NEW COLLEGE BUS ACQUIRED BY A. A.

ATHLETIC TEAMS MAY NOW TRAVEL IN COMFORT AND STYLE TO MEET OPPONENTS.

The Athletic Association has purchased a large twenty-passenger bus which went into service Thursday to carry the baseball team to M-Vernon.

The transportation problem has long been a thorn in the side of those who look after the affairs of the association. The transportation problem has been solved with the new bus which will adequately take care of all out-of-town trips.

The bus is only the property of the Athletic Association and the only means of paying for this new method of transportation is from the profits made from trips. Other organizations on the campus that desire to use the bus must, of course, pay mileage. After the close of the baseball season the bus will be stored until next fall when four football trips will be made.

The new bus is equipped with very heavy upholstery, rides comfortably and looks good. It will not only furnish transportation for the athletic teams but will be one of the best advertising mediums that the college has had. The color of the bus corresponds to the colors of the college; light blue trimmed in a silver white.

Registration for Short Term Begins Today

Approximately one hundred new students will enroll for the Short Term which opens today. This term is only six weeks and the purpose of such a term is for those teachers whose schools are already closed for the year, to come to the college and get special training during the regular term. This will increase the enrollment for the year to about 600.

The Student Apartments, located down in front of Mr. Wells’ home, have been completed and can accommodate about 35 students. These apartments are modern in every sense of the word, with steam heat, showers, electricity and Beaver hall inter. At the entrance a comfortable lobby has been provided.

The golf course, tennis courts and swimming pool have been put in readiness for the use of the new students. The Science Hall will be finished very soon and the completely equipped laboratories will add much to the college. The new class rooms being added to the Administration Building will also be finished very early in the spring term.

GUY H. WELLS, Retirement President

HISTORICAL CLASS TO MAKE ANNUAL TRIP

This Georgia—Historical class will leave Friday, April 37, on a tour of the Georgia coast. They will be accompanied by Miss Newton, professor of Georgia History, Dean Henderson, and Mr. Downs, director of Teacher Training. Opportunity will be given to get first hand information about that historical section of Georgia.

While in Savannah, no place of interest will be overlooked. Visits will be made to the Colonial cemetery, various monuments, and naturally much time will be spent delving in the interesting archives of the Georgia Historical Society.

Proceeding down the coast, stops will be made at Midway and St. Simons. At Midway the class will sign their names along with those of the great and near great in the visitor’s book at the old church.

At Darien, the oldest mission in Georgia, founded by the Spanish for the Indians, will be explored. From Darien to Brunswick is the next point and in that city many historic sites are located. The class will go from Brunswick to St. Simons to view the site of the Battle of Bloody Marsh and the old forts at Frederica.

As the various spots are visited, facts will be noted for future discussion. The class will return to the campus some time Sunday, April 29.

You probably didn’t know that the great majority of V.M.I. cadets have a future in store for them. You may believe that, if you take Oscar Wilde for an authority, for it is he who said that saints have a past and sinners a future. He ought to have known—Cader.

HELEN OLLIFF IS QUEEN OF MAY

Miss Helen Olliff, of Statesboro, was unanimously elected to reign over the annual May Day festivities of the college to be held on May 4th. Miss Caro Lane, director of physical education, and Miss Mary Small, of the art department, are planning to make this one of the gala occasions of the year.

Other students, who were chosen by popular vote, will comprise Miss Olliff’s court. They are: Mary Wolff, Eloise Pretorius, Marie Vandervis, Margaret Owens, Carolyn Mundy, Alice Doty, Sadie Polkner, Mary Margaret Blich, Evelyn Mathews, Josephine Murphy and Jewel Greene.

This year’s May carnival is to be decidedly different from the one presented last year. Miss Newton, of the history department, staged an elaborate pageant depicting the evacuation of the Cherokee.

The festivities will consist of spring dances, May pole dances and other entertainment. Ladies of the college will be dressed to represent people of various nationalities and will render dances characteristic of these countries. Children of the Training School are to be the flower girls and will enter in the queen and her court.

This affair promises to be a delightful event of the school year. Work has already begun on the costumes.

Optional attendance at classes has been granted to students with a B average at Southwestern College, Winfield, Kans. The experiment will be tried during the second semester with the possibility of making it a permanent part of the system.

Sincerely yours,

MARVIN S. PITTMAN.

PRESIDENT WELLS MOVED TO G. S. C. W.

BOARD OF REGENTS PROVIDE CHANGES IN UNIVERSITY SYSTEM TO BECOME EFFECTIVE JULY 1ST.

Dr. Marvin S. Pittman, director of teacher training at Michigan State Normal College, located at Ypsilanti, Mich., will become head of South Georgia Teachers College July 1. Under the new set-up brought about by the Board of Regents, President Gay Wells will be transferred to the presidency of G. S. C. W., at Milledgeville.

President Wells has been head of the college since 1925 and has guided the institution through the period of its infancy and growth, having developed it into a four-year teachers college.

Seven years ago, when President Wells came to Statesboro from Eastman, the Teachers College was only a two-year normal school. The accomplishments and forward movements of the college are largely the results of his broad vision during his period of leadership.

There is not a doubt that T. C. can look forward to a continuation of growth and prosperity under the capable leadership of Dr. M. S. Pittman. He is a man thoroughly familiar with rural education and the functions of a teachers college. Although he has been a teacher of his alma mater for many years, his wide experiences have opened his vision to see the larger picture of educational work.

(Continued on page 2)

SPEAKERS ANNOUNCED FOR COMMENCEMENT

Commencement exercises will be held the week end of June 24. This year very outstanding speakers have been secured for both baccalaureate and the literary address.

Dr. W. A. Taliferro, pastor of the Bell Street Baptist church, Savannah, will give the baccalaureate sermon Sunday, June 3, at 11:30 a.m. in the auditorium.

Ralph Newton, superintendent of the Waycross Schools and widely-known South Georgia educator, will deliver the literary address on Monday morning, June 4, at 11 o’clock.

These two splendid addresses together with the other commencement festivities will bring to a close a most successful college school year. Mr. Newton has been on our campus a number of times and is always a very inspiring message to the graduates.

This year there are 25 students receiving the B. S. degree; 1 receiving the Junior College Certificate, and 34 receiving a Normal Diploma.
It is evident everywhere that Mr. Wells has been a capable president, but it is only fitting that we express our hearty approval of the selection of a new president, made by the Board of Regents, and also our jubilation over his acceptance. Under the direction of such a man as Dr. Marvin Summers Pittman our school should continue growing as it has in the past few years.

Dr. Pittman is a native of Mississippi. He attended prep school at Bellefontaine Academy, and in 1905 received his A. B. degree from Millsaps College. In 1917 he received his A. M. degree from the University of Oregon, and in 1921 his Ph. D. from Columbia University. Besides attending those schools of the United States, he has studied abroad. In Germany, France, Spain, Denmark and England, he has made a thorough study of the operation of rural schools. With such an education as this, we are indeed fortunate to get Dr. Pittman as president of our school.

Dr. Pittman began teaching as a high school principal in Louisiana. During his teaching career he has been professor of history at Louisiana State Normal and director of teacher training at Michigan State Normal. He has been at the latter position in Ypsilanti since 1929.

Dr. Pittman is not only a teacher, but an author. He has written several educational books, among which we find: "The Value of School Supervision," published 1921; "A Guide to the Teaching of Spelling," 1921; "Successful Teaching in Rural Schools," 1923, and "Problems of Rural Teachers," 1924.

Our new president is a member of the Methodist church, also a Mason, an Odd Fellow, a Rotarian and a Democrat. He is a member of the National Department of Rural Education, Kappa Delta Pi, Phi Delta Kappa and Kappa Alpha fraternities. In 1911-12 he was president of Louisiana State Teachers' Association, and in 1924 was president of the Ypsilanti Board of Commerce.

Dr. Pittman comes to S. C. T. C. with the sincere wish of the student body that he may like us. Indeed, and our state is splendidly fortunate to have such able leadership. We are sure that both he and Mr. Wells will be a success in their new positions, and it is our wish that God bless and protect them. He is also a member of the Baptist church, the Masons, the Kiwanis Club. He is also a contributor to the Georgia Education Journal.

The George-Anne, in behalf of the students, wishes to congratulate Mr. Wells on his promotion, and to wish him all the success which we know he wishes for us.

The NEW PRESIDENT

Since the Baptist picnic, Miss Sophie has advanced the theory that Miss Vossey ain't brung her girls right, 'cause it was Napier that enelled Fleming off so far that he couldn't be found when the "dogs" done. But we don't blame two girls, cause didn't Miss Vossey keep Britt out till after 12?

Charlie Munch should paraphrase that old song, "Aggravatin' Papa, Don't You Try to Two-Time Me," to "Aggravatin' Margaret, Don't You Try to Two-Time Me."

Edna Bennett is getting more ambitious—first Leon Farres and now John Gaisser. Honest, now Edna, we thought he couldn't be had. Perhaps he caught him on the rebound, new that he's broke with the one back bone.

There were so many visitors at the Science Club Thursday night (when the lights were out) that the president had to get up an announcement that the program was in the front of the room and not in the theater.

The girls on the campus don't know what a treat that's in store for them—Alton Settles has announced his intention of having a date every Sunday night from now to the end of school.

Has Herschel beaten I. D.'s time with Alton Olliff?

A good many hearts were broken when a certain little brunette from Vidalia appeared on the campus and immediately endeared our hearts.

This column does not attempt to take the place of Sally Snopor and Kigy, but just presents a few plain unvarnished facts, left to the interpretation of the reader.

T. C. Through a Keyhole

Poet's Corner...

NIGHT HAVEN

I love the darkness and the shadows,
The mystical beauty of the night,
The blessed stillness that it brings,
The mystic beauty of the night,
I love the song the nightingale sings,
That sleep unmolested in the pale moonlight.

Oh, night, mystic queen of beauty,
I love the song the nightingale sings,
That sleep unmolested in the pale moonlight.

—POLLY MINCY.

Swimming Pool Hours Are Set for Students

A good indication that "Old Man Winter" has gone is the fact that many of the students may be seen at all hours of the day in many forms of scanty attire in the swimming pool.

In keeping with the administration's idea the boys and girls have been assigned certain hours to use the pool for recreational purposes. The boys may use the pool on Tuesday and Thursday from 4 to 6, and on Monday, Wednesday and Friday from 5 to 6. The girls have been assigned the hours 4 to 5 on Monday, Wednesday and Friday, and on Tuesday and Thursday from 5 to 6. At these hours a lifeguard will be on hand for the purposes of safety and the administration has requested that no student swim without the presence of a lifeguard. The pool should not be used except during the hours assigned.

During the year tryouts will be held for the Red Cross certified pool instructor.

Smith Defeats Munch
In Tennis Finals

Wilkins Smith defeated Charles Munch 6-4, 6-2 in the first game. In the second game the Teachers' tennis team played the Profs on a long rest, with Hines and McKneely leading the Bears. The final score was 4-6, while Spears scored one in the seventh and won.

PROFS LEAVE FOR B.-P. I. IN NEW BUS

With half the school looking on, the Profs left Thursday morning for a two-game series with B.-P. I. The reason for the send-off was the new bus, which the Athletic Association, under the direction of Mrs. Dyer, will sponsor a stunt night in the auditorium on Friday night. The spiritual interests of the school at this time are in the second room. The Presbyterians in the second room are providing a good indication that "Old Man Winter" has gone. The students are in the process of development. About some of the work mentioned there are others in the study of King Arthur and his Knights.

Teaching, drawing, oral and written English and music have received much attention from these children due to this project, the story of King Arthur and his Knights has lead into the building of a castle.

The facilities for supervised teaching in the General Education Program have been extended throughout this section. Much interest is manifested by the student teachers in the first four grades in developing units of study around some activity. The story of Robin Hood is furnishing a decided stimulus to the fourth grade.

A tennis team is to be selected by Mr. Banner, and all interested may come to me at an early date.

RACHELRS' CLUB

At the next meeting of the Racial Club, which will be held Wednesday night, members for the ensuing year will be elected. Plans for a chapel program to be given sometime in the near future are being made, and from all appearances it will be very interesting.

SOUTH MAIN ST.

PHONE 414

Dear Editor—

In the last edition of "Our" paper I noticed that you published a list of some of the criticisms that have been made of the G.-A. I want to say that I'm glad that our school paper is large enough and strong enough within its own face-value to publish such criticisms and take them for what they are worth.

That little feature called to my attention the fact that some students who are existing on our campus at this time are stagnating pools of water. The difference in them is, they breed various types of mosquitoes. There are only a few, but they are a few more than we need. Every institution has them, high schools, colleges, universities, churches and penitentiaries. I'm speaking of those people who are always and forever apologizing for being in their present environment.

Critical and apologetic, those are the students I'm talking about—"Depression Students"—for that is just what they are. They deplore everything, even themselves; though they think they are doing a little self-inflation work at the expense of the school and those related to it.

Students who would not be here if their "Old Man" (parson the expression, fathers, but that is what), your depression sons and daughters call you had made a good cotton crop last year—if their mother had not had a spill of sickness six years ago and run up a big doctor's bill that is still costing their "Old Man," or if the people would only pay their "Old Man" what they owe him, they would be at some large university studying medicine or law.

It's O.K. to accept fate as one of the forces which determine our destiny, but why harp on it. All of us would most likely be somewhere else if things in the past had not happened as they did.

I would like to know what makes these students think, that apologizing to their fellowmen for being at South Georgia Teachers College will help them in a social class above that of the students who come here to make the best of what they have and bend the school so they will have more to build upon.

"Depression Students," don't K. L. G.Y.-self. Every time you open your trap you are degrading yourself as well as society. A STUDENT.

Meet and Eat at the

Tea Pot

Cold Drinks Sandwiches
MISS CAROL LANE spent last week in Cleveland, Ohio, attending a conference for physical education directors. In her absence Mrs. Hync Fryer conducted her classes.

T. C. GOT A TASTE of night life at the party given by the French Club Saturday night. The ideas carried out were definitely an innovation in the campus social activities, and the students enjoyed the affair enthusiastically.

THE SPANISH STUDENTS have arranged a club and bids were sent out last week to those who are eligible. There seems to be more interest taken in the modern languages this year if the club and the number of members are any indication.

IF SUCH A GOOD TIME can be had every time the lighting system fails as was had Thursday night, all the players will be singing "Fray to the Lites to Go Out," continuously.

ONE WONDERS what T. C. is coming to when the boys and girls are allowed to dance during the week. Everyone is grateful to the administration for extending that privilege and hopes that it may be enjoyed again.

MANY NEW FACES will be seen about the college with the beginning of the short spring term today.

WITH THE DISTRICT meet being held in Statesboro, many visitors thronged the campus Friday. In the afternoon a lively spirit was given by the college in the sunny garden.

ALICE GRAY is the latest victim of the mumps.

THE NEW ADDITIONS to the administration are speedily nearing completion with qualifications as yet.

DR. ROBERT EMORY PARK, M. D., Litt. D., head of the department of English at the University of Georgia and a member of the Phi Beta Kappa, spoke to the student body at a party in the sunken garden.

L. T. C. At the next regular meeting of the L. T. C. from Enfield and a member of the Phi Sigma Sigma will entertain with a treat in their room.

MATH CLUB At the last meeting of the Math club, all of the members very effectually displayed their ignorance on mathe-matical history. The program consisted of a match between two teams chosen from the club. Questions were asked and on a proper miss, he sat down. Jim Wrinkle and Martin McGregor were the last to sit down.

SCIENCE CLUB The last meeting of the Science club was held Thursday night by em-dee-light. The program consisted for the most part of impromptu speeches made by five members of the club on the funniest experiences they could remember. George Carter won the prize, a straight pin. Tentative plans for a big spring outing were discussed. If noise was any fair indication of enjoyment, the program was a tremendous success.

D. L. D. The Athletic Association has awarded blue and white ribbons to those who have excelled in their work at the college. The honors were given to the members of the D. L. D. basketball team which recently won the inter-sorority tournament. Saturday night Sally Fulcher and Terrence Brady were hosts at a feast.

EPIEURANS Mary Wolff and Harriet Vandiver entertained with a feast immediately following the regular meeting Tuesday night. Plans are now in progress for a dance to be given May 5th probably in the auditorium of the Training School.

FRENCH CLUB The French club was held Thursday night by em-dee-light. The program consisted for the most part of impromptu speeches made by five members of the club on the funniest experiences they could remember. George Carter won the prize, a straight pin. Tentative plans for a big spring outing were discussed. If noise was any fair indication of enjoyment, the program was a tremendous success.

The George-Anne, for President Guy H. Wells, April 17, 1934.

We, the faculty of South Georgia Teachers College, wish to express our appreciation of:
1. His vision of a teacher-training institution which has rapidly developed under his guidance.
2. His inspiring and tireless leadership which has continuously directed the activities of the college.
3. His spirit of devotion to which has been manifested in the civic and religious organizations of the community; his personality which is stamped on the campus and which is reflected in the morale of the student body.
4. His love of beauty which is seen in the trees, the shrubbery and the many improvements on the campus; the institution which is predominantly the product of his efforts.

We regret to lose him as our leader, councillor, and friend, but we rejoice that he is to continue to serve the educational interests of the state in the presidency of Georgia State College for Women. We believe that he will be careful to conserve the noble traditions of that college, and that he will lead in the adjustment of the institution to the spirit of the new times.

Resolutions Adopted for President Guy H. Wells, South Georgia Teachers College, April 17, 1934.

FOUR THE GEORGE-ANNE MONDAY, APRIL 23, 1934

THE NEW ADDITIONS to the administration are speedily nearing completion with qualifications as yet.
