Computing!

The [Bachelor of Science in Information Technology](#) can be completed at either the Armstrong Campus in Savannah or at the Statesboro Campus. A general IT track and a Cyber Security track are offered at the Armstrong Campus; and the Data Science concentration and the IT Management track are offered at the Statesboro Campus, with a variety of program options leading toward career paths such as information management, networking and datacenter administration, and web and mobile development.

Read more about the undergraduate degree [program options](#) available in Information Technology.
