THE STATESBORO NEWS.

Entered at the post office at Statesboro as 2nd class mail matter.

Statesboro, Ga., Friday, Nov. 25th, 1901.

Now is the time to plant trees in town.

The upward leap of cotton will help our farmers considerably.

Bullock needs a new jail, and will soon have it. The jail is now empty.

Next Thursday is Thanksgiving. We are all thankful that we live.

Savannah was opposed to the Hardy Bill. They have plenty of whites to buy.

The depot bill should pass. It is the state's property and should be improved.

Estill is moving around, and proposes to meet the people of the state.

The good time you read about never comes to the man who is afraid to work.

Gold is going to Europe. The bosses must be buying the wires for another panic.

The legislature is easy prey for the Railroads. The Franchise bill is dead.

The Hardwick bill has met its death again, but the time is coming for its adoption.

The way of the transgressor is hard. A plain citizen has the best time.

Better look after your taxes now. The books will close on Dec. 20th and an executive will stare you in the face.

The Savannah Press is in its tenth year and is a lively youngster. We congratulate the Press on its age, health and wealth, for they say Stovall has all three.

The Thomasville Times says that Hon. Henry G. Turner remains an unsolved problem in the gubernatorial contest.

Moultrie is now supposed to be a dry town, but the preachers complain that the saloons over there refuse to go dry.

Syrup, eggs, chickens, turkeys, potatoes and all such things bring money. Let the farmers look after the little things.

Selling our cotton seed impoverishes the land, and reduces the corn supply. The wise farmer will manage to keep his cotton seed.

Since Seab Wright has come back into the Democratic party it is hoped that Tom Watson will follow. There is room enough in the old party for all.

Two young ladies, the Misses Martin, conduct the Liberty County Herald. They are editors and compositors, and understand their business.

One of the Georgia Solons wants to make it a misdemeanor for a man with the odor of liquor upon his breath to vote in this state. His bill does not, however, provide for an official "breath smeller." The legislature is not entirely free of cranks.

It has been said that while Bullock was not represented at the State Fair, he will be represented at the Police Barracks. There was 7 in one night from Bullock county.

Town politicians will soon warm up. Statesboro has two separate and distinct political factions, "Tammany" and anti-Tammany, and when the ball opens for will fly. It will be a fight of the outs against the ins.

Messrs Morgan R. and John C. Lee were in and renewed their subscription for another year.

PIANTING TREES

Will Beautify The Court House Square.

The Ordinary has had the court house square set out with North Carolina Poplars. They are said to be a tree of quick growth, and make a good shade. It was badly needed as the square has been in want of attention. When the time comes for it to be laid off in grass, fence, and enclosed with a good fence, our people will be delighted. Mr. Edmund Kennedy superintended the planting of the trees, and of course it is done in proper manner.

CLOSING OUT SALE.

We have decided to go out of the furniture business.

We have a large stock of Furniture that we are offering, at cost. Come while you have the opportunity of big bargains and low prices.

We want to close out this business as early as possible.

Investigating Sugar Cane.

On Monday a party of gentlemen accompanied by H. T. Wiley, Chief Chemist of the United States Department of Agriculture, came into Statesboro on a special train furnished by the Central Railroad.

The party made a stop here long enough to visit the large sugar cane plantation of Mr. J. W. Olliff 3 miles South of town and made careful examination of its workings etc. They went up to Adrian and took a look over Captain James' farm. Stops were made at Guyton and Egypt.

The trip was made at the instance of several Georgians who are trying to induce the Government to appropriate several thousand dollars for the purpose of experimenting in the manufacturing of syrup and sugar in this state.

The friends of Col. G. S. Johnston are speaking pretty strongly of putting him in the race for mayor at the approaching municipal election. It is believed that Col. Johnston would be satisfactory to both political factions. If this is true we hope he will make the race. The town would do well to avoid a wrangle if possible.

Mr. W. R. Outland arrived home from the Fair on Sunday O. K. The report sent out of a difficulty in which he was engaged was slightly overdrawn. While in the Fair grounds Friday with his friend Mr. F. E. Fields became engaged in a little scuffle with a stranger. Mr. Outland also became involved and got struck with a pair of brass knuckles, but was not seriously hurt.

STORES WILL CLOSE.

It is understood that all the stores in Statesboro will close in observance of Thanksgiving day on next Thursday Nov. 28th.

Parties who may have business in Statesboro will govern themselves accordingly as it is an established custom to give the clerks a day off on Thanksgiving. And this year will be no exception to the rule. If you have any business in Statesboro don't come next Thursday as you may be disappointed.

AN IMPORTANT MEASURE. As we view the Park bill, which requires that certain studies which show the effect of alcohol and narcotics on the human system shall be taught in the public schools, and which was passed by the House as a good one. Nothing should be left undone to teach the rising generation the importance of health. Young men who poison their systems with whiskey and cigarettes cannot have healthy bodies and clear minds. Those who succeed in life must have both. Employment is not so easily obtained now as it once was. The labor field and the professions are crowded and those who are not equipped by the drink habit or the cigarette habit will have the better chance for success. It is well known that the great corporations, and, in fact, all employers prefer to employ those who do not drink or smoke cigarettes. Indeed, there are corporations which will not have a drinking man in their service.

The public schools therefore cannot render our boys a greater service than to teach them to let whiskey and cigarettes alone. And from all accounts, the girls are in need of the same kind of teaching. It is not uncommon to find it stated in the newspapers that, in the large cities drinking among women is on the increase, though on the decrease among men. And there are reports that in some of the cities the cigarette habit is an increasing one among women.

It is in the power of the public schools to render the children a great service along the lines marked out by the Park Bill. We do not undertake to say that one-fifth of the text books should deal with the subjects of physiology and hygiene, but we do not hesitate to say that these subjects should be given a great deal of attention. Will Lay New Rail.

We are informed that the Savannah and St. resboro Ry will be re-aid with 60 pound steel rail from Woodburn to Guyton within the next few weeks. This was arranged at a meeting of the Board of Directors held in Baltimore one day last week. It is also announced that a considerable improvement will be made in the passenger service of the road within a short time. The engines belonging to the company are undergoing a thorough repairing as well as the passenger coaches.

In Interest of Sugar.

Dr. H. W. Wiley Investigating Syrup in Georgia.

Dr. H. W. Wiley of the department of agriculture left on his trip over the Central yesterday for the purpose of making a personal examination into the syrup industry of this section of the state. He was accompanied by Captain D. G. Purse, president of the Board of Trade; Mr. R. L. Pritchard, land and industrial agent of the Central; Superintendent Moser, and Mr. W. G. Cooper.

The sugar cane plantations of Mr. J. W. Olliff and of Captain T. J. James at Statesboro and Adrian were visited and the possibilities of sugar manufacture in the place investigated. At these plantations it was learned that the yields were approximately 25 tons to the acre, which are somewhat better than those of Louisiana. The quality of the syrup made suggested to Dr. Wiley the necessity of having better equipped machinery. He found the article of a very fine quality, which could, in his opinion, be made much better with improved appliances. Dr. Wiley took specimens of the cane and the syrup and took photographs of the mills.

The department of agriculture is earnestly endeavoring to promote the sugar culture, and it is possible that an appropriation of \$15,000 may be made for the purpose of encouraging it. Dr. Wiley is in hopes that the cane day see the advantage of having an experimental station similar to the one which has done so much for the sugar culture in Louisiana.

A Village Blacksmith Saved His Little Son's Life.

Mr. H. H. Black, the well known village blacksmith at Grahamville, Sullivan Co., N. Y., says: "Our little son five years old, has always been subject to cramp, and so had the attacks been that we have feared many times he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the cramp symptoms appear we have found that the dreaded cramp is cured before it gets settled." There is no danger in giving this remedy for it contains no injurious drug and may be given as confidently to a babe as to an adult.

It saved His Life. Gooch's Mexican Syrup has accomplished a cure in this neighborhood which has astonished the people. Miss Davis was given up to die by her attending physician, she had lung fever. The doctor said she would die before morning, and advised to discontinue his medicine, as it was doing her no good. Her parents had a bottle of Gooch's Mexican Syrup and Gooch's Quick Relief in the house. They at once began to give the Syrup in doses one hour apart, and frequently bathed her chest with Quick Relief. Before morning she was better, and after using a few bottles of each, she is almost the raising the dead, and has established the reputation of Gooch's Mexican Syrup here as a cough remedy; we can sell nothing else.

BOB MILLS DEAD.

Was Stricken With Apoplexy While in Bulloch County.

From the Dublin Courier-Dispatch. The people of Dublin were very much shocked last night to learn of the death of Mr. Robert T. Mills of this city, which occurred yesterday at noon at the residence of his sister-in-law, Mrs. Trappnell, near Metter in Bulloch county.

Mr. Mills died rather suddenly. At the usual time for breakfast yesterday morning Mr. Mills did not arise. Some one went into his room to wake him. He was found to be in a stupor from which he never rallied, death coming about noon.

Mr. Mills went down to Bulloch about a month ago, to transact some business. After attending court he went out to the home of his sister-in-law, where he was at the time of his death. He was a very robust man, and had not been complaining of being ill. It is supposed that his death was due to apoplexy.

Last night a brother of Mrs. Mills arrived in the city for the purpose of accompanying her here to Metter today where Mr. Mills will be buried.

Mr. Mills was a native of Dublin but moved to Bulloch county some years ago. He moved back to Dublin about two years ago. He was the son of Mrs. Abbie Sarellett, who lives a few miles above Dublin. He leaves a wife and several children and a number of relatives and friends.

Mr. Mills carried considerable life insurance and leaves his family well provided for.

Mrs. Carrie Wright has given up the Claxton Hotel and returned to the home of her father Col. Sheekley of this place.

Messrs. T. H. Waters and J. C. Denmark were up from the Bay District on Monday.

Mrs. J. A. Donaldson has been quite sick with the fever for the past week.

Mr. F. S. Cone was up from Arcola on Saturday and gave us a pleasant call.

Mr. Leo Moore negotiated 5 year loans on improved farms in Bulloch county at 7% interest. Old loans renewed. Office South Main St., Statesboro, Ga.

The Savannah papers have had lots of fun publishing the scraps that the cousins from the rural districts have fallen into during the Fair.

Mr. Tom Waters a son of Mr. Wayne Waters of Nevil ran up against a sharper at the Fair and is a wiser man now.

Editorial Notes.

Experts believe that the recent financial crisis in Japan will have to be held the old law which forbids the holding of land by aliens and discourages the inflow of foreign capital.

Since the Anglo-Berbo war began, two years ago, about 6100 British officers and men have been killed in action and not quite 30,000 wounded. In the two days' fighting at Gettysburg in July, 1863, nearly as many men (50,000) were killed and nearly as many (72,000) wounded. War is not so deadly as it used to be.

The outlook for those who will be compelled to spend the winter in Spain is not pleasant. Wages are low, food is dear, and there are not enough substantial houses to shelter one-third of the population. It will certainly be a winter of discontent, if not one of actual suffering and death for those who are unable to reach a better climate.

Dr. A. L. Kroeber has been engaged by the University of California as instructor in Indian ethnology. Through Mrs. Phoebe Hearst's liberality Dr. Kroeber is to undertake the formation of a department of research into antiquities, folk lore and the language of the American Indian. An attempt will be made to rescue the fading remnants of Indian lore, while it is still possible.

The Agricultural Department has made public valuable information touching the egg as an article of food. The facts have been demonstrated that hard-boiled and fried eggs require three and one-half hours for digestion, soft-boiled eggs require three hours, roasted eggs two and a quarter hours, raw eggs, not whipped, one and one-half hours. It has also been established that from ninety-three to ninety-seven per cent. of an egg that is eaten is digested.

Rubber appears to be of service even to insects. When the para trees are tapped and the gum is run into receptacles and stiffened, a species of large black ant is accustomed to cut out pieces of the rubber and carry them away. Bees also find uses for India rubber, and some species in South America actually cut the bark of trees that produce resinous substances in order to cause a flow of sap. The gum is employed by the bees as a ready-made wax for their nests.

The Washington Star says that the fact that our language is spreading over the world at an amazing rate emphasizes regret for its numberless defects and increases the desire for needed reforms. One of the worst defects is that we have many words which, while differing in orthography and meaning, are alike in sound. For example, "revel," "rode," "road," "write," "rize," "right," "weight." It is not surprising that foreigners sometimes acquire a pretty good knowledge of English!

The New York Herald has lately compiled a list of 3825 millionaires in the United States—that is, one person out of every 20,000. And the estimate is that eighty-seven per cent. of them made their own fortunes; that only thirteen per cent. of them received large fortunes by inheritance; that the same number became rich from the increased value of real estate; that nearly twenty per cent. made fortunes as manufacturers, sixteen per cent. as merchants, twelve per cent. by transportation and ten per cent. by banking.

The belief entertained by many persons that arsenic is used in dangerous quantities in the coloring of dress goods and wall paper, is not well founded, according to the Massachusetts Board of Health. The Bay State has a stringent law on the subject, providing that there shall not be in dress goods or other articles of dress more than one one-hundredth of a grain to the square yard, or in other materials or articles more than one-tenth of a grain to the square yard.

The board, after an investigation, finds little if any ground for invoking the power of this law, only one piece of cloth being found to contain more than the statutory allowance of arsenic. As compared with conditions existing ten years ago, there is very little complaint regarding the use of arsenic in dyeing or in coloring wall paper.

TWILIGHT HAS LOST ALL ITS CHARM.

As Symbol of Evil the Night is Given as a Contrast to that Which is Good—William Quotes Extensively.

I confess that I do not like the night—except when I am asleep. Of course I mean the dark night—not the twilight—nor the dawn. I go to bed at twilight and wake up at dawn. I mean the dark night—when the light is out and the stars are shining. I mean the dark night—when the light is out and the stars are shining. Georgia: Cullings

Brief But Interesting Summary of Happenings in the State.

Four Hundred Dollars Reward. The reward for the capture of James L. Douglas, alleged evangelist, wanted for the desertion of his wife, was \$400. Douglas, of Lithonia, has been wanted for some time. He is wanted for bigamy, larceny, obtaining money under false pretenses and other charges, and it is believed that he will be located within the next few days.

In addition to the name of Rev. James L. Douglas, he is said to have the name of James H. Hamilton. Douglas is the wanted man's official description: About five feet six inches high, black hair and mustache (nearly shaved), dark, oval complexion, solid front teeth, weight about 120 pounds, dark brown eyes, smooth descent of nose, about 40 years of age, claims to be an evangelist.

A photographic likeness of Douglas has been sent everywhere, and it is said to be good. The annual report of the Comptroller General W. A. Wright has been prepared and will be submitted to the legislature within a few days. Comptroller Wright recommends many alterations in the tax laws, which is some indication of an extraordinary state of affairs. He recommends that the state should increase the large increase in tax values in the state to improved business conditions and says:

"The largest increases are in railroad property, \$4,385,619; land, \$3,824,419; city real estate, \$4,082; cotton farms, \$2,102,634; farm live stock, \$2,724,941; farming implements, \$2,000,000; and household furniture, \$2,000,000. He renews his recommendations with regard to deposits made by non-resident cooperative or assessment life insurance companies for the protection of policy holders, asserting it should be made \$25.00."

Comptroller Cuts More Money. The Macdonalds will receive from the county of \$100,000 per year for convict hire. This is an increase of \$5,000 per annum. Mayor Briggs has received a telegram from Atlanta a year or two ago announcing that bill to this effect had passed the legislature and would become effective January 1. The sum of \$25,000 annually has been received by the county to the city for all city prisoners for years past.

Brooks Gets First Prize. At the state fair in Savannah the committee on county agricultural displays made known its awards in the poultry contest on the closing day. Brooks county gave the prize of \$100. Spalding scored \$100, and Harrow the third of \$500. The seven other competing counties get consolation prizes of \$200 each.

MURDERED WITH LASH. A Negro Youth Pleads White. The barbershop murder of Nathaniel Williams, a boy eleven years of age, of Sumter county, was reported in Columbia, S. C., Friday. He was literally whipped to death by Nelson Shaw, a powerful negro. Hours were spent, it is claimed, in flogging alive the boy who was tied in Shaw's house. About a thousand lashes were administered with a narrow hand strap and in hundreds of places the flesh was lashed. The boy was probably unconscious long before the beating ceased.

While the coroner's jury was investigating the crime Shaw was arrested. The Georgia State Fair closes at Savannah. Particulars of the extension of the Waycross Air Line railroad have been received by The Manufacturer's Record in a letter from Mr. George D. Wadley, vice president. Mr. Wadley states that it is proposed to extend the main line to Birmingham, also to build a branch to Atlanta. It is calculated that the extension to Birmingham will require about three years to build. No decision has been reached as yet relative to a southern extension which has been reported. The total distance to Birmingham is estimated at 397 miles, and to Atlanta 75 miles. The directors have authorized an amendment to the company's charter to include these extensions. The Atlantic and Birmingham line, which is the new title of the Georgia Air Line, is now being completed from Fitzgerald to Cordele, a distance of 37 miles.

Exhibit Goes to Charleston. State Geologist Yate is expected to return from Buffalo in a few days, where he has been packing the Georgia exhibit, which has been at the American exposition, preparatory to sending it to Charleston, S. C. Mr. Yate has been unable to secure cars enough for his exhibit, and as a result has been delayed somewhat in return. While there is no larger appropriation for the Georgia exposition than there was for the Pan-American, Mr. Yate will have a much finer exhibit at Charleston. The Southern railway agreed to transport the Georgia exhibit from Washington to Charleston free of charge.

Four Hundred Dollars Reward. The reward for the capture of James L. Douglas, alleged evangelist, wanted for the desertion of his wife, was \$400. Douglas, of Lithonia, has been wanted for some time. KENTUCKY MINERS CAUSE BLOODSHED

Conflict at Collieries Near Town of Madisonville.

SHOOT GUNS ARE FREELY USED

Two of the Attacking Party Put Out of Action While Several Others Were Wounded.

Sunday morning before daybreak one of the most deadly conflicts of the entire year of mining troubles occurred at the mines of the Providence Coal Company, 17 miles from Louisville, Ky. Two men are dead and others are wounded. Following are the casualties:

James Smith, negro striker, dead; George Crouch, striker, fatally wounded; John West, guard, shot in both hands; Nathan Bush, guard, shot in forehead.

This is the second time inside of a week that these miners have been attacked by roaming mobs, each battle resulting in the shedding of human blood.

The latest combat was the bloodiest of all. At 4:30 o'clock Sunday morning several shots were fired on the engine house of the company. It was but a few minutes until the stables of the company were surrounded by union men, who commenced the destruction of animal feed. A fine saddle horse and six mules were killed. The attacking party about eighty strong, then, poured a well-directed fire upon the homes of non-union employees, where over half a hundred men were peacefully sleeping with their families. A number of the miners dropped to their deaths, while others rushed with their families and other guns in hand to small piles of timber, arranged to be used upon some other occasion. Behind these fortifications the miners held out and refused to surrender. An inquest turned the fire of the strikers against the guards in holding the property. Volley after volley of lead was thrown into the bottoms where the miners resided. While these homes were being burned a steady fire was kept up on the engine room, stable and other buildings.

The guards were heavily armed and their work was even more effective than that of the strikers. The battle raged an hour and a half. The three guards are not seriously wounded. County Judge Hall, at Providence, started an investigation. An inquest was held, the coroner's verdict being that the negro came to his death at the hands of guards while in the defense of the life and property and they were, therefore, justifiable.

The news of the shooting spread like wildfire. It was not long before the miners reached the ears of Adjutant General Murray, who at once commenced an investigation, opening up with communication with the governor. Two companies of state troops were immediately ordered out.

Georgia Woman President. United Daughters of Confederacy. The United Daughters of the Confederacy closed its eighth annual convention at Wilmington, N. C., Saturday, to meet next year in New Orleans. An invitation was also accepted to meet in 1903 in St. Louis, during the Louisiana Purchase exposition. That city, officers were elected as follows:

President—Mrs. H. A. Rousseau, Rome, Ga.
First Vice President—Mrs. Mollie McGuff Rosenburg, Galveston, Tex.
Second Vice President—Mrs. T. J. Latham, Memphis, Tenn.
Recording Secretary—Mrs. John P. Hickman, Nashville, Tenn.
Corresponding Secretary—Mrs. Virginia P. McSherry, West Virginia.
Treasurer—Mrs. James Leigh, of Norfolk.
Custodian of Crosses of Honor—Mrs. Gabbitt, Atlanta, Ga.
Mrs. Stonewall Jackson was elected an honorary president, with Mrs. M. C. Goodier, of New York, for life.

BIG BLAZE IN COTTON.

Warehouse in Albany, Georgia, Containing Over Two Thousand Bales in Ashes.

The worst cotton fire that has visited Albany, Ga., in fifteen years occurred Friday night, when the big warehouse of A. W. Murray & Co., corner Broad and Front streets, was completely destroyed.

Saturday afternoon the rescue fire engines, which had been pumping from the river for about nine hours, became disabled, and the flames in the warehouse were free to feed on anything which might reach. Hundreds of bales of cotton that might have been saved but for the giving out of the water supply and the subsequent breaking down of the steamers were burned before the eyes of helpless on-lookers.

The blaze was discovered at 11 o'clock p. m., and when the firemen entered the building the whole interior was a blazing furnace. There were about 2,500 bales of cotton stored in the warehouse, and all were wholly or partially destroyed. The fire department exhausted the supply of water in the city hydrants at 2:30 o'clock Saturday morning, having played about 700,000 gallons on the fire. The reserve steamer was then carried to Flint river, which is only a couple of hundred yards from the scene of the conflagration unit, disabled.

The value of the cotton stored in the warehouse, most of which belonged to farmers in the section, is estimated at about \$7,500. The warehouse, containing was worth \$100,000, and bagging, ties, provisions, etc., stored therein, \$5,000 or \$4,000 more, making the total loss not less than \$100,000.

Excursionists Visit Scene. Horror at Baby Mine at Pocahontas. The reports from the Baby mine at Pocahontas, Va., Saturday night were that the fire practically has been extinguished, though great streams of water having been poured into the mine for forty-eight hours. Lines of hose were run far into the interior of the shaft through another passage and brave men battled with the flames, which at times almost brought down the mine.

During the day three more bodies were taken out, all badly charred. The list of bodies already recovered numbers twelve, and two or three of the latter are said to be badly injured. The eight bodies were buried Saturday in the same cemetery where two hundred or more miners were buried who met death in the same mine nearly a year ago.

On Sunday excursion trains carried more than 2,000 people from the coal fields of Pocahontas, Flat Top and Elkton to the scene of the Baby mine disaster. About 100,000 people gathered about the entrance to the mine shaft was a mass of humanity. Many of the miners, familiar with those employed in the mine, were seen in the eight bodies yet within the mine. The fallen state is being removed, but the work is necessarily slow.

Money for relief is being raised by public subscription. The state mine inspector is on the scene, but as yet has given out no statement regarding the supposed cause of the disaster.

FORGER FULL OF DOPE. Trial Judge Forced to Turn Wheeler Over to a Doctor. O. B. Wheeler, who was arrested in New York on charges of forging the names of Chicago politicians in a note aggregating \$103,000, was arraigned in police court in short order. The attorney who appeared for him told the magistrate that his client was, in his opinion, suffering from a mental ailment of some kind and that he was mentally unbalanced. The judge ordered that he be turned over to a doctor.

BattleShip Given Silver Service. The \$10,000 silver service, purchased by the people of Illinois for the battleship bearing the state's name, was presented at Newport News Saturday afternoon by a delegation of citizens from Chicago and from the Illinois colony in Washington.

TO CONTROL THE SEABOARD AIR-LINE.

New Company Has Been Formally Organized.

HAS CAPITAL OF FIVE MILLIONS

Object is to Acquire Stocks Now in Possession of Dominant Interests of System.

According to a Baltimore special the Seaboard Company, incorporated at Trenton, N. J., Wednesday, is formed to acquire control of the Seaboard Air Line railway from the dominant interests of the property. For the purpose the new company will, it is understood, secure the stocks owned by John S. Williams & Sons and the Richmond Safe Deposit and Trust Company, which own the majority of the stock of Richmond, Va.; J. W. Midland & Co., the Continental Trust Company, William A. Marburg and Townsend, the Scott & Co., of Baltimore; C. Sidney Shepard, of New Haven; William J. Cochran, of York, N. Y.; Pemberton, Meadows & Co., and Ladenburg, Thalmann & Co., of New York city.

The new company is chartered with sweeping privileges, including the right to hold and operate railroad lines, steamship lines, telephone and telegraph lines, and to deal in bonds and mortgages. The authorized capital of the company is \$5,000,000.

The present plan contemplates the issuance of \$250,000 of capital. It is proposed to acquire 200,000 shares of the common and preferred stocks of the Seaboard Air Line railway out of the whole issue of the two classes of \$100 shares each.

There is now outstanding about \$10,000,000 of the preferred stock and \$20,000,000 of the common stock. The company will be vested with absolute control of the Seaboard system. The interests who turn over their stocks to it will be the controlling spirits. It is learned that the basis of exchange will be the issuance of 4 per cent. debenture bonds of two classes. For Seaboard preferred stock, class A will be given, and for Seaboard common stock class B will be issued. In both instances the exchange is par for par.

The stockholders will also receive stock in the company. It is stated that the Seaboard company will only issue 2,500 shares of stock of the par value of \$100 a share. For every 100 shares of Seaboard stock of either issue one share of stock in the new company will be given in addition to the debenture bonds.

Another proposition mentioned is for 200,000 shares of the par value of \$1. In the latter case the Seaboard company would be able to issue 2,500 shares of stock of the par value of \$100 a share. For every 100 shares of Seaboard stock of either issue one share of stock in the new company will be given in addition to the debenture bonds.

President John Skelton Williams, of the Seaboard Air Line, when the Baltimore Herald was shown the plan of the Seaboard railway stocks, would be given for share. This centralizes the control of the Seaboard Air Line system and makes it impossible for a rival to secretly buy a majority or a large minority interest in the property. This permanently establishes its independence in the hands of Messrs. Williams, Midland and their associates.

The Statesboro News.

STATESBORO, GA. FRIDAY, NOVEMBER 29, 1901.

VOL. 1 NO. 38.

\$1.00 A YEAR.

Local and Personal.

The merchants look forward to a big Christmas trade.

The little boy is thankful that Christmas is coming.

Mr. P. C. Waters was on our streets Wednesday.

Mr. T. F. Lee of Black, was in town this week.

Dr. R. L. Samples will soon have a handsome residence.

Mr. H. H. Bailey of Adelaide was a pleasant caller this week.

Mr. Joshua Zetterover and wife visited Mr. Z. T. DeLoach and family on Thanksgiving day.

Brother Charlie Mikel will preach at Nevils Creek Church the first Sunday in December 1901.

Dan L. Rigdon.

"Read big ad." of J. W. Olliff & Co., and go and see the goods.

The engine of one of the Central's passenger trains got off the turn table Tuesday.

Mr. John Jones has twenty five fine hogs for bacon, and the price of meat will not trouble him next year.

The present mayor and council will soon step down and out. They have done well in the discharge of duty, without any compensation. It is a burden on any set of men to take that job.

Judge John F. Brannen has been confined to his bed for a few days, but is now on the road to recovery.

Mr. John G. Mitchell is now a owner of property on Walnut street. He has sold his interest in The Statesboro Mfg. Co., to D. P. Averitt.

Rev. A. P. Kendrick, pastor of Swainsboro Baptist church will preach at the Baptist church in Statesboro on the 1st, and 3rd Sunday in December. The public are invited.

Prof. Patterson and Prof. Denmark have dissolved, but Mr. Patterson is still professor of penmanship at the academy. Mr. Denmark will in future look after the interest of the commercial department.

Our neighbors have been grinding cane this week, and their number of friends have increased remarkably. Messrs. R. F. Lester, N. V. B. Foss, Jno. M. Jones, E. B. Simmons and others have been making syrup.

Mr. W. J. Blackburn of the 46th district was in town this week, and gave us a call. Mr. Blackburn is a farmer who has not bought corn or meat in 20 years.

Notice the large display ad, of J. W. Olliff & Co., and do not fail to take advantage of some of the low prices they are making.

Mr. G. W. Callahan has been transferred from the run from Dover to Brewton to Savannah. He informs us that he will be given an engine in the yard of the Central Ry.

Mr. Fred Wallis is one of the live, progressive drummers you read about. Two years ago, he became a citizen of our town, and we would be glad to get fifty more like him and his family.

Rev. J. M. Lovett presiding elder of this district has been in town this week.

Mrs. J. W. Olliff returned from her Florida trip on Saturday evening.

Held Up Railroad!

Warm Reception Tendered Workmen on Perkins Railroad at The Hands of A Party of Negroes.

Work was Only Temporarily Suspended However, And is Now Pushing Ahead Towards Register. Prosecutions To Follow.

There were lively times out on Perkins Railroad near what is known as "Little Excelsior," a negro settlement on Monday they were met by a crowd of negroes armed with shot guns. The negroes ordered the work stopped, and the force of workmen headed by Mr. D. G. Swing, swung off in the direction of home. We failed to learn the number of killed and wounded or those reported missing and prisoners captured on this field of carnage, but the forces under Mr. Swing insisted that they retired in good order.

When the matter was reported to the office of the Company a man was sent over and the force put back to work, laying the rail, no further trouble has been reported.

Warrants have been sworn out charging T. J. and E. N. Lanier both negroes, with riot.

"A Household Necessity."

Gnat, Ga., Nov. 26th, 1901.

Editor News:

Dear Sir:

My paper did not come last week, please investigate the cause, I have very much to miss The News. The fact is, your paper has become a household necessity in Bulloch. I feel lonesome and sad when I miss a copy.

Respectfully,
R. G. Lanier.

The above is a sample of the many expressions we are receiving almost daily. They assure us that our efforts to give the people of Bulloch county a good clean reliable newspaper have not been in vain. We want every citizen to feel that The News is his paper. This paper is the organ of no set or clique. Its management has no axe to grind, it is our business to publish the news, just as it happens.

Mr. Hinton Booth was called to Augusta on Tuesday to his brother's bedside who was quite sick.

Furniture at first cost. We are going to quit the furniture business.

Elder M. F. Stubbs has returned from a visit to Valdosta.

Nomination.

It is proposed to hold a citizens meeting at the court house on Friday night Dec. 6th at 7:30 p. m. to nominate a mayor and council. This has been customary heretofore, and will be done again at that time. Probably six gentlemen can be found who is willing to take the cussing for the next twelve months.

Thanksgiving Services.

The Union services held at the Institute Auditorium on yesterday were largely attended. In fact almost the entire town turned out. The services were opened with a song by the Choir, "My Country, 'Tis of Thee." Prayer by Rev. W. Langston. Appropriate texts were delivered by Messrs T. E. Hayes, W. B. Addison, S. A. Lucas and Dr. J. B. Cone. Miss Emily Rudolph an essay on "The Origin of Thanksgiving."

Services were also held on last night at the Baptist church.

Space forbids a more extended account of the proceedings.

We hope that all of our correspondents will, in the future, try to get their manuscript into this office by Monday noon of each week.

"NUMBER 7"

Is a brand of Whiskey which sells everywhere for \$3.00 per gallon. We have received the agency for Savannah by making a contract with the distillers to take 200 barrels of it during 1901.

Now this is a large amount of whiskey to sell in one year of one kind, but we are going to do it and it is the way we propose to do it. We are going to sell it at \$2.50 per gallon and prepay express to your nearest express office. When ordering not less than one gallon at a time, we will also prepay express on all our \$3.00 per gallon goods and over. You will hardly make a mistake if you order of the goods bottled below, especially of our corn whiskeys on which we have a reputation to sustain.
