ALUMNI TO HOLD ANNUAL LUNCHEON

FORMER PRESIDENT E. V. HOLLIS OF MOREHBAD, KY., WILL BE THE PRINCIPAL SPEAKER.

The second annual alumni luncheon will be held in the dining hall Monday, June 5th, with former President E. V. Hollis as the principal speaker.

Last spring the Georgia Teachers College Alumni Association was organized with over two hundred former students attending. Mrs. Clarence Willis, of Swainsboro, who acted as toastmaster, was elected first president; Clayton Hollingsworth and DeWitt Edwards, of Savannah, were elected as vice-presidents; Miss Margarette Turner as secretary, and Rev. L. O. Dosher as treasurer. New officers will be elected at the luncheon here next Monday.

President Guy H. Wells, who will preside at the meeting Monday, will give the address of welcome. The college quartet will sing several selections and music will be furnished by the orchestra. Following the address by Dr. Hollis, several of the old alumni will be called upon for short talks.

Mr. Hollis served the college here as president when the school was known as the First District A. & M. School. He was here when the college was changed into a Normal School, and was succeeded by President Wells seven years ago. Since that time Mr. Hollis has been connected with the Morehead State Teachers College, Maringan, Ky.

Five T. C. Players On All-Conference Team

Five members of the Teachers College baseball team were picked on the first team at the all-conference selection of the Georgia State Conference by coaches of the schools participating in the league.

The first and second teams picked were as follows:

First Team:
- Kettles (Teachers) catcher.
- McMullan (Norman Park) first base.
- Moore (Norman Park) pitcher.
- Smith (Douglas) pitcher.
- Owens (Norman Park) center field.

Second Team:
- Davis (B.-P. I.) pitcher.
- Story (B.-P. I.) second base.
- Woods (Teachers) center field.
- Rountree (Teachers) third base.
- Kerles (Teachers) short stop.

Summer School Begins June 12th

One of the largest enrollments ever to attend summer school at S. G. T. C. is expected to enroll on June 12 for the first six weeks session. With new additions to both dormitories, the college is able to take care of a larger enrollment than it has ever had before. Also a new training school building will be completed to add to the facilities of the institution.

It has been announced that Anderson Hall will be occupied by boys, while both East and West Dormitories will be used by the girls.

The faculty for the summer session does not have many changes over that of last year. Several members of the regular faculty will resume their duties during the summer. Dr. Willis A. Sutton, superintendent of Atlanta Schools; Dr. C. B. Glenn, superintendent of Birmingham, Ala., Schools; Dr. S. V. Sanford, president of the University of Georgia, and many other outstanding men have been engaged as special speakers for the summer school.

SOCIETIES ELECT NEW OFFICERS

At the meetings of the Oglethorpe and Stephens Literary societies held Thursday evening, May 30th, new officers for the 1933-34 school year were elected.

The Oglethorpe selected the following officers: President Charlie Murch; vice-president, Eloise Graham; secretary, Woodrow Powell; treasurer, Bill Stewart; chairman of membership committee, Reta Lindsey; chaplain, Julius Hodges, and pianist, Mabel Huff.

Officers elected by the Stephens were: President, Leonard Kent; vice-president, (Continued on page 3)

Physic Class GIVES BROADCAST

W. L. JONES, OF STATESBORO, ASSEMBLES W.B.C.A. TALKED INTO BROADCAST STATION FOR PROGRAM.

All radios on the campus and many in the nearby vicinity were tuned to catch the broadcast by the T. C. physics class last Thursday morning. The broadcasting set was designed and built for class demonstration by W. L. Jones, of Statesboro. Mr. Jones is to be commended on his excellent piece of work in making it possible to present the broadcast.

The appreciation of the audience that listened in was expressed by the flood of congratulatory messages received during the broadcast. The physics class, under the guidance of the director of physics, W. S. Hauser, has accomplished many worthwhile things. The method used in presenting the course has contributed largely to this success. The class is conducted on a democratic basis. Any member may at any time make a contribution. The workable projects are assigned to volunteers from the class and supervised. When the radio transmitter and receiving sets were discussed in class W. L. Jones received the assignment to build and give a practical demonstration of the broadcasting station. The assignment for the receiving set went to Ernest Holland.

The broadcasting set was assembled in the physics laboratory Tuesday evening, May 17th. Mr. W. L. Jones and Mr. R. O. Cherry the honor of forming the program and announcing it. The program was varied, consisting of news and drama by talented students, and addresses by members of the faculty and President Wells.

New Training School Is Nearing Completion

The new training school building, located on the east campus, is rapidly nearing completion. It gives promise of being one of the most successful buildings of the group. It is constructed along the same style of architecture as the main college building.

The buildings will contain sixteen rooms on the first floor. There will be six large class rooms, four smaller ones and four offices for the various officials and instructors.

On the second floor will be two large rooms and seven smaller ones. There is a large room with equipment for a society ball and assembly hall. Another room will be a general reception room for the social activities of the students and faculty, teas, dances, Y. W. C. A., etc. It will also have a cook room and equipment for dinners, banquets, alumni meetings, etc.

(Continued on page 4)
OUR HOPE

As the last issue of the George-Anne for this scholastic year goes to press, we hope that the publication has served a worthwhile purpose on the campus. We appreciate the interest that the student body has shown in the college paper and hope that next year the George-Anne will have a larger student body with the same "student publication" with an increase in student contributions. We would like to have the students feel that it is their duty to make contributions to the paper without the staff having to make requests. In this way, every student would feel that he had played a part in the publication of the George-Anne.

Although all of the objectives which the George-Anne has stood for have not been accomplished, we hope that we have played our part in the advancement of the majority of them. It has been the earnest desire of the staff to do its part in making a paper that the students would be proud of and that would do credit to the institution. We realize that we have striven mightily for the ideals, and probably have not obtained our goal. Yet with a larger student body next year and more co-operation from the students, we are sure that the staff will be able to build the George-Anne into a larger and better paper.

Following are the objectives which we have tried to keep in mind in publishing the George-Anne this year:

1. To report news and general information.
2. To furnish a natural means of unifying the purpose and sentiment of the college.
3. To stimulate proper school pride and loyalty.
4. To reflect the spirit of the institution.
5. To provide entertainment by giving the students what they want to read.
6. To supplement extra-curricular activities.
7. To preserve traditions and history of the college.
8. To focus student's attention on worthy achievements.
9. To promote the habits of observation, thought and self-expression among the students.

"THE END OF A PERFECT DAY"

(By President Guy H. Wells)

"Will you write in my annual?"

"Yes, wait! Have you written in my book?"

"Please give me your autograph."

These are the words floating on the air at T. C. now. One would think they were in a gathering of famous notables surrounded by autograph hounds, instead of in a mere-college campus.

The most ludicrous things appear in some annuals. For instance, Wright Ligon writes his signature as a high-school student at T. C. Al Alonso imports every one to be useful if they can't be good. Someone's schedule class is "in the tub to remember between each rub; while others desire to be thought of between each rub."

"Some one writes their book in the six. What memories those will be!"

No one writes what they think. Why strip the pale things of their illusions? Seems to be the current philosophy. If a girl or boy walks up to a stranger and requests something—almost everything in which one loves to engage for recreation. Our chapel programs have been accomplished, we hope that we have made progress toward better choral work. There are many A students here in their work.

We have a democratic institution. Our students learn to be good citizens by practicing and living the highest ideals. Dr. Kippley and John Dewey would find here their best philosophy of education.

Is it any wonder the survey group and the regents left us to continue our good work? The college has bright future and we hope to see most of the under-graduates back next fall with many new faces with us.

We wish for all a most pleasant vacation.

THE GEORGE-ANNE

This issue of the George-Anne, coming on the eve of examinations, brings the student's work to a close. Next school year, and an excellent year in extra-curricular activities.

The George-Anne was re-organized last fall, changing from a mimeographed sheet to a printed newspaper. The staff is used to successfully work on the paper. The students are used to successfully work on the paper. Credit is due also the entire student staff which is used to successfully work on the paper.

The George-Anne is the quickest means she knows of having people write on your annual. Thus you may sell your annual for a couple of hundred thousand years.

Autograph hounds! Yes, we have them, but after all it comes only once a year.

And perhaps twenty years from now we will remember that our annual was the best thing we had. And perhaps twenty years from now we will remember that our annual was the best thing we had. And perhaps twenty years from now we will remember that our annual was the best thing we had.

The iceman who dropped a fifty-dollar bill.

T. C. ATHLETIC YEAR REVIEWED  
(Continued from page 1)

T. C. BASEBALL TEAM FINISHES SCHEDULE

The end of this school year brings to a close the best year of sports this school has ever enjoyed. All three major conference titles were won by the Teachers. Some were won by a large majority, while one was not decided till the final game, but all were finally awarded to T. C. This is an enviable record for the teams of this school to make. It is a tribute to the coach and to the participants. It shows that while competitive athletics are not stressed, the school does stand for winners in the realm of sports.

This fine record started with the football team. A fast, shifty backfield and a strong and sure line proved to be too much for most of our opponents. Five games were won and the only loss was over the Blue Tide. The Teachers played in the conference. The Teachers showed two excellent sides. The first, led by drivers in Mobley, Hines, and Norman Park. B.-P. I. was played twice here the following week and resulted in two victories over B.-P. I., none measured up to these. In Ket- tles, the Teachers had the best catcher in the conference. Although he was in a batting slump at the first of the season, his defensive work was outstanding. He cut down base runners just like sharpshooter picking them off with a rifle. Nobby tried to steal him but once. His hitting picked up considerably before the season ended.

The infield combined timely hitting with excellent fielding. All in all it was a great season and the Teachers deserve praise for coming out on top with the conference crown.

CapturE CONFERENCE CROWN FOR SECOND SUCCESSIVE YEAR WITH SAFE MARGIN

The Georgia State Conference baseball season ended recently, with the Teachers again on top. This makes two successive seasons the Teachers have captured the baseball crown, and leads one to believe that the boys from T. C. can throw that "rock" around, hit, which is unusual in pitchers. Seven of the pitchers in Mobley and Skyden. Mobley, Shell, Munch, and Rhodes turned in a no-hit game to bring credit. Both of the pitchers showed ability to hit, which is unusual in pitchers. Several extra pitcher games were used, but none measured up to these. In Ket- tles, the Teachers had the best catcher in the conference. Although he was in a batting slump at the first of the season, his defensive work was outstanding. He cut down base runners just like sharpshooter picking them off with a rifle. Nobby tried to steal him but once. His hitting picked up considerably before the season ended.

The infield combined timely hitting with excellent fielding. All in all it was a great season and the Teachers deserve praise for coming out on top with the conference crown.

BACHELORS GIVE
“MUSICAL TEA”

“Mrs. Jiggs Gives a Musical Tea,” was the clever skit given by the Bachelors Club in chapel Tuesday morning. All Bachelors were bachelors no more and for thirty minutes they were attired in gay feminine costume with accessories—not to match.

Following the tea, whose everything was said in poetry and to music as the guests dined lively about judges were appointed and a beauty contest was held. Each lady walked across the stage for close examination. Miss Sidney Stapleton, the attractive colored maid was named first prize winner, with Miss Leonard Kent a close second. Miss Julius Hodges, just a good old-fashioned girl, and Miss Oscar Joiner, the charming hostess, tied for third place.

The “Musical Tea” was written by Mrs. Nolle Hines, instructor at G. S. C. W. in Milldegeville. Mrs. Hines has written a number of short skits and three-act plays. They can be obtained on a royalty basis.

T. C. ATHLETIC YEAR REVIEWED

(Continued from page 3)

The track team in its only competition went down before R.-P. L. Lack of training and coaching were responsible. The men composing the team were Davis, Hinton, Deal, Wilson, Anderson, Collins and Smith. Next year we hope to develop a real track team and take on anybody who is not afraid of getting beat.

All in all, it has been a great year for athletics at the school. Everybody has tried to co-operate in making it a good year and the players all come through to win. More power to T. C.!

NEW TRAINING SCHOOL NEARING COMPLETION

(Continued from page 1)

There will be a boiler room with showers and the building will be steam heated throughout. The new project training school will open for the fall semester. Teachers. We are extremely fortunate in having so noble a personage as Mr. Downs as a faculty member. Other members of the training school faculty will be Miss Donovan, Miss Gerdine, Miss Campbell and Miss Wood. This marks a new era in the history of South Georgia Teachers College.
