Does It Pay to Discover: Teaching for Information Literacy with the ExLibris Primo Discovery Tool

Jeffrey Mortimore, Bennett College, Greensboro, NC
Drew McNaughton, NC-Piedmont Automated Library System (NC-PALS), Greensboro, NC
Elizabeth Novicki, Salem Academy & College, Winston Salem, NC
The Evolution of Search/Discovery

- Search source by source
  - Time consuming and prone to omissions
- Federated search of library resources
  - Configuration takes time and talent
  - Too slow for digital natives
- Central index of available resources
  - Where we currently stand
  - Much better user experience
  - Still complex to configure
Interoperability

- Many Discovery tools require their metadata in eXtensible Markup Language.
  - Your Integrated Library System vendor is selling a Discovery tool designed to work with your ILS.

- Disparate systems create latency.
  - Webservices can provide some real-time information.

- Understand the language used by your different vendors.
  - Don’t assume!
Making Discovery work

- Discovery tools are good for finding electronic resources but what about books and other physical items?
- Physical items in the library are cataloged in MARC and eventually RDA.
- Discovery is only the first step in the process. Delivery is what makes discovery successful.

“Find It! @ Holgate Library”

On our homepage.

On our research guides.
A Tale of Two Curricula: Literature & Writing 102 & 103

- Compulsory two-semester reading/writing seminar for all incoming freshmen.
- Taught by English faculty; research unit at end of 2nd semester.
- Two library visits, one each semester…
A Tale of Two Curricula: Literature & Writing 102 & 103

- Curriculum organized around C. Kuhlthau’s Information Search Process and provides sequenced introduction to resource types (general and subject encyclopedias, periodicals, books, public domain websites, etc.).
- Diverse faculty expectations with regard to which tertiary resources should be used.
- Not all resources are included or easily filtered in Find It!
A Tale of Two Curricula: Psychology Curriculum Plan

Collaboratively developed curriculum plan for all majors:

**PS 100 & 101 (General Psychology)**
- Psychology subject encyclopedias
- Keywords, limiters, and facets in PsychINFO
- Evaluating abstracts / identifying relevant literature

**PS 274 & 275 (Psychology Research Methods)**
- Boolean operators and truncation
- PsychINFO controlled vocabulary / subject searches
- Citation analysis in EBSCOhost & Google Scholar
A Tale of Two Curricula: Psychology Curriculum Plan

Constraints on presenting Find It!

- Contents of subject encyclopedias are not included and/or cannot be easily faceted.
- Does not use APA’s abstracts or controlled vocabulary.
- Does not support citation analysis.
- Faculty concerns about relevance ranking and full-text delivery.
Mediating Granularity: Timing Find It! In Instruction

- Timing Find It! is informed by both short-term & long-term instructional goals for individual classes as well as programs/majors:
  - LW 102 & 103
  - Psychology
  - Journalism
Questions to Consider

- How do we teach with imperfect tools?
  - Aren’t all of our research tools imperfect?
  - How do we teach learners to select between imperfect tools?
  - How do we balance the faculty’s resource expectations with student’s search expectations?

- How do we select and deliver resources pursuant to long- and short-term information literacy goals?
  - How do we sequence the presentation of resources to develop concepts and understanding?
  - When is the discovery layer an asset and when might it mislead students about disciplinary expectations and/or competencies?
