Friday night. Rockwell, the 1970 Rat Queen, Student Activities office. The new Student Center. The girls are eligible. They will provide the music. Dress will be held from 9 until 1. Senior boys will be providing the food. See the announcement for the details.

President Reveals Goals

In my capacity as SGA editor, I will attempt to keep students abreast of SGA activities. This includes everything from Dennis Pruitt through the activities of any special committees. With the election year approaching, I will attempt to feature interviews with government officials and political leaders as well as some of the candidates for various offices.

Dennis Pruitt has outlined specific goals for his administration. His primary goal is to ensure that the entire SGA is sensitive to all expectations, requests, and demands of the student body. In this capacity, it is Dennis’ hope that the SGA will become a sounding board as well as a listening and referral service. In this way, any student who is unable to direct his or her concerns to the proper person or source.

Secondly, he feels that the SGA should strive to promote unity and cooperation between the faculty, administrators and students. It is only through the mutual efforts of these groups that Armstrong can maintain maximum allocation of its resources.

Third is the development, growth, and progress of this institution and its student body.

Fourth, it is most important that he SGA maintain the independence, authority and the resources which have made it the primary student organization on campus with increased emphasis on its coordination function.

Last is the mobilization and recruitment of the industrious, the creative, the critical and the practical segments of this campus. This will probably present the greatest challenge.

What do YOU, the reader, think of this? What are your goals for Armstrong? Your comments and suggestions are welcome and invited!

Due to the massive realignment of the structure of SGA, new procedures of applications for the Student Senate positions have been initiated. Any freshmen desiring to run may pick up an "Intent to Run" form from the Student Activities Office. The past procedure of initiating a petition is no longer required. The elections will be held in the new Student Center on October 12th and 14th. Night students will be able to cast their ballots on the evening of the 13th.

New Faculty Added To ASC Staff

Fourteen new faculty members have been added at Armstrong this year. The following are the names, credentials, and titles of the new faculty:

- Mrs. James E. R. Rose, B.M., Oberlin College; M.M., University of South Florida; Past: Assistant Professor of Music
- Mr. James O. Baker, Jr., A.B., Mercer University; Director of Institutional Research
- Mr. Joseph D. Blaack, B.S., Armstrong State College; Teacher of Mathematics (Academic Skills Laboratory)
- Mr. Glenn F. Bierczek, B.S., M.A., University of Connecticut; Assistant Professor of Economics
- Mr. Robyn C. Rui, B.A., Armstrong State College; Instructor in Mental Health
- Miss Teresa Ann Coursey, Certificate, B.S., West Liberty State College; Instructor in Dental Hygiene
- Mr. R. Wayne Griffin, B.S., M.S., Brigham Young University; Assistant Professor of Sociology
- Mr. Karl D. Harris, B.A., Carson - Newman College; M.A., University of Tennessee; Assistant Professor of English and Reading (Academic Skills Laboratory)
- Dr. William L. Rightower, B.A., Kalamazoo College; M.R. Ph.D., Michigan State University; Assistant Professor of Mathematics
- Dr. Anne L. Haden, B.A., Hollins College; M.S., Ph.D., Tulane University; Associate Professor of Mathematics
- Mr. Robert E. Jensen, B.A., Atlantic Christian College; M.B.A., East Carolina University; Assistant Professor of Business Administration
- Dr. William L. Megathlin, B.A., Presbyterian College; M.Ed., Ed.D., University of Georgia; Assistant Professor of Criminal Justice
- Mr. Eldel J. Miller, B.S., North Carolina A&T State University; M.S., Hampton Institute; Catalog Librarian and Assistant Professor of Library Science

**Congressman Analyzes New Economic Policies**

WASHINGTON (WNS) — "The President will get essentially what he asks. While the temptation on the part of many members is to cut back on some benefits and increase personal exemptions, acting on this impulse will be counterproductive in stimulating the economy."

This is the analysis of Rep. Clarence J. Brown (R-Ohio), member on the Joint Economic Committee in Congress. Discussing the economic policies of the Administration following President Nixon's address to the Congress, Rep. Brown said that the economy's poor showing cannot be blamed on the lack of money among consumers.

"Consumers are saving at the highest rate in years, over seven percent, when the usual rate is below 5%," he said. "There is a reservoir of unused purchasing power; people are saving for a rainy day and putting off replacing that old car."

As for the President's three bills before Congress — the excise tax cut, the investment credit, the income tax deduction — Brown predicted that the House vote will come early in October. He said the vote comes dependently on the decision of the House Ways and Means Committee — and Wilbur Mills.

**What is Wrong?**

A Parable

"Everyman, now redeem thyself."

"Well, your Honor Saint Peter," said Everyman, "I've led a good, clean life. I never hurt anybody and I've always been polite and here are references from several of the leading professional men in my community."

"And?"

"Well, Your Worship, that's all, I guess. Except I've always tried to do my best in every way."

"Everyman," said Saint Peter, yawning a cosmic yawn, "you must be putting me on. You call that your best? Why, Old Nick would be ashamed if that was all it took. Away with you!"

"Oh, I don't belong here," moaned Everyman, and found he was before Hell's Gate.

"Everyman, now damn thyself."

"Well, your Honor Judge McCorkle," said Everyman, "I guess I've led a pretty rotten life. I never helped anybody and I've always been busy and here are references from several of the leading professional men in my community."

"And?"

"Well, Your Honor Judge McCorkle, that's all, I guess. Except I've always tried to do my best in every way."

"Everyman," said Judge McCorkle, "you must be putting me on. You call that your best? Why, I've known Old Nick and here are references from several of the leading professional men in your community."

"And?"

"Oh, I don't belong here," moaned Everyman, and found he was before Hell's Gate.

**Can You Drink Salt Water?**

By BILL RICHARDSON

On Tuesday, September 5, 1971, the County Commission rejected the proposed ordinance in our journey as well in Chatham County. The measure proposed by Judge Robert Merle of the aquifer and simple. It required the meeting of all flowing wells over five inches in diameter within Chatham County. The bill sought not to impose limitations on the amount of water consumed by industries on the county. It only required disclosures of the amount of water pumped from the aquifer. Despite this, the measure raised objections from industrial representatives and commission members. Under哪位代表的Environmental Protection Division, Tex Kelly, stated that the information gathered would be incomplete and inadequate. Spence Connerstedt, Jr., representative of American Cyanamid, Continental Can, and Great Dane Trailers, contended that such an ordinance should be of state concern. Commissioner Wayne Cunning ham, who acted as spokesman for the commissioners opposing the measure, took the position that the simple disclosure was too highly complex and involved to be resolved by a simple bill which he criticized as being inconclusive, worthless, and drafted by an illiterate, Judge Robert McCorkle. One got the impression that, in Mr. Robert McCorkle and Mr. Frank O. Downing are to be commended in their sincere attempt to protect our aquifer. All of the other commissioners, with the exception of Pete Clifton who was absent, voted against the measure. The County Commission, at some point, is going to have to stand up and directly vote on the issue. The County Commission, at some point, is going to have to stand up and directly vote on the issue. The County Commission, at some point, is going to have to stand up and directly vote on the issue. The County Commission, at some point, is going to have to stand up and directly vote on the issue. **Our county! American Cyanamid, Great Dane Trailer, and Continental Can have no meters on their wells. The truth is that the industrial users of the equifer do not want the public to know just how much water they are using! It is not inconceivable that these large corporations picture our water resources much as a coal mining company looks on a coal mining region. Once all the coal is exhausted from the ground, the operation moves to a new locality with richer mineral deposits. The same analogy may be applied to our resource of artesian water in Chatham County. Within the next 30 to 40 years not only salt water intrusion occur, but the major- ity of our industries' machinery will be obsolete, thus making relocation a necessary, thereby leaving Savannah to cope with the problem. Mr. Robert McCorkle and Mr. Frank O. Downing are to be commended in the sincere attempt to protect our aquifer. All of the other commissioners, with the exception of Pete Clifton who was absent, voted against the measure. National Teacher’s Exams.

‘71-’72 Test Dates Are Announced

College seniors preparing to teach school may take the National Teacher Examinations on any of the four different test dates announced by Educational Testing Service, a nonprofit, educational organization which prepares and administers this testing program. New dates for the testing of prospective teachers are: November 13, 1971, January 29, 1972, April 8, 1972, and July 15, 1972.

Results of the National Teacher Examinations are used by many large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the examinations. The school systems and state departments of education which use the examination results vary. In one instance, the 1967-68 Examination can serve as the core examination common to the Nebraska Department of Education.

The Graduate Record Examinations include an Aptitude Test of General Scholastic Ability and Advanced Tests measuring achievement in 19 major fields of study. Full details and registration forms for the GRE are contained in the 1971-72 GRE Information Bulletin, The Bulletin also contains forms and instructions for requesting transcript releases and copies of GRE scores.

Danforth Fellowships
To Be Awarded in March

Inquiries about the Danforth Fellowships, to be awarded in March 1972, are invited, according to Dr. Roger Warlick, the local campus representative. The Fellowships, offered by the Danforth Foundation of St. Louis, Missouri, are open to men and women who are seniors or recent graduates of accredited colleges in the U.S. who have serious interest in college teaching, and who plan to study for a Ph.D. in a field common to the undergraduate college. Applicants may be single or married, must be under thirty years of age at the time of application, and may not have begun any graduate of professional study beyond the baccalaureate at the time of application.

Approximately 100 Fellowships will be awarded in March 1972. Candidates must be nominated by Liaison Officers of their undergraduate institutions by November 1, 1971. The Foundation does not accept direct applications from the Fellows.

Danforth Fellows are eligible for four years of financial assistance, with a maximum annual living stipend of $4,700 for single Fellows and $5,000 for married Fellows, plus tuition and fees. Dependability allowances are available. Financial aid is in the form of a Danforth Fellowship only.

Masquers Open New Season

The AIC Masquers will open their 1971-72 theater season with John Lewis's “The House of Atreus.” The play is a modern adaptation of Aeschylus’ “Oresteia” and covers three parts: “Agamemnon”, “The Libation Bearers”, and “The Eumenides”.

John Suchower, director of the Masquers, began auditions Wednesday night, September 29. Further auditions can be held by contacting Mr. Suchower in Gable Hall on Friday, September 30. The auditions are open to all students and faculty.

There are approximately 60 different characters in the play. They range from leading roles to members of four distinct choruses. In addition to cast, the production needs: a crew consisting of carpenters, painters, weedrobe, make-up, publicity, and box-office. According to Mr. Suchower, “the play is an extraordinary opportunity for the experienced and inexperienced.” When asked what he particularly enjoys about any of the particular parts he replied that “our theatre is educational theatre as opposed to community or professional theatre. To do the play, let alone see the play, is a rare opportunity.”

Social Security Aids Students

Want to meet a typical social security beneficiary? Before you visit your local senior citizens club, you might try checking on the Armstrong State college campus. Social security pays almost $50 million in monthly benefits to more than a half million full-time students between the ages of 17 and 24. They are the children of retired, deceased, or disabled workers who were insured under social security. The benefits paid them amount to more than the scholarships at all colleges and universities in the country.

These students can get the benefits if they are single and attend an accredited university, college, high school, or a vocational school or licensed by the state.

If you think that you might qualify for these benefits, you should contact the social security office at 101 East Liberty Street, Savannah. You can also contact the office by calling 232-4321, Ext. 333.

BAPTIST STUDENT UNION
MEETING
October 1
12:30
Student Center

Miss Benson, Student Counselor
Alexander Forges Pirates Onward

By KENNY WILLIAMS

Armstrong State College is definitely on the move. However, this is not the only school that is rising to the top. Many schools throughout the state are beginning to take notice of the competition that Armstrong is beginning to present.

For the second time in three years, Coach Kinder is taking his team to the National Collegiate Athletic Association's small college championship. The first time was in 1977 when Armstrong won the championship. And now, they are back again.

Caroline McNeill, a pitcher on the team, is one of the reasons why the team is so successful. She has been a part of the team for three years and has not lost a single game during that time. McNeill is a strong leader on and off the field, which has helped her team to stay motivated.

In addition to Caroline McNeill, the team also has a strong outfield. Tom Bleyth, a former standout at Formby, is one of the players who is a part of the team's winning record. He has been a valuable asset to the team during the season.

Tom Kinder, the baseball coach of Armstrong, is proud of his team and their accomplishments. He says, "The most important thing is that the team is doing well and that they are all enjoying themselves.

Fall Baseball Season To Begin October 4

With a host of returning players and the acquisition of a few new players, Armstrong baseball coach Tom Kinder is looking forward to a good fall practice and a successful spring campaign.

Coach Kinder pointed out that Armstrong did not lose any players to graduation and all of the returning players are returning with last year's experience.

With the addition of McNeill, who stole 24 bases in her junior year and placed second in the state, Armstrong's team has a strong record.

Baseball coach Tom Kinder is a strong supporter of Armstrong's baseball team. He believes that the team has the potential to be the finest athletic teams in the state. Kinder is excited about the upcoming season and is looking forward to seeing the team compete.

The Fall Baseball Season will begin on October 4 and the team will be looking to build on the success of last year's team.

Cross Country Team Trains For Season

The Fall Cross Country season is in full swing with the team training hard to prepare for the upcoming season. The team is working on improving their speed and endurance to compete at the highest level.

Beautiful Magnolia Springs State Park has been the site of a week long training camp for Armstrong State College's rapidly growing cross country program. Dr. Cedric Stratton, ASC's highly touted track coach, reported that he was well satisfied with the team's progress in training camp.

The big news of the week came on the first day with freshman Billy Carroll breaking the 8,300 mile course record over the treacherous 3.1 mile course - a course which contains more than its share of hills, slopes, and rough terrain. Two other ASC runners went on to set new personal records during the week.

The first intramural sport to be played at Armstrong this year will be flag football. The women's division will be played in November.

The intramural program is open to all Armstrong students. Any interested student can enter the program by simply contacting Coach Bedwell who will place each player on a team if not already affiliated with a team. Coach Bedwell stressed that a person need not be a member of any organization to participate in the program.

The Circle K independents won the men's division flag football playoffs last year with the "Old Pros" winning the league. The women's co-champions were Sigma Kappa Sorority and Baptist Student Union.

Now we come to our final game of the season. March 1972 Armstrong could be playing in the finals of the small college championships in Indiana, and then have the talent, the coach, and the desire that we have now.
