- ★ PBS or Positive Behavior Support is a school wide framework that includes proactive strategies and positive interventions. When implemented, it promotes a safe learning environment and social success for all students.

PBS to MTSS Process

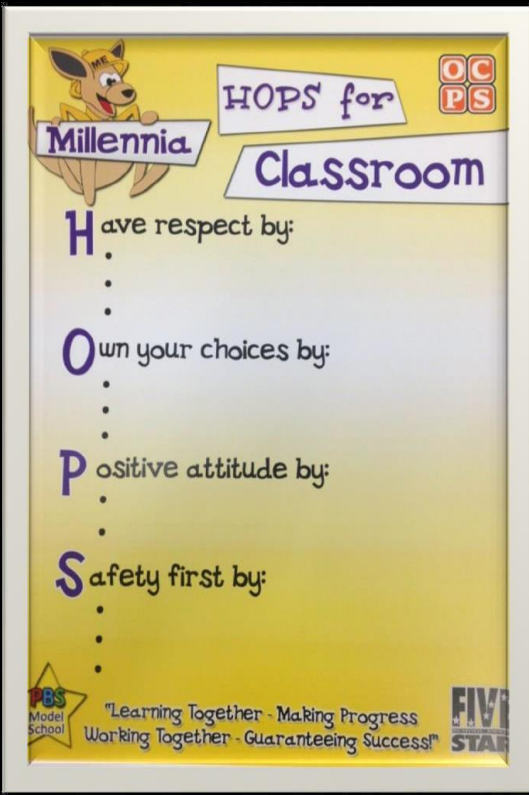

Roadmap to Merging PBS & MTSS

1. **Creating a Team**: Choose a representative from each group on your campus. This group becomes the board for the year in establishing:
 - i. A Motto
 - ii. Procedures for the students' movement on campus
 - iii. Collection of Data
 - iv. School Wide Expectations

2. **Team Meets**: Prior to the school year starting, the team meets to discuss:
 - i. Data Collection
 - ii. Pros and Cons of Implementation for the Year

- T: Take pride in my Chromebook by not banging, slamming, or hitting it.
- A: Always sit down while using my Chromebook and never touch someone else's Chromebook.
- L: Listen to teacher directions to prevent accidents while using my Chromebook.

Roadmap to Merging PBS & MTSS

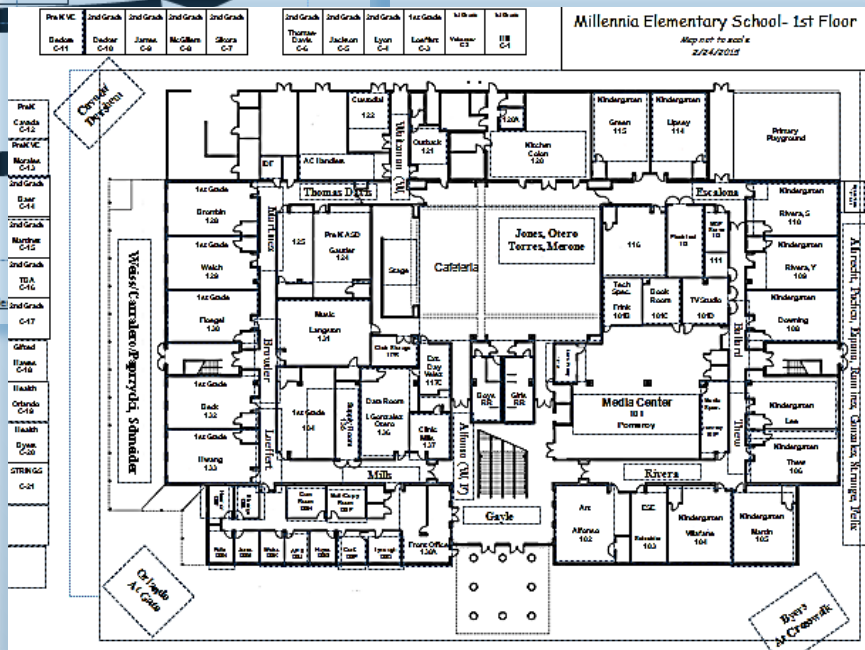

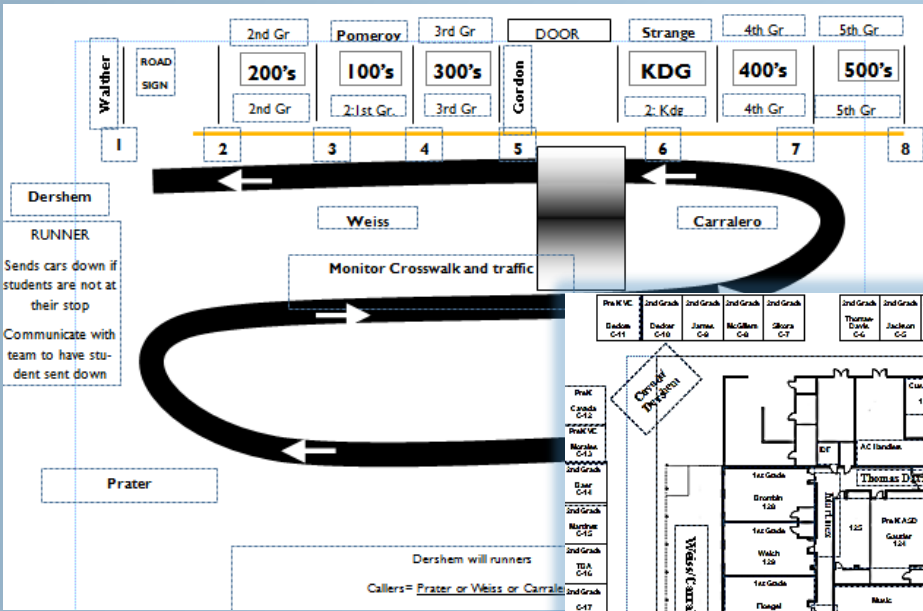

3. **Create/Update Handbook:** Based on the survey and pros and cons of implementation for the year, the team develops or makes necessary changes:
 - i. Flow Chart
 - ii. Interventions
 - iii. Referral Process
 - iv. Procedures/Expectations/Routines

3. **Training Staff:** During pre planning, the staff attends a PBS training to review:
 - i. Handbook
 - ii. Provide Training on Prevention Techniques for Behavior
 - iii. Movement of Students (ie. arrival, dismissal, transitions,...)

Movement of Students: Arrival/Dismissal

Arrival Procedures

- **ARRIVAL TIME**– Students will enter the building in the morning at 8:10, unless the student is enrolled in the morning Extended Day program (Fee Based Program).
- **CAR RIDERS**– Students arriving to school by car should proceed to their grade level holding area. If student is eating breakfast, student will report to cafeteria. Each grade level will provide 2 staff members to supervise their designated area.
- **BUS RIDERS, DAYCARE VANS, WALKERS & BIKE RIDERS**– Students arriving to school by bus, daycare vans, bicycle, or as walkers should proceed to the pavilion area where they will be greeted by Millennia staff. Students eating breakfast will report to cafeteria. Students not eating breakfast will report to holding area

ade will be near first grade hallway. Second grade grade students.

be opened until the first bus arrives.

Roadmap to Merging PBS & MTSS

5. **Implement Strategies:** School staff collaborate on effectively implementing Positive Behavior Support by:

- i. **Data Meetings-** data by class or grade level.
- ii. **Strategy Meetings-** leadership team provides training based on trends within the data on a specific strategy
- iii. **PLC Meetings-** grade level discuss students' concerns
- iv. **Item Analysis Meetings-** grade level discuss common assessments data and strategize the next step to reteach the skill
- v. **Monthly MTSS Meetings-** grade level and MTSS coach discuss how the students are working in their intervention block and make changes
- vi. **Biweekly/Monthly PBS Meetings-** Team reviews behavior data and what schoolwide interventions to implement
- vii. **One on One MTSS Meetings with Teachers-** to discuss teacher's class and how support can be provided
- viii. **MTSS Meetings-** requested by parent or teacher to discuss specific student and how the student is progressing.

I. Guided Math

Guiding Questions:

1. List some of the challenges that teachers face when using small groups in their classrooms.
2. What kinds of assessments do you use to help you group your students? Were these forms of assessment effective? Why or why not?
3. Classroom Visit-

ate Norms for Team and PLC Meetings

When discussing student progress we will:

at a designated time frame to focus only on the students.

- Bring in data to analyze and use data to drive instruction and interventions.
- Openly share data with other team members to align student needs but maintain confidentiality.

Student	Teacher/Grade	Accommodations/Strategies
Xavier L.	Villafane/KG Schneider: ESE Teacher Info: IEP for Developmentally Delayed and Language as a Related Service. Receiving Social Skills	BEHAVIORS: Student demonstrates self-stemming behaviors. Enjoys putting items in order, peeling off tape, and will fixate on a single item. Minimal communication skills. Wanders or will make noises when anxiety levels are high. WHAT TO DO: Take him for a quick walk or to a quiet room (5 min) to lower anxiety level. Return to class and sit with him until he is able to stay in designated area. He will be unable to complete any assignments but try to encourage him to at least try although he will be nonresponsive most of the time.
Mylan	Downing/KG Info: Gen. Ed. Student that is impulsive and struggles with self-control skills Currently using a pencil grip, disco seat, and velcro strips,	BEHAVIORS: Student struggles with remaining in his area and calling out. He sucks on his thumb and will have minor tantrums (crying and screaming. Rarely will get aggressive by throwing objects) when he does not get desired or preferred item.

MTSS

- ★ MTSS or Multi-Tiered System of Supports (RtI) is a school wide framework that uses data-based problem solving to integrate academic and behavioral instruction and intervention. The integrated instruction and intervention is delivered to students in varying intensities (multiple tiers) based on student need.

Data Collection: Now What?

SWAT

Student enters school and is given placement test based on grade level

K-5: I-Ready Reading and Math

K: DRA (If student scores in emerging level in fluency administer the PAST)

1-5: DRA (If student book graph indicates student falls at the intervention level one or more grades below administer Core Phonics Survey or PAST if necessary.)

K: Go Math (Beginning of the Year Assessment)

1: Go Math (Perquisite Skills Assessment)

If Below Grade Level

Student is placed in intervention group based on breakdown level. Will be placed in group by teacher with a SWAT member or MTSS coach

If Below Grade Level

Tier 2 level interventions begin during intervention block (8:50-9:30)

- Begin progress monitoring depending on intervention program being used (**phonemic awareness and phonics will use continuum progress monitoring tools from OCPs MTSS site.**)
- Teacher monitors progress 4-6 weeks or until a minimum of 3 consecutive data points are collected.
- Discuss progress with parents. (ex. Conference)
- Complete MTSS Meeting Request Form and MTSS List of Interventions and Support Form. If student is not making adequate/consistent progress schedule MTSS meeting. (MTSS meetings will be on Fridays See Felix or Carralero)
- The MTSS Transition Form should be completed in the Middle of the Year and updated at the end of the year for students in that are participating of an intervention.

Millennia Elementary's Process for Initial Placement:

MTSS Flow Chart

2014-2015

If at Grade Level

Classroom Teacher

- **Implement core curriculum :**
Journeys
Go Math
- Place in guided reading group
- Differentiated instruction based on level using:
I Ready
Accelerated Reader
Florida Reader
STARS
Imagine Learning
Science/Social Studies resources (Fusion)
- **Monitor progress; if student falls below grade level expectation then follow below grade level flow chart**

If NO Progress or Minimal Progress

Tier 3 level interventions begin.

- Progress monitoring should occur weekly
- Discuss Progress with Parent (ex. Conference)
- Team Decision Model Making Plan is implemented.
- Intervention should be intensified by:
Increasing time,
Amount of days
Decreasing group size
Changing program or teacher
- If progress made after 3 consecutive data points, student can be moved to next intervention skill. (Must schedule MTSS meeting for change to occur.)

If NO Progress or Minimal Progress

- Data collected can be used to determine if student meets criteria for Exceptional Student Education.
- Parent or Core Team can decide if an evaluation is needed. If so, consent is obtained and testing is completed prior to eligibility meeting.
- If student qualifies and needs services, student is staffed into program based on needs and ESE services are provided.

Once data is collected and initial universal diagnostic testing is completed, the MTSS Coach meets with each grade level to determine the need for Tier 2 interventions.

The On-Going Planning/Problem Solving Process of MTSS:

Across the tiers, the planning/problem solving model method is used to *match* instructional resources to educational need. The teams continue to engage in instructional planning and problem solving to ensure that student success is achieved and maintained.

STEP 1: Define the Problem

Problem is determined by the discrepancy between what is expected and where the student is performing.

Student enters school and is given placement test based on grade level:

K~5: DRA

(Phonics Survey or Phonological Awareness would be administered if the student scored one year below the grade level expectation)

K~5: I-Ready Math

K~5: Kanga Color Stick System

What Happens Once Tier II Interventions Begin?

- Teacher monitors student progress:
 - Making progress (please be aware of rate of progress)
 - Not making progress
 - Questionable/inconsistent progress
- MTSS Team will meet to review the data.
- The MTSS Meetings are held twice a week.**
- If student is making progress, then interventions continue and eventually are reduced.

Progress = Interventions **ARE** Working

What Happens After Tier III?

If sufficient progress is **NOT** made, the student will proceed toward ESE Services.

How Does This All Happen?

- This did not happen overnight. To culturally embed it takes a good 3-5 years
- Takes a long of monitoring and a lot of good conversation.
- It takes a strong leadership team speaking the same language.
