Connecting through Connecteach
One of our new partners is Connecteach. - Led by Mrs. Bhavani Parpia, this is an organization that provides professional development to educators in some of the most poverty stricken places throughout the world. Recently, the organization ventured into uncharted water as they connect ed students from India with students from several campuses throughout the United States. The project entitled, “Through their Eyes” afforded students the opportunity to take an intimate look at the sacrifices and circumstances that students in India face daily as they struggle to attend school.

We are also very fortunate to have three College Access Partners, and a dedicated Lead Counselor, Ms. Keisha Johnson, who is working diligently to assist the students during every step of this transition!
