The carpenters are busy, and the brick masons are busy, in fact everybody is busy. This is a busy county.

Mr. H. J. McMillan now has charge of the business of Mr. L. F. Davis as general manager. Mr. McMillan thoroughly knows the business and will be glad to see his friends. Mr. McMillan is well known to the people of this section, he has held the position of cashier for the Williams Outland Co., during this year. He also had charge of the business for his sister Mrs. A. Moore a few years ago. He is a hustler and we predict for him a fair measure of success.

LAST SPIKE DRIVEN.

Perkins' Railroad now Completed to Register.

Through Trains from Glennville to Statesboro.

Last Saturday the last spike was driven on the railroad being built by the Perkins Lumber Co., from Hagin to Register. The road has been in operation for some time from Hagin to Glennville, a distance of twenty two miles, and the distance from Hagin to Register is about 18 miles, thus making a railroad about 40 miles long. It runs through a fine section of country in Tattall, and also in Bulloch by way of Adabelle. It is understood that a passenger train will be put on about the first day of January, and the passenger trains may come through to Statesboro. At any rate connection will be made at Register with the Central of Georgia. The road will be a great convenience to the country through which it runs, and will tend to develop the farm lands of those sections. The Perkins are progressive men and expect after while to extend their road from Glennville to Darien, connecting in Liberty county with the Darien short line road.

Mr. J. A. Smith has bought out Mr. W. T. Smith's Livery Stables and will continue the business at the same old place.

The jail is looming up and the second story is about completed.

Hon. A. M. Deal has returned home from Atlanta. The legislature has adjourned, and Mr. Deal is at home to stay, unless his fellow citizens return him again. Mr. Deal stood third in an able and valued member of the House.

Mr. W. R. Wilson has bought out Mr. F. E. Fields at Enal and will conduct the business alone. Mr. N. M. Johnson is visiting in town.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. L. B. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Diarrhea, Loss of appetite, Try it. Only 50¢. Guaranteed. For sale by L. J. Was a White Man.

There has been no definite clue to the identity of the man who entered several houses on North Main street last week except it is now believed that it was a white man with his face smutted rather than a negro as it was noted that where he placed his hands there were signs of smut left.

GEORGIA-BULLDOGS COUNTY. Mrs. Mary Gray,

THE NEWS. BILL ARP'S LETTER

Published at Statesboro, Ga.,
EVERY FRIDAY
By The Statesboro News Publishing Co.
The late Lorenzo Snow left 22 heirs.
The profession of law ought to be
looking up to Utah.

Polatoes form the world's greatest
single crop. 4,000,000,000 bushels being
produced annually, equal in bulk to
the entire wheat and corn crop.

Nature's law of compensation works
all right. The wholesale grower of
young doctors in the spring is fol-
lowed by that of competent trained
surgeons in the fall.

If the grace of American ship-
building shall reach any new claim
to possess in the world, her new
record breaking battleship, the most
and best of the armament of the
sea.

Returning and life-saving have been
incorporated by the government in the
course of instruction to be taught in
the public schools of New Zealand,
and 2000 handbooks have been dis-
tributed among the schoolmasters for
the purpose.

California had the smallest exhibit
at the Buffalo exposition. It was a flag
and could only be seen with a
microscope. The insect is an impor-
tant factor in the culture, and the
United States government expended
\$16,000 in establishing it on the Pa-
cific coast.

It seems that the hunting of orchids
in the tropics is to be classed as a
dangerous profession. Rare species
are so much in demand that parts of
South America and Africa are every
year searched for the beautiful flow-
ers, but nearly all the orchid hunters
soon succumb to the tropical fevers.

Glass is now being manufactured
by electricity. The materials used are
found on a beach fed by an Archimedes
device, and the glass is produced by
a direct or alternating current of 50
volts. The low voltage required makes
the fusion exceedingly economical,
particularly where the electricity is
produced through the agency of water
power.

According to The Electrical World
and Engineer San Francisco lists all
cities of the United States in the
number of telephones to population.
With a population of only 242,782 it
has 21,224—a total only surpassed by
New York City, Chicago and Boston.
It has a telephone for every 16 inhabi-
tants, whereas Philadelphia has only
one for every 96.

While fears are entertained that the
automobile will supersede the horse
in America, the trolley line has al-
ready knocked out the burro in Egypt.
Tourists can now take a car in the
main street of Cairo direct to the
pyramids, and in a short time a line
will be built to run from the ocean
front at Pirra to the Pyramids at
Athens. For the trolley line and
their equipments Egypt is indebted to
American enterprise.

Even in Canada, that land of grand
dimension and scattered population,
the tendency of movement is cityward.
The towns grow in the number of in-
habitants; the rural districts fall off.
This drift is accelerated by the use
of machinery on the farms. The land
is planted and the harvest gathered by
few laborers; the small farms are
gradually giving way to larger farms
in the older settled provinces. There
is land in abundance, but not the old
land hunger. These conditions are
very like the conditions in all the older
states of the Union.

Cleveland is leading the way in the
abatement of the smoke nuisance.
Much has been done there within a
year, and much more is promised, due
to the force of example and the per-
suation of the officers. Draconic laws
are not enforced against the owners of
offending chimneys, but better ones
are taught the economy of modern
better-burning furnaces and modern
consumers, while their pride in a clean
city is aroused. One evidence of
progress is the introduction within
the year of over 120 smokeless fur-
naces. The best results are obtained
from the use of hard coal and coke.
While endeavoring to correct the
methods of the furnace owners, the
city has been a slaver itself, but it is
about to set a good example by using
smokeless coal at the city hall, the
city stations and the workhouse.

If you have something to sell, let
the people know it. An advertisement
in this paper will do the work.

Have You Seen Dryfus' New Store?

Barlow Man is Proud of Senator
Morgan, of Alabama.

DESIGNATES HIM "OLD MAN ELOQUENT"

While He is About It, He Refers to
Great Men that Georgia Has Pro-
duced—Other Matters
Touched Upon.

As I looked upon the likeness of
General Morgan that graced the New
York headlines in The Constitution I
could not help saying to myself,
"There is a great man. I pray that he
may live to see the canal completed
and to the honored guest of the boat
that makes the first trip across from
ocean to ocean." It is his life that
great work and has preserved him to
health and vigor until at last the
ill has passed and all obstacles are
removed. I know him as a man, for he
was a Georgian and I was a Georgian.
I am proud of him and his life. He is
a man of his word, for he is a
southern man and all his long pub-
lic life has been unblemished and true
to his people. His good health and well-
preserved faculties encourage me to
live on and on just as long I can live.
He is just two years older than I am
and is still vigorous and useful. He is
an old man, eloquent and his Natchez
speech never said an unkind word of
foolish thing. He is as solid as a rock,
unshaken and unprepared on all
great questions. In 1861 he volunteered
as a private and soon rose to major
and then to lieutenant colonel; next
he raised and equipped a regiment and
became its colonel. In 1865 he was
nominated for brigadier general by
Robert K. Lee, but declined it. Later
on he was constrained to accept the
honors and was with General Johnston
to the close. In 1876 he was elected to
the United States senate and re-elected
in 1882, 1888, 1894 and again in 1900,
making five successive terms. He
well deserves a monument after he
dies and a place in the Hall of Fame.
It is a comfort to us all to be assured
that no man ranks with him in the
United States senate, for he is a treas-
ure-house of knowledge, and there is
not a cloud over his career, his truth
or his integrity. When he speaks he
has something to say and knows how
to say it and when to stop. Tom Ben-
ton said of Nathaniel Macon: "He
rarely spoke but a few sentences, but
uttered more good sense in getting up
out of his chair and sitting down again
than was contained in the long and
elaborate speeches of most senators."
General Morgan's long career reminds
me of Macon, for he, too, was a private
in the revolutionary war. He held pub-
lic office for fifty-seven years and
John Randolph said of him: "He is
the wisest, the purest and the best
man I ever knew." Twice he declined a
place in the cabinets of two presi-
dents, but after he had retired and was
72 years old he accepted the office of
justice of the peace in his home dis-
trict. He never recommended any of
his kindred for appointment to office.
He refused pay for his service as a
soldier and refused to receive a pen-
sion afterwards—and voted against all
pensions or rewards or gratuities. He
died as calmly as Socrates, but without
the poison, and his grave is on a high,
barren ridge marked with no marble,
only a pile of stones, which was ac-
cording to his will. Nathaniel Macon
was my father's friend of a great and
good man. He placed him above all
other statesmen for he declared that
he was as wise as Solomon and purer
than David. When I was in Warren
county some years ago I was told that
Macon's double log house. For some
years it had mud and stick chimneys
above the fireplace and was covered
with boards of his own make. In
course of time he tore away the chim-
ney and rebuilt them of stone and
brick, and tore away the old chimneys
and covered with shingles. Later on as he
got able he weather-boarded the outside
by beginning at the top of the wall and
letting the plank lap up instead of
down, so that his wife could pour hot
water in the cracks and kill the bed-
bugs. I reckon that Tom Benton, who
wrote his biography, got his anti-pen-
sion principle from Macon, for Ben-
ton in a great speech in the senate op-
posed a pension to General Harrison's
widow and called it "a new departure
that would lead to the bottomless gulf
of pensions and gratuities." Well, it is
a bottomless gulf both to the state
and the nation.

In this connection I reminded on
who were our greatest men in Geor-
gia—who most deserved a niche in the
pantheon of fame. By common consent
Oglethorpe seems entitled to the first
place, but a dozen or more have ad-
vocates for the second place. I reckon,
however, that Crawford Long will set
it—not as a statesman or soldier or in-
ventor or philanthropist, but rather as
a thoughtful discoverer like Jenner,
who discovered the healing art of vac-
cination. The question is a very per-
plexing one, for some are great in one
phase of character and some in an-
other. My wife thinks that Bishop

Pharos was the greatest man, because
he had the greatest calling and filled
it as no other man has done, and she
thinks that verse from Daniel which
says, "They who have called many
gods shall shine as the stars
forever and forever." My wife grew
up under his matchless preaching, and
he is a pretty good Methodist yet. This
reminds me of a delightful story I
heard in the proceedings of the last Geor-
gia Bar Association, held at Waynes-
ville in July. The subject was "The
Georgia Lawyer" viewed by a woman.
The woman is Mrs. J. R. Terrell,
Greenville. The paper generally
read at these annual meetings are dry
and go to sleep to everything save the law
yers, but this paper is charming, en-
tertaining and instructive from begin-
ning to end. The first sentence at-
tracted me, and I kept on to the last,
and my feeling at its close was—well,
that woman is a trump, she is a his-
torian, a philosopher and a first-rate
lawyer, even though she be a woman.
I read it about to my female family.
She closes with a poetic apostrophe to
the Georgia lawyer which many an un-
fortunate defendant will appreciate:
"The person points the way to heaven,
And then with tender care
The doctor transmits the work
And sends the patient there."

"But the Georgia lawyer would delay
Departure with such ease,
How can this man read his tide clear
To nations in the sheet?"

"In doubt he flies a brief and seeks
To hold the lightning
And stops his flight to heavenly bliss
By injunction of his nation."

And so, while looking around for the
greatest man, we might well pause and
hear what Mrs. Terrell says: "Forsyth
our champion for the establishment
of our supreme court, and earnestly ad-
vised it in his message in 1858. He
said: 'It is an awful reflection that
liberty and reputation are depend-
ent upon the decision of a single judge
uncontrolled and uncontrollable in his
decisions.' Then she continues, 'Forsyth's
matchless oratory and the purity
of his private and political life won
him a name that will be honored
for all time to come. While in the
United States senate he had no supe-
rior as an orator, and was called the
equal of Lord Erskine.' If I had a
paper of my own I would publish every
line of Mrs. Terrell's delightful paper.
And the next Sunday I would publish
the paper read by J. H. Merrill, of
Thomasville on 'The Bible in the Law-
yer's Library.' Why, this paper ought
to be read and studied, not only by the
lawyers, but by every preacher in the
land. It is fit for a textbook in the
colleges, and it is so interspersed with
gems of good wit and humor that one
does not get tired. And there is an ad-
mirable paper on the same line by H.
Warner Hill, called 'Historical Lan-
guage of the Law,' and he, too, has
diligently perused not only the Bible,
but the Apocrypha. His story as to
how Daniel made his reputation as a
lawyer will be new to most readers. I
wish I had space to make mention of
all the good things in this little vol-
ume. For, as there were giants in the
past, there are giants among us now.
Here we have learned sketches by
such men as J. C. Black, Reuben
Arnold, Roland Ellis, C. A. Turner, W.
L. Scruggs, L. Q. C. Lamar, Sylvanus
Morrill, Wimbish, Person, Claiborne,
Bryan, and last, but not least, a good
lot of side-bar talk by the venerable
Justice Dickson, who closed the exer-
cises by proposing to reduce the asso-
ciation with \$100,000, and was ready
to give his note for that amount. If I
live and can travel, I will attend the
next meeting, and hope that Mrs. Ter-
rell will be there and read another
paper—sometimes the least is the
better part of the feast—Bill Arp in
Atlanta Constitution.

SHORT OF AMBIGUITY.
Governor Chandler, of Georgia, Signs a
Local Dispensary Bill.
Governor Chandler Wednesday morn-
ing approved the Floyd county, Geor-
gia, dispensary bill.
This is a local measure, providing
for the establishment of dispensaries in
Floyd county. Hon. Seaborn
Wright is author of the bill, and the
measure is similar in spirit to the
bill vetoed providing for the estab-
lishment of dispensaries in every county
of the state.
Floyd county is the only county in
Georgia where the governor gives the
following reasons:
"Because this bill was agreed upon
as a compromise between the conflict-
ing claims in Floyd county, and sub-
mits the question of open barroom
dispensaries, and is not to go into ef-
fect until it has been ratified by a ma-
jority of the qualified voters of said
county, I approve it."

UNITED DAUGHTERS MEET.
Eighth Annual Convention Held In
Winnington, North Carolina.
The sixth annual convention of the
United Daughters of the Confederacy, was
called to order in the Y. M. C. A. audi-
torium, Wilmington, N. C., at 10 o'clock
Wednesday morning by Mrs. Edwin
Wood, of Jacksonville, Fla., the presi-
dent.

About 175 officers and delegates
were present, representing every
southern state and several of the
north.

THE STATESBORO NEWS.

Entered at the post office at Statesboro as 2nd class mail matter.

Statesboro, Ga., Friday, Dec. 20th, 1901.

The News will appear next week as usual, too busy to take a holiday in this office.

Santa Claus is coming in a few days.

All roads lead to Statesboro—even the railroads.

The weather has been somewhat crisp.

The people still give Schley the credit, the verdict to the contrary.

Gold has been dug out of the cotton patches this year.

No change was made in the first district territory. Emanuel stays.

Joe Terrell will soon go out among the boys, and it might be remarked that he knows them all.

Bias And Prejudice.

The verdict of the naval court of inquiry in the Schley case, is but another illustration of the fact that a man's bias and prejudice controls his judgment, and directs his mind.

We have often seen such things happen in this country. The celebrated Tilden case of 1876 proved clearly, that political bias, and an inborn prejudice were stronger than patriotism and plain justice. A man born and reared under the influence of the Puritans in New England can never do the square thing towards a man or question in which the south is interested.

Every sensible man, and every man who has a proper sense of right and justice, knows that Schley was the hero of Santiago but there sat two men on the bench so full of partisan hatred that they could not see the question as the country sees it. Even the highest court of the country divided on political and partisan lines. So, it seems that after all, we are creatures of prejudice and bias, and thus of the highest to the lowest is thus afflicted.

Go to Oliver's for your overcoat. He has them all prices, a good one for \$8.50.

CHRISTMAS.

Next Wednesday is Christmas day. It is universally observed throughout the christian world and millions of people celebrate it in divers ways.

The goodly folks will regard it and observe it as the day on which "Peace on earth and good will to men" should prevail. Others as the time for a good time, egg nog, rock and rye, &c. Those who regard life seriously will be sober and prayerful, while those who regard life as a fleeting show, to man's illusions given, will be anything but serious and solemn. The little brown jug will be brought out of the closet, and there will be a merry old time. The children are all looking for Santa Claus who will soon arrive with his load of toys, bangles &c, and the nervous persons will feel like committing suicide. Providence has rewarded some of us with wealth, full barns and smoke house, and money in bank, and let such as these remember that the poor is with us always. The lonely widow, and the pale faced orphan, and the old worn out man will have a poor Christmas unless we open our hearts and purses and help those less fortunate than ourselves.

We trust old Santa Claus will remember the poor and weak to bring a happy Christmas to them, and make life happier and better for them. They live in your neighborhood and you will be a good old Santa Claus your self if you will open your pocket book and remember them.

The News wishes for all its readers a pleasant Christmas, a happy new year and long life.

So Emanuel Remembers, Eh!

(Wire Grass Blade)

The Waynesboro News, in comment on the proposed race for congress of Hon. Bill Davis, of Burke, says that he has recently been on a "log rollin" trip to Emanuel." and "finds that he can fill the job now held by Col. Lester." Well, "he mought and then again he moughtn't." The people of Emanuel will not so quickly forget the treatment Burke county gave one of this county's distinguished men who ran for congress a few days ago. We may yet have a chance to get even.

COMMUNICATED.

The University began the first year of the new century with the largest attendance in her history. There has been an unusual interest manifested in Literary work and in Athletics. A very encouraging season of Foot Ball closed on Thanksgiving day with a big game in Atlanta with Auburn. The two Literary Societies, Demosthenes and Philomatheas, are now in a flourishing condition. In fact the entire college is in better shape than ever before. The Centennial commencement which occurred last June seemed to infuse a new life in every department here and we are now looking forward to great achievement in the future that we have ever known in the past.

Two new buildings which will cost about \$35,000.00 are nearing completion. One is a splendid new Dormitory on the west of the Athletic field. It will cost \$20,000.00 and has been named Chandler Dormitory in honor of our excellent governor. The other building is a new Dormitory Hall across the Athletic field near the old students Hall. It is named Denmark Hall in memory of Hon. Brantly A. Denmark of Savannah who, during his life proved himself such a loyal supporter of the University that he now the admiration of every true Georgian.

The main thing now about the University which we want to bring before the people is that a short winter course has been established in Agriculture, Horticulture and Dairying. It will consist of two terms, each six weeks long. The course begins January 8th, and ends March 29th. This course is intended for farmers and farmers sons or anyone expecting to engage in the noble work of farming.

No examination or matriculation is required to enter for this course. Anyone taking the course can attend any other lectures in any department free of charge. It is of special interest to see how cheaply one can get new Students Hall can be had for \$8.00 per month while rooms can be gotten in either of the Dormitories without any cost except cost of furnishing. These arrangements have been made to accommodate those who desire to learn more about scientific farming. The University authorities recognize the importance training scientific farmers and intend to do every thing possible to awake the farmers of Georgia to this fact. Chancellor Hill will be glad to correspond with anyone wanting to take the short winter course. If you are a farmer or expect to farm, get ready and come up in January and take the course. It is open to any white citizen over sixteen years of age. Isn't this an offer to the farmer? Some people have the idea that the moral atmosphere is not good at the University. I want to say emphatically that this is wrong.

The students here are as moral as you can find anywhere. Of course it would be too much to say that we are perfect. We students are only people and every one knows that perfection is not given to mortal man. But while you can find some little carousing here you will also find a lot of good. There is a flourishing branch of the college Y. M. C. A. in the University which is led by the Professors and by members of the student body. Nearly every student attends church and Sunday school regularly. Now it is a fact that good predominates here. So no one need hesitate about coming to college on the score of immorality. The time spent here taking the short course offered in Agriculture will not corrupt the morals of any man or boy. On the contrary it will help to make him a better farmer and a better and wiser man.

Hoping to see old Bulloch well represented here in January and that the course will result in much good to our farmers I must say good bye for this time. A. C. Strickland.

Peculiar Accident.

Clifford Mulder, a young man living near Portal happened to a most peculiar accident this week. His horse had got out of the lot, and he was chasing him in a field near the house, and while running at full speed ran against the clothes wire, and it struck him centerly in the mouth, knocked out two teeth and loosened several others, and turned him a complete somersault and landed him on the hard ground, knocking the breath out of him. He is badly used up but will recover from his wounds, less the loss of his teeth.

DARSEY-BURNS.

On last Wednesday morning at Macedonia Baptist Church Miss Annie Warren Darsey and Mr. James Monroe Burns, were united in the holy bonds of matrimony. The bride who was gowned in a handsome suit of castor cloth goods, carrying in her hand a bouquet of bride roses and maiden hair ferns and her maid-of-honor Miss Ada Miller, who was becomingly dressed in a grey cloth suit, carrying a bouquet of white carnations and ferns, marched down the aisle to the strains of Mendelssohn's wedding march, proceeded by Mr. James Miller who acted as usher. Down the left aisle came the groom and his best man Mr. J. M. Moore, who were preceded by Mr. John Burns. At the altar they entered the gates and were met at the altar by the bride's father who in a simple but impressive manner uttered the words that united them for life. The church was very prettily decorated with ferns, bamboo, and potted plants.

The bride is the only child of Mr. and Mrs. W. O. Darsey endowed with rare beauty, and amiability. She has won for herself many warm friends, wherever she is known. The groom is a popular merchant and farmer of Scarborough, Ga. whose friends are many, and staunch. The presents were numerous, and handsome as is generally the case when popular young folks start out on the voyage of life. Among the most expensive of these tokens of love, and esteem was a handsome piano from the groom to his bride, and an equally handsome silver tea service from Mr. M. Moore. The happy couple left immediately after the ceremony by way of the Central where they will always be at home to their friends.

We wish them all the happiness they so richly deserve.

From Jerome

Merry Christmas is approaching and I know it is not many days off, for the old rooster even crows it and the pretty robin red breast I see flitting gaily among the red Christmas berries, and another thing I see, the Postmaster at this place is busier than usual registering letters which is generally addressed to J. C. Slater or some other liquor house. That of course means a Christmas jug. I think the latter is my best sign how much happier you can be boys, if you would only not order that little brown jug which most boys seem to think they could not do without on Christmas, that's all bosh; boys you can do without it, let's leave off that brown jug this Christmas, and all meet at our churches and thank God for the many blessings he has so lavishly bestowed upon us and for permitting us to live to behold Christmas once more. Christmas the birthday of Jesus Christ our Savior. How ought we to spend that glorious day boys! ought we to get drunk and cut up like other drunken men! I say no that is a mistaken idea. Why can't we act civilized one Christmas; take our guns and go shooting and be merry and happy. Boys let's let that little brown jug stay in town, that little bloody row raiser let's not order him or injure him in our house and I'll assure you he will not come.

Mr. B. R. Sharpe is off on a trip to Mascotte Fla. where he will perhaps spend Christmas.

Mr. J. H. Hughes accompanied by his daughter Miss Mamie left Saturday last for Bamberg S. C. where they will spend Christmas.

Mr. L. B. Hagin has about finished his handsome dwelling and Mr. B. M. Smith put on the finishing touches by building a handsome brick chimney at each end. Mr. Smith is a hustler and knows what to do with brick.

We are having some very cold weather down here in the neck ice was near on an inch thick Monday and Tuesday.

Mr. V. A. Freeman and wife of Goloid were the guest of Mr. and Mrs. J. M. Newton last week.

Go to Oliver's for your suits he is making big reductions on suits.

Solid brick and mortar is adorning the town in different sections. The Statesboro Institute in the southern part of the city, and the Baptist church and new jail in the northern part of town are all adding to the stability and permanency of this growing city.

Golias.

Departed this life, Nov. 12th, 1901, little Damascus Collins, aged eight years. He was the son of Mr. and Mrs. Lawton Collins of Montgomery county. He was visiting his grandparents, Mr. and Mrs. Wm. Daniels of Lou, Ga., and while childishly assisting his grandfather in hauling wood was suddenly thrown from the wagon and instantly killed.

Death is sad at best but more so when its visitations are so unexpectedly to buds just flexing to bloom into manhood. We extend much sympathy to the grief-stricken parents, grand-parents and many sorrowing friends. May they ever live in obedience to our Savior's command: "Be ye also ready for in such an hour as ye think not, the Son of Man cometh."

Sleep on Damascus, sweetly sleep! Thy grave will fondle memories keep.

While thy little spirit has gained a home,

Where we wait to meet thee at Jesus' throne.

Made a Water Naul.

Messrs. J. G. & J. M. Mitchell A. J. Hagins and J. H. Roberts composed a party of the most detected looking hunters that we have seen lately. They came in Wednesday night after a three days trip down the Ogeechee they seemed to have struck it wrong. The freeze set in pretty soon after they left and kept up during the entire trip. The boys claim to have bagged plenty of game for their own purpose on their trip but a News reporter failed to catch the sight of anything that looked like a duck or a fish as they came in. It goes without saying though that the conditions were not propitious for hunting and fishing or their party would have gotten their share. They are among our most successful hunters.

DEWEY ALONE IS FOR SCHLEY!

Ramsay and Benham Find Santiago Hero Guilty on Eleven Counts.

Sensational and Unlooked For Findings of the Schley Court of Inquiry. Two Reports Made and Majority Document Shows Influence of Deep-Seated Prejudice.

A Washington special says: The most prolonged, interesting and important naval tribunal ever held in this country came to a close after having in open and secret session lasted three months, short of one week) when Secretary Long at 5 p. m. Friday received the findings of the court of inquiry which inquired into the conduct of Rear Admiral Schley during the Santiago campaign.

The result was a complete surprise, and it is probable that no prophesy has approached the truth. Instead of one report there are two. Both are signed by George Dewey, the president of the court, and by Sam C. Leamy, the judge advocate. This is a form said to be recognized in all courts of inquiry, the signatures of the other members not being necessary. But it is explained that Admiral Dewey signed the second report, a minority report, to express his qualification of or dissent from the views expressed by the court comprising beside himself Admiral Benham and Ramsay, in the first report.

It is said at the navy department that there will be no further proceedings in the case on the department's initiative. Secretary Long and Judge Advocate Leamy probably will apply simply to the whole record. BOERS AS MURDERERS

Kitchener Makes Serious Charges Against Heroic Defenders of South African Republics.

Lord Kitchener's promised statement regarding thirty separate instances in which natives have been shot by Boers, and which involve the loss of eighty-four lives, was issued by the war office in London Wednesday night.

In some of the cases mentioned the blacks were shot after an informal court-martial or upon being accused of spying, but in numerous instances Lord Kitchener indicates the natives were shot in cold blood in order to hide traces of the movements of Boer commandos.

The period covered by Lord Kitchener's statement is over a year. A correspondent of The London Standard, telegraphing from Brussels, says that he bears that confidential persons are prominent leaders of Great Britain and Holland, which are not likely to result in an arrangement for bringing their women and children to Holland.

Lord Kitchener, in a dispatch from Standerton, Transvaal, dated Tuesday, December 10, announces that General Buller, after a night's march, surprised and captured practically the whole of the Boer command at Trenchardfontein, where he and 121 were made prisoners.

Here, the Pretoria correspondent of The Daily Telegraph cables, "Lord Kitchener has personally taken the field and is directing the movements of the troops."

How To Cure Croup.
Mr. R. Gray, who lives near Amelia, Dutchess county, N. Y., says: "Chamberlain's Cough Remedy is the best medicine I have ever used. It is a fine children's remedy for croup and never fails to cure." When given as soon as the child becomes hoarse, or even after the croupy cough has developed, it will prevent the attack. Pneumonia Prevented.
Among the tens of thousands who have used Chamberlain's Cough Remedy for colds and la grippe during the past few years, to our knowledge, not a single case has resulted in pneumonia. Thomas Whitfield & Co., 240 Wabash Avenue, Chicago, one of the most prominent retail druggists in that city, in speaking of this, says: "We recommend Chamberlain's Cough Remedy for la grippe in many cases, as it not only la grippe to result in pneumonia." Adam's troubles may have been due to the fact that he had no mother-in-law to hand him advice.

"About five years ago I was troubled with catarrh of the lower bowel," says C. T. Chisholm, 484 Dearborn Ave., Chicago, and although I consulted several eminent physicians who prescribed for me, I found their remedies failed to in any way relieve me, and the trouble almost become chronic. After suffering several months, I one day concluded to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and I beg to assure you that I was most agreeably surprised to find after taking two doses of the remedy that I was completely relieved of the disease that had cost me so much trouble and annoyance. I am thankful to say that I have not suffered from it since." For sale by L. J. McLean & Co. Druggist.

Work counts—time is money, and the young fellow who fritters away his youth, and blows in his money, may be a pauper when he is old.

Fire at Smith's Ginnery, Isla, Ga.

A fire occurred at Isla, Bulloch county, about 5 miles north of Pembroke, last Tuesday night. It seems the ginnery at that place, operated by Messrs. Bridger J. Hughes and C. Ed Smith, was engaged in ginning cotton belonging to Mr. Elias Hughes and a match or some other article caught, and set fire to the lint cotton damaging the gin building and burning about two bales of cotton. But for prompt action on the part of the nearby citizens the entire plant would have been a loss, including a quantity of seed cotton.—Bryan Enterprise.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest, give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Pain Balm also cures rheumatism. An application gives relief. For sale by L. J. McLean.

Come Close To Death.

Dan and Joe Mercer, two brothers, narrowly escaped death by asphyxiation yesterday morning. Four hours after they had blown out the gas in their room at the Grand Central Hotel, they were accidentally discovered, and through long continued work their lives were saved.

The two men live just above Statesboro, in Bulloch county and had been visiting a brother in Florida. They reached the city upon their way home night before last, and secured a room at the Grand Central, retiring about 10 o'clock. In a burst of ignorance they blew out the gas.

About two o'clock in the morning two or three railroad men came into the hotel and were assigned to the room next to that occupied by the Mercers. Through the crevices in the door came the odor of escaping gas, and they could hear loud breathing.

The door was broken in, when there issued from it such a volume of escaping gas as drove those about the doorway back into the hall. When the atmosphere was sufficiently cleared to permit the entrance of the party, the Mercers were lying on the bed in a comatose condition. At the time it seemed it would be impossible to save either of them.

Dr. George M. Norton was hastily summoned and as hastily responded. For four hours he worked upon the unconscious men, and, as it seemed, by a very miracle, they were at last brought back to life. They were well enough in the morning to take the Central train for Statesboro.—Savannah News.

Mr. Robert B. Lee, of Thelass, Fla., was a caller at the New office on yesterday, and enrolled his name on our subscription book. Mr. Lee moved away from Bulloch county 20 years ago and through all these long years has not lost interest in the old county; while a great many changes have been made, yet he was able to recognize the old hills. Mr. Lee, while he has not, until this time, been a subscriber to the News, yet he has seen it in the hands of several of his neighbors, and it was through these columns that he was reminded that old Bulloch is still the garden spot of the world.
