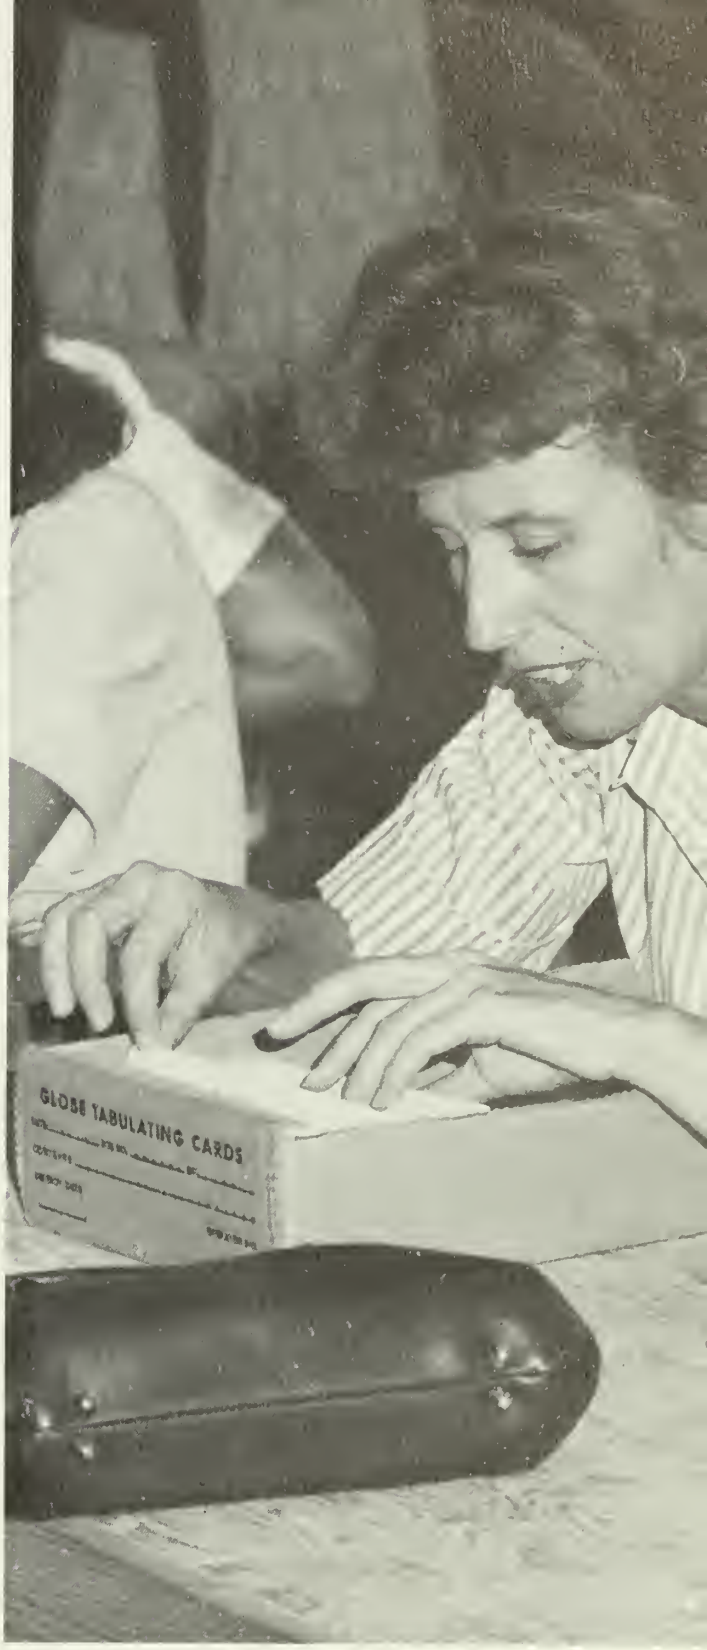
At Georgia Southern a myriad of opportunities present themselves to the student. There is chemistry, industry, language, mathematics, reflections, studying or even a little socializing with the opposite sex. All seriousness aside, a student should have no valid excuse for saying, "I just can't find anything to do!" Baloney! This book intends to prove, inconclusively, that, with a little ingenuity and very little effort, one can always find something constructive or fun to do. One need only look through these opening pages and judge for himself.

Some people try to lose themselves in their music (which may last for hours on end or maybe only a few minutes, depending on the mood or intentions of the musician), others spend some class time and a lot of spare time working on personal or class projects for an education course. If one is only interested in killing time then this is their "cup of tea", and if satisfaction of accomplishing something is the aim, then this also is their "cup of tea."

Whether it be eating or entertaining, or even both, that one is looking for, Georgia Southern has places for both. The Edge (pictured at left), a privately owned establishment, provides jazz music with an atmosphere; the dining hall, a school operated establishment, provides food with an atmosphere (?). Statesboro is endowed with the usual endowments for eating and entertainment; restaurants, theaters, the line, etc.

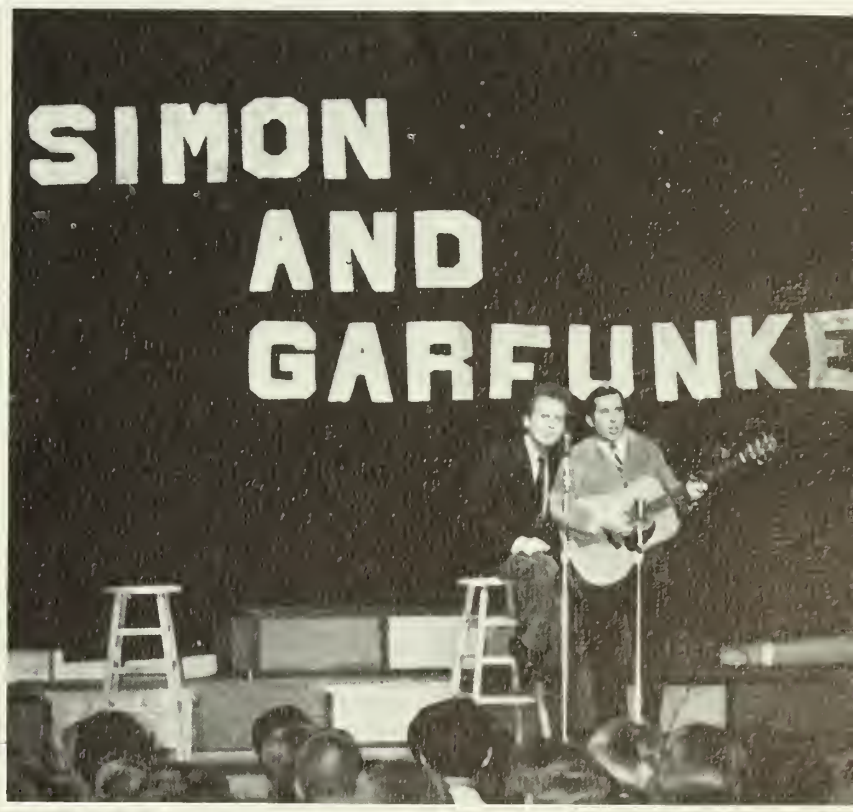
For those who cannot find a diversion in any of the other places mentioned there is always the mental stress and strain of registration (which has to be done three times a year) to take one's mind off his trials and tribulations. The teacher does not take his mind off his trials and tribulations at registration; registration is his headache as well. But then, without registration, there would not be the other joys incumbent in each quarter. Would there?



GLOBE TABULATING CARDS

As to entertainment which has a popular ring there are fraternities, sororities, the Campus Life Enrichment Committee and the Student Congress who provide the college with entertainers such as B. J. Thomas, Simon and Garfunkel, and many other popular entertainers.

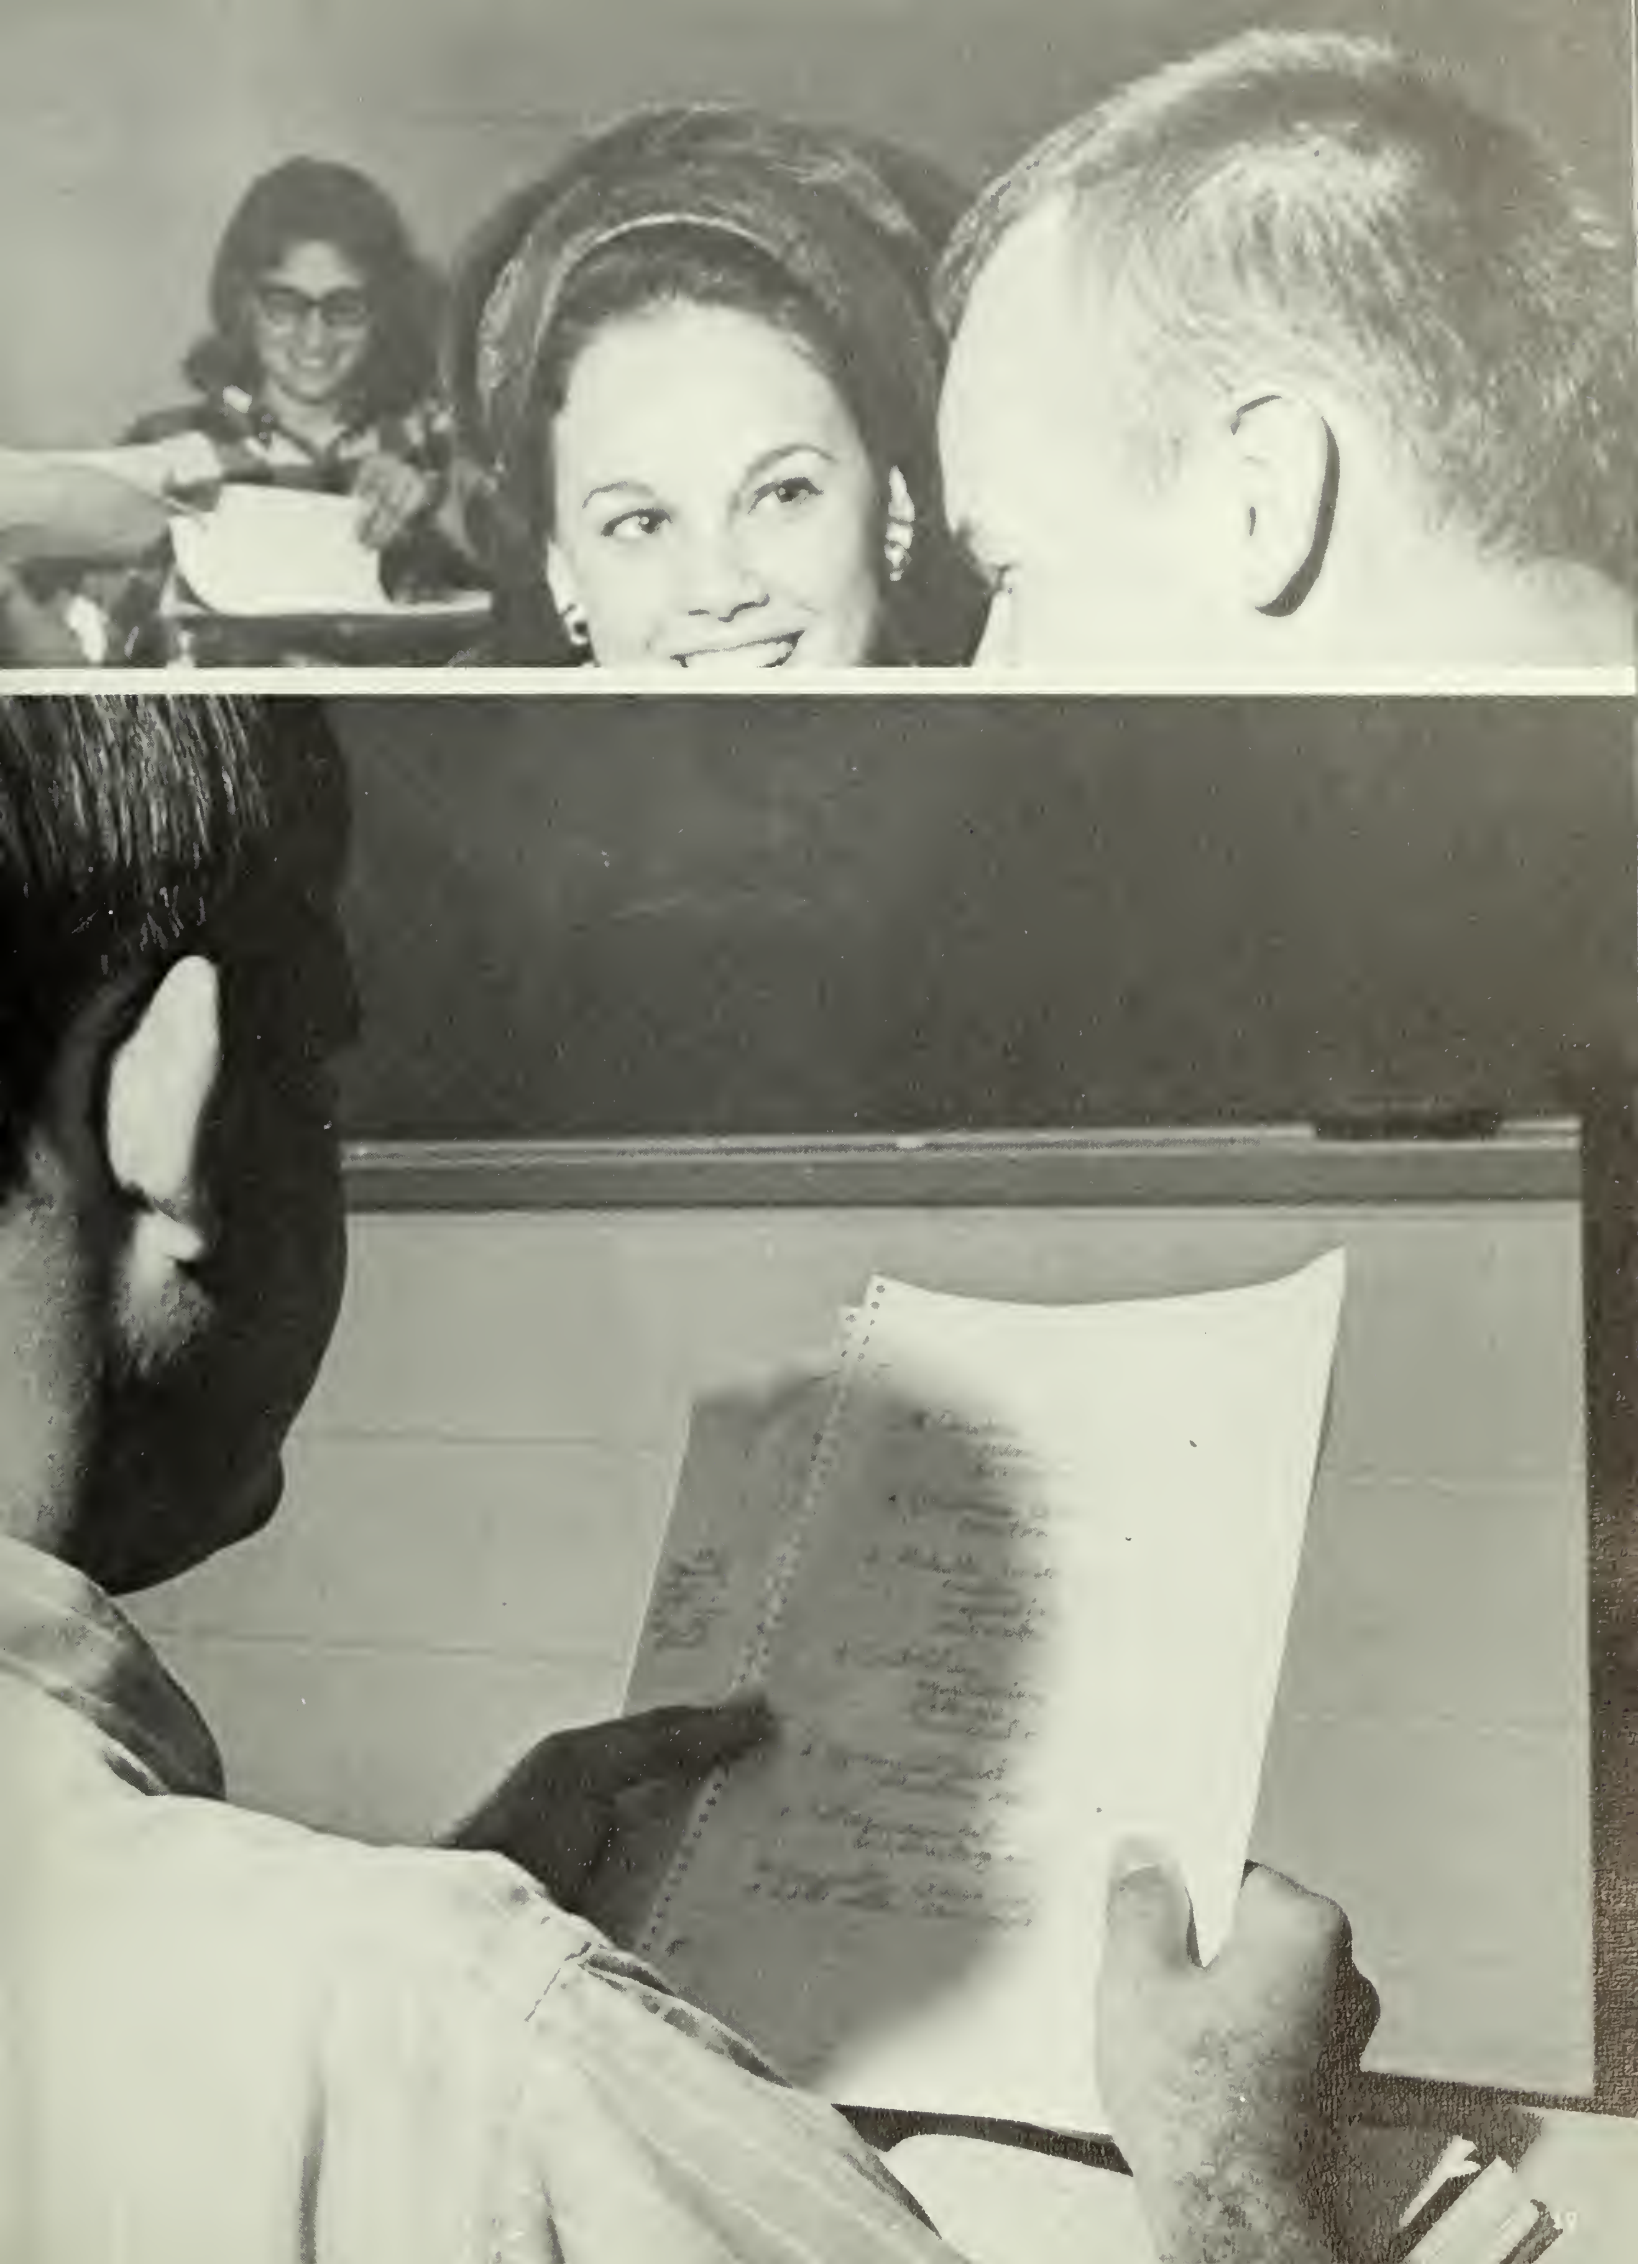
The Campus Life Enrichment Committee, however, is mainly concerned with entertainment which is more on the cultural side. They have provided the college with The American Folk Ballet, The Zurich Chamber Orchestra, Espinosa (flamenco guitarist), and the Production Managers Company with their production of the play "Luv".



SIMON
AND
GARFUNKE

Of course there will always be those people at a college who spend all of their time studying. However, this is not to say that one can get by at Georgia Southern without studying. Well, maybe if one has an I.Q. rating of 180 he might be able to squeeze by. Even so, no matter how studious a person may be, there is always some spare time to be taken care of.

Some people spend a lot of their daytime spare time talking to girls (or boys) or running out to the post office to see if that much wanted letter is there, or standing around reading their mail, or standing around wishing that they had a letter to read. Oh! The trials one faces when he does not write letters which require an answer.

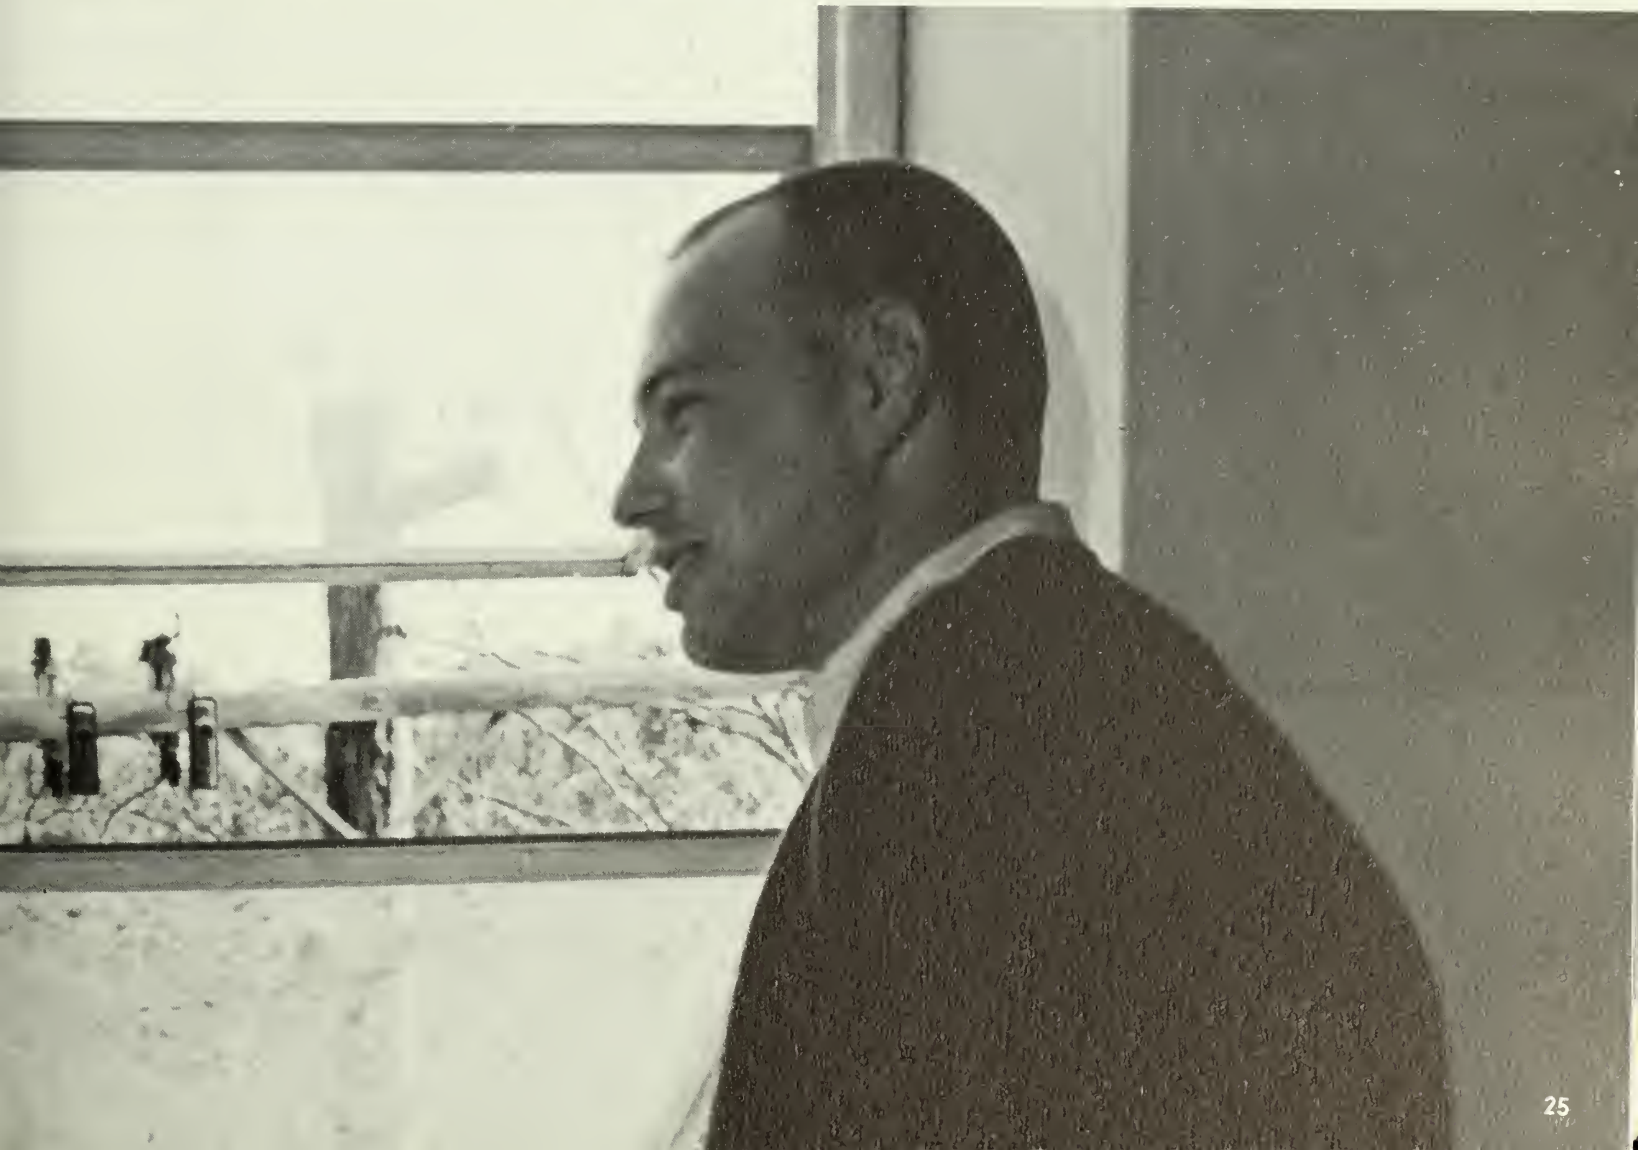


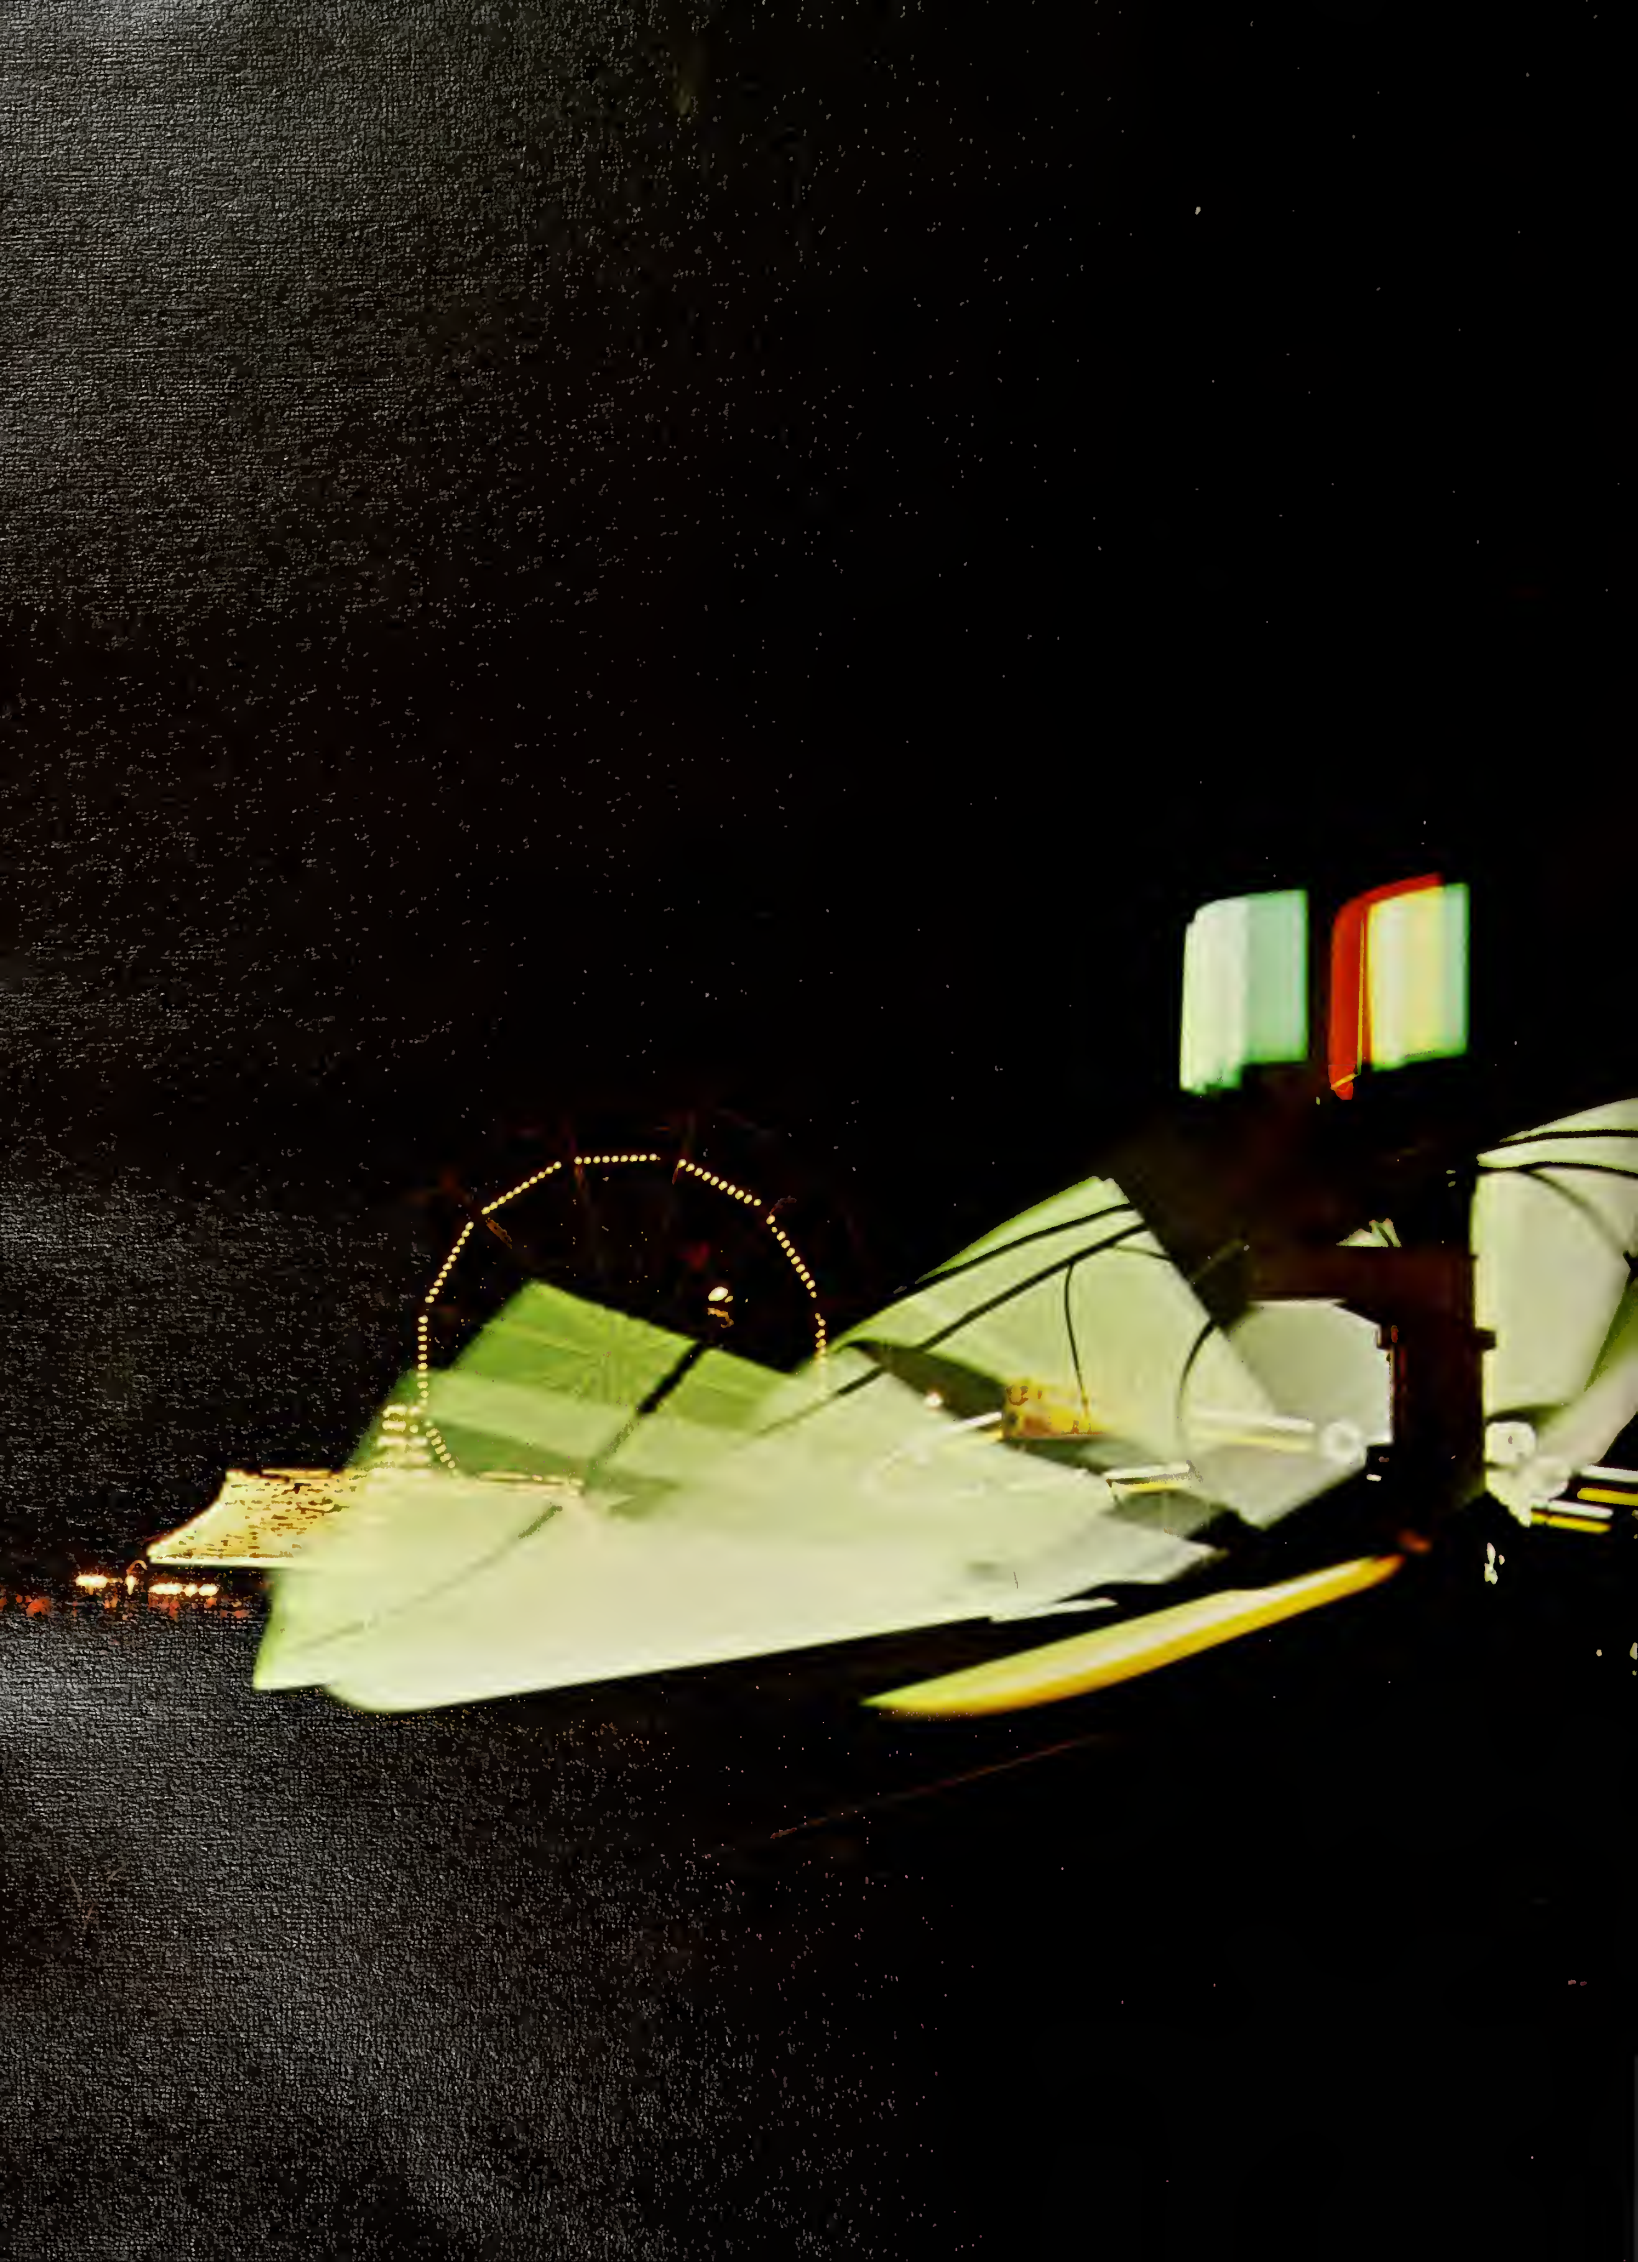
The Masquers have presented the play "The Madwoman of Chaillot" (above), Pantagleize, and three one-act plays "The Jewish Wife", "The Eavesdropper", and "Step Right Up". The Masquers is the dramatics club of Georgia Southern.

The Music Department of Georgia Southern also puts on musical plays each year. They have presented "West Side Story" and "South Pacific" (right) this year.

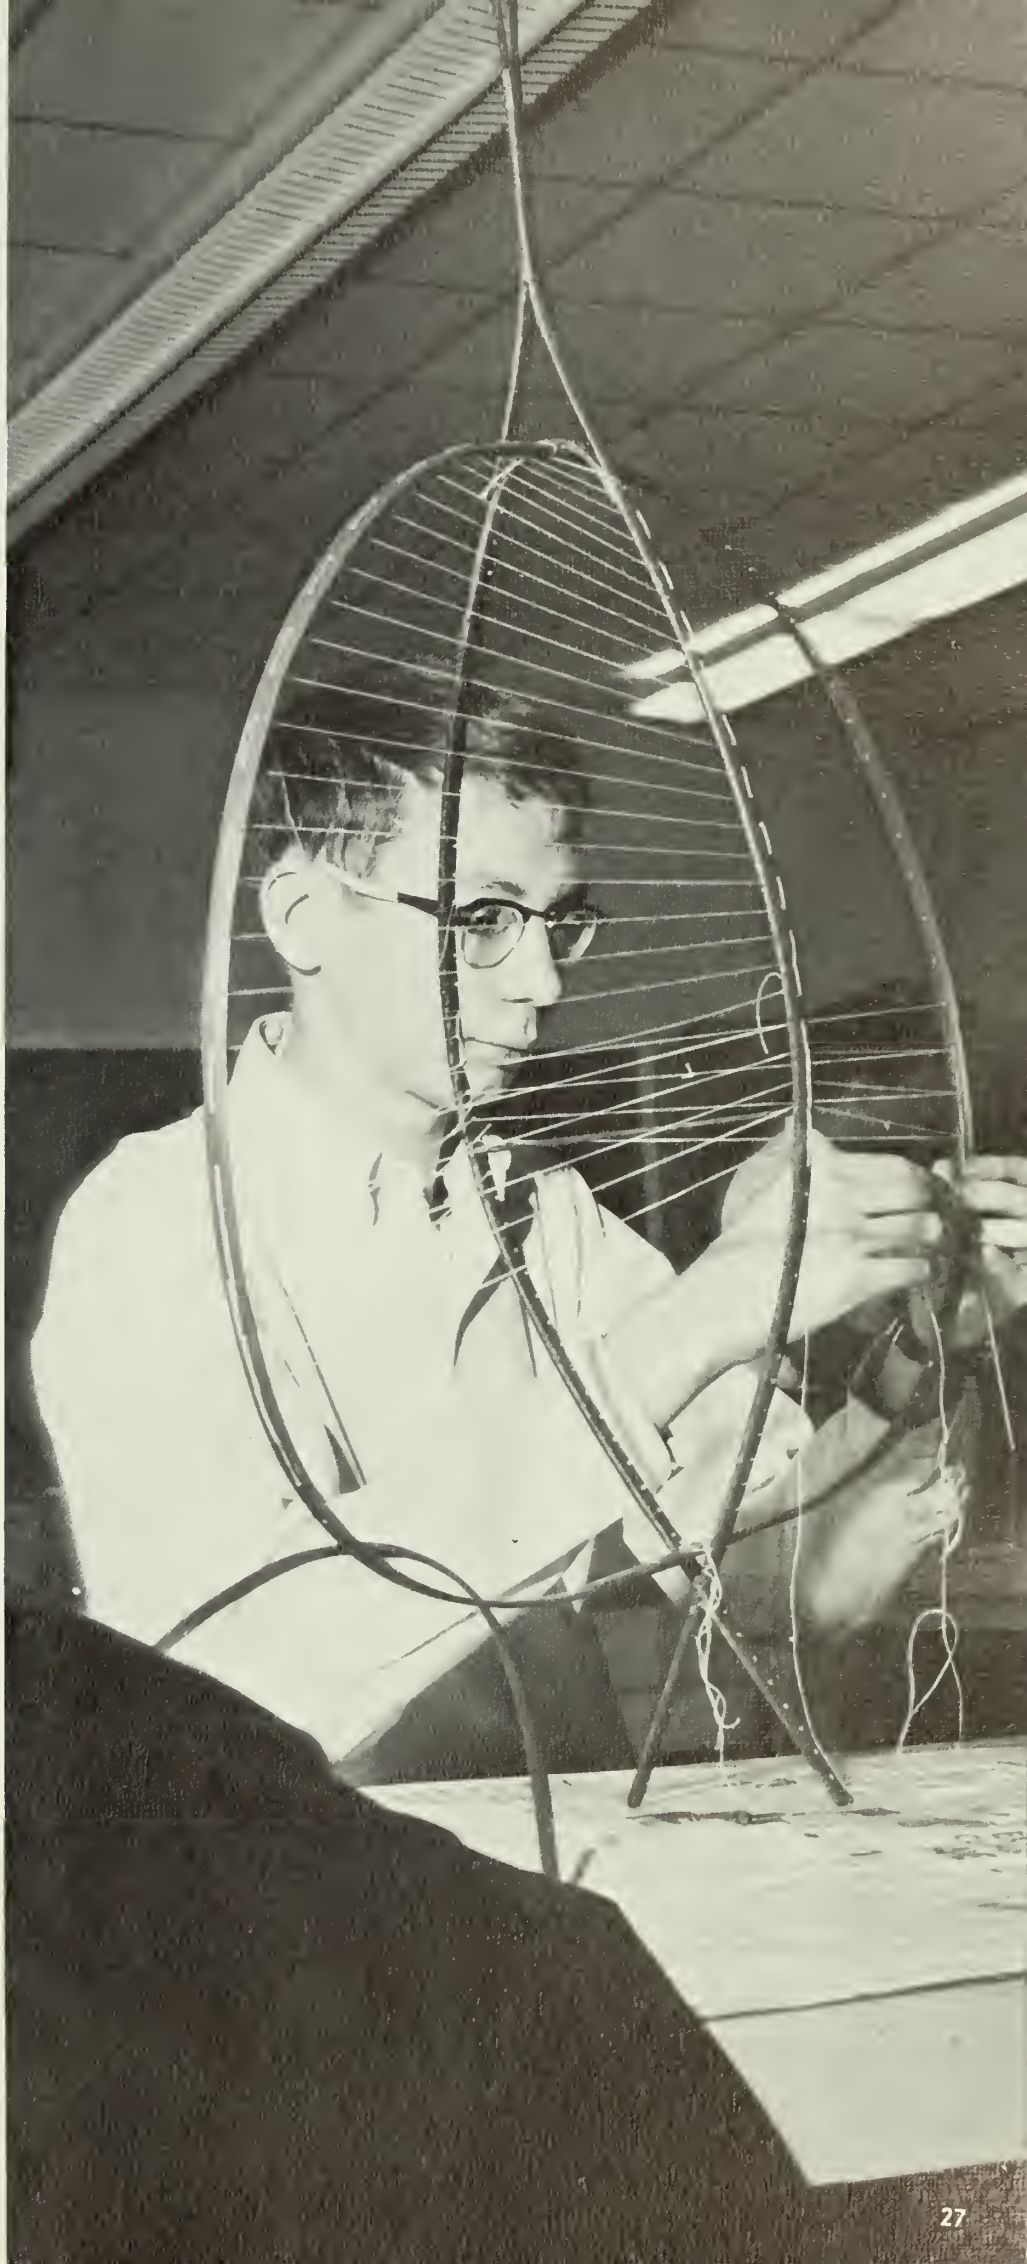
There is a group of people at Georgia Southern who spend their weekdays going to class, Physical Education (if they haven't finished their requirements), or sitting around thinking about home. The weekends are an entirely different story. Masses of people stream from the dormitories on Friday in a frantic effort to get home as soon as possible. Why? Only they know.

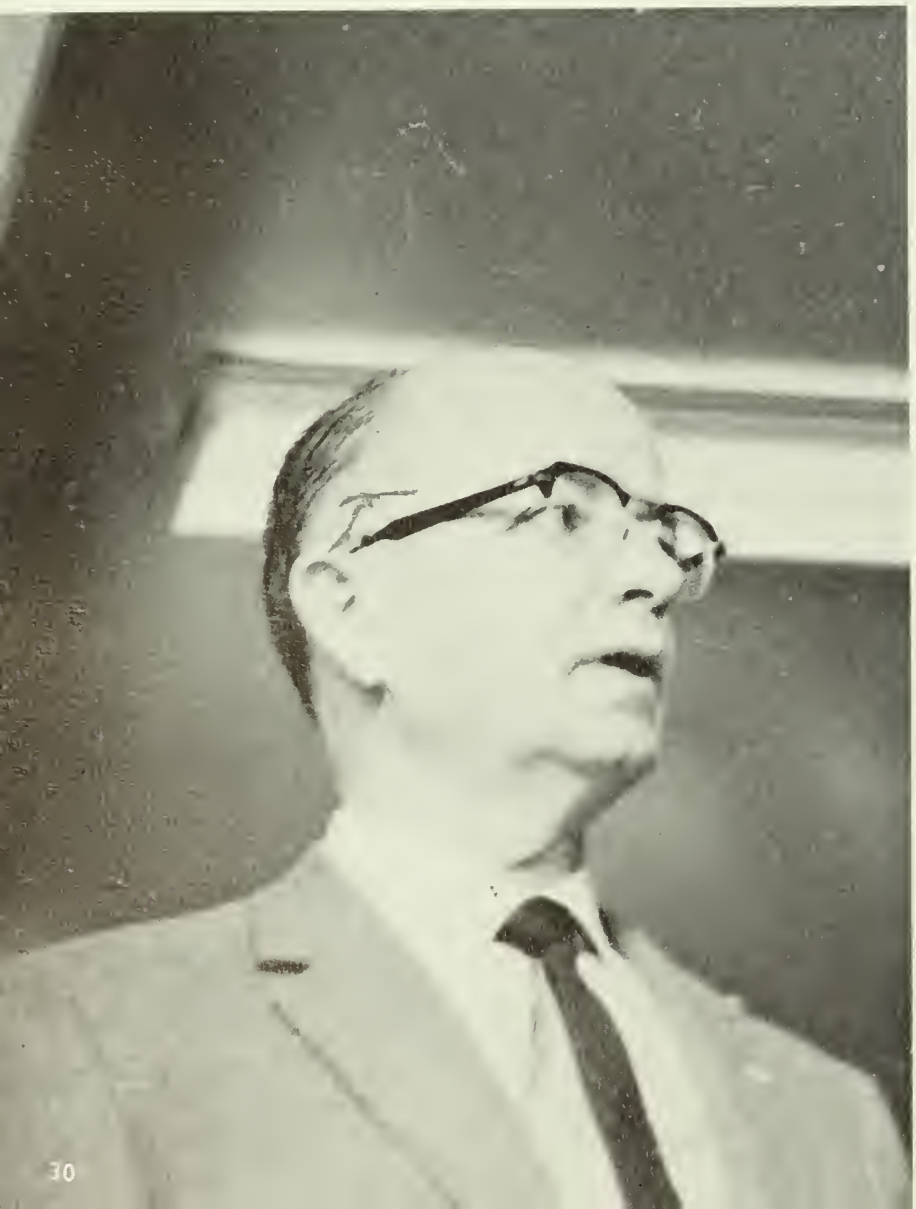
GEORGIA
OUTHERN





Now we come to those who remain here on he weekends. Once a year there comes the fabulous (?) Ogeeche Fair to entertain those brave enough to venture forth, but for those other unfortunate souls who do not have a date for the dance or big event of the weekend (or no money) there is always bridge, art, talking, or maybe even insanity?





... How about a visit from Governor Maddox to brighten your day? ...

SAFETY
FOR GIRLS & LONGHAIRED
BOYS

Georgia Southern has been growing rapidly in the past few years, both in enrollment and in physical size. The most immediate examples of expansion are the Blanch Landrum Center (not pictured) and the Foy Fine Arts Center(below and left).

The Senior Class of
Georgia Southern College
Hereby Presents:

The 1967 Reflector

Leland Rogers — Editor

Dedication

To a man always ready to answer a question, whether it be about fishing or history, with a serious answer or a witty one, or even both. To a man who claims that, "the only stupid question is one which I can't answer." To a man that wants you to learn.

We, the Senior Class, hereby dedicate this 1967 Reflector to a professor of outstanding ability and wit who has one of the quickest smiles on campus; Dr. John Perry Cochran.

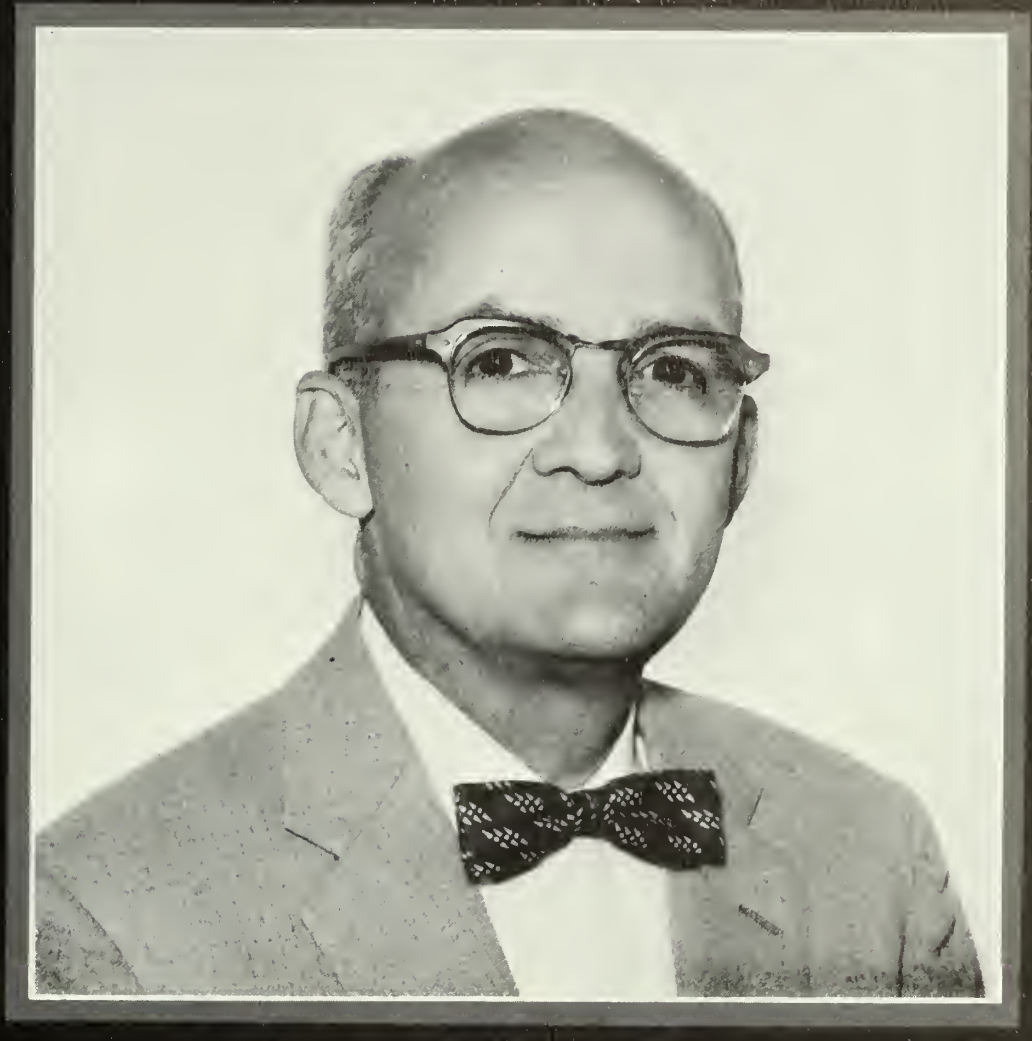
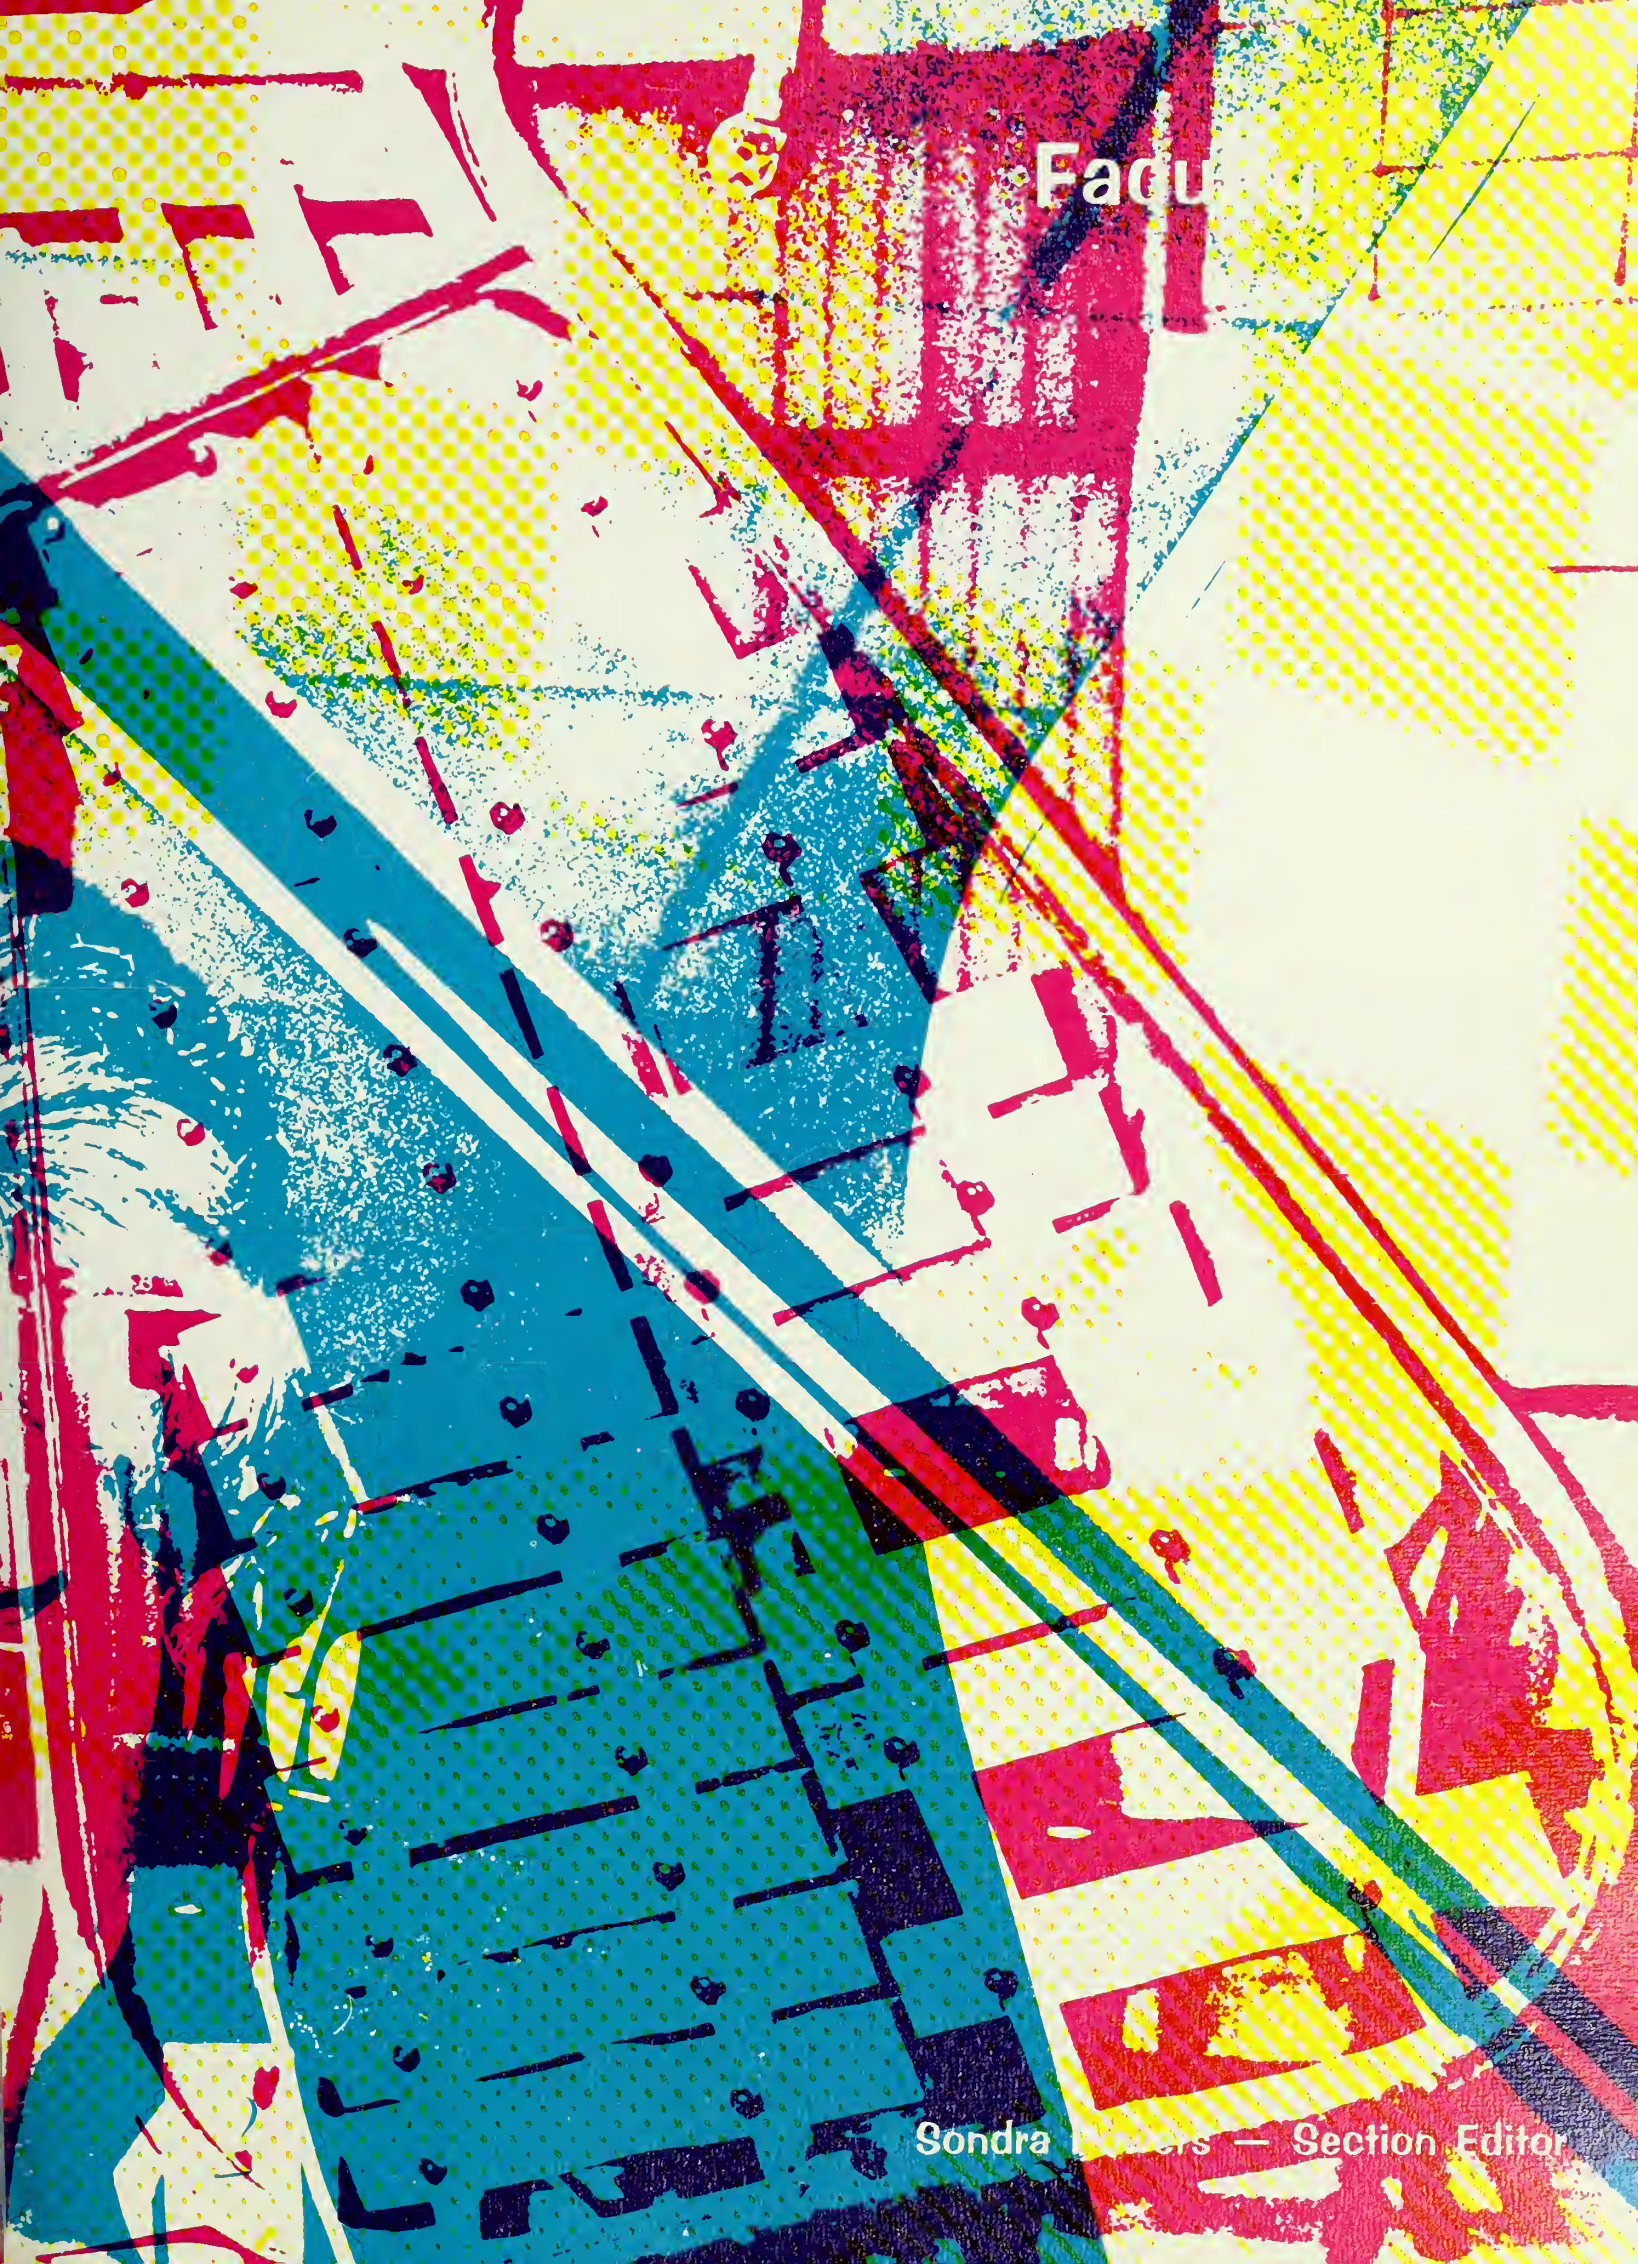
In Memoriam



MR. FRED WALLACE

To him who in the love of Nature holds
Communion with her visible forms, she speaks
A various language: for his gayer hours
She has a voice of gladness, and a smile
And eloquence of beauty, and she glides
Into his darker musings with a mild
And healing sympathy that steals away
Their sharpness ere he is aware. When thoughts
Of the last bitter hour come like a blight
Over thy spirit, and sad images
Of the stern agony, and shroud, and pall,
And breathless darkness, and the narrow house,
Make thee to shudder and grow sick at heart,
Go forth under the open sky and list
To Nature's teachings, while from all around—
Earth and her waters and the depths of air—
Comes a still voice:

"Thanatopsis"
William Cullen Bryant



Fac
Sondra — Section Editor

Zach S. Henderson

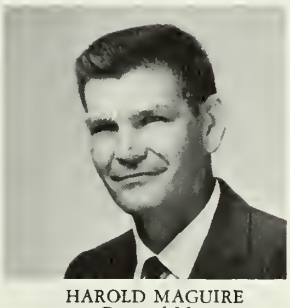
President

Dr. Henderson, who first came to Georgia Southern in 1927, has watched this campus grow from a small two-year college, called Georgia Normal School, with an enrollment of 303, to the fifth largest 4-year college in the state, now called Georgia Southern College, with an enrollment of over 4,000.

He believes in the value of education and loves to work closely with young people. He considers it thrilling to watch a person grow from a college freshman to a master teacher, skillful surgeon, devoted parent, or a courageous citizen.

"Georgia Southern College has been my challenge for most of my adult life. Out of the 45 years of my teaching experience, 40 have been spent at this college."

PAUL F. CARROLL
Academic Dean



HAROLD MAGUIRE
Dean of Men

VIRGINIA BOGER
Dean of Women

LLOYD JOINER
Registrar

Administration

The administrative personnel work closely with the students to bring order out of chaos.

Visual Arts Department

The Arts Department offers a major in Art Education in the B.S. in Education Degree program which prepares one to teach and supervise art programs in the public schools. A major in art in the B.A. Degree program is also offered.

Courses in the Visual Arts include the areas of appreciation and history, visual arts education, design, ceramics, sculpture, drawing, painting, and print making. There are opportunities for independent research.

Industrial Arts Department

Industrial Arts is a study of our technology; its tools, materials, processes, products, and opportunities; its origins and development; and its social and cultural nature. It involves the student in creating, experimenting, investing, designing, constructing and operating with individual materials, processes, and products. Graduates are prepared to teach this subject in secondary school and college. A B.S. Degree in Education and a B.S. Degree with a major in Indusry are offered as well as a Master of Science for Teachers.

Division of Social Science

The Division of Social Science includes the Department of History and the academic fields of Economics, Geography, Philosophy, political Science, Psychology, Sociology, and Anthropology. Majors in three degree programs are offered in the social Sciences. Students pursuing a program in the Bachelor of Arts Degree may major in Economics, History, Political Science, Psychology, or Sociology. Students who select a teaching field major in the social sciences work toward the Bachelor of Science in Education.

Division of Education

The preparation of personnel to work in the field of educatin is the single and central purpose of the Division of Education. While this purpose is shared by other divisions of the college, the faculty of the Division devote their total energies to providing prospective teachers with the study, guidance and experiences needed for their tasks.

A laboratory school and selected student teaching centers provide prospective teachers with opportunities for observing and analyzing the skills needed by the successful teacher. This is the only college of the state with laboratory schools from nursery school through the twelfth grade on campus.

DR. RONALD J. NEIL, *Chairman*, AB, BM, MM, MA, PhD

DR. JOHN P. GRAHAM, MB, MM, PhD

DR. JACK W. BROUCEK, BSM, MM, PhD

WARREN C. FIELDS, BME, MM

The Division of Music offers three undergraduate degrees: the AB with a major or minor in applied music or church music; the B. Mus. with a major in piano, organ and church music, voice, orchestral instrument or theory and composition; and the B.S. in Education with a major in music education. A Master of Education and a Master of Science for Teachers are also offered as well as private lessons.

Division of Science and Mathematics

The Division of Science and Mathematics offers programs in chemistry, biology, physics, and mathematics as well as the pre-professional programs in medicine, forestry, dentistry, pharmacy, and medical technology.

The objectives of the Division of Science and Mathematics are:

1. To train students in useful methods of reasoning and to encourage original and productive thinking and activities.
2. To prepare teachers of mathematics, biology, chemistry, and physical science to be useful instructors in elementary and secondary schools.
3. To give pre-professional students a background for advanced studies in specialized areas.
4. To provide students with important theories and principles of the sciences and mathematics that are applicable to everyday life.

Division of Languages

The Division of Languages includes the disciplines of English, the foreign languages, and speech. Undergraduate majors leading to both the Bachelor of Arts Degree and the Bachelor of Science Degree in Education are offered in English, French, German (the A.B. Degree only), and Speech. On the graduate level are offered the Master of Arts in English, the Master of Education with a major in English

he Master of Science for Teachers, and the Six-Year Program with a concentration
n English. The Division offers each year a number of graduate assistantships to those
who meet the required scholastic standards, who have had one or more years experience
n teaching, and who plan to take the Master of Arts in English.

Division of Business

Georgia Southern College's Division of Business is a complete educational training center where young men and women may prepare to fill key roles in the business world. Here students learn sound business practices and develop inquiring, alert, and analytical minds. The Division's program, covering virtually all types of skilled positions in business, is devoted to satisfying the requirements of business, industry, and the Youth of Georgia. Students are able to major in Accounting, Business Education, Finance, General Business, Management, Marketing, and Secretarial Administration.

MISS REFLECTOR 1967

Cheryl Culpepper, Miss Reflector, 1967. Young and radiant, she represents the ideal of beauty which these pages reflect. A slender blonde, Cheryl has a lithe and graceful charm and an open smile which gives her an arresting appeal. The mischievous sparkle in her blue eyes and the tilt of her chin suggest a lifting, defiant spirit, a spirit of ebullient enjoyment of life.

This is not the first time that her vibrant beauty has been recognized. Cheryl was elected homecoming queen at Lanier Senior High School in Macon in 1965, and was named Sweetheart of Sigma Epsilon Chi here at Georgia Southern last year. Miss Reflector was selected from numerous entries of various campus organizations by Paul Simon and Art Garfunkle, popular singing duo who appeared on campus last spring.

Miss Cheryl Culpepper

Cynthia Hilliard

Julie Rozier

Cynthia Hilliard, a Savannah girl and Sweetheart of Dorman Hall, who sponsored her, was chosen by the judges as First Runner-up in the Miss Reflector contest. In the serenity of a lakeside setting, stark tree trunks receding in the distance, Cynthia pauses . . . an air of quiet contemplation, a querulous expression, a mystical smile . . . this is the moody and misty beauty reflected in her face.

Selected as Second Runner-up in the contest was Julie Rozier, sponsored by Alpha Phi Omega. She is the APO Sweetheart for 1966-67. Dark, languid eyes, soft brown hair, and a warm smile give Julie a special charm.

Miss Starlight Ball

With long chestnut hair blowing gently in the breeze, Mary Johnston, Miss Starlight Ball 1967, surveys the campus from her lakeside vantage point. Mary is a slender, brown-eyed lass with long, flowing dark hair and a graceful figure which combine to give her the beauty that won her the starlit crown at the annual Starlight Ball. Mary is a junior and is sweetheart of Delta Pi Alpha fraternity.

Ugly Man On Campus
Sonny Deavours

Best Dressed Coed

Lynn Willey

Miss Georgia Southern College

A panel of bewildered judges selected pretty Miss Jean Strickland as Miss Georgia Southern College in the annual contest among the prettiest girls on campus. Jean is a petite brunette with lively dark brown eyes and a smile that could win any beauty contest. Jean, the sweetheart of Kappa Delta Chi fraternity, and a junior from Waycross, is pictured here perched precariously in a tree.

Jean is attended by a court of two other lovelies—first runner-up, blue-eyed, blonde-haired Miss Beverly Carlson of Dawson, and second runner-up Miss Nancy Carter, a striking brunette from Alma.

Alpha Phi Omega is an international service fraternity for college men. The Nu Epsilon Chapter was established at Georgia Southern College on May 25, 1960. Since then the brothers have expanded their membership and participated in numerous service projects. There are four major fields or service as set up by the national Constitution: service to the chapter, the campus, the community, and the country. Alpha Phi Omega brothers ushered at ballgames, Honors Day, Graduation exercises, and served as caddies for the Annual Fourball Tournament at Forest Heights Country Club. The brothers returned at their own expense this past September to serve as orientation leaders for new freshmen. They assisted with the annual Freshman reception banquet and also set up and sponsored Freshman Talent Night.

While service is the fraternity's principal objective, some social events are also included to raise funds for future service projects. Since summer quarter of 1966, the brothers have sponsored dances featuring such groups at the James Gang and The Classics.

Alpha Phi Omega has won the Outstanding Organization Award six out of seven years.

ΔΠΑ

Sweetheart of Delta Pi Alpha
Miss Mary Johnston

Delta Pi Alpha

The Alpha Chapter of Delta Pi Alpha was founded at Georgia Southern College March 21, 1963, to form a fraternity that would encompass the outstanding points of the three major types of fraternal organizations, honorary, service, and social. Some of the outstanding projects which Delta Pi Alpha has carried out are their March of Dimes to Sweetheart Circle, the GSC display booth at the Ogeechee Fair, dances featuring The Sons of Bach and the Apolloes, and their academic trophy which is presented to the fraternity on campus which has the highest grade point average.

This year, Delta Pi Alpha will have its Founder's Day Banquet. Also, every pledge class presents its Outstanding Brother Award. The Fraternity Sweetheart is Miss Mary Johnston, currently Miss Starlight Ball.

Phi Mu Alpha is a national honorary professional music fraternity. The four purposes of the organization are to advance the cause of music in America, to foster the mutual welfare and common brotherhood of students of music, to develop the truest fraternal spirit among its brothers, and to encourage loyalty to the alma mater. In persuing these goals, Phi Mu has become a very active fraternity on campus and has added to the scope of GSC.

Iota Alpha Tau

Iota Alpha Tau is composed of students who are majoring in Industrial Arts, Industrial Management, or Industrial Technology, and who are interested in the industrial phases of our technological world.

Its purpose is to promote a closer affiliation between the industrial world and the students of industry, and to fulfill our purpose by sponsoring and participating in many of the on-campus activities.

Highlighting this year's activities, the brothers conducted a week end tour of the campus for students interested in the industrial phases of education, sponsored The Newbeats in show and dance, won the trophy for the highest percentages of blood given to the Red Cross, and fully participated in the Homecoming activities.

Kappa Delta Chi

Kappa Delta Chi is the newest service fraternity on the Georgia Southern campus. It was chartered on January 2, 1967, and that winter quarter, it played an integral part in the Homecoming activities by sponsoring the Annual Homecoming Parade. The fraternity's aims and objectives are to serve the college and the student body by achieving its cardinal principles, education, service, and co-operation.

Delta Sigma Pi

Delta Sigma Pi is a professional fraternity organized to foster the study of Business and Economics in Universities; to encourage scholarship, social activities, and the association of students for their mutual advancement by research and practice; to promote closer affiliation between the commercial world and students of commerce and to further a higher standard of commercial ethics and culture and the civic and commercial welfare of the community.

Gamma Sigma Upsilon

Gamma Sigma Upsilon is a general service sorority comprised of girls who show a strong potential in leadership and scholarship. The love, respect, and cooperation of the sisters make them one of the most active groups on campus. Gamma Sig's annual Junior-Senior Day and their clothes for Gracewood project highlight their Fall quarter activities.

The Greek letters GSU represent their functions of giving, sisterhood, and understanding to all with whom they come in contact.

Theta Pi Omega was officially accepted as a Georgia Southern College sorority in 1965. The sorority was founded for the purpose of continuing leadership, fellowship, stewardship, and scholarship among its sisters.

Highlighting the year's activities, the sorority took part in the Campus Life Enrichment Program, acted as publicity chairman for the gymnastic team, sponsored the Swimming Medallions in a dance, and acted as foster parents for an Indian child in Oklahoma.

Fame was brought to Theta Pi Omega when two of their sisters, Maudie Walker and Beverly Carlson, received the titles of Miss Georgia and Miss See Georgia First, 1966-67.

The desire of Theta Pi Omega sorority is that each sister be loyal, trustworthy, dependable, and congenial with all sisters.

The Science Club is a departmental organization open to all Science Majors and any other interested persons. Their aims are to increase their knowledge of science, to learn to perfect their skills in science, to give service to the college, community, and nation, to help carry out the program of Science Club in America, to understand the importance of science in our lives, and to give us a greater understanding of the place of Science in our education.

Each quarter the club presents three to four programs, giving an insight into the various sciences. These programs come from the areas of genetics, oceanography, chemistry, physics, medicine, health, biology, and careers in the fields of science.

Wesley Foundation

Wesley Foundation, a Unit of the Methodist Student Movement, is the Methodist Church at work on a State or Private College or University Campus. All Methodist Students are related to Wesley, yet not all participants in Wesley are Methodist. Wesley is a part of the recently formed United Christian Ministry at Georgia Southern and participates fully in its areas of action. Wesley seeks to be the vehicle through which the Gospel is communicated. It relates to the Campus through programs of Worship, Study and Involvement. Wesley makes no attempt to proselyte for the Methodist Church, nor to acquire the trappings of a local Congregation. It simply seeks to serve Georgia Southern at its areas of need, and if through this labor life opens up for a person, then it has served that person.

Student Congress.

Student Congress.

Student Congress is the coordinating body for all student activities at Georgia Southern. The purpose of this organization is to render maximum service in promoting the well-being of the college community.

The major functions include: Determination of the collective will of the Student Body, making constructive recommendations on issues related to student welfare, coordinating college activities and student organizations, and creating better understanding between students, faculty, and administration.

The George-Anne

Oh, you're just saying that . . .

Now where did I put that picture . . .

Yes sir; 12 hamburgers, 10 cokes, 5 French fries . . .

The *George-Anne*, the college's newspaper, is published weekly during all four academic quarters. It is headed by an editorial board with separate staffs for advertising and circulation. The paper's purpose is to provide an accurate, timely, truthful account of pertinent events on campus. In addition, it provides editorial opinion, regular features, and an open forum for student opinion. Each issue is born on Wednesday, ten days previous to publication day. Ideas are exchanged at a staff meeting, after which the news editor assigns stories to other editorial board members and staff writers. The following Tuesday all stories are edited, marked for type size and sent to the Bulloch Herald Publishing Co. for printing. Last minute copy and pictures are taken down early Thursday morning and the pages are "pasted up" late that afternoon. The presses run on Friday, usually delivering the paper shortly after lunch. By the time one issue hits the campus however, the next one is already three days into the planning stage. The *George-Anne* is the largest weekly college newspaper in the state, drawing its chief competition from the eight-page biweekly newspaper of the University of Georgia. The *George-Anne's* 16 page weekly pages are departmentalized, giving separate billing to general news, features, editorials, and a student forum, society news, entertainment news, organizations news, sports, and faculty news. Among the paper's more popular features is the complete editorial freedom of the staff. No administrative check or censure of any kind restricts free expression of opinion by the editorial board and guests columnists. The paper's major first this year was the publication of a special 44-page homecoming edition. Unofficially it is to date the largest college newspaper in the history of the Georgia collegiate press.

Winter Sports

Winter sports at Georgia Southern, basketball and gymnastics, provide something to fill the dreary long months of cold and rain which winter brings to the campus. From the opening whistle of the first game 'till the buzzer sounds the end of the final game of the season, Friday and Saturday night basketball games are the center of social activities as well as the main athletic endeavor of the school. Gymnastics meets are becoming more and more popular as a spectator sport, as the comparatively young sport builds strength in this section of the country and on the GSC campus. The following pages contain something of the excitement and the spirit of Winter Sports, GSC.

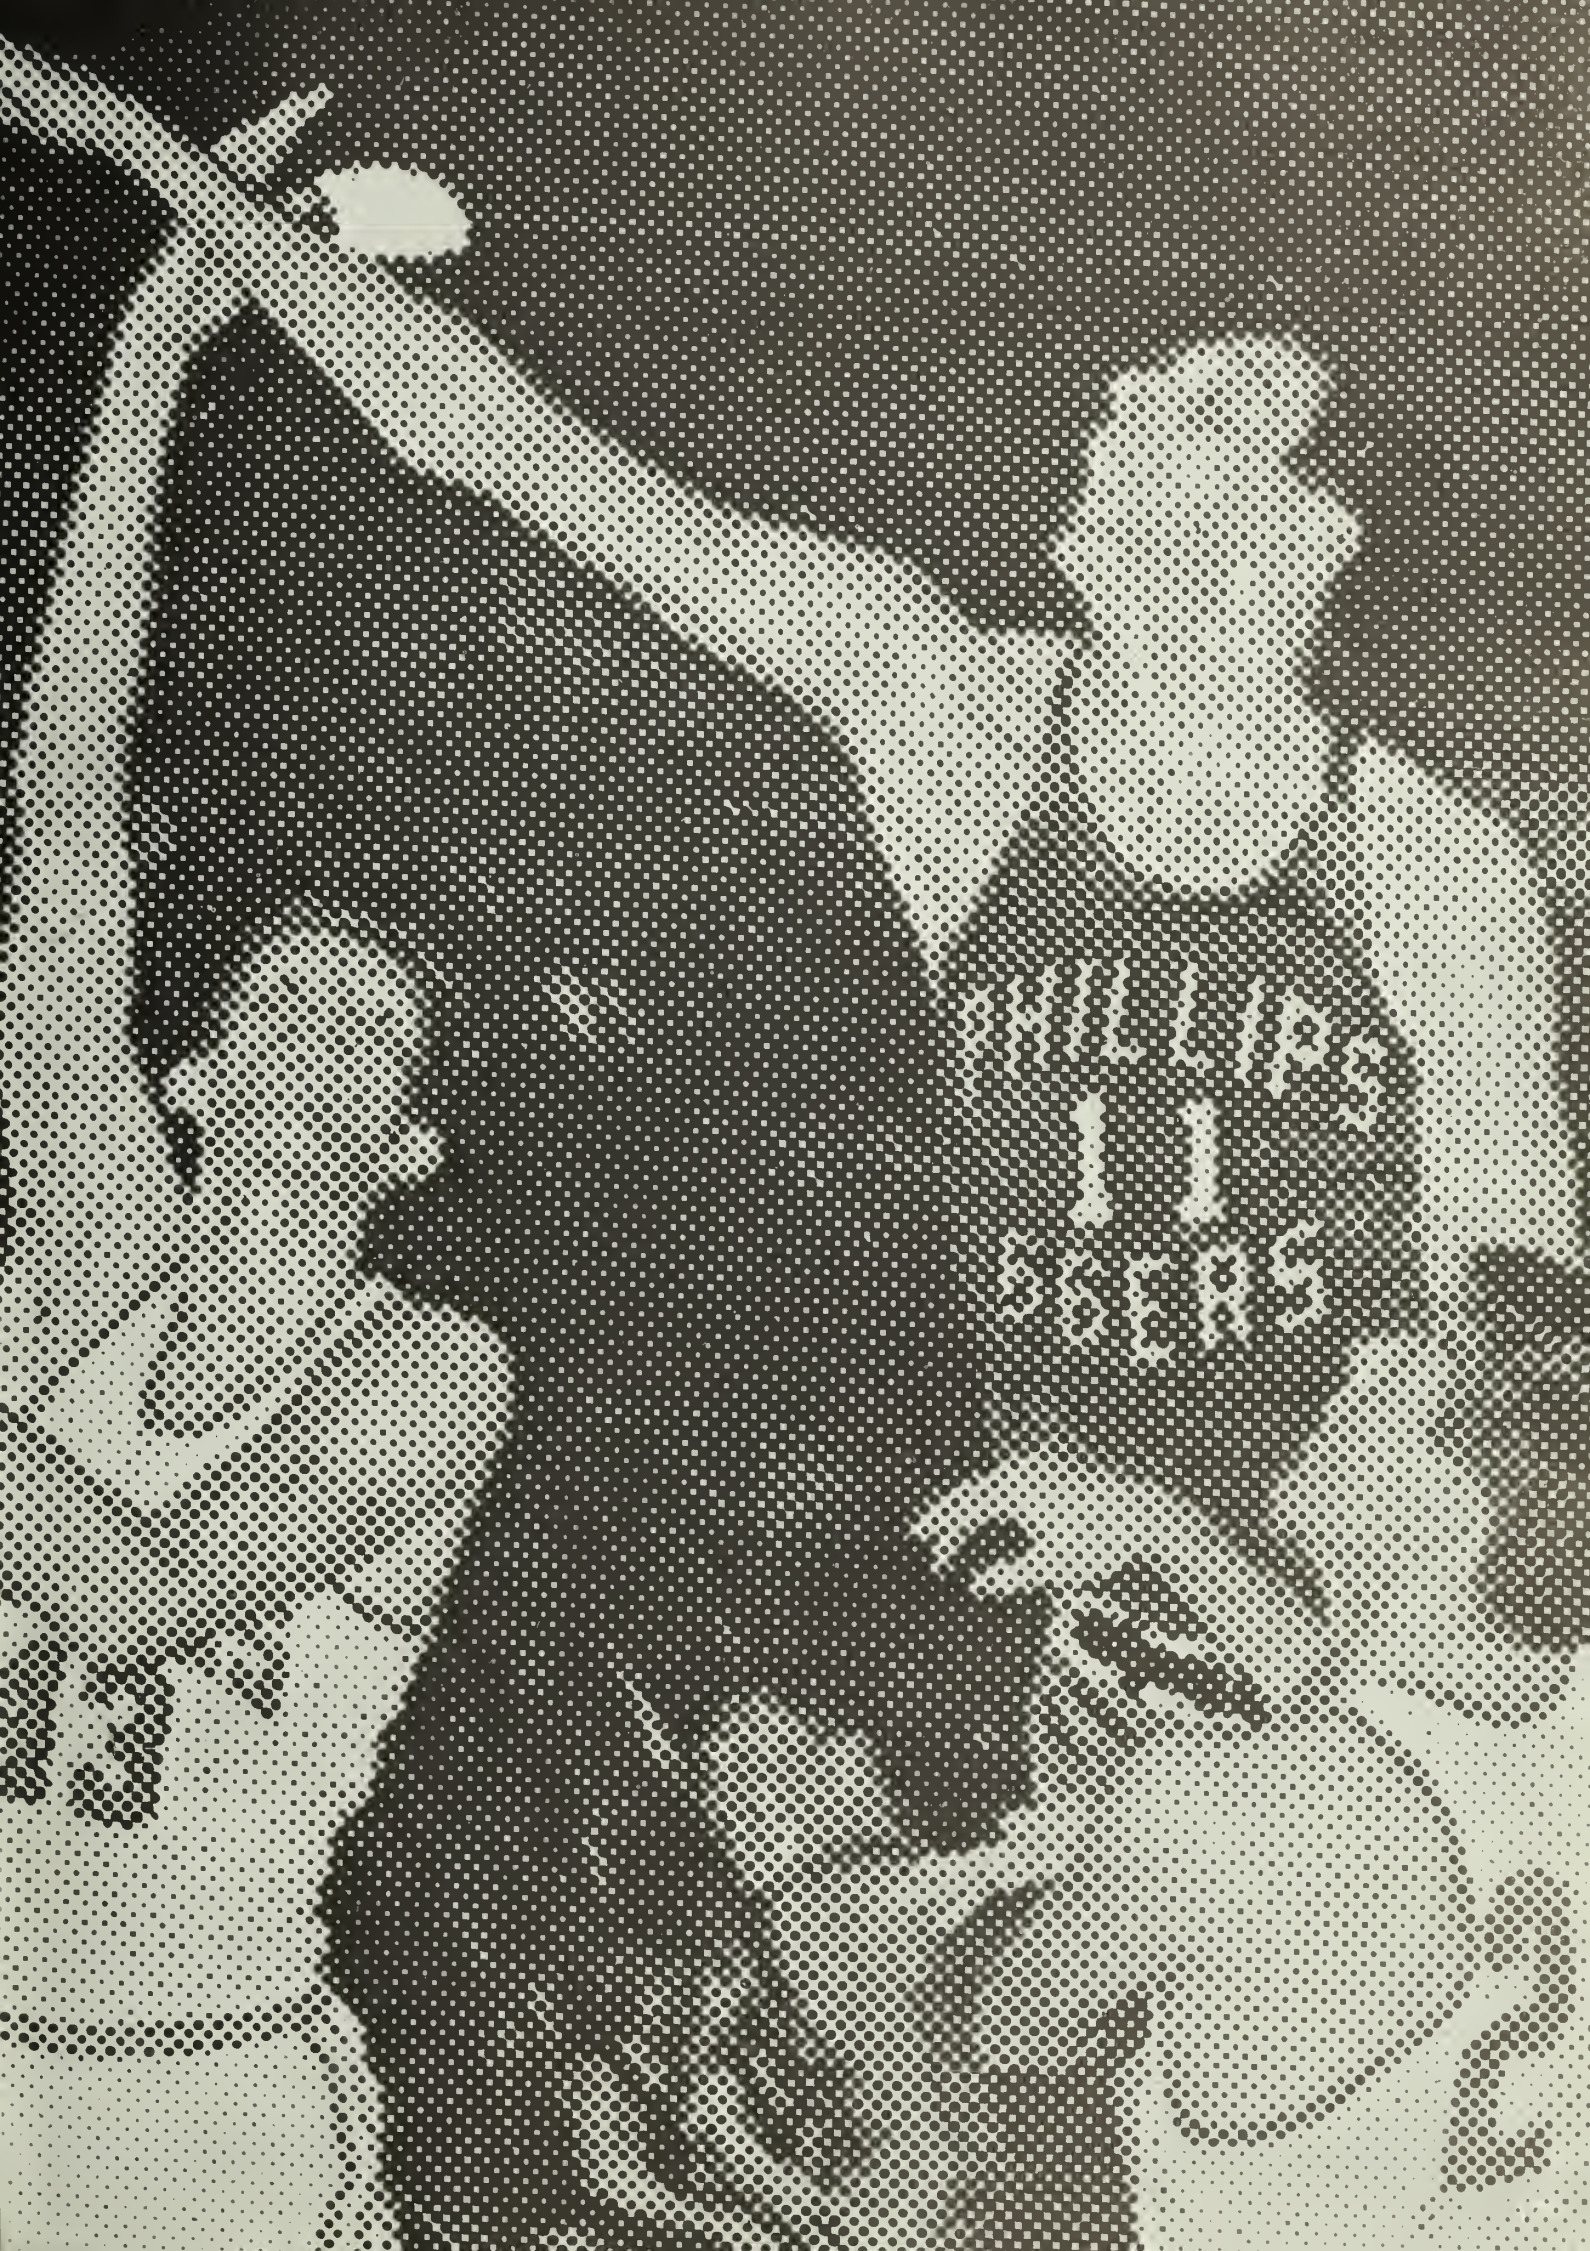
Mercer University	74—93
Oglethorpe	62—85



One of the most dramatic experiences of the season was during the Citadel game. *(above)* With only 3 seconds left in the overtime Jim Seeley (25) went in for the layup. He made the 2 points that tied the game, but was fouled in the process. He made the foul shot to win the game.

The 1966-67 sports season brought the use of a new method of recording game events. WJBS is the new videotape system set up by Coach Charles Exley. The games are taped on video tape and are immediately ready for showing to the team during half time.

Pictured among the complicated video tape apparatus is Winston Whitlock, operator of the video tape system during all basketball games. The video tape system has been helpful to the players in showing them how they played during the first half of a game and allowing them to improve their playing by seeing their mistakes.

SOUTHE

Gymnastics is a sport which has been held in high esteem since the days of the early Greek olympic games. It has a classic beauty of form and motion unequalled by anything else in the athletic field. The gymnast is an athlete in the truest sense of the word. He must develop sheer strength and stamina, and above all, a rigid physical discipline, to achieve this graceful and effortless-appearing beauty. The taut silence which falls over the crowd when a gymnast begins to work ... the graceful movement of free calisthenics ... the breathtaking excitement of a difficult stunt on the horizontal bar ... the genuinely appreciative burst of applause at the end of a well performed routine ... all are thrills experienced only in a gymnastics meet.

THERN

SUTHE

SPRING SPORTS

Spring quarter GSC sports, along with GSC students, move outside in the sun after a dreary, sun-less winter. The baseball diamond, the tennis court, and the golf course replace the action of the basketball court and grace of the gymnastic floor. Cutting late afternoon classes to catch the last game of a doubleheader, following a tennis match in the hot sun from the hill, the grimly calm atmosphere on the 18th green — this is spring sports at Georgia Southern.

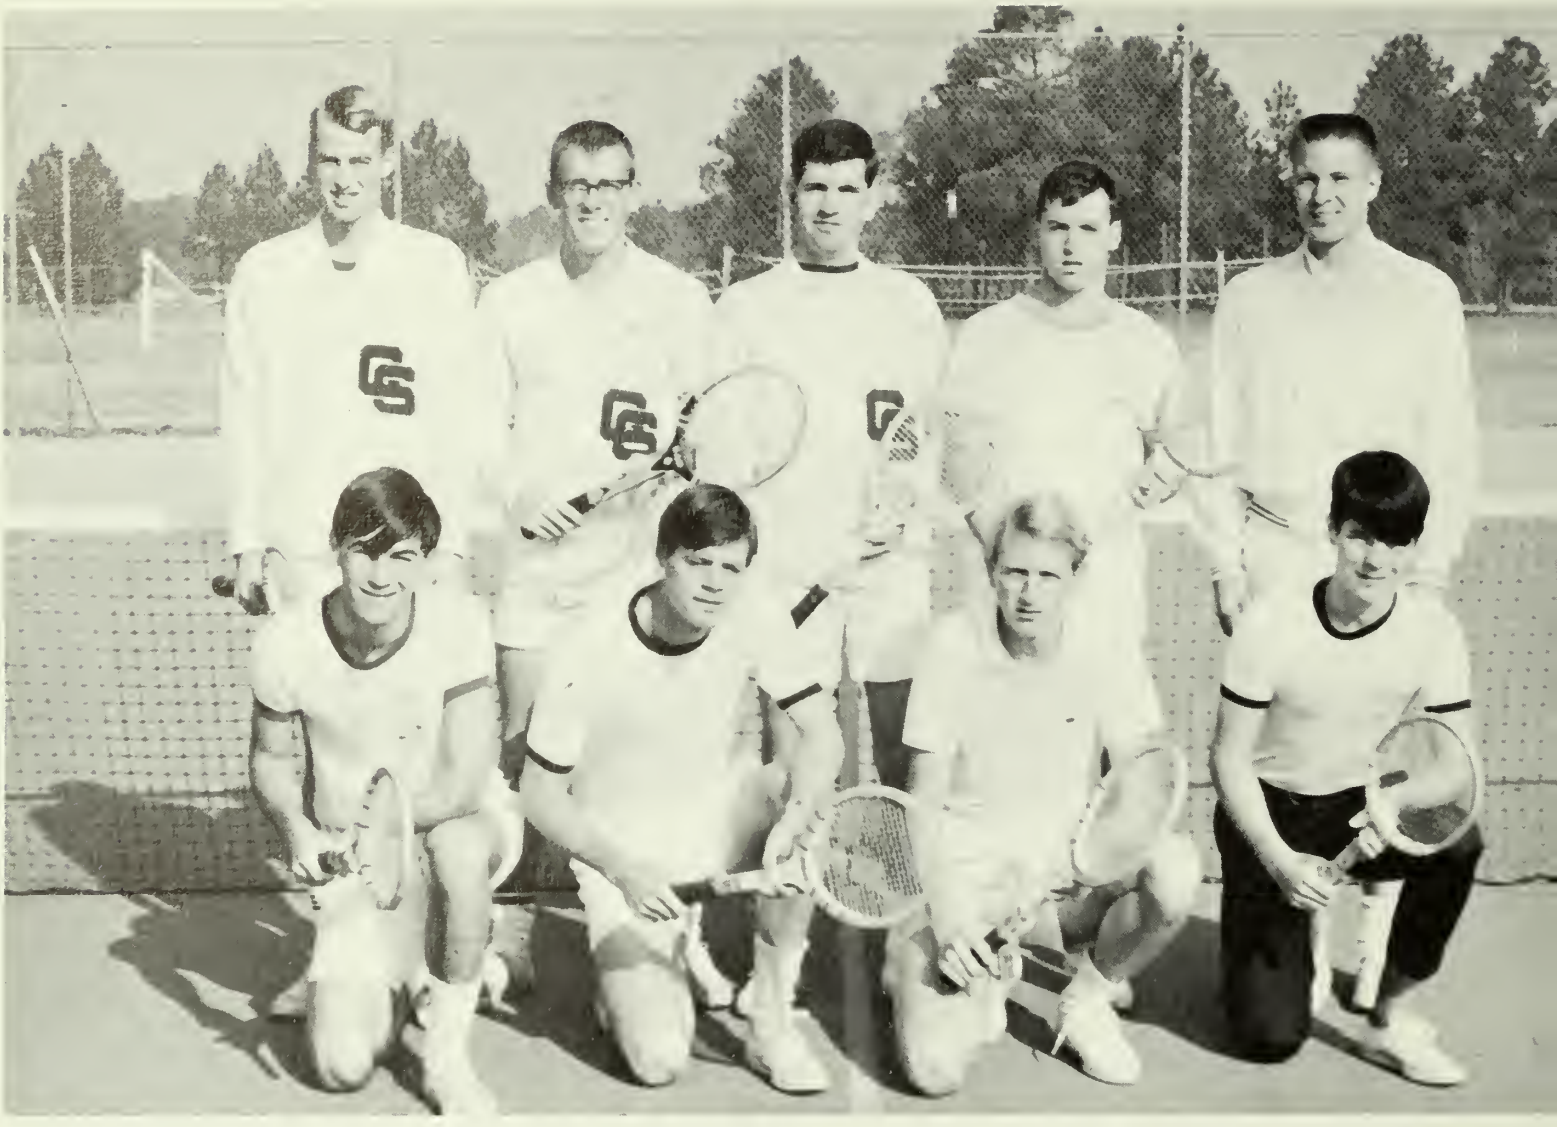
Baseball '66 was the crack of
a bat and Robbie's "foul ball" . . .
it was tension in the ninth
and Coach Clements brooding . . .
it was girls in shorts again
and boys sunning in the stands . . .
it was Ken Szotkiewicz' homers
and Jim Nevin's pitching . . .
it was an even year for the Eagles,
with a 19-12 record and no berth in
the area tourney for the first
time since 1958.

Golf 1966

In its relaxed and refreshing setting among green grass, pine trees and calm lakes, the intense concentration of the golfer is difficult to convey to the spectator . . . The agony of a ball slicing toward the rough, the disappointing plop into the sand trap, the exhilaration of a fine drive, the satisfaction of a 15-foot putt . . .
Golf is a growing sport a GSC, and the '66 team, led by Flanders, Lehwald and North, played through tough competition with ease, but recorded a disappointing season of 6-7-1.



Tennis 1967

Tennis too is on the upswing at GSC. The '66 team was the best yet, sweating out hard matches against top teams for an 8-9 record, one game up on the '65 record. Of the five lettermen of last year, four are returning to the '67 team, as well as two other strong players and a group of newcomers.

Classes

Rhonda Lee — Section Editor

Joe Mercer Carol Skinner Mack Poss

Senior Class

Class of 1967

1967 . . . This is your year. You are the senior class. Most of you have spent four years on the campus of Georgia Southern. You have come a long way since you first stepped out of your car and became a freshman on the Sweetheart Campus. How much of that first year do you remember? . . . As a freshman rat you fought the sophomores in a raging battle of cowboys and Indians. With painted faces and flying feathers, you elected the only rat queen in the college's history . . . How did the campus look that year when you got your first taste of campus life? Not much different from the way it looks now, only a little smaller. Remember when you got your mail from the post office downstairs in the student center? And when Brannen and Hendricks Halls were the newest buildings on campus? You lived in Sanford, Deal, and Anderson Halls . . . In the way of entertainment your freshman year saw the Masquers present "The Father", "The Taming of the Shrew", and "Master Pierre Patelin." The Lettermen, The Chad Mitchell Trio, The Four Preps, and James Brown and the Mighty Sensations provided you with fun and moods and music to do the dog by . . . November of 1963 brought a touch of sadness to the campus as you held a memorial service for John Fitzgerald Kennedy . . . Remember GSC sports in '63-64? That was the year that the Eagles downed the Italian Olympic basketball team by one point when Don Adler sailed the ball through the air for a basket just as the final buzzer sounded. Fran Florian, the Man with Golden Arm, scored an all-time GSC record of 60 points in one game to give GSC the NAIA District Championship. In gymnastics, Coach Pat Yeager led the Eagles to second place in the NAIA championship and Coach Egelston painted the eagle on the gym floor. Bill Aldrich's 3.6 brought him the all-time record in rope climbing and the gymnastics team and modern dance class presented a Salute to Olympia in gold paint . . . . Spring brought the APO Tennis Court Dance, the Phi Mu Alpha Minstrel, and the final athletic event of the year when DPA pushed the world's fastest tub to Savannah in a race against Armstrong College. The year ended with teary farewells and promises for another year of fun and hard work . . .

Junior Class

The junior year is a fulfillment of many goals that seemed unreachable two short years ago ... no more P. E. courses, no more health courses ... three LP's a week.

New and loftier goals have taken their place, and the student views college life in a new perspective. A student who has made it through to the junior year has adjusted to college, has learned to succeed in the everyday things. He becomes concerned with the more serious aspects ... graduation now seems a realizable goal and not quite so far away as it once did ... he feels himself a part of the academic world ... learning has more important implications than just passing courses ...

In this year, too, many of the old ideas, the old standards that the student brought with him to college from home and high school begin to change ... In their place come new ideas, bold original ideas, born in the minds of individuals who have learned to think for themselves ... The old ties are not quite so strong ... in their place are the visions and goals of a life which lies ahead ...

Hanna Teague—*Sec.-Treas.* Jay Hodges—*Pres.* Terry Tillman—*V. Pres.*

Sophomore Class

Those who survive the trials and tests of the first year become sophomores. They realize soon enough that success in this new field comes through persistence in the everyday things. They learn to live . . . and to go on living.

The sophomore year has its own challenges to a student. Courses are more difficult; lines are longer than last year, and registration is a bigger mess. The student must begin to make decisions about the direction of his academic life. It is in the sophomore year, for most that the student is faced for the first time with the realization that he must think . . .

Freshman Class

The freshman year of college life is a unique experience in learning. It is learning to adjust to new situations and new people; learning to meet the everyday tests of maturity; learning about registration, rat day, and routine classes; learning to enjoy meals in the dining hall—Friday night fish and Sunday night snack; learning to study in the dorm and sleep in the library; learning to enjoy life in a college community . . . learning to live . . .

Editor's Epitaph

This space, in most yearbooks, is usually filled with a pile of rubbish which tells everybody and his brother "thank you". My intentions run in an entirely different direction, but obviously, I didn't do the entire job myself, so, to all ... THANKS!

Most people think that the editor of an annual just sits back and directs his staff without himself getting directly involved in the work. Well, I can tell you that it "just ain't so." The editor usually winds up doing one or more sections completely on his own (and large parts of other sections) because a section editor or staff member had a date or a test to study for just at deadline time. The section editors this year have all done their jobs well and I really have no grounds for complaint. I may have stayed up all night a few nights, but at least I had the company of the editor of the section in question.

There are some remunerations for the editor (aside from his salary) which make the job worthwhile. I have learned much about my hobby, photography; I have gained many friends, both in the student body and in the faculty and administration, and I have had a goal to work towards for two quarters. I've even lost weight.

I've tried to give an accurate picture of Georgia Southern College in the preceding pages with copy as well as pictures. I like to think that I succeeded in this endeavor, and I only hope that you, the reader, can agree with me.

Aufwiedersehen!

M. Lelo L Rogers, Jr.
