Inter-Collegiate Debaters
Meet Florida Freshmen

"Prof" Orators Uphold Negative
Espy and Giddens Show Up for Non-Decision Pray.

Bob Espey and Lofton Giddens met real opposition in the University of Florida Freshman Friday evening when they met them in a discussion of the medical question. Making their first appearance against a university team, the two pre-law students hammer away at the opposition unremittingly and drove home their points in splendid style. The debate was modern and hence no exact results can be given, however, there was little doubt in the minds of the audience as to the winner of the contest.

The Teachers upheld the negative of the question: "Resolved, That the several degrees, liberal education and the medical profession as a panacea for poor health conditions in the South Georgia Teachers College from the spring social season which closes followed by a week-end party at Riverside Park honoring new members. The keynote of the conference will be "Training for Leadership," and interesting speakers have been secured for every session. The program includes the following well known religious workers: Raymond R. Paty, dean of men at Emory University; Dr. Ed F. Cook, pastor of the Mulberry Methodist church, Macon; David M. Brynewell, director of athletic work, West Georgia College; Miss Mary Jane Willett, national student Y. M. C. A. secretary; Emmett Johnstone, director of religious activities at Emory University; Miss Polly Muns, secretary of the Y.W.C.A. at Georgia State College for Women, and Miss Agnes Highsmith, the dean of the Georgia Volunteer Religious Association.

The Wesleyan conference this year promises to place major emphasis on the actual training of students for Christian association work on the campus. Every college in the United States will have delegates in attendance.

Calumet Green, University of Georgia; vice-president, Caroline Dickinson, Agnes Scott; secretary, Ruth Vinson, Georgia State College for Women; and treasurer, Raymond Kytle Jr., Georgia Tech.

"We should not go to college primarily for athletics, a great knowledge of subject matter, or for prestige. In spite of all of these are desirable. The one and only reason for going to college is to learn to live. College should only be a training school for the battle of life."—The Student.

CAPACITY ENROLLMENT EXPECTED FOR OPENING OF SPRING TERM.

Throughout All Parts of Nation

There are many interesting events and high spots in the life of each copy of the George-Anne. One paper has recently completed a tour of the States from Georgia to Maine. A copy of the March 4th number of the George-Anne was sent by Arctic Davis to Harriet Wynn, a student at the University of Washington, and who lives in Milledge Hall. Now there are two former T. C. students living in the same residential hall of the same college. The debate was modern and hence no exact results can be given, however, there was little doubt in the minds of the audience as to the winner of the contest.

Spring Holidays to Begin
Tomorrow; End March 25

EXAMS TO CLOSE
WINTER TERM
CAPACITY ENROLLMENT EXPECTED FOR OPENING OF SPRING TERM.
GET IN THE SWIM:

Of all the sports offered at T. C. swimming is the one most appreciated, for it brings both pleasure and exercise. It is one of the best activities for bringing spontaneous joy to the individual, for it can be indulged in by all ages, students and faculty. Swimming and allied branches of water sports furnish wholesome and natural forms of exercise, and are a means of developing good posture, grace and poise. By properly supervised swimming, like T. C., has on its campus, the highest ideals may be inculcated, such as courage, self-confidence, leadership, a democratic spirit, good sportsmanship, self-sacrifice and heroic service. These ideals form a vital part of one's training for citizenship.

If you don't know how to swim, this is the time to learn. T. C. offers you wonderful opportunities. A nice equipped swimming pool, directors and a Dolphin Club, composed of the senior life-savers of the campus, who are willing to help you.

The weather might be a little chilly and the water cold, but that's just what one needs to wash away the spring fever and pep one up for a plunge, so T. C. will have more and better swimmers.

INTERCOLLEGIATE COMPETITION

This year, for the first time in the history of the school, our athletic teams, debating teams and other organizations have met groups from the larger colleges and universities of this state and also of Florida, Alabama and North Carolina. In all these encounters, T. C. has acquitted herself with distinction. It is a fine thing for a college to come in contact with a number of other institutions; these contacts contribute much to the experience of all students concerned. Becoming allied with outstanding institutions causes this college to grow and become known outside of the state as well as within its borders. Therefore such contacts should be encouraged; they have the wholehearted co-operation of the entire college and all its patrons from the surrounding towns. Here's to bigger and better competition for T. C.!
Among the Athletes

Spring is in the air! T. C. baseball team has started the annual grind for the coming season which is expected to be the best in the history of the school.

There is an indication that there will be a number of new men in the line-up this year. Substitutes from last year and freshmen ought to get the call for several positions that are open by graduation. There are a number of letter men who have returned to take where they left off last year. Jake Hines, "Bish" Ratley, Joe Stein, Inman Chambliss, Alan Arnold, Howell Martin, Dubose will get the first call, having had experience on last year's team. There are numbers of new men that show possibilities such as George Cleet, catcher; General Lee, pitcher and first base; George Kinzy, third base; Holder Watson, Paul Robertson, Gene Davis, outfields, and George Abelson, Chason Harrison and Lanny Anderson, pinch.

From all early outlooks it won't take the team long to round into shape to start the ball rolling.

T. C. Basketeers

End Fine Season

The final game of the season, a victory over the University of Georgia, ended one of the best basketball years that South Georgia Teachers College ever had and enabled them to claim the state championship for 1934-35.

The record for the year lists fifteen games won and only three lost. Only one college team holds a victory over the Professors this year and that team is the South Georgia State College at Douglas, a team that the Teachers later defeated twice. The other two defeats were at the hands of the World Champion Celtics and the Atlanta Y. M. C. A. The Celtics won over the Telemanes by six points, and the Atlanta team defeated the Teachers by one point in a game that went into an extra period. The Atlanta team won the amateur championship of the South, winning each game in the tournament by large margins.

Among those teams that the Teachers defeated this season are: University of Georgia, College of Charleston, Norman, the leading team of South Carolina, and the J. E. A., of Savannah, one of the leading amateur teams of this section. The latter two were victims of the Blue Tide twice.

Coach Smith was fortunate in that he had a veteran team to work with this year. He had the best material that he has had for several years, but nevertheless, felt the loss of Jake Hines, one of the best basket players ever developed in the state of Georgia. Using his set-up play on the offense, Coach Smith developed a high-scoring machine that tallied 905 points in 18 games. The defense was so good as it should have been, but opposing scorers were held to a total of 574 points.

Bill Stewart was the high point man for the season, closely followed by Ebb Youmans. These two men weurn the main men in the scoring machine. Stewart was high point man in game after game, occasionally yielding the honor to Youmans, and once or twice to Hines and Middlebrooks. Hines played his usual good game this season, although he did not get as many points as customary. His floor game and defensive work were greatly superior to anything in that line that he has shown in the years since he entered Middlebrooks, a new man, fitted into the system perfectly and performed steadily, offensively and defensively. Wrinkle, playing a new position, confirmed most of his activities in holding the opposing players down. Capable substitutes were on hand ever ready to enter the game. Wilkes seems to be the most improved.

Prospects for an excellent tennis team are very good this year. With the returning of Wilkins Smith, co-star with Munch, in the spring term the strength of the team will be greatly added to. Other members of last year's team are Settle, Stapleton and Wrinkle.

If the Team proves its merit during the playing season, Mr. Hanner's Tennis coach and instructor, may take the team to Georgia-Tech and if the team will encounter come of the best college tennis players. As soon as spring holidays are over Mr. Hanner plans to start the school tournament to select the champion of the school and to sift the players for the team. Mr. Hanner urges all boys interested in making the team to start getting in shape and make the old members of the team hustle for their positions.

Women's Athletics

(NoYANCr YOUNG)

We still insist it would be greatly to a girl, it wasn't blue and white jack, but T letters that the girls' basketball team were received last Friday. Not seen after practice, but it was something just as grand and a surprise, too. It was food—in the form of fried chicken, potato chips, tomatoes, rolls, pickles and real punch, topped off by ice cream and cake. Was it a feast! The best we have ever attended, and all on the account of Mrs. Dyer, our coach. Not satisfied with giving her time and energy freely in the coaching of our basketball team this season, Mrs. Dyer decided she wanted to do something else for us, so the result was this splendid treat. Thanks a thousand times, Mrs. Dyer, not only for the feed but for your unselfish services given the basketball team during this quarter. We are truly grateful to you, and also to Miss Lane, who has helped us so much, not to mention the elegant banquet she gave us in Savannah.

Practice for the girls is over for this year, and the season has been a successful one, even if we didn't play but two off-campus games. These two games were played with the T. C. Basketeers from Savannah.

The first game in Savannah was lost by a close margin and the game played here against the same team was an overwhelming 4-15 victory.

Eleven girls out of Mrs. Byron Dyer's refereeing class are expected to receive rating for girls' basketball refereeing in the state of Georgia in a few days, as was announced last week.

These girls have been coached and directed by Mrs. Dyer, who is a class A rating referee in Georgia. They have studied Spaulding official play rules for 1934-35 girls' basketball, and rules and ratings the officials and their duties, for the last three months. Practical refereeing has been done in the varsity practices in the afternoons, and several of the members of the class have refereed games between the T. C. and Tech High school and other teams. Their work was highly praised.

All the tests sent out by the national rating board have been passed by the girls and they did their practical examination last Friday afternoon in practice. They were judged by Mrs. Dyer. All individual records were sent to the national rating board last week and the class is now awaiting their return.

Those who are members of the class (Continued on page 4)

CITY DRUG CO.
DEDICATION
This week's song is dedicated to those people who have figured so prominently in our scopes for a long time and who will not return next term. Harrington and Price we extend heartfelt thanks for all their contributions.

Still at large in West is one 8x10 photograph of one of our Coonnette. At no longer claims it and the Diggers are in need of suggestions as to proper placement. Brazen and Tida Kent are seeing a great deal of Andrew Mathis and Gene Davis these days.

Since when do Plymouth automobiles have steering wheels on the right side? Right or left, Rae McKeown says, is a question of taste. Driving and you are one of Statesboro's geniuses was on the right side and Rae said he had been known to come near the gray shirt.

Honey's promise to let people do as they wish for the meal at the Training School was carried out fully. We saw no restrictions.

Time for the house parties has at last arrived. But also many of the notables will not be there, either. They need their own. This necessitates many changes. For one, there's Flicker and Wix and Barber will not be, neither will Eloise with Dodie. Instead she has gotten another ambition again. This time it's Charlie Joe Mathews.

Directed Lake presented her fellin's again. Such charm and grace has never been seen on a T. C. stage.

What was the matter in the Gait-Ann? Or was it, you may ask. Lee is making amends, though.

Al Henderson's visits to town and round-about places continue to come nightly. No class has been turned in yet, but we understand she has a car and always brings him back to the campus in his way of preventing it one of our social science professors. We had thought of placing it on his desk, but that would be childish.

What have you to suggest?

Two members of Pat Roberts' Anderson family hold the spotlight in local buthest events. Brazen and Tida Kent are seeing a great deal of Andrew Mathis and Gene Davis these days.
