CONTRACTS FOR BUILDINGS LET

**Laboratory School and Library
Are Latest Lettings; Library
To Be Built By Local Firm.**

Contracts have been awarded by the State Board of Regents for the construction of two new buildings, a Laboratory School and a Library, to be erected on the campus in the near future, according to President Marvin S. Pittman.

The Laboratory School contract was awarded to the firm of Joe M. Buetell, of Thomasville. The cost will be \$79,700. The building will be located on the ridge southwest of West Hall, just back of the present practice field. The building will be completely outfitted to suit the needs of over 400 children. Drawings were made by Edwards and Sayard, of Atlanta.

The contract for the Library was taken by the Walter Aldred Co., of Statesboro. The building will cost \$31,466. It will be located at the site of the present Science Hall which is being moved to a point just north of the present Laboratory School. The drawings were made by Tucker and Howell, of Atlanta.

Dr. Pittman stated that several departments had applied for the use of the old Science Hall, but no definite decision had been made yet as to what it would be used for.

Work has already started on the

COLLEGE HEAD ASKED TO ATTEND

**Dr. M. S. Pittman To Be Among
Distinguished Group At
Vanderbilt Ceremonies.**

Dr. M. S. Pittman, president of South Georgia Teachers College, is one of 400 representatives of American and foreign colleges and universities invited to attend the formal inauguration of Dr. Oliver C. Carmichael as chancellor of Vanderbilt University in Nashville, Tenn., February 5th.

Delegates to the inauguration will take part in a symposium on higher education in the south, in which sessions will be devoted to liberal arts, medicine, engineering, law, theology, nursing and graduate education. The symposium will cover two days preceding the inauguration date.

During sixty-five years of its existence Vanderbilt University has had only two chancellors. The inauguration of Dr. Carmichael as the third will stand as a mile-stone in higher

Fifty Students Make Dean's List In Fall Quarter

The Dean's List for the fall quarter contains the names of fifty students who attained a grade point ratio of 4.5 in their courses during the preceding three months.

Of this number, seven are freshmen, nine are sophomores, thirteen are juniors and twenty-one are seniors. To make the list, a student must have one A and two B's or one A and three B's provided the A is not in physical education.

The names of those making the list are as follows:

Freshmen—Joseph Parker, Mary Ellen Battle, Margaret Boddiford, Janeeta Caldwell, Dorothy Caldwell, Elizabeth Horn, Sara Morris.

Sophomores—Milton Findley, Joseph Jordan, B. H. Ramsey, Edison Wilcox, Ann Breen, Miriam Girardeau, Angie Mulkey, Mary Nell Roberts, Doris Wallace, Mary F. Webb.

Juniors—Wyatt Bonner, Oliver Fussell, Lonnie Holloway, Copeland Ozier, David Proctor, Lonnie Lamar Wiggins, Jamie Aldred, Lucy Bunce, Mildred Frazier, Byrd Ivester, Cecilene Swinson, Juanita Thomas, Miriam Townsend.

Seniors—Willard Cartee, Albert Green, Grayson Hill, Harvin Mulkey, Paul Robertson, Earl Rountree, Glynn Sowell, Vernice Bacon, Myrtle Carpenter, Ruth Clark, Johnnie Cox, Margaret Denson, Ouida Glisson, Laura Hargreaves, Lucy McKinnon, Ardelia Mobley, Isabelle Sorrier, Cherry Waldrep, Mrs. Johnnie Welch, Jeanette Willets, Nell Winn.

GROUND-BREAKING CEREMONIES TO BE HELD ON CAMPUS THIS MORNING

Glee Clubs To Have Combined Rehearsals

The men's and women's Glee Clubs, having formerly practiced two nights a week separately, have combined one rehearsal and now practice together on Thursday nights.

The reason for this change, according to Mr. Neil, director, is to enable the group to practice "The Seven Last Words." This song is based on the last seven words of Jesus.

The men's Glee Club is still planning to go on a tour during the spring quarter and several interesting selection are being worked up.

Winter Enrollment Is Larger Than Last Year

Statistics recently released by Miss Viola Perry, registrar, show that this winter's enrollment is somewhat larger than that of last winter. The registration for this quarter is approximately 488, according to Miss Perry.

Thirty-three who did not come in the fall are here now. Twenty of these have never attended college before. Thirteen of the new students are freshmen, six are sophomores, nine are juniors, and five are seniors.

Emory Deputation

The Emory Deputation team was a presentation of the Student Council in its chapel program here last week. The chairman of the team was presented by Hemans Oliver, president of the Y. M. C. A. The sermon was roundly applauded by the student body.

REGENT KENNEDY WILL BE PRESENT

**Work On Laboratory School and
Library Will Soon
Begin.**

Ground-breaking ceremonies for the work to begin on the two new buildings, the Laboratory School and the Library, will be held this morning at 10:15.

Regent John Kennedy, of Savannah, will turn the first spade for the Library. S. W. Lewis is to represent the people of Statesboro. Miss Eleanor Ray, librarian, will represent the faculty. Willard Cartee, president of the student council, will represent the student body. Richard Charlton, of the Savannah Morning News, will represent the people at large.

At the Laboratory School Regent Kennedy will again turn the first spade. W. L. Downs, director of the Training School, will represent the faculty. Pilcher Kemp, president of the Student Council of the Training School, will represent that body. W. C. Cromley, chairman of Bulloch County School Board, will be representative. W. G. Sutlive, of the Savannah Evening Press, will represent the people at large.

Dr. S. V. Sanford, chancellor of the University System of Georgia, has been invited and will be present if possible.

JOYNER NAMED FROSH OFFICER

**Defeats Gardner In Run-Over
Election for Student Council
Representative.**

Joe Joyner, of Screven, was elected Student Council representative for the Freshman Class in a special election held last Friday. The election became necessary when the former representative, J. E. Cail, of Statesboro, did not return.

The final results were obtained after a run-over between J. A. Gardner, of Pulaski, and the winner, Charles Jeremias, of Washington, was counted out in the first ballot.

A misunderstanding of the election rules was evident by the run-over. In the first ballot, Joyner received 68 votes, Gardner 46, and Jeremias 20. This gave Joyner a majority over the combined vote of his opponents and over half of the votes cast, yet the run-over was called.

THE NEW ATHLETIC FIELD

Last fall we were notified that an athletic field was a certainty for next year. This statement was very gratifying to those of us who have athletic ambitions for the college.

It is unnecessary to point out the need for a new field. That such a need exists is obvious to everyone who has considered the subject. We understood that the proposed new field has been tiled, drained, sodded, and leveled. However, it seems that in the leveling process several low areas were overlooked. More than this, the grass that has been set out is in dire need of fertilizer. We have been informed by those that are trained in agriculture that in order to develop a good carpeted playing field by next fall, work should begin now. Seemingly, all that is necessary is that the low areas be filled and sodded and the whole field fertilized. This would involve very little expense on the part of the college. It is only fair to the players that the field be in good playing order when they begin practice next fall. We hope that this small, but important item, will not be overlooked until it is too late.

A SUGGESTION

A few months ago thirty Rosenwald scholarships were given to outstanding teachers of junior and senior rank in Georgia. To be sure that the winners of the scholarships would be of the highest type in professional skill, intelligence tests and competitive examinations were given. These superior students were placed in regular college classes, causing considerable resentment by the regular college students.

It is but natural for these students of advanced experience to capture the higher marks by our grading system. This fact is the cause of a somewhat strained relation between the Rosenwald and the regular college students. This feeling should not be and for a remedy we suggest this: Let the Rosenwald students be graded separately from the other students. Probably it would not be possible to grade them on a curve system, but certainly the professor should be able to tell the amount of work being done and the grade deserved.

If this suggestion is carried out it will give the average student a much better chance, cause a greater feeling of friendship on the campus, and it will be fair to all parties concerned.

Diggings

Have you see all the new radios displayed around and about since Christmas. We understand some of them make pretty good stands for pictures.

Cone, maybe you'd better change your broad hints to mild suggestions. We understand that when you asked that little boy you've been thinking is so cute, "What in the world you'd do all these long nights without Len," he merely suggested writing long letters.

New Romances of 1938:

Sara Morris-Billy Goode.

Catherine Gainey-Bill McLeod.

Mary Powell-Ted Booker.

What we need are more "true" girls like Jinny Sands.

We wonder just what is behind the Gray-Ozier bust-up.

The latest addition to our campus is the Admiral Byrd harem—after all, it may not be an addition but a subtraction. Who can tell? Among the notables are Fay Foy, Frances Cone, Froggie Breen, Alice Hill.

Judging by the vacant chairs in East Hall parlors Sunday nights, the girls seem to be losing their power. Where were Simon and Sibyl, Rigsby and Tommie?

If the little store had many friends like "Red" Maddox, Dr. Pittman would get rich. She averages soaking four boys each morning.

Congratulations to Jack Dees, who has resisted the come-hither looks of a certain 'Gee-chee gal. It seems she met him in an English novel class and amid the aroma of romance and Dr. Stroup she decided he was meant for her. What a pity the feeling couldn't have been mutual.

Storm clouds have vanished from the horizon of the Deal-Strickland romance. They're back together again.

That scoundrel, the abuser of defenseless red-heads, Harold Rigsby, has been doing some heavy reading lately. The name of the book is "Preparation For Marriage." That's the spirit, Harold, let's do the ol' thing right.

Herschel Hamil was sick the other night. The bottom does kinda fall out after a quarrel with the one and only, doesn't it now, Herschel.

It is rumored that Woodrow Nixon has a habit of standing before the mirror and saying: "Boo, you pretty thing." Wonder what the object is?

How 'bout it Dave? "Two-bits" and a Friday night wasted (?) on little brother.

How is Doug Strickland amusing himself these days since Bobbie didn't come back?

Is Roach losing his power or what? We can't seem to get the facts about Maxine going home. Maybe when he gets back from Patterson this week end, he'll be able to set us straight.

Sue and Hugh—
Julia and who?

WHO'S YUH SCHOOLMASTER

BOBB HARRIS

Maybe the teaching field did look a bit Pioneerish for a man of my standing (only five feet two in my shoes and both pairs of socks). But who was I to fear? Hadn't I just finished a six-year course for teachers? And, too, didn't I have my ten-volume set of Teachers' Helper? Wasn't I ranked among the thirty best in a class of thirty-five? I was a full-fledged Instructor, sent out upon the frontier of Education to hurl back the tide of Ignorance and enlighten the darkening world! I felt the call! The beckoning! The urge to serve! But, alas! the part of the field I got in must have been the New Ground!

The first day was a bit rough. All my Darlings brought me a nice big red apple cider. Mike McGlarity didn't take to my horned spectacles and Websterish speech. As well as I can remember, he spoke profanely of me . . . very!

"Young man," I said to him, "I'll be practically forced to administer to you a sound thrashing."

I got a close decision the first round. The second one was decidedly his! After careful reconsideration and also after beefsteaking my eye all night, I came to the convenient conclusion that he was a Problem Child and must be dealt with Psychologically and Scientifically as well as objectively. I must somehow provide stimulation to thereby promote motivation and thus prevent Mental Hibernation in this child of twenty-one. As time went on, the more he slept in class. The more he slept the more he snored. I should have questioned him, but he looked so peaceful.

The other children, barring the deaf moron, and the tongue-tied idiot, were model children . . . almost sport model! Some of them acted almost human. As soon as I persuaded them to leave the blackjacks and switch-blades at home we had fairly good order. Especially during exams, when they all slept.

To carry out the true idea of curriculum revision and modern system, I chose to promote regular supervised play periods.

"Grasp the bat thusly," I said, "and swing thus," says I, "being careful to follow through gracefully, just so," I explained.

Right in the middle of the explanation a red-haired, hundred-eighty-pound son-o-the-soil stepped up, grabbed me by the neck and told me . . . not asked me: "What'n'ell do you know about playing ball, you pale-faced, stiff-backed, moth-eaten, back-dated walking Dictionary."

I realize at once that I must be approaching from the wrong angle. My entire set of Guide books failed to reveal a solution. Finally, I tho't of the old saying, "When in Rome, etc." I must revise it and apply it to my case. So the modern version became, "When in the teachin' field do as you d-m please."

A life situation must be provided. I purchased a blackjack, a razor, a riding mule, and developed a tough expression under a long beard. I in-

SPORT SLANTS

Well, this column has seen all of our basketball games from a player's viewpoint and it looks like we boys have our offs and ons, as well as our ups and downs.

In the Armstrong game, at times the players showed a little life and spirit, but there were too many lags and miscues even for an opening game. In the Douglas game here last Saturday it seemed that nothing went right. It maybe that most of us had stage fright playing before the home crowd for the first time this year, but I am going to place most of the blame, as is my usual custom, Woodrow, on the officials. Forty-four fouls were called, probably half that that many were made. I think the officials were afraid the game would get away from them (become too fast and rough) and so called everything that even looked close. Then, too, they have called a lot of high school ball, but should know that the play is going to be faster and the players are trying harder in college and they cannot be as strict on personal contact as they are.

This column is indeed sorry to see the team lose one of its most valuable players, J. C. Golden. J. C. had a recurrence of his knee injury, which will remove him from actual competition for perhaps a month. Tough luck, J. C., and we really need you.

The best officials we've seen in many a moon worked the Y. M. H. A. game last Wednesday night in Augusta. I didn't see them miss but one play, an out-of-bounds one at that, all night. Hats off to this referee and umpire.

Now, as to the next game, please, please, everyone do your studying Wednesday afternoon so that you can come down to the Gym Wednesday night to see the Blue Tide tackle the J. E. A. of Savannah.

This bunch is knocking everything it meets off, and we are

HOME GAME 55-44

Defeats Douglas Team Here By Margin of Ten Points.

The Blue Tide defeated the S. G. S. C. quintet in the Tide's first home game 55 to 44 Saturday, January 8.

The Teachers were decidedly off form and couldn't hit the basket with any consistency, but stayed ahead throughout the game.

Glynn "Tiger" Sowell was the leading scorer with 16 points, being followed by Harold "Crip Shot" Rigsby with 9.

TEACHERS DEFEAT
ARMSTRONG 34-28

Win Opening Game From Savannah Team On Their Court.

In a hectic struggle that started slowly, but gained momentum continuously, the Blue Tide won its opening game from Armstrong in Savannah Friday, January 7.

It was one of those see-saw affairs which left the spectators breathless. Thirty-five fouls were called and Coach Smith was told he would be ejected upon one more word to the referee.

Being the Teachers' first game, there was much loose play and it was the Geechees' inability to ring the gratis throws that beat them.

SMASHING VICTORY

Crush Augusta Team By A 45-Point Margin To Win 70-35.

The Teachers came into their own Wednesday night when they defeated a fast, hard-scrapping Y. M. H. A. team in Augusta.

The Teachers took the lead early in the game and led 33 to 24 at the half.

From then on it was just too bad for the "Y" boys, because the Tide was breaking fast and hitting shots from all over the court.

The passing plays of the Teachers were applauded by the "Y" rooters on several occasions.

Winter Social Activities Are Being Planned

L. T. C.'s PLANNING TO HAVE GIRL-BREAK DANCE

The L. T. C. sorority will inaugurate something new in socials this quarter when they have their winter dance Saturday evening, February 5. This affair will be held in the Gymnasium, and instead of inviting men students as stags, the girls on the campus will be invited, making it a girl-break dance.

The Gymnasium will be decorated in green and yellow, the sorority colors, and music will be furnished by a nickelodeon, according to present plans. Discussion is also being held concerning a tea dance to be given in the afternoon.

The sorority has a membership of fifteen, and several alumni members are expected to be present for the occasion, making it one of the outstanding social affairs of the winter season.

INTERESTING VISITORS AT TEACHERS COLLEGE

Among the interesting persons who have visited at the Teachers College during recent weeks, none have ever been more enjoyed than Mr. and Mrs. Edward Simons, who are spending a couple of weeks as guests of the institution while making a sort of survey of the activities connected with the Rosenwald work done by the college. Mr. Simons is a traveling representative of the Rosenwald Fund, having been assigned for several years to a large scope of the southern territory. He has been giving largely of his time to the work in Georgia, and he and his interesting wife, who accompanies him in his work, have expressed a decided preference for Georgia and her institutions. They will remain at the college for another week or longer.
