Master of Health Administration Recognized as One of the Most Affordable in the Country

August 28, 2018

Georgia Southern University's Master of Health Administration (MHA) has been named one of the most affordable healthcare administration master's degree programs for 2018-2019 by healthcareadministrationedu.org. To be eligible for the ranking, the program had to be accredited by the Commission on Accreditation of Healthcare Management Education, CAHME. In addition to being a CAHME accredited program, programs were evaluated on total base tuition and program quality.

The MHA program, previously known as the Master of Health Services Administration (MHSA), is housed in the Waters College of Health Professions. The program strives to develop leaders who possess the values, knowledge and skills to manage optimal delivery of healthcare. To find out more about the MHA program, visit <https://chp.georgiasouthern.edu/hk/graduate/master-of-health-administration/>.
