Dr. Carroll Selected as a 2016 Governor's Teaching Fellow

May 26, 2016

Denise Carroll, Ph.D.

ATHENS, Ga – Department of Biology Lecturer Dr. G. Denise Carroll has been selected as a 2016 Governor's Teaching Fellow. As one of 15 faculty members from institutions of higher education across the state, Dr. Carroll was selected after a highly competitive application and selection process.

The Governor's Teaching Fellows Program was established in 1995 by Zell Miller, governor of Georgia, 1991-1999, to provide Georgia's higher education faculty with expanded opportunities for developing important teaching skills. Governor Miller envisioned that this program would address faculty members' pressing need to use emerging technologies and instructional tools that are becoming increasingly important for learning in today's society.

The Governor's Teaching Fellows Program is an outreach program of the Institute of Higher Education at the University of Georgia. To improve the quality of instruction in Georgia's colleges and universities, the Governor's Teaching Fellows Program assumes the complex challenge of moving college faculty members to the leading edge of instructional practice. This effort to enhance instruction in public and private

higher education statewide is very much in keeping with the University of Georgia's traditional mission as a land-grant institution committed to diversified outreach and public service.

To date, more than 89 subject areas, professions and teaching areas have been represented and Fellows have come from more than 61 public and private institutions statewide. To learn more about the Governor's Teaching Fellows Program, including information on how to apply, go to <http://ihe.uga.edu/outreach/governors-teaching-fellows>
