MANY ATTENDED ANNUAL AFFAIR

PRESIDENT OLIVER TOASTMASTER AT FESTIVITIES UNDER IN YULETIDE SEASON.

The annual Freshman banquet was given in the dining hall of the college last Saturday evening. On this occasion the students enjoyed one of the oldest traditions in the annals of the college. A reception looked forward to each year by the entire student body, it proved a delightful affair for all those present. Approximately three hundred and fifty people attended to mark the largest crowd in the history of the college.

Beginning at 6:30 the banquet continued until 7:30 o'clock. During the course of the meal interesting speeches were given by Dr. Marvin S. Pittman, F. D. Cherry, president of the student body, and Heman Oliver, president of the freshman class. Oliver, who more than anyone else was responsible for the success of the banquet, acted as toastmaster for the evening.

Immediately following the dinner a dance began in the Gymnasium continuing until 10:30 o'clock. Aside from the dance the students were entertained by a short program which furnished the music for the dance.

YOUR DUTY

The George-Anne feels that it is the duty of every student to acquaint himself with a band
of good minds. Arriving the college so that you
may intelligently and wholeheartedly unite with the
community about the South Georgia Teachers
College. Do you know your state senator and state
representative? When you are home for the
holidays find out who represents your county in
the general assembly of Georgia and who
represents your district. Write to that state senator.
Talk to these representatives, tell them not
only of the needs of the college here, but the
needs of the institution in Georgia.

You should be able to tell these representa-tives and all your people that the college has
an enrollment of 500; that the annual appropriation
from the state of Georgia for 1934-35 is
$50,000; that the college is a member of the
Association of Teachers Colleges and the
Georgia Association of Colleges; that the
library has been enlarged and has over
15,000 volumes; that the campus has been
made more beautiful than ever and a new
nine-hole golf course has been completed; that
the General Education Board has two projects
continued success there must be a conscious effort on the part
in the college and its surroundings to your
friends.

This is your duty and your part in acquainting
the people of Georgia with the opportunities
offered at the South Georgia Teachers
College.

TODAY IN STUDENT GOVERNMENT

In society we find organizations of many
different kinds. All of them are organized to
serve a definite purpose, to fill a blank com-
mand. They send their representatives into
the world to make laws, execute these laws,
and see that there is no crime or any infraction.
Then the state government narrows the field of
service to the people of a particular section of the
country; and small municipal units provide
the necessary local governing. In one pur-
pose of the government is to protect and serve
the people of the nation, the state and of the
locality. To a good government it is to meet
these obligations; to be a good citizen.

Here, now, at South Georgia Teachers Col-
lege, may be called a student community. There are strenuous requirements for
citizenship. Every effort is made to insure
the presence of only those people who are of
the highest type morally, physically, and mental-
ly. When admitted as a part of the group,
the student commences to prove whether or
not he intends to be a good citizen. He
should take part in all the activities in which
his participation is supposed to do, then it has no reason to
endure. If the purpose of the student part-
ipation in the growing of the college. It is to
here to the student, but there are strings at-
ached. Only the community of the individual
and the group can this service come effective. For the student to properly
represent the college and its surroundings to your
friends and neighbors.

To be a good government it must
see to it that the students will add greatly
to interpret the ideals and standards to the
students. They must have char-
acter, ability, judgment, and dependability to
insure that every duty will be loyally and ef-
fectively done. By supporting the regular
constituted representatives in the decisions
which they make the students will add greatly
to the strength of its government. Respect the

**TEACHIN’S**

(By GEE DEE)

Was the Newberry game a thriller or was it? The answer is obvious. The Teachers really put up a scrap and almost won in spite of the fact that the Indians had them outweighed nearly twenty pounds to the man.

Playing his last game for T. C., Charlie Munch gave a real exhibition of football, catching one of the most beautiful passes ever scored when "Jake" Hines intercepted an Indian pass back of his own goal line and was tackled before he could get back over the line.

Newberry scored early in the first quarter only to have T. C. return the kick-off to the score. Hines took the kick on his own twenty-yard marker and brought it up to the forty where, just before being tackled, he tossed a lateral out to Fulford in the sideline. The Teachers fullback traveled down the north side line to score. The total gain on the play was 80 yards, the longest run of the season for the "Profes." In scores coming later in the game, Newberry counted one extra while the Teachers made two.

The final score was 21-20. The margin of victory was scored when "Jake" Hines intercepted an Indian pass back of his own goal line and was tackled before he could get back over the line.

Basketball season opens up with a bang tomorrow night when the "Profes." meet the "Bears" of Mercer University. This game is on its annual Christmas trip. The Teachers took them in an easy fashion last season, and are expected to do the same this year as our team is at least as good as the '33-'34 squad. With the cage candidates reporting last week for regular practice were two varsity men from other colleges as well as scads of "fresh' talent. Eight of last year's varsity ten are back—and are they worried? *******

The game with Mercer will christen the new finish on the Gym floor. A dark border and blue lines will add much to the finished look of the playing surface as well as making the floor much easier on the players and officials. The interior of the court is finished in a special type of coating which affords an excellent grip—so excellent, in fact, that several players have been "laid up" on account of too abrupt stops.

The squad is all pepped up about the Christmas trip, that is, except a few. We wonder why Ebb Yeomans doesn't want to go.

*******

Finally . . . We have a club for varsity athletes. A "T" Club has been needed on our campus for some time. It also seems fitting that Riggs should be president as, to quote him, he is "interested in sports." Munch, a man who has made four letters in baseball, was made vice-president and Lambright, a real scraper with two "T's" to his credit, was made secretary and treasurer. This club can be made the leading social organization on the campus. Let's do it.

*******

It's about time for some of our super-athletes to begin talking baseball. These are the fellows who, during football season, are basketball stars, and then, when the cage season opens, decide that baseball is their game, after all.
