TEACHERS TACKLE COCHRAN NEXT

TEACHERS AND COCHRAN ON TOP LIST FOR THE STATE CONFERENCE CHAMPIONSHIP

Friday and Saturday nights should be the biggest basketball evenings of the present season with the Teachers meeting Cochran on both nights, and Miller meeting Portal Friday, with Statesboro High and Benedictine at the preliminary Saturday.

Though the Teachers lost two games last week they are still on top in the Georgia State Conference with Cochran as their companions. Both the Teachers and Cochran are claiming the best team in the conference. Cochran has a clean slate for the season, having lost no conference games. The Teachers have lost only one conference game and hold a two out of three series over the winners of that game.

In all probability the Teachers and Cochran sport the key players of the tournament. Two of these games will be played in Statesboro and one in Cochran. Should Cochran win either one of the games here this week they will have a decided advantage over the Teachers when they go to Cochran for the third game of the series. The hope of Coach Smith's boys is to win both of the games here this week and fight for the championship of the State this year.

Annual Staff Decides To Publish Reflector

Following a meeting last week the staff of the Reflector announce definitely that a book will be published this year to come off the press late in May.

The staff will depart from the standard form of the college and will attempt to publish a book all together different from any yet published by the college. The departure is for several reasons. It is the belief of many that the college annual has served its purpose and that the day of the elaborate college annual is passing. In many schools and colleges, newspapers and illustratedholiday have taken the place of the annual. During a period of economic distress, such as we are now witnessing, there is another well-founded reason for the passing up of a college annual. It is the purpose of the staff this year to publish an unusual book without one penny's cost to any student. Herefore the students have paid handsomely for their place, but this year they will not be called upon for anything at all unless in some rare case where an individual picture may appear and then the student will only be asked to furnish a picture. Money

DEPUTATION TEAM WILL BEGIN TOUR

The faculty members and students of the college will be interested in the announcement made at the regular meeting of the Y. M. C. A. on February 12th. It was announced that a deputation team will be ready to go to Cochran for the third game of the series. The hope of Coach Smith's boys is to win both of the games here this week and fight for the championship of the State this year. The Teachers and Cochran are claiming the best team in the conference. Cochran has a clean slate for the season, having lost no conference games. The Teachers have lost only one conference game and hold a two out of three series over the winners of that game.

BIRD SANCTUARY DEDICATED FRIDAY

The dedication of the Bird Haven at the home of Dr. J. H. DeLoach Friday afternoon was witnessed by a large number of students and faculty members of the college.

The exercises began at 4:30 p.m. in the President's library, where the guests were introduced to Mr. William L. Finley, Dr. DeLoach made the opening speech in which he told the purpose of the dedication and the benefit that he expected to derive from his efforts to provide a sanctuary for birds and animals. After Mr. Finley's address the guests went out in the open and witnessed the erection of the bird nests.

FINDLEY PRESENTS NEW ILLUSTRATED LECTURE

LARGE NUMBER ENJOY PROGRAM

William L. Finley, nationally known ornithologist, author, and explorer, enlightened the students' evening with his new thrilling motion picture story of "Alaskan Wild Life and the Red Fox Bear.

Mr. Finley, who is a personal friend of Dr. J. H. DeLoach, was brought to Statesboro by the managing editor of Dr. DeLoach. Mr. Finley has engagements in Atlanta, Dallas, and other large Southern cities and through Dr. DeLoach was persuaded to stop off in Statesboro. Mr. Finley is known as the outstanding photograh of nature and is considered one of the highest priced lecturers on the American platform today.

The new illustrated lecture given by Mr. Finley was the result of several expeditions and two long cruises into British Columbia and Alaska.

(Continued on page 3)

Dramatic Initiation Given Club Pledges

The old members of the Dramatic Club met in the auditorium Wednesday night for the purpose of giving the pledges a "tie-up" of Dramatics. After being initiated as "new members," the old members in sheep's clothing, they were taken to the Home Economics room where refreshments were served for all. (By this time the hearts of the tyranics, that is, of the old members in sheep's clothing, were beginning to soften.)

One new member, namely, Kathryn Leventi, was more unfortunate than the rest, as she was forced to present a program in the following morning. In this program it was discovered that Joe Purvis has been letting his "talents" lie idle and that he is losing money fast by remaining letting his "talents" lie idle and that he is losing money fast by remaining

Grade-Point Ratios

The grade-point averages, as worked out by the registrar, for students in attendance at the close of the fall term are given below:

A regulation of the college requires that a student earn as many quality points as hours of credit before being granted a diploma. This requirement became effective at the beginning of the fall term, 1932. A grade of A gives two quality points, a grade of B gives one quality point, while all other grades represent no quality points.

There were 433 students in attendance at the close of the fall term. The grade-point average for each has been worked out by the registrar and the average for certain groups also computed. Interesting information is revealed in the following data:

RATIOS OF CLASSES

<table>
<thead>
<tr>
<th>Classes</th>
<th>Men</th>
<th>Women</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Junior</td>
<td>1.10</td>
<td>1.61</td>
<td>1.31</td>
</tr>
<tr>
<td>Sophomore</td>
<td>1.11</td>
<td>1.47</td>
<td>1.34</td>
</tr>
<tr>
<td>Freshman</td>
<td>.86</td>
<td>1.32</td>
<td>1.07</td>

<tr>
<td>Dormitory</td>
<td>.15</td>
<td>1.29</td>
<td>.89</td>
</tr>
</tbody>
</table>

The students working to pay part of their expense have a grade-point ratio of 1.39, the football team, 1.39, and the Math Club 1.68. If there are other group averages which you would like to compare with these, hand the list of the students making up that group to the registrar.

(Continued on page 3)
THE ANNUAL

We are glad to note that the members of the annual staff have abandoned the idea of not publishing the Reflector this year. For, what blessed thing is memory! When time hangs heavy on our hands, when the way seems weary, how good it does a picture or sentence bring back to our minds the comrades of days gone by. As we leave college, close con-

SCHOOL SPIRIT

What is school spirit? It is one of those intangible things that mean so much to college life. It flows beneath the surface, yet its effect can be felt on every campus—indeed in every gathering of students. It is that something, almost indefinable, which changes the whole aspect of the students to the school; of the patrons to the school. It is that something which strangers feel and notice in the atmosphere on entering the campus.

For our purpose let us consider school spirit as expressed loyalty—expressed not alone in words, but more often in actions. It is you, your attitude toward your school, your instructors, your classes—every phase of college life.

Do you have school spirit?

Do you co-operate in all the work that is carried on? Do you use your influence in making this a better place in which to live?

Do you engage in the various activities? Do you attend athletic games? When you go, do you sit back and just look on, or do you share in winning the game by really putting up a fight and seeing if you can make a difference in the outcome?

School spirit is displayed every day on the campus. Are you going to stand by and watch the others do everything? You can be the cheerleader—they will be the gainers.

COURTESY TO OUR VISITORS

The benefit of the students the Athletic Association has scheduled for the 1932-33 yearbook. The games remain on the schedule and only one of these will be played away.

In return the Athletic Association is asking for the cooperation of students at these home games. The gate receipts for this season have been very small. The association is doing everything possible to generate a crowd for the games. It would be in the best interest of the students if the gate receipts would be a little more considerable. We hope that the students will come out to the games from Statesboro and nearby towns. We will keep these students informed with league results.

The Athletic Association is asking that students sit in the balcony and not around the court or benches provided for visiting teams, players, officials and others. When there is a preliminary game seats must be provided for about fifty players and coaches. In the past players from visiting teams have been forced to stand and we do not want that to happen again. Please let's help ourcause by being courteous to our visitors and co-operate with the association.

TRADITIONS

Are there any traditions of which this school has a right to be proud? There may be only a few because this school is young and has not had time to develop them, but if we attempt in the future to have any, we must start today, for the dreams of today are the actualities of tomorrow.

One of these traditions of which we might be proud is that of the modern cheer. It is a lit-
tle thing in itself, but in the end it will prove more than it seems. We are helped by our opponents, and if we are most together in an activity so world-wide in its scope, we are not careful as to our appear-

THE GEORGE-ANNE

YE ATHLETES

By JOSEPHINE MURPHY

JANUARY 30, 1933

AN EPISTLE

Dear Editor:

I have something on my chest and if you will be so kind as to allow me enough space in the George-Anne, I would like to give you some wholesome advice (or suggestions)

When one comes to think of it, the students at T. C. have, as a whole, failed to get into the real spirit of the college. The one big 'key note' that we have missed is 'co-operation.' We have failed to co-operate with the work of the institution. Now here is my plea, fellow students, let's all co-operate with the work in every activity. Cut out the talking in chapel after the second bell and get ready for the program by giving at-
tention. Try, for a few minutes to be quiet and not run your tongue to death. Stop and think, for the old saying is, 'an empty wagon sounds the most noise.' Have a good time but please have enough pride and self-respect to stop talking and listen when it is your turn to talk.

Why not leave off the rush and roar at the dining hall? The food and the people are going to classes to talk and annoy those around you, then you would be better off at home.

( Editor, I hope you will not think that I am 'hard-boiled'—I only want to make the thoughtful students stop and think.

A STUDENT.

TEACHERS TACKLE COCHRAN NEXT

(Continued from page 1)

number three in Cochran later.

The preliminary Friday should be held with the football at the end of the week for finishing the opposition. Portal has picked up one hundred per cent since their first game, while Millen is having the best team that has played South Georgia this year.

Saturday the gymnasium is expected to be packed to capacity when Statesboro High ties up with B. C. of Savannah in the preliminary. The preliminaries will begin at 7:30 o'clock with the main go to follow.

Guy Nicholson boasts that when he was a high school student he scored a touchdown in every football game he played. He says that by mingling with this group Bill Everett, who is well known on the campus for his participation in athletics, has established a reputation for himself on the side lines. "Big It." Marr, another of the athletes, doesn't it?

Bill Everett, who is well known on the campus for his participation in all forms of athletics, has refrained from smoking since signing up for the team. He says that his chest has expanded two and one-half inches and his biceps resemble those of Earl Lederman. If you don't believe it, just go to Bill, he will show you.

"Our aim is not to enter anything so small as a collection of "All Americans," says that after receiving letters, "we look forward with pleasure to seeing the finished product at the end of the term come out of the department. Of course, we prefer A.) We look forward with high expectations with the actualities of tomorrow.

"Big B." Zimmeran would be envious. So don't just go to Bill, he will show you.

Maurice Grail, while perhaps not as famous as "Big It," has established a reputation for himself on the side lines. Maurice is considered a "water wagon" since entering upon his degree here in June, he has been

THREE DIFFERENT TERMS ENTITLED "THE ATHLETES IN THE MAKING."
CLUBS

HOME ECONOMICS CLUB

The Home Economics Club met Monday night at 7:30 in the auditorium. The meeting was called to order by the president and the minutes of the last meeting were read. The president then called for a meeting of the club officers and program committee immediately after adjournment.

The following program was given:

Song, "Love's Old Sweet Song"—the club.

Piano solo—Sara Kate Seaborn.

Talk Talk, "An Abundant Color in Our Colorful World," basket bears. After the refreshments were served at the "Teapot Grill," after which dance was enjoyed at the Riggs home.

Members present were M. A. Shaw, Gene Woods, Elliott Battle, Lebam Franklin, Gordon Marys, J. E. Smith, Fred Paige, Enid Riggs, Jesse Riggs, Benny Bussey, James Sullivan, Taludge Bay, Earl Riggs, and Claude Howard.

Invited guests were Menza Cumbee, Mrs. Marion Cooper Smith, Mrs. Edith Brannon, Edith Tyron, Frances Steenbarger, Daisy Vining, Olivia Purvis, Louise Addison, Charlotte Mason, Lena Joesy, Sara Mussey and Rita Lee.

DUX DOMINA CLUB

The Dux Domina Club entertained with a scavenger hunt Tuesday night. The members and their guests assembled at the home of Earl and J. W. Riggs. Piano music by James Hinton and Rountree Lewis began. After the refreshments were served at the "Teapot Grill," after which dance was enjoyed at the Riggs home.

Members present were M. A. Shaw, Gene Woods, Elliott Battle, Lebam Franklin, Gordon Marys, J. E. Smith, Fred Paige, Enid Riggs, Jesse Riggs, Benny Bussey, James Sullivan, Taludge Bay, Earl Riggs, and Claude Howard.

Invited guests were Menza Cumbee, Mrs. Marion Cooper Smith, Mrs. Edith Brannon, Edith Tyron, Frances Steenbarger, Daisy Vining, Olivia Purvis, Louise Addison, Charlotte Mason, Lena Joesy, Sara Mussey and Rita Lee.

SOCIETIES CHANGE MEETING PLACES

The Oglethorpe Literary Society will hold its next meeting in the old training school building and the Stephens Society will meet in the auditorium.

In previous years the societies have met in the auditorium and room nine of the administration building. But due to the increased student body this year, room nine is too small to accommodate all the members of the societies. It was decided that the Stephens society should meet in the old training school building for the first half of the school year and the Oglethorpe society the second half.

MATH CLUB

The Math Club will hold its regular meeting tonight in the auditorium at 7 o'clock. At the last meeting the club initiated fifteen new members into the organization. It is believed that they will be a real asset to the club as they are the outstanding Math students on the campus.

The following program will be presented at the meeting tonight:

Math Club Songs.

Some of the Best Puzzles I Have Ever Heard—Henry Taylor.

A Number Story of Long Ago—Rena Poppell

A clever skit illustrating a move at S. G. T. C. to make pi exactly 3 instead of 3.1416.

ANNUAL STAFF DECIDES TO PUBLISH REFLECTOR

(Continued from page 1)

Twenty seasons of travel and adventure have produced over 200,000 feet of motion picture film and 25,000 still life negatives, the most remarkable record of American wild animal pictures ever made.

During this time the Finleys have written three books, "American Birches," "American Forest Pets," and "Little Bird in Blue." Nearly two hundred of their articles have appeared in leading magazines and newspapers of America, and Europe. Twenty different seasons have taken Mr. Finley through nearly every state in the Union, these large federal wild life reservations and several states, and in the record of his efforts in arousing popular interest to conserve our outdoor resources. The cruises were made during the summer of 1931.

The pictures are systematic and prove to be most interesting. Mr. Finley exhibited a dozen pictures of great blocks of ice and tons of icebergs in the Bering Sea.

There has only been one instance of a whale having been captured in the Bering Sea.

The pictures were shown at the Teachers in Savannah early in December.

Basketball Review

Out of nine games the Teachers have lost only two this season and both these defeats came last week on a road trip which carried Coach Smith and the boys into South Georgia and Florida.

For the first time this season the Ridge Tide came off a basketball court beaten, though in both games last week they played "jump-up" basketball.

At Douglas Wednesday evening the South Georgia College went from the Teachers 33-29, a three-point win, however the Teachers hold two games over Douglas and this defeat Wednesday will not affect the record in the Georgia State Conference. In Jackson the Tide will meet the strong Athens team to play the following week.

In the nine games played this season the Teachers have scored 396 points against their opponents total score of 265 points. With the exception of the two last games last week the Teachers have scored over 40 points by a safe margin and no games ended with the Tide undecided about the outcome early in the game.

Though the Teachers record for the season is something to brag about they still have some strong teams to meet beginning here on Wednesday night with Middle Georgia College.

On Thursday of next week the Varsity of the Teachers will play Georgia College and Middle Georgia College on the court.

The following week, Wednesday night, the Teachers will play the Charleston College for the first time.

The following week will return the Middle Georgia College game going to Cochran for one game. The Cochran game will probably be the last game for the season after the conference tournament, which will either be held here or in Douglas.

The Teachers have started three games so far this season and have scored the following points in each game.

First game 200, second game 254, third game 294.

As a distance of twenty feet showing balls rushing into a stream of water and catching salmon. Many pictures were shown of birds taken in the Gulf of Mexico, the picturesque coast line of British Columbia, the haunts of big game in Alaska, northern glaciers and volcanoes and the outposts islands of Bering Sea.

JOY OF BEING ON THE STAFF

Getting out this paper is no picnic. If we print jokes, people say we are too silly. If we print serious things, the paper is filled with undesirable material. If we make a change in the fellow's write-up, we are critical. If we don't, we are asleep. What in the does SMALL we do?

LEARNING AND LIVING IN COLLEGE
(By HARRY BONE, in Inter-Colloge)

It has become a truism that the educated person is not one possessing of factual knowledge, academic degrees, or specialized skill, but rather one who has achieved, or better, is progressively achieving, the knowledge, skills and attitudes necessary to effective, beautiful, ethical, religious living. In the light of this, Dr. Forrest functional ideal the colleges are progressively achieving, the knowledge, skills and attitudes necessary to effective, beautiful, ethical, religious living. In the light of this, the educational program the colleges are being severely criticized, and some consider them a positive hindrance to an individual's education. The problem is not only one of field goal, but one of style and method. But many, a college course represents the most productive way of spending many years of middle-age, and only if one is aware of the pitfalls.

The most subtle handicap is the tendency to assume that one is getting an education simply because one is in an educational institution. One pays his matriculation fee, introduces his plastic and inquiring soul into the miraculous machine, fills his assignments and passes the exams, and is automatically ground out after four years, with a diploma in his hand, "educated, by gosh!" I have noted an unusual resourcefulness among class boys and girls—they know that what they get they must get for themselves. The college students should know the same thing. No college can educate anyone. If you become an educated person, you must educate yourself—in college or out.

The college merely offers certain facilities—together with certain hindrances.

be the future home of birds. He also took pictures of the activities of the birds. The next week-end guests were Miss Mary Lou Carmichael and Mrs. D. B. Deal, Mrs. J. E. Smith, Mr. B. O. Johnson, Misses Grace Rice, LaVon Rios, Clair Reeves and Ellis Tippins.

The Woman's Athletics

The Woman's Athletic Association has planned a program of extra-curricular games for the girls at T. C. The women faculty members and the freshman girls have already played one game of the series of soccer games that have been planned. The tournaments will continue with games between the societies and classes.

The girls are looking forward with anticipation to the game with B. P. L., which is scheduled to be played on February 12th in Vidalia. Other competitive games have not been scheduled as yet.

In the competitive games of the past two seasons, the T. C. team has been very successful, having a record of no games lost.

The friends of Louise Benton will consider them a positive hindrance to an individual's education. The problem is not only one of field goal, but one of style and method. But many, a college course represents the most productive way of spending many years of middle-age, and only if one is aware of the pitfalls.
