I am amused and edified myself with the luch on the list of names. I help the person who wants to make a statement. There has been no discussion on the subject and I have been bad. The word "luch" is used in the sentence and it is difficult to determine its meaning. I have a few statements on hand which are at a reduced price. Only a few of that kind. My eye examination is one of the most significant methods. All consultations are free.

I am now carrying the most complete line of goods in my line ever handled in any town of this size. My stock comprises every style, size, and quality you can expect. My goods have all been carefully selected by me at the markets, and on solid gold goods are so low until it is surprising. I have a few top Ladies’ Gold Watches on hand which are going at a reduced price. Only a few of that kind left. My eye examinations are of the most scientific method. All consultations free.
