College of Education, Georgia Southern University, "6th Annual Rural HIV Research and Training Conference Program (2017)"
https://digitalcommons.georgiasouthern.edu/ruralhiv/2017/2017/1

This presentation (open access) is brought to you for free and open access by the Events- Conferences and Programs at Digital Commons@Georgia Southern. It has been accepted for inclusion in Rural HIV Research and Training Conference by an authorized administrator of Digital Commons@Georgia Southern. For more information, please contact digitalcommons@georgiasouthern.edu.
6TH ANNUAL
RURAL HIV
RESEARCH AND TRAINING CONFERENCE

COASTAL GEORGIA CENTER
SAVANNAH, GEORGIA
SEPTEMBER 8TH-9TH 2017
“HIV/AIDS in Rural Communities” is the newly published collection of the latest insights, perspectives, and issues on HIV/AIDS in rural America, plus the best presentations from past conferences! Attendees can score an exclusive 10% discount from the publisher!

How to receive the discount:
Scan QR code. The discount is available for hardcover and eBook formats for 30 days.

A SPECIAL THANK YOU TO OUR 2017 COMMITTEE

Fayth M. Parks, Ph.D.
Conference Chair
Gregory S. Felzien, M.D., AAHIVS
Sally Jue, M.S.W.
Stacy W. Smallwood, Ph.D., M.P.H.
Sean J. McIntosh, M.P.H., C.P.H.
Jennifer Burdge, M.Ed.
Leonardo S. Parker, M.D.
Melanie Gwynn, M.P.H., M.H.A.
K. Bryant Smalley, Ph.D., Psy.D.
Michelle L. Allen

FRIDAY, SEPTEMBER 8TH

7:30 - 8:30AM  Registration
8:00 - 8:30AM  Refreshment Break
8:40 - 9:00AM  Welcome & Opening: Dr. Fayth Parks
                 HIV Innovation Award Winners Presentation
9:00 - 10:30AM Keynote Speaker: Jeanne White-Ginder
10:45 - 11:30AM First Concurrent Breakout Session
11:40AM - 12:25PM Second Concurrent Breakout Session
12:30 - 1:30PM  Lunch sponsored by GILEAD
1:40 - 2:40PM  First Concurrent Featured Speaker
2:50 - 3:50PM  Second Concurrent Featured Speaker
4:00 - 4:45PM  Third Concurrent Breakout Session
4:45 - 5:30PM  Break
5:30 - 7:30PM  Book Launch & Poster Presentation Reception

SCHEDULE AT A GLANCE

CONFERENCE KEYNOTE | MAP

Jeanne White-Ginder
Founder, Ryan White HIV/AIDS Program

December 1984 forever altered the lives of Jeanne White-Ginder and her family. At that time, her son, Ryan, was diagnosed with AIDS, having contracted HIV during one of the many blood transfusions he received to treat his hemophilia. Until then, AIDS had been considered by the general public a “gay disease,” and Ryan’s fight to lead a normal life and attend school ironically thrust him and Jeanne into the media spotlight. After Ryan passed away in 1990, Jeanne remained a tireless HIV/AIDS activist, testifying in support of the Ryan White HIV/AIDS Program, established just months after Ryan’s death and named in his memory. Jeanne speaks regularly to audiences nationwide about her experiences on the frontlines of the AIDS epidemic in its early years, and the role that HIV/AIDS stigma plays in fueling the epidemic today.

CONFERENCE KEYNOTE

Jeanne White-Ginder
Founder, Ryan White HIV/AIDS Program

COASTAL GEORGIA CENTER MAP
**Gregory S. Felzien, M.D., AAHIVS**  
Conference Medical Education Director  
Medical Advisor, Division of Health Protection/IDI-HIV  
Georgia Department of Public Health  
Atlanta, GA

Dr. Felzien received his medical degree from the University of Colorado School of Medicine. He went on to complete his internship and residency at Vanderbilt University and pursued further fellowship training in infectious diseases at the Medical University of South Carolina. He holds board certification in both internal medicine and infectious diseases and is certified as an American Academy of HIV specialist.

Dr. Felzien is actively involved in the rural community through coordinating HIV awareness and education and writing and speaking at the local, state, and national levels. In addition, Dr. Felzien works closely with community partners such as Georgia Southern University, as a member of the provider advisory board for the CDC’s HIV medical monitoring program, and with the Georgia AIDS Training and Education Center. In early 2014, Dr. Felzien accepted the position as the medical advisor within the Georgia Department of Public Health’s Division of Health Protection/IDI-HIV. This new position has offered the opportunity for Dr. Felzien to be more involved in state policy (i.e., HIV, STD, and other infectious disease protocols for the Department of Public Health), work more closely with legislators (i.e., speaking on issues such as HIV and Hepatitis C) and continue the practice of caring for and focusing on the needs of rural HIV, tuberculosis, and Hepatitis positive individuals throughout the state.

**Sally Jue, M.S.W.**  
Senior Faculty, American Psychological Association Office on HIV/AIDS  
Clinical & Cultural Competence Consultant  
National HIV Mental Health Services Collaborative  
Los Angeles, CA

During her nearly ten years with AIDS Project Los Angeles at the beginning of the HIV epidemic, Ms. Jue created and managed one of the first HIV mental health programs in the United States. She and her staff, which included people living with HIV, created innovative clinical treatment programs for clients with co-occurring disorders as well as volunteer peer support programs. In addition to overseeing staff and peer and professional volunteers and interns, Ms. Jue was also active in developing partnerships that brought together different organizations and communities to advocate for improved access to services for people affected by HIV. Ms. Jue is a founder and former chair of the Los Angeles County HIV Asian Pacific Caucus, a former consultant for the SAMHSA Mental Health HIV Services Collaborative, and former appointee to the Los Angeles County Department of Health Services’ Cultural and Linguistic Competency Standards Work Group. She is currently a senior training and curriculum development consultant for the American Psychological Association’s Office on HIV/AIDS and a capacity building consultant for AIDS Project Los Angeles.

**Patt Gunn, B.S.**  
The Geechee Institute  
Savannah, GA

Patt Gunn is a master storyteller. She is the founder of The Geechee Institute, a corporation whose mission is to celebrate Gullah-Geechee communities on the Georgia coast. She has been a catalyst for positive change in the lives of individuals and organizations who cross her path for over thirty years. She believes in the African proverb, “the sky is big enough for all of us.” A native of Savannah, Georgia, she is the seventh of ten siblings and the proud mother of two daughters, Imani Saran and Ayana Sala’, college students at Armstrong State University and Clark Atlanta University.

She performs slave narratives and portrays African American “heroes” such as Harriet Tubman, Sojourner Truth, Mary McCloud Bethune and Susie King Taylor in schools, universities, museums, dinner theaters and churches throughout the Southeastern United States. Ms. Gunn served as a cultural costumes consultant for the 2000 film “The Patriot”, starring Mel Gibson, advising them on the costumes, hair styles and head wraps for the slaves portrayed within the movie. She was also featured as Harriet Tubman in a British Broadcasting Corporation (BBC) Black History Children’s Series in 2008, filmed in Edisto Island, SC.

**David Reznik, D.D.S.**  
Chief of Dental Services & Director of Oral Health Center Infectious Disease Program  
Associate Director, Lutheran Medical Center AEGD Program  
Grady Health System  
Atlanta, GA

Dr. David Reznik is Chief of the Dental Services and Director of the Oral Health Center’s Infectious Disease Program for the Grady Health System in Atlanta, Georgia, a program he founded 25 years ago. He has been providing oral health care services for people living with HIV disease in the Atlanta metropolitan area for over twenty-eight years. He is the founder and President of the HIVdent (HIV Dental Alliance), a not-for-profit organization of concerned healthcare providers committed to assuring access to high quality oral health care services for people living with the HIV disease.

Dr. Reznik has lectured and published extensively on oral health concerns for people living with the HIV disease for the past 30 years. Dr. Reznik is also Associate Director of the Lutheran Medical Center Advanced Education in General Dentistry (AEGD) Program in Georgia. Dr. Reznik was a member of the Presidental Advisory Council on HIV/AIDS for four and a half years and served as Chair of the Treatment and Care and Domestic sub-committees during his tenure. He was honored at the 2008 Ryan White All Grantees meeting with the Health Resources Services Administration HIV/AIDS Bureau Associate Administrator’s Award: “For his years of passion, dedication commitment and national leadership on HIV oral health care, and for serving as a champion for national health care provider education.” In 2014, Dr. Reznik was named one of Atlanta’s Healthcare Heroes by the Atlanta Business Chronicle.
Janice (Jan) Probst, Ph.D., M.S.
Professor in the Department of Health Services Policy & Management, Arnold School of Public Health, University of South Carolina
Director of the South Carolina Rural Health Research Center (SCRHRC)
Columbia, SC

Jan Probst, Ph.D., is a Professor in the Department of Health Services Policy and Management in the Arnold School of Public Health at the University of South Carolina, and Director of the South Carolina Rural Health Research Center (SCRHRC). The focus of the SCRHRC is disparities experienced by rural minority and vulnerable populations.

Dr. Probst completed her undergraduate education at Duke University and her education training at Purdue University (M.S.) and the University of South Carolina (Ph.D.). Dr. Probst has extensive experience in health services research, with an emphasis on rural and vulnerable populations. She has more than 120 papers in the peer reviewed literature community. Recognition for her rural health work includes the “outstanding researcher” (2008) and “volunteer of the year” (2016) awards from the National Rural Health Association, and the Martin Luther King Jr. Social Justice Award for faculty from the University of South Carolina (2013).

Michael Lauzardo, M.D., M.Sc.
Chief & Associate Professor, Division of Infectious Diseases & Global Medicine
University of Florida
Gainesville, FL

Michael Lauzardo, MD, MSc, is the chief and an associate professor within the division of infectious diseases and global medicine. Also serving as the director of the CDC-funded Southeastern National Tuberculosis Center (SNTC) at the University of Florida, he has been involved in public health, teaching, and patient care within the College of Medicine since 1997. Trained as an internist and pulmonologist, throughout his career he has been involved in the clinical care of patients with tuberculosis. He has also played a key role with the Florida Department of Health, serving as the Deputy TB Controller for the Florida TB Program and is currently the director of the Florida TB Physicians Network. Since 2012, he has been the chief of the division of infectious diseases and global medicine.
Friday, September 8th

Room 218

In spite of a multitude of antiretrovirals and effective barrier protection, the rate of new HIV infections in the US averages around 45,000 per year. In order to stem the tide of this epidemic, especially in rural areas of the Southeast, we must look beyond traditional medical models of disease and embrace new knowledge and new ways of thinking. The purpose of this lecture is to introduce some of these new ideas in a manner that will hopefully stimulate participants to move toward new, more effective models of HIV care.

Approximately 1,800 people live with HIV infection in eastern North Carolina and are unaware. More than a decade ago, the Centers for Disease Control and Prevention (CDC) issued revised recommendations to initiate larger-scale testing by removing previously required separate written consent and pre-test counseling. Through the implementation of the CDC’s approach, modifying our electronic medical record, and exercising the support of a dedicated linkage and retention coordinator, our testing and linkage/re-linkage numbers have increased dramatically. This model demonstrates a method to maximize limited resources in rural and underfunded areas.

This presentation will describe the process of planning and implementing Project PrEP, a community health initiative to increase PrEP awareness among communities at high HIV risk in south Georgia, especially MSM. Intervention strategies, key findings, and lessons learned will be discussed.
### Friday 2:50 - 4:45 PM

#### Second Concurrent Breakout Session

**In this session, participants will develop strategies for gaining comfort in addressing sex, sexual health, and HIV with various patient populations.**

This presentation will discuss the epidemiology and management of HIV/STI confection in pregnancy.

**Effective treatment for HIV has transitioned the disease from a death sentence to a chronic illness.** Recent epidemiological data indicate that persons 55 years of age and older account for 26% of the estimated 1.2 million people living with HIV in the United States. These older HIV adults are now developing other chronic diseases that are associated with aging. This presentation will provide an overview of the physical and mental health issues that can develop as people age with HIV. Cardiovascular disease, osteoporosis, non-AIDS defining cancers, diabetes, frailty, neurocognitive functioning, and depression. Recommendations on how individuals can age successfully while living with HIV will also be discussed.

This presentation will review the most common and most worrisome skin findings associated with HIV infection.

**This session will discuss legal issues of persons living with and/or affected by HIV, especially in rural communities.**

Lunch Sponsored by Gilead | Rooms 115 & 113 | Room 129 for those who cannot attend Gilead event

---

#### Second Concurrent Featured Speaker

**“HIV-TB rural communities in the Southeast”**

Michael Sautera, M.D., M.Sc.
Room 218

**“Images in HIV”**

Gregory S. Felson, M.D., AAHIVS
Room 100 (Auditorium)

**“Working with the LGBTQ community”**

Officer Eric King, POST Certified Instructor
Room 210

**“Barriers to HIV Services among MSM in Rural Georgia”**

Jordan Helms, Eric J. Nel, Brooke Mootry and Michael Seabolt
Room 212

**“Social Media and Implications of Online HIV PrEP Retriever”**

Kerri B. Ware Pharm.D., AAHIVP
Room 217

**“Smoking and HIV: Why it Matters and How You Can Help”**

Pascale Worley, M.D., M.P.H. and Colleen Commons
Room 218

**“PrEP - Establishing a Rural Clinic”**

Mark Elam, M.D.
Room 100 (Auditorium)

---

#### Third Concurrent Breakout Session

**Officer King will discuss crime trends affecting the LGBTQ Community, and talk about some strategies and tips to help us be better prepared for certain situations.**

Using information gathered from men who have sex with men (MSM) and service providers in four rural Georgia health districts (Valdosta, Rome, Gainesville, Waycross), this presentation will examine how Predisposing, Enabling and Need characteristics (as described in the Andersen Healthcare Utilization Model) affect access and utilization of HIV prevention and treatment services among rural MSM in Georgia.

This session will discuss hazards that can result from purchasing HIV PrEP online and unsubstantiated peer advice associated with safety and efficacy. Dialogue about medications online is often well-intended. However, minimal accountability for accuracy can prove to be detrimental. Participants will be able to suggest limitations of unregulated online conversations and offer plausible safeguard approaches.

The presenters will review what is known about the impact of smoking on disease progression among persons with HIV, review data on smoking prevalence among persons with HIV in Georgia, review evidence-based strategies in tobacco cessation and how they relate to the Georgia Tobacco Quit Line, and describe the services offered by the Georgia Tobacco Quit Line.

Dr. Elam will recount first hand experiences, challenges, and successes with starting a PrEP clinic.
Breaking Barriers to Care

Medical and dental care. Pharmaceutical and financial aid. Counseling and educational services. Community AIDS Network and its Comprehensive Care Centers are breaking barriers to provide a complete continuum of care to people living with HIV/AIDS, Hepatitis C, and sexually transmitted diseases. By removing obstacles to care and working to end the stigma attached to these illnesses, we’re making hope a reality.

You can help. Visit cccsrq.org.

Toll-free: (844) 922-2777

Comprehensive Care Center Inc., dba Community AIDS Network, is a GuideStar Platinum Participant.
While traditional HIV prevention methods remain essential and effective, the epidemic continues. We have entered an era of HIV prevention in which the National HIV/AIDS Strategy, clinical studies, and the latest federal and global health guidelines (including those from the CDC and WHO) recognize the importance of a comprehensive prevention approach. Be part of this prevention movement.

You can help protect your patients by utilizing a comprehensive approach. Be proactive. Combine routine HIV and STI testing with sexual history conversations and education on the importance of condoms. For HIV-positive patients, initiating and adhering to treatment helps prevent HIV transmission to negative partners. For HIV-negative patients at risk of HIV infection, consider additional prevention methods such as behavioral counseling, PrEP (pre-exposure prophylaxis), and PEP (post-exposure prophylaxis). Learn more about using a comprehensive prevention approach, and help end the HIV epidemic.

Visit PreventHIV.com for more information.
