“Flip the Prison”

Is this the right presentation for you?

Growingchange.org is transforming closed prisons into sustainable farms reclaiming lost buildings while reclaiming lost opportunities for youth who have been adjudicated as well as returning veterans. Using a systems approach with a cognitive behavioral focus we fielded a clinical pilot program that has demonstrated 92% effectiveness in preventing recidivism with complicated youth. Our impacts reach much further than recidivism. We will discuss how each of us who work with youth enduring significant challenges must ‘Flip the Prison’ as we challenge the power structures that continue to drive our county’s rates of incarceration.
