# Faculty Help Local Robotics Team on NASA Project

*September 25, 2018*

Department of Health Sciences and Kinesiology faculty members Li Li, Ph.D., professor, Barry Munkasy, Ph.D., associate professor, and Daniel Czech, Ph.D., professor, hosted Statesboro's Trinity Christian School (TCS) Robotics Club on September 17, 2018 on Georgia Southern University Statesboro Campus. The robotics team is gearing up for NASA's Interscholastic Robotics Competition: How to exercise in outer space. Faculty members answered pertinent bio-mechanical questions and psychological questions to assist in preparing the students for their competition.

"To have experts our team can learn from is such a great experience and will help tremendously in our goal this year," stated David Lattner, headmaster and head coach of TCS's robotics team.

In addition, students were provided the opportunity to tour the biomechanics lab located in the Hanner Fieldhouse on the Statesboro Campus.
