(Wooden) Box 2: 0200105010504

<u>Slides</u>	<u>Box Number</u>	<u>Slide Number</u>
Shows a field suffering from a lack of nitrogen.	2	1
Shows a close-up of plants in the field suffering from a lack of potash	2	2
A close-up of a potash starved plant	2	3
Shows the effect of potash on the resistance of the plants to wind damage	2	4
Shows two plats suffering from nitrogen shortage.	2	5
A plant is starved for nitrogen and shows the early symptoms yellowing of the lower leaves	2	6
Shows progressive stages in the development of the nitrogen starvation symptom	2	7
Shows two plants severely affected by potash starvation	2	8
Contrasts a nitrogen starved plant with a potash starved plant.	2	9
Shows Mr. Fraser at work with the tests.	2	10
Shows stalks split open and the test for nitrates showing on the stalks.	2	11
Compares a leaf and stalk from a plant well supplied with nitrogen with a leaf and stalk from one suffering from nitrogen shortage.	2	12
Shows Mr. Fraser pointing out the characteristic marginal firing of a leaf from a plant suffering from a lack of potash	2	13
The test for iron in the joint tissues has been made	2	14
Contrasts the relative iron accumulations in the stalk of a healthy	2	15

plant with those in a potash starved plant		
Shows the progress of development of the marginal firing symptoms in the leaves of potash starved plants	2	16
Shows the stalk tests applied to a normal versus potash starved plant	2	17
Contrast potash starvation symptoms with those of nitrogen starvation.	2	18
This slide makes possible a final discussion of the differences in symptoms between plants starved for nitrogen and potash	2	19
Shows Mr. Fraser making a soil test of the soil surrounding the base of the stalks to which he has just applied the stalk test.	2	20
