GREETINGS FROM COLLEGE FACULTY

DEAN HENDERSON VOICES WELCOME OF INSTRUCTORS

The upperclassmen and faculty members welcome the Freshmen of 1935-36 to our college family. Students who have been here before have learned to love T. C. and are anxious to return for another year's work. During the vacation, many of these students have talked and written of their plans for the term. They expect to help you make your first year in college a happy and useful experience.

During the vacation, many of these students who have been here before have had the opportunity to spend time at home with their families. They have not forgotten the importance of the college family and the importance of maintaining friendly relations and making new ones among their peers. They have looked forward with pleasure to the time when they would return to the campus to reunite old friendships and to make new ones among the Freshmen. The officers of the student organizations have helped in planning the program for Freshmen Week with the idea of helping freshmen always in mind. They want to help you make adjustments to college life.

The faculty members are interested in you, and it is their desire to be helpful in solving the problems facing you in a new educational situation. Many of the members of the faculty attended school during the summer, and they have not forgotten what it means to be a student. They welcome opportunities to talk with you about your problems and aspirations. It is our sincere desire to help you make your first year in college a time of growth, both physical and mental improvement.

E. S. HENDERSON, Dean.

WPA PROJECTS TO COMMENCE SOON

Four WPA projects on the campus will receive attention in the near future. The proposed enlargement of the dining hall to accommodate more boarding students is the most pressing need at present with the exception of the building of the new athletic field and stadium.

Other work to be done is the erection of a health cottage, which will serve as an office for the school nurse and doctor as well as an infirmary. Several rooms to be used as practice rooms for the band, orchestra and chorus will be made by extending the auditorium, making a second floor over the heating plant.

Crowded conditions in the dining hall during the last regular session and summer school draws the attention of the administration to the fact that the enlargement of the building must precede any future growth of the college.

LITTLE MINCEY CONTEST WINNER

Elvoie Mincey, of last year's freshman class, was recently declared the winner of the American Legion statewide beauty contest. Little Mincey, as she is called in the campus, won the town contest in SaylEVANIA and then scored a walk-away in the state contest held at MILLIN.

FRESHMEN WEEK PROGRAM

SEPTEMBER 23, 24, 25 and 26

SOUTHERN GEORGIA TEACHERS COLLEGE

MONDAY, SEPTEMBER 23

8:45-9:00 a.m. Swimming, Men

9:00-10:00 a.m. First General Assembly

10:00-11:00 a.m. Orchestra

11:00-12:30 a.m. English Placement Test

1:15 p.m. Lunch

2:00-2:15 p.m. History Test

4:00-5:00 p.m. Reading Test

6:00 p.m. Supper

8:00 p.m. Reception and Dance

Dining Hall

TUESDAY, SEPTEMBER 24

7:00 a.m. Joint Morning Watch

7:30 a.m. Breakfast

9:00-10:30 a.m. Psychological Test

10:30 a.m. General Assembly

12:00 Noon Science Test

1:15 p.m. Lunch

2:00-3:30 p.m. Mathematics Test

4:00-5:00 p.m. Physical Examination, Ladies

6:15 p.m. Picnic Supper

7:00-8:00 p.m. Games

WEDNESDAY, SEPTEMBER 25

7:00 a.m. Morning Watch

8:00 a.m. Registration

10:00-12:00 a.m. Physical Examinations

1:00-3:00 p.m. Mathematics Test

4:00-5:00 p.m. Physical Examinations, Women

6:15 p.m. Supper

8:00 p.m. Informal Party

Dining Hall

THURSDAY, SEPTEMBER 26

7:00 a.m. Breakfast

9:00 a.m. Meeting, Freshmen Men

10:00 a.m. Meeting, Freshmen Women

1:15 p.m. Lunch

2:00-3:30 p.m. Physical Examination, Men

3:45-4:30 p.m. Physical Examination, Women

4:30-5:00 p.m. Swimming, Men

6:15 p.m. Supper

8:00 p.m. Swimming, Women

9:00 p.m. Physical Examinations, Men

10:00 p.m. Physical Examinations, Women

8:00 p.m. President and Mrs. Pittman

Dining Hall

FACULTY BOASTS SIX NEW MEMBERS

Six new names adorn the list of faculty members at the fall term. Among the additions to the faculty are three Doctors of Philosophy.

Dr. H. H. London comes to T. C. as chairman of the Division of Arts. Dr. London, who is a Texan, has a Ph. D. from the University of Ohio. Dr. Thomas, who has been head of the Department of English, replaces Mrs. Buttrill as professor of English. He will be in charge of the English Department and will carry out the proposal for a new $85,000 dormitory to accommodate more boarding students. These teachers are the most pressing need at present with the exception of the building of the new athletic field and stadium.

Other work to be done is the erection of a health cottage, which will serve as an office for the school nurse and doctor as well as an infirmary. Several rooms to be used as practice rooms for the band, orchestra and chorus will be made by extending the auditorium, making a second floor over the heating plant.

It is a pleasure to greet you, our Freshmen class of 1935-36, as you begin this new year of study at the South Georgia Teachers College. It is my happy privilege to welcome you. It is my hope that you will find your stay here a pleasure because of the large significance of the event. Each of you will have the opportunity to contribute to the success of this experiment, which is designed to provide the college with a double privilege—the privilege of bringing into full fruition the potentialities and the privilege of equipping yourselves for efficient service to others.

From such an inspiring background and into such a joyous opportunity, it is my hope to welcome you. It is my hope that you will use your best energies and help us to achieve our common objective of making your college career as fruitful as possible.

MARTIN S. PITTMAN, Pres.
REALIZING the vast gap between high school and college, and the administration and the staff of the George-Anne endeavored to bridge the chasm for the Freshman Class of '35 with a special edition of our college paper, which will in part take the place of the handbook, which has been discontinued. It is the hope of all connected with this edition that it will be of value in the week of orientation.

'time we became Freshmen ourselves, we are cognizant of the feeling of utter uselessness which assails the bewildered stranger on his entrance into an environment wholly different from which he came. It is the purpose of Freshman Week to eliminate as much of this feeling of bewilderment as it possible from the new students that come to us each year. As this paper is a part of orientation week, we hope it may do its part.

Freshman Week! A period fraught with heartaches and happy experiences.

GREEN INVASION

Our heartiest greetings to the Class of '39.

May it continue the better customs of preceding classes and introduce new ideas of its own. May it be a period in which all may realize that college life is a great life—but not without its difficulties. May its spirit be harmonious in meeting group situations. And may it, after four years, present us with graduates of which we can truly say, "Our Alma Mater, to us a living-skull of steel; Grapple them to thy soul with hoops of steel; Bear't that the opposed may beware of thee."

THOU canst not then be false to any man.

ALMA MATER

Down among the murmuring pine trees, Where the nature smiles,
Old T. C. holds up a standard Known for miles and miles.

Lift the chorus. Speed it onward, Ne'er her standard fail.

Hail to thee our Alma Mater, Hail, T. C. All hail!

ON COMING HABITS

Such a vast amount of information, or knowledge, or to where that information may be obtained, is now necessary before an individual can truthfully call himself educated. It is in gaining and maintaining a progressive education is of great importance, therefore, that those who are beginning their work in the realm of higher education know how to prepare the best results.

The only persons in the present Freshman Class who become educated will be those who help themselves. Any knowledge that will be worth anything will come only as a by-product of personal endeavor and industry.

This, then, that we venture to name a few of the habits found most effectual in gaining and maintaining a progressive education by present dry leaders in thought.

A daily newspaper is important for reasons which are made by each class. There's all not even a year ago, can, by the present and the same dumb breaks to me there's something almost unanswerable. These are just a few of the many mistakes made and I hope that by calling attention to these that fear-warmed may soon be forestalled. But knowing the spectre we fear, I wonder if this is expecting too much.

There's at Least One in Every Freshman Class

The girl who won a beauty contest back home.

The boy who was a four-letter man in high school and who knows he's going to be a big help to Coach.

An honor graduate who is just too eager to get right down to work and really amount to something.

The person who is confident of becoming the greatest social star on the campus just because he rated right well at home.

A guy who knows he won't fall for any of the old gags usually pulled on freshmen.

A girl with half a dozen evening dresses in her closet who will be enough to kill Christmas.

A local big shot who is just too sophisticated for words anytime he's around.

At least one like whom there never has been another.
T. C. STUDENTS FIND POSITIONS

Demand for South Georgia Teachers College-trained teachers exceeded the supply as schools in this vicinity elected their faculties for the coming year. All graduates of the class of 1935 who planned to go into the teaching profession had secured positions by the 15th of September, and requests for recommendations are still pouring into the newly established bureau.

Especially in demand are men teachers of mathematics, science, history, and physical education. For this reason the college has made available forty-five physical education scholarships, although not begun with the intention of fostering “tramp athletes,” will insure an excellent varsity team in the major sports as well as sending out from this institution men well trained in all branches of physical education.

Musicians Aided

By Scholarships

The best band and orchestra in the history of the college is promised for the coming year. All graduates of the college-trained teachers exceed-}

Frosh Commission To Be Continued

That the Freshman Commission will be continued throughout the year was assured by an interview with Dr. Pittman.

The Freshman Commission is a body of eighteen members selected on the basis of their standing and their apparent ability to lead. The choice is made by the student council, with the aid of the dean, after a careful study of the tests given each freshman at the beginning of the school year.

The primary purpose of the organization is to establish an honor system throughout the student body. For a more definite aim the commission strives to stimulate the freshman class to act as a unit.

Among the most important functions of the commission are representing the class in campus activities and stimulating school spirit. A more far-reaching and complex purpose is to endeavor to train the members of the commission to be capable leaders and to enable them to influence the college activities in the best way.

The commission has certain duties to perform and each commissioner is called upon to affect them. These duties include: Collecting class dues, sponsoring the class banquet, the chapel programs and other entertainments given by the class.

By talking and coming in close contact with the members of the freshman class, the commission endeavors to find the weak places in the organization and correct or modify them.

The first commission was established in the fall term of 1933. The organization was more or less experimental in nature, but it has proved its worth and is warranted to become a permanent institution.

GRADUATES TOUR WESTERN STATES

Shortly after their graduation in June, Misses Evelyn Mathews, Alma Cox, Cecil Bronson and Helen Off of Statesboro and Courtney Brad-ley of Hagan left for an extended vacation sight-seeing tour of the west.

These young ladies traveled some ten thousand miles on their vacation and safe just about everything they ever heard of in the west, including the Grand Canyon, Yellowstone National Park and numerous other world-famous places.

The young women, fresh from college themselves, received a great deal of information in visiting other institutions along their way, but came back still favoring T. C.

The organization and correct or modify them.

They are expected to perform and each commissioner is called upon to affect them. These duties include: Collecting class dues, sponsoring the class banquet, the chapel programs and other entertainments given by the class.

By talking and coming in close contact with the members of the freshman class, the commission endeavors to find the weak places in the organization and correct or modify them.

The first commission was established in the fall term of 1933. The organization was more or less experimental in nature, but it has proved its worth and is warranted to become a permanent institution.

No one smokes on the front steps of the Administration Building. Students refrain at all times from defacing college property.

(By GEE DEE)

Welcome to the Freshman Class! As this is written there are only a few of its members on the campus—those few being football candidates.

Prospects for a good football team looked rather dreary as the two weeks of preliminary training opened, but as the days grew into a week and as new men arrived every day, the outlook became brighter. Today, the team looks good. A profusion of backs, plenty of linemen, with the exception of tackles, makes the team compare well with those of former years.

As has been the case for the last two years, Coach is building his line around the veteran, Earl "Coonie" Riggs. Acclaimed as the best center in the state last year, "The Coon" is in excellent form, which is good enough in any competition.

How they are lined up:

<table>
<thead>
<tr>

</tbody>
</table>

"Farmer" Fulford did not return for the first few days of practice, which fact worried coach considerably. The Profs fullback reported for practice last Wednesday and is now running in his old position on the first string, and looking pretty good after a summer of hard work.

Other old students who returned are: Bell, Lambridge, who has been shifted to an end position; Ableson, who is holding down a tackle berth; Cherry, Woodard, Watson, Crouch, Robertson, Kiny, Kyras, Thornton.

A bit of humor was inserted into practice last Tuesday when Coach, in giving the team his new signal system, attempted to explain it to them. First he had to explain what a digit is. He got all mixed up. Use a blackboard, Coach.

In our next issue students can look for a short life story of B. L. "Crack" Smith. So very few of us realize the fame that our varsity coach attained while at Mercer—and it is with the purpose of making every one on the campus acquainted with the facts concerning the mighty "Consull," as he was called at his Alma Mater, that this story is being carried.

Now for a little lecture: Attention, Freshmen! The Freshman Class at T. C. is expected to turn on 100% for all athletic contests—to give their very best support to their Alma Mater by sitting in the cheering section and MAKING NOISE.
