Swim safely with advice from faculty expert in College of Public Health

It's that time of year. The sun is shining, and the Georgia heat is beckoning you to the pool. The next time you're soaking in some rays and floating in the water, be sure to thank an environmental public health inspector.

Faculty expert and alumnus Chris Rustin ('04, '13), DrPH, REHS, has worked on data analysis with the Georgia Department of Public Health for years to determine the biggest health and safety risks associated with public pools. Rustin worked with his colleagues to prove that semi-public community pools, such as those in apartment complexes and neighborhoods, are most frequently cited as being out of compliance for state/local health and safety codes.
