Georgia Southern Named One of the Most Affordable for Online Nursing Education

November 1, 2018

OnlineU.org has ranked Georgia Southern University's School of Nursing as one of the most affordable online colleges for nursing for a Master of Science in Nursing and a RN-BSN degree. The School of Nursing made the ranking at ninth for [Bachelor's Degrees in Nursing](#) and first for [Master's Degrees in Nursing](#).

"These rankings represent online schools across the nation that are making an effort to provide economical options for students," stated Kelsey D'Ewart, a representative from SR Education Group.

To be considered for the rankings, schools had to be regionally accredited and offer at least one fully online degree. Tuition for every college offering fully online degrees was manually researched to determine and rank the most affordable choices.

"We are thrilled to have two online nursing programs at Georgia Southern University ranked on the most affordable online nursing programs for nursing degrees in the U.S.," stated School of Nursing Chair, Catherine Gilbert, Ed.D., RN. "Online delivery of nursing education has become an essential option for many students and these rankings are a true reflection of our commitment to quality, accessible and affordable nursing education."

The School of Nursing is housed in the Waters College of Health Professions and is fully accredited by the Georgia Board of Nursing and the Commission on Collegiate Nursing Education.
