NO. 13

DR. M. S. PITTMAN IS NEW T. C. PRESIDENT

NEW COLLEGE BUS ACQUIRED BY A. A.

ATHLETIC TEAMS MAY NOW
TRAVEL IN COMFORT AND
STYLE TO MEET OPPONENTS.

The Athletic Association has purchased a large twenty-passenger bus which went into service Thursday to carry the baseball team to Mt. Vernon.

The transportation problem has long been a thorn in the side of those who look after the affairs of the association. The transportation problem has been solved with the new bus which will adequately take care of all out of town trips.

The bus is solely the property of the Athletic Association and the only means of paying for this new method of transportation is from the profits made from trips. Other organizations on the campus that desire to use the bus must, of course, pay mileage. After the close of the baseball season the bus will be stored until next fall when four football trips will be made.

The new bus is equipped with very heavy upholstery, rides comfortably and looks good. It will not only furnish transportation for the athletic teams but will be one of the best advertising mediums that the college has had. The colors of the bus correspond to the colors of the college, light blue trimmed in a silver white.

Registration for Short Term Begins Today

Approximately one hundred new students will enroll for the Spring Short Term which opens today. This term is only six weeks and the purpose of such a term is for those teachers whose schools are already closed for the year, to come to the college and get special training during the regular term. This will increase the enrollment for the year to about 650.

The Student Apartments, located down in front of Mr. Wells' home, have been completed and can accommodate some 20 students. These apartments are modern in every sense of the word, with steam heat, showers, electricity and beaver board interior. At the entrance a comfortable lobby has been provided.

The golf course, tennis courts and swimming pool have been put in readiness for the use of the new students. The Science Hall will be finished very soon and the completely equipped laboratories will add much to the college. The new class rooms being added to the Administration Building will also be finished very early in the spring term.

GUY H. WELLS,
Retiring President

Message From Dr. Pittman

To the Student Body:

Many thanks for the message of cordial welcome extended by the student body.

My coming to Georgia is filled with much pleasure and inspiration because of the cordiality so generously extended. The greatness of a college is not determined by its president but by its student body and its alumni. It will be my definite purpose and policy to encourage the students and alumni to fully recognize their share of opportunity and of responsibility for the advancement of their college. With the united effort of the Board of Regents, the faculty, the student body, the alumni and the general citizenship of Georgia, we should be able to cause our school to occupy its rightful place in the program of progress which is now in process in Georgia.

Sincerely yours,
MARVIN S. PITTMAN.

HISTORY CLASS TO MAKE ANNUAL TRIP

The Georgia History class will leave Friday, April 27, on a tour of the Georgia coast. They will be accompanied by Miss Newton, professor of Georgia History, Dean Henderson and Mr. Downs, director of Teacher Training. Opportunity will be given to get first hand information about that historical section of Georgia.

While in Savannah, no place of interest will be overlooked. Visits will be made to the Colonial cemetery, various monuments, and naturally much time will be spent delving in the interesting archives of the Georgia Historical Society.

Proceeding down the coast, stops will be made at Midway and Sunbury. At Midway the class will sign their names along with those of the great and near great in the visitors' book at the old church.

At Darien, the oldest mission in Georgia, founded by the Spanish for the Indians, will be explored. From Darien to Brunswick is the next jaunt and in that city many historic sites are located. The class will go from Brunswick to St. Simons to view the site of the Battle of Bloody Marsh and the old forts at Frederica.

As the various spots are visited, facts will be noted for future discussion. The class will return to the campus some time Sunday, April 29.

You probably didn't know that the great majority of V. M. I. cadets have a future in store for them. You may believe that, if you take Oscar Wilde for an authority, for it is he who said that saints have a past, and sinners a future. He ought to have known.—Cadet.

HELEN OLLIFF IS QUEEN OF MAY

Miss Helen Olliff, of Statesboro, was unanimously elected to reign over the annual May Day festivities of the college to be held on May 5th. Miss Caro Lane, director of physical education, and Miss Mary Small, of the art department, are planning to make this one of the gala occasions of the season.

Other students, who were chosen by popular vote, will comprise Miss Olliff's court. They are: Mary Wolff, Eloise Preetorius, Marie Vandiver, Margaret Owens, Carolyn Mundy, Alice Gray, Sadie Fulcher, Mary Margaret Blitch, Evelyn Mathews, Josephine Murphy and Jewel Greene.

This year's May carnival is to be decidedly different from the one presented last year. Miss Newton, of the history department, staged an elaborate pageant depicting the evacuation of the Cherokees.

The festivities will consist of spring dances, May pole dances and other merriment. Ladies of the court will be dressed to represent people of different nationalities and will render dances characteristic of these countries. Children of the Training School are to be the flower girls and will usher in the queen and her court.

This affair promises to be a delightful event of the school year. Work has already begun on the costumes.

Optional attendance at classes has been granted to students with a B average at Southwestern College, Winfield, Kans. The experiment will be tried during the second semester with the possibility of making it a permanent part of the system.—Southwestern Collegian.

PRESIDENT WELLS MOVED TO G. S. C. W.

BOARD OF REGENTS PROVIDE
CHANGES IN UNIVERSITY
SYSTEM TO BECOME EFFECTIVE
JULY 1ST.

Dr. Marvin S. Pittman, director of teacher training at Michigan State Normal College, located at Ypsilanti, Mich., will become head of South Georgia Teachers College July 1. Under the new set-up brought about by the Board of Regents, President Guy Wells will be transferred to the presidency of G. S. C. W., at Milledgeville.

President Wells has been head of the college since 1926. He has guided the institution through the period of its infancy and growth, having developed it into a four-year teachers college. Seven years ago, when President Wells came to Statesboro from Eastman, the Teachers College was only a two-year normal school. The accomplishments and forward movements of the college are largely the results of his broad vision during his period of leadership.

There is not a doubt that T. C. can look forward to a continuation of growth and prosperity under the capable leadership of Dr. M. S. Pittman. He is a man thoroughly familiar with rural education and understands the functions of a teachers college. Although he has been a teacher of his-

(Continued on page 2)

Speakers Announced For Commencement

Commencement exercises will be held the week end of June 3-4. This year very outstanding speakers have been secured for both baccalaureate sermon and the literary address.

Dr. W. A. Taliaferro, pastor of the Bull Street Baptist church, Savannah, will give the baccalaureate sermon Sunday, June 3, at 11:30 a. m. in the auditorium.

Ralph Newton, superintendent of the Waycross Schools and widely known South Georgia educator, will deliver the literary address on Monday morning, June 4, at 11 o'clock.

These two splendid addresses together with the other commencement festivities will bring to a close a most successful college school year. Mr. Newton has been on our campus a number of times and should bring a very inspiring message to the graduates.

This year there are 25 students receiving the B. S. degree; 8 receiving the Junior College Certificate, and 34 receiving a Normal Diploma.

PRESIDENT WELLS

President Guy H. Wells! The George-Anne voices the prevailing sentiment in saying that—to the student body as a whole, and to each individual, that name represents sympathetic friendship, inspirational leadership, growth and progress.

It is not necessary to enumerate the many things which he has done here. One glance over the campus, at the buildings, the shrubbery, the lakes and the golf course, will be enough to convince anyone of his never-ending work for the college. These things sing his praises everywhere.

Mr. Wells belongs to us not only as a president, but as a native of our state. He was born in Temple, Georgia, September 26, 1898. His wife, formerly Miss Ruby May Hammond, is also from Temple. It has been our privilege to associate daily with his two children, Guy Herbert Wells Jr. and Margaret Anne Wells.

Mr. Wells is a graduate of Mercer University, receiving his A. B. degree from there in 1915. In 1925 he received his A. M. from Columbia. He has also done graduate work at George Peabody College for Teachers.

Before he came here our president was superintendent of Lumpkin High School, 1915-1918, of Richmond High School, 1918-1922, and of Eastman High School from 1922 until 1926, when he was transferred to Statesboro. He was the organizer of the State School Superintendents' Association, is a member of Georgia Parent-Teacher Association and was once president of the Georgia Education Association. He is also a member of the Phi Delta Kappa fraternity, and a member of the Baptist church, the Masons, the Kiwanis Club. He is also a contributor to the Georgia Education Journal.

The George-Anne, in behalf of the students, wishes to congratulate Mr. Wells on his promotion, and to wish for him all the success which we know he wishes for us.

KEEP UP THE GOLF COURSE

A recent folder of the college advertises a \$10,000 golf course. There is no disputing that we have one of the finest courses in the country, but the fairways look as if a young forest were well on the way to maturity. A little upkeep, time, and money would make this course one of the beauty spots as well as recreational centers of the campus. Let's keep up our golf course!!

THE NEW PRESIDENT

It is evident everywhere that Mr. Wells has been a capable president, but it is only fitting that we express our hearty approval of the selection of a new president, made by the Board of Regents, and also our jubilation over his acceptance. Under the direction of such a man as Dr. Marvin Summers Pittman our school should continue growing as it has in the past few years.

Dr. Pittman is a native of Mississippi. He attended prep school at Bellefontaine Academy, and in 1905 received his A. B. degree from Millsaps College. In 1917 he received his A. M. degree from the University of Oregon, and in 1921 his Ph. D. from Columbia University. Besides attending those schools of the United States, he has studied abroad. In Germany, France, Spain, Denmark and England, he has made a thorough study of the operation of rural school. With such an education as this, we are indeed fortunate to get Dr. Pittman as president of our school.

Dr. Pittman began teaching as a high school principal in Louisiana. During his teaching career he has been professor of history at Louisiana State Normal and director of teacher training at Michigan State Normal. He has been at the latter position in Ypsilanti since 1929.

Dr. Pittman is not only a teacher, but an author. He has written several educational books, among which we find: "The Value of School Supervision," published 1921; "A Guide to the Teaching of Spelling," 1921; "Successful Teaching in Rural Schools," 1922, and "Problems of Rural Teachers," 1924.

Our new president is a member of the Methodist church, also a Mason, an Odd Fellow, a Rotarian and a Democrat. He is a member of the National Department of Rural Education, Kappa Delta Pi, Phi Delta Kappa and Kappa Alpha fraternities. In 1911-12 he was president of Louisiana State Teachers' Association, and in 1929-30 was president of the Ypsilanti Board of Commerce.

Dr. Pittman comes to S. G. T. C. with the sincere wish of the student body that he may like us and our school, and our state. We are sure that both he and Mr. Wells will be a success in their new positions, and it is our wish that G. S. C. W. welcome and co-operate with Mr. Wells as heartily as we expect to welcome Dr. Pittman.

TO BE CONTINUED

In the last issue of the George-Anne there appeared some criticism of several things connected with the life of the campus. We believe in also giving credit where credit is due. Therefore, realizing the many fold purposes of an editorial, various things of a commendable nature and also constructive suggestions are to be continued in the later issues.

With approaching elections, the George-Anne thinks it is necessary simply to say that the paper will be neutral. No candidate will be supported either independently or otherwise. However, we are for clean politics and want to encourage every voter to weigh his decision before casting his ballot. Vote for the man that appears to you to be able to carry on in the most efficient way. Personal feelings should not vie with true school spirit.

If we don't put in spirit and whole-hearted support, can we be foolish enough to expect a winning team?

T. C. Through a Keyhole

Since the Baptist picnic, Miss Sophie has advanced the theory that Miss Veazy "ain't brung" her girls up right, 'cause it was Mapearle that enticed Fleming off so far that he couldn't be found when the "dogs" were done. But we don't blame you girls, 'cause didn't Miss Veazy keep Britt out till after 12?

Charlie Munch should paraphrase that old song, "Aggravatin' Papa, Don't You Try to Two-Time Me," to "Aggravatin' Margaret, Don't You Try to Two-Time Me."

Edna Bennett is getting more ambitious—first, Leon Parks and now John Gaissert. Honest, now Edna, we thought he couldn't be had. Perhaps she caught him on the rebound, now that he's broke with the one back home.

There were so many visitors at the Science Club Thursday night (when the lights were out) that the president had to get up an announce that the program was in the front of the room and not in the back.

The girls on the campus don't know what a treat that's in store for them—Alton Settles has announced his intention of having a date every Sunday night from now to the end of school.

Has Herschel beaten I. D.'s time with Martha?

A good many hearts were broken when a certain little brunette from Vidalia appeared on the campus and immediately sidetracked our "Red."

This column does not attempt to take the place of Sally Snooper or Kigy, but just presents a few plain unvarnished facts, left to the interpretation of the reader.

PRESIDENT WELLS MOVED TO G. S. C. W.

(Continued from page 1)

tory in Louisiana State Normal School, director of rural education in the state of Oregon, and head of rural education at the Michigan State Normal School, he is at present director of teacher training at the latter institution. He has held this position since 1929.

Dr. Pittman is a man thoroughly qualified to head teacher training work.

.. Poet's Corner ..

NIGHT HAVEN

I love the darkness and the shadows,
The mystic beauty of the night,
The shimmering loveliness of faded flowers,

That sleep unmolested in the pale moonlight.

I love the charm of moonlight fantasies,

The blessed stillness that it brings,
And when the quiet at last is broken,
I love the song the nightingale sings.

Oh, night, mystic queen of beauty,
Let me worship at thy shrine;
Show me the things of life that are beautiful,

Give me the power to make them mine.

—POLLY MINCY.

SPORTS

TEACHERS SPLIT DOUBLE-HEADER

**BLUE TIDE EVENS SERIES WITH
NORMAN PARK BY PLAYING
EXCELLENT BALL IN FIRST
GAME.**

The Profs, after a rest of over a week, won from Norman Park 9 to 6 Monday. Although they failed to practice any during the past week, the Teachers played splendid ball.

For the Profs, Dubose, Shippey and McKneely gathered two hit each, while Wood and Hines secured two walks each; Spears showed outstanding ability in the field. For the Bears, Hayes played errorless ball afield and gathered two hits, while Owens and Cordell scored a couple of bingles.

The Parkers scored one in the first, but the Profs soon overcame this lead and led 8 to 4 in the sixth. The opponents scored one in the seventh and one in the eighth to bring the total to 6, while Spears scored one in the eighth for the Teachers to bring their final score to 9 runs and 14 hits. Griffin and Thomas pitched excellent ball. Griffin held the Bears until the sixth, when he gave way to Thomas, who gave up only one run.

In the second game the Teachers' long rest caused them to be stiff, and they were unable to cope with the fast Parkers. Hines and McKneely led the Profs at bat with two each. For Norman Park, Hayes gathered 5 for 5 and Cordell 4 for 6. Smith pitched fast ball for the visitors in the 17 to 4 win.

W. A. A. to Sponsor Stunt Night on Friday

The Women's Athletic Association, under the direction of Mrs. Dyer, will sponsor a stunt night in the auditorium on Friday night, April 27. The program will consist entirely of stunts and skits worked out by the individual members of the athletic council. Each member of the council will have charge of one or more parts on the program. The definite plan as to the arrangement of the program have not been completed, but from all outward appearances it will be a thoroughly delightful evening.

A small admission charge will be charged, the proceeds of which will go to buy more equipment for the athletic association. Everybody enjoys playing with the golf clubs, tennis rackets, etc., down at the gym, and it is only fair that they should receive the co-operation of the entire school in order to buy more equipment.

BACHELORS' CLUB

At the next meeting of the Bachelor's club, which will be held Wednesday night, members for the ensuing year will be elected. Plans for a chapel program to be given sometime in the near future are being made, and from all appearances it will be very interesting.

Swimming Pool Hours Are Set for Students

A good indication that "Old Man Winter" has gone is the fact that many of the students may be seen at all hours of the day in many forms of scanty attire in the swimming pool.

In keeping with the administration's ideas the boys and girls have been assigned certain hours to use the pool for recreational purposes. The boys may use the pool on Tuesday and Thursday from 4 to 5, and on Monday, Wednesday and Friday from 5 to 6. The girls have been assigned the hours 4 to 5 on Monday, Wednesday and Friday, and on Tuesday and Thursday from 5 to 6. At these hours a lifeguard will be on hand for the purpose of safety and the administration has requested that no student swim without the presence of a lifeguard. The pool should not be used except during the hours assigned.

During the year tryouts will be held for the Red Cross certificate.

Smith Defeats Munch In Tennis Finals

Wilkins Smith defeated Charles Munch in the finals of the tennis tournament April 11th, 1-6, 7-5 and 6-4. Munch won the first set, but Smith seemed to gain more strength and won the next two sets easily. Smith's well placed shots and net play proved too much for the tiring Munch.

A tennis team is to be selected by Mr. Hanner, and all interested may see him at an early date.

PROFS LEAVE FOR B.-P. I. IN NEW BUS

With half the school looking on, the Profs left Thursday morning for a two-game series with B.-P. I. The reason for the send-off was the new bus, which the Athletic Association has recently purchased.

Coach Smith carried eighteen men on the trip, 4 of them being pitchers. Those making the trip were: Martin, Hines, Woods, Dubose, Smith, Shippey, Wiggins, Arnold and Wilkes in the infield; Spears, McKneely, Stein, outfielders; Griffin, Thomas, Settles, Ratley and McKneely, pitchers.

As the paper went to press word

Happenings in the Training School

The enrollment of pupils in the Training School has been increased by seven since the spring holidays. Indications are most favorable for a full enrollment at the beginning of the new college year. Beginning with the fall term there will be nine grades in the program of the campus school. This will afford an opportunity of organizing the seventh, eighth and ninth grades into a junior high school. This unit will be operated according to a program that will be practical for the nine-grade consolidated schools throughout this section.

The facilities for supervised teaching will be increased next college year. A very satisfactory arrangement has been made with the school board of Warnock school whereby the college will extend its supervision in a partial way to this school. The third grade at Warnock will be turned over to the Training School direction. Three student teachers will have the opportunity to spend an entire term in an actual school situation with full responsibility for the work of the grade. These students will live on the campus while teaching. They will have daily contact with the supervisors of the Training School either on the campus or in the school room. Certain standards must be met by these students who will do this work before the selections are made.

Much interest is manifested by the student teachers in the first four grades in developing units of study around some activity. The story of Robin Hood is furnishing a decided stimulus to the fourth grade. Reading, drawing, oral and written English and music have received much attention from these children due to this activity. Parallel with this is another project, the story of King Arthur and his Knights has lead into the building of a castle.

The first grade is very greatly interested in making some new furniture for the little house. The grocery store in the second room is providing some real life experiences in their school program. Besides these units of work mentioned there are others in the process of development. About the middle of May an opportunity will be given those interested to see what has been accomplished.

was received that the Profs tied with B.-P. I. in the first game. Griffin pitched for the Profs and wasn't touched for a hit until the 5th inning. The final score was 1-1.

DEAR EDITOR—

In the last edition of "Our" paper I noticed that you published a list of some of the criticisms that have been made about the G.-A. I want to say that I'm glad that our school paper is large enough and strong enough within its own face value to publish such criticisms and take them for what they are worth.

That little feature called to my attention some of our "Beloved" students who are existing on our campus today as stagnant pools of water. The only difference is, they breed sickly propaganda instead of mosquitoes. There are only a few, but they are a few more than we need. Every institution has them, high schools, colleges, universities, churches and penitentiaries. I'm speaking of those people who are always and forever apologizing for being in their present environment.

Critical and apologetic, those are the students I'm talking about—"Depression Students"—for that is just what they are. They depress everything, even themselves; though they think they are doing a little self-inflation work at the expense of the school and those related to it.

Students who would not be here if their "Old Man" (pardon the expression, fathers, but that is what your depression sons and daughters call you) had made a good cotton crop last year—if their mother had not had a spell of sickness six years ago and run up a big doctor's bill that is still costing their "Old Man," or if the people would only pay their "Old Man" what they owe him, they would be at some large university studying medicine or law.

It's O. K. to accept fate as one of the forces which determine our destiny, but why harp on it. All of us would most likely be somewhere else if things in the past had not happened just as they did.

I would like to know what makes these students think, that apologizing to their fellowman for being at South Georgia Teachers College will put them in a social class above that of the students who come here to make the best of what they have and boost the school so they will have more to build upon.

"Depression Students," don't K. I. G. Y.-self! Every time you open your trap you are degrading yourself as well as society. A STUDENT.

OUR COLLEGE

NEWS ... VIEWS

MISS CARO LANE spent last week in Cleveland, Ohio, attending a conference for physical education directors. In her absence Mrs. Byron Dyer conducted her classes.

T. C. GOT A TASTE of night life at the party given by the French Club Saturday night. The ideas carried out were decidedly an innovation in the campus social activities, and the students enjoyed the affair uproariously.

THE SPANISH STUDENTS have arranged a club and bids were sent out last week to those who are eligible. There seems to be more interest taken in the modern languages this year if the clubs and the number of members are any indication.

IF SUCH A GOOD TIME can be had every time the lighting system fails as was had Thursday night, all the students will be singing "Pray for the Lites to Go Out," continuously.

ONE WONDERS what T. C. is coming to when the boys and girls are allowed to dance during the week. Everyone is grateful to the administration for extending that privilege and hopes that it may be enjoyed again.

MANY NEW FACES will be seen on the campus with the beginning of the short spring term today.

WITH THE DISTRICT meet being held in Statesboro, many visitors thronged the campus Friday. In the afternoon a lovely reception was given by the college in the sunken garden.

ALICE GRAY is the latest victim of the mumps.

THE NEW ADDITIONS to the administration are speedily nearing completion with no casualties as yet.

DR. ROBERT EMORY PARK, M. A., Litt. D., head of the department of English at the University of Georgia and a member of the Phi Beta Kappa, spoke to the student body at a special chapel period Saturday morning. The college considers itself fortunate in obtaining a portion of Dr. Park's time, and his worthwhile message was an inspiration to faculty and student body.

THE DISTRICT HIGH SCHOOL home economics contest was held at the college Friday morning. The winner here will go to Athens to compete in the state meet.

MR. A. A. SINGLEY spent Friday in Uvalda judging the literary contest in the Montgomery county meet. Several students from the college accompanied him to assist in the judging.

MR. COBURN, director of the Coburn Players, will speak in chapel Wednesday morning. He is staging the "Yellow Jacket" in Savannah at an early date.

Faculty and Students Laud President Wells

PRESIDENT GUY H. WELLS

Through the George-Anne, the student body wishes to take the privilege to express its deep appreciation to President Wells for his inestimable services to this institution.

Nothing that we could say would add to the already existing monuments of his dauntless efforts and untiring services. He leaves the school and its associates permeated with indelible ideals and abounding in the prosperity of which he is the pioneer.

We have been stimulated by his rich philosophy of life. He has been a man that has "so lived to let his light shine . . ." to enable him to live one day at a time and that fully enough to see the "finer things of life" and to cherish the association of his "fellowman." Mr. Wells has influenced us to live the right kind of life systematically, happily and fully. Though he is to continue his work in another part of the state, we can pay him no higher tribute than to say, "He has left us an everlasting remembrance."

Respectfully submitted,
THE STUDENT BODY.
April 18, 1934.

Resolutions Adopted For President Guy H. Wells, South Georgia Teachers College, April 17, 1934.

We, the faculty of South Georgia Teachers College, wish to express to our esteemed president, Guy H. Wells, our genuine appreciation of:

1. His vision of a teacher-training institution which has rapidly developed under his guidance.

2. His inspiring and tireless leadership which has continuously directed the activities of the college.

3. His spirit of service which has been manifested in the civic and religious organizations of the community; his personality which is stamped on the campus and which is reflected in the morale of the student body.

4. His love of beauty which is seen in the trees, the shrubbery and the many improvements on the college campus; the institution which is predominantly the product of his efforts.

We regret to lose him as our leader, counsellor, and friend, but we rejoice that he is to continue to serve the educational interests of the state in the presidency of Georgia State College for Women. We believe that he will be careful to conserve the noble traditions of that college, and that he will lead in the adjustment of the institution to the spirit of the new times.

CLUBS

L. T. C.

At the next regular meeting of the L. T. C.'s, Misses Katherine and Lilian Simmons will entertain with a feast in their room.

MATH CLUB

At the last meeting of the Math club, all of the members very effectively displayed their ignorance on mathematical history. The program consisted of a match between two sides chosen from the club. Questions were asked and as a person missed, he sat down. Jim Wrinkle and Martin McGregor were the last to sit down.

SCIENCE CLUB

The last meeting of the Science club was held Thursday night by candlelight. The program consisted for the most part of impromptu speeches made by five members of the club on the funniest experience they could remember. George Carter won the prize, a straight pin. Tentative plans for a big spring outing were discussed. If noise was any fair indication of enjoyment, the program was a tremendous success.

D. L. D.

The Athletic Association has awarded blue and white ribbons to the members of the D. L. D. basketball team which recently won the inter-sorority tournament. Saturday night Sadie Fulcher and Torrence Brady were hostesses at a feast.

EPICUREANS

Mary Wolff and Harriet Vandiver entertained with a feast immediately following the regular meeting Tuesday night. Plans were made for a dance to be given May 5th probably in the auditorium of the Training School.

FRENCH CLUB

The French club was host to the entire student body at a party in the gym Saturday night. The idea was novel and, for that reason, interesting. A French cafe—we felt like we were in Paris for sure. The decorations showed much thought and careful planning. Even those who didn't dance were amply supplied with entertainment. This was one of the best planned affairs of the year. Congratulations, French club!

LAST RITES FOR TWO PET FISHES

In a setting of mystic beauty on the shores of Lake Wells—for more than two years dedicated to meditation and ceremony—two young fish, Gold Nigger and Thais, were laid to rest in a solemn ceremony which was enhanced rather than lessened by its simplicity.

There was no sermon, no eulogy in that simple requiem near the moon-lit waters of the lake. The services at the grave, now sealed over with a huge slab of granite, were brief, consisting of a song and a few last words of appraisal by those present.

Gold Nigger was the property of Bill Stewart, a gift to him from Miss Louise Yeomans. Thais was owned by Joe Purvis, likewise a gift from Miss Yeomans.

The partners-in-bowls were lain together on a mass of soft cotton and placed in a glass casket for the last rites.

A tomb is soon to be erected at the grave.

Purvis Is Elected President Y. M. C. A.

Officers for 1934-35 were elected at the regular meeting of the Y. M. C. A. last Wednesday evening.

The new group includes: J. D. Purvis, president; Alton Ellis, vice-president; Julius Hodges, secretary; Douglas Jackson, chaplain; John Bridges, pianist, and Howell Martin, song leader.

In addition to being next year's Y. M. C. A. president, J. D. Purvis will be secretary of the state cabinet, having been elected at the Wesleyan conference in March.
