Ryan Fortenberry's publication featured by the American Institute of Physics

August 4, 2014

Dr. Ryan Fortenberry, Assistant Professor of Physical Chemistry in the Department of Chemistry at Georgia Southern University, had a recent publication of his featured by the American Institute of Physics, which garnered a press release and has been picked up by various online news sources.

Much of this work was completed while Dr. Fortenberry was in graduate school at Virginia Tech. However, this past spring, while teaching at Georgia Southern, he continued the work and additionally, he and his collaborator at Arizona State wrote much of the paper.

To learn more about Dr. Fortenberry's research and publication, visit the links provided below.
