### Driving Range Closures During Growing Season

The driving range will close two hours before sundown on Wednesday evenings during the growing season between April and October. This closure allows us to pick the range and mow so as to minimize the impact of our routine procedures on your experience at the course.

The driving range will open on Thursday mornings around 8:00am or as soon as the mowers are finished. The golf course, practice green and putting green will continue to remain open until sundown.
