Well, the editor was allowed to remain in school in spite of the fact that against his better judgment he let Bobb Harris and Dodie Lambright put out the April Fool issue of the George-Anne or George-And How. So we resume publication as per schedule. However, everybody seemed to enjoy the paper immensely. The boys are to be congratulated for their good work, more so because of the fact that they had only three days in which to do it.

Rumor hath it that some of the boys are planning to stage a bare-foot strike on Wednesday nights. It seems that they want more Wednesday night dances like those held last quarter.

The Student Council should be commended for its announcement that we shall have a T book next year. Members of the present junior class will recall the hand book which was given to them when they entered this college as freshmen. The book was of great service to them in acquainting them with the rules and regulations and in helping them to become adjusted to college life. Here's hoping that the T book will prove a success and will become an annual publication of the student body.

Election talk is being heard all around. At present it is only a murmur, but before long it will become louder and louder. From all indications, the race for president of the Student Council will create more interest this year than at any time in recent years.

Poor old seniors! They came along just one year too late to get exempt from final exams.

Congratulations to the newly formed Pan-Hellenic Council. It is good news to know that the girls are co-operating and creating good will among themselves. This campus is too small for any such rivalry as seems to exist among different groups in the larger schools. Here's hoping that the council proves to be a great success.

Although it's rather late to mention it—we should like to say that the Georgia Progress Day conference held here last month appeared to be a great success. In spite of the fact that the attendance was small, all present manifested genuine interest in the problems discussed and made sincere efforts to solve them.

Looks like the school is going commercial, what with the Little Store opening up every night. But really, it's a fine thing and will do much toward increasing studying by keeping the students on the campus at night.

## DIGGINGS

Anne Breen calls B. H. "Sweet Pea." Do you suppose she thinks of herself as "Olive Oyl?" You remember, she wasn't in the Bachelor's chorus.

Jean must not have liked the atmosphere of our campus life. She's gone home, but she can see Bill more, of course.

You heard about Mincey and Johnnie falling in the ditch, didn't you? And just as they got out who should come along but "Papa" Mincey. Johnnie did just what you would have done.

Ask Verna Lassetter what her two major physical defects are. (Excluding Jim and her mouth.)

Ask Lil Baldwin what lines she has pasted on Dabber's picture. As well as we can remember, one line was, "Little man, what now?" We wonder.

Did you know that Kenneth England wrote part of that dissertation on "The Perfect Kiss?" We believe that he's been holding out on us.

"It's the little things that tell," said Virginia Sands as she dragged her little sister from under the sofa—while Tom was there.

We'll bet you didn't know that Robbie was bashful, did you? He had to make Big Jim ask Virginia if she—well if you can't guess the rest you ought not to know.

Frenchie may call Buster "Baby" sometime, but that isn't what we heard her call him the other day.

Someone told us that Carol, Cope, and Carpenter (I've got something here), had a mix-up the other day. Not having any black eyes, we thought it wall all hooley. But, maybe, we're getting more cultured now.

That Dukes boy is beginning to get in our hair. Every girl he goes with seems to have a punny name. But no more for us. Somebody mentioned the fact to us that a pun is the lowest form of humor. But don't you just Lovett? Ouch!

High-pockets says he is ready to relinquish his place as official glad-hander to Fate DeLoach.

Wonder if little Mincey had anything to do with that Holt boy from Millen losing his tennis match against the boy from Sylvania the other day. It must be sorta hard to concentrate on tennis with her sitting on the sidelines making goo-goo eyes at you.

Who was it said Vernice Bacon is the cutest girl in school? We won't tell, but Dave better watch out. He may have competition and not know it.

It's kinda late to mention Spring Holidays, but it is reported that Perry Herrington was the life of the party when the "Y" members went to Athens. Hugh and Ruth refuse to talk about the trip, at least, about the interesting part.

## ODDITIES of NATURE

By BOBB HARRIS

### The Dexterous Doodle Bug

When anyone tells you that you haven't the brains of a Doodle Bug, you needn't feel badly. This little "stoogeey-looking" insect, comparatively speaking, is eligible for the Brain Trust. He possesses the patience of Job and the wisdom of Solomon, a combination that no human can boast of. And, for the sake of timeliness, it may be added that he exhibits the perseverance or rather thick-headedness of a sit-down striker.

But in spite of the cocksureness of this little "trapper," he never rushes into a thing bull-headedly nor blindly head foremost, he cautiously backs in. He travels with movements similar to those of the Measuring Worm and leaves a small, protruding furrow in his path. He moves around about an eighth-inch under ground. To throw probable pursuers off his track, he travels in a zig-zag motion until he finds dry loamy soil and a suitable location to set his trap. He then burrows down and makes a funnel-shaped pocket. The sides are well pulverized and smoothed by quick and frequent flippings by the Doodle. He pitches sand up on the sides of the trap by arching his back and suddenly straightening out. A sifting effect is produced which makes the sand on the sides easy to dislodge.

Mr. Doodle waits motionless at the bottom of the pit for hours at the time. When a scampering insect falls into the pit he is seized by quick and relentless jaws before he has time to throw up his dukes. If the victim proves to be a little big for D. B., he is greeted by a barrage of sand which befuddles him so he forgets all he ever knew about self-defense. The captive is held by sharp-toothed "tongs" and all the juice is sucked from his body. The carcass is then pitched from the pit and the silent waiting sets in again.

This "bug" depends upon no one to bring him food nor does he have to go out and catch. He only sits and waits. If business gets dull he doesn't complain about not getting his share or wanting a new deal. He casually moves to a new territory, preferably one with plenty of ants, and sits and waits.

"So a person who hasn't the brains of a Doodle still has lots of room for conceit."

P. S. It has been said by some that the pitched-out bodies of the Doodle Bug's prey are used in their own Anatomical Laboratories. Seems a little far-fetched to us.

### No Beating Around the Bush

"Do you believe in the hereafter?" asked the Tulanian.

"Sure," answered the girl.

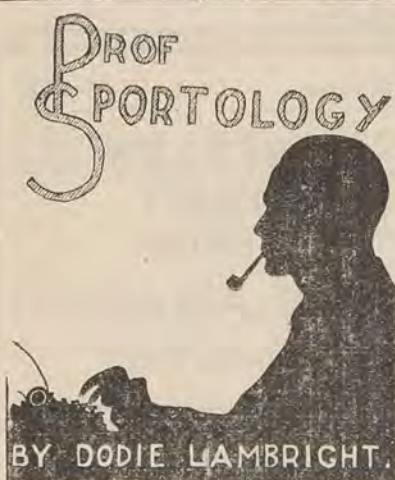

"Well, give me a kiss," he said, "cause that's what I'm here after."

A thing of beauty is a joy forever,  
But the joy is rapidly gone,  
When I see you, my beautiful thing,  
Without your make-up on.

Little Boy Blue,  
Stop drinking corn;  
Or you'll get ulcers  
Sure as you're born.

# SPORTS

We all had a pretty good time the other day out behind the old boy's dormitory when the Statesboro High School track team came out to have a practice meet with Coach "Breezy's" cinder scorers, who were pretty well pushed to win the meet from the high schoolies. All the contenders looked pretty slow to a fellow like me who has been accustomed to watching fellows like Max Hare, stream-lined screen sensation, in action down at the picture show. The main difficulty we had was that most of the Profs were handicapped by excess waistline or were too fat on the back of their lap, and fatigued so easily that people would get tired waiting at the finish line for them to come huffing and puffing in.

Take "Teddy-Bear" Harris, for example. He started out in the 100-yard dash like Dominy after a biscuit, and stayed out in front for about 50 yards, and then his conscience started hurting him or something, and he finished up way back in second or third from last place. Just to show the people, however, that he was still the old Vidalia vandal that Mixon used to talk about, Jim went over and chunked the shot-put over 42 feet for first place, and then saved his face in the eyes of his public.

One race in which I was especially interested was the relay, on account of old "Goat" Oliver, who isn't satisfied to try to keep up his race with Father Time, and hence got mixed up in the T. C. relay team. The old gentleman showed plenty of spunk, nevertheless, and trotted along as fast as his old bent bones would carry him, even if he didn't come in until after dark. In the 440-yard dash my old racing blood was worked up, so I bet Bobb Harris my week's pay check from the George-Anne against a gill of June-bug juice, placing my money on Robert Brown to win. Well, low and behold, when Brown got around to where I was standing, he was so far behind that I pointed down the track and told him, "They went down that way!" I couldn't wait to see if he came in or not because I had to leave in time to see the finals in the discus throw, which was the next event.

## PROF TRACKMEN TRAINING HARD

Matches Scheduled With Mercer, Brewton-Parker, and S. G. S. C.

The Prof trackmen have gotten down to serious work under the tutelage of "Breezy" Wrinkle, track coach. Tentative matches have been scheduled with Brewton-Parker Institute, South Georgia State, and Mercer.

Coach Wrinkle has enough of last year's men back to form the nucleus of a winning team this spring. McKneely, Cartee, Hamil and Oliver are looking best among the old men, and plenty of help should come from Harris, Winn, and Bagley.

The Profs picked out a few point victory in a practice meet with the Statesboro High School team last Tuesday, but should improve as the season goes on. The team has been handicapped somewhat in practices due to the lack of equipment and adequate practicing space. Thus far, the Profs seem strongest in the quarter mile, high jump, pole vault and broad jump. Some fifteen men are working out with the team daily.

## Methods Students Leave Sunday for Greenville, S. C.

Seventeen students of Educational Methods will leave here tomorrow to spend Monday in Greenville, S. C., where they will observe the activities carried on in the Parker District School there. The trip, sponsored by Miss Helen Dunlap, professor of methods, will be made in the college bus.

The following students, according to George Carter, will make the trip: Roger Carter, Dodie Lambright, Wayne McKneely, Hemans Oliver, Derrell Sirmons, Cecil Stanley, John Varnedoe, Sara Barow, Barbara Gray, Mary Mobley, James Ratcliff, Earl Riggs, Mary Thrift, Louise McKinley, James Townsend, Forrest Townsend, and George Carter.

Dr. J. E. Carruth, Mr. M. C. Garr, and Miss Dunlap will also make the trip.

### AT THE MOVIES

If you enjoy a good laugh, you certainly should go to the Georgia Theatre this afternoon to see Spanky McFarland and his "Our Gang" pals in "General Spanky." This is a picture of the Old South during the war and is really an entertaining story. Also, there will be a good Western.

Monday and Tuesday, Grace Moore and Cary Grant will be presented in "When You're In Love," a swell musical.

Marlene Dietrich and Charles Boyer will be shown in the "Garden of Allah," Wednesday and Thursday. This should be a grand show.

Lee Tracy in "Criminal Lawyer" will be shown Friday. Be sure and see this one.

## Dramatic Club Begins Work on Spring Play

Rehearsals have begun on the spring presentation of the Dramatic Club, the title of which is "The Importance of Being Earnest," by Oscar Wilde. A tentative cast selected after try-outs includes Julia Reese, Jewell Vandiver, Doris Wallace, Mary Small, John Bowen, James Dixon, Leroy Roughton, James Lynn and Willard Clanton.

At the last meeting of the club the following officers were elected: Doris Wallace, president; James, Lynn, vice-president; Jewell Vandiver, secretary; Madeline Calhoun, treasurer; Fay Foy, advertising manager.

## Leonard Kent Will Address S. S. Class

Mr. Leonard Kent will give a talk on "The Laws of Character" at the Methodist Sunday school class tomorrow morning, according to Perry Herrington, vice-president of the college class.

The program for the service will also include a prelude by Fay Foy. Scripture by David Proctor, violin solo by Cora Page, and a reading by Johnnie Maud Kelley.

James Dozier is president of the class. The other officers are James Ratcliff, secretary and treasurer, and Grace Cromley, chorister.

### PROFESSORS, from page 1

Domina, and Florence Daley and Julia Reese, Delta Lambda Delta.

The purpose of the council is to attempt to regulate the various social functions of the sororities and create

## I. R. C. TO MEET WITH DR. DESTLER

United States and Neutrality Is Topic for Discussion Sunday.

The International Relations Club will meet at the home of Dr. C. M. Destler in Statesboro tomorrow afternoon at 2:30 o'clock. The meeting will be an informal discussion of neutrality and the part that the United States can play in preserving world peace.

At the last meeting of the club it was voted to have two meetings each month in order to stimulate more interest in the work that the club is doing. One will be a business meeting and the other will be in the form of an open forum to which all students are invited.

The topic for discussion tomorrow was arranged by Juanita Thomas and Harvin Hulkey. Members are urged to read upon the subject in the books on the International Relations' shelf in the library.

The club discussed President Roosevelt's naval policy at its regular meeting Thursday night, April 1, and after much debate pro and con finally decided that the policy should be condemned.

better understanding and co-operation among the girls. Further organization and the election of officers will be held next week.

This is the first time that a Pan-Hellenic Council has been tried on the campus and the members have expressed the hope that it will prove to be a success and continue to function.
