Smoke-Free Campus – Proposed Faculty Resolution

Whereas the faculty of Armstrong Atlantic State University is interested in supporting a healthier campus environment;

and

~~Whereas the faculty of Armstrong Atlantic State University is supportive of student-initiated efforts to petition for a smoke-free campus;~~

and

Whereas an increasing number of university campuses nationwide are moving towards the adoption of smoke-free campus policies;

and

Whereas the harmful effects of primary and secondary exposure to smoke from the consumption of tobacco products are well documented in the literature;

Be it resolved, then:

The faculty and Senate of Armstrong Atlantic State University propose the **formation of a committee of faculty, staff, and students to explore** adoption of a smoke-free campus on University grounds.

Summer course offering and compensation resolution

Whereas the Faculty of Armstrong Atlantic State University are concerned about making proper academic offerings available during the summer term, and

Whereas the Faculty of Armstrong Atlantic State University recognize the budgetary issues facing the university with regard to summer term, and

Whereas the Faculty of Armstrong Atlantic State University recognize there are real indirect costs of summer employment amounting to less than eighteen percent of direct faculty compensation, and

Whereas the Faculty of Armstrong Atlantic State University wish to work under a summer compensation plan that rewards proper scheduling and minimizes conflict among faculty, departments, and colleges, and

Whereas the Faculty of Armstrong Atlantic State University recognize the differing needs and constraints faced by the various colleges, departments, and programs, and

Whereas the Faculty of Armstrong Atlantic State University wish to work under a summer compensation plan that meets the needs of the university, students, and faculty,

Be it resolved that the Faculty Senate of Armstrong Atlantic State University supports a summer compensation and course offering plan with the following characteristics:

Faculty will be paid for summer courses at a base rate of **three percent per credit hour** ~~nine percent~~ of academic year salary for a three-credit hour course, based on their spring semester monthly rate, and that pro-rated pay will not be necessary if the academic department meets its revenue requirements for cost and revenue averaging described below.

Faculty will be given the opportunity to reevaluate and possibly withdraw from teaching if any changes to compensation from 3 percent per credit hour occur after a course is scheduled.

Academic departments may offer courses that, on the basis of a departmental average, generate tuition and mandatory fee revenues that cover faculty summer teaching salary plus an indirect cost equaling twenty-three percent of faculty summer teaching salary to cover real indirect costs. (Departmental averaging)

Full Senate Minutes, 11.15.2010, Appendix C: Summer Resolution

All expenses included in the regularly state-allocated academic year budget (e.g. twelve month salaries) are excluded from all cost calculations.

The revenue calculation for the academic departments should include for each student in a class the tuition plus one-fourth of the mandatory fee. Furthermore, the tuition rate used should account for differences in undergraduate and graduate tuition rates, and should include revenue from small-section courses such as clinical, independent study, and internships that are sometimes taught gratis by individual faculty.

Profit sharing with departments, colleges, and the office of Academic Affairs is desirable to reward the departments' contributions and to provide administrative flexibility to support critical, but low revenue, programs.

The VPAA and Deans are encouraged to negotiate special provisions for courses and programs that are academically appropriate for summer term but are incapable of meeting the terms of the cost and revenue guidelines.

And that, above all else, decisions regarding summer offerings and compensation be made in the academic best interest of the students, and the collective interest of the faculty and the university without unnecessary creation of conflict among constituencies.

MEMORANDUM

To: Dr. Linda Bleicken, President

From: Dr. Anne Thompson, Interim VPAA *AT*

Subject: Senate Action Item for USG Core Student Learning Outcomes, September 2010

Date: November 4, 2010

I have reviewed the Senate-approved USG Core Student Learning Outcomes with three of the administrators who worked on them. Based upon that conversation and information from yesterday's Regents' Advisory Committee on Academic Affairs meeting, I recommend that the Senate reconsider two of the SLOs.

SLO for Area B

As passed, the SLO reads, **"Students will critically evaluate the relationship among ethical theories, values, and culture."**

I suggest that it be changed to: **"Students will critically evaluate the relationship between ethical theories and culture"**.

As it is currently written, 4 outcomes will need to be measured (three pairings of the three terms, and another with all three terms). It was clear from the original Core Curriculum Committee's work and the advice from the workshop that only one outcome be defined.

SLO for Area C

As passed, the SLO reads, **"Students will analyze the meanings of texts or works of art, or music, express ways that culture shapes values."**

I suggest that it be changed to: **"Students will analyze the meanings of texts or works of art or music."**

As it is currently written, the SLO contains an extra sentence fragment that was supposed to be addressed in a previous revision but somehow was included in the SLO submission. This is an editorial change.

Rationale for Recommended Review

These Student Learning Outcomes must be approved at the BOR level. Revising the SLO for Area B will simplify measurement; the revision for the SLO for Area C is editorial. Both changes will improve our submission and chances for approval on first review by the BOR Core Curriculum Committee.

Senate Motion

Application of Academic Freedom to University System of Georgia Labor Management Techniques

Motion: The Armstrong Atlantic State University Faculty Senate resolves that AASU faculty are exempt from participation in AASU or University System of Georgia policies that threaten their intellectual integrity.

Author's Intent: It is my intent that this policy should protect ALL AASU faculty, not just the Economics department. I encourage friendly motions that help achieve this goal.

For support of this position, see the 1940 Statement of Principles on Academic Freedom and Tenure (<http://www.magna-charta.org/pdf/1940StatementofPrinciplesonAcademicFreedomandTenure.pdf>).

In particular the statement reminds faculty of two relevant issues:

1. Institutions of higher education are conducted for the common good and not to further the interest of either the individual teacher or the institution as a whole. The common good depends upon the free search for truth and its free exposition.
2. ...As scholars and educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others...
